Ordinance ordering the summary street vacation of a portion of San Jose Avenue, between 27th Street and Cesar Chavez Street; rescinding an existing encroachment permit; adopting environmental findings pursuant to the California Environmental Quality Act and findings that the action contemplated herein are consistent with the San Francisco General Plan and eight priority policies of San Francisco Planning Code Section 101.1; and authorizing official acts in connection with this ordinance.

NOTE: Additions are single-underline italics Times New Roman; deletions are strike-through italics Times New Roman. Board amendment additions are double-underlined; Board amendment deletions are strikethrough normal.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Findings. The Board of Supervisors of the City and County of San Francisco hereby finds, determines and declares as follows:

(a) Pursuant to Resolution No. ____________, this Board approved the City's execution and delivery of an Agreement for Transfer of Real Estate (the "Agreement") between the City and Sutter West Bay Hospitals, doing business as California Pacific Medical Center ("CPMC"). The Agreement provides for the transfer of the portion of the public right-of-way located on San Jose Avenue, between 27th Street and Cesar Chavez Street (the "Vacation Area") to CPMC. The Agreement is on file with the Clerk of the Board of Supervisors in File No. __120363______, and incorporated herein by reference.
(b) The location and extent of the Vacation Area is shown on the Department of Public Works' "DPW") SUR Map No. 2012-001, dated May 14, 2012. A copy of this map is on file with the Clerk of the Board of Supervisors in File No. 120361 and is incorporated herein by reference.

(c) The transfer of the Vacation Area under the Agreement is subject to satisfaction of various express conditions, including the completion of the Street Vacation which is the subject of this Ordinance, and the Street Vacation being effective, after the relocation or replacement of existing utility facilities in the Vacation Area.

(d) Section 8334 of the California Streets and Highways Code provides that the legislative body of a local agency may summarily vacate an excess right-of-way of a street, highway or public easement under certain circumstances.

(e) The Vacation Area is located within a portion of CPMC's St. Luke's Campus. The Vacation Area is gated at its northern end where it meets Cesar Chavez Street and has not been open to through traffic since at least 1968. CPMC currently uses the Vacation Area under a street encroachment permit recorded May 15, 1968, as instrument No. Q 63257, in Book B 241, Page 991 (the "Encroachment Permit"). The Vacation Area is not necessary for street purposes as (1) all properties that abut the Vacation Area are owned by CPMC as part of the St. Luke's Campus, (2) Cesar Chavez Street does not run through the St. Luke's Campus or end touching the property of another, and (3) the St. Luke's Campus is fully served by other roadways. As part of the plan for redevelopment of the St. Luke's Campus, CPMC has filed a lot line adjustment application to merge the three other parcels on the St. Luke's Campus, together with the Vacation Area, to create one parcel.

(f) The vacation of the Vacation Area will allow for the transfer of the Vacation Area to CPMC and the opportunity to redevelop the St. Luke's Campus, including a new St. Luke's
Hospital and associated entry plaza and pedestrian pathway, portions of which would be located on the Vacation Area.

(g) Pursuant to San Francisco Charter Section 4.105, on April 26, 2012, the City Planning Commission conducted a duly noticed public hearing on various actions related to the Near-Term Projects proposed in CPMC’s Long Range Development Plan, including on the proposed vacation of the Vacation Area. The Planning Commission found by Motion No. 18592-18594 that the street vacation was consistent with the City’s General Plan, as proposed to be amended, and the eight priority policies of Planning Code Section 101.1. A copy of said motion is on file with the Clerk of the Board of Supervisors in File No. 120361. The Board of Supervisors adopts said consistency findings as its own, finds the proposed vacation of San Jose Avenue is, on balance, consistent with the General Plan, as proposed to be amended, and with the eight Priority Policies of Planning Code Section 101.1, for the reasons set forth in Planning Commission Motion No. 18592-18594, and the Board hereby incorporates such findings by reference as though fully set forth herein.

