Density Calculation in RC, RTO, NC, and Certain Named NCDs
Board File No. 230734

Planning Commission Recommendation: Disapproved by Operation of the Code

Dear Ms. Calvillo, Supervisor Peskin, Supervisor Melgar, and Mayor Breed,

On May 23, 2024, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance, sponsored by the Mayor and Supervisor Melgar with substantive amendments made by Supervisor Peskin. The ordinance would amend the Planning Code to allow density exceptions on lots subject to Numerical Density Limits. At the hearing the Planning Commission put forward a motion to approve the ordinance. This motion failed and no other motion was made. As such, the ordinance was deemed disapproved by operation of the Code.

The proposed amendments were covered in the San Francisco Housing Element 2022 Update Environmental Impact Report (EIR), which was certified on November 17, 2022, through Motion No. 21206.

If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

Aaron D. Starr
Manager of Legislative Affairs
