[Treasure Island/Yerba Buena Island - Street and Public Infrastructure Acceptance - Establishing Official Sidewalk Widths and Street Grades]

Ordinance accepting irrevocable offers of public infrastructure associated with the Treasure Island/Yerba Buena Island Project, Sub-Phases 1B, 1C, 1E, 1YA, and 1YB, including improvements located within portions of Avenue of the Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden Walk, Johnson Street, Seven Seas Avenue, Trade Winds Avenue, and Treasure Island Road on Treasure Island; Macalla Road, Signal Road, Treasure Island Road, and Yerba Buena Island Road on Yerba Buena Island; potable water storage tanks on Yerba Buena Island and electrical substructures serving a switchyard on Treasure Island; and City utilities in private streets and a service maintenance road on Yerba Buena Island; dedicating this infrastructure to public use; designating this public infrastructure for street and roadway purposes as applicable; accepting the public infrastructure for City maintenance and liability purposes, subject to specified limitations; establishing official public right-of-way widths and street grades; amending Ordinance No. 1061 entitled "Regulating the Width of Sidewalks" to establish official sidewalk width on the abovementioned streets; delegating limited authority to the Public Works Director to accept specified infrastructure; adopting findings under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1; accepting a Public Works Order recommending various actions in regard to the public infrastructure improvements; and authorizing official acts, as defined herein, in connection with this Ordinance.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Background and Findings.

(a) The City and County of San Francisco (the "City") created the Treasure Island Development Authority (the "Authority") in 1997 to serve as the entity responsible for the reuse and development of Naval Station Treasure Island, which encompasses Treasure Island (also referred to as "TI") and portions of Yerba Buena Island (also referred to as "YBI").

(b) On June 28, 2011, the Authority and Treasure Island Community Development, LLC ("Developer") entered the Disposition and Development Agreement (the "Treasure Island/Yerba Buena Island DDA" or "DDA"). On the same date, the City and Developer entered a Development Agreement (the "DA"). The Board of Supervisors approved the DA in Ordinance No. 95-11, Clerk of the Board of Supervisors File No. 110226. Ordinance No. 95-11 and related DA documents and approvals are on file with the Clerk of the Board and incorporated by reference in this ordinance.

(c) The DA, DDA, and the Special Use District in Planning Code Section 249.52 contemplate a project (the "Project") on Treasure Island and Yerba Buena Island that includes up to 8,000 units of housing, 140,000 square feet of commercial and retail space, 100,000 square feet of office space, and up to approximately 300 acres of parks and open space, a ferry terminal, new and upgraded streets, and extensive bicycle, pedestrian, and transit facilities. Under the DA, the DDA, the Special Use District, and related Project documents, Developer is responsible for construction of public improvements within the Project, and the Authority or the City, as applicable, will accept and maintain the public improvements when the Developer completes them in accordance with City-approved plans and specifications.

1 (d) As part of implementation of the Project, the Board of Supervisors has approved
2 several final subdivision maps providing for the development of portions of the Project site,
3 each accompanied with a specific Public Improvement Agreement (“PIA”) under which the
4 Developer or its assigns agreed to construct public improvement infrastructure required by the
5 DDA, such as roads and park and open space facilities, and to offer those improvements to
6 the Authority or the City, as applicable. The Board approved these final maps and the
7 accompanying PIA in Motion Nos. M18-046 (YBI Final Map – No. 9228); M18-115 (TI Final
8 Map No. 9235); M20-082 (Second YBI Final Map No. 9856); and M22-0159 (TI Avenue of the
9 Palms Parcel Map No. 10711). Copies of these Final Maps and PIAs are in Clerk of the
10 Board of Supervisors File Nos. 180312, 180835, 200671, 220993, respectively, and are
11 incorporated herein by reference. In addition, the Developer has constructed other public
12 infrastructure independent of subdivision maps and accompanying PIAs. Some of these
13 public improvements will be City assets (the “City Assets”) and some will be Authority assets
14 (the “Authority Assets”). The City Assets include certain public streets, potable water storage
15 tanks on Yerba Buena Island (the “Water Tanks”), electrical substructures serving the new
16 switchyard on Treasure Island (the “Switchyard Improvements”), and City utilities on YBI in: (i)
17 a privately-owned section of Forest Road, (ii) the Authority-controlled section of Forest Road,
18 (iii) Northgate Road (publicly accessible under Authority jurisdiction), and (iv) the Authority’s
19 private service maintenance road to the Water Tanks (collectively, the “City Utilities”).

20 (e) In a companion ordinance, the Board of Supervisors will consider various
21 acceptance actions and acknowledgements regarding Authority Assets, including the
22 Treasure Island Ferry Terminal, Signal Road, and encroachments on the streets identified in
23 this ordinance. The companion ordinance is on file with the Clerk of the Board of Supervisors
24 in File No. 231269 and is incorporated herein by reference. In future legislation, the Board of
25 Supervisors, under Public Works Code Sections 786 et seq., will consider approval actions

1 related to the abovementioned Authority encroachments on public streets and private
2 encroachments on various streets including Garden Walk.

3 (f) This ordinance addresses the Board of Supervisors acceptance and other official
4 acts for certain City Assets associated with the Treasure Island/Yerba Buena Island Project,
5 Sub-Phases 1B, 1C, 1E, 1YA, and 1YB, including improvements located within portions of
6 Avenue of the Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden Walk,
7 Johnson Street, Seven Seas Avenue, Trade Winds Avenue, and Treasure Island Road on
8 Treasure Island; Macalla Road, Signal Road (limited to Public Utilities Commission utilities
9 associated with this street), Treasure Island Road, and Yerba Buena Island Road on Yerba
10 Buena Island; Water Tanks; Switchyard Improvements; and City Utilities. These City Assets
11 along with Signal Road (an Authority Asset) are collectively referred to as “Required
12 Infrastructure” in this ordinance.

13 (g) In a letter dated November 1, 2023, the Planning Department found that the
14 acceptance of the Required Infrastructure and other actions set forth in this ordinance are
15 within the scope of the Project’s final environmental impact report prepared under the
16 California Environmental Quality Act (California Public Resources Code Sections 21000 et
17 seq.) and are, on balance, in conformance with the General Plan and the eight priority policies
18 of Planning Code Section 101.1. A copy of the Planning Department letter is on file with the
19 Clerk of the Board of Supervisors in File No. 231245.

20 (h) In Public Works Order No. 208839, dated December 12, 2023 (the “PW Order”),
21 Public Works Director (the “PW Director”) recommends and the City Engineer certifies that
22 the: (1) TREASURE ISLAND SERIES 1, LLC, a Delaware limited liability company and
23 TREASURE ISLAND SERIES 2, LLC, a Delaware limited liability company (collectively
24 “Subdividers”) have irrevocably offered the Required Infrastructure to the City as set forth in
25 approximately 65 Irrevocable Offers of Improvements (about 35 related to Treasure Island

1 and 30 related to Yerba Buena Island), starting on March 22, 2018 and recorded April 19,
2 2018 and thereafter (collectively, the "Offers"); (2) Public Works inspected the Required
3 Infrastructure and determined various portions of Required Infrastructure to be complete on
4 February 22, May 18, July 17, and September 22, 2023; (3) the Required Infrastructure has
5 been constructed in accordance with the Plans and Specifications and all City codes,
6 regulations, and standards governing the Required Infrastructure; and (4) the Required
7 Infrastructure is ready for its intended use. The PW Director and City Engineer also
8 acknowledge that the Department of Building Inspection issued certificate of completion and
9 occupancy number 602609 on April 12, 2023 for permit no. 201706300838R2 for the Water
10 Tanks and a completion certificate dated April 12, 2022 for permit #E202203108893 for the
11 Switchyard Improvements. A copy of PW Order No. 208839 is on file with the Clerk of the
12 Board of Supervisors in File No. 231245 and is incorporated herein by reference.

13 (i) In this PW Order, the PW Director and City Engineer also recommend to the Board
14 of Supervisors that it accept the Required Infrastructure for public use; designate such public
15 infrastructure for street and roadway purposes as applicable; and accept it for City
16 maintenance and liability purposes, subject to certain exceptions. The Required Infrastructure
17 also includes City Utilities, all of which are subject to utility easements in favor of the City and
18 whose boundaries may be amended based on final as-built conditions. The PW Director and
19 City Engineer recommend that acceptance of the Required Infrastructure for maintenance and
20 liability purposes be subject to the following conditions: (1) the portions of streets being
21 accepted for street and roadway purposes are from back of sidewalk to back of sidewalk,
22 unless specified otherwise or as shown on the Plans and Specifications for the Required
23 Infrastructure; (2) acceptance of the Required Infrastructure for City maintenance and liability
24 purposes is from back of curb to back of curb, unless specified otherwise, and sidewalk
25 maintenance is the responsibility of the adjacent property owner(s) in accordance with the

1 Public Works Code; (3) encroachments that are or will be permitted (including encroachments
2 that are Authority Assets and private encroachments on various streets including Garden
3 Walk), not permitted, or both, are excluded from acceptance; (4) the acceptance of the streets
4 does not obviate, amend, alter, or in any way affect existing maintenance agreements
5 between the City and parties to such agreements; and (5) Subdividers' conditional assignment
6 of all warranties and guaranties to the City related to the construction of the Required
7 Infrastructure and their warranty obligations under Street Improvement Permit Nos. 18IE-
8 0941, 18IE-0330, and 22IE-00277, as well as under Department of Building Inspection Permit
9 Nos. 201706300838R2 and E2022-31-8893.

10 (j) In addition, the PW Director and City Engineer find that because Signal Road has
11 not been built to City standards, the City shall not accept this street for City maintenance and
12 liability purposes. Instead, Signal Road shall be a dedicated public right-of-way, subject to
13 Public Works Code, Article 9, Sections 400 et seq. for unaccepted public streets and shall be
14 the maintenance and liability responsibility of the Authority, the adjacent landowner, as an
15 Authority Asset. The recommendation further finds that the City should accept the Public
16 Utilities Commission utilities, including the street lights, that are located in or on Signal Road
17 for City maintenance and liability (the "Signal Road Utilities").

