Dear Members of the Board of Supervisors,

I am writing on behalf of the Housing Action Coalition, GrowSF, SF YIMBY, TogetherSF Action, and Bay Area New Liberals to formally present our petition advocating for the development of housing in the Candlestick area.

Our community is facing a growing need for more housing, and it's becoming increasingly urgent. Our petition captures the shared voices of residents who are eager to see real progress in tackling these housing shortages. We believe that the proposed development will not only provide much-needed homes but will also improve the overall quality of life in our neighborhood.

Attached to this email, you will find two documents: a letter, urging prompt action on this vital project, as well as a PDF listing the residents who have signed the petition in support of our initiative. We kindly ask that you review the attached documents and consider our request for support in moving this project forward. We are hopeful for a positive response and appreciate your support.

Thank you for your time and consideration. Please let me know if you have any questions.

--

October 16, 2024

San Francisco Board of Supervisors

1 Dr Carlton B Goodlett Pl,

San Francisco, CA 94102

President Peskin and Members of the SF Board of Supervisors,

The Housing Action Coalition (HAC) is pleased to endorse Five Point's Candlestick project. After a detailed presentation, HAC's Project Review Committee has determined this project exceeds our high standards in addressing the regional housing shortage, affordability, and displacement crisis.

Our committee was impressed by the large number of homes this project will provide, totalling 7,218 new homes. This project will help meet the state-mandated goal of 82,000 new homes with an astounding **32% being dedicated to affordable housing**. The project also includes a completed Alice Griffith public housing complex that brings 337 100% affordable homes to the area.

The committee was pleased with the project team's emphasis on vibrant design to bring parks, open spaces, and other community-serving destinations to the area. Utilizing a street network system, the project's walkability and multimodal environment will help to ensure safety and convenience, with a diverse set of transportation options. In total, the project will provide 105 acres of new and improved public parks and open space, with a modernized and green Willie Mays Park.

The committee was excited to learn that the project has already contributed over $136 million towards community contributions and successes, including a Business Incubator Space Program, affordable housing, an education and scholarship fund, and workforce and job training. In addition, the project will create over 4000 construction jobs and 8000 permanent jobs across the entire new area which include offices, retail, restaurants, hotels, and many more.

The committee praises the project for its exceptional commitment to environmentally conscious design principles. The project is set to attain LEED Gold rating for Neighborhood Development in accordance with the City's Green Building Ordinance. Moreover, it plans to plant up to 10,000 new trees across public spaces and surrounding acres. Additionally, there will be a 51% reduction in potable water demand achieved through reclaimed water, surpassing Title 24 energy standards for the new buildings by 15%.

Overall, the committee is pleased to support the Candlestick project. With its commitment to creating more dense and affordable homes, great design and open space, and environmental sustainability, Candlestick is an exceptional example of a large-scale project that addresses our state's housing crisis by bringing thousands of new homes for all.

Sincerely,

**Corey Smith**, *Executive Director*

**RE: Candlestick Development**

As a long-time resident of Bayview Hunters Point, I strongly support the Candlestick Point project. This development promises significant benefits for our neighborhood and San Francisco as a whole.

I recently attended a community workshop hosted by FivePoint and learned about their updated project plans for Candlestick. Responding to changes in the retail landscape, and concerns from the community, the project now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents are currently living without.

During the workshop, it was mentioned that there will be over 3000 jobs in this next phase of development, and nearly 700 homes. District 10 desperately needs more housing options, and there is always a need for more employment. We also need the parks and opportunities for new business that are being promised as well.

I and other residents are happy that the project is finally restarting. We have been living with the empty space while other projects in the city move forward. My fear is not that a few residents who are in opposition will have a greater say-so than the majority of the community who want the benefits the project will bring. It would be terrible if Candlestick will not someday turn into the homes and businesses for D10 residents.

I implore you and other City departments to treat this project with the same urgency as other projects and move it forward. This project can add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. However, timely action is essential to prevent further delays and ensure we seize his vital opportunity for the Bayview.

