

San Francisco Department of Public Health Division of Behavioral Health Services

Regents of the University of California – Behavioral Health Services for High-Risk Transitional-Aged Youth, Adults, and Older Adults (Citywide)

San Francisco Board of Supervisors, Budget & Finance Committee
April 24, 2024

Angelica Almeida, Ph.D.
Director, Adult/Older Adult System of Care
Behavioral Health Services
San Francisco Department of Public Health

San Francisco Health Network
Behavioral Health Services

Summary of Services

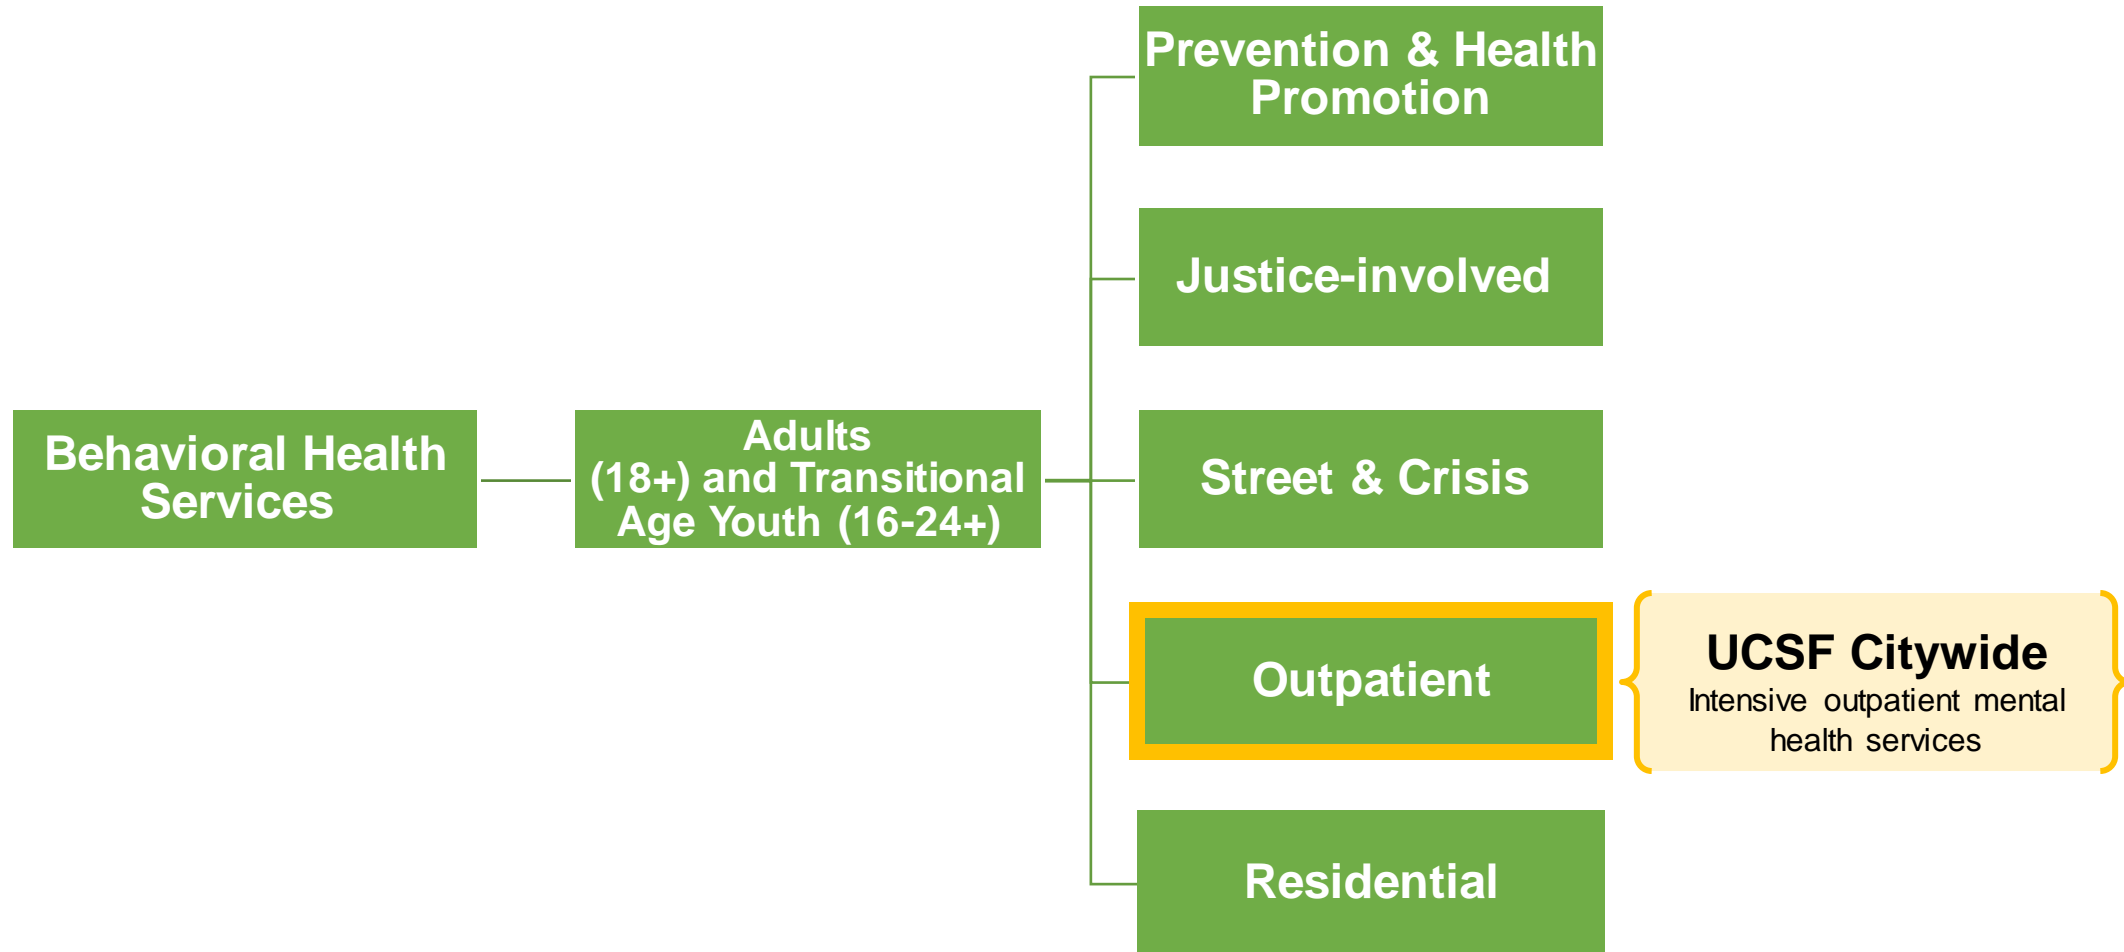

Under the proposed agreement, the University of California San Francisco (UCSF) would continue to provide intensive outpatient mental health and supportive services to reduce unnecessary institutional care for individuals with serious mental illness. Programs include:

- **UC Citywide Focus:** Provides Intensive Case Management (ICM) services to transitional-age youth, adults, and older adults with the highest mental health and social service needs. Contracted to serve 480 clients/year.
- **UC Citywide Forensic FSP:** Provides Full-Service Partnership services to transitional-age youth, adults, and older adults with the highest mental health and social service needs and forensic involvement. Contracted to serve 175 clients/year.

Fit into Overall System of Care

San Francisco Health Network
Behavioral Health Services

UCSF Citywide Services

- The UCSF Citywide programs are two of SFDPH's 10 Intensive Case Management / Full-Service Partnership programs. Intensive outpatient programs serve approximately 1,000 clients across San Francisco.
- In the past two fiscal years, Citywide programs have exceeded their contracted unduplicated client count. Citywide serves >50% of all ICM clients.
