I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

From: [Stephen Torres](#)

Dear Clerk Calvillo,

Please see attached my letter to President Mandelman and the Board of Supervisors regarding Item 9 on today's agenda.

As always, thank you for your work and time.

Sincerely,

Stephen Torres

Stephen Torres
3158 Mission Street, Apartment No.3
San Francisco, California 94110

April 22, 2025

President Rafael Mandelman and the San Francisco Board of Supervisors
City Hall
1 Dr. Carlton B. Goodlett Place
San Francisco, California 94102

Dear President Mandelman and the San Francisco Board of Supervisors,

I am writing to strongly urge you to adopt Supervisor Chan's *Right to Know* legislation which appears as Item No. 9 on today's agenda.

As I have written to you previously, you well understand the roles in which you serve are at the will and discretion of the People of the City and County of San Francisco. You also serve to uphold the laws of the State of California including the recent mandates on housing, even if their blanket application lacks the context of real world realities. However, it is precisely the realities of the world we are living in that should guide you to approve this legislation.

As private and well-moneyed interests subvert regulation and public oversight in our government as a nation, so do they here in San Francisco as well. Although framed in terms of housing equity, it is important to remember that this current upzoning plan serves to do little more than that and with little discretionary review. There is as much potential in this plan for purely speculative and luxury development as there is for what is sorely needed: affordable and human-scale housing.

Even though many of you have expressed concern, and even exasperation with what little discretionary review is left to us as a City, your obligation to your office to both inform and educate your constituents on such serious and impactful changes to their neighbourhoods remains. Your districts and their residents still deserve the right to be informed even as their discretion and consent continues to be eroded on a municipal, state and federal level. As a resident and a worker I have encountered few everyday San Franciscans who even know about the Mayor's plan now being heard in informational hearings in Planning. This is unacceptable. Please approve your colleague's legislation to keep San Franciscans informed about their City.

Sincerely,

Stephen Torres

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

This isn't just a technical zoning update—it's a citywide change that could reshape entire neighborhoods, including people's homes. And when that kind of impact is on the table, the process must be inclusive, accessible, and transparent.

Not everyone follows city websites or has time to track public notices. Many Sunset residents—especially working families, seniors, and immigrants—still rely on physical mail for important updates, just like with property taxes. It's how they stay informed. The city should not be bypassing residents with last-minute notices or digital-only outreach.

With nearly half of Sunset residents being foreign-born and many speaking languages other than English, multilingual mailers based on voter registration data should be the standard—not the exception—before public meetings. Otherwise, we're leaving behind the very people most affected.

And let's be real: holding meetings only on weekdays, during work hours, makes it harder for working-class communities like ours to attend. Weekend options should be offered.

If this change is truly for everyone, then everyone deserves a fair chance to be part of the conversation.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

From: [Christina Shih](#)

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

From: [Elizabeth Hosfield](#)
To: [Board of Supervisors \(BOS\)](#); [ChanStaff \(BOS\)](#); [MelgarStaff \(BOS\)](#); [Walton, Shamann \(BOS\)](#); [FielderStaff](#); [ChenStaff](#); [MahmoodStaff](#); [SauterStaff](#)

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

We are very concerned about the proposed increased height of buildings directly in front of Francisco Park — which would block the iconic view that thousands and thousands of tourists come to see each year.

The neighborhood raised over 30 million for this park — and everyone would be deeply disappointed if enormous buildings will now mar the beautiful spot.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles

and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

From: [Carl Wendorf](#)

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

From: [Erin Boylan](#)
To: [Board of Supervisors \(BOS\)](#); [ChanStaff \(BOS\)](#); [MelgarStaff \(BOS\)](#); [Walton, Shamann \(BOS\)](#); [FielderStaff](#); [ChenStaff](#); [MahmoodStaff](#); [SauterStaff](#)

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

From: [Jane Ibrahim Gaito](#)

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

Ira M. Schneiderman

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

From: [Elyse Aylward](#)
To: [Board of Supervisors \(BOS\)](#); [ChanStaff \(BOS\)](#); [MelgarStaff \(BOS\)](#); [Walton, Shamann \(BOS\)](#); [FielderStaff](#); [ChenStaff](#); [MahmoodStaff](#); [SauterStaff](#)

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely, Gunard O B Mahl

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

From: [Esfir Shrayber](#)
To: [Board of Supervisors \(BOS\)](#); [ChanStaff \(BOS\)](#); [MelgarStaff \(BOS\)](#); [Walton, Shamann \(BOS\)](#); [FielderStaff](#); [ChenStaff](#); [MahmoodStaff](#); [SauterStaff](#)

I Support Transparency: Vote to Notify San Franciscans about the Upzoning Plan

Message:

Dear Supervisor,

It seems strange that anyone would vote against transparency in government.