18 (k) In PW Order No. 208839, the PW Director and City Engineer also recommend
19 establishment of official public right-of-way widths, sidewalk widths, and street grades on
20 portions of Avenue of the Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden
21 Walk, Johnson Street, Macalla Road, Seven Seas Avenue, Signal Road, Trade Winds
22 Avenue, Treasure Island Road, and Yerba Buena Island Road in accordance with Map A-17-
23 226 and Drawing Q-20-1200 (Yerba Buena Island) and Map A-17-227 and Drawing Q-20-
24 1201 (Treasure Island), all dated December 6, 2023. Further, the PW Director and City
25 Engineer recommend that the Board of Supervisors amend Ordinance No. 1061 on official

1 sidewalk widths in accordance with the Drawings specified above. The Maps and Drawings
2 referenced above are on file with the Clerk of the Board of Supervisors in File No. 231245 and
3 are incorporated herein by reference.

4 (l) In regard to Macalla Road on Yerba Buena Island, the PW Director and City
5 Engineer recommend that the Board of Supervisors delegate the authority to the PW Director,
6 in consultation with the Municipal Transportation Agency Traffic Engineer, to approve changes
7 from the current two-way street configuration to a one-way configuration once construction
8 related to San Francisco-Oakland Bay Bridge West Side Bridges Project and related detours
9 (collectively, "West Side Bridges Project") are complete to the satisfaction of the PW Director.

10 (m) In regard to Treasure Island Road on Yerba Buena Island, portions of this road
11 also cannot be finished to its permanent condition due to construction related to the West Side
12 Bridges Project. Consequently, PW Director and City Engineer recommend that the Board of
13 Supervisors delegate the authority to the PW Director, in consultation with the applicable City
14 agencies, to approve and accept the outstanding roadway surface and related improvements
15 in accordance with Public Works Permit No. 181E-0330 once these improvements are
16 complete to the satisfaction of the PW Director.

17 (n) In regard to certain other deferred improvements, including various minor
18 landscape and concrete improvements and the auxiliary water supply system line connection
19 to make the line operable for fire boat use (approved by the PW Director in PW Order
20 No. 208576, dated September 15, 2023, for Treasure Island and PW Order No. 208263,
21 dated June 23, 2023, for Yerba Buena Island) (collectively, the "Deferred Improvements"), the
22 PW Director and City Engineer recommend that the Board of Supervisors delegate the
23 authority to the PW Director, in consultation with applicable City agencies, to approve and
24 accept the finalized Deferred Improvements once they are complete to the satisfaction of the
25 PW Director.

1 (o) On November 8, 2023, at a duly noticed public hearing, the Authority, in Resolution
2 No. 23-32-1108, recommended that the Board of Supervisors: (1) accept developer's offer of
3 the streets on Yerba Buena Island and portions of Treasure Island and dedicate them to
4 public use, and designate them for street and roadway purposes; (2) accept developer's offer
5 of the Water Tanks and Switchyard Improvements and designate them to public use,
6 (3) recommend the Board of Supervisors accept the Required Infrastructure, dedicate the
7 streets for public use and designate them for street and roadway purposes and accept the
8 Required Infrastructure, including the Water Tanks and Switchyard Improvements, for
9 maintenance and liability purposes, and (4) recommend the Board of Supervisors recognize
10 the Authority's actions. On October 11, 2023, at a duly noticed public hearing, the Authority,
11 in Resolution No. 23-29-1011, took various actions related to acceptance of Authority Assets,
12 including Signal Road, for Authority ownership and maintenance and liability responsibility.
13 The Authority Resolutions are on file with the Clerk of the Board of Supervisors in File
14 No. 231245 and are incorporated herein by reference.
15

16 Section 2. Adoptions and Approvals.

17 (a) The Board of Supervisors adopts as its own the environmental findings and the
18 General Plan and Planning Code Section 101.1 consistency findings in the Planning
19 Department letter, as referenced in Section 1(g) of this ordinance, in connection with the
20 acceptance of the Required Infrastructure and other actions specified in this ordinance.

21 (b) The Board of Supervisors has reviewed and approves PW Order No. 208839,
22 including the City Engineer's certification and PW Director's recommendation, as referenced
23 in Section 1(h)-(n) of this ordinance, concerning the acceptance of Required Infrastructure,
24 and other actions set forth in the PW Order No. 208839.
25

1 (c) The Board of Supervisors has reviewed, acknowledges, and approves the actions
2 of the Authority in its Resolution Nos. 23-32-1108 and 23-29-1011 in regard to the Required
3 Infrastructure, including treating Signal Road as an Authority Asset that will be a public street
4 subject to Authority responsibility for maintenance and liability.

5
6 Section 3. Acceptance of Public Infrastructure and Assumption of Maintenance and
7 Liability Responsibilities, Including Water Tanks, Switchyard Improvements, and City Utilities.
8 Publicly Dedicating Signal Road but Excluding It from City Maintenance and Liability.

9 (a) Pursuant to California Streets and Highways Code Section 1806 and San
10 Francisco Administrative Code Sections 1.51 et seq., and PW Order No. 208839, the Board of
11 Supervisors hereby accepts and dedicates the Required Infrastructure for public use,
12 including the Water Tanks, Switchyard Improvements, and the City Utilities.

13 (b) The Board of Supervisors hereby accepts the Required Infrastructure, including the
14 Water Tanks, Switchyard Improvements, and City Utilities, for City maintenance and liability
15 purposes, subject to the conditions listed in Section 3(c) and (d) below.

16 (c) The Required Infrastructure accepted pursuant to Section 3(a) and (b) above is
17 subject to the following conditions: (1) the portions of streets being accepted for street and
18 roadway purposes are constructed from back of sidewalk to back of sidewalk, unless specified
19 otherwise or as shown on the Plans and Specifications for the Required Infrastructure; (2)
20 acceptance of the Required Infrastructure for City maintenance and liability purposes (with the
21 exception of the Water Tanks, Switchyard Improvements, and City Utilities) is from back of
22 curb to back of curb, unless specified otherwise, and sidewalk maintenance is the
23 responsibility of adjacent property owners in accordance with the Public Works Code; (3)
24 encroachments that are or will be permitted (including encroachments that are Authority
25 Assets and private encroachments on various streets including Garden Walk), not permitted,

1 or both, are excluded from acceptance; (4) the acceptance of the streets does not obviate,
2 amend, alter, or in any way affect existing maintenance agreements between the City and
3 parties to such agreements; and (5) Subdividers' conditional assignment of all warranties and
4 guaranties to the City related to the construction of the Required Infrastructure and their
5 warranty obligations.

6 (d) Based on PW Order No. 208839, the Board of Supervisors determines that
7 because Signal Road has not been built to City standards, the City shall not accept this street
8 for City maintenance and liability purposes. Instead, Signal Road shall be dedicated as public
9 right-of-way, subject to Public Works Code, Article 9, Sections 400 et seq. and shall be the
10 maintenance and liability responsibility of the Authority as an Authority Asset.
11 Notwithstanding the above, the Board accepts the Signal Road Utilities, as defined, for City
12 maintenance and liability.

13
14 Section 4. Establishment of Public Right-of-Way Widths, Sidewalk Widths, and Street
15 Grades.

16 (a) In accordance with PW Order No. 208839, the Board of Supervisors hereby

19 Seven Seas Avenue, Signal Road, Trade Winds Avenue, Treasure Island Road, and Yerba
20 Buena Island Road as shown on Public Works Maps A-226 (Yerba Buena Island) and A-227
21 (Treasure Island).

22 (b) In accordance with PW Order No. 208839, Board of Supervisors Ordinance
23 No. 1061, entitled "Regulating the Width of Sidewalks," a copy of which is in the Clerk of the
24 Board of Supervisors Book of General Ordinances, in effect May 11, 1910, is hereby
25 amended by adding thereto new sections to read as follows:

1 Section 1641. The width of sidewalks on portions of Macalla Road, Signal Road (sidewalk only
2 on northern side), Treasure Island Road, and Yerba Buena Island Road shall be as shown on Public
3 Works Drawings Q-20-1200 (Yerba Buena Island) dated December 6, 2023.

4 Section 1642. The width of sidewalks on portions of Avenue of the Palms, Bruton Street,

9 Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden Walk, Johnson Street,
10 Macalla Road, Seven Seas Avenue, Signal Road, Trade Winds Avenue, Treasure Island
11 Road, and Yerba Buena Island Road do not obviate, amend, alter, or in any other way affect
12 the maintenance obligations of the adjacent property owners as set forth in the Public Works
13 Code.

14 (d) Notwithstanding California Streets and Highways Code Sections 8000 et seq., the
15 Board of Supervisors, in accordance with San Francisco Administrative Code Sections 1.51 et

21 Island) and Q-20-1201 (Treasure Island).

22 (e) The Board of Supervisors hereby directs Public Works to revise the Official Public
23 Right-of-Way, Sidewalk Width, and Street Grade maps in accordance with this ordinance.

1 Section 5. Delegation to Approve and Accept Outstanding Improvements on Macalla
2 and Treasure Island Roads after Completion of the West Side Bridges Project and Certain
3 Deferred Improvements.

4 (a) In regard to Macalla Road, the Board of Supervisors hereby delegates the authority
5 to the PW Director, in consultation with the Municipal Transportation Agency Traffic Engineer,

23 ordinance, A-17 Maps, and Q-20 Drawings in the Official Records of the City and County of
24 San Francisco.

