Transportation Development Act, Article 3

State Grant Funds

Summary

The Municipal Transportation Agency and the Department of Public Works request authorization to accept and expend \$907,826 Transportation Development Act, Article 3 (TDA 3) state funds available for County bicycle and pedestrian projects. SFMTA will use \$453,912 for bicycle education programs, as well as bicycle facility engineering, implementation and maintenance. DPW will use \$453,912 for planning and design of curb ramps, as well as sidewalk repair at various sites throughout the City.

Background

The TDA of 1971 earmarked ¼ percent of the general state sales tax for transit and created a Local Transportation Fund (LTF) in each county to receive the funds. The State Board of Equalization returns the general sales tax revenues to each county's Local Transportation Fund according to the sales tax collected in each county.

Article 3 of the TDA apportions 2% of the ¼ cent sales tax for the purpose of funding bicycle facility, education and safety projects as well as pedestrian, and street & road development projects. The funds are allocated by the Metropolitan Transportation Commission (MTC) annually and disbursed under TDA Article 3 to the nine Bay Area counties. The grant does not have a matching fund requirement.

The net amount available for allocation in FY 12-13 is \$907,824 and includes MTC's FY 12-13 revenue estimate for San Francisco of \$752,527 and \$155,298 which is carried over from prior years. SFMTA and DPW will split FY 12-13 and the prior years' carryover equally.

Project Selection

MTA proposes to use:

- \$453,912 for the engineering, implementation, and maintenance of various bicycle facilities. The choice of projects is based on the SFMTA Capital Improvement Program and input the SFMTA received from various community groups, such as the San Francisco Bicycle Coalition and the Board of Supervisors' Bicycle Advisory Committee. Up to 5% of the total county allocation will be used for various bicycle safety programs such as educational events, safety brochures, flyers, maps, public outreach campaigns to promote safe bicycling, outdoor media and advertising, purchase and distribution of bicycle safety equipment and materials, and staff attendance at bicycle safety-related conferences and trainings.

DPW proposes to use:

- \$226,956 to repair public sidewalks at various locations in San Francisco. Sites for repair will be selected from DPW's list of public requests and prioritized based on condition of sidewalk, extent of damage, level of pedestrian use, accidents and complaints.
- \$226,956 for preliminary engineering (planning and design) of curb ramps at various sites throughout the City. Locations will be selected from a list developed by DPW and the Mayor's Office of Disability (MOD). The city prioritizes curb ramp locations using guidelines established under the Americans with Disabilities Act (ADA) and the City's ADA Transition Plan for curb ramps and sidewalks. The top priorities are locations that residents with disabilities have identified as ramps they need in order to safely get to transit stops, civic buildings, and to and from work. Additionally, DPW prioritizes public requests from areas with higher populations of people with disabilities and low numbers of usable curb ramps.

PROJECT DESCRIPTION:

The project encompasses various locations within San Francisco city limits primarily within the public right-of-way, 34 miles of bicycle lanes and 75 miles of sharrows (shared roadway bicycle markings intended to alert drivers that bicyclists share the traffic lane). The locations include some areas within the jurisdiction of the Port of San Francisco and the Recreation and Parks Department. The project area is generally bounded by: North Point Street to the north; Geneva Avenue to the south; The Embarcadero to the east; and The Great Highway to the west.

To make bicycling a more viable and sustainable alternative transportation option, the San Francisco Municipal Transportation Agency (MTA) proposes a comprehensive 2009 San Francisco Bicycle Transportation Plan (2009 Bicycle Plan), which consists of an update to prior Bicycle Plan documents; sixty near-term bicycle route network improvement projects (near-term improvements), long-term and other minor bicycle route network improvement projects; as well as amendments to the *San Francisco General Plan* and *San Francisco Planning Code* to implement goals contained in the Bicycle Plan.