(h) In DPW Order No. 180254, dated May 11, 2012, the Director of the Department of Public Works (the "DPW Director") determined: (1) the Vacation Area is unnecessary for the City’s present or prospective public street, sidewalk, and service easement purposes; and (2) there will be no physical public or private utilities affected by the vacation of the Vacation Area, based on the absence of any objections from any utility company, the consents obtained and agreements in place for relocation of existing facilities to the satisfaction of the Director of DPW and of all utility operators before the effective date of the vacation as set forth below, and on the requirement that this street vacation not occur until the installation of replacement facilities outside the Vacation Area to allow for the abandonment of existing utilities facilities in the Vacation Area. Therefore, the continued and
uninterrupted functioning and capacity of such facilities will not be affected. Any one of these reasons would be sufficient to find that there are no public utility facilities that are in use that would be affected by the vacation. The DPW Director also found that the conveyance of the Vacation Area to CPMC is a policy matter for the Board of Supervisors. A copy of the DPW Order is on file with the Clerk of the Board of Supervisors in File No. 120361 and is incorporated herein by reference.

(i) The DPW Director recommends that the effectiveness of the street vacation and order rescinding the encroachment permit for the Vacation Area and any conveyance of real property for the Vacation Area be conditioned on (1) the removal of existing utility facilities in the Vacation Area, and (2) the installation of replacement facilities outside the Vacation Area to the satisfaction of the DPW Director so that the existing facilities in the Vacation Area can be abandoned. Based thereon, the public interest, convenience, and necessity require that no easements or other rights be reserved for any public or private utilities or facilities that are in place in the Vacation Area. Any rights based upon any such existing public or private utilities or facilities are unnecessary and would be extinguished with the Street Vacation.

(j) Pursuant to California Streets and Highways Code Section 892, the DPW Director also finds that the Vacation Area is currently not necessary for non-motorized transportation, as there are multiple streets surrounding the Vacation Area that remain available for such transportation and those members of the public availing themselves of non-motorized transportation will not be inconvenienced by the Street Vacation, the Vacation Area has not been used for street purposes for many years, and the public convenience necessity and welfare would be enhanced by the proposed St. Luke's Hospital, which will include a large entry plaza and pedestrian access.

(k) The Board of Supervisors adopts as its own, the recommendations of the DPW Director as set forth in DPW Order No. 180254 concerning the vacation of the
Vacation Area and other actions in furtherance thereof and the Board hereby incorporates
such recommendations and findings by reference as though fully set forth herein.

(l) The vacation of the Vacation Area is being taken pursuant to California Streets
and Highways Code Sections 8300 et seq. and Public Works Code Section 787(a).

(m) The Board of Supervisors finds that the Vacation Area, as described in SUR
Map No. 2012-001 is unnecessary for present or prospective public use, subject to the
conditions described in this Ordinance.

(n) The public interest and convenience require that the vacation be done as
declared in this Ordinance.

(o) California Environmental Quality Act. At its hearing on April 26, 2012, the Planning Commission certified by Motion No. 185586 a Final Environmental
Impact Report ("FEIR") for the LRDP pursuant to the California Environmental Quality Act
(California Public Resources Code Section 21000 et seq.) ("CEQA"), the CEQA Guidelines
copy of Planning Commission Motion No. 185586 is on file with the Clerk of the Board
of Supervisors in File No. 120357. In accordance with the actions contemplated
herein, this Board has reviewed the FEIR, and adopts and incorporates by reference as
though fully set forth herein the findings, including the statement of overriding considerations
and mitigation monitoring and reporting program, adopted by the Planning Commission on
April 26, 2012 pursuant to CEQA, in Motion No. 185589.

Said Motion is on file with the Clerk of the Board of Supervisors in File No. 120357, and
is incorporated herein by reference.

Section 2.

(a) The Vacation Area, as shown on SUR Map No. 2012-001, is hereby
ordered vacated upon satisfaction of the conditions described in this Ordinance and pursuant
to California Street and Highways Code Section 8300 et seq. and Public Works Code Section 787(a), and the encroachment permit is ordered rescinded upon such vacation.

(b) The Street Vacation shall be effective automatically and without the requirement for further action whatsoever, as to all of the Vacation Area, upon satisfaction of the following, with respect to all the existing public and private utility facilities in the Vacation Area:

(1) City’s DPW Director and affected utility operator’s acceptance, for purposes of operation and use, of replacement facilities, which provide substantially equivalent service as the existing facilities in the Vacation Area in the reasonable judgment of the Director or affected utility operator; or

(2) A determination by the City’s DPW Director that both (i) a particular existing utility service is no longer required and (ii) either (a) reasonable alternative services have been provided to areas served by the existing utilities, or (b) the areas served by the applicable utility facilities no longer require the service.