Sincerely,

Dr Arelious Walker

RE: Candlestick Development

As a long-time resident of Bayview Hunters Point, I strongly support the Candlestick Point project. This development promises significant benefits for our neighborhood and San Francisco as a whole.

I recently attended a community workshop hosted by FivePoint and learned about their updated project plans for Candlestick. Responding to changes in the retail landscape, and concerns from the community, the project now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents are currently living without.

During the workshop, it was mentioned that there will be over 3000 jobs in this next phase of development, and nearly 700 homes. District 10 desperately needs more housing options, and there is always a need for more employment. We also need the parks and opportunities for new business that are being promised as well.

I and other residents are happy that the project is finally restarting. We have been living with the empty space while other projects in the city move forward. My fear is not that a few residents who are in opposition will have a greater say-so than the majority of the community who want the benefits the project will bring. It would be terrible if Candlestick will not someday turn into the homes and businesses for D10 residents.

I implore you and other City departments treat this project with the same urgency as other projects and move it forward. This project can add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. However, timely action is essential to prevent further delays and ensure we seize his vital opportunity for the Bayview.

Respectfully,

Queen Vanessa Banks

Hunters Point Native.

**RE: Support for Five Point's Candlestick project**

Dear Board of Supervisors:

SF YIMBY is pleased to support the proposed Candlestick project from Five Point. This project would provide thousands of new homes for current and future San Franciscans, with 7,218 proposed homes included. This project will help meet the state-mandated goal of 82,000 new homes by 2031 and would especially help with our affordable requirements, with 32% being dedicated to that.

This project would also bring several other amenities to Candlestick Point, adding new parks, green space, and other community benefits, with 105 acres of planned parks and open space. These are just some of the benefits, including numerous investments in the local community that this large-scale project will bring to the neighborhood.

SF YIMBY is a party of YIMBY Action, a network of pro-housing activists fighting for more inclusive housing policies. Our vision is an integrated society where every person has access to a safe, affordable home near jobs, services, and opportunity.

San Francisco's severe housing shortage is causing skyrocketing homelessness and poverty, crippling our economy, and leading to debilitating commutes that exacerbate our global climate crisis. These impacts fall disproportionately on our city's low-income workers and families, and disproportionately deny communities of color access to opportunity.  If we strive to be a society that advances racial and class justice, we must do more to ensure abundant housing in our region. This project will help address the housing shortage and ensure a welcoming San Francisco where everyone can thrive.

Best regards,

Jane Natoli,
San Francisco Organizing Director

Dear SF Board of Supervisors and Clerk of the Board: It has come to my attention that some of the letters of support for the project sent directly to your attention by members of the community were not received, have been misplaced, or have otherwise not made it into the packet of project information being assembled for members.

Consequently, I have tracked down eight of those letters, and have included them here.

Please acknowledge receipt.

Thank you.

Best Regards,

*La Shon*

RE: Candlestick Development

As a resident of Bayview Hunters Point and business owner, who started her business here in San Francisco, I strongly support the Candlestick Point project. This development promises significant benefits for our neighborhood and San Francisco as a whole.

Responding to changes in the retail landscape, and concerns from the community, FivePoint now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents, like me, are currently living without.

I support the plan for spaces being set aside for local businesses and would love to be able to have my business in the Candlestick development. However, that won't be an option if the project does not go forward.

My family and I are happy that the project finally has a real chance to restart. We have been living with the empty space while other projects in the city move forward. It would be terrible if Candlestick will not someday turn into the homes and businesses for D10 residents.

This project can add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. Please move forward with approvals.

Sincerely,

Rio Miura

Bayview Hunters Point resident/Entrepreneur

RE: San Francisco's Candlestick Development

Dear San Francisco Board of Supervisors,

As a Bay Area resident who lived in San Francisco for a decade, I strongly support the Candlestick Point project. This development promises significant benefits for San Francisco and the entire region.

While we now live across the Bay, my family and I still visit San Francisco often. I have long hoped to see more services and amenities in the city's southernmost neighborhoods, so when I heard about the Candlestick Development project, I was thrilled. My two daughters, now in their twenties, were born in San Francisco and would love the chance to return some day. I would love for them to have the opportunity to purchase a home in the city, as their father and I did in 1995. However, given San Francisco's slow pace of housing development and lack of homes for those unable to afford astronomical prices, doing so seems impossible.

