### PROJECT DESCRIPTION

The Project proposal is the Realignment of a Sixty-Six (66) inch Sanitary Sewer Force Main located in the Mission Bay South Redevelopment Area and acceptance of Public Infrastructure Improvements, once constructed and approved by DPW. The General Plan Referral is required pursuant to San Francisco Charter §§ 4.105 and Administrative Code §§ 2A.53 prior to the Board of Supervisors (BOS) acceptance of the public infrastructure improvements associated with the realignment of the Sanitary Sewer Force Main.

The new 66" Sewer Force Main will be relocated and installed in the public utility easement located between 16<sup>th</sup> Street and Mariposa Street generally along the future alignment of Owens Street. It will

cross APN 8727/005, 8727/006, 8723/003, and 8723/006. On March 4, 2011, the applicant provided the correct Mission Bay Redevelopment Parcels (as Exhibits 1 and 2).

**SITE DESCRIPTION AND PRESENT USE**

The site is part of the Mission Bay South Redevelopment Area. The street grid and development parcels have been reconfigured throughout the Redevelopment Project Area. In the subject case, the Mission Bay Task Force (MBTF) proposes to implement part of the project by relocating a portion of an existing City sewer. The Project must relocate the sixty-six (66) inch Sewer Force Main because at its existing location, the sewer bisects Mission Bay Parcels 38, 39 and 40, and would impact planned development of these parcels. The new Force Main will be relocated to align with the future configuration of Owens Street. The Sewer Force Main will be constructed consistent with the "Mission Bay 66" Sewer Force Main Relocation Improvement Plans" provided by the applicant as **Exhibit B**.

The utility improvements were part of a development requirement, included in the Mission Bay South Owner Participation Agreement (OPA) adopted by the San Francisco Redevelopment Agency Resolution No. 193-98 on September 17, 1998.

The specific actions considered as part of the current Project require a General Plan Referral consistency determination and consideration and approval by the Board of Supervisors for City acceptance of said infrastructure improvements.

**PROPOSED ACTIONS BY THE BOARD OF SUPERVISORS**

**1. Acceptance of Dedication of Public Infrastructure Improvements.**

After the Department of Public Works (DPW) determines that the facilities have been constructed consistent with the Plans and Specifications and are ready for sewer force main use, the Developer is obligated to dedicate the horizontal infrastructure facilities (66" diameter sewer force main) to the City. The Board of Supervisors must act to accept the dedication of the public facilities.

**PREVIOUS ACTIONS RELATED TO THIS PROJECT**

In earlier actions, the Planning Commission, Redevelopment Commission and the Board of Supervisors have taken the following actions regarding the Mission Bay Project: related to this case:

## **ENVIRONMENTAL REVIEW**

The subject project was considered under CEQA as part of the Mission Bay South Redevelopment Project Area by the San Francisco Redevelopment Area, Project UCSF DEIR, Case No. 86.505E, 96.771E and ER 919-97, certified by Resolutions No. 188-98 and 193.98, No. 186-98 and 191-98 and Ordinance No. 327098 and 335-98.

The land transfers and tentative maps associated with the environmental analysis were in the Final Subsequent Environmental Impact Report for Mission Bay, which was certified as adequate and complete by the Redevelopment Commission, the Planning Commission and the Board of Supervisors.

## **GENERAL PLAN COMPLIANCE AND BASIS FOR RECOMMENDATION**

The Project is the relocation of a Sixty-Six (66) inch Sewage Force Main, necessary because it encroaches into Block 8723 / Lots 003, and 006, and Block 8727 / Lots 005 and 006. The proposed Project, would impact development potential of these parcels specified in the Mission Bay Redevelopment Project Plan. Once the new Force Main is constructed and approved by the Department of Public Works, the City will accept the infrastructure improvements. As is proposed herein, the Project is consistent with the Eight Priority Policies of Planning Code Section 101.1 as described in the body of this letter and is, on balance, **in-conformity** with the following Objectives and Policies of the General Plan.

