

GENERAL PLAN REFERRAL NOTE TO FILE

May 16, 2024

CASE NO. 2019-012559GPR
1515 South Van Ness Avenue

On June 18, 2019, the Planning Department completed a General Plan Referral (GPR) for the acquisition of 1515 South Van Ness Avenue by the City for the purpose of constructing a 100% affordable housing project. The site had previously been entitled for a 157-unit housing development in Planning Commission Motion M-19727, case number 2014.1020CUA. Since the GPR was issued, the 100% affordable housing project has been designed to include approximately 168 units.

This Note to the File clarifies that (1) a 100% affordable housing project with approximately 168 units is also consistent with the General Plan and Planning Code Section 101.1 for the reasons set forth in 2019-012559GPR; and (2) the Board of Supervisors can rely on the General Plan and Planning Code Section 101.1 Consistency Findings set forth in 2019-012559GPR for the sake of the action that is now before them.

PROJECT DESCRIPTION

The Mayor’s Office of Housing and Community Development is proposing to purchase the property at 1515 South Van Ness Avenue and construct a 100% affordable housing project on the site. The site is currently occupied by a one-story, vacant commercial property, and has been entitled for up to 157 units of housing and 1,074 square feet of retail. The Mayor’s Office of Housing and Community Development intends to construct affordable housing on the site, and is conducting further analysis to refine a project for the site.

ENVIRONMENTAL REVIEW

The acquisition of this property is not a project under CEQA Guidelines Sections 15060(c) and 15378 because there is no direct or indirect physical change in the environment. Any future development projects at this site would be evaluated and potentially subject to environmental review.

PROPOSITION M FINDINGS – PLANNING CODE SECTION 101.1

Planning Code Section 101.1 establishes Eight Priority Policies and requires review of discretionary approvals and permits for consistency with said policies. The Project, demolition and replacement of the Chinese Recreation Center, is found to be consistent with the Eight Priority Policies as set forth in Planning Code Section 101.1 for the following reasons:

Eight Priority Policies Findings

The subject project is found to be consistent with the Eight Priority Policies of Planning Code Section 101.1 in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced.

The existing commercial building on the site is currently vacant. It is not yet known whether the project MOHCD intends to construct will include retail spaces on the ground floor, which could provide future opportunities for neighborhood-serving retail uses and employment.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

The site contains no existing housing. The construction of a 100% affordable housing project on the site is likely to enhance the cultural and economic diversity of the neighborhood.

3. That the City's supply of affordable housing be preserved and enhanced.

The acquisition of this site would allow the construction of permanently affordable housing, enhancing the City's supply of affordable housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.

The Project would not result in commuter traffic impeding MUNI's transit service, overburdening the streets or altering current neighborhood parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for residential employment and ownership in these sectors be enhanced.

The Project would not adversely affect the City's economic base or future opportunities for employment and/or ownership. The future affordable housing project on the site will increase opportunities for residential employment in our industrial and service sectors by offering permanently affordable housing units for low-income households and families.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.

The Project would not adversely affect achieving the greatest possible preparedness against injury and loss of life in an earthquake. The affordable housing project to be constructed on the site would be required to meet all applicable building code seismic standards.

7. That landmarks and historic buildings be preserved.

This Project would not adversely affect any landmarks or buildings of historic significance.

8. That our parks and open space and their access to sunlight and vistas be protected from development.

The acquisition of the site would not adversely affect any parks or open space. The affordable housing project to be constructed on the site would undergo review to ensure it doesn't create a negative impact to sunlight and vistas to our parks and open space.