Section 3.

(a) All actions heretofore taken by the officers of the City with respect to this Ordinance are hereby approved, confirmed and ratified, and the Mayor, Clerk of the Board, Director of the Division of Real Estate, County Surveyor, and DPW Director are hereby authorized and directed to take any and all actions which they or the City Attorney may deem necessary or advisable in order to effectuate the purpose and intent of this Ordinance (including, without limitation, the filing of this Ordinance in the Official Records of the City and County of San Francisco; and confirmation of satisfaction of the conditions to the effectiveness of the vacation of the Vacation Area hereunder and execution and delivery of any evidence of the same, which shall be conclusive as to the satisfaction of the conditions upon signature by any such City official or his or her designee).
(b) Immediately upon the effective date of this vacation, this Ordinance shall be recorded.

Section 4. This section is uncodified. Effective Date and Operative Date. This Ordinance shall become effective 30 days from the date of passage. This Ordinance shall become operative only on (and no rights or duties are affected until) the later of (a) 30 days from the date of its passage, or (b) the date that Ordinance becomes effective. A copy of said Ordinance is on file with the Clerk of the Board of Supervisors in File No. 120459.

LEGISLATIVE DIGEST

[Summary Street Vacation - Portion of San Jose Avenue - California Pacific Medical Center: St. Luke’s Campus]

Ordinance ordering the summary street vacation of a portion of San Jose Avenue, between 27th Street and Cesar Chavez Street; rescinding an existing encroachment permit; adopting environmental findings pursuant to the California Environmental Quality Act and findings that the action contemplated herein are consistent with the San Francisco General Plan and eight priority policies of San Francisco Planning Code Section 101.1; and authorizing official acts in connection with this ordinance.

Existing Law

Currently, San Jose Avenue between 27th Street and Cesar Chavez Street is owned by the City. However, California Pacific Medical Center ("CPMC") uses this portion of San Jose Avenue as a parking lot under a street encroachment permit recorded May 15, 1968.

Amendments to Current Law

This ordinance would vacate San Jose Avenue from 27th Street to Cesar Chavez Street. Under a transfer agreement with CPMC, the City would sell this portion of San Jose Avenue to CPMC.

Background Information

California Pacific Medical Center ("CPMC") currently operates four acute care medical centers in San Francisco: the California Campus, the Pacific Campus, the St. Luke's Campus, and the Davies Campus. As part of its program to meet state seismic readiness deadlines, CPMC's Long Range Development Plan ("LRDP") proposes a five campus system with three acute care hospitals – at Davies, St. Luke’s, and a new hospital at the proposed Cathedral Hill Campus – providing approximately 903 licensed beds and three full-service emergency departments (one at each of the acute care hospitals). Once the proposed Cathedral Hill Hospital is built at the Cathedral Hill Campus, the acute care services at the California and Pacific campuses will be transferred to the Cathedral Hill Hospital. The Pacific Campus’s existing acute care hospital would undergo renovation and reuse as an ambulatory care center. CPMC would sell the California Campus after the transfer of acute care and non-acute care services to the Cathedral Hill and/or the Pacific Campus. Under the LRDP, CPMC would also construct a medical office building at Cathedral Hill, a medical office building at Davies, and reconstruct the hospital and construct a medical office building at St. Luke's. More details regarding CPMC’s LRDP, including plans and renderings, can be found on the Planning Department’s website at cPMC.sfplanning.org.
This ordinance concerns the proposed St. Luke's Campus, which will include a new acute care hospital and a new medical office building.

The proposed St. Luke's Hospital includes the construction of a new 146,410 gross square foot, five-story and approximately 99' tall, 80-bed acute care hospital, sited on the campus' existing surface parking lot and over the portion of San Jose Avenue to be vacated in this ordinance. The hospital will include an entry plaza adjacent to the hospital entrance on Cesar Chavez Street, along with a courtyard and public pedestrian pathway along the former San Jose right-of-way. The new hospital will be sited such that the existing hospital can remain in continuous operation during the new hospital's construction.

Following the demolition of the existing hospital, CPMC will construct a new 104,008 gsf, five-story and approximately 100' tall medical office building in the existing hospital's place. The MOB will include medical office space as well as retail, educational, and conference space, and a four level underground garage with approximately 220 parking spaces.