With its promise of over 7,000 homes, the Candlestick project is the perfect antidote to San Francisco's housing crisis. The other much needed amenities it will provide to the community, its residents, and visitors like me are a fantastic bonus.

I urge you and other City departments to move this project forward. Timely action is essential to prevent further delays and ensure we seize this vital opportunity for San Francisco and the entire Bay Area.

Sincerely,

M. Clemmons|
Bay Area resident

RE: Candlestick Development

My family has been in Bayview Hunters Point since my grandparents arrived in California in the 1930s. I have dedicated most of my adult life to serving the community in the footsteps of my grandmother, Dorris M. Vincent. Recently, I was a founding member of the Implementation Committee, representing Faith in Action. As a lifelong Bayview resident, I strongly support the Candlestick Point project, as it promises significant benefits for our neighborhood and San Francisco as a whole. In response to changes in the retail landscape and community concerns, the project aims to attract more research and development businesses while still providing the necessary housing and other amenities our community currently lacks.

The next development phase will bring over 3000 jobs and nearly 700 homes. District 10 desperately needs more housing options, and more job opportunities are always welcome. Additionally, the promised parks and opportunities for new businesses are much needed.

I am thrilled that the project is finally restarting, as we have been living with the empty space while other projects in the city move forward. However, I fear that a few opposition residents may have more influence than most of the community who support the project. It would be a great disappointment and a missed opportunity if Candlestick remains undeveloped and does not become a home and business area for District 10 residents.

This project has the potential to significantly enhance our neighborhood, stimulate economic growth, and improve the quality of life for residents. However, the urgency of this matter cannot be overstated. Timely action is crucial to prevent further delays and ensure that we take advantage of this vital opportunity for Bayview. I urge you and other city departments to treat this project with the utmost urgency and move it forward.

Sincerely,

Alise Vincent
Bayview Hunters Point resident
Founding AD10/Implementation Committee Member

RE: Candlestick Development

The San Francisco African American Faith-Based Coalition (SFAAFBC) is a coalition of 21 churches working together to address the health inequities among African Americans in our city. Our mission is to mobilize and provide resources to eliminate health disparities and inequities in communities of people of color in San Francisco. We strongly support the Candlestick Point project. This development promises significant benefits for our neighborhood in which many of our churches resides and San Francisco as a whole.

Several members of the SFAAFBC attended a community workshop hosted by FivePoint and learned about their updated project plans for Candlestick. Responding to changes in the retail landscape, and concerns from the community, the project now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents are currently living without.

During the workshop, it was mentioned that there will be over 3000 jobs in this next phase of development, and nearly 700 homes. District 10 desperately needs more housing options, and there is always a need for more employment. We also need the parks and opportunities for new business that are being promised as well.

The SFAAFBC and other residents are happy that the project is finally restarting. We have been living with the empty space while other projects in the city move forward. Our fear is not that a few residents who are in opposition will have a greater say-so than the majority of the community who want the benefits the project will bring. It would be terrible if Candlestick will not someday turn into the homes and businesses for D10 residents.

The San Francisco African American Faith-Based Coalition implores you and other City departments treat this project with the same urgency as other projects and move it forward. This project can add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. However, timely action is essential to prevent further delays and ensure we seize his vital opportunity for the Bayview.

Sincerely,

RE: Candlestick Development project

As a San Francisco native and resident of the Bayview Hunters Point for the past fifty five years, I am writing to you to express my support for the continuation of the Candlestick project. The benefits of the project to our neighborhood and San Francisco are very much desired and needed to move our community forward.

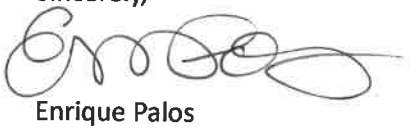
At a recently attended community workshop hosted by Five Point, I learned of the updated project plans for Candlestick. Responding to changes in the retail landscape, and concerns from the community, the project now aims to attract more research and development business while still providing the housing and other amenities that the community and its residents are currently living without. It is time for the Bayview Hunters Point community to be able to benefit from this and secure our future of continued success.

