[Planning and Subdivision Codes, Zoning Map - Housing Production]

Ordinance amending the Planning Code to encourage housing production by (1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations, and areas outside RH (Residential House) Districts within the Family Housing Opportunity Special Use District; (2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots in areas outside the Priority Equity Geographies Special Use District, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; (3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; (4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; (5) expanding the eligibility for the Housing Opportunities Mean Equity – San Francisco (HOME – SF) program and density exceptions in residential districts; (6) exempting certain affordable housing projects from certain development fees; (7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; (8) sunseting the Conditional Use requirements established

1 by the Corona Heights Large Residence and the Central Neighborhoods Large
2 Residence Special Use Districts at the end of 2024, and thereafter limiting the size of
3 any Dwelling Units resulting from residential development in those Special Use
4 Districts to 3,000 square feet of Gross Floor Area; and (8) (9) making conforming
5 amendments to other sections of the Planning Code; amending the Zoning Map to
6 create the Priority Equity Geographies Special Use District; amending the Subdivision
7 Code to update the condominium conversion requirements for projects utilizing
8 residential density exceptions in RH Districts; affirming the Planning Department's
9 determination under the California Environmental Quality Act; and making public
10 necessity, convenience, and welfare findings under Planning Code, Section 302, and
11 findings of consistency with the General Plan and the eight priority policies of Planning
12 Code, Section 101.1.

13 NOTE: **Unchanged Code text and uncodified text** are in plain Arial font.
14 **Additions to Codes** are in *single-underline italics Times New Roman font*.
15 **Deletions to Codes** are in *strikethrough italics Times New Roman font*.
16 **Board amendment additions** are in double-underlined Arial font.
17 **Board amendment deletions** are in ~~Arial font~~.
18 **Asterisks (* * * *)** indicate the omission of unchanged Code
19 subsections or parts of tables.

18 Be it ordained by the People of the City and County of San Francisco:

20 Section 1. Environmental and Land Use Findings.

21 (a) The Planning Department has determined that the actions contemplated in this
22 ordinance comply with the California Environmental Quality Act (California Public Resources
23 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
24 Supervisors in File No. 231142 and is incorporated herein by reference. The Board affirms
25 this determination.

1 (b) On November 30, 2023, the Planning Commission, in Resolution No. 21454,
2 adopted findings that the actions contemplated in this ordinance are consistent, on balance,
3 with the City's General Plan and eight priority policies of Planning Code Section 101.1. The
4 Board adopts these findings as its own. A copy of said Resolution is on file with the Clerk of
5 the Board of Supervisors in File No. 231142, and is incorporated herein by reference.

6 (c) Pursuant to Planning Code Section 302, this Board finds that these Planning Code
7 amendments will serve the public necessity, convenience, and welfare for the reasons set
8 forth in Planning Commission Resolution No. 21454, and the Board adopts such reasons as
9 its own. A copy of said resolution is on file with the Clerk of the Board of Supervisors in File
10 No. 231142 and is incorporated herein by reference.

11 Section 2. General Background and Findings.

12 (a) California faces a severe crisis of housing affordability and availability, prompting
13 the Legislature to declare, in Section 65589.5 of the Government Code, that the state has "a
14 housing supply and affordability crisis of historic proportions. The consequences of failing to
15 effectively and aggressively confront this crisis are hurting millions of Californians, robbing
16 future generations of a chance to call California home, stifling economic opportunities for
17 workers and businesses, worsening poverty and homelessness, and undermining the state's
18 environmental and climate objectives."

19 (b) This crisis of housing affordability and availability is particularly severe in San
20 Francisco. It is characterized by dramatic increases in rent and home sale prices over recent
21 years.

22 (c) According to the Planning Department's 2020 Housing Inventory, the cost of
23 housing in San Francisco has increased dramatically since the Great Recession of 2008-
24 2009, with the median sale price for a two-bedroom house more than tripling from 2011 to
25 2021, from \$493,000 to \$1,580,000. This includes a 9% increase from 2019 to 2020 alone,

1 even in the face of the COVID-19 pandemic. The median rental price for a two-bedroom
2 apartment saw similar although slightly smaller increases, nearly doubling from \$2,570 to
3 \$4,500 per month, from 2011 to 2019, before declining in 2020 due to the pandemic.

4 (d) These housing cost trends come after decades of underproduction of housing in
5 the Bay Area, according to the Planning Department's 2019 Housing Affordability Strategies
6 Report. The City's Chief Economist has estimated that approximately 5,000 new market-rate
7 housing units per year would be required to keep housing prices in San Francisco constant
8 with the general rate of inflation.

9 (e) Moreover, San Francisco will be challenged to meet increased Regional Housing
10 Needs Allocation ("RHNA") goals in this 2023-2031 Housing Element cycle, which total 82,069
11 units over eight years, (46,598 of which must be affordable to extremely-low, very-low, low-,
12 and moderate-income households), more than 2.5 times the goal of the previous eight-year
13 cycle. The importance of meeting these goals to address housing needs is self-evident. In
14 addition, under relatively new State laws like Senate Bill 35 (2017), failure to meet the 2023-
15 2031 RHNA housing production goals would result in limitations on San Francisco's control
16 and discretion over certain projects.

17 (f) On January 31, 2023, the City adopted the 2022 Update of the Housing Element of
18 the General Plan ("2022 Housing Element"), as required by state law. The 2022 Housing
19 Element is San Francisco's first housing plan that is centered on racial and social equity. It
20 articulates San Francisco's commitment to recognizing housing as a right, increasing housing
21 affordability for low-income households and communities of color, opening small and mid-rise
22 multifamily buildings across all neighborhoods, and connecting housing to neighborhood
23 services like transportation, education, and economic opportunity.

24 (g) The 2022 Housing Element includes goals, objectives, policies and implementing
25 programs that seek to guide development patterns and the allocation of resources to San

1 Francisco neighborhoods. Generally, it intends to shift an increased share of the San
2 Francisco's projected future housing growth to transit corridors and low-density residential
3 districts within "Well-Resourced Neighborhoods" (which are areas identified by the state as
4 neighborhoods that provide strong economic, health, and educational outcomes for its
5 residents), while aiming to prevent the potential displacement and adverse racial and social
6 equity impacts of zoning changes, planning processes, or public and private investments for
7 populations and in areas that may be vulnerable to displacement, such as "Priority Equity
8 Geographies" (identified in the Department of Public Health's Community Health Needs
9 Assessment as Areas of Vulnerability).

10 (h) Among other policies, the 2022 Housing Element commits the City to remove
11 governmental constraints on housing development, maintenance and improvement,
12 specifically in Well-Resourced Neighborhoods and in areas outside of Priority Equity
13 Geographies, as well as to reduce costs and administrative processes for affordable housing
14 projects, small and multifamily housing, and to simplify and standardize processes and permit
15 procedures. Among many other obligations, the 2022 Housing Element requires that the City
16 remove Conditional Use Authorization requirements for code compliant projects, eliminate
17 hearing requirements, and modify standards and definitions to permit more types of housing
18 across the City, in Well-Resourced Neighborhoods and outside of Priority Equity
19 Geographies. This ordinance advances those goals.

20
21 Section 3. The Planning Code is hereby amended by deleting Sections 121.1, 121.3,
22 132.2, ~~253~~, 253.1, 253.2, and 253.3, revising Sections 102, 121, 121.7, 132, 134, 135, 140,
23 145.1, 202.2, 204.1, 206.3, 206.6, 207, 209.1, 209.2, 209.3, 209.4, 210.3, 249.77, 249.92,
24 253, 305.1, 311, 317, 406, 710, 711, 713, 714, 722, 723, 750, 754, 810, 811, and 812, and
25 adding new Sections 121.1 and 121.3, and Section 249.97, to read as follows:

1
2 **SEC. 102.DEFINITIONS.**

3 * * * *

4 **Dwelling Unit.** A Residential Use defined as a room or suite of two or more rooms that is de-
5 signed for, or is occupied by, one family doing its own cooking therein and having only one
6 kitchen. A Dwelling Unit shall also include “employee housing” when providing accommodations for
7 six or fewer employees, as provided in State Health and Safety Code §17021.5. A housekeeping room
8 as defined in the Housing Code shall be a Dwelling Unit for purposes of this Code. For the
9 purposes of this Code, a Live/Work Unit, as defined in this Section, shall not be considered a
10 Dwelling Unit.

11 * * * *

12 **Height (of a building or structure).** The vertical distance by which a building or structure
13 rises above a certain point of measurement. See Section 260 of this Code for how height is
14 measured.

15
16 **Historic Building.** A Historic Building is a building or structure that meets at least one of the following
17 criteria:

- 18 • It is individually designated as a landmark under Article 10;
19 • It is listed as a contributor to an historic district listed in Article 10;
20 • It is a Significant or Contributory Building under Article 11, with a Category I, II, III or IV
21 rating;
22 • It has been listed or has been determined eligible for listing in the California Register of
23 Historical Resources; or,
24 • It has been listed or has been determined eligible for listing in the National Register of Historic
25 Places.

1 * * * *

2
3 **SEC. 121. MINIMUM LOT WIDTH AND AREA.**

4 * * * *

5 (b) **Subdivisions and Lot Splits.** Subdivisions and lot splits shall be governed by the
6 Subdivision Code of the City and County of San Francisco and by the Subdivision Map Act of
7 California. In all such cases the procedures and requirements of said Code and said Act shall
8 be followed, including the requirement for consistency with the General Plan of the City and
9 County of San Francisco. ~~Where the predominant pattern of residential development in the~~
10 ~~immediate vicinity exceeds the minimum standard for lot width or area, or the minimum standards for~~
11 ~~both lot width and area, set forth below in this Section, any new lot created by a subdivision or lot split~~
12 ~~under the Subdivision Code shall conform to the greater established standards, provided that in no~~
13 ~~case shall the required lot width be more than 33 feet or the required lot area be more than 4,000~~
14 ~~square feet.~~ In RH districts in the Family Housing Opportunity Special Use District, where the
15 predominant pattern of residential development in the immediate vicinity exceeds the
16 minimum standard for lot width or area, or exceeds the minimum standards for both lot width
17 and area, set forth below in this Section 121, any new lot created by a subdivision or lot split
18 under the Subdivision Code shall conform to the greater established standard(s), provided
19 that in no case shall the required lot width be more than 33 feet or the required lot area be
20 more than 4,000 square feet.

21 * * * *

22 (d) **Minimum Lot Width.** The minimum lot width shall be ~~20 feet.~~~~as follows:~~ as follows:

23 ~~(1) In RH-1(D) Districts: 33 feet;~~

24 ~~(2) In all other zoning use districts: 25 feet.~~

1 1) In RH-1(D) Districts in the Family Housing Opportunity Special Use District
2 (Section 249.94): 33 feet;

3 (2) In all other RH Districts in the Family Housing Opportunity Special Use
4 District: 25 feet;

5 (3) In all other zoning use districts: 20 feet.

6 (e) **Minimum Lot Area.** The minimum lot area shall be 1,200 sq. ft. ~~as follows:~~ as
7 follows:

8 ~~(1) In RH-1(D) Districts: 4,000 square feet;~~

9 ~~(2) In all other zoning use districts: 2,500 square feet; except that the minimum lot~~
10 ~~area for any lot having its street frontage entirely within 125 feet of the intersection of two streets that~~
11 ~~intersect at an angle of not more than 135 degrees shall be 1,750 square feet.~~

12 (1) In RH-1(D) Districts in the Family Housing Opportunity Special Use District
13 (Section 249.94): 4,000 square feet;

14 (2) In all other RH Districts in the Family Housing Opportunity Special Use
15 District: 2,500 square feet; except that the minimum lot area for any lot having its street
16 frontage entirely within 125 feet of the intersection of two streets that intersect at an angle of
17 not more than 135 degrees shall be 1,750 square feet.

18 (3) In all other zoning use districts: 1,200 square feet.

19 ~~(f) Conditional Uses. Notwithstanding the foregoing requirements of this Section 121 as to lot~~
20 ~~width, lot area and width of lot frontage, in any zoning use district other than an RH-1(D) District the~~
21 ~~City Planning Commission may permit one or more lots of lesser width to be created, with each lot~~
22 ~~containing only a one-family dwelling and having a lot area of not less than 1,500 square feet,~~
23 ~~according to the procedures and criteria for conditional use approval in Section 303 of this Code.~~

24 (f) Conditional Uses. Notwithstanding the foregoing requirements of this Section 121
25 as to lot width, lot area, and width of lot frontage, in any RH District in the Family Housing

Opportunity Special Use District, other than an RH-1(D) District, the Planning Commission may permit one or more lots of lesser width to be created, with each lot containing only a one-family dwelling and having a lot area of not less than 1,500 square feet, according to the procedures and criteria for conditional use approval in Section 303 of this Code.

SEC. 121.1. DEVELOPMENT OF LARGE LOTS, NEIGHBORHOOD COMMERCIAL DISTRICTS.

~~(a) **Purpose.** In order to promote, protect, and maintain a scale of development that is appropriate to each district and compatible with adjacent buildings, new construction or significant enlargement of existing buildings on lots of the same size or larger than the square footage stated in the table below shall be permitted only as Conditional Uses.~~

<i>District</i>	<i>Lot Size Limits</i>
<i>North Beach</i>	<i>2,500 sq. ft.</i>
<i>Pacific Avenue</i>	
<i>Polk Street</i>	
<i>NC-1, NCT-1</i>	<i>5,000 sq. ft.</i>

11	<i>Regional Commercial District</i>	
12	<i>San Bruno Avenue</i>	
13	<i>SoMa</i>	
14	<i>Upper Market Street</i>	
15	<i>Valencia Street</i>	
16	<i>NC-S</i>	<i>Not Applicable</i>

(b) ~~**Design Review Criteria.** In addition to the criteria of Section 303(c) of this Code, the City Planning Commission shall consider the extent to which the following criteria are met:~~

~~(1) The mass and facade of the proposed structure are compatible with the existing scale of the district.~~

~~(2) The facade of the proposed structure is compatible with design features of adjacent facades that contribute to the positive visual quality of the district.~~

~~(3) Where 5,000 or more gross square feet of Non-Residential space is proposed, that the project provides commercial spaces in a range of sizes, including one or more spaces of 1,000 gross square feet or smaller, to accommodate a diversity of neighborhood business types and business sizes.~~

**SEC. 121.1. DEVELOPMENT OF LARGE LOTS IN NEIGHBORHOOD
COMMERCIAL DISTRICTS LOCATED IN THE PRIORITY EQUITY GEOGRAPHIES
SPECIAL USE DISTRICT.**

(a) Purpose. In order to promote, protect, and maintain a scale of development that is appropriate to each district and compatible with adjacent buildings, new construction or significant enlargement of existing buildings on lots of the same size or larger than the square footage stated in the Neighborhood Commercial Districts located in the Priority Equity Geographies Special Use District established under Section 249.97 shown in the table below shall be permitted only as Conditional Uses.

<u>District</u>	<u>Lot Size Limits</u>
<u>North Beach (*)</u>	<u>2,500 sq. ft.</u>
<u>Polk Street (*)</u>	
<u>NC-1, NCT-1 (*)</u>	<u>5,000 sq. ft.</u>
<u>24th Street-Mission</u>	
<u>NC-2, NCT-2 (*)</u>	<u>10,000 sq. ft.</u>
<u>NC-3, NCT-3 (*)</u>	
<u>Bayview</u>	

1	<u>Divisadero Street (*)</u>	
2	<u>Excelsior Outer Mission Street</u>	
3	<u>Fillmore Street (*)</u>	
4	<u>Folsom Street</u>	
5	<u>Hayes-Gough</u>	
6	<u>Lower Polk Street</u>	
7	<u>Mission Street</u>	
8	<u>San Bruno Avenue</u>	
9	<u>SoMa</u>	
10	<u>Upper Market Street</u>	
11	<u>Valencia Street (*)</u>	

(*) These districts are located at least partially in the Priority Equity Geographies Special Use District established under Section 249.97. The controls in this Section 121.1 shall apply to those areas of these districts that are within the Priority Equity Geographies SUD. The controls in this Section 121.1 shall not apply to portions of any Neighborhood Commercial District that are outside the Priority Equity Geographies SUD.

(b) Design Review Criteria. In addition to the criteria of Section 303(c) of this Code, the Planning Commission shall consider the extent to which the following criteria are met:

(1) The mass and facade of the proposed structure are compatible with the existing scale of the district.

(2) The facade of the proposed structure is compatible with design features of adjacent facades that contribute to the positive visual quality of the district.

(3) Where 5,000 or more gross square feet of Non-Residential space is proposed, the project provides commercial spaces in a range of sizes, including one or more spaces of 1,000 gross square feet or smaller, to accommodate a diversity of neighborhood business types and business sizes.

~~SEC. 121.3. DEVELOPMENT OF LARGE LOTS, CHINATOWN MIXED USE DISTRICTS.~~

~~In order to promote, protect, and maintain a scale of development which is appropriate to each Mixed Use District and complementary to adjacent buildings, new construction or enlargement of existing buildings on lots larger than the square footage stated in the table below shall be permitted as conditional uses subject to the provisions set forth in Section 303.~~

-

<i>District</i>	<i>Lot Size Limits</i>
<i>Chinatown Community Business</i>	<i>5,000 sq. ft.</i>
<i>Chinatown Residential/Neighborhood Commercial</i>	
<i>Chinatown Visitor Retail</i>	

~~In addition to the criteria of Section 303(c), the Planning Commission shall consider the following criteria:~~

~~(1) The mass and facade of the proposed structure are compatible with the existing scale of the district.~~

~~(2) The facade of the proposed structure is consistent with design features of adjacent facades that contribute to the positive visual quality of the district.~~

1 **SEC. 121.3. DEVELOPMENT OF LARGE LOTS, CHINATOWN MIXED USE**
2 **DISTRICTS.**

3 (a) In order to promote, protect, and maintain a scale of development which is
4 appropriate to each Mixed Use District and complementary to adjacent buildings, new
5 construction or enlargement of existing buildings on lots larger than the square footage stated
6 in the table below shall be permitted as conditional uses subject to the provisions set forth in
7 Section 303.

8 =

<u>District</u>	<u>Lot Size Limits</u>
<u>Chinatown Community Business</u>	<u>5,000 sq. ft.</u>
<u>Chinatown Residential/Neighborhood Commercial</u>	
<u>Chinatown Visitor Retail</u>	

14 (b) In addition to the criteria of Section 303(c), the Planning Commission shall consider
15 the following criteria:

16 (1) The mass and facade of the proposed structure are compatible with the
17 existing scale of the district.

18 (2) The facade of the proposed structure is consistent with design features of
19 adjacent facades that contribute to the positive visual quality of the district.

21 **SEC. 121.7. RESTRICTION OF LOT MERGERS IN CERTAIN DISTRICTS AND ON**
22 **PEDESTRIAN-ORIENTED STREETS.**

23 * * * *

24 (b) **Controls.** Merger of lots is regulated as follows:
25

~~(1) **RTO Districts.** In RTO Districts, merger of lots creating a lot greater than 5,000 square feet shall not be permitted except according to the procedures and criteria in subsection (d) below.~~

(1) **RTO Districts.** In RTO Districts within the Priority Equity Geographies Special Use District established under Section 249.97, merger of lots creating a lot greater than 5,000 square feet shall not be permitted except according to the procedures and criteria in subsection (d) below.

~~(212)~~ **NCT, NC, and Mixed-Use Districts.** In those NCT, NC, and Mixed Use Districts listed below, merger of lots resulting in a lot with a single street frontage greater than that stated in the table below on the specified streets or in the specified Districts is prohibited except according to the procedures and criteria in subsections (c) and (d) below.

~~(323)~~ **WMUO District.** Merger of lots in the WMUO zoning district resulting in a lot with a street frontage between 100 and 200 feet along Townsend Street is permitted so long as a publicly-accessible through-block pedestrian alley at least 20 feet in width and generally conforming to the design standards of Section 270.2(e)(5)-(12) of this Code is provided as a result of such merger.

~~(434)~~ **Mission Street NCT District.** In the Mission Street NCT District, projects that propose lot mergers resulting in street frontages on Mission Street greater than 50 feet shall provide at least one non-residential space of no more than 2,500 square feet on the ground floor fronting Mission Street.

~~(545)~~ **Ocean Avenue NCT District.** In the Ocean Avenue NCT District, projects that propose lot mergers resulting in street frontages greater than 50 feet are permitted to create corner lots only, and shall require a conditional use authorization.

* * * *

1 **SEC. 132. FRONT SETBACK AREAS IN RTO, RH, AND RM DISTRICTS AND FOR**
2 **REQUIRED SETBACKS FOR PLANNED UNIT DEVELOPMENTS.**

3 The following requirements for minimum front setback areas shall apply to every
4 building in all RH, RTO, and RM Districts, in order to relate the setbacks provided to the
5 existing front setbacks of adjacent buildings. Buildings in RTO Districts which have more than
6 75 feet of street frontage are additionally subject to the Ground Floor Residential Design
7 Guidelines, as adopted and periodically amended by the Planning Commission. Planned Unit
8 Developments or PUDs, as defined in Section 304, shall also provide landscaping in required
9 setbacks in accord with Section 132(g).

10 (a) **Basic Requirement.** Where one or both ~~of the~~ buildings adjacent to the subject
11 property have front setbacks along a Street or Alley, any building or addition constructed,
12 reconstructed, or relocated on the subject property shall be set back as follows:

13 (1) In RH Districts in the Family Housing Opportunity Special Use District
14 (Section 249.94): the average of the two adjacent front setbacks, except as provided in
15 subsection (d) below. If only one of the adjacent buildings has a front setback, or if there is
16 only one adjacent building, then the required setback for the subject property shall be equal to
17 one-half the front setback of such adjacent building;

18 (2) In all other zoning use districts: no less than the depth of the adjacent building
19 with the shortest front setback, except as provided in subsection (c). ~~the average of the two adjacent~~
20 front setbacks. If only one of the adjacent buildings has a front setback, or if there is only one adjacent
21 building, then the required setback for the subject property shall be equal to one-half the front setback
22 of such adjacent building.

23 (3) In any case in which the lot constituting the subject property is separated
24 from the lot containing the nearest building by an undeveloped lot or lots for a distance of 50
25 feet or less parallel to the Street or Alley, such nearest building shall be deemed to be an

1 “adjacent building,” but a building on a lot so separated for a greater distance shall not be
2 deemed to be an “adjacent building.” [Note to publisher: Delete diagram that follows this text].

3 ~~(b) **Alternative Method of Averaging.** If, under the rules stated in subsection (a) above, an~~
4 ~~averaging is required between two adjacent front setbacks, or between one adjacent setback and~~
5 ~~another adjacent building with no setback, the required setback on the subject property may~~
6 ~~alternatively be averaged in an irregular manner within the depth between the setbacks of the two~~
7 ~~adjacent buildings, provided that the area of the resulting setback shall be at least equal to the product~~
8 ~~of the width of the subject property along the Street or Alley times the setback depth required by~~
9 ~~subsections (a) and (c) of this Section 132; and provided further, that all portions of the resulting~~
10 ~~setback area on the subject property shall be directly exposed laterally to the setback area of the~~
11 ~~adjacent building having the greater setback. In any case in which this alternative method of averaging~~
12 ~~has been used for the subject property, the extent of the front setback on the subject property for~~
13 ~~purposes of subsection (c) below relating to subsequent development on an adjacent site shall be~~
14 ~~considered to be as required by subsection (a) above, in the form of a single line parallel to the Street~~
15 ~~or Alley [Note to publisher: Delete diagram that follows this text].~~

16 (b) **Alternative Method of Averaging.** If, under the rules stated in subsection (a)
17 above, an averaging is required between two adjacent front setbacks, or between one
18 adjacent setback and another adjacent building with no setback, the required setback on the
19 subject property may alternatively be averaged in an irregular manner within the depth
20 between the setbacks of the two adjacent buildings, provided that the area of the resulting
21 setback shall be at least equal to the product of the width of the subject property along the
22 Street or Alley times the setback depth required by subsections (a) and (c) of this Section 132;
23 and provided further, that all portions of the resulting setback area on the subject property
24 shall be directly exposed laterally to the setback area of the adjacent building having the
25 greater setback. In any case in which this alternative method of averaging has been used for

1 the subject property, the extent of the front setback on the subject property for purposes of
2 subsection (c) below relating to subsequent development on an adjacent site shall be

13 considered to be as required by subsection (a) above, in the form of a single line parallel to
14 the Street or Alley. [Note to publisher: The diagram that follows is a reproduction of the
15 diagram that appears below Section 132(b) in the current version of the Planning Code.]

16

17 **(be) Method of Measurement.** The extent of the front setback of each adjacent
18 building shall be taken as the horizontal distance from the property line along the Street or
19 Alley to the building wall closest to such property line, excluding all projections from such wall,
20 all decks and garage structures and extensions, and all other obstructions.

21 **(cd) Applicability to Special Lot Situations.**

22 * * * *

23 **(de) Maximum Requirements.** The maximum required front setback in any of the
24 cases described in this Section 132 shall be as follows:

1 (1) In RH Districts in the Family Housing Opportunity Special Use District
2 (Section 249.94): 15 feet from the property line along the Street or Alley, or 15% of the
3 average depth of the lot from such Street or Alley, whichever results in the lesser requirement.
4 Where a lot faces on a Street or Alley less than or equal to 40 feet in width, the maximum
5 required setback shall be 10 feet from the property line or 15% of the average depth of the lot
6 from such Street or Alley, whichever results in the lesser requirement.

7 (2) In all other zoning use districts, except as otherwise provided in this Code:
8 ~~15 10~~ feet from the property line along the Street or Alley, except in cases where more than
9 ~~75%~~ of the properties on the subject block face have a setback of 15 feet or greater, and both
10 parcels adjacent to the parcel property have a front setback of 15 feet or greater, in which
11 case the maximum front setback shall be 15 feet., or 15% of the average depth of the lot from
12 ~~such Street or Alley, whichever results in the lesser requirement. Where a lot faces on a Street or Alley~~
13 ~~less than or equal to 40 feet in width, the maximum required setback shall be ten feet from the property~~
14 ~~line or 15% of the average depth of the lot from such Street or Alley, whichever results in the lesser~~
15 ~~requirement.~~

16 (3) The required setback for lots located within the Bernal Heights Special Use
17 District is set forth in Section 242 of this Code.

18 * * * *

19
20 **~~SEC. 132.2. SETBACKS IN THE NORTH OF MARKET RESIDENTIAL SPECIAL USE~~**
21 **~~DISTRICT.~~**

22 ~~**(a) General.** In order to maintain the continuity of a predominant street wall along the street,~~
23 ~~setbacks of the upper portion of a building which abuts a public sidewalk may be required of buildings~~
24 ~~located within the boundaries of the North of Market Residential Special Use District, as shown on~~
25 ~~Sectional Map 1Sub of the Zoning Map, as a condition of approval of conditional use authorization~~

1 otherwise required by Section 253 of this Code for building in RC Districts which exceed 50 feet in
2 height.

3 (b) ~~Procedures.~~ A setback requirement may be imposed in accordance with the provisions set
4 forth below pursuant to the procedures for conditional use authorization set forth in Section 303 of this
5 Code.

6 (c) ~~Setback Requirement.~~ In order to maintain the continuity of the prevailing streetwall along
7 a street or alley, a setback requirement may be imposed as a condition of approval of an application
8 for conditional use authorization for a building in excess of 50 feet in height, as required by Section
9 253 of this Code. If the applicant can demonstrate that the prevailing streetwall height on the block on
10 which the proposed project is located, as established by existing cornice lines, is in excess of 50 feet,
11 then the Commission may impose a maximum setback of up to 20 feet applicable to the portion of the
12 building which exceeds the established prevailing streetwall height; provided, however, that if the
13 applicant demonstrates that the prevailing streetwall height is in excess of 68 feet, the maximum
14 setback requirement which may be imposed is 16 feet. If the applicant can demonstrate that a building
15 without a setback would not disrupt the continuity of the prevailing streetwall along the street, then the
16 Planning Commission may grant approval of the conditional use authorization without imposing a
17 setback requirement as a condition thereof.

18
19 **SEC. 134. REAR YARDS IN R, RC, NC, C, SPD, M, MUG, WMUG, MUO, MUR, UMU,**
20 **RED, AND RED-MX DISTRICTS.**

21 * * * *

22 (c) **Basic Requirements.** The basic rear yard requirements shall be as follows for the
23 districts indicated:

1 (1) In RH, RM-1, RM-2, RTO, RTO-M Zoning Districts, the basic rear yard shall be
2 equal to 30% of the total depth of the lot on which the building is situated, but in no case less than 15
3 feet, unless otherwise provided in subsection (c)(2).

4 (2) In RH-2 and RH-3 Districts in the Family Housing Opportunity Special Use
5 District (Section 249.94), the minimum rear yard depth shall be equal to 45% of the total depth
6 of the lot on which the building is situated, unless a reduction in this requirement is permitted
7 by subsection (k) below or otherwise provided in Section 249.94(d). [Note to publisher: The
8 diagram that follows is a reproduction of the diagram that appears below Section 134(c)(3) in
9 the current Planning Code.]

17
18 (23) In all other Zoning Districts not listed in subsection (c)(1), the rear yard shall be
19 equal to 25% of the total depth of the lot on which the building is situated, but in no case less than 15
20 feet.

21 **(d) Rear Yard Location Requirements.**

22 **(1) RH-1(D), RH-1, and RH-1(S) Districts.** For buildings that submit a development
23 application on or after January 15, 2019, the minimum rear yard depth shall be equal to 30% of the
24 total depth of the lot on which the building is situated, but in no case less than 15 feet. Exceptions are
25 permitted on Corner Lots and through lots abutting properties with buildings fronting both streets, as

described in subsection (f) below. For buildings that submitted a development application prior to January 15, 2019, the minimum rear yard depth shall be determined based on the applicable law on the date of submission.

~~(2) RM-3, RM-4, RC-3, RC-4, NC Districts other than the Pacific Avenue NC District, C, M, MUG, WMUG, MUO, CMUO, MUR, UMU, RED, RED-MX, and SPD Districts. Except as specified in this subsection (c), the minimum rear yard depth shall be equal to 25% of the total depth of the lot on which the building is situated, but in no case less than 15 feet.~~

~~(A) For buildings containing only SRO Units in the Eastern Neighborhoods Mixed Use Districts, the minimum rear yard depth shall be equal to 25% of the total depth of the lot on which the building is situated, but the required rear yard of SRO buildings not exceeding a height of 65 feet shall be reduced in specific situations as described in subsection (c) below.~~

~~(B) To the extent the lot coverage requirements of Section 249.78 apply to a project, those requirements shall control, rather than the requirements of this Section 134.~~

(C1) RH-1(D), RH-1, RH-1(S), RM-3, RM-4, RTO, NC-1, NCT-1, Inner Sunset, Outer Clement Street, Cole Valley, Haight Street, Lakeside Village, Sacramento Street, 24th Street-Noe Valley, Pacific Avenue, and West Portal Avenue Districts. Rear yards shall be provided at grade level and at each succeeding level or story of the building.

(D2) NC-2, NCT-2, Ocean Avenue, Inner Balboa Street, Outer Balboa Street, Castro Street, Cortland Avenue, Divisadero Street NCT, Excelsior-Outer Mission Street, Inner Clement Street, Upper Fillmore Street, Lower Haight Street, Judah Street, Noriega Street, North Beach, San Bruno Avenue, Taraval Street, Inner Taraval Street, Union Street, Valencia Street, 24th Street-Mission, Glen Park, Regional Commercial District and Folsom Street Districts. Rear yards shall be provided at the second story, and at each succeeding story of the building, and at the First Story if it contains a Dwelling Unit.

* * * *

1 **(E3) RC-3, RC-4, NC-3, NCT-3, Bayview, Broadway, Fillmore Street, Geary**
2 **Boulevard, Hayes-Gough, Japantown, SoMa NCT, Mission Bernal, Mission Street, Polk**
3 **Street, Lower Polk Street, Pacific Avenue, C, M, SPD, MUR, MUG, MUO, and UMU**
4 **Districts.** Rear yards shall be provided at the lowest story containing a Dwelling Unit, and at
5 each succeeding level or story of the building. In the Hayes-Gough NCT, lots fronting the east
6 side of Octavia Boulevard between Linden and Market Streets (Central Freeway Parcels L, M,
7 N, R, S, T, U, and V) are not required to provide rear yards at any level of the building,
8 provided that the project fully meets the usable open space requirement for Dwelling Units
9 pursuant to Section 135 of this Code, the exposure requirements of Section 140, and gives
10 adequate architectural consideration to the light and air needs of adjacent buildings given the
11 constraints of the project site.

12 **(F4) Upper Market Street NCT.** Rear yards shall be provided at the grade
13 level, and at each succeeding story of the building. For buildings in the Upper Market Street
14 NCT that do not contain Residential Uses and that do not abut adjacent lots with an existing
15 pattern of rear yards or mid-block open space, the Zoning Administrator may waive or reduce
16 this rear yard requirement pursuant to the procedures of subsection (h).

17 **(G5) RED, RED-MX and WMUG Districts.** Rear yards shall be provided at the
18 ground level for any building containing a Dwelling Unit, and at each succeeding level or story
19 of the building.

20 ~~(3) RH-2, RH-3, RTO, RTO-M, RM-1 and RM-2 Districts, and the Pacific Avenue NC District.~~
21 ~~The minimum rear yard depth shall be equal to 45% of the total depth of the lot on which the building~~
22 ~~is situated, except to the extent that a reduction in this requirement is permitted by subsection (e)~~
23 ~~below. Rear yards shall be provided at grade level and at each succeeding level or story of the~~
24 ~~building. In RH-2, RH-3, RTO, RTO-M, RM-1, and RM-2 Districts, exceptions are permitted on Corner~~
25

1 ~~Lots and through lots abutting a property with buildings fronting on both streets, as described in~~
2 ~~subsection (f) below.~~ [Note to publisher: delete diagram that follows this text]

3 **(de) Permitted Obstructions.** Only those obstructions specified in Section 136 of this
4 Code shall be permitted in a required rear yard, and no other obstruction shall be constructed,
5 placed, or maintained within any such yard. No motor vehicle, trailer, boat, or other vehicle
6 shall be parked or stored within any such yard, except as specified in Section 136.

7 ~~(e) Reduction of Requirements in RH-2, RH-3, RTO, RTO-M, RM-1,,2 and RM-2 Districts.~~
8 ~~The rear yard requirement stated in subsection subsection2 (e)(3) above and as stated in subsection~~
9 ~~subsection2 (e)(2)(A) above for SRO buildings located in the Eastern Neighborhoods Mixed Use~~
10 ~~Districts not exceeding a height of 65 feet, shall be reduced in specific situations as described in this~~
11 ~~subsection (e), based upon conditions on adjacent lots. Except for those SRO buildings referenced~~
12 ~~above in this subsection (e) whose rear yard can be reduced in the circumstances described in~~
13 ~~subsection (e) to a 15-foot minimum, under no circumstances shall the minimum rear yard be thus~~
14 ~~reduced to less than a depth equal to 25% of the total depth of the lot on which the building is situated,~~
15 ~~or to less than 15 feet, whichever is greater.~~

16 ~~(1) General Rule.~~ In such districts, the forward edge of the required rear yard shall be
17 reduced to a line on the subject lot, parallel to the rear lot line of such lot, which is an average between
18 the depths of the rear building walls of the two adjacent buildings. Except for SRO buildings, in any
19 case in which a rear yard requirement is thus reduced, the last 10 feet of building depth thus permitted
20 on the subject lot shall be limited to a height of 30 feet, measured as prescribed by Section 260 of this
21 Code, or to such lesser height as may be established by Section 261 of this Code.

22 ~~(2) Alternative Method of Averaging.~~ If, under the rule stated in subsection (e)(1)
23 above, a reduction in the required rear yard is permitted, the reduction may alternatively be averaged
24 in an irregular manner; provided that the area of the resulting reduction shall be no more than the
25 product of the width of the subject lot along the line established by subsection (e)(1) above times the

1 ~~reduction in depth of rear yard permitted by subsection (e)(1); and provided further that all portions of~~
2 ~~the open area on the part of the lot to which the rear yard reduction applies shall be directly exposed~~
3 ~~laterally to the open area behind the adjacent building having the lesser depth of its rear building wall.~~

4 ~~(3) **Method of Measurement.** For purposes of this subsection (e), an “adjacent~~
5 ~~building” shall mean a building on a lot adjoining the subject lot along a side lot line. In all cases the~~
6 ~~location of the rear building wall of an adjacent building shall be taken as the line of greatest depth of~~
7 ~~any portion of the adjacent building which occupies at least one-half the width between the side lot~~
8 ~~lines of the lot on which such adjacent building is located, and which has a height of at least 20 feet~~
9 ~~above grade, or two Stories, whichever is less, excluding all permitted obstructions listed for rear yards~~
10 ~~in Section 136 of this Code. Where a lot adjoining the subject lot is vacant, or contains no Dwelling or~~
11 ~~Group Housing structure, or is located in an RH-1(D), RH-1, RH-1(S), RM-3, RM-4, RC, RED, RED-~~
12 ~~MX, MUG, WMUG, MUR, UMU, SPD, RSD, SLR, SLI, SSO, NC, C, M, or P District, such adjoining~~
13 ~~lot shall, for purposes of the calculations in this subsection (e), be considered to have an adjacent~~
14 ~~building upon it whose rear building wall is at a depth equal to 75% of the total depth of the subject lot.~~

15 ~~(4) **Applicability to Special Lot Situations.** In the following special lot situations, the~~
16 ~~general rule stated in subsection (e)(1) above shall be applied as provided in this subsection (e)(4), and~~
17 ~~the required rear yard shall be reduced if conditions on the adjacent lot or lots so indicate and if all~~
18 ~~other requirements of this Section 134 are met.~~ [Note to publisher: delete the three diagrams that
19 follow this text]

20 ~~(A) **Corner Lots and Lots at Alley Intersections.** On a Corner Lot as defined in~~
21 ~~Section 102 of this Code, or a lot at the intersection of a Street and an Alley or two Alleys, the forward~~
22 ~~edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the~~
23 ~~rear building wall of the one adjacent building.~~

24 ~~(B) **Lots Abutting Properties with Buildings that Front on Another Street or**~~
25 ~~**Alley.** In the case of any lot that abuts along one of its side lot lines upon a lot with a building that~~

1 ~~fronts on another Street or Alley, the lot on which it so abuts shall be disregarded, and the forward~~
2 ~~edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the~~
3 ~~rear building wall of the one adjacent building fronting on the same Street or Alley. In the case of any~~
4 ~~lot that abuts along both its side lot lines upon lots with buildings that front on another Street or Alley,~~
5 ~~both lots on which it so abuts shall be disregarded, and the minimum rear yard depth for the subject lot~~
6 ~~shall be equal to 25% of the total depth of the subject lot, or 15 feet, whichever is greater. [Note to~~
7 ~~publisher: delete the two diagrams that follow this text]~~

8 (f) **Second Building on Corner Lots and Through Lots ~~Abutting Properties with~~**
9 **~~Buildings Fronting on Both Streets~~ in RH, RTO, RTO-M, RM-1, and RM-2 Districts.** Where a
10 lot is a Corner Lot, or is a through lot having both its front and its rear lot line along Streets,
11 Alleys, or a Street and an Alley, ~~and where an adjoining lot contains a residential or other lawful~~
12 ~~structure that fronts at the opposite end of the lot,~~ the subject ~~through~~ lot may ~~also~~ have two
13 buildings ~~according to such established pattern,~~ each fronting at one end of the lot, provided that
14 all the other requirements of this Code are met. In such cases, the rear yard required by this
15 Section 134 for the subject lot shall be located in the central portion of the lot, between the
16 two buildings on such lot, ~~and the depth of the rear wall of each building from the Street or Alley on~~
17 ~~which it fronts shall be established by the average of the depths of the rear building walls of the~~
18 ~~adjacent buildings fronting on that Street or Alley, or where there is only one adjacent building, by the~~
19 ~~depth of that building.~~ In no case shall the total minimum rear yard for the subject lot be thus
20 reduced to less than a depth equal to 30% of the total depth of the subject lot or to less than
21 15 feet, whichever is greater; provided, however, that the Zoning Administrator may reduce
22 the total depth to 20% pursuant to Section 307(I) of this Code if the reduction is for the sole
23 purpose of constructing an Accessory Dwelling Unit under Section 207(c)(4), and provided
24 further that the reduction/waiver is in consideration of the property owner entering into a
25 Regulatory Agreement pursuant to Section 207(c)(4)(H) subjecting the ADU to the San

1 Francisco Rent Stabilization and Arbitration Ordinance. For buildings fronting on a Narrow
2 Street as defined in Section 261.1 of this Code, the additional height limits of Section 261.1
3 shall apply. Furthermore, in all cases in which this subsection (f) is applied, the requirements
4 of Section 132 of this Code for front setback areas shall be applicable along both Street or
5 Alley frontages of the subject through lot.

6 **(g) Reduction of Requirements in C-3 Districts.** In C-3 Districts, an exception to
7 the rear yard requirements of this Section 134 may be allowed, in accordance with the
8 provisions of Section 309, provided that the building location and configuration assure
9 adequate light and air to windows within the residential units and to the usable open space
10 provided.

11 * * * *

12 (h) **Corner Lots and Lots at Alley Intersections.** On a Corner Lot as defined in Section 102 of
13 this Code, or on a lot at the intersection of a Street and an Alley of at least 25 feet in width, the
14 required rear yard may be substituted with an open area equal to the basic rear yard requirement
15 outlined in subsection (c) above at the same levels as the required rear yard in an interior corner of the
16 lot, an open area between two or more buildings on the lot, or an inner court, as defined by this Code,
17 provided that the Zoning Administrator determines that all of the criteria described below in this
18 Section 134 are met.

19 (1) Each horizontal dimension of the open area shall be a minimum of 15 feet.

20 (2) The open area shall be wholly or partially contiguous to the existing midblock open
21 space formed by the rear yards of adjacent properties.

22 (3) The open area will provide for the access to light and air to and views from
23 adjacent properties.

24 (4) The proposed new or expanding structure will provide for access to light and air
25 from any existing or new residential uses on the subject property.

1 The provisions of this subsection (h) shall not restrict the discretion of the Zoning Administrator
2 from imposing such additional conditions as the Zoning Administrator deems necessary to further the
3 purposes of this Section 134.

4 ~~(h) **Modification of Requirements in NC Districts.** The rear yard requirements in NC~~
5 ~~Districts may be modified or waived in specific situations as described in this subsection (h).~~

6 ~~(1) **General.** The rear yard requirement in NC Districts may be modified or waived by~~
7 ~~the Zoning Administrator pursuant to the procedures which are applicable to variances, as set forth in~~
8 ~~Sections 306.1 through 306.5 and 308.2, if all of the following criteria are met:~~

9 ~~(A) Residential Uses are included in the new or expanding development and a~~
10 ~~comparable amount of usable open space is provided elsewhere on the lot or within the development~~
11 ~~where it is more accessible to the residents of the development; and~~

12 ~~(B) The proposed new or expanding structure will not significantly impede the~~
13 ~~access of light and air to and views from adjacent properties; and~~

14 ~~(C) The proposed new or expanding structure will not adversely affect the~~
15 ~~interior block open space formed by the rear yards of adjacent properties.~~

16 ~~(2) **Corner Lots and Lots at Alley Intersections.** On a Corner Lot as defined in Section~~
17 ~~102 of this Code, or on a lot at the intersection of a Street and an Alley of at least 25 feet in width, the~~
18 ~~required rear yard may be substituted with an open area equal to 25% of the lot area which is located~~
19 ~~at the same levels as the required rear yard in an interior corner of the lot, an open area between two~~
20 ~~or more buildings on the lot, or an inner court, as defined by this Code, provided that the Zoning~~
21 ~~Administrator determines that all of the criteria described below in this subsection (h)(2) are met.~~

22 ~~(A) Each horizontal dimension of the open area shall be a minimum of 15 feet.~~

23 ~~(B) The open area shall be wholly or partially contiguous to the existing~~
24 ~~midblock open space formed by the rear yards of adjacent properties.~~

1 ~~(C) The open area will provide for the access to light and air to and views from~~
2 ~~adjacent properties.~~

3 ~~(D) The proposed new or expanding structure will provide for access to light~~
4 ~~and air from any existing or new residential uses on the subject property.~~

5 ~~The provisions of this subsection (h)(2) shall not preclude such additional conditions as are~~
6 ~~deemed necessary by the Zoning Administrator to further the purposes of this Section 134.~~

7 * * * *

8 **(k) Reduction of Requirements in RH-2 and RH-3 Districts in the Family Housing**
9 **Opportunity Special Use District.** The rear yard requirement stated in subsection (c)(2)
10 above shall be reduced in specific situations as described in this subsection (k), based upon
11 conditions on adjacent lots. Under no circumstances shall the minimum rear yard be thus
12 reduced to less than a depth equal to 25% of the total depth of the lot on which the building is
13 situated, or to less than 15 feet, whichever is greater.

14 **(1) General Rule.** In RH-2 and RH-3 Districts in the Family Housing
15 Opportunity Special Use District, the forward edge of the required rear yard shall be reduced
16 to a line on the subject lot, parallel to the rear lot line of such lot, which is an average between
17 the depths of the rear building walls of the two adjacent buildings. The last 10 feet of building
18 depth thus permitted on the subject lot shall be limited to a height of 30 feet, measured as
19 prescribed by Section 260 of this Code, or to such lesser height as may be established by
20 Section 261 of this Code.

21 **(2) Alternative Method of Averaging.** If, under the rule stated in subsection
22 (k)(1) above, a reduction in the required rear yard is permitted, the reduction may alternatively
23 be averaged in an irregular manner; provided that the area of the resulting reduction shall be
24 no more than the product of the width of the subject lot along the line established by
25 subsection (k)(1) above times the reduction in depth of rear yard permitted by subsection

1 (k)(1); and provided further that all portions of the open area on the part of the lot to which the
2 rear yard reduction applies shall be directly exposed laterally to the open area behind the
3 adjacent building having the lesser depth of its rear building wall.

4 (3) **Method of Measurement.** For purposes of this subsection (k), an “adjacent
5 building” shall mean a building on a lot adjoining the subject lot along a side lot line. In all
6 cases, the location of the rear building wall of an adjacent building shall be taken as the line of
7 greatest depth of any portion of the adjacent building which occupies at least one-half the
8 width between the side lot lines of the lot on which such adjacent building is located, and
9 which has a height of at least 20 feet above grade, or two Stories, whichever is less, excluding
10 all permitted obstructions listed for rear yards in Section 136 of this Code. Where a lot
11 adjoining the subject lot is vacant, or contains no Dwelling or Group Housing structure, or is
12 located in an RH-1(D), RH-1, RH-1(S), RM-3, RM-4, RC, RED, RED-MX, MUG, WMUG,
13 MUR, UMU, SPD, RSD, SLR, SLI, SSO, NC, C, M, or P District, such adjoining lot shall, for
14 purposes of the calculations in this subsection (k), be considered to have an adjacent building
15 upon it whose rear building wall is at a depth equal to 75% of the total depth of the subject lot.

16 (4) **Applicability to Special Lot Situations.** In the following special lot
17 situations, the general rule stated in subsection (k)(1) above shall be applied as provided in
18 this subsection (k)(4), and the required rear yard shall be reduced if conditions on the
19 adjacent lot or lots so indicate and if all other requirements of this Section 134 are met. [Note
20 to publisher: The three diagrams that follow are reproductions of the three diagrams that
21 appear below subsection 134(e)(4) of the current Planning Code.]

(A) Corner Lots and Lots at Alley Intersections. On a Corner Lot as defined in Section 102 of this Code, or a lot at the intersection of a Street and an Alley or two Alleys, the forward edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the rear building wall of the one adjacent building.

(B) Lots Abutting Properties with Buildings that Front on Another Street or Alley. In the case of any lot that abuts along one of its side lot lines upon a lot with a building that fronts on another Street or Alley, the lot on which it so abuts shall be disregarded, and the forward edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the rear building wall of the one adjacent building fronting on the same Street or Alley. In the case of any lot that abuts along both its side lot lines upon lots with buildings that front on another Street or Alley, both lots on which it so abuts shall be disregarded, and the minimum rear yard depth for the subject lot shall be equal to 25% of the

1 total depth of the subject lot, or 15 feet, whichever is greater. [Note to publisher: The two
2 diagrams that follow are reproductions of the two diagrams that appear below subsection
3 134(e)(4)(B) of the current Planning Code.]

1 **SEC. 135. USABLE OPEN SPACE FOR DWELLING UNITS AND GROUP**
2 **HOUSING, R, NC, MIXED USE, C, AND M DISTRICTS.**

3 * * * *

4 **(f) Private Usable Open Space: Additional Standards.**

5 **(1) Minimum Dimensions and Minimum Area.** Any space credited as private
6 usable open space shall have a minimum horizontal dimension of as follows:

7 (A) In RH Districts in the Family Housing Opportunity Special Use
8 District (Section 249.94): six feet and a minimum area of 36 feet if located on a deck,
9 balcony, porch, or roof, and a minimum horizontal dimension of 10 feet and a minimum area
10 of 100 square feet if located on open ground, a terrace, or the surface of an inner or outer
11 court, except as otherwise provided in Section 249.94(d).

12 (B) In all other zoning use districts: ~~three~~ ~~six~~ feet and a minimum area of
13 ~~36~~ ~~27~~ square feet if located on a deck, balcony, porch or roof, and shall have a minimum
14 horizontal dimension of 10 feet and a minimum area of 100 square feet if located on open
15 ground, a terrace or the surface of an inner or outer court.

16 **(2) Exposure.** ~~In order to~~ To be credited as private usable open space, an area
17 must be kept open in the following manner:

18 (A) For decks, balconies, porches and roofs, at least 30 percent of the
19 perimeter must be unobstructed except for necessary railings.

20 (B) In addition, the area credited on a deck, balcony, porch or roof must
21 either face a street, face or be within a rear yard, or face or be within some other space which
22 at the level of the private usable open space meets the minimum dimension and area
23 requirements for common usable open space as specified in Paragraph 135(g)(1) below.

24 * * * *

(C) Areas within inner and outer courts, as defined by this Code, must either conform to the standards of ~~Subparagraph~~ Subsection (f)(2)(B) ~~above~~ or Subsection (g)(2). ~~be so arranged that the height of the walls and projections above the court on at least three sides (or 75 percent of the perimeter, whichever is greater) is such that no point on any such wall or projection is higher than one foot for each foot that such point is horizontally distant from the opposite side of the clear space in the court, regardless of the permitted obstruction referred to in Subsection 135(c) above.~~

* * * *

(g) Common Usable Open Space: Additional Standards.

(1) Minimum Dimensions and Minimum Area. Any space credited as common usable open space shall be at least 15 feet in every horizontal dimension and shall have a minimum area of 300 square feet.

(2) Use of Inner Courts. The area of an inner court, as defined by this Code, may be credited as common usable open space, if the enclosed space is not less than 20 feet in every horizontal dimension and 400 square feet in area; ~~and if (regardless of the permitted obstructions referred to in Subsection 135(c) above) the height of the walls and projections above the court on at least three sides (or 75 percent of the perimeter, whichever is greater) is such that no point on any such wall or projection is higher than one foot for each foot that such point is horizontally distant from the opposite side of the clear space in the court.~~ Exceptions from these requirements for certain qualifying historic buildings may be permitted, subject to the requirements and procedures of Section 307(h) of this Code.

* * * *

SEC. 140. ALL DWELLING UNITS IN ALL USE DISTRICTS TO FACE ON AN OPEN AREA.

(a) Requirements for Dwelling Units. In each Dwelling Unit in any use district, the required windows (as defined by Section 504 of the San Francisco Housing Code) of at least one room that meets the 120-square-foot minimum superficial floor area requirement of Section 503 of the Housing Code shall face directly onto an open area of one of the following types:

(1) A public street, public alley at least 20 feet in width, side yard at least 25 feet in width, or rear yard meeting the requirements of this Code; provided, that if such windows are on an outer court whose width is less than 25 feet, the depth of such court shall be no greater than its width; or

(2) An open area (whether an inner court or a space between separate buildings on the same lot) which is unobstructed (except for fire escapes not projecting more than necessary for safety and in no case more than four feet six inches, chimneys, and those obstructions permitted in ~~§~~subsections 136(c)(14), (15), (16), (19), (20) and (29) of this Code) and is no less than 25 feet in every horizontal dimension for the floor at which the Dwelling Unit in question is located. In RH Districts in the Family Housing Special Use District (Section 249.94), such horizontal dimension shall increase by five feet at each subsequent floor, except as otherwise provided in Section 249.94(d). ~~and the floor immediately above it, with an increase of five feet in every horizontal dimension at each subsequent floor, except for SRO buildings in the Eastern Neighborhoods Mixed Use Districts, which are not required to increase five feet in every horizontal dimension until the fifth floor of the building.~~

* * * *

SEC. 145.1. STREET FRONTAGES IN NEIGHBORHOOD COMMERCIAL, RESIDENTIAL-COMMERCIAL, COMMERCIAL, AND MIXED USE DISTRICTS.

* * * *

1 **(b) Definitions.**

2 * * * *

3 (2) **Active Use.** An "active use" shall mean any principal, conditional, or
4 accessory use that by its nature does not require non-transparent walls facing a public street
5 or involves the storage of goods or vehicles.

6 (A) Residential uses are considered active uses above the ground floor;
7 on the ground floor, residential uses are considered active uses only if more than 50 percent
8 of the linear residential street frontage at the ground level features walk-up dwelling units that
9 provide direct, individual pedestrian access to a public sidewalk, and are consistent with the
10 Ground Floor Residential Design Guidelines, as adopted and periodically amended by the
11 Planning Commission.

12 (B) Spaces accessory to residential uses, such as fitness rooms, ~~or~~
13 community rooms, laundry rooms, lobbies, mail rooms, or bike rooms, are considered active uses
14 only if they meet the intent of this section and ~~have access~~ directly face ~~to~~ the public sidewalk or
15 street.

16 (C) Building lobbies are considered active uses, so long as they do not
17 exceed 40 feet or 25 percent of building frontage, whichever is larger.

18 (D) Public Uses defined in Section 102 are considered active uses
19 except utility installations.

20 * * * *

21
22 **SEC. 202.2. LOCATION AND OPERATING CONDITIONS.**

23 * * * *

24 **(f) Residential Uses.** The Residential Uses listed below shall be subject to the
25 corresponding conditions:

1 **(1) Senior Housing.** ~~In order to~~ To qualify as Senior Housing, as defined in
2 Section 102 of this Code, the following definitions shall apply and shall have the same
3 meaning as the definitions in California Civil Code Sections 51.2, 51.3, and 51.4, as amended
4 from time to time. These definitions shall apply as shall all of the other provisions of Civil Code
5 Sections 51.2, 51.3, and 51.4. Any Senior Housing must also be consistent with the Fair
6 Housing Act, 42 U.S.C. §§ 3601-3631 and the Fair Employment and Housing Act, California
7 Government Code Sections 12900-12996.

8 * * * *

9 **(D) Requirements.** ~~In order to~~ To qualify as Senior Housing, the
10 proposed project must meet all of the following conditions:

11 * * * *

12 ~~(iv) Location. The proposed project must be within a 1/4 of a mile from a~~
13 ~~NC-2 (Small Scale Neighborhood Commercial District) zoned area or higher, including named~~
14 ~~Neighborhood Commercial districts, and must be located in an area with adequate access to services,~~
15 ~~including but not limited to transit, shopping, and medical facilities;~~

16 **(iv) Recording.** The project sponsor must record a Notice of
17 Special Restriction with the Assessor-Recorder that states all of the above restrictions and
18 any other conditions that the Planning Commission or Department places on the property; and

19 **(vi) Covenants, Conditions, and Restrictions.** If the property
20 will be condominiumized, the project sponsor must provide the Planning Department with a
21 copy of the Covenants, Conditions, and Restrictions ("CC&R") that will be filed with the State.

22 * * * *

23
24 **SEC. 204.1. ACCESSORY USES FOR DWELLINGS IN ALL DISTRICTS.**
25

1 No use shall be permitted as an accessory use to a dwelling unit in any District that
2 involves or requires any of the following:

3 (a) Any construction features or alterations not residential in character;

4 (b) The use of more than one-third of the total floor area of the dwelling unit, except
5 in the case of accessory off-street parking and loading or Neighborhood Agriculture as defined
6 by Section 102;

7 (c) The employment of more than two people who do ~~any person~~ not resident in the
8 dwelling unit, excluding other than a domestic worker ~~servant~~, gardener, or janitor, ~~or other person~~
9 ~~concerned in the operation or maintenance of the dwelling unit except in the case of a Cottage Food~~
10 ~~Operation, which allows the employment of one employee, not including a family member or household~~
11 ~~members of the Cottage Food Operation;~~

12 * * * *

13
14 **SEC. 206.3. HOUSING OPPORTUNITIES MEAN EQUITY - SAN FRANCISCO**
15 **PROGRAM.**

16 * * * *

17 **(c) HOME-SF Project Eligibility Requirements.** To receive the development
18 bonuses granted under this Section 206.3, a HOME-SF Project must meet all of the following
19 requirements:

20 (1) Except as limited in application by subsection (f): Provide 30% of units in
21 the HOME-SF Project as HOME-SF Units, as defined herein. The HOME-SF Units shall be
22 restricted for the Life of the Project and shall comply with all of the requirements of the
23 Procedures Manual authorized in Section 415 except as otherwise provided herein. Twelve
24 percent of HOME-SF Units that are Owned Units shall have an average affordable purchase
25 price set at 80% of Area Median Income; 9% shall have an average affordable purchase price

1 set at 105% of Area Median Income; and 9% shall have an average affordable purchase price
2 set at 130% of Area Median Income. Twelve percent of HOME-SF Units that are rental units
3 shall have an average affordable rent set at 55% of Area Median Income; 9% shall have an
4 average affordable rent set at 80% of Area Median Income; and 9% shall have an average
5 affordable rent set at 110% of Area Median Income. All HOME-SF Units must be marketed at
6 a price that is at least 20% less than the current market rate for that unit size and
7 neighborhood, and MOHCD shall reduce the Area Median Income levels set forth herein in
8 order to maintain such pricing. As provided ~~for~~ in subsection (e), the Planning Department and
9 MOHCD shall amend the Procedures Manual to provide policies and procedures for the
10 implementation, including monitoring and enforcement, of the HOME-SF Units;

11 ~~(2) Demonstrate to the satisfaction of the Environmental Review Officer that the~~
12 ~~HOME-SF Project does not:~~

13 ~~(A) cause a substantial adverse change in the significance of an historic~~
14 ~~resource as defined by California Code of Regulations, Title 14, Section 15064.5;~~

15 ~~(B) create new shadow in a manner that substantially affects outdoor recreation~~
16 ~~facilities or other public areas; and~~

17 ~~(C) alter wind in a manner that substantially affects public areas;~~

18 (32) All HOME-SF units shall be no smaller than the minimum unit sizes set
19 forth by the California Tax Credit Allocation Committee as of May 16, 2017. In addition,
20 notwithstanding any other provision of this Code, HOME-SF projects shall provide a minimum
21 dwelling unit mix of (A) at least 40% two and three bedroom units, including at least 10% three
22 bedroom units, or (B) any unit mix which includes some three bedroom or larger units such
23 that 50% of all bedrooms within the HOME-SF Project are provided in units with more than
24 one bedroom. Larger units should be distributed on all floors, and prioritized in spaces
25 adjacent to open spaces or play yards. Units with two or three bedrooms are encouraged to

1 incorporate family friendly amenities. Family friendly amenities shall include, but are not
2 limited to, bathtubs, dedicated cargo bicycle parking, dedicated stroller storage, open space
3 and yards designed for use by children. HOME-SF Projects are not eligible to modify this
4 requirement under Planning Code Section 328 or any other provision of this Code;

5 (43) Does not demolish, remove or convert ~~any~~ more than one residential units;
6 and

7 (54) Includes at the ground floor level active uses, as defined in Section 145.1,
8 at the same square footages as any neighborhood commercial uses demolished or removed,
9 unless the Planning Commission has granted an exception under Section 328.

10 * * * *

11
12 **SEC. 206.6. STATE DENSITY BONUS PROGRAM: INDIVIDUALLY REQUESTED.**

13 * * * *

14 (c) **Development Bonuses.** Any Individually Requested Density Bonus Project shall,
15 at the project sponsor's request, receive any or all of the following:

16 * * * *

17 (3) **Request for Concessions and Incentives.** In submitting a request for
18 Concessions or Incentives that are not specified in Subsection 206.5(c)(4), an applicant for an
19 Individually Requested Density Bonus Project must provide documentation described in
20 subsection (d) below in its application. Provided that the Planning Commission delegates authority
21 to review and approve applications for Individually Requested Density Bonus projects, ~~The Planning~~
22 ~~Director Commission shall hold a hearing and~~ shall approve the Concession or Incentive
23 requested unless ~~it~~ the Director makes written findings, based on substantial evidence that:

24 * * * *

1 (e) **Review Procedures.** Except as provided in Section 317 or where a Conditional Use
2 Authorization is required to permit a non-residential use, an application for any Individually Requested
3 Density Bonus project shall not be subject to any other underlying entitlement approvals related to the
4 proposed housing, such as a Conditional Use Authorization or a Large Project Authorization. If an
5 entitlement is otherwise required, Aan application for a Density Bonus, Incentive, Concession, or
6 waiver shall be acted upon concurrently with the application for the required entitlement ~~other~~
7 ~~permits related to the Housing Project.~~

8 (1) Before approving an application for a Density Bonus, Incentive,
9 Concession, or waiver, for any Individually Requested Density Bonus Project, the Planning
10 Commission or Director shall make the following findings as applicable.

11 * * * *

12 (2) If the findings required by subsection (~~ae~~)(1) of this Section cannot be
13 made, the Planning Commission or Director may deny an application for a Concession,
14 Incentive, waiver or modification only if ~~it~~ the Director makes one of the following written
15 findings, supported by substantial evidence:

16 * * * *

18 **SEC. 207. DWELLING UNIT DENSITY LIMITS.**

19 * * * *

20 (c) **Exceptions to Dwelling Unit Density Limits.** An exception to the calculations
21 under this Section 207 shall be made in the following circumstances:

22 * * * *

23 (3) **Double Density for Senior Housing in RH, RM, RC, and NC**
24 **Districts.** Senior Housing, as defined in and meeting all the criteria and conditions defined in
25

Section 102 of this Code, is permitted up to twice the dwelling unit density otherwise permitted for the District.

~~(A) Projects in RC Districts or within one-quarter of a mile from an RC or NC-2 (Small Scale Neighborhood Commercial District) zoned area or higher, including Named Commercial Districts, and located in an area with adequate access to services including but not limited to transit, shopping and medical facilities, shall be principally permitted.~~

~~(B) Projects in RH and RM Districts located more than one-quarter of a mile from an RC or NCD-2 (Small Scale Neighborhood Commercial District) zoned area or higher, including Named Commercial Districts, shall require Conditional Use authorization.~~

* * * *

(8) Residential Density Exception in RH Districts.

(A) Density Exception. Projects located in RH Districts that are not seeking or receiving a density bonus under the provisions of Planning Code Sections 206.5 or 206.6 shall receive an exception from residential density limits in the following amounts for up to four dwelling units per lot, excluding Corner Lots, or up to six dwelling units per lot in Corner Lots, not inclusive of any Accessory Dwelling Units as permitted under this Section 207, provided that the project dwelling units meets the requirements set forth in this subsection (c)(8):

(i) Up to four units per lot, excluding Corner Lots.

(ii) Up to six units for Corner Lots

(iii) Up to one Group Housing Room per 415 sq. ft. of lot area in RH-1, RH-1(D), and RH-1(S) zoning districts.

(B) Eligibility of Historic Resources. To receive the density exception authorized under this subsection (c)(8), a project must demonstrate to the satisfaction of the Environmental Review Officer that it does not cause a substantial adverse change in the

1 significance of an historic resource as defined by California Code of Regulations, Title 14,
2 Section 15064.5, as may be amended from time to time. Permit fees for pre-application
3 Historic Resource Assessments shall be waived for property owners who apply to obtain a
4 density exception under this subsection (c)(8), if they sign an affidavit stating their intent to
5 reside on the property for a period of three years after the issuance of the Certificate of Final
6 Completion and Occupancy for the new dwelling units. Permit fees for Historic Resource
7 Determinations shall not be waived.

8 **(C) Applicable Standards.** ~~Projects utilizing the density exception of this~~
9 ~~subsection (c)(8) and that provide at least four dwelling units shall be subject to a minimum Rear Yard~~
10 ~~requirement of the greater of 30% of lot depth or 15 feet. All other~~ building standards shall apply in
11 accordance with the applicable zoning district as set forth in Section 209.1.

12 **(D) Unit Replacement Requirements.** Projects utilizing the density
13 exception of this subsection (c)(8) shall comply with the requirements of Section 66300(d) of
14 the California Government Code, as may be amended from time to time, including but not
15 limited to requirements to produce at least as many dwelling units as the projects would
16 demolish; to replace all protected units; and to offer existing occupants of any protected units
17 that are lower income households relocation benefits and a right of first refusal for a
18 comparable unit, as those terms are defined therein. In the case of Group Housing, projects
19 utilizing this density exception shall provide at least as many bedrooms as the project would demolish.

20 **(E) Applicability of Rent Ordinance; Regulatory Agreements.** Project
21 sponsors of projects utilizing the density exception of this subsection (c)(8) shall enter into a
22 regulatory agreement with the City, subjecting the new units or Group Housing rooms created
23 pursuant to the exception to the San Francisco Residential Rent Stabilization and Arbitration
24 Ordinance (Chapter 37 of the Administrative Code), as a condition of approval of the density
25 exception ("Regulatory Agreement"). At a minimum, the Regulatory Agreement shall contain

1 the following: (i) a statement that the new units created pursuant to the density exception are
2 not subject to the Costa-Hawkins Rental Housing Act (California Civil Code Sections
3 1954.50 *et seq.*) because, under Section 1954.52(b), the property owner has entered into and
4 agreed to the terms of this agreement with the City in consideration of an exception from
5 residential density limits of up to four dwelling units per lot, or up to six units per lot in Corner
6 Lots, or other direct financial contribution or other form of assistance specified in California
7 Government Code Sections 65915 *et seq.*; (ii) a description of the exception of residential
8 density or other direct financial contribution or form of assistance provided to the property
9 owner; and (iii) a description of the remedies for breach of the agreement and other provisions
10 to ensure implementation and compliance with the agreement. The property owner and the
11 Planning Director (or the Director's designee), on behalf of the City, will execute the
12 Regulatory Agreement, which shall be reviewed and approved by the City Attorney's Office.
13 The Regulatory Agreement shall be executed prior to the City's issuance of the First
14 Construction Document for the project, as defined in Section 107A.13.1 of the San Francisco
15 Building Code. Following execution of the Regulatory Agreement by all parties and approval
16 by the City Attorney, the Regulatory Agreement or a memorandum thereof shall be recorded
17 to the title records in the Office of the Assessor-Recorder against the property and shall be
18 binding on all future owners and successors in interest.

19 **(F) Unit Sizes.** At least one of the dwelling units resulting from the
20 density exception shall have two or more bedrooms or shall have a square footage equal to
21 no less than 1/3 of the floor area of the largest unit on the lot. *This provision does not apply to*
22 *projects where all of the units qualify as Group Housing.*

23 ~~**(G) Eligibility.** To receive the density exception authorized under this~~
24 ~~*subsection (c)(8), property owners must demonstrate that they have owned the lot for which they are*~~
25 ~~*seeking the density exception for a minimum of one year prior to the time of the submittal of their*~~

~~application. For the purposes of establishing eligibility to receive a density exception according to subsection (c)(8)(B), a property owner who has inherited the subject lot, including any inheritance in or through a trust, from a blood, adoptive, or step family relationship, specifically from either (i) a grandparent, parent, sibling, child, or grandchild, or (ii) the spouse or registered domestic partner of such relations, or (iii) the property owner's spouse or registered domestic partner (each an "Eligible Predecessor"), may add an Eligible Predecessor's duration of ownership of the subject lot to the property owner's duration of ownership of the same lot.~~

(HG) Annual Report on Housing Affordability, Racial Equity, and Language Access Goals. To help the City evaluate whether the implementation of this Section 207(c)(8) comports with the City's housing affordability, racial equity, and language access goals, each year the Planning Department, in consultation with other City departments including the Department of Building Inspection, the Rent Board, and the Office of the Assessor-Recorder, shall prepare a report addressing the characteristics and demographics of the applicants to and participants in the program established in said section; the number of units permitted and constructed through this program; the geographic distribution, affordability, and construction costs of those units; and the number of tenants that vacated or were evicted from properties as a result of the permitting or construction of units through this program ("Affordability and Equity Report"). The Affordability and Equity Report shall be included and identified in the annual Housing Inventory Report. The Planning Department shall prepare the report utilizing applicant data that has been provided by program applicants voluntarily and anonymously, and separate from the submittal of an application for a density exception. An applicant's decision to provide or decline to provide the information requested by the Planning Department in order to prepare the report shall have no bearing on the applicant's receipt of a density exception.

~~(19) During a declared shelter crisis, Homeless Shelters that satisfy the provisions of California Government Code Section 8698.4(a)(1) shall be P, principally permitted and may be permanent. Otherwise, Homeless Shelter uses are permitted only with Conditional Use authorization and only if each such use (a) would operate for no more than four years, and (b) would be owned or leased by, operated by, and/or under the management or day-to-day control of the City and County of San Francisco. If such a use is to be located within a building or structure, the building or structure must be either (a) preexisting, having been completed and previously occupied by a use other than a Homeless Shelter, or (b) temporary. Other than qualifying Homeless Shelters constructed during a declared~~

1 ~~shelter crisis, construction of a permanent structure or building to be used as a Homeless Shelter is not~~
2 ~~permitted.~~

4 **SEC. 249.77. CORONA HEIGHTS LARGE RESIDENCE SPECIAL USE DISTRICT.**

5 * * * *

6 (g) The Conditional Use requirement established by subsections (d)-(f) of this Section
7 249.77 shall sunset on December 31, 2024. After that date, no residential development or
8 expansion of an existing Residential Building shall be permitted in the Corona Heights Large
9 Residence Special Use District that would result in any Dwelling Unit exceeding 3,000 square
10 feet of Gross Floor Area.

11
12 **SEC. 249.92. CENTRAL NEIGHBORHOODS LARGE RESIDENCE SPECIAL USE**
13 **DISTRICT.**

14 (a) General. A special use district entitled the "Central Neighborhoods Large
15 Residence Special Use District," consisting of the area within a perimeter established by
16 Waller Street, Steiner Street, Duboce Avenue, Sanchez Street, 16th Street, Guerrero Street,
17 20th Street, Valencia Street, Tiffany Avenue, 29th Street, San Jose Avenue, Mission Street,
18 Alemany Boulevard, Tingley Street, Monterey Boulevard, Joost Avenue, Congo Street,
19 Bosworth Street, O'Shaughnessy Boulevard, Portola Drive, Twin Peaks Boulevard, Clayton
20 Street, Ashbury Street, Frederick Street, Buena Vista Avenue West, Haight Street, and Buena
21 Vista Avenue East, is hereby established for the purposes set forth in subsection (b), below.
22 The boundaries of the Central Neighborhoods Large Residence Special Use District are
23 designated on Sectional Map Nos. ZN06, ZN07, ZN11, and ZN12 of the Zoning Map of the
24 City and County of San Francisco.

1 **(b) Purpose.** To protect and enhance existing neighborhood context, encourage new
2 infill housing at compatible densities and scale, and provide for thorough assessment of
3 proposed large single-family residences that could adversely impact neighborhood character
4 and affordable housing opportunities, the following controls, set forth in subsections (c)-(g),
5 below, are imposed in the Central Neighborhoods Large Residence Special Use District.

6 **(c) Applicability.**

7 (1) Except as provided in this subsection (c), the provisions of this Section
8 249.92 apply to all lots in Residential, House (RH) zoning districts located within the Central
9 Neighborhoods Large Residence Special Use District, in those instances where a complete
10 Development Application was submitted on or after January 1, 2022.

11 (2) All applicable provisions of the Planning Code shall continue to apply to
12 Residential Buildings, except as otherwise stated in this Section 249.92.

13 (3) The provisions of this Section 249.92 shall not apply to any lot within the
14 Corona Heights Large Residence Special Use District.

15 **(d) Maximum Size of Dwelling Units.** For all lots zoned RH within the Central
16 Neighborhoods Large Residence Special Use District, no residential development or
17 expansion of an existing Residential Building shall be permitted that would result in any
18 Dwelling Unit exceeding 4,000 square feet of Gross Floor Area, except where the total
19 increase of Gross Floor Area of any existing Dwelling Unit is less than 15%.

20 **(e) Conditional Use Authorizations.** For all lots zoned RH within the Central
21 Neighborhoods Large Residence Special Use District, a Conditional Use authorization shall
22 be required for any residential development or expansion of a Residential Building that would
23 result in any Dwelling Unit with a Gross Floor Area exceeding the equivalent of a 1:1.2 Floor
24 Area Ratio, or would result in any Dwelling Unit exceeding 3,000 square feet of Gross Floor
25

1 Area, except where the total increase of gross floor area of any existing Dwelling Unit is less
2 than 15%.

3 (f) **Conditional Use Findings.** In addition to the criteria outlined in Planning Code
4 Section 303(c)(1), in acting upon an application for Conditional Use authorization within the
5 Central Neighborhoods Large Residence Special Use District the Planning Commission shall
6 also consider whether facts are presented to establish, based on the record before the
7 Commission, that the following criteria are met:

8 (1) the proposed project is contextual with the neighborhood, meets applicable
9 Residential Design Guidelines, and seeks to retain any existing design elements;

10 (2) the proposed project does not remove Rental Units subject to the
11 Residential Rent Stabilization and Arbitration Ordinance;

12 (3) the proposed project increases the number of Dwelling Units on the lot;

13 (4) no Dwelling Unit is less than one-third the gross floor area of the largest
14 Dwelling Unit in a Residential Building;

15 (5) the proposed project does not negatively impact the historic integrity of the
16 property or any existing structure on a lot that is listed in or formally eligible for listing in the
17 California Register of Historic Resources, or has been determined to appear eligible for listing
18 in the California Register of Historic Resources or to qualify as a "historical resource" under
19 CEQA; and

20 (6) the project does not negatively impact the historic integrity of any existing
21 structure on a lot that has been adopted as a local landmark or a contributor to a local historic
22 district under Articles 10 or 11 of this Code, or would render the property ineligible for historic
23 designation as an individual or contributing resource.

24 (g) **Calculation of Gross Floor Area.** For the purposes of this Section 249.92, the
25 following shall apply in the calculation of total Gross Floor Area:

1 (1) Gross Floor Area shall have the meaning set forth in Planning Code Section
2 102, except that floor space dedicated to accessory parking shall be included; and

3 (2) Any increase in Gross Floor Area shall include (A) all expansions of the
4 Residential Building for which a building permit was issued within the previous 10 years,
5 except that expansions for which building permits were issued prior to January 1, 2022 shall
6 not be considered, and (B) any Gross Floor Area resulting from construction performed
7 without a validly issued permit regardless of the date of construction.

8 (h) The Conditional Use requirement established by subsections (e)-(f) of this Section
9 249.92 shall sunset on December 31, 2024. After that date, for all lots zoned RH within the
10 Central Neighborhoods Large Residence Special Use District, no residential development or
11 expansion of an existing Residential Building shall be permitted that would result in any
12 Dwelling Unit exceeding 3,000 square feet of Gross Floor Area, except where the total
13 increase of gross floor area of any existing Dwelling Unit is less than 15%.

14
15 **SEC. 249.97. PRIORITY EQUITY GEOGRAPHIES SPECIAL USE DISTRICT.**

16 (a) General. A Special Use District entitled the Priority Equity Geographies Special Use
17 District (SUD) is hereby established, the boundaries of which are designated on Sectional Maps SU01,
18 SU02, SU07, SU08, SU09, SU10, SU11, SU12, and SU13, of the Zoning Maps of the City and County
19 of San Francisco.

20 (b) Purpose. The Priority Equity Geographies SUD is comprised of areas or neighborhoods
21 with a higher density of vulnerable populations. The 2022 Update of the Housing Element of the
22 General Plan (2022 Housing Element) identifies several neighborhoods in the City that qualify as
23 Priority Equity Geographies, based on the Department of Public Health's Community Health Needs
24 Assessment. The 2022 Housing Element encourages targeted direct investment in these areas, and
25 identifies them as requiring improved access to well-paid jobs and business ownership; where the City

1 needs to expand permanently affordable housing investment; where zoning changes must be tailored to
2 serve the specific needs of the communities that live there; and where programs that stabilize
3 communities and meet community needs need to be prioritized. The purpose of the Priority Equity
4 Geographies SUD is to help implement the goals and policies outlined in the 2022 Housing Element.

5 (c) Controls. In addition to all other applicable provisions of the Planning Code, the specific
6 controls applicable in the Priority Equity Geographies SUD are set forth in Sections 311 and 317.

7
8 **~~SEC. 253. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES EXCEEDING A~~**
9 **~~HEIGHT OF 40 FEET IN RH DISTRICTS, OR MORE THAN 50 FEET IN RM AND RC~~**
10 **~~DISTRICTS.~~**

11 ~~(a) Notwithstanding any other provision of this Code to the contrary, in any RH, RM, or RC~~
12 ~~District, established by the use district provisions of Article 2 of this Code, wherever a height limit of~~
13 ~~more than 40 feet in a RH District, or more than 50 feet in a RM or RC District, is prescribed by the~~
14 ~~height and bulk district in which the property is located, any building or structure exceeding 40 feet in~~
15 ~~height in a RH District, or 50 feet in height in a RM or RC District, shall be permitted only upon~~
16 ~~approval by the Planning Commission according to the procedures for conditional use approval in~~
17 ~~Section 303 of this Code; provided, however, that a building over 40 feet in height in a RM or RC~~
18 ~~District with more than 50 feet of street frontage on the front façade is subject to the conditional use~~
19 ~~requirement.~~

20 ~~(b) Commission Review of Proposals.~~

21 ~~(1) In reviewing any such proposal for a building or structure exceeding 40 feet in~~
22 ~~height in a RH District, 50 feet in height in a RM or RC District, or 40 feet in a RM or RC District~~
23 ~~where the street frontage of the building is more than 50 feet the Planning Commission shall consider~~
24 ~~the expressed purposes of this Code, of the RH, RM, or RC Districts, and of the height and bulk~~
25 ~~districts, set forth in Sections 101, 209.1, 209.2, 209.3, and 251 hereof, as well as the criteria stated in~~

1 ~~Section 303(c) of this Code and the objectives, policies and principles of the General Plan, and may~~
2 ~~permit a height of such building or structure up to but not exceeding the height limit prescribed by the~~
3 ~~height and bulk district in which the property is located.~~

4 ~~(2) In reviewing a proposal for a building exceeding 50 feet in RM and RC districts, the~~
5 ~~Planning Commission may require that the permitted bulk and required setbacks of a building be~~
6 ~~arranged to maintain appropriate scale on and maximize sunlight to narrow streets (rights-of-way 40~~
7 ~~feet in width or narrower) and alleys.~~

8
9 **SEC. 253. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES EXCEEDING**
10 **A HEIGHT OF 40 FEET IN RH DISTRICTS IN THE FAMILY HOUSING OPPORTUNITY**
11 **SPECIAL USE DISTRICT.**

12 (a) Notwithstanding any other provision of this Code to the contrary, in any RH District
13 in the Family Housing Opportunity Special Use District (Section 249.94), established by the
14 use district provisions of Article 2 of this Code, wherever a height limit of more than 40 feet is
15 prescribed by the height and bulk district in which the property is located, any building or
16 structure exceeding 40 feet in height shall be permitted only upon approval by the Planning
17 Commission according to the procedures for conditional use approval in Section 303 of this
18 Code.

19 (b) **Commission Review of Proposals.** In reviewing any such proposal for a
20 building or structure exceeding 40 feet in height in a RH District in the Family Housing
21 Opportunity Special Use District, the Planning Commission shall consider the expressed
22 purposes of this Code, of the RH Districts, and of the height and bulk districts, set forth in
23 Sections 101, 209.1, 209.2, 209.3, and 251 hereof, as well as the criteria stated in Section
24 303(c) of this Code and the objectives, policies, and principles of the General Plan, and may
25

1 permit a height of such building or structure up to but not exceeding the height limit prescribed
2 by the height and bulk district in which the property is located.

3
4 ***SEC. 253.1. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES IN THE***
5 ***BROADWAY NEIGHBORHOOD COMMERCIAL DISTRICT.***

6 *(a) In the 65-A-1 Height and Bulk District, as designated on Sectional Map HT-01 of the*
7 *Zoning Map, any new or expanding building or structure exceeding 40 feet in height shall be permitted*
8 *as a Conditional Use only upon approval by the Planning Commission. The height of the building or*
9 *structure so approved by the Planning Commission shall not exceed 65 feet.*

10 *(b) In authorizing any such proposal for a building or structure exceeding 40 feet in height, the*
11 *City Planning Commission shall find, in addition to the criteria of Section 303(c), that the proposal is*
12 *consistent with the expressed purposes of this Code, of the Broadway Neighborhood Commercial*
13 *District, and of the height and bulk districts, set forth in Sections 101, 714, and 251 of this Code, and*
14 *that the following criteria are met:*

15 *(1) The height of the new or expanding development will be compatible with the*
16 *individual neighborhood character and the height and scale of the adjacent buildings.*

17 *(2) The height and bulk of the new or expanding development will be designed to allow*
18 *maximum sun access to nearby parks, plazas, and major pedestrian corridors.*

19 *(3) The architectural and cultural character and features of existing buildings shall be*
20 *preserved and enhanced. The Historic Preservation Commission or its staff shall review any proposed*
21 *alteration of historic resources and must determine that such alterations comply with the Secretary of*
22 *Interior's Standards for the Treatment of Historic Properties before the City approves any permits to*
23 *alter such buildings. For purposes of this section, "historic resources" shall include Article 10*
24 *Landmarks and buildings located within Article 10 Historic Districts, buildings and districts identified*
25 *in surveys adopted by the City, buildings listed or potentially eligible for individual listing on the*

1 ~~National or California Registers, and buildings located within listed or potentially eligible National~~
2 ~~Register or California Register historic districts. The Planning Department shall also consult materials~~
3 ~~available through the California Historical Resources Information System (CHRIS) and Inventory to~~
4 ~~determine eligibility.~~

5
6 **~~SEC. 253.2. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES IN THE VAN~~**
7 **~~NESS SPECIAL USE DISTRICT.~~**

8 ~~(a) **Setbacks.** In the Van Ness Special Use District, as designated on Sectional Map 2SU of the~~
9 ~~Zoning Map, any new construction exceeding 50 feet in height or any alteration that would cause a~~
10 ~~structure to exceed 50 feet in height shall be permitted only as a conditional use upon approval by the~~
11 ~~Planning Commission according to Section 303 of this Code. When acting on any conditional use~~
12 ~~application pursuant to this Section, the City Planning Commission may impose the following~~
13 ~~requirements in addition to any others deemed appropriate:~~

14 ~~(1) **On Van Ness Avenue.** The Planning Commission may require a setback of up to 20~~
15 ~~feet at a height of 50 feet or above for all or portions of a building if it determines that this requirement~~
16 ~~is necessary in order to maintain the continuity of the prevailing street wall height established by the~~
17 ~~existing buildings along Van Ness Avenue within two blocks of the proposed building.~~

18 ~~(2) **On Pine, Sacramento, Clay, Washington and California Streets.** The Planning~~
19 ~~Commission may require a setback of up to 15 feet for all or a portion of a building on any lot abutting~~
20 ~~Pine, Sacramento, Clay, California and Washington Streets which lot is located within the Van Ness~~
21 ~~Special Use District in order to preserve the existing view corridors.~~

22 ~~(3) **On Narrow Streets and Alleys.** The Planning Commission may require that the~~
23 ~~permitted bulk and required setbacks of a building be arranged to maintain appropriate scale on and~~
24 ~~maximize sunlight to narrow streets (rights-of-way 40 feet in width or narrower) and alleys.~~

1 **~~SEC. 253.3. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES ABOVE 26~~**
2 **~~FEET NOT EXCEEDING 40 FEET IN THE NC-S/LAKESHORE PLAZA SPECIAL USE~~**
3 **~~DISTRICT.~~**

4 ~~(a) In the 26-40-X Height and Bulk District, as designated on Sectional Map HT13 of the~~
5 ~~Zoning Map, any new or expanding building or structure exceeding 26 feet in height shall be permitted~~
6 ~~as a Conditional Use only upon approval by the Planning Commission. The height of any building or~~
7 ~~structure so approved by the Planning Commission shall not exceed 40 feet.~~

8 ~~(b) In authorizing any such proposal for a building or structure exceeding 26 feet in height, the~~
9 ~~Planning Commission shall find that, in addition to the criteria of Section 303(c), the proposal is~~
10 ~~consistent with the expressed purposes of this Code, the NC-S District, the Lakeshore Plaza Special~~
11 ~~Use District, and the height and bulk districts as set forth respectively in Sections 101, 713, 780 and~~
12 ~~251 of this Code.~~

13
14 **SEC. 305.1. REQUESTS FOR REASONABLE MODIFICATION – RESIDENTIAL**
15 **USES.**

16 * * * *

17 ~~(d) **Request for Administrative Review Reasonable Modification—No Hearing.** In an~~
18 ~~effort to~~ To expedite the processing and resolution of reasonable modification requests, any
19 request under Section 305.1 ~~that is consistent with the criteria in this section~~ may receive
20 administrative review and approval and ~~Requests for modifications that meet the requirements for~~
21 ~~administrative review does~~ not require public notice under Section 306 of this Code.

22 ~~(1) **Parking, Where No Physical Structure Is Proposed.** One parking space may be~~
23 ~~considered for an administrative reasonable modification provided that the parking space is necessary~~
24 ~~to achieve the accommodation and that property does not already include a parking space. Exceptions~~
25 ~~may be considered from rear yard and the front setback requirements if necessary to accommodate the~~

1 ~~parking space. In reviewing an administrative reasonable modification request for parking, the Zoning~~
2 ~~Administrator is authorized to allow the parking space for up to five years, at the end of which period~~
3 ~~the applicant may renew the temporary use for additional five-year periods.~~

4 ~~(2) **Access Ramps.** One or more access ramps, defined in Building Code Section 1114A~~
5 ~~may be considered for an administrative reasonable modification provided that the access ramp is~~
6 ~~designed and constructed to meet the accessibility provisions in either the California Building Code or~~
7 ~~the California Historical Building Code and is easily removable when the ramp(s) are no longer~~
8 ~~needed for the requested modification.~~

9 ~~(3) **Elevators.** One elevator, with dimensions defined in Building Code Section 1124A,~~
10 ~~may be considered for an administrative reasonable modification provided that the elevator structure is~~
11 ~~not visible from the public right of way and is set back a minimum of 10 feet from the property line, and~~
12 ~~that the elevator is necessary to access residential uses of the building and to achieve the~~
13 ~~accommodation requested.~~

14 ~~(4) **Additional Habitable Space.** Additional habitable space may be considered for an~~
15 ~~administrative reasonable modification provided that the additional habitable space does not result in~~
16 ~~the addition of a new dwelling unit or require expansion beyond the permitted building envelope.~~

17 ~~(e) **All Other Requests for Reasonable Modification—Zoning Administrator Review and**~~
18 ~~**Approval.**~~

19 ~~(1) **Standard Variance Procedure—With Hearing.** Requests for reasonable~~
20 ~~modifications that do not fall within subsection (d) shall be considered by the Zoning Administrator,~~
21 ~~who will make the final decision through the existing variance process described in Section 305.~~

22 ~~(2) **Public Notice of a Request for Reasonable Modification.** Notice for reasonable~~
23 ~~modifications that fall with subsection (e)(1) are subject to the notice requirements of Section 333 of~~
24 ~~this Code. If the request for reasonable modification is part of a larger application, then the noticing~~
25 ~~can be combined.~~

1 **(~~f~~e) Determination.**

2 (1) **Zoning Administrator Authority.** The Zoning Administrator is authorized
3 to consider and act on requests for reasonable modification, ~~whether under Subsection (d) or~~
4 ~~Subsection (e).~~ The Zoning Administrator may conditionally approve or deny a request. In
5 considering requests for reasonable modification under this Section 305.1, the Zoning
6 Administrator shall consider the factors in ~~S~~subsection (~~f~~e)(2).

7 (2) **Criteria for Modification.** When reviewing a request for reasonable
8 modification, the Zoning Administrator shall consider whether:

9 (A) the requested modification is requested by or on the behalf of one or
10 more individuals with a disability protected under federal and state fair housing laws;

11 (B) the requested modification will directly enable the individual to
12 access the individual's residence;

13 (C) the requested modification is necessary to provide the individual with
14 a disability an equal opportunity to use and enjoy a dwelling;

15 (D) there are alternatives to the requested modification that would
16 provide an equivalent level of benefit;

17 (E) the requested modification will not impose an undue financial or
18 administrative burden on the City as "undue financial or administrative burden" is defined
19 under federal and state fair housing laws.

20 (F) the requested modification will, under the specific facts of the case,
21 result in a fundamental alteration in the nature of the Planning Code or General Plan, as
22 "fundamental alteration" is defined under federal and state fair housing laws.

23 (G) the requested modification will, under the specific facts of the case,
24 result in a direct threat to the health or safety of others or cause substantial physical damage
25 to the property of others.

1 (3) **Residential Design Guideline Review.** If the proposed project is in a zoning
2 district that requires residential design guideline review, the Department shall complete the
3 design review and make appropriate recommendations, while also accommodating the
4 reasonable modification. Approvals are subject to compliance with all other applicable zoning
5 or building regulations.

6 (4) **Historic Resource Review.** If the proposed project would affect a building that
7 is listed in or eligible for listing in a local, state, or federal historic resource register, then the
8 modifications, either through the administrative reasonable modification process or the
9 standard reasonable modification variance procedure, will be reviewed by the Planning
10 Department's Historic Preservation Technical Specialists to ensure conformance with the
11 Secretary of the Interior Standards for the Rehabilitation of Historic Properties.

12 (5) **Written Decision.** Upon issuing a written decision either granting or denying the
13 requested modification in whole or in part, the Zoning Administrator shall forthwith transmit a
14 copy thereof to the applicant. The action of the Zoning Administrator shall be final and shall
15 become effective 10 days after the date of the written decision except upon the filing of a valid
16 appeal to the Board of Appeals as provided in Section 308.2.

17 (g) **Fees.** The Department may charge time and materials costs incurred if required
18 to recover the Department's costs for providing services. ~~The fee for a reasonable~~
19 ~~modification request is the fee for a variance set forth in Section 352(b) of this Code.~~ If an
20 applicant can demonstrate financial hardship, the Department may waive or reduce the fee
21 pursuant to Section 350(j) ~~352(e)(2)~~ of this Code.

22 **SEC. 311. PERMIT REVIEW PROCEDURES.**

23 (a) Purpose. The purpose of this Section 311 is to establish procedures for reviewing
24 building permit applications within the Priority Equity Geographies SUD (Section 249.97) and RH
25 Districts in the Family Housing Opportunity Special Use District (Section 249.94) to determine

1 compatibility of the proposal with the neighborhood and for providing notice to property
2 owners and residents on the site and neighboring the site of the proposed project and to
3 interested neighborhood organizations, so that concerns about a project may be identified and
4 resolved during the review of the permit.