Section 7. Effective Date. This ordinance shall become effective 30 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

LEGISLATIVE DIGEST

[Treasure Island/Yerba Buena Island - Street and Public Infrastructure Acceptance - Establishing Official Sidewalk Widths and Street Grades]

Ordinance accepting irrevocable offers of public infrastructure associated with the Treasure Island/Yerba Buena Island Project, Sub-Phases 1B, 1C, 1E, 1YA, and 1YB, including improvements located within portions of Avenue of the Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden Walk, Johnson Street, Seven Seas Avenue, Trade Winds Avenue, and Treasure Island Road on Treasure Island; Macalla Road, Signal Road, Treasure Island Road, and Yerba Buena Island Road on Yerba Buena Island; potable water storage tanks on Yerba Buena Island and electrical substructures serving a switchyard on Treasure Island; and City utilities in private streets and a service maintenance road on Yerba Buena Island; dedicating this infrastructure to public use; designating this public infrastructure for street and roadway purposes as applicable; accepting the public infrastructure for City maintenance and liability purposes, subject to specified limitations; establishing official public right-of-way widths and street grades; amending Ordinance No. 1061 entitled “Regulating the Width of Sidewalks” to establish official sidewalk width on the abovementioned streets; delegating limited authority to the Public Works Director to accept specified infrastructure; adopting findings under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1; accepting a Public Works Order recommending various actions in regard to the public infrastructure improvements; and authorizing official acts, as defined herein, in connection with this ordinance.

Existing Law

The Board of Supervisors passed Ordinance No. 95-11, which approved a Development Agreement for the Treasure Island/Yerba Buena Island Project. This Ordinance and related legislation established a process by which the Treasure Island Community Development, LLC (“Developer”) would construct specified public infrastructure and dedicate this infrastructure to the City or the Treasure Island Development Authority (the “Authority”). Required infrastructure that the Developer dedicates to the City is referred to as “City Assets”. Upon dedication of City Assets, the City would initiate the local and State law procedures to accept the Assets as public, establish the street areas as open public right-of-way, accept the street areas and other City Assets for City maintenance and liability purposes, subject to certain limitations, and take related actions. If the Board dedicates a street for open public use, but does not accept it for maintenance and liability purposes, the street is subject to Public Works Code Article 9, Sections 400 et seq. for unaccepted streets where the adjacent landowner is the responsible party. In addition, Board of Supervisors’ Ordinance No. 1061 established the official sidewalk widths throughout San Francisco. Ordinance No. 1061 is uncoded, but can

be located in the Clerk of the Board of Supervisors Book of General Ordinances, in effect May 11, 1910, which is on file with the Clerk of the Board of Supervisors.

Amendments to Current Law

This legislation would accept offers of dedication for the City Assets including new public right-of-way on various streets on Yerba Buena Island ("YBI") and Treasure Island ("TI") that comprise portions of Avenue of the Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden Walk, Johnson Street, Macalla, Seven Seas Avenue, Signal Road, Trade Winds Avenue, and Treasure Island Road and Yerba Buena Island Road; along with potable water storage tanks on Yerba Buena Island; electrical substructures serving a switchyard on Treasure Island; and City utilities on certain private streets. The Ordinance also would declare the street right-of-way open to the public; dedicate the City Assets to public use and designate right-of-way areas for street and roadway purposes; and accept the City Assets for maintenance and liability purposes, subject to specified limitations. While the legislation would dedicate Signal Road as open public right-of-way, the Authority would be responsible for maintenance and liability (with the exception of City utilities) for this street, not the City. The legislation also would establish official right-of-way as shown on Maps A-17-226 (YBI) and A-17-227 (TI); establish official street grades and sidewalk widths as shown on Drawings Q-20-1200 (YBI) and Q-20-1201 (TI); and amend Board of Supervisors Ordinance No. 1061 on sidewalk widths consistent with these Drawings. These legislative actions would be in accordance with the procedures established for the TI/YBI Project and applicable local and State law. The Ordinance would delegate to the Public Works Director certain authority to approve subsequent changes to Macalla Road, Treasure Island Road, and Yerba Buena Island Road after completion of the West Side Bay Bridge Project and specified deferred improvements. This Ordinance would make certain findings related to the legislation, including environmental findings and findings that the legislation is consistent with the General Plan, and the priority policy findings of the Planning Code Section 101.1.

Public Works Order No: 208839

Recommending the formal acceptance of irrevocable offers of public improvements associated with the Treasure Island / Yerba Buena Island Project, Sub-Phases 1B, 1C, 1E, 1YA and 1YB, including improvements located within portions of Avenue of the Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden Walk, Johnson Street, Seven Seas Avenue, Trade Winds Ave, and Treasure Island Road on Treasure Island; Macalla Road, Signal Road, Treasure Island Road, and Yerba Buena Island Road on Yerba Buena Island; Yerba Buena Island potable water storage tanks; electrical substructures serving a new 12 kilovolt switchyard on Treasure Island (“Switchyard Improvements”); and City utilities in private streets and service maintenance roads on Yerba Buena Island; dedicating this Infrastructure for public use; accepting the Infrastructure for City maintenance and liability purposes, subject to specified limitations, establishing official street grades; and amending Ordinance No. 1061 entitled “Regulating the Width of Sidewalks” to establish official sidewalk width on the abovementioned street areas; and delegating limited authority to the Director to accept specified infrastructure.

WHEREAS, This Public Works Order addresses the City's acceptance of certain streets on Treasure Island (also “TI”) and Yerba Buena Island (also “YBI”), potable water storage tanks on Yerba Buena Island (the “Water Tanks”) and electrical substructures serving a new 12 kilovolt switchyard on Treasure Island (the “Switchyard Improvements”), and City utilities in private streets and service maintenance roads on Yerba Buena Island (the “City Utilities”). This Order refers to these improvements collectively as the “Required Infrastructure”; and

WHEREAS, This Order also recognizes that there are existing public utility easements associated with the City Utilities that the Real Estate Division has approved and recorded associated with final subdivision maps for YBI. These easements offers of improvements mentioned below may be amended to address as-built conditions; and

WHEREAS, TREASURE ISLAND SERIES 1, LLC, a Delaware limited liability company and TREASURE ISLAND SERIES 2, LLC, a Delaware limited liability company (collectively, “Subdividers”) have irrevocably offered the Required Infrastructure to the City and County of San Francisco (“City”) as set forth in the approximately 65 Irrevocable Offers of Improvement (about 35 related to Treasure Island and 30 related to Yerba Buena Island), starting on March 22, 2018 (as amended) and recorded April 19, 2018 and thereafter (collectively, the “Offers”); and

WHEREAS, Public Works completed inspections of the Required Infrastructure and the City Engineer, by issuance of multiple Notices of Completion letters dated February 3, 2023, May 18, 2023, July 11, 2023, July 17, 2023, September 22, 2023, and September 28, 2023 (collectively, the “Notices of Completion”), determined it to be complete in accordance with the Plans and Specifications and all City codes, regulations, and standards governing the

Required Infrastructure and ready for its intended use as documented in Conditional Notices of Completion dated; and

WHEREAS, The Public Works Director (hereinafter the “Public Works Director” or “Director”) recommends and the City Engineer certifies to the Board of Supervisors that the Required Infrastructure as shown in Street Improvement Permit Nos. 18IE-0330, 18IE-0941, and #22IE-00277 and Department of Building Inspection Permit Nos. #E202203108893 and #201706300838R2 be accepted for public use. Public Works recommends that the Board of Supervisors accept the Required Infrastructure for City maintenance and liability purposes in accordance with Streets and Highways Code Section 1806 and San Francisco Administrative Code 1.51 et seq. and subject to the exceptions specified herein; and

WHEREAS, The Director determined that Subdivider has satisfied all conditions of approval of the Notices of Completion, or that any such conditions not addressed as of the date of this Order have been deferred in writing. In addition, the Director finds that the Department of Building Inspection (DBI) has issued certificates of completion for the Required Infrastructure, including the Water Tanks and Switchyard Improvements that are structures subject to the Building Codes and City Utilities; and

WHEREAS, The official public right-of-way widths for the applicable portions of Avenue of the Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden Walk, Johnson Street, Macalla Road, Seven Seas Avenue, Signal Road, Trade Winds Avenue, Treasure Island Road, and Yerba Buena Island Road and sidewalk widths established as shown on Drawings Q-20-1200 (Yerba Buena Island) and Q-20-1201 (Treasure Island) do not obviate, amend, alter, or in any other way affect the maintenance obligations of the adjacent property owners as set forth in the Public Works Code; and

WHEREAS, Drawings A-17-226 (Yerba Buena Island) and A-17-227 (Treasure Island) show the street grades and official right-of-way width for the applicable portions of Avenue of the Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden Walk, Johnson Street, Macalla Road, Seven Seas Avenue, Signal Road, Trade Winds Avenue, Treasure Island Road, and Yerba Buena Island Road; and

WHEREAS, The Director finds that because Signal Road has not been built to City standards, the Board of Supervisors should not accept this street for City maintenance and liability purposes. Instead, Signal Road should be a dedicated public right-of-way, subject to Public Works Code, Article 9, Sections 400 et seq. for unaccepted public streets and shall be the maintenance and liability responsibility of the Treasure Island Development Authority (TIDA) as a TIDA asset. The recommendation further finds that the City should accept the City utilities, including the street lights, that are located in or on Signal Road for City maintenance and liability; and

WHEREAS, The Director recommends that in regard to Macalla Road, the Board delegate the authority to the Director, in consultation with the Municipal Transportation Agency Traffic Engineer, to approve changes from the current two-way street configuration to a one-way configuration once construction related to the San Francisco-Oakland Bay Bridge West Side

Bridges project and related detours (collectively, “West Side Bridges Project”) are complete to the satisfaction of the Director; and

WHEREAS, The Director recommends that in regard to Treasure Island Road on Yerba Buena Island which includes portions of road that cannot be finished to its permanent condition due to construction related to the West Side Bridges Project, the Board delegate authority to the Director, in consultation with applicable City agencies, to approve and accept the outstanding roadway surface and related improvements once these improvements are complete to the satisfaction of the Director; and

WHEREAS, The Director recommends that in regard to certain other deferred improvements, including various concrete and landscape improvements and the auxiliary water supply system line connection to make the line operable for fire boat use (approved by the PW Director in PW Order No. 208576, dated September 15, 2023, for Treasure Island and PW Order No. 208263, dated June 23, 2023, for Yerba Buena Island) (collectively, the “Deferred Improvements”), the Board delegate authority to the Director, in consultation with applicable City agencies, to approve and accept the finalized Deferred Improvements once they are complete to the satisfaction of the Director; and