I support legislation requiring proper notification of zoning and density changes. Every resident, business owner, and tenant deserves to be informed about major land use decisions that will reshape their neighborhoods.

Major overhauls to zoning laws should not be hidden in places that many residents may never see. People deserve direct notification about significant land use changes affecting their neighborhoods.

The proposed ordinance would provide transparency by requiring mailed notices to all property owners, residents, and business tenants in upzoned areas, as well as those within 300 feet of affected parcels. It is also critical that all public information about these zoning changes includes clear before-and-after images from various angles and distances. Many residents cannot fully grasp the impact of proposed height and density increases from zoning numbers alone—accurate visuals are essential for informed public input.

I urge you to support transparency and vote yes on this notification ordinance.

Sincerely,

April 15, 2025

Dear Supervisor Chan,

Re: We at Coalition for San Francisco Neighborhoods support Ordinance # 241210, the "Right to Know"

Your work brings much-needed transparency and accountability to the process.

Thank you and commend you for brining forward the "Right to Know". We are pleased to see it made it through the Land Use and Transportation Committee.

Thanks also go out to Supervisors Fielder, Chen, Sherrill, and Walton for supporting the legislation. And to the Planning Commissioners who are well aware of the need to inform the public when large city-wide up-zoning changes are being considered. We need to inform the land owners, residents and local business owners who are living in the pathway of the changes so they will have time to plan for their future.

We are pleased to see the plans to address some option and possible remedies for small businesses at the April 17th Planning commission, where the small business community will present some of their ideas.

We have been watching the "Right to Know" legislation, arguments and comments carefully and note that there is some concern about paying for the notice.

Please take into account these two major sources for funding.

One is the city-funded public notice system that already has contracts with various city publications. This would be one more public notice to be published.

We are also aware that the city regularly pays lobbyists to push legislation through other channels such as the state legislature. Many of these bills do not require any lobbying to pass. Surely some of the lobbying funds could be used to inform the public what the city is doing that pertains to our need to know what is going on.

Thank you for standing up for the public's right to be informed and involved in the changes being contemplated for our city that we all live in and contribute to.

Sincerely,

Mari Eliza, CSFN Land Use and Transportation Chair, secretary@csfn.net

cc: Mayor Lurie, Full Board of Supervisors, and staff and clerk of the Board of Supervisors

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Chair Melgar, Supervisor Mahmood, and Supervisor Chen,

On behalf of Neighborhoods United SF — a coalition of over 50 neighborhood organizations across San Francisco — please find the attached letter in strong support of Supervisor Chan’s *Right to Know* legislation (BOS LF No. 241210), which would ensure direct notification to residents and small businesses impacted by major zoning changes.

We urge the Land Use and Transportation Committee to advance this essential transparency measure and consider the additional recommendations outlined in our letter regarding outreach, visualization tools, and Supervisor engagement.

A hard copy of this letter will also be provided in person at today’s hearing.

Thank you for your time and consideration.

Sincerely,
Lori Brooke
Neighborhoods United SF

Re: BOS LF No. 241210: Planning Code - Notice for Housing Element Rezoning

Dear Committee Chair Supervisor Melgar, Supervisor Mahmood and Supervisor Chen:

Every resident and business owner deserves to be fully informed about major land-use decisions that will reshape their neighborhoods.

As the Planning Department staff shared at the 4/10 Planning Commission hearing, Mayor Lurie's Upzoning & Density Decontrol Plan is a broad and sweeping change to San Francisco that will forever change our city. And yet, most residents are unaware of it.

Neighborhood United SF, which represents over 50 neighborhood organizations, requests your support for this "right to know" legislation, which would require clear and direct notification of height or density changes to property owners and those within 300 feet of affected parcels. This legislation was approved by the Planning Commission (Resolution 21706) with a 5-2 vote.

We are grateful to Supervisors Connie Chan, Chyanne Chen, Jackie Fielder, Shamann Walton, and Stephen Sherrill for their leadership in supporting this critical transparency measure.