5 (b) Applicability. Within the Priority Equity Geographies SUD and RH Districts in the
6 Family Housing Opportunity Special Use District~~Except as indicated in this subsection (b), all~~
7 building permit applications in Residential, NC, NCT, and Eastern Neighborhoods Mixed Use
8 Districts for ~~a change of use; establishment of a Micro Wireless Telecommunications Services Facility;~~
9 ~~establishment of a Formula Retail Use;~~ demolition, new construction, or alteration of buildings;
10 ~~and the removal of an authorized or unauthorized residential unit,~~ shall be subject to the notification
11 and review procedures required by this Section 311. ~~In addition, with the exception of~~
12 ~~Grandfathered MCDs converting to Cannabis Retail use pursuant to Section 190(a), all building permit~~
13 ~~applications that would establish Cannabis Retail or Medical Cannabis Dispensary uses, regardless of~~
14 ~~zoning district, shall be subject to the notification and review procedures required by this Section 311.~~
15 ~~Notwithstanding the foregoing or any other requirement of this Section 311, a change of use to a Child~~
16 ~~Care Facility, as defined in Section 102, shall not be subject to the review requirements of this Section~~
17 ~~311.~~ Notwithstanding the foregoing or any other requirement of this Section 311, building
18 permit applications to construct an Accessory Dwelling Unit pursuant to Section 207(c)(6)
19 shall not be subject to the notification or review requirements of this Section 311.
20 ~~Notwithstanding the foregoing or any other requirement of this Section 311, a change of use to a~~
21 ~~principally permitted use in an NC or NCT District, or in a limited commercial use or a limited corner~~
22 ~~commercial use, as defined in Sections 186 and 231, respectively, shall not be subject to the review or~~
23 ~~notice requirements of this Section 311. Notwithstanding the foregoing or any other requirement of this~~
24 ~~Section 311, building permit applications to change any existing Automotive Use to an Electric Vehicle~~
25 ~~Charging Location shall not be subject to the review or notification requirements of this Section 311.~~

1 ~~(1) Change of Use. Subject to the foregoing provisions of subsection (b), for the~~
2 ~~purposes of this Section 311, a change of use is defined as follows:~~

3 ~~(A) Residential, NC, and NCT Districts. For all Residential, NC, and NCT~~
4 ~~Districts, a change of use is defined as a change to, or the addition of, any of the following land uses as~~
5 ~~defined in Section 102 of this Code: Adult Business, Bar, Cannabis Retail, General Entertainment,~~
6 ~~Group Housing, Limited Restaurant, Liquor Store, Massage Establishment, Medical Cannabis~~
7 ~~Dispensary, Nighttime Entertainment, Outdoor Activity Area, Post-Secondary Educational Institution,~~
8 ~~Private Community Facility, Public Community Facility, Religious Institution, Residential Care~~
9 ~~Facility, Restaurant, School, Tobacco Paraphernalia Establishment, Trade School, and Wireless~~
10 ~~Telecommunications Facility. A change of use from a Restaurant to a Limited Restaurant shall not be~~
11 ~~subject to the provisions of this Section 311. Any accessory massage use in the Ocean Avenue~~
12 ~~Neighborhood Commercial Transit District shall be subject to the provisions of this Section 311. A~~
13 ~~change of use to a principally permitted use in an NC or NCT District, or in a limited commercial use~~
14 ~~or a limited corner commercial use, as defined in Sections 186 and 231, respectively, shall not be~~
15 ~~subject to the provisions of this Section 311.~~

16 ~~(i) Exception. Notwithstanding subsection 311(b)(1)(A), in the~~
17 ~~geographic areas identified in subsection 311(b)(1)(A)(ii), building permit applications for a change of~~
18 ~~use to the following uses shall be excepted from the provisions of subsections 311(d) and 311(e): Bar,~~
19 ~~General Entertainment, Limited Restaurant, Liquor Store, Massage Establishment, Nighttime~~
20 ~~Entertainment, Outdoor Activity Area, Private Community Facility, Public Community Facility,~~
21 ~~Restaurant, and Tobacco Paraphernalia Establishment.~~

22 ~~(ii) Subsection 311(b)(1)(A)(i) shall apply to Neighborhood Commercial~~
23 ~~Districts and Limited Commercial Uses in the following geographic areas:~~

24 ~~Area 1: shall comprise all of that portion of the City and County~~
25 ~~commencing at the point of the intersection of the shoreline of the Pacific Ocean and a straight line~~

1 ~~extension of Lincoln Way, and proceeding easterly along Lincoln Way to 17th Avenue, and proceeding~~
2 ~~southerly along 17th Avenue to Judah Street, and proceeding westerly along Judah Street to 19th~~
3 ~~Avenue, and proceeding southerly along 19th Avenue to Sloat Boulevard, and proceeding westerly~~
4 ~~along Sloat Boulevard, and following a straight-line extension of Sloat Boulevard to the shoreline of~~
5 ~~the Pacific Ocean and proceeding northerly along said line to the point of commencement.~~

6 ~~Area 2: shall comprise all of that portion of the City and County~~
7 ~~commencing at the point of the intersection of Junipero Serra Boulevard and Brotherhood Way, and~~
8 ~~proceeding northerly along the eastern edge of Junipero Serra Boulevard to Garfield Street, and~~
9 ~~proceeding easterly along Garfield Street to Grafton Avenue, and continuing easterly along Grafton~~
10 ~~Avenue to Mount Vernon Avenue, and proceeding easterly along Mount Vernon Avenue to Hawth~~
11 ~~Street, and proceeding northerly along Hawth Street to Geneva Avenue, and proceeding easterly along~~
12 ~~Geneva Avenue to Interstate 280, and proceeding northerly along Interstate 280 to the straight-line~~
13 ~~extension of Tingley Street, and proceeding southerly along said line to Tingley Street, and proceeding~~
14 ~~southerly along Tingley Street to Alemany Boulevard, and proceeding easterly along Alemany~~
15 ~~Boulevard to Congdon Street, and proceeding southerly along Congdon Street to Silver Avenue, and~~
16 ~~proceeding easterly along Silver Avenue to Madison Street, and proceeding southerly along Madison~~
17 ~~Street to Burrows Street, and proceeding westerly along Burrows Street to Prague Street, and~~
18 ~~proceeding southerly along Prague Street to Persia Avenue, and proceeding westerly along Persia~~
19 ~~Avenue to Athens Street, and proceeding southerly along Athens Street to Geneva Avenue, and~~
20 ~~proceeding easterly along Geneva Avenue to the intersection of Geneva Avenue and Carter Street, and~~
21 ~~proceeding westerly along the southeastern boundary of Census Tract 0263.02, Block 3005 to the San~~
22 ~~Francisco/San Mateo county border, and proceeding westerly along the San Francisco/San Mateo~~
23 ~~county border to Saint Charles Avenue, and proceeding northerly along Saint Charles Avenue to~~
24 ~~Interstate 280, and proceeding northeasterly along Interstate 280 to a northerly straight-line extension~~
25 ~~to Orizaba Avenue, and proceeding northerly along said line to Alemany Boulevard, and proceeding~~

1 ~~westerly along Alemany Boulevard to Brotherhood Way, and proceeding westerly along Brotherhood~~
2 ~~Way to the point of commencement.~~

3 ~~(iii) Exception for the Ocean Avenue Neighborhood Commercial Transit~~
4 ~~District. Notwithstanding subsection 311(b)(1)(A), building permit applications in the Ocean Avenue~~
5 ~~Neighborhood Commercial Transit District for a change of use to the following uses shall be excepted~~
6 ~~from the provisions of subsections 311(d) and 311(e): General Entertainment, Limited Restaurant,~~
7 ~~Nighttime Entertainment, Outdoor Activity Area, Private Community Facility, Public Community~~
8 ~~Facility, Restaurant, and Tobacco Paraphernalia Establishment.~~

9 ~~(B) Eastern Neighborhood Mixed Use Districts. In all Eastern Neighborhood~~
10 ~~Mixed Use Districts a change of use shall be defined as a change in, or addition of, a new land use~~
11 ~~category. A “land use category” shall mean those categories used to organize the individual land uses~~
12 ~~that appear in the use tables, immediately preceding a group of individual land uses, including but not~~
13 ~~limited to the following: Residential Use; Institutional Use; Retail Sales and Service Use; Assembly;~~
14 ~~Recreation, Arts and Entertainment Use; Office Use; Live/Work Units Use; Motor Vehicle Services~~
15 ~~Use; Vehicle Parking Use; Industrial Use; Home and Business Service Use; or Other Use.~~

16 (2) **Alterations.** For the purposes of this Section 311, an alteration shall be
17 defined as an increase to the exterior dimensions of a building except those features listed in
18 Section 136(c)(1) through ~~Section 136(c)(24) and 136(c)(26), regardless of whether the feature is~~
19 ~~located in a required setback. In addition, an alteration in RH, RM, and RTO Districts shall also~~
20 ~~include the removal of more than 75% of a residential building’s existing interior wall framing or the~~
21 ~~removal of more than 75% of the area of the existing framing.~~

22 ~~(3) Micro Wireless Telecommunications Services Facilities. Building permit~~
23 ~~applications for the establishment of a Micro Wireless Telecommunications Services Facility, other~~
24 ~~than a Temporary Wireless Telecommunications Services Facility, shall be subject to the review~~
25 ~~procedures required by this Section. Pursuant to Section 205.2, applications for Temporary Wireless~~

1 ~~Telecommunications Facilities to be operated for commercial purposes for more than 90 days shall~~
2 ~~also be subject to the review procedures required by this Section.~~

3 * * * *

4
5 **SEC. 317. LOSS OF RESIDENTIAL AND UNAUTHORIZED UNITS THROUGH**
6 **DEMOLITION, MERGER, AND CONVERSION.**

7 * * * *

8 **(c) Applicability; Exemptions.**

9 (1) Within the Priority Equity Geographies Special Use District (Section 249.97)
10 and RH Districts in the Family Housing Opportunity Special Use District (Section 249.94),
11 Any application for a permit that would result in the Removal of one or more Residential Units
12 or Unauthorized Units is required to obtain Conditional Use authorization.

13 (2) Outside the Priority Equity Geographies Special Use District and RH Districts in
14 the Family Housing Opportunity Special Use District, any application for a permit that would
15 result in the Removal of one or more Residential Units or Unauthorized Units is required to obtain
16 Conditional Use authorization unless it meets all the following criteria:

17 (A) The units to be demolished are not tenant occupied and are without a history
18 of evictions under Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) within the last
19 five years, and have not been vacated within the past five years pursuant to a Buyout
20 Agreement, as defined in Administrative Code Section 37.9E, as it may be amended from
21 time to time;

22 (B) No more than two units that are required to be replaced per subsection
23 (E) of this Section 317 would be removed or demolished that are;

1 (i) subject to a recorded covenant, ordinance, or law that restricts
2 rents to levels affordable to persons and families of lower- or very low-income within the past
3 five years; or

4 (ii) subject to limits on rent increases under the Residential Rent
5 Stabilization and Arbitration Ordinance (Chapter 37 of the Administrative Code) within the past
6 five years; or

7 (iii) rented by lower- or very low-income households within the
8 past five years;

9 (C) The building proposed for demolition is not an Historic Building as defined
10 in Section 102. For the purposes of this subsection (c)(2)(C), an "Historic Building" shall also
11 include any building located in an historic district listed in Article 10;

12 (D) The proposed project is adding at least one more unit than would be
13 demolished;~~and~~

14 (E) The proposed project complies with the requirements of Section 66300(d) of
15 the California Government Code, as may be amended from time to time, including but not limited to
16 requirements to replace all protected units, and to offer existing occupants of any protected units that
17 are lower income households relocation benefits and a right of first refusal for a comparable unit, as
18 those terms are defined therein;

19 (F) The project sponsor certifies under penalty of perjury that any units to
20 be demolished are not tenant occupied and are without a history of evictions under
21 Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) within last five years, and
22 have not been vacated within the past five years pursuant to a Buyout Agreement, as defined
23 in Administrative Code Section 37.9E, as it may be amended from time to time, regardless of
24 whether the Buyout Agreement was filed with the Rent Board pursuant to Administrative Code
25 Section 37.9E(h);

1 (G) The project sponsor has conducted one pre-application meeting prior
2 to filing a development application. The Planning Department shall not accept a development
3 application without confirmation that the project sponsor has held at least one pre-application
4 meeting conforming to the requirements of this subsection (c)(2)(G) and any additional
5 procedures the Planning Department may establish. The project sponsor shall provide mailed
6 notice of the pre-application meeting to the individuals and neighborhood organizations
7 specified in Planning Code Section 333(e)(2)(A) and (C); and

8 (H) If the proposed project is located in a Residential, House (RH) zoning
9 district, the project's resulting units will meet the unit configuration requirements of Section
10 249.94(c)(4).

11 (37) For Unauthorized Units, this Conditional Use authorization will not be
12 required for Removal if the Zoning Administrator has determined in writing that the unit cannot
13 be legalized under any applicable provision of this Code. The application for a replacement
14 building or alteration permit shall also be subject to Conditional Use requirements.

15 (42) The Conditional Use requirement of ~~Subsections~~ (c)(1) and (c)(2) shall
16 apply to (A) any building or site permit issued for Removal of an Unauthorized Unit on or after
17 March 1, 2016, and (B) any permit issued for Removal of an Unauthorized Unit prior to March
18 1, 2016 that has been suspended by the City or in which the applicant's rights have not
19 vested.

20 (53) The Removal of a Residential Unit that has received approval from the
21 Planning Department through administrative approval or the Planning Commission through a
22 Discretionary Review or Conditional Use authorization prior to the effective date of the
23 Conditional Use requirement of ~~Subsections~~ (c)(1) or (c)(2) is not required to apply for an
24 additional approval under this Section 317. Subsection (c)(1).

1 (64) **Exemptions for Unauthorized Dwelling Units.** The Removal of an
2 Unauthorized Unit does not require a Conditional Use authorization pursuant to §subsection
3 (c)(1) or (c)(2) if the Department of Building Inspection has determined that there is no path for
4 legalization under Section 106A.3.1.3 of the Building Code.

5 (75) **Exemptions for Single-Family Residential Buildings.** The Demolition of a
6 Single-Family Residential Building that meets the requirements of §subsection (d)(3) below
7 may be approved by the Department without requiring a Conditional Use authorization
8 pursuant to in subsection (c)(1) or (c)(2).

9 (86) **Exception for Certain Permits Filed Before February 11, 2020.** An
10 application to demolish a Single-Family Residential Building on a site in a RH-1 or RH-1(D)
11 District that is demonstrably not affordable or financially accessible housing, meaning housing
12 that has a value greater than 80% than the combined land and structure values of single-
13 family homes in San Francisco as determined by a credible appraisal made within six months
14 of the application to demolish, is exempt from the Conditional Use authorization requirement
15 of §subsection (c)(1) or (c)(2), provided that a complete Development Application was
16 submitted prior to February 11, 2020.

17
18 * * * *

19
20 **SEC. 406. WAIVER, REDUCTION, OR ADJUSTMENT OF DEVELOPMENT**
21 **PROJECT REQUIREMENTS.**

22 * * * *

23 (b) Waiver or Reduction, Based on Housing Affordability.

24 (1) An affordable housing unit shall receive a waiver from the Rincon Hill
25 Community Infrastructure Impact Fee, the Market and Octavia Community Improvements

1 Impact Fee, the Eastern Neighborhoods Infrastructure Impact Fee, the Balboa Park Impact
2 Fee, the Visitacion Valley Community Facilities and Infrastructure Impact Fee, the
3 Transportation Sustainability Fee, the Residential Child Care Impact Fee, the Central South of
4 Market Infrastructure Impact Fee, and the Central South of Market Community Facilities Fee if
5 ~~the affordable housing unit~~:

6 (A) the affordable housing unit is affordable to a household earning up to
7 120% at or below 80% of the Area Median Income (as published by HUD), including units that
8 qualify as replacement Section 8 units under the HOPE SF program;

9 (B) the affordable housing unit will maintain its affordability for a term of no
10 less than 55 years, as evidenced by a restrictive covenant recorded on the property's title;

11 (C) the Project sponsor demonstrates to the Planning Department staff that a
12 governmental agency will be enforcing the term of affordability and reviewing performance and service
13 plans as necessary, and

14 (D) all construction workers employed in the construction of the development
15 that includes the affordable housing unit are paid at least the general prevailing rate of per diem wages
16 for the type of work and geographic location of the development, as determined by the Director of
17 Industrial Relations pursuant to Sections 1773 and 1773.9 of the Labor Code, except that apprentices
18 registered in programs approved by the Chief of the Division of Apprenticeship Standards may be paid
19 at least the applicable apprentice prevailing rate under the terms and conditions of Labor Code Section
20 1777.5.

21 ~~(B) is subsidized, MOHCD, the San Francisco Housing Authority, the~~
22 ~~Department of Homelessness and Supportive Housing, and/or the Office of Community Investment and~~
23 ~~Infrastructure or any future successor agency to those listed herein; and~~

24 ~~(C) is subsidized in a manner which maintains its affordability for a term no~~
25 ~~less than 55 years, whether it is a rental or ownership opportunity. Project sponsors must demonstrate~~

~~to the Planning Department staff that a governmental agency will be enforcing the term of affordability and reviewing performance and service plans as necessary.~~

* * * *

(5) This waiver clause shall not be applied to units built as part of a developer's efforts to meet the requirements of the Inclusionary Affordable Housing Program, Sections 415 or 419 of this Code ~~or any units that trigger a Density Bonus under California Government Code Sections 65915-65918.~~

22
23 Section 87. Article 9 of the Subdivision Code is hereby amended by amending Section
24 1396.6, to read as follows:

1 **SEC. 1396.6. CONDOMINIUM CONVERSION ASSOCIATED WITH PROJECTS**
2 **THAT UTILIZE THE RESIDENTIAL DENSITY EXCEPTION IN RH DISTRICTS TO**
3 **CONSTRUCT NEW DWELLING UNITS PURSUANT TO PLANNING CODE SECTION**
4 **207(C)(8).**

5 (a) **Findings.** The findings of Planning Code Section 415.1 concerning the City's
6 inclusionary affordable housing program are incorporated herein by reference and support the
7 basis for charging the fee set forth herein as it relates to the conversion of dwelling units into
8 condominiums.

9 (b) **Definition.** "Existing Dwelling Unit" shall ~~refer to~~mean the dwelling unit in
10 existence on a lot at the time of the submittal of an application to construct a new dwelling unit
11 pursuant to Planning Code Section 207(c)(8).

12 (c) Notwithstanding Section 1396.4 of this Code and Ordinance No. 117-13, a
13 subdivider of a one-unit building that has obtained a permit to build one or more new dwelling
14 units by utilizing the exception to residential density in RH districts set forth in Planning Code
15 Section 207(c)(8), which results in two or more dwelling units, and that has signed an affidavit
16 stating the subdivider's intent to reside in one of those resulting dwelling units, or in the
17 Existing Dwelling Unit, for a period of three years after the approval of the Certificate of Final
18 Completion and Occupancy for the new dwelling units, shall (1) be exempt from the annual
19 lottery provisions of Section 1396 of this Code with respect to the dwelling units built as part of
20 the Project Units and (2) be eligible to submit a condominium conversion application for the
21 Existing Dwelling Unit and/or include the Existing Dwelling Unit in a condominium map
22 application for the project approved pursuant to Planning Code Section 207(c)(8).
23 Notwithstanding the foregoing sentence, no property or applicant subject to any of the
24 prohibitions on conversions set forth in Section 1396.2, ~~in particular~~ of this Code, including but
25 not limited to a property with the eviction(s) set forth in Section 1396.2(b), shall be eligible for

1 condominium conversion under this Section 1396.6. Eligible buildings as set forth in this
2 subsection (c) may exercise their option to participate in this program according to the
3 following requirements:

4 (1) The applicant(s) for the subject building seeking to convert dwelling units to
5 condominiums or subdivide dwelling units into condominiums under this subsection shall pay
6 the fee specified in Section 1315 of this Code.

7 (2) In addition to all other provisions of this Section 1396.6, the applicant(s)
8 shall comply with all of the following:

9 (A) The requirements of Subdivision Code Article 9, Sections 1381,
10 1382, 1383, 1386, 1387, 1388, 1389, 1390, 1391(a) and (b), 1392, 1393, 1394, and 1395.

11 (B) The applicant(s) must certify under penalty of perjury that within the
12 60 months preceding the date of the subject application, no tenant resided at the property.

13 (C) The applicant(s) must certify under penalty of perjury that to the
14 extent any tenant vacated their unit after March 31, 2013, and before recordation of the final
15 parcel or subdivision map, such tenant did so voluntarily or if an eviction or eviction notice
16 occurred it was not pursuant to Administrative Code Sections 37.9(a)(8)-(12) and 37.9(a)(14)
17 (16). ~~If an eviction has taken place under Sections 37.9(a)(11) or 37.9(a)(14), then the~~
18 ~~applicant(s) shall certify~~ The applicant must also certify under penalty of perjury that to the
19 extent any tenant vacated their unit after March 31, 2013, and before recordation of the final
20 parcel or subdivision map, such tenant did not vacate the unit pursuant to a Buyout
21 Agreement, pursuant to the requirements of Administrative Code Section 37.9E, as it may be
22 amended from time to time, regardless of whether the Buyout Agreement was filed and
23 registered with the Rent Board pursuant to Administrative Code Section 37.9E(h). If a
24 temporary eviction occurred under Sections 37.9(a)(11) or 37.9(a)(14), then the applicant(s)
25

1 shall certify under penalty of perjury that the original tenant reoccupied the unit after the
2 temporary eviction.

3 (3) If the Department finds that a violation of this Section 1396.6 occurred prior
4 to recordation of the final map or final parcel map, the Department shall disapprove the
5 application or subject map. If the Department finds that a violation of this Section occurred
6 after recordation of the final map or parcel map, the Department shall take such enforcement
7 actions as are available and within its authority to address the violation.

8 (4) This Section 1396.6 shall not prohibit a subdivider who has lawfully
9 exercised the subdivider's rights under Administrative Code Section 37.9(a)(13) from
10 submitting a condominium conversion application under this Section 1396.6.

11 (d) Decisions and Hearing on the Application.

12 (1) The applicant shall obtain a final and effective tentative map or tentative
13 parcel map approval for the condominium subdivision or parcel map within one year of paying
14 the fee specified in subsection (e) of this Section 1396.6. The Director of the Department of
15 Public Works or the Director's designee is authorized to waive the time limits set forth in this
16 subsection (d)(1) as it applies to a particular building due to extenuating or unique
17 circumstances. Such waiver may be granted only after a public hearing and in no case shall
18 the time limit extend beyond two years after submission of the application.

19 (2) No less than 20 days prior to the Department's proposed decision on a
20 tentative map or tentative parcel map, the Department shall publish the addresses of buildings
21 being considered for approval and post such information on its website, post notice that such
22 decision is pending at the affected buildings, and provide written notice of such pending
23 decision to the applicant, all tenants of such buildings, and any member of the public who
24 interested party who has requested such notice. During this time, any interested party may file
25 a written objection to an application and submit information to the Department contesting the

1 eligibility of a building. In addition, the Department may elect to hold a public hearing on said
2 tentative map or tentative parcel map to consider the information presented by the public,
3 other City department, or an applicant. If the Department elects to hold such a hearing it shall
4 post notice of such hearing, including posting notice at the subject building, and provide
5 written notice to the applicant, all tenants of such building, any member of the public who
6 submitted information to the Department, and any interested party who has requested such
7 notice. In the event that an objection to the conversion application is filed in accordance with
8 this subsection (d)(2), and based upon all the facts available to the Department, the
9 Department shall approve, conditionally approve, or disapprove an application and state the
10 reasons in support of that decision.

11 (3) Any map application subject to a Departmental public hearing on the
12 subdivision or a subdivision appeal shall receive a six-month extension on ~~have the time limit~~
13 ~~set forth in subsection (d)(1) of this Section 1396.6~~ extended for another six months.

14 (e) Should the subdivision application be denied or be rejected as untimely in
15 accordance with the dates specified in subsection (d)(1) of this Section 1396.6, or should the
16 tentative subdivision map or tentative parcel map be disapproved, the City shall refund the
17 entirety of the application fee.

18 (f) Conversion of buildings pursuant to this Section 1396.6 shall have no effect on the
19 terms and conditions applicable to such buildings under Section ~~1341A~~, 1385A, or 1396 of
20 this Code.

21
22 Section ~~987~~. Effective Date. This ordinance shall become effective 30 days after
23 enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the
24 ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board
25 of Supervisors overrides the Mayor's veto of the ordinance.

Section 1098. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors intends to amend only those words, phrases, paragraphs, subsections, sections, articles, numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal Code that are explicitly shown in this ordinance as additions, deletions, Board amendment additions, and Board amendment deletions in accordance with the "Note" that appears under the official title of the ordinance.

Section 1140. Clarification of existing law. The amendments to Planning Code Section 305.1(g) in Section 3 of this ordinance do not constitute a change in, but are declaratory of, existing law with regard to the Planning Department's authorization to collect fees for time and materials spent reviewing application materials.

REVISED LEGISLATIVE DIGEST
(Amended in Committee October 30, 2023.)

[Planning and Subdivision Codes, Zoning Map - Housing Production]

Ordinance amending the Planning Code to encourage housing production by (1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations, and areas outside RH (Residential House) Districts within the Family Housing Opportunity Special Use District; (2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots in areas outside the Priority Equity Geographies Special Use District, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; (3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; (4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; (5) expanding the eligibility for the Housing Opportunities Mean Equity – San Francisco (HOME – SF) program and density exceptions in residential districts; (6) exempting certain affordable housing projects from certain development fees; (7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; (8) sunseting the Conditional Use requirements established by the Corona Heights Large Residence and the Central Neighborhoods Large Residence Special Use Districts at the end of 2024, and thereafter limiting the size of any Dwelling Units resulting from residential development in those Special Use Districts to 3,000 square feet of Gross Floor Area; and (8) (9) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; amending the Subdivision Code to update the condominium conversion requirements for projects utilizing residential density exceptions in RH Districts; affirming the Planning Department’s determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan and the eight priority policies of Planning Code, Section 101.1.

Existing Law

The Planning Code sets forth different zoning districts throughout the City, where different uses are permitted, conditionally permitted, or prohibited, and where various controls (such as height, bulk, setbacks, etc.) apply. It also contains permit application, noticing, and hearing requirements, as well as appeal procedures, as applicable, for different permits and entitlements. The Planning Code also contains Special Use Districts ("SUD"), such as the Family Housing Opportunity SUD, which contain additional use restrictions and development controls (Section 249.94).

The Zoning Map is a component of the Planning Code, and it contains maps and figures that depict zoning regulations spatially, showing how land can be used in areas of San Francisco called "zoning districts" (also known as "zones" or "use districts").

The Subdivision Code provides condominium conversion procedures for projects utilizing the Citywide Fourplex Program (Planning Code Section 207(c)(8)) and the development incentives in the Family Housing Opportunity SUD.

Amendments to Current Law

This ordinance amends the Planning Code to implement a series of process reforms with the goal to encourage housing production. For instance:

- The ordinance creates a new Priority Equity Geographies Special Use District (SUD) and amends the Zoning Map to map that SUD. Priority Equity Geographies are areas that have been identified in the San Francisco Department of Public Health's Community Health Needs Assessment as Areas of Vulnerability.
- The ordinance exempts housing demolition citywide, but outside of Priority Equity Geographies and RH Districts in the Family Housing Opportunity SUD, from the existing Conditional Use (CU) authorization requirement, if conditions regarding notice, tenant protections, unit configuration, and historic buildings are met.
- It exempts expansion and new construction projects from neighborhood notice in areas outside of the Priority Equity Geographies SUD and RH Districts in the Family Housing Opportunity SUD.
- It deletes the Planning Code requirement for a CU authorization for large lot developments in certain zoning districts (usually 10,000 sq. ft. or greater).
- It deletes the CU authorization requirement for projects to exceed a specified height in certain districts, even if the height limit allows for a greater height. By removing the CU requirement, the ordinance allows construction of buildings to the permitted height limit.
- It provides that if the Planning Commission delegates approval authority to the Planning Director, State Density Bonus (SDB) projects can be approved without a Commission hearing, regardless of any other requirements in the Planning Code.

- In certain zoning districts, it allows construction of more units than currently principally permitted in larger lots in residential (RH-1, RH-2, and RH-3) districts, based on the lot area, removing the current CU requirement.
- It deletes the requirement that in order for senior housing projects to take advantage of double density allowances, they must be located within a quarter mile of a mid-sized Neighborhood Commercial District, or obtain a CU authorization.
- It expands development fee waivers to apply to 100% affordable housing projects with units affordable to up to 120% of the Area Medium Income, regardless of the funding source, and to 100% affordable SDB projects.
- It reduces and standardizes rear yard, front setback, lot frontage, and minimum lot size requirements in certain zoning districts.
- It simplifies residential open space requirements.
- It allows additional uses on the ground floor in residential buildings.
- It makes homeless shelters and group housing permitted in residential districts.
- It expands the eligibility for the Housing Opportunities Mean Equity – San Francisco (HOME – SF) program and density exceptions in residential districts, by removing some of the applicability thresholds for each of these programs.
- It allows for administrative review of reasonable accommodations.

Background Information

The ordinance contains findings explaining its intent to implement some of the goals, objectives, policies and implementing programs of the 2022 Housing Element Update.

This ordinance is the result of amendments made on October 30, 2023 at the Land Use and Transportation Committee. At that hearing the ordinance in Board File No. 230446, version 5 was duplicated and amended, resulting in this ordinance, Board File No. 231142, version 2.

The amendments adopted on that date:

- Sunset the Conditional Use requirements established by the Corona Heights Large Residence and the Central Neighborhoods Large Residence Special Use Districts (Planning Code Sections 249.77 and 249.92, respectively) at the end of 2024;
- Establish that from that moment on, Dwelling Units resulting from residential development in those SUDs shall have a maximum size of 3,000 square feet of Gross Floor Area;
- Provide for an exception for projects in the Central Neighborhoods Large Residence SUD, where the total increase of gross floor area is less than 15%.

November 30, 2023

Ms. Angela Calvillo, Clerk
Honorable Supervisor Mandelman
Board of Supervisors
City and County of San Francisco
City Hall, Room 244
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102

Re: Transmittal of Planning Department Case Number 2023-010508PCA:
Housing Production- Duplicated File
Board File No. 231142

Planning Commission Recommendation: **Approval with Modification**

Dear Ms. Calvillo and Supervisor Mandelman,

On November 30, 2023, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance, originally introduced by Mayor Breed but duplicated and amended for Supervisor Mandelman, sunseting the Conditional Use requirements established by the Corona Heights Large Residence and the Central Neighborhoods Large Residence Special Use Districts at the end of 2024, and thereafter limiting the size of any Dwelling Units resulting from residential development in those Special Use Districts to 3,000 square feet of Gross Floor Area. At the hearing the Planning Commission recommended approval with modification.

The Commission's proposed modifications were as follows:

1. Change the maximum building size from 3,000 sq. ft. to 3,500 sq. ft. in both SUDs.
2. Allow a 20% increase in both SUDs.
3. Amend Planning Code Section 311 so that the word “building permit” is replaced with “planning entitlement.”
4. For proposed expansions allowed under the 20% increase, add a 5-year lookback on building permits to avoid serial permitting. All residential expansions during that five-year period should count toward the 20% limit.

Supervisor, please advise the City Attorney at your earliest convenience if you wish to incorporate the changes recommended by the Commission.

Please find attached documents relating to the actions of the Commission. If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

Aaron D. Starr
Manager of Legislative Affairs

Recommendation:	Approval with Modifications
------------------------	-----------------------------

Planning Code Amendment

The proposed Ordinance would sunset the Conditional Use (CU) requirements established by the Corona Heights Large Residence (Corona Heights) and the Central Neighborhoods Large Residence (Central Neighborhoods) Special Use Districts (SUD) at the end of 2024, and thereafter limiting the size of any Dwelling Units resulting from residential development in those Special Use Districts to 3,000 square feet of Gross Floor Area.

The Way It Is	The Way It Would Be
<p>Within the Corona Heights SUD a residential development requires CU authorization if:</p> <ol style="list-style-type: none"> 1. <u>Vacant Lot</u>: It will result in total gross floor area exceeding 3,000 square feet; 2. <u>Expansion of Large Existing Development</u>. It will result in a total gross floor area of more than 3,000 square feet if that expansion results in more than 75% increase in gross square feet of development on the parcel and does not increase that number of legal dwelling units on the parcel. 3. <u>Expansion of Large Existing Development Plus Additional Dwelling Units</u>. It will result in total gross square floor area more than 3,000 gross square feet, if that expansion results in more than 100% increase in gross square feet of development and increases the existing legal unit count on the parcel. 4. <u>Rear Yard Trigger</u>. It results in an addition to an existing building or as a new building, that results in less than 45% rear yard depth. 	<p>The CU authorization requirement would be sunset on 12/31/24, and unit size within the SUD would be capped at 3,000 sq. ft., with no ability to expand beyond that limit.</p>
<p>Within the Central Neighborhoods SUD, residential developments:</p> <ol style="list-style-type: none"> 1. Are capped at 4,000 sq. ft per unit, except where the total increase in Gross Floor Area of any existing Dwelling Unit is less than 15%. 2. Required CU authorization if any Dwelling Unit's Gross Floor Area would exceed the equivalent of a 1:1.2 Floor Area Ratio or would result in any Dwelling Unit exceeding 3,000 square feet of Gross Floor Area, except where the total increase of gross floor area of 	<p>The CU authorization requirement would be sunset on 12/31/24, and unit size within the SUD would be capped at 3,000 sq. ft., except where the total increase of gross floor area of any existing Dwelling Unit is less than 15%.</p>

any existing Dwelling Unit is less than 15%.	
--	--

Background

On June 29, 2023, the Planning Commission considered the mayor’s Constraints Reduction Ordinance (BF 230446). The proposed ordinance implements several policies called for the City’s recently adopted Housing Element by removing constraints on housing production. At the June 29 hearing, the Planning Commission made a recommendation for approval with modifications.

Since then, the item has had several hearings at the Board’s Land Use and Transportation Committee. At the last hearing on October 30, 2023, at the request of Supervisor Mandelman, the Land Use Committee duplicated the mayor’s Constraints Reduction Ordinance creating Board File 231142. The duplicated ordinance was then amended to include the changes to the Corona Heights SUD and the Central Neighborhoods SUD described above. As these amendments were not considered by the Planning Commission on June 29, 2023, the duplicated ordinance had to be referred to the Planning Commission. While the entire duplicated ordinance is before the Planning Commission, which includes all the changes in the original Constraints Reduction Ordinance, staff is only seeking review and comment on the amendments outlined above that were proposed by Supervisor Mandelman. Staff are also proposing additional amendments to Section 311 based on recent changes to state law, which are detailed in the recommendations section below.

Issues and Considerations

Two Large Home SUDs

Both the Corona Heights SUD and the Central Neighborhoods SUD seek to limit the size of dwelling units. In fact, both SUDs have the exact same purpose statement, which is: “to protect and enhance existing neighborhood character, encourage new infill housing at compatible densities and scale, and provide for thorough assessment of proposed large-scale residences that could adversely impact the area and affordable housing opportunities.” However, there are some differences in how they go about it. The Corona Heights SUD requires CU authorization if the building, not unit, goes beyond the limits described above. It does not set a maximum cap on the unit or building size. The Central Neighborhood SUD establishes a floor of 3,000 sq. ft. or 1.25 FAR above which CU authorization is required. It also includes a cap of 4,000 sq. ft. on unit size and regulates the unit size not the building size.

The Corona Heights SUD was created in 2018. Since, there have been 10 CU applications triggered by this SUD. Seven of those have been approved, one has been disapproved, and the rest are currently still under review. The Large Homes SUD’s has only been effective since last year but has already required 13 projects to apply for CU authorization. Of those, five have been approved and the rest are still under review.

SB 423

Senate Bill 423, Sponsored by Senator Wiener, was signed by the governor on October 11, 2023, and will become effective on January 1, 2024. The bill does several things, but relevant for this discussion is that it requires cities that are not on track to meet their housing targets (Regional Housing Needs Assessment, or RHNA targets) to ministerially approve housing projects that comply with local codes. A last-minute amendment to the bill made San Francisco subject to annual reviews of its progress on housing—making it the only jurisdiction in the state receiving elevated scrutiny. Essentially this means if San Francisco fails to meet its annual RHNA targets in any one income category, projects that satisfy that income category must be approved ministerially. San Francisco is required to construct about 10,000 units a year for the next eight years, over half of which must be affordable. Unless something drastic changes in the next few months, we will not meet our RHNA targets in any income category. As a result, by April of next year, all projects, market rate or otherwise, will become ministerial.

Ministerial projects can only be reviewed against objective code criteria, such as height, rear yard, and density limits. CU requirements would not apply, including the CUs required in the Corona Heights and Central Neighborhoods SUD. Therefore, the proposed ordinance intends to preserve the controls in these SUDs by turning the subjective CU process into an objective code standard. While this preserves the intent of the SUDs and makes housing approval faster and more predictable, it removes some of the flexibility found in the current SUDs.

Other Jurisdictions

As part of the Department's work on the rezoning effort, we have been looking at how other jurisdictions regulate the size of homes. More analysis still needs to be done, but so far it appears as if most other jurisdictions in the Bay Area seemed to gear their controls toward limiting the size of single-family homes in a suburban context. Some set a maximum limit on housing size, and some set a limit after which a planning commission hearing is required. Several Peninsula cities have Floor Area Ratios (FARs) of 1 to .45 or 1 to .55, meaning that for every 1 sq. ft. of lot area you get about half a square foot of building area. This low FAR makes sense in cities with larger lots; however, in San Francisco our lots are typically about 2,500 sq. ft., which would only allow about a 1,250 sq. ft. home under those FAR limits. In Redwood City, permit applications for single-family homes bigger than 3,000 sq. ft., or with more than 45% FAR, require a planning commission hearing. This is like the controls in the two subject SUDs and suggests that lots in Redwood City are typically 6,000 sq. ft. or larger.

Regulating by FAR makes sense when you are trying to regulate the size of a building, as it ties the building's size to the lot size. FAR controls are also useful when you are attempting to encourage density by allowing more FAR the more units you build. Portland, Oregon uses FAR to incentivize density by allowing up to four units per lot and providing increased FAR the more units you build. The Planning Department has also proposed using FAR to incentivize density in several instances. The Department's Residential Expansion Threshold (RET) concept, which was never adopted, provided more FAR the more units you proposed to build, like Portland's controls. The program also created an objective code standard, negating the need for a CU hearing at the Planning Commission. The Department also proposed a similar scheme for Supervisor Mandelman for the Central Neighborhoods SUD, but ultimately the more subjective criteria and process was adopted.

General Plan Compliance

The proposed ordinance is consistent with the General Plan in that it will remove Planning Commission hearings for code complying project; remove subjective criteria that is applied on a project-by-project basis, including a finding of neighborhood compatibility as required in Section 303; and will add an amendment to the Planning Code that affects housing approvals that is simpler than the code's current requirements.

Racial and Social Equity Analysis

Understanding the potential benefits, burdens, and the opportunities to advance racial and social equity that the proposed amendments provide is part of the Department's Racial and Social Equity Action Plan. This is also consistent with the Mayor's Citywide Strategic Initiatives for equity and accountability, the Planning and Historic Preservation Commissions' 2020 Equity Resolutions, and with the Office of Racial Equity mandates, which requires all Departments to conduct this analysis. Below are some specific issues to consider:

The primary objective of the proposed Special Use Districts (SUDs) and accompanying amendments is to curtail unit size within the SUD boundaries, with a key focus on preserving affordable housing options. The rationale behind these controls is to mitigate market and planning code influences that favor larger residences, thereby safeguarding smaller, more affordable units. While the intention to preserve affordable housing is commendable, merely limiting unit size in well-resourced neighborhoods like Central Neighborhoods SUD and Corona Heights SUD may fall short of promoting racial and social equity. Without a concurrent effort to augment the supply of affordable units in these areas, access to housing for historically marginalized groups remains uncertain.

Specifically, the Central Neighborhoods SUD and the Corona Heights SUD are situated in affluent areas characterized by higher-income populations. Restricting unit size without concurrently encouraging density risks perpetuating the existing status quo rather than advancing equity. To truly address housing disparities, it is crucial to consider measures that not only limit unit size but also foster increased housing density in these neighborhoods.

Furthermore, the proposed ordinance may inadvertently affect BIPOC families with a tradition of multi-generational living. A 3,000 sq. ft. home in San Francisco is notably large, especially when compared to the average home size of approximately 1,600 sq. ft. While the addition of an Accessory Dwelling Unit could make a 3,000 sq. ft. home suitable for multi-generational living, potential impacts should not be overlooked. Ongoing evaluation by the City is essential to understand the full consequences of restricting home sizes on the ability of these families to secure housing across all San Francisco neighborhoods.

City initiatives are underway to address issues related to density and unit size. The Constraints Reduction Ordinance, spearheaded by the mayor, seeks to enhance housing production by streamlining regulations and enabling more projects as of right. Supervisor Mandelman's four-plex ordinance and Supervisor Melgar's Family Housing Opportunity SUD both promote greater density in lower-density neighborhoods, including those covered by the Central Neighborhoods SUD and Corona Heights SUD. Therefore, any shortcomings in the proposed ordinance's ability to advance racial and social equity can potentially be mitigated by existing or pending legislation. Ongoing assessments, particularly within the Housing Element's rezoning effort, are crucial

to comprehensively address questions related to appropriate unit size and the impact on multi-generational families.

Implementation

The Department has determined that this Ordinance will impact our current implementation procedures by speeding up the approval of housing in these SUDs. Since the CU process will be removed from these SUDs, approval of code complying projects can be done without a Planning Commission hearing, reducing approval time by several months.

Recommendation

The Department recommends that the Commission *approve with modifications* the proposed Ordinance and adopt the attached Draft Resolution to that effect. The Department's proposed recommendations are as follows:

1. Change the maximum building size from 3,000 sq. ft. to 3,500 sq. ft. in both SUDs.
2. Allow a 20% increase in both SUDs.
3. Amend Planning Code Section 311 so that the word "building permit" is replaced with "planning entitlement."

Basis for Recommendation

The Department supports the overall goals of this Ordinance because it removes a subjective conditional use requirement and replaces it with an objective code standard. Removing the subjective process will make housing approvals more consistent and reduce the time it takes to approve these projects. Reducing the time it takes to approve housing, and removing subjective criteria used to evaluate housing projects is also consistent with the General Plan. However, the Department does believe that the maximum unit size should be adjusted up and that each SUD should allow for small additions, even if the unit currently exceeds the maximum unit size. In that respect, the Department is proposing the following amendments. In addition, the Department is also proposing an amendment, not related to Mandelman's proposed changes but germane to the overall Constraints Reduction Ordinance, that would help the Department successfully implement Assembly Bill (AB) 1114.

Recommendation 1: Change the maximum building size from 3,000 sq. ft. to 3,500 sq. ft.

Setting the 3,500 sq. ft. as the maximum unit size splits the difference between the 3,000 sq. ft threshold for a CU and the 4,000 sq. ft. maximum allowed in the Central Neighborhoods SUD. This also provides a little more flexibility for multi-generational households. Settling on a maximum unit size has been controversial in the past, but the Central Neighborhoods SUD does reflect the most recent consensus on this issue. Staff's recommendation is intended to build upon that consensus.

Recommendation 2: Allow a 20% increase in both SUDs. As currently drafted, the Central Neighborhoods SUD allows for an incremental increase of floor area past the maximum unit size. Staff believes that this same

allowance should be granted in the Corona Heights SUD. Currently there is no maximum unit size in the Corona Heights SUD, so setting an absolute maximum is significantly more strict than current controls. The ability to add small additions allows for extra bedrooms, small kitchen remodels, the addition of a bay window, and changes to floor plans that improve livability. Staff are proposing a 20% increase instead of a 15% increase to provide a little more flexibility in both SUDs. Given we are setting a hard cap for unit size that is less than the current 4,000 sq. ft. cap in the Central Neighborhoods SUD, we believe a 20% allowance is appropriate.

Recommendation 3: Amend Planning Code Section 311 so that the word “building permit” is replaced with “planning entitlement.” This recommendation is not related to Supervisor Mandelman’s proposed amendments but would help the Planning Department successfully implement AB 1114. AB 1114 will become effective January 1, 2024, and imposes strict timelines on the City’s approval of “post-entitlement permits”. Under the new law, the City will have just 15 business days to determine a building permit’s completeness, and 30 or 60 business days to approve the post-entitlement building permit, depending on the size of the project. The specified intent of AB 1114 is to expedite post-entitlement permitting. Planning entitlements are by their nature pre-entitlement. Changing “building permit” to “planning entitlement” in Section 311 will separate the Planning approval process (CEQA, neighborhood notification, Discretionary Review) from the life-safety focused approval process covered under building permits. The Planning approval process will still be held to the timelessness of the Permit Streamlining Act and Housing Accountability Act. Further, the City is undertaking many other legislative reforms to reduce the time it takes to build much needed housing as part of implementing the Housing Element.

Required Commission Action

The proposed Ordinance is before the Commission so that it may approve it, reject it, or approve it with modifications.

Environmental Review

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Public Comment

As of the date of this report, the Planning Department has not received any public comment regarding the proposed Ordinance.

Exhibit B: Board of Supervisors File No. 231142

PLANNING COMMISSION RESOLUTION NO. 21454

HEARING DATE: November 30, 2023

Project Name: Constraints Reduction (AKA Housing Production- Duplicated File)
Case Number: 2023-010508PCA [Board File No. 231142]
Initiated by: Mayor Breed, Duplicated for Supervisor Mandelman's proposed amendments.
Introduced October 30, 2023
Staff Contact: Aaron Starr, Manager of Legislative Affairs
aaron.starr@sfgov.org, 628-652-7533

RESOLUTION APPROVING A PROPOSED ORDINANCE THAT WOULD AMEND THE PLANNING CODE TO ENCOURAGE HOUSING PRODUCTION BY (1) EXEMPTING, UNDER CERTAIN CONDITIONS, SPECIFIED HOUSING PROJECTS FROM THE NOTICE AND REVIEW PROCEDURES OF SECTION 311 AND THE CONDITIONAL USE REQUIREMENT OF SECTION 317, IN AREAS OUTSIDE OF PRIORITY EQUITY GEOGRAPHIES, WHICH ARE IDENTIFIED IN THE HOUSING ELEMENT AS AREAS OR NEIGHBORHOODS WITH A HIGH DENSITY OF VULNERABLE POPULATIONS, AND AREAS OUTSIDE RH (RESIDENTIAL HOUSE) DISTRICTS WITHIN THE FAMILY HOUSING OPPORTUNITY SPECIAL USE DISTRICT; (2) REMOVING THE CONDITIONAL USE REQUIREMENT FOR SEVERAL TYPES OF HOUSING PROJECTS, INCLUDING HOUSING DEVELOPMENTS ON LARGE LOTS IN AREAS OUTSIDE THE PRIORITY EQUITY GEOGRAPHIES SPECIAL USE DISTRICT, PROJECTS TO BUILD TO THE ALLOWABLE HEIGHT LIMIT, PROJECTS THAT BUILD ADDITIONAL UNITS IN LOWER DENSITY ZONING DISTRICTS, AND SENIOR HOUSING PROJECTS THAT SEEK TO OBTAIN DOUBLE DENSITY, SUBJECT TO CERTAIN EXCEPTIONS IN RH DISTRICTS IN THE FAMILY HOUSING OPPORTUNITY SPECIAL USE DISTRICT; (3) AMENDING REAR YARD, FRONT SETBACK, LOT FRONTAGE, MINIMUM LOT SIZE, AND RESIDENTIAL OPEN SPACE REQUIREMENTS IN SPECIFIED DISTRICTS, SUBJECT TO CERTAIN EXCEPTIONS IN RH DISTRICTS IN THE FAMILY HOUSING OPPORTUNITY SPECIAL USE DISTRICT; (4) ALLOWING ADDITIONAL USES ON THE GROUND FLOOR IN RESIDENTIAL BUILDINGS, HOMELESS SHELTERS, AND GROUP HOUSING IN RESIDENTIAL DISTRICTS, AND ADMINISTRATIVE REVIEW OF REASONABLE ACCOMMODATIONS; (5) EXPANDING THE ELIGIBILITY FOR THE HOUSING OPPORTUNITIES MEAN EQUITY - SAN FRANCISCO (HOME - SF) PROGRAM AND DENSITY EXCEPTIONS IN RESIDENTIAL DISTRICTS; (6) EXEMPTING CERTAIN AFFORDABLE HOUSING PROJECTS FROM CERTAIN DEVELOPMENT FEES; (7) AUTHORIZING THE PLANNING DIRECTOR TO APPROVE STATE DENSITY BONUS PROJECTS, SUBJECT TO DELEGATION FROM THE PLANNING COMMISSION; (8) SUNSETTING THE CONDITIONAL USE REQUIREMENTS ESTABLISHED BY THE CORONA HEIGHTS LARGE RESIDENCE AND THE CENTRAL NEIGHBORHOODS LARGE RESIDENCE SPECIAL USE DISTRICTS AT THE END OF 2024, AND THEREAFTER LIMITING THE SIZE OF ANY DWELLING UNITS RESULTING FROM RESIDENTIAL DEVELOPMENT IN THOSE SPECIAL USE DISTRICTS TO 3,000 SQUARE FEET OF GROSS FLOOR AREA; AND (9) MAKING CONFORMING AMENDMENTS TO OTHER SECTIONS OF THE PLANNING CODE; AMENDING THE

ZONING MAP TO CREATE THE PRIORITY EQUITY GEOGRAPHIES SPECIAL USE DISTRICT; AMENDING THE SUBDIVISION CODE TO UPDATE THE CONDOMINIUM CONVERSION REQUIREMENTS FOR PROJECTS UTILIZING RESIDENTIAL DENSITY EXCEPTIONS IN RH DISTRICTS; AFFIRMING THE PLANNING DEPARTMENT’S DETERMINATION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT; AND MAKING PUBLIC NECESSITY, CONVENIENCE, AND WELFARE FINDINGS UNDER PLANNING CODE, SECTION 302, AND FINDINGS OF CONSISTENCY WITH THE GENERAL PLAN AND THE EIGHT PRIORITY POLICIES OF PLANNING CODE, SECTION 101.1.

WHEREAS, on April 18, 2023, Mayor Breed introduced a proposed Ordinance under Board of Supervisors (hereinafter “Board”) File Number 230446, which would amend the Planning Code to encourage housing production by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations, and areas outside RH (Residential House) Districts within the Family Housing Opportunity Special Use District; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots in areas outside the Priority Equity Geographies Special Use District, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; amending the Subdivision Code to update the condominium conversion requirements for projects utilizing residential density exceptions in RH Districts;

WHEREAS, the Planning Commission (hereinafter “Commission”) conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance on June 29, 2023 and made a recommendation of Approval with Modifications under Resolution 21342; and,

WHEREAS, the Boards Land Use and Transportation Committee (hereinafter “Committee”) conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance on October 30, 2023, and duplicated Board File 230446 to create Board File 231142; and,

WHEREAS, at the Committee’s October 30, 2023, hearing, the Committee amended Board File 231142, which was then referred by the Clerk of the Board to the Commission for a public hearing; and,
WHEREAS, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance under Board File 231142 on November 30, 2023; and,

WHEREAS, the proposed Ordinance has been given CEQA clearance under the San Francisco Housing Element 2022 Update Environmental Impact Report (EIR) certified on November 17, 2022; and,

WHEREAS, the Planning Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of Department staff and other interested parties; and

WHEREAS, all pertinent documents may be found in the files of the Department, as the Custodian of Records, at 49 South Van Ness Avenue, Suite 1400, San Francisco; and

WHEREAS, the Planning Commission has reviewed the proposed Ordinance; and

WHEREAS, the Planning Commission finds from the facts presented that the public necessity, convenience, and general welfare require the proposed amendment; and

MOVED, that the Planning Commission hereby **approves with modifications** the proposed ordinance. The Commission's proposed recommendation(s) is/are as follows:

1. Change the maximum building size from 3,000 sq. ft. to 3,500 sq. ft. in both SUDs.
2. Allow a 20% increase in both SUDs.
3. Amend Planning Code Section 311 so that the word "building permit" is replaced with "planning entitlement."
4. For proposed expansions allowed under the 20% increase, add a 5-year lookback on building permits to avoid serial permitting. All residential expansions during that five-year period should count toward the 20% limit.

Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The Commission supports the overall goals of this Ordinance because it removes a subjective conditional use requirement and replaces it with an objective code standard. Removing the subjective process will make housing approvals more consistent and reduce the time it takes to approve these projects.

The Commission finds that the maximum unit size should be adjusted up and that each SUD should allow for small additions, even if the unit currently exceeds the maximum unit size.

General Plan Compliance

The proposed Ordinance is consistent with the following Objectives and Policies of the General Plan:

HOUSING ELEMENT

OBJECTIVE 4.A

SUBSTANTIALLY EXPAND THE AMOUNT OF PERMANENTLY AFFORDABLE HOUSING FOR EXTREMELY LOW- TO MODERATE-INCOME HOUSEHOLDS.

OBJECTIVE 4.B

EXPAND SMALL AND MID-RISE MULTI-FAMILY HOUSING PRODUCTION TO SERVE OUR WORKFORCE, PRIORITIZING MIDDLE-INCOME HOUSEHOLDS.

Policy 26

Streamline and simplify permit processes to provide more equitable access to the application process, improve certainty of outcomes, and ensure meeting State- and local-required timelines, especially for 100% affordable housing and shelter projects.

Implementing Programs

8.4.5 Eliminate Commission hearings on any code-complying project in the Well Resourced Neighborhoods subject to the Housing Accountability Act by July 31, 2023 until January 31, 2027.

8.3.9 Eliminate the use of “neighborhood character” and/or “neighborhood compatibility” terminology in case report findings towards approvals.

8.4.19 Whenever Planning Code amendments or revisions are proposed, advocate for ensure and promote simpler or an overall reduction of rules that affect housing approvals to reduce the specific or institutional knowledge needed by City staff, applicants, and members of the public to increase accessibility.

The proposed Ordinance will remove Commission hearings for Code-complying projects in Well-resourced Neighborhoods, eliminate the use or neighborhood compatibility as a criterion for approval in the two subject SUDs, and create simpler code requirements that are easier to understand and implement.

Planning Code Section 101 Findings

The proposed amendments to the Planning Code are consistent with the eight Priority Policies set forth in Section 101.1(b) of the Planning Code in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

The proposed Ordinance would not have a negative effect on neighborhood serving retail uses and will not have a negative effect on opportunities for resident employment in and ownership of neighborhood-serving retail.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

The proposed Ordinance would not have a negative effect on housing or neighborhood character.

3. That the City's supply of affordable housing be preserved and enhanced;

The proposed Ordinance would not have an adverse effect on the City's supply of affordable housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking;

The proposed Ordinance would not result in commuter traffic impeding MUNI transit service or overburdening the streets or neighborhood parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

The proposed Ordinance would not cause displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposed Ordinance would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

The proposed Ordinance would not have an adverse effect on the City's Landmarks and historic buildings.

8. That our parks and open space and their access to sunlight and vistas be protected from development;

The proposed Ordinance would not have an adverse effect on the City's parks and open space and their access to sunlight and vistas.

Planning Code Section 302 Findings.

The Planning Commission finds from the facts presented that the public necessity, convenience and general welfare require the proposed amendments to the Planning Code as set forth in Section 302.

NOW THEREFORE BE IT RESOLVED that the Commission hereby APPROVES WITH MODIFICATIONS the proposed Ordinance as described in this Resolution.

I hereby certify that the foregoing Resolution was adopted by the Commission at its meeting on November 30, 2023.

Rich Hillis, Director
San Francisco Planning Department
City and County of San Francisco
49 South Van Ness Avenue
San Francisco, CA 94103

RE: City and County of San Francisco – Corrective Action Letter

Dear Rich Hillis:

The California Department of Housing and Community Development (HCD) has reviewed the City and County of San Francisco's (City) obligations under the housing element and the San Francisco Housing Policy and Practice Review (PPR)¹ and hereby issues its written findings pursuant to Government Code section 65585, subdivision (i).

In making its findings, HCD reviewed a letter received from Mayor London Breed on November 8, 2023; letters received from Rich Hillis, Planning Director, and Supervisor Myrna Melgar on November 21, 2023; and amendments to the proposed Constraints Reduction Ordinance introduced and approved at the November 27, 2023 Land Use and Transportation Committee meeting. In addition, HCD has met several times with City staff to discuss the City's efforts.

HCD appreciates the City's ongoing communication with HCD and its efforts to implement the housing element and PPR. However, the City has failed to timely implement Action 8.8.2, included in its housing element, which commits the City to implement Required Actions identified in the PPR as critical to addressing constraints to housing production identified in the Key Findings and, in some cases, to complying with state housing laws. Specifically, Required Actions 1.2, 1.4, 1.7, and 1.10 were due within 30 days of the October 25, 2023 release of the PPR (i.e., by November 24, 2023) and have not been implemented. In addition, housing element action 8.4.5 was due on July 31, 2023 and has not been implemented.

¹ Available at <https://www.hcd.ca.gov/sites/default/files/docs/policy-and-research/plan-report/sf-housing-policy-and-practice-review.pdf>.

HCD requests that the City review this correspondence and provide a written response to these findings within 30 days and no later than December 28, 2023, describing how the City has implemented the relevant Actions. HCD will review and consider the City's written response before taking any action authorized by Government Code section 65585, subdivisions (i) and (j). As noted below, such action may include revoking HCD's finding that the City's housing element is in substantial compliance with State Housing Element Law and/or referral to the California Office of the Attorney General.

Housing Element Law

HCD must review any action or failure to act by a city that it determines to be inconsistent with an adopted housing element or section 65583 generally, and it must issue written findings to the city accordingly. (Gov. Code, § 65585, subd. (i)(1).) HCD must give the city a reasonable time, no longer than 30 days, to respond to these findings. (Gov. Code, § 65585, subd. (i)(1)(A).) If HCD does not receive a written response from the city within 30 days, or the response does not demonstrate that the program action has been implemented, then HCD may revoke its findings that the city's housing element substantially complies with Housing Element Law. (Gov. Code, § 65585, subd. (i)(1)(B).)

Additionally, HCD may notify the California Office of the Attorney General when a city takes actions that are inconsistent with an adopted housing element or Government Code sections 65583 and 65915, among other laws. (Gov. Code, § 65585, subd. (j).)

Findings

On February 1, 2023, HCD found the City's housing element in substantial compliance with Housing Element Law. HCD based its compliance finding on, among other things, a commitment to remove governmental constraints to production. In addition, Action 8.8.2 committed the City to revise local process, procedures, and other relevant requirements to implement priority recommendations of the PPR. This included the following PPR Required Actions that are now overdue:

- *Action 1.10: Approve other reforms in the proposed "Constraints Reduction" Ordinance and the Mayor's Housing for All Executive Directive that will implement the various housing element programs identified in HCD's June 16, 2023 Letter of Support and Technical Assistance.*

The Constraints Reduction Ordinance (Ordinance) has not been approved, though as introduced at the November 27, 2023 Land Use and Transportation Committee meeting, it largely addresses the concerns HCD raised in its October 26, 2023 Letter of Technical Assistance by implementing the housing element programs identified in HCD's June 16, 2023 Letter of Support and Technical Assistance. However, HCD is still reviewing the potential impact of

subsequent amendments that were introduced and approved during that meeting and not shared with HCD ahead of time. As stated on page 15 of the PPR, the City is expected to receive HCD's approval of any language used in implementing ordinances to ensure the fulfillment of the Required Actions. The new amendments could potentially limit the impact of the Ordinance and undermine the City's ability to implement Required Action 1.10. Specifically, the amendments would require a conditional use authorization for removal of one or more residential units unless the building was built after 1923 (regardless of the building's significance), is not located in a historic or conservation district (regardless of the building's significance), or has not been determined eligible for historic designation (regardless of whether it will actually be listed as historic).

To safely ensure that the City implements this Action on time, HCD recommends that the Board of Supervisors pass the Ordinance without these or additional substantive amendments.

- *Action 1.2: Eliminate Planning Commission hearings for all code-compliant housing development in all locations outside of Priority Equity Geographies. Please note, the City made the same commitment in housing element action 8.4.5 which had a due date of July 31, 2023.*

In its response to this letter, the City should further describe how various portions of the Ordinance or other measures work together to implement this action.

- *Action 1.4: Eliminate the use of "neighborhood character" and "neighborhood compatibility" terminology, as well as remove "light" and "air" terminology in case report findings to support discretionary requests.*

In its response to this letter, the City should further describe how various portions of the Ordinance or other measures work together to implement this action.

- *Action 1.7: Require requests for waivers and concessions under State Density Bonus Law to be processed by the Planning Department, not the Planning Commission, when no other entitlements are required.*

Once approved, the proposed Ordinance would accomplish this, so long as the Planning Commission has delegated this authority to the Planning Director. In its response to this letter, the City should confirm that the Planning Commission has done so.

Based upon communications with City staff, HCD finds that the City has failed to implement these program actions within the timeframes committed to in the City's adopted housing element and the PPR. HCD also reminds the City of its continuing obligation to implement PPR Required Actions 1.5, 3.1, and 5.1, and appreciates the City's efforts to meet the November 24, 2023 deadline for these actions.

Consequences

Various consequences may apply if HCD revokes its finding that the housing element is in substantial compliance with Housing Element Law. First, noncompliance will result in ineligibility or delay in receiving state funds that require a compliant housing element as a prerequisite, including, but not limited to, the following:

- Permanent Local Housing Allocation Program
- Local Housing Trust Fund Program
- Infill Infrastructure Grant Program
- SB 1 Caltrans Sustainable Communities Grants
- Affordable Housing and Sustainable Communities Program

Second, compliance with existing state housing laws is a mandatory threshold for attaining HCD's Prohousing Designation. Therefore, revocation of the City's housing element compliance would make the City ineligible for Prohousing Designation until HCD finds the housing element is again in substantial compliance and approves the Prohousing Designation application.

Third, jurisdictions may face additional financial and legal ramifications. HCD may notify the Office of the Attorney General, which may bring suit for violations of State Housing Element Law. Further, state law provides for court-imposed penalties for persistent noncompliance, including financial penalties. For example, Government Code section 65585, subdivision (l)(1), establishes a minimum fine of \$10,000 per month, up to \$100,000 per month. If a jurisdiction remains noncompliant, a court can multiply those penalties by a factor of six. Other potential ramifications include the loss of local land use authority to a court-appointed agent.

In addition to these legal remedies available in the courts, under the Housing Accountability Act, jurisdictions without a substantially compliant housing element cannot rely on inconsistency with zoning and general plan standards as a basis for denial of a housing project for very low-, low-, or moderate-income households. (Gov. Code, § 65589.5, subd. (d).)

Next Steps

HCD provides the City until December 28, 2023 to provide a written response to these findings. If you have questions or need additional information, please contact Fidel Herrera at fidel.herrera@hcd.ca.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read 'D. Zisser', with a long horizontal stroke extending to the right.

Re: HCD's San Francisco Housing Policy and Practice Review

Dear Assistant Deputy Director Zisser,

Thank you for your October 25 transmittal of the California Department of Housing and Community Development's ("HCD") San Francisco Housing Policy and Practice Review ("PPR"). We are not surprised that HCD's conclusions mirror the goals the City already set forth in its Housing Element. The Housing Element, having been signed into law by Mayor Breed following unanimous approval by our Board of Supervisors ("Board"), committed the City to aggressively increase housing capacity, enhance project feasibility, and streamline housing approvals over the next eight years.

The City and State face an unprecedented housing crisis, and market conditions have slowed the production of housing. Still, San Francisco must continue to do more to produce housing. While the City and HCD's goals are fundamentally aligned, San Francisco's housing accomplishments to-date are worth reiterating. With respect to both authorizing and building new housing, the City has consistently outperformed other Bay Area counties. San Francisco contains just 11% of the Bay Area population and is the area's smallest geographic county by far, yet from 2014-2021 San Francisco built 23% of the region's total new homes (17,500 units) and 32% of new lower-income homes (3,200 units). Similarly, San Francisco issued permits for 17% of the region's total permitted new homes (31,900 units) and 24% of lower income homes (6,500 units). Likewise, San Francisco has increased local funding for affordable housing substantially since late 2015, including two voter-approved local general obligation bonds (2015 and 2019) totaling over \$900 million, in addition to other local funding, which along with SB 35 has helped accelerate local affordable housing production. These bonds are among the highest, if not the highest, amounts allocated to affordable housing by any city or county in the State. Nonetheless, we can and must do more if we are to accommodate almost one-fifth of the regional housing needs.

The PPR lists five categories of "Required Actions." Each action is described as being a policy or practice, and includes a proposed deadline. The purpose of this letter is to respond to the actions in the PPR that HCD lists as due within 30 days of transmittal (November 27), along with certain other key actions. Because of the significant overlap with the City's Housing Element, some of the responses describe our progress in implementing the Housing Element more broadly, and how those actions relate to HCD's PPR. Additionally, we have been in communication with Supervisor Melgar, who

we understand will be responding individually to HCD's October 26, 2023 Letter of Technical Assistance to address issues relating to the Family Housing Opportunity Special Use District.

We are pleased to report that we are substantially meeting the expedited timetables contained in the PPR, especially in light of the eight-year span of the Housing Element's validity. We are confident that the changes made, and that continue to be made, to San Francisco's review and approval process substantially comply with the City's approved Housing Element, and will facilitate construction of housing, particularly when the current, challenging economic climate improves.

We provide an update below on several key actions that the City has already completed, or actions that the PPR identifies as having an imminent implementation deadline.

- 1.1 **Revise entitlement processes to require that housing developments that conform to existing planning and zoning standards move efficiently through a local non-discretionary, ministerial entitlement process.** This includes areas outside of Priority Equity Geographies and in Priority Equity Geographies and Cultural Districts where community-led strategies have defined and codified community benefits at the neighborhood or citywide level. A non-discretionary ministerial entitlement process must not, by definition, subject code-compliant housing developments to any discretionary decision making, including Publicly Initiated Requests for Discretionary Review.

PPR Timing: Complete by January 31, 2024, for projects on reused 4th and 5th cycle lower-income housing elements that are 20 percent affordable, as required by Housing Element law. Immediately initiate development of community led strategy to determine appropriate community benefits within Priority Equity Geographies and Cultural Districts that do not yet have codified community benefits.

Re-used sites. The City has started the development of a non-discretionary approval process for Code-compliant projects providing 20% on-site affordability on the sites in question, which will comply with the Housing Element law. We have already successfully implemented ministerial approvals for projects using State law (SB 35, SB 9, AB 2011), and is poised to implement SB 423 in 2024. In addition, the City will cease post-entitlement appeals of building permits in compliance with AB 1114. Please refer to the City Attorney's memo in Exhibit C.

Community benefits. The City has already begun to work with the American Indian community, the Black community, communities in most neighborhoods within Priority Equity Geographies, and Cultural Districts. This effort assesses community needs in order to inform a formal community benefits program and also addresses affordable housing preservation and protection. The Planning Department has allocated seven full time equivalent positions (FTEs) and \$750,000 to develop these strategies, which are in turn guided by communication with the Community Equity Advisory Council (the "Equity Council"), a group of 11 community leaders representing various equity communities. The Equity Council meets monthly to discuss community priorities and to review work-product which staff developed following community workshops and focus groups. To date, the Municipal Code incorporates community benefits for a range of neighborhoods, primarily in Priority Equity Geographies (e.g. South of Market, the Mission, the Tenderloin, Divisadero Street) through development impact fees, affordable housing programs, and land use controls. The City previously endorsed the use of community benefits in January 2023 through Housing Element Implementation Actions 4.2.05, 7.2.2, and 8.4.6.

- 1.2 Eliminate Planning Commission hearings for all code-compliant housing development in all locations outside of Priority Equity Geographies. This program is past due in the housing element, with an implementation date of July 31, 2023.

PPR Timing: 30 days

Introduced by Mayor Breed on April 18, 2023, the "Constraints Reduction Ordinance" will remove hearing requirements for Code-compliant housing projects outside of Priority Equity Geographies. The Planning Commission endorsed this ordinance and it is now pending approval before the Board's Land Use Committee. The ordinance has undergone several rounds of amendments and will be heard again on November 27, 2023, at which time the Mayor intends to introduce amendments to more closely align the ordinance with the various goals of the Housing Element and those of the PPR. In addition, the Constraints Reduction Ordinance will eliminate hearings for underlying entitlements associated with state density bonus projects. Furthermore, the City is preparing to implement SB423, which will require the ministerial approval of most multifamily housing projects in San Francisco. Please refer to the tables in Exhibit A and Exhibit B for specific information on how the ordinance will address HCD's requested actions. The City previously endorsed this goal in January 2023 through Housing Element Implementation Action 8.4.5.

- 1.4 Eliminate the use of "neighborhood character" and "neighborhood compatibility" terminology in case report findings and in relevant design guidelines, and remove "light" and "air" terminology in case report findings to support discretionary requests.

PPR Timing: 30 days for case report findings.

The main purpose of our case reports and their findings are to assess and document a project's compliance with the Planning Code. Beginning with case reports published on November 16, 2023, Planning Department staff has generally eliminated use of the phrases in question. As the City stated in Housing Element Implementation Actions 8.3.9 through 8.3.11, some of the policies referenced in case reports were adopted by the voters and are embedded in other General Plan elements. The Department's approach is consistent with the City's other General Plan policies and local law, including those adopted by voter initiative, while still advancing this Housing Element policy. Additionally, the Mayor's Constraints Reduction Ordinance - by eliminating hearings - would effectively eliminate any consideration of these policies for nearly all code complying multifamily housing projects.

- 1.5 Consistent with the recent action to eliminate the Preliminary Project Assessment, ensure that no mandatory pre-application processes are required in order for a housing development project applicant to submit a preliminary application under the Permit Streamlining Act.

PPR Timing: 30 days.

The City amended its "Preliminary Housing Development Application" on November 20, along with related Department processes, in order to eliminate any need for a pre-application meeting prior to submittal of a preliminary application. Mayor Breed previously called for this in February 2023 through Section II.9 of her Housing for All Executive Directive.

- 1.7 Require requests for waivers and concessions under State Density Bonus Law to be processed by the Planning Department, not the Planning Commission, when no other entitlements are required.

PPR Timing: 30 days.

The Constraints Reduction Ordinance amends the Planning Code to allow the Planning Department to review and approve applications for Density Bonus projects without a hearing. The ordinance also eliminates hearings for underlying entitlements, except where a project needs a Conditional Use Authorization to approve a non-residential use or where a project demolishes an existing housing unit. The City previously endorsed this goal in January 2023 through Housing Element Implementation Action 8.5.2.

- 1.8 Revise the application of the Affordable Housing Fees and Inclusionary Affordable Housing Program requirements, so as not to impose fees on affordable units for projects under State Density Bonus Law. Affordable units cannot be counted toward the total unit count for a State Density Bonus Law project in determining whether the higher Affordable Housing Fees and Inclusionary Affordable Housing Program requirements apply.

PPR Timing: As soon as possible, but no later than 1 year.

Planning Director Bulletin Number 6 was amended in February 2023 to establish a project's inclusionary affordable housing rate using the number of base units rather than the total number of units. Additionally, City policy provides that State Density Bonus projects receive a credit toward the affordable housing fee for on-site affordable units pursuant to Planning Code Section 415.5(g)(1)(D). The City previously endorsed this goal in January 2023 through Housing Element Implementation Actions 1.3.3 and 1.3.9.

- 1.10 Approve other reforms in the proposed "Constraints Reduction" Ordinance and the Mayor's Housing for All Executive Directive that will implement the various housing element programs identified in HCD's June 16, 2023 Letter of Support and Technical Assistance.

PPR Timing: 30 days.

The Board's Land Use and Transportation Committee will hear the Constraints Reduction Ordinance again on November 27, 2023. As discussed, the Mayor intends to introduce amendments that will address many of the issues in the PPR. We anticipate that the Constraints Reduction Ordinance will advance to the full Board shortly after the Land Use Committee hearing. Please refer to Exhibit A for more specific information on how these reforms will address HCD's requested actions. The City previously endorsed this goal in January 2023 through Housing Element Implementation Actions 8.4.5 and 8.5.2, and then again in February through Mayor Breed's Housing for All Executive Directive.

- 3.1 Revise local practices so that projects that require ministerial approval pursuant to SB 35, State ADU Law, Housing Element Law, AB 1114, and other state housing laws cannot face any post-entitlement administrative appeals if the project complies with applicable permit standards.
- 3.2 Revise local rules so that all development that benefits from a local ministerial approval process, once established, does not face any post-entitlement administrative appeals.

3.3 Revise rules around administrative appeals for all post-entitlement permits, and narrow which permits are subject to additional administrative review.

PPR Timing: End subjective post-entitlement appeals immediately, end all post-entitlement appeals no later than January 1, 2024, and comply with state law (AB 1114) by January 1, 2024.

The City will implement AB 1114, which becomes effective on January 1, 2024, and eliminates post-entitlement appeals for all building permits. Please refer to the City Attorney's memo in Exhibit C. In addition, under SB 423, a project's subsequent permits must be approved and processed without unreasonable delay. The Department and Board of Appeals are working to issue guidance and update permitting practices to ensure that post-entitlement permits subject to AB 1114 proceed without being subject to appeal before the Board of Appeals.

5.1 Revise rules around administrative appeals for all post-entitlement permits, and narrow which permits are subject to additional administrative review. On developments that are ministerially approved, ensure that planning practice does not allow for city personnel to pressure project proponents into negotiations between neighborhood groups, and that all involvement by city personnel in meetings outside of public hearings comply with state law.

PPR Timing: Notify city personnel of requirement immediately.

The Department's Current Planning division, which generally is responsible for the review of housing development projects, has been briefed on the PPR's findings and requirements. Staff have been reminded that ministerial projects are just that. We will continually train and update our staff on the appropriate processing of ministerial projects.

The Department continues to value our ongoing partnership with HCD. We will further report on our progress as we implement our Housing Element, thus addressing the remaining items in the PRR and striving toward the collective goal of addressing the housing needs of the City and State.

Sincerely,

A handwritten signature in black ink, appearing to read 'Rich Hillis', with a horizontal line extending to the right.

Rich Hillis
Director of Planning

Exhibit A

The below table outlines the actions requested in the technical assistance letter sent by HCD to the City on June 16, 2023 and how the City has addressed each requested action, including the relevant Code Section in the Constraints Reduction Ordinance.

#	Requested Action	Constraints Reduction Notes	Relevant Code §
1	<p>Reduce discretionary processes and neighborhood notification requirements for certain code-compliant housing projects (Action 8.4.17), including requests for Reasonable Accommodation (Action 6.3.10), such as:</p> <ul style="list-style-type: none"> Allowing all Reasonable Accommodation Requests to be processed without a hearing in front of the Zoning Administrator (Planning Code Section 305.1) Removing neighborhood notification requirements and requests for discretionary review for projects that will demolish, construct, or alter dwelling units outside of the Priority Equity Geographies Special Use District (Planning Code Section 311) 	<p>The ordinance eliminates process and removes neighborhood notification criteria:</p> <ul style="list-style-type: none"> Allows reasonable modification [accommodation] requests to be approved administratively Removes 311 neighborhood notification for projects outside of the PEG SUD that add a unit, or are only doing a horizontal addition. 	<p>§ 305.1 (reasonable modifications)</p> <p>§ 311 (neighborhood notification)</p>
2	<p>Remove Conditional Use Authorization (CU) requirements for the following conditions in housing projects (Actions 8.4.8, 8.4.9, and 8.4.10):</p> <ul style="list-style-type: none"> Buildings taller than 40 feet (Planning Code Section 209.1) and 50 feet (Planning Code Sections 132.2 and 209.2) Buildings that previously required CU after a certain height or a setback after a certain height (Planning Code Sections 253-253.3) Residential projects on large lots in all RH zoning districts at densities based on the square footage of the lot (Planning Code Section 209.1) Demolition of residential units meeting certain criteria outside of the Priority Equity Geographies Special Use District (Planning Code Section 317) 	<ul style="list-style-type: none"> Removes the CU for additional height in RC, RM, NC-S, Lake Shore Plaza SUD, Van Ness SUD, Mission Street NCT, and Broadway NCD. The Mayor intends to introduce an amendment to remove the CU to exceed 40' in RH district and revert the proposed ordinance closer to the original draft; however, even if this amendment is not accepted, the CU requirement only applies to a minor 	<p>§§ 121.1; 132.2, § 209.1, §§ 253-253.3, § 317 Article 7 tables (CUs deleted)</p>

		<p>fraction of the lots zoned RH, most of which are already developed in excess of the 40' height limit.</p> <ul style="list-style-type: none"> Removes the CU requirement for large lot developments in NC Districts outside of the PEG SUD by amending Section 121.1, and various NC zoning control tables in Article 7. Removes the CU for lot mergers in RTO Districts outside of the PEG SUD, and large lot developments that exceed base density in all RH Districts. Removes Section 317 CU requirements for the demolition of single-family projects outside of the PEG SUD that meet the criteria in Housing Element Action 8.4.9. 	
3	<p>Permit group housing broadly throughout the City and streamlining approvals for group housing projects (Actions 7.2.6), including:</p> <ul style="list-style-type: none"> Modifying the definition of a "dwelling unit" to allow employee housing for up to six employees in alignment with Health and Safety Code section 17021.5 (Planning Code Section 102) Principally permitting group housing in all zoning districts (at one unit per 415 square feet of lot area in all districts other than the RH-1 zoning district, where group housing is allowed subject to the fourplex bonus program controls) (Planning Code Section 209.1) 	<ul style="list-style-type: none"> Revises the definition of a "dwelling unit" in Section 102 of the Planning Code to comply with Health and Safety Code 17021.5. Allows group housing in all RH districts at one unit per 415 sq. ft. 	<p>§ 102 (definitions)</p> <p>§ 207(c)(8)(iii), Table 209.1 (group housing density)</p>
4	<p>Remove Planning Commission hearings for program-compliant State Density Bonus projects (Action 8.5.2), including:</p>	<p>Allows the city to administratively approve code-compliant State Density Bonus projects</p>	<p>§ 206.6</p>

	<ul style="list-style-type: none"> Exempting Individually Requested State Density Bonus projects from other underlying entitlements related to the proposed housing, such as a CU or a Large Project Authorization (Planning Code Section 206.6) Allowing the Planning Director to approve requests for a concession, incentive, waiver, or modification made for an Individually Requested State Density Bonus project (Planning Code Section 206.6) 	except where a CU is required for establishing a non-residential use or for the demolition of existing housing.	
5	<p>Modify the requirements for the HOME-SF program and entitlement process (Action 7.2.9), including:</p> <ul style="list-style-type: none"> Eliminating environmental criteria such as historic resource, shadow, and wind for qualifying HOME-SF projects (Planning Code Section 206.3) Allowing for demolition of up to one unit for HOME-SF projects (Planning Code Section 206.3) 	Eliminates environmental criteria as eligibility for the program and allows for the demolition of up to one residential unit to qualify for the program.	§ 206.3
6	<p>Standardize and simplify Planning Code requirements for housing developments (Actions 8.3.3 and 8.4.11), including:</p> <ul style="list-style-type: none"> Standardizing the minimum lot size to 1,200 square feet and lot width to 20 feet (Planning Code Section 121) Allowing lot mergers in RTO zoning districts (Planning Code Section 121.7) Ease exposure and open space requirements for inner courts (Planning Code Section 135) 	<ul style="list-style-type: none"> Standardizes minimum lot width to 20 ft and minimum lot area to 1,200 sq. ft. for all districts. Principally permits lot mergers in RTO districts, except where a CU is required in Priority Equity Geographies Reduces minimum dimensional requirements for open space so that smaller, code-complying balconies can count toward required open space and removes “inverted ziggurat” inner court requirement. 	<p>§ 121 (minimum lot width and area)</p> <p>§ 121.7 (RTO lot merger)</p> <p>§ 135 (open space)</p>
7	<p>Increase financial feasibility for affordable housing projects (Actions 1.3.9 and 8.6.1), including:</p> <ul style="list-style-type: none"> Expanding the Impact Fee exemption to a housing project with units affordable up to 120 percent of the Area Median Income (Planning Code Section 406) Allowing 100 percent affordable housing projects utilizing State Density Bonus Law to be eligible for Impact Fee waivers (Planning Code Section 406) 	<ul style="list-style-type: none"> Changes the waiver to allow deed restricted units of up to 120% AMI to qualify for the waiver Deletes a provision that exempts state density bonus projects from the waiver 	<p>§ 406(b)(1)(A) (120% AMI)</p> <p>§ 406(b)(5) (density bonus eligibility)</p>

Exhibit B

The below table outlines the actions requested in the technical assistance letter sent by HCD to the City on October 26, 2023 and how the City has addressed each requested action, including the relevant Code Section in the Constraints Reduction Ordinance.

#	Requested Action	Notes	Relevant Code §
1	Action 7.2.6 includes a requirement that the City “[p]ermit group housing broadly throughout the city, particularly in zones allowing single-family uses, increase group housing density permitted in these districts, and remove Conditional Use Authorizations or other entitlement barriers to group housing. Changes should focus on special needs groups, including those with disabilities, by ensuring that intermediate care facilities or congregate living health facilities, with six or fewer residents are treated no differently than other by-right single-family housing uses as required in Health and Safety Code sections 1267.8, 1566.3, and 1568.08.”	[Addressed in Table 1, item 3]	n/a
2	Action 8.3.3 includes a requirement that the City “[e]valuate open space and exposure standards to reduce the number of projects seeking exceptions on typical lot conditions, for instance by removing the inner court five-foot setback at each level requirement under Planning Code Section 140....”	[Addressed in Table 1, item 6]	n/a
3	Action 8.4.10 requires that the City “[r]emove Conditional Use Authorizations where required to achieve greater height for a housing project or replace height and bulk districts that require Conditional Use Authorizations to exceed the base height with one that allows the current maximum height....”	[Addressed in Table 1, item 2]	n/a
4	Action 8.4.11 requires that the City “[r]educe the minimum lot size to 1,200 square feet and minimum lot width to 20 feet for proposed projects that net at least one housing unit.”	[Addressed in Table 1, item 6]	n/a
	Action 8.4.17 includes a requirement that the City “[r]emove neighborhood notification requirements for projects outside of Priority Equity Geographies that are code complying, net at least one housing unit, and only expand	[Addressed in Table 1, item 1]	n/a

	the rear or side of an existing building and for all non-discretionary ministerial projects.”		
5	Prior amendments to Planning Code Section 121.1, specifically 121.1(b)(1) and (2), appear to introduce subjective design review standards into the Planning Code. Subjective requirements such as “compatible with the existing scale of the district” and “contribute to the positive visual quality of the district” are contrary to the housing element Actions in 8.3 (Objective Design Standards & Findings) and could be contrary to the requirement for objective standards and criteria in the Housing Accountability Act (see Gov. Code, § 65589.5, subds. (f)(1) and (j)(1)). “Objective” standards are those “involving no personal or subjective judgment by a public official and [are] uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant or proponent and the public official.” (Gov. Code, § 65589.5, subd. (h)(8).)	This section has been amended to require the use of objective standards where a CU is required for large lot development in Priority Equity Geographies.	§ 121(b)

Deputy City Attorney

DATE: November 8, 2023

RE: Assembly Bill 1114 (Haney) – Recent Amendments to Government Code Section 65913.3; Permit Streamlining Requirements for Housing Development Projects

On October 25, 2023, the California Department of Housing and Community Development (“HCD”) issued its Policies and Practices Review for San Francisco. In the report, HCD finds that the City’s “local rules around discretionary permitting and post-entitlement appeals prevent full implementation of the goals and aims of state housing laws.” This past year, the City has faced increasing scrutiny over its permitting review and appeals of housing projects. As one means of addressing this issue, the State recently enacted Assembly Bill 1114 (Haney) (“AB 1114”). As of January 1, 2024, that bill makes Government Code Section 65913.3, which generally imposes tight time frames for cities to review and process permits, apply to the City. As initially enacted in 2022, California Government Code Section 65913.3 only applied to nondiscretionary permits. Because all permits in San Francisco are discretionary – and subject to appeal under California Supreme Court precedent and the City’s Charter – the City was generally not subject to Government Code Section 65913.3.

But AB 1114 makes all postentitlement phase permits, including building permits, for designated housing development projects (i.e., projects with all residential units, transitional or supportive housing, or where at least two-thirds of the square footage is for residential use), whether discretionary or nondiscretionary, subject to the streamlining requirements and not subject to appeal. AB 1114 will impact how the City reviews and processes building permits, as well as appeals to the Board of Appeals. In addition, other state laws, such as the recently enacted Senate Bill 423 (Wiener) (“SB 423”), require streamlined approval of certain permits for eligible housing projects, including subsequent permits required for those projects. (We are also issuing an accompanying memorandum on SB 423 today).

Because the City was not subject to, and therefore did not implement Section 65913.3 when the Legislature initially enacted it in AB 2234, we briefly describe the obligations of Section 65913.3, including the recent changes made in AB 1114; the consequences of City non-compliance; exceptions to the timing requirements where the City makes certain findings of significant, quantifiable, direct, and unavoidable impacts, based on objective, identified, and

MEMORANDUM

DATE: November 8, 2023
PAGE: 2
RE: Assembly Bill 1114 (Haney) – Recent Amendments to Government Code
Section 65913.3; Permit Streamlining Requirements for Housing Development
Projects

written public health or safety standards, policies, or conditions; and the potential for tolling of certain required time limits for City review.

In sum, the City must implement these four main changes for qualified housing development projects beginning January 1, 2024: (1) update its website resources; (2) determine whether applications are complete within 15 business days after receiving them; (3) complete permit review within 30-60 business days after determining an application is complete, depending on the size of the project; and (4) allow a permit applicant to appeal any City finding that the application is not complete or does not comply with the applicable permit standards, and not hold any appeal for postentitlement phase permits for any project that does comply, all as further described below. A postentitlement phase permit includes “nondiscretionary permits and reviews ... after the entitlement process ... to begin construction of a development project” and “all building permits and other permits issued under the California Building Standards Code..., or any applicable local building code for the construction, demolition, or alteration of buildings, whether discretionary or nondiscretionary.”

Website resources:

- Post one or more lists specifying in detail the information that will be required from any applicant for a postentitlement phase permit. Although the City may revise the list(s), any revised list shall not apply to any permit pending review. (Gov’t Code § 65913.3(a).)
- Post complete approved applications and complete postentitlement phase permits for the following types of housing projects: accessory dwelling unit, duplex, multifamily, mixed use, and townhome. (*Id.*) The City may post examples of additional types of housing projects.
- Provide an option for postentitlement phase permits to be applied for, completed, and retrieved by the applicant online. The website must list the current processing status of the permit and note whether it is being reviewed by the City or if action is required from the applicant. If the permits cannot be applied for via the website, the City must accept applications by electronic mail, until the website option is available.

Completeness:

- The City has 15 business days from receipt of the application to determine whether a postentitlement phase permit application is complete. (Gov’t Code § 65913.3(b)(1).) The incompleteness determination is limited to the items included in the initial list of application requirements. Resubmittal in response to a notice of incomplete application triggers a new 15 business days review by the City. (*Id.*) Failure of the City to respond to the originally submitted or resubmitted material within 15 business days results in the application being deemed complete. (*Id.*)

Project review:

- **For housing projects with 25 units or fewer**, the City must complete review and either return in writing a full set of comments with a comprehensive request for revisions, or return the approved permit application within 30 business days after the local agency determines that an application is complete. (Gov’t Code § 65913.3(c)(1).)

MEMORANDUM

DATE: November 8, 2023

PAGE: 3

RE: Assembly Bill 1114 (Haney) – Recent Amendments to Government Code
Section 65913.3; Permit Streamlining Requirements for Housing Development
Projects

- **For housing projects with 26 units or more**, the City must complete review and either return in writing a full set of comments with a comprehensive request for revisions, or return the approved permit application within 60 business days after the local agency determines that an application is complete. (Gov't Code § 65913.3(c)(2).)
- If the City determines that the application is non-compliant within the applicable time frame, the City must provide the applicant with a list of items that are non-compliant and a description of how the applicant can remedy those items of non-compliance. (Gov't Code § 65913.3(d)(1).)
- If the City denies the permit based on a determination that the application is non-compliant, the applicant may attempt to remedy the application, and the resubmittal is subject to the same timelines. (Gov't Code § 65913.3(d)(1).)
- The City is not limited in the amount of feedback that it provides or revisions that it may request of an applicant. (Gov't Code § 65913.3(g).)
- The City and applicant may mutually agree to an extension of any time limit in Section 65913.3. But the City cannot require such an agreement as a condition of accepting or processing the application, unless the City obtains the agreement to allow concurrent processing of related approvals or for environmental review. (Gov't Code § 65913.3(i).)

Appeals:

- If the City determines that the permit is incomplete or does not comply with the permit standards, then the City must provide an appeal to the governing body of the agency, or if there is no governing body, the director of the agency. Here, for building permits, the City can provide for that appeal to the Building Inspection Commission, or through a Board of Supervisors ordinance, to the Planning Commission, or both. (Gov't Code § 65913.3(e)(1).)
- Any final determination on an applicant's appeal must be issued within 60 business days of filing the appeal for housing projects with 25 units or fewer, and 90 business days for housing projects with 26 or more units. (Gov't Code § 65913.3(e)(2).)
- Once the City determines that the permit is compliant, the City must not hold any appeals or additional hearings. (Gov't Code § 65913.3(c)(3).)

Consequences of City Non-Compliance:

- Any failure by the City to adhere to the time frames in Section 65913.3 constitutes a violation of the Housing Accountability Act. (Gov't Code § 65913.3(f).) Potential consequences include: administrative enforcement by the State Department of Housing and Community Development, and/or lawsuits seeking injunctive relief, including attorneys' fees. Failure to comply with the court order could result in fines starting at \$10,000 per housing unit, and potentially up to \$50,000 per housing unit. (Gov't Code § 65589.5(k).)

MEMORANDUM

PAGE: 4

RE: Assembly Bill 1114 (Haney) – Recent Amendments to Government Code
Section 65913.3; Permit Streamlining Requirements for Housing Development
Projects

Exceptions:

- **Potential specific, adverse impact on public health or safety.** The time limits do not apply if, within the time limits specified above, the City makes written findings based on substantial evidence in the record that the proposed permit might have a specific, adverse impact on public health or safety and that additional time is necessary to process the application. (Gov't Code § 65913.3(c)(4).) “Specific, adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified, and written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.
- **Tolling.** Also, the City’s time to review the permits are tolled if the permit requires review by an outside governmental entity.

MYRNA MELGAR

November 20, 2023

Ms. Melinda Coy, Proactive Housing Accountability Chief
Mr. Fidel Herrera, Senior Housing Policy Specialist
Department of Housing and Community Development
Division of Housing Policy Development
2020 W. El Camino Avenue, Suite 500
Sacramento, CA 95833

SENT VIA ELECTRONIC MAIL

RE: Response to Constraints Reduction Ordinance -- Letter of Technical Assistance

Dear Ms. Coy and Mr. Herrera,

As the Chair of the Land Use and Transportation Committee ("Committee") and the lead sponsor of the Family Housing Opportunity Special Use District ("FHOSUD"), I received a copy of the Letter of Technical Assistance sent by the Department of Housing and Community Development ("HCD") on October 26, 2023. The Planning Department is issuing a more comprehensive response to the Housing Policy and Practice Review on behalf of the City. I have been working closely in collaboration with Planning staff and the Mayor's office in this process. Please note that I am writing this letter in my individual capacity, and would like to take this opportunity to clarify the proposed amendments to the Mayor's Constraint Reduction Ordinance ("Ordinance") discussed in the letter. In addition, I am including a chart of amendments that my office is supporting. I believe these amendments would address many of the issues raised in the letter. Many of these amendments would have been considered at the Land Use and Transportation Committee meeting on October 30, 2023, but upon receiving HCD's technical assistance letter and the Housing Policy and Review Practice Review, the discussions were postponed to allow time for adequate review and to ensure that proposed amendments were in alignment.

The technical assistance letter states that the "carve out" for the FHOSUD "may impact the City's implementation of key housing element Actions that the City committed to in its adopted housing element" and that "the proposed amendments may be inconsistent with the City's obligations under Housing Element Law (Gov. Code, § 65580 et seq.) and Affirmatively Further Fair Housing (AFFH) (Gov. Code, § 8899.50)." This is untrue. As I explain below, the FHOSUD is consistent with and accomplishes the many Housing Element goals and objectives in a sensible way.

As background, I introduced the FHOSUD in January 2023 to further the policies and actions of the then-draft Housing Element. The FHOSUD, whose boundaries are coterminous with the City's Well-Resources Neighborhoods, took effect in October 2023. The FHOSUD provides density and streamlining incentives, and as such, removes Housing Element-identified constraints to support additional dwellings in the Well-Resourced Neighborhoods. A copy of the FHOSUD is enclosed for your reference.

In enacting the FHOSUD, the Board of Supervisors found that the "ordinance is consistent with San Francisco's obligation to affirmatively further fair housing . . . by increasing density . . . [to] meaningfully address[] significant disparities in housing needs and access to opportunity. . . [and] streamline[] the approval process to promote certainty in development outcomes in high- and highest-resource neighborhoods." To this end, the FHOSUD provides a density exception and additional development incentives for projects that construct up to four units on single family lots or up to twelve units on merged lots. Examples of these development incentives include reductions of rear-yard requirements, reductions of required open space, relaxing dwelling unit exposure requirements, the ability to construct group housing units in RH-1 districts, and eliminating provisions of the

Planning Code that cap heights at 35 feet in RH-1 neighborhoods. In addition to these development incentives, qualifying projects that do not demolish rent-controlled housing stock are eligible for streamlining, including waivers from neighborhood notification and conditional use authorization requirements. The FHOSUD provides project sponsors flexibility; a qualifying project can use the FHOSUD's streamlining benefits, including the waiver of the Conditional Use Authorization under Section 317, even if the project does not otherwise require a development incentive, like a density exception or rear-yard reduction.

The FHOSUD is the product of coordination with the Planning Department, and significant outreach to the public, including tenant advocates. In fact, the FHOSUD was one of the first proactive steps the City took to implement the Housing Element by addressing the following:

- **Action 2.4.2.** Explore regulatory paths, including a tax or other regulatory structures, to discourage short term speculative resale of residential units, particularly those which seek to extract value out of evicting tenants, or rapid reselling to more lucrative markets.
- **Action 6.1.3.** Encourage family-friendly housing, which could include higher numbers of two- or three-bedroom units, units that are affordable to a wide range of low- to middle-income households, and child-friendly amenities such as playgrounds, on-site childcare, or designated childcare units.
- **Action 6.1.4.** Continue to require multi-bedroom unit mixes.
- **Action 8.4.8.** Remove Conditional Use Authorizations or other regulatory barriers for lot mergers and lots or proposed densities that exceed conditional use thresholds on housing applications that net two or more housing units, do not demolish existing rent-controlled units, and meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 to facilitate larger and more efficient housing projects by January 31, 2025.
- **Action 8.4.9.** Remove Conditional Use Authorization requirement for demolition of single-family or multi-unit buildings that (1) are not tenant occupied and without history of tenant evictions, recent buyouts, no fault, Ellis, or OMI Evictions; (2) net two or more housing units in the case of projects that construct less than 4 units or that net an increase of at least 50% in the number of existing units for projects that construct 4 or more units, (3) do not demolish existing rent-controlled units, and (4) meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 by January 31, 2025[...]