WHEREAS, In letters dated November 1st, 2023, the Department of City Planning determined that the acceptance of the public infrastructure and easements associated with the Required Infrastructure and associated actions are, on balance, in conformity with the General Plan and Planning Code Section 101.1; and

WHEREAS, Public Works recommends that the Board of Supervisors find that the actions specified in this Order are consistent with the General Plan and Planning Code Section 101.1 for the reasons set forth in the Planning Department letter dated November 1, 2023; and

WHEREAS, Public Works recommends that for purposes of these same actions, the Board of Supervisors rely on the environmental findings under the California Environmental Quality Act in the abovementioned Planning Department letter; and

WHEREAS, Public Works also recommends that TIDA adopt these same findings set forth in this Order in regard to public street acceptance actions as set forth in the City/TIDA MOU regarding public improvements and the Planning Department letter in regard to its actions related to these public improvements

NOW THEREFORE BE IT ORDERED THAT,

The Director approves all of the following documents either attached hereto or referenced herein:

1. Offers of Improvements for the Required Infrastructure, including First Amendments to certain Offers of Improvements originally dated March 22, 2018

2. Certain New or Amended Easements (about 10 on Treasure Island and 3 on Yerba Buena Island)
3. Ordinance to accept the Required Infrastructure for City maintenance and liability purposes, including the Water Tanks and Switchyard Improvements that DBI reviewed and approved and for which it issued certificates of completion and occupation, various streets and City Utilities.
4. Official Street Dedication and Grade Map A-17-226 (Yerba Buena Island) and A-17-227 (Treasure Island)
5. Official Sidewalk and Roadway Width Q-20-1200 (Yerba Buena Island) and Q-20-1201 (Treasure Island)

The Director recommends that the Board of Supervisors approve the legislation to accept the Offers. Hereinafter, the Director's recommendation also includes the City Engineer's certification of actions under the City Engineer's authority.

The Director further recommends that the Board of Supervisors approve the legislation to dedicate the Required Infrastructure to public use, designate it as open public right-of-way for permit and roadway purposes, and accept it for City maintenance and liability purposes subject to the following:

1. The portions of streets being designated as open public right of way for street and roadway purposes are from back of sidewalk to back of sidewalk, unless specified otherwise or as shown on the Plans and Specifications for the Required Infrastructure;
2. Acceptance of the Required Infrastructure for City maintenance and liability purposes is from back of curb to back of curb, unless specified otherwise, and sidewalk maintenance is the responsibility of the adjacent property owners in accordance with the Public Works Code;
3. Acceptance of City utilities that are within portions of private streets (Forest Road and Northgate Road on Yerba Buena Island) for City maintenance and liability, unless specified otherwise;
4. Encroachments that are permitted, not permitted, or both, are excluded from acceptance;
5. The abovementioned encroachments include TIDA assets on the public right of way that will be TIDA responsibility for maintenance and liability and the Board of Supervisors will consider future legislative action for these encroachment;
6. Signal Road shall be dedicated to public use and designated for street and roadway purposes, but the City shall not accept it for maintenance and liability purposes. Instead, it shall remain a TIDA asset and TIDA shall be responsible for maintenance

and liability in accordance with Public Works Code Sections 400 et seq. The City shall accept the City utilities in and on Signal Road for City maintenance and liability.

7. The acceptance of the streets does not obviate, amend, alter, or in any way affect existing maintenance agreements between the City and parties to such agreements; and
8. Subdivider's conditional assignment of all warranties and guaranties to the City related to the construction of the Treasure Island and Yerba Buena Island Required Infrastructure and its warranty obligations under Street Improvement Permit Nos. 18IE-0330, 18IE-0941 and 22IE-0277 and Department of Building Inspection Permit Nos. 201706300838R2 and E202203108893.

Notwithstanding California Streets and Highways Code Sections 8000 et seq., and in accordance with San Francisco Administrative Code Sections 1.51 et seq. the Director recommends that the Board of Supervisors rely on the abovementioned legislation as its own procedures for the establishment of street grades.

The Director recommends that the Board of Supervisors approve the legislation to amend Board of Supervisors Ordinance No. 1061, entitled "Regulating the Width of Sidewalks," a copy of which is in the Clerk of the Board of Supervisors Book of General Ordinances, in effect May 11, 1910, by adding thereto new sections to read as follows:

Section 1641. The width of sidewalks on portions of Macalla Road, Signal Road (sidewalk only on northern side), Treasure Island Road, and Yerba Buena Island Road shall be as shown on Public Works Drawings Q-20-1200 (Yerba Buena Island) dated December 6, 2023.

Section 1642. The width of sidewalks on portions of Avenue of the Palms, Bruton Street, Clipper Cove Avenue, Cravath Street, Garden Walk, Johnson Street, Seven Seas Avenue, Trade Winds Avenue, and Treasure Island Road on Treasure Island shall be as shown on Public Works Drawings Q-20-1201 (Treasure Island) dated December 6, 2023.

The Director recommends that the Board of Supervisors approve the legislation and direct Public Works to revise the Official Public Right-of-Way, Sidewalk Width, and Street Grade drawings in accordance with the legislation.

The Director recommends that the Board of Supervisors delegate authority to the Director to approve and accept outstanding improvements on Macalla and Treasure Island Roads after completion of the West Side Bridges Project and certain Deferred Improvements.

On April 21, 2011, the San Francisco Planning Commission issued a series of approvals for the Treasure Island/Yerba Buena Island Project (Planning Department Records 2007.0903BEMRTUWZ). These approvals actions included certification of the Final Environmental Impact Report (FEIR) through Motion No. 18325, adoption of California Environmental Quality Act (“CEQA”) findings through Motion No. 18326, and adoption of General Plan and Planning Section 101.1 consistency findings through Motion No. 18328.

Planning Department Staff has reviewed the Plans and considered the other actions comprising the Board of Supervisors legislation and finds them consistent with the Planning Commission’s approvals. Therefore, the Planning Department Staff finds that the Board of Supervisors and TIDA Board actions are covered with the scope of the FEIR and the CEQA findings of Planning Commission Motion Nos. 18325 and 18326 and, on balance, consistent with General Plan and Planning Code Section 101.1 Consistency Findings of Motion No. 18328. For purposes of the Board of Supervisors and TIDA Board actions identified in this letter, the Planning Department Staff relies on and incorporates by reference these Planning Commission Motions and their associated findings.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (this “**Agreement**”) is made and entered into as of this 21st day of December 2022, by and between Comcast Cable Communications Management LLC, a Delaware limited liability company (“**Comcast**”), and Treasure Island Series 1, LLC, a Delaware limited liability company (“**TIS1**”), with reference and respect to the following facts and circumstances:

Recitals

A. Comcast currently holds a franchise license from the State of California for the provision of certain video and related services (herein, the “**Services**”) to customers in the State of California, and is currently providing the Services to customers residing in existing housing on Treasure Island, California. Comcast desires to offer such services to residents and commercial customers who will be located in real estate projects currently under development by TIS1 and/or other affiliates of Treasure Island Community Development, LLC, a California limited liability company (“**TICD**”) on Treasure Island, California and Yerba Buena Island (collectively, the “**Project**”).

B. TIS1, as the initial developer of the Project, is under contract with Treasure Island Development Authority (“**TIDA**”), who is the current record owner of that certain property located on Treasure Island in San Francisco, California and more particularly shown on Exhibit A attached to this Agreement (“**TIDA Property**”).

C. TIS1 has commenced construction of a telecommunications trench on the TIDA Property to be shared by multiple utility providers, including Comcast, and by TIS1 and TICD or their successors (the “**Joint Trench**”). The Joint Trench will be constructed by TIS1 and/or other affiliates of TICD in multiple phases, over different sections of the TIDA Property, as the Project progresses, and will contain telecommunications facilities for each of the applicable utility providers. As of the date of this Agreement, TIS1 has completed the first phase of the Joint Trench (which includes sections on Yerba Buena Island and a portion of Treasure Island), as shown on Exhibit A-1 attached hereto (“**Phase I**”). Comcast acknowledges that future phases of the Joint Trench will be coordinated and constructed by other affiliates of TICD (and not by TIS1), and that TIS1 shall have the right to assign this Agreement to its successors-in-interest, as further provided in this Agreement. As used herein, the term “**Developer**” shall mean TIS1 (with respect to Phase I), or the then-current assignee of TIS1’s interests under this Agreement (with respect to future phases of the Joint Trench construction), as applicable.

D. That portion of the TIDA Property in which the Joint Trench is located is designated to be transferred to the City of San Francisco (the “**City**”) by public dedication, in phases, upon completion of each applicable phase of the Joint Trench (collectively, the “**Public ROW**”). Phase I is expected to be transferred to the City and become part of the Public ROW by early 2023, with the remaining phases to follow.

E. The parties now desire to enter into this Agreement to memorialize their understanding of the terms and conditions upon which Comcast shall obtain access rights to and ownership of certain facilities in Phase I of the Joint Trench (both prior to and after the Joint Trench becoming a Public ROW), and the process by which Comcast will place its facilities in additional, future phases of the Joint Trench.

Now, therefore, in consideration of (i) the foregoing premises, (ii) the covenants, agreements, representations and/or warranties set forth in this Agreement, and (iii) other good and valuable consideration, the receipt and sufficiency of which are acknowledged by each of the parties hereto, the parties do hereby agree as follows:

Agreement

1. Recitals; Defined Terms. The recitals set forth in paragraphs A through E, inclusive, above, following the preamble at the beginning of this Agreement, are hereby incorporated into this Agreement by reference, as if set forth in full in this Section 1. Defined terms in this Agreement are indicated by initial capital letters.