At this workshop, it was mentioned that there will be over 3000 new jobs in this next phase of development, and nearly 700 homes. District 10 desperately needs more housing options, and there is always a need for more jobs in our community. We are also in great need of the parks and opportunities for new business that are being promised as well.

My fellow neighbors and I are happy that the project has finally restarted. We have been living with the empty space as we watch other projects in the city move forward and come to completion. My greatest fear is that a few residents in opposition will have a greater say-so than the majority of the community that is completely in favor of the benefits this project will bring to our neighborhood.

It is time for the Bayview Hunters Point neighborhood to have the same economic and residential opportunities as other neighborhoods in this city. I implore you and other city departments treat this project with the same urgency as other projects and move this forward now. This project can positively add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. It is pertinent that timely action is taken to prevent further delays and ensure we seize this vital opportunity that Bayview Hunters Point deserves. I thank you for your time and consideration of this request.

Sincerely,



Enrique Palos

| **Subject:** | Support for Moving the Candlestick Development Project Forward |
| **Date:** | Friday, September 13, 2024 2:39:44 PM |

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Commissioners,

I hope this message finds you well. As President of the Dogpatch Business Association and small business owner in the Dogpatch community, I'm writing to express our enthusiastic support for moving the Candlestick Development project forward without delay. This development holds great promise for southeast San Francisco.

Recently we learned about updated plans for Candlestick. Responding to shifts in the retail landscape and community feedback, the project now aims to attract more research and development businesses, while continuing to provide the housing and amenities our neighborhood has been waiting for.

This next phase of development promises to bring over 3,000 jobs and nearly 700 homes—both of which are sorely needed in District 10. The parks, businesses, and other opportunities this project could bring would be a tremendous benefit to the community.

Many of us in the neighborhood are excited that the project is finally restarting, especially after seeing other parts of the city move forward while we've waited with an empty space. My concern is that the voices of a small group in opposition might overshadow the desires of the majority who are eager to see the benefits this project will provide. It would be a missed opportunity if Candlestick doesn't become the vibrant home and business hub that our district needs.

I kindly urge you and the other City departments to treat this project with the same sense of urgency as others, ensuring it moves forward. This development has the potential to uplift our neighborhood, stimulate economic growth, and improve the quality of life for southeast San Francisco businesses and residents. Timely action is crucial to avoid further delays and fully seize this opportunity for our community.

Thank you for your time and consideration.

Warm regards,

Adam

Dear SF Planning, Supervisors and Mayor,

I am writing to support the Candlestick Point project by FivePoint. This development offers significant benefits to our neighborhood and San Francisco as a whole, will finally bring improvements and investment at a large scale to this neglected area.

The project will overall bring over 7000 new homes, jobs, commercial space and help fund, parks and street improvements. The amendments proposed are helping to unlock a stalled project. The next phase of the development alone, over 600 residential units would be delivered.

Like many residents, I am pleased to see this project moving forward after years of delay. My concern is that opposition from a few could outweigh the majority who support the project and its benefits. This area cannot be left to sit vacant and attract blight to the community any longer. Our streets are in disparate condition, the Candlestick State Park is underfunded, and the area attracts extensive illegal dumping.  Moving this development forward will resolve many of these issues.

I urge you and other City departments to prioritize this project, ensuring timely delivery of this project. It will stimulate economic growth, improve quality of life, and provide essential resources for current and future Bayview residents and businesses.

Regards,
Peter Belden

Dear SF Planning, Supervisors and Mayor,

As a resident in Bayview, I am writing to support the Candlestick Point project by FivePoint. This development offers significant benefits to our neighborhood and San Francisco as a whole, will finally bring improvements and investment at a large scale to this neglected area.

The project will overall bring over 7000 new homes, jobs, commercial space and help fund, parks and street improvements. The amendments proposed are helping to unlock a stalled project. The next phase of the development alone, over 600 residential units would be delivered.

