The applicant is applying for a Prohousing Designation under the Prohousing Designation Program (“**Prohousing**” or “**Program**”), which is administered by the Department of Housing and Community Development (“**Department**”) pursuant to Government Code section 65589.9.

The Program creates incentives for Jurisdictions that are compliant with State Housing Element Law and that have enacted Prohousing Policies. These incentives will take the form of additional points or other preference in the scoring of applications for competitive housing and infrastructure programs. The administrators of each such program will determine the value and form of the preference.

In order to be considered for a Prohousing Designation, the applicant must accurately complete all sections of this application, including any relevant appendices. The Department reserves the right to request additional clarifying information from the applicant.

This application is subject to Government Code section 65589.9 and to the regulations (Cal. Code Regs., tit. 25, § 6600 et seq.) adopted by the Department in promulgation thereof (“**Regulations**”). All capitalized terms in this application shall have the meanings set forth in the Regulations.

All applicants must submit a complete, signed application package to the Department, in electronic format, in order to be considered for a Prohousing Designation. Please direct electronic copies of the completed application package to the following email address: ProhousingPolicies@hcd.ca.gov.

A complete application will include all items identified in the Application Checklist.

In relation to **Appendix 1**, the Formal Resolution for the Prohousing Designation Program, please use ~~strike through~~ and underline if proposing any modifications to the text of the Resolution. Please be aware, any sustentative deviations from the Formal Resolution may result in an incomplete application and will likely be subject to additional internal review and potential delays.

Appendix 2, the Proposed Policy Completion Schedule, applies only if an application includes proposed policies.

Appendix 3, Project Proposal Scoring Sheet and Sample Project Proposal Scoring Sheet, includes a blank template to be completed by the applicant as part of the application, as well as a Sample Project Proposal Scoring Sheet with an example of how this template may be completed.

Appendix 4 lists examples of Prohousing Policies with enhancement factors to aid applicants in understanding how enhancement factors may be applied.

Appendix 5 is where the applicant will include any additional information and supporting documentation for the application.

If you have questions regarding this application or the Program, or if you require technical assistance in preparing this application, please email ProhousingPolicies@hcd.ca.gov.

3D	Accelerating innovative housing production through innovative housing types (e.g., manufactured homes, recreational vehicles, park models, community ownership, and other forms of social housing) that reduce development costs.	San Francisco has used modular construction for many projects, including: Maceo May, 1064 Mission, and Mission Bay South Block 9, and 833 Bryant (Tahanan). In addition, the City supported 833 Bryant's use of innovative financing to reduce development costs. Qualifying policies include, but are not limited to, publicly funded programs to expand sidewalks or protect bike/micro-mobility lanes, creation of on-street parking for bikes, transit-related improvements, or establishment of carshare programs.	SFMTA currently supports: a roughly \$5M (checking this #) annual quick-build program (3rd Street, Folsom, e.g.), for protected lanes for cyclists, powerchair, and scooter users; an update to San Francisco's Biking and Rolling Plan to continue to produce a well-connected, safe network for active transportation users over the next 5-15 years; the expansion of San Francisco's safe and reliable rapid transit network with the Muni Forward Project to meet the city's housing goals; and the Muni Metro Modernization project which repairs and upgrades Muni core systems to anchor future service.