Importantly, the FHOSUD also incorporates tenant protections and preserves existing rent-controlled stock, consistent with Actions 8.4.2, 8.4.8, 8.4.9, and 8.4.17 in the Housing Element. Currently, rent-controlled units are San Francisco's largest source of affordable housing. With nearly 170,000 units under rent control, more tenants have stable rents than those served by newer inclusionary or 100% affordable projects. However, San Francisco's rent-controlled stock is generally limited to housing constructed before 1979, and this stock will eventually diminish over time due to age, condominium conversions, or natural disasters. State law generally prevents the City from creating new rent-controlled housing stock. It is therefore of utmost importance to preserve existing rent-controlled units, as stated in the Housing Element Actions 8.4.2, 8.4.8, and 8.4.17. Both recently-enacted state laws, like SB 423 and AB 2011, and our Housing Element stress the importance of rent-controlled housing by exempting the demolition of rent-controlled units from streamlining processes in order to preserve these units. The loss of rent controlled units hinders the City and HCD's shared goal of providing housing "across all income levels."

As I previously mentioned, my office is actively working with the Mayor's office and the Planning Department on reconciling some technical differences between the FHOSUD and the Ordinance. Here is a summary of responses to some of the points raised in the technical assistance letter:

HCD Comment in Technical Assistance Letter	Response
Action 7.2.6 includes a requirement that the City “[p]ermit group housing broadly throughout the city, particularly in zones allowing single-family uses, increase group housing density permitted in these districts, and remove Conditional Use Authorizations or other entitlement barriers to group housing.”	The FHOSUD permits group housing in all RH zones and eliminates the conditional use authorization for such projects consistent with Action 7.2.6. (See Planning Code § 249.94(d)(1)(C).) The RH zoning table in the Ordinance contains a footnote with the cross-reference to the requirements of the FHOSUD.
Action 8.3.3 includes a requirement that the City “[e]valuate open space and exposure standards to reduce the number of projects seeking exceptions on typical lot conditions, for instance by removing the inner court five-foot setback at each level requirement under Planning Code Section 140....”	I am working with the Mayor’s Office to propose an amendment that would conform the FHOSUD’s open space and exposure standards to what was proposed in the Ordinance.
Action 8.4.10 requires that the City “[r]emove Conditional Use Authorizations where required to achieve greater height for a housing project or replace height and bulk districts that require Conditional Use Authorizations to exceed the base height with one that allows the current maximum height....”	The FHOSUD waives Planning Code Section 261(b), which limits the heights in RH-1(D), RH-1, and RH-1(S) Districts to 35 feet, regardless of the permitted height on the Zoning Map. The Committee will soon consider amendments to the FHOSUD to permit certain corner-lot projects to build above 40 feet. In addition, I am working with the Mayor’s Office to eliminate those CUA requirements in this Ordinance.
Action 8.4.11 requires that the City “[r]educe the minimum lot size to 1,200 square feet and minimum lot width to 20 feet for proposed projects that net at least one housing unit.”	There is a proposed amendment that will conform the minimum lot sizes inclusive of those in the FHOSUD to 1,200 square feet.
Action 8.4.17 includes a requirement that the City “[r]emove neighborhood notification requirements for projects outside of Priority Equity Geographies that are code complying, net at least one housing unit, and only expand the rear or side of an existing building and for all non-discretionary ministerial projects.”	<p>The Ordinance, as amended, complies with Action 8.4.17, which states in full: “Amend the Planning Code to prohibit Discretionary Review requests for code compliant projects adding at least one net unit, except for projects affecting buildings with units that are tenant occupied, are located in Priority Equity Geographies, <i>or meet the definition of protected units under the Housing Crisis Act of 2019</i>. Remove neighborhood notification requirements for projects outside of Priority Equity Geographies that are code complying, net at least one housing unit, and only expand the rear or side of an existing building and for all non-discretionary ministerial projects.” [Emphasis Added].</p> <p>Protected units under the Housing Crisis Act include “[r]esidential dwelling units that are or were subject to any form of rent or price control.. .” Thus, in order to ensure that no protected units are demolished, the Ordinance, as amended, contains a notification requirement to provide tenants or neighbors the ability to raise concerns with the Planning Department. The notification does not allow for community-led discretionary review requests, but instead provides the</p>

	opportunity for new information to be presented to Planning staff. A pending amendment to the Ordinance will adjust the timing of the notification so that it can occur after an application is submitted.
Amendments to Planning Code Section 121.1, specifically 121.1(b)(1) and (2), appear to introduce subjective design review standards into the Planning Code.	As this amendment was originally proposed by the Mayor, my understanding is that the Mayor's Office is compiling a response to this comment.
HCD urged that the Committee pass the "draft Ordinance as originally proposed without exempting the SUD from key housing element commitments."	The Ordinance, as originally proposed, would have allowed the streamlined demolition of "up to two rent-controlled units," which is in conflict with Housing Element, particularly Objective 1.A to "Ensure Housing Stability and Healthy Homes" by protecting existing rent-controlled units. However, this will be addressed in a pending amendment to disallow the streamlined demolition of any rent-controlled units. Additionally, the FHSUD as passed into law already provides for streamlining that meets many of the goals and objectives in the Housing Element. Thus the previous changes and upcoming proposed amendments are warranted to fully conform the Ordinance with the Housing Element.

I hope this response provides clarity and context on the amendments that I have proposed to date and potential forthcoming amendments. My goal is to continue moving the Ordinance through the legislative process for its passage; however, I cannot guarantee the outcome as I am one of eleven members on the Board. In any event, I look forward to moving along the recommendations of the Policy and Practices Review. Before HCD takes any additional actions related to the Ordinance or the proposed amendments, I would like the opportunity to engage with you and your team more closely to ensure that there is clarity about the City's goals. Please do not hesitate to contact me if there are further questions or concerns. Thank you again for your attention.

Sincerely,

Myrna Melgar
Supervisor, San Francisco Board of Supervisors
Chair, Land Use and Transportation Committee

Encl. Planning Code Section 249.94 ("Family Housing Opportunity Special Use District")

Cc: Mr. David Zisser, Assistant Deputy Director, Local Government Relations & Accountability, HCD

Board of Supervisors
Lisa Gluckstein, Office of the Mayor
Tom Paulino, Office of the Mayor
Rich Hillis, Director, Planning Department
Aaron Starr, Planning Department

SEC. 249.94. FAMILY HOUSING OPPORTUNITY SPECIAL USE DISTRICT.

(a) **Purpose.** To incentivize the development of multifamily housing in the City's well-resourced neighborhoods, a special use district entitled "Family Housing Opportunity Special Use District" is hereby established.

(b) **Boundaries.** The boundaries of the Family Housing Opportunity Special Use District are shown on Special Use District Maps Sheets SU 1, SU 2, SU 3, SU 4, SU 5, SU 6, SU 7, SU 11, SU 12, and SU 13. These boundaries consist generally of the areas designated as high-resource and highest-resource on the Well-Resourced Neighborhoods Map of the 2023-2031 Housing Element.

(c) **Eligibility.** An eligible project under this Section 249.94 shall be a project that complies with all the following criteria:

(1) is located in an RH District in the Family Housing Opportunity Special Use District, and is not located in the Telegraph Hill - North Beach Residential Special Use District (Section 249.94) or the North Beach Special Use District (Section 780.3);

(2) is not seeking or receiving approval under the provisions of Planning Code Sections 206.3, 206.5, or 206.6;

(3) is not located on a parcel resulting from a lot split under California Government Code Section 66411.7;

(4) proposes any of the following project types:

(A) **Single-Lot Development Project.** The construction on a single lot, including through the alteration of an existing structure, of at least two dwelling units and no more than the maximum number of dwelling units prescribed in subsection (d)(1)(A) of this Section 249.94, inclusive of any existing dwelling units on the site and any Unauthorized Units, as defined in Section 317, occupied by a tenant at any time within the five years preceding application. For a project proposing four dwelling units, the fourth dwelling unit shall be constructed in the rear yard pursuant to subsection (d)(3) of this Section 249.94. If the proposed rear-yard unit does not meet the requirements of subsection (d)(3) of this Section 249.94, the project shall be limited to three units. For a project proposing fewer than four dwelling units, up to one unit may be located in the rear yard pursuant to subsection (d)(3) of this Section 249.94.

(B) **Lot-Merger Development Project in RH-1 Districts.** A merger of up to three lots in RH-1, RH-1(D), or RH-1(S) districts and the construction on the resulting lot of at least nine dwelling units and no more than the maximum number of dwelling units prescribed in subsection (d)(1)(B) of this Section 249.94 for a three-lot merger project, or at least six dwelling units and no more than the maximum number of dwelling units prescribed in subsection (d)(1)(B) of this Section 249.94 for a two-lot merger project. A project proposing a lot merger shall not be eligible to construct a rear-yard unit pursuant to subsection (d)(3) of this Section 249.94.

(C) **Group Housing Development Project.** A single-lot project pursuant to subsection (c)(4)(A) of this Section 249.94 and a lot-merger project pursuant to subsection (c)(4)(B) of this Section 249.94 may also propose the construction of Group Housing up to the density limits prescribed in subsection (d)(1)(C) of this Section 249.94 for projects located in RH-1, RH-1(D), or RH-1(S) districts. For projects outside of those districts, the group housing density limit shall be the limits currently permitted under the Planning Code. A project shall not propose both dwelling units and Group Housing bedrooms. Projects proposing Group Housing bedrooms shall not be eligible for condominium subdivision, including but not limited to conversion pursuant to Subdivision Code Section 1396.7;

(5) contains the following bedroom configurations:

(A) for single-lot projects under subsection (c)(4)(A) of this Section 249.94, at least two dwelling units with two or more bedrooms, unless the project proposes the addition of one dwelling unit to a lot with three existing dwelling units, in which case the required bedroom configurations in this subsection (c)(5)(A) shall not apply;

(B) for two-lot merger projects under subsection (c)(4)(B) of this Section 249.94, at least two dwelling units with two bedrooms, or at least one dwelling unit with three bedrooms;

(C) for three-lot merger projects under subsection (c)(4)(B) of this Section 249.94, at least three dwelling units with two bedrooms, or at least two dwelling units with three bedrooms.

(D) The requirements of this subsection (c)(5) may be satisfied by existing dwelling units retained on site. This subsection (c)(5) does not apply to Group Housing projects;

(6) includes more dwelling units than are existing on the site at the time of application. For the purposes of this subsection (c)(6), an existing dwelling unit includes an Unauthorized Unit, as defined in Planning Code Section 317, that has been occupied by a tenant at any time within the five years preceding application submittal and also includes an Accessory Dwelling Unit, as defined in Planning Code Section 102. Group Housing projects utilizing this Section 249.94 shall provide more bedrooms than are existing on the site at the time of application;

(7) does not propose the demolition of a building that is:

(A) located in an Article 10 Historic District;

(B) listed as a Landmark under Article 10 ;

(C) located in an Article 11 Conservation District, where the building has a rating of Category I, II, III or IV;

(D) listed in or determined eligible for listing in the California Register of Historical Resources individually and/or as a contributor to a historic district; or,

(E) listed in or determined eligible for listing in the National Register of Historic Places individually and/or as a contributor to a

historic district;

(8) complies with the Planning Code and any applicable design guidelines, including but not limited to the provisions of this Section 249.94 and does not seek any variances or exceptions from the Planning Code. Notwithstanding the previous sentence, an eligible project shall strive for consistency with the Residential Design Guidelines to the extent feasible;

(9) complies with the requirements of Section 66300(d) of the California Government Code, as may be amended from time to time and as are in effect at the time a complete project application is submitted, except as otherwise specified herein, including but not limited to requirements to replace all protected units and to offer existing occupants of any protected units that are lower income households relocation benefits and a right of first refusal for a comparable unit, as those terms are defined therein. Notwithstanding the foregoing sentence, if California Government Code Section 66300 becomes inoperative, the project shall comply with the last operative version of Section 66300 before it became inoperative. This subsection (c)(9) does not modify or supersede any other City requirements related to relocation, including but not limited to the requirements of Chapter 37 of the Administrative Code;

(10) the project sponsor certifies under penalty of perjury that at the time of the submittal of their application, the project sponsor has owned the subject lot for a minimum of five years if the site contains two or more dwelling units, or a minimum of one year if the site contains one or fewer dwelling units. Notwithstanding the foregoing sentence, a single-family home that contains an Unauthorized Unit shall be subject to the one-year requirement. This ownership requirement in this subsection (c)(10) shall be subject to the following:

(A) **Eligible Predecessor.** A property owner who has inherited the subject lot, including any inheritance in or through a trust, from a blood, adoptive, or step family relationship, specifically from either (i) a grandparent, parent, sibling, child, or grandchild, or (ii) the spouse or registered domestic partner of such relations, or (iii) the property owner's spouse or registered domestic partner (each an "Eligible Predecessor"), may add an Eligible Predecessor's duration of ownership of the subject lot to the property owner's duration of ownership of the same lot.

(B) **Multiple Ownership.** Whenever property proposed for development is jointly owned, owned as common property, or is otherwise subject to multiple ownership, the durational requirements of this subsection (c)(10) must be satisfied by: (i) the majority ownership, whether represented by stock, membership interest, partnership interest, co-tenancy interest, or otherwise, in the case of projects proposed under subsection (c)(4)(A); or (ii) the majority ownership of each lot to be merged, whether represented by stock, membership interest, partnership interest, co-tenancy interest, or otherwise, in the case of projects proposed under subsection (c)(4)(B).

(C) **Vacant or Abandoned Property.** The ownership requirement in this subsection (c)(10) shall not apply if the property has been registered as a vacant or abandoned building pursuant to Building Code Section 103A.4 *et seq.* for at least five years preceding the application submittal if the existing site contains two or more dwelling units, or one year preceding application submittal if the site contains one or fewer dwelling units or a single-family home containing an Unauthorized Unit.¹

(D) The requirements of this subsection (c)(10) shall apply regardless of the legal form of ownership of the property, including but not limited to properties owned by a limited liability company.

(11) the project sponsor certifies under penalty of perjury that the project does not propose the demolition of:

(A) three or more dwelling units that are or were:

(i) subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of lower or very low income within the past five years; or

(ii) subject to limits on rent increases under the Residential Rent Stabilization and Arbitration Ordinance (Chapter 37 of the Administrative Code) within the past five years; or

(iii) rented by lower or very low income households within the past five years; or

(B) a dwelling unit occupied by a tenant at the time of application; or

(C) a dwelling unit from which a tenant has been evicted under Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) within the past five years or a dwelling unit that has been vacated within the past five years pursuant to a Buyout Agreement, pursuant to the requirements of Administrative Code Section 37.9E, as it may be amended from time to time, regardless of whether the Buyout Agreement was filed and registered with the Rent Board pursuant to Administrative Code Section 37.9E(h).

(D) For the purposes of this subsection (c)(11) of Section 249.94, "lower or very low income households" shall have the same meaning as in Government Code Section 66300; and

(12) the project sponsor has conducted one pre-application meeting prior to filing a development application. The Planning Department shall not accept a development application under this Section 249.94 without confirmation that the project sponsor has held at least one pre-application meeting conforming to the requirements of this subsection (c)(12) and any additional procedures established by the Planning Department. The project sponsor shall provide mailed notice of the pre-application meeting to the individuals and neighborhood organizations specified in Planning Code Section 333(e)(2)(A) and (C). The Planning Department shall establish additional procedures to administer this subsection (c)(12).

(d) **Other Controls.**

(1) **Density Exceptions.** Projects that meet the eligibility criteria in subsection (c) of this Section 249.94 are exempt from residential density limits, calculation of which shall not include any Accessory Dwelling Units permitted under Section 207, as follows:

(A) **Single-Lot Density Exception.** For projects eligible under subsection (c)(4)(A), up to four dwelling units per lot;

(B) **Lot-Merger Density Exception.** For projects eligible under subsection (c)(4)(B), the greater of twelve dwelling units per lot or one dwelling unit per 1,000 square feet of lot area, if the lot is the result of a merger of three lots, or the greater of eight dwelling units per lot or one dwelling unit per 1,000 square feet of lot area, if the lot is the result of a merger of two lots;

(C) **Group Housing Density Exception.** For both Single-Lot and Lot-Merger Development Projects under subsection (c)(4)(A) or (B), up to one Group Housing bedroom per 415 square feet of lot area in RH-1, RH-1(D), and RH-1(S) districts.

(2) **Height.** Notwithstanding any other provision of this Code, including but not limited to Section 261(b), the height limit for a project that meets the eligibility criteria in subsection (c) of this Section 249.94 shall be 40 feet, if 40 feet is authorized by the Height Map of the Zoning Map. Notwithstanding the foregoing sentence, a project shall comply with the requirements of Section 261(c).

(3) **Construction of Rear-Yard Unit.** Construction of a rear-yard unit shall be governed by the following standards:

(A) The subject parcel must be at least 2,400 square feet;

(B) The rear-yard unit shall be located at least four feet from the side and rear lot lines and shall not share structural walls with any other structure on the lot;

(C) Compliance with minimum rear-yard requirements shall not be required, except that a minimum 25 feet separation shall be provided between the facades that face each other;

(D) For the rear-yard unit and units in the primary building that obtain their only Code-complying exposure from the rear yard, the dwelling unit exposure requirements of Section 140(a)(2) may be satisfied through qualifying windows facing an unobstructed open area that is no less than 25 feet in every horizontal dimension, and such open area is not required to expand in every horizontal dimension at subsequent floors;

(E) The rear-yard building height shall be limited to 20 feet measured from existing grade at any given point to either i) the highest point of a finished roof, in the case of a flat roof, or ii) the average height of a pitched roof or stepped roof, or similarly sculptured roof form. The rear-yard building shall not be eligible for any height exemptions in subsection (d)(2) of this Section 249.94 or in Section 260(b); and

(F) Each dwelling unit or group housing bedroom shall have at least 100 square feet of usable open space if private, or 133 square feet if common.

(4) **Rear-Yard Requirements**¹ For projects that do not construct a rear-yard unit pursuant to subsection (d)(3) of this Section 249.94, the basic rear yard requirement shall be equal to 30% of the total depth of the lot on which the building is situated, but in no case less than 15 feet.

(5) **Open Space Requirements for Lot-Merger Projects.** For projects eligible under subsection (c)(4)(B) of this Section 249.94, each dwelling unit shall have at least 100 square feet of usable open space if private, or 133 square feet if common.

(6) **Minimum Density Requirement on Merged Lots.** For lots merged pursuant to subsection (c)(4)(B) of this Section 249.94, any development on the resulting lot shall be subject to the following minimum densities:

(A) six units per lot, if the lot results from a two-lot merger; or

(B) nine units per lot, if the lot results from a three-lot merger.

(e) Applicability of Rent Ordinance; Regulatory Agreements.

(1) Sponsors of projects utilizing any of the density exceptions above the base density up to the limits in subsection (d)(1) of this Section 249.94 shall enter into a regulatory agreement with the City subjecting the new units created pursuant to such density exception, except for any required Affordable Units as defined in Planning Code Section 401, to the Residential Rent Stabilization and Arbitration Ordinance (Chapter 37 of the Administrative Code), as a condition of approval of the density exception ("Regulatory Agreement").

(2) The property owner and the Planning Director, or the Director's designee, on behalf of the City, will execute the Regulatory Agreement, which is subject to review and approval by the City Attorney's Office. The Regulatory Agreement shall be executed prior to the City's issuance of the First Construction Document for the project, as defined in Section 107A.13.1 of the Building Code. Following execution of the Regulatory Agreement by all parties and approval by the City Attorney, the Regulatory Agreement or a memorandum thereof shall be recorded in the title records in the Office of the Assessor-Recorder against the property and shall be binding on all future owners and successors in interest.

(3) At a minimum, the Regulatory Agreement shall contain the following:

(A) A description of the total number of units approved, including the number of units subject to the Rent Stabilization and Arbitration Ordinance and other restricted units, if any, and the location, square footage of dwelling units, and number of bedrooms in each unit;

(B) A statement that the new units created pursuant to the density exception are not subject to the Costa-Hawkins Rental Housing Act (California Civil Code Section 1954.50 *et seq.*). Further, that under Section 1954.52(b), the property owner has entered into and agreed to the terms of the agreement with the City in consideration for an exception from residential density limits, or other direct financial contribution or other forms of assistance specified in California Government Code Section 65915 *et seq.*;

(C) A description of the residential density exception or other direct financial contribution or forms of assistance provided to the property owner; and

(D) A description of the remedies for breach of the agreement and other provisions to ensure implementation and compliance with the agreement.

(f) **Review and Approvals.** Notwithstanding any other provision of this Code, the following shall apply to any project that meets the eligibility criteria in subsection (c) of this Section 249.94, irrespective of whether a project is utilizing a density exception to construct units above the applicable density limit in the RH district pursuant to subsection (d)(1) of this Section 249.94:

(1) No conditional use authorization shall be required, including but not limited to the requirements of Sections 303 and 317 of this Code, unless:

(A) a project would demolish any units that are subject to limits on rent increases under the Residential Rent Stabilization and Arbitration Ordinance (Chapter 37 of the Administrative Code); or

(B) a project requires a conditional use authorization pursuant to Sections 249.77 or 249.92.

(2) Compliance with Section 311 of this Code shall not be required, unless a project would demolish any units that are subject to limits on rent increases under the Residential Rent Stabilization and Arbitration Ordinance (Chapter 37 of the Administrative Code), in which case the requirements of Section 311 shall apply; and

(3) A Notice of Special Restrictions (“NSR”) shall be recorded on the title of any property receiving approval under this Section 249.94. The NSR shall:

(A) Describe the uses, restrictions, and development controls approved under Planning Code Section 249.94, including but not limited to the minimum density restrictions set forth in subsection (d)(6);

(B) State that the NSR runs with the land and is binding on all future owners and successors in interest;

(C) Provide the Planning Department with the ability to enforce the provisions of this Section 249.94;

(D) Describe any other conditions that the Planning Director or Planning Commission deems appropriate to ensure compliance with this Section 249.94; and

(E) Be signed by the City and recorded prior to issuance of the building permit for the project receiving approval under this Section 249.94.

(g) **Review of Program.** The Planning Department shall include the location and number of units of projects using this Section 249.94 in the Housing Inventory Report. Prior to December 31, 2030, the Planning Department shall prepare a report containing recommendations for modifications to this Section 249.94, including modifications to the boundaries described in subsection (b), to further the goals of the City’s Seventh Housing Element Cycle.

RE: Constraints Reduction Ordinance – Letter of Technical Assistance

Dear Land Use and Transportation Committee:

The California Department of Housing and Community Development (HCD) is aware of recent amendments made to the proposed Constraints Reduction Ordinance (Ordinance), which seeks to implement fully or partially some of San Francisco's housing element commitments. The purpose of this letter is to provide technical assistance to the City and County of San Francisco (City). HCD previously sent a Letter of Support and Technical Assistance on June 16, 2023, to both the Planning Commission and Board of Supervisors regarding this Ordinance.

While HCD shares the City's goal of maintaining family housing in San Francisco and understands the challenges in addressing the needs of various stakeholders, HCD has concerns about exempting the Family Housing Opportunity Special Use District (SUD) from the Constraints Reduction Ordinance, as proposed. San Francisco's adopted and compliant housing element does not contemplate this carve-out for the SUD. As outlined below, the proposed amendments to the Ordinance may impact the City's implementation of key housing element Actions that the City committed to in its adopted housing element by exempting the SUD from some of the amendments to the City's code and processes. As a result, the proposed amendments may be inconsistent with the City's obligations under Housing Element Law (Gov. Code, § 65580 et seq.) and Affirmatively Further Fair Housing (AFFH) (Gov. Code, § 8899.50).

Proposed Ordinance and Housing Element Implementation

The fulfillment of the following housing element Actions would likely be compromised by the proposed amendments because those Actions do not exempt the SUD:

- Action 7.2.6 includes a requirement that the City "[p]ermit group housing broadly throughout the city, particularly in zones allowing single-family uses, increase group housing density permitted in these districts, and remove Conditional Use Authorizations or other entitlement barriers to group housing. Changes should

focus on special needs groups, including those with disabilities, by ensuring that intermediate care facilities or congregate living health facilities, with six or fewer residents are treated no differently than other by-right single-family housing uses as required in Health and Safety Code sections 1267.8, 1566.3, and 1568.08.”

- Action 8.3.3 includes a requirement that the City “[e]valuate open space and exposure standards to reduce the number of projects seeking exceptions on typical lot conditions, for instance by removing the inner court five-foot setback at each level requirement under Planning Code Section 140....”
- Action 8.4.10 requires that the City “[r]emove Conditional Use Authorizations where required to achieve greater height for a housing project or replace height and bulk districts that require Conditional Use Authorizations to exceed the base height with one that allows the current maximum height....”
- Action 8.4.11 requires that the City “[r]educe the minimum lot size to 1,200 square feet and minimum lot width to 20 feet for proposed projects that net at least one housing unit.”
- Action 8.4.17 includes a requirement that the City “[r]emove neighborhood notification requirements for projects outside of Priority Equity Geographies that are code complying, net at least one housing unit, and only expand the rear or side of an existing building and for all non-discretionary ministerial projects.”

Furthermore, HCD notes that prior amendments to Planning Code Section 121.1, specifically 121.1(b)(1) and (2), appear to introduce subjective design review standards into the Planning Code. Subjective requirements such as “compatible with the existing scale of the district” and “contribute to the positive visual quality of the district” are contrary to the housing element Actions in 8.3 (Objective Design Standards & Findings) and could be contrary to the requirement for objective standards and criteria in the Housing Accountability Act (see Gov. Code, § 65589.5, subds. (f)(1) and (j)(1)). “Objective” standards are those “involving no personal or subjective judgment by a public official and [are] uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant or proponent and the public official.” (Gov. Code, § 65589.5, subd. (h)(8).)

San Francisco Housing Policy and Practice Review

As you are aware, on October 25, 2023, HCD released the San Francisco Housing Policy and Practice Review (Review). That report includes 18 Required Actions and 10 Recommended Actions needed to address key findings of the Review. Some of the actions would be implemented, at least in part, in the draft Ordinance as originally proposed without exempting the SUD from key housing element commitments. As a result, the SUD and amendments to Planning Code Section 121.1 could undermine the City’s efforts to implement the Required Actions outlined in the Review, including, but not limited to, Actions 1.4 and 1.10, and compromise the City’s ability to address findings related to discretionary permitting processes and other procedural complexities.

HCD also reminds the City of Recommended Action 6.2, and the related housing element Action 8.4.19, which recommends ensuring that any revisions to the Planning Code simplify or reduce the rules applied to housing projects.

Conclusion

To ensure consistency with the City's housing element and the relevant Actions in the Policy and Practice Review, HCD encourages the City to adopt the Constraints Reduction Ordinance as originally proposed. HCD welcomes continued collaboration with the City on meeting its housing goals and is available to provide technical assistance on this topic and ensure the goals of the amendments are met without deviating from the City's commitments in the housing element and the Policy and Practice Review.

HCD appreciates the opportunity to provide information, assist the City in its decision making, and ensure the City is meeting important statutory requirements. Please feel free to contact Fidel Herrera, of our staff, at fidel.herrera@hcd.ca.gov with any questions or additional information.

Sincerely,

NOTICE OF PUBLIC HEARING

LAND USE AND TRANSPORTATION COMMITTEE

BOARD OF SUPERVISORS OF THE CITY AND COUNTY OF SAN FRANCISCO

NOTICE IS HEREBY GIVEN THAT the Land Use and Transportation Committee of the City and County of San Francisco will hold a public hearing to consider the following hearing matter and said public hearing will be held as follows, at which time all interested parties may attend and be heard:

Date: Monday, December 4, 2023

Time: 1:30 p.m.

Location: Legislative Chamber, Room 250, located at City Hall
1 Dr. Carlton B. Goodlett Place, San Francisco. CA

Subject: File No. 231142. Ordinance amending the Planning Code to encourage housing production by (1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations, and areas outside RH (Residential House) Districts within the Family Housing Opportunity Special Use District; (2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots in areas outside the Priority Equity Geographies Special Use District, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; (3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; (4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; (5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; (6) exempting certain affordable housing projects from certain development fees; (7)

authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; (8) sunsetting the Conditional Use requirements established by the Corona Heights Large Residence and the Central Neighborhoods Large Residence Special Use Districts at the end of 2024, and thereafter limiting the size of any Dwelling Units resulting from residential development in those Special Use Districts to 3,000 square feet of Gross Floor Area; and (9) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; amending the Subdivision Code to update the condominium conversion requirements for projects utilizing residential density exceptions in RH Districts; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan and the eight priority policies of Planning Code, Section 101.1.

In accordance with Administrative Code, Section 67.7-1, persons who are unable to attend the hearing on this matter may submit written comments prior to the time the hearing begins. These comments will be added to the official public record in this matter and shall be brought to the attention of the Board of Supervisors. Written comments should be addressed to Angela Calvillo, Clerk of the Board, City Hall, 1 Dr. Carlton B. Goodlett Place, Room 244, San Francisco, CA, 94102 or sent via email (bos@sfgov.org). Information relating to this matter is available with the Office of the Clerk of the Board or the Board of Supervisors' Legislative Research Center (<https://sfbos.org/legislative-research-center-lrc>). Agenda information relating to this matter will be available for public review on Friday, December 1, 2023.

For any questions about this hearing, please contact the Assistant Clerk for the Land Use and Transportation Committee:

[Planning and Subdivision Codes, Zoning Map - Housing Production]

Ordinance amending the Planning Code to encourage housing production by (1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations, and areas outside RH (Residential House) Districts within the Family Housing Opportunity Special Use District; (2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots in areas outside the Priority Equity Geographies Special Use District, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; (3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts, subject to certain exceptions in RH Districts in the Family Housing Opportunity Special Use District; (4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; (5) expanding the eligibility for the Housing Opportunities Mean Equity – San Francisco (HOME – SF) program and density exceptions in residential districts; (6) exempting certain affordable housing projects from certain development fees; (7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and (8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity

1 Geographies Special Use District; amending the Subdivision Code to update the
2 condominium conversion requirements for projects utilizing residential density
3 exceptions in RH Districts; affirming the Planning Department's determination under
4 the California Environmental Quality Act; and making public necessity, convenience,
5 and welfare findings under Planning Code, Section 302, and findings of consistency
6 with the General Plan and the eight priority policies of Planning Code, Section 101.1.

13 subsections or parts of tables.

14 Be it ordained by the People of the City and County of San Francisco:

15 Section 1. Environmental and Land Use Findings.

16 (a) The Planning Department has determined that the actions contemplated in this
17 ordinance comply with the California Environmental Quality Act (California Public Resources
18 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
19 Supervisors in File No. ____ and is incorporated herein by reference. The Board affirms this
20 determination.

21 (b) On _____, the Planning Commission, in Resolution No. _____,
22 adopted findings that the actions contemplated in this ordinance are consistent, on balance,
23 with the City's General Plan and eight priority policies of Planning Code Section 101.1. The
24 Board adopts these findings as its own. A copy of said Resolution is on file with the Clerk of
25 the Board of Supervisors in File No. _____, and is incorporated herein by reference.

(c) Pursuant to Planning Code Section 302, this Board finds that these Planning Code

1 amendments will serve the public necessity, convenience, and welfare for the reasons set
2 forth in Planning Commission Resolution No. _____, and the Board adopts such
3 reasons as its own. A copy of said resolution is on file with the Clerk of the Board of
4 Supervisors in File No. _____ and is incorporated herein by reference.

5 Section 2. General Background and Findings.

6 (a) California faces a severe crisis of housing affordability and availability, prompting
7 the Legislature to declare, in Section 65589.5 of the Government Code, that the state has “a
8 housing supply and affordability crisis of historic proportions. The consequences of failing to
9 effectively and aggressively confront this crisis are hurting millions of Californians, robbing
10 future generations of a chance to call California home, stifling economic opportunities for
11 workers and businesses, worsening poverty and homelessness, and undermining the state’s
12 environmental and climate objectives.”

13 (b) This crisis of housing affordability and availability is particularly severe in San
14 Francisco. It is characterized by dramatic increases in rent and home sale prices over recent
15 years.

16 (c) According to the Planning Department’s 2020 Housing Inventory, the cost of
17 housing in San Francisco has increased dramatically since the Great Recession of 2008-
18 2009, with the median sale price for a two-bedroom house more than tripling from 2011 to
19 2021, from \$493,000 to \$1,580,000. This includes a 9% increase from 2019 to 2020 alone,
20 even in the face of the COVID-19 pandemic. The median rental price for a two-bedroom
21 apartment saw similar although slightly smaller increases, nearly doubling from \$2,570 to
22 \$4,500 per month, from 2011 to 2019, before declining in 2020 due to the pandemic.

23 (d) These housing cost trends come after decades of underproduction of housing in
24 the Bay Area, according to the Planning Department’s 2019 Housing Affordability Strategies
25 Report. The City’s Chief Economist has estimated that approximately 5,000 new market-rate

1 housing units per year would be required to keep housing prices in San Francisco constant
2 with the general rate of inflation.

3 (e) Moreover, San Francisco will be challenged to meet increased Regional Housing
4 Needs Allocation (“RHNA”) goals in this 2023-2031 Housing Element cycle, which total 82,069
5 units over eight years, (46,598 of which must be affordable to extremely-low, very-low, low-,
6 and moderate-income households), more than 2.5 times the goal of the previous eight-year
7 cycle. The importance of meeting these goals to address housing needs is self-evident. In
8 addition, under relatively new State laws like Senate Bill 35 (2017), failure to meet the 2023-
9 2031 RHNA housing production goals would result in limitations on San Francisco’s control
10 and discretion over certain projects.

11 (f) On January 31, 2023, the City adopted the 2022 Update of the Housing Element of
12 the General Plan (“2022 Housing Element”), as required by state law. The 2022 Housing
13 Element is San Francisco’s first housing plan that is centered on racial and social equity. It
14 articulates San Francisco’s commitment to recognizing housing as a right, increasing housing
15 affordability for low-income households and communities of color, opening small and mid-rise
16 multifamily buildings across all neighborhoods, and connecting housing to neighborhood
17 services like transportation, education, and economic opportunity.

18 (g) The 2022 Housing Element includes goals, objectives, policies and implementing
19 programs that seek to guide development patterns and the allocation of resources to San
20 Francisco neighborhoods. Generally, it intends to shift an increased share of the San
21 Francisco’s projected future housing growth to transit corridors and low-density residential
22 districts within “Well-Resourced Neighborhoods” (which are areas identified by the state as
23 neighborhoods that provide strong economic, health, and educational outcomes for its
24 residents), while aiming to prevent the potential displacement and adverse racial and social
25 equity impacts of zoning changes, planning processes, or public and private investments for

1 populations and in areas that may be vulnerable to displacement, such as “Priority Equity
2 Geographies” (identified in the Department of Public Health’s Community Health Needs
3 Assessment as Areas of Vulnerability).

4 (h) Among other policies, the 2022 Housing Element commits the City to remove
5 governmental constraints on housing development, maintenance and improvement,
6 specifically in Well-Resourced Neighborhoods and in areas outside of Priority Equity
7 Geographies, as well as to reduce costs and administrative processes for affordable housing
8 projects, small and multifamily housing, and to simplify and standardize processes and permit
9 procedures. Among many other obligations, the 2022 Housing Element requires that the City
10 remove Conditional Use Authorization requirements for code compliant projects, eliminate
11 hearing requirements, and modify standards and definitions to permit more types of housing
12 across the City, in Well-Resourced Neighborhoods and outside of Priority Equity
13 Geographies. This ordinance advances those goals.

14
15 Section 3. The Planning Code is hereby amended by deleting Sections 121.1, 121.3,
16 132.2, ~~253~~, 253.1, 253.2, and 253.3, revising Sections 102, 121, 121.7, 132, 134, 135, 140,
17 145.1, 202.2, 204.1, 206.3, 206.6, 207, 209.1, 209.2, 209.3, 209.4, 210.3, ~~253~~, 305.1, 311,
18 317, 406, ~~710, 711~~, 713, 714, ~~722, 723, 750~~, 754, 810, 811, and 812, and adding new
19 Sections 121.1 and 121.3, and Section 249.97, to read as follows:

20
21 **SEC. 102.DEFINITIONS.**

22 * * * *

23 **Dwelling Unit.** A Residential Use defined as a room or suite of two or more rooms that is de-
24 signed for, or is occupied by, one family doing its own cooking therein and having only one
25 kitchen. A Dwelling Unit shall also include “employee housing” when providing accommodations for

six or fewer employees, as provided in State Health and Safety Code §17021.5. A housekeeping room as defined in the Housing Code shall be a Dwelling Unit for purposes of this Code. For the purposes of this Code, a Live/Work Unit, as defined in this Section, shall not be considered a Dwelling Unit.

* * * *

Height (of a building or structure). The vertical distance by which a building or structure rises above a certain point of measurement. See Section 260 of this Code for how height is measured.

Historic Building. *A Historic Building is a building or structure that meets at least one of the following criteria:*

- *It is individually designated as a landmark under Article 10;*
- *It is listed as a contributor to an historic district listed in Article 10;*
- *It is a Significant or Contributory Building under Article 11, with a Category I, II, III or IV rating;*
- *It has been listed or has been determined eligible for listing in the California Register of Historical Resources; or,*
- *It has been listed or has been determined eligible for listing in the National Register of Historic Places.*

* * * *

SEC. 121. MINIMUM LOT WIDTH AND AREA.

* * * *

(b) **Subdivisions and Lot Splits.** Subdivisions and lot splits shall be governed by the Subdivision Code of the City and County of San Francisco and by the Subdivision Map Act of

California. In all such cases the procedures and requirements of said Code and said Act shall be followed, including the requirement for consistency with the General Plan of the City and County of San Francisco. ~~Where the predominant pattern of residential development in the immediate vicinity exceeds the minimum standard for lot width or area, or the minimum standards for both lot width and area, set forth below in this Section, any new lot created by a subdivision or lot split under the Subdivision Code shall conform to the greater established standards, provided that in no case shall the required lot width be more than 33 feet or the required lot area be more than 4,000 square feet.~~

In RH districts in the Family Housing Opportunity Special Use District, where the predominant pattern of residential development in the immediate vicinity exceeds the minimum standard for lot width or area, or exceeds the minimum standards for both lot width and area, set forth below in this Section 121, any new lot created by a subdivision or lot split under the Subdivision Code shall conform to the greater established standard(s), provided that in no case shall the required lot width be more than 33 feet or the required lot area be more than 4,000 square feet.

* * * *

(d) **Minimum Lot Width.** The minimum lot width shall be 20 feet. ~~as follows:~~ as follows:

~~(1) In RH-1(D) Districts: 33 feet;~~

~~(2) In all other zoning use districts: 25 feet.~~

1) In RH-1(D) Districts in the Family Housing Opportunity Special Use District (Section 249.94): 33 feet;

(2) In all other RH Districts in the Family Housing Opportunity Special Use District: 25 feet;

(3) In all other zoning use districts: 20 feet.

(e) **Minimum Lot Area.** The minimum lot area shall be 1,200 sq. ft. ~~as follows:~~ as follows:

1 ~~(1) In RH-1(D) Districts: 4,000 square feet;~~

2 ~~(2) In all other zoning use districts: 2,500 square feet; except that the minimum lot~~
3 ~~area for any lot having its street frontage entirely within 125 feet of the intersection of two streets that~~
4 ~~intersect at an angle of not more than 135 degrees shall be 1,750 square feet.~~

5 (1) In RH-1(D) Districts in the Family Housing Opportunity Special Use District
6 (Section 249.94): 4,000 square feet;

7 (2) In all other RH Districts in the Family Housing Opportunity Special Use
8 District: 2,500 square feet; except that the minimum lot area for any lot having its street
9 frontage entirely within 125 feet of the intersection of two streets that intersect at an angle of
10 not more than 135 degrees shall be 1,750 square feet.

11 (3) In all other zoning use districts: 1,200 square feet.

12 ~~(f) Conditional Uses. Notwithstanding the foregoing requirements of this Section 121 as to lot~~
13 ~~width, lot area and width of lot frontage, in any zoning use district other than an RH-1(D) District the~~
14 ~~City Planning Commission may permit one or more lots of lesser width to be created, with each lot~~
15 ~~containing only a one-family dwelling and having a lot area of not less than 1,500 square feet,~~
16 ~~according to the procedures and criteria for conditional use approval in Section 303 of this Code.~~

17 (f) **Conditional Uses.** Notwithstanding the foregoing requirements of this Section 121
18 as to lot width, lot area, and width of lot frontage, in any RH District in the Family Housing
19 Opportunity Special Use District, other than an RH-1(D) District, the Planning Commission
20 may permit one or more lots of lesser width to be created, with each lot containing only a one-
21 family dwelling and having a lot area of not less than 1,500 square feet, according to the
22 procedures and criteria for conditional use approval in Section 303 of this Code.

23
24 ***SEC. 121.1. DEVELOPMENT OF LARGE LOTS, NEIGHBORHOOD COMMERCIAL***
25 ***DISTRICTS.***

~~(a) **Purpose.** In order to promote, protect, and maintain a scale of development that is appropriate to each district and compatible with adjacent buildings, new construction or significant enlargement of existing buildings on lots of the same size or larger than the square footage stated in the table below shall be permitted only as Conditional Uses.~~

13 ~~(b) **Design Review Criteria.** In addition to the criteria of Section 303(c) of this Code, the City~~
14 ~~Planning Commission shall consider the extent to which the following criteria are met:~~

15 ~~(1) The mass and facade of the proposed structure are compatible with the existing~~
16 ~~scale of the district.~~

17 ~~(2) The facade of the proposed structure is compatible with design features of adjacent~~
18 ~~facades that contribute to the positive visual quality of the district.~~

19 ~~(3) Where 5,000 or more gross square feet of Non-Residential space is proposed, that~~
20 ~~the project provides commercial spaces in a range of sizes, including one or more spaces of 1,000~~
21 ~~gross square feet or smaller, to accommodate a diversity of neighborhood business types and business~~
22 ~~sizes.~~

**SEC. 121.1. DEVELOPMENT OF LARGE LOTS IN NEIGHBORHOOD
COMMERCIAL DISTRICTS LOCATED IN THE PRIORITY EQUITY GEOGRAPHIES
SPECIAL USE DISTRICT.**

(a) Purpose. In order to promote, protect, and maintain a scale of development that is appropriate to each district and compatible with adjacent buildings, new construction or significant enlargement of existing buildings on lots of the same size or larger than the square footage stated in the Neighborhood Commercial Districts located in the Priority Equity Geographies Special Use District established under Section 249.97 shown in the table below shall be permitted only as Conditional Uses.

<u>District</u>	<u>Lot Size Limits</u>
<u>North Beach (*)</u>	<u>2,500 sq. ft.</u>
<u>Polk Street (*)</u>	
<u>NC-1, NCT-1 (*)</u>	
<u>24th Street-Mission</u>	<u>5,000 sq. ft.</u>
<u>NC-2, NCT-2 (*)</u>	
<u>NC-3, NCT-3 (*)</u>	<u>10,000 sq. ft.</u>
<u>Bayview</u>	
<u>Divisadero Street (*)</u>	
<u>Excelsior Outer Mission Street</u>	
<u>Fillmore Street (*)</u>	
<u>Folsom Street</u>	
<u>Hayes-Gough</u>	

1	<u>Lower Polk Street</u>	
2	<u>Mission Street</u>	
3	<u>San Bruno Avenue</u>	
4	<u>SoMa</u>	
5	<u>Upper Market Street</u>	
6	<u>Valencia Street (*)</u>	

8 (*) These districts are located at least partially in the Priority Equity Geographies
9 Special Use District established under Section 249.97. The controls in this Section 121.1
10 shall apply to those areas of these districts that are within the Priority Equity Geographies
11 SUD. The controls in this Section 121.1 shall not apply to portions of any Neighborhood
12 Commercial District that are outside the Priority Equity Geographies SUD.

13 (b) **Design Review Criteria.** In addition to the criteria of Section 303(c) of this Code,
14 the Planning Commission shall consider the extent to which the following criteria are met:

15 (1) The mass and facade of the proposed structure are compatible with the
16 existing scale of the district.

17 (2) The facade of the proposed structure is compatible with design features of
18 adjacent facades that contribute to the positive visual quality of the district.

19 (3) Where 5,000 or more gross square feet of Non-Residential space is
20 proposed, the project provides commercial spaces in a range of sizes, including one or more
21 spaces of 1,000 gross square feet or smaller, to accommodate a diversity of neighborhood
22 business types and business sizes.

23 ***SEC. 121.3. DEVELOPMENT OF LARGE LOTS, CHINATOWN MIXED-USE***
24 ***DISTRICTS.***

~~In order to promote, protect, and maintain a scale of development which is appropriate to each Mixed Use District and complementary to adjacent buildings, new construction or enlargement of existing buildings on lots larger than the square footage stated in the table below shall be permitted as conditional uses subject to the provisions set forth in Section 303.~~

<i>District</i>	<i>Lot Size Limits</i>
<i>Chinatown Community Business</i>	<i>5,000 sq. ft.</i>
<i>Chinatown Residential/Neighborhood Commercial</i>	
<i>Chinatown Visitor Retail</i>	

~~In addition to the criteria of Section 303(c), the Planning Commission shall consider the following criteria:~~

~~(1) The mass and facade of the proposed structure are compatible with the existing scale of the district.~~

~~(2) The facade of the proposed structure is consistent with design features of adjacent facades that contribute to the positive visual quality of the district.~~

SEC. 121.3. DEVELOPMENT OF LARGE LOTS, CHINATOWN MIXED USE DISTRICTS.

(a) In order to promote, protect, and maintain a scale of development which is appropriate to each Mixed Use District and complementary to adjacent buildings, new construction or enlargement of existing buildings on lots larger than the square footage stated in the table below shall be permitted as conditional uses subject to the provisions set forth in Section 303.

<u>District</u>	<u>Lot Size Limits</u>
<u>Chinatown Community Business</u>	<u>5,000 sq. ft.</u>
<u>Chinatown Residential/Neighborhood Commercial</u>	
<u>Chinatown Visitor Retail</u>	

(b) In addition to the criteria of Section 303(c), the Planning Commission shall consider the following criteria:

(1) The mass and facade of the proposed structure are compatible with the existing scale of the district.

(2) The facade of the proposed structure is consistent with design features of adjacent facades that contribute to the positive visual quality of the district.

SEC. 121.7. RESTRICTION OF LOT MERGERS IN CERTAIN DISTRICTS AND ON PEDESTRIAN-ORIENTED STREETS.

* * * *

(b) **Controls.** Merger of lots is regulated as follows:

~~(1) **RTO Districts.** In RTO Districts, merger of lots creating a lot greater than 5,000 square feet shall not be permitted except according to the procedures and criteria in subsection (d) below.~~

(1) **RTO Districts.** In RTO Districts within the Priority Equity Geographies Special Use District established under Section 249.97, merger of lots creating a lot greater than 5,000 square feet shall not be permitted except according to the procedures and criteria in subsection (d) below.

(212)

NCT, NC, and Mixed-Use Districts. In those NCT, NC, and Mixed Use Districts listed below, merger of lots resulting in a lot with a single street frontage greater than that stated in the table below on the specified streets or in the specified Districts is prohibited except according to the procedures and criteria in subsections (c) and (d) below.

(323)

WMUO District. Merger of lots in the WMUO zoning district resulting in a lot with a street frontage between 100 and 200 feet along Townsend Street is permitted so long as a publicly-accessible through-block pedestrian alley at least 20 feet in width and generally conforming to the design standards of Section 270.2(e)(5)-(12) of this Code is provided as a result of such merger.

(434)

Mission Street NCT District. In the Mission Street NCT District, projects that propose lot mergers resulting in street frontages on Mission Street greater than 50 feet shall provide at least one non-residential space of no more than 2,500 square feet on the ground floor fronting Mission Street.

(545)

Ocean Avenue NCT District. In the Ocean Avenue NCT District, projects that propose lot mergers resulting in street frontages greater than 50 feet are permitted to create corner lots only, and shall require a conditional use authorization.

* * * *

SEC. 132. FRONT SETBACK AREAS IN RTO, RH, AND RM DISTRICTS AND FOR REQUIRED SETBACKS FOR PLANNED UNIT DEVELOPMENTS.

The following requirements for minimum front setback areas shall apply to every building in all RH, RTO, and RM Districts, in order to relate the setbacks provided to the existing front setbacks of adjacent buildings. Buildings in RTO Districts which have more than 75 feet of street frontage are additionally subject to the Ground Floor Residential Design Guidelines, as adopted and periodically amended by the Planning Commission. Planned Unit

1 Developments or PUDs, as defined in Section 304, shall also provide landscaping in required
2 setbacks in accord with Section 132(g).

3 (a) **Basic Requirement.** Where one or both ~~of the~~ buildings adjacent to the subject
4 property have front setbacks along a Street or Alley, any building or addition constructed,
5 reconstructed, or relocated on the subject property shall be set back **as follows:**

6 (1) **In RH Districts in the Family Housing Opportunity Special Use District**
7 **(Section 249.94):** the average of the two adjacent front setbacks, except as provided in
8 subsection (d) below. If only one of the adjacent buildings has a front setback, or if there is
9 only one adjacent building, then the required setback for the subject property shall be equal to
10 one-half the front setback of such adjacent building;

11 (2) **In all other zoning use districts:** *no less than the depth of the adjacent building*
12 *with the shortest front setback, except as provided in subsection (c). ~~the average of the two adjacent~~*
13 *front setbacks. If only one of the adjacent buildings has a front setback, or if there is only one adjacent*
14 *building, then the required setback for the subject property shall be equal to one-half the front setback*
15 *of such adjacent building.*

16 (3) In any case in which the lot constituting the subject property is separated
17 from the lot containing the nearest building by an undeveloped lot or lots for a distance of 50
18 feet or less parallel to the Street or Alley, such nearest building shall be deemed to be an
19 “adjacent building,” but a building on a lot so separated for a greater distance shall not be
20 deemed to be an “adjacent building.” **[Note to publisher: Delete diagram that follows this text].**

21 ~~(b) **Alternative Method of Averaging.** If, under the rules stated in subsection (a) above, an~~
22 ~~averaging is required between two adjacent front setbacks, or between one adjacent setback and~~
23 ~~another adjacent building with no setback, the required setback on the subject property may~~
24 ~~alternatively be averaged in an irregular manner within the depth between the setbacks of the two~~
25 ~~adjacent buildings, provided that the area of the resulting setback shall be at least equal to the product~~

1 of the width of the subject property along the Street or Alley times the setback depth required by
2 subsections (a) and (c) of this Section 132; and provided further, that all portions of the resulting
3 setback area on the subject property shall be directly exposed laterally to the setback area of the
4 adjacent building having the greater setback. In any case in which this alternative method of averaging
5 has been used for the subject property, the extent of the front setback on the subject property for
6 purposes of subsection (c) below relating to subsequent development on an adjacent site shall be
7 considered to be as required by subsection (a) above, in the form of a single line parallel to the Street
8 or Alley [Note to publisher: Delete diagram that follows this text].

9 **(b) Alternative Method of Averaging.** If, under the rules stated in subsection (a)
10 above, an averaging is required between two adjacent front setbacks, or between one
11 adjacent setback and another adjacent building with no setback, the required setback on the
12 subject property may alternatively be averaged in an irregular manner within the depth
13 between the setbacks of the two adjacent buildings, provided that the area of the resulting
14 setback shall be at least equal to the product of the width of the subject property along the
15 Street or Alley times the setback depth required by subsections (a) and (c) of this Section 132;
16 and provided further, that all portions of the resulting setback area on the subject property
17 shall be directly exposed laterally to the setback area of the adjacent building having the
18 greater setback. In any case in which this alternative method of averaging has been used for
19 the subject property, the extent of the front setback on the subject property for purposes of
20 subsection (c) below relating to subsequent development on an adjacent site shall be
21 considered to be as required by subsection (a) above, in the form of a single line parallel to

the Street or Alley. [Note to publisher: The diagram that follows is a reproduction of the diagram that appears below Section 132(b) in the current version of the Planning Code.]

(be) **Method of Measurement.** The extent of the front setback of each adjacent building shall be taken as the horizontal distance from the property line along the Street or Alley to the building wall closest to such property line, excluding all projections from such wall, all decks and garage structures and extensions, and all other obstructions.

(ce) **Applicability to Special Lot Situations.**

* * * *

(de) **Maximum Requirements.** The maximum required front setback in any of the cases described in this Section 132 shall be as follows:

(1) In RH Districts in the Family Housing Opportunity Special Use District (Section 249.94): 15 feet from the property line along the Street or Alley, or 15% of the average depth of the lot from such Street or Alley, whichever results in the lesser requirement. Where a lot faces on a Street or Alley less than or equal to 40 feet in width, the maximum

1 required setback shall be 10 feet from the property line or 15% of the average depth of the lot
2 from such Street or Alley, whichever results in the lesser requirement.

3 (2) In all other zoning use districts, except as otherwise provided in this Code:
4 ~~15 10~~ feet from the property line along the Street or Alley, except in cases where more than
5 75% of the properties on the subject block face have a setback of 15 feet or greater, and both
6 parcels adjacent to the parcel property have a front setback of 15 feet or greater, in which
7 case the maximum front setback shall be 15 feet., or 15% of the average depth of the lot from
8 such Street or Alley, whichever results in the lesser requirement. Where a lot faces on a Street or Alley
9 less than or equal to 40 feet in width, the maximum required setback shall be ten feet from the property
10 line or 15% of the average depth of the lot from such Street or Alley, whichever results in the lesser
11 requirement.

12 (3) The required setback for lots located within the Bernal Heights Special Use
13 District is set forth in Section 242 of this Code.

14 * * * *

15
16 ***SEC. 132.2. SETBACKS IN THE NORTH OF MARKET RESIDENTIAL SPECIAL USE***
17 ***DISTRICT.***

18 ~~(a) General. In order to maintain the continuity of a predominant street wall along the street,~~
19 ~~setbacks of the upper portion of a building which abuts a public sidewalk may be required of buildings~~
20 ~~located within the boundaries of the North of Market Residential Special Use District, as shown on~~
21 ~~Sectional Map 1Sub of the Zoning Map, as a condition of approval of conditional use authorization~~
22 ~~otherwise required by Section 253 of this Code for building in RC Districts which exceed 50 feet in~~
23 ~~height.~~

1 ~~(b) Procedures. A setback requirement may be imposed in accordance with the provisions set~~
2 ~~forth below pursuant to the procedures for conditional use authorization set forth in Section 303 of this~~
3 ~~Code.~~

4 ~~(c) Setback Requirement. In order to maintain the continuity of the prevailing streetwall along~~
5 ~~a street or alley, a setback requirement may be imposed as a condition of approval of an application~~
6 ~~for conditional use authorization for a building in excess of 50 feet in height, as required by Section~~
7 ~~253 of this Code. If the applicant can demonstrate that the prevailing streetwall height on the block on~~
8 ~~which the proposed project is located, as established by existing cornice lines, is in excess of 50 feet,~~
9 ~~then the Commission may impose a maximum setback of up to 20 feet applicable to the portion of the~~
10 ~~building which exceeds the established prevailing streetwall height; provided, however, that if the~~
11 ~~applicant demonstrates that the prevailing streetwall height is in excess of 68 feet, the maximum~~
12 ~~setback requirement which may be imposed is 16 feet. If the applicant can demonstrate that a building~~
13 ~~without a setback would not disrupt the continuity of the prevailing streetwall along the street, then the~~
14 ~~Planning Commission may grant approval of the conditional use authorization without imposing a~~
15 ~~setback requirement as a condition thereof.~~

16
17 **SEC. 134. REAR YARDS IN R, RC, NC, C, SPD, M, MUG, WMUG, MUO, MUR, UMU,**
18 **RED, AND RED-MX DISTRICTS.**

19 * * * *

20 **(c) Basic Requirements.** The basic rear yard requirements shall be as follows for the
21 districts indicated:

22 (1) In RH, RM-1, RM-2, RTO, RTO-M Zoning Districts, the basic rear yard shall be
23 equal to 30% of the total depth of the lot on which the building is situated, but in no case less than 15
24 feet, unless otherwise provided in subsection (c)(2).

1 (2) In RH-2 and RH-3 Districts in the Family Housing Opportunity Special Use
2 District (Section 249.94), the minimum rear yard depth shall be equal to 45% of the total depth
3 of the lot on which the building is situated, unless a reduction in this requirement is permitted
4 by subsection (k) below or otherwise provided in Section 249.94(d). [Note to publisher: The
5 diagram that follows is a reproduction of the diagram that appears below Section 134(c)(3) in
6 the current Planning Code.]

14 (23) In all other Zoning Districts not listed in subsection (c)(1), the rear yard shall be
15 equal to 25% of the total depth of the lot on which the building is situated, but in no case less than 15
16 feet.

17 **(d) Rear Yard Location Requirements.**

18 ~~(1) RH-1(D), RH-1, and RH-1(S) Districts. For buildings that submit a development~~
19 ~~application on or after January 15, 2019, the minimum rear yard depth shall be equal to 30% of the~~
20 ~~total depth of the lot on which the building is situated, but in no case less than 15 feet. Exceptions are~~
21 ~~permitted on Corner Lots and through lots abutting properties with buildings fronting both streets, as~~
22 ~~described in subsection (f) below. For buildings that submitted a development application prior to~~
23 ~~January 15, 2019, the minimum rear yard depth shall be determined based on the applicable law on the~~
24 ~~date of submission.~~
25

~~(2) RM-3, RM-4, RC-3, RC-4, NC Districts other than the Pacific Avenue NC District, C, M, MUG, WMUG, MUO, CMUO, MUR, UMU, RED, RED-MX, and SPD Districts. Except as specified in this subsection (c), the minimum rear yard depth shall be equal to 25% of the total depth of the lot on which the building is situated, but in no case less than 15 feet.~~

~~(A) For buildings containing only SRO Units in the Eastern Neighborhoods Mixed Use Districts, the minimum rear yard depth shall be equal to 25% of the total depth of the lot on which the building is situated, but the required rear yard of SRO buildings not exceeding a height of 65 feet shall be reduced in specific situations as described in subsection (c) below.~~

~~(B) To the extent the lot coverage requirements of Section 249.78 apply to a project, those requirements shall control, rather than the requirements of this Section 134.~~

~~(C1)~~ **RH-1(D), RH-1, RH-1(S), RM-3, RM-4, RTO, NC-1, NCT-1, Inner Sunset, Outer Clement Street, Cole Valley, Haight Street, Lakeside Village, Sacramento Street, 24th Street-Noe Valley, Pacific Avenue, and West Portal Avenue Districts.** Rear yards shall be provided at grade level and at each succeeding level or story of the building.

~~(D2)~~ **NC-2, NCT-2, Ocean Avenue, Inner Balboa Street, Outer Balboa Street, Castro Street, Cortland Avenue, Divisadero Street NCT, Excelsior-Outer Mission Street, Inner Clement Street, Upper Fillmore Street, Lower Haight Street, Judah Street, Noriega Street, North Beach, San Bruno Avenue, Taraval Street, Inner Taraval Street, Union Street, Valencia Street, 24th Street-Mission, Glen Park, Regional Commercial District and Folsom Street Districts.** Rear yards shall be provided at the second story, and at each succeeding story of the building, and at the First Story if it contains a Dwelling Unit.

* * * *

~~(E3)~~ **RC-3, RC-4, NC-3, NCT-3, Bayview, Broadway, Fillmore Street, Geary Boulevard, Hayes-Gough, Japantown, SoMa NCT, Mission Bernal, Mission Street, Polk Street, Lower Polk Street, Pacific Avenue, C, M, SPD, MUR, MUG, MUO, and UMU**

1 **Districts.** Rear yards shall be provided at the lowest story containing a Dwelling Unit, and at
2 each succeeding level or story of the building. In the Hayes-Gough NCT, lots fronting the east
3 side of Octavia Boulevard between Linden and Market Streets (Central Freeway Parcels L, M,
4 N, R, S, T, U, and V) are not required to provide rear yards at any level of the building,
5 provided that the project fully meets the usable open space requirement for Dwelling Units
6 pursuant to Section 135 of this Code, the exposure requirements of Section 140, and gives
7 adequate architectural consideration to the light and air needs of adjacent buildings given the
8 constraints of the project site.

9 ~~(F4)~~ **Upper Market Street NCT.** Rear yards shall be provided at the grade
10 level, and at each succeeding story of the building. For buildings in the Upper Market Street
11 NCT that do not contain Residential Uses and that do not abut adjacent lots with an existing
12 pattern of rear yards or mid-block open space, the Zoning Administrator may waive or reduce
13 this rear yard requirement pursuant to the procedures of subsection (h).

14 ~~(G5)~~ **RED, RED-MX and WMUG Districts.** Rear yards shall be provided at the
15 ground level for any building containing a Dwelling Unit, and at each succeeding level or story
16 of the building.

17 ~~(3) RH-2, RH-3, RTO, RTO-M, RM-1 and RM-2 Districts, and the Pacific Avenue NC District.~~
18 ~~The minimum rear yard depth shall be equal to 45% of the total depth of the lot on which the building~~
19 ~~is situated, except to the extent that a reduction in this requirement is permitted by subsection (e)~~
20 ~~below. Rear yards shall be provided at grade level and at each succeeding level or story of the~~
21 ~~building. In RH-2, RH-3, RTO, RTO-M, RM-1, and RM-2 Districts, exceptions are permitted on Corner~~
22 ~~lots and through lots abutting a property with buildings fronting on both streets, as described in~~
23 ~~subsection (f) below.~~ [Note to publisher: delete diagram that follows this text]

24 ~~(de)~~ **Permitted Obstructions.** Only those obstructions specified in Section 136 of this
25 Code shall be permitted in a required rear yard, and no other obstruction shall be constructed,

1 placed, or maintained within any such yard. No motor vehicle, trailer, boat, or other vehicle
2 shall be parked or stored within any such yard, except as specified in Section 136.

3 ~~**(e) Reduction of Requirements in RH-2, RH-3, RTO, RTO-M, RM-1,2 and RM-2 Districts.**~~

4 ~~The rear yard requirement stated in subsection subsection2 (c)(3) above and as stated in subsection~~
5 ~~subsection2 (c)(2)(A) above for SRO buildings located in the Eastern Neighborhoods Mixed Use~~
6 ~~Districts not exceeding a height of 65 feet, shall be reduced in specific situations as described in this~~
7 ~~subsection (e), based upon conditions on adjacent lots. Except for those SRO buildings referenced~~
8 ~~above in this subsection (e) whose rear yard can be reduced in the circumstances described in~~
9 ~~subsection (e) to a 15-foot minimum, under no circumstances shall the minimum rear yard be thus~~
10 ~~reduced to less than a depth equal to 25% of the total depth of the lot on which the building is situated,~~
11 ~~or to less than 15 feet, whichever is greater.~~

12 ~~**(1) General Rule.** In such districts, the forward edge of the required rear yard shall be~~
13 ~~reduced to a line on the subject lot, parallel to the rear lot line of such lot, which is an average between~~
14 ~~the depths of the rear building walls of the two adjacent buildings. Except for SRO buildings, in any~~
15 ~~case in which a rear yard requirement is thus reduced, the last 10 feet of building depth thus permitted~~
16 ~~on the subject lot shall be limited to a height of 30 feet, measured as prescribed by Section 260 of this~~
17 ~~Code, or to such lesser height as may be established by Section 261 of this Code.~~

18 ~~**(2) Alternative Method of Averaging.** If, under the rule stated in subsection (e)(1)~~
19 ~~above, a reduction in the required rear yard is permitted, the reduction may alternatively be averaged~~
20 ~~in an irregular manner; provided that the area of the resulting reduction shall be no more than the~~
21 ~~product of the width of the subject lot along the line established by subsection (e)(1) above times the~~
22 ~~reduction in depth of rear yard permitted by subsection (e)(1); and provided further that all portions of~~
23 ~~the open area on the part of the lot to which the rear yard reduction applies shall be directly exposed~~
24 ~~laterally to the open area behind the adjacent building having the lesser depth of its rear building wall.~~

1 **~~(3) Method of Measurement.~~** ~~For purposes of this subsection (e), an “adjacent~~
2 ~~building” shall mean a building on a lot adjoining the subject lot along a side lot line. In all cases the~~
3 ~~location of the rear building wall of an adjacent building shall be taken as the line of greatest depth of~~
4 ~~any portion of the adjacent building which occupies at least one-half the width between the side lot~~
5 ~~lines of the lot on which such adjacent building is located, and which has a height of at least 20 feet~~
6 ~~above grade, or two Stories, whichever is less, excluding all permitted obstructions listed for rear yards~~
7 ~~in Section 136 of this Code. Where a lot adjoining the subject lot is vacant, or contains no Dwelling or~~
8 ~~Group Housing structure, or is located in an RH-1(D), RH-1, RH-1(S), RM-3, RM-4, RC, RED, RED-~~
9 ~~MX, MUG, WMUG, MUR, UMU, SPD, RSD, SLR, SLI, SSO, NC, C, M, or P District, such adjoining~~
10 ~~lot shall, for purposes of the calculations in this subsection (e), be considered to have an adjacent~~
11 ~~building upon it whose rear building wall is at a depth equal to 75% of the total depth of the subject lot.~~

12 **~~(4) Applicability to Special Lot Situations.~~** ~~In the following special lot situations, the~~
13 ~~general rule stated in subsection (e)(1) above shall be applied as provided in this subsection (e)(4), and~~
14 ~~the required rear yard shall be reduced if conditions on the adjacent lot or lots so indicate and if all~~
15 ~~other requirements of this Section 134 are met. [Note to publisher: delete the three diagrams that~~
16 ~~follow this text]~~

17 **~~(A) Corner Lots and Lots at Alley Intersections.~~** ~~On a Corner Lot as defined in~~
18 ~~Section 102 of this Code, or a lot at the intersection of a Street and an Alley or two Alleys, the forward~~
19 ~~edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the~~
20 ~~rear building wall of the one adjacent building.~~

21 **~~(B) Lots Abutting Properties with Buildings that Front on Another Street or~~**
22 ~~**Alley.**~~ ~~In the case of any lot that abuts along one of its side lot lines upon a lot with a building that~~
23 ~~fronts on another Street or Alley, the lot on which it so abuts shall be disregarded, and the forward~~
24 ~~edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the~~
25 ~~rear building wall of the one adjacent building fronting on the same Street or Alley. In the case of any~~

1 ~~lot that abuts along both its side lot lines upon lots with buildings that front on another Street or Alley,~~
2 ~~both lots on which it so abuts shall be disregarded, and the minimum rear yard depth for the subject lot~~
3 ~~shall be equal to 25% of the total depth of the subject lot, or 15 feet, whichever is greater.~~ [Note to
4 publisher: delete the two diagrams that follow this text]

5 (f) **Second Building on Corner Lots and Through Lots** ~~Abutting Properties with~~
6 ~~Buildings Fronting on Both Streets~~ in RH, RTO, RTO-M, RM-1, and RM-2 Districts. Where a
7 lot is a Corner Lot, or is a through lot having both its front and its rear lot line along Streets,
8 Alleys, or a Street and an Alley, ~~and where an adjoining lot contains a residential or other lawful~~
9 ~~structure that fronts at the opposite end of the lot,~~ the subject ~~through~~ lot may ~~also~~ have two
10 buildings ~~according to such established pattern,~~ each fronting at one end of the lot, provided that
11 all the other requirements of this Code are met. In such cases, the rear yard required by this
12 Section 134 for the subject lot shall be located in the central portion of the lot, between the
13 two buildings on such lot, ~~and the depth of the rear wall of each building from the Street or Alley on~~
14 ~~which it fronts shall be established by the average of the depths of the rear building walls of the~~
15 ~~adjacent buildings fronting on that Street or Alley, or where there is only one adjacent building, by the~~
16 ~~depth of that building.~~ In no case shall the total minimum rear yard for the subject lot be thus
17 reduced to less than a depth equal to 30% of the total depth of the subject lot or to less than
18 15 feet, whichever is greater; provided, however, that the Zoning Administrator may reduce
19 the total depth to 20% pursuant to Section 307(I) of this Code if the reduction is for the sole
20 purpose of constructing an Accessory Dwelling Unit under Section 207(c)(4), and provided
21 further that the reduction/waiver is in consideration of the property owner entering into a
22 Regulatory Agreement pursuant to Section 207(c)(4)(H) subjecting the ADU to the San
23 Francisco Rent Stabilization and Arbitration Ordinance. For buildings fronting on a Narrow
24 Street as defined in Section 261.1 of this Code, the additional height limits of Section 261.1
25 shall apply. Furthermore, in all cases in which this subsection (f) is applied, the requirements

1 of Section 132 of this Code for front setback areas shall be applicable along both Street or
2 Alley frontages of the subject through lot.

3 **(g) Reduction of Requirements in C-3 Districts.** In C-3 Districts, an exception to
4 the rear yard requirements of this Section 134 may be allowed, in accordance with the
5 provisions of Section 309, provided that the building location and configuration assure
6 adequate light and air to windows within the residential units and to the usable open space
7 provided.

8 * * * *

9 (h) Corner Lots and Lots at Alley Intersections. On a Corner Lot as defined in Section 102 of
10 this Code, or on a lot at the intersection of a Street and an Alley of at least 25 feet in width, the
11 required rear yard may be substituted with an open area equal to the basic rear yard requirement
12 outlined in subsection (c) above at the same levels as the required rear yard in an interior corner of the
13 lot, an open area between two or more buildings on the lot, or an inner court, as defined by this Code,
14 provided that the Zoning Administrator determines that all of the criteria described below in this
15 Section 134 are met.

16 (1) Each horizontal dimension of the open area shall be a minimum of 15 feet.

17 (2) The open area shall be wholly or partially contiguous to the existing midblock open
18 space formed by the rear yards of adjacent properties.

19 (3) The open area will provide for the access to light and air to and views from
20 adjacent properties.

21 (4) The proposed new or expanding structure will provide for access to light and air
22 from any existing or new residential uses on the subject property.

23 The provisions of this subsection (h) shall not restrict the discretion of the Zoning Administrator
24 from imposing such additional conditions as the Zoning Administrator deems necessary to further the
25 purposes of this Section 134.

1 ~~(h) **Modification of Requirements in NC Districts.** The rear yard requirements in NC~~
2 ~~Districts may be modified or waived in specific situations as described in this subsection (h).~~

3 ~~(1) **General.** The rear yard requirement in NC Districts may be modified or waived by~~
4 ~~the Zoning Administrator pursuant to the procedures which are applicable to variances, as set forth in~~
5 ~~Sections 306.1 through 306.5 and 308.2, if all of the following criteria are met:~~

6 ~~(A) Residential Uses are included in the new or expanding development and a~~
7 ~~comparable amount of usable open space is provided elsewhere on the lot or within the development~~
8 ~~where it is more accessible to the residents of the development; and~~

9 ~~(B) The proposed new or expanding structure will not significantly impede the~~
10 ~~access of light and air to and views from adjacent properties; and~~

11 ~~(C) The proposed new or expanding structure will not adversely affect the~~
12 ~~interior block open space formed by the rear yards of adjacent properties.~~

13 ~~(2) **Corner Lots and Lots at Alley Intersections.** On a Corner Lot as defined in Section~~
14 ~~102 of this Code, or on a lot at the intersection of a Street and an Alley of at least 25 feet in width, the~~
15 ~~required rear yard may be substituted with an open area equal to 25% of the lot area which is located~~
16 ~~at the same levels as the required rear yard in an interior corner of the lot, an open area between two~~
17 ~~or more buildings on the lot, or an inner court, as defined by this Code, provided that the Zoning~~
18 ~~Administrator determines that all of the criteria described below in this subsection (h)(2) are met.~~

19 ~~(A) Each horizontal dimension of the open area shall be a minimum of 15 feet.~~

20 ~~(B) The open area shall be wholly or partially contiguous to the existing~~
21 ~~midblock open space formed by the rear yards of adjacent properties.~~

22 ~~(C) The open area will provide for the access to light and air to and views from~~
23 ~~adjacent properties.~~

24 ~~(D) The proposed new or expanding structure will provide for access to light~~
25 ~~and air from any existing or new residential uses on the subject property.~~

1 ~~The provisions of this subsection (h)(2) shall not preclude such additional conditions as are~~
2 ~~deemed necessary by the Zoning Administrator to further the purposes of this Section 134.~~

3 * * * *

4 **(k) Reduction of Requirements in RH-2 and RH-3 Districts in the Family Housing**
5 **Opportunity Special Use District.** The rear yard requirement stated in subsection (c)(2)
6 above shall be reduced in specific situations as described in this subsection (k), based upon
7 conditions on adjacent lots. Under no circumstances shall the minimum rear yard be thus
8 reduced to less than a depth equal to 25% of the total depth of the lot on which the building is
9 situated, or to less than 15 feet, whichever is greater.

10 **(1) General Rule.** In RH-2 and RH-3 Districts in the Family Housing
11 Opportunity Special Use District, the forward edge of the required rear yard shall be reduced
12 to a line on the subject lot, parallel to the rear lot line of such lot, which is an average between
13 the depths of the rear building walls of the two adjacent buildings. The last 10 feet of building
14 depth thus permitted on the subject lot shall be limited to a height of 30 feet, measured as
15 prescribed by Section 260 of this Code, or to such lesser height as may be established by
16 Section 261 of this Code.

17 **(2) Alternative Method of Averaging.** If, under the rule stated in subsection
18 (k)(1) above, a reduction in the required rear yard is permitted, the reduction may alternatively
19 be averaged in an irregular manner; provided that the area of the resulting reduction shall be
20 no more than the product of the width of the subject lot along the line established by
21 subsection (k)(1) above times the reduction in depth of rear yard permitted by subsection
22 (k)(1); and provided further that all portions of the open area on the part of the lot to which the
23 rear yard reduction applies shall be directly exposed laterally to the open area behind the
24 adjacent building having the lesser depth of its rear building wall.

1 **(3) Method of Measurement.** For purposes of this subsection (k), an “adjacent
2 building” shall mean a building on a lot adjoining the subject lot along a side lot line. In all
3 cases, the location of the rear building wall of an adjacent building shall be taken as the line of
4 greatest depth of any portion of the adjacent building which occupies at least one-half the
5 width between the side lot lines of the lot on which such adjacent building is located, and
6 which has a height of at least 20 feet above grade, or two Stories, whichever is less, excluding
7 all permitted obstructions listed for rear yards in Section 136 of this Code. Where a lot
8 adjoining the subject lot is vacant, or contains no Dwelling or Group Housing structure, or is
9 located in an RH-1(D), RH-1, RH-1(S), RM-3, RM-4, RC, RED, RED-MX, MUG, WMUG,
10 MUR, UMU, SPD, RSD, SLR, SLI, SSO, NC, C, M, or P District, such adjoining lot shall, for
11 purposes of the calculations in this subsection (k), be considered to have an adjacent building
12 upon it whose rear building wall is at a depth equal to 75% of the total depth of the subject lot.

13 **(4) Applicability to Special Lot Situations.** In the following special lot
14 situations, the general rule stated in subsection (k)(1) above shall be applied as provided in
15 this subsection (k)(4), and the required rear yard shall be reduced if conditions on the
16 adjacent lot or lots so indicate and if all other requirements of this Section 134 are met. [Note
17 to publisher: The three diagrams that follow are reproductions of the three diagrams that
18 appear below subsection 134(e)(4) of the current Planning Code.]

(A) Corner Lots and Lots at Alley Intersections. On a Corner Lot as defined in Section 102 of this Code, or a lot at the intersection of a Street and an Alley or two Alleys, the forward edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the rear building wall of the one adjacent building.

(B) Lots Abutting Properties with Buildings that Front on Another Street or Alley. In the case of any lot that abuts along one of its side lot lines upon a lot with a building that fronts on another Street or Alley, the lot on which it so abuts shall be disregarded, and the forward edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the rear building wall of the one adjacent building fronting on the same Street or Alley. In the case of any lot that abuts along both its side lot lines upon lots with buildings that front on another Street or Alley, both lots on which it so abuts shall be disregarded, and the minimum rear yard depth for the subject lot shall be equal to 25% of the

1 total depth of the subject lot, or 15 feet, whichever is greater. [Note to publisher: The two
2 diagrams that follow are reproductions of the two diagrams that appear below subsection
3 134(e)(4)(B) of the current Planning Code.]

1 **SEC. 135. USABLE OPEN SPACE FOR DWELLING UNITS AND GROUP**
2 **HOUSING, R, NC, MIXED USE, C, AND M DISTRICTS.**

3 * * * *

4 **(f) Private Usable Open Space: Additional Standards.**

5 **(1) Minimum Dimensions and Minimum Area.** Any space credited as private
6 usable open space shall have a minimum horizontal dimension of as follows:

7 **(A) In RH Districts in the Family Housing Opportunity Special Use**
8 **District (Section 249.94):** six feet and a minimum area of 36 feet if located on a deck,
9 balcony, porch, or roof, and a minimum horizontal dimension of 10 feet and a minimum area
10 of 100 square feet if located on open ground, a terrace, or the surface of an inner or outer
11 court, except as otherwise provided in Section 249.94(d).

12 **(B) In all other zoning use districts:** ~~three~~ six feet and a minimum area of
13 ~~36~~ 27 square feet if located on a deck, balcony, porch or roof, and shall have a minimum
14 horizontal dimension of 10 feet and a minimum area of 100 square feet if located on open
15 ground, a terrace or the surface of an inner or outer court.

16 **(2) Exposure.** ~~In order to~~ To be credited as private usable open space, an area
17 must be kept open in the following manner:

18 **(A)** For decks, balconies, porches and roofs, at least 30 percent of the
19 perimeter must be unobstructed except for necessary railings.

20 **(B)** In addition, the area credited on a deck, balcony, porch or roof must
21 either face a street, face or be within a rear yard, or face or be within some other space which
22 at the level of the private usable open space meets the minimum dimension and area
23 requirements for common usable open space as specified in Paragraph 135(g)(1) below.

24 * * * *

(C) Areas within inner and outer courts, as defined by this Code, must either conform to the standards of ~~Subparagraph~~ Subsection (f)(2)(B) ~~above~~ or Subsection (g)(2). ~~be so arranged that the height of the walls and projections above the court on at least three sides (or 75 percent of the perimeter, whichever is greater) is such that no point on any such wall or projection is higher than one foot for each foot that such point is horizontally distant from the opposite side of the clear space in the court, regardless of the permitted obstruction referred to in Subsection 135(c) above.~~

* * * *

(g) Common Usable Open Space: Additional Standards.

(1) Minimum Dimensions and Minimum Area. Any space credited as common usable open space shall be at least 15 feet in every horizontal dimension and shall have a minimum area of 300 square feet.

(2) Use of Inner Courts. The area of an inner court, as defined by this Code, may be credited as common usable open space, if the enclosed space is not less than 20 feet in every horizontal dimension and 400 square feet in area; ~~and if (regardless of the permitted obstructions referred to in Subsection 135(c) above) the height of the walls and projections above the court on at least three sides (or 75 percent of the perimeter, whichever is greater) is such that no point on any such wall or projection is higher than one foot for each foot that such point is horizontally distant from the opposite side of the clear space in the court.~~ Exceptions from these requirements for certain qualifying historic buildings may be permitted, subject to the requirements and procedures of Section 307(h) of this Code.

* * * *

SEC. 140. ALL DWELLING UNITS IN ALL USE DISTRICTS TO FACE ON AN OPEN AREA.

(a) Requirements for Dwelling Units. In each Dwelling Unit in any use district, the required windows (as defined by Section 504 of the San Francisco Housing Code) of at least one room that meets the 120-square-foot minimum superficial floor area requirement of Section 503 of the Housing Code shall face directly onto an open area of one of the following types:

(1) A public street, public alley at least 20 feet in width, side yard at least 25 feet in width, or rear yard meeting the requirements of this Code; provided, that if such windows are on an outer court whose width is less than 25 feet, the depth of such court shall be no greater than its width; or

(2) An open area (whether an inner court or a space between separate buildings on the same lot) which is unobstructed (except for fire escapes not projecting more than necessary for safety and in no case more than four feet six inches, chimneys, and those obstructions permitted in ~~§~~subsections 136(c)(14), (15), (16), (19), (20) and (29) of this Code) and is no less than 25 feet in every horizontal dimension for the floor at which the Dwelling Unit in question is located. In RH Districts in the Family Housing Special Use District (Section 249.94), such horizontal dimension shall increase by five feet at each subsequent floor, except as otherwise provided in Section 249.94(d). ~~and the floor immediately above it, with an increase of five feet in every horizontal dimension at each subsequent floor, except for SRO buildings in the Eastern Neighborhoods Mixed Use Districts, which are not required to increase five feet in every horizontal dimension until the fifth floor of the building.~~

* * * *

SEC. 145.1. STREET FRONTAGES IN NEIGHBORHOOD COMMERCIAL, RESIDENTIAL-COMMERCIAL, COMMERCIAL, AND MIXED USE DISTRICTS.

* * * *

1 **(b) Definitions.**

2 * * * *

3 (2) **Active Use.** An "active use" shall mean any principal, conditional, or
4 accessory use that by its nature does not require non-transparent walls facing a public street
5 or involves the storage of goods or vehicles.

6 (A) Residential uses are considered active uses above the ground floor;
7 on the ground floor, residential uses are considered active uses only if more than 50 percent
8 of the linear residential street frontage at the ground level features walk-up dwelling units that
9 provide direct, individual pedestrian access to a public sidewalk, and are consistent with the
10 Ground Floor Residential Design Guidelines, as adopted and periodically amended by the
11 Planning Commission.

12 (B) Spaces accessory to residential uses, such as fitness rooms, ~~or~~
13 community rooms, laundry rooms, lobbies, mail rooms, or bike rooms, are considered active uses
14 only if they meet the intent of this section and ~~have access~~ directly face ~~to~~ the public sidewalk or
15 street.

16 (C) Building lobbies are considered active uses, so long as they do not
17 exceed 40 feet or 25 percent of building frontage, whichever is larger.

18 (D) Public Uses defined in Section 102 are considered active uses
19 except utility installations.

20 * * * *

21
22 **SEC. 202.2. LOCATION AND OPERATING CONDITIONS.**

23 * * * *

24 **(f) Residential Uses.** The Residential Uses listed below shall be subject to the
25 corresponding conditions:

1 **(1) Senior Housing.** ~~In order to~~ **To** qualify as Senior Housing, as defined in
2 Section 102 of this Code, the following definitions shall apply and shall have the same
3 meaning as the definitions in California Civil Code Sections 51.2, 51.3, and 51.4, as amended
4 from time to time. These definitions shall apply as shall all of the other provisions of Civil Code
5 Sections 51.2, 51.3, and 51.4. Any Senior Housing must also be consistent with the Fair
6 Housing Act, 42 U.S.C. §§ 3601-3631 and the Fair Employment and Housing Act, California
7 Government Code Sections 12900-12996.

8 * * * *

9 **(D) Requirements.** ~~In order to~~ **To** qualify as Senior Housing, the
10 proposed project must meet all of the following conditions:

11 * * * *

12 ~~**(iv) Location.** The proposed project must be within a ¼ of a mile from a~~
13 ~~NC-2 (Small Scale Neighborhood Commercial District) zoned area or higher, including named~~
14 ~~Neighborhood Commercial districts, and must be located in an area with adequate access to services,~~
15 ~~including but not limited to transit, shopping, and medical facilities;~~

16 **(iv) Recording.** The project sponsor must record a Notice of
17 Special Restriction with the Assessor-Recorder that states all of the above restrictions and
18 any other conditions that the Planning Commission or Department places on the property; and

19 **(vi) Covenants, Conditions, and Restrictions.** If the property
20 will be condominiumized, the project sponsor must provide the Planning Department with a
21 copy of the Covenants, Conditions, and Restrictions ("CC&R") that will be filed with the State.

22 * * * *

23
24 **SEC. 204.1. ACCESSORY USES FOR DWELLINGS IN ALL DISTRICTS.**
25

1 No use shall be permitted as an accessory use to a dwelling unit in any District that
2 involves or requires any of the following:

3 (a) Any construction features or alterations not residential in character;

4 (b) The use of more than one-third of the total floor area of the dwelling unit, except
5 in the case of accessory off-street parking and loading or Neighborhood Agriculture as defined
6 by Section 102;

7 (c) The employment of more than two people who do ~~any person~~ not resident in the
8 dwelling unit, excluding other than a domestic worker servant, gardener, or janitor, ~~or other person~~
9 ~~concerned in the operation or maintenance of the dwelling unit except in the case of a Cottage Food~~
10 ~~Operation, which allows the employment of one employee, not including a family member or household~~
11 ~~members of the Cottage Food Operation;~~

12 * * * *

13
14 **SEC. 206.3. HOUSING OPPORTUNITIES MEAN EQUITY - SAN FRANCISCO**
15 **PROGRAM.**

16 * * * *

17 (c) **HOME-SF Project Eligibility Requirements.** To receive the development
18 bonuses granted under this Section 206.3, a HOME-SF Project must meet all of the following
19 requirements:

20 (1) Except as limited in application by subsection (f): Provide 30% of units in
21 the HOME-SF Project as HOME-SF Units, as defined herein. The HOME-SF Units shall be
22 restricted for the Life of the Project and shall comply with all of the requirements of the
23 Procedures Manual authorized in Section 415 except as otherwise provided herein. Twelve
24 percent of HOME-SF Units that are Owned Units shall have an average affordable purchase
25 price set at 80% of Area Median Income; 9% shall have an average affordable purchase price

1 set at 105% of Area Median Income; and 9% shall have an average affordable purchase price
2 set at 130% of Area Median Income. Twelve percent of HOME-SF Units that are rental units
3 shall have an average affordable rent set at 55% of Area Median Income; 9% shall have an
4 average affordable rent set at 80% of Area Median Income; and 9% shall have an average
5 affordable rent set at 110% of Area Median Income. All HOME-SF Units must be marketed at
6 a price that is at least 20% less than the current market rate for that unit size and
7 neighborhood, and MOHCD shall reduce the Area Median Income levels set forth herein in
8 order to maintain such pricing. As provided ~~for~~ in subsection (e), the Planning Department and
9 MOHCD shall amend the Procedures Manual to provide policies and procedures for the
10 implementation, including monitoring and enforcement, of the HOME-SF Units;

11 ~~(2) Demonstrate to the satisfaction of the Environmental Review Officer that the~~
12 ~~HOME-SF Project does not:~~

13 ~~(A) cause a substantial adverse change in the significance of an historic~~
14 ~~resource as defined by California Code of Regulations, Title 14, Section 15064.5;~~

15 ~~(B) create new shadow in a manner that substantially affects outdoor recreation~~
16 ~~facilities or other public areas; and~~

17 ~~(C) alter wind in a manner that substantially affects public areas;~~

18 (32) All HOME-SF units shall be no smaller than the minimum unit sizes set
19 forth by the California Tax Credit Allocation Committee as of May 16, 2017. In addition,
20 notwithstanding any other provision of this Code, HOME-SF projects shall provide a minimum
21 dwelling unit mix of (A) at least 40% two and three bedroom units, including at least 10% three
22 bedroom units, or (B) any unit mix which includes some three bedroom or larger units such
23 that 50% of all bedrooms within the HOME-SF Project are provided in units with more than
24 one bedroom. Larger units should be distributed on all floors, and prioritized in spaces
25 adjacent to open spaces or play yards. Units with two or three bedrooms are encouraged to

1 incorporate family friendly amenities. Family friendly amenities shall include, but are not
2 limited to, bathtubs, dedicated cargo bicycle parking, dedicated stroller storage, open space
3 and yards designed for use by children. HOME-SF Projects are not eligible to modify this
4 requirement under Planning Code Section 328 or any other provision of this Code;

5 (43) Does not demolish, remove or convert ~~any~~ more than one residential units;
6 and

7 (54) Includes at the ground floor level active uses, as defined in Section 145.1,
8 at the same square footages as any neighborhood commercial uses demolished or removed,
9 unless the Planning Commission has granted an exception under Section 328.

10 * * * *

11
12 **SEC. 206.6. STATE DENSITY BONUS PROGRAM: INDIVIDUALLY REQUESTED.**

13 * * * *

14 (c) **Development Bonuses.** Any Individually Requested Density Bonus Project shall,
15 at the project sponsor's request, receive any or all of the following:

16 * * * *

17 (3) **Request for Concessions and Incentives.** In submitting a request for
18 Concessions or Incentives that are not specified in Ssubsection 206.5(c)(4), an applicant for an
19 Individually Requested Density Bonus Project must provide documentation described in
20 subsection (d) below in its application. Provided that the Planning Commission delegates authority
21 to review and approve applications for Individually Requested Density Bonus projects, tThe Planning
22 Director Commission shall hold a hearing and shall approve the Concession or Incentive
23 requested unless ~~it~~ the Director makes written findings, based on substantial evidence that:

24 * * * *

1 (e) **Review Procedures.** Except as provided in Section 317 or where a Conditional Use
2 Authorization is required to permit a non-residential use, an application for any Individually Requested
3 Density Bonus project shall not be subject to any other underlying entitlement approvals related to the
4 proposed housing, such as a Conditional Use Authorization or a Large Project Authorization. If an
5 entitlement is otherwise required, Aan application for a Density Bonus, Incentive, Concession, or
6 waiver shall be acted upon concurrently with the application for the required entitlement ~~other~~
7 ~~permits related to the Housing Project.~~

8 (1) Before approving an application for a Density Bonus, Incentive,
9 Concession, or waiver, for any Individually Requested Density Bonus Project, the Planning
10 Commission or Director shall make the following findings as applicable.

11 * * * *

12 (2) If the findings required by subsection (~~ae~~)(1) of this Section cannot be
13 made, the Planning Commission or Director may deny an application for a Concession,
14 Incentive, waiver or modification only if ~~it~~ the Director makes one of the following written
15 findings, supported by substantial evidence:

16 * * * *

18 **SEC. 207. DWELLING UNIT DENSITY LIMITS.**

19 * * * *

20 (c) **Exceptions to Dwelling Unit Density Limits.** An exception to the calculations
21 under this Section 207 shall be made in the following circumstances:

22 * * * *

23 (3) **Double Density for Senior Housing in RH, RM, RC, and NC**
24 **Districts.** Senior Housing, as defined in and meeting all the criteria and conditions defined in
25

Section 102 of this Code, is permitted up to twice the dwelling unit density otherwise permitted for the District.

~~(A) Projects in RC Districts or within one-quarter of a mile from an RC or NC-2 (Small-Scale Neighborhood Commercial District) zoned area or higher, including Named Commercial Districts, and located in an area with adequate access to services including but not limited to transit, shopping and medical facilities, shall be principally permitted.~~

~~(B) Projects in RH and RM Districts located more than one-quarter of a mile from an RC or NCD-2 (Small-Scale Neighborhood Commercial District) zoned area or higher, including Named Commercial Districts, shall require Conditional Use authorization.~~

* * * *

(8) Residential Density Exception in RH Districts.

(A) Density Exception. Projects located in RH Districts that are not seeking or receiving a density bonus under the provisions of Planning Code Sections 206.5 or 206.6 shall receive an exception from residential density limits in the following amounts for up to four dwelling units per lot, excluding Corner Lots, or up to six dwelling units per lot in Corner Lots, not inclusive of any Accessory Dwelling Units as permitted under this Section 207, provided that the project dwelling units meets the requirements set forth in this subsection (c)(8):

(i) Up to four units per lot, excluding Corner Lots.

(ii) Up to six units for Corner Lots

(iii) Up to one Group Housing Room per 415 sq. ft. of lot area in RH-1, RH-1(D), and RH-1(S) zoning districts.

(B) Eligibility of Historic Resources. To receive the density exception authorized under this subsection (c)(8), a project must demonstrate to the satisfaction of the Environmental Review Officer that it does not cause a substantial adverse change in the

1 significance of an historic resource as defined by California Code of Regulations, Title 14,
2 Section 15064.5, as may be amended from time to time. Permit fees for pre-application
3 Historic Resource Assessments shall be waived for property owners who apply to obtain a
4 density exception under this subsection (c)(8), if they sign an affidavit stating their intent to
5 reside on the property for a period of three years after the issuance of the Certificate of Final
6 Completion and Occupancy for the new dwelling units. Permit fees for Historic Resource
7 Determinations shall not be waived.

8 **(C) Applicable Standards.** ~~Projects utilizing the density exception of this~~
9 ~~subsection (c)(8) and that provide at least four dwelling units shall be subject to a minimum Rear Yard~~
10 ~~requirement of the greater of 30% of lot depth or 15 feet. All other~~ building standards shall apply in
11 accordance with the applicable zoning district as set forth in Section 209.1.

12 **(D) Unit Replacement Requirements.** Projects utilizing the density
13 exception of this subsection (c)(8) shall comply with the requirements of Section 66300(d) of
14 the California Government Code, as may be amended from time to time, including but not
15 limited to requirements to produce at least as many dwelling units as the projects would
16 demolish; to replace all protected units; and to offer existing occupants of any protected units
17 that are lower income households relocation benefits and a right of first refusal for a
18 comparable unit, as those terms are defined therein. In the case of Group Housing, projects
19 utilizing this density exception shall provide at least as many bedrooms as the project would demolish.