Like many residents, I am pleased to see this project moving forward after years of delay. My concern is that opposition from a few could outweigh the majority who support the project and its benefits. This area cannot be left to sit vacant and attract blight to the community any longer. Our streets are in disparate condition, the Candlestick State Park is underfunded, and the area attracts extensive illegal dumping.  Moving this development forward will resolve many of these issues.

I urge you and other City departments to prioritize this project, ensuring timely delivery of this project. It will stimulate economic growth, improve quality of life, and provide essential resources for current and future Bayview residents and businesses.

Regards,
Odilie Orantes

RE: Candlestick Development

As a long-time resident District 10, I strongly support the Candlestick Point project. This development promises significant benefits for our neighborhood and San Francisco as a whole.

I recently attended a community workshop hosted by FivePoint and learned about their updated project plans for Candlestick. Responding to changes in the retail landscape, and concerns from the community, the project now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents are currently living without.

During the workshop, it was mentioned that there will be over 3000 jobs in this next phase of development, and nearly 700 homes, including low income as well as BMR, and market rate.

District 10 desperately needs more housing options.

There is always a need for more guaranteed local employment.

We also need the parks and opportunities for new business that are being promised as well.

I and other residents are happy that the project is finally restarting.

We have been living with the empty space while other projects in the city move forward.

My fear is that but a few residents who are in opposition will have a greater say-so than the majority of the community who want the benefits the project will bring.

It would be terrible if Candlestick will not someday turn into the homes and businesses for D10 residents.

I implore you and other City departments to treat this project with the same urgency as other projects and move it forward. This project can add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. However, timely action is essential to prevent further delays and ensure we seize his vital opportunity for the Bayview.

Sincerely,

Brenda Beebe

**RE: Candlestick Development – MOVE THIS PROJECT FORWARD NOW!**

Dear Commissioners:

As President of the Bayview Hill Neighborhood Association and a resident of the Bayview community, I am writing to express our support moving the Candlestick Development project forward NOW. This development promises significant benefits for our neighborhood and San Francisco as a whole.

As a community group, active since 1984 and incorporated as a California 501(c)3 non-profit organization in 1990, members of the Bayview Hill Neighborhood Association are residents of the Southeast sector of San Francisco and represent residents/homeowners who live and work in the area from Williams/Van Dyke Avenues to the San Francisco County line and from the Bayshore Freeway to Candlestick Point. We are all committed to making our neighborhood a safe, clean, and well-maintained place to live and raise our children. Our all-volunteer Association meets monthly to discuss neighborhood concerns and provide an opportunity for city and other government agents, developers and other interested parties to meet directly with residents. Our mission is to combat neighborhood deterioration by being a concerned, informed and watchful group of residents that protect the wellbeing of our community through our united voice and actions.

As one of the oldest neighborhood organizations in the area, we are a witness to the sweeping changes in population and diversity of this community. As a long-time Bayview resident, I have also witnessed the rise of homelessness in San Francisco, the evolution of service-based strategies such as "Care not Cash" and the expansion of targeted services throughout the city.

We heard about and attended a community workshop hosted by FivePoint and learned about their updated project plans for Candlestick. Responding to changes in the retail landscape, and concerns from the community, the project now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents are currently living without.

I understand that there will be over 3,000 jobs in this next phase of development, and nearly 700 homes. District 10 desperately needs more housing options, and there is always a need for more employment. We also need the parks and opportunities for new business that are being promised as well.

I and other residents are happy that the project is finally restarting. We have been living with this empty space while other projects in the city move forward. **RE: Candlestick Development – MOVE THIS PROJECT FORWARD NOW!**

As a long-time resident of Bayview Hunters Point, I strongly support the Candlestick Point project. This development promises significant benefits for our neighborhood and San Francisco as a whole.

I learned about FivePoint's updated project plans for Candlestick from their presentations at a community workshop, to the CAC and to OCII, most recently. Responding to changes in the retail landscape, and concerns from the community, the project now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents are currently living without.

I understand that there will be over 3,000 jobs in this next phase of development, and many new homes for mixed income levels. District 10 desperately needs more housing options, and there is always a need for more employment. We also need the parks and opportunities for new business that are being promised as well.