2. Construction of Joint Trench. Except as otherwise expressly provided in this Agreement, Developer shall design, permit, install and construct the Joint Trench at Developer's sole cost and expense. With respect to Phase I only, TIS1 has constructed the Joint Trench and has also performed installation of the conduit and vaults which (a) are required for Comcast's delivery of the Services to the TIDA Property, and (b) shall be for Comcast's exclusive use in the Joint Trench (collectively referred to herein as the "**Comcast Facilities**"). The approved plans for installation of the Comcast Facilities in Phase I were provided by Power Systems Design, and are listed or described in Exhibit B attached hereto (the "**Plans**"). TIS1 represents that it has caused its contractor(s) and any sub-contractor(s) to manufacture, fabricate, and construct Phase I (and install the Comcast Facilities therein) in a good and workmanlike manner, in compliance with all applicable laws, rules and regulations, in accordance with all manufacturer and installer recommendations and/or requirements, and in accordance with the Plans and City approved permits. Comcast acknowledges that construction of Phase I is complete and that the Comcast Facilities were installed in Phase I by TIS1 in accordance with the Plans. Notwithstanding the foregoing or anything herein to the contrary, Comcast and TIS1 acknowledge and agree that the Comcast Facilities for all future phases of the Joint Trench will be installed in the Joint Trench by Comcast, at its sole cost and expense (and not by Developer), as more particularly described in Section 6 below. The parties agree and acknowledge that Comcast is not a TICD or TIDA contractor or subcontractor for any phase of the Project, nor is Comcast deemed to be a permanent employer with respect to the Project. Further, the parties agree and acknowledge that this agreement is not construed as a construction contract, subcontract, covered commercial operation, or property contract, nor is it the intent of the parties to enter into any construction contract, subcontract, covered commercial operation or property contract hereunder or in the future., The parties agree and acknowledge that Comcast is placing its facilities in the Joint Trench in order to ensure

continued service to its subscribers and pursuant to its regular, nondiscriminatory construction standards.

3. Performance of Construction; Insurance; Inspection.

3.1 Developer shall use reasonable diligence to pursue completion of the Joint Trench within a reasonable period of time after construction is commenced, subject to delays caused by events beyond the reasonable control of Developer, as noted in Section 9.4 below. Developer shall cause its contractor(s) and any sub-contractor(s) to manufacture, fabricate, construct and install the remaining phases of the Joint Trench in a good and workmanlike manner, in compliance with all applicable laws, rules and regulations, in accordance with all manufacturer and installer recommendations and/or requirements, and in accordance with City approved permits. Comcast may, but shall not be required to, provide written notice to Developer in the event that Comcast believes the Joint Trench is not being constructed, maintained, repaired, replaced or reconstructed as required by the terms of this Agreement, and Developer shall perform any corrective work reasonably required to address such issues within thirty (30) days after written notice from Comcast (or as soon as reasonable thereafter given the circumstances).

3.2 Developer shall require the contractor(s) and any sub-contractor(s) constructing or installing the Joint Trench to be properly licensed, maintain insurance and comply with the insurance requirements set forth in Exhibit C attached hereto. During the Access Period (as defined in Exhibit D), Comcast shall pay when due all taxes, assessments and fees levied on the Comcast Facilities and/or on Comcast's other personal property located in or about the Joint Trench within thirty (30) days of invoice from the appropriate taxing authority.

3.3 In the event Comcast requires access to the Project and/or the Joint Trench in order to install and/or maintain any Comcast Facilities in the conduit located in the Joint Trench prior to acceptance of the Joint Trench as a Public ROW, Comcast shall provide advance written notice to Developer indicating the date, time and location of access (which may be in the form of an email), and Developer shall grant Comcast free access to the Project and/or the Joint Trench in order for Comcast to perform installation of, or maintenance on, the Comcast Facilities, provided that all such access to the Joint Trench by Comcast prior to the date such portion of the Joint Trench is accepted as a Public ROW shall (a) be reasonably coordinated with Developer (to avoid unreasonable interference with any work being done by Developer on the proposed access dates submitted by Comcast), and (b) be made in accordance with and subject to of the terms of Exhibit D attached hereto, as well as the remaining terms of this Section 3. Notwithstanding the foregoing, to the extent Comcast performs the installation of any Comcast Facilities within Phase I while the terms of that certain First Amended and Restated Temporary Communications License Agreement dated November 21, 2022, between TIS1 and Comcast (as amended, the "**License**") remain in effect (i.e., before the License expires on or about December 20, 2022), the terms of the License, rather than the terms of Exhibit D attached hereto, shall apply with respect

to Comcast's entries to the Project during such period. All equipment, facilities or other personal property of Comcast installed or located in the Joint Trench shall at all times be insured by Comcast against casualty loss or damage at Comcast's sole cost, and not as part of the Consideration (as defined below), and Developer shall have no liability for any loss or damage thereto. Notwithstanding the foregoing, in the event Comcast requires access to its facilities to perform maintenance in the event of an outage or an emergency, Comcast shall have the right to access the Comcast Facilities without prior written notice, so long as Comcast provides such notice of entry within a reasonable time following such maintenance.

3.4 During the Access Period, all portions of the Comcast Facilities shall be installed and maintained in accordance with FCC regulations, industry standards and governmental laws, rules and regulations, as well as all rules and regulations established by Developer from time to time, provided that such rules and regulations do not materially interfere with Comcast's rights under this MOU or Exhibit D attached hereto. During the Access Period, Comcast will be responsible, at Comcast's sole cost and expense, for obtaining all necessary permits, licenses and approvals in connection with the installation and operation of the Comcast Facilities and any operation of the System (as defined in Exhibit D attached hereto).

3.5 All work performed by Comcast at the Joint Trench during the Access Period shall be (a) completed in accordance with the Initial Plans (as defined in Exhibit D) approved by Developer, and (b) carried out promptly in a good and workmanlike manner. Comcast agrees to repair and/or replace any damage to the Joint Trench and/or other property of Developer that occurs during the Access Period if resulting from the installation, operation and maintenance of the Comcast Facilities, other than any damage caused by Developer's gross negligence or willful misconduct (but in all events subject to the waiver of subrogation required under Exhibit C hereto).

3.6 If, at any time during the Access Period, the relocation of the Comcast Facilities or any portion thereof is necessary due to any renovations or other work at the Joint Trench required by the City or other governmental authorities having control over the Joint Trench, Developer shall have the right to require Comcast, at Developer's sole cost and expense, to temporarily relocate the Comcast Facilities or any portion thereof to the extent necessary for such renovations or other work to be completed, upon at least ten (10) business days advance written notice to Comcast, provided that upon the completion of such renovations or other work, Comcast shall return the Comcast Facilities to their original location at Developer's sole cost and expense; provided, however, in the event Comcast cannot reasonably perform such relocation within such ten (10) business day period, then Developer shall have the right to temporarily relocate the Comcast Facilities as necessary to perform such governmentally required renovations or other work at Developer's sole cost and expense.

3.7 During the Access Period, if any mechanic's, laborer's or materialman's lien shall be filed against the Joint Trench in connection with Comcast's installation or operation of the Comcast Facilities or the System, Comcast shall cause it to be canceled and discharged of record (by bonding over or otherwise paying the lien

amount), within ten (10) business days after notice of the filing thereof (and failure to do so shall be an event of default under this MOU), provided that Comcast may contest in good faith and by appropriate proceedings, at Comcast's sole cost and expense, any such liens so long as Comcast has adequately insured or bonded over such liens. Comcast shall indemnify and hold harmless Developer from any loss incurred in connection therewith during the Access Period.

3.8 Although it is currently contemplated that Comcast and Developer (or its successors or affiliates) will enter into one or more separate agreements (herein, "**Vertical Agreements**") to permit Comcast to (a) construct and/or install and maintain additional facilities on the TIDA Property, as necessary to deliver the Services to users and occupants of the Project, and (b) to connect such additional facilities for the Project to the Comcast's equipment in the Joint Trench, Comcast acknowledges that neither Developer (nor its successors or affiliates) are under any obligation to execute any such additional Vertical Agreements and Comcast's payment of the Consideration is in no way conditioned upon the execution of any such additional agreements for the Project. However, since the Vertical Agreements have not been entered into as of the date hereof, Developer would not be willing to provide or permit installation of the Comcast Facilities in the Joint Trench in accordance with the Plans approved by Comcast without Comcast's agreement to pay the Consideration as provided herein. Nothing in this Agreement shall obligate the parties to execute any Vertical Agreements or to negotiate in good faith, and each party's decision to negotiate or to ultimately execute any Vertical Agreements may be made in such party's sole and unfettered discretion.

4. Payment of Consideration. Comcast shall pay TIS1, and TIS1 shall accept, a one-time payment from Comcast, as consideration for Comcast being provided with space for the Comcast Facilities in the Joint Trench, equal to the sum of Four Hundred Thousand Dollars (\$400,000) (the "**Consideration**"). Comcast shall pay the Consideration to TIS1 (in cash, by wire transfer or otherwise in a manner reasonably acceptable to TIS1) in full within thirty (30) days after execution of this Agreement. The parties agree and acknowledge that the payment described in this Paragraph is a one-time settlement resolving any and all claims by Developer related to Comcast's rights to install and maintain the Comcast Facilities in all phases of the Joint Trench, and shall specifically not be characterized as compensation or reimbursement for any permitting or construction costs related to the Joint Trench or installation of the Comcast Facilities in Phase I by TIS1.

5. Maintenance. From and after completion of the Joint Trench, and continuing until the date that the Joint Trench has been transferred to the City by dedication, and becomes a Public ROW (the "**Transfer Date**"), Developer shall, at all times and at Developer's sole cost and expense, maintain the Joint Trench in good condition and repair and otherwise in a manner consistent with Developer's maintenance of the Project facilities; provided, however, Developer shall have no obligation to repair or maintain any Comcast Facilities or other personal property of Comcast located in the Joint Trench which is for the sole use of Comcast. In the event that the Joint Trench is damaged or destroyed for any reason or by any cause prior to the Transfer Date, Developer shall promptly, at its sole cost, commence repair and/or replacement thereof

using available insurance proceeds, including construction or reconstruction, as appropriate, and thereafter shall diligently prosecute the same to completion (unless such damage or destruction to the Joint Trench is caused by the gross negligence or intentional misconduct of Comcast's contractors or agents (in which event the repairs shall be performed by Developer at the expense of Comcast); provided further, however, Developer shall not be responsible for replacement of any Comcast Facilities or other personal property of Comcast located in the Joint Trench, which shall be repaired replaced at Comcast's sole cost, unless such damage or destruction was caused by the gross negligence or intentional misconduct of Developer's contractors or agents (in which event the repairs shall be performed by Developer at its own cost).