20 **(E) Applicability of Rent Ordinance; Regulatory Agreements.** Project
21 sponsors of projects utilizing the density exception of this subsection (c)(8) shall enter into a
22 regulatory agreement with the City, subjecting the new units or Group Housing rooms created
23 pursuant to the exception to the San Francisco Residential Rent Stabilization and Arbitration
24 Ordinance (Chapter 37 of the Administrative Code), as a condition of approval of the density
25 exception ("Regulatory Agreement"). At a minimum, the Regulatory Agreement shall contain

1 the following: (i) a statement that the new units created pursuant to the density exception are
2 not subject to the Costa-Hawkins Rental Housing Act (California Civil Code Sections
3 1954.50 *et seq.*) because, under Section 1954.52(b), the property owner has entered into and
4 agreed to the terms of this agreement with the City in consideration of an exception from
5 residential density limits of up to four dwelling units per lot, or up to six units per lot in Corner
6 Lots, or other direct financial contribution or other form of assistance specified in California
7 Government Code Sections 65915 *et seq.*; (ii) a description of the exception of residential
8 density or other direct financial contribution or form of assistance provided to the property
9 owner; and (iii) a description of the remedies for breach of the agreement and other provisions
10 to ensure implementation and compliance with the agreement. The property owner and the
11 Planning Director (or the Director's designee), on behalf of the City, will execute the
12 Regulatory Agreement, which shall be reviewed and approved by the City Attorney's Office.
13 The Regulatory Agreement shall be executed prior to the City's issuance of the First
14 Construction Document for the project, as defined in Section 107A.13.1 of the San Francisco
15 Building Code. Following execution of the Regulatory Agreement by all parties and approval
16 by the City Attorney, the Regulatory Agreement or a memorandum thereof shall be recorded
17 to the title records in the Office of the Assessor-Recorder against the property and shall be
18 binding on all future owners and successors in interest.

19 **(F) Unit Sizes.** At least one of the dwelling units resulting from the
20 density exception shall have two or more bedrooms or shall have a square footage equal to
21 no less than 1/3 of the floor area of the largest unit on the lot. *This provision does not apply to*
22 *projects where all of the units qualify as Group Housing.*

23 ~~**(G) Eligibility.** To receive the density exception authorized under this~~
24 ~~*subsection (c)(8), property owners must demonstrate that they have owned the lot for which they are*~~
25 ~~*seeking the density exception for a minimum of one year prior to the time of the submittal of their*~~

~~application. For the purposes of establishing eligibility to receive a density exception according to subsection (c)(8)(B), a property owner who has inherited the subject lot, including any inheritance in or through a trust, from a blood, adoptive, or step family relationship, specifically from either (i) a grandparent, parent, sibling, child, or grandchild, or (ii) the spouse or registered domestic partner of such relations, or (iii) the property owner's spouse or registered domestic partner (each an "Eligible Predecessor"), may add an Eligible Predecessor's duration of ownership of the subject lot to the property owner's duration of ownership of the same lot.~~

(HG) Annual Report on Housing Affordability, Racial Equity, and Language Access Goals. To help the City evaluate whether the implementation of this Section 207(c)(8) comports with the City's housing affordability, racial equity, and language access goals, each year the Planning Department, in consultation with other City departments including the Department of Building Inspection, the Rent Board, and the Office of the Assessor-Recorder, shall prepare a report addressing the characteristics and demographics of the applicants to and participants in the program established in said section; the number of units permitted and constructed through this program; the geographic distribution, affordability, and construction costs of those units; and the number of tenants that vacated or were evicted from properties as a result of the permitting or construction of units through this program ("Affordability and Equity Report"). The Affordability and Equity Report shall be included and identified in the annual Housing Inventory Report. The Planning Department shall prepare the report utilizing applicant data that has been provided by program applicants voluntarily and anonymously, and separate from the submittal of an application for a density exception. An applicant's decision to provide or decline to provide the information requested by the Planning Department in order to prepare the report shall have no bearing on the applicant's receipt of a density exception.

~~(19) During a declared shelter crisis, Homeless Shelters that satisfy the provisions of California Government Code Section 8698.4(a)(1) shall be P, principally permitted and may be permanent. Otherwise, Homeless Shelter uses are permitted only with Conditional Use authorization and only if each such use (a) would operate for no more than four years, and (b) would be owned or leased by, operated by, and/or under the management or day-to-day control of the City and County of San Francisco. If such a use is to be located within a building or structure, the building or structure must be either (a) preexisting, having been completed and previously occupied by a use other than a Homeless Shelter, or (b) temporary. Other than qualifying Homeless Shelters constructed during a declared~~

1 ~~shelter crisis, construction of a permanent structure or building to be used as a Homeless Shelter is not~~
2 ~~permitted.~~

3
4 **SEC. 249.97. PRIORITY EQUITY GEOGRAPHIES SPECIAL USE DISTRICT.**

5 **(a) General.** A Special Use District entitled the Priority Equity Geographies Special Use
6 District (SUD) is hereby established, the boundaries of which are designated on Sectional Maps SU01,
7 SU02, SU07, SU08, SU09, SU10, SU11, SU12, and SU13, of the Zoning Maps of the City and County
8 of San Francisco.

9 **(b) Purpose.** The Priority Equity Geographies SUD is comprised of areas or neighborhoods
10 with a higher density of vulnerable populations. The 2022 Update of the Housing Element of the
11 General Plan (2022 Housing Element) identifies several neighborhoods in the City that qualify as
12 Priority Equity Geographies, based on the Department of Public Health's Community Health Needs
13 Assessment. The 2022 Housing Element encourages targeted direct investment in these areas, and
14 identifies them as requiring improved access to well-paid jobs and business ownership; where the City
15 needs to expand permanently affordable housing investment; where zoning changes must be tailored to
16 serve the specific needs of the communities that live there; and where programs that stabilize
17 communities and meet community needs need to be prioritized. The purpose of the Priority Equity
18 Geographies SUD is to help implement the goals and policies outlined in the 2022 Housing Element.

19 **(c) Controls.** In addition to all other applicable provisions of the Planning Code, the specific
20 controls applicable in the Priority Equity Geographies SUD are set forth in Sections 311 and 317.

21
22 **SEC. 253. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES EXCEEDING A**
23 **HEIGHT OF 40 FEET IN RH DISTRICTS, OR MORE THAN 50 FEET IN RM AND RC**
24 **DISTRICTS.**

1 ~~(a) Notwithstanding any other provision of this Code to the contrary, in any RH, RM, or RC~~
2 ~~District, established by the use district provisions of Article 2 of this Code, wherever a height limit of~~
3 ~~more than 40 feet in a RH District, or more than 50 feet in a RM or RC District, is prescribed by the~~
4 ~~height and bulk district in which the property is located, any building or structure exceeding 40 feet in~~
5 ~~height in a RH District, or 50 feet in height in a RM or RC District, shall be permitted only upon~~
6 ~~approval by the Planning Commission according to the procedures for conditional use approval in~~
7 ~~Section 303 of this Code; provided, however, that a building over 40 feet in height in a RM or RC~~
8 ~~District with more than 50 feet of street frontage on the front façade is subject to the conditional use~~
9 ~~requirement.~~

10 ~~(b) **Commission Review of Proposals.**~~

11 ~~(1) In reviewing any such proposal for a building or structure exceeding 40 feet in~~
12 ~~height in a RH District, 50 feet in height in a RM or RC District, or 40 feet in a RM or RC District~~
13 ~~where the street frontage of the building is more than 50 feet the Planning Commission shall consider~~
14 ~~the expressed purposes of this Code, of the RH, RM, or RC Districts, and of the height and bulk~~
15 ~~districts, set forth in Sections 101, 209.1, 209.2, 209.3, and 251 hereof, as well as the criteria stated in~~
16 ~~Section 303(c) of this Code and the objectives, policies and principles of the General Plan, and may~~
17 ~~permit a height of such building or structure up to but not exceeding the height limit prescribed by the~~
18 ~~height and bulk district in which the property is located.~~

19 ~~(2) In reviewing a proposal for a building exceeding 50 feet in RM and RC districts, the~~
20 ~~Planning Commission may require that the permitted bulk and required setbacks of a building be~~
21 ~~arranged to maintain appropriate scale on and maximize sunlight to narrow streets (rights-of-way 40~~
22 ~~feet in width or narrower) and alleys.~~

1 **SEC. 253. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES EXCEEDING**
2 **A HEIGHT OF 40 FEET IN RH DISTRICTS IN THE FAMILY HOUSING OPPORTUNITY**
3 **SPECIAL USE DISTRICT.**

4 (a) Notwithstanding any other provision of this Code to the contrary, in any RH District
5 in the Family Housing Opportunity Special Use District (Section 249.94), established by the
6 use district provisions of Article 2 of this Code, wherever a height limit of more than 40 feet is
7 prescribed by the height and bulk district in which the property is located, any building or
8 structure exceeding 40 feet in height shall be permitted only upon approval by the Planning
9 Commission according to the procedures for conditional use approval in Section 303 of this
10 Code.

11 (b) **Commission Review of Proposals.** In reviewing any such proposal for a
12 building or structure exceeding 40 feet in height in a RH District in the Family Housing
13 Opportunity Special Use District, the Planning Commission shall consider the expressed
14 purposes of this Code, of the RH Districts, and of the height and bulk districts, set forth in
15 Sections 101, 209.1, 209.2, 209.3, and 251 hereof, as well as the criteria stated in Section
16 303(c) of this Code and the objectives, policies, and principles of the General Plan, and may
17 permit a height of such building or structure up to but not exceeding the height limit prescribed
18 by the height and bulk district in which the property is located.

19
20 **SEC. 253.1. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES IN THE**
21 **BROADWAY NEIGHBORHOOD COMMERCIAL DISTRICT.**

22 ~~(a) In the 65-A-1 Height and Bulk District, as designated on Sectional Map HT-01 of the~~
23 ~~Zoning Map, any new or expanding building or structure exceeding 40 feet in height shall be permitted~~
24 ~~as a Conditional Use only upon approval by the Planning Commission. The height of the building or~~
25 ~~structure so approved by the Planning Commission shall not exceed 65 feet.~~

1 ~~(b) In authorizing any such proposal for a building or structure exceeding 40 feet in height, the~~
2 ~~City Planning Commission shall find, in addition to the criteria of Section 303(c), that the proposal is~~
3 ~~consistent with the expressed purposes of this Code, of the Broadway Neighborhood Commercial~~
4 ~~District, and of the height and bulk districts, set forth in Sections 101, 714, and 251 of this Code, and~~
5 ~~that the following criteria are met:~~

6 ~~(1) The height of the new or expanding development will be compatible with the~~
7 ~~individual neighborhood character and the height and scale of the adjacent buildings.~~

8 ~~(2) The height and bulk of the new or expanding development will be designed to allow~~
9 ~~maximum sun access to nearby parks, plazas, and major pedestrian corridors.~~

10 ~~(3) The architectural and cultural character and features of existing buildings shall be~~
11 ~~preserved and enhanced. The Historic Preservation Commission or its staff shall review any proposed~~
12 ~~alteration of historic resources and must determine that such alterations comply with the Secretary of~~
13 ~~Interior's Standards for the Treatment of Historic Properties before the City approves any permits to~~
14 ~~alter such buildings. For purposes of this section, "historic resources" shall include Article 10~~
15 ~~Landmarks and buildings located within Article 10 Historic Districts, buildings and districts identified~~
16 ~~in surveys adopted by the City, buildings listed or potentially eligible for individual listing on the~~
17 ~~National or California Registers, and buildings located within listed or potentially eligible National~~
18 ~~Register or California Register historic districts. The Planning Department shall also consult materials~~
19 ~~available through the California Historical Resources Information System (CHRIS) and Inventory to~~
20 ~~determine eligibility.~~

21
22 **~~SEC. 253.2. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES IN THE VAN~~**
23 **~~NESS SPECIAL USE DISTRICT.~~**

24 ~~(a) Setbacks. In the Van Ness Special Use District, as designated on Sectional Map 2SU of the~~
25 ~~Zoning Map, any new construction exceeding 50 feet in height or any alteration that would cause a~~

1 ~~structure to exceed 50 feet in height shall be permitted only as a conditional use upon approval by the~~
2 ~~Planning Commission according to Section 303 of this Code. When acting on any conditional use~~
3 ~~application pursuant to this Section, the City Planning Commission may impose the following~~
4 ~~requirements in addition to any others deemed appropriate:~~

5 ~~(1) **On Van Ness Avenue.** The Planning Commission may require a setback of up to 20~~
6 ~~feet at a height of 50 feet or above for all or portions of a building if it determines that this requirement~~
7 ~~is necessary in order to maintain the continuity of the prevailing street wall height established by the~~
8 ~~existing buildings along Van Ness Avenue within two blocks of the proposed building.~~

9 ~~(2) **On Pine, Sacramento, Clay, Washington and California Streets.** The Planning~~
10 ~~Commission may require a setback of up to 15 feet for all or a portion of a building on any lot abutting~~
11 ~~Pine, Sacramento, Clay, California and Washington Streets which lot is located within the Van Ness~~
12 ~~Special Use District in order to preserve the existing view corridors.~~

13 ~~(3) **On Narrow Streets and Alleys.** The Planning Commission may require that the~~
14 ~~permitted bulk and required setbacks of a building be arranged to maintain appropriate scale on and~~
15 ~~maximize sunlight to narrow streets (rights-of-way 40 feet in width or narrower) and alleys.~~

16
17 ~~**SEC. 253.3. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES ABOVE 26**~~
18 ~~**FEET NOT EXCEEDING 40 FEET IN THE NC-S/LAKESHORE PLAZA SPECIAL USE**~~
19 ~~**DISTRICT.**~~

20 ~~(a) In the 26-40-X Height and Bulk District, as designated on Sectional Map HT13 of the~~
21 ~~Zoning Map, any new or expanding building or structure exceeding 26 feet in height shall be permitted~~
22 ~~as a Conditional Use only upon approval by the Planning Commission. The height of any building or~~
23 ~~structure so approved by the Planning Commission shall not exceed 40 feet.~~

24 ~~(b) In authorizing any such proposal for a building or structure exceeding 26 feet in height, the~~
25 ~~Planning Commission shall find that, in addition to the criteria of Section 303(c), the proposal is~~

1 ~~consistent with the expressed purposes of this Code, the NC S Distriet, the Lakeshore Plaza Special~~
2 ~~Use District, and the height and bulk districts as set forth respectively in Sections 101, 713, 780 and~~
3 ~~251 of this Code.~~

4
5 **SEC. 305.1. REQUESTS FOR REASONABLE MODIFICATION – RESIDENTIAL**
6 **USES.**

7 * * * *

8 (d) ~~Request for Administrative Review Reasonable Modification—No Hearing.~~ In an
9 effort to **To** expedite the processing and resolution of reasonable modification requests, any
10 request ~~under Section 305.1 that is consistent with the criteria in this section~~ may receive
11 administrative review and approval and ~~Requests for modifications that meet the requirements for~~
12 ~~administrative review does~~ not require public notice under Section 306 of this Code.

13 ~~(1) Parking, Where No Physical Structure Is Proposed. One parking space may be~~
14 ~~considered for an administrative reasonable modification provided that the parking space is necessary~~
15 ~~to achieve the accommodation and that property does not already include a parking space. Exceptions~~
16 ~~may be considered from rear yard and the front setback requirements if necessary to accommodate the~~
17 ~~parking space. In reviewing an administrative reasonable modification request for parking, the Zoning~~
18 ~~Administrator is authorized to allow the parking space for up to five years, at the end of which period~~
19 ~~the applicant may renew the temporary use for additional five-year periods.~~

20 ~~(2) Access Ramps. One or more access ramps, defined in Building Code Section 1114A~~
21 ~~may be considered for an administrative reasonable modification provided that the access ramp is~~
22 ~~designed and constructed to meet the accessibility provisions in either the California Building Code or~~
23 ~~the California Historical Building Code and is easily removable when the ramp(s) are no longer~~
24 ~~needed for the requested modification.~~

1 ~~(3) **Elevators.** One elevator, with dimensions defined in Building Code Section 1124A,~~
2 ~~may be considered for an administrative reasonable modification provided that the elevator structure is~~
3 ~~not visible from the public right of way and is set back a minimum of 10 feet from the property line, and~~
4 ~~that the elevator is necessary to access residential uses of the building and to achieve the~~
5 ~~accommodation requested.~~

6 ~~(4) **Additional Habitable Space.** Additional habitable space may be considered for an~~
7 ~~administrative reasonable modification provided that the additional habitable space does not result in~~
8 ~~the addition of a new dwelling unit or require expansion beyond the permitted building envelope.~~

9 ~~(e) **All Other Requests for Reasonable Modification—Zoning Administrator Review and**~~
10 ~~**Approval.**~~

11 ~~(1) **Standard Variance Procedure—With Hearing.** Requests for reasonable~~
12 ~~modifications that do not fall within subsection (d) shall be considered by the Zoning Administrator,~~
13 ~~who will make the final decision through the existing variance process described in Section 305.~~

14 ~~(2) **Public Notice of a Request for Reasonable Modification.** Notice for reasonable~~
15 ~~modifications that fall with subsection (e)(1) are subject to the notice requirements of Section 333 of~~
16 ~~this Code. If the request for reasonable modification is part of a larger application, then the noticing~~
17 ~~can be combined.~~

18 **(fe) Determination.**

19 **(1) Zoning Administrator Authority.** The Zoning Administrator is authorized
20 to consider and act on requests for reasonable modification, ~~whether under Subsection (d) or~~
21 ~~Subsection (e).~~ The Zoning Administrator may conditionally approve or deny a request. In
22 considering requests for reasonable modification under this Section 305.1, the Zoning
23 Administrator shall consider the factors in Ssubsection (fe)(2).

24 **(2) Criteria for Modification.** When reviewing a request for reasonable
25 modification, the Zoning Administrator shall consider whether:

1 (A) the requested modification is requested by or on the behalf of one or
2 more individuals with a disability protected under federal and state fair housing laws;

3 (B) the requested modification will directly enable the individual to
4 access the individual's residence;

5 (C) the requested modification is necessary to provide the individual with
6 a disability an equal opportunity to use and enjoy a dwelling;

7 (D) there are alternatives to the requested modification that would
8 provide an equivalent level of benefit;

9 (E) the requested modification will not impose an undue financial or
10 administrative burden on the City as "undue financial or administrative burden" is defined
11 under federal and state fair housing laws.

12 (F) the requested modification will, under the specific facts of the case,
13 result in a fundamental alteration in the nature of the Planning Code or General Plan, as
14 "fundamental alteration" is defined under federal and state fair housing laws.

15 (G) the requested modification will, under the specific facts of the case,
16 result in a direct threat to the health or safety of others or cause substantial physical damage
17 to the property of others.

18 (3) **Residential Design Guideline Review.** If the proposed project is in a zoning
19 district that requires residential design guideline review, the Department shall complete the
20 design review and make appropriate recommendations, while also accommodating the
21 reasonable modification. Approvals are subject to compliance with all other applicable zoning
22 or building regulations.

23 (4) **Historic Resource Review.** If the proposed project would affect a building that
24 is listed in or eligible for listing in a local, state, or federal historic resource register, then the
25 modifications, either through the administrative reasonable modification process or the

1 standard reasonable modification variance procedure, will be reviewed by the Planning
2 Department's Historic Preservation Technical Specialists to ensure conformance with the
3 Secretary of the Interior Standards for the Rehabilitation of Historic Properties.

4 (5) **Written Decision.** Upon issuing a written decision either granting or denying the
5 requested modification in whole or in part, the Zoning Administrator shall forthwith transmit a
6 copy thereof to the applicant. The action of the Zoning Administrator shall be final and shall
7 become effective 10 days after the date of the written decision except upon the filing of a valid
8 appeal to the Board of Appeals as provided in Section 308.2.

9 (g) **Fees.** The Department may charge time and materials costs incurred if required
10 to recover the Department's costs for providing services. The fee for a reasonable
11 modification request is the fee for a variance set forth in Section 352(b) of this Code. If an
12 applicant can demonstrate financial hardship, the Department may waive or reduce the fee
13 pursuant to Section 350(j) 352(e)(2) of this Code.

14 **SEC. 311. PERMIT REVIEW PROCEDURES.**

15 (a) Purpose. The purpose of this Section 311 is to establish procedures for reviewing
16 building permit applications within the Priority Equity Geographies SUD (Section 249.97) and RH
17 Districts in the Family Housing Opportunity Special Use District (Section 249.94) to determine
18 compatibility of the proposal with the neighborhood and for providing notice to property
19 owners and residents on the site and neighboring the site of the proposed project and to
20 interested neighborhood organizations, so that concerns about a project may be identified and
21 resolved during the review of the permit.

22 (b) Applicability. Within the Priority Equity Geographies SUD and RH Districts in the
23 Family Housing Opportunity Special Use District ~~Except as indicated in this subsection (b), all~~
24 building permit applications in Residential, NC, NCT, and Eastern Neighborhoods Mixed Use
25 Districts for ~~a change of use; establishment of a Micro Wireless Telecommunications Services Facility;~~

1 ~~establishment of a Formula Retail Use;~~ demolition, new construction, or alteration of buildings;
2 ~~and the removal of an authorized or unauthorized residential unit,~~ shall be subject to the notification
3 and review procedures required by this Section 311. ~~In addition, with the exception of~~
4 ~~Grandfathered MCDs converting to Cannabis Retail use pursuant to Section 190(a), all building permit~~
5 ~~applications that would establish Cannabis Retail or Medical Cannabis Dispensary uses, regardless of~~
6 ~~zoning district, shall be subject to the notification and review procedures required by this Section 311.~~
7 ~~Notwithstanding the foregoing or any other requirement of this Section 311, a change of use to a Child~~
8 ~~Care Facility, as defined in Section 102, shall not be subject to the review requirements of this Section~~
9 ~~311.~~ Notwithstanding the foregoing or any other requirement of this Section 311, building
10 permit applications to construct an Accessory Dwelling Unit pursuant to Section 207(c)(6)
11 shall not be subject to the notification or review requirements of this Section 311.
12 ~~Notwithstanding the foregoing or any other requirement of this Section 311, a change of use to a~~
13 ~~principally permitted use in an NC or NCT District, or in a limited commercial use or a limited corner~~
14 ~~commercial use, as defined in Sections 186 and 231, respectively, shall not be subject to the review or~~
15 ~~notice requirements of this Section 311. Notwithstanding the foregoing or any other requirement of this~~
16 ~~Section 311, building permit applications to change any existing Automotive Use to an Electric Vehicle~~
17 ~~Charging Location shall not be subject to the review or notification requirements of this Section 311.~~

18 ~~(1) Change of Use. Subject to the foregoing provisions of subsection (b), for the~~
19 ~~purposes of this Section 311, a change of use is defined as follows:~~

20 ~~(A) Residential, NC, and NCT Districts. For all Residential, NC, and NCT~~
21 ~~Districts, a change of use is defined as a change to, or the addition of, any of the following land uses as~~
22 ~~defined in Section 102 of this Code: Adult Business, Bar, Cannabis Retail, General Entertainment,~~
23 ~~Group Housing, Limited Restaurant, Liquor Store, Massage Establishment, Medical Cannabis~~
24 ~~Dispensary, Nighttime Entertainment, Outdoor Activity Area, Post-Secondary Educational Institution,~~
25 ~~Private Community Facility, Public Community Facility, Religious Institution, Residential Care~~

1 ~~Facility, Restaurant, School, Tobacco Paraphernalia Establishment, Trade School, and Wireless~~
2 ~~Telecommunications Facility. A change of use from a Restaurant to a Limited Restaurant shall not be~~
3 ~~subject to the provisions of this Section 311. Any accessory massage use in the Ocean Avenue~~
4 ~~Neighborhood Commercial Transit District shall be subject to the provisions of this Section 311. A~~
5 ~~change of use to a principally permitted use in an NC or NCT District, or in a limited commercial use~~
6 ~~or a limited corner commercial use, as defined in Sections 186 and 231, respectively, shall not be~~
7 ~~subject to the provisions of this Section 311.~~

8 ~~(i) Exception. Notwithstanding subsection 311(b)(1)(A), in the~~
9 ~~geographic areas identified in subsection 311(b)(1)(A)(ii), building permit applications for a change of~~
10 ~~use to the following uses shall be excepted from the provisions of subsections 311(d) and 311(e): Bar,~~
11 ~~General Entertainment, Limited Restaurant, Liquor Store, Massage Establishment, Nighttime~~
12 ~~Entertainment, Outdoor Activity Area, Private Community Facility, Public Community Facility,~~
13 ~~Restaurant, and Tobacco Paraphernalia Establishment.~~

14 ~~(ii) Subsection 311(b)(1)(A)(i) shall apply to Neighborhood Commercial~~
15 ~~Districts and Limited Commercial Uses in the following geographic areas:~~

16 ~~Area 1: shall comprise all of that portion of the City and County~~
17 ~~commencing at the point of the intersection of the shoreline of the Pacific Ocean and a straight line~~
18 ~~extension of Lincoln Way, and proceeding easterly along Lincoln Way to 17th Avenue, and proceeding~~
19 ~~southerly along 17th Avenue to Judah Street, and proceeding westerly along Judah Street to 19th~~
20 ~~Avenue, and proceeding southerly along 19th Avenue to Sloat Boulevard, and proceeding westerly~~
21 ~~along Sloat Boulevard, and following a straight line extension of Sloat Boulevard to the shoreline of~~
22 ~~the Pacific Ocean and proceeding northerly along said line to the point of commencement.~~

23 ~~Area 2: shall comprise all of that portion of the City and County~~
24 ~~commencing at the point of the intersection of Junipero Serra Boulevard and Brotherhood Way, and~~
25 ~~proceeding northerly along the eastern edge of Junipero Serra Boulevard to Garfield Street, and~~

1 ~~proceeding easterly along Garfield Street to Grafton Avenue, and continuing easterly along Grafton~~
2 ~~Avenue to Mount Vernon Avenue, and proceeding easterly along Mount Vernon Avenue to Hawth~~
3 ~~Street, and proceeding northerly along Hawth Street to Geneva Avenue, and proceeding easterly along~~
4 ~~Geneva Avenue to Interstate 280, and proceeding northerly along Interstate 280 to the straight-line~~
5 ~~extension of Tingley Street, and proceeding southerly along said line to Tingley Street, and proceeding~~
6 ~~southerly along Tingley Street to Alemany Boulevard, and proceeding easterly along Alemany~~
7 ~~Boulevard to Congdon Street, and proceeding southerly along Congdon Street to Silver Avenue, and~~
8 ~~proceeding easterly along Silver Avenue to Madison Street, and proceeding southerly along Madison~~
9 ~~Street to Burrows Street, and proceeding westerly along Burrows Street to Prague Street, and~~
10 ~~proceeding southerly along Prague Street to Persia Avenue, and proceeding westerly along Persia~~
11 ~~Avenue to Athens Street, and proceeding southerly along Athens Street to Geneva Avenue, and~~
12 ~~proceeding easterly along Geneva Avenue to the intersection of Geneva Avenue and Carter Street, and~~
13 ~~proceeding westerly along the southeastern boundary of Census Tract 0263.02, Block 3005 to the San~~
14 ~~Francisco/San Mateo county border, and proceeding westerly along the San Francisco/San Mateo~~
15 ~~county border to Saint Charles Avenue, and proceeding northerly along Saint Charles Avenue to~~
16 ~~Interstate 280, and proceeding northeasterly along Interstate 280 to a northerly straight-line extension~~
17 ~~to Orizaba Avenue, and proceeding northerly along said line to Alemany Boulevard, and proceeding~~
18 ~~westerly along Alemany Boulevard to Brotherhood Way, and proceeding westerly along Brotherhood~~
19 ~~Way to the point of commencement.~~

20 ~~(iii) Exception for the Ocean Avenue Neighborhood Commercial Transit~~
21 ~~District. Notwithstanding subsection 311(b)(1)(A), building permit applications in the Ocean Avenue~~
22 ~~Neighborhood Commercial Transit District for a change of use to the following uses shall be excepted~~
23 ~~from the provisions of subsections 311(d) and 311(e): General Entertainment, Limited Restaurant,~~
24 ~~Nighttime Entertainment, Outdoor Activity Area, Private Community Facility, Public Community~~
25 ~~Facility, Restaurant, and Tobacco Paraphernalia Establishment.~~

~~(B) Eastern Neighborhood Mixed Use Districts. In all Eastern Neighborhood Mixed Use Districts a change of use shall be defined as a change in, or addition of, a new land use category. A “land use category” shall mean those categories used to organize the individual land uses that appear in the use tables, immediately preceding a group of individual land uses, including but not limited to the following: Residential Use; Institutional Use; Retail Sales and Service Use; Assembly, Recreation, Arts and Entertainment Use; Office Use; Live/Work Units Use; Motor Vehicle Services Use; Vehicle Parking Use; Industrial Use; Home and Business Service Use; or Other Use.~~

(2) **Alterations.** For the purposes of this Section 311, an alteration shall be defined as an increase to the exterior dimensions of a building except those features listed in Section 136(c)(1) through ~~Section 136(c)(24) and 136(c)(26)~~, regardless of whether the feature is located in a required setback. ~~In addition, an alteration in RH, RM, and RTO Districts shall also include the removal of more than 75% of a residential building’s existing interior wall framing or the removal of more than 75% of the area of the existing framing.~~

~~(3) Micro Wireless Telecommunications Services Facilities. Building permit applications for the establishment of a Micro Wireless Telecommunications Services Facility, other than a Temporary Wireless Telecommunications Services Facility, shall be subject to the review procedures required by this Section. Pursuant to Section 205.2, applications for Temporary Wireless Telecommunications Facilities to be operated for commercial purposes for more than 90 days shall also be subject to the review procedures required by this Section.~~

* * * *

SEC. 317. LOSS OF RESIDENTIAL AND UNAUTHORIZED UNITS THROUGH DEMOLITION, MERGER, AND CONVERSION.

* * * *

(c) Applicability; Exemptions.

(1) Within the Priority Equity Geographies Special Use District (Section 249.97) and RH Districts in the Family Housing Opportunity Special Use District (Section 249.94),

any application for a permit that would result in the Removal of one or more Residential Units or Unauthorized Units is required to obtain Conditional Use authorization.

(2) Outside the Priority Equity Geographies Special Use District and RH Districts in the Family Housing Opportunity Special Use District, any application for a permit that would result in the Removal of one or more Residential Units or Unauthorized Units is required to obtain Conditional Use authorization unless it meets all the following criteria:

(A) The units to be demolished are not tenant occupied and are without a history of evictions under Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) within the last five years, and have not been vacated within the past five years pursuant to a Buyout Agreement, as defined in Administrative Code Section 37.9E, as it may be amended from time to time;

(B) No more than two units that are required to be replaced per subsection (E) of this Section 317 would be removed or demolished that are;

(i) subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of lower- or very low-income within the past five years; or

(ii) subject to limits on rent increases under the Residential Rent Stabilization and Arbitration Ordinance (Chapter 37 of the Administrative Code) within the past five years; or

(iii) rented by lower- or very low-income households within the past five years;

1 (C) The building proposed for demolition is not an Historic Building as defined
2 in Section 102. For the purposes of this subsection (c)(2)(C), an "Historic Building" shall also

3 include any building located in an historic district listed in Article 10;

4 (D) The proposed project is adding at least one more unit than would be
5 demolished; and

6 (E) The proposed project complies with the requirements of Section 66300(d) of
7 the California Government Code, as may be amended from time to time, including but not limited to
8 requirements to replace all protected units, and to offer existing occupants of any protected units that
9 are lower income households relocation benefits and a right of first refusal for a comparable unit, as
10 those terms are defined therein;

11 (F) The project sponsor certifies under penalty of perjury that any units to
12 be demolished are not tenant occupied and are without a history of evictions under
13 Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) within last five years, and
14 have not been vacated within the past five years pursuant to a Buyout Agreement, as defined
15 in Administrative Code Section 37.9E, as it may be amended from time to time, regardless of
16 whether the Buyout Agreement was filed with the Rent Board pursuant to Administrative Code
17 Section 37.9E(h);

18 (G) The project sponsor has conducted one pre-application meeting prior
19 to filing a development application. The Planning Department shall not accept a development
20 application without confirmation that the project sponsor has held at least one pre-application
21 meeting conforming to the requirements of this subsection (c)(2)(G) and any additional
22 procedures the Planning Department may establish. The project sponsor shall provide mailed
23 notice of the pre-application meeting to the individuals and neighborhood organizations
24 specified in Planning Code Section 333(e)(2)(A) and (C); and

(H) If the proposed project is located in a Residential, House (RH) zoning district, the project's resulting units will meet the unit configuration requirements of Section 249.94(c)(4).

(~~37~~) For Unauthorized Units, this Conditional Use authorization will not be required for Removal if the Zoning Administrator has determined in writing that the unit cannot be legalized under any applicable provision of this Code. The application for a replacement building or alteration permit shall also be subject to Conditional Use requirements.

(42) The Conditional Use requirement of Ssubsubsections (c)(1) and (c)(2) shall apply to (A) any building or site permit issued for Removal of an Unauthorized Unit on or after March 1, 2016, and (B) any permit issued for Removal of an Unauthorized Unit prior to March 1, 2016 that has been suspended by the City or in which the applicant's rights have not vested.

(53) The Removal of a Residential Unit that has received approval from the Planning Department through administrative approval or the Planning Commission through a Discretionary Review or Conditional Use authorization prior to the effective date of the Conditional Use requirement of ~~§~~subsections (c)(1) *or (c)(2)* is not required to apply for an additional approval under *this Section 317. Subsection (c)(1).*

(64) **Exemptions for Unauthorized Dwelling Units.** The Removal of an Unauthorized Unit does not require a Conditional Use authorization pursuant to § subsection § (c)(1) or (c)(2) if the Department of Building Inspection has determined that there is no path for legalization under Section 106A.3.1.3 of the Building Code.

(75) **Exemptions for Single-Family Residential Buildings.** The Demolition of a Single-Family Residential Building that meets the requirements of Ssubsubsection (d)(3) below may be approved by the Department without requiring a Conditional Use authorization pursuant to in subsection (c)(1) or (c)(2).

1 (86) **Exception for Certain Permits Filed Before February 11, 2020.** An
2 application to demolish a Single-Family Residential Building on a site in a RH-1 or RH-1(D)
3 District that is demonstrably not affordable or financially accessible housing, meaning housing
4 that has a value greater than 80% than the combined land and structure values of single-
5 family homes in San Francisco as determined by a credible appraisal made within six months
6 of the application to demolish, is exempt from the Conditional Use authorization requirement
7 of ~~§~~subsection (c)(1) or (c)(2), provided that a complete Development Application was
8 submitted prior to February 11, 2020.

9
10 * * * *

11
12 **SEC. 406. WAIVER, REDUCTION, OR ADJUSTMENT OF DEVELOPMENT**
13 **PROJECT REQUIREMENTS.**

14 * * * *

15 (b) Waiver or Reduction, Based on Housing Affordability.

16 (1) An affordable housing unit shall receive a waiver from the Rincon Hill
17 Community Infrastructure Impact Fee, the Market and Octavia Community Improvements
18 Impact Fee, the Eastern Neighborhoods Infrastructure Impact Fee, the Balboa Park Impact
19 Fee, the Visitacion Valley Community Facilities and Infrastructure Impact Fee, the
20 Transportation Sustainability Fee, the Residential Child Care Impact Fee, the Central South of
21 Market Infrastructure Impact Fee, and the Central South of Market Community Facilities Fee if
22 ~~the affordable housing unit~~:

23 (A) the affordable housing unit is affordable to a household earning up to
24 120% at or below 80% of the Area Median Income (as published by HUD), including units that
25 qualify as replacement Section 8 units under the HOPE SF program;

1 (B) the affordable housing unit will maintain its affordability for a term of no
2 less than 55 years, as evidenced by a restrictive covenant recorded on the property's title;

3 (C) the Project sponsor demonstrates to the Planning Department staff that a
4 governmental agency will be enforcing the term of affordability and reviewing performance and service
5 plans as necessary, and

6 (D) all construction workers employed in the construction of the development
7 that includes the affordable housing unit are paid at least the general prevailing rate of per diem wages
8 for the type of work and geographic location of the development, as determined by the Director of
9 Industrial Relations pursuant to Sections 1773 and 1773.9 of the Labor Code, except that apprentices
10 registered in programs approved by the Chief of the Division of Apprenticeship Standards may be paid
11 at least the applicable apprentice prevailing rate under the terms and conditions of Labor Code Section
12 1777.5.

13 ~~(B) is subsidized, MOHCD, the San Francisco Housing Authority, the~~
14 ~~Department of Homelessness and Supportive Housing, and/or the Office of Community Investment and~~
15 ~~Infrastructure or any future successor agency to those listed herein; and~~

16 ~~(C) is subsidized in a manner which maintains its affordability for a term no~~
17 ~~less than 55 years, whether it is a rental or ownership opportunity. Project sponsors must demonstrate~~
18 ~~to the Planning Department staff that a governmental agency will be enforcing the term of affordability~~
19 ~~and reviewing performance and service plans as necessary.~~

20 * * * *

21 (5) This waiver clause shall not be applied to units built as part of a developer's
22 efforts to meet the requirements of the Inclusionary Affordable Housing Program,
23 Sections 415 or 419 of this Code ~~or any units that trigger a Density Bonus under California~~
24 ~~Government Code Sections 65915-65918.~~

Section 87, Article 9 of the Subdivision Code is hereby amended by amending Section 1396.6, to read as follows:

SEC. 1396.6. CONDOMINIUM CONVERSION ASSOCIATED WITH PROJECTS THAT UTILIZE THE RESIDENTIAL DENSITY EXCEPTION IN RH DISTRICTS TO CONSTRUCT NEW DWELLING UNITS PURSUANT TO PLANNING CODE SECTION 207(C)(8).

(a) **Findings.** The findings of Planning Code Section 415.1 concerning the City's inclusionary affordable housing program are incorporated herein by reference and support the basis for charging the fee set forth herein as it relates to the conversion of dwelling units into condominiums.

(b) **Definition.** "Existing Dwelling Unit" shall refer to mean the dwelling unit in existence on a lot at the time of the submittal of an application to construct a new dwelling unit pursuant to Planning Code Section 207(c)(8).

1 (c) Notwithstanding Section 1396.4 of this Code and Ordinance No. 117-13, a
2 subdivider of a one-unit building that has obtained a permit to build one or more new dwelling
3 units by utilizing the exception to residential density in RH districts set forth in Planning Code
4 Section 207(c)(8), which results in two or more dwelling units, and that has signed an affidavit
5 stating the subdivider's intent to reside in one of those resulting dwelling units, or in the
6 Existing Dwelling Unit, for a period of three years after the approval of the Certificate of Final
7 Completion and Occupancy for the new dwelling units, shall (1) be exempt from the annual
8 lottery provisions of Section 1396 of this Code with respect to the dwelling units built as part of
9 the Project Units and (2) be eligible to submit a condominium conversion application for the
10 Existing Dwelling Unit and/or include the Existing Dwelling Unit in a condominium map
11 application for the project approved pursuant to Planning Code Section 207(c)(8).

12 Notwithstanding the foregoing sentence, no property or applicant subject to any of the
13 prohibitions on conversions set forth in Section 1396.2, in particular of this Code, including but
14 not limited to a property with the eviction(s) set forth in Section 1396.2(b), shall be eligible for
15 condominium conversion under this Section 1396.6. Eligible buildings as set forth in this
16 subsection (c) may exercise their option to participate in this program according to the
17 following requirements:

18 (1) The applicant(s) for the subject building seeking to convert dwelling units to
19 condominiums or subdivide dwelling units into condominiums under this subsection shall pay
20 the fee specified in Section 1315 of this Code.

21 (2) In addition to all other provisions of this Section 1396.6, the applicant(s)
22 shall comply with all of the following:

23 (A) The requirements of Subdivision Code Article 9, Sections 1381,
24 1382, 1383, 1386, 1387, 1388, 1389, 1390, 1391(a) and (b), 1392, 1393, 1394, and 1395.

1 (B) The applicant(s) must certify under penalty of perjury that within the
2 60 months preceding the date of the subject application, no tenant resided at the property.

3 (C) The applicant(s) must certify under penalty of perjury that to the
4 extent any tenant vacated their unit after March 31, 2013, and before recordation of the final
5 parcel or subdivision map, such tenant did so voluntarily or if an eviction or eviction notice
6 occurred it was not pursuant to Administrative Code Sections 37.9(a)(8)-(12) and 37.9(a)(14)-
7 (16). ~~If an eviction has taken place under Sections 37.9(a)(11) or 37.9(a)(14), then the~~
8 ~~applicant(s) shall certify~~ The applicant must also certify under penalty of perjury that to the
9 extent any tenant vacated their unit after March 31, 2013, and before recordation of the final
10 parcel or subdivision map, such tenant did not vacate the unit pursuant to a Buyout
11 Agreement, pursuant to the requirements of Administrative Code Section 37.9E, as it may be
12 amended from time to time, regardless of whether the Buyout Agreement was filed and
13 registered with the Rent Board pursuant to Administrative Code Section 37.9E(h). If a
14 temporary eviction occurred under Sections 37.9(a)(11) or 37.9(a)(14), then the applicant(s)
15 shall certify under penalty of perjury that the original tenant reoccupied the unit after the
16 temporary eviction.

17 (3) If the Department finds that a violation of this Section 1396.6 occurred prior
18 to recordation of the final map or final parcel map, the Department shall disapprove the
19 application or subject map. If the Department finds that a violation of this Section occurred
20 after recordation of the final map or parcel map, the Department shall take such enforcement
21 actions as are available and within its authority to address the violation.

22 (4) This Section 1396.6 shall not prohibit a subdivider who has lawfully
23 exercised the subdivider's rights under Administrative Code Section 37.9(a)(13) from
24 submitting a condominium conversion application under this Section 1396.6.

25 (d) Decisions and Hearing on the Application.

1 (1) The applicant shall obtain a final and effective tentative map or tentative
2 parcel map approval for the condominium subdivision or parcel map within one year of paying
3 the fee specified in subsection (e) of this Section 1396.6. The Director of the Department of
4 Public Works or the Director's designee is authorized to waive the time limits set forth in this
5 subsection (d)(1) as it applies to a particular building due to extenuating or unique
6 circumstances. Such waiver may be granted only after a public hearing and in no case shall
7 the time limit extend beyond two years after submission of the application.

8 (2) No less than 20 days prior to the Department's proposed decision on a
9 tentative map or tentative parcel map, the Department shall publish the addresses of buildings
10 being considered for approval and post such information on its website, post notice that such
11 decision is pending at the affected buildings, and provide written notice of such pending
12 decision to the applicant, all tenants of such buildings, and any member of the public who
13 interested party who has requested such notice. During this time, any interested party may file
14 a written objection to an application and submit information to the Department contesting the
15 eligibility of a building. In addition, the Department may elect to hold a public hearing on said
16 tentative map or tentative parcel map to consider the information presented by the public,
17 other City department, or an applicant. If the Department elects to hold such a hearing it shall
18 post notice of such hearing including posting notice at the subject building, and provide
19 written notice to the applicant, all tenants of such building, any member of the public who
20 submitted information to the Department, and any interested party who has requested such
21 notice. In the event that an objection to the conversion application is filed in accordance with
22 this subsection (d)(2), and based upon all the facts available to the Department, the
23 Department shall approve, conditionally approve, or disapprove an application and state the
24 reasons in support of that decision.

1 (3) Any map application subject to a Departmental public hearing on the
2 subdivision or a subdivision appeal shall receive a six-month extension on have the time limit
3 set forth in subsection (d)(1) of this Section 1396.6 extended for another six months.

4 (e) Should the subdivision application be denied or be rejected as untimely in
5 accordance with the dates specified in subsection (d)(1) of this Section 1396.6, or should the
6 tentative subdivision map or tentative parcel map be disapproved, the City shall refund the
7 entirety of the application fee.

8 (f) Conversion of buildings pursuant to this Section 1396.6 shall have no effect on the
9 terms and conditions applicable to such buildings under Section ~~1341A~~, 1385A, or 1396 of
10 this Code.

11
12 Section 987. Effective Date. This ordinance shall become effective 30 days after
13 enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the
14 ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board
15 of Supervisors overrides the Mayor's veto of the ordinance.

16
17 Section 1098. Scope of Ordinance. In enacting this ordinance, the Board of
18 Supervisors intends to amend only those words, phrases, paragraphs, subsections, sections,
19 articles, numbers, punctuation marks, charts, diagrams, or any other constituent parts of the
20 Municipal Code that are explicitly shown in this ordinance as additions, deletions, Board
21 amendment additions, and Board amendment deletions in accordance with the "Note" that
22 appears under the official title of the ordinance.

23
24 Section 1140. Clarification of existing law. The amendments to Planning Code Section
25 305.1(g) in Section 3 of this ordinance do not constitute a change in, but are declaratory of,

1 existing law with regard to the Planning Department's authorization to collect fees for time and
2 materials spent reviewing application materials.

Ms. Angela Calvillo, Clerk
Honorable Mayor Breed
Board of Supervisors
City and County of San Francisco
City Hall, Room 244
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102

Re: Transmittal of Planning Department Case Number 2023-003676PCAMAP
Constraints Reduction Ordinance (AKA Housing Production Ordinance)
Board File No. 230446

Planning Commission Recommendation: **Approval with Modification**

Dear Ms. Calvillo and Mayor Breed,

On June 29, 2023, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance, introduced by Mayor Breed that would amend Planning Code to remove several process constraints on housing production in addition to other related amendments. At the hearing the Planning Commission recommended approval with modification.

The Commission's proposed modifications were as follows:

1. For a project to be exempt from Planning Code Section 317 demolition controls, include a criterion that the units must not have had any tenant buyouts within the last five years.
2. Add the following language to Planning Code Section 132, Front Setback Requirements: (d) Maximum Requirements. The maximum required front setback in any of the cases described in this Section 132 shall be ~~15-10~~ feet from the property line along the Street or Alley, *except in the cases where more than 75% of the properties on the subject block face have a setback of 15 feet or greater, and both parcels adjacent to the subject property have a front setback of 15 feet or greater, in which case the maximum front setback shall be 15'*.

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Mayor Breed, please advise the City Attorney at your earliest convenience if you wish to incorporate the changes recommended by the Commission.

Please find attached documents relating to the actions of the Commission. If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Aaron D. Starr", with a long horizontal flourish extending to the right.

Aaron D. Starr
Manager of Legislative Affairs

Planning Commission Resolution
Planning Department Executive Summary

PLANNING COMMISSION RESOLUTION NO. 21342

HEARING DATE: JUNE 29, 2023

Project Name: Constraints Reduction (aka Housing Production)
Case Number: 2023-003676PCAMAP [Board File No. 230446]
Initiated by: Mayor Breed / Introduced April 18, 2023
Staff Contact: Aaron Starr, Legislative Affairs
aaron.starr@sfgov.org, 628-652-7533

RESOLUTION APPROVING A PROPOSED ORDINANCE THAT WOULD AMEND THE PLANNING CODE TO ENCOURAGE HOUSING PRODUCTION, BY 1) EXEMPTING, UNDER CERTAIN CONDITIONS, SPECIFIED HOUSING PROJECTS FROM THE NOTICE AND REVIEW PROCEDURES OF SECTION 311 AND THE CONDITIONAL USE REQUIREMENT OF SECTION 317, IN AREAS OUTSIDE OF PRIORITY EQUITY GEOGRAPHIES, WHICH ARE IDENTIFIED IN THE HOUSING ELEMENT AS AREAS OR NEIGHBORHOODS WITH A HIGH DENSITY OF VULNERABLE POPULATIONS; 2) REMOVING THE CONDITIONAL USE REQUIREMENT FOR SEVERAL TYPES OF HOUSING PROJECTS, INCLUDING HOUSING DEVELOPMENTS ON LARGE LOTS, PROJECTS TO BUILD TO THE ALLOWABLE HEIGHT LIMIT, PROJECTS THAT BUILD ADDITIONAL UNITS IN LOWER DENSITY ZONING DISTRICTS, AND SENIOR HOUSING PROJECTS THAT SEEK TO OBTAIN DOUBLE DENSITY; 3) AMENDING REAR YARD, FRONT SETBACK, LOT FRONTAGE, MINIMUM LOT SIZE, AND RESIDENTIAL OPEN SPACE REQUIREMENTS IN SPECIFIED DISTRICTS; 4) ALLOWING ADDITIONAL USES ON THE GROUND FLOOR IN RESIDENTIAL BUILDINGS, HOMELESS SHELTERS, AND GROUP HOUSING IN RESIDENTIAL DISTRICTS, AND ADMINISTRATIVE REVIEW OF REASONABLE ACCOMMODATIONS; 5) EXPANDING THE ELIGIBILITY FOR THE HOUSING OPPORTUNITIES MEAN EQUITY - SAN FRANCISCO (HOME - SF) PROGRAM AND DENSITY EXCEPTIONS IN RESIDENTIAL DISTRICTS; 6) EXEMPTING CERTAIN AFFORDABLE HOUSING PROJECTS FROM CERTAIN DEVELOPMENT FEES; 7) AUTHORIZING THE PLANNING DIRECTOR TO APPROVE STATE DENSITY BONUS PROJECTS, SUBJECT TO DELEGATION FROM THE PLANNING COMMISSION; AND 8) MAKING CONFORMING AMENDMENTS TO OTHER SECTIONS OF THE PLANNING CODE; AMENDING THE ZONING MAP TO CREATE THE PRIORITY EQUITY GEOGRAPHIES SPECIAL USE DISTRICT; AFFIRMING THE PLANNING DEPARTMENT'S DETERMINATION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT; AND MAKING PUBLIC NECESSITY, CONVENIENCE, AND WELFARE FINDINGS UNDER PLANNING CODE, SECTION 302, AND FINDINGS OF CONSISTENCY WITH THE GENERAL PLAN, AND THE EIGHT PRIORITY POLICIES OF PLANNING CODE, SECTION 101.1.

WHEREAS, on April 18, 2023 Mayor Breed introduced a proposed Ordinance under Board of Supervisors (hereinafter “Board”) File Number 230446, which would amend the Planning Code to encourage housing production, by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; and

WHEREAS, the Planning Commission (hereinafter “Commission”) conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance on June 29, 2023; and,

WHEREAS, the proposed Ordinance has been determined to be categorically exempt from environmental review under the California Environmental Quality Act Section 15060(c); and

WHEREAS, the Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of Department staff and other interested parties; and

WHEREAS, all pertinent documents may be found in the files of the Department, as the Custodian of Records, at 49 South Van Ness Avenue, Suite 1400, San Francisco; and

WHEREAS, the Commission has reviewed the proposed Ordinance; and

WHEREAS, the Commission finds from the facts presented that the public necessity, convenience, and general welfare require the proposed amendment; and

MOVED, that the Planning Commission hereby **approves with modifications** the proposed ordinance. The Commission’s proposed modifications are as follows:

1. For a project to be exempt from Planning Code Section 317 demolition controls, include a criterion

that the units must not have had any tenant buyouts within the last five years.

2. Add the following language to Planning Code Section 132, Front Setback Requirements:

*(de) **Maximum Requirements.** The maximum required front setback in any of the cases described in this Section 132 shall be ~~15~~-10 feet from the property line along the Street or Alley, except in the cases where more than 75% of the properties on the subject block face have a setback of 15 feet or greater, and both parcels adjacent to the subject property have a front setback of 15 feet or greater, in which case the maximum front setback shall be 15'.*

Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The Commission supports the goals of this ordinance because it will implement several recently adopted Housing Element Policies and aims to streamline housing production in San Francisco. These changes will aid the City's efforts to build 82,000 units in the next eight years, as mandated by state law. By removing arbitrary processes for height and lot development, the proposed ordinance will not only save time but also bring predictability to the planning process.

The amendments to Section 317 refresh an outdated process based on subjective criteria and establish a standard for the types of housing projects that we want to encourage. The removal of 311 neighborhood notice requirements provides applicants with code-compliant projects greater predictability by reducing processing time and the subjective nature of the DR process. These changes also free up staff time to focus on more impactful housing projects.

The standardization and rationalization of the Planning Code's building standards also help streamline the review process and provide more flexibility to applicants in meeting code requirements. A simplified code also makes it easier for more people to participate in the planning process. Overall, the proposed ordinance will significantly reduce the time required for housing permits to navigate through the planning process.

Importantly, the ordinance also establishes the Priority Equity Geographies Specific Use District (SUD). This SUD maintains existing neighborhood notification and dwelling unit demolition controls. It can also be utilized in the future to implement zoning changes tailored to serve the specific needs of the communities residing in those areas. This approach prioritizes programs that stabilize communities and meet community needs.

General Plan Compliance

The proposed Ordinance is consistent with the following Objectives and Policies of the General Plan:

HOUSING ELEMENT

OBJECTIVE 3.A

BUILD INTERGENERATIONAL WEALTH FOR AMERICAN INDIAN, BLACK, AND OTHER COMMUNITIES OF COLOR.

Policy 16

Improve access to well-paid jobs and business ownership for American Indian, Black and other communities of color, particularly those who live in Priority Equity Geographies, to build the wealth needed to afford and meet their housing needs.

Implementing Program 4.3.7

Change regulations and definitions in the current planning code to improve flexibility on allowing home-based businesses and work from home in residential districts, for example, create an accessory entrepreneurial use that allows up to two employees.

The proposed Ordinance amends the Planning Code to allow up to two employees not residing in the unit for home-based businesses.

OBJECTIVE 1.B

ADVANCE EQUITABLE HOUSING ACCESS.

POLICY 6

Advance equal housing access by eliminating discrimination based on race, ethnicity, immigration status, HIV+ status, gender identity, sexual orientation, disabilities, age, prior incarceration, or mental health and improving housing programs for underserved groups.

OBJECTIVE 4.C

DIVERSIFY HOUSING TYPES FOR ALL CULTURES, FAMILY STRUCTURES, AND ABILITIES.

POLICY 32

Promote and facilitate aging in place for seniors and multi-generational living that supports extended families and communal households.

Implementing Program 6.3.10

Eliminate the requirement for a hearing for any Reasonable Accommodation requests making all requests administrative in nature, and clearly explain the review process for the public to seek a Reasonable Modification by January 31, 2024.

The proposed Ordinance would allow all reasonable accommodation requests to be approved by the Zoning Administrator ministerially.

POLICY 34

Encourage co-housing³⁴ to support ways for households to share space, resources, and responsibilities, especially to reinforce supportive relationships within and across communities and generations.

Implementing Program 7.2.6

Modify the definition of “dwelling unit” to comply with Health and Safety Code 17021.5. Evaluate and amend the definition of “family” to ensure that it provides zoning code occupancy standards specific to unrelated adults and complies with fair housing law. Permit group housing broadly throughout the city, particularly in zones allowing single-family uses, increase group housing density permitted in these districts, and remove Conditional Use Authorizations or other entitlement barriers to group housing. Changes should focus on special needs groups, including those with disabilities, by ensuring that intermediate care facilities or congregate living health facilities, with six or fewer residents are treated no differently than other by-right single-family housing uses as required in Health and Safety Code sections 1267.8, 1566.3, and 1568.08.

The proposed Ordinance amends the definition of a dwelling unit to comply with Health and Safety Code 17021.5

OBJECTIVE 4.B

EXPAND SMALL AND MID-RISE MULTI-FAMILY HOUSING PRODUCTION TO SERVE OUR WORKFORCE, PRIORITIZING MIDDLE-INCOME HOUSEHOLDS.

POLICY 25

Reduce governmental constraints on development in Well-resourced Neighborhoods to enable small and mid-rise multi-family buildings providing improved housing choice and affordability.

POLICY 26

Streamline and simplify permit processes to provide more equitable access to the application process, improve certainty of outcomes, and ensure meeting State- and local-required timelines, especially for 100% affordable housing and shelter projects.

POLICY 28

Affirm compliance in State housing law, requirements, and intent by strengthening data collection, clarifying definitions, and further supporting implementation.

Implementing Program 8.4.5

Eliminate Commission hearings on any code-complying project in the Well-Resourced Neighborhoods subject to the Housing Accountability Act by July 31, 2023 until January 31, 2027.

The proposed Ordinance would remove several hearing requirements for code-complying projects, such as the conditional use requirement to build to the allowable height limit, for large lot developments, for greater density in RH Districts, and to demolish housing when two or more units are being constructed. It would also remove neighborhood notification for code-complying projects, which often leads to a hearing before the Planning Commission.

Implementing Program 8.4.8

Remove Conditional Use Authorizations or other regulatory barriers for lot mergers and lots or proposed densities that exceed conditional use thresholds on housing applications that net two or more housing units, do not demolish existing rent-controlled units, and meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 to facilitate larger and more efficient housing projects by January 31, 2025.

The proposed Ordinance would remove the conditional use requirements for proposed densities that exceed conditional use thresholds in RH zoning districts.

Implementing Program 8.4.9

Remove Conditional Use Authorization requirement for demolition of single-family or multi-unit buildings that (1) are not tenant occupied and without history of tenant evictions, recent buyouts, no-fault, Ellis, or OMI Evictions; (2) net two or more housing units in the case of projects that construct less than 4 units or that net an increase of at least 50% in the number of existing units for projects that construct 4 or more units, (3) do not demolish existing rent-controlled units, and (4) meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 by January 31, 2025. Continue to apply Conditional Use requirements to demolition of tenant occupied buildings. Review "protected unit" standards in the Housing Crisis Act, and strengthen definitions for local use as necessary, to ensure that properties with a history of no-fault evictions, such as Ellis Act or Owner-Move-Ins, continue to require heightened scrutiny or prohibition of demolition. Planning staff will use the Rent Board's Housing Inventory data and seek input from tenants' organizations.

The proposed Ordinance would remove the conditional use requirement for the demolition of up to two units subject to rent control so long as they are not tenet occupied, the building is not a historic resource, there have been no no-fail evictions, and SB 330 protections are complied with.

Implementing Program 8.4.10

Remove Conditional Use Authorizations where required to achieve greater height for a housing project or replace height and bulk districts that require Conditional Use Authorizations to exceed the base height with one that allows the current maximum height by January 31, 2025.

The proposed Ordinance removes the CU requirement for greater height in RH, RM, RC, Broadway NCD, Van Ness SUD, and Lakeshore Plaza SUD, even if the height map allows for a greater height.

Implementing Program 8.4.11

Reduce the minimum lot size to 1,200 square feet and minimum lot width to 20 feet for proposed projects that net at least one housing unit.

The proposed Ordinance standardizes the lot area and minimum lot width throughout the City to 1,200 sq. ft. and 20' respectively.

Implementing Program 8.4.17

Amend the Planning Code to prohibit Discretionary Review requests for code compliant projects adding at least one net unit, except for projects affecting buildings with units that are tenant occupied, are located in Priority Equity Geographies, or meet the definition of protected units under the Housing Crisis Act of 2019. Remove neighborhood notification requirements for projects outside of Priority Equity Geographies that are code complying, net at least one housing unit, and only expand the rear or side of an existing building and for all non-discretionary ministerial projects.

The proposed Ordinance removes neighborhood notification for projects outside of the Priority Equity Geographies SUD, which reduces the likelihood of a Discretionary Review hearing before the Planning Commission.

Implementing Program 8.4.19

Whenever Planning Code amendments or revisions are proposed, advocate for ensure and promote simpler or an overall reduction of rules that affect housing approvals to reduce the specific or institutional knowledge needed by City staff, applicants, and members of the public to increase accessibility.

The proposed Ordinance simplifies many code provisions, including rear yard and front setback requirements, to reduce specific or institutional knowledge needed by City staff, applicants, and members of the public to increase accessibility.

OBJECTIVE 4.A

SUBSTANTIALLY EXPAND THE AMOUNT OF PERMANENTLY AFFORDABLE HOUSING FOR EXTREMELY LOW- TO MODERATE-INCOME HOUSEHOLDS.

OBJECTIVE 4.B

EXPAND SMALL AND MID-RISE MULTI-FAMILY HOUSING PRODUCTION TO SERVE OUR WORKFORCE, PRIORITIZING MIDDLE-INCOME HOUSEHOLDS.

POLICY 28

Affirm compliance in State housing law, requirements, and intent by strengthening data collection, clarifying definitions, and further supporting implementation.

Implementing Program 8.5.2

Remove Commission hearings for program-compliant State Density Bonus projects that do not require additional entitlements in consultation with California Department of Housing and Community Development (HCD).

The ordinance amends the Planning Code to make it possible for the commission to waive their opportunity to hear State Density Bonus projects.

Implementing Program 8.6.1

Expand the impact fee exemption to a broader range of permanently affordable housing projects including those with units affordable up to 120 percent of Area Median Income or projects that rely on philanthropic capital.

The ordinance amends the Planning Code to allow all 100% permanently affordable housing projects with up to 120% AMI to qualify for impact fee exemptions.

Implementing Program 8.6.3

Make shelters, transitional housing, or crisis interventions (such as Safe Sleeping Sites) principally permitted in all zoning districts, regardless of the declaration of a shelter crisis.

The ordinance amends the Planning Code to allow homeless shelters in all areas of the City as of right.

Planning Code Section 101 Findings

The proposed amendments to the Planning Code are consistent with the eight Priority Policies set forth in Section 101.1(b) of the Planning Code in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

The proposed Ordinance would not have a negative effect on neighborhood serving retail uses and will not have a negative effect on opportunities for resident employment in and ownership of neighborhood-serving retail.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

The proposed Ordinance would maintain certain limits on housing demolition to help preserve existing housing, and it would allow for more housing development within the Well-resourced Neighborhoods SUD to enhance and preserve the cultural and economic diversity of our neighborhoods.

3. That the City's supply of affordable housing be preserved and enhanced;

The proposed Ordinance introduced Planning Code changes that will help expand the City's supply of affordable housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking;

The proposed Ordinance would not result in commuter traffic impeding MUNI transit service or overburdening the streets or neighborhood parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

The proposed Ordinance would not cause displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposed Ordinance would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

The proposed Ordinance would not have an adverse effect on the City's Landmarks and historic buildings.

8. That our parks and open space and their access to sunlight and vistas be protected from development;

The proposed Ordinance would not have an adverse effect on the City's parks and open space and their access to sunlight and vistas.

Planning Code Section 302 Findings.

The Planning Commission finds from the facts presented that the public necessity, convenience and general welfare require the proposed amendments to the Planning Code as set forth in Section 302.

NOW THEREFORE BE IT RESOLVED that the Commission hereby APPROVES the proposed Ordinance as described in this Resolution.

I hereby certify that the foregoing Resolution was adopted by the Commission at its meeting on June 29, 2023.

ADOPTED: June 29, 2023

EXECUTIVE SUMMARY

PLANNING CODE TEXT & ZONING MAP AMENDMENT

HEARING DATE: June 29, 2023

90-Day Deadline: July 25, 2023

Project Name: Constraints Reduction (AKA Housing Production)
Case Number: 2023-003676PCAMAP [Board File No. 230446]
Initiated by: Mayor Breed/ Introduced April 18, 2023
Staff Contact: Aaron Starr, Legislative Affairs
aaron.starr@sfgov.org, 628-652-7533

Recommendation: Approval

Planning Code Amendment

The proposed Ordinance would amend the Planning Code to encourage housing production, by 1) streamlining construction of housing citywide, but outside of Priority Equity Geographies, as defined; 2) streamlining development of housing on large lots 3) allowing construction of buildings to the allowable height limit; 4) streamlining review of State Density Bonus projects; 5) streamlining construction of additional units in lower density zoning districts; 6) streamlining process for senior housing; 7) exempting certain affordable housing projects from development fees; 8) amending rear yard, front setback, lot frontage and minimum lot size requirements; 9) amending residential open space requirements; 10) allowing additional uses on the ground floor in residential buildings; 11) allowing homeless shelters and group housing in residential districts; 12) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; and 13) allowing administrative review of reasonable accommodations; and amending the Zoning Map to create the Priority Equity Geographies Special Use District.

	The Way It Is	The Way It Would Be
Map Changes		
1	The Housing Element of the General Plan uses maps of High-resourced Areas and Priority Equity Geographies as a basis for several of its goals and policies; however,	An SUD based on the Priority Equity Geographies, excluding areas that overlap with the High-resourced Neighborhoods, would be added to the City's zoning map as a tool to help

	these areas are not map in the planning code or zoning map.	implement the Housing Element's Goals and Policies. (See Exhibit C for the map)
Process		
2	Planning Code Section 317 requires applicants to obtain Conditional Use authorization for the demolition of any housing unit.	Housing demolition outside the Priority Equity Geographies SUD would be exempt from the Conditional Use process if all the following criteria are met: (A) The units to be demolished are not tenant occupied and are without a history of evictions under Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) (<i>aka No-Fault Evictions</i>) within last 5 years. (B) No more than two units that are required to be replaced per subsection (E) below would be removed or demolished. (C) The building proposed for demolition is not an Historic Building as defined in Section 102; (D) The proposed project is adding at least one more unit than would be demolished; and (E) The project complies with the requirements of Section 66300(d) (<i>aka SB 330, replacement relocation and first right-of-refusal</i>) of the California Government Code, as may be amended from time to time, including but not limited to requirements to replace all protected units, and to offer existing occupants of any protected units that are lower income households relocation benefits and a right of first refusal for a comparable unit, as those terms are defined therein.
3	Conditional Use authorization is required for large lot developments (usually 10,000 sq. ft. or greater but lot size varies) in NC and Chinatown Mixed Use Districts	Conditional Use authorization would no longer be needed for large lot developments in these zoning districts.
4	Conditional Use authorization is required to exceed specified heights in RH, RM, RC, Broadway NCD, Van Ness SUD, and Lakeshore Plaza SUD, even if the height map allows for a greater height.	Conditional Use authorization would no longer be required to exceed a specific height in these districts. The height limit for that lot would control the allowable building height.
5	A hearing before the Planning Commission is required for State Density Bonus Projects, even though the Planning Commission's discretion is incredibly limited when it comes to denying any requested waivers, incentives, or concessions. In addition, if the project is code-complying, the Planning Commission's ability to	State Density Bonus projects would no longer require a hearing before the Planning Commissions regardless of any underlying entitlement (Conditional Use or Large Project Authorizations, for example).

	deny or reduce the density of the project is also incredibly limited by State law.	
6	The Code permits one unit in RH-1 Districts, 2 units in RH-2 Districts, and 3 units in RH-3 Districts. If you have a larger lot, you can build more units based on the lot area, but you must obtain Conditional Use authorization from the Planning Commission to do so.	The Conditional Use requirement to allow more units on larger lots in RH Districts would be removed.
7	For Senior Housing to qualify for double the permitted density, it must be located within ¼ mile of a mid-sized Neighborhood Commercial District (NC-2), RC District or higher density district or obtain Conditional Use authorization.	All senior housing would be eligible for double the density without Conditional Use authorization and regardless of location.
8	The Zoning Administrator may administratively approve a specific list of reasonable accommodations, such as the addition of a ramp, elevator, etc. beyond what the Planning Code would allow.	The Zoning Administrator would be able to approve all reasonable accommodation requests administratively.
9	The Planning Code Section 311 requires the Department to notify neighbors within 150' of new construction or expansion projects in any Residential, NC, NCT, and Eastern Neighborhoods Mixed Use Districts.	New construction or expansion projects located outside of the Priority Equity Geographies SUD would not require neighborhood notice under Planning Code Section 311.
Building and Zoning Standards		
10	The Planning Code requires a 30% rear yard for single-family districts, and a 45%-25% rear yard in RH-2, RH-3, RM-1, and RM-2 Zoning Districts. All other zoning districts have a 25% rear yard requirement.	The rear yard requirement in all RH Districts, RM-1 and RM-2 Districts would be 30%. All other zoning districts would have a required 25% rear yard.
11	The Planning Code requires applicants to average the front setback of the adjoining neighbors but limits the setback to a maximum of 15'.	Applicants would be able to match the shortest front setback of their adjoining neighbors instead of averaging and the maximum front setback would be 10'.
12	The Planning Code establishes a minimum lot frontage of 25' in most districts, and 33' in detached single-family districts (e.g., St. Francis Wood).	The minimum lot frontage would be 20' for all zoning districts.
13	The Planning Code establishes a minimum lot area of 2,500 sq. ft. in most districts, and 4,000 sq. ft. in detached single-family districts.	The minimum lot area would be 1,200 sq. ft for all zoning districts.
14	Only corner lots in Neighborhood Commercial Districts may locate their required rear yard at the inside corner of the lot. This allows someone to build along both the front and side street-facing property lines or "wrap the lot" with a building.	All corner lots would be able to locate their required rear yard at the inside corner of the lot.
15	Through lots (lots with frontage on two streets) are permitted to have a building fronting each street only if	All through lots would be allowed to have buildings fronting each street regardless of

	one of its adjacent lots also has a building fronting each street.	what is on the adjacent lots. The rear yard in this case would be in the middle of the lot.
16	Private open space for decks, balconies, porches, and roofs must be at least 36 sq. ft. and have a minimum horizontal dimension of six feet.	Minimum dimensions for decks, balconies, and porches would be 27 sq. ft. and have a minimum horizontal dimension of three feet.
17	An interior courtyard must provide setbacks at every level (the “inverted ziggurat”) to qualify for exposure and open space requirements.	This ordinance removes the required setbacks (the “inverted ziggurat”) but maintains existing dimensional requirements.
18	Ground floors must have a certain percentage of active uses. For residential buildings an active use includes fitness rooms and community rooms.	The list of what is considered an “active use” in a residential building would be expanded to include laundry, lobby, mail room, and bike room.
19	Homeless Shelters are restricted in our low-density, and industrial neighborhoods.	Homeless shelters would be principally permitted in all zoning districts.
20	Group Housing is prohibited in single-family neighborhoods.	Group Housing would be permitted in single-family neighborhoods via the Four-plex program, which prohibits the use of the State Density Bonus program.
21	To take advantage of the Four-plex Program, the applicant must have owned the property for at least one year.	The one-year ownership requirement would no longer apply.
22	Home-based businesses are prohibited from employing anyone that does not reside in the unit.	Up to two employees for home-based businesses that don’t live in the unit would be allowed.
23	The Codes’ current definition of a Dwelling Unit is not consistent with the State’s Health and Safety Code.	To bring the definitions in line with State law the definition for Dwelling Unit would be amended to include the following “A Dwelling Unit shall also include “employee housing” when providing accommodations for six or fewer employees, as provided in State Health and Safety Code §17021.5”
Expand Affordable Housing Incentives		
24	Only 100% affordable housing projects with units up to 80% AMI that are subsidized by specific city or regional agencies are eligible to receive a fee waiver.	Any 100% affordable housing project, regardless of the funding source, with units up to 120% AMI would be eligible to receive the fee waiver.

25	100% affordable housing projects can receive a fee waiver unless the project is using the State Density Bonus program.	100% affordable State Density Bonus project would be eligible for the fee waiver.
26	The Planning Code prohibits projects from using HOME SF if the project removes any dwelling unit.	This ordinance would allow projects to remove one dwelling unit and still qualify for HOME SF. The three Rs (Relocation, Replacement, and first Right of Refusal) would be required if a dwelling unit is removed.
27	HOME SF includes CEQA impacts in its eligibility criteria.	CEQA impacts would be removed as eligibility criteria; however, CEQA analysis would still occur as would any resulting mitigations.

Background

Housing Element Adoption

San Francisco recently adopted the Housing Element 2022 Update (2022 Update). The 2022 Update is San Francisco's first housing plan that is centered on racial and social equity. It includes policies and programs that express our city's collective vision and values for the future of housing in San Francisco. The 2022 Update articulates San Francisco's commitment to recognizing housing as a right, increasing housing affordability for low-income households and communities of color, opening small and mid-rise multifamily buildings across all neighborhoods, and connecting housing to neighborhood services like transportation, education, and economic opportunity.

The drafting of 2022 Update relied extensively on outreach and engagement to communities historically underrepresented including low-income communities of color and vulnerable groups. Three phases of outreach and engagement, over the course of two years, inform the 2022 Update. For the first time at this scale, the Department funded and supported focus groups led or co-hosted by community-based organizations representing American Indian, Black, Latino, Chinese, Japanese, Filipino, low- and moderate-income households, seniors, people with disabilities, LGBTQ+ and transgender, and homeless advocates. Outreach and engagement also included housing policy experts, advocates, affordable housing developers, labor organizations, architects, and developers.

Housing Element Implementation

If the housing element is the constitution on which future development in San Francisco is based, the Planning Code is how the City implements that vision. There are several efforts underway to implement the Housing Element, this ordinance being one of them. Others include the Department's effort to rezoning areas primarily in the Well-resourced Neighborhoods to meet the goals and policies in the Housing Element. This is necessary for the City to meet our state-mandated goal of constructing 82,00 housing units within the next eight years. That effort is scheduled to be completed by the end of this year or early next year. Supervisor Melgar also introduced an ordinance, which would remove several process requirements for housing development within the Well-

Resourced Neighborhoods. While not directly tied to the Departments housing element implementation efforts, it is taking its cues from the goals and policies set out in the Housing Element¹.

This ordinance is rooted in several policies from the Housing Element that direct the City to remove obstacles hindering housing construction, particularly when such requirements are based on subjective criteria. Many of the implementing programs for these policies come with specified implementation deadlines, typically set for January 31, 2025, although some have earlier dates. For instance, implementing program 8.4.5 calls for the elimination of Commission hearings on code-complying projects in the Well-Resourced Neighborhoods, subject to the Housing Accountability Act, by July 31, 2023. This ordinance plays a pivotal role in advancing the City's commitment to fulfill its obligations under the Housing Element by directly incorporating numerous Housing Element policies and implementation programs.

Issues and Considerations

Process Improvements

Housing Demolition Controls

Section 317 is based on a flawed assumption that preserving all existing housing is going to maintain housing affordability, requiring all demolitions, regardless of units being added, obtain conditional use authorization.

Section 317 is based on a flawed assumption that preserving all existing housing is going to maintain housing affordability, requiring all demolitions, regardless of units being added, to obtain conditional use authorization. There are many reasons to discourage the demolition of existing sound housing. This longstanding policy helps maintain affordable units offered through existing housing stock, it retains embodied energy in existing buildings to minimize resource use, and it preserves the neighborhood's aesthetic character; however, current controls fail to recognize that without some housing demolition, it's not possible to add to the City's housing stock and meet increasing demand for housing. Further, while the aesthetic character of the neighborhood may be maintained, the demographic make-up of the neighborhood, which is also a large part of neighborhood character, significantly changes. With fewer homes available, prices increase, and new renters and buyers tend to be wealthier and eventually what was a middle- or working-class neighborhood becomes an enclave for the wealthy. Further, studies have shown that new housing construction in San Francisco lowers rents and reduces the risk of displacement for nearby residents².

The proposed ordinance attempts to reform Section 317 by exempting projects outside of the Priority Equity Geographies SUD from the Conditional Use requirements. Eligible projects must add density and may not demolish a known historic resource. Additionally, projects may only qualify for the Section 317 exemption if they meet specified anti-displacement requirements, including: there cannot be a history of no-fault evictions, tenant buyouts, or owner move-in evictions in the past 5 years, the project cannot displace existing tenants, and the

¹ For a comparison of the Four-Plex Program, The Family Housing Opportunity SUD, SB 9, and this ordinance, please see Exhibit E.

² Pennington, Kate, Does Building New Housing Cause Displacement?: The Supply and Demand Effects of Construction in San Francisco (June 15, 2021.)

project cannot demolish more than two rent-controlled units. Further, any demolished rent-controlled units must be replaced in the new project. These types of exceptions are designed to encourage the redevelopment of lower density properties, such as single-family homes with an Unauthorized Dwelling Unit. Staff estimates that removing the Conditional Use process from these projects would reduce the average processing time by six to nine months. These significant time savings would also reduce permitting and holding costs for the applicants and make housing less expensive to build.

Large Lot Development

...the criteria used by the Department and Commission to evaluate and approve these applications are purely subjective, creating an arbitrary process for housing approval.

The proposed ordinance removes Conditional Use authorization requirements for large lot development in Neighborhood Commercial, Chinatown, and RH Districts. In the Neighborhood Commercial and Chinatown Districts, the Conditional Use requirement is based on the total area of the lot. So, for example in NC-2 Districts lots greater than 10,000 sq. ft. require Conditional Use hearing to develop that lot. This is true even when those lots already exist. To avoid the Conditional Use hearing and develop the lot as-of-right, the lot would need to be subdivided. Further, the criteria used by the Department and Commission to evaluate and approve these applications are purely subjective, creating an arbitrary process for housing approval.

In the case of RH-zoned lots, the Conditional Use requirement for large lot development is triggered when an applicant seeks to add more units than allowed under the base density. For example, in RH-1 districts, with Conditional Use authorization, projects are allowed to have up to one unit per 3,000 square feet of lot area, with no more than three units per lot. However, the additional units obtained from developing a larger lot result in approximately the same or even lower density compared to what is allowed as-of-right. A typical lot in San Francisco is 2,500 sq. ft.; therefore, the actual density allowed with Conditional Use authorization (1 unit per 3,000 sq. ft.) is less dense than what is permitted on a typical lot as of right (1 unit per 2,500 sq. ft.). While the City sees few Conditional Use authorization requests of this nature, removing it will provide more predictability for applicants and reduce the time it takes to process these applications by approximately six to nine months.

These changes are also consistent with Housing Element Implementation Program 8.4.8:

Remove Conditional Use authorizations or other regulatory barriers for lot mergers and lots or proposed densities that exceed conditional use thresholds on housing applications that net two or more housing units, do not demolish existing rent-controlled units, and meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 to facilitate larger and more efficient housing projects by January 31, 2025.

CU for Height

In RH, RM, RC, Broadway NCD, Van Ness SUD, and Lakeshore Plaza SUD applicants must obtain Conditional Use approval to meet the allowable mapped height. Like the CU requirement for large lot developments, these criteria are also subjective. Further, the Conditional Use process only allows applicants to meet the mapped height limit. Removing the Conditional Use requirement in these districts to meet the allow mapped height will provide more predictability for applicants and reduce the time it takes to process these applications by approximately six to nine months.

State Density Bonus Projects

The public hearing requirement creates an expectation among the public that the Planning Commission holds greater authority over these projects than it does. It also slows down the approval process, adding six to nine months to housing projects that provide affordable units above what is required by our local inclusionary program.

A hearing before the Planning Commission is required for State Density Bonus Projects, even though the Planning Commission's discretion is limited when it comes to denying requested waivers, incentives, or concessions. In addition, if the project is code-complying, the Planning Commission's ability to deny or reduce the density of the project is also incredibly limited by state law. The public hearing requirement creates an expectation among the public that the Planning Commission holds greater authority over these projects than it does. It also slows down the approval process, adding six to nine months to housing projects that provide affordable units above what is required by our local inclusionary program. The proposed ordinance would allow the Planning Director to approve concessions or incentives requested as part of the state density bonus program provided that the Planning Commission delegates authority to the director to do so. This delegation authority would need to be approved under a separate resolution and could be removed or modified by the Planning Commission at any time.

Senior Housing

Providing greater housing choice for seniors will allow them to age in place in familiar surroundings and where they may have existing community.

The proposed ordinance would remove the location requirement for Senior Housing to qualify for double the permitted density. Currently, to receive the density bonus, Senior Housing must be located within an RC District or a district with higher density allowances, or within a ¼ mile of an RC or NC-2 District. If located within an RH or RM Districts, Conditional Use is required to obtain double the density. It's not clear if this was done to ensure that there were sufficient goods and services within walking distance of proposed project or to make sure that denser housing was not placed within smaller scale neighborhoods; however, senior housing should be encouraged wherever housing is permitted in San Francisco. Providing greater housing choice for seniors will allow them to age in place in familiar surroundings and where they may have existing community. While not specifically called out as a policy in the housing element this change is consistent with its general direction.

Reasonable Accommodations

The proposed ordinance aims to make all reasonable accommodation requests ministerial. The Zoning Administrator may administratively approve a specific list of reasonable accommodation, such as the addition of a ramp, elevator, etc., beyond what the Planning Code would allow. Reasonable accommodations are intended to comply with the Americans with Disabilities Act by allowing deviations from the Planning Code to meet the accessibility needs of the occupancy. This proposed change is called for in Housing Element Implementation Program 6.3.10, which states "Eliminate the requirement for a hearing for any Reasonable Accommodation requests making all requests administrative in nature, and clearly explain the review process for the public to seek a Reasonable Modification by January 31, 2024."

Neighborhood Notification

The proposed ordinance would eliminate neighborhood notification (311 Notification) for projects outside the Priority Equity Geographies SUD. This notification requires the Department to inform neighbors within 150 feet of code-complying building expansions or significant internal remodels. The one-month notification period allows neighbors to file a Discretionary Review application, which then triggers a Planning Commission hearing. Removing neighborhood notification will not eliminate the ability for neighbors to file a Discretionary Review application, as there are still ways for the public to be informed about projects in their neighborhood including BBNs (Block Book Notifications) and Building Eye. Additionally, construction notices would still be provided to neighbors though the noticing process for certain building permits. The current neighborhood notification period is one month, but Staff also spends a significant time preparing the notification, and coordinating Discretionary Review hearings if such an appeal is filed. Staff estimates that removing this process would speed up approvals for code-complying additions and new construction permits by three to six months, reducing costs for applicants. It also frees up staff time allowing them to process more applications and focus on impactful housing projects.

Development Standards

The proposed ordinance introduces several changes to the Planning Code development standards aimed at improving compliance and streamlining the Code. These changes encompass the standardization of rear yards, lot width, and lot area. Additionally, it relaxes controls regarding open space requirements, building configuration and siting, and permitted elements within residential units. These modifications collectively contribute to making the Planning Code simpler and easier to navigate. This benefits not only the planners who implement the code, but also reduces specific knowledge needed by applicants and members of the public to increase accessibility. This is consistent with Housing Element Implementation Program 8.4.19:

Whenever Planning Code amendments or revisions are proposed, advocate for ensure and promote simpler or an overall reduction of rules that affect housing approvals to reduce the specific or institutional knowledge needed by City staff, applicants, and members of the public to increase accessibility.

Rear Yard

...essentially the planning code is setting a larger rear yard requirement for multi-unit buildings than single-family homes.

Currently the Planning Code allows a 30% rear yard for single-family homes, and a 25-45% rear yard for multifamily homes in RH and RM Districts. The 45% rear yard in RH-2, -3 and RM-1, and -2 districts can be reduced based on the average of the adjacent neighbors of up to 25% of the lot depth; however, essentially the planning code is setting a larger rear yard requirement for multi-unit buildings than single-family homes. This ordinance seeks to rationalize those controls by requiring a 30% rear yard in all our lower density neighborhoods, and a 25% rear yard in all our higher density neighborhoods. Rationalizing and standardizing the rear yard helps provide consistency for applicants and makes it possible to implement the code more efficiently.

Front Setback

Front setbacks offer numerous benefits for both the public realm and building occupants. They contribute to an aesthetically pleasing streetscape by allowing for landscaping, pedestrian amenities, and a sense of openness. Moreover, they enhance livability by providing a distance between buildings and roads, reducing noise pollution, and improving air circulation. Requiring a front setback to align with the existing neighborhood context also helps establish an appealing street wall; however, imposing a large setback reduces the buildable area on a lot. Currently, the Planning Code does not provide relief from rear yard requirements when a front setback is mandated. Additionally, density bonus programs such as the four-plex program do not exempt front setback requirements when aiming for increased density.

The proposed change seeks to address this issue while still ensuring that new buildings respond to the existing context. It would amend the front setback requirements by allowing applicants to match the shortest adjacent front setback. Furthermore, it amends the controls so that the maximum front setback becomes 10 feet instead of 15 feet. While averaging the two adjacent front setbacks can facilitate a more gradual transition between buildings, this may not apply in cases where the two setbacks differ significantly. For example, if one adjacent property is at the front of the lot and the other is at the rear. Such a setback not only diminishes development potential but also fails to achieve the desired gradual transition through averaging.

Lot Width and Area

The proposed ordinance would reduce the minimum lot width from 25' to 20' and the minimum lot area from 2,500 sq. ft. to 1,200 sq. ft. The proposed minimum lot area is consistent with SB9, which allows lot subdivision in single-family zoning districts so long as the resulting lot is 1,200 sq. ft. The Hosing Element also calls for reducing the minimum lot size to 1,200 sq. ft. and the minimum lot width to 20' when the lot subdivision results in an additional unit. The proposed ordinance does not include such a qualifier; however, it's hard to imagine a situation where a property would be subdivided and not result in an additional unit.

Corner Lots and Through Lots

This approach maximizes land utilization, allowing property owners to make efficient use of available space.

The Planning Code currently permits corner properties in NC Districts to wrap the lot with a building and place the required rear yard on the interior corner of the lot. The proposed change aims to extend this building configuration to most zoning districts, offering numerous benefits. This approach maximizes land utilization, allowing property owners to make efficient use of available space. It also creates a consistent street wall, enhancing the visual appeal and cohesiveness of the streetscape while promoting order and aesthetic harmony. Additionally, it enhances the midblock open space as the rear yard, located in the inner corner of the lot, becomes more connected to the surrounding open space, facilitating increased light and air circulation for adjacent properties.

Similarly, the Planning Code permits buildings on both street-facing lot lines for through lots, but only if there is an established pattern on the street. This pattern is commonly found in many older parts of the city where through lots are prevalent. Allowing this configuration also offers several benefits. Like wrapping the lot, it maximizes land utilization, enabling property owners to efficiently use their available space. Developing housing in the rear yard setback of a typical lot requires a dedicated means of access through the front building; however,

on a through lot, the alleyway or street at the rear provides convenient and direct access to the rear building, reducing conflicts between the front and rear residences.

Open Space

Private balconies provide additional outdoor living space for residents, allowing them to enjoy fresh air, sunlight, and views without leaving their homes. This enhances the quality of life for occupants, providing a private outdoor retreat within a dense urban environment.

The proposed ordinance simplifies compliance with usable open space requirements by making two significant changes. First it rationalizes the open space requirement dimensions for balconies so that the depth and area are consistent with what the Code allows for a front or rear setback permitted obstruction. The Code permits square bay windows and balconies to project within the required front or rear setback or over the public right-of-way. These projections from the façade cannot be more than 3' in depth and no more than 6' wide; however, the Code does not allow a balcony that is less than 6' in depth and 36 sq. ft. in area to count toward the open space requirements. This results in most open space requirements being fulfilled by common open space typically on the roof. While rooftop decks have their benefits, they tend to be a shared resource. Private balconies provide additional outdoor living space for residents, allowing them to enjoy fresh air, sunlight, and views without leaving their homes. This enhances the quality of life for occupants, providing a private outdoor retreat within a dense urban environment. Encouraging balconies like this also can enhance the overall aesthetics of a building, adding visual interest and architectural diversity to the façade. They can contribute to the character of a neighborhood and create a more attractive streetscape.

Figure 2: Example of Single-Point Access Block

Figure 1: Example of a Double-Loaded Corridor

In the coming years, the state may also adopt single-point access building standards and balconies are often provided as a second means of egress in this building typology³. A single point access block refers to a building or structure that features a single designated entry or access point for residents or occupants. This type of construction is common in Europe, typically used on mid-sized apartment buildings of six stories or less. A typical building requires two means of egress resulting in double loaded corridors. The corridor occupies

³ Twu, Alfred. "Housing Architecture in California: The Single Stair Conundrum," San Francisco Chronicle, Opinion, (Accessed June 14, 2023), <https://www.sfchronicle.com/opinion/openforum/article/housing-architecture-california-single-stair-17774317.php>.

valuable space within the building, reducing the available area for unit layouts. As a result, unit configurations are often restricted to linear arrangements along the corridor, limiting options for alternative floor plans or room layouts. Double loaded corridors also prohibit cross ventilation. Single-point access blocks typically result in more livable units with cross ventilation and more varied unit sizes. In-unit balconies can aid in this building typology's feasibility.

Figure 3: Planning Code Diagram for "Inverted Ziggurat" requirement

This provision is one of the most common concessions or variances requested by applicants because it is very difficult to comply with and takes away valuable space that could otherwise be used for additional units. In fact, few, if any, major projects in the past few years have been able to comply with this provision.

The other change that the ordinance makes to the open space requirements is the removal of what is referred to as the inverted ziggurat requirement for inner courts. The inverted ziggurat requires an internal courtyard to be 20' by 20' and provide setbacks at the upper floors based on a 45-degree plane. A similar requirement is used for exposure requirements and is also proposed for deletion. This provision is one of the most common concessions or variances requested by applicants because it is very difficult to comply with and takes away valuable space that could otherwise be used for additional units. In fact, few, if any, major projects in the past few years have been able to comply with this provision. Additionally, the requirement often does not provide the anticipated sun exposure because San Francisco's street grid does not align exactly with cardinal directions.

Ground Floor Uses

With some exceptions provided for garage entrances and mechanical equipment, the first 25' of the ground floor of a residential building must have an active use in Neighborhood Commercial Districts, Commercial Districts, Residential-Commercial Districts, and Mixed-Use Districts. On the ground floor residential uses are considered active only if more than 50 percent of the street frontage features walk-up dwelling units that provide direct, individual pedestrian access to a public sidewalk, and are consistent with the Ground Floor Residential Design Guidelines. Spaces accessory to residential uses, such as fitness or community rooms, are considered active uses only if they have access directly to the public sidewalk or street. The proposed ordinance would amend this accessory use provision to also include laundry, lobby, mail room, and bike room so long as they face the street. This change is intended to provide more flexibility for applicants to meet this requirement.

Other Zoning Changes

The proposed ordinance also proposes amending specific controls and definition in the code. Most of these changes are called for in the Housing Element. The following is a brief explanation of the remaining changes.

Homeless Shelters: The ordinance would make Homeless Shelters permitted in all zoning districts. This amendment is based on Housing Element Implementation Program 8.6.3, which states: “Make shelters, transitional housing, or crisis interventions (such as Safe Sleeping Sites) principally permitted in all zoning districts, regardless of the declaration of a shelter crisis.”

Group Housing: The ordinance would permit Group Housing in RH-1 zoning districts via the four-plex program and remove the conditional use requirement for Group Housing in RH-2 and RH-3 zoning districts. Current Group Housing is principally permitted in all zoning districts where housing is allowed except for RH zoning districts. This amendment is based on the Housing Element Implementation Program 7.2.6 that states in part: “...Permit group housing broadly throughout the city, particularly in zones allowing single-family uses, increase group housing density permitted in these districts, and remove Conditional Use Authorizations or other entitlement barriers to group housing.”

Home Based Businesses: Currently home-based businesses are prohibited from employing anyone that does not reside in the unit unless it’s a Cottage Food Operation, which allows up to one employee not a resident in the unit. This ordinance would allow up to two employees for home-based businesses. This change is based on Housing Element Implementation Program 4.3.7 of the Housing element: “Change regulations and definitions in current Planning code to improve flexibility on allowing home-based businesses and work from home in residential districts, for example, create an accessory entrepreneurial use that allows up to two employees.”

Dwelling Unit Definition: The proposed change would add language to the definition of a housing unit to include employee housing when providing accommodation for six or fewer employees. This change is called for in Housing Element Implementation Program 7.2.6: “Modify the definition of “dwelling unit” to comply with Health and Safety Code 17021.5...”

Expand Affordable Housing Incentives

Developing housing, especially affordable housing in San Francisco is very expensive. Waiving fees for all 100% affordable housing projects with maximum AMI of 120%, regardless of where their funding comes from will help further the City’s goal of increasing affordable housing production.

The proposed ordinance makes several code changes to make it easier to build affordable housing. These changes include expanding what types of projects can receive a fee waiver, expanding the eligibility for Home SF and removing restrict eligibility requirements. Currently, only projects that are subsidized by MOHCD, the San Francisco Housing Authority, the Department of Homelessness and Supportive Housing, or the Office of Community Investment and Infrastructure are eligible for a fee waiver. This excludes 100% affordable housing projects that are built by non-profit housing developers that do not take money from any of the listed agencies. It also specifies that the top AMI for subsidized units is 80%, further limiting which affordable housing projects qualify for this fee waiver. Developing housing, especially affordable housing in San Francisco is very expensive. Waiving fees for all 100% affordable housing projects with maximum AMI of 120%, regardless of where their

funding comes from will help further the City's goal of increasing affordable housing production. Further this change is specifically called out in Housing Element Implementation Program 8.6.1.

Expand the Impact Fee exemption to a broader range of permanently affordable housing projects including those with units affordable up to 120 percent of Area Median Income or projects that rely on philanthropic capital.

Removing these criteria will not exempt projects from CEQA review but will expedite staff's ability to determine eligibility and eliminate this paradox.

The ordinance also eliminates two eligibility criteria for HOME SF, our local density bonus program. The first set of eligibility criteria pertains to CEQA impacts, including impacts on historic resources, shadow impacts, and wind impacts. The ordinance seeks to remove these criteria as eligibility factors; however, projects would still undergo CEQA review for these impacts. The reason for their removal is that these criteria make it challenging for staff to determine a project's eligibility for HOME SF within the required 30-day period mandated by state law. Wind and shadow analysis, as well as assessing impacts on historic resources, typically take several months as part of the CEQA review process. This creates a chicken and egg situation where we need to determine if a project is eligible before we start processing the proposal, but we need to start processing the proposal before we can determine if it is eligible for the program. Removing these criteria will not exempt projects from CEQA review but will expedite staff's ability to determine eligibility and eliminate this paradox.