I and other residents are happy that the project is finally restarting. We have been living with the empty space while other projects in the city move forward. My fear is that a few residents who are in opposition will have a greater say than the majority of the community who want the benefits the project will bring. It would be terrible if Candlestick turn into the homes and businesses for D10 residents sooner rather than later.

I implore you and other City departments to treat this project with the same urgency as

projects in other parts of the city, and move it forward.  This project can add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. However, timely action is essential to prevent further delays and ensure we seize this vital opportunity for the Bayview.

Sincerely,

Rebecca Graff

Dear SF Planning, Supervisors and Mayor,

As a resident in Bayview, I am writing to support the Candlestick Point project by FivePoint. This development offers significant benefits to our neighborhood and San Francisco as a whole, will finally bring improvements and investment at a large scale to this neglected area.

The project will overall bring over 7000 new homes, jobs, commercial space and help fund, parks and street improvements. The amendments proposed are helping to unlock a stalled project. The next phase of the development alone, over 600 residential units would be delivered.

Like many residents, I am pleased to see this project moving forward after years of delay. My concern is that opposition from a few could outweigh the majority who support the project and its benefits. This area cannot be left to sit vacant and attract blight to the community any longer. Our streets are in disparate condition, the Candlestick State Park is underfunded, and the area attracts extensive illegal dumping.  Moving this development forward will resolve many of these issues.

I urge you and other City departments to prioritize this project, ensuring timely delivery of this project. It will stimulate economic growth, improve quality of life, and provide essential resources for current and future Bayview residents and businesses.

Regards,
Susan Larara

**RE: Candlestick Development – MOVE THIS PROJECT FORWARD NOW!**

Dear Commissioners:

As President of the Bayview Hill Neighborhood Association and a resident of the Bayview community, I am writing to express our support moving the Candlestick Development project forward NOW. This development promises significant benefits for our neighborhood and San Francisco as a whole.

As a community group, active since 1984 and incorporated as a California 501(c)3 non-profit organization in 1990, members of the Bayview Hill Neighborhood Association are residents of the Southeast sector of San Francisco and represent residents/homeowners who live and work in the area from Williams/Van Dyke Avenues to the San Francisco County line and from the Bayshore Freeway to Candlestick Point. We are all committed to making our neighborhood a safe, clean, and well-maintained place to live and raise our children. Our all-volunteer Association meets monthly to discuss neighborhood concerns and provide an opportunity for city and other government agents, developers and other interested parties to meet directly with residents. Our mission is to combat neighborhood deterioration by being a concerned, informed and watchful group of residents that protect the wellbeing of our community through our united voice and actions.

As one of the oldest neighborhood organizations in the area, we are a witness to the sweeping changes in population and diversity of this community. As a long-time Bayview resident, I have also witnessed the rise of homelessness in San Francisco, the evolution of service-based strategies such as “Care not Cash” and the expansion of targeted services throughout the city.

We heard about and attended a community workshop hosted by FivePoint and learned about their updated project plans for Candlestick. Responding to changes in the retail landscape, and concerns from the community, the project now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents are currently living without.

I understand that there will be over 3,000 jobs in this next phase of development, and nearly 700 homes. District 10 desperately needs more housing options, and there is always a need for more employment. We also need the parks and opportunities for new business that are being promised as well.

I and other residents are happy that the project is finally restarting. We have been living with this empty space while other projects in the city move forward. My fear is not that a few residents who are in opposition will have a greater say-so than the majority of the community who want the benefits the project will bring. It would be terrible if Candlestick will not someday turn into the homes and businesses for D10 residents.

I implore you and other City departments treat this project with the same urgency as other projects and move it forward. This project can add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. However, timely action is essential to prevent further delays and ensure we seize this vital opportunity for Bayview.

Sincerely,

Marsha Maloof

RE: Candlestick Development

The San Francisco African American Faith-Based Coalition (SFAAFBC) is a coalition of 21 churches working together to address the health inequities among African Americans in our city. Our mission is to mobilize and provide resources to eliminate health disparities and inequities in communities of people of color in San Francisco. We strongly support the Candlestick Point project. This development promises significant benefits for our neighborhood in which many of our churches resides and San Francisco as a whole.