6. Future Phases. For future phases of Joint Trench construction, the parties agree on the following procedures:

6.1 Developer, in conjunction with its construction manager, will conduct a pre-construction meeting for the upcoming phase of Joint Trench construction, and Comcast (and if applicable, Comcast's subcontractor), will attend this meeting. Developer will provide at least 10 business days' prior notice for the pre-construction meeting. Comcast will provide Developer with copies of the Initial Plans (as defined in the REA) for approval.

6.2 Developer will provide a look-ahead schedule at the pre-construction meeting and update the schedule as necessary during construction of the applicable Joint Trench phase. Developer will give Comcast written notice immediately upon any changes to the schedule. The party designated by Comcast to install the Comcast Facilities in such Joint Trench phase (i.e., Comcast's own crews or Comcast's contractor as applicable) will be on-call during the periods identified in the schedule as potential installation windows for the Comcast Facilities.

6.3 Developer will endeavor to give Comcast as much notice as possible when individual sections of the Joint Trench are available for installation of the Comcast Facilities, but will provide a minimum advance notice of 5 business days.

6.4 Comcast will supply all labor, equipment and materials (conduit, boxes, etc.) necessary to complete installation of the necessary Comcast Facilities in the applicable section of the Joint Trench, consistent with the Initial Plans, and will ensure that all materials are delivered to the Project site on or prior to the expected installation date for each given segment, as identified by the schedule.

6.5 If for any reason, other than for a Force Majeure Event (as defined below), Comcast or its contractor do not initiate installation of the required conduit for Comcast Facilities within 5 business days after notice to install for a given segment of the Joint Trench, Developer will install the required conduit for Comcast Facilities in a workmanlike manner and in accordance with applicable law, construction standards and the approved Plans (or the Initial Plans, as applicable) on Comcast's behalf and Comcast will reimburse Developer for the actual cost of the installation. If Developer

exercises its right to install conduit pursuant to the preceding sentence, Comcast hereby retains sole responsibility for the installation and maintenance of the Comcast Facilities located in such conduit. Any such costs of installation by Developer will be determined by an "add-alternate" bid procured at the time the Joint Trench work for the future phase is bid, and if possible will utilize materials previously delivered by Comcast to the Project site (if any).

6.6 Comcast may, but shall not be required to, provide written notice to Developer in the event that Comcast believes the Joint Trench is not being constructed, maintained, repaired, replaced or reconstructed as required by the terms of this Agreement, and Developer shall perform any corrective work reasonably required to address such issues within thirty (30) days after written notice from Comcast (or as soon as reasonable thereafter given the circumstances).

6.7 Developer shall require that Comcast or any subcontractor working on behalf of Comcast be properly licensed and maintain insurance as required of all construction contractors (see Exhibit C).

7. Indemnity.

9.6 Governing Law; Construction; Severability. This Agreement shall be governed by and construed as well as interpreted in accordance with the laws of the State of California. This Agreement shall not be construed as if it was prepared by either party, but rather as if both parties had prepared the same. If any provision of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force and effect without being impaired or invalidated in any way.

The failure of any party to this Agreement at any time or times to require performance of any provision under this Agreement shall in no manner affect the right at a later time to enforce the same performance. A waiver by any party to this Agreement of any such condition or breach of any term, covenant, representation, or warranty contained in this Agreement, in any one or more instances, shall neither be construed as a further or continuing waiver of any such condition or breach nor a waiver of any other condition or breach of any other term, covenant, representation, or warranty contained in this Agreement.

9.11 Headings. Section, Subsection and other headings of this Agreement have been inserted for convenience of reference only and shall in no way restrict or otherwise modify any of the terms or provisions of this Agreement.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (this “**Agreement**”) is made and entered into as of this 21st day of December 2022, by and between Comcast Cable Communications Management LLC, a Delaware limited liability company (“**Comcast**”), and Treasure Island Series 1, LLC, a Delaware limited liability company (“**TIS1**”), with reference and respect to the following facts and circumstances:

Recitals

A. Comcast currently holds a franchise license from the State of California for the provision of certain video and related services (herein, the “**Services**”) to customers in the State of California, and is currently providing the Services to customers residing in existing housing on Treasure Island, California. Comcast desires to offer such services to residents and commercial customers who will be located in real estate projects currently under development by TIS1 and/or other affiliates of Treasure Island Community Development, LLC, a California limited liability company (“**TICD**”) on Treasure Island, California and Yerba Buena Island (collectively, the “**Project**”).

B. TIS1, as the initial developer of the Project, is under contract with Treasure Island Development Authority (“**TIDA**”), who is the current record owner of that certain property located on Treasure Island in San Francisco, California and more particularly shown on Exhibit A attached to this Agreement (“**TIDA Property**”).

C. TIS1 has commenced construction of a telecommunications trench on the TIDA Property to be shared by multiple utility providers, including Comcast, and by TIS1 and TICD or their successors (the “**Joint Trench**”). The Joint Trench will be constructed by TIS1 and/or other affiliates of TICD in multiple phases, over different sections of the TIDA Property, as the Project progresses, and will contain telecommunications facilities for each of the applicable utility providers. As of the date of this Agreement, TIS1 has completed the first phase of the Joint Trench (which includes sections on Yerba Buena Island and a portion of Treasure Island), as shown on Exhibit A-1 attached hereto (“**Phase I**”). Comcast acknowledges that future phases of the Joint Trench will be coordinated and constructed by other affiliates of TICD (and not by TIS1), and that TIS1 shall have the right to assign this Agreement to its successors-in-interest, as further provided in this Agreement. As used herein, the term “**Developer**” shall mean TIS1 (with respect to Phase I), or the then-current assignee of TIS1’s interests under this Agreement (with respect to future phases of the Joint Trench construction), as applicable.

D. That portion of the TIDA Property in which the Joint Trench is located is designated to be transferred to the City of San Francisco (the “**City**”) by public dedication, in phases, upon completion of each applicable phase of the Joint Trench (collectively, the “**Public ROW**”). Phase I is expected to be transferred to the City and become part of the Public ROW by early 2023, with the remaining phases to follow.

E. The parties now desire to enter into this Agreement to memorialize their understanding of the terms and conditions upon which Comcast shall obtain access rights to and ownership of certain facilities in Phase I of the Joint Trench (both prior to and after the Joint Trench becoming a Public ROW), and the process by which Comcast will place its facilities in additional, future phases of the Joint Trench.

Now, therefore, in consideration of (i) the foregoing premises, (ii) the covenants, agreements, representations and/or warranties set forth in this Agreement, and (iii) other good and valuable consideration, the receipt and sufficiency of which are acknowledged by each of the parties hereto, the parties do hereby agree as follows:

Agreement

1. Recitals; Defined Terms. The recitals set forth in paragraphs A through E, inclusive, above, following the preamble at the beginning of this Agreement, are hereby incorporated into this Agreement by reference, as if set forth in full in this Section 1. Defined terms in this Agreement are indicated by initial capital letters.

2. Construction of Joint Trench. Except as otherwise expressly provided in this Agreement, Developer shall design, permit, install and construct the Joint Trench at Developer's sole cost and expense. With respect to Phase I only, TIS1 has constructed the Joint Trench and has also performed installation of the conduit and vaults which (a) are required for Comcast's delivery of the Services to the TIDA Property, and (b) shall be for Comcast's exclusive use in the Joint Trench (collectively referred to herein as the "**Comcast Facilities**"). The approved plans for installation of the Comcast Facilities in Phase I were provided by Power Systems Design, and are listed or described in Exhibit B attached hereto (the "**Plans**"). TIS1 represents that it has caused its contractor(s) and any sub-contractor(s) to manufacture, fabricate, and construct Phase I (and install the Comcast Facilities therein) in a good and workmanlike manner, in compliance with all applicable laws, rules and regulations, in accordance with all manufacturer and installer recommendations and/or requirements, and in accordance with the Plans and City approved permits. Comcast acknowledges that construction of Phase I is complete and that the Comcast Facilities were installed in Phase I by TIS1 in accordance with the Plans. Notwithstanding the foregoing or anything herein to the contrary, Comcast and TIS1 acknowledge and agree that the Comcast Facilities for all future phases of the Joint Trench will be installed in the Joint Trench by Comcast, at its sole cost and expense (and not by Developer), as more particularly described in Section 6 below. The parties agree and acknowledge that Comcast is not a TICD or TIDA contractor or subcontractor for any phase of the Project, nor is Comcast deemed to be a permanent employer with respect to the Project. Further, the parties agree and acknowledge that this agreement is not construed as a construction contract, subcontract, covered commercial operation, or property contract, nor is it the intent of the parties to enter into any construction contract, subcontract, covered commercial operation or property contract hereunder or in the future., The parties agree and acknowledge that Comcast is placing its facilities in the Joint Trench in order to ensure

continued service to its subscribers and pursuant to its regular, nondiscriminatory construction standards.

3. Performance of Construction; Insurance; Inspection.

3.1 Developer shall use reasonable diligence to pursue completion of the Joint Trench within a reasonable period of time after construction is commenced, subject to delays caused by events beyond the reasonable control of Developer, as noted in Section 9.4 below. Developer shall cause its contractor(s) and any sub-contractor(s) to manufacture, fabricate, construct and install the remaining phases of the Joint Trench in a good and workmanlike manner, in compliance with all applicable laws, rules and regulations, in accordance with all manufacturer and installer recommendations and/or requirements, and in accordance with City approved permits. Comcast may, but shall not be required to, provide written notice to Developer in the event that Comcast believes the Joint Trench is not being constructed, maintained, repaired, replaced or reconstructed as required by the terms of this Agreement, and Developer shall perform any corrective work reasonably required to address such issues within thirty (30) days after written notice from Comcast (or as soon as reasonable thereafter given the circumstances).