Among other approvals, construction of the St. Luke's hospital and MOB will also require ordinances to amend the San Francisco General Plan, Planning Code and Zoning Map. CPMC also seeks approval of a development agreement with the City primarily related to the construction of a new hospital and medical office building at the Cathedral Hill Campus, a new medical office building at the Davies Campus, and the hospital and medical office building at the St. Luke's Campus.

Planning Commission
Attn: Linda Avery
1660 Mission Street, 5th Floor
San Francisco, CA 94103

Dear Commissioners:

April 10, 2012, Mayor Lee introduced the proposed legislation regarding the California Pacific Medical Center Long Range Development Plan (list of legislation attached).

These proposed ordinance and resolutions are being transmitted pursuant to Planning Code Section 302(b) for public hearing and recommendation. They are pending before the Land Use & Economic Development Committee and will be scheduled for hearing upon receipt of your response.

Angela Calvillo, Clerk of the Board

Re: Transmittal of Planning Department Case Numbers:
California Pacific Medical Center Long Range Development Plan Project

BOS File No.'s: 120357, 120358, 120359, 120360, 120366, plus pending General Plan Amendment File No.'s _______ and ________.
Planning Commission Recommendation: Approval

Dear Ms. Calvillo,

Attached please find one original hardcopy plus this electronic transmittal of the proposed General Plan Amendment Ordinances, Planning Code Text Amendment Ordinances, Zoning Map Amendment Ordinances, and a Development Agreement Ordinance (collectively, the “Ordinances”) for Board of Supervisors’ approval. These Ordinances are associated with the California Pacific Medical Center Long Range Development Plan Project (hereinafter “CPMC LRDP Project”), which is a multi-phased development strategy to meet state seismic safety requirements for hospitals and to create a 20-year framework for CPMC’s four existing medical campuses and for construction of a proposed new medical campus (the “Cathedral Hill Campus”) in San Francisco. The proposed LRDP’s would facilitate the development of certain Near-Term Projects under the CPMC LRDP at CPMC’s St. Luke’s, Cathedral Hill, and Davies Campuses.

On April 5, 2012, the San Francisco Planning Commission (hereinafter “Commission”) conducted a duly noticed public hearing at a regularly scheduled meeting to consider the initiation of the proposed General Plan Amendment Ordinances associated with the CPMC LRDP Project.

On April 10, 2012, the Mayor introduced at the regularly scheduled Board of Supervisors hearing various legislation associated with the CPMC LRDP Project, including the Planning Code Text Amendment Ordinances, Zoning Map Amendment Ordinances, and a Development Agreement Ordinance.

On April 26, 2012, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinances as part of the CPMC LRDP Project.

PREAMBLE

The CPMC Long Range Development Plan (“LRDP”) is a multi-phased development strategy to meet state seismic safety requirements for hospitals mandated originally in 1994 by Senate Bill (“SB”) 1953 as modified through successor legislation, and to create a 20-year framework for CPMC’s four existing medical campuses and for construction of a proposed new medical campus in San Francisco.

The four existing CPMC medical campuses are the St. Luke’s Campus in the Mission District, Pacific Campus in the Pacific Heights area, the California Campus in the Presidio Heights area, and the Davies Campus in the Duboce Triangle area. The proposed new medical campus is the Cathedral Hill

www.sfplanning.org
ADOPTING FINDINGS RELATING TO THE DETERMINATION THAT: (1) THE SALE, VACATION, AND CHANGE OF USE OF A PORTION OF THE SAN JOSE AVENUE RIGHT-OF-WAY LOCATED BETWEEN 27TH STREET AND CESAR CHAVEZ STREET, (2) THE CHANGES TO THE SIDEWALK WIDTH ALONG (A) THE SOUTHERLY SIDE OF CESAR CHAVEZ STREET BETWEEN GUERRERO AND VALENCIA STREETS; (B) THE WESTERLY SIDE OF VALENCIA STREET BETWEEN CESAR CHAVEZ STREET AND DUNCAN STREET; AND (C) THE NORTHERN PORTION OF 27TH STREET STARTING AT THE INTERSECTION OF SAN JOSE AVENUE AND 27TH STREET CONTINUING WEST FOR 44.24 FEET, IN ASSOCIATION WITH THE DEVELOPMENT OF A NEW FIVE-STORY, 166,410 G.S.F. ST. LUKE’S REPLACEMENT HOSPITAL, WOULD BE CONSISTENT WITH THE OBJECTIVES AND POLICIES OF THE GENERAL PLAN AND THE PRIORITY POLICIES OF PLANNING CODE SECTION 101.1; AND MAKING AND ADOPTING ENVIRONMENTAL FINDINGS.
PREAMBLE