Furthermore, the proposed ordinance eliminates the requirement that deems projects ineligible for HOMESF if any housing units are demolished. Instead, one unit could be removed, and the project would still be eligible for HOMESF. While minimizing displacement is crucial during new housing development, displacement cannot be completely avoided if we are going to develop underdeveloped lots. There are instances where neighborhood commercial corridors have small-scale buildings with retail space on the ground floor and a unit above. These buildings present opportunities for redevelopment and could potentially offer more housing under current zoning rules; however, they are currently prohibited from utilizing our local density bonus program, although the State Density Bonus program allows for it. Removing this prohibition and allowing the removal of one unit would be a minor adjustment to the program that would reduce displacement while expanding the number of properties eligible for HOME SF.

General Plan Compliance

The proposed ordinance was drafted specifically to implement several of the Housing Element's Implementation Programs.

Looking at the proposed changes in total, the Department finds that, on balance, the proposed ordinance is consistent with the General Plan. The proposed ordinance was drafted specifically to implement several of the Housing Element's Implementation Programs. Some of these changes are called about above. These include allowing reasonable accommodations, removing CU requirements to achieve greater height, and allowing more projects to qualify for fee waivers are clearly called for in the Housing Element. Regarding other changes, such as those for neighborhood notice and Section 317, the ordinance proposes a more proactive approach than what is called for in the Housing Element.

For example, for Section 311 changes, the Ordinance would eliminate neighborhood notification entirely outside of the Priority Equity Geographies. The Housing element also calls for the elimination of Neighborhood Notice but Housing Element Implementation Program 8.4 states:

Remove neighborhood notification requirements for projects outside of Priority Equity Geographies that are code complying, net at least one housing unit, and only expand the rear or side of an existing building and for all non-discretionary ministerial projects.

The difference between the Mayor's proposal and what the Housing Element outlines is that the Housing Element requires the addition of a unit to avoid Section 311 notification, and vertical additions are not exempt from 311 notification.

For Section 317 Notification, Housing Element Implementation Program 8.4.9 states the following:

Remove Conditional Use Authorization requirement for demolition of single-family or multi-unit buildings that (1) are not tenant occupied and without history of tenant evictions, recent buyouts, no-fault, Ellis, or OMI Evictions; (2) net two or more housing units in the case of projects that construct less than 4 units or that net an increase of at least 50% in the number of existing units for projects that construct 4 or more units, (3) do not demolish existing rent-controlled units, and (4) meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 by January 31, 2025. Continue to apply Conditional Use requirements to demolition of tenant occupied buildings...

The Mayor's ordinance is in line with this policy as it relaxes the rules for residential demolition. It protects tenants by not exempting tenant-occupied housing or properties where there has been a no-fault eviction from Conditional Use requirements, and it requires the three Rs of AB 330; however, the Mayor's ordinance does allow for the demolition of up to two rent-controlled units and only requires one additional unit for the project to qualify for the exemption. It also makes these changes to Section 317 only outside the priority geographies SUD, whereas the Housing Element appears to call for these changes citywide.

Racial and Social Equity Analysis

The proposed ordinance is a crucial step towards advancing race and social equity in San Francisco. It aligns with the City's Housing Element, which focuses on eliminating exclusionary planning rules that perpetuate racial and social segregation. By removing prohibitions on homeless shelters and group housing in single-family neighborhoods and reducing minimum lot size requirements, the ordinance dismantles barriers that have historically prevented equitable access to housing. This change promotes inclusivity and fosters a more integrated and diverse city.

Moreover, the ordinance contributes to the goal of creating housing opportunities in well-resourced neighborhoods by streamlining the construction process. By eliminating constraints such as conditional use authorization for demolition and neighborhood notification for building additions or new construction, the ordinance expedites housing development and ensures quicker planning approval. This facilitates increased housing supply in historically exclusive areas, enabling more people, especially marginalized communities, to access neighborhoods that were previously inaccessible to them.

Additionally, the proposed ordinance acknowledges the importance of maintaining existing processes for neighborhood notification and demolition within Priority Equity Geographies, while recognizing the need for further evaluation and improvement. It emphasizes the necessity of empowering American Indian, Black, and other communities of color within these neighborhoods, enabling them to play an active role in driving positive change and shaping their communities.

Lastly, the ordinance advances race and social equity by simplifying Planning Code requirements. Complex codes often create barriers that exclude or discourage community participation, as they demand technical expertise or legal knowledge. By simplifying language and streamlining requirements, the ordinance establishes a more accessible framework for residents to engage in the planning process. This inclusivity ensures that a broader range of people can actively contribute to decision-making, leading to more equitable outcomes for all residents.

Implementation

The Department believes that this Ordinance will impact our current implementation procedures by reducing the time it takes to process building permit applications and new housing projects. Staff estimates that removing 311 Notification will speed up the process for additions and new construction permits by three to six months. Removing the Conditional Use process for the identified project types and the hearing requirement for State Density Bonus projects will reduce processing time by six to nine months. The amendments that standardize and rationalize the Planning Code's building standards will also make Planning Code implementation more straightforward and efficient.

Recommendation

The Department recommends that the Commission *approve* the proposed Ordinance and adopt the attached Draft Resolution to that effect.

Basis for Recommendation

The Department supports the goals of this ordinance because it will implement several recently adopted Housing Element Policies and Implementation Programs and it aims to streamline housing production in San Francisco. These changes will aid the City's efforts to build 82,000 units in the next eight years, as mandated by state law. By removing arbitrary processes for height and lot development, the proposed ordinance will not only save time but also bring predictability to the planning process. The amendments to Section 317 refresh an outdated process based on subjective criteria and establish a standard for the types of housing projects that we want to encourage. The removal of 311 neighborhood notice requirements provides applicants with code-compliant projects greater predictability by reducing processing time and the subjective nature of the Discretionary Review process. These changes also free up staff time to focus on more impactful housing projects. The standardization and rationalization of the Planning Code's building standards also help streamline the review process and provide more flexibility to applicants in meeting code requirements. A simplified Planning Code also makes it easier for more people to participate in the planning process. Overall, the proposed ordinance will significantly reduce the time required for housing permits to navigate through the planning process.

Importantly, the ordinance also establishes the Priority Equity Geographies Specific Use District (SUD). This SUD maintains existing neighborhood notification and dwelling unit demolition controls. It can also be utilized in the future to implement zoning changes tailored to serve the specific needs of the communities residing in those areas. This approach prioritizes programs that stabilize communities and meet community needs.

Required Commission Action

The proposed Ordinance is before the Commission so that it may approve it, reject it, or approve it with modifications.

Environmental Review

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Public Comment

As of the date of this report, the Planning Department has not received any public comment in support or opposition to the proposed ordinance; however, the Department has received several inquiries about the proposed ordinance and requests to continue the ordinance from its June 15 hearing date. The item has since been continued to June 29, and this case report is being published two weeks in advance of that date to allow more time for the community to digest its contents. The Department also sent out a one-page fact sheet to our neighborhood groups lists, which is attached as Exhibit D. The Department is also in the process of conducting outreach meetings related to Housing Element implementation. As part of those meetings, Staff will also be highlighting the changes proposed under this ordinance and Supervisor Melgar's proposed Family Housing Opportunity SUD.

HOUSING FOR ALL LEGISLATION: SIMPLIFYING HOUSING APPROVALS

Mayor London Breed and Supervisors Joel Engardio and Matt Dorsey have introduced legislation (File #230446) to allow for faster and more straightforward housing approvals. The legislation will eliminate unnecessary processes, standardize zoning requirements to make them more consistent and predictable, and boost incentives for new affordable housing.

This proposal is part of the Mayor's [Housing for All](#) Plan, which is the City's effort to make San Francisco a more affordable place for people to call home. The plan allows for 82,000 new homes to be built over the next eight years, of which, over half are slated to be affordable. This legislation follows through on commitments made in the City's Housing Element, which was unanimously approved by the Board of Supervisors in January. This legislation is a critical step towards enacting the Housing Element's ambitious housing goals and meeting the City's obligations under state law.

Overview

This legislation focuses on three key areas:

- 1 **Eliminate unnecessary hearings** for projects that comply with existing local or State standards. By eliminating unnecessary process, this legislation will provide greater certainty and reduce approval timelines for code compliant housing projects by **3 to 9 months or more**. It would also save at least **300 hours** of Planning Department staff time per month, which can be re-focused to support the Department's core permitting and long-range planning functions.
 - **Development on large lots.** Eliminate Conditional Use hearings ("CU") for construction on larger parcels, making it easier to build more homes where they are already allowed.
 - **Height.** Eliminate CU hearings for height in districts where hearings are currently required. Importantly, this change would not alter existing height limits but instead would eliminate unnecessary process for projects that comply with those limits.
 - **Accommodation for disabilities.** Eliminate Zoning Administrator hearings for reasonable accommodations under the Americans with Disabilities Act and instead allow administrative review.
 - **Demolitions and Increased Density.** Eliminate CU for projects that add housing units but would demolish existing vacant, non-historic single-family or two unit building that has not had a no-fault eviction in the past 5 years. These CU's would only be eliminated outside of the City's Equity Geographies.
 - **Neighbor-vs-neighbor hearings.** Eliminate mailed notification for code-compliant housing projects to minimize "Discretionary Review Hearings", which currently require the Planning Commission to resolve intra-neighbor disagreements over projects that comply with the City's development standards. Mailed notice – and an appeal opportunity - will still be provided to potentially affected neighbors through the existing building permit process.
 - **State Density Bonus hearings.** Eliminate purposeless hearings for projects using the State Density Bonus given that State law prevents the Planning Commission from denying or modifying a State Density Bonus project.

2 Ease out-dated zoning requirements and geographic restrictions that limit the form and location of new housing.

- **Senior housing.** Eliminate CU for senior housing that is located more than ¼ mile from a Neighborhood Commercial District, expanding opportunities for senior housing citywide.
- **Shelters.** Allow homeless shelters in low-density and industrial neighborhoods, consistent with the City’s current shelter policies and State requirements that shelters be allowed Citywide.
- **Group housing.** Without changing height or bulk limits, allow group housing in single-family zoning districts so long as projects do not use the State Density Bonus.
- **Home-based businesses.** Allow up to two employees at home-based businesses who do not also live in the home. For example, a person running an accountancy or caterer out of their home would be able to employ two outside employees.
- **Open space.** Ease arbitrary square footage requirements for balconies and inner courtyards while preserving basic open space requirements.
- **Ground floor uses.** Specify that the City’s requirement for ground floor “active uses” includes laundry, lobby, mail, and bike rooms, to provide the flexibility to accommodate necessary amenities and reduce residential building construction costs.

3 Expand incentives to enhance the City’s affordable housing supply.

- **Remove restrictions on HOME-SF.** Bolster San Francisco’s local density bonus program by eliminating restrictive eligibility criteria to make the program more competitive with the State Density Bonus program.
- **Impact fees for affordable housing.** Allow a fee waiver for all affordable housing projects that use the State Density Bonus, including workforce housing projects, to encourage more projects and better recognize the importance of affordable housing.

Next Steps

This legislation will be reviewed by the **Planning Commission at a public hearing on June 15, 2023**, where public comment is welcome in-person and via phone and videoconference. Hearing details will be available at sfplanning.org no later than June 9.

Exhibit E

	SB 9		Four-Plex Program	Proposed Family Housing Opportunity SUD		Proposed Constraints Reduction Ordinance
	Lot Split	No Lot Split		Lot Merger Development	Single Lot Development	
Where it applies	RH-1, RH-1(D), & RH-1(S)		ALL RH Districts	All RH-1 Districts within the Family Housing Opportunity SUD	All RH Districts and RM-1 Districts within the Family Housing Opportunity SUD	Exemptions to Section 317 and 311 only apply outside of the Priority Equity Geographies. All other changes are proposed city-wide or specified districts
Allowed Density	2 units on each new lot + ADUs if allowed by local Ordinance	2 units + ADUs	4 units on interior lots/ 6 units on corner lots	A merger of up to three lots and the construction of at least six units but no more than eight units on a two-lot merger or at least nine units but no more than a single lot, or up to one unit per 12 dwelling units on a three-lot merger.	The construction, including the alteration of an existing structure, of at least two and no more than four dwelling units on a single lot, or up to one unit per 1,000 square feet of lot area, whichever is greater (inclusive of any existing dwelling units on the site). Up to one unit may be detached in the rear yard.	N/A, does not amend density.
Group Housing	N/A	N/A	N/A	A Single-Lot project and a Lot-Merger project may also propose the construction of up to one Group Housing bedroom per 415 square feet of lot area or currently permitted under the Planning Code, whichever is greater.		Permits Group Housing as part of the Fourplex program in RH-1 zoning Districts, and removes the CU requirement in RH-2 and RH-3 Districts
Height	Existing Height Limit	Existing Height Limit	Existing Height Limit		Maximum 40' in height and 20' for units in the required rear yard.	N/A, does not change existing height limits
Minimum Lot Size	1,200 sq. ft. for each new lot (2,400 sq. ft. total) and at minimum 40% and 60% of original lot size	No minimum lot size required	Standard Lots Size (2,500 sq. ft.)	N/A	Projects proposing a rear yard unit must be at least 2,400 sf	Changes minimum lot size to 1,200 sq. ft. and lot with to 20' city-wide
Open Space Requirement	Existing Code Requirement	Existing Code Requirement			For Lot Merger projects and Single-Lot projects proposing a rear yard unit: Open space requirements for each unit on the property shall be at least 100 square feet for private, and 133 square feet if common	The ordinance does not alter open space requirements; however, it does amend the minimum dimension requirements for open spaces to enhance compliance feasibility
Owner Occupancy Requirement	Owner must sign a statement of intent to occupy the property 3 years post lot split approval.	No owner occupancy requirement either before or after project submittal.	Applicant must have owned the property for at least one year	Applicant must have owned property for at least one year		Proposes to remove the owner occupancy requirement in the Fourplex program.
Required Rear Yard Setback	Existing Code requires a 4-foot setback; however any Code standard can be waived if they prohibit construction of two, 800 sqft units.		30% for projects providing at least 4 dwelling units, or 15ft (whichever is greater)	30% but not less than 15 feet	30% but not less than 15 feet, 25 feet of separation between buildings when proposing a detached rear yard unit	30% in all RH Districts and in RM-1 and RM-2 Districts. All other zoning districts would be 25%.
Unit Proportionality	For units within the same building, the second unit must be at least 800 sqft		At least one of the dwelling units resulting from the density exception shall have two or more bedrooms or shall have a square footage equal to no less than 1/3 of the floor area of the largest unit on the lot.	None		N/A
Increase Density	Must net at least one new unit.			Requires at least six units for a two-lot merger and at least nine units for a three-lot merger	Must add at least one unit	To be eligible for 317 exemptions, the project must net at least one unit.

Eligibility		1) Has not been tenant occupied for at least 3 years prior to filing the application (could be owner occupied or vacant)	2) Will not demolish a rent-controlled unit, or a unit with an Ellis Act eviction within the last 15 years	3) Is not a Historic Resource under Article 10 or in a Historic District	May not also seek or receive a density bonus under Sec. 206.5 or 206.6	To be eligible for the program: 1) Not combined with the State Density Bonus or HOME-SF programs; 2) Not proposed on a property resulting from a lot-split under Senate Bill 9; 3) Contains at least two dwelling units with two or more bedrooms (not applicable to Group Housing); 4) Does not propose the demolition of a known historic building; 5) Complies with Code and applicable design guidelines and strives for consistency with the Residential Design Guidelines (RDGs); 6) Complies with Senate Bill 330 unit replacement requirements for protected units; 7) The project sponsor needs to have owned the property for one year prior to application submittal; and 8) Includes more dwelling units than are existing on the site at the time of application (Group Housing projects need to provide at least as many bedrooms as the project would demolish). 8) No more than two rent controlled units are demolished and units to be demolished are not tenant occupied and have not had a history of evictions (Admin Code 37.9(a)(8-12) or (14-16))for the past 5 years	To be eligible for 317 exemptions: 1) The units to be demolished are not tenant occupied and are without a history of evictions under Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) (aka No-Fault Evictions) within last 5 years. 2) No more than two units that are required to be replaced per subsection (E) below would be removed or demolished. 3) The building proposed for demolition is not an Historic Building as defined in Section 102; 4) The proposed project is adding at least one more unit than would be demolished; and 5) The project complies with the requirements of Section 66300(d) (aka SB 330, replacement relocation and first right-of-refusal) of the California Government Code, as may be amended from time to time, including but not limited to requirements to replace all protected units, and to offer existing occupants of any protected units that are lower income households relocation benefits and a right of first refusal for a comparable unit, as those terms are defined therein.
Rent Control	317	No	No		Applies to units over base density	Applies to units over base density	N/A
		No			Yes	No	No, only if the project meets specific criteria and not located within the Priority Equity Geographies
	311	No			Yes	No	No, only if the project is outside of the Priority Equity Geographies
Design Guidelines		Objective Design Standards			Residential Design Guidelines		Residential Design Guidelines
CEQA Review		No			Yes	Yes	Yes
Condo Conversion		Depends on project			Eligible for condo conversion process if retaining an existing unit(s) and project sponsor resides in one unit for at least 3yrs post construction		N/A

Dear Commissioners:

RE: Constraints Reduction (AKA Housing Production) Ordinance – Letter of Support and Technical Assistance

The California Department of Housing and Community Development (HCD) understands that the Planning Commission will soon hold a public hearing to consider a proposed “Constraints Reduction Ordinance” (Ordinance), as released to the public on June 15, 2023. The purpose of this letter is to express HCD’s support for the Ordinance and provide technical assistance to the City and County of San Francisco (City) in making a decision on this Ordinance.

The Ordinance would amend the Planning Code to remove some constraints to housing production as a step towards implementing the City’s adopted housing element, in compliance with State Housing Element Law.¹ Moreover, the proposed revisions would better align the Planning Code with the goals of State Density Bonus Law² and Affirmatively Furthering Fair Housing (AFFH).³

Background

California’s Statewide Housing Plan calls for the state to act with urgency to address homelessness and housing need.⁴ California needs an additional 2.5 million homes, one million of which must be affordable to lower-income households, over this eight-

² Gov. Code, §§ 65915-65918

³ Gov. Code, § 8899.50

⁴ Department of Housing and Community Development. “A Home for Every Californian: 2022 Statewide Housing Plan Update.” *Statewide Housing Plan*, Mar. 2022, available at <https://statewide-housing-plan-cahcd.hub.arcgis.com/>.

year regional housing needs allocation (RHNA) cycle.⁵ San Francisco's 6th cycle RHNA is 82,069 units.⁶

State Housing Element Law acknowledges that, in order for the private market to adequately address the housing needs and demand of Californians, local governments must adopt plans and regulatory systems that provide opportunities for, and do not unduly constrain, housing development.⁷ HCD is responsible for reviewing the housing elements of all cities and counties in California for compliance with State Housing Element Law.⁸ Once HCD finds an adopted housing element to be in compliance with State Housing Element Law, the jurisdiction must work towards implementing the housing element. If HCD finds that a local jurisdiction has failed to implement a program included in the housing element, HCD may, after informing the local jurisdiction and providing a reasonable time to respond, revoke its finding of compliance until it determines that the jurisdiction has come into compliance.⁹

According to Annual Progress Report data provided by cities and counties, San Francisco has the longest timelines in the state for advancing housing projects to construction. The City also has among the highest housing and construction costs, and HCD's Housing Accountability Unit has received more complaints about San Francisco than any other local jurisdiction in the state. Last year, HCD announced its San Francisco Housing [Policy and Practice Review](#) to assess how the City's processes and political decision-making delay and impede the creation of housing at all income levels – and to provide recommendations to address these barriers. In addition, after providing significant technical assistance to the City, including on the development of robust programs to facilitate housing production at all income levels, on February 1, 2023, HCD found the City's adopted housing element in compliance with State Housing Element Law.

HCD also committed to working with San Francisco to identify and clear roadblocks to construction of all types of housing and has actively engaged with City staff as they have worked towards this goal over the past year through both the Policy and Practice Review and the City's housing element. Approving this ordinance would mark an important first step towards both facilitating the construction of housing and implementing the adopted housing element.

Proposed Ordinance and Housing Element Implementation

HCD's determination that the City's adopted housing element complies with State Housing Element Law was based in substantial part on the City's programmatic commitments to amend the Planning Code in a way that would reduce discretionary and procedural processes, standardize zoning and land use requirements, permit group housing broadly throughout the City, and increase financial feasibility for housing projects. The proposed changes in the Ordinance would fully or partially satisfy some of the housing element's commitments (set forth as Actions) ahead of the timeframes provided in the housing element, including, but not limited to the following:

- Reduce discretionary processes and neighborhood notification requirements for certain code-compliant housing projects (**Action 8.4.17**), including requests for Reasonable Accommodation (**Action 6.3.10**), such as:
 - Allowing all Reasonable Accommodation Requests to be processed without a hearing in front of the Zoning Administrator (Planning Code Section 305.1)
 - Removing neighborhood notification requirements and requests for discretionary review for projects that will demolish, construct, or alter dwelling units outside of the Priority Equity Geographies Special Use District (Planning Code Section 311)
- Remove Conditional Use Authorization (CU) requirements for the following conditions in housing projects (**Actions 8.4.8, 8.4.9, and 8.4.10**):
 - Buildings taller than 40 feet (Planning Code Section 209.1) and 50 feet (Planning Code Sections 132.2 and 209.2)
 - Buildings that previously required CU after a certain height or a setback after a certain height (Planning Code Sections 253-253.3)
 - Residential projects on large lots in all RH zoning districts at densities based on the square footage of the lot (Planning Code Section 209.1)
 - Demolition of residential units meeting certain criteria outside of the Priority Equity Geographies Special Use District (Planning Code Section 317)
- Permit group housing broadly throughout the City and streamlining approvals for group housing projects (**Actions 7.2.6**), including:
 - Modifying the definition of a "dwelling unit" to allow employee housing for up to six employees in alignment with Health and Safety Code section 17021.5 (Planning Code Section 102)
 - Principally permitting group housing in all zoning districts (at one unit per 415 square feet of lot area in all districts other than the RH-1 zoning district, where group housing is allowed subject to the fourplex bonus program controls) (Planning Code Section 209.1)
- Remove Planning Commission hearings for program-compliant State Density Bonus projects (**Action 8.5.2**), including:

- Exempting Individually Requested State Density Bonus projects from other underlying entitlements related to the proposed housing, such as a CU or a Large Project Authorization (Planning Code Section 206.6)
 - Allowing the Planning Director to approve requests for a concession, incentive, waiver, or modification made for an Individually Requested State Density Bonus project (Planning Code Section 206.6)
- Modify the requirements for the HOME-SF program and entitlement process (**Action 7.2.9**), including:
 - Eliminating environmental criteria such as historic resource, shadow, and wind for qualifying HOME-SF projects (Planning Code Section 206.3)
 - Allowing for demolition of up to one unit for HOME-SF projects (Planning Code Section 206.3)
- Standardize and simplify Planning Code requirements for housing developments (**Actions 8.3.3 and 8.4.11**), including:
 - Standardizing the minimum lot size to 1,200 square feet and lot width to 20 feet (Planning Code Section 121)
 - Allowing lot mergers in RTO zoning districts (Planning Code Section 121.7)
 - Ease exposure and open space requirements for inner courts (Planning Code Section 135)
- Increase financial feasibility for affordable housing projects (**Actions 1.3.9 and 8.6.1**), including:
 - Expanding the Impact Fee exemption to a housing project with units affordable up to 120 percent of the Area Median Income (Planning Code Section 406)
 - Allowing 100 percent affordable housing projects utilizing State Density Bonus Law to be eligible for Impact Fee waivers (Planning Code Section 406)

By implementing the above programs, as well as other Planning Code changes put forward in the Ordinance, the City can increase certainty of approval for a wider range of housing projects, thus reducing the risk associated with building housing in San Francisco. The City's adopted housing element acknowledges that this risk translates to higher housing costs, affirming that "regulatory code and permitting processes direct housing to respond to City priorities, and that the overall system can be simplified and more accessible, that community-led strategies support systematic approaches rather than project-by-project decision-making, and that the cumulative effect of complex entitlement and post-entitlement permitting is making the process uncertain and even more expensive."¹⁰ The Ordinance would begin to address various local roadblocks to housing approval and construction.

¹⁰ 2022 Update: San Francisco Housing Element, Page 133, Program 8: *Reducing Constraints on Housing Development, Maintenance, and Improvements*, available at <https://sfhousingelement.org/final-draft-housing-element-2022-update-clean>

A housing element is not a paper exercise – it is an enforceable commitment to the state that a city or county will take specific actions on specific timeframes over an eight-year period. The implementation of actions in the City’s housing element helps ensure compliance with State Housing Element Law, specifically the City’s obligation to “implement program actions included in the housing element...”¹¹ Recommending adoption of this Ordinance would represent an important step towards fulfilling the City’s obligations under State Housing Element Law, and would also further the laudable Goals, Objectives, and Policies around which the City’s housing element is centered.¹²

Conclusion

The State of California is in a housing crisis, and the provision of housing at all income levels is a priority of the highest order. HCD encourages the Planning Commission to recommend adoption of the Ordinance to the Board of Supervisors.

San Francisco’s work does not end here. Additional changes and actions may be necessary for the City to *fully* implement the programs specified in this letter, and further actions will be needed to implement other programs in the City’s housing element. HCD will continue to monitor the City’s progress towards housing element implementation, and to work with the City on addressing findings in the Policy and Practice Review.

HCD appreciates the challenges and various factors the City is considering in these important land use decisions and looks forward to following San Francisco’s progress towards housing element implementation. If you have any questions regarding the content of this letter or would like additional technical assistance regarding housing element implementation, please contact Dori Ganetsos at Dori.Ganetsos@hcd.ca.gov.

Sincerely,

Melinda Coy
Proactive Housing Accountability Chief

SUBJECT: LEGISLATION INTRODUCED

The Board of Supervisors' Land Use and Transportation Committee has received the following proposed legislation, introduced by Mayor Breed on June 6, 2023.

File No. 230446-2

Ordinance amending the Planning Code to encourage housing production by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

NOTICE IS HEREBY GIVEN THAT the Board of Supervisors of the City and County of San Francisco will hold a public hearing to consider the following proposal and said public hearing will be held as follows, at which time all interested parties may attend and be heard. File No. 230446. Ordinance amending the Planning Code to encourage housing production by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; affirming the Planning Department's determination under the California Environmental Quality Act; and making

public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1. Location: IN-PERSON MEETING INFORMATION Legislative Chamber, Room 250, located at City Hall 1 Dr. Carlton B. Goodlett Place, San Francisco, CA REMOTE ACCESS Watch: www.sfgovtv.org Public Comment Call-In: <https://sfbos.org/remotemeeting-call> In accordance with Administrative Code, Section 67.7-1, persons who are unable to attend the hearing on this matter may submit written comments prior to the time the hearing begins. Written comments will be made as part of the official public record in this matter and shall be brought to the attention of the Board of Supervisors. Written comments should be addressed to Angela Calvillo, Clerk of the Board, City Hall, 1 Dr. Carlton B. Goodlett Place, Room 244, San Francisco, CA, 94102 or sent via email (board.of.supervisors@sfgov.org). Information relating to this matter is available with the Office of the Clerk of the Board or the Board of Supervisors' Legislative Research Center (<https://sfbos.org/legislative-research-center-irc>). Agenda information relating to this matter will be available for public review on Friday, September 15, 2023. For any questions about this hearing, please contact the Assistant Clerk for the Land Use and Transportation Committee: Erica Major (Erica.Major@sfgov.org) - (415) 554-4441

MYRNA MELGAR

DATE: November 29, 2023

TO: Angela Calvillo
Clerk of the Board of Supervisors

FROM: Supervisor Myrna Melgar, Chair, Land Use and Transportation Committee

RE: Land Use and Transportation Committee
COMMITTEE REPORTS

Pursuant to Board Rule 4.20, as Chair of the Land Use and Transportation Committee, I have deemed the following matters are of an urgent nature and request them be considered by the full Board on Tuesday, December 5, 2023, as Committee Reports:

- | | |
|------------------------|--|
| File No. 230701 | Planning Code - Citywide Expansion of Allowable Commercial, Restaurant, and Retail Uses
Sponsors: Mayor; Engardio, Dorsey, Melgar, Stefani and Mandelman |
| File No. 230768 | Public Works Code - Authorizing and Permitting Neighborhood Amenities
Sponsors: Melgar; Stefani, Mandelman, Ronen, Engardio and Chan |
| File No. 231091 | Initiating Landmark Designation - Gregangelo & Velocity Art & Entertainment - 225 San Leandro Way
Sponsor: Melgar |
| File No. 230948 | Commemorative Street Name Designation - "Panos Place" - 100-200 Block of Corbett Avenue
Sponsor: Mandelman |
| File No. 231142 | Planning and Subdivision Codes, Zoning Map - Housing Production
Sponsors: Mayor; Engardio |
| File No. 231175 | Urging the City Attorney and the Mayor to Respond to HCD's "Policy and Practice Review" by Seeking Extensions of Deadlines for Required Actions, and Certain Revisions and Corrections; and Setting City Policy for Implementation of the Housing Element
Sponsors: Peskin; Chan and Mandelman |
| File No. 231165 | Fire Code - Lithium-Ion Batteries in Powered Mobility Devices]
Sponsor: Peskin |

These matters will be heard in the Land Use and Transportation Committee at a Regular Meeting on Monday, December 4, 2023, at 1:30 p.m.

Subject: Rezoning of Emerson

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To San Francisco Board of Supervisors

I am, too, writing to request that the Board of Supervisors consider removing the west side of Emerson Street from the rezoning proposal. The west side of Emerson Street is currently zoned residential with a 40-foot height limit. Rezoning up to 240 feet is not supported by the stated policies that rezoning to heights such as 240-300 feet should be in established neighborhood commercial areas. The west side of Emerson is a residential street currently zoned for 40 feet. Wood Street, which abuts the west side of Emerson, is also residential and zoned for 40 feet. Also, we are very confused about what is being proposed as there has been no interaction with anyone at the City and we don't know why our quiet residential street would be targeted for rezoning from 40 feet to 240 feet. We are hoping that this is a mistake or a misprint in the printed map provided by SF Planning. If this was not a mistake in the

printing of the map, then I request that the Board of Supervisors please reconsider and not rezone our quiet 40-foot residential street to 240 feet.

Please notify me as well on this rezoning issue.

Leala Jew

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

Regarding the city rezoning, Item 32 on the agenda for November 28, 2023, I am writing to request that the Board of Supervisors consider removing the west side of Emerson Street from the rezoning proposal. The west side of Emerson Street is currently zoned residential with a 40-foot height limit (for ease of reference see pictures attached of the west side of Emerson Street).

Rezoning up to 240 feet is not supported by the stated policies that rezoning to heights such as 240-300 feet should be in established neighborhood commercial areas. The west side of Emerson is a residential street currently zoned for 40 feet. Wood Street, which abuts the west side of Emerson, is also residential and zoned for 40 feet. None of the neighbors were notified by this, we learned about this from a neighbor who lives several blocks away. We are very confused about what is being proposed as there has been no interaction with anyone at the City and we don't know why our quiet residential street would be targeted for rezoning from 40 feet to 240 feet. We are hoping that this is a mistake or a misprint in the printed map provided by SF Planning as we cannot find any reference of this in the supporting materials.

If this was not a mistake in the printing of the map, then I request that the Board of Supervisors please reconsider and not rezone this quiet 40-foot residential street to 240 feet.

Thank you for considering our comments.

Re: Project Name: Constraints Reduction (AKA Housing Production)
Case Number: 2023-003676PCAMAP
Board File No. 230446
By Mayor Breed

Dear San Francisco Board of Supervisors,

AIA San Francisco Public Policy and Advocacy Committee are writing to express our support for the proposed 'Housing for All' ordinance.

We commend the efforts made under the 2022 Housing Element Update, which focuses on racial and social equity, to address San Francisco's housing challenges. With a state-mandated goal of constructing 82,000 housing units within the next eight years, this plan aims to provide diverse housing options that strengthen our communities and improve overall affordability and diversity.

The 'Housing for All' ordinance aligns with several policies outlined in the Housing Element. It specifically targets the removal of obstacles that hinder housing construction, especially based on subjective criteria. The proposed changes include process improvements, development standards modifications, and expanded housing development incentives throughout the city. Implementing these changes will offer diverse housing options for all residents of San Francisco, thereby expanding affordability and opportunity.

Process Improvements:

The ordinance introduces several changes to eliminate costly and time-consuming requirements that impede housing construction and increase costs. We can save valuable time and resources by exempting code-compliant projects from certain processes like Conditional Use permits, the 311 process, and public hearings for projects outside the Priority Equity Geographies SUD. Additionally, allowing "as of right" development for heights and large lot projects, streamlining the approval of State Density Bonus Projects, enabling senior housing development wherever housing is permitted, and providing administrative approval for reasonable accommodations will further facilitate housing construction.

Development Standards:

The proposed ordinance brings about standardization and changes in development standards to foster creativity and high-quality housing. Consolidating rear yard requirements, reducing front setbacks, and adjusting minimum lot widths and areas will allow for greater flexibility in designing housing that meets the higher densities mandated by the Housing Element. Other changes, such as allowing open space in specific locations and reevaluating street-facing ground floor uses, will contribute to a more inclusive and vibrant urban environment.

Expand Affordable Housing Incentives:

The ordinance includes code changes that simplify the process of building affordable housing. Expanding fee waivers for all 100% affordable projects, broadening the eligibility for Home SF, and removing restrictions on eligibility requirements will increase the availability of affordable units to individuals with modest incomes. These measures will help address San Francisco's pressing need for affordable housing options.

We can expand housing options for all San Francisco residents by passing the 'Housing for All' ordinance. The correlation between supply and demand is undeniable, and the lack of adequate housing significantly contributes to the city's high cost of living. Private market-driven housing construction, with limited public subsidies, is the foundation of housing in San Francisco, the state, and the entire country. Streamlining the process and allowing developers to increase density will reduce construction costs per unit, ultimately benefiting renters and homeowners.

Higher density in our neighborhoods will promote stronger communities as it increases the number of individuals actively observing and engaging with their surroundings. Moreover, a denser population in our neighborhood commercial districts will create opportunities for residents to successfully launch and operate small retail businesses, surpassing the impact of mandated ground-floor retail spaces.

Expanding the inventory of housing options in San Francisco will foster greater neighborhood diversity, provide better housing opportunities for vulnerable populations, and contribute to a thriving city culture where everyone can flourish.

We urge the Land Use Committee and the Board of Supervisors to approve the "Housing for All" ordinance. Together, we can create a more inclusive and affordable housing landscape for all residents of San Francisco.

Respectfully submitted,

AIA San Francisco Public Policy and Advocacy Committee

Date: Sunday, November 26, 2023 3:34:14 PM
Attachments: [CEQA Fact Sheet-2.pdf](#)

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

Please vote against this ordinance and start again.

This ordinance will eliminate environmental and community review protections. In addition, it will encourage demolitions and allow more luxury development, employing new building materials, a further burden on the environment.

As Senator Wiener and the YIMBY's unjustly attack CEQA, we lose and the environment loses.

Please review the attached Sierra Club information sheets on CEQA and the Sierra Club article on the importance of upholding environmental protection.

"CEQA is one of the state's most powerful laws to achieve sustainable and resilient communities. It provides a public process that can address environmental injustice, public health hazards, and greenhouse gas emissions. It's not infallible, and like many laws, it can be employed in ways its drafters never considered. But legislators shouldn't heed the call of corporate developers, gut or reform CEQA to assuage their concerns, and throw the baby out with the bathwater. . ."

<https://www.sierraclub.org/california/letter-sacramento-let-s-talk-about-ceqa>

Thank you for your consideration.

Sincerely,
Katherine Howard
Outer Sunset

The California Environmental Quality Act

Protects our environment. Keeps Californians healthy. Promotes transparency.

The California Environmental Quality Act (CEQA), passed in 1970 and signed into law by then-Governor Ronald Reagan, is one of the foundational environmental laws in California.

CEQA requires that the environmental impacts of significant projects—from skyscrapers to freeways to sports stadiums—have been publicly disclosed, analyzed and, where feasible, mitigated.

It facilitates compliance with other environmental laws and regulations, and makes sure that responsible parties clean up their pollution.

CEQA BENEFITS

CEQA has a range of benefits for all Californians. It:

- **Sets up an orderly, manageable track that project proponents and residents can follow as projects are developed.** It helps remove surprise and unpredictability from the construction permitting process.
- **Helps California protect public health and reach its ambitious environmental goals.** The CEQA process has been used to help cut climate pollution, reduce air and water pollution and protect open space, wildlife habitats and farmlands.
- **Ensures that environmental justice and equity are part of the development decision-making process.**

- **It's about transparency.** CEQA gives all Californians the opportunity to know what is planned in their communities and then weigh in to help reduce health and environmental impacts.
- **Holds government agencies and developers accountable.** CEQA ensures that public agencies and private proponents comply with air and water standards.
- **Minimizes court challenges to projects.** CEQA allows concerns to be addressed early in the development process. As a result, numerous studies have routinely shown that CEQA litigation occurs for only about 1% of all projects that must comply with the law.
- **Supports California's economic growth.** Studies have documented that since its enactment in 1970, CEQA has not prevented California from building and thriving.
- **Reflects a changing California.** CEQA is a living document and has been amended continuously since its enactment to make the review process function efficiently.

CEQA is working to protect California's environment and communities.

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey "Housing" Ordinance File #230446
Date: Sunday, November 26, 2023 11:19:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

As a tax paying voter of San Francisco I join all my fellow neighbors in saying that it's time to **stop**.

Stop wasting time negotiating amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance. It is a broken ordinance and need overhauling from the ground up. We want all of our SF supervisors to get behind and support a GUT & REPLACE. Only then will a housing ordinance being to TRULY represent what it's meant to do, namely

1) to provide 100% truly affordable housing for families who really do make less than \$80,000 per year. Add it stands the housing is for mostly people who earn \$230K, which is for the low income. There is plenty of SF housing for the upper income brackets already.

2) to stay true to your voting public and civil rights by protect all current San Francisco laws which ensure environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

3) it's time to do to things well for everyone, not just the few.

Subject: GUT&REPLACE: Engardio-Breed-Dorsey"Housing" Ordinance File 230446
Date: Sunday, November 26, 2023 7:35:23 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

The proposed housing ordinance by Supervisors Engardio and Dorsey and Mayor London Breed is destructive to the city's economy, environment and culture.

It would sacrifice environmental protections, so necessary to the city's ecology and health. The protections were instituted for a purpose, i.e., protecting the health of the environment.

Radioactive waste and other pollutants will menace tenants and the environment. It is disgraceful that the Mayor and members of the Board endorse this proposed ordinance in light of this.

In addition, affordable housing applies to those making incomes in excess of six digits, placing housing, so necessary to prevent homelessness, out of affordability for so many.

Demolition protections are also endangered.

Whatever ordinance is approved, it should not permit those who demolish housing building new affordable housing which is a double benefit. New contractors, who did not demolish housing, should be in charge of new housing.

The increase in "affordable" housing units should not drive already high rents in this city higher. High priced housing and rents from these new structures will encourage higher prices in already existing homes and apartments, forcing tenants to move out of the city and state. Homelessness will also increase.

Another casualty will be the culture of the city which has greatly suffered from corporate hustlers and the gig economy. The city used to welcome artists, poets and liberal, free spirited individuals. Now, it welcomes those

who wish to make a pile of cash and leave the city in ruin. That is the present state of the city where vultures, disguised as humans, rob businesses with abandon, wrecking the economy and placing shoppers in danger. The neighborhoods, the heart and soul of San Francisco, are being eclipsed by this new culture of greed and selfishness.

We need decent, safe housing, free of environment threats. This proposed ordinance will have a destructive impact.

This proposed measure should be squelched at the meeting of the Land Use Committee.

Sadly, I cannot use remote commentary which places a burden on me, due to my residence in assisted living.

Please put this proposed ordinance in the waste basket of proposed measures.

Many residents of the city will be grateful for this service.

Why more housing without a transit solution. Don't allow density without an adequate and shovel ready transit plan.

If you don't have the money for transit and subway or tram systems outside the downtown you do not densify.

Cart in front of the horse or behind the horse...

Simple solution may be simpler than u think by linking from presidio and marina green to sunset and around to Caltrains Schlage lock get it done and u can go on your planning density. Ignore it and we are all stuck in traffic.

Subject: "Housing" Ordinance File #230446
Date: Wednesday, November 22, 2023 2:05:40 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Leaders,

Reject Housing' ordinance File #230446 gutting environmental and community protections against bad real estate development in San Francisco.

SF has the most density west of New York. Look how affordable NYC is. Adopting this ordinance amounts to abandoning your duty to protect quality of life and the beauty and character of San Francisco. Instead of capitulating to Sacramento extortion and encouraging corporate real estate dominance, fill 60,000 empty housing units and 81 million square feet of vacant Office Space 'BEFORE' we allow developers and density advocates to undermine environmental values, quality of life, aesthetic continuity and the character of our neighborhoods while making the people who live here voiceless.

There are sensible alternatives,
Remember the Fontana Building Revolt of the sixties,
Reject Ordinance 234460 and support "Our Neighbor Voices Initiative" to amend the state constitution. The majority of Californians do.

"Gut & Replace" strategy to completely delete all of the Mayor's text and replace it with a new ordinance that will produce 100% truly affordable housing for families making less than \$80,000 per year, and which will protect all existing public noticing and hearings for real estate projects.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi Supervisors,

Between the Budget and Legislative Analyst's (BLA's) recent housing vacancy report (link below) and clear reports about the *decline* of the California and San Francisco populations following the pandemic, it is abundantly obvious to anyone with a junior high school education that bills like SB 423 to force obviously unneeded housing projects down the throats of California municipalities, are flat-out completely out of touch with reality, legally ridiculous, and can likely be effectively challenged in court. See the BLA vacancy report at: https://sfbos.org/sites/default/files/BLA.Residential_Vacancies.Update.102022.pdf

Regardless, there is no reason whatsoever to 'negotiate' with a hostile Mayor (who is completely coopted by real estate investment interests) over amendments to her disastrous 'Housing' ordinance File #230446. If we feel we need to put forward a housing ordinance to placate state officials on a deadline by early next year, then that ordinance needs to be written by San Francisco Supervisors, and community organizers, who are strong on affordable housing and environmental policy (*not* written by Mayor Breed and her Big Tech and Big Real Estate donor cronies). **Sue The State, To Block Housing Mandates** See the following link to an article which properly highlights the total insanity of the state's forced housing policy, and shows why the Board of Supervisors and the City Attorney need to move immediately, to sue and file for injunctions, to block the state of California's fantasyland housing mandates. "California's population is still shrinking. These Bay Area counties lost people" by Sophia Bollag for the SF Chronicle LINK:

<https://www.sfchronicle.com/politics/article/california-population-numbers-18000501.php>

GUT & REPLACE Mayor's 'Housing' Ordinance It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *not* like the previous, very limited Melgar 'Family Housing' ordinance. The

Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal

agencies have falsely declared "cleaned up").

-

The Climate Crisis - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey "Housing" Ordinance File #230446
Date: Saturday, November 25, 2023 3:45:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear President Peskin,

Please stop seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully **GUT & REPLACE** the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is not like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

-

A Bad Decision Making Process - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is an extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.

- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Subject: GUT & REPLACE Housing Ordinance File #230446 - SF Board of Supervisors Land Use Committee Nov. 27 Agenda Item #5
Date: Sunday, November 26, 2023 6:04:47 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am writing to urge you to **GUT & REPLACE** the pending Engardio-Breed-Dorsey Housing Ordinance, and draft a new ordinance that will produce the housing that San Francisco desperately needs - 100% affordable housing for families making less than \$80,000. A replacement ordinance must also protect San Francisco's laws ensuring community noticing and Discretionary Review, Demolition Review, Conditional Use Review, and Appeal hearings.

Tweaking this proposed Ordinance will not solve its many problems. You must **GUT & REPLACE** it. The pending Ordinance contains unprecedented and unacceptable waivers of many local environmental, community and demolition reviews, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

There are many reasons this Ordinance should not be approved:

The Decision-Making Process is Undemocratic. We need to scrap this Ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year. This Ordinance does not do that, and it must be discarded. Start over. Pay attention to the needs of all San Franciscans, not just the desires of greedy, rapacious developers who cannot wait to create market-rate housing that only the wealthy will be able to afford. Amending this misguided legislation will not remedy its problems. You must GUT & REPLACE it with carefully considered legislation that will meet the true housing needs of the San Franciscans you represent.

This Ordinance Will Exacerbate, not Help Solve, the Homelessness Crisis. This Ordinance will drive most rents citywide even higher, pushing more middle, working and lower class San Franciscans either out of the city or onto our streets, where they will face unacceptable dangers of declining health, street crime, and underemployment.

This Ordinance Will Exacerbate, not Help Solve, the Unaffordable Housing Crisis. This ordinance promotes building new high priced housing that is not

affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". There is already a 50% oversupply of housing for those income levels.

There are Already More Than Enough Market-Rate Units. San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction. We need to make our existing housing space affordable!

The Environmental Justice & Equity Crisis - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

In addition, this ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

In Conclusion, this Ordinance is an unacceptable attack on San Francisco's environmental, economic, cultural, and community integrity. Please **GUT & REPLACE** this Ordinance.

Thank you,

Jean B Barish

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey "Housing" Ordinance File #230446
Date: Monday, November 27, 2023 7:11:06 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is **not** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
-
-
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just

rent controlled housing.

-
-
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
-
-
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
-
-
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
-
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
-
-
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,

JJ Hollingsworth
Sunset District Resident

Subject: Item #32 for Nov 28th
Date: Monday, November 27, 2023 11:09:31 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I am writing to request that the Board of Supervisors consider a couple items for Item #32:

1) removing the west side of Emerson Street from the rezoning proposal. The west side of Emerson Street is currently zoned residential with a 40-foot height limit. Rezoning up to 240 feet is not supported by the stated policies that rezoning to heights such as 240-300 feet should be in established neighborhood commercial areas. The west side of Emerson is a residential street currently zoned for 40 feet. Wood Street, which abuts the west side of Emerson, is also residential and zoned for 40 feet. Also, we are very confused about what is being proposed as there has been no interaction with anyone at the City and we don't know why our quiet residential street would be targeted for rezoning from 40 feet to 240 feet. We are hoping that this is a mistake or a misprint in the printed map provided by SF Planning. If this was not a mistake in the printing of the map, then I request that the Board of Supervisors please reconsider and not rezone our quiet 40-foot residential street to 240 feet.

2) changing the zoning height for Masonic - the bus yard. This is a one - two block transit corridor that is primarily surrounded by residential buildings with upper heights of only 40 feet. Putting in 24-30 story highrises will not only take away sunlight for these neighbors in the western edition and laurel heights, but it will take away the character of the neighborhood and have a monolith tower forever dividing the neighborhood. Housing is needed but not at these obscene heights here -- only developers will reap the benefits through outrageous profits, while the long-established small homeowners and residents are left behind having their dwellings get swallowed up in the shadows of greed.

Please don't neglect and ignore the character of the neighborhoods, the need for sunlight and the beauty of our city with 24 foot highrises belonging downtown, not among residential neighborhoods with 40-foot heights.

Thank you for your time and consideration.

Catherine

Subject: Item 32- Board of Supervisors Hearing- November 28, 2023- West Side of Emerson Street
Date: Monday, November 27, 2023 9:19:37 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I am requesting that the Board of Supervisors remove the west side of Emerson Street from the rezoning proposal. The west side of Emerson Street is a quiet residential street currently zoned for a 40 foot height limit. But now, I learn that the City intends to rezone this street from the reasonable 40 foot height limit to a towering 240 foot height limit. As a neighbor living directly behind Emerson Street, I would like to ask for what reason was such a proposal made and why as neighbors were we not consulted or asked for our opinions. I ask that the Board of Supervisors please reconsider and not rezone this street from the 40 foot height limit to a 240 foot height limit.

Arlene Filippi
42 Wood Street
San Francisco, CA 94118

Subject: Rezoning of Emerson Street
Date: Monday, November 27, 2023 8:13:13 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I am submitting my comment because I am shocked to know there is a hearing to consider rezoning Emerson Street scheduled for tomorrow. Property owners who are directly involved with this plan has not made any attempt to communicate this with us.

Our street is a dead-end street with only 10 or so single family homes. Traffic is already a major problem with ingress and egress onto Geary Street.

I am upset and disillusioned of the proposed change.

Subject: Public Comment from Michael Woods: GUT & REPLACE Engardio-Breed-Dorsey "Housing" Ordinance File #230446
Date: Monday, November 27, 2023 1:16:53 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

Since the 1970s the affordability of my rent controlled apartment near Haight Ashbury is the only thing that has allowed me to remain in the city I love. Unlike so many friends and neighbors who were driven out over the decades due to **gentrification**, I have stubbornly hung on.

I have no regrets, and don't live in the past, but I miss the diversity of my neighborhood when people of modest income could afford to live here before the first tech boom. The community of those times not only provided needed services but also contributed to our world famous cultural, musical and artistic identity.

PLEASE scrap the Mayor's massive, destructive ordinance that will further gentrify neighborhoods all over the city and **draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.**

Affordability is the road back to a culturally diverse and thriving community. Please don't hand the keys of the city over to developers who will build vast amounts of market rate housing for the affluent, perpetuating the decline of what makes our city unique and worth calling "home" for people of all income levels.

Thank you,
Michael Woods

Subject: Public Comment; Ordinance File #230446 MON, NOV 27 HEARING: Demand Supervisors "GUT & REPLACE" Mayor's Attack on Environment & Affordable Housing

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

Dear Supervisors,

As an Architect and Planner who has practiced over 40 years from this City and with this City and one old enough to be knowledgeable of the legislative devastating mistakes of U.S. urban housing history, but has also lived in, practiced, and seen its disastrous consequences across this Country, the Board teeters once again on acting out of desperation rather than providing housing for the right reasons.

To illustrate this is not personal opinion but an essential public debate, the Press has described the issue (Chronicle 11-22-23), making conspicuous City Officials' contradictory comments and double talk which are alarmingly transparent: these are comments by our representatives being offered up as a diversion rather than the source of problem solving for the City's Housing needs.

Supervisor Melgar said of this legislation in the Chronicle, "We will get it passed" and the timing of the legislation would avoid "the "builder's remedy" kicking in, the 50-story tower at the beach, or any other nonsense." Unfortunately, she cannot guarantee both the Tower's dismissal or any other nonsense. But more importantly: is this reference to "Builder's remedy" a scare tactic to the people of San Francisco or rather, an authoritarian, uniformed, non-democratic reactionary response? The Press writes so.

To illustrate additional misleading portions in this Supervisors repose, “Timing” ..and getting housing done “right”..... are two different objectives and shortcuts always produce urban decay while the other alternatives, creates urban equilibrium. Please stop and consider the superficiality of legislating by “Builders remedy” or any other cursory methods. Please travel to Asia and see what that method produces.

Even Planning Director Hillis shrinks from this threatening view that ,“There might be one or more builder’s remedy projects that would come in (?) , but the 2700 is the one we know about for certain,” (?) What is that withheld information? This too is misleading speculation but still at odds with what Supervisor Melgar alleges is what the City, not the Constituency, must avoid. The Supervisors need to get some “skin” in this game to understand. And equally important, Hillis’ statement doesn’t recognize the vagaries of how developers make money or what they will shortcut. Thus the need to structure any corporate involvement by thoughtful legislation is necessary, not cut and paste.

The confusion continues in the Board’s remarks: at the Board level, doing the “right thing” for the West Side is largely unknown and purposefully unclued to both the public and apparently other Supervisors.

Supervisor Engardio argues in the Chronical, “Let’s meet the State deadline and avoid the consequences of builders (remedy) being able to do whatever they want,” He continued, “A Salesforce-sized tower plopped on the sand next to the ocean is wrong for so many reasons.” How about asking what else is wrong about the block by block plan for destructing the Dolger plan of the West side.?

Does this Supervisor think developers will not do damage to the existing fabric of his District, left to poorly written, cut and paste legislation? The truth is there is no Master Plan for his District, only a euphemism called “soft sites”.

With all due respect, this Supervisor’s fascination with Paris, is cursory and not a model. Vienna or even Cambridge, Mass. might be useful as a model but nonetheless requires professionals to guide a new model, not legislators. As a society, we do not allow legislators to do heart surgery. There is no independent third party review (which is normal professional due diligence) to legitimate development claims and then legislate.

Engardio seems to understand when a housing proposal is obscenely absurd but, offering up a little “Domes-City” from a colleague is not how genuinely affordable housing is done within our society’s delivery system.

What Supervisors Melgar and Engardio seem to share is an amorphous need to avoid a threat, (which they know is quite probable): Housing non-sense.

These Supervisors admit housing development based on the “builders remedy”, is antithetical somehow. But we already know that the City’s arbitrary process of “soft” or “opportunity sites” is not housing by design. It is design without concern for “unintended consequences” or heeding attention to historical lessons learned..

If this legislation is driven by Sacramento’s punitive plan against the City mismanagement or misunderstanding, (such as what is buried in the flawed RHNA system), then the more important duty of the Board of Supervisors is facilitating housing for the right reasons.

The first step is to recognize it is imperative that the Board represent both property owner and renter welfare in this City and STOP seeking to negotiate amendments to the Engardio-Breed-

Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance based on the following core values:

1) **Revise the State's Rhetoric on Affordable housing**- We do not have a Housing crisis as a few brave supervisors admit; we have an unaffordable Housing crisis. Two very different things.

The focus of this legislation needs to shift to assure the delivery (not just checking a box) of livable units for families and individuals making less than \$80,000 per year from "cradle to grave".

The City already has precedents to draw from local success stories: 833 Bryant, 4900 Geary , 1369 43rd Ave, Valencia Gardens in the Mission, and 365 Fulton Street projects, all projects that are site specific based, which is a time honored planning principle exclusively performed by licensed professionals (not legislators). This legal structure is unknowingly being circumvented by this legislation.

All of these examples above can be greatly improved upon especially regarding their fiscal procurement method. But such examples as 370 Stanyan and 2550 Irving and others are disgraceful environments to their future occupants. And remember that SB 35, 9 and 10 are cut from the same unprofessional mind-set in Sacramento.

This alternate recommended combination of rational design analysis can produce a new model legislation for the right reasons. This insight will uniquely recognize the needs of homelessness as a separate medical solution as evidenced in the 365 Fulton solution. But contrary to the medical professional's recommendations, they retreat from the City's machinations. But it's more basic: Density with dignity is the mantra to guide legislation. (see item 3 for situational parallel)

2) **The Downtown Core is priority one**- Considering the 35 % vacancy rate of existing office space downtown, the massive loss of tax revenue, with property laying fallow in a once vibrant and destination Downtown. This is a Detroit-like plan for its demise. I lived through and in this tragedy. This is not "dystopian" commentary as Supervisor Engardio has described to cloud the crisis. This City should concentrate on the restoration of the downtown core as New York City is doing right now.

- The West side is a diversion from the existential necessity of the downtown core conversion. Its scale and density demands this as urbanists confirm. Temporarily facilities are also feasible and so is Public land. The Planning Department has toyed with these options.

But then why does this legislation invent a need for a range income from \$150 k to 200K? This range is not the priority or the problem. The "missing middle" is something else according to experts. This legislation will only cause more gentrification under the Engardio-Breed-Dorsey fantasy. The private market can manage this range.

3) **The Simultaneity of the Global Warming Crisi , Equity, and the Environmental Threat**- As a LEED AP and a practitioner from as far back as Ian McHarg's admonitions, this is a multiple emergency and should be understood as such. It is a profound and unprecedented existential threat. The "Builder's remedy is a simplistic un professional reaction to the reality and science of Global Warming and Climate change science.

But even more complex, because it is a multiple phenomenon, it has been exacerbated by

Governmental outdated systemic inabilities to deal with it to be sure. The City as well as the State compartmentalizes these problems and thus prevents the necessary collaboration of their solutions. The problem is not exclusively legal and for the City Attorney to solve it is folly. It is multi-dimensional. The present single line City approval process for its resolve, is obsolete.

Unbeknownst to the many regulatory agencies, City and State, they are all compartmentalized. The Global warming Crisis is critically intertwined with the Equity crisis and other social issues. Each agencies define their boundaries too short. Particularly, we know providing housing for income brackets \$80,000 K and downward have inadequate fiscal systems to realize this necessity. There is little incentive for the private sector to participate but equally, because Non-profits mechanisms consistently practice unacceptable compromises for below market rate housing, they too are not the answer. But with proper legislation, there is prospect.

These BMR income groupings should be your focus: they need the same basic health, safety and socio-psychological housing features to their homes as other higher brackets of income. In short, all housing is medical, (this is buried in our codes) and this reality should be renewed for regulatory agencies.

It is understandable that legislators might not fully understand this change if they are not currently licensed to practice the design of housing. One such publicized instance the City and State is presently allowing (but should never be allowed) is building for BMR folks on contaminated land. Another is over densifying like 370 Stanyan and 2550 Irving. HCD used to admonish practitioners to not overconcentrate. But the meaning of the word "Density" has been left to unlicensed opinion. This is what other authoritarian governments do, and for lack of genuine considerations of family health, our success stories offer a way forward.. Vive Valencia Gardens for families.

Furthermore, master planning for housing that supplies the need for \$80 K AI and below, while presently non-existent, must be a balancing act that legislation needs to reflect. Present City approval process cannot accommodate this. Calls for streamlining without understanding the administrative obstacles, miss the point and promote a further downward spiral, as evidenced by continued exponential increase of graft already published regarding specific City departments, much like what happened to Detroit but for different circumstances.

We need legislation that has the ability to adapt intelligently to this multiple crisis and a foundation of human-based processes and design principles. That is why all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings should be re-integrated into this legislation, but also along with a commitment from the City to civic government restructuring in response to existential global and humanitarian changes..

It is helpful to put this exigency in perspective: it is tantamount to what the Federal Government did in 1942 and this is a circumstance for adaptive existential change for this unprecedented new crisis. We also cannot forget to include the societal changes that have been brought on by the pandemic and how this affects housing and City Planning overall. Sacramento's thinking is pre-dated to these lessons from the pandemic and must be convinced to recognize this.

In summary, this ordinance is not like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in unintended consequences like Detroit's experience. It is still

trying to rise from its ashes.

The serious damage this legislation would cause to San Francisco is in your hands. Its neighborhoods need masterplans for community well-being not reckless densification. And the elusive goal of affordable housing are pushed out even farther out by this legislation's proposed provisions.

Thank you,

Thomas Soper

Subject: OPPOSE THIS ORDINANCE: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I have written 3-4 prior as my comments & thoughts have not changed!!

Please FORGIVE THE CAPS but felt needed to highlight points. Also, I may be repeating some of those points/comments from previous letters but felt important to repeat and emphasize them.

1) There is NO reason to keep creating ordinances like this or any others. They will DESTROY OUR NEIGHBORHOODS for MANY reasons (e.g.

INFRASTRUCTURE, TRAFFIC, ENVIRONMENT ETC.) as to BUILD ON EVERY CORNER / 4 PLEXES ON EVERY SFR LOT REGARDLESS OF THE HEIGHT BUT ESPECIALLY DO NOT BUILD OVER 2 STORIES

2) The POPULATION HAS & IS STILL DECLINING! There are ALREADY APPROXIMATELY 143,000 units (that will be, are & in the pipeline) AVAILABLE. The MATH is SIMPLE! $143,000 - 82,000 \text{ RHNA \#S} = 61,000 \text{ LEFT}$. THERE ARE OTHER OPTIONS - AKA CONVERTING EXISTING UNITS/HOUSING!

3) There are NO reasons to BUILD MORE HOUSING when there are PLENTY VACANT UNITS (SFR/OTHER) that can be CONVERTED.

4) RHNA (HCD) has INCORRECTLY OVER-INFLATED THE # OF HOUSING WE NEED IN SF / CALIFORNIA. Support an AUDIT!

5) These type Ordinance will NOT BE FINANCIALLY BENEFICIAL TO THE PERSON SELLING THEIR HOME -

EXAMPLES:

a) Owner(s) will have to pay CAPITAL GAINS - CREATING LESS FINANCIAL POWER/FREEDOM available to Owner(s)

- b) Will NEED most likely to RENT somewhere while unit is being constructed and will DEplete THEIR FUNDS
- c) CREATES STRESS & COSTS OF MOVING OUT & BACK IN INTO A UNIT ONCE BUILT/AVAILABLE, which a UNIT MAY NOT EVEN BE AVAILABLE to the Owner(S) who sold property to build one of these NEW Housing Units/Projects
- d) Owner will have GONE THROUGH MORE FUNDS and have LESS FUNDS AVAILABLE TO THEM.
- e) WILL NOT have an ASSET TO LEAVE TO THEIR HEIRS

6) Here is what is going to happen, some of you may remember GENEVA TOWERS, some of you may have heard about it, but at any rate, this is URBAN RENEWAL 2.0! These will SIT VACANT & BECOME A BLIGHT ON THE COMMUNITY because they WILL NOT SELL. Projects like this are FOLLOWING THE SAME TRAJECTORY!

A current perfect example of this is THE WESTERLY @ 2800 SLOAT / WAWONA. This complex has been completed for 5 years and believe only 1/3 are sold at present (mostly to speculators). It appears a small percentage of these are actually owner occupied . Most seem to be occupied by renters or Airbnb which may NOT be allowed by the Complex By-laws. The REST SIT VACANT! The BUILDING has been FALLING APART ALREADY and they are STRIPPING DOWN THE SIDING THAT WAS

FALLING APART and CONSTRUCTED POORLY.
This is a BLIGHT on the NEIGHBORHOOD.

7) If this Ordinance passes, it most likely will be MANAGED by a Non-Profit. We ALL know the ISSUES and how BADLY the NON-PROFITS MANAGE ANYTHING IN THIS CITY !

8) We should NOT allow DEVELOPERS, the CITY or the STATE to CREATE BILLS OR ORDINANCES TO BUILD UNDER THE GUISE OF AFFORDABLE HOUSING. IT'S ANYTHING BUT AFFORDABLE, IT'S SUBSIDIZED HOUSING TO FUND DEVELOPERS, REAL ESTATE SPECULATORS & RETIREMENT FUNDS.

9) Finally, as much as I adore Paris, we are NOT PARIS! We are SAN FRANCISCO & UNIQUE! Please do NOT DESTROY our SFR NEIGHBORHOODS!

Please READ the LETTER below from The Coalition with ALL OTHER IMPORTANT POINTS.

Thank you.

Renee Lazear

D4 Resident

SON-SF ~ Save Our Neighborhoods SF

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

1) produce 100% truly affordable housing for families making less than \$80,000 per year, and

2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is **not** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate

housing speculation which apply to *all* housing, not just rent controlled housing.

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the

environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,
Renee Lazear

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

Since the 1970s the affordability of my rent controlled apartment near Haight Ashbury is the only thing that has allowed me to remain in the city I love. Unlike so many friends and neighbors who were driven out over the decades due to **gentrification**, I have stubbornly hung on.

I have no regrets, and don't live in the past, but I miss the diversity of my neighborhood when people of modest income could afford to live here before the first tech boom. The community of those times not only provided needed services but also contributed to our world famous cultural, musical and artistic identity.

PLEASE scrap the Mayor's massive, destructive ordinance that will further gentrify neighborhoods all over the city and **draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.**

Affordability is the road back to a culturally diverse and thriving community. Please don't hand the keys of the city over to developers who will build vast amounts of market rate housing for the affluent, perpetuating the decline of what makes our city unique and worth calling "home" for people of all income levels.

Thank you,
Michael Woods

re: File 231175 LUC Item #6 Nov. 27 2023 requesting City Attorney and City Lobbyist to seek HCD extension re the deadline for San Francisco's Housing Element Implementation Action Plan, and to revise and correct HCD's Oct. 25 Review/Letter.

And re: File 230446 Item #5 Constraints Reduction legislation.

Dear Land Use Committee Members: Chair Melgar and Supervisors Peskin and Preston,

I urge you to adopt the Peskin/Chan resolution seeking additional time, and development of a city rebuttal to the HCD review/letter's incorrect statements and strong-arm tactics.

I also urge you NOT to adopt or pass through the Mayor's Constraints Reduction legislation.

Regarding the Peskin/Chan resolution: there is a complete disconnect between the real estate industry-serving HCD review and the facts on the ground. The HCD review ignores the current market rate housing sales and rental downturn in SF, the city's considerable achievements in producing housing, and the impossibility of building enough affordable housing without adequate state or federal funds.

Regarding Mayor Breed's legislation, proponents have been falsely claiming it's purpose is to produce affordable housing. This bill, to the contrary, is about building unaffordable high-rise and mid-rise luxury condos deep into neighborhoods, while removing protective regulation and public scrutiny--totally without equity or fairness--thus encouraging a speculation frenzy of land-grabbing and demolition of rent controlled housing. No matter how many amendments are added, they are just pretty ribbons covering a giant box of ugliness.

The state HCD review/letter orders our city to pass Mayor Breed's legislation. If we don't, it threatens to withhold transit and affordable housing funds, and remove local planning control until we do. This is a self-defeating Catch 22 at best...and the harshest bullying blackmail at worst.

Please halt the Constraints Reduction package.

Approve the Peskin/Chan resolution.

Respectfully,

Lorraine Petty

Subject: GUT & REPLACE Housing Ordinance File #230446 - SF Board of Supervisors Land Use Committee Nov. 27 Agenda Item #5

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am writing to urge you to **GUT & REPLACE** the pending Engardio-Breed-Dorsey Housing Ordinance, and draft a new ordinance that will produce the housing that San Francisco desperately needs - 100% affordable housing for families making less than \$80,000. A replacement ordinance must also protect San Francisco's laws ensuring community noticing and Discretionary Review, Demolition Review, Conditional Use Review, and Appeal hearings.

Tweaking this proposed Ordinance will not solve its many problems. You must **GUT & REPLACE** it. The pending Ordinance contains unprecedented and unacceptable waivers of many local environmental, community and demolition reviews, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

There are many reasons this Ordinance should not be approved:

The Decision-Making Process is Undemocratic. We need to scrap this Ordinance and draft legislation that will produce 100% affordable housing for families making

less than \$80,000 per year. This Ordinance does not do that, and it must be discarded. Start over. Pay attention to the needs of all San Franciscans, not just the desires of greedy, rapacious developers who cannot wait to create market-rate housing that only the wealthy will be able to afford. Amending this misguided legislation will not remedy its problems. You must GUT & REPLACE it with carefully considered legislation that will meet the true housing needs of the San Franciscans you represent.

This Ordinance Will Exacerbate, not Help Solve, the Homelessness Crisis. This Ordinance will drive most rents citywide even higher, pushing more middle, working and lower class San Franciscans either out of the city or onto our streets, where they will face unacceptable dangers of declining health, street crime, and underemployment.

This Ordinance Will Exacerbate, not Help Solve, the Unaffordable Housing Crisis. This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". There is already a 50% oversupply of housing for those income levels.

There are Already More Than Enough Market-Rate Units. San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction. We need to make our existing housing space affordable!

The Environmental Justice & Equity Crisis - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

In addition, this ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

In Conclusion, this Ordinance is an unacceptable attack on San Francisco's environmental, economic, cultural, and community integrity. Please **GUT & REPLACE** this Ordinance.

Thank you,

Jean B Barish

Subject: OPPOSE THIS ORDINANCE: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I have written 3-4 prior as my comments & thoughts have not changed!!

Please FORGIVE THE CAPS but felt needed to highlight points. Also, I may be repeating some of those points/comments from previous letters but felt important to repeat and emphasize them.

1) There is NO reason to keep creating ordinances like this or any others. They will DESTROY OUR NEIGHBORHOODS for MANY reasons (e.g.

INFRASTRUCTURE, TRAFFIC, ENVIRONMENT ETC.) as to BUILD ON EVERY CORNER / 4 PLEXES ON EVERY SFR LOT REGARDLESS OF THE HEIGHT BUT ESPECIALLY DO NOT BUILD OVER 2 STORIES

2) The POPULATION HAS & IS STILL DECLINING! There are ALREADY APPROXIMATELY 143,000 units (that will be, are & in the pipeline) AVAILABLE. The MATH is SIMPLE! $143,000 - 82,000 \text{ RHNA \#S} = 61,000 \text{ LEFT}$. THERE ARE OTHER OPTIONS - AKA CONVERTING EXISTING UNITS/HOUSING!

3) There are NO reasons to BUILD MORE HOUSING when there are PLENTY VACANT UNITS (SFR/OTHER) that can be CONVERTED.

4) RHNA (HCD) has INCORRECTLY OVER-INFLATED THE # OF HOUSING WE NEED IN SF / CALIFORNIA. Support an AUDIT!

5) These type Ordinance will NOT BE FINANCIALLY BENEFICIAL TO THE PERSON SELLING THEIR HOME -

EXAMPLES:

a) Owner(s) will have to pay CAPITAL GAINS - CREATING LESS FINANCIAL POWER/FREEDOM available to Owner(s)

- b) Will NEED most likely to RENT somewhere while unit is being constructed and will DEplete THEIR FUNDS
- c) CREATES STRESS & COSTS OF MOVING OUT & BACK IN INTO A UNIT ONCE BUILT/AVAILABLE, which a UNIT MAY NOT EVEN BE AVAILABLE to the Owner(S) who sold property to build one of these NEW Housing Units/Projects
- d) Owner will have GONE THROUGH MORE FUNDS and have LESS FUNDS AVAILABLE TO THEM.
- e) WILL NOT have an ASSET TO LEAVE TO THEIR HEIRS

6) Here is what is going to happen, some of you may remember GENEVA TOWERS, some of you may have heard about it, but at any rate, this is URBAN RENEWAL 2.0! These will SIT VACANT & BECOME A BLIGHT ON THE COMMUNITY because they WILL NOT SELL. Projects like this are FOLLOWING THE SAME TRAJECTORY!

A current perfect example of this is THE WESTERLY @ 2800 SLOAT / WAWONA. This complex has been completed for 5 years and believe only 1/3 are sold at present (mostly to speculators). It appears a small percentage of these are actually owner occupied . Most seem to be occupied by renters or Airbnb which may NOT be allowed by the Complex By-laws. The REST SIT VACANT! The BUILDING has been FALLING APART ALREADY and they are STRIPPING DOWN THE SIDING THAT WAS

FALLING APART and CONSTRUCTED POORLY.
This is a BLIGHT on the NEIGHBORHOOD.

7) If this Ordinance passes, it most likely will be MANAGED by a Non-Profit. We ALL know the ISSUES and how BADLY the NON-PROFITS MANAGE ANYTHING IN THIS CITY !

8) We should NOT allow DEVELOPERS, the CITY or the STATE to CREATE BILLS OR ORDINANCES TO BUILD UNDER THE GUISE OF AFFORDABLE HOUSING. IT'S ANYTHING BUT AFFORDABLE, IT'S SUBSIDIZED HOUSING TO FUND DEVELOPERS, REAL ESTATE SPECULATORS & RETIREMENT FUNDS.

9) Finally, as much as I adore Paris, we are NOT PARIS! We are SAN FRANCISCO & UNIQUE! Please do NOT DESTROY our SFR NEIGHBORHOODS!

Please READ the LETTER below from The Coalition with ALL OTHER IMPORTANT POINTS.

Thank you.

Renee Lazear

D4 Resident

SON-SF ~ Save Our Neighborhoods SF

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

1) produce 100% truly affordable housing for families making less than \$80,000 per year, and

2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is **not** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate

housing speculation which apply to *all* housing, not just rent controlled housing.

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the

environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,
Renee Lazear

Subject: Prohibit the Demolition Rent Controlled Housing

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Chair Melgar and Land Use Committee members Preston and Peskin,

Mayor Breed's proposed Constraints Reduction Ordinance #230446 is fatally flawed legislation that I urge you to reject. San Francisco's Housing Element expressly prohibits the demolition of rent controlled housing. The provisions in #230446 conflict with it.

Our rent controlled housing stock is the most affordable housing in the city. We need to keep on keeping people housed, and not displace them from their homes.

Mayor Breed's proposed Constraints Reduction Ordinance #230446 does not prohibit the demolition of rent controlled housing. It seriously conflicts with SF's Housing Element, and must be rejected.

Sincerely,
Anastasia Yovanopoulos, Coordinator
SF Tenants Union Land Use & Planning Watch Committee

Subject: Public Comment; Ordinance File #230446 MON, NOV 27 HEARING: Demand Supervisors "GUT & REPLACE" Mayor's Attack on Environment & Affordable Housing

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

Dear Supervisors,

As an Architect and Planner who has practiced over 40 years from this City and with this City and one old enough to be knowledgeable of the legislative devastating mistakes of U.S. urban housing history, but has also lived in, practiced, and seen its disastrous consequences across this Country, the Board teeters once again on acting out of desperation rather than providing housing for the right reasons.

To illustrate this is not personal opinion but an essential public debate, the Press has described the issue (Chronicle 11-22-23), making conspicuous City Officials' contradictory comments and double talk which are alarmingly transparent: these are comments by our representatives being offered up as a diversion rather than the source of problem solving for the City's Housing needs.

Supervisor Melgar said of this legislation in the Chronicle, "We will get it passed" and the timing of the legislation would avoid "the "builder's remedy" kicking in, the 50-story tower at the beach, or any other nonsense." Unfortunately, she cannot guarantee both the Tower's dismissal or any other nonsense. But more importantly: is this reference to "Builder's remedy" a scare tactic to the people of San Francisco or rather, an authoritarian, uniformed, non-democratic reactionary response? The Press writes so.

To illustrate additional misleading portions in this Supervisors repose, “Timing” ..and getting housing done “right”..... are two different objectives and shortcuts always produce urban decay while the other alternatives, creates urban equilibrium. Please stop and consider the superficiality of legislating by “Builders remedy” or any other cursory methods. Please travel to Asia and see what that method produces.

Even Planning Director Hillis shrinks from this threatening view that ,“There might be one or more builder’s remedy projects that would come in (?) , but the 2700 is the one we know about for certain,” (?) What is that withheld information? This too is misleading speculation but still at odds with what Supervisor Melgar alleges is what the City, not the Constituency, must avoid. The Supervisors need to get some “skin” in this game to understand. And equally important, Hillis’ statement doesn’t recognize the vagaries of how developers make money or what they will shortcut. Thus the need to structure any corporate involvement by thoughtful legislation is necessary, not cut and paste.

The confusion continues in the Board’s remarks: at the Board level, doing the “right thing” for the West Side is largely unknown and purposefully unclued to both the public and apparently other Supervisors.

Supervisor Engardio argues in the Chronical, “Let’s meet the State deadline and avoid the consequences of builders (remedy) being able to do whatever they want,” He continued, “A Salesforce-sized tower plopped on the sand next to the ocean is wrong for so many reasons.” How about asking what else is wrong about the block by block plan for destructing the Dolger plan of the West side.?

Does this Supervisor think developers will not do damage to the existing fabric of his District, left to poorly written, cut and paste legislation? The truth is there is no Master Plan for his District, only a euphemism called “soft sites”.

With all due respect, this Supervisor’s fascination with Paris, is cursory and not a model. Vienna or even Cambridge, Mass. might be useful as a model but nonetheless requires professionals to guide a new model, not legislators. As a society, we do not allow legislators to do heart surgery. There is no independent third party review (which is normal professional due diligence) to legitimate development claims and then legislate.

Engardio seems to understand when a housing proposal is obscenely absurd but, offering up a little “Domes-City” from a colleague is not how genuinely affordable housing is done within our society’s delivery system.

What Supervisors Melgar and Engardio seem to share is an amorphous need to avoid a threat, (which they know is quite probable): Housing non-sense.

These Supervisors admit housing development based on the “builders remedy”, is antithetical somehow. But we already know that the City’s arbitrary process of “soft” or “opportunity sites” is not housing by design. It is design without concern for “unintended consequences” or heeding attention to historical lessons learned..

If this legislation is driven by Sacramento’s punitive plan against the City mismanagement or misunderstanding, (such as what is buried in the flawed RHNA system), then the more important duty of the Board of Supervisors is facilitating housing for the right reasons.

The first step is to recognize it is imperative that the Board represent both property owner and renter welfare in this City and STOP seeking to negotiate amendments to the Engardio-Breed-

Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance based on the following core values:

1) **Revise the State's Rhetoric on Affordable housing**- We do not have a Housing crisis as a few brave supervisors admit; we have an unaffordable Housing crisis. Two very different things.

The focus of this legislation needs to shift to assure the delivery (not just checking a box) of livable units for families and individuals making less than \$80,000 per year from "cradle to grave".

The City already has precedents to draw from local success stories: 833 Bryant, 4900 Geary , 1369 43rd Ave, Valencia Gardens in the Mission, and 365 Fulton Street projects, all projects that are site specific based, which is a time honored planning principle exclusively performed by licensed professionals (not legislators). This legal structure is unknowingly being circumvented by this legislation.

All of these examples above can be greatly improved upon especially regarding their fiscal procurement method. But such examples as 370 Stanyan and 2550 Irving and others are disgraceful environments to their future occupants. And remember that SB 35, 9 and 10 are cut from the same unprofessional mind-set in Sacramento.

This alternate recommended combination of rational design analysis can produce a new model legislation for the right reasons. This insight will uniquely recognize the needs of homelessness as a separate medical solution as evidenced in the 365 Fulton solution. But contrary to the medical professional's recommendations, they retreat from the City's machinations. But it's more basic: Density with dignity is the mantra to guide legislation. (see item 3 for situational parallel)

2) **The Downtown Core is priority one**- Considering the 35 % vacancy rate of existing office space downtown, the massive loss of tax revenue, with property laying fallow in a once vibrant and destination Downtown. This is a Detroit-like plan for its demise. I lived through and in this tragedy. This is not "dystopian" commentary as Supervisor Engardio has described to cloud the crisis. This City should concentrate on the restoration of the downtown core as New York City is doing right now.

- The West side is a diversion from the existential necessity of the downtown core conversion. Its scale and density demands this as urbanists confirm. Temporarily facilities are also feasible and so is Public land. The Planning Department has toyed with these options.

But then why does this legislation invent a need for a range income from \$150 k to 200K? This range is not the priority or the problem. The "missing middle" is something else according to experts. This legislation will only cause more gentrification under the Engardio-Breed-Dorsey fantasy. The private market can manage this range.

3) **The Simultaneity of the Global Warming Crisi , Equity, and the Environmental Threat**- As a LEED AP and a practitioner from as far back as Ian McHarg's admonitions, this is a multiple emergency and should be understood as such. It is a profound and unprecedented existential threat. The "Builder's remedy is a simplistic un professional reaction to the reality and science of Global Warming and Climate change science.

But even more complex, because it is a multiple phenomenon, it has been exacerbated by

Governmental outdated systemic inabilities to deal with it to be sure. The City as well as the State compartmentalizes these problems and thus prevents the necessary collaboration of their solutions. The problem is not exclusively legal and for the City Attorney to solve it is folly. It is multi-dimensional. The present single line City approval process for its resolve, is obsolete.

Unbeknownst to the many regulatory agencies, City and State, they are all compartmentalized. The Global warming Crisis is critically intertwined with the Equity crisis and other social issues. Each agencies define their boundaries too short. Particularly, we know providing housing for income brackets \$80,000 K and downward have inadequate fiscal systems to realize this necessity. There is little incentive for the private sector to participate but equally, because Non-profits mechanisms consistently practice unacceptable compromises for below market rate housing, they too are not the answer. But with proper legislation, there is prospect.

These BMR income groupings should be your focus: they need the same basic health, safety and socio-psychological housing features to their homes as other higher brackets of income. In short, all housing is medical, (this is buried in our codes) and this reality should be renewed for regulatory agencies.

It is understandable that legislators might not fully understand this change if they are not currently licensed to practice the design of housing. One such publicized instance the City and State is presently allowing (but should never be allowed) is building for BMR folks on contaminated land. Another is over densifying like 370 Stanyan and 2550 Irving. HCD used to admonish practitioners to not overconcentrate. But the meaning of the word "Density" has been left to unlicensed opinion. This is what other authoritarian governments do, and for lack of genuine considerations of family health, our success stories offer a way forward.. Vive Valencia Gardens for families.

Furthermore, master planning for housing that supplies the need for \$80 K AI and below, while presently non-existent, must be a balancing act that legislation needs to reflect. Present City approval process cannot accommodate this. Calls for streamlining without understanding the administrative obstacles, miss the point and promote a further downward spiral, as evidenced by continued exponential increase of graft already published regarding specific City departments, much like what happened to Detroit but for different circumstances.

We need legislation that has the ability to adapt intelligently to this multiple crisis and a foundation of human-based processes and design principles. That is why all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings should be re-integrated into this legislation, but also along with a commitment from the City to civic government restructuring in response to existential global and humanitarian changes..

It is helpful to put this exigency in perspective: it is tantamount to what the Federal Government did in 1942 and this is a circumstance for adaptive existential change for this unprecedented new crisis. We also cannot forget to include the societal changes that have been brought on by the pandemic and how this affects housing and City Planning overall. Sacramento's thinking is pre-dated to these lessons from the pandemic and must be convinced to recognize this.

In summary, this ordinance is not like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in unintended consequences like Detroit's experience. It is still

trying to rise from its ashes.

The serious damage this legislation would cause to San Francisco is in your hands. Its neighborhoods need masterplans for community well-being not reckless densification. And the elusive goal of affordable housing are pushed out even farther out by this legislation's proposed provisions.

Thank you,

Thomas Soper

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is **not** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

A Bad Decision Making Process - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.

-
-
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
-
-
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
-
-
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
-
-
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
-
-
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
-
-
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping

demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,

Celeste Marty

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

As a tax paying voter of San Francisco I join all my fellow neighbors in saying that it's time to **stop**. Stop wasting time negotiating amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance. It is a broken ordinance and need overhauling from the ground up. We want all of our SF supervisors to get behind and support a GUT & REPLACE. Only then will a housing ordinance being to TRULY represent what it's meant to do, namely

1) to provide 100% truly affordable housing for families who really do make less than \$80,000 per year. Add it stands the housing is for mostly people who earn \$230K, which is for the low income. There is plenty of SF housing for the upper income brackets already.

2) to stay true to your voting public and civil rights by protect all current San Francisco laws which ensure environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

3) it's time to do to things well for everyone, not just the few.

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear President Peskin,

Please stop seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is not like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is an extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

David J. Romano

Dear Leaders,

Reject Housing' ordinance File #230446 gutting environmental and community protections against bad real estate development in San Francisco.

SF has the most density west of New York. Look how affordable NYC is. Adopting this ordinance amounts to abandoning your duty to protect quality of life and the beauty and character of San Francisco. Instead of capitulating to Sacramento extortion and encouraging corporate real estate dominance, fill 60,000 empty housing units and 81 million square feet of vacant Office Space 'BEFORE' we allow developers and density advocates to undermine environmental values, quality of life, aesthetic continuity and the character of our neighborhoods while making the people who live here voiceless.

There are sensible alternatives,
Remember the Fontana Building Revolt of the sixties,
Reject Ordinance 234460 and support "Our Neighbor Voices Initiative" to amend the state constitution. The majority of Californians do.

"Gut & Replace" strategy to completely delete all of the Mayor's text and replace it with a new ordinance that will produce 100% truly affordable housing for families making less than \$80,000 per year, and which will protect all existing public noticing and hearings for real estate projects.

Mayor Breed; Supervisors Dorsey, Engardio
BOARD OF SUPERVISORS

Page 68

Dear Mr. Carroll, Supervisors and Staff:

Attached above is a screenshot from [Legislative Version 5, page 68](#), as found on the LUT Committee Agenda website.

Please note [line 14](#) above. This is proposed Section 317 (c) (2) (B) which starts, *"No more than two units..."*

In Supervisor Mandelman's duplicated File the *"more than two"* is eliminated from this subsection. (See [page 72, line 1](#) of the duplicated File).

This revision from Supervisor Mandelman makes sense.

Why create a potential loophole with three little words?

Please remove the *"more than two"* phrase before passing the Mayor's Ordinance onto the full Board.

Thank you.

Sincerely,
Georgia Schuttish

Subject: For LAND USE Nov 27: *SUE* vs CA Housing Mandates - Gut & Replace Mayor's "Housing" Ordinance File #230446
Date: Tuesday, November 21, 2023 7:13:37 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi Supervisors,

Between the Budget and Legislative Analyst's (BLA's) recent housing vacancy report (link below) and clear reports about the *decline* of the California and San Francisco populations following the pandemic, it is abundantly obvious to anyone with a junior high school education that bills like SB 423 to force obviously unneeded housing projects down the throats of California municipalities, are flat-out completely out of touch with reality, legally ridiculous, and can likely be effectively challenged in court. See the BLA vacancy report at: https://sfbos.org/sites/default/files/BLA.Residential_Vacancies.Update.102022.pdf

Regardless, there is no reason whatsoever to 'negotiate' with a hostile Mayor (who is completely coopted by real estate investment interests) over amendments to her disastrous 'Housing' ordinance File #230446. If we feel we need to put forward a housing ordinance to placate state officials on a deadline by early next year, then that ordinance needs to be written by San Francisco Supervisors, and community organizers, who are strong on affordable housing and environmental policy (*not* written by Mayor Breed and her Big Tech and Big Real Estate donor cronies). **Sue The State, To Block Housing Mandates** See the following link to an article which properly highlights the total insanity of the state's forced housing policy, and shows why the Board of Supervisors and the City Attorney need to move immediately, to sue and file for injunctions, to block the state of California's fantasyland housing mandates. "California's population is still shrinking. These Bay Area counties lost people" by Sophia Bollag for the SF Chronicle LINK:

<https://www.sfchronicle.com/politics/article/california-population-numbers-18000501.php>

GUT & REPLACE Mayor's 'Housing' Ordinance It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *not* like the previous, very limited Melgar 'Family Housing' ordinance. The

Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal

agencies have falsely declared "cleaned up").

-

The Climate Crisis - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

Eric Brooks, Coordinator

Hello, We cannot gut the work that has already been done to create truly affordable housing. We have the right to have homes that actually serve the workers, teachers, health care workers, labor, college students, artists and all those who contribute to making this city great!

Politics needs to be about ethical and real solutions, compromising is a nice word for selling out.

In truth, Magick Altman

Demand Supervisors "GUT & REPLACE" Mayor-Engardio-Dorsey Attack on Environment & Affordable Housing

Next Hearing: Monday, November 27, 1:30pm at the Land Use & Transportation Committee
Email Comments Now & Attend The Hearing If You Can

Hi all,

If you have not yet done so, email the full Board of Supervisors now to ensure they receive your comment by tomorrow, Tuesday November 21, before the Thanksgiving holiday (see [EMAIL ACTION](#) instructions below)

THEN: Attend next Monday's November 27 City Hall Hearing in person if you can.

The Mayor's and Supervisors Joel Engardio and Matt Dorsey's monster 'Housing' ordinance gutting environmental and community protections against bad real estate development in San Francisco, is again before the Land Use & Transportation Committee this Monday, November 27, sometime after 2pm.

We've had success in holding back this legislation but still have a *major* problem.

While the ordinance is so destructive, amendments can't fix it, some of our best ally supervisors such as Dean Preston and Aaron Peskin are *still* unacceptably seeking to negotiate with the Mayor to amend the text, when they should instead use a "Gut & Replace"

strategy to completely delete all of the Mayor's text and replace it with a new ordinance that will produce 100% truly affordable housing for families making less than \$80,000 per year, and which will protect all existing public noticing and hearings for real estate projects.

We need to **demand** the Land Use Committee Supervisors **STOP** talking about amending the ordinance, and instead move to completely delete and replace it.

EMAIL ACTION

Here are instructions and sample talking points for emailing your Supervisors now to oppose Mayor Breed and Supervisor Engardio and Dorsey's ordinance. (See instructions for attending and speaking at the Monday, November 27 hearing below.)

Please email comments now to the Board of Supervisors

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

Dear Supervisors,

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is **not** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would

result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

(end of sample email)

****INSTRUCTIONS FOR IN PERSON COMMENTS MONDAY NOVEMBER 27, 1:30 PM****

NOTE: City Hall is no longer allowing phoned-in public comments!

*For **Talking Points** see further below.*

To view the Land Use Committee agenda online, after this Wednesday, go to the PDF link:

https://sfbos.org/event/agenda/2023/lut112723_agenda.pdf

WHAT: Land Use & Transportation Committee, Rm 250 - SF City Hall - Polk @ McAllister

Agenda Item (not yet numbered) 'Housing Production' Sponsors: Mayor, Engardio, Dorsey - File #230446

WHEN: Monday, November 27 - Committee Begins at 1:30pm

IMPORTANT The 'Housing' ordinance will probably be later in the agenda, preceded by other lengthy items and will likely be heard between 2pm and 3pm.

Note: If you live or work close to City Hall, you can watch the Land Use Hearing online and follow how close the committee is to File #230446, at the video link:

<https://sfgovtv.org/ch1live>

****TALKING POINTS****

Start by saying your name (and your organization or neighborhood) & then insist of the supervisors:

"You must GUT & REPLACE the Engardio-Breed-Dorsey 'Housing Production' Ordinance."

then, state two or three of the following talking points that are most important to you:

It is imperative that you STOP seeking to negotiate amendments to this terrible Ordinance and instead move to fully GUT & REPLACE the text with a **new** ordinance that will:

- produce 100% truly affordable housing for families making less than \$80,000 per year, and
- fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.
- This ordinance is **not** like Supervisor Melgar's very limited 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.
- This ordinance contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

[end of sample public comments]

That's the update and action!

Reply with any questions.

Subject: Public Comment to Oppose Housing Ordinance File No. 230446 - Land Use & Transportation Committee Hearing
November 27, 2023, 1:30 PM

Dear Supervisors and City Officials,

I'm writing to oppose the passage of Housing Ordinance File No. 230446 which aims to be affordable housing, but instead precludes most of the hard-working families like teachers and San Francisco City employees needing housing because the minimum income required to live there is too high.

More importantly, it contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year.

This ordinance would worsen:

-
-
- **A Bad Decision**
- **Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap
- this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
-
-
-
-
- **Corporate Housing**
- **Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a
- neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to
- *all* housing, not just rent controlled housing.
-
-
- **The Unaffordable Housing Crisis**
- - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for
- those income levels!
-
-
- **The**
- **Homelessness Crisis**
- - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health,
- street crime, and underemployment.
-
-
-
-
- **The**
- **Vacant Housing Crisis** -
- San Francisco has at least 60,000 vacant housing units, most of them *far*

- overpriced.
- We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
-
-
-
- **The**
- **Environmental Justice & Equity Crisis -**
- This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and
- radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
-
-
-
-
- **The**
- **Climate Crisis -**
- This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more
- greenhouse gases, not less.
-

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please replace this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity with a newly created different ordinance that will produce 100% truly affordable housing for families like teachers and City workers making less than \$80,000/yr despite working full time in San Francisco.**

Please fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

Thank you.

Fall Leaves

Dear San Francisco Supervisors,

STOP seeking to negotiate with amendments to the flawed and one sided Engardio-Breed-Dorsey 'Housing' Ordinance.

Instead move to create a fully new ordinance that will do the following:

1) produce 100% truly affordable housing for families making less than \$80,000 per year, and

2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

Start again please and do better, much better, this time by representing all residents of San Francisco with a housing ordinance that preserves existing housing and creates affordable public housing for low income.

Thank you.

Subject: GUT & REPLACE Engardio-Breed-Dorsey "Housing" Ordinance File #230446
Date: Tuesday, November 21, 2023 12:42:11 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Supervisors:

Please stop trying to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance. It needs to be gutted and replaced with whole new house bill one that:

- 1) Produces 100% truly affordable housing for families making less than \$80,000 per year.
- 2) Fully protects all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is not like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced

housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!

- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

During a time when SF is on track to have the deadliest overdose year on record, we need to invest in affordable housing now more than ever.

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully **GUT & REPLACE** the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is **not** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision-Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is an extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five-year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,
 Kaylena Katz
 SFSU MPH candidate 2025

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey "Housing" Ordinance File #230446
Date: Tuesday, November 21, 2023 9:18:49 AM
Attachments: [231121 SFBOS landuse dorsey breed engardio legislation.pdf](#)

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Please see the attached memo in regards to the Housing Ordinance File #230446

I will not be able to attend the hearing, however would like to submit my comments in support of gutting and replacing the Engardio Breed Dorsey Housing Ordinance which ignores transit/transportation and public ammenities, open space, and the ongoing problems of larger redevelopments of neighborhoods without public input and comment.

A.Goodman D11

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

Dear Supervisors,

I have been involved in housing issues in San Francisco for some time submitting public comment on major projects, environmental and transportation concerns, essential housing and larger public housing projects. My concerns have only increased with the poorly done Engardio-Breed-Dorsey Housing ordinance, and its failure to properly "correct" housing legislation and current projects that have been delayed or stalled due to transit projects being unfunded, housing projects taking 20-40 years to complete, and options that are not being seriously considered such as infill, and transit focused housing development with the emphasis on transit being built prior to the housing density.