- Citywide serves individuals in every neighborhood but most clients are from the Tenderloin, South of Market, Bayview, Mission, and Chinatown.
- The majority of Citywide clients have a history of homelessness and co-occurring substance use.

Behavioral Health Services

UCSF Citywide Services

- Referral
 - Individuals are referred to UC Citywide Focus Intensive Case Management through OCC, treatment providers, jail, hospital, community providers.
 - Individuals with forensic involvement are primarily referred by Jail Behavioral Health Services, as well as OCC, hospital, treatment providers, and community providers.
- Intensive case management and Full-Service partnership services include field-based care, care coordination, and development of life skills to improve impairments.
- Services are provided for as long as is clinically needed.
- Next steps:
 - Clients may transition to a lower level of care when meeting criteria including active treatment engagement, a reduction in institutional care needs, and stable housing and health care, among other criteria, for an extended period.

Retroactivity

We respectfully request **retroactive authorization** of this contract.

- **This contract is retroactive due to delays in agreement finalization** between the Regents of the University of California and SFDPH because of UC's disagreement with the City's computer system access and data sharing agreement.
- Following extensive negotiations between the University of California and DPH, the University of California and the City came to an agreement on contract terms, especially with respect to data sharing clauses.

Proposed Contract Amendment

- DPH requests approval of proposed agreement as amended

Thank You