We strongly recommend that the Land Use Commission fully support this legislation, and additionally, ask you to consider the following:

1. Planning Department Outreach:

The Planning Department should be required to develop and publish a new

comprehensive outreach plan to most impacted neighborhoods (at a minimum: Districts 1, 2, 3, 4, 5, 7, and 8).

The Planning Department publicly stated that last year's outreach was sufficient, but Planning Staff highlighted yesterday (4/10 commission hearing) that this plan - specifically the density decontrol represented by the light blue is a *significant change* from the prior map. The density decontrol is not a widely understood concept, and the huge swaths of light blue color on the map lead most people to think it was the background color - not a material change in zoning. Given the insufficient communication around the prior 4-plex and 6-plex legislation, a new and robust outreach effort is essential on Mayor Lurie's plan.

2. Effective Visualizations:

The Planning Department acknowledged yesterday the importance of creating visuals to help communicate the plan, and presented a few examples in the hearing. Commissioner Kathrin Moore reiterated yesterday that the Planning Department should use industry standard interactive 3D mapping to show true impacts of increased heights or density as many residents struggle to fully grasp the impact of proposed height or density zoning changes based on numbers alone.

Last year, neighborhood advocacy groups had to step in and develop their own renderings to show changes in massing and building heights. Even architects who are opposed to detailed renderings have suggested providing street views from 40 feet and shadow studies. Simply put, residents need to be able to visualize the breadth and scale of these changes.

3. Supervisor Outreach:

We commend the Supervisors who have been proactive at engaging with their constituents. Unfortunately that is not consistent across the districts. At a minimum, Supervisors in impacted districts (Districts 1, 2, 3, 4, 5, 7, and 8) should assist their constituents by notifying them about the upcoming upzoning plan, inviting them to relevant Planning Commission and Board of Supervisors hearings, and hosting at least one town hall in their district prior to the plan's approval by the Mayor.

We strongly urge the Land Use Commission to support Supervisor Chan's ordinance, along with the additional outreach and visualizations, to ensure full transparency in San Francisco's rezoning process.

Sincerely,
Lori Brooke

Legislative Aide San Francisco Board of Supervisors,

Hello,

I am a concerned community member writing to urge you to support Supervisor Chan's proposed legislation (Board File No. 241210) to require public noticing for San Francisco's Housing Element Rezoning Program.

The SF Planning Department has just unveiled its new map, proposing to change development rules throughout many of the City's neighborhoods, called upzonings or rezonings. Most residents and small businesses don't know that their building is on the upzoning map. Residents and businesses should be aware of what the City is proposing and how these changes might affect them.

I urge you to support Supervisor Chan's proposed legislation to require public noticing for SF's Housing Element Rezoning Program to ensure all impacted parties are notified. Public noticing is critical to ensure that the people and small businesses who may be displaced or otherwise impacted by the upzonings know what's happening and understand how it affects their lives.

Thank you.

Re: BOS LF No. 241210: Planning Code - Notice for Housing Element Rezoning

Dear Committee Chair Supervisor Melgar, Supervisor Mahmood and Supervisor Chen:

Every resident and business owner deserves to be fully informed about major land-use decisions that will reshape their neighborhoods.

As the Planning Department staff shared at the 4/10 Planning Commission hearing, Mayor Lurie's Upzoning & Density Decontrol Plan is a broad and sweeping change to San Francisco that will forever change our city. And yet, most residents are unaware of it.

Neighborhood United SF, which represents over 50 neighborhood organizations, requests your support for this "right to know" legislation, which would require clear and direct notification of height or density changes to property owners and those within 300 feet of affected parcels. This legislation was approved by the Planning Commission (Resolution 21706) with a 5-2 vote.

We are grateful to Supervisors Connie Chan, Chyanne Chen, Jackie Fielder, Shamann Walton, and Stephen Sherrill for their leadership in supporting this critical transparency measure.

We strongly recommend that the Land Use Commission fully support this legislation, and additionally, ask you to consider the following:

1. Planning Department Outreach:

The Planning Department should be required to develop and publish a new

comprehensive outreach plan to most impacted neighborhoods (at a minimum: Districts 1, 2, 3, 4, 5, 7, and 8).

The Planning Department publicly stated that last year's outreach was sufficient, but Planning Staff highlighted yesterday (4/10 commission hearing) that this plan - specifically the density decontrol represented by the light blue is a *significant change* from the prior map. The density decontrol is not a widely understood concept, and the huge swaths of light blue color on the map lead most people to think it was the background color - not a material change in zoning. Given the insufficient communication around the prior 4-plex and 6-plex legislation, a new and robust outreach effort is essential on Mayor Lurie's plan.