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

1) produce 100% truly affordable housing for families making less than \$80,000 per year, and provide transit and transportation improvements outside the downtown to lessen auto impacts. (Ex: 800 brotherhood way had one bus-stop and 3-4 car garages. Where is the transit changes when the religious institutions on brotherhood start to change to housing per recent legislation?

2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings. Too many projects are going forward without billboard signs and visual images of what is to be built, and then project sponsors renege on the proposed improvements. (Ex: JHSF in SF, public plaza is sinking, other corner at Avalon was reduced in glazing, and public amenities chairs and tables, and no retail storefront design was done to incentivize the retail corridor, in addition street trees were killed damaged and not replaced, and no bio-swales or improvements on steep sloped streets were done, including any trash and daily cleanings besides gas blowers on off-street sweep days) These were submitted to the D11 supervisor and still nothing has been done post the new construction of facilities. What use is noticing when follow-up and follow-through is negligent.

This ordinance is *not* like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing. Where is there a north south line in the sunset on sunset blvd or 19th as proposed by Wiener prior? How can you add more housing when trains do not operate in loops or linkages to other districts without transfers. The system must have a direct around the city loop and linkage.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year! Develop sound rental housing, by purchasing back larger sites like parkmerced,

make a bigger difference through an infill option and securing the sound housing before developers flip properties to new owners.

This ordinance would worsen:

A Bad Decision Making Process - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year. Demolition is the MOST unsound environmental solution, projects that demolish vs. infill and rehabilitate are on the wrong trail and route for a sustainable future for all.

Corporate Housing Takeovers - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need ten year prohibitions on corporate housing speculation which apply to all housing, not just rent controlled housing. Larger redevelopment groups are targeting the largest sites like public housing for 99 year leases that will allow them tax write offs and redevelopment rights. The corporate flipping is constantly ignored by the SFBOS see Parkmerced and Stonestown for where the prior essential rental housing has gone.

The Unaffordable Housing Crisis - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!

The Homelessness Crisis - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

The Vacant Housing Crisis - San Francisco has at least 60,000 vacant housing units, most of them far overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable! What is the current vacancy at Stonestown? Parkmerced? Public Housing sites? And new constructed buildings?

The Environmental Justice & Equity Crisis - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

The Climate Crisis - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,

Aaron Goodman

27 October 2023

Chair of the Land Use & Transportation Committee, Supervisor Melgar
Land Use & Transportation Committee Members, Supervisors Peskin and Preston

Re: Legislative File #230446, "Planning Code, Zoning Map - Housing Production"

Dear Land Use & Transportation Committee Chair Melgar and Supervisors Peskin and Preston:

Despite amendments having been incorporated into this legislation, and new amendments to be introduced on Monday, October 30, this legislation still fails to address the housing that is required by the Housing Element and by the vast majority of San Franciscans--housing that is truly affordable.

Therefore, the Race & Equity in all Planning Coalition of San Francisco (REP-SF), strongly urges the Land Use & Transportation Committee to reject this legislation and take up new legislation that:

- Puts affordable housing first;
- Protects tenants against displacement;
- Values and retains the voices and aspirations of historically marginalized communities in project approval processes with significantly shorter durations;
- Expands and modifies the Priority Equity Geographies SUD (PEG-SUD), and provides additional protections and opportunities to Cultural Districts and people who live within the expanded PEG-SUD.
- Complies with the Housing Element mandate to Affirmatively Further Fair Housing.

Earlier this week, the State's Department of Housing and Community Development (HCD) published a "report" titled ["San Francisco Housing Policy and Practice Review"](#) which we have read and analyzed. Regarding the report, please consider and incorporate the following in your deliberations:

- The "report" from HCD is full of factually incorrect statements and appears to be heavily politically motivated. The "report" does not acknowledge all the legislation already passed and in process to reduce constraints:
 - The City has already passed several significant measures intended to "reduce constraints" for market rate housing. These include:
 - [File #230026](#): Creates the Family Housing Opportunity Special Use District.
 - [File #230374](#): Cuts more than a year off the site permit and building permit process.
 - [File #230764](#) and [File #230769](#): Reduces impact fees paid by market rate developers.
 - [File #230855](#): Reduces inclusionary housing requirement for market rate developers.

- [File #230732](#): Streamlines commercial properties converting to residential.
 - The City has also proposed other measures that are still pending Committee action, including:
 - [File #230734](#): Replaces residential density limits in Certain Neighborhood Commercial Districts.
 - [File #230735](#): Removes residential density limits in Neighborhood Commercial Districts.
 - [File #230372](#): Exempts projects from impact fees that convert from commercial to residential
- The "report" ignores the market realities of high interest rates and other development costs that are completely independent of San Francisco's approval processes. The fact that few permit applications were filed over the past several months reflects this market reality and the fact that developers build in order to make a profit.
 - For-profit developers don't build or propose to build in order to meet RHNA "supply" goals, or to bring the price of housing down, or to house those who are homeless.
- The "report" fails to acknowledge that tens of thousands of units have been approved by our Planning Dept - and that these units are not proceeding into construction because of developers' business decisions, not due to any bureaucratic failings.
- Public policy interventions are better placed with 100% truly affordable housing because public policy and public investment in truly affordable housing result directly in housing being built.
- The "report" ignores all of the [equity and Affirmatively Furthering Fair Housing \(AFFH\) -oriented actions](#) in the Housing Element that HCD approved in January.
 - With its "report", HCD has basically written its own Housing Element for San Francisco - ignoring AFFH and dozens of implementing actions that would move the Housing Element toward racial and social equity. This is an important part of HCD's legal charge as a department, yet they are neglecting their own civil rights obligations.
 - The "report" fails to understand the complexity of San Francisco's dense urban context - by far the most densely populated major City in the State, and its recommendations threaten to inflict even more trauma and displacement on historically marginalized communities than has already been experienced in prior Housing Element cycles.
 - The "report" fails to acknowledge the Statewide legal obligation for all cities, including San Francisco to Affirmatively Further Fair Housing [pursuant to AB 686](#). Nothing in HCD's report moves in the direction of AFFH - none of it helps affordable housing. This "report" simply resorts to threats rather than taking any initiative to provide resources for affordable housing.
- The "report" threatens to silence communities - denying us of our constitutional rights to due process and freedom of expression.
 - As such, the State HCD threatens to abuse and overreach its police powers by denying our communities of our constitutional rights.
- The "report" fails to address corruption that has tainted the project approval process.
- HCD's "report" threatens the Board of Supervisors to pass this legislation, File #230446, but it is the power of our own legislature to consider and act on legislation as it sees fit.

REP-SF expects our State government to support our City's efforts to enact policies that work for people most in need rather than silencing our communities, denying our self-determination, while transferring that power to developers who only have their own profits as their goal.

If the city bows to the state's pressure on October 30th and passes this additional piece of legislation to further "reduce constraints"--despite the fact that **San Francisco already has a backlog of tens of thousands of already-entitled market rate developments, and more than 60,000 vacant market rate units**--this would be a denial of our City's legal obligation to affirmatively further fair housing (AFFH) and policy objectives to prioritize racial and social equity.

As policymakers, we urge you to ask, with the legislative decisions you make, "who are we as a City building for?". [This article from the San Francisco Chronicle, "SF's luxury condo market is cooling. Here's why it might be a good time to buy"](#) on October 10, 2023 indicates that most of the condo buildings being built in San Francisco are largely vacant, and that the market for these units is foreign investors. There isn't any discussion in this article among developers about making these units available or affordable to San Francisco's low to moderate income households either in the short or long term. This article underscores the fact that in order to provide housing that very-low, low, and moderate income households can truly afford, [we need to prioritize other Implementation Actions from the Housing Element that focus on truly affordable housing](#).

Conclusion

Despite past and newly proposed amendments from Supervisors and the Mayor, and despite the recent, misguided pressure from the State, this legislation must be rejected as it fundamentally moves our City in entirely the opposite direction of racial and social equity with an approach that silences our communities, encourages demolitions of existing housing and displacement of tenants throughout vast areas of the City, while providing no resources or meaningful benefits for affordable housing.

REP-SF requests that the Land Use & Transportation Committee reject this legislation, and commence working with low income and people of color communities throughout the City to move forward legislation that implements the Housing Element to affirmatively further fair housing and center racial and social equity. REP-SF looks forward to working with you all on new legislation to reorient the priorities of Housing Element implementation.

Respectfully submitted,

Joseph Smooke

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

Dear Supervisors,

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

1) produce 100% truly affordable housing for families making less than \$80,000 per year, and

2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *not* like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and**

gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.

-
-
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. **We need ten year prohibitions on corporate housing speculation which apply to all housing, not just rent controlled housing.**
-
-
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". **We already have a 50% oversupply of housing for those income levels!**
-
-
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
-
-
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. **We do not need more housing construction, we need to make our existing housing space affordable!**
-
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
-

- **The Climate Crisis - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.**

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,
Mary Ellen O'Connor - zip code: 94122

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey "Housing" Ordinance File #230446
Date: Monday, October 30, 2023 1:24:05 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I join my friends and neighbors in communicating our side of this important conversation with all of our city supervisors.

In a world where force and action is increasing daily, it is even more vital that we retain our ability to talk about difficult things. This means remaining human within this increasingly complex and impersonal system.

These are difficult conversations for everyone. It is stressful. That is the truth. It can only work when we remain in contact with each other as individuals, human beings who all want the same thing, or at least I hope we do, which is to live free of unnecessary and inhumane suffering.

Your project has an expected goal of helping those who suffer the most in our society, those of severely limited means, without good housing and with the lowest incomes. Yet, my neighbors and friends find this goal is far from overtly explained and even erroneous. Is the new low income qualification really up to \$230K? Surely this is a typo that needs to be corrected.

We have no issue supporting low income housing. That is great!

My neighbors and I do not understand how making an amendment to this particular ordinance, as laid out, can honestly work.

We really appreciate the efforts of Aaron Peskin –whose father was my mentor and professor at SFSU– and Supervisor Dean Preston. We kindly request that they reconsider their views of the amendment vis a vis the calibre of the ordinance. Do they believe in their amendment? We believe that they will see how an amendment to a troubled ordinance can't help. Please, may the ordinance receive a Gut & Replace.

Yours sincerely,

Bronwen Lemmon

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey
'Housing' Ordinance File #230446

Dear Supervisors,

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is **not** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
-
-
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five

year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.

-
-
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
-
-
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
-
-
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
-
-
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
-
-
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more

homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Subject: Regarding Ordinance File #230446 (on the agenda of the Land Use & Transportation Committee today): OPPOSE Engardio-Breed-Dorsey "Housing" Ordinance File #230446
Date: Monday, October 30, 2023 1:21:16 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

October 30, 2023

To: The SF Board of Supervisors and the Land Use & Transportation Committee

From: Art Persyko, SF Gray Panthers Board member

Regarding Ordinance File #230446 (on the agenda of the Land Use & Transportation Committee today)

Dear SF Board of Supervisors and the Land Use & Transportation Committee:

Please do not support streamlining the demolition of rent-controlled housing in SF. Why in the world should you, SF's civic leaders allow speculators to profit from tearing down down existing rent-controlled housing in our city? And we should certainly not do so without any meaningful community input or oversight from San Franciscans. Don't let the private market steamroll you, the SF Board of Supervisors, to get you to enable lining the pockets of developers, who only have allegiance to their bottom line, and do so at the expense of the best interests of the people of SF, i.e. which would be preserving and building TRULY affordable housing in SF. So:

Please STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance; and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is not like the previous Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- A Bad Decision Making Process - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.

•
Corporate Housing Takeovers - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need ten year prohibitions on corporate housing speculation which apply to all housing, not just rent controlled housing.

• The Unaffordable Housing Crisis - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!

•
The Homelessness Crisis - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

•
The Vacant Housing Crisis - San Francisco has at least 60,000 vacant housing units, most of them far overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!

•
The Environmental Justice & Equity Crisis - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

•
The Climate Crisis - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Again: Do not support streamlining the demolition of rent-controlled housing. Why in the world should we allow speculators to profit from tearing down existing rent-controlled housing and we should certainly not do so without any meaningful community input or oversight? Don't let the private market steamroll you, the Board of Supervisors to enable lining the pockets of developers, who only have allegiance to their bottom line, and do so at the expense of the best interests of the people of SF, i.e. which would be preserving and building truly affordable housing in SF.

Thank you,

Sincerely, Art Persyko
SF Gray Panthers Board member
94109

Subject: GUT & REPLACE Engardio-Breed-Dorsey "Housing" Ordinance File #230446
Date: Monday, October 30, 2023 12:10:56 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am writing as a concerned San Franciscan. It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *not* like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.

-
-
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
-
-
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
-
-
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
-
-
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
-
-
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
-
-
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and

is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,

Grace

Subject: Comments from Carolyn Kenady on Item #3 of Oct. 30, 2023 - Land Use and Transportation Committee Meeting Agenda

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To Chair Melgar and Cttee members

From: Carolyn Kenady, chair of the DHIC, a neighborhood association in District 8.

This proposed legislation will decimate the provisions and protections in our planning code and process that enabled residents and neighborhood Orgs to have input on projects. I am astounded that this Committee and our Mayor have not learned the lesson that the market dictates how much and what type of housing gets built. As the REP Coalition's letter from Joseph Smooke documents, these changes will dramatically decrease protections with no proven gain in housing supply.

Since market conditions have nearly halted market-rate housing construction, why are we not doubling-down on increasing affordable housing production? The shortage of affordable housing is the single biggest factor affecting our service economy workforce and therefore our City's economy.

Why this legislation now? Recent legislation has already reduced so-called "constraints" and streamlined the process including:

-
-

The Family Housing Opportunity Special Use District that incentivizes more housing

-
-
-
- Cutting a year or more off the site & building permit processes.
-
-
-
- Reducing impact fees and inclusionary requirements.
-
-
- Streamlining the process for converting commercial to residential.
-

Regarding the proposed legislation now before the Committee, I ask you to reconsider these changes:

- 1.
- 2.
3. Renter protections:
4. They ONLY go as far as allowing notifications and CUs for DEMOLITION.
We need protections for the alterations and remodels that cause "renovictions" leading to tenants displacement.
- 5.
- 6.
- 7.
8. Rear yard set-backs:
9. reduces the rear yard requirements even further than Supervisor Melgar's legislation
- 10.
- 11.
- 12.
13. Home-SF projects:
14. allows a substantial adverse change in the significance of an historic resource.
- 15.

Please stand up for San Francisco's residents and to protect and increase our affordable housing stock.

Thank you.

Carolyn

Reject INEQUITABLE Housing Ordinance File #230446 and Replace if necessary

Dear Supervisors:

There are many reasons to oppose this measure and ask you to reject it, or if necessary replace it; others have expressed important reasons to do this, but I would like to focus on the INEQUITY in the measure.

The supposed improvements in overall housing would be disproportionately obtained by the loss of housing by those with the least resources.

Please reject, or if necessary replace this measure which would disproportionately harm vulnerable and less-resourced residents of San Francisco in favor of shifting housing availability increasingly to wealthier, less vulnerable people, including non-residents.

Sincerely yours,

Citizen2023

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I join my friends and neighbors in communicating our side of this important conversation with all of our city supervisors.

In a world where force and action is increasing daily, it is even more vital that we retain our ability to talk about difficult things. This means remaining human within this increasingly complex and impersonal system.

These are difficult conversations for everyone. It is stressful. That is the truth. It can only work when we remain in contact with each other as individuals, human beings who all want the same thing, or at least I hope we do, which is to live free of unnecessary and inhumane suffering.

Your project has an expected goal of helping those who suffer the most in our society, those of severely limited means, without good housing and with the lowest incomes. Yet, my neighbors and friends find this goal is far from overtly explained and even erroneous. Is the new low income qualification really up to \$230K? Surely this is a typo that needs to be corrected.

We have no issue supporting low income housing. That is great!

My neighbors and I do not understand how making an amendment to this particular ordinance, as laid out, can honestly work.

We really appreciate the efforts of Aaron Peskin –whose father was my mentor and

professor at SFSU– and Supervisor Dean Preston. We kindly request that they reconsider their views of the amendment vis a vis the calibre of the ordinance. Do they believe in their amendment? We believe that they will see how an amendment to a troubled ordinance can't help. Please, may the ordinance receive a Gut & Replace.

Yours sincerely,

Bronwen Lemmon

October 30, 2023

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

Dear Supervisors,

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is **not** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will

demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.

-
-
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten* year prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
-
-
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
-
-
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
-
-
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
-
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island

(which local, state and federal agencies have falsely declared "cleaned up").

-
-
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,

Subject: Regarding Ordinance File #230446 (on the agenda of the Land Use & Transportation Committee today): OPPOSE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

October 30, 2023

To: The SF Board of Supervisors and the Land Use & Transportation Committee

From: Art Persyko, SF Gray Panthers Board member

Regarding Ordinance File #230446 (on the agenda of the Land Use & Transportation Committee today)

Dear SF Board of Supervisors and the Land Use & Transportation Committee:

Please do not support streamlining the demolition of rent-controlled housing in SF. Why in the world should you, SF's civic leaders allow speculators to profit from tearing down down existing rent-controlled housing in our city? And we should certainly not do so without any meaningful community input or oversight from San Franciscans. Don't let the private market steamroll you, the SF Board of Supervisors, to get you to enable lining the pockets of developers, who only have allegiance to their bottom line, and do so at the expense of the best interests of the people of SF, i.e. which would be preserving and building TRULY affordable housing in SF. So:

Please STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance; and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is not like the previous Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- A Bad Decision Making Process - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.

- Corporate Housing Takeovers - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need ten year prohibitions on corporate housing speculation which apply to all housing, not just rent controlled housing.

- The Unaffordable Housing Crisis - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!

- The Homelessness Crisis - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

- The Vacant Housing Crisis - San Francisco has at least 60,000 vacant housing units, most of them far overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!

- The Environmental Justice & Equity Crisis - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

- The Climate Crisis - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Again: Do not support streamlining the demolition of rent-controlled housing. Why in the world should we allow speculators to profit from tearing down down existing rent-controlled housing and we should certainly not do so without any meaningful community input or oversight? Don't let the private market steamroll you, the Board of Supervisors to enable lining the pockets of developers, who only have allegiance to their bottom line, and do so at at the expense of the best interests of the people of SF, i.e. which would be preserving and building truly affordable housing in SF.

Thank you,

Sincerely, Art Persyko

**Reject INEQUITABLE Housing Ordinance File
#230446 and Replace if necessary --
Land Use Committee Meeting Today, 10/30/23**

Dear Supervisors:

There are many reasons to oppose this measure and ask you to reject it, or if necessary replace it; others have expressed important reasons to do this, but I would like to focus on the INEQUITY in the measure.

The supposed improvements in overall housing would be disproportionately obtained by the loss of housing by those with the least resources, and those already less protected from losing their homes such as renters with already-too-weak rent control protections.

Please reject, or if necessary replace this measure which would disproportionately harm vulnerable and less-resourced residents of San Francisco in favor of shifting housing availability increasingly to wealthier, less vulnerable people, including non-residents.

Sincerely yours,

Citizen2023

Subject: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am writing as a concerned San Franciscan. It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is **not** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
-
-
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
-
-
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
-
-
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
-
-
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
-
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
-

- - **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,
Grace

Subject: Fw: Please vote NO on "Housing Production", Land Use Committee - 10/30/23

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors -

I would like to add that we need to produce 100% of real affordable housing for families that are struggling to survive in San Francisco, and the city needs to fully protect all current S.F. laws that ensure environmental and community notices, discretionary review, demolitions, conditional use permits, and appeal hearings. Removing these protections would put a lot of San Franciscans at risk of losing their housing, especially communities that I mentioned in my 10/2/23 letter.

Thank you - Iris Biblowitz, RN

Subject: Please vote NO on File #230446 - "Housing Production", agenda item 4, Land Use Committee - 10/2/23

Dear Supervisors of the Land Use Committee -

Please deliver a strong rebuke of this plan that will give the green light to destroy environmental and community protections for real affordable housing and as well as allow corporate real estate deals that have had extremely harmful effects on our communities for

over 2 decades,. especially on Black and Latinx families, and seniors and people with disabilities. Gentrification has been devastating in my neighborhood in the Mission, and this proposal would increase the risks of losing large amounts of affordable rent-controlled housing. We know that there's about 30% of the needed affordable housing in SF now (from the Housing Element), and over 100% of needed market-rate housing. We also know that 70% of people who are unhoused did have housing in the past several years.

I can only see harm that comes from this latest proposal. The streets are filled with people struggling to survive. We need real affordable housing, increased dignified SROs (where there are many vacant rooms), to open up many of the 40,000 (isn't that the latest number?) of vacant units in SF, and focus on the commitment to build 100% real affordable housing.

As a nurse, I've documented the health effects of people dealing with evictions and threats of evictions. The results are upsetting, with increases in strokes, cardiac issues, anxiety, insomnia, depression, increase in Parkinson's symptoms, high blood pressure and blood sugars. This plan will only increase these risks. The same communities who were most severely affected by COVID will be most affected by this plan for dramatic waivers of local environmental, community, and demolition reviews, and will have a destructive effect on communities that are desperate for real affordable housing. The scenes on the streets of SF tell the story. We need to act fast to reject this latest proposal and find humanitarian policies that work to house people and keep communities alive.

Haven't we learned anything in the past 20+ years?

Sincerely - Iris Biblowitz, RN

Dear Leaders,

Reject Housing' ordinance File #230446 gutting environmental and community protections against bad real estate development in San Francisco.

SF has the most density west of New York. Look how affordable NYC is. Adopting this ordinance amounts to abandoning your duty to protect quality of life and the beauty and character of San Francisco. Instead of capitulating to Sacramento extortion and encouraging corporate real estate dominance, fill 60,000 empty housing units and 51 million square feet of vacant Office Space 'BEFORE' we allow developers and density advocates to undermine environmental values, quality of life, aesthetic continuity and the character of our neighborhoods while making the people who live here voiceless.

There are sensible alternatives,  
Remember the Fontana Building Revolt of the sixties,  
Reject Ordinance 234460 and support " Our Neighbor Voices Initiative" to amend the state constitution. The majority of Californians do.

**Subject:** OPPOSE THIS ORDINANCE: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I have written 2-3 other times and added my personal points / comments to the below letter so I will not be sending those same letters again. If you'd like to re-read them, they can be pulled from your records.

Please FORGIVE THE CAPS but felt needed to highlight points. Also, I may be repeating some of those points/comments from previous letters but felt important to repeat and emphasize them.

1) There is NO reason to keep creating ordinances like this or any others. They will DESTROY OUR NEIGHBORHOODS for MANY reasons (e.g. INFRASTRUCTURE, TRAFFIC, ENVIRONMENT ETC.) as to BUILD ON EVERY CORNER / 4 PLEXES ON EVERY SFR LOT REGARDLESS OF THE HEIGHT BUT ESPECIALLY DO NOT BUILD OVER 2 STORIES

2) The POPULATION HAS & IS STILL DECLINING! There are ALREADY APPROXIMATELY 143,000 units (that will be, are & in the pipeline) AVAILABLE. The MATH is SIMPLE!  $143,000 - 82,000 \text{ RHNA \#S} = 61,000 \text{ LEFT}$ . THERE ARE OTHER OPTIONS - AKA CONVERTING EXISTING UNITS/HOUSING!

3) There are NO reasons to BUILD MORE HOUSING when there are PLENTY VACANT UNITS (SFR/OTHER) that can be CONVERTED.

4) RHNA (HCD) has INCORRECTLY OVER-INFLATED THE # OF HOUSING WE NEED IN SF / CALIFORNIA. Support an AUDIT!

5) These type Ordinance will NOT BE FINANCIALLY BENEFICIAL TO THE PERSON SELLING THEIR HOME -

#### EXAMPLES:

- a) Owner(s) will have to pay CAPITAL GAINS - CREATING LESS FINANCIAL POWER/FREEDOM available to Owner(s)
- b) Will NEED most likely to RENT somewhere while unit is being constructed and will DEplete THEIR FUNDS
- c) CREATES STRESS & COSTS OF MOVING OUT & BACK IN INTO A UNIT ONCE BUILT/AVAILABLE, which a UNIT MAY NOT EVEN BE AVAILABLE to the Owner(S) who sold property to build one of these NEW Housing Units/Projects
- d) Owner will have GONE THROUGH MORE FUNDS and have LESS FUNDS AVAILABLE TO THEM.
- e) WILL NOT have an ASSET TO LEAVE TO THEIR

## HEIRS

6) Here is what is going to happen, some of you may remember GENEVA TOWERS, some of you may have heard about it, but at any rate, this is URBAN RENEWAL 2.0! These will SIT VACANT & BECOME A BLIGHT ON THE COMMUNITY because they WILL NOT SELL. Projects like this are FOLLOWING THE SAME TRAJECTORY!

A current perfect example of this is THE WESTERLY @ 2800 SLOAT / WAWONA. This complex has been completed for 5 years and believe only 1/3 are sold at present (mostly to speculators). It appears a small percentage of these are actually owner occupied . Most seem to be occupied by renters or Airbnb which may NOT be allowed by the Complex By-laws. The REST SIT VACANT! The BUILDING has been FALLING APART ALREADY and they are STRIPPING DOWN THE SIDING THAT WAS FALLING APART and CONSTRUCTED POORLY.

This is a BLIGHT on the NEIGHBORHOOD.

7) If this Ordinance passes, it most likely will be MANAGED by a Non-Profit. We ALL know the ISSUES and how BADLY the NON-PROFITS MANAGE ANYTHING IN THIS CITY !

8) We should NOT allow DEVELOPERS, the CITY or the STATE to CREATE BILLS OR ORDINANCES TO BUILD UNDER THE GUISE OF AFFORDABLE HOUSING. IT'S ANYTHING BUT AFFORDABLE, IT'S SUBSIDIZED HOUSING TO FUND DEVELOPERS, REAL ESTATE SPECULATORS & RETIREMENT FUNDS.

9) Finally, as much as I adore Paris, we are NOT PARIS! We are SAN FRANCISCO & UNIQUE! Please do NOT DESTROY our SFR NEIGHBORHOODS!

Please READ the LETTER below from The Coalition with ALL OTHER IMPORTANT POINTS.

Thank you.

Renee Lazear

---

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!

- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

Renee Lazear

Chair Myrna Melgar  
Land Use and Transportation Committee  
San Francisco Board of Supervisors  
San Francisco, CA 94102

**RE: File No. 230446, “Planning Code, Zoning Map – Housing Production”  
Hearing October 30, 2023, Agenda Item No. 4**

Dear Chair Melgar and Supervisors:

The Asian Law Caucus writes to express our concern that the current proposed legislation fails to protect and preserve our existing rent-controlled housing stock. We urge the committee not to advance the current proposal for consideration by the full board, and we echo the concerns raised by the San Francisco Anti-Displacement Coalition (SFADC).

We write to specifically emphasize the need for public notice and comment procedures. Our Housing Rights program serves low-income tenants throughout San Francisco. We have a particular emphasis on serving immigrant tenant households, many of whom experience significant challenges in accessing housing that is affordable to them. Many of our clients are elderly, disabled, non-English speakers. Our clients are at particular risk of being unfairly displaced through a streamlined process with limited procedural protections. Without public notice and comment, our clients lose the preemptive opportunity to advocate for themselves.

While the current legislation retains the conditional use authorization (CUA) within Priority Equity Geographies and, with Supervisor Melgar’s amendments, preserves the CUA for any rent-controlled unit within the RH districts within the Family Housing Opportunity SUD, this coverage is not complete. As noted by the SFADC, non-RH zoning districts within the Family Housing Opportunity SUD (i.e. Residential Mixed (RM), Residential Commercial (RC), or Neighborhood Commercial (NC) districts) do not retain the CUA.

We know that low-income tenants do not decide where to live based on zoning. Rather, low-income immigrant tenants rent and live in the housing that they can afford.

Eliminating the CUA requirement for the demolition of rent controlled units removes public notice and the opportunity for public comment, further removing opportunities for tenants to have a voice in a process that directly impacts whether they will have a place to live in the future. Accordingly, this important procedural protection must be maintained city-wide.

Sincerely,

A handwritten signature in black ink that reads "Gabriela Villareal". The script is fluid and cursive, with the first name and last name clearly distinguishable.

Dear Supervisors,

I have written 2-3 other times and added my personal points / comments to the below letter so I will not be sending those same letters again. If you'd like to re-read them, they can be pulled from your records.

Please FORGIVE THE CAPS but felt needed to highlight points. Also, I may be repeating some of those points/comments

from previous letters but felt important to repeat and emphasize them.

1) There is NO reason to keep creating ordinances like this or any others. They will DESTROY OUR NEIGHBORHOODS for MANY reasons (e.g. INFRASTRUCTURE, TRAFFIC, ENVIRONMENT ETC.) as to BUILD ON EVERY CORNER / 4 PLEXES ON EVERY SFR LOT REGARDLESS OF THE HEIGHT BUT ESPECIALLY DO NOT BUILD OVER 2 STORIES

2) The POPULATION HAS & IS STILL DECLINING! There are ALREADY APPROXIMATELY 143,000 units (that will be, are & in the pipeline) AVAILABLE. The MATH is SIMPLE!  $143,000 - 82,000 \text{ RHNA \#S} = 61,000 \text{ LEFT}$ . THERE ARE OTHER OPTIONS - AKA CONVERTING EXISTING UNITS/HOUSING!

3) There are NO reasons to BUILD MORE HOUSING when there are PLENTY VACANT UNITS (SFR/OTHER) that can be CONVERTED.

4) RHNA (HCD) has INCORRECTLY OVER-INFLATED THE # OF HOUSING WE NEED IN SF / CALIFORNIA. Support an AUDIT!

5) These type Ordianance will NOT BE FINANCIALLY BENEFICIAL TO THE PERSON SELLING THEIR HOME -  
EXAMPLES:

- a) Owner(s) will have to pay CAPITAL GAINS - CREATING LESS FINANCIAL POWER/FREEDOM available to Owner(s)
- b) Will NEED most likely to RENT somewhere while unit is being constructed and will DEplete THEIR FUNDS
- c) CREATES STRESS & COSTS OF MOVING OUT & BACK IN INTO A UNIT ONCE BUILT/AVAILABLE, which a UNIT MAY NOT EVEN BE AVAILABLE to the Owner(S) who sold property to build one of these NEW Housing Units/Projects
- d) Owner will have GONE THROUGH MORE FUNDS and have LESS FUNDS AVAILABLE TO THEM.
- e) WILL NOT have an ASSET TO LEAVE TO THEIR HEIRS

6) Here is what is going to happen, some of you may remember GENEVA TOWERS, some of you may have heard about it, but at any rate, this is URBAN RENEWAL 2.0! These will SIT VACANT & BECOME A BLIGHT ON THE COMMUNITY because they WILL NOT SELL. Projects like this are FOLLOWING THE SAME TRAJECTORY!

A current perfect example of this is THE WESTERLY @ 2800 SLOAT / WAWONA. This complex has been completed for 5 years and believe only 1/3 are sold at present (mostly to speculators). It appears a small percentage of these are actually owner occupied . Most seem to be occupied by renters or Airbnb which may NOT be allowed by the Complex By-laws. The REST SIT VACANT! The BUILDING has been FALLING APART ALREADY and they are STRIPPING DOWN THE SIDING THAT WAS FALLING APART and CONSTRUCTED POORLY.

This is a BLIGHT on the NEIGHBORHOOD.

7) If this Ordinance passes, it most likely will be MANAGED by a Non-Profit. We ALL know the ISSUES and how BADLY the NON-PROFITS MANAGE ANYTHING IN THIS CITY !

8) We should NOT allow DEVELOPERS, the CITY or the STATE to CREATE BILLS OR ORDINANCES TO BUILD UNDER THE GUISE OF AFFORDABLE HOUSING. IT'S ANYTHING BUT AFFORDABLE, IT'S SUBSIDIZED HOUSING TO FUND DEVELOPERS, REAL ESTATE SPECULATORS & RETIREMENT FUNDS.

9) Finally, as much as I adore Paris, we are NOT PARIS! We are SAN FRANCISCO & UNIQUE! Please do NOT DESTROY our SFR NEIGHBORHOODS!

Please READ the LETTER below from The Coalition with ALL OTHER IMPORTANT POINTS.

Thank you.

Renee Lazear

SON-SF ~ Save Our Neighborhoods SF

---

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

1) produce 100% truly affordable housing for families making less than \$80,000 per year, and

2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving

more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

**Date:** Monday, October 30, 2023 11:27:16 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors -

I would like to add that we need to produce 100% of real affordable housing for families that are struggling to survive in San Francisco, and the city needs to fully protect all current S.F. laws that ensure environmental and community notices, discretionary review, demolitions, conditional use permits, and appeal hearings. Removing these protections would put a lot of San Franciscans at risk of losing their housing, especially communities that I mentioned in my 10/2/23 letter.

Thank you - Iris Biblowitz, RN

**Subject:** Please vote NO on File #230446 - "Housing Production", agenda item 4, Land Use Committee - 10/2/23

Dear Supervisors of the Land Use Committee -

Please deliver a strong rebuke of this plan that will give the green light to destroy environmental and community protections for real affordable housing and as well as allow corporate real estate deals that have had extremely harmful effects on our communities for over 2 decades,. especially on Black and Latinx families, and seniors and people with disabilities. Gentrification has been devastating in my neighborhood in the Mission, and this proposal would increase the risks of losing large amounts of affordable rent-controlled housing. We know that there's about 30% of the needed affordable housing in SF now (from the Housing Element), and over 100% of needed market-rate housing. We also know that 70% of people who are unhoused did have housing in the past several years.

I can only see harm that comes from this latest proposal. The streets are filled with people

struggling to survive. We need real affordable housing, increased dignified SROs (where there are many vacant rooms), to open up many of the 40,000 (isn't that the latest number?) of vacant units in SF, and focus on the commitment to build 100% real affordable housing.

As a nurse, I've documented the health effects of people dealing with evictions and threats of evictions. The results are upsetting, with increases in strokes, cardiac issues, anxiety, insomnia, depression, increase in Parkinson's symptoms, high blood pressure and blood sugars. This plan will only increase these risks. The same communities who were most severely affected by COVID will be most affected by this plan for dramatic waivers of local environmental, community, and demolition reviews, and will have a destructive effect on communities that are desperate for real affordable housing. The scenes on the streets of SF tell the story. We need to act fast to reject this latest proposal and find humanitarian policies that work to house people and keep communities alive.

Haven't we learned anything in the past 20+ years?

Sincerely - Iris Biblowitz, RN

Dear Supervisors,

I oppose this legislation. This legislation will have many adverse social, economic, environmental, and equity impacts, all of which have been outlined in the correspondence which you have received and in public testimony.

The ordinance is an extreme attack on community, on environmental review, and on affordable housing. It cannot be successfully amended and must instead be **voted down!**

Thank you.

**Subject:** REPLACE with new legislation" Mayor-Engardio-Dorsey Attack on Environment & Affordable Housing

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance  
File #230446

Dear Supervisors,

As an Architect and Planner who has practiced over 40 years from this City and with this City and has experienced the mistakes of history and how rational and comprehensive Housing development serves each and all people of our society, this latest effort to negotiate amendments to the Engardio-Breed-Dorsey Housing Ordinance is a new mark of desperation. What is going on is likened to painting a fractured bike frame instead of rebuilding it but proposing it will now be of benefit. This is pure oversimplification. I experienced the death of Detroit firsthand in the late 1970's, its reasons for failure and that is why we came here to rebuild a new life. But this latest issue is the symptom of the lack of knowledge in Detroit's tragedy, its demise. It is time to be candid about a City that has lost its way.

The first step is that it is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

1) produce truly affordable housing for families making less than \$80,000 per year but will uniquely recognize the needs of homeless as a separate medical solution as the medical profession recommends.. One model is 833 Bryant but specifically other variations on this are available. Please feel free to discuss.

2) concentrate on the restoration of the downtown core as New York City is doing. The West side is a strategy that many political and historical figures have been distracted by and it is a blunder as it has resulted in disasters in the past. The Downtown is an economic reality and imperative that we focus on and not oversimplify. The range of income this ordinance focuses on is manageable through better legislation as recommended by this consensus to scrap the Engardio-Breed-Dorsey band-aids..

3) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings. You are undermining American democracy and without having the skills to manage and integrate local concerns it is apparent to you that you must force this issue.. Please feel free to discuss.

Specifically, this ordinance is not like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in unintended consequences like Detroit and serious damage to San Francisco, its neighborhoods, and the elusive goal of affordable housing. Let's not throw out what we have learned from this Country's Housing think-tanks.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen the multiple crises our City faces due to:

- **An Inadequate and outdated Decision Making Process** - Our decision-making processes have always been liberal but never under such circumstances as 4 Existential crisis happening simultaneously. Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely uninformed process. We need to scrap this ordinance and draft legislation that will produce affordable housing for families making less than \$80,000 per year. This means identifying a model. What is that?
- **Corporate Housing Involvement** - The problem is with Below Market Rate housing (BMR), not Market rate housing so focus on the BMR problem. The State and City have not been candid about this. History demonstrates this. The five year "look back" provisions in the amendments are useless. Local developers admit they can't pencil out BMR housing. They have never been interested in how to design Social housing. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable particularly for those with incomes above SF AMI. . It is ridiculous that the ordinance calls housing built “mostly” for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels! Are you not aware of what RHNA’s criteria that is distorting this reality? “Mostly” is the marketing “spin” which many of your constituents resent because the problem has been oversimplified.
- **The Homelessness Crisis** - The conspicuous tragedy of this crisis is very similar to Detroit, not identical in cause but in misery of life. But the gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the City, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, some of them *far* overpriced, some of them left vacant due to economic infeasibility. We also have at least 35% empty office space. Architects know how they can be converted into thousands more apartments. We need to restore our tax base as a supreme priority. We do not need more new housing construction due to several other reasons stated herein, we need to make our existing housing space affordable! But equally so, this problem needs to simultaneously address the climate crisis demands which it is failing to do. Examples available.
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up" or toxic sites like 2550 Irving.
- **The Global Warming Crisis** - This ordinance ignores the environment. We cannot allow this need for affordable housing to also threaten our lives, Nation and State. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with out-of-reach priced condo and rental densification the way Asian countries do is tragic ( if you have seen the examples abroad), We need a new resolution that demands all new or renovated housing construction to be made out of Typr 3, 4, or 5 Construction depeding on the scale of the development with concrete limited to foundational below grade use as concrete is the most deleterious construction material known to cause green-house gase erosion of our atmosphere. Check the experts.

This ordinance would build housing for the upper class, create more homelessness, and is an environmentally incompetent and a by-product of economic naivete and corporate real estate speculators promoting a fix.

**Please GUT & REPLACE this unacceptable attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

Thomas Soper

**Subject:** Engardio-Breed-Dorsey 'Housing' Ordinance File #230446 Public Comment - Do Not Approve

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear President Peskin and Members of the Board of Supervisors:

I am writing to urge you to oppose the proposed Engardio-Breed-Dorsey "Housing Production Ordinance." San Francisco has been my home for decades. Never before have I felt that it is under threat as I feel it is now. Please GUT & REPLACE this misguided legislation with a rewritten Ordinance that will appropriately deal with San Francisco's housing, homelessness, and environmental crises.

A rewritten Ordinance must do the following:

1) Create badly needed 100% affordable housing for all families making less than \$80,000 per year, and;

2) Retain all current San Francisco laws that guarantee environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

But instead of meeting these needs, the proposed Engardio-Breed-Dorsey "Housing Production Ordinance" Ordinance contains unprecedented and unacceptable citywide waivers of local environmental, community and demolition review, all in the name of producing "affordable" housing. Yet most of that housing would be for wealthy families making over \$230,000 per year! This Ordinance reads as though it was written by developers, not by legislators with input from community stakeholders.

This Ordinance will have the following consequences:

It will fail to provide 100% affordable housing for low-income families, while allowing the demolition and gentrification of neighborhoods throughout the city,

- It will not deter corporate housing takeovers. The five year "look back" provisions in the amendments are of no concern to corporate housing speculators for whom a five-year investment cycle is acceptable. There must be at least a ten-year prohibition on corporate housing speculation which would apply to all housing, not just rent-controlled housing,
- It will promote the construction of more market rate housing, not affordable housing. San Francisco does not need more housing for people earning over \$230,000. There is already an oversupply of housing for high earners. This ordinance does nothing to slow down that kind of development,
- It will push most rents throughout the city even higher, driving more middle-, working- and lower-class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment,
- It will eliminate environmental and community review protections, and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island,
- It will exacerbate the climate crisis. Sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

The Engardio-Breed-Dorsey "Housing Producing Ordinance" is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators that will not meet San Francisco's needs for affordable housing, and will create more homelessness. It must be defeated, and replaced with an ordinance that meets the needs of all San Franciscans.

Please, act in the best interest of your constituents. Do not approve this fatally flawed legislation. *GUT & REPLACE* this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity.

San Francisco's future is depending on you.

Thank you,

*Jean*

**Subject:** Strongly OPPOSING [Planning and Subdivision Codes, Zoning Map - Housing Production] File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

TO: Board of Supervisors members

cc: Clerk of Land Use and Transportation Committee

Clerk of the Board of Supervisors

FROM: Eileen Boken, President  
Sunset-Parkside Education and Action Committee (SPEAK)

RE: [Planning and Subdivision Codes, Zoning Map - Housing Production] File #230446

Position: Strongly OPPOSING as currently drafted and strongly urging gut and replace.

Sunset-Parkside Education and Action Committee (SPEAK) is strongly OPPOSING this ordinance as currently drafted.

SPEAK believes that this ordinance is beyond redemption and should either be tabled or amended with a gut and replace strategy.

A gut and replace ordinance should include the following:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year.

This proposed ordinance would worsen the following:

- A bad decision making process.
- The corporate housing takeover.

- The unaffordable housing crisis.
- The homeless crisis.
- The vacant housing crisis.
- The environmental justice and equity crisis.
- The climate crisis.

**Subject:** Engardio-Breed-Dorsey Housing Production ordinance

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello. My name is Flo Kimmerling and I am a long time resident of San Francisco. I believe the above named ordinance needs to be rethought so that it truly encourages affordable housing for those who need it in this city. That means families with incomes beneath \$80,000.00 per year. In addition, I feel we need to protect the laws that ensure environmental review and community noticing. This includes discretionary review, demolition, construction permits, conditional use, and all appeals hearings. Every member of the community has a right to be engaged in a process that could create major changes in the neighborhood.

Good intentions can have some very negative consequences for a community. I am asking you to think about this possibility and do all you can to prevent those negative consequences, by allowing the community to be engaged throughout the demolition and building process.

Thank you for taking the time to read this letter.

Sincerely,  
Flo Kimmerling  
1282 26th Ave.

**Subject:** PUBLIC COMMENT: SUPERVISORS GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

## **Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446**

Dear Supervisors,

**Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

### **This ordinance would worsen:**

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal

agencies have falsely declared "cleaned up").

- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

**Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

Kathleen Kelley  
San Francisco Resident

**Subject:** Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing'  
Ordinance File #230446  
Dear Supervisors,

I have been a resident and a voter in San Francisco for over 30 years and I worry about its future because of the lack of affordable housing. We urgently need to address this issue, but the Engardio-Breed-Dorsey 'Housing' Ordinance is not the solution.

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

**Subject:** OPPOSE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

Please oppose the onerous Engardio-Breed-Dorsey 'Housing' Ordinance. It's unworkable and needs to be tossed out. Instead, move quickly to implement the SF Climate Action Plan because we're in the midst of a worsening climate crisis. Then, turn your attention to reimagining the moribund Financial District with all those concrete towers sitting there vacant. The concrete has already been poured. The carbon from cement-making has already been released into the atmosphere. Instead of a place designed for commuters consider a new renaissance neighborhood where people live and gather. One that is more resilient to the boom and bust gold rush mentality that San Franciscans experience. I would even be in favor of tax incentives to make this happen.

In the meantime, please have every supervisor respond to why they'd want an ordinance designed like this?

- 
- 
- **A Bad Decision**
- **Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap
- this ordinance and draft legislation that will produce 100% affordable housing for

families making less than \$80,000 per year.

- 
- 
- 
- 
- **Corporate Housing**
- **Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to
- *all* housing, not just rent controlled housing.
- 
- 
- **The Unaffordable Housing Crisis**
- - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for
- those income levels!
- 
- 
- **The**
- **Homelessness Crisis**
- - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- 
- 
- 
- 
- **The**
- **Vacant Housing Crisis** -
- San Francisco has at least 60,000 vacant housing units, most of them *far*
- overpriced.
- We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
-

- 
- 
- **The**
- **Environmental Justice & Equity Crisis -**

**Subject:** Public Comment re: SF affordable housing: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I have lived in San Francisco for almost 40 years. I am almost 70 years old. I am writing to you because my daughter and many friends call San Francisco home, and because I hope to live here for the rest of my days.

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- 
- 
- **A Bad Decision**
- **Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap
- this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- 
- 
- 
- 
- **Corporate Housing**
- **Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a
- neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to
- *all* housing, not just rent controlled housing.
- 
- 
- **The Unaffordable Housing Crisis**
- - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for
- those income levels!
- 
- 
- **The**
- **Homelessness Crisis**
- - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health,
- street crime, and underemployment.
- 
- 
- 
- 
- **The**
- **Vacant Housing Crisis** -

- San Francisco has at least 60,000 vacant housing units, most of them *far*
- overpriced.
- We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!

- 

- 

- 

- **The**

- **Environmental Justice & Equity Crisis -**

- This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and
- radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

- 

- 

- 

- 

- **The**

- **Climate Crisis -**

- This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more
- greenhouse gases, not less.

- 

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Leaders,

Reject Housing' ordinance File #230446 gutting environmental and community protections against bad real estate development in San Francisco.

SF has the most density west of New York. Look how affordable NYC is. Adopting this ordinance amounts to abandoning your duty to protect quality of life and the beauty and character of San Francisco. Instead of capitulating to Sacramento extortion and encouraging corporate real estate dominance, fill 60,000 empty housing units and 51 million square feet of vacant Office Space 'BEFORE' we allow developers and density advocates to undermine environmental values, quality of life, aesthetic continuity and the character of our neighborhoods while making the people who live here voiceless.

There are sensible alternatives,  
Remember the Fontana Building Revolt of the sixties,  
Reject Ordinance 234460 and support " Our Neighbor Voices Initiative" to amend the state constitution. The majority of Californians do.

Steve Ward

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

UPDATED PUBLIC SIGN-ON \*\*GUT & REPLACE\*\*

17 Environmental, Environmental Justice & Community Organizations Join To Strongly \*OPPOSE\*

Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance (See updated sign-on below, and attached in PDF format.)

**IMPORTANT: WE DEMAND THAT SUPERVISORS \*GUT AND REPLACE\*** the Engardio-Breed-Dorsey 'Housing' Ordinance.

It is **unacceptable** that some supervisors continue to suggest 'negotiating' amendments with the Mayor's office, to this egregiously destructive ordinance. The text must be **completely** deleted and replaced with text drafted by supervisors on the Land Use and Transportation Committee and other environmental and affordable housing allies, with full community participation at the drafting table.

Here and attached is our updated sign-on letter.

To:

City and County of San Francisco Decision Makers - 1 Dr Carlton B Goodlett Pl, San Francisco, CA 94102

Re:

**OPPOSE**

Engardio-Breed-Dorsey "Constraints Reduction Ordinance" ("Housing Production") **File #230446**

Dear San Francisco

Decision Makers:

The undersigned environmental, housing, economic justice, community, and climate crisis response organizations write to voice our

**strong** opposition to the Engardio-Breed-Dorsey "Constraints Reduction" ordinance. It would enact drastic and sweeping exceptions to San Francisco's environmental and community review of real estate projects and would undermine health, environmental, economic and neighborhood protections.

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- 
- 
- **The Unaffordable**
- **Housing Crisis -**
- This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 per year "affordable". We already have a 50% oversupply of housing for those income levels!
- 
- 
- 
- 
- **The Homelessness**
- **Crisis -**
- The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- 
- 
- 
- 
- **The Vacant Housing**
- **Crisis -**
- San Francisco has at least 60,000 vacant housing units, most of them *far*
- overpriced.
- We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- 
- 
- 
- **The Environmental**
- **Justice & Equity Crisis -**
- This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and
- radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
-

- 
- 
- 
- **The Climate Crisis**
- - This ordinance
- is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases,
- not less.
- 

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

**Subject:** REPLACE with new legislation" Mayor-Engardio-Dorsey Attack on Environment & Affordable Housing

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance  
File #230446

Dear Supervisors,

As an Architect and Planner who has practiced over 40 years from this City and with this City and has experienced the mistakes of history and how rational and comprehensive Housing development serves each and all people of our society, this latest effort to negotiate amendments to the Engardio-Breed-Dorsey Housing Ordinance is a new mark of desperation. What is going on is likened to painting a fractured bike frame instead of rebuilding it but proposing it will now be of benefit. This is pure oversimplification. I experienced the death of Detroit firsthand in the late 1970's, its reasons for failure and that is why we came here to rebuild a new life. But this latest issue is the symptom of the lack of knowledge in Detroit's tragedy, its demise. It is time to be candid about a City that has lost its way.

The first step is that it is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

1) produce truly affordable housing for families making less than \$80,000 per year but will uniquely recognize the needs of homeless as a separate medical solution as the medical profession recommends.. One model is 833 Bryant but specifically other variations on this are available. Please feel free to discuss.

2) concentrate on the restoration of the downtown core as New York City is doing. The West side is a strategy that many political and historical figures have been distracted by and it is a blunder as it has resulted in disasters in the past. The Downtown is an economic reality and imperative that we focus on and not oversimplify. The range of income this ordinance focuses on is manageable through better legislation as recommended by this consensus to scrap the Engardio-Breed-Dorsey band-aids..

3) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings. You are undermining American democracy and without having the skills to manage and integrate local concerns it is apparent to you that you must force this issue.. Please feel free to discuss.

Specifically, this ordinance is not like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in unintended consequences like Detroit and serious damage to San Francisco, its neighborhoods, and the elusive goal of affordable housing. Let's not throw out what we have learned from this Country's Housing think-tanks.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen the multiple crises our City faces due to:

- **An Inadequate and outdated Decision Making Process** - Our decision-making processes have always been liberal but never under such circumstances as 4 Existential crisis happening simultaneously. Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely uninformed process. We need to scrap this ordinance and draft legislation that will produce affordable housing for families making less than \$80,000 per year. This means identifying a model. What is that?
- **Corporate Housing Involvement** - The problem is with Below Market Rate housing (BMR), not Market rate housing so focus on the BMR problem. The State and City have not been candid about this. History demonstrates this. The five year "look back" provisions in the amendments are useless. Local developers admit they can't pencil out BMR housing. They have never been interested in how to design Social housing. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable particularly for those with incomes above SF AMI. . It is ridiculous that the ordinance calls housing built “mostly” for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels! Are you not aware of what RHNA’s criteria that is distorting this reality? “Mostly” is the marketing “spin” which many of your constituents resent because the problem has been oversimplified.
- **The Homelessness Crisis** - The conspicuous tragedy of this crisis is very similar to Detroit, not identical in cause but in misery of life. But the gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the City, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, some of them *far* overpriced, some of them left vacant due to economic infeasibility. We also have at least 35% empty office space. Architects know how they can be converted into thousands more apartments. We need to restore our tax base as a supreme priority. We do not need more new housing construction due to several other reasons stated herein, we need to make our existing housing space affordable! But equally so, this problem needs to simultaneously address the climate crisis demands which it is failing to do. Examples available.
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up" or toxic sites like 2550 Irving.
- **The Global Warming Crisis** - This ordinance ignores the environment. We cannot allow this need for affordable housing to also threaten our lives, Nation and State. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with out-of-reach priced condo and rental densification the way Asian countries do is tragic ( if you have seen the examples abroad), We need a new resolution that demands all new or renovated housing construction to be made out of Typr 3, 4, or 5 Construction depeding on the scale of the development with concrete limited to foundational below grade use as concrete is the most deleterious construction material known to cause green-house gase erosion of our atmosphere. Check the experts.

This ordinance would build housing for the upper class, create more homelessness, and is an environmentally incompetent and a by-product of economic naivete and corporate real estate speculators promoting a fix.

**Please GUT & REPLACE this unacceptable attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

Thomas Soper

**Subject:** Item 4 Leg File # 230446 Housing Production (Constraints) OPPOSITION

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Chair Melgar, Vice Chair Preston & President Peskin,

I write in opposition to this legislation in its current form as it still allows the demolition of rent-controlled units, does not contain language about noticing and does not allow for CU hearings wherein concealed facts on occupancy, evictions, unfiled buyouts, and other means used to force tenants out are brought to light.

This Land Use Committee, as well as Supervisor Mandelman, knows of many cases as being emblematic of speculative tactics used citywide by some unscrupulous developers. This legislation will cause yet more harm in that it incentivizes the vacating of units, displacement, and tenants will have nowhere to go due to the shortage of affordable housing today.

I shall name a few cases here as reminders of why noticing and CU hearings must remain intact going forward in order to protect, to preserve our existing affordable housing, while building the long delayed affordable housing needed.

Cases in point:

- Varennes- Construction plans filed for luxury expansions which would also eliminate the possibility of restoring a legal ADU & subjecting a multi-generational household to vacate under false pretenses
- Francisco Street -sole profit motivating eviction

history, short-term rentals, decreasing housing choices for low-moderate income earners and removal from rental market

- Bernard Street-tenant history & evictions revealed
- 20th Avenue/Richmond -plans that did not acknowledge families living in the two unit building & only because the tenants had the opportunity to stand up at a Planning Commission hearing to say "we live here" were they able to remain in their homes
- Columbus/Bay: No public notice to senior housing tenants. Because there was a hearing we could ask for public health/safety measures to be put in place during the demolition phase to protect the extremely vulnerable seniors/ people with disabilities, the adjacent residents of North Beach Place (public/private housing)

Please do not forward this legislation! Fulfill our needs, our obligation to build the affordable housing we know we need right now for low-middle income earners. The abundance of luxury condos that have been built or are in the pipeline are not homes, rather, many operate as piggybanks, they are not housing our workers. Stand up to the bullying tactics, call out the false narrative coming out of Sacramento in their recent "review" and create legislation that will cause the least amount of harm to San Franciscans today and into the future. We should not destroy in order to build. This is not a solution.

Theresa Flandrich  
North Beach Tenants Committee

**Subject:** Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Leaders,

Reject Housing' ordinance File #230446 gutting environmental and community

protections against bad real estate development in San Francisco.

SF has the most density west of New York. Look how affordable NYC is. Adopting this ordinance amounts to abandoning your duty to protect quality of life and the beauty and character of San Francisco. Instead of capitulating to Sacramento extortion and encouraging corporate real estate dominance, fill 60,000 empty housing units and 51 million square feet of vacant Office Space 'BEFORE' we allow developers and density advocates to undermine environmental values, quality of life, aesthetic continuity and the character of our neighborhoods while making the people who live here voiceless.

There are sensible alternatives,  
Remember the Fontana Building Revolt of the sixties,  
Reject Ordinance 234460 and support " Our Neighbor Voices Initiative" to amend the state constitution. The majority of Californians do.

**Subject:** LUT Meeting October 30, 2023. Ordinance #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Chair Melgar, President Peskin and Supervisor Preston and Mr. Carroll,

The public opposition to this proposed Ordinance is understandable.

Attached are **two pdfs** that should raise more questions about the Mayor's Constraints Reduction Ordinance for the Committee to consider in rejecting this Ordinance.

### **POINT NUMBER ONE**

The **first pdf** is an April 2023 Wall Street Journal article entitled "*How Many Homes the U.S. Really Needs*".

The WSJ article cites a range from 1.7 million to 7.3 million units with other projected numbers in between that are needed.

In other words there is no firm consensus nationwide of what the is number of units needed to solve the housing crisis.

This is important to consider because the underlying premise of the Mayor's Ordinance, the Housing Element and the pressure from HCD is that 2.5 million units of housing are needed in the next 10 years in California requiring 82,000 units in San Francisco and 46,598 of those being "affordable".

We all know the RHNA numbers are being imposed on San Francisco by Sacramento.

But are these numbers, numbers that underly all the policies in the Housing Element really correct?

Let's say that the 7.3 million nationwide number cited in the WSJ article is correct. *Does that mean that California really has to provide 2.5 million units of that 7.3 million?* What if the nationwide numbers in the lower range are correct? *Does that mean that California will be providing the the bulk of the housing needed nationwide?*

Are the RHNA numbers, particularly for the market rate housing needed in San Francisco, inflated?

*This potential for inaccurate RHNA numbers takes on even more importance with the latest HCD warning or maybe the better word is "threat" to San Francisco issued just last week.*

### **POINT NUMBER TWO**

Additionally, the WSJ article also cites the financial need to "*preserve existing units*". See the paragraph circled in the article.

Yet in the Mayor's proposed Ordinance on Page 68, Line 14, it is proposed that:

**(B) No more than two units would be removed or demolished**

But this is contrary to the City's own policy to preserve Residential Flats, which are recognized as an important source of family housing.

Residential Flats in San Francisco are mostly **two units**. Does this clause allow for the Demolition of Residential Flats?

For example does this mean that in an existing three-plex or a four-plex structure, two units could be removed to make the remaining Flat(s) larger?

The Mayor's Ordinance is contrary to her own Commission's Policy as approved on October 12, 2017.

The Residential Flat Policy is enumerated in Planning Commission Resolution 20024.

The approved Resolution for the Residential Flat Policy is attached in the second pdf. Please take a minute to read the Findings.

*The Residential Flat Policy should be strengthened and codified with objective standards to preserve the existing configuration of Residential Flats, not whittled away by the Mayor's Ordinance.*

Sincerely,

Georgia Schuttish

# U.S. NEWS

THE NUMBERS | By Josh Zumbrun

## How Many Homes the U.S. Really Needs

How many new homes does the U.S. need to build to restore normalcy to

the housing market?

While everyone seems to agree there's a housing shortage, there's little agreement on its magnitude. The National Low Income Housing Coalition says the U.S. has a shortage of 7.3 million units, Realtor.com says 6.5 million, mortgage-finance company Fannie Mae says 4.4 million and Up for Growth, a policy group focused on the housing shortage, says 3.8 million units. John Burns Research & Consulting, a real-estate industry consultant, puts it at just 1.7 million.

Even in a country like the U.S., with around 142 million housing units, that's quite a range. The reason is that the estimates aren't all making the same claim. It shows how asking slightly different questions about the same problem can lead to significantly different answers.

An economist would say that so long as prices are free to adjust, a true shortage doesn't exist: There are homes available to anyone willing to pay the going price. That's of little comfort to anyone who has been to an open house with a line snaking around the block, or searched in frustration just

for something in somewhat decent shape in a somewhat decent location that meets their budget. To most people, if homes available aren't affordable, that's a shortage.

"There's a sense that it feels right because housing is so expensive," said John Burns, his firm's CEO.

It's fairly straightforward to count the number of U.S. housing units—the Census Bureau does. As recently as 2010, Census takers drove or walked every street in the U.S. In 2020, they used satellite imagery.

The tricky part is figuring out how many homes there ought to be.

Realtor.com's approach is to compare new houses to new households. It puts new household formation since 2012 at 15.6 million and the number of single-family homes that began construction in that period at 9.03 million, yielding a gap of 6.5 million.

But not everyone lives or aspires to live in a single-family home. Apartments and condos are an important part of the U.S. housing stock. Accounting for those units, the gap shrinks to 2.3 million, according to Realtor.com. (The Wall Street Journal and Realtor.com are both owned by News Corp.)

The National Low Income Housing Coalition begins by

The number of households formed over the past decade exceeds the number of housing units where construction has started.

Sources: Realtor.com (households formed vs. housing starts); Census Bureau (housing starts)

looking at rental units that it defines as affordable. The group finds only seven million homes affordable for people with extremely low incomes (defined as at or below the poverty line, or below 30% of the median income in their area). But 3.3 million of those homes are occupied by people who aren't extremely low income, leaving only 3.7 million affordable homes actually available to the lowest-income households.

Because there are 11 million such households, and 3.7 million affordable units, the NLIHC puts the gap at 7.3 million units. That isn't the same as a shortage in the overall stock of homes. In fact, the group calculates more rental units than renters.

Lower construction over the past 10 years followed a period of heavy building during the early 2000s.

### Housing starts

The NLIHC therefore cautions that raising overall supply won't necessarily address the shortfall of affordable homes. In theory, when new homes are built, "households with sufficient income move into the new housing, making available their previous and older housing to other households, who in turn leave behind even older units, and so on," a process called filtering, it says. In practice, it says, this chain often breaks down before the lowest-income households benefit. In weak markets, many properties will simply be abandoned or put to different use; in strong markets, older units become targets for rehabilitation.

Fannie Mae also looks at

affordability, but for renters and homeowners. It examines "affordable housing," for those earning as much as 60% of median income, and "workforce housing," for those earning 120%, and comes up with 4.4 million too few houses at these price points.

Fannie concludes the U.S. needs to not just build units but preserve existing units: "In most metros, the rehab of an existing unit to extend its useful life is cheaper than building a new unit."

Up for Growth estimates the total number of units needed as the number of households, plus the number of households that should have formed but didn't be-

cause housing wasn't available, plus 5% to account for normal vacancy rates as housing units turn over.

Up for Growth assumes that people should have formed households at the same ages as they did in the year 2000. The fact that they haven't, the group concludes, reflects a shortage.

No doubt some people haven't formed a household for that reason, but since 2000, people spend more time in school, marry later and have kids later, which could all delay household formation.

So these estimates might overstate the number of units that need to be built. Mr. Burns's firm looks at demographics and vacancies, concluding that fewer households should have been formed than you would expect looking at the year 2000, and noting that housing vacancies were still elevated until the past few years—implying that many places in the U.S. were overbuilt from the early 2000s housing boom. As a result, it thinks the shortage is 1.7 million, lower than most other estimates, but "still a big number," Mr. Burns said.

If his number is right it's a reason for some optimism that shortages can be resolved with a few years of solid construction, rather than requiring an unprecedented and sustained housing boom.

## SAN FRANCISCO PLANNING DEPARTMENT

### Planning Commission Resolution No. 20024

HEARING DATE: OCTOBER 12, 2017

**Project Name:** Planning Commission Policy: Removal of Residential Flats  
**Record Number:** 2016-003658GEN  
**Staff Contact:** Brittany Bendix, Current Planning  
(415) 575-9114; [brittany.bendix@sfgov.org](mailto:brittany.bendix@sfgov.org)  
**Reviewed By:** Elizabeth Watty, Assistant Director of Current Planning  
(415) 558-5620; [elizabeth.watty@sfgov.org](mailto:elizabeth.watty@sfgov.org)

1650 Mission St.  
Suite 400  
San Francisco,  
CA 94103-2479

Reception:  
415.558.6378

Fax:  
415.558.6409

Planning  
Information:  
415.558.6377

#### ADOPTING A POLICY THAT REQUIRES MANDATORY DISCRETIONARY REVIEW OF ANY PROJECT IN ALL ZONING DISTRICTS THAT RESULTS IN THE REMOVAL OF A RESIDENTIAL FLAT.

WHEREAS, Objective 2 of the City's 2014 Housing Element states that "conserving and improving the existing (housing) stock is critical to San Francisco's long term housing strategy;" and

WHEREAS, the City is currently at 207% production and entitlement of market rate housing units, 16% production and entitlement of units affordable to moderate income households, and 31% production of below-market rate housing, as defined in the 2015-2022 RHNA goals;

WHEREAS, currently market-rate housing is frequently not accessible to moderate-income families, making between 80-120% of area median income;

WHEREAS, for the purpose of this Resolution a 'Residential Flat' is to be defined as a common San Francisco housing typology consisting of a single dwelling unit, generally occupying an entire story within a building, and having exposure onto open areas at the front and rear of the property;

WHEREAS, this unit typology satisfies a number of housing needs, particularly for middle-income families,

WHEREAS; a dwelling unit can currently be relocated, or altered, such that it no longer functions as a Residential Flat without public notification or review by the Planning Commission, so long as the proposal complies with all other requirements of the Planning Code;

WHEREAS, the Planning Commission is pursuing legislative amendments to Planning Code Section 317 that would require changes to the review process for projects that remove Residential Flats.

Resolution No. 20024  
October 12, 2017

Case No: 2016-003658GEN  
Removal of Residential Flats

NOW THEREFORE BE IT RESOLVED that the Commission hereby adopts a new policy that requires a Mandatory Discretionary Review application to be filed for any building or site permit that proposes the modification of a Residential Flat such that it is no longer a Residential Flat; and, be it

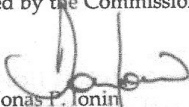

FURTHER RESOLVED, that projects increasing the number of dwelling units within a building will not be subject to this policy; and, be it

FURTHER RESOLVED, that this policy will allow time for the orderly completion of a planning study and for the adoption of appropriate legislation; and, be it

FURTHER RESOLVED, that this policy will sunset after the adoption of the Residential Expansion Threshold legislative initiative currently underway; and be it

FURTHER RESOLVED, that this policy shall apply to all building or site permit applications to remove a Residential Flat where the application has not been filed as of the effective date of this Resolution.

I hereby certify that the foregoing Resolution was adopted by the Commission at its meeting on October 12, 2017.

  
Jonas F. Ionin  
Commission Secretary

**Subject:** Engardio-Breed-Dorsey 'Housing' Ordinance File #230446 Public Comment - Do Not Approve

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear President Peskin and Members of the Board of Supervisors:

I am writing to urge you to oppose the proposed Engardio-Breed-Dorsey "Housing Production Ordinance." San Francisco has been my home for decades. Never before have I felt that it is under threat as I feel it is now. Please GUT & REPLACE this misguided legislation with a rewritten Ordinance that will appropriately deal with San Francisco's housing, homelessness, and environmental crises.

A rewritten Ordinance must do the following:

1) Create badly needed 100% affordable housing for all families making less than \$80,000 per year, and;

2) Retain all current San Francisco laws that guarantee environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

But instead of meeting these needs, the proposed Engardio-Breed-Dorsey "Housing Production Ordinance" Ordinance contains unprecedented and unacceptable citywide waivers of local environmental, community and demolition review, all in the name of producing "affordable" housing. Yet most of that housing would be for wealthy families making over \$230,000 per year! This Ordinance reads as though it was written by developers, not by legislators with input from community stakeholders.

This Ordinance will have the following consequences:

It will fail to provide 100% affordable housing for low-income families, while allowing the demolition and gentrification of neighborhoods throughout the city,

- It will not deter corporate housing takeovers. The five year "look back" provisions in the amendments are of no concern to corporate housing speculators for whom a five-year investment cycle is acceptable. There must be at least a ten-year prohibition on corporate housing speculation which would apply to all housing, not just rent-controlled housing,
- It will promote the construction of more market rate housing, not affordable housing. San Francisco does not need more housing for people earning over \$230,000. There is already an oversupply of housing for high earners. This ordinance does nothing to slow down that kind of development,
- It will push most rents throughout the city even higher, driving more middle-, working- and lower-class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment,
- It will eliminate environmental and community review protections, and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island,
- It will exacerbate the climate crisis. Sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

The Engardio-Breed-Dorsey "Housing Producing Ordinance" is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators that will not meet San Francisco's needs for affordable housing, and will create more homelessness. It must be defeated, and replaced with an ordinance that meets the needs of all San Franciscans.

Please, act in the best interest of your constituents. Do not approve this fatally flawed legislation. *GUT & REPLACE* this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity.

San Francisco's future is depending on you.

Thank you,

*Jean*

TO: Board of Supervisors members

cc: Clerk of Land Use and Transportation Committee

Clerk of the Board of Supervisors

FROM: Eileen Boken, President  
Sunset-Parkside Education and Action Committee (SPEAK)

RE: [Planning and Subdivision Codes, Zoning Map - Housing Production] File #230446

Position: Strongly OPPOSING as currently drafted and strongly urging gut and replace.

Sunset-Parkside Education and Action Committee (SPEAK) is strongly OPPOSING this ordinance as currently drafted.

SPEAK believes that this ordinance is beyond redemption and should either be tabled or amended with a gut and replace strategy.

A gut and replace ordinance should include the following:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year.

This proposed ordinance would worsen the following:

- A bad decision making process.
- The corporate housing takeover.

- The unaffordable housing crisis.
- The homeless crisis.
- The vacant housing crisis.
- The environmental justice and equity crisis.
- The climate crisis.

Oct. 28, 2023

**For addition to file 230446**

**Constraints Reduction proposed ordinance hearing 10-30-23**

**Dear Land Use Chair Melgar and Supervisors Peskin and Preston,**

In taking action on the "Constraints" legislation, I urge you once again to keep the needs of San Franciscans for housing affordability, stability, and equity topmost in your mind -- no matter how many ultimatums and threats based on faulty data, disinformation, and flawed assumptions are thrown at you by The State.

The "Constraints Reduction" package contains no real balance, collaboration, or consensus. No matter how many amendment band-aids you slap on, it will remain the fulfillment of speculative developers' profit dreams, liberated from the "constraints" of public scrutiny and a commonsense regulatory structure that prevents destruction of sound affordable housing and protects residents.

The "Constraints Reduction" plan is a massive, unrestrained attack on San Franciscans' housing security that would be felt over the next half-century.

Please reject the "Constraints Reduction" package.

Instead, comply with the Housing Element by enacting a fully-committed, equitable city-wide plan to produce, preserve, and protect the affordable housing San Franciscans need and deserve.

Thank you,

Lorraine Petty

**Subject:** Engardio-Breed-Dorsey Housing Production ordinance

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello. My name is Flo Kimmerling and I am a long time resident of San Francisco. I believe the above named ordinance needs to be rethought so that it truly encourages affordable housing for those who need it in this city. That means families with incomes beneath \$80,000.00 per year. In addition, I feel we need to protect the laws that ensure environmental review and community noticing. This includes discretionary review, demolition, construction permits, conditional use, and all appeals hearings. Every member of the community has a right to be engaged in a process that could create major changes in the neighborhood.

Good intentions can have some very negative consequences for a community. I am asking you to think about this possibility and do all you can to prevent those negative consequences, by allowing the community to be engaged throughout the demolition and building process.

Thank you for taking the time to read this letter.

Sincerely,  
Flo Kimmerling  
1282 26th Ave.

**Subject:** PUBLIC COMMENT: SUPERVISORS GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

## **Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446**

Dear Supervisors,

**Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

### **This ordinance would worsen:**

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal

agencies have falsely declared "cleaned up").

- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

**Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

Kathleen Kelley  
San Francisco Resident

Subject: Public Comment: GUT & REPLACE Engardio-Breed-Dorsey 'Housing'  
Ordinance File #230446  
Dear Supervisors,

I have been a resident and a voter in San Francisco for over 30 years and I worry about its future because of the lack of affordable housing. We urgently need to address this issue, but the Engardio-Breed-Dorsey 'Housing' Ordinance is not the solution.

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

**Subject:** OPPOSE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

Please oppose the onerous Engardio-Breed-Dorsey 'Housing' Ordinance. It's unworkable and needs to be tossed out. Instead, move quickly to implement the SF Climate Action Plan because we're in the midst of a worsening climate crisis. Then, turn your attention to reimagining the moribund Financial District with all those concrete towers sitting there vacant. The concrete has already been poured. The carbon from cement-making has already been released into the atmosphere. Instead of a place designed for commuters consider a new renaissance neighborhood where people live and gather. One that is more resilient to the boom and bust gold rush mentality that San Franciscans experience. I would even be in favor of tax incentives to make this happen.

In the meantime, please have every supervisor respond to why they'd want an ordinance designed like this?

- 
- 
- **A Bad Decision**
- **Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap
- this ordinance and draft legislation that will produce 100% affordable housing for

families making less than \$80,000 per year.

- 
- 
- 
- 
- **Corporate Housing**
- **Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to
- *all* housing, not just rent controlled housing.
- 
- 
- **The Unaffordable Housing Crisis**
- - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for
- those income levels!
- 
- 
- **The**
- **Homelessness Crisis**
- - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- 
- 
- 
- 
- **The**
- **Vacant Housing Crisis** -
- San Francisco has at least 60,000 vacant housing units, most of them *far*
- overpriced.
- We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
-

- 
- 
- **The**
- **Environmental Justice & Equity Crisis -**
- This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and
- radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- 
- 
- 
- 
- **The**
- **Climate Crisis -**
- This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more
- greenhouse gases, not less.
- 

It's time to think bigger than the unaffordable towers this ordinance seeks to create.

**Subject:** Public Comment re: SF affordable housing: GUT & REPLACE Engardio-Breed-Dorsey 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I have lived in San Francisco for almost 40 years. I am almost 70 years old. I am writing to you because my daughter and many friends call San Francisco home, and because I hope to live here for the rest of my days.

It is imperative that you STOP seeking to negotiate amendments to the Engardio-Breed-Dorsey 'Housing' Ordinance and instead move to fully GUT & REPLACE the text with a new ordinance that will:

- 1) produce 100% truly affordable housing for families making less than \$80,000 per year, and
- 2) fully protect all current San Francisco laws ensuring environmental and community noticing, as well as Discretionary Review, Demolition, Conditional Use, and Appeal hearings.

This ordinance is *\*not\** like the previous, very limited Melgar 'Family Housing' ordinance. The Engardio-Breed-Dorsey ordinance is far more sweeping and destructive. 'Negotiations' would result in serious damage to San Francisco, its neighborhoods, and affordable housing.

The Engardio-Breed-Dorsey "Housing Production Ordinance" contains unprecedented citywide waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- 
- 
- **A Bad Decision**
- **Making Process** - Allowing the Mayor and two Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while we grasp at straws to try to amend it, is extremely bad process. We need to scrap
- this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- 
- 
- 
- 
- **Corporate Housing**
- **Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a
- neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to
- *all* housing, not just rent controlled housing.
- 
- 
- **The Unaffordable Housing Crisis**
- - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for
- those income levels!
- 
- 
- **The**
- **Homelessness Crisis**
- - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health,
- street crime, and underemployment.
- 
- 
- 
- 
- **The**
- **Vacant Housing Crisis** -

- San Francisco has at least 60,000 vacant housing units, most of them *far*
- overpriced.
- We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!

- 

- 

- 

- **The**

- **Environmental Justice & Equity Crisis -**

- This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and
- radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

- 

- 

- 

- 

- **The**

- **Climate Crisis -**

- This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more
- greenhouse gases, not less.

- 

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. **Please GUT & REPLACE this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!**

Thank you,

Dr. Blair Sandler, Ph.D., J.D.

## UPDATED PUBLIC SIGN-ON \*\*GUT & REPLACE\*\*

17 Environmental, Environmental Justice & Community Organizations Join To Strongly \*OPPOSE\* Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance (See updated sign-on below, and attached in PDF format.)

**IMPORTANT: WE DEMAND THAT SUPERVISORS \*GUT AND REPLACE\* the Engardio-Breed-Dorsey 'Housing' Ordinance.**

It is *unacceptable* that some supervisors continue to suggest 'negotiating' amendments with the Mayor's office, to this egregiously destructive ordinance. The text must be *completely* deleted and replaced with text drafted by supervisors on the Land Use and Transportation Committee and other environmental and affordable housing allies, with full community participation at the drafting table.

Here and attached is our updated sign-on letter.

**27 October 2023**

Chair of the Land Use & Transportation Committee, Supervisor Melgar  
Land Use & Transportation Committee Members, Supervisors Peskin and Preston

**Re: Legislative File #230446, "Planning Code, Zoning Map - Housing Production"**

Dear Land Use & Transportation Committee Chair Melgar and Supervisors Peskin and Preston:

Despite amendments having been incorporated into this legislation, and new amendments to be introduced on Monday, October 30, this legislation still fails to address the housing that is required by the Housing Element and by the vast majority of San Franciscans--housing that is truly affordable.

Therefore, the Race & Equity in all Planning Coalition of San Francisco (REP-SF), strongly urges the Land Use & Transportation Committee to reject this legislation and take up new legislation that:

- Puts affordable housing first;
- Protects tenants against displacement;
- Values and retains the voices and aspirations of historically marginalized communities in project approval processes with significantly shorter durations;
- Expands and modifies the Priority Equity Geographies SUD (PEG-SUD), and provides additional protections and opportunities to Cultural Districts and people who live within the expanded PEG-SUD.
- Complies with the Housing Element mandate to Affirmatively Further Fair Housing.

Earlier this week, the State's Department of Housing and Community Development (HCD) published a "report" titled ["San Francisco Housing Policy and Practice Review"](#) which we have read and analyzed. Regarding the report, please consider and incorporate the following in your deliberations:

- The "report" from HCD is full of factually incorrect statements and appears to be heavily politically motivated. The "report" does not acknowledge all the legislation already passed and in process to reduce constraints:
  - The City has already passed several significant measures intended to "reduce constraints" for market rate housing. These include:
    - [File #230026](#): Creates the Family Housing Opportunity Special Use District.
    - [File #230374](#): Cuts more than a year off the site permit and building permit process.
    - [File #230764](#) and [File #230769](#): Reduces impact fees paid by market rate developers.
    - [File #230855](#): Reduces inclusionary housing requirement for market rate developers.

- [File #230732](#): Streamlines commercial properties converting to residential.
  - The City has also proposed other measures that are still pending Committee action, including:
    - [File #230734](#): Replaces residential density limits in Certain Neighborhood Commercial Districts.
    - [File #230735](#): Removes residential density limits in Neighborhood Commercial Districts.
    - [File #230372](#): Exempts projects from impact fees that convert from commercial to residential
- The "report" ignores the market realities of high interest rates and other development costs that are completely independent of San Francisco's approval processes. The fact that few permit applications were filed over the past several months reflects this market reality and the fact that developers build in order to make a profit.
  - For-profit developers don't build or propose to build in order to meet RHNA "supply" goals, or to bring the price of housing down, or to house those who are homeless.
- The "report" fails to acknowledge that tens of thousands of units have been approved by our Planning Dept - and that these units are not proceeding into construction because of developers' business decisions, not due to any bureaucratic failings.
- Public policy interventions are better placed with 100% truly affordable housing because public policy and public investment in truly affordable housing result directly in housing being built.
- The "report" ignores all of the [equity and Affirmatively Furthering Fair Housing \(AFFH\) -oriented actions](#) in the Housing Element that HCD approved in January.
  - With its "report", HCD has basically written its own Housing Element for San Francisco - ignoring AFFH and dozens of implementing actions that would move the Housing Element toward racial and social equity. This is an important part of HCD's legal charge as a department, yet they are neglecting their own civil rights obligations.
  - The "report" fails to understand the complexity of San Francisco's dense urban context - by far the most densely populated major City in the State, and its recommendations threaten to inflict even more trauma and displacement on historically marginalized communities than has already been experienced in prior Housing Element cycles.
  - The "report" fails to acknowledge the Statewide legal obligation for all cities, including San Francisco to Affirmatively Further Fair Housing [pursuant to AB 686](#). Nothing in HCD's report moves in the direction of AFFH - none of it helps affordable housing. This "report" simply resorts to threats rather than taking any initiative to provide resources for affordable housing.
- The "report" threatens to silence communities - denying us of our constitutional rights to due process and freedom of expression.
  - As such, the State HCD threatens to abuse and overreach its police powers by denying our communities of our constitutional rights.
- The "report" fails to address corruption that has tainted the project approval process.
- HCD's "report" threatens the Board of Supervisors to pass this legislation, File #230446, but it is the power of our own legislature to consider and act on legislation as it sees fit.

REP-SF expects our State government to support our City's efforts to enact policies that work for people most in need rather than silencing our communities, denying our self-determination, while transferring that power to developers who only have their own profits as their goal.

If the city bows to the state's pressure on October 30th and passes this additional piece of legislation to further "reduce constraints"--despite the fact that **San Francisco already has a backlog of tens of thousands of already-entitled market rate developments, and more than 60,000 vacant market rate units**--this would be a denial of our City's legal obligation to affirmatively further fair housing (AFFH) and policy objectives to prioritize racial and social equity.

As policymakers, we urge you to ask, with the legislative decisions you make, "who are we as a City building for?". [This article from the San Francisco Chronicle, "SF's luxury condo market is cooling. Here's why it might be a good time to buy"](#) on October 10, 2023 indicates that most of the condo buildings being built in San Francisco are largely vacant, and that the market for these units is foreign investors. There isn't any discussion in this article among developers about making these units available or affordable to San Francisco's low to moderate income households either in the short or long term. This article underscores the fact that in order to provide housing that very-low, low, and moderate income households can truly afford, [we need to prioritize other Implementation Actions from the Housing Element that focus on truly affordable housing](#).

## **Conclusion**

Despite past and newly proposed amendments from Supervisors and the Mayor, and despite the recent, misguided pressure from the State, this legislation must be rejected as it fundamentally moves our City in entirely the opposite direction of racial and social equity with an approach that silences our communities, encourages demolitions of existing housing and displacement of tenants throughout vast areas of the City, while providing no resources or meaningful benefits for affordable housing.

REP-SF requests that the Land Use & Transportation Committee reject this legislation, and commence working with low income and people of color communities throughout the City to move forward legislation that implements the Housing Element to affirmatively further fair housing and center racial and social equity. REP-SF looks forward to working with you all on new legislation to reorient the priorities of Housing Element implementation.

Respectfully submitted,

Joseph Smooke

Dear Chair Melgar, President Peskin, and Supervisor Preston,

Please see the attached letter of concern from the San Francisco Anti-Displacement Coalition regarding the Mayor's Constraints Reduction Ordinance that will be heard in your committee on Monday. Once again, we urge you not to advance the current proposal for consideration to the full board without further amendments that protect existing rent-controlled housing against demolitions and assure that future housing development provides the affordability that our communities need.

Please feel free to reach out if you have any questions or want to discuss this further.

Best,  
Molly

SF Board of Supervisors  
San Francisco, CA 94102

RE: File # 230446, "Planning Code, Zoning Map – Housing Production"  
Hearing October 30, 2023, Agenda Item #4

Dear Chair Melgar and Supervisors:

The San Francisco Anti-Displacement Coalition urges the committee not to advance the current proposal for consideration by the full board without further amendments that protect existing rent-controlled housing against demolitions and assure that future housing development provides the affordability that our communities need. Despite some positive amendments, the legislation as currently written does not address the concerns that we have repeatedly laid out.

**(1) Removal of Conditional Use Authorization for Demolition of Rent-Controlled Units Directly Violates the City's Housing Element.**

As currently written, the legislation would allow the demolition of 2 units of rent-controlled housing without a Conditional Use Authorization (CUA) outside the proposed Priority Equity Geography SUD<sup>1</sup>. With Supervisor Melgar's amendments, the legislation now retains the CUA for any application proposing to demolish *any* rent-controlled units in Residential Housing (RH) Districts within the Family Housing Opportunity SUD<sup>2</sup>. While we welcome this amendment to protect more existing rent-controlled units, without applying this rule city-wide, the legislation still leaves out several sites, including those zoned Residential Mixed (RM), Residential Commercial (RC), or Neighborhood Commercial (NC) Districts within the Family Housing Opportunity SUD. These sites include buildings with three to four housing units, as well as buildings with small ground floor businesses. Without a CUA process, the legislation puts at heightened risk of displacement both these businesses and existing housing. Similarly, the

---

<sup>1</sup> The Priority Equity Geographies SUD is established under Section 249.97 and includes most of the Mission, Chinatown, Tenderloin, Bayview, Western Addition, Excelsior, and Visitacion Valley and other neighborhoods with a high concentration of lower income People of Color and high economic need and levels of housing insecurity.

<sup>2</sup> The Family Housing Opportunity SUD is established under Section 249.94 and is coterminous with the areas defined as "Well Resourced" neighborhoods under the Housing Element.

amendments also leave out several sites that don't fall within either of the two SUDs, which include predominantly Residential Housing (RH) Districts, where you would find the greatest number of two-unit buildings.

As we have highlighted previously, removing public hearings pursuant to Sec. 317<sup>3</sup> for demolition of existing housing is a significant step backwards for San Francisco and does in fact directly contradict Housing Element Actions **8.4.2**, **8.4.8** and **8.4.9**, all of which provide that any removal of Conditional Use Authorizations for housing production “*should not demolish existing Rent Controlled units.*”

**(2) The legislation overrides essential protections in Supervisor Melgar’s recently passed “Family Housing Opportunity Special Use District” legislation.**

While Supervisor Melgar’s legislation requires a 5-year lookback period for ownership of properties with 2+ units to be eligible for proposed streamlining, this legislation would eliminate even the current one-year ownership requirement under the existing fourplex legislation. We appreciate that project sponsors are required to certify that units to be demolished are not tenant occupied or are without a history of evictions in the last 5 years, but such reporting would be highly flawed without a minimum ownership requirement, as highlighted by the Board’s own statement in Supervisor Melgar’s legislation: “This Board recognizes that additional development opportunities may lead to speculative real estate investments that may seek to displace current residents, demolish existing housing stock, build new units, and quickly sell those units. To discourage such speculation, demolition of existing units, and displacement of current residents, particularly in existing multifamily buildings, this ordinance makes the benefit of the streamlining and development incentives available only to persons who have owned their properties for five years prior to the date of their application.”

**(3) The legislation provides no Additional Protections or Pro-Equity Initiatives for the Proposed Priority Equity Geographies Special Use District (PEG-SUD).**

The legislation creates a Special Use District to address historic inequities in Priority Equity Areas, but apart from retaining existing public noticing requirements, offers no additional protections or affirmative actions to address social or racial inequities. Instead, the legislation takes away the right of SUD residents to public hearings, including the delegation of ministerial approval for State Density Bonus projects and directly contradicts Housing Element actions **8.4.2** and **9.4.2** which explicitly state that Conditional Use Authorizations should be retained in

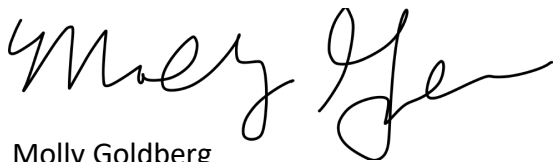

---

<sup>3</sup> Planning Code [Sec 317](#) requires that a public hearing should be held prior to approval of any permit that would remove existing housing, including through demolitions, major alterations, mergers or conversions.

Priority Equity Geographies and areas vulnerable to displacement<sup>4</sup>. Neither does the legislation offer tools or policies for prioritization of affordable housing within these areas, whereas the Housing Element has several such tools for land banking, deeper affordability, and neighborhood stabilization.

We do not in principle oppose the replacement of existing low-density housing with new higher density *affordable* housing. But there must be loophole-free standards for protecting existing tenants from displacement, enforceable guarantees of relocation assistance and right of return, and assurances of real affordable outcomes. We do not find such processes and standards proposed here. For these reasons, we urge the committee to not advance the present proposal for consideration by the full board without substantial amendments.

Sincerely,

Re: Legislative File #230446, "Planning Code, Zoning Map - Housing Production" Hearing  
October 30, 2023, Agenda Item #4

Dear Chair Melgar and Land Use & Transportation Committee members, Supervisors Peskin and Preston:

I am writing to express my condemnation of Mayor Breed's legislation #230446 and ask you to reject it.

The proposed legislation directly contradicts Housing Element Actions 8.4.2, 8.4.8 and 8.4.9, which provide that **any removal of Conditional Use Authorizations for housing production "should not demolish existing rent controlled units."**

Rent controlled housing is the most affordable housing in the city, and must not be demolished - even if the unit is vacant for 5 years, or the owner keeps the unit "off the market" for 5 years.

A **pre-application meeting** is not a substitute for a properly noticed hearing. Relying on the representations of a project sponsor does not replace a hearing that affords the public the opportunity to weigh in on tenant occupancy and the circumstances of a developer's project.

I do not see that this legislation would protect tenants against displacement.

Furthermore, the voices of community members must be respected in determining housing policy, including Affirmatively Furthering Fair Housing.

Sincerely,  
Anastasia Yovanopoulos, Coordinator  
SF Tenants Union Land Use & Planning Watch Committee

Dear Supervisors,

Across the state from Sacramento down we are seeing housing bills (over 100 since 2016) that have become a threat to everyone who lives in California, most importantly lower income households and the environment.

The Trickle down has never worked. If you'd like real solutions:

- impose 20% low & very low inclusionary affordable housing in ALL developments
- remove opportunity for developers to pay in-lieu fees on the 20% of units (for anything over 9 units)
- ban short term rentals for full units, San Francisco has 4,834 units per <http://insideairbnb.com/>
- implement a vacancy tax for homes
- earmark vacancy tax revenue to refurbish houses that owners would rent as low & very low rentals for 15 years

There are other solutions to the housing affordability crisis that hurt people or the environment.

Even as amended, the Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") still contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while grasping at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones,

setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the **wealthy**, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,  
Jovita Mendoza

Hello All,

We are in a housing crises. Opposition to ordinances such as file #230446 is why. Building more housing will not only create much needed homes for San Franciscan's, it will also create more vibrant neighborhoods, help local business thrive, and divert a financial crises by creating a larger tax base. Please stop listening to anti-housing hysterics. We need more housing of all types. Period.

Dear Supervisors,

## **We are NOT Paris!!**

Even as amended, the Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") still contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

### **This ordinance would worsen:**

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high-priced housing that is not "affordable." It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels! *There is nothing "affordable" about this type of ordinance but a subsidized program that only benefits buyers, developers, real estate interests or speculators etc. and not those most in need.*
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more working class (low/middle income) San Franciscans either out of the City, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 plus vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands and thousands more apartments. We do not need more housing construction; we need to make our existing housing space affordable.
- 
- **NO Housing Crisis** – Lets use simple math & logic, since 2022 the population of San Francisco has declined by over 65,000 which certainly has increased for

2023 and continues to decline. There are approximately 143,000 plus units that are vacant, have been built, are currently being built, that are coming soon and are in the pipeline for building, so, why would we need 82,000 more units?

**Reason** - we do NOT have a housing crisis but a crisis where HCD (RHNA) over-inflated the figures for housing needs & their veiled threats that if cities don't build these numbers, funding will not be given to cities such as San Francisco.

- The Communities do NOT need Six (6) Story complexes or greater on "every corner" or elsewhere. As stated previously, there is plenty of Vacant Office Space/Housing/Units that can be converted in an area that is more appropriate. As well, it seems the owners of these vacancies are willing, although challenging, to address options. Allowing this type of ordinance to pass would DESTROY the Neighborhoods where owners/renters desire to live in a SFR Community not an area of over-sized, over-priced cramped buildings.
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to build unhealthy housing even more easily on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up"), as well as 2550 Irving and thousands of other sites in the City with similar issues. CEQA and other agencies of this nature were established to protect the Communities and to enforce doing the right thing like doing the proper testing, remediate a site properly, not build on toxic sites or not cut corners for the sake of making money. Removing these protections will harm the Community and all those you profess to care about.
  - **Removing / Demolishing** a long-established Row House will create issues with soil, foundation, sinkage as well as so many other issues for the surrounding homes. Also, Environmental issues to consider would be the OLD materials (e.g. Mercury, Asbestos, Lead etc.) that have not been disturbed since the homes were built but would certainly be exposed & impact the Neighborhoods/Communities.
    - Another very important reason to retain **CEQA**
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.
- **Urban Renewal 2.0** – Ordinances of these nature are and will follow the same trajectory as the past like Geneva Towers.\* They will be built, not be occupied only to sit vacant (e.g. The Westerly on Sloat), become mismanaged\*, not benefit the people's needs and a blight on the Neighborhoods.

- **Financial Concerns** – Removing existing homes to build new low-high, high rise apartments/condos would NOT be financially beneficial to the Owner as the creators of this ordinance would have them or you all believe. The person selling their property is most likely elderly, the property is FREE & CLEAR of a mortgage with low property taxes and on a fixed income. However, selling the property will displace them from their home and they will have to find housing at an expensive monthly rate. Staying in their home would give them more financial power/freedom, not have to pay Capital Gains and this alone would certainly be more financially beneficial. Selling and being able to move back into a new unit, does NOT necessarily guarantee them a unit or when that would occur (building delays etc.) and certainly does not offer them financial flexibility/power.
  - Furthermore, it has not been discussed whether this transaction as with their “owned” home could be considered part of their Estate to leave to their heirs.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Consider and remember your Constituents and Neighborhoods needs NOT big money or HCD.

Please **vote DOWN** this unacceptable political and corporate attack on San Francisco's environmental, economic, cultural, and Community integrity!

Thank you,

Hello All,

We are in a housing crises. Opposition to ordinances such as file #230446 is why. Building more housing will not only create much needed homes for San Franciscan's, it will also create more vibrant neighborhoods, help local business thrive, and divert a financial crises by creating a larger tax base. Please stop listening to anti-housing hysterics. We need more housing of all types. Period.

**Subject:** Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

Even as amended, the Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") still contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while grasping at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote **DOWN** this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

**Subject:** Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

## **We are NOT Paris!!**

Even as amended, the Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") still contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

### **This ordinance would worsen:**

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high-priced housing that is not "affordable." It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels! *There is nothing "affordable" about this type of ordinance but a subsidized program that only benefits buyers, developers, real estate interests or speculators etc. and not those most in need.*
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more working class (low/middle income) San Franciscans either out of the City, or onto our streets where they will face unacceptable dangers of declining health, street crime, and

underemployment.