3.2 Developer shall require the contractor(s) and any sub-contractor(s) constructing or installing the Joint Trench to be properly licensed, maintain insurance and comply with the insurance requirements set forth in Exhibit C attached hereto. During the Access Period (as defined in Exhibit D), Comcast shall pay when due all taxes, assessments and fees levied on the Comcast Facilities and/or on Comcast's other personal property located in or about the Joint Trench within thirty (30) days of invoice from the appropriate taxing authority.

3.3 In the event Comcast requires access to the Project and/or the Joint Trench in order to install and/or maintain any Comcast Facilities in the conduit located in the Joint Trench prior to acceptance of the Joint Trench as a Public ROW, Comcast shall provide advance written notice to Developer indicating the date, time and location of access (which may be in the form of an email), and Developer shall grant Comcast free access to the Project and/or the Joint Trench in order for Comcast to perform installation of, or maintenance on, the Comcast Facilities, provided that all such access to the Joint Trench by Comcast prior to the date such portion of the Joint Trench is accepted as a Public ROW shall (a) be reasonably coordinated with Developer (to avoid unreasonable interference with any work being done by Developer on the proposed access dates submitted by Comcast), and (b) be made in accordance with and subject to of the terms of Exhibit D attached hereto, as well as the remaining terms of this Section 3. Notwithstanding the foregoing, to the extent Comcast performs the installation of any Comcast Facilities within Phase I while the terms of that certain First Amended and Restated Temporary Communications License Agreement dated November 21, 2022, between TIS1 and Comcast (as amended, the "**License**") remain in effect (i.e., before the License expires on or about December 20, 2022), the terms of the License, rather than the terms of Exhibit D attached hereto, shall apply with respect

to Comcast's entries to the Project during such period. All equipment, facilities or other personal property of Comcast installed or located in the Joint Trench shall at all times be insured by Comcast against casualty loss or damage at Comcast's sole cost, and not as part of the Consideration (as defined below), and Developer shall have no liability for any loss or damage thereto. Notwithstanding the foregoing, in the event Comcast requires access to its facilities to perform maintenance in the event of an outage or an emergency, Comcast shall have the right to access the Comcast Facilities without prior written notice, so long as Comcast provides such notice of entry within a reasonable time following such maintenance.

3.4 During the Access Period, all portions of the Comcast Facilities shall be installed and maintained in accordance with FCC regulations, industry standards and governmental laws, rules and regulations, as well as all rules and regulations established by Developer from time to time, provided that such rules and regulations do not materially interfere with Comcast's rights under this MOU or Exhibit D attached hereto. During the Access Period, Comcast will be responsible, at Comcast's sole cost and expense, for obtaining all necessary permits, licenses and approvals in connection with the installation and operation of the Comcast Facilities and any operation of the System (as defined in Exhibit D attached hereto).

3.5 All work performed by Comcast at the Joint Trench during the Access Period shall be (a) completed in accordance with the Initial Plans (as defined in Exhibit D) approved by Developer, and (b) carried out promptly in a good and workmanlike manner. Comcast agrees to repair and/or replace any damage to the Joint Trench and/or other property of Developer that occurs during the Access Period if resulting from the installation, operation and maintenance of the Comcast Facilities, other than any damage caused by Developer's gross negligence or willful misconduct (but in all events subject to the waiver of subrogation required under Exhibit C hereto).

3.6 If, at any time during the Access Period, the relocation of the Comcast Facilities or any portion thereof is necessary due to any renovations or other work at the Joint Trench required by the City or other governmental authorities having control over the Joint Trench, Developer shall have the right to require Comcast, at Developer's sole cost and expense, to temporarily relocate the Comcast Facilities or any portion thereof to the extent necessary for such renovations or other work to be completed, upon at least ten (10) business days advance written notice to Comcast, provided that upon the completion of such renovations or other work, Comcast shall return the Comcast Facilities to their original location at Developer's sole cost and expense; provided, however, in the event Comcast cannot reasonably perform such relocation within such ten (10) business day period, then Developer shall have the right to temporarily relocate the Comcast Facilities as necessary to perform such governmentally required renovations or other work at Developer's sole cost and expense.

3.7 During the Access Period, if any mechanic's, laborer's or materialman's lien shall be filed against the Joint Trench in connection with Comcast's installation or operation of the Comcast Facilities or the System, Comcast shall cause it to be canceled and discharged of record (by bonding over or otherwise paying the lien

amount), within ten (10) business days after notice of the filing thereof (and failure to do so shall be an event of default under this MOU), provided that Comcast may contest in good faith and by appropriate proceedings, at Comcast's sole cost and expense, any such liens so long as Comcast has adequately insured or bonded over such liens. Comcast shall indemnify and hold harmless Developer from any loss incurred in connection therewith during the Access Period.

3.8 Although it is currently contemplated that Comcast and Developer (or its successors or affiliates) will enter into one or more separate agreements (herein, "**Vertical Agreements**") to permit Comcast to (a) construct and/or install and maintain additional facilities on the TIDA Property, as necessary to deliver the Services to users and occupants of the Project, and (b) to connect such additional facilities for the Project to the Comcast's equipment in the Joint Trench, Comcast acknowledges that neither Developer (nor its successors or affiliates) are under any obligation to execute any such additional Vertical Agreements and Comcast's payment of the Consideration is in no way conditioned upon the execution of any such additional agreements for the Project. However, since the Vertical Agreements have not been entered into as of the date hereof, Developer would not be willing to provide or permit installation of the Comcast Facilities in the Joint Trench in accordance with the Plans approved by Comcast without Comcast's agreement to pay the Consideration as provided herein. Nothing in this Agreement shall obligate the parties to execute any Vertical Agreements or to negotiate in good faith, and each party's decision to negotiate or to ultimately execute any Vertical Agreements may be made in such party's sole and unfettered discretion.

4. Payment of Consideration. Comcast shall pay TIS1, and TIS1 shall accept, a one-time payment from Comcast, as consideration for Comcast being provided with space for the Comcast Facilities in the Joint Trench, equal to the sum of Four Hundred Thousand Dollars (\$400,000) (the "**Consideration**"). Comcast shall pay the Consideration to TIS1 (in cash, by wire transfer or otherwise in a manner reasonably acceptable to TIS1) in full within thirty (30) days after execution of this Agreement. The parties agree and acknowledge that the payment described in this Paragraph is a one-time settlement resolving any and all claims by Developer related to Comcast's rights to install and maintain the Comcast Facilities in all phases of the Joint Trench, and shall specifically not be characterized as compensation or reimbursement for any permitting or construction costs related to the Joint Trench or installation of the Comcast Facilities in Phase I by TIS1.

5. Maintenance. From and after completion of the Joint Trench, and continuing until the date that the Joint Trench has been transferred to the City by dedication, and becomes a Public ROW (the "**Transfer Date**"), Developer shall, at all times and at Developer's sole cost and expense, maintain the Joint Trench in good condition and repair and otherwise in a manner consistent with Developer's maintenance of the Project facilities; provided, however, Developer shall have no obligation to repair or maintain any Comcast Facilities or other personal property of Comcast located in the Joint Trench which is for the sole use of Comcast. In the event that the Joint Trench is damaged or destroyed for any reason or by any cause prior to the Transfer Date, Developer shall promptly, at its sole cost, commence repair and/or replacement thereof

using available insurance proceeds, including construction or reconstruction, as appropriate, and thereafter shall diligently prosecute the same to completion (unless such damage or destruction to the Joint Trench is caused by the gross negligence or intentional misconduct of Comcast's contractors or agents (in which event the repairs shall be performed by Developer at the expense of Comcast); provided further, however, Developer shall not be responsible for replacement of any Comcast Facilities or other personal property of Comcast located in the Joint Trench, which shall be repaired replaced at Comcast's sole cost, unless such damage or destruction was caused by the gross negligence or intentional misconduct of Developer's contractors or agents (in which event the repairs shall be performed by Developer at its own cost).

6. Future Phases. For future phases of Joint Trench construction, the parties agree on the following procedures:

6.1 Developer, in conjunction with its construction manager, will conduct a pre-construction meeting for the upcoming phase of Joint Trench construction, and Comcast (and if applicable, Comcast's subcontractor), will attend this meeting. Developer will provide at least 10 business days' prior notice for the pre-construction meeting. Comcast will provide Developer with copies of the Initial Plans (as defined in the REA) for approval.

6.2 Developer will provide a look-ahead schedule at the pre-construction meeting and update the schedule as necessary during construction of the applicable Joint Trench phase. Developer will give Comcast written notice immediately upon any changes to the schedule. The party designated by Comcast to install the Comcast Facilities in such Joint Trench phase (i.e., Comcast's own crews or Comcast's contractor as applicable) will be on-call during the periods identified in the schedule as potential installation windows for the Comcast Facilities.

6.3 Developer will endeavor to give Comcast as much notice as possible when individual sections of the Joint Trench are available for installation of the Comcast Facilities, but will provide a minimum advance notice of 5 business days.

6.4 Comcast will supply all labor, equipment and materials (conduit, boxes, etc.) necessary to complete installation of the necessary Comcast Facilities in the applicable section of the Joint Trench, consistent with the Initial Plans, and will ensure that all materials are delivered to the Project site on or prior to the expected installation date for each given segment, as identified by the schedule.

6.5 If for any reason, other than for a Force Majeure Event (as defined below), Comcast or its contractor do not initiate installation of the required conduit for Comcast Facilities within 5 business days after notice to install for a given segment of the Joint Trench, Developer will install the required conduit for Comcast Facilities in a workmanlike manner and in accordance with applicable law, construction standards and the approved Plans (or the Initial Plans, as applicable) on Comcast's behalf and Comcast will reimburse Developer for the actual cost of the installation. If Developer

exercises its right to install conduit pursuant to the preceding sentence, Comcast hereby retains sole responsibility for the installation and maintenance of the Comcast Facilities located in such conduit. Any such costs of installation by Developer will be determined by an "add-alternate" bid procured at the time the Joint Trench work for the future phase is bid, and if possible will utilize materials previously delivered by Comcast to the Project site (if any).

6.6 Comcast may, but shall not be required to, provide written notice to Developer in the event that Comcast believes the Joint Trench is not being constructed, maintained, repaired, replaced or reconstructed as required by the terms of this Agreement, and Developer shall perform any corrective work reasonably required to address such issues within thirty (30) days after written notice from Comcast (or as soon as reasonable thereafter given the circumstances).