On June 10, 2005, Ralph F. Marchese of The Marchese Company, Inc., on behalf of California Pacific Medical Center (hereinafter referred to variously as "CPMC" and "Project Sponsor"), submitted an Environmental Evaluation Application ("EEA") with the Planning Department (hereinafter "Department"), Case No. 2005.0555E. The Department issued a Notice of Preparation of Environmental Review on July 1, 2006, to owners of properties within 300 feet, adjacent tenants, and other potentially interested parties.

On June 10, 2010, the Project Sponsor submitted a request for a General Plan Referral regarding the vacation of a portion of San Jose Avenue between 27th and Cesar Chavez Streets. On September 26, 2011, the Project Sponsor submitted a request for a General Plan Referral associated with sidewalk width changes along certain streets adjacent to the St. Luke’s Campus (2009.0886R).

On June 10, 2010, the Project Sponsor submitted a request, as modified by subsequent submittals, to amend the following sections of the General Plan: (1) “Map 4 – Height Map” of the Urban Design Element, to reflect a maximum height of 105’-0” applicable to the St. Luke’s Campus (all of Assessor’s Block 6575, Lot 021 in Block 6576, and a portion of San Jose Avenue between Cesar Chavez Street and 27th Street that will be vacated as part of the project, and their successor Blocks and Lots); and (2) “Map 5 – Bulk Map” of the Urban Design Element, to reflect the proposed maximum plan and maximum diagonal plan dimensions of 227’ and 270’, respectively, for the St. Luke’s Replacement Hospital (“Replacement Hospital”) site, and 204’ and 228’, respectively, for the St. Luke’s Medical Office Building (“St. Luke’s MOB”) site (2009.0886M).

On June 10, 2010, the Project Sponsor submitted a request, as modified by subsequent submittals, to amend the following sections of the San Francisco Planning Code: (1) Add Section 249.68 to establish the Cesar Chavez/Valencia Streets Medical Use Special Use District ("SUD") and allow a floor area ratio of 2.5 to 1 in the Cesar Chavez/Valencia Streets Medical Use SUD; and (2) add Section 124(k) to allow a floor area ratio of 2.5 to 1 in the Cesar Chavez/Valencia Streets Medical Use SUD. (Case No. 2009.0886T).

On June 10, 2010, the Project Sponsor submitted a request, as modified by subsequent submittals, to amend the following Zoning Maps of the San Francisco Planning Code: (1) Map HT07 to reclassify the St. Luke’s Hospital site and all other portions of the St. Luke’s Campus within the 65-A Height and Bulk District to the 105-E Height and Bulk District; and (2) Map SU07 to show the boundaries of the Cesar Chavez/Valencia Streets Medical Use SUD (Case No. 2009.0886Z).

On June 10, 2010, the Project Sponsor filed an application with the Department, as modified by subsequent submittals, for Conditional Use authorization under Planning Code Sections 134, 136, 151,

---

1 At the time of this application, the Cathedral Hill Hospital site was within the boundaries, and was governed by the land use controls, of the Western Addition A-2 Plan. Those controls expired on January 1, 2009.
303, 304, 209.3(a), 209.9(b), 253, 270, and 271, to amend the existing Planned Unit Development (hereinafter "PUD") for CPMC's St. Luke's Campus to allow construction of the St. Luke's Hospital building, demolition of the existing St. Luke's Hospital Tower, and the construction of the St. Luke's MOB with (1) exceptions to/exemptions from the rear yard and off-street parking requirements of Planning Code Sections 134 and 151; (2) exceptions from the dimension limitations for projections over streets or alleys; (3) to allow buildings over 40'-0" in an RH-2 District; and (4) to allow deviation from bulk limits, at Assessor's Block 6575/001, 002; 6576/021; and a portion of San Jose Avenue between Cesar Chavez Street and 27th Street (3555 Cesar Chavez Street, 3615 Cesar Chavez Street, 1580 Valencia Street), within an RH-2 (Residential, House, Two-Family) District and a 105-E Height and Bulk District ("St. Luke's Replacement Hospital and MOB Project").