- **The Vacant Housing Crisis** - San Francisco has at least 60,000 plus vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands and thousands more apartments. We do not need more housing construction; we need to make our existing housing space affordable.
- 
- **NO Housing Crisis** – Lets use simple math & logic, since 2022 the population of San Francisco has declined by over 65,000 which certainly has increased for 2023 and continues to decline. There are approximately 143,000 plus units that are vacant, have been built, are currently being built, that are coming soon and are in the pipeline for building, so, why would we need 82,000 more units?  
**Reason** - we do NOT have a housing crisis but a crisis where HCD (RHNA) over-inflated the figures for housing needs & their veiled threats that if cities don't build these numbers, funding will not be given to cities such as San Francisco.
  - The Communities do NOT need Six (6) Story complexes or greater on "every corner" or elsewhere. As stated previously, there is plenty of Vacant Office Space/Housing/Units that can be converted in an area that is more appropriate. As well, it seems the owners of these vacancies are willing, although challenging, to address options. Allowing this type of ordinance to pass would DESTROY the Neighborhoods where owners/renters desire to live in a SFR Community not an area of over-sized, over-priced cramped buildings.
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to build unhealthy housing even more easily on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up"), as well as 2550 Irving and thousands of other sites in the City with similar issues. CEQA and other agencies of this nature were established to protect the Communities and to enforce doing the right thing like doing the proper testing, remediate a site properly, not build on toxic sites or not cut corners for the sake of making money. Removing these protections will harm the Community and all those you profess to care about.
  - **Removing / Demolishing** a long-established Row House will create issues with soil, foundation, sinkage as well as so many other issues for the surrounding homes. Also, Environmental issues to consider would be the OLD materials (e.g. Mercury, Asbestos, Lead etc.) that have not been disturbed since the homes were build but would certainly be exposed &

impact the Neighborhoods/Communities.

- Another very important reason to retain **CEQA**
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.
- **Urban Renewal 2.0** – Ordinances of these nature are and will follow the same trajectory as the past like Geneva Towers.\* They will be built, not be occupied only to sit vacant (e.g. The Westerly on Sloat), become mismanaged\*, not benefit the people's needs and a blight on the Neighborhoods.
- **Financial Concerns** – Removing existing homes to build new low-high, high rise apartments/condos would NOT be financially beneficial to the Owner as the creators of this ordinance would have them or you all believe. The person selling their property is most likely elderly, the property is FREE & CLEAR of a mortgage with low property taxes and on a fixed income. However, selling the property will displace them from their home and they will have to find housing at an expensive monthly rate. Staying in their home would give them more financial power/freedom, not have to pay Capital Gains and this alone would certainly be more financially beneficial. Selling and being able to move back into a new unit, does NOT necessarily guarantee them a unit or when that would occur (building delays etc.) and certainly does not offer them financial flexibility/power.
  - Furthermore, it has not been discussed whether this transaction as with their "owned" home could be considered part of their Estate to leave to their heirs.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Consider and remember your Constituents and Neighborhoods needs NOT big money or HCD.

Please **vote DOWN** this unacceptable political and corporate attack on San Francisco's environmental, economic, cultural, and Community integrity!

Thank you,

Renee Lazear

Dear Chair Melgar and the Land Use and Transportation Committee,

Please find the attached letter from the Race & Equity in all Planning Coalition (REP-SF) regarding Legislative File #230446, "Planning Code, Zoning Map - Housing Production," which is on the Land Use and Transportation Committee agenda this coming Monday, October 16th.

Respectfully,  
Jeantelle Laberinto  
on behalf of the Race & Equity in all Planning Coalition

**12 October 2023**

Chair of the Land Use & Transportation Committee, Supervisor Melgar  
Land Use & Transportation Committee Members, Supervisors Peskin and Preston

**Re: Legislative File #230446, "Planning Code, Zoning Map - Housing Production"**

Dear Land Use & Transportation Committee Chair Melgar and Supervisors Peskin and Preston:

Despite amendments made by the Mayor and Supervisor Melgar, the Race & Equity in all Planning Coalition of San Francisco (REP-SF), strongly urges the Land Use & Transportation Committee to reject this legislation and take up new legislation that:

- Puts affordable housing first
- Protects tenants against displacement
- Values and retains the voices and aspirations of historically marginalized communities in project approval processes with significantly shorter durations
- Expands and modifies the Priority Equity Geographies SUD (PEG-SUD), and provides additional protections and opportunities to people who live within the expanded PEG-SUD.

This City has already passed several significant measures intended to "reduce constraints" for market rate housing. These include:

- [File #230026](#): Creates the Family Housing Opportunity Special Use District.
- [File #230374](#): Cuts more than a year off the site permit and building permit process.
- [File #230764](#) and [File #230769](#): Reduces impact fees paid by market rate developers.
- [File #230855](#): Reduces inclusionary housing requirement for market rate developers.
- [File #230732](#): Streamlines commercial properties converting to residential.

The City has also proposed other measures that are still pending Committee action, including:

- [File #230734](#): Replaces residential density limits in Certain Neighborhood Commercial Districts.
- [File #230735](#): Removes residential density limits in Neighborhood Commercial Districts.
- [File #230372](#): Exempts projects from impact fees that convert from commercial to residential

Although San Francisco fell 8,298 units short of its affordable housing goals for the last Housing Element cycle, and is facing a goal of nearly 47,000 affordable units for the current Housing Element cycle which is 57% of the overall goal, these ordinances prove that the City is only moving forward with the same failed housing policies and priorities.

Continuing to push even more legislation to further "reduce constraints" when our City already has a backlog of tens of thousands of already-entitled market rate developments, and more than

60,000 vacant market rate units avoids our City's legal obligation to affirmatively further fair housing (AFFH) and policy objectives to prioritize racial and social equity.

As policymakers, we urge you to ask, with the legislative decisions you make, "who are we as a City building for?". [This article from the San Francisco Chronicle, "SF's luxury condo market is cooling. Here's why it might be a good time to buy"](#) on October 10, 2023 seems to indicate that most of the condo buildings being built in San Francisco are largely vacant, and that the market for these units is foreign investors. There isn't any discussion in this article among developers about targeting these units to San Francisco's low to moderate income households either in the short or long term. This article underscores the fact that in order to provide housing that very-low, low, and moderate income households can truly afford, we need to prioritize other Implementation Actions from the Housing Element that focus on truly affordable housing.

### **Putting Affordable Housing First**

1. The Housing Element commits the City to build 57% of its new housing in the next eight years as price restricted to be affordable for very-low, low and moderate income households. This legislation must prioritize strategies for price-restricted affordable housing.
2. Add a budget supplemental and/or a dedicated revenue source to commit significant new funding to affordable housing per **Housing Element action 1.1.2**.
3. Include a provision that identifies enough development sites and building acquisitions to meet our RHNA mandate for Very low, Low and Moderate income housing. Please refer to **Housing Element Actions 1.2.2 and 1.4.6**.

### **Protecting Tenants Against Displacement**

1. Retain the Citywide requirement for Conditional Use Authorization (CUA) for any proposed demolition of existing rent-controlled units.
  - a. The Housing Element includes Implementation Actions that speak to retention of rent controlled units even if Conditional Use Authorization policies are updated. Please refer to **Housing Element Actions 8.4.8, 8.4.9**,
2. Expand rent control to all new units
3. Protect small businesses from displacement
  - a. Prohibit demolition of buildings occupied by community-based, community-serving small businesses within the five years prior to the project application. This pertains as well to legacy businesses and priority businesses identified by Cultural Districts as being important in their CHHESS reports.

### **Valuing and Retaining the Voices of Historically Marginalized Communities**

1. REP-SF supports efforts to reduce the duration of project reviews and uncertainty in the process. We, however, demand a process that continues to put the voices and expertise of low income and communities of color out front in the approval process.
  - a. Please refer to **Housing Element Action 8.4.21** for how to retain meaningful input and participation citywide, especially from low-income communities and communities of color.
  - b. Develop new project approval systems that strengthen the ability for Cultural Districts, low income communities and communities of color to direct how our communities grow and develop as supported by **Housing Element Actions**

**3.4.2; 4.1.1; 4.1.2; 4.1.4; 4.2.4; 4.2.5; 4.2.6; 4.4.2; 4.5.12; 5.2.4; 5.4.1; 6.1.3; 6.3.2 among others.**

### **Expanding and Modifying the Priority Equity Geographies SUD**

1. This Committee should be aware that despite the fact that so much attention is being paid to areas outside the PEG-SUD, the Housing Element still results in most of the housing being built within the PED-SUD. Please see the [Planning Department's map below](#). As our communities have experienced, this scale of market rate development results in escalation of housing costs and displacement, especially of households with low incomes, and historically marginalized San Francisco residents.
2. Expand the PEG-SUD with input from American Indian, Black and other people of color communities and low income communities throughout the City, and input from all Cultural Districts.
  - a. Retain and strengthen public noticing, anti-displacement and other community stabilization policies and procedures within the expanded PEG-SUD. Several Implementation Actions in the Housing Element refer to "Priority Equity Geographies and areas vulnerable to displacement" but the "areas vulnerable to displacement" are not considered in this legislation.
  - b. Restore Impact fees and inclusionary housing requirements to their prior levels within the expanded PEG-SUD.
  - c. Commit significant new investments and resources for affordable housing for communities within the expanded PEG-SUD.
  - d. Update the PEG-SUD, [which is already out of date](#), with new data and input from historically marginalized communities at least every five (5) years.

### **Conclusion**

Despite the amendments that were incorporated into the legislation at the October 2, 2023 hearing, this legislation fundamentally moves our City in entirely the opposite direction of racial and social equity with an approach that silences our communities, encourages demolitions and displacement of existing housing throughout vast areas of the City, and provides no resources or meaningful benefits for affordable housing.

REP-SF requests that the Land Use & Transportation Committee reject this legislation, and commence working with low income and people of color communities throughout the City to move forward legislation that implements the Housing Element to affirmatively further fair housing and center racial and social equity. REP-SF looks forward to working with you all on new legislation to reorient the priorities of Housing Element implementation.

Respectfully submitted,

Jeantelle Laberinto

on behalf of the Race & Equity in all Planning Coalition, San Francisco

**Date:** Monday, September 18, 2023 7:36:34 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive unprecedented waivers of local environmental, community, and demolition reviews that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year!

**This ordinance would worsen:**

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high-priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower-class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with

luxury condos and rental towers will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Subject: Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

Even as amended, the Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") still contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while grasping at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem

waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

Subject: Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

We are NOT Paris!!

Even as amended, the Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") still contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high-priced housing that is not "affordable." It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels! *There is nothing "affordable" about this type of ordinance but a subsidized program that only benefits buyers, developers, real estate interests or speculators etc. and not those most in need.*
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more working class (low/middle income) San Franciscans either out of the City, or onto our streets where they will face unacceptable dangers of declining health, street crime, and

underemployment.

- **The Vacant Housing Crisis** - San Francisco has at least 60,000 plus vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands and thousands more apartments. We do not need more housing construction; we need to make our existing housing space affordable.
-
- **NO Housing Crisis** – Lets use simple math & logic, since 2022 the population of San Francisco has declined by over 65,000 which certainly has increased for 2023 and continues to decline. There are approximately 143,000 plus units that are vacant, have been built, are currently being built, that are coming soon and are in the pipeline for building, so, why would we need 82,000 more units?
Reason - we do NOT have a housing crisis but a crisis where HCD (RHNA) over-inflated the figures for housing needs & their veiled threats that if cities don't build these numbers, funding will not be given to cities such as San Francisco.
 - The Communities do NOT need Six (6) Story complexes or greater on "every corner" or elsewhere. As stated previously, there is plenty of Vacant Office Space/Housing/Units that can be converted in an area that is more appropriate. As well, it seems the owners of these vacancies are willing, although challenging, to address options. Allowing this type of ordinance to pass would DESTROY the Neighborhoods where owners/renters desire to live in a SFR Community not an area of over-sized, over-priced cramped buildings.
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to build unhealthy housing even more easily on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up"), as well as 2550 Irving and thousands of other sites in the City with similar issues. CEQA and other agencies of this nature were established to protect the Communities and to enforce doing the right thing like doing the proper testing, remediate a site properly, not build on toxic sites or not cut corners for the sake of making money. Removing these protections will harm the Community and all those you profess to care about.
 - **Removing / Demolishing** a long-established Row House will create issues with soil, foundation, sinkage as well as so many other issues for the surrounding homes. Also, Environmental issues to consider would be the OLD materials (e.g. Mercury, Asbestos, Lead etc.) that have not been disturbed since the homes were build but would certainly be exposed &

impact the Neighborhoods/Communities.

- Another very important reason to retain **CEQA**
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.
- **Urban Renewal 2.0** – Ordinances of these nature are and will follow the same trajectory as the past like Geneva Towers.* They will be built, not be occupied only to sit vacant (e.g. The Westerly on Sloat), become mismanaged*, not benefit the people's needs and a blight on the Neighborhoods.
- **Financial Concerns** – Removing existing homes to build new low-high, high rise apartments/condos would NOT be financially beneficial to the Owner as the creators of this ordinance would have them or you all believe. The person selling their property is most likely elderly, the property is FREE & CLEAR of a mortgage with low property taxes and on a fixed income. However, selling the property will displace them from their home and they will have to find housing at an expensive monthly rate. Staying in their home would give them more financial power/freedom, not have to pay Capital Gains and this alone would certainly be more financially beneficial. Selling and being able to move back into a new unit, does NOT necessarily guarantee them a unit or when that would occur (building delays etc.) and certainly does not offer them financial flexibility/power.
 - Furthermore, it has not been discussed whether this transaction as with their "owned" home could be considered part of their Estate to leave to their heirs.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Consider and remember your Constituents and Neighborhoods needs NOT big money or HCD.

Please **vote DOWN** this unacceptable political and corporate attack on San Francisco's environmental, economic, cultural, and Community integrity!

Thank you,

Renee Lazear

Subject: Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

Even as amended, the Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") still contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **A Bad Decision Making Process** - Allowing the Mayor and Supervisors to ram forward a massive, destructive ordinance that will demolish and gentrify neighborhoods all over the city, while grasping at straws to try to amend it, is extremely bad process. We need to scrap this ordinance and draft legislation that will produce 100% affordable housing for families making less than \$80,000 per year.
- **Corporate Housing Takeovers** - The five year "look back" provisions in the amendments are useless. Wall Street and other corporate speculators buy, demolish, build and sell housing in five year investment cycles. They will have no problem waiting five years to demolish a neighborhood and gentrify it. We need *ten year* prohibitions on corporate housing speculation which apply to *all* housing, not just rent controlled housing.
- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote **DOWN** this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello All,

We are in a housing crises. Opposition to ordinances such as file #230446 is why. Building more housing will not only create much needed homes for San Franciscan's, it will also create more vibrant neighborhoods, help local business thrive, and divert a financial crises by creating a larger tax base. Please stop listening to anti-housing hysterics. We need more housing of all types. Period.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Having read the written amendments added by Supervisor Melgar and Mayor Breed, we have determined that these amendments still do not go far

enough in protecting the loss of affordable housing by allowing demolition essentially Citywide, nor does it address affordability. For these reasons we stand in opposition to this legislation and urge you not to advance this legislation in its current form.

Dear Mr. Carroll:

Good morning.

I just read the **October 12th letter from REP-SF** to the Committee re this ordinance.

I agree 100% with their letter. Their letter is comprehensive.

The REP-SF letter correctly analyzes and explains why this proposed ordinance should be rejected and not voted out to the full Board.

Thank you.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Chair Melgar and the Land Use and Transportation Committee,

Please find the attached letter from the Race & Equity in all Planning Coalition (REP-SF) regarding Legislative File #230446, "Planning Code, Zoning Map - Housing Production," which is on the Land Use and Transportation Committee agenda this coming Monday, October 16th.

Respectfully,
Jeantelle Laberinto
on behalf of the Race & Equity in all Planning Coalition

12 October 2023

Chair of the Land Use & Transportation Committee, Supervisor Melgar
Land Use & Transportation Committee Members, Supervisors Peskin and Preston

Re: Legislative File #230446, "Planning Code, Zoning Map - Housing Production"

Dear Land Use & Transportation Committee Chair Melgar and Supervisors Peskin and Preston:

Despite amendments made by the Mayor and Supervisor Melgar, the Race & Equity in all Planning Coalition of San Francisco (REP-SF), strongly urges the Land Use & Transportation Committee to reject this legislation and take up new legislation that:

- Puts affordable housing first
- Protects tenants against displacement
- Values and retains the voices and aspirations of historically marginalized communities in project approval processes with significantly shorter durations
- Expands and modifies the Priority Equity Geographies SUD (PEG-SUD), and provides additional protections and opportunities to people who live within the expanded PEG-SUD.

This City has already passed several significant measures intended to "reduce constraints" for market rate housing. These include:

- [File #230026](#): Creates the Family Housing Opportunity Special Use District.
- [File #230374](#): Cuts more than a year off the site permit and building permit process.
- [File #230764](#) and [File #230769](#): Reduces impact fees paid by market rate developers.
- [File #230855](#): Reduces inclusionary housing requirement for market rate developers.
- [File #230732](#): Streamlines commercial properties converting to residential.

The City has also proposed other measures that are still pending Committee action, including:

- [File #230734](#): Replaces residential density limits in Certain Neighborhood Commercial Districts.
- [File #230735](#): Removes residential density limits in Neighborhood Commercial Districts.
- [File #230372](#): Exempts projects from impact fees that convert from commercial to residential

Although San Francisco fell 8,298 units short of its affordable housing goals for the last Housing Element cycle, and is facing a goal of nearly 47,000 affordable units for the current Housing Element cycle which is 57% of the overall goal, these ordinances prove that the City is only moving forward with the same failed housing policies and priorities.

Continuing to push even more legislation to further "reduce constraints" when our City already has a backlog of tens of thousands of already-entitled market rate developments, and more than

60,000 vacant market rate units avoids our City's legal obligation to affirmatively further fair housing (AFFH) and policy objectives to prioritize racial and social equity.

As policymakers, we urge you to ask, with the legislative decisions you make, "who are we as a City building for?". [This article from the San Francisco Chronicle, "SF's luxury condo market is cooling. Here's why it might be a good time to buy"](#) on October 10, 2023 seems to indicate that most of the condo buildings being built in San Francisco are largely vacant, and that the market for these units is foreign investors. There isn't any discussion in this article among developers about targeting these units to San Francisco's low to moderate income households either in the short or long term. This article underscores the fact that in order to provide housing that very-low, low, and moderate income households can truly afford, we need to prioritize other Implementation Actions from the Housing Element that focus on truly affordable housing.

Putting Affordable Housing First

1. The Housing Element commits the City to build 57% of its new housing in the next eight years as price restricted to be affordable for very-low, low and moderate income households. This legislation must prioritize strategies for price-restricted affordable housing.
2. Add a budget supplemental and/or a dedicated revenue source to commit significant new funding to affordable housing per **Housing Element action 1.1.2**.
3. Include a provision that identifies enough development sites and building acquisitions to meet our RHNA mandate for Very low, Low and Moderate income housing. Please refer to **Housing Element Actions 1.2.2 and 1.4.6**.

Protecting Tenants Against Displacement

1. Retain the Citywide requirement for Conditional Use Authorization (CUA) for any proposed demolition of existing rent-controlled units.
 - a. The Housing Element includes Implementation Actions that speak to retention of rent controlled units even if Conditional Use Authorization policies are updated. Please refer to **Housing Element Actions 8.4.8, 8.4.9**,
2. Expand rent control to all new units
3. Protect small businesses from displacement
 - a. Prohibit demolition of buildings occupied by community-based, community-serving small businesses within the five years prior to the project application. This pertains as well to legacy businesses and priority businesses identified by Cultural Districts as being important in their CHHESS reports.

Valuing and Retaining the Voices of Historically Marginalized Communities

1. REP-SF supports efforts to reduce the duration of project reviews and uncertainty in the process. We, however, demand a process that continues to put the voices and expertise of low income and communities of color out front in the approval process.
 - a. Please refer to **Housing Element Action 8.4.21** for how to retain meaningful input and participation citywide, especially from low-income communities and communities of color.
 - b. Develop new project approval systems that strengthen the ability for Cultural Districts, low income communities and communities of color to direct how our communities grow and develop as supported by **Housing Element Actions**

3.4.2; 4.1.1; 4.1.2; 4.1.4; 4.2.4; 4.2.5; 4.2.6; 4.4.2; 4.5.12; 5.2.4; 5.4.1; 6.1.3; 6.3.2 among others.

Expanding and Modifying the Priority Equity Geographies SUD

1. This Committee should be aware that despite the fact that so much attention is being paid to areas outside the PEG-SUD, the Housing Element still results in most of the housing being built within the PED-SUD. Please see the [Planning Department's map below](#). As our communities have experienced, this scale of market rate development results in escalation of housing costs and displacement, especially of households with low incomes, and historically marginalized San Francisco residents.
2. Expand the PEG-SUD with input from American Indian, Black and other people of color communities and low income communities throughout the City, and input from all Cultural Districts.
 - a. Retain and strengthen public noticing, anti-displacement and other community stabilization policies and procedures within the expanded PEG-SUD. Several Implementation Actions in the Housing Element refer to "Priority Equity Geographies and areas vulnerable to displacement" but the "areas vulnerable to displacement" are not considered in this legislation.
 - b. Restore Impact fees and inclusionary housing requirements to their prior levels within the expanded PEG-SUD.
 - c. Commit significant new investments and resources for affordable housing for communities within the expanded PEG-SUD.
 - d. Update the PEG-SUD, [which is already out of date](#), with new data and input from historically marginalized communities at least every five (5) years.

Conclusion

Despite the amendments that were incorporated into the legislation at the October 2, 2023 hearing, this legislation fundamentally moves our City in entirely the opposite direction of racial and social equity with an approach that silences our communities, encourages demolitions and displacement of existing housing throughout vast areas of the City, and provides no resources or meaningful benefits for affordable housing.

REP-SF requests that the Land Use & Transportation Committee reject this legislation, and commence working with low income and people of color communities throughout the City to move forward legislation that implements the Housing Element to affirmatively further fair housing and center racial and social equity. REP-SF looks forward to working with you all on new legislation to reorient the priorities of Housing Element implementation.

Respectfully submitted,

Jeantelle Laberinto

on behalf of the Race & Equity in all Planning Coalition, San Francisco

Dear Supervisor and All,

Please take the time to read my words for Public Comments regarding this matter.

It may be a bit long, but wanted to express my feeling & OPPOSITION to this Ordinance.

Thank you,
Renee Lazear
D4 Resident
SON-SF ~ Save Our Neighborhoods SF

Subject: Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance File #230446

Dear Supervisors and All,

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive, unprecedented waivers of local environmental, community and demolition review that are unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year! – **UPDATE** It is ridiculous that the ordinance calls housing that is built mostly for families making over \$230,000 a year "affordable". We already have a 50% oversupply of housing for those income levels!

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high-priced housing that is not "affordable." It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels! *There is nothing "affordable" about this type of ordinance but a subsidized program that only benefits buyers, developers, real estate interests or speculators etc. and not those most in need.*
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more working class (low/middle income) San Franciscans either out of the City, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 plus vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands and thousands more apartments. We do not need more housing construction; we need to make our existing housing space affordable!
- **NO Housing Crisis** – Lets use simple math & logic, since 2022 the population of San Francisco has declined by over 65,000 which certainly has increased for 2023 and continues to decline. There are approximately 143,000 plus units that are vacant, have been built, are currently being built, that are coming soon and are in the pipeline for building, so, why would we need 82,000 more units?
Reason - we do NOT have a housing crisis but a crisis where HCD (RHNA) over-inflated the figures for housing needs & their veiled threats that if cities don't build these numbers, funding will not be given to cities such as San Francisco.
 - The Communities do NOT need Six (6) Story complexes or greater on "every corner" or elsewhere. As stated previously, there is plenty of Vacant Office Space/Housing/Units that can be converted in an area that is more appropriate. As well, it seems the owners of these vacancies are willing, although challenging, to address options. Allowing this type of ordinance to pass would DESTROY the Neighborhoods where owners/renters desire to live in a SFR Community not an area of over-sized, over-priced cramped buildings.

- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to build unhealthy housing even more easily on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up"), as well as 2550 Irving and thousands of other sites in the City with similar issues. CEQA and other agencies of this nature were established to protect the Communities and to enforce doing the right thing like doing the proper testing, remediate a site properly, not build on toxic sites or not cut corners for the sake of making money. Removing these protections will harm the Community and all those you profess to care about.
 - **Removing / Demolishing** a long-established Row House will create issues with soil, foundation, sinkage as well as so many other issues for the surrounding homes. Also, Environmental issues to consider would be the OLD materials (e.g. Mercury, Asbestos, Lead etc.) that have not been disturbed since the homes were build but would certainly be exposed & impact the Neighborhoods/Communities.
 - Another very important reason to retain **CEQA**
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.
- **Urban Renewal 2.0** – Ordinances of these nature are and will follow the same trajectory as the past like Geneva Towers.* They will be built, not be occupied only to sit vacant (e.g. The Westerly on Sloat), become mismanaged*, not benefit the people's needs and a blight on the Neighborhoods.
- **Financial Concerns** – Removing existing homes to build new low-high rise apartments would NOT be financially beneficial to the Owner as the creators of this ordinance would have them or you all believe. The person selling their property is most likely elderly, the property is FREE & CLEAR of a mortgage with low property taxes and on a fixed income. However, selling the property will displace them from their home and they will have to find housing at an expensive monthly rate. Staying in their home would give them more financial power/freedom, not have to pay Capital Gains and this alone would certainly be more financially beneficial. Selling and being able to move back into a new unit, does NOT necessarily guarantee them a unit or when that would occur (building delays etc.) and certainly does not offer them financial flexibility/power.
 - Furthermore, it has not been discussed whether this transaction as with their "owned" home could be considered part of their Estate to leave to their heirs.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Consider and remember your Constituents and Neighborhoods needs NOT big money or HCD.

Please **vote DOWN** this unacceptable political and corporate attack on San Francisco's environmental, economic, cultural, and Community integrity!

Thank you,

Renee Lazear

Subject: Housing for All Ordinance
Date: Monday, October 2, 2023 11:23:30 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Members of the San Francisco Board of Supervisors Land Use Committee,

I am writing to express my strong support for the "Housing for All" / Constraints Removal Legislation (BOS file # 230446). As an architect, I am trying to make a tiny difference by helping clients who want to build housing projects (ADUs primarily for me and my practice), actually get them built. The bureaucracy that people in this city must endure to get even simple additions or ADUs constructed is not only daunting enough, but usually results in people cancelling those plans and those kinds of projects.

I understand the differing viewpoints within the Land Use Committee, and I acknowledge that some members may have reservations about this legislation. However, I implore you to consider the broader implications of your decision. Opposing this legislation is equivalent to opposing millions of dollars of affordable housing and transit funding from the state for San Francisco. The State's scrutiny and the potential withholding of funds should not be taken lightly. It would have disastrous consequences for our city and, most importantly, the vulnerable members of our community who rely on affordable housing.

In addition to this crucial point, the "Housing for All" legislation contains several vital provisions, including process improvements mandated by the state, standardization of development standards, and the expansion of affordable housing incentives. These measures are essential for San Francisco to meet its obligation to produce 82,000 units by 2031 under the state-approved Housing Element. Furthermore, they enable us to streamline development, foster creativity, and enhance the quality of housing while addressing our housing affordability emergency.

I urge you to focus on the greater good of our city. By supporting the "Housing for All" / Constraints Removal Legislation, we can take a significant step toward ensuring that San Francisco remains a place where all its residents can find safe, affordable housing. I believe that by working together, we can make our city a more inclusive and vibrant place for all.

Thank you for your time and consideration.

Sincerely,
Mark

RE: Support for "Housing for All" / Constraints Removal Legislation (BOS file # 230446)

Dear Members of the San Francisco Board of Supervisors Land Use Committee,

I am writing to express my strong support for the "Housing for All" / Constraints Removal Legislation (BOS file # 230446). As an architect and a member of the AIASF Board of Directors and Public Policy Action Committee, I am acutely aware of the pressing need for affordable housing in our city and the critical role that this legislation plays in addressing the housing crisis.

I understand the differing viewpoints within the Land Use Committee, and I acknowledge that some members may have reservations about this legislation. However, I implore you to consider the broader implications of your decision. Opposing this legislation is equivalent to opposing millions of dollars of affordable housing and transit funding from the state for San Francisco. The State's scrutiny and the potential withholding of funds should not be taken lightly. It would have disastrous consequences for our city and, most importantly, the vulnerable members of our community who rely on affordable housing.

In addition to this crucial point, the "Housing for All" legislation contains several vital provisions, including process improvements mandated by the state, standardization of development standards, and the expansion of affordable housing incentives. These measures are essential for San Francisco to meet its obligation to produce 82,000 units by 2031 under the state-approved Housing Element. Furthermore, they enable us to streamline development, foster creativity, and enhance the quality of housing while addressing our housing affordability emergency.

I urge you to focus on the greater good of our city. By supporting the "Housing for All" / Constraints Removal Legislation, we can take a significant step toward ensuring that San Francisco remains a place where all its residents can find safe, affordable housing. I believe that by working together, we can make our city a more inclusive and vibrant place for all.

Thank you for your time and consideration.

Hello All,

We are in a housing crises! We have allowed neighborhoods to weaponize environmental and density ordinances long enough. Now is the time to allow for a more vibrant city with a range of housing options for everyone. Don't let the same old hysteria about gentrification and nimbism stop progress. This has failed us historically and will fail us going forward. I urge you to address our critical housing shortage and support this bill.

Best,
Francesca Pastine

Dear Supervisors Melgar, Peskin and Preston,

The letter on the Mayor's Legislation from Ms. Goldberg for the SF Anti Displacement Coalition makes a great deal of sense about Demolition of *sound housing* and tenant protection.

By removing the chance for public comment there is no safety valve to protect tenants.

Sound housing should never be approved for Demolition with a Ministerial review.

On page 52 of the proposed Legislation, lines 24 and 25 basically say that it is okay to demolish two units. Two units can also be a pair of Residential Flats.

This is contrary to the Residential Flat Policy (Planning Commission Resolution No. 20024) which recognizes this typology of housing as a source of housing for middle income families.

San Francisco is a City that is full of Residential Flats. Many have been illegally merged. Many have been condo'ed and/or TIC'ed, often due to evictions but many, many remain as rentals, covered by rent control. *This Flat Policy needs to be strengthened, not softened.*

This source of existing housing needs protection and the Mayor's legislation threatens Residential Flats throughout the City.

For this and the other reasons as outlined in my September 14, 2023 letter to the LUT, please table this legislation and do not send it on to the full Board.

I have read all the letters sent to the Committee and listened to the hearings. *The opposition to the Mayor's legislation makes sense.* At the very least the Committee should wait for the Planning Department's Feasibility Study on the Re-Zoning that apparently is due out shortly.

Additionally, attached is a pdf photo of the front door of a Flat that was on the market during the Pandemic. This photo was part of the web ad. The other Flat was vacant. There is much to say about this particular Flat, but the bottom line is the tenant mentioned on the sign of the front door is no longer living in this Flat. They were ultimately either "disturbed" with a buyout or with an eviction.

Thank you.

Sincerely,
Georgia Schuttish

Please Do
Not Disturb
the Tenant

These comments are for file#230446, item 4 on the Oct 2 Land Use and Transportation Committee agenda.

I hope the Supervisors will reject the proposed ordinance. It does not address the housing needs of most San Franciscans. The ordinance specifies that less of a third (30%) of constructed housing be affordable. The definition of "affordable" is based on Area Median Income, which, by the definition of median, means half of San Franciscans would be unable to actually afford it.

Furthermore, the bill removes many of the processes designed to ensure that building projects meet the needs of The City, and instead relies on corporate real-estate speculators. We have seen how (un)successful that is. We have amazing soaring alabaster towers, and one of the highest rates of new housing construction in the state, and we still have people sleeping on sidewalks. In theory the invisible hand of the market would ensure that the housing that gets built is best for the purpose. In practice, the market is too slow, too centralized, and often too opaque, resulting in unneeded units that sit idle.

The result of the reliance on large corporations and Area Median Income as a measure of affordability is a positive feedback loop: as the lowest-income tier of San Franciscans get displaced, the median moves up. It's almost as though the process was designed to clear The City of lower income people. All the people who kept our grocery stores open and cared for our sick during the pandemic- the effect is to chase them out of the city. They would wind up commuting in from Turlock or sleeping under freeways. Let's look for something that can make housing available for all San Franciscans.

Thank you,  
John Anderson

### **Streamlining Reveals San Francisco's Amnesia and Conflicted Heart**

John Avalos, Executive Director  
Council of Community Housing Organizations

As San Francisco workers and residents from across the City impacted by housing insecurity, we support the rapid development of housing that will meet State fair housing standards for working class, BIPOC residents and the City's Housing Element goal to build 46,598 affordable homes by 2031.

However, we are alarmed to see City Hall's latest urban renewal strategy — streamlining legislation that prioritizes market rate housing over the more urgent need to build affordable housing for working class communities. Streamlining will not provide relief for those who have been struggling for decades with housing discrimination, economic exclusion, and overall housing insecurity, relying on the same “right to return” logic which failed tens of thousands of Black San Franciscans in urban renewal. In addition, the streamlining legislation facilitates luxury housing on limited prime sites for affordable housing, undermining the Housing Element’s affordable housing mandate and ignoring the Housing Element objective to set aside and bank precious land for affordable development.

The timing of this streamlining push is telling of San Francisco's conflicted heart. At the same time that members of the Board of Supervisors have expressed their support for the [African American Reparations Advisory Committee's Reparations Plan 2023](#), the City is also promoting rapid housing development that is short on affordability, fails to advance fair housing goals, and will likely increase displacement pressures to destabilize our local communities, including Black households whose contributions to San Francisco have helped to make this City great. Enabling the rapid development of market rate housing just after adopting the Reparations Plan makes the unanimous approval of Reparations appear like the shedding of crocodile tears.

The African American Reparations Advisory Committee spent thousands of hours documenting the experiences of hundreds of Black residents past and present. This effort culminated in a plan that comes partly out of the Black experience of redlining and housing covenants as well as the so-called urban renewal strategies of the mid-20th Century that razed scores of blocks and entire neighborhoods, displacing thousands of Black residents as well as their Brown, and Asian counterparts, all to make way for market rate development. The *Reparations Plan 2023* emphasizes that any acknowledgement of this harm is meaningless without redress and action to build a City where Black residents can thrive and such injuries never occur again. And yet, written in class- and color blind language, today's legislation to streamline market rate housing will cause the same displacement pressures as the urban renewal policies of old, contributing to the continued unhousing and outmigration of working class BIPOC residents from San Francisco. From the planners' perspective these harms are unfortunate, but acceptable collateral damage to developer profit.

The City must be much more intentional to meaningfully advance racial equity and affordability in all housing production and ensure a just economic recovery for all San Franciscans. To heal its conflicted heart and make real its adoption of the Housing Element as well as its approval of *Reparations Plan 2023*, the City must transform its entire approach to housing development, build new public institutions and financial structures that will foster economic inclusion and racial equity.

*Reparations Plan 2023* urges the City to remake itself and contains scores of recommendations for the City to honor the contributions of African Americans in building this City, acknowledge the harms it has inflicted on Black residents, undo the

systems of oppression that have marginalized Blacks to the benefit of white and wealthy residents. In addition to issuing a formal apology and committing to undoing the harm, the City and Mayor can start with:

- 
- 
- fully funding the Office of Reparations and staffing
- it up to execute the Reparations Plan,
- 
- 
- 
- creating the Reparations Stakeholder Authority
- independent of the City and County of San Francisco, and
- 
- 
- 
- Creating a municipal finance corporation as a step
- towards a Public Bank and recruiting a partner Black-owned community bank to give unbanked people fair options and expanded access to credit, loans, financing, and other tools for leveraging financial power.
- 

As for streamlining, we ask the City to go back to the drawing board to prepare strategies that are consistent with its stated goals on racial equity and housing, and conform with the state's fair housing laws. San Francisco's Housing Element mandate is to ensure that 57% of all new development is affordable. Nothing less than that will demonstrate a genuine commitment to developing San Francisco for the benefit of Black, Indigenous, People of Color communities.

At the Council of Community Housing Organizations, we look forward to working with a broad base of stakeholders, including our diverse communities, labor, developers, and alongside City Hall on a comprehensive approach to housing development that takes seriously San Francisco's mandate to place affordability and racial equity first.

RE: Support for "Housing for All" / Constraints Removal Legislation (BOS file # 230446)

Dear Members of the San Francisco Board of Supervisors Land Use Committee,

I am writing to express my strong support for the "Housing for All" / Constraints Removal Legislation

(BOS file # 230446). As an architect and a member of the AIASF Board of Directors and Public Policy Action Committee, I am acutely aware of the pressing need for affordable housing in our city and the critical role that this legislation plays in addressing the housing crisis.

I understand the differing viewpoints within the Land Use Committee, and I acknowledge that some members may have reservations about this legislation. However, I implore you to consider the broader implications of your decision. Opposing this legislation is equivalent to opposing millions of dollars of affordable housing and transit funding from the state for San Francisco. The State's scrutiny and the potential withholding of funds should not be taken lightly. It would have disastrous consequences for our city and, most importantly, the vulnerable members of our community who rely on affordable housing.

In addition to this crucial point, the "Housing for All" legislation contains several vital provisions, including process improvements mandated by the state, standardization of development standards, and the expansion of affordable housing incentives. These measures are essential for San Francisco to meet its obligation to produce 82,000 units by 2031 under the state-approved Housing Element. Furthermore, they enable us to streamline development, foster creativity, and enhance the quality of housing while addressing our housing affordability emergency.

I urge you to focus on the greater good of our city. By supporting the "Housing for All" / Constraints Removal Legislation, we can take a significant step toward ensuring that San Francisco remains a place where all its residents can find safe, affordable housing. I believe that by working together, we can make our city a more inclusive and vibrant place for all.

Thank you for your time and consideration.

Sincerely,

Subject: Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance File #230446

Dear Supervisors and All,

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive, unprecedented waivers of local environmental, community and demolition review that are unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year! – **UPDATE** It is ridiculous that the ordinance calls housing that is built mostly for families making over \$230,000 a year "affordable". We already have a 50% oversupply of housing for those income levels!

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high-priced housing that is not "affordable." It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels! *There is nothing "affordable" about this type of ordinance but a subsidized program that only benefits buyers, developers, real estate interests or speculators etc. and not those most in need.*
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more working class (low/middle income) San Franciscans either out of the City, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 plus vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands and thousands more apartments. We do not need more housing construction; we need to make our existing housing space affordable!
- **NO Housing Crisis** – Lets use simple math & logic, since 2022 the population of San Francisco has declined by over 65,000 which certainly has increased for 2023 and continues to decline. There are approximately 143,000 plus units that are vacant, have been built, are currently being built, that are coming soon and are in the pipeline for building, so, why would we need 82,000 more units?  
**Reason** - we do NOT have a housing crisis but a crisis where HCD (RHNA) over-inflated the figures for housing needs & their veiled threats that if cities don't build these numbers, funding will not be given to cities such as San Francisco.
  - The Communities do NOT need Six (6) Story complexes or greater on "every corner" or elsewhere. As stated previously, there is plenty of Vacant Office Space/Housing/Units that can be converted in an area that is more appropriate. As well, it seems the owners of these vacancies are willing, although challenging, to address options. Allowing this type of ordinance to pass would DESTROY the Neighborhoods where owners/renters desire to live in a SFR Community not an area of over-sized, over-priced cramped buildings.

- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to build unhealthy housing even more easily on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up"), as well as 2550 Irving and thousands of other sites in the City with similar issues. CEQA and other agencies of this nature were established to protect the Communities and to enforce doing the right thing like doing the proper testing, remediate a site properly, not build on toxic sites or not cut corners for the sake of making money. Removing these protections will harm the Community and all those you profess to care about.
  - **Removing / Demolishing** a long-established Row House will create issues with soil, foundation, sinkage as well as so many other issues for the surrounding homes. Also, Environmental issues to consider would be the OLD materials (e.g. Mercury, Asbestos, Lead etc.) that have not been disturbed since the homes were build but would certainly be exposed & impact the Neighborhoods/Communities.
    - Another very important reason to retain **CEQA**
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.
- **Urban Renewal 2.0** – Ordinances of these nature are and will follow the same trajectory as the past like Geneva Towers.\* They will be built, not be occupied only to sit vacant (e.g. The Westerly on Sloat), become mismanaged\*, not benefit the people's needs and a blight on the Neighborhoods.
- **Financial Concerns** – Removing existing homes to build new low-high rise apartments would NOT be financially beneficial to the Owner as the creators of this ordinance would have them or you all believe. The person selling their property is most likely elderly, the property is FREE & CLEAR of a mortgage with low property taxes and on a fixed income. However, selling the property will displace them from their home and they will have to find housing at an expensive monthly rate. Staying in their home would give them more financial power/freedom, not have to pay Capital Gains and this alone would certainly be more financially beneficial. Selling and being able to move back into a new unit, does NOT necessarily guarantee them a unit or when that would occur (building delays etc.) and certainly does not offer them financial flexibility/power.
  - Furthermore, it has not been discussed whether this transaction as with their "owned" home could be considered part of their Estate to leave to their heirs.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Consider and remember your Constituents and Neighborhoods needs NOT big money or HCD.

Please **vote DOWN** this unacceptable political and corporate attack on San Francisco's environmental, economic, cultural, and Community integrity!

Thank you,

- San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We have empty office space that must be converted into housing.
- This ordinance is bad for the environment by allowing sweeping demolitions and expansions of existing homes and apartments, using massive amounts of new cement and other building materials releasing more greenhouse gases, when we already have lots of space in lots of buildings that can be more cheaply, quickly, and environmentally-soundly converted to housing.

Thank you,

Ellen Koivisto

10.02.23

Dear Supervisors

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping

demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,

These comments are for file#230446, item 4 on the Oct 2 Land Use and Transportation Committee agenda.

I hope the Supervisors will reject the proposed ordinance. It does not address the housing needs of most San Franciscans. The ordinance specifies that less of a third (30%) of constructed housing be affordable. The definition of "affordable" is based on Area Median Income, which, by the definition of median, means half of San Franciscans would be unable to actually afford it.

Furthermore, the bill removes many of the processes designed to ensure that building projects meet the needs of The City, and instead relies on corporate real-estate speculators. We have seen how (un)successful that is. We have amazing soaring alabaster towers, and one of the highest rates of new housing construction in the state, and we still have people sleeping on sidewalks. In theory the invisible hand of the market would ensure that the housing that gets built is best for the purpose. In practice, the market is too slow, too centralized, and often too opaque, resulting in unneeded units that sit idle.

The result of the reliance on large corporations and Area Median Income as a measure of affordability is a positive feedback loop: as the lowest-income tier of San Franciscans get displaced, the median moves up. It's almost as though the process was designed to clear The City of lower income people. All the people who kept our grocery stores open and cared for our sick during the pandemic- the effect is to chase them out of the city. They would wind up commuting in from Turlock or sleeping under freeways. Let's look for something that can make housing available for all San Franciscans.

Thank you,  
John Anderson

Dear Supervisors --

As a longtime advocate for safe streets and affordable housing, I support density and am no fan of the suburban feel of single-family housing. I can also smell a wolf in sheep's clothing. Under the guise of building affordable housing along transit corridors, this ordinance will result in the destruction of rent-control housing in favor of luxury units for wealthier people.

One result of an influx of wealthy residents is increased, and more dangerous, traffic. Rich people have been found in studies to own more cars, drive them more often, and fail to respect other users of the public space, such as pedestrians and bicyclists. So this claim about dense housing along transit lines leading to a less congested and polluted San Francisco is nonsense, so long as the definition of "affordable" is set at a ridiculously high level. Let the current renters who have built this city stay where they are and build real dense affordable housing in underused parking lots!

Sincerely,  
Fran Taylor

Subject: Public Comment for the Permanent Record: Strongly **OPPOSEBreed-Engardio-Dorsey Housing Production Ordinance File #230446. Agenda Item 4** Land Use & Transportation Committee Meeting, **October 2, 2023, 1:30 PM**

Dear President Peskin, Supervisors, Mayor Breed, and all other interested parties,

**I am writing to strongly OPPOSE Item No. 4, the Breed-Engardio-Dorsey Housing Production Ordinance, File # 230446**

**This proposed Ordinance contains sweeping unprecedented waivers of environmental, community and demolition review .**

**The gentrification created would likely push already high rents even higher. It is likely many middle, working and Loewe class families to leave SF to find affordable housing. Or, worse forego shelter and live on the streets increasing their health and safety.**

**This Ordinance does not have protections for residents from unscrupulous developers and we have seen the adverse impacts in places such as Hunters point and Treasure Island .**

**The Ordinance does not address policy regarding vacant office space ripe for changes in its usage. Nor, does it address policy on ways to reduce the approximately 60,000 vacant units across the City.**

Housing for families making \$150,000-\$190,000/year is not affordable housing. Even if two full time wage-earners were to be working 40 hours a week at \$35/hour, a rate way above minimum wage, for a combined income of \$145,600/year, they couldn't afford to live in this

“affordable” housing you propose to build.

Teachers couldn't afford it. The average Public School Teacher salary in San Francisco is \$71,544 as of September 25, 2023. Maintenance workers couldn't afford it. The average Street Sweeper salary in San Francisco, CA is \$50,392 as of September 25, 2023, but the salary range typically falls between \$44,626 and \$57,833. Landscapers couldn't afford it. The average hourly rate for landscapers working for SF Rec and Parks is \$17.16 - \$23.89 per hour as of September 19, 2023. Bus drivers couldn't afford it. The average MUNI bus driver in SF makes \$79,617 per year, 51% above the national average. The list of ineligible professions goes on.

So, who exactly can live in these places?

Where in this Ordinance is the language specifying the maximum height of no more than six (6) stories on commercial corridors within Supervisor Engardio's District 4? And where within those six (6) stories on commercial corridors does it specify that only the street level will be commercial and the two stories above will be residential? Where in this Ordinance does it state the height limits of all buildings between corners within the residential noncommercial blocks of D4?

According to a recent opinion piece in the 9/26/23 NY Times by Heather Knight, **“During the pandemic shutdowns, San Francisco saw an exodus not only of downtown workers but also of residents. Almost 50,000 people moved out, many of them taking advantage of remote work options to move to cheaper locales, reducing the city's population to 832,000.”**

What about the 61,473 vacancies in San Francisco that are still somehow not affordable? Why don't you try fixing that?

Last year the San Francisco Budget & Legislative Analyst did a study and report (October 20, 2022 - Residential Vacancies Update) on San Francisco vacancies and found there were 61,473 vacancies in 2021. (See p. 7 in the following link.)

[https://sfbos.org/sites/default/files/BLA.Residential\\_Vacancies.Update.102022.pdf](https://sfbos.org/sites/default/files/BLA.Residential_Vacancies.Update.102022.pdf)

Do you believe the American Dream is to live in a small cubicle within a large building containing other small cubicles surrounded by similar large buildings full of cubicles? What about single family homes with gardens and space between neighbors? Is it not bad enough there are so many homes attached to each other in San Francisco creating density? Why create unaffordable unappealing living spaces where you, yourselves, wouldn't want to live? Where's the “joy” in that for San Franciscans?

**Please do not pass this Ordinance.** It removes our badly needed and hard-won protections against developer/builders who cut corners and build unsafe structures. It allows buildings to exceed established height and density requirements. We don't want or need it.

Thank you in advance for including my comments opposing this Ordinance in the permanent record. Please acknowledge receipt of this email.

Sincerely,

Stephen J.Gorski

September 29, 2023

District Supervisors, Commissioners and Staff:

I am writing to strongly Oppose Item No. 4, the Breed-Engardio-Dorsey Housing Production Ordinance, File #230446.

Housing for families making \$150,000-\$190,000/year is not affordable housing. Even if two full time wage-earners were to be working 40 hours a week at \$35/hour, a rate way above minimum wage, for a combined income of \$145,600/year, they couldn't afford to live in this "affordable" housing you propose to build.

Most middle income and low wage workers cannot the afford the new affordable housing intended to replace existing affordable housing that would have to be demolished to make way for more the more expensive denser new housing. Evicting tenants to demolish existing housing creates more homeless people.

As we know the city is losing population leaving a lot of empty units. We need a plan to fill all those empty units before any more demolition is approved.

The plans for the Mission (D-9) and Noe Valley (D-8) are perplexing. Most neighborhood residents would agree that staff picked two of the least appropriate streets to up-zone.

Church is wide in some areas, but narrows as it goes up a steep hill next to Dolores Park. The park is already over-used, and is often the scene of neighborhood disputes. There is a light rail on Church making it transit riche, but, there is no excuse to expand, gentrify, and disrupt the street.

24th Street is a very narrow street with no room to grow. It is the heart of Noe Valley and has managed to maintain most of its historic specialty businesses in the midst of a constellation of changing merchants.

24th Street is narrow, and already heavily impacted by tech and Muni buses, and a constant stream of vehicles trying to reach the only grocery store in the area. The street has retained a friendly community spirit, but, now it looks like there is an effort to tear it apart and kill what is left of a surviving commercial street. San Francisco is losing population. We certainly don't need to kill our neighborhoods to build more housing.

Most of the Mission has already been up-zoned along Mission and South Van Ness and wider more appropriate streets.

District 8 has already raised height limits along Market Street. There is no reason to up zone Noe Valley.

Thanks to our state reps the entire city is already zoned for 4 stories minimum and bonus levels are easily added with existing legislation. The 50 story suggested height at the beach is not an exaggeration. If it can happen there it can happen anywhere.

Sincerely,

Mari Eliza  
Concerned Citizen

**For addition to file 230446**

**Constraints Reduction proposed ordinance**

**Continuation hearing, 10-02-23**

Dear Land Use Chair Melgar and Supervisors Peskin and Preston,

In looking over proposed amendments, and rumors of possible Oct.2 amendments (not shared with the public in advance), I write to urge you to reject the proposed Constraints Reduction ordinance. I believe it should be replaced with an ordinance focused only on streamlining affordable housing protection, and production, with full anti-displacement protections. Such a bill would be completely compliant with the Housing Element.

The overriding policies of the Constraints Reduction proposal are to encourage high-priced market-rate housing by removing existing affordable housing, removing the public from the decision-making process, and removing the rules and regulations that protect the public from unscrupulous developers and displacement practices. Policies for removal of these “constraints” have resulted in a bill so problematic, in so many ways, it cannot be patched up or fixed.

Adding amendments to this flawed proposal would be like slapping 1,000 bandaids on someone as a cure for advanced cancer.

A careful, line-by-line examination of all 68 pages, shows flaws within flaws that will slowly reveal their harm over the next 50 years. Take, for example, the umbrella mandate that these hundreds of provisions apply not just to Well-Resourced Areas, but to every parcel of land in the City that is OUTSIDE the Priority Equity Geographies. Have we fully understood the ramifications of this? What about the provision encouraging affordable housing developments for seniors to be located AWAY FROM transit? This is an unhealthy, isolating, cruel prospect for seniors and people with disabilities who are especially reliant on public transit.

Lines on every page hold similar prescriptions, harmful to tenants, individual homeowners and small business owners alike for an innumerable wide array of reasons.

Please reject the Constraints Reduction proposals and, instead, create streamlining implementation done humanely, limited to meeting the real needs of San Franciscans for affordable housing.

Thank you,

Lorraine Petty

Affordable housing advocate for seniors and people with disabilities,

Senior D2 voter

**To:** Carroll, John (BOS) <john.carroll@sfgov.org>  
**Subject:** Item #4, 230446: Oppose Ordinance Amending the Planning Code

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Chair Melgar, and Supervisors Preston and Peskin,

My name is Calder Lorenz, I am the Director of Operations for The Gubbio Project, a USM member and a San Francisco resident.

We are once again strongly urging the Land Use & Transportation Committee to oppose the ordinance amending the Planning Code (Item #4). We feel strongly that this ordinance threatens our rent controlled housing stock and denies self-determination for our

communities.

Our community is in desperate need of affordable housing and his legislation streamlines luxury development without the required housing element equity strategies undermining our rights, Affirmatively Furthering Fair Housing and cultural stabilization.

This legislation fails to provide any new protections and stability for communities that have been historically marginalized and are still vulnerable to displacement.

This legislation also silences our communities and takes away our power of self-determination over how our communities grow and develop. As an example, Section 9.4.2 of the Housing Element states that conditional use authorizations should only be removed outside of areas of high risk of displacement, but you can see that they are removing them from these areas without implementing community stabilization processes as required by the Housing Element.

The Gubbio Project's mission is to be in community with and to provide a sacred space and sanctuary for unhoused people in need of safe, compassionate respite during the day. Our program is housed at St. John's in the Mission and currently provides critical services to 100 individuals daily through a highly unique and successful model that combines social justice, peer support, and harm reduction. The Gubbio Project calls for a more just, compassionate and community centered approach by public agencies and policymakers.

Myself, my family and my neighbors, especially those we serve daily who are desperate for affordable housing options have a right to shape our community. The right to shape our communities is ours and should not be handed off to wealthy investors and developers. Many projects in the Mission have been shaped by the community and the Marvel in the Mission would never have been a reality if there hadn't been a requirement for developers to work with communities.

Please, oppose this Ordinance amending the planning code,

In Community, Calder

Chair of the Land Use & Transportation Committee, Supervisor Melgar  
Land Use & Transportation Committee Members, Supervisors Peskin and Preston  
San Francisco Board of Supervisors

Re: Constraints Reduction (AKA Housing Production) Ordinance – File # 230446. Hearing scheduled for October 2, 2023

Dear Chair Melgar and Supervisors Peskin and Preston,

The undersigned organizations write to express our deep concerns regarding the present version of the legislation. As discussed further below, this sweeping proposal to change development policy across the entire City removes protections for tenants, small businesses, and vulnerable neighborhoods without appropriate analysis of those impacts and without affirmative provisions for social and racial equity. Without such analysis and provisions, the City would be moving forward based upon blind faith that the intended purpose of the legislation will be achieved without harm to those Black, Brown, Asian, and working-class communities at greatest risk. While these concerns were raised at the Planning Commission, most were not addressed in subsequent analyses or amendments. For these reasons, we urge that the proposal not be approved without additional analysis and significant amendments.

The analysis previously provided by the Planning Department was misleading in claiming that the legislation protects the City's most vulnerable areas through the designated Priority Equity Geographies Special Use District (or PEG-SUD). While the legislation does retain existing public noticing requirements in these areas, it does not add any new "protections" or any provisions that would either prevent further displacement of existing low-income tenants and businesses or combat the speculative development practices that have historically disadvantaged these communities. In at least one respect it takes away the right to public hearings on primarily market rate housing developments that would displace neighborhood serving businesses, services, and cultural institutions in these areas – replacing such hearings with unilateral decisions by the Planning Director. Without retaining such public process and providing additional resources for affordable housing, the legislation has the effect of removing community voice and encouraging further gentrification and displacement in these areas at greatest risk.

**Threat to the economic, social, and cultural vitality of historically low-income, immigrant and BIPOC neighborhoods.** The streamlining of new development without significant additional protections, particularly in mixed-use districts of the PEG-SUD, would result in significant small business displacement, especially along cultural corridors of ethnic neighborhoods like Chinatown, Mission, Bayview, Tenderloin and Excelsior. Many immigrant and cultural community-serving businesses operate without leases or on short-term arrangements, making them highly susceptible to displacement. Their removal not only threatens the survival of the businesses but also destabilizes the communities they serve. While housing stability is undoubtedly crucial, access to jobs, local businesses, and community-

based services is equally vital for the holistic well-being of low-income communities and these impacts should be assessed simultaneously.

**Increased competition for affordable housing sites especially in critical cultural community areas where the need for affordable housing is the greatest.** With a shrinking number of priority affordable housing sites available, low-income BIPOC communities are further disadvantaged by the increased competition from streamlining of market-rate housing. With limited remaining sites available for new developments in these areas, weakening the public process makes these limited sites prime targets for upscale and luxury projects. This increased competition from non-affordable projects directly undermines the pressing need for affordable housing in these neighborhoods and risks perpetuating gentrification and further displacement.

**Price pressures and increased harassment and displacement of low-income residents living nearby.** We have seen multiple low-income residents, non-profit and community serving businesses, and cultural community spaces being displaced or priced out of the neighborhood as a result of nearby market-rate developments. Without proposing affirmative programs such as land acquisition programs to dedicate sites for truly affordable housing in at-risk neighborhoods, the elimination of public input is a step backward, especially in neighborhoods where the legislations' PEG-SUD designation promises greater protections.

With the various provisions that remove noticing and public hearing requirements, the communities in the City that have been most adversely impacted by gentrification, displacement, and disempowerment will have less opportunity to speak out and have a voice in future market-driven development in what remains of their neighborhood. These processes are significant, particularly because new projects are often focused in historically disadvantaged neighborhoods, and invariably replace existing affordable housing and community-serving uses with housing and uses that are unaffordable or disconnected from the cultural fabric of the existing community. Shifting decision-making authority from public forums to the Planning Director's discretion essentially eradicates the possibility for meaningful conversations around creating opportunities for increased affordability, preserving existing housing and businesses, and protecting community-serving cultural spaces and institutions.

We also appreciate the model that Chair Melgar has put forward in her Family Housing Opportunity SUD legislation, which builds on core principles of the Housing Element to create equitable distribution of housing in the city by focusing streamlining in residentially zoned parcels of "High Resourced" areas. The City's approved Housing Element has several implementing actions that affirmatively further fair housing, and not only safeguard public input and participation, but also offer solutions for strengthening protections and allocating new resources for affordable housing in the City's lowest-income communities, both within and outside the PEG-SUD. Implementing actions like 8.4.21, 9.4.2, 1.2.2, 1.5.5 and 2.3.1 exemplify these efforts, which the current legislation contradicts.

For all these reasons, we urge the Land Use and Transportation Committee to not advance the present proposal for consideration by the full board without thorough analysis of the impacts on the most vulnerable communities and without significant amendments that further the Housing Element's affirmative actions.

Sincerely,

Avi Gandhi

These comments are for file#230446, item 4 on the Oct 2 Land Use and Transportation Committee agenda.

I hope the Supervisors will reject the proposed ordinance. It does not address the housing needs of most San Franciscans. The ordinance specifies that less of a third (30%) of constructed housing be affordable. The definition of "affordable" is based on Area Median Income, which, by the definition of median, means half of San Franciscans would be unable to actually afford it.

Furthermore, the bill removes many of the processes designed to ensure that building projects meet the needs of The City, and instead relies on corporate real-estate speculators. We have seen how (un)successful that is. We have amazing soaring alabaster towers, and one of the highest rates of new housing construction in the state, and we still have people sleeping on sidewalks. In theory the invisible hand of the market would ensure that the housing that gets built is best for the purpose. In practice, the market is too slow, too centralized, and often too opaque, resulting in unneeded units that sit idle.

The result of the reliance on large corporations and Area Median Income as a measure of affordability is a positive feedback loop: as the lowest-income tier of San Franciscans get displaced, the median moves up. It's almost as though the process was designed to clear The City of lower income people. All the people who kept our grocery stores open and cared for our sick during the pandemic- the effect is to chase them out of the city. They would wind up commuting in from Turlock or sleeping under freeways. Let's look for something that can make housing available for all San Franciscans.

Thank you,  
John Anderson

**Subject:** Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey 'Constraints Reduction' 'Housing' Ordinance File #230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

10.02.23

Dear Supervisors

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making over \$230,000 per year!

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making over \$230,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style

redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote **DOWN** this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,

**Melodie**, 20+ years in the "revolving door"

Dear Chair Melgar, President Peskin, and Supervisor Preston,

Please see the attached Upper Chinatown Neighborhood Association's correspondence. This letter urges you to oppose the proposed ordinance file number 230446.

If you could please confirm receipt of this email and the attached letter, it would be greatly appreciated. If you have questions, please feel free to contact me at 415. 819.1199. Thank you for your assistance in this matter.

Sincerely yours,

Jennifer Mei

# UPPER CHINATOWN NEIGHBORHOOD ASSOCIATION

September 29, 2023

Dear Chair Melgar, President Peskin, and Supervisor Preston,

The Upper Chinatown Neighborhood Association urges you to reject the proposed ordinance file number 230446 and to undertake a cultural analysis of land uses among Asian populations. This amendment to the planning code will advance displacement and subsequent residential expansions in our neighborhood, one of the densest districts in San Francisco. We can not afford any further reduction of open space. Already, eighty percent of the blocks in our neighborhood have alley ways and thus limited mid-block open space. Any additional displacements and expansions will dismantle the cultural and spiritual fabric that has been formed organically over seventy-five years. See the attached Upper Chinatown map showing the alley ways, mid-block open spaces, and the dwellings in our neighborhood.

UCNA's opposition to ordinance file number 230446 aligns with two policy priorities of the San Francisco General Plan, which states: (1) "... existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods; and (2) "... our parks and open space and their access to sunlight and vistas be protected from development." Moreover, the proposed changes will alter one of the salient San Francisco's Planning Department's design principles which states: "provide architectural features that enhance the neighborhood's character and ensure that the building respects mid-block open space." It will also strike out the following guideline for building scale at the mid-block open space: "Rear yards provide open space for the residences to which they are attached, and they collectively contribute to the mid-block open space that is visible to most residents of the block. This visual open space can be a significant community amenity."<sup>1</sup>

Composed of more than 150 members, Upper Chinatown Neighborhood Association is committed to strengthening the stability of our fragile community. Last year, over one thousand individuals signed a petition supporting UCNA's DR request to stop the eviction and horizontal expansion proposed at 45-49 Bernard Street.<sup>2</sup> And, the following five associations submitted letters supporting our opposition: The Community Improvement Service, Community Youth Center, Community Tenants Association, Lao Lu Mien Culture Association, and Tenderloin Chinese Rights Association. Petitioners and community based organizations know that living in a courtyard house where the extended family members can be together—inside and outside in nature—will advance harmonious relationships.

The concept of the traditional courtyard house followed Chinese immigrants since they came to San Francisco in the 1840s, and they have inherently use their land and space in maintaining stability and unity and in strengthening the family structure and their community. An ordinary backyard serves as the sacred space for communal reflection and introspection. Family members gather outdoors to share meals while telling stories, solving problems, and doing household chores. This family formation is the social unit of change and the bedrock of the culture.

We are deeply concerned about the elimination of courtyards in our community, which Chinese and other ethnic families view as the center of all family activities and a spiritual refuge. As Professor

<sup>2</sup> Upper Chinatown Neighborhood Association's DR Brief 45-49 Bernard Street (Case No. 2020-005176DRP).

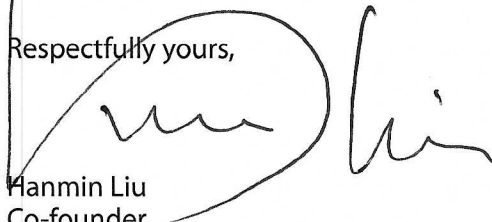

## UPPER CHINATOWN NEIGHBORHOOD ASSOCIATION

Laurence G. Liu, head of Architectural Design and Graduate Programmes at Southeast University, Nanjing, Jiangsu, China, wrote in a landmark reference book, *Chinese Architecture*: "... people actually lived in an unstable, transient world ... the communal character of the family system, the inward feeling of withdrawal from the outside world, and the idea of plain living ... contributed to the formation of the courtyard house. ... Because the center of all activities was the courtyard... it was an organization which had the distinction of seclusion. Furthermore, it created a layout and a form which rallied all the members of a family psychologically to live in a spiritual refuge together. ... Only through the unity of thought and the force of a family were they able to confront and survive the misfortunes of life."<sup>3</sup> See illustrations of compact courtyard houses in Anhui Province, China, in Attachment One.<sup>4</sup>

For over 75 years, Chinese families have migrated up the hill from Chinatown and have been contributing to the unique character and culture of our neighborhood. The migration started in the 1940s with the housing crisis in Chinatown, along with San Francisco's urban redevelopment policies for residential segregation.<sup>5</sup> <sup>6</sup> The eastern slopes of Nob Hill and Russian Hill offered affordable opportunities for Chinese residents to lease or own flats beyond the traditional borders of San Francisco Chinatown. Upper Chinatown became the home to many families, residing in two- to three-story dwellings where multigenerational households lived together, providing support to one another. Access to open space helps individuals and families living in a crowded flat find some communal respite. Chinese families innately relied on the open space in their modest rear yard as their unofficial temple. In their secluded and undisturbed space, family members of all ages freely come and go and yet are spiritually and culturally connected to one another. This family pattern closely resembled the heart of Chinatown, fostering a strong sense of continuity and shared identity.

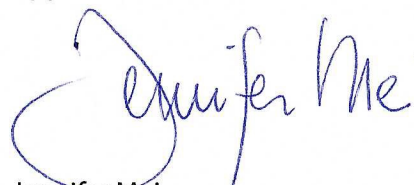

We urge the Land Use and Transportation Committee to not approve the ordinance amending the planning code. Instead, we recommend a thorough historical and cultural analysis of the use of land that strengthens the cultural and spiritual formation of Upper Chinatown.

Respectfully yours,

Hanmin Liu

Clerk of the board: please place in correspondence file.

Re: October 2 - [Agenda Item 4 - Mayor, Engardio, Dorsey "Housing Production" Ordinance File #230446](#)

Please do not allow this to pass. We need more truly affordable housing including deeply affordable, and this legislation will ram through unaffordable development and displacement of long-time residents.

This legislation does not help get the kind of housing we really need in San Francisco. It incentivises housing costs that are beyond the reach of almost all of us, leading to displacement and ruining the character of our neighborhoods.

Please start over with true input from the community: let's do it right.

Dear Chair Melgar, President Peskin, and Supervisor Preston,

Please see the attached letter of concern from the San Francisco Anti-Displacement Coalition regarding the Mayor's Constraints Reduction Ordinance that will be heard in your committee on Monday. We are deeply concerned about the displacement impacts of this legislation as written and the potential loss of hundreds if not thousands of units of existing rent-controlled housing without replacing those units with the affordable housing that tenants need.

Please feel free to reach out if you have any questions or want to discuss this further.

Best,  
Molly

Chair Myrna Melgar  
Land Use and Transportation Committee  
SF Board of Supervisors  
San Francisco, CA 94102

RE: Constraints Reduction (AKA Housing Production) Ordinance – File # 230446. Hearing October 2, 2023, Agenda Item #4

Dear Chair Melgar and Supervisors:

The San Francisco Anti-Displacement Coalition represents over 20 organizations representing and serving tenants from across the City. Through the efforts of dedicated staff and volunteers, our members have extensive experience in counseling tenants threatened by evictions and assisting other households previously displaced who are unable to find decent, safe or affordable housing in this City.

We write to express our concerns regarding this sweeping proposal's invitation to demolish hundreds if not thousands of units of existing rent-controlled housing without replacing those units with the affordable housing that tenants need. Because of the breadth of the proposed changes we focus on three specific concerns here.

**(1) Rolling Back Demolition Controls Will Result in Fewer Affordable Units and Violate the Housing Element.**

Removing the notice and public hearing requirements for the demolition of two units of housing is a significant step backwards for San Francisco. Without a publicly noticed hearing there is no opportunity for the public to contest a landlord's application to demolish existing housing. There is no evaluation of the soundness of the housing to be destroyed. Nor is there meaningful opportunity to contest a landlord's claims of eligibility.<sup>1</sup>

Demolitions of existing housing almost invariably result in development of housing that is more costly and unaffordable. The proposed legislation removes all consideration of such issues as provided under existing Planning Code 317. Instead, approval becomes 'ministerial,' i.e., approved without any public review.

Contrary to the claims of proponents, such a streamlined process is not consistent with our City's approved Housing Element. In reality, the proposed process directly contradicts Housing Element Policy 8.4.9 that provides that any removal of Conditional Use authorization for housing production "would not demolish existing Rent Controlled units."

---

<sup>1</sup> For example, the legislation requires project sponsors to state that the site is not presently tenant occupied and there has been no buy-outs or no-fault evictions in the past 5 years, but no mechanism for the public (or existing or prior tenants) to challenge those claims.

## **(2) The Faulty Design of the Proposal’s “Demolition Controls” Will Increase Evictions and Displacement.**

Planning staff’s PowerPoint presentation to this Committee on September 18, 2023 claimed that the proposed exemptions from existing housing demolition controls would require that: *The units to be demolished are not tenant occupied and are without a history of no-fault evictions and tenant buyouts within the last 5 years.* **The claim that the ordinance will not authorize demolition of units with “a history of no-fault evictions ” is false and misleading.**

As our Coalition pointed out in our testimony at the Planning Commission back in June, the Mayor’s proposal only *partially* limits demolitions for sites with histories of no-fault evictions. The proposal only restricts no-fault evictions under Sections 37.9(a)(8), 37.9(a)(12)-(14), and 37.9(a)(14)-(16). The legislation does not restrict evictions under Section 37.9(a)(13), i.e., evictions under the Ellis Act.<sup>2</sup> By failing to categorize Ellis Act evictions as ‘no-fault,’ Planning staff conveniently obscures a glaring flaw in the ordinance’s purported “demolition controls.” Under this proposal, one day after a developer evicts all their tenants via the Ellis Act they can apply for a ‘streamlined’ demolition permit to build new market rate housing. **By streamlining the demolition of rent controlled housing without screening out sites with a recent history of Ellis evictions, this proposal will incentivize a new wave of evictions under the Ellis Act.**

Similarly, the proposed exclusion of sites with a history of tenant buyouts is not supported by the proposed legislation itself. The proposal relies upon two mechanisms to screen out sites with a history of tenant buyouts, those reported to the Rent Board and a required statement by the project sponsor. But Rent Board records of buy-outs are inherently incomplete both because landlords regularly fail to report informal buy-outs and court settlements are excluded from the reporting requirements. The required statement by the project sponsor regarding any history of buyouts is further flawed given that the sponsor’s knowledge is at best limited to the period they owned the property (which can be only months long given that the legislation drops any minimum ownership period). With no provisions for displaced tenants to recover damages or penalties for their displacement and subsequent false claims by developers, those developers can deny knowledge of prior displacement with impunity.

**The flawed design of the present proposal is an invitation for owners and developers to profit off displacing tenants from their homes before applying for demolition permits and before any additional right to relocation assistance or right to return is required. Tenants displaced through such loopholes receive no assistance and have no legal remedy under the proposal.**

## **(3) The Proposed SUD Retreats from the Housing Element’s Promise of Pro-Active Equity Initiatives for Priority Equity Areas.**

A centerpiece of the legislation is the creation of an SUD<sup>3</sup> to implement the Housing Element’s promise of a racial and social equity land use policy agenda for neighborhoods that long suffered from

---

<sup>2</sup> Proposed amendments to Planning Code Section 317 at subsection (c)(2)(A).

<sup>3</sup> The Special Use District (SUD) is based upon the Priority Equity Geographies described and mapped in the Housing Element (see, Figure 19) and includes most of the Mission, Bayview, Chinatown, Western Addition, Excelsior, and Visitacion Valley and other neighborhoods with a high concentration of lower income People of Color and high economic need and levels of housing insecurity.

displacement and unaddressed housing needs. But aside from mapping the SUD and retaining certain existing policies, the legislation itself offers nothing to affirmatively further a fair housing or racial justice agenda.<sup>4</sup> Rather, the proposal takes away the right of SUD residents to public hearings on primarily market rate housing developments even if projects displace small businesses, jobs, services or cultural institutions in Priority Equity Areas. In place of public hearings the proposal hands over decisions to the Planning Director.<sup>5</sup>

Taking away public input is a step backward for neighborhoods the Housing Element promises greater protections. The proposal offers no beneficial tools such as land banking, deeper affordability, or neighborhood stabilization policies. The promised ‘equity focused initiatives’ need to be proposed *within* the proposal and not postponed for some uncertain future legislation.

**(4) The Proponents Present a False Choice Between New Housing Production and Protecting Existing Rent Controlled Housing— We Need Legislation That Does Both.**

We do not in principle oppose the replacement of existing low-density housing with new higher density *affordable* housing. But there must be loophole-free standards for protecting existing tenants from displacement, enforceable guarantees of relocation assistance and right of return, and assurances of real affordable outcomes. But we do not find such processes and standards proposed here.

We do acknowledge certain positive aspects of the Mayor’s proposal such as legislation reducing fees and barriers for affordable housing. But these reforms can be advanced separately without being bound together with policies that will result in the loss of existing rent-controlled housing and other essential community resources.

For these reasons, we urge the committee to not advance the present proposal for consideration by the full board without substantial amendments that protect existing rent-controlled housing and assure that future housing development provides the affordability that our communities need.

Sincerely,

A handwritten signature in black ink, appearing to read 'Molly Goldberg', with a stylized, cursive script.

Molly Goldberg  
Director, San Francisco Anti-Displacement Coalition

September 29, 2023

Re: Constraints Reduction Ordinance

Case Number: 2023-003676PCAMAP

Board File No. 230446

By Mayor London Breed, Supervisor Joel Engardio, Supervisor Matt Dorsey

Dear Members of the San Francisco Board of Supervisors,

I am writing on behalf of the Board of the San Francisco Eastern Neighborhoods Democratic Club to express our enthusiastic support for the proposed Constraints Reduction Ordinance, as part of Mayor London Breed's "Housing for All" Directive.

We applaud the diligent work undertaken during the 2022 Housing Element Update, which has been committed to addressing San Francisco's housing challenges while emphasizing fairness and inclusivity, through "Affirmatively Further Fair Housing". The state-mandated goal of constructing 82,000 housing units in the next eight years is an ambitious endeavor, and the Mayor's "Housing for All" directive plays *the central role* in achieving this objective. It aims to offer a variety of housing options that will not only strengthen our communities but also enhance overall affordability and

diversity in our city.

Constraints Reduction effectively implements several critical policies that the San Francisco Board of Supervisors unanimously committed to in February of 2023. It removes subjective, costly and time-consuming barriers that have hindered housing construction. The proposed changes encompass process enhancements, adjustments to development standards, and an expansion of housing development incentives throughout the city. These changes will provide diverse housing options for all San Francisco residents, ultimately expanding affordability and opportunity.

### **Policy Improvements:**

Constraints Reduction legislation will make it easier to build the housing that San Francisco desperately needs by introducing a series of changes aimed at removing costly and time-consuming requirements. Requirements such as Conditional Use permits, the 311 process, and public hearings have impeded housing construction and driven up costs, and we are strongly supportive that code-compliant projects should be exempted, provided that they are outside the Priority Equity Geographies SUD. By expanding the allowable geography for senior housing and homeless shelters, streamlining the process, and removing impact fees for 100% affordable State Density Bonus projects, this legislation thoughtfully expands the city's capacity to build housing at all income levels.

The lack of adequate housing supply is chiefly responsible for the city's high cost of living. This legislation makes impactful changes that will reduce construction costs per unit, ultimately benefiting renters and homeowners alike. Furthermore, we believe that increased density not only alleviates the housing crisis but also strengthens communities, allowing for more foot-traffic to support small businesses and overall engagement with the many amenities our great city provides.

Expanding the housing inventory in San Francisco is not only a policy matter but also a moral imperative. It will foster greater neighborhood diversity, provide improved housing opportunities for vulnerable populations, and contribute to a thriving city culture where everyone can thrive.

### **Staying in Compliance:**

In addition to the legislation's many benefits, the Board of Supervisors must pass Constraints Reduction so that San Francisco stays in compliance with our Housing Element. Not passing this legislation opens the city up to **significant legal liability, loss of funding, and loss of local control.**

Not passing this legislation, or watering down its intent, puts the city at risk of **significant fines, builders remedy projects**, and further legal challenges. Furthermore, the city is at risk of **losing hundreds of millions of dollars** in critical affordable housing and transportation funding that we are reliant on. By losing compliance, we are also no longer eligible for a "Pro Housing Designation" which reduces the probability of affordable housing projects receiving critical state grants. Lastly, losing housing element compliance all but ensures that San Francisco loses local control over its land use. Let's show the state that San Francisco is able to handle its own business.

In conclusion, we urge the Land Use Committee and the Board of Supervisors to wholeheartedly

support the "Housing for All" ordinance. The policy, as part of our already approved Housing Element, will foster a more inclusive and affordable San Francisco. Let's ensure that our city continues to be a beacon of progress, diversity, and opportunity for generations to come.

Thank you for your dedication to improving our city and addressing its housing challenges.

Sincerely,

Bruce Agid (650-201-0138)

President, San Francisco Eastern Neighborhoods Democratic Club

**Subject:** Fwd: Public Comment for the Permanent Record: Strongly OPPOSE Breed-Engardio-Dorsey Housing Production Ordinance File #230446. Agenda Item 4 Land Use & Transportation Committee Meeting, October 2, 2023, 1:30 PM  
**Date:** Friday, September 29, 2023 7:13:47 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

September 29, 2023

District Supervisors, Commissioners and Staff:

I am writing to strongly Oppose Item No. 4, the Breed-Engardio-Dorsey Housing Production Ordinance, File #230446.

Housing for families making \$150,000-\$190,000/year is not affordable housing. Even if two full time wage-earners were to be working 40 hours a week at \$35/hour, a rate way above minimum wage, for a combined income of \$145,600/year, they couldn't afford to live in this "affordable" housing you propose to build.

Most middle income and low wage workers cannot the afford the new affordable housing intended to replace existing affordable housing that would have to be demolished to make way for more the more expensive denser new housing. Evicting tenants to demolish existing housing creates more homeless people.

As we know the city is losing population leaving a lot of empty units. We need a plan to fill all those empty units before any more demolition is approved.

The plans for the Mission (D-9) and Noe Valley (D-8) are perplexing. Most neighborhood residents would agree that staff picked two of the least appropriate streets to up-zone.

Church is wide in some areas, but narrows as it goes up a steep hill next to Dolores Park. The park is already over-used, and is often the scene of neighborhood disputes. There is a light rail on Church making it transit rich, but, there is no excuse to expand, gentrify, and disrupt the street.

24th Street is a very narrow street with no room to grow. It is the heart of Noe Valley and has managed to maintain most of its historic specialty businesses in the midst of a constellation of changing merchants.

24th Street is narrow, and already heavily impacted by tech and Muni buses, and a constant stream of vehicles trying to reach the only grocery store in the area. The street has retained a friendly community spirit, but, now it looks like there is an effort to tear it apart and kill what is left of a surviving commercial street. San Francisco is losing population. We certainly don't need to kill our neighborhoods to build more housing.

Most of the Mission has already been up-zoned along Mission and South Van Ness and wider more appropriate streets.

District 8 has already raised height limits along Market Street. There is no reason to up zone Noe Valley.

Thanks to our state reps the entire city is already zoned for 4 stories minimum and bonus levels are easily added with existing legislation. The 50 story suggested height at the beach is not an exaggeration. If it can happen there it can happen anywhere.

Sincerely,

Mari Eliza  
Concerned Citizen

Mr. Carroll and Ms. Somera,

I am sending you the attached presentation for the upcoming Land Use and Transportation Committee hearing on Monday, October 2nd to be included with File No. 230446, which is the mayor's proposal for Constraint Reduction.

Thank you,  
Ozzie Rohm

# Housing Permits v. Public Hearings

**8 year average - 82% of housing permits moved unimpeded  
without Discretionary Review or Conditional Use**

|                | With CUA or Dr | With CUA or Dr % | NO CUA or DR | NO CUA or DR % | Totals     |
|----------------|----------------|------------------|--------------|----------------|------------|
| 2015           | 192            | 16%              | 989          | 84%            | 1181       |
| 2016           | 157            | 17%              | 756          | 83%            | 913        |
| 2017           | 150            | 18%              | 704          | 82%            | 854        |
| 2018           | 152            | 18%              | 688          | 82%            | 840        |

San Francisco Board of Supervisors

Re: Constraints Reduction (AKA Housing Production) Ordinance – File # 230446. Hearing scheduled for October 2, 2023

Dear Chair Melgar and Supervisors Peskin and Preston,

The undersigned organizations write to express our deep concerns regarding the present version of the legislation. As discussed further below, this sweeping proposal to change development policy across the entire City removes protections for tenants, small businesses, and vulnerable neighborhoods without appropriate analysis of those impacts and without affirmative provisions for social and racial equity. Without such analysis and provisions, the City would be moving forward based upon blind faith that the intended purpose of the legislation will be achieved without harm to those Black, Brown, Asian, and working-class communities at greatest risk. While these concerns were raised at the Planning Commission, most were not addressed in subsequent analyses or amendments. For these reasons, we urge that the proposal not be approved without additional analysis and significant amendments.

The analysis previously provided by the Planning Department was misleading in claiming that the legislation protects the City's most vulnerable areas through the designated Priority Equity Geographies Special Use District (or PEG-SUD). While the legislation does retain existing public noticing requirements in these areas, it does not add any new "protections" or any provisions that would either prevent further displacement of existing low-income tenants and businesses or combat the speculative development practices that have historically disadvantaged these communities. In at least one respect it takes away the right to public hearings on primarily market rate housing developments that would displace neighborhood serving businesses, services, and cultural institutions in these areas – replacing such hearings with unilateral decisions by the Planning Director. Without retaining such public process and providing additional resources for affordable housing, the legislation has the effect of removing community voice and encouraging further gentrification and displacement in these areas at greatest risk.

**Threat to the economic, social, and cultural vitality of historically low-income, immigrant and BIPOC neighborhoods.** The streamlining of new development without significant additional protections, particularly in mixed-use districts of the PEG-SUD, would result in significant small business displacement, especially along cultural corridors of ethnic neighborhoods like Chinatown, Mission, Bayview, Tenderloin and Excelsior. Many immigrant and cultural community-serving businesses operate without leases or on short-term arrangements, making them highly susceptible to displacement. Their removal not only threatens the survival of the businesses but also destabilizes the communities they serve. While housing stability is undoubtedly crucial, access to jobs, local businesses, and community-

based services is equally vital for the holistic well-being of low-income communities and these impacts should be assessed simultaneously.

**Increased competition for affordable housing sites especially in critical cultural community areas where the need for affordable housing is the greatest.** With a shrinking number of priority affordable housing sites available, low-income BIPOC communities are further disadvantaged by the increased competition from streamlining of market-rate housing. With limited remaining sites available for new developments in these areas, weakening the public process makes these limited sites prime targets for upscale and luxury projects. This increased competition from non-affordable projects directly undermines the pressing need for affordable housing in these neighborhoods and risks perpetuating gentrification and further displacement.

**Price pressures and increased harassment and displacement of low-income residents living nearby.** We have seen multiple low-income residents, non-profit and community serving businesses, and cultural community spaces being displaced or priced out of the neighborhood as a result of nearby market-rate developments. Without proposing affirmative programs such as land acquisition programs to dedicate sites for truly affordable housing in at-risk neighborhoods, the elimination of public input is a step backward, especially in neighborhoods where the legislations' PEG-SUD designation promises greater protections.

With the various provisions that remove noticing and public hearing requirements, the communities in the City that have been most adversely impacted by gentrification, displacement, and disempowerment will have less opportunity to speak out and have a voice in future market-driven development in what remains of their neighborhood. These processes are significant, particularly because new projects are often focused in historically disadvantaged neighborhoods, and invariably replace existing affordable housing and community-serving uses with housing and uses that are unaffordable or disconnected from the cultural fabric of the existing community. Shifting decision-making authority from public forums to the Planning Director's discretion essentially eradicates the possibility for meaningful conversations around creating opportunities for increased affordability, preserving existing housing and businesses, and protecting community-serving cultural spaces and institutions.

We also appreciate the model that Chair Melgar has put forward in her Family Housing Opportunity SUD legislation, which builds on core principles of the Housing Element to create equitable distribution of housing in the city by focusing streamlining in residentially zoned parcels of "High Resourced" areas. The City's approved Housing Element has several implementing actions that affirmatively further fair housing, and not only safeguard public input and participation, but also offer solutions for strengthening protections and allocating new resources for affordable housing in the City's lowest-income communities, both within and outside the PEG-SUD. Implementing actions like 8.4.21, 9.4.2, 1.2.2, 1.5.5 and 2.3.1 exemplify these efforts, which the current legislation contradicts.

For all these reasons, we urge the Land Use and Transportation Committee to not advance the present proposal for consideration by the full board without thorough analysis of the impacts on the most vulnerable communities and without significant amendments that further the Housing Element's affirmative actions.

Sincerely,

Avi Gandhi

Subject: Public Comment for the Permanent Record: Strongly **OPPOSE Breed-Engardio-Dorsey Housing Production Ordinance File #230446. Agenda Item 4** Land Use & Transportation Committee Meeting, **October 2, 2023, 1:30 PM**

Dear President Peskin, Supervisors, Mayor Breed, and all other interested parties,

I am writing to strongly OPPOSE Item No. 4, the Breed-Engardio-Dorsey Housing Production Ordinance, File #230446.

Housing for families making \$150,000-\$190,000/year is not affordable housing. Even if two full time wage-earners were to be working 40 hours a week at \$35/hour, a rate way above minimum wage, for a combined income of \$145,600/year, they couldn't afford to live in this "affordable" housing you propose to build.

Teachers couldn't afford it. The average Public School Teacher salary in San Francisco is \$71,544 as of September 25, 2023.

Maintenance workers couldn't afford it. The average Street Sweeper salary in San Francisco, CA is **\$50,392** as of September 25, 2023, but the salary range typically falls between **\$44,626** and **\$57,833**.

Landscapers couldn't afford it. The average hourly rate for landscapers working for SF Rec and Parks is \$17.16 - \$23.89 per hour as of September 19, 2023.

Bus drivers couldn't afford it. The average MUNI bus driver in SF makes \$79,617 per year, 51% above the national average.

I googled the above salaries. The list of ineligible professions goes on.

So, who exactly can live in these places?

Where in this Ordinance is the language specifying the maximum height of no more than six (6) stories on commercial corridors within Supervisor Engardio's District 4? And where within those six (6) stories on commercial corridors does it specify that only the street level will be commercial and the two stories above will be residential? Where in this Ordinance does it state the height limits of all buildings between corners within the residential noncommercial blocks of D4?

According to a recent opinion piece in the 9/26/23 NY Times by Heather Knight, **"During the pandemic shutdowns, San Francisco saw an exodus not only of downtown workers but also of residents. Almost 50,000 people moved out, many of them taking advantage of remote work options to move to cheaper locales, reducing the city's population to 832,000."**

What about the 61,473 vacancies in San Francisco that are still somehow not affordable? Why don't you try fixing that?

Last year the San Francisco Budget & Legislative Analyst did a study and report (October 20, 2022 - Residential Vacancies Update) on San Francisco vacancies and found there were 61,473 vacancies in 2021. (See p. 7 in the following link.)

https://sfbos.org/sites/default/files/BLA.Residential_Vacancies.Update.102022.pdf

Do you believe the American Dream is to live in a small cubicle within a large building containing other small cubicles surrounded by similar large buildings full of cubicles? What about single family homes with gardens and space between neighbors? Is it not bad enough there are so many homes attached to each other in San Francisco creating density? Why create unaffordable unappealing living spaces where you, yourselves, wouldn't want to live? Where's the "joy" in that for San Franciscans?

Please do not pass this Ordinance. It removes our badly needed and hard-won protections against developer/builders who cut corners and build unsafe structures. It allows buildings to exceed established height and density requirements. We don't want or need it.

Thank you in advance for including my comments opposing this Ordinance in the permanent record. Please acknowledge receipt of this email.

Sincerely,

Judi Gorski

Dear Chair Melgar and the Land Use and Transportation Committee,

Please find the attached letter from the Race & Equity in all Planning Coalition (REP-SF) regarding Legislative File #230446, "Planning Code, Zoning Map - Housing Production," which is on the Land Use and Transportation Committee agenda this coming Monday, October 2.

Respectfully,

Jeantelle Laberinto

Chair of the Land Use & Transportation Committee, Supervisor Melgar
Land Use & Transportation Committee Members, Supervisors Peskin and Preston

Re: Legislative File #230446, "Planning Code, Zoning Map - Housing Production"

Dear Land Use & Transportation Committee Chair Melgar and Supervisors Peskin and Preston:

The Race & Equity in all Planning Coalition of San Francisco (REP-SF), a coalition of more than 40 organizations citywide whose mission is to build a future with diverse communities, stable, affordable housing and equitable access to resources and opportunities, strongly urges the Land Use & Transportation Committee to make significant amendments to this legislation as we have outlined below. If these substantive amendments are not possible, REP-SF requests that this Committee kill the legislation and take up new legislation that:

- Puts affordable housing first
- Protects tenants against displacement
- Values and retains the voices and aspirations of historically marginalized communities in project approval processes with significantly shorter durations.
- Expands and modifies the Priority Equity Geographies SUD

Putting Affordable Housing First

1. The Housing Element commits the City to build 57% of its new housing in the next eight years as price restricted to be affordable for very-low, low and moderate income households. This legislation must prioritize strategies for price-restricted affordable housing.
2. Add a budget supplemental and/or a dedicated revenue source to commit significant new funding to affordable housing per Housing Element action 1.1.2.
3. Include a provision that identifies enough development sites and building acquisitions to meet our RHNA mandate for Very low, Low and Moderate income housing. Please refer to Housing Element Actions 1.2.2 and 1.4.6.

Protecting Tenants Against Displacement

1. Retain the Citywide requirement for Conditional Use Authorization (CUA) for any proposed demolition of existing rent-controlled units.
 - a. The Housing Element includes Implementation Actions that speak to retention of rent controlled units even if Conditional Use Authorization policies are updated. Please refer to Implementation Actions 8.4.8, 8.4.9,
2. Expand rent control to all new units
3. Protect small businesses from displacement
 - a. Prohibit demolition of buildings occupied by community-based, community-serving small businesses within the five years prior to the project

application. This pertains as well to legacy businesses and priority businesses identified by Cultural Districts as being important in their CHHESS reports.

Valuing and Retaining the Voices of Historically Marginalized Communities

1. REP-SF supports efforts to reduce the duration of project reviews and uncertainty in the process. We, however, demand a process that continues to put the voices and expertise of low income and communities of color out front in the approval process.
 - a. Please refer to Housing Element Implementation Action 8.4.21 for how to retain meaningful input and participation citywide, especially from low-income communities and communities of color.
 - b. Develop new project approval systems that strengthen the ability for Cultural Districts, low income communities and communities of color to direct how our communities grow and develop as supported by Housing Element Implementation Actions 3.4.2; 4.1.1; 4.1.2; 4.1.4; 4.2.4; 4.2.5; 4.2.6; 4.4.2; 4.5.12; 5.2.4; 5.4.1; 6.1.3; 6.3.2 among others.

Expanding and Modifying the Priority Equity Geographies SUD

1. Expand the PEG-SUD with input from American Indian, Black and other people of color communities and low income communities throughout the City, and input from all Cultural Districts.
 - a. Retain and strengthen public noticing, anti-displacement and other community stabilization policies and procedures within the expanded PEG-SUD.
 - b. Restore Impact fees and inclusionary housing requirements to their prior levels within the expanded PEG-SUD.
 - c. Commit significant new investments and resources for affordable housing for communities within the expanded PEG-SUD.

Conclusion

Although no amendments have been shared with the public in writing, this legislation along with the amendments discussed at the September 18 hearing, moves our City in entirely the opposite direction of racial and social equity with an approach that silences our communities, encourages demolitions and displacement of existing housing throughout vast areas of the City, and provides no resources or meaningful benefits for affordable housing.

REP-SF expects the Land Use & Transportation Committee to substantially amend this legislation for racial and social equity, and if it cannot, REP-SF expects this Committee to reject this legislation and work with low income and people of color communities throughout the City to move forward legislation that implements the Housing Element to affirmatively further fair housing and center racial and social equity. REP-SF looks forward to working with the Board of Supervisors and the Mayor's office on re-orienting the priorities of Housing Element implementation.

Respectfully submitted,

Jeantelle Laberinto on behalf of the

Subject: Public Comment: OPPOSE Engardio-Breed-Dorsey "Constraints Reduction" "Housing" Ordinance File #230446
Date: Thursday, September 28, 2023 8:25:03 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains sweeping unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year!

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity.

Thank you,

elliot helman

Re: Mayor Breed's Constraint Reduction Ordinance Board File No. 230446

Dear Chair Melgar, President Peskin and Supervisor Preston:

The Mayor's Ordinance will be heard at the LUT sometime soon. (September 18th?)

The Committee should not recommend it to the full Board.

This Ordinance is not needed due to the fact of other legislation, both local and from Sacramento. For example:

The Board has passed Chair Melgar's Ordinance to expand housing with the "Family Housing Opportunity SUD".

There is SB 9. And there is the local Four-Plex Program.

The Rezoning under the Housing Element is underway and will be finalized in early 2024.

SB 35 has been extended and expanded via SB 423.

Construction on Treasure Island is underway.

Recent ADU legislation from Sacramento allows them to be sold as condos.

All the other housing bills from the Sacramento....too many to cite!

There are tons of units in the San Francisco pipeline: Stonestown, Park Merced, Schlage Lock, numerous projects around the HUB, etc, etc, etc)

Plenty of existing vacant units. (i.e. One Oak, 603 Tennessee Street, etc, etc, etc)

Let's see what happens with all of this before reducing constraints even more.

13. September 2023

Dear President Peskin and Supervisor Preston,

As co-founder and chair of the North Beach Tenants Committee, I am writing to state clearly that this legislation is a failed attempt at the implementation of professed goals of "housing for all" and would result in the demolition of our existing affordable housing, overriding the Family Housing Opportunity tenant protections and will further displacement with no affordable place to move to.

These are but a few of the very many disastrous issues with the Mayor's legislation and there are just too many to try to fix.

I urge you stop this charade of "housing for all" and ask our Mayor to commit to the creation of an alternative plan which will cause the least amount of harm to the majority of all San Franciscans and actually build the affordable housing our communities need.