2. Effective Visualizations:

The Planning Department acknowledged yesterday the importance of creating visuals to help communicate the plan, and presented a few examples in the hearing. Commissioner Kathrin Moore reiterated yesterday that the Planning Department should use industry standard interactive 3D mapping to show true impacts of increased heights or density as many residents struggle to fully grasp the impact of proposed height or density zoning changes based on numbers alone.

Last year, neighborhood advocacy groups had to step in and develop their own renderings to show changes in massing and building heights. Even architects who are opposed to detailed renderings have suggested providing street views from 40 feet and shadow studies. Simply put, residents need to be able to visualize the breadth and scale of these changes.

3. Supervisor Outreach:

We commend the Supervisors who have been proactive at engaging with their constituents. Unfortunately that is not consistent across the districts. At a minimum, Supervisors in impacted districts (Districts 1, 2, 3, 4, 5, 7, and 8) should assist their constituents by notifying them about the upcoming upzoning plan, inviting them to relevant Planning Commission and Board of Supervisors hearings, and hosting at least one town hall in their district prior to the plan's approval by the Mayor.

We strongly urge the Land Use Commission to support Supervisor Chan's ordinance, along with the additional outreach and visualizations, to ensure full transparency in San Francisco's rezoning process.

Sincerely,
Lori Brooke

Subject: Support for BOS LF No. 241210: Right to Know Rezoning Notification Ordinance

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Chair Melgar, Supervisor Mahmood, and Supervisor Chen,

On behalf of Neighborhoods United SF — a coalition of over 50 neighborhood organizations across San Francisco — please find the attached letter in strong support of Supervisor Chan’s *Right to Know* legislation (BOS LF No. 241210), which would ensure direct notification to residents and small businesses impacted by major zoning changes.

We urge the Land Use and Transportation Committee to advance this essential transparency measure and consider the additional recommendations outlined in our letter regarding outreach, visualization tools, and Supervisor engagement.

A hard copy of this letter will also be provided in person at today’s hearing.

Thank you for your time and consideration.

Sincerely,
Lori Brooke
Neighborhoods United SF

Re: BOS LF No. 241210: Planning Code - Notice for Housing Element Rezoning

Dear Committee Chair Supervisor Melgar, Supervisor Mahmood and Supervisor Chen:

Every resident and business owner deserves to be fully informed about major land-use decisions that will reshape their neighborhoods.

As the Planning Department staff shared at the 4/10 Planning Commission hearing, Mayor Lurie's Upzoning & Density Decontrol Plan is a broad and sweeping change to San Francisco that will forever change our city. And yet, most residents are unaware of it.

Neighborhood United SF, which represents over 50 neighborhood organizations, requests your support for this "right to know" legislation, which would require clear and direct notification of height or density changes to property owners and those within 300 feet of affected parcels. This legislation was approved by the Planning Commission (Resolution 21706) with a 5-2 vote.

We are grateful to Supervisors Connie Chan, Chyanne Chen, Jackie Fielder, Shamann Walton, and Stephen Sherrill for their leadership in supporting this critical transparency measure.

We strongly recommend that the Land Use Commission fully support this legislation, and additionally, ask you to consider the following:

1. Planning Department Outreach:

The Planning Department should be required to develop and publish a new

comprehensive outreach plan to most impacted neighborhoods (at a minimum: Districts 1, 2, 3, 4, 5, 7, and 8).

The Planning Department publicly stated that last year's outreach was sufficient, but Planning Staff highlighted yesterday (4/10 commission hearing) that this plan - specifically the density decontrol represented by the light blue is a *significant change* from the prior map. The density decontrol is not a widely understood concept, and the huge swaths of light blue color on the map lead most people to think it was the background color - not a material change in zoning. Given the insufficient communication around the prior 4-plex and 6-plex legislation, a new and robust outreach effort is essential on Mayor Lurie's plan.

2. Effective Visualizations:

The Planning Department acknowledged yesterday the importance of creating visuals to help communicate the plan, and presented a few examples in the hearing. Commissioner Kathrin Moore reiterated yesterday that the Planning Department should use industry standard interactive 3D mapping to show true impacts of increased heights or density as many residents struggle to fully grasp the impact of proposed height or density zoning changes based on numbers alone.