On June 10, 2010, the Project Sponsor submitted a request, as modified by subsequent submittals, for the allocation of Office Space for approximately 99,848 s.f. of medical office space in the proposed St. Luke's MOB (Case No. 2009.08866B).

On July 21, 2010, the Draft Environmental Impact Report ("DEIR") for CPMC's LRDP Project, including the St. Luke's Replacement Hospital and MOB Project, was prepared and published for public review, and was available for public comment until October 19, 2010.

On September 23, 2010, the Planning Commission ("Commission") conducted a duly noticed public hearing at a regularly scheduled meeting to solicit comments regarding the DEIR. On March 29, 2012, the Department published a Comments and Responses document, responding to comments made regarding the DEIR prepared for the LRDP. Together, the Comments and Responses ("C&R") document, the DEIR, and any Errata Sheets, (the Appendices to the DEIR and C&R document), Department staff testimony and responses to questions and comments at the Commission's April 26, 2012, public hearing regarding certification of the Final EIR, and all of the supporting information that has been reviewed and considered by the Department comprise the Final Environmental Impact Report for the LRDP ("FEIR").

On March 30, 2012, the Project Sponsor submitted an Application for a Development Agreement relating to the construction and reconstruction of health care facilities in furtherance of the CPMC's LRDP by and between the City and County of San Francisco and CPMC, pursuant to Administrative Code Section 56.4. This Application was endorsed and accepted as complete by the Planning Director on April 4, 2012.

On April 5, 2012, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting and adopted Motion No. 18571, initiating the requested General Plan Amendments.

On April 10, 2012, the Mayor, at the Board of Supervisors hearing, introduced the (1) Planning Code Text Amendments in Board File No. 120358; (2) the Zoning Map Amendments in Board File No. 120360, (3) the street vacation ordinance in Board File No. 120361, (4) the Transfer Agreement in Board File No. 120363, (5) the Development Agreement in Board File No. 120366, and (5) sidewalk width legislation in Board File No. 120365.

On April 26, 2012, the Commission reviewed and considered the FEIR and found that the contents of said report and the procedures through which the FEIR was prepared, publicized, and reviewed complied with the California Environmental Quality Act (California Public Resources Code Sections 21000 et
The Planning Department, Linda Avery, is the custodian of records, located in the File for Case No. 2005.0555E, at 1650 Mission Street, Fourth Floor, San Francisco, California.

Department staff prepared a Mitigation Monitoring and Reporting Program ("MMRP") for the LRDP Project, which material was made available to the public and this Commission for this Commission's review, consideration and action.

On April 26, 2012, the Commission (1) adopted Motion No. 18588 certifying the FEIR as accurate, adequate and complete, (2) adopted Motion No. 18589, adopting CEQA findings, including a Statement of Overriding Considerations, and adopting the MMRP, and (3) adopted other Motions and Resolutions with respect to the LRDP Project.

On April 26, 2012, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting and adopted: (1) Resolution No. 18590, recommending that the Board of Supervisors approve the requested General Plan Amendments; (2) Motion No. 18592, making findings of consistency with the General Plan and Planning Code Section 101.1; (3) Resolution No. 18593, recommending that the Board of Supervisors approve the requested Planning Code Text and Map Amendments; (4) Motion No. 18594, approving the proposed Conditional Use authorization; (5) Motion No. 18595, approving the allocation of the proposed office space; and (6) Resolution No. 18602, recommending that the Board of Supervisors approve the proposed draft Development Agreement.

The Planning Department, Linda Avery, is the custodian of records, located in the File for Case No. 2009.0886MTZCBRSK, at 1650 Mission Street, Fourth Floor, San Francisco, California.

On April 26, 2012, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting on the General Plan Referral in Case No. 2009.0886MTZCBRSK.

The Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of the applicant, Department staff, and other interested parties.