Several members of the SFAAFBC attended a community workshop hosted by FivePoint and learned about their updated project plans for Candlestick. Responding to changes in the retail landscape, and concerns from the community, the project now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents are currently living without.

During the workshop, it was mentioned that there will be over 3000 jobs in this next phase of development, and nearly 700 homes. District 10 desperately needs more housing options, and there is always a need for more employment. We also need the parks and opportunities for new business that are being promised as well.

The SFAAFBC and other residents are happy that the project is finally restarting. We have been living with the empty space while other projects in the city move forward. Our fear is not that a few residents who are in opposition will have a greater say-so than the majority of the community who want the benefits the project will bring. It would be terrible if Candlestick will not someday turn into the homes and businesses for D10 residents.

The San Francisco African American Faith-Based Coalition implores you and other City departments treat this project with the same urgency as other projects and move it forward. This project can add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. However, timely action is essential to prevent further delays and ensure we seize his vital opportunity for the Bayview.

Sincerely,

*Dr. Jonathan Butler*

RE: Candlestick Development

As a resident of Bayview Hunters Point and business owner, who started her business here in San Francisco, I strongly support the Candlestick Point project. This development promises significant benefits for our neighborhood and San Francisco as a whole.

Responding to changes in the retail landscape, and concerns from the community, FivePoint now aims to attract more research and development businesses while still providing the housing and other amenities that the community and its residents, like me, are currently living without.

I support the plan for spaces being set aside for local businesses and would love to be able to have my business in the Candlestick development. However, that won't be an option if the project does not go forward.

My family and I are happy that the project finally has a real chance to restart. We have been living with the empty space while other projects in the city move forward. It would be terrible if Candlestick will not someday turn into the homes and businesses for D10 residents.

This project can add to our neighborhood, stimulate economic growth, and enhance residents' quality of life. Please move forward with approvals.

Sincerely,

Rio Miura

Bayview Hunters Point resident/Entrepreneur

RE: San Francisco's Candlestick Development

Dear San Francisco Board of Supervisors,

As a Bay Area resident who lived in San Francisco for a decade, I strongly support the Candlestick Point project. This development promises significant benefits for San Francisco and the entire region.

While we now live across the Bay, my family and I still visit San Francisco often. I have long hoped to see more services and amenities in the city's southernmost neighborhoods, so when I heard about the Candlestick Development project, I was thrilled. My two daughters, now in their twenties, were born in San Francisco and would love the chance to return some day. I would love for them to have the opportunity to purchase a home in the city, as their father and I did in 1995. However, given San Francisco's slow pace of housing development and lack of homes for those unable to afford astronomical prices, doing so seems impossible.

With its promise of over 7,000 homes, the Candlestick project is the perfect antidote to San Francisco's housing crisis. The other much needed amenities it will provide to the community, its residents, and visitors like me are a fantastic bonus.

I urge you and other City departments to move this project forward. Timely action is essential to prevent further delays and ensure we seize this vital opportunity for San Francisco and the entire Bay Area.

Sincerely,

M. Clemmons|
Bay Area resident

Bayview Senior Services

August 30, 2024

SF Board of Supervisors
1 Dr. Carlton B. Goodlett Place,
City Hall, Room 244,
Francisco, CA 94102-4689

Dear Board Members:

This letter expresses Bayview Senior Services' Support for the Candlestick Project. As an organization serving the Bayview Hunters Point community since 1971, we have seen firsthand the adverse effects that reduced levels of affordable housing and business activity have had on our community. It has been a long time since the stadium closed, taking jobs and leaving promises of economic development. Many promises have been made to the Bayview community, but more progress has yet to be made in honoring the commitments. In the meantime, our community has among the highest rates of unhoused residents.

While we are clear that this project will not solve all of our community's ills, it will certainly be a significant step in the right direction. We hope this project can finally break ground to provide opportunities for Bayview Hunters Point residents who have suffered through years of empty promises and neglect and offer hope and optimism for a brighter future.