Last year, neighborhood advocacy groups had to step in and develop their own renderings to show changes in massing and building heights. Even architects who are opposed to detailed renderings have suggested providing street views from 40 feet and shadow studies. Simply put, residents need to be able to visualize the breadth and scale of these changes.

3. Supervisor Outreach:

We commend the Supervisors who have been proactive at engaging with their constituents. Unfortunately that is not consistent across the districts. At a minimum, Supervisors in impacted districts (Districts 1, 2, 3, 4, 5, 7, and 8) should assist their constituents by notifying them about the upcoming upzoning plan, inviting them to relevant Planning Commission and Board of Supervisors hearings, and hosting at least one town hall in their district prior to the plan's approval by the Mayor.

We strongly urge the Land Use Commission to support Supervisor Chan's ordinance, along with the additional outreach and visualizations, to ensure full transparency in San Francisco's rezoning process.

Sincerely,
Lori Brooke

San Francisco, California 94110

April 14, 2025

The Land Use Committee of the San Francisco Board of Supervisors
City Hall
1 Dr. Carlton B. Goodlett Place
San Francisco, California 94102

Good afternoon Chairperson Melgar and Members of the San Francisco Board of Supervisors
Land Use Committee,

I am writing in regard to Item Numbers 1 and 2 in today's agenda.

On Item 1, I ask that you not approve the rescinding of the conditional use authorization for formula retail on Van Ness Avenue in between Broadway and Redwood Street.

On Item 2, I ask that you approve the amendment to require notice of rezoning intended to comply with the Housing Element law.

The reasoning behind both of these requests is simple. In the times we are living in, we are currently seeing the power and voice of the people consistently eroded through unilateral orders and legislation acting on behalf of special interest. As a city that purports to uplift the voice of the people, it would be a contradiction to both remove their ability to inform the kind of business that matches and cultivates the ecosystem of any business corridor in this city or to deprive them of the notice of the drastic and sweeping changes as proposed by the rezoning plan.

Specific to Item 1, in light of the unstable and disingenuous nature of formula retail in today's market and its capricious relationship with our city, this change for this kind of retail does not make economic sense. It is also seemingly and singularly supportive to the rezoning of Van Ness Avenue by not taking into account the valuable local businesses already there and only erodes their protections when they need them the most. It more or less secures the right of formula retail over mom and pop, and fast forwards to the inevitable outcome of rezoning on local small business by unfettering the restrictions on the only businesses that will be able to afford retail space in new developments: corporations.

Specific to Item 2, I would like to thank Supervisor Chan for introducing this amendment as it displays her understanding of her role as Supervisor to inform her constituents and all San Franciscans of possible major changes to our City and give them transparency, understanding, and at least some ability to determine what happens in their community.

I know that the Members of this Committee and the entire Board of Supervisors are always cognizant that they not only serve at the discretion of the people of the City and County of San Francisco, but also in compliance with the laws of the State of California, and indeed, our Nation. I also understand that striking a balance between these may, at times, prove difficult, especially with mandates that are onerous and specious in nature or act against the will of the

people by design. I strongly urge, however, that the balance fall in favour of the people. An informed and consenting people are not an impediment to progress.

Sincerely,

Stephen Torres

Dear Supervisors,

D4ward is an economic & social justice advocacy group comprised of progressive activists in San Francisco's District 4. We urge you to support Supervisor Chan's proposed legislation (Board File No. 241210) to require public noticing for San Francisco's Housing Element Rezoning Program.

The SF Planning Department has just unveiled its new up-zoning map, proposing to change development rules throughout many of the City's neighborhoods. However, most residents and small businesses don't know that their building is going to be up-zoned. Residents and businesses should be aware of what the City is proposing and how these changes might affect them.

I urge you to support Supervisor Chan's proposed legislation to require public noticing for SF's Housing Element Rezoning Program to ensure all impacted parties are notified. Public noticing is critical to ensure that the people and small businesses who may be displaced or otherwise impacted by the up-zonings know what's happening and understand how it affects their lives.

Sincerely,
Erica Zweig

April 14, 2025

The Land Use Committee of the San Francisco Board of Supervisors
City Hall
1 Dr. Carlton B. Goodlett Place
San Francisco, California 94102

Good afternoon Chairperson Melgar and Members of the San Francisco Board of Supervisors
Land Use Committee,

I am writing in regard to Item Numbers 1 and 2 in today's agenda.

On Item 1, I ask that you not approve the rescinding of the conditional use authorization for formula retail on Van Ness Avenue in between Broadway and Redwood Street.