6.7 Developer shall require that Comcast or any subcontractor working on behalf of Comcast be properly licensed and maintain insurance as required of all construction contractors (see Exhibit C).

7. Indemnity.

7.1 Developer shall indemnify, defend (with counsel reasonably approved by Comcast and/or the other indemnitees identified herein, as appropriate) and hold Comcast and its respective officers, directors, board members, agents, representatives, consultants and employees, free and harmless of, from and against any and all claims, demands, losses, liabilities, damages, costs and expenses, including, without limitation, reasonable attorneys' fees, arising out of, resulting from or related to a breach, default or failure of performance by Developer under or pursuant to this Agreement, up to but not in excess of the total amount of Consideration paid by Comcast hereunder. Developer also agrees to use commercially reasonable efforts to enforce any warranties related to the manufacture, fabrication, installation, development, redevelopment, construction, reconstruction, maintenance, repair and/or replacement of the Joint Trench against the appropriate entities.

7.2 Comcast shall indemnify, defend (with counsel reasonably approved by Developer and/or the other indemnitees identified herein, as appropriate) and hold Developer and its respective officers, directors, board members, managers, agents, representatives, consultants and employees, free and harmless of, from and against any and all claims, demands, losses, liabilities, damages, costs and expenses, including, without limitation, reasonable attorneys' fees, arising out of, resulting from or related to a breach, default or failure of performance by Comcast under or pursuant to this Agreement, up to but not in excess of the amount of the total Consideration payable by Comcast hereunder.

7.3 The terms of this Section 7 shall survive the expiration or termination of this Agreement.

8. No Warranties. Except as expressly set forth in this Agreement, Comcast hereby agrees that the Joint Trench shall be taken "as is", "with all faults", without any representations and warranties, and Comcast hereby agrees and warrants that it has investigated and inspected the condition of the Joint Trench and the suitability of same for Comcast's purposes. Comcast shall be responsible for any or all losses or damages resulting from its activities at or around the Joint Trench (including, without limitation, losses or damages resulting from installation and/or removal of the Comcast Facilities and/or related equipment).

9. Miscellaneous; General.

9.1 Successors and Assigns; Third Party Beneficiaries. This Agreement shall be binding on and inure to the benefit of the parties and their respective successors and assigns. Except as otherwise expressly provided in this Agreement, no other persons or entities shall have any rights or remedies under or pursuant to this Agreement. As provided hereinabove, TIS1 shall have the right, at any time, upon notice to Comcast, to assign all of its interest in this Agreement to TICD, or to any other affiliate of TICD who will be assuming construction obligations for the Joint Trench, without the consent of Comcast; provided, however, (a) no assignment of the interests of TIS1 in this Agreement or the Project prior to completion of construction of the Joint Trench shall be binding on Comcast unless and until written notice of such assignment shall be delivered to Comcast, and (b) any assignment by TIS1 to an entity which is not an affiliate of TIS1 or TICD prior to completion of construction of the Joint Trench shall require the prior written consent of Comcast; however, such consent not to be unreasonably withheld, conditioned or delayed. The foregoing terms and provisions of this Section 9.1 shall not limit the rights and remedies of Comcast, including, without limitation, its successors-in-interest, successors and assigns, or the obligations, liabilities and duties of TIS1, including, without limitation, its successors-in-interest (in and to the TIDA Property or any part of it or otherwise), successors and assigns; provided that upon any assignment of this Agreement by TIS1 to TICD or an affiliate of TICD, TIS1 shall be released from all liabilities arising under this Agreement from and after the date of such assignment (and the assignee of TIS1's interests shall be solely liable for the performance of Developer's obligations arising hereunder from and after such assignment date).

9.2 Regulatory Compliance.

9.2.1 All construction performed by Developer and Services provided by Comcast shall be performed in compliance with all federal, State, county, city, and other jurisdictional laws, statutes, regulations, ordinances, requirements, and standards in effect at the time that such performance is rendered, including, without limitation, San Francisco Administrative Code, Chapter 12B (Nondiscrimination in Contracts) (specifically §§ 12B.2(a), 12B.2(c)-(k), and 12C.3) and Chapter 12Q (Health Care Accountability) (both Chapters are incorporated herein by reference).

9.2.2 Developer shall be subject to certain regulatory requirements applicable to the Project as outlined in Exhibit E attached hereto.

9.2.3 Comcast shall comply with, and shall require its agents, employees, subconsultants to comply with all federal, state and local requirements applicable to video franchise providers (including without limitation the terms and provisions referenced in Exhibit E to the extent applicable to Comcast in performing its obligations hereunder).

9.3 Attorneys' Fees. In any legal action or proceeding between the parties hereto seeking enforcement of or attempting to construe any of the terms and provisions of this Agreement, including, without limitation, any proceeding seeking legal, declaratory or other relief, the prevailing party in such action or proceeding shall be awarded, in addition to damages, injunctive and/or other relief, its reasonable costs and expenses and reasonable attorneys' fees.

9.4 Time of Essence; Force Majeure. Time is of the essence of and with respect to this Agreement, including, without limitation, each and every term and provision of this Agreement. However, notwithstanding the foregoing, neither party shall be responsible or liable for any failure or delay in the performance of their respective obligations to construct or maintain the Joint Trench or Comcast Facilities, as applicable, under or pursuant to this Agreement to the extent, but only to the extent, the same arises out of, results from or is caused, directly or indirectly, by circumstances which were not reasonably foreseeable at the time of this Agreement and which are beyond such party's reasonable control, including, without limitation, the following: Acts of God; earthquakes; fire; flood; wars; acts of terrorism; civil or military disturbances; sabotage; pandemics or epidemics; riots; interruptions, loss or malfunctions of utilities, computer (hardware or software) or communications services; accidents; unusual supply chain shortages; labor disputes or unusual shortages in labor; and acts of civil or military authority or governmental action (any such circumstances being a "Force Majeure Event"). It is understood and agreed by the parties that, in connection with a delay in accordance with the foregoing, the party whose performance is delayed shall use commercially reasonable efforts which are consistent with accepted practices in the construction and/or maintenance/management of such party, as appropriate, to resume performance as soon as reasonably practicable under the circumstances.

9.5 Notices. All notices, requests, demands, and other communications required under or pursuant to this Agreement shall be in writing, and shall be deemed to have been duly given if delivered (i) personally, (ii) by overnight delivery with a reputable national overnight delivery service, or (iii) by mail or by certified mail, return receipt requested, and postage prepaid. If notice is given to a party, it shall be given at the address for such party set forth below and shall be deemed given upon delivery or the date delivery is rejected. It shall be the responsibility of each party to notify the other Party in writing of any name or address changes.

9.6 Governing Law; Construction; Severability. This Agreement shall be governed by and construed as well as interpreted in accordance with the laws of the State of California. This Agreement shall not be construed as if it was prepared by either party, but rather as if both parties had prepared the same. If any provision of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force and effect without being impaired or invalidated in any way.

9.7 Entire Agreement; Exhibits. This Agreement sets forth the entire agreement and understanding of the parties related to the subject matter hereof, including, without limitation, construction the Joint Trench, transfer of the Joint Trench to the Public ROW, and the Consideration; and no prior or contemporaneous agreement(s) or understanding(s), whether oral or written, pertaining to any such matters shall be effective for any purpose(s). The Exhibits attached to this Agreement are hereby incorporated into this Agreement by this reference.

9.8 No Joint Venture; Amendment. This Agreement may be amended, modified, superseded, rescinded, or canceled only by a written instrument executed by the parties.

9.9 Limits of Liability. In no event shall any personal liability be asserted against the respective partners, shareholders, members, directors, employees or agents of Developer or Comcast in connection with this Agreement. Except for the gross negligence or intentional misconduct of Developer, Developer shall not be liable to Comcast, and Comcast hereby waives all claims against Developer, its partners, shareholders, members, directors, employees or agents, for any damages arising from any act, omission or neglect of any other party who has rights to lawfully use the Joint

Trench. Notwithstanding anything to the contrary herein, neither party shall be liable to the other party for any lost profits, special, incidental, punitive, exemplary or consequential damages, including but not limited to frustration of economic or business expectations, loss of profits, loss of capital, cost of substitute product(s), facilities or services, or down time cost, even if advised of the possibility of such damages.

9.10 Waivers. Any waiver of any rights under this Agreement shall be effective only if in writing, signed by the waiving party. The failure of any party to this Agreement at any time or times to require performance of any provision under this Agreement shall in no manner affect the right at a later time to enforce the same performance. A waiver by any party to this Agreement of any such condition or breach of any term, covenant, representation, or warranty contained in this Agreement, in any one or more instances, shall neither be construed as a further or continuing waiver of any such condition or breach nor a waiver of any other condition or breach of any other term, covenant, representation, or warranty contained in this Agreement.

9.11 Headings. Section, Subsection and other headings of this Agreement have been inserted for convenience of reference only and shall in no way restrict or otherwise modify any of the terms or provisions of this Agreement.

9.12 Subordination. Comcast accepts this Agreement subject and subordinate to any mortgage, deed of trust or other lien presently existing or hereafter arising upon the Joint Trench and to any renewals, modifications, consolidation, refinancing, and extensions thereof. This provision is hereby declared to be self-operative and no further instrument shall be required to effect such subordination of this Agreement; provided, however, Comcast agrees to cooperate with Developer in its efforts, if any, in seeking any lender consent(s) and/or subordination(s) required prior to the Transfer Date.

9.13 Counterparts. This Agreement may be executed in one or more counterparts, each of which when executed shall be deemed to be an original, and such counterparts shall together constitute one and the same instrument.

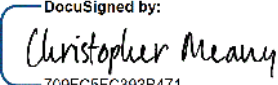

9.14 Further Assurances. TIS1 and Comcast each agree to do such other and further acts and things and to execute and deliver such additional agreements and instruments, at no additional cost and with no additional liability, as the other may reasonably require to consummate, evidence or confirm the agreements contained herein in the manner contemplated hereby.