Thank you for your consideration,
Theresa Flandrich

Subject: Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey "Constraints Reduction" "Housing" Ordinance File #230446
Date: Monday, September 18, 2023 7:27:28 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year!

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style

redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

-

The Climate Crisis - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,

Robert Hall

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive, unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year!

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high-priced housing that is not "affordable." It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels! There is nothing "affordable" about this type of ordinance but a subsidized program that only benefits owners, developers, real estate interests or speculators etc. and not those most in need.
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more working class (low/middle income) San Franciscans either out of the City, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction; we need to make our existing housing space affordable!
- **NO Housing Crisis** – Lets use simple math & logic, since 2022 the population of San Francisco has declined by over 65,000 which certainly has increased for 2023. There are approximately 143,000 units that are vacant, have been built, are currently being built, that are coming soon and are in the pipeline for building, so, why would we need 82,000 more units? Reason - we do NOT have a housing

crisis but a crisis where HCD (RHNA) over-inflated the figures for housing needs & their veiled threats that if cities don't build these numbers, funding will not be given to cities such as San Francisco.

- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to build unhealthy housing even more easily on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up"), as well as 2550 Irving and thousands of other sites in the City with similar issues. CEQA and other agencies of this nature were established to protect the Communities & to enforce doing the right thing like doing the proper testing, remediate a site properly, not build on toxic sites or not cut corners for the sake of making money. Removing these protections will harm the Community and all those you profess to care about.
- **Urban Renewal 2.0** – Ordinances of these nature are & will follow the same trajectory as the past like Geneva Towers.* They will be built, not be occupied only to sit vacant (e.g. The Westerly on Sloat), become mismanaged*, not benefit the people's needs and a blight on the Neighborhoods.
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please vote DOWN this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and Community integrity!

Thank you,

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

Do I have to enumerate all the things wrong with the "Constraints Reduction Ordinance" (aka "Housing Production Ordinance")?

As a lifelong renter, I join San Francisco renters and allies in strongly opposing this legislation.

It is a license to _____!(you fill in the blank), will gut SF rent protections and worsen the very problems the Board and the Administration are desperate to solve, such as:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

I trust you will do the right thing here and vote NO. You have been sitting in those chairs long enough to know that the human misery on our streets will only be exacerbated and many lives cut short of their potential if this is allowed to proceed.

Sincerely,

*Ann Colichidas, San Francisco
Member: San Francisco Gray Panthers
Member: Our Mission, No Eviction

*The opinions expressed are my own.

Subject: Public Comment: Strongly OPPOSE Engardio-Breed-Dorsey "Constraints Reduction" "Housing" Ordinance File #230446
Date: Monday, September 18, 2023 3:18:01 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year! This excludes your teachers, your nurses, and likely many of your own aides!

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls • housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels! *If you truly want the City to create more units of affordable housing, please do not vote for anything g that minimizes public input!*

The Homelessness Crisis - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need MORE MARKET OR PROHIBITIVELY EXPENSIVE housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up"). For these reasons, in addition to gross speculation on real estate, the wait time between property purchase and development cannot be less than 10 years.
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

- This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. *As it exists, the currently proposed legislation will pave the way for this!*

Please vote **DOWN** this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank You!

Dear Supervisors,

The proposed ordinance by Engardio-Breed is going in the wrong direction.

Taking away public and community input results in toxic sites like 2550 Irving from being cleaned up. The developer, the DTSC, the Mayor, MOHCD all turned their backs on the Sunset community as we raised over two years of legitimate concerns about proven toxin levels, joining in a chorus falsely describing neighbors as NIMBY's, and wasting time and money. And causing heartache.

Why isn't the 2550 Irving site being given the same "apples to apples" testing as requested by the Board of Appeals and the neighbors toxin experts? **Why didn't our Supervisor Engardio follow up on his quote from the Mission Local article**

<https://missionlocal.org/2023/08/affordable-housing-sunset-san-francisco-2550-irving-toxic/>

"Separate and apart from the science here, this is confusing, even for neighborhood residents and city officials staunchly in favor of this project. "You would think that the tests they did on two sites, on two different sides of the street, would be the same, so they'd have a true comparison," said Engardio. Toxic Substances Control "is claiming it did all the testing, and everything is fine. But it does not match up to what the neighborhood asked for, or what a layperson might see as apples to apples."

Engardio stresses that "it's not my role to second-guess a state agency that's in charge of keeping people safe." But, if only to check off a box, "it is baffling to me they would not have done apples to apples tests just to take this argument off the table."

Supervisor Engardio left it at that. It was more convenient for him, the Mayor, MOHCD and

others to sit back, call the neighbors NIMBY's, check the box on state funding and steamroll over the real toxin issue. You said we "were crying wolf". Our leadership has failed the Sunset. You have failed the Sunset by not taking community input seriously, as it was SO much easier to blindly accept the convoluted flawed science of DTSC methodology and check the "housing numbers box" without caring that you do this project right. Clean it up, then build it up. No one in the Sunset said they did not want the housing. It was just convenient for you, our so-called leadership, to take that stance and join the chorus. Look in the mirror. You have failed us.

And 2550 is a real affordable housing site! TNDC and DTSC never involved the community with authentic communication. TNDC and DTSC could have done the testing months ago when requested, saving time and money. The Mar Resolution supposedly "unanimously approved by the BOS" was ignored. Supervisor Engardio, you could have come to your community's aid. But you did not, you were told by the Mayor that we were crying wolf and you bought into that untruth.

Commissioner Trasvina quote from <https://missionlocal.org/2023/08/2550-irving-street-affordable-housing-soil-toxins-pce-board-of-appeals/> "I'm ready to grant the appeal, based on an overreliance on, and misplaced deference to, DTSC," said Trasviña, referring to the Department of Toxic Substance Control. He contended that the agency did not meet and communicate enough with residents, and said he was disappointed it did not complete the additional soil vapor tests the Mid-Sunset Neighborhood Association requested. "If we really believe in affordable housing, if we really believe in the public health of the people of San Francisco, and future people in San Francisco, then we have to do this right," he said.

Commissioner Lemberg also supported the appeal: "There are several things that smell here, for me," they said, most notably that the Department of Toxic Substances Control did not complete the tests asked for by the appellants.

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year!

This ordinance will also worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance will build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators.

Please vote **DOWN** this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Thank you,

Kathleen Kelley

San Francisco Resident who is Very Discouraged in our Leadership

Subject: Please Reject the "Constraints Reduction" "Housing Legislation File #230446"
Date: Monday, September 18, 2023 2:03:08 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year!

My primary concerns are that:

There are insufficient provisions to verify Landlords honor the 'right of return', and insufficient penalties when they fail to do so.

Condo Conversion works around tenant rights and needs to be restricted.

Most of the units that would be effected are below market rate, which are why they are being done, and goes against the premise of the City of San Francisco that more below market rate units are needed.

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted

into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!

-

The Environmental Justice & Equity Crisis - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").

-

The Climate Crisis - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. RE: Board file #230446, "Planning Code, Zoning Map - Housing Production"

Dear Supervisors:

We write in strong support of this legislation. This legislation is a small but important step towards addressing our City's housing shortage, thereby helping stem the tide of rent increases, gentrification, and displacement that result from it.

Earlier this year, you unanimously adopted the [Housing Element 2022](#) Update. The new housing element charts San Francisco on a course for "meeting the housing needs of all its residents" in a way that is "centered on racial and social equity" (p. 2). This bill implements several programs the housing element identified as Key Constraints Reductions Actions "key for reducing constraints on housing development, maintenance, and improvement" (p. 159). We therefore fully expect you will approve this bill, as you committed to do when you voted to adopt the housing element earlier this year.

We understand that politics may intervene. In particular, we are concerned that special interests seek to re-litigate the housing element update and weaken or defeat this bill. We wish to remind you why that is simply not an option: **HCD is watching how you vote on this bill.** In fact, as you know, **HCD sent a letter to all City supervisors about this very bill and made it clear that its passage is a necessary step for the City to implement its housing element.** We have attached HCD's letter for your convenience.

The State of California's attention to this legislation is not surprising: It represents the first time the Board of Supervisors considers legislation implementing some of the housing element's Key Constraints Reductions Actions. As such, your actions next week will signal your readiness to follow through on the promises you made eight months ago. **If you do not pass this legislation—or if you weaken it—you should expect more intense**

scrutiny from the state, along with potential consequences. The California Department of Housing and Community Development may even consider decertification. As you know, this would result in the City losing local land use control, as well as access to crucial affordable housing and transportation funds. We know you agree that we must avoid this nightmare. We are also sure you understand that you would bear the responsibility for these consequences should you weaken or table this legislation. We therefore congratulate and thank you in advance for passing Board file #230446.

Sincerely,

David Broockman and Robert Fruchtman, San Francisco YIMBY

Re: Project Name: Constraints Reduction (AKA Housing Production)
Case Number: 2023-003676PCAMAP
Board File No. 230446
By Mayor Breed

Dear San Francisco Board of Supervisors,

AIA San Francisco Public Policy and Advocacy Committee are writing to express our support for the proposed 'Housing for All' ordinance.

We commend the efforts made under the 2022 Housing Element Update, which focuses on racial and social equity, to address San Francisco's housing challenges. With a state-mandated goal of constructing 82,000 housing units within the next eight years, this plan aims to provide diverse housing options that strengthen our communities and improve overall affordability and diversity.

The 'Housing for All' ordinance aligns with several policies outlined in the Housing Element. It specifically targets the removal of obstacles that hinder housing construction, especially based on subjective criteria. The proposed changes include process improvements, development standards modifications, and expanded housing development incentives throughout the city. Implementing these changes will offer diverse housing options for all residents of San Francisco, thereby expanding affordability and opportunity.

Process Improvements:

The ordinance introduces several changes to eliminate costly and time-consuming requirements that impede housing construction and increase costs. We can save valuable time and resources by exempting code-compliant projects from certain processes like Conditional Use permits, the 311 process, and public hearings for projects outside the Priority Equity Geographies SUD. Additionally, allowing "as of right" development for heights and large lot projects, streamlining the approval of State Density Bonus Projects, enabling senior housing development wherever housing is permitted, and providing administrative approval for reasonable accommodations will further facilitate housing construction.

Development Standards:

The proposed ordinance brings about standardization and changes in development standards to foster creativity and high-quality housing. Consolidating rear yard requirements, reducing front setbacks, and adjusting minimum lot widths and areas will allow for greater flexibility in designing housing that meets the higher densities mandated by the Housing Element. Other changes, such as allowing open space in specific locations and reevaluating street-facing ground floor uses, will contribute to a more inclusive and vibrant urban environment.

Expand Affordable Housing Incentives:

The ordinance includes code changes that simplify the process of building affordable housing. Expanding fee waivers for all 100% affordable projects, broadening the eligibility for Home SF, and removing restrictions on eligibility requirements will increase the availability of affordable units to individuals with modest incomes. These measures will help address San Francisco's pressing need for affordable housing options.

We can expand housing options for all San Francisco residents by passing the 'Housing for All' ordinance. The correlation between supply and demand is undeniable, and the lack of adequate housing significantly contributes to the city's high cost of living. Private market-driven housing construction, with limited public subsidies, is the foundation of housing in San Francisco, the state, and the entire country. Streamlining the process and allowing developers to increase density will reduce construction costs per unit, ultimately benefiting renters and homeowners.

Higher density in our neighborhoods will promote stronger communities as it increases the number of individuals actively observing and engaging with their surroundings. Moreover, a denser population in our neighborhood commercial districts will create opportunities for residents to successfully launch and operate small retail businesses, surpassing the impact of mandated ground-floor retail spaces.

Expanding the inventory of housing options in San Francisco will foster greater neighborhood diversity, provide better housing opportunities for vulnerable populations, and contribute to a thriving city culture where everyone can flourish.

We urge the Land Use Committee and the Board of Supervisors to approve the "Housing for All" ordinance. Together, we can create a more inclusive and affordable housing landscape for all residents of San Francisco.

Respectfully submitted,

AIA San Francisco Public Policy and Advocacy Committee

Subject: Subject: Public Comment: File #230446 Strongly OPPOSE Engardio-Breed-Dorsey "Constraints Reduction" "Housing" Ordinance File #230446
Date: Monday, September 18, 2023 3:32:24 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

Do I have to enumerate all the things wrong with the "Constraints Reduction Ordinance" (aka "Housing Production Ordinance")?

As a lifelong renter, I join San Francisco renters and allies in strongly opposing this legislation.

It is a license to _____!(you fill in the blank), will gut SF rent protections and worsen the very problems the Board and the Administration are desperate to solve, such as:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

I trust you will do the right thing here and vote NO. You have been sitting in those chairs long enough to know that the human misery on our streets will only be exacerbated and many lives cut short of their potential if this is allowed to proceed.

Sincerely,

*Ann Colichidas, San Francisco
Member: San Francisco Gray Panthers
Member: Our Mission, No Eviction

*The opinions expressed are my own.

September 18, 2023

To the Land Use Committee AND
San Francisco Board of Supervisors
RE: BOARD FILE 230446

I am writing to strongly urge the Land-Use Committee to approve this “housing for All” legislation proposed by Mayor Breed and Supervisors Engardio and Dorsey, which will advance housing production in the city through streamlining approvals processes and implementing some land-use changes in the Planning Code.

Under the 2022 Housing Element Update, San Francisco’s first housing plan that is centered on racial and social equity, San Francisco has a state-mandated goal of constructing 82,000 housing units within the next eight years. Meeting this goal will provide a broader array of housing options for all the people that reside in San Francisco, strengthening our communities and improving diversity and affordability overall.

This ‘**Housing for All**’ ordinance is rooted in several policies from the Housing Element that direct the City to remove obstacles hindering housing construction, particularly when such requirements are based on subjective criteria. Critically, the ordinance proposes process improvements, modification of development standards and expansion of incentives for development and construction of housing throughout the city. Implementation of these changes will provide diverse options for housing for all residents of San Francisco, expanding affordability and opportunity for all.

The State of California is putting intense scrutiny on San Francisco, and HCD and the Attorney General are prepared to make an example out of us to set the tone for the rest of the state. If we do not meet the expectations for constraints removal per the Housing Element to the satisfaction of the State, they are seriously threatening to withhold this funding. This would be *disastrous* to our city and to the most vulnerable members of our community.

OPPOSING THIS LEGISLATION IS EQUIVALENT TO OPPOSING MILLIONS OF DOLLARS OF AFFORDABLE HOUSING AND TRANSIT FUNDING FROM THE STATE FOR SAN FRANCISCO.

The ‘Housing for All’ Ordinance will expand housing options for all San Francisco residents, by expanding the availability of housing units of all types. The law of supply and demand is real, and the evidence is clear that the inadequate supply of housing in San Francisco is a major factor in its high cost. Housing in San Francisco, the State and all over the US is built on the private market, with few if any public subsidies. Streamlining the process and allowing housing developers to increase density will reduce the per-unit costs of construction—a cost that is directly passed in full to the renter or homeowner.

Higher density in our neighborhoods will promote stronger communities by having more eyes on the street. Having more residents in our neighborhood commercial districts will do more to stimulate opportunities for local residents to successfully open and operate small retail businesses than any mandated ground-floor retail space could ever do.

Karin Payson | architecture + design
1714 Stockton Street Suite 100 | San Francisco, CA 94133
415-277-9500 | fax: 415-277-9505 | www.kpad.com

Expansion of the inventory of housing options in San Francisco will result in greater neighborhood diversity, provide greater opportunities for vulnerable populations to remain housed, and will promote a healthy city culture where all can thrive.

I urge the Land Use Committee, and the Board of Supervisors, to approve the "Housing for All" ordinance without hesitation.

Respectfully submitted,

Karin Payson, AIA LEED AP

Re:

Constraints Reduction (AKA Housing Production) Case Number: 2023-003676PCAMAP Board File No. 230446 By Mayor Breed

Dear Board of Supervisors,

As a 35-year architect currently in practice here in North Beach and an activist in the support of affordable housing and supporting those who may not have a voice in our communities, I am writing to express my strong support for Ordinance 230446 and to encourage you to vote in favor of its passage.

This legislation presents a critical opportunity to remove numerous barriers that have been hindering the construction of new housing in our city where I practice and where I was born and continue to my firm's efforts in making sure that housing is accessible to all. I have also worked with SF DBI and Planning in a workgroup under the Small Firms Committee of AIASF to provide objective recommendations to improve the process by which permits are reviewed and approved to further accelerate housing project approvals in a timely manner.

Under this new legislation, projects that were previously held up for 2-5 years, or more, could be streamlined and completed through over the counter review or a specific review track in a matter of months. This is an imperative change if San Francisco is to meet its goal of 82,000 new units in the next 8 years. San Francisco is facing a severe housing crisis, with an acute shortage of affordable and available homes. This crisis has not helped in the reduction and housing of the unhoused, in some cases created displacement, and has contributed to the diminishing sense of community.

It is essential that we take equally swift and decisive action to address this issue, and Ordinance 230446 finally can begin to move the needle in a meaningful and impactful manner. By streamlining the permitting process and removing unnecessary bureaucracy that we design professionals have endeavored in other forms noted, this ordinance would pave the way for more efficient and timely development of new housing units. I implore you all to carefully consider the positive impacts and potential benefits of Ordinance 230446 and provide your support to its passage. Your vote will not only be a catalyst for positive change but also a testament to your dedication to serving the best interests of our community.

Irving

Re: **OPPOSE** Engardio-Breed-Dorsey "Constraints Reduction Ordinance" ("Housing Production") **File #230446**

Dear San Francisco Decision Makers: The undersigned environmental, housing, economic justice, community, and climate crisis response organizations write to voice our strong opposition to the Engardio-Breed-Dorsey "Constraints Reduction" ordinance. It would enact drastic and sweeping exceptions to San Francisco's environmental and community review of real estate projects and would undermine health, environmental, economic and neighborhood protections. The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year!

This ordinance would worsen:

- **The Unaffordable Housing Crisis** - This ordinance promotes building new high priced housing that is not affordable. It is ridiculous that the ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% oversupply of housing for those income levels!
- **The Homelessness Crisis** - The gentrification spurred by this ordinance would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 60,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - This ordinance would gut environmental and community review protections and would establish "Urban Renewal" style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared "cleaned up").
- **The Climate Crisis** - This ordinance is bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing more greenhouse gases, not less.

This ordinance would build housing for the wealthy, create more homelessness, and is an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN this unacceptable corporate attack on San Francisco's environmental, economic, cultural, and community integrity!

Subject: The Tenants Union formally opposes "Constraint Reduction" legislation
Date: Friday, September 15, 2023 6:13:02 PM
Attachments: [Tenants Union Opposes File 230446.pdf](#)

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Clerk of the Board, Angela Calvillo,

The Tenants Union formally opposes File 230446. The "Constraint Reduction" legislation proposed by Mayor Breed and Supervisors Engardio and Dorsey will incentivize the displacement of tenants and demolition of rent-controlled housing, while eliminating recourse for at-risk tenants.

The legislation is being sold as a way to speed up housing production by eliminating planning staff review to make many permits automatic with no public objection allowed. It streamlines demolition of sound rent controlled units as long as the owner declares that either: 1) there have been no records of buyouts or evictions in the last 5 years, and tenants currently do not inhabit the unit; or 2) if tenants currently occupy the unit, displacement will be granted but they have a "right of return" when and if their units are rebuilt. The demolished units must be replaced and increase in number but there is no requirement that the new units are actually rental units – more likely they will become ownership "Tenancy-In-Common" units. This trend is already playing out at the Planning Commission where they still hold hearings and vote on demolition projects for now.

The legislation eliminates hearings where an affected tenant or a neighbor who knows the history of the building could be heard, object, and possibly get a vote of disapproval from the Planning Commission.

Shockingly, the Mayor's legislation eliminates an existing but pathetically short 1-year ownership requirement in order to qualify for streamlining. Eliminating this requirement opens the floodgates for speculators to buy rent controlled buildings and fast-track their demolition with existing tenants barely able to protest their own displacement. New buyers of buildings, in our experience, are the most ruthless although they hide behind the lore of "mom-and-pop" landlords.

Whether tenants currently occupy the units or the units even exist (in the case of unauthorized units) relies on self-attestation by landlords. Unscrupulous landlords have an incentive to lie on their applications, because if they are truthful the replacement units will come with restrictions.

Many vulnerable tenants, especially in unauthorized units, are asked to pay rent in cash so will not be able to prove their occupancy nor understand where to do so.

San Francisco has many, many in-law units that were built without

permits so exist in a gray market outside of planning maps. These units are still covered by rent control and can use the Rent Board services, but tenants are especially vulnerable because both owners and tenants have an incentive to fly under the radar and hide these illegal spaces so the Planning Department doesn't know they exist and would require replacement.

The legislation incentives pressuring tenants to "voluntarily" move out in order to deliver the unit vacant before applying for permits. There are many ways besides buyouts and evictions to convince tenants to leave when profits are at stake.

In our experience, when a tenant is displaced by fire, flooding, or major rehabilitation work, they almost never return despite their right to. Reconstruction is dragged on and the tenants either move on signing long leases elsewhere and typically give up.

Planning Staff (who support this legislation) could not answer simple questions about which department would track these Right of Return tenants and enforce if an owner simply neglected to inform the former tenants reconstruction was over.

A larger threat is that the speculator can simply rebuild and offer the new units for sale separately - "tenancy-in-commons" - so a tenant wishing to assert their right to return would have no unit available to return to. We believe this is the most likely outcome as older rent controlled buildings are typically cheaper to buy so the profit margin to turn them into condo opportunities will be huge. It will result in the loss of rent controlled units from the market.

Tenants will find it hard to fight their displacement as the demolition of their units has been condoned by the Planning Department and sold as good housing policy by developers who could care less about the effects on tenants.

Thank you very much,

San Francisco Tenants Union

Subject: Letter of *SUPPORT* for the Housing Legislation Ord. #230446
Date: Sunday, September 17, 2023 6:35:48 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear San Francisco Board of Supervisors,

I'm writing to urge you to **SUPPORT** the Housing for All legislation, specifically the Constraint Reduction, and join the [AIASF Housing for All Ordinance Support](#)

It is rare for a national professional organization such as the AIASF to rally their members and practitioners to support a city legislation, unless it is detrimental to the welfare of the community. We are at the frontline of the housing crisis, having to deliver the horrific facts of time and costs it takes to permit their projects. We already lost all credibility as professionals to advise the public to navigate the permit system in San Francisco. The process is getting less transparent, and yet the permit fee is increasing.

Our clients come from all walks of life. Most just want to improve their decades old deferred maintenance in their buildings. It is our American right to improve our living space. We should not be burdened by a system that holds no accountability of their delivery, charges us thousands of dollars of fees, and subjects us to endless debates with random public on whether our code-compliant project meets their interpretation of neighborhood characters.

The inequality of getting a simple building permit directly contributes to substandard and illegal construction, life-threatening living conditions and unsustainable use of resources. So no, the way it is doesn't support the diversity we all claim San Francisco to be, and it is apparent to all of us who choose to continue living here.

As small firm owners, we cannot afford hiring designers within our own city. I have lost good candidates but with no experience to larger firms offering them a \$70k salary. We have to resort to outsourcing our staff to other countries, or face constant turnover of inexperienced staff. If you support local businesses, you need to support housing reform.

This past Friday the city experienced a joyous event that galvanized 800k of San Francisco - the Sunset Night Market. It is successful because the event was well-planned, and didn't try to appease everyone (there were many nay-sayers on Nextdoor.com from Supervisor Engerdio's original post). The content of this legislation will not satisfy everyone, but the overall importance of cleaning up the existing process of urban development is an important step. We as architects, engineers and builders will always work w/ the city to get things done. Be brave and trust the professionals to stand side by side with you on this.

**Re: Constraints Reduction/ Housing Production proposed legislation
File 230446 - Land Use Committee Sept. 18, 2023**

9/15/23

Dear Land Use Chair Myrna Melgar, Board President Peskin, Supervisor Dean Preston

I urge you to reject the Constraints Reduction proposed ordinance on the grounds it fails to provide adequate affordable housing; it largely excludes the public from having any voice in their built world, and it enables speculative investors to demolish existing rent-controlled affordable housing -- potentially displacing thousands of tenants, whole communities and cultures.

The proposed ordinance has so many flaws it is neither fixable nor redeemable by amendment. Fundamentally, we, the people, are the "Constraints" to be eliminated. This is neither democratic nor Constitutional.

A better, and fully legally-compliant course, would be to replace the current proposal with a Board commitment to first begin with implementing the Housing Element and RHNA mandates for affordable housing. This can be accomplished with a Board- and community-created **San Francisco Affordable Housing Implementation and Accountability Ordinance**.

Target the streamlining process to only the units that are most needed-- the production of 47 thousand affordable rental and ownership homes --extremely low income all the way through moderate income-- with early public input and adequate tenant protections in all processes, along with the preservation and maintenance of existing affordable units. And provide a roadmap for securing **all** necessary funds.

A strategic affordability implementation plan would acknowledge that **in order for housing to be fair housing, it must be affordable**.

And it would recognize that **the time for wondering what to do is over**. Waiting for a remote bureaucrat-stacked Mayor's appointees "Leadership Council" to delay even more the charting of an affordability course -- possibly not until well into 2024 -- is not acceptable.

We already have all the ideas we need to achieve affordability...and we know it begins with MMM -- **Match Mandates with Money --- as in billions per year**.

Please reject the Constraints Reduction proposal and commit to enacting an Affordable Housing implementation plan.

Thank you for your consideration.

Lorraine Petty

Dear Ms. Major,

Good morning.

Here is a pdf version of the letter I dropped off on Thursday in case this is easier to put on the website.

Thanks much.

Hope you are well and fine.

Sincerely,

Georgia Schuttish

Re: Mayor Breed's Constraint Reduction Ordinance **Board File No. 230446**

Dear Chair Melgar, President Peskin and Supervisor Preston:

The Mayor's Ordinance will be heard at the LUT sometime soon. (*September 18th?*)

The Committee should not recommend it to the full Board.

This Ordinance is not needed due to the fact of other legislation, both local and from Sacramento. For example:

The Board has passed Chair Melgar's Ordinance to expand housing with the "Family Housing Opportunity SUD".

There is SB 9. And there is the local Four-Plex Program.

The Rezoning under the Housing Element is underway and will be finalized in early 2024.

SB 35 has been extended and expanded via SB 423.

Construction on Treasure Island is underway.

Recent ADU legislation from Sacramento allows them to be sold as condos.

All the other housing bills from the Sacramento....too many to cite!

There are tons of units in the San Francisco pipeline: Stonestown, Park Merced, Schlage Lock, numerous projects around the HUB, etc, etc, etc)

Plenty of existing vacant units. (i.e. One Oak, 603 Tennessee Street, etc, etc, etc)

Let's see what happens with all of this before reducing constraints even more.

Georgia Schuttish

Subject: Item #5, 230446: Oppose Ordinance amending the Planning Code
Date: Monday, September 18, 2023 9:39:49 AM
Attachments: [Artboard 1.png](#)

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Chair Melgar, and Supervisors Preston and Peskin,

My name is Calder Lorenz, I am the Director of Operations for The Gubbio Project and a San Francisco resident. We strongly urge the Land Use & Transportation Committee to oppose the ordinance amending the Planning Code to encourage housing production (Item #5).

Our community is in desperate need of affordable housing and his legislation streamlines luxury development without the required housing element equity strategies undermining our rights, Affirmatively Furthering Fair Housing and cultural stabilization.

This legislation also silences our communities and takes away our power of self-determination over how our communities grow and develop. As an example, Section 9.4.2 of the Housing Element states that conditional use authorizations should only be removed outside of areas of high risk of displacement, but you can see that they are removing them from these areas without implementing community stabilization processes as required by the Housing Element.

The Gubbio Project's mission is to be in community with and to provide a sacred space and sanctuary for unhoused people in need of safe, compassionate respite during the day. Our program is housed at St. John's in the Mission and currently provides critical services to 100 individuals daily through a highly unique and successful model that combines social justice, peer support, and harm reduction. The Gubbio Project calls for a more just, compassionate and community centered approach by public agencies and policymakers.

Myself, my family and my neighbors, especially those we serve daily who are desperate for affordable housing options have a right to shape our community. The right to shape our communities is ours and should not be handed off to wealthy investors and developers. Many projects in the Mission have been shaped by the community and the Marvel in the Mission would never have been a reality if there hadn't been a requirement for developers to work with communities.

Please, oppose this Ordinance amending the planning code,

In Community, Calder

--

Calder Lorenz (he/him), *Harm Reduction Saves Lives, I carry naloxone!*

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Chair Melgar and the Land Use and Transportation Committee,

Please find the attached letter from the Race & Equity in all Planning Coalition (REP-SF) regarding Legislative File #230446, "Planning Code, Zoning Map - Housing Production," which is on the Land Use and Transportation Committee agenda this coming Monday, September 18th.

Respectfully,
Jeantelle Laberinto
on behalf of the Race & Equity in all Planning Coalition

12 September 2023

Chair of the Land Use & Transportation Committee, Supervisor Melgar
Land Use & Transportation Committee Members, Supervisors Peskin and Preston
San Francisco Board of Supervisors

Re: Legislative File #230446, "Planning Code, Zoning Map - Housing Production"

Dear Land Use & Transportation Committee Chair Melgar and Supervisors Peskin and Preston:

The Race & Equity in all Planning Coalition of San Francisco (REP-SF), a coalition of more than 40 organizations citywide whose mission is to build a future with diverse communities, stable, affordable housing and equitable access to resources and opportunities, strongly urges the Land Use & Transportation Committee to make significant amendments to this legislation or reject it in favor of new legislation in order to focus on efforts to implement the Housing Element in a way that affirmatively furthers fair housing.

The Housing Element is a complex set of policies and implementing actions. REP-SF was encouraged when the Board of Supervisors and the State's Department of Housing and Community Development (HCD) approved the Housing Element in January, affirming that 57% of the housing San Francisco builds in the next eight years will be price restricted to be affordable for very-low, low and moderate income households. REP-SF was also encouraged that the approved Housing Element contained dozens of very strong implementing actions to build truly affordable housing, protect tenants and generally stabilize communities that have suffered from displacement for decades, and strengthen the voices of our low-income communities, communities of color, and Cultural Districts for self-determination to direct how our communities grow and develop.

Unfortunately, in the several months since the Board and the State approved the Housing Element, all of the implementing legislation that has been introduced has focused on bringing more market rate housing to San Francisco, and diminishing the amount of affordable housing that will be built. Cumulatively, these ordinances move San Francisco farther away from achieving outcomes for racial and social equity, violate San Francisco's legal obligation to affirmatively further fair housing, and violate [key provisions of the Housing Element \(attached as an addendum to this letter\)](#).

Approaching the current eight year Housing Element cycle with the same failed approach as the last Housing Element cycle will yield the same inequitable results - an overproduction of market

rate housing and under production of affordable housing. Currently, the only tangible effort to support affordable housing is an effort to bring a [\\$300 million bond](#) to San Francisco voters in 2024. Although our affordable housing goals have increased roughly three-fold, this proposed bond would only be half the size of the prior housing bond.

In order to comply with the Housing Element mandates for this new eight-year cycle, along with legal obligations to affirmatively further fair housing, San Francisco must take a different approach than it has taken in the past. REP-SF's [Citywide People's Plan](#) provides clear and concrete direction for how the City can meet its RHNA mandates while affirmatively furthering fair housing.

Many of the actions from REP-SF's Citywide People's Plan have been incorporated by Planning staff into the Housing Element's extensive set of implementing actions, but the "streamlining" or "reducing constraints" legislation that will be heard at the Board's Land Use Committee on September 18 moves our City in entirely the opposite direction with an approach that silences our communities, encourages demolitions and displacement, and provides no resources for affordable housing.

This letter details REP-SF's issues with the failures of this legislation to affirmatively further fair housing. One of those concerns is the potential impact on existing tenants and their increased vulnerability to displacement. This letter does not provide extensive detail about tenant-related concerns, because REP-SF relies on our member and partner, the SF Anti-Displacement Coalition (SFADC) to provide the Board with a detailed analysis of tenant concerns.

The Board of Supervisors can re-focus their efforts on the parts of the Housing Element that will lead to equitable outcomes and affirmatively further fair housing by significantly amending the Mayor's legislation or setting it aside in order to focus on new legislation that commits the City to implementing the Housing Element and affirmatively furthering fair housing.

REP-SF's Road Map for Housing Element Implementation

REP-SF demands that the Mayor's "streamlining" ordinance be amended significantly to incorporate the following equity provisions.

Truly Affordable Housing First

1. Nearly 57% of the housing to be built in the next eight years is supposed to be permanently affordable for very low to moderate income households, and in the past eight-year cycle, San Francisco fell short in its housing production for these income categories by more than 8,000 units. Despite these failings of San Francisco to affirmatively further fair housing by meeting its prior affordable housing production goals, and despite the fact that significantly more than half of the units in this next cycle must be affordable for households that are unable to afford market rate housing, none of the ordinances that have been proposed for Housing Element implementation provide any new policies or funding for affordable housing.

2. This legislation should be amended to contain a budget supplemental to commit significant new funding to affordable housing per Housing Element action 1.1.2: *"Include affordable housing investment needs in annual City budget process and Capital Planning process to identify existing housing funding sources, funding gaps and potential new funding sources, including regular general fund allocations that can be made as part of the budget process and local general obligation bonds or other funding sources that require voter approval."*
3. This legislation should be amended to contain a provision for identifying enough development sites and building acquisitions for San Francisco to meet its RHNA mandate for Very low, Low and Moderate income housing. This should be accompanied by a directive to aggressively purchase and land bank buildings and sites. Please refer to Housing Element action 1.2.2: *"Strategically acquire sites and identify targeted funding for land acquisition and banking for affordable housing throughout the city. This will include lots for consolidation that can accommodate permanently affordable housing of at least 50 to 100 units or more through publicly funded purchases, in balance with investment in affordable housing preservation and production and in strategic coordination with sites owned by religious, nonprofit, and public property owners. Prioritize sites of interest identified in coordination with American Indian, Black, and other communities of color. Consider sites that accommodate fewer than 50 units as additional affordable housing funding, financing, and operating approaches are secured."*
4. This legislation should also be amended to contain new fees charged to developers per Housing Element action 1.4.6: *"Utilize value capture from up-zonings to support large affordable housing developments in need of substantial repair or rehabilitation, to fund rebuilding and financial feasibility of existing affordable units for current residents while creating more affordable homes."*
5. Any additional reductions to the project review process could be considered for development proposals that meet the following criteria:
 - a. In order for any project of five units or more to qualify for streamlining, it must provide at least 57% of its units as below market rate, per the RHNA affordability levels.
 - b. In order for projects of four units or less to qualify for streamlining, these projects must provide two units of permanently affordable housing priced to be affordable for households earning no more than 80% of the neighborhood median income for the neighborhood in which the project is located.
 - c. All State Density Bonus projects and HOME-SF projects must provide at least 57% of their units as below market rate, per the RHNA affordability levels.

Community Voice and Expertise

1. REP-SF supports efforts to reduce the duration of project reviews and uncertainty in the process. REP-SF, however, [demands a process](#) that continues to put the voices and expertise of low income and communities of color out front in the approval process. This legislation in its current form would undermine the ability for low income and communities of color to have a voice in shaping how our communities develop and grow.

- a. REP-SF's demand for "streamlining" and "reducing constraints" to retain meaningful input and participation especially from low-income communities and communities of color is supported by Housing Element implementation action #8.4.21: *"Led by American Indian, Black, other communities of color, and Cultural Districts, explore options to support community engagement as part of ministerial review to simplify and shorten the approval process for housing projects citywide. All considered options must not add subjective constraints to the housing approval process and must reduce project approval timelines."*
- b. Developing new project approval systems that strengthen the ability for Cultural Districts, low income communities and communities of color to direct how our communities grow and develop is supported by Housing Element implementation actions 3.4.2; 4.1.1; 4.1.2; 4.1.4; 4.2.4; 4.2.5; 4.2.6; 4.4.2; 4.5.12; 5.2.4; 5.4.1; 6.1.3; 6.3.2 among others. In its current form, the Mayor's legislation undermines these Housing Element actions.

Mapping

1. This legislation establishes a Priority Equity Geographies (PEG) Special Use District. The boundaries of this PEG-SUD and the applications of new land-use policies and procedures are extremely problematic.
 - a. The PEG map is based on data compiled by the Department of Public Health in 2016. Not only is the data obsolete, DPH did not develop this dataset to be used for land use planning purposes. Additionally, the PEG data and its applicability to land use policy have never been informed by low income or people of color communities.
 - b. The PEG map leaves out many ["areas vulnerable to displacement based on Urban Displacement Project typologies"](#), and also is incompatible with the network of Cultural Districts across the City as it leaves out the Sunset Chinese Cultural District, Castro Cultural District, and portions of the Japantown Cultural District, American Indian Cultural District, Calle 24 Latino Cultural District, and African American Arts and Cultural District.
 - c. This legislation calls for certain types of noticing and project approval processes inside the PEG-SUD and different noticing and project approval processes outside the PEG-SUD. The PEG-SUD does not provide any protections for existing, vulnerable residents, or any new investments for affordable housing opportunities.
 - d. Additionally, other ordinances for Housing Element implementation that reduce impact fees and inclusionary housing requirements for market rate developers directly affect communities within the PEG-SUD by reducing impact fees and reducing affordable housing requirements for market rate developers.
2. REP-SF demands that if the concept of Priority Equity geographies is going to be used as a policy framework for land use changes, the PEG-SUD should be responsive to the following:
 - a. The legislation should be amended to expand the PEG-SUD with input from American Indian, Black and other people of color communities and low income

communities throughout the City. This re-mapping process should also include input from all Cultural Districts.

- b. Public noticing, anti-displacement and other community stabilization policies and procedures should be retained and strengthened within this newly mapped PEG-SUD.
 - c. Impact fees and inclusionary housing requirements should be restored to their current levels within the newly mapped PEG-SUD.
 - d. Significant new investments and resources for affordable housing should be made available for communities within the newly mapped PEG-SUD.
3. REP-SF's Citywide People's Plan calls for a shortened housing project review and approval process **citywide** per Housing Element action #8.4.21 (referenced above), rather than creating the problematic geographical distinction that this legislation proposes. [Attached](#) is a flow chart that summarizes how REP-SF's proposed review and approval process could work.
 4. The Well-Resourced Neighborhoods areas have been designated by the State as priority areas for investment in affordable housing development. San Francisco's Housing Element ignores this equity policy and instead targets the Well-Resourced Neighborhoods for increasing high-priced market-rate housing. In order to align the Housing Element with the State's mandate to affirmatively further fair housing, there must be prioritization of policies and resources for affordable housing in the Well-Resourced Neighborhoods.

REP-SF hopes that the Board of Supervisors will significantly amend this legislation so it affirmatively furthers fair housing and embraces the potential for San Francisco to implement our Housing Element in a way that truly centers equity. If it is not possible to amend this legislation, REP-SF hopes that the Board will reject this legislation and work with low income and people of color communities throughout the City to move forward legislation that implements the Housing Element in a way that prioritizes the Implementing Actions from the Housing Element that the Board approved that do promise to affirmatively further fair housing and center equity.

REP-SF looks forward to working with the Board of Supervisors and the Mayor's office on re-orienting the priorities of Housing Element implementation.

Respectfully submitted,

Jeantelle Laberinto
on behalf of the Race & Equity in all Planning Coalition

Addendum #1:**Housing Element Implementation Actions that Support Equitable Outcomes**

The Housing Element implementation actions listed below are a direct result of advocacy from REP-SF and our member organizations articulating a detailed set of strategies for developing nearly 47,000 new affordable housing units in eight years; and strengthening the voices and self-determination of communities of color and low-income communities to determine how our communities grow and develop.

The "Timeframes" as defined by Planning are as follows:

"Short" = 0 - 2 years; "Medium" = 3 - 5 years; "Long" = 6 - 8 years

Action # & Timeframe	Housing Element Category	Action Text
1.1.2 - Short	Affordable Housing Funding	Include affordable housing investment needs in annual City budget process and Capital Planning process to identify existing housing funding sources, funding gaps and potential new funding sources, including regular general fund allocations that can be made as part of the budget process and local general obligation bonds or other funding sources that require voter approval.
1.1.3 - Short, Ongoing	Affordable Housing Funding	Create a budgeting tool to track housing investments, including permanently affordable housing production, preservation, and housing services; including investments that advance community identified priority actions, per Action 4.1.3; tracking investments that advance racial and social equity, per Action 4.1.1 and achieve targets for investment in Well-resourced Neighborhoods as referenced in Action 1.2.1 and in Priority Equity Geographies.
1.1.11 - Medium	Affordable Housing Funding	Assess the City's capacity to finance a mixed-income and/ or mixed-use, social housing program.
1.1.14 - Short	Affordable Housing Funding	Explore expanding jobs-housing linkage fees to large employer institutional developments (medical and educational) who are currently not subject to jobs-housing linkage fees, in coordination with Action 1.1.12.
1.1.15 - Short	Affordable Housing Funding	Increase staffing at responsible agencies for analysts and community development specialists to implement expanded affordable housing programs in relation to increased funding and targets and to incorporate community strategies into the implementation of the Housing Element.
1.2.2 - Short	Affordable Housing Production	Strategically acquire sites and identify targeted funding for land acquisition and banking for affordable housing throughout the city. This will include lots for consolidation that can accommodate permanently affordable housing of at least 50 to 100 units or more through publicly funded purchases, in balance with investment in affordable housing preservation and production and in strategic coordination with sites owned by religious, nonprofit, and public property owners. Prioritize sites of interest identified in coordination with American Indian, Black,

		and other communities of color. Consider sites that accommodate fewer than 50 units as additional affordable housing funding, financing, and operating approaches are secured.
1.2.3 - Short	Affordable Housing Production	Prioritize land dedication, donation, or purchase of sites as a major strategy for securing affordable housing, including social housing and shared equity cooperatives, through partnerships with religious institutions, other philanthropic or private property owners, and non-profit developers, including ownership models referenced under Action 1.6.1.
1.2.4 - Short	Affordable Housing Production	Regularly track the pipeline of development sites and land banked for affordable housing development funded by OCII, MOHCD, and other relevant agencies, and develop strategies to ensure sufficient sites to accommodate affordable housing production relative to available funding over a rolling 4- to 8-year outlook and to meet the goals to construct housing in Priority Equity Geographies and Well-resourced neighborhoods per Action 1.2.1.
1.2.5 - Short	Affordable Housing Production	Develop a land acquisition process and program that permits inexpensive long-term leases for land developed with high affordability.
1.2.8 - Short	Affordable Housing Production	Prioritize support to neighborhood-based affordable housing developers, particularly those managed by American Indian, Black, and other communities of color. Partner with affordable housing developers to purchase privately owned entitled sites where construction may be stalling.
1.4.6- Short	Affordable Housing Preservation	Utilize value capture from up-zonings to support large affordable housing developments in need of substantial repair or rehabilitation, to fund rebuilding and financial feasibility of existing affordable units for current residents while creating more affordable homes.
1.4.7 - Short	Affordable Housing Preservation	Strengthen monitoring and enforcement of Below Market Rate units to avoid fraud and abuse of units and to unlock more units for those eligible and in need, through active enforcement of existing obligations, expedited leasing of new and turnover units, and completing the build out of the DAHLIA partners database.
1.5.1 - Medium	Deep Affordability and Rent Assistance for Lowest Income Renters	Increase production of housing affordable to extremely low and very low-income households and increase the share of units affordable to these households in affordable housing. This includes identifying and deploying operating subsidies necessary to serve these income groups.
1.5.2 - Short	Deep Affordability and Rent Assistance for Lowest Income Renters	Maximize the use of ongoing tenant-based rental assistance to expand eligibility for extremely and very low-income households who otherwise do not qualify for affordable units.
1.5.3 - Medium	Deep Affordability and Rent Assistance for Lowest Income Renters	Increase housing that is affordable to extremely low and very low-income households in Well-resourced Neighborhoods, as well as in Priority Equity Geographies and Cultural Districts, through City-funded permanently affordable housing projects.

1.5.4 - Short	Deep Affordability and Rent Assistance for Lowest Income Renters	Reduce severe cost burdens and increase stability for extremely low- and very low-income renters through ongoing rental assistance for qualifying vulnerable households, including people harmed by past government discrimination, seniors, people with disabilities, transgender people, and families with children, particularly those living in SROs.
1.5.5 - Short	Deep Affordability and Rent Assistance for Lowest Income Renters	Engage with target communities to determine needs and advocate for expanded tenant and building-based rental assistance programs at the federal and state and local levels to meet the needs of extremely and very low-income households and households with fixed incomes, such as seniors and people with disabilities, as also referenced in Actions 2.1.2, 3.2.1, 1.5.4.
1.7.1 - Short	Eligibility and Access for Affordable Housing	Identify racial, ethnic, and social groups who have been disproportionately underserved by MOHCD's Affordable Rental and Homeownership units and the underlying reasons why those groups are underrepresented in obtaining such housing. Previously identified groups include American Indian, Black, Latinos, and other people of color, transgender and LGBTQ+ people, transitional-aged youth, people with disabilities, senior households, and households currently living in SROs. This study can inform the housing portal and access points cited in Action 1.7.6.
1.7.4 - Short	Eligibility and Access for Affordable Housing	Identify and adopt local strategies and advocate for State legislation to remove barriers to access permanently affordable housing for immigrants or people who lack standard financial documentation such as credit histories, bank accounts, or current leases; and for transgender people whose documentation may need corrections not possible due to immigration status, and/or non-California state laws.
1.7.5 - Short	Eligibility and Access for Affordable Housing	Expand existing culturally responsive housing counseling to applicants of MOHCD Affordable Rental and Homeownership Opportunities through a network of community-based housing counseling agencies, in consultation with Cultural Districts, and as informed by the needs identified under Actions 1.7.1, 1.7.2, and 5.4.9. These programs include financial counseling, market-rate and below market rate rental readiness counseling, and other services that lead to finding and keeping safe and stable housing; expansion of such services should be in coordination with Actions 2.1.4 and 4.1.2.
1.7.7 - Short	Eligibility and Access for Affordable Housing	Identify new strategies to address the unique housing and service needs of specific vulnerable populations to improve housing access and security for each group, using the findings from the City's housing Consolidated Plans and through direct engagement of these populations. Studies should address the needs of veterans, seniors, people with disabilities, transitional-aged youth, transgender and LGBTQ+ populations.
1.7.8 - Short	Eligibility and Access for Affordable Housing	Evaluate increasing neighborhood preference allocation for Below Market Rate units in Priority Equity Geographies to better serve American Indian, Black, and other communities of color, if possible, per the Federal Fair Housing regulations, as informed by Policy 5 and related actions.
1.7.9 - Short	Eligibility and Access for	Create or expand programs to provide housing counseling, financial literacy education, and housing readiness to low-income American Indian, Black and

	Affordable Housing	other people of color households who seek housing choices in Well-resourced Neighborhoods by 2024, and provide incentives and counseling to landlords in Well-resourced Neighborhoods to offer units to low-income households. Consider similar incentives referenced in Action 8.4.16.
1.7.10 - Medium	Eligibility and Access for Affordable Housing	Expand housing for transitional-aged youth in permanently affordable housing, integrated with supportive programs that address their unique needs such as a past criminal record, substance abuse, sexual orientation, gender identity, or other specific needs, as informed by the strategies referenced in Action 8.7.3.
1.7.11 - Short	Eligibility and Access for Affordable Housing	Study and identify programs, geographies, and building types that respond to the needs of recently arrived immigrants to inform permanently affordable housing investments in the neighborhoods in which they initially settle, such as Chinatown, the Tenderloin, the Mission, Cultural Districts, and other gateway neighborhoods.
2.1.1 - Short	Eviction Prevention and Anti-displacement	Fund the Tenant Right-to-Counsel program to match the need for eviction defense.
2.1.2 - Short	Eviction Prevention and Anti-displacement	Provide a priority in the allocation of direct rental assistance to vulnerable populations and in areas vulnerable to displacement. Geographies will be updated based on most up-to-date data and analysis. Assess rental assistance need for these groups and allocate additional funding secured by Action 1.1.1.
2.1.3 - Medium	Eviction Prevention and Anti-displacement	As informed by Action 2.1.4 and in coordination with community liaisons referenced under Action 4.1.2, support and expand community-led navigation services and systems to provide tenants' rights education and support and expand other related programs such as the existing culturally competent Code Enforcement Outreach Program that is offered within the Department of Building Inspection.
2.1.4 - Short	Eviction Prevention and Anti-displacement	Increase funding to expand the services of community-based organizations and providers for financial counseling services listed under Action 1.7.5, as well as tenant and eviction prevention services listed under Program 2, to better serve vulnerable populations, populations in areas vulnerable to displacement, and Cultural Districts. Tenant and eviction protection services include legal services, code enforcement outreach, tenant counseling, mediation, and housing-related financial assistance; expansion of such services should be informed by community priorities referenced under Action 4.1.3. Complete by completion of Rezoning Program or no later than January 31, 2026.
2.1.5 - Short	Eviction Prevention and Anti-displacement	Provide adequate legal services to support eviction prevention including support for rent increase hearings, habitability issues, or tenancy hearings with the Housing Authority.
2.1.6 - Medium	Eviction Prevention and Anti-displacement	Expand on-site case management services that focus on removing barriers to housing stability to support non-profit housing providers in preventing evictions of their tenants.
2.1.7 -	Eviction	Expand housing retention requirements to prevent evictions and support tenants

Short	Prevention and Anti-displacement	of non-profit affordable housing. Allocate additional funding needed to support these functions and staff in non-profit organizations.
2.1.8 - Medium	Eviction Prevention and Anti-displacement	Develop a system to respond to housing transfer requests, especially in affordable and supportive housing, and monitor their potential as a housing retention and eviction prevention strategy.
2.2.1 - Short	Tenant Protections	Implement the digital Rental Housing Inventory to collect data that informs the evaluation of anti displacement programs, including rental rates, rent control status, vacancy, and services provided.
2.2.2 - Short	Tenant Protections	Increase relocation assistance for tenants experiencing either temporary or permanent evictions, including increasing the time period during which relocation compensation is required for temporary evictions from three to six months. Explore options to ensure long-term affordability of low-income tenants who return to their units.
2.2.4 - Short	Tenant Protections	Pursue proactive and affirmative enforcement of eviction protections programs, especially for Owner Move-in and Ellis Act evictions, including annual reporting by owners that is enforced by site inspections and confirmation of owner occupancy, funded through owner fees.
2.2.6 - Medium	Tenant Protections	Advocate for State legislation to reform the Ellis Act (Government Code Chapter 12.75) to stabilize rental housing by, for example, imposing a minimum holding period of five years before the Act can be used to evict tenants.
2.2.7 - Medium	Tenant Protections	Advocate for State legislation to reform the Costa-Hawkins Housing Law to allow cities to better stabilize tenants by, for example, allowing cities to extend rent control to multifamily housing that is at least 25 years old. Assign City staff to lead this task.
2.2.8 - Short	Tenant Protections	Increase fines and enforcement for illegally preventing SRO residents from establishing tenancy by forcing short-term stays.
2.2.9 - Short	Tenant Protections	Collaborate with HCD and the State legislature to clarify expectations and advocate for changes for tenant protections and community anti-displacement based on recent legislation.
2.3.1 - Short	Acquisitions and Rehabilitation for Affordability	Prioritize and expand funding for the purchase of buildings, including those with chronically high residential vacancy, underutilized tourist hotels, and SRO residential hotels, for acquisition and rehabilitation programs that serve extremely low to moderate-income households, including unhoused populations.
2.3.2 - Medium	Acquisitions and Rehabilitation for Affordability	Identify SRO residential hotels in advanced states of disrepair, particularly those owned by nonprofits and/or master-leased by the City as supportive housing, for rehabilitation and repair with public and/or philanthropic assistance. Explore cost-effectiveness of acquisition and demolition of severely deteriorated SROs and rebuilding as Permanent Supportive Housing, if it is cheaper than rehabilitation, allowed by planning code, and meets requirements for tenant relocation during construction and right to return for tenants.

2.3.3 - Short	Acquisitions and Rehabilitation for Affordability	Increase non-profit capacity-building investments, particularly for American Indian, Black, and other community organizations of color, to purchase and operate existing tenant-occupied buildings as permanent affordable housing in Well-resourced Neighborhoods, particularly for populations at risk and in areas vulnerable to displacement, to expand implementation of the Community Opportunity to Purchase Act (COPA).
2.3.4 - Short	Acquisitions and Rehabilitation for Affordability	Evaluate the feasibility of utilizing the Small Sites program to increase shared equity or cooperative ownership opportunities for tenants. This study would also inform expansion of shared equity homeownership models cited in Actions 5.4.6 and 1.6.1.
2.3.5 - Medium	Acquisitions and Rehabilitation for Affordability	Incentivize private owners to sell residential buildings to non-profit affordable housing developers via transfer tax exemptions or other financial measures.
2.4.1 - Short	Preserving Rental Unit Availability	Implement recently voter-approved vacancy tax for residential units that stay empty for over 6 months on owners of properties with at least three residential units. Explore additional legislation to tax other unit types and vacancies, such as units used as secondary or vacation homes.
2.4.2 - Short	Preserving Rental Unit Availability	Explore regulatory paths, including a tax or other regulatory structures, to discourage short term speculative resale of residential units, particularly those which seek to extract value out of evicting tenants, or rapid reselling to more lucrative markets.
2.4.3 - Short, Ongoing	Preserving Rental Unit Availability	Continue to improve compliance, enforcement, and restrictions on intermediate-length occupancy dwelling units. Explore tracking and publishing data on short-term rentals on the Rental Housing Inventory.
2.4.4 - Short	Preserving Rental Unit Availability	Increase fines and enforcement for illegally converting SROs to new uses.
3.4.2 - Medium	Supportive Housing	Increase funding needed to meet the targets set in Action 3.4.1, in balance with funding needed for the other actions to reduce homelessness, including short and long-term rental subsidies, temporary shelter and targeted homelessness prevention.
4.1.1 - Short	Accountability	Develop and align citywide metrics that measure progress towards positive outcomes for American Indian, Black, and other people of color, and other disadvantaged communities resulting from housing policies using methods consistent with the San Francisco Equity Index prepared by the Office of Racial Equity. These metrics will be part of the Monitoring Program in Action 8.1.9 and will include affordable housing placement, displacement mitigation measures, and homeownership rates.
4.1.2 - Short	Accountability	Identify and fund liaisons within key City agencies such as MOHCD and Planning to support the housing needs and priorities of American Indian, Black, and other people of color, and other disadvantaged communities; such liaisons should provide regular check-ins with the community at centralized community spaces and reporting on housing programs and Housing Element implementation

		progress.
4.1.3 - Short	Accountability	Identify priority actions in the Housing Element Implementing Programs that respond to the needs of American Indian, Black, and other people of color, and other disadvantaged communities, through collaboration with Cultural Districts or other racial and social equity-focused community bodies such as the Community Equity Advisory Council or the African American Reparations Committee. Report back to communities on the progress of those priority actions and update prioritization annually.
4.1.4 - Short	Accountability	By January 31, 2023, establish an interagency Housing Element implementation committee. This committee should meet with members of racial and social equity focused bodies as cited in Action 4.1.3, to inform the City's budget and work program on housing equity. The committee would be responsible for creating a Monitoring Program described in Action 8.1.9, developing an affordable housing strategy, reviewing the City's annual affordable housing funding budget, and reporting progress measured in Actions 8.1.9, 4.1.1 and 4.1.3 to the Planning Commission and Mayor's Office and for identifying financial or legal challenges to progress.
4.1.5 - Short	Accountability	Monitor and shape housing investments, including permanently affordable housing production, preservation, and housing services, using the affordable housing funding and investment tracking cited in Action 4.1.1 so that resource allocation is accountable to the community priority actions identified in Action 4.1.3.
4.1.7 - Medium	Accountability	Continue racial and social equity and displacement analysis to target levels of investments that prevent community displacement through increased permanently affordable housing production, equitable access to housing, and other community stabilization strategies for vulnerable populations. This will include a triennial progress report on the displacement of population by income, race, and geography in relation to existing community stabilization programs and production of affordable housing.
4.1.9 - Short	Accountability	Develop and require community accountability measures, including notification and engagement of residents, when building housing on environmentally contaminated sites.
4.2.1 - Short	Community Planning	Develop and implement community outreach and engagement strategies that center racial and social equity and cultural competency to be used by Planning Department staff as well as developers or community groups.
4.2.4 - Medium	Community Planning	Implement the upcoming housing strategies recommended by the African American Reparations Advisory Committee.
4.2.5 - Short	Community Planning	Support the development and implementation of community-led plans in the Tenderloin, the Fillmore, the Mission, Sunset and all Cultural Districts through their CHHESS reports. These community plans, reports, and boards will guide priorities and investments in their neighborhoods.
4.2.6 -	Community	Identify and adopt zoning changes that implement priorities of American Indian,

Medium	Planning	Black, Filipino, Latino(a,e), and other communities of color identified in Cultural Districts or other community-led processes within Priority Equity Geographies.
4.2.11 - Medium, Ongoing	Community Planning	Simplify language used in project notifications and hearing notices with the aim of clearly communicating a project's proposal or the topic of the hearing. Pursuant to the Language Access Ordinance, continue to provide translation services at commission hearings and for hearing agendas and minutes upon request. Aim to translate at least crucial portions of notifications, such as the project descriptions or hearing topics, into languages that comprise 5% or more of the total city population.
4.4.2 - Short	Cultural Districts	Update the Planning Code and Planning Department protocols where necessary to reflect strategies developed in Action 4.2.1, this includes updating Planning Department requirements to require project sponsors to engage with interested Cultural Districts to allow these communities to provide input upon initiation of a project application and to allow the project sponsor adequate time to address the input through dialogue or project revisions.
4.4.4 - Medium	Cultural Districts	Ensure Cultural Districts and their CHHESS reports guide culturally supportive housing developments, affordable housing investments, and neighborhood investments in coordination with Program 5.2.
4.5.1 - Short	Cultural Heritage and Expression	Improve consultation with local Native Ohlone representatives, including the Association of Ramaytush Ohlone representatives, and American Indian residents in policy development and project review regarding tribal and cultural resource identification, treatment, and management while compensating them for their knowledge and efforts. Improvements should include commissioning the development of community-led, culturally relevant guidelines for identifying and protecting tribal and cultural resources and identifying funding sources for cultural resource identification, treatment and management.
4.5.5 - Short	Cultural Heritage and Expression	Designate historically and culturally significant buildings, landscapes, and districts for preservation using the Citywide Cultural Resource Survey, Planning Code Articles 10 and 11, and state and national historic resource registries to ensure appropriate treatment of historic properties that are important to the community, with a focus on those that are important to American Indian, Black, Japanese, Filipino, and other communities directly harmed by discriminatory government actions, and to unlock historic preservation incentives for more potential housing development sites.
4.5.12 - Short	Cultural Heritage and Expression	Consider the effects on housing in balance with the Planning Department's racial and social equity goals for any recommendation of approval, disapproval, or modification of landmark designations or historic district designations, or approval of substantive new review processes or requirements for historic resources.
5.1.6 - Long	Truth-telling and Acknowledging Past Harm	Report on the cumulative impacts to San Francisco's American Indian, Black, and other communities of color resulting from discriminatory practices and government actions as understood from the studies called for in Program 5.1 and Actions 5.1.1 through 5.1.5 to present a holistic view of the harms incurred and redress the harms comprehensively. Provide annual updates on new displacement trends and patterns and expand resources and programs to

		reverse negative trends.
5.2.1 - Short	Cultural Investment and Restitution	In recognition of the dispossession of American Indians of their ancestral lands, identify opportunities to give land back for traditional cultural and ceremonial uses and to invest in spaces for the American Indian community to participate in traditional cultural practices and convene community gatherings.
5.2.2 - Short	Cultural Investment and Restitution	In recognition of the disproportionate loss of Black residents from San Francisco in recent decades resulting in part from a culmination of discriminatory government actions, identify opportunities to donate or dedicate land for use or development by Black-led, community-serving organizations.
5.2.3 - Short	Cultural Investment and Restitution	Fund the development and implementation of community-led strategies in Cultural Districts to retain and grow culturally associated businesses and services that attract residents back to the area.
5.2.4 - Short	Cultural Investment and Restitution	Recognize spaces of cultural importance identified by American Indian, Black, Japanese, Filipino, and other communities directly harmed by discriminatory government actions in community planning and regulatory review for development projects, consult them in decisions affecting those spaces, and direct resources towards their preservation and management.
5.2.5 - Medium	Cultural Investment and Restitution	Fund the development of cultural spaces that serve communities harmed as described under Program 5.2, using potential new funding sources such as the mitigation fund referenced under Action 4.5.4 or community facilities fees.
5.2.6 - Short	Cultural Investment and Restitution	Prioritize businesses and non-profit organizations associated with American Indian, Black, Japanese, Filipino, and other communities directly harmed by discriminatory government actions for grant funding and technical assistance through the Legacy Business Program.
5.3.1 - Medium	Fair Housing Compliance and Enforcement	Evaluate and identify common cases of discrimination and violation of fair housing law and groups who continuously face such discrimination, including transgender and LGBTQ+, or people with disabilities, and implement solutions to strengthen enforcement of fair housing law in those cases.
5.3.2 - Short	Fair Housing Compliance and Enforcement	Amend the City's Fair Chance Ordinance to incorporate best practices to expand housing access for people with criminal records to privately owned units, Housing Choice Voucher units, and other federally funded units.
5.3.3 - Short	Fair Housing Compliance and Enforcement	Create and expand incentives for private landlords to use rental assistance programs (e.g., Housing Choice Vouchers) to rent their units to extremely and very low-income households. Incentives could include covering lease up fees, rent payment during the inspection period, providing tenant support for housing retention, and covering unit damage upon separation, as well as establishing a fund to support these incentives.
5.4.1 - Short	Housing Programs to Redress Harm	Prioritize American Indian residents for housing opportunities to redress the historic dispossession of resources affecting these communities, such as by the Indian Relocation Act, and other government actions that broke the cohesion of this community.

5.4.2 - Medium	Housing Programs to Redress Harm	Establish pilot and permanent programs that offer homeownership opportunities targeted to Black households harmed through redlining or urban renewal or other forms of systemic racism related to housing, including Black individuals and their descendants who hold Certificates of Preference from the urban renewal period, as referenced in Actions 5.4.8 and 5.4.9. Building on the Dream Keeper initiative, such programs should include silent second loans or grants for down payment assistance, as well as other financial assistance to reduce income eligibility as a barrier to access homeownership opportunities.
5.4.4 - Short	Housing Programs to Redress Harm	Target increased investment in the Down Payment Assistance Loan Program to American Indian, Black, Japanese, Filipino, and other communities directly harmed by redlining or urban renewal or by other discriminatory government actions.
5.4.5 - Medium	Housing Programs to Redress Harm	Implement right to return legislation for residents of public housing including opportunities to those previously displaced.
5.4.6 - Medium	Housing Programs to Redress Harm	Pursue expanding and modifying the shared equity homeownership and land trust models to address their effectiveness and scalability, including capacity and expertise of community-based organization to manage and support such projects, to serve communities harmed by past discrimination. Use the findings of the study referenced in Action 2.3.4 to inform expansion of these models.
5.4.7 - Short	Housing Programs to Redress Harm	Create and pilot programs to increase access to Affordable Rental and Homeownership units and other housing services as redress for American Indian, Black, Japanese, Filipino, and other communities directly harmed by past discriminatory government actions including redlining, urban renewal, the Indian Relocation Act, or WWII Japanese incarceration. Programs should be informed by the truth-telling processes described in Program 5.1.
5.4.8 - Short	Housing Programs to Redress Harm	Expand the Certificates of Preference program as required per recent State Law, Assembly Bill 1584 (Health and Safety Code, SEC 13 – 16), to qualify eligible descendants of those displaced by redevelopment projects for priority in renting or buying affordable housing. Conduct comprehensive outreach and engagement to identify the descendants of households who have been displaced. Expanding this program should rely on strategies that ensure such units meet the preferences and needs of eligible households as informed by Action 5.4.9.
5.4.9 - Short	Housing Programs to Redress Harm	Conduct a study to engage with Certificates of Preference holders and their descendants to identify their housing needs, preferences, and income levels and create a tracking system to better monitor who has obtained or declined affordable rental and homeownership opportunities and why.
5.4.10	Housing Programs to Redress Harm	Expand and fund community capacity to implement housing programs and investments for American Indian residents as one strategy to redress the historic dispossession of resources affecting these communities, such as the Indian Relocation Act, and other government actions that broke the cohesion of this community.
6.1.1 -	Families With	Pursue multi-generational living for extended families and communal households

Long	Children	that have space and amenities for children, working-age adults, seniors and persons with disabilities, when building permanently affordable housing or cooperative housing referenced in Action 1.6.1.
6.1.2 - Short	Families With Children	Establish programs to assist extremely low and very low-income families with children to relocate from SROs and overcrowded living conditions to appropriate permanently affordable housing.
6.1.3 - Medium	Families With Children	Encourage family-friendly housing, which could include higher numbers of two- or three- bedroom units, units that are affordable to a wide range of low- to middle-income households, and child-friendly amenities such as playgrounds, on-site childcare, or designated childcare units.
6.1.4 - Ongoing	Families With Children	Continue to require multi-bedroom unit mixes.
6.2.1 - Short	Transgender and LGBTQ+ People	Study and identify programs that respond to the needs of transgender and LGBTQ+ groups, particularly those who are refugees, lack family connections, or previously incarcerated, to incorporate into permanently affordable housing investments that are concentrated in the neighborhoods where they have historically found community, such as the Castro for LGBTQ+ communities or the Tenderloin for transgender people of color, building upon research spearheaded by the Castro LGBTQ Cultural District.
6.2.2 - Medium	Transgender and LGBTQ+ People	Support and fund the implementation of San Francisco's "Ending Trans Homelessness Plan," as well as the ongoing housing placement for the transgender community, in recognition of the severe disparities in housing access and safety experienced by this group.
6.3.1 - Short	Seniors and People with Disabilities and Chronic Illness	Expand the Senior Operating Subsidy (SOS) program to allow extremely and very low-income seniors to be eligible for new senior Below Market Rate rental units.
6.3.2 - Long	Seniors and People with Disabilities and Chronic Illness	Increase permanently affordable senior housing along transit corridors to improve mobility of aging adults and seniors, particularly for extremely and very low-income households including through expansion of Senior Operating Subsidies as referenced in Action 6.3.1.
6.3.3 - Short	Seniors and People with Disabilities and Chronic Illness	Create or support financing programs that support aging in place, including improvements to accessibility through home modifications or building ADUs, and supported by technical assistance programs referenced in Action 8.2.2.
6.3.6 - Short	Seniors and People with Disabilities and Chronic Illness	Strengthen interagency coordination to identify and implement strategies to address the housing needs of seniors and people with disabilities, informed by the Housing Needs Assessments referenced in Action 6.3.7.
6.3.9 - Short	Seniors and People with Disabilities and Chronic Illness	Explore a Disabled Operating Subsidy (DOS) program to allow extremely and very low-income people with disabilities better access to permanently affordable housing units.

7.4.3 - Short	Accessory Dwelling Units (ADUs)	Create an affordable ADU program that provides financial support for professional services and construction of units that serve low-income households.
8.1.10 - Medium	Cost and Fees	By January 2026, the Interagency Housing Element Implementation committee (see Action 4.1.4) will assess if the City has approved the appropriate housing units by income level to meet the RHNA goals. If the City is behind the pro rata affordable housing production goals the Interagency Housing Element Implementation committee should trigger: Increase of additional City funding for affordable housing and pursuit of additional State funding. Increase the land banking strategy to accommodate 50 percent more affordable housing units than the capacity of the sites acquired from 2022 through 2025 The City will implement these actions in consultation with HCD.
8.4.21 - Short	Process and Permit Procedures	Led by American Indian, Black, other communities of color, and Cultural Districts, explore options to support community engagement as part of ministerial review to simplify and shorten the approval process for housing projects citywide. All considered options must not add subjective constraints to the housing approval process and must reduce project approval timelines.
8.6.2 - Short	Support for Affordable Housing and Shelters	Utilize and comply with the state-wide streamlining opportunities to expedite and increase the production of Permanent Supportive Housing. Continue the non discretionary approval of Supportive Housing projects in accordance AB 2162 and of all shelters, including Low Barrier Navigation Centers, in accordance with AB 101.
8.6.4 - Medium	Support for Affordable Housing and Shelters	Remove requirement for General Plan referrals for shelters, 100% affordable housing, permanent supportive housing, and development agreement projects.
8.6.7 - Short	Support for Affordable Housing and Shelters	Strengthen the interagency coordination to streamline the requirements for the associated approvals for publicly funded affordable housing by creating a public inventory of all such approvals, establishing a baseline process and expected duration for each approval, and ensuring clear project management; examples of associated approvals include the PG&E requirements to accommodate Public Utilities Commission (PUC) low-cost electric service, or the multi-agency review of disability access to reduce per-unit construction costs.
8.6.10 - Short	Support for Affordable Housing and Shelters	Streamline plan checks, response to revisions, and field inspection process to support and reduce review time from the Mayor's Office of Disability by 20% for 100% affordable housing projects.
8.6.14 - Medium	Support for Affordable Housing and Shelters	Expand use of third-party consulting peer review of construction documents on publicly subsidized 100% affordable housing projects, in addition to continuing to maintain staff experts on affordable housing project review and assigning them to affordable housing projects.
8.6.16 - Medium	Support for Affordable Housing and	Expand nonprofit project management capacity, especially focused on areas of the city that have not seen much affordable housing development and where there are few or no community based affordable housing developers.

SPEAK Sunset Parkside Education & Action Committee

July 17, 2023

To: City and County of San Francisco Decision Makers - 1 Dr Carlton B Goodlett Pl, San Francisco, CA 94102

Re: **OPPOSE** Engardio-Breed-Dorsey "Constraints Reduction Ordinance" ("Housing Production") **File #230446** and **OPPOSE** Melgar-Engardio "Family Housing Opportunity Special Use District Ordinance" **File #230026**

Dear San Francisco Decision Makers:

The undersigned environmental, housing, economic justice, community, and climate crisis response organizations write to voice our strong opposition to the Engardio-Breed-Dorsey "Constraints Reduction" and the Melgar-Engardio "Family Housing Opportunity Special Use District" ordinances. They would enact drastic and sweeping exceptions to San Francisco's

environmental and community review of real estate projects and would undermine health, environmental, economic and neighborhood protections. The Engardio-Breed-Dorsey “Constraints Reduction Ordinance” (aka “Housing Production Ordinance”) contains massive unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called “affordable” when most of that housing would be for families making \$150,000 to \$190,000 per year! The Melgar-Engardio “Family Housing Opportunity Special Use District Ordinance” unacceptably waives nearly all environmental and community review for housing expansions in its large target project area to allow sweeping height increases, project design exemptions, open space requirement reductions, and condo conversions that will remove badly needed affordable rental housing! Together these ordinances would worsen:

- **The Unaffordable Housing Crisis** - These ordinances promote building new high priced housing that is *not* affordable, and condo conversions that displace rental housing. It is ridiculous that the Engardio-Breed-Dorsey ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year “affordable”. We already have a 50% *oversupply* of housing for those income levels! And the Melgar-Engardio ordinance relies on existing “affordable” standards that are not working and have already allowed gentrification to destroy San Francisco neighborhoods.
- **The Homelessness Crisis** - The gentrification spurred by these ordinances would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 40,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - These ordinances would gut environmental and community review protections and would establish “Urban Renewal” style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared “cleaned up”).
- **The Climate Crisis** - These bills are bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing *more* greenhouse gases, not less.

These ordinances would build housing for the wealthy, create more homelessness, and are an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN these unacceptable corporate attacks on San Francisco's environmental, economic, cultural, and community integrity!

Subject: Encouraging Your Support for Ordinance 230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am writing to express my strong support for Ordinance 230446 and to encourage you to vote in favor of its passage. This legislation presents a critical opportunity to remove numerous barriers that have been hindering the construction of new housing in our beloved city of San Francisco. As a Junior project manager working and living in San Francisco I have experience firsthand the ways in which the current planning review process has SEVERLY impacted the timeline of projects. Under this new legislation, projects that were previously held up for 2-5 years could be streamlined and completed through over the counter review in a matter of months. This is an imperative change if

San Francisco is to meet its goal of 82,000 new units in the next 8 years.

As you are aware, San Francisco is facing a severe housing crisis, with an acute shortage of affordable and available homes. This crisis has led to increased homelessness, displacement, and a diminishing sense of community. It is essential that we take swift and decisive action to address this issue, and Ordinance 230446 is a step in the right direction. By streamlining the permitting process and removing unnecessary red tape, this ordinance would pave the way for more efficient and timely development of new housing units. It aims to tackle the bureaucratic hurdles and burdensome regulations that have contributed to delays, higher costs, and limited housing supply. By doing so, we can encourage the construction of more homes, both affordable and market-rate, to meet the diverse needs of our residents.

I kindly request that you carefully consider the impact and potential benefits of Ordinance 230446 and lend your support to its passage. Your vote will not only be a catalyst for positive change but also a testament to your dedication to serving the best interests of our community. I trust in your wisdom and leadership to make the right decision for the future of San Francisco.

Thank you for your time and attention to this matter. I look forward to hearing about your support for Ordinance 230446 and witnessing the positive impact it will have on our city.

Sincerely,

Keegan Clark

Re: Project Name: Constraints Reduction (AKA Housing Production)
Case Number: 2023-003676PCAMAP
Board File No. 230446
By Mayor Breed

Dear San Francisco Board of Supervisors,

AIA San Francisco Public Policy and Advocacy Committee are writing to express our support for the proposed 'Housing for All' ordinance.

We commend the efforts made under the 2022 Housing Element Update, which focuses on racial and social equity, to address San Francisco's housing challenges. With a state-mandated goal of constructing 82,000 housing units within the next eight years, this plan aims to provide diverse housing options that strengthen our communities and improve overall affordability and diversity.

The 'Housing for All' ordinance aligns with several policies outlined in the Housing Element. It specifically targets the removal of obstacles that hinder housing construction, especially based on subjective criteria. The proposed changes include process improvements, development standards modifications, and expanded housing development incentives throughout the city. Implementing these changes will offer diverse housing options for all residents of San Francisco, thereby expanding affordability and opportunity.

Process Improvements:

The ordinance introduces several changes to eliminate costly and time-consuming requirements that impede housing construction and increase costs. We can save valuable time and resources by exempting code-compliant projects from certain processes like Conditional Use permits, the 311 process, and public hearings for projects outside the Priority Equity Geographies SUD. Additionally, allowing "as of right" development for heights and large lot projects, streamlining the approval of State Density Bonus Projects, enabling senior housing development wherever housing is permitted, and providing administrative approval for reasonable accommodations will further facilitate housing construction.

Development Standards:

The proposed ordinance brings about standardization and changes in development standards to foster creativity and high-quality housing. Consolidating rear yard requirements, reducing front setbacks, and adjusting minimum lot widths and areas will allow for greater flexibility in designing housing that meets the higher densities mandated by the Housing Element. Other changes, such as allowing open space in specific locations and reevaluating street-facing ground floor uses, will contribute to a more inclusive and vibrant urban environment.

Expand Affordable Housing Incentives:

The ordinance includes code changes that simplify the process of building affordable housing. Expanding fee waivers for all 100% affordable projects, broadening the eligibility for Home SF, and removing restrictions on eligibility requirements will increase the availability of affordable units to individuals with modest incomes. These measures will help address San Francisco's pressing need for affordable housing options.

We can expand housing options for all San Francisco residents by passing the 'Housing for All' ordinance. The correlation between supply and demand is undeniable, and the lack of adequate housing significantly contributes to the city's high cost of living. Private market-driven housing construction, with limited public subsidies, is the foundation of housing in San Francisco, the state, and the entire country. Streamlining the process and allowing developers to increase density will reduce construction costs per unit, ultimately benefiting renters and homeowners.

Higher density in our neighborhoods will promote stronger communities as it increases the number of individuals actively observing and engaging with their surroundings. Moreover, a denser population in our neighborhood commercial districts will create opportunities for residents to successfully launch and operate small retail businesses, surpassing the impact of mandated ground-floor retail spaces.

Expanding the inventory of housing options in San Francisco will foster greater neighborhood diversity, provide better housing opportunities for vulnerable populations, and contribute to a thriving city culture where everyone can flourish.

We urge the Land Use Committee and the Board of Supervisors to approve the "Housing for All" ordinance. Together, we can create a more inclusive and affordable housing landscape for all residents of San Francisco.

Respectfully submitted,

AIA San Francisco Public Policy and Advocacy Committee

Supervisors:

re: Opposition to Engardio-Breed-Dorsey "Constraints Reduction Ordinance" # 230446

There is a lot the Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") # 230446 does and doesn't do that is concerning to those of us who are familiar with it. Unfortunately, it has not had a lot of covering in the press. Thanks to the sudden appearance of the 50 story renderings of the 2700 Sloat project more people are taking notice and they do not like what they see. People who might have appreciated a little extra density are horrified and disturbed by the sudden third finger in the air at the beach. Please do not pass Ordinance # 230446 at the Land Use Committee.

There are a lot of questions that remain unanswered about how this Ordinance will help produce housing and where the funds will come from.

What we do know:

- Increasing density does not make housing more affordable.
- Cities do not build housing. Developers do and only when they can realize a large profit from doing so.
- This Ordinance allows demolition without notice to neighbors, and gives property owners more incentives to empty their buildings.
- The Ordinance eliminates Conditional-Use hearings and opportunities for neighbors and the Planning Commission to improve the projects.
- There is no guarantee that any of these projects will be affordable or that they will be built any time soon.
- Current economic conditions with declining property values, high labor rates and materials costs are not attracting investors.
- Demolishing buildings creates a huge amount of solid waste and we are running out of room to put it.
- Nothing in this ordinance will build the already entitled units or fill the empty units.
- The most affordable housing is existing housing.

- Very few people are aware of the Ordinance that could have a major effect on their lives.

What we don't know:

- How to protect the affordable housing units we have from demolition.
- How to protect tenants from being evicted.
- How to administer a right to return program.
- How to protect affordable units from Ellis Act evictions or owner buy-outs.
- Where the money will come from to build affordable housing.

Please do not pass Ordinance # [230446](#) at the Land Use Committee.

Sincerely,

Mari Eliza, Concerned SF Citizen, zrants@gmail.com

Unfortunately, it has not had a lot of covering in the press. Thanks to the sudden appearance of the 50 story renderings of the 2700 Sloat project more people are taking notice and they do not like what they see. People who might have appreciated a little extra density are horrified and disturbed by the sudden third finger in the air at the beach. Please do not pass Ordinance # 230446 at the Land Use Committee.

There are a lot of questions that remain unanswered about how this Ordinance will help produce housing and where the funds will come from.

What we do know:

- Increasing density does not make housing more affordable.
- Cities do not build housing. Developers do and only when they can realize a large profit from doing so.
- This Ordinance allows demolition without notice to neighbors, and gives property owners more incentives to empty their buildings.
- The Ordinance eliminates Conditional-Use hearings and opportunities for neighbors and the Planning Commission to improve the projects.
- There is no guarantee that any of these projects will be affordable or that they will be built any time soon.
- Current economic conditions with declining property values, high labor rates and materials costs are not attracting investors.
- Demolishing buildings creates a huge amount of solid waste and we are running out of room to put it.
- Nothing in this ordinance will build the already entitled units or fill the empty units.
- The most affordable housing is existing housing.
- Very few people are aware of the Ordinance that could have a major effect on their lives.

What we don't know:

- How to protect the affordable housing units we have from demolition.
- How to protect tenants from being evicted.
- How to administer a right to return program.
- How to protect affordable units from Ellis Act evictions or owner buy-outs.
- Where the money will come from to build affordable housing.

Please do not pass Ordinance # [230446](#) at the Land Use Committee.

Sincerely,

Mari Eliza, Concerned SF Citizen, zrants@gmail.com

Dear Supervisors,

Please see the attached communication regarding File No. 230446.

File No. 230446 - Ordinance amending the Planning Code to encourage housing production by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity

Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

Re: Streamlining Legislation
"Constraints Reduction AKA Housing Production Ordinance [BF 230446]
Planning Case Number 2023-003676PCAMAP
Legislative File #230446

Dear President Tanner, Vice President Moore, and Planning Commissioners

Chinatown Community Development Center (CCDC) is a nonprofit community based organization providing affordable housing for low income tenants across San Francisco with decades long experience in community engaged planning in the Chinatown area.

Young Community Developers (YCD) is a Black-led nonprofit that has served the

historically under-resourced Black community in San Francisco's Bayview-Hunters Point for over 50 years.

Tenderloin People's Congress is an all volunteer, grassroots resident advocacy group since 2015.

We write to express our concerns regarding the Planning Department's apparent lack of consideration of the potential adverse social, economic, and equity impacts of the proposed Planning Code and Zoning Map Amendments, particularly in relation to their impacts on the Priority Equity Geographies (PEGs)¹.

We had previously looked forward to the Department's analysis of the Mayor's proposal given the Department's extensive technical and research capacity to provide neighborhood and parcel level assessment of impacts and outcomes. But the Executive Summary offers no such analysis specific to Priority Equity Geographies aside from a map of the outline of the areas. While the Department extensively extolls its previous attention to equity areas in the drafting for the Housing Element, the Executive Summary does not even summarize the extent to which the proposed policy changes impact Priority Equity Geographies. This lack of consideration of the areas of the City where a majority of lower-income communities of color reside is both disappointing and troubling.

Unless that omission is corrected, the absence of specific analyses of impacts on Priority Equity Geographies will make it impossible for this Commission to adopt informed findings or recommendations to address or mitigate the impacts of the proposal.

Based upon our own reading of the legislation, the proposal appears to change multiple policies impacting thousands of residential, commercial, and mixed-use sites in the Priority Equity areas such as the Mission, Chinatown, Tenderloin, SOMA, Bayview, Excelsior, and others. These changes include:

- Development on large lots: Eliminates Conditional Use hearings ("CU") for construction on larger parcels in RH, NC, and Chinatown Mixed-Use Districts (Staff Report, pg. 7).
- Allowable Heights: Eliminates CU hearings for height in districts where hearings are currently required in RH, RM, RC and certain NC Districts (Staff Report, pg. 7).
- State Density Bonus: Eliminates hearings for projects using the State Density Bonus given that State law prevents the Planning Commission from denying or modifying a State Density Bonus project (Staff Report, pg. 8).
- Group Housing: Permits Group Housing in RH-1 zoning districts via the four-plex program and removes the conditional use requirement for Group Housing in RH-2 and RH-3 zoning districts (Staff Report, pg. 13).

Likely unanalysed impacts:

- Without any affordability requirements, these provisions incentivize upscale market-rate developments, taking away the opportunity for much-needed affordable housing projects to be built, particularly in historically low-income neighborhoods within PEGs. CUs are one of the few tools for communities to become aware of and weigh in on potential impacts of developments in their neighborhoods including the loss of

rent-controlled units, community-serving businesses, open spaces, etc.

- Allowing Group Housing by-right negates the years of work that communities within Priority Equity Geographies like Chinatown and Tenderloin have done to discourage Group Housing Projects that incentivize luxury studios and smaller apartments aimed at young professionals and single adults instead of more family-friendly housing, changing the character of low-income, immigrant, and people of color neighborhoods.

With each of these changes, the communities in this city which have been most adversely impacted by gentrification, displacement, and disempowerment will have less opportunity to speak out and have a voice in future market driven development in what remains of their neighborhood.

And while the Executive Summary repeatedly and extensively claims that such market driven development will produce new housing development for everyone, there is not a single chart, paragraph, or data point that is offered that establishes that the housing that will be developed in the Priority Equity Geographies will be affordable to the people who need the housing in those neighborhoods. With limited remaining sites available for new developments in Priority Equity Areas, streamlining of public process makes these limited sites prime targets for market-rate upscale projects. This increased competition from non-affordable projects directly undermines the pressing need for affordable housing in these neighborhoods and risks perpetuating gentrification and further displacement.

Furthermore, while we appreciate the legislation for maintaining residential demolition controls within the PEG-SUD, we believe that the Executive Summary completely lacks discussion or analysis on the impacts that this streamlining legislation will have on incentivizing demolitions of non-residential uses including community-serving retail, restaurants, cultural institutions, banquet halls, and other businesses and services, particularly in mixed-use districts of PEGs. These community-serving commercial establishments are integral to the fabric of these neighborhoods, and it is essential to examine both impacts simultaneously. While housing stability is undoubtedly crucial, access to jobs, local businesses, and community-based services is equally vital for the holistic well-being of low-income communities.

Unfortunately none of the above described foreseeable adverse impacts of the proposal as written were identified or addressed by the Planning Departments' Executive Summary -- the only publicly provided analysis of the proposed legislation. We urge the Commission to delay a decision until we receive a comprehensive analysis of the potential consequences of the proposed amendments on Priority Equity Geographies. This analysis should consider the impacts on both residential and non-residential demolitions, taking into account the unique character and needs of these neighborhoods. Additionally, an assessment of the cumulative effects of the amendments, along with the existing Housing Element Actions, is necessary to comprehend the broader implications of these policy changes.

Furthermore, considering the existence of at least four legislative proposals for Housing Element implementation², we urge the Planning Staff to evaluate the cumulative impacts of all these proposals as per the Housing Element Project EIR, ensuring a comprehensive understanding of their combined effects on the proposed Priority Equity Geographies SUD.

We also want to highlight that we appreciate the legislation for expanding fee waivers to more 100% affordable housing projects, as well as providing greater housing choice for seniors by allowing double density in additional zoning districts but these positive reforms could be considered as stand alone measures or along with land use policies that also recognize other needs in Priority Equity Geographies.

In conclusion, we strongly urge the Planning Commission to continue the hearing of Mayor Breed's streamlining legislation to allow for a re-evaluation of impacts by Planning Staff as well as comprehensive public review and comment. The lack of analysis, community engagement, and clear communication regarding the potential impacts of this legislation necessitates a more robust and transparent process.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear President Tanner and Planning Commissioners,

Re: The Constraints Reduction Act: Planning Code and Zoning Map Amendments

2023-003676PCAMAP

I urge the Commissioners to recommend setting aside this proposed legislation in order to replace it with a more considered, and compliant, Two-Stage process.

As one of four bills (so far) to implement the Housing Element and State laws, this proposal serves as the core. And it is a massive, overstuffed Pandora's box of code and zoning changes, accompanied by an outdated and unexamined map. All of which bypass the stated priorities of the Housing Element and the Board of Supervisors-- for equity and affordable housing.

However, there IS a way to meet state mandates for streamlining and rezoning, while abiding by our own priorities. With the roll-out of previous individual bills we see that the State does not dictate a massive overhaul all at once in the same bill.

Thus, in the interests of city priorities, equity, fairness, common sense, and fulfillment of the city's Number One need, the way forward should be to replace the "Constraints" proposal with two separate pieces of code and zoning implementation legislation.

There is no immediate reason to rush into offering more benefits to expensive market rate housing developers, when San Francisco has a known record of overbuilding it. We've already stockpiled a huge surplus of vacant market rate units. Many developers have said their major projects won't "pencil out" until affluent workers able to pay market rents and prices return.

But there are 46,000 reasons to immediately start to smooth the way for 100 per cent affordable housing developments. That whopping number is the total affordable units San Francisco is required to build by the State-imposed RHNA's.

As currently written, the Constraints Reduction proposal is an unregulated do-it-yourself kit for developers to put together high-rent, high-price condo projects that will only benefit

investors. It is a campaign to put the fox in charge of the henhouse. Meanwhile, there is no money; no plan or commitment for affordable housing in this legislation except a few hazy promises.

High-end market rate housing does not empty our tents; it does not insure stable homes for seniors and others on fixed incomes; it offers no hope for the families of our essential workers. This legislation is based on the bankrupt idea that affordability comes from expanding market rate housing. It is a continuation, on steroids, of the disastrous policies that enabled the rising rents which pushed our people into homelessness and exile.

In this legislation, the Mayor continues to sidetrack affordable housing production into a vague, undefined future... guided by a committee whose only task is to issue a report...in 2024.

Also please consider that “fair housing” is a stated goal in both in the Housing Element and in this legislation. But you won’t find in them an understanding that there can be no fair housing without affordable housing. Affordable housing IS fair housing. And there is no fairness about housing that most San Franciscans can’t afford. What good is greater access to new housing in better-resourced areas, if it’s priced beyond most people’s budgets? There is also no fairness if residents are dispossessed and disenfranchised by excluding their voices in planning projects that upend their lives...and certainly no fairness in removal of demolition restrictions, and inadequate solutions for its impacts.

Proponents of this legislation claim it’s merely a mandatory response to bring San Francisco into compliance with the demands of state law. It’s also alleged that we have no choice but to obey. But there are choices available. For example, someone chose to accelerate the timeline, and chose, in this legislation, that for every change the state requires...the city should go one better. And keep in mind, however, the “Constraints” legislation and the other “implementation” bills do not collectively offer, as the Planning Dept. deceptively implies, a plan where affordability is a choice open to all.

But despite all the mandates, it’s still up to us to choose in what order we do things. So why not begin with implementing incentives only for affordable housing? We really can’t create enough affordable housing unless the city puts it ahead of all other goals and follows up with adequate (read enormous amounts of) money and commitment. That commitment came into question just this week, with the proposal to reduce inclusionary housing requirements in new construction. The Inclusionary program accounted for a third of the affordable units built in the last ten years.

So I recommend putting forth at this time, only a First Stage ordinance for code and zoning changes. Create an Affordable Housing Implementation Act. It would limit streamlining, generous incentives, and zoning exceptions only to those who’ll deliver the 100 per cent housing we need. We must then back this up with enough funds for the affordable developer’s projects, and for landbanking and preservation of existing affordable housing.

To mitigate hardships, add unequivocal support for community notification and input at the very beginning of every project application. Keep CUA. Put teeth in an anti-displacement program by guaranteeing specific expanded protections, including rent control for every replacement unit. Declare hands-off every block in the Priority Equity Geographies, especially in any PEG areas that overlap High Resource Areas. And commit to investing enough money in the PEG areas to assure they will be just as “high-resourced” as the Westside, Pacific

Heights and the northern waterfront. Why should PEG residents have to move from their generational homes in order to enjoy great schools, transit, and infrastructure?

Assistance for market rate developers can be addressed in a Second Stage of code and zoning implementation legislation. After making significant progress toward building those mandated 46,000 affordable units, the city could open up streamlining and incentives for other developers if needed. Who knows...if high-income workers have flooded back into San Francisco by then, as is likely, San Francisco might have already met its RHNA goals for market rate housing. Then, instead of having to destroy its policies of community collaboration, the city could work on improving them.

And finally...just for the record: People should never be diminished or demeaned by labeling their voices as “Constraints.” Our voices, along with those of Planning Commissioners, Supervisors and the City of San Francisco itself, must not be denied. All of us have a Constitutional right to participation in the making of rules and the processes that govern our lives.

Thank you for your consideration.

Lorraine Petty, affordable housing and tenant advocate for seniors and people with disabilities.

**Re: Streamlining Legislation Titled "Planning Code, Zoning Map - Housing Production"
Legislative File #230446**

Dear Aaron and Veronica,

The legislation referenced above is on the Planning Commission's advance calendar for June 15, 2023. This is extremely complex, technical legislation that requires extensive review and cross-referencing of multiple sections of the Planning Code.

We are eagerly looking forward to Planning's Staff Report on this item to help our understanding of all the ramifications of this legislation. We are concerned, however, that the Staff Report will not be published until just one week prior to the hearing- because this is unfortunately the pattern that Planning has been following.

The Race & Equity in all Planning Coalition (REP-SF) requests that the Staff Report for this legislation be made available to Planning Commissioners and to the public at least two weeks prior to the Planning Commission hearing on this legislation. This would mean publication of the Staff Report this Thursday, June 1.

If it is not possible for staff to publish their report by or before this Thursday, June 1, REP-SF requests that the hearing be postponed to a date that is at least two weeks after the actual publication date of the Staff Report.

Thank you for your consideration of this request.

Respectfully submitted,

The Race & Equity in all Planning Coalition, San Francisco (REP-SF)

Re: Streamlining Legislation Titled "Planning Code, Zoning Map - Housing Production"
Legislative File #230446

Dear Aaron and Veronica,

The legislation referenced above is on the Planning Commission's advance calendar for June 15, 2023. This is extremely complex, technical legislation that requires extensive review and cross-referencing of multiple sections of the Planning Code.

We are eagerly looking forward to Planning's Staff Report on this item to help our understanding of all the ramifications of this legislation. We are concerned, however, that the Staff Report will not be published until just one week prior to the hearing- because this is unfortunately the pattern that Planning has been following.

The Race & Equity in all Planning Coalition (REP-SF) requests that the Staff Report for this legislation be made available to Planning Commissioners and to the public at least two weeks prior to the Planning Commission hearing on this legislation. This would mean publication of the Staff Report this Thursday, June 1.

If it is not possible for staff to publish their report by or before this Thursday, June 1, REP-SF requests that the hearing be postponed to a date that is at least two weeks after the actual publication date of the Staff Report.

Thank you for your consideration of this request.

Respectfully submitted,

The Race & Equity in all Planning Coalition, San Francisco (REP-SF)