On Item 2, I ask that you approve the amendment to require notice of rezoning intended to comply with the Housing Element law.

The reasoning behind both of these requests is simple. In the times we are living in, we are currently seeing the power and voice of the people consistently eroded through unilateral orders and legislation acting on behalf of special interest. As a city that purports to uplift the voice of the people, it would be a contradiction to both remove their ability to inform the kind of business that matches and cultivates the ecosystem of any business corridor in this city or to deprive them of the notice of the drastic and sweeping changes as proposed by the rezoning plan.

Specific to Item 1, in light of the unstable and disingenuous nature of formula retail in today's market and its capricious relationship with our city, this change for this kind of retail does not make economic sense. It is also seemingly and singularly supportive to the rezoning of Van Ness Avenue by not taking into account the valuable local businesses already there and only erodes their protections when they need them the most. It more or less secures the right of formula retail over mom and pop, and fast forwards to the inevitable outcome of rezoning on local small business by unfettering the restrictions on the only businesses that will be able to afford retail space in new developments: corporations.

Specific to Item 2, I would like to thank Supervisor Chan for introducing this amendment as it displays her understanding of her role as Supervisor to inform her constituents and all San Franciscans of possible major changes to our City and give them transparency, understanding, and at least some ability to determine what happens in their community.

I know that the Members of this Committee and the entire Board of Supervisors are always cognizant that they not only serve at the discretion of the people of the City and County of San Francisco, but also in compliance with the laws of the State of California, and indeed, our Nation. I also understand that striking a balance between these may, at times, prove difficult, especially with mandates that are onerous and specious in nature or act against the will of the

people by design. I strongly urge, however, that the balance fall in favour of the people. An informed and consenting people are not an impediment to progress.

Sincerely,

Dear Chair Melgar and Fellow Supervisors:

Please approve this file and move it on to the full Board.

Democracy requires that such a major change to Land Use in San Francisco receive wide-spread notice.

San Francisco property owners, tenants, and small business proprietors deserve this.

Please use the notice of Jury Service as a template for notification.

A card similar to this can contain the information your constituents need to know.

A card sent in the mail with a **red** highlight would get recipients attention.

Please see below.

Thank you.

Sincerely,

Georgia Schuttish

RE: STRONG SUPPORT – Notice for Housing Element Rezoning (File No. 241210)

Dear Supervisors Melgar, Chen, and Mahmood,

On behalf of the Telegraph Hill Dwellers (THD), we are writing to express our **STRONG SUPPORT** for the above-cited Housing Element Rezoning Notice legislation co-sponsored by Supervisors Chan, Fielder, Walton, and Chen.

Big changes are being proposed to San Francisco, upzoning changes that will affect major portions of the City. Neighborhoods may be at risk, with tens of thousands of parcels affected.

Yet, most people don't even know about these changes. Or, what they will mean for them, their family, their property, their home, and their neighborhood.

People deserve to know. The City owes a duty to tell them.

Please support this right-to-know legislation and recommend its approval to the full Board of Supervisors.

Sincerely,

Stan Hayes

Subject: RE: Ordinance #241210- Notice for Housing Element Rezoning-

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

RE: Ordinance #241210

Dear Land Use Committee Chair Melgar and members Chen and Mahmood,

The San Francisco Tenants Union concurs with Supervisor Chan and sponsors: Supervisors Fielder, Chen, Walton and Sherrill that "despite the Planning Department's public outreach efforts, many property owners, residents, and business owners of the properties that could be upzoned are either completely unaware, or only vaguely aware, of the proposed Housing Element Rezoning Program."

Therefore, we agree with the language and the concept of **Ordinance #241210** that "it is reasonable and in the public interest to enhance outreach and public notice to property owners, residents, and business owners likely to be affected by the City's prospective upzoning and that "expanding the public's knowledge of the nature, scale, and reasonably anticipated effects of the upzoning can help the public better understand and better adapt to the proposed changes. This ordinance will serve those purposes by establishing procedures for providing public notice of proposed increases in height limits and/or density limits pursuant to the Planning Department's Housing Element Rezoning Program."

The San Francisco Tenants Union recommends that the Land Use Committee forwards this Ordinance to the full BOS with a positive recommendation. Thank you.

Sincerely,
Anastasia Yovanopoulos, Coordinator
SF Tenants Union Land Use & Planning Watch Committee

Dear Chair Melgar and Supervisors Chen and Mahmood,

Re: Monday April 14 LUC agenda item # 2 - 241210

I strongly urge you to support Supervisor Chan's proposed ordinance for public notification under the San Francisco Housing Element.

