BACKGROUND

The India Basin Shoreline Park Project ("Project") will transform an ageing park facility into a vibrant, multi-use park with a healthy and accessible waterfront and new park entries that will provide important connections to adjacent Bayview Hunters Point neighborhood. The IBSP Project is part of the broader India Basin Waterfront Initiative, a long-term, community-driven effort to restore shoreline habitat, improve water quality, enhance public access to San Francisco Bay, and address sea level rise impacts along the southeastern waterfront.

In 2024, the Recreation and Park Department (RPD) was awarded $5,500,000 in California State Coastal Conservancy (SCC) to support the Project. On September 18, 2025, the State Coastal Conservancy Board approved a grant increase of up to $3,091,148 to the Recreation and Park Department, to augment the previous $5,500,000 grant for a total grant valued at $8,591,148. This legislation approves the contract amendment that increases the grant award to $8,591,148 and extends the grant performance period by one year to December 31, 2048.