Note: General Plan **OBJECTIVES** in **Bold CAPS**, General Plan Policies and text are in **bold font**; text is in regular font; Staff Comments in *italic font*

### **2004 HOUSING ELEMENT**

#### **POLICY 11.2**

**Ensure housing is provided with adequate public improvements, services, and amenities.**

*Comment: The Mission Bay project provides new housing at all levels of affordability. The infrastructure to support the housing units, once determined to meet DPW standards and specifications, will be accepted by the City. The relocation of the Sixty-Six (66) inch Sewage Force Main is part of the appropriate utilization of infrastructure.*

### **COMMUNITY FACILITIES ELEMENT**

#### **OBJECTIVE 10**

**LOCATE WASTEWATER FACILITIES IN A MANNER THAT WILL ENHANCE THE EFFECTIVE AND EFFICIENT TREATMENT OF STORM AND WASTEWATER.**

#### **POLICY 10.1**

**Provide facilities for treatment of storm and wastewater prior to discharge into the Bay or ocean. Locate such facilities according to the Wastewater and Solid Waste Facilities Plan.**

**GENERAL PLAN REFERRAL  
MISSION BAY SOUTH – RELOCATION AND  
CITY ACCEPTANCE OF INFRASTRUCTURE -  
66" SEWER FORCE MAIN**

**CASE NO. 2011.0057R**

*Comment: The Project includes relocation and acceptance of elements of the City's a water treatment system. These improvements will serve as part of the City's storm water system that will discharge treated storm water to the Bay. Unlike most areas of the City, Mission Bay has separate systems for storm water and wastewater. Wastewater (sewage) will continue to be delivered to separate facilities for additional treatment.*

**ENVIRONMENTAL PROTECTION ELEMENT**

**POLICY 3.3**

**Implement plans to improve sewage treatment and halt pollution of the Bay and Ocean.**

*Comment: New development in Mission Bay will construct separate systems for storm water and wastewater management. Wastewater will continue to be delivered to facilities for treatment before discharge, reducing the amount of untreated (combined) sewage/wastewater that is discharged to the Bay after storm events.*

The Project is, on balance, **in conformity** with the General Plan.

Planning Code Section 101.1(b) establishes eight priority planning policies and requires the review of projects for consistency with said policies:

- (1) That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced.

*The Project would have no adverse effect on neighborhood serving retail uses or opportunities for employment in or ownership of such businesses. The Project actions considered in this case would implement policies and plans contained in the Mission Bay Plan and the Design for Development document.*

- (2) That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

*The Project considered is limited to the relocation of a 66" Sewer Force Main, which will not negatively impact existing housing in the area. City acceptance of dedication of horizontal public infrastructure improvements (66" Sewer Force Main) is necessary for the Redevelopment Project to be implemented as approved.*

- (3) That the City's supply of affordable housing be preserved and enhanced.

*The Project in itself (relocation and acceptance of infrastructure improvements) would have no effect on the City's supply of affordable housing. Implementation of the Mission Bay North and South Redevelopment Plans, as adopted and approval of the Project actions would indirectly support increasing the City's supply of affordable housing through adherence to the Community Redevelopment Law that requires at least 15% of all new and substantially rehabilitated dwelling units developed within the Project Area be affordable and occupied by, persons and families of low- or moderate income as defined by the California Health and Safety Code.*

- (4) That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.

*The Project would not adversely impede MUNI transit service or overburden city streets and neighborhood parking.*

**GENERAL PLAN REFERRAL  
MISSION BAY SOUTH - RELOCATION AND  
CITY ACCEPTANCE OF INFRASTRUCTURE -

**CASE NO. 2011.0057R**

(5) That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced.

*No industrial or service sector businesses would be displaced by the 66" Sewer Force Main relocation. The Project would not adversely affect a diverse economic base. The property was once the site of rail yards and related development, subsequently vacant.*

(6) That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.

*The Project, limited to the relocation and acceptance of public infrastructure improvements (once constructed consistent with approved plans) would not adversely affect City preparedness against injury or loss of life in an earthquake. The 66" Sewer Force Main would be constructed consistent with current Building and Seismic Codes and regulations.*

(7) That landmarks and historic buildings be preserved.

*The Project would not adversely affect landmarks or historic buildings.*

(8) That our parks and open space and their access to sunlight and vistas be protected from development.

*The Project would not adversely affect parks and open space and their access to sunlight*