It is imperative that with a plan of such magnitude affecting large sections of the city, such as the Housing Element rezoning, that ALL communication methods be utilized to inform as many residents as possible.

Let's not assume that notifying certain neighborhood groups and organizations is a sufficient communication process, when their membership and reach is very limited. And let's not think it's sufficient or efficient to only hold a small number of "town halls," which are limited to one-sided presentations, with no real time for comment or questions from attendees, and whose "town hall" attendance is built from notifying the same small circle of groups. This results in a closed loop of informed residents, leaving out the majority of San Francisco residents/voters.

The information gap is widened when computer usage is incorrectly assumed to be universal. 25 percent of SF households do not have internet access or computers. The gap gets even wider when factoring in the reality that most computer/internet users don't spend their time checking City Hall agendas or websites for issues that might affect them.

The postcard notification process would not be invoked for individual projects or every little code change, as some opponents would have you fear.

Rather, at a time when democracy, equity, and inclusion are being drastically reduced on the national level, passing this ordinance would ensure their application in the process when such citywide life-changing residential zoning and land use matters are proposed in San Francisco.

City planning should be a collaborative process, not government by bureaucratic decree.

Change is effected and accepted more fairly if prior knowledge is shared widely, rather than hidden or closely held by selective groups, as is often the case at City Hall.

Please pass this measure in the name of good government, transparency, and democratic fairness.

Thank you.

Lorraine Petty
D2 resident

Regarding: 241210, Planning Code - Notice for Housing Element Rezoning,

Dear Supervisors Melgar, Chen and Mahmood,

I write in support of the Notice for Housing Element Rezoning, also known as the Right to Know legislation. My appreciation to Supervisors Chan, Fielder, Walton and Chen for sponsoring this important bill.

Renters, homeowners, prospective new residents, business owners and all who call San Francisco home are invested in myriad ways in our neighborhoods, and have a right to know about the significant scale of the proposed rezoning making its way through our legislative process.

Challenges to notification such as the cost of mailing and/or added workload should not be insurmountable obstacles to informing citizens who may be personally impacted by the rezoning.

Thank you for the opportunity to comment.

Sincerely,
Courtney Damkroger

Subject: Support for Neighborhood Notification in Housing Element Rezoning – Board File No. 241210

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

As a long-time resident of San Francisco and a firm believer in the importance of public participation in our government, I support notification for legislative rezonings associated with the Housing Element, as outlined in Board File No. 241210.

San Francisco is now having to follow the state-mandated effort to up-zone neighborhoods across the city, even when this does not make sense either economically or in terms of the projected future population of the City. (I recommend listening to the excellent testimony from NUSF members at last Thursday's Planning Commission hearing to learn the facts that pertain to this issue.)

Nevertheless, here we are. Therefore, it is essential that property owners, tenants, small businesses, and commercial lessees are kept informed of the changes that will impact their homes and their livelihoods. Meaningful notification ensures that the people most directly affected by these changes to heights and density have the opportunity to understand, engage, and participate in shaping the city's future.

Yes, this will cost money. San Francisco spends a lot of money on projects that are, well, marginal to say the least. I am sure we can all name at least one (neck-downs?)

The public must be informed and encouraged to participate in government. This is especially important at this time, when we are facing the threat of an authoritarian government at the national level.

I urge you to adopt this legislation.

Thank you for your consideration.

Re: Support for Neighborhood Notification in Housing Element Rezoning – Board File No. 241210

Dear Supervisor Chan,

On behalf of the West of Twin Peaks Central Council (WTPCC), we write in support of requiring direct neighborhood notification for legislative rezonings associated with the Housing Element, as outlined in Board File No. 241210. Our organization, composed of longstanding neighborhood associations from across San Francisco's west side, believes that fundamental tenets of good government—transparency, inclusion, and public trust—must guide the City's efforts to meet state housing obligations.

San Francisco is embarking on a significant, state-mandated effort to upzone neighborhoods across the city. While we acknowledge the legal imperative and recognize the goal of providing more housing, it is essential that property owners, tenants, and small businesses and commercial lessees are not left in the dark. Meaningful notification ensures that individuals most directly affected by these changes to heights and density have the opportunity to understand, engage, and participate in shaping the city's future.

We recognize that the scale of this effort—potentially affecting hundreds of thousands of properties—poses real fiscal and operational challenges. We encourage the Board to adopt the prudent taxpayer recommendation to allocate sufficient funding to cover the cost of mailed notices. Good government requires investment in civic trust.

We also support the additional recommendations from Planning to clarify the scope of the notice—focusing on properties directly proposed for upzoning and their immediate neighbors and people within a 300-foot radius and to provide flexibility on the format and content of notices while maintaining legibility and access. These common-sense changes balance transparency with practicality.

WTPCC believes that property owners have both rights and responsibilities in the planning process. Rezoning or changes that could substantially increase development potential should not proceed without deliberate and respectful notice to those impacted. In a fast-moving policy environment driven by state mandates, the City must not lose sight of the principle that residents deserve to be informed—and that their voices matter.

We urge you and your colleagues to adopt this legislation, incorporating constructive, taxpayer friendly amendments. Doing so will strengthen public confidence, ensure fair process, and reinforce the City's commitment to equity and engagement.

Thank you for your leadership.

Sincerely,

Denise LaPointe

Subject: Expanding Housing Choice plan
Date: Thursday, April 10, 2025 8:34:33 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Please reconsider this plan, especially for the Richmond District. It will change the character and aesthetics of the neighborhood for the worse, block sunlight and reduce green spaces, displace many small businesses and tenants living in rent controlled apartments and increase traffic congestion. It will not meet the need for affordable housing. The Richmond District does not have the infrastructure to support this kind of growth, especially water for firefighting and public transportation. The streets are already crowded with traffic and during rush hour and after school the buses are full. Any infrastructure issues, and also the possibility of people who do not want to sell their properties or vacate their homes being forced out by unfair tactics should be addressed before a plan is adopted.

Sincerely,

Nina Block

Legislative Aide San Francisco Board of Supervisors,

Hello,

I am a concerned community member writing to urge you to support Supervisor Chan's proposed legislation (Board File No. 241210) to require public noticing for San Francisco's Housing Element Rezoning Program.

The SF Planning Department has just unveiled its new map, proposing to change development rules throughout many of the City's neighborhoods, called upzonings or rezonings. Most residents and small businesses don't know that their building is on the upzoning map. Residents and businesses should be aware of what the City is proposing and how these changes might affect them.

I urge you to support Supervisor Chan's proposed legislation to require public noticing for SF's Housing Element Rezoning Program to ensure all impacted parties are notified. Public noticing is critical to ensure that the people and small businesses who may be displaced or otherwise impacted by the upzonings know what's happening and understand how it affects their lives.

Thank you.

Subject: Urgent: Opposition to San Francisco Upzoning Proposal
Date: Friday, April 4, 2025 5:57:37 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I am writing to express my strong opposition to the currently proposed blanket upzoning map for San Francisco. While the intent may be to address the affordable housing shortage, this plan risks fueling gentrification, leading to the demolition of existing affordable housing and the displacement of long-term residents and small businesses. Such changes threaten the unique identity and diversity of our neighborhoods.

The unchecked development of luxury condos will not only alter the city's historic and iconic landscapes but also push residential communities toward over development, making them less accessible to working families. Additionally, the increased density will strain infrastructure, worsen traffic congestion, and further reduce the affordability of housing for those who need it most.

I stand with Neighborhoods United SF in urging you to reconsider this approach. We must pursue alternative solutions that truly address the housing crisis without compromising the stability of our communities.

Thank you for your attention to this pressing issue. I appreciate your dedication to protecting the well-being of our city and its residents.

Sincerely,
Hatun Noguera

For the public records

March 27, 2025

To Clerk of the Board and San Francisco Board of Supervisors and Staff

Supervisors and Staff:

re: Ordinance 241210 - amending the Planning Code to require notice of rezoning intended to comply with Housing Element law; affirming the Planning Department's determination under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1; and making findings of public necessity, convenience, and welfare pursuant to Planning Code, Section 302

Coalition for San Francisco Neighborhoods and our members join many other neighborhood groups in supporting the plan to inform the public about the rezoning plans while they are underdevelopment. Given all the changes at all levels of government, the public does not need any more surprises.

We support Supervisor Chan's process for establishing a program for notice with the SF Planning Department, and request that the plan be approved by the SF Board of Supervisors when it comes before you for a vote.

Please don't hesitate to let us know how we can help in this effort.

Sincerely,

Mari Eliza, CSFN Land Use and Transportation Chair