MOVED, that the Commission hereby adopts the General Plan Referral described in Application No. 2009.0886MTZCBRSK, based on the following findings:
FINDINGS

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

1. The above recitals are accurate and constitute findings of this Commission.

2. Site Description and Present Use. The St. Luke’s Campus is located in the southeastern quadrant of the City and occupies a full city block plus a surface parking lot on a portion of the adjacent block, totaling approximately 3.6 acres. It is bounded by Cesar Chavez Street, Valencia Street, Duncan Street, one lot to the west of San Jose Avenue, and 27th Street. The Campus currently contains eight buildings, totaling approximately 451,868 gsf of floor area and 329 parking spaces. The Hospital (comprised of the 1970 Tower, 1957 Building and Hartzell Building, described below) is licensed by the California Department of Public Health (CDPH) for 229 hospital beds.

More specifically, the Campus includes the following facilities:

- The St. Luke’s Hospital Tower has 12 stories above ground and one story below ground, is approximately 197,983 gsf, and is primarily used for inpatient care, skilled nursing, and administrative support. There are eight surface parking spaces north of the Hospital Tower.

- The 1957 Building has four stories above ground and is approximately 31,724 gsf. It is primarily used for the Emergency Department, diagnostic and treatment space, and support space. There are 106 parking spaces associated with this building; 74 spaces on a surface parking lot and 32 street spaces along San Jose Avenue.

- The 1912 Building has four stories above ground, is approximately 26,280 gsf, and is primarily used for hospital administration, outpatient care, diagnostic and treatment space, support space, and the chapel.

- The Monteagle Medical Center has eight stories above ground and one story below ground and is approximately 90,005 gsf which includes medical office space, outpatient care space, diagnostic and treatment space, and support space.

- The Redwood Administration Building is a portable one-story building containing approximately 2,400 gsf which is used for hospital administration.

- The Hartzell Building has two stories above ground and one story below ground and has approximately 18,506 gsf primarily used for office and educational uses for the Samuel Merritt School of Nursing.

- The Duncan Street Parking Garage is two stories above ground and contains approximately 83,370 gsf for 215 parking spaces. With the additional 114 off-street surface parking spaces on the St. Luke’s Campus (described above), there are a total of 329 parking spaces on the campus.

- The one story MRI Trailer contains 1,600 gsf used for diagnostic and treatment space.
Several buildings on the Campus are connected to each other: the Hospital Tower, the 1957 Building, the 1912 Building, and the Monteagle Medical Center connect north to south through internal corridors at various levels; and the MRI Trailer is connected via an enclosed passageway to the 1912 Building.

Gradual building development at St. Luke's has occurred since 1875, when St. Luke's moved into a new facility at its present location at Valencia and Cesar Chavez Streets. Today, the oldest building remaining on the Campus is the 1912 Building. The existing St. Luke's Hospital Tower was approved in 1967 when the Planning Commission authorized a conditional use for the St. Luke's Campus (Resolution No. 6078). In 1968, a temporary encroachment permit was issued to allow a portion of San Jose Avenue (between Cesar Chavez Street and 27th Street) to be used as parking for the St. Luke's Campus. In 1971, further development was approved (Resolution No. 6714) including the construction of the Monteagle Medical Center, Duncan Street Parking Garage, and surface parking. In 2001, St. Luke's Hospital became an affiliate of Sutter Health and formally merged with CPMC in 2007.

The portion of San Jose Avenue subject to this General Plan Referral is gated at its northern end where it meets Cesar Chavez Street and is not open to through traffic. The Street Area has been closed for public use under a temporary encroachment permit since 1968, when the Board of Supervisors approved Resolution No. 323-69, granting permission to St. Luke's Hospital to occupy the Street Area. On February 6, 2002, the Department of Parking and Traffic submitted a letter to the Board of Supervisors, which concluded that the encroachment permit had minimal negative impact on the traffic circulation in the adjacent area, because the Street Area had been closed to through traffic for over 30 years, and residents in the neighborhood had become accustomed to its closure. The Street Area currently includes perpendicular parking for CPMC staff on the west side and access to a loading and service entrance for the existing St. Luke's hospital tower on the east side.

The St. Luke's Campus is located in the RH-2 Zoning District (Residential, House, Two-Family). The RH-2 Districts are devoted to one-family and two-family houses. In some cases, group housing and institutions are found in these areas, although nonresidential uses tend to be quite limited. Hospitals and medical centers are permitted in this District with Conditional Use authorization.

3. **Surrounding Properties and Neighborhood.** The St. Luke's Campus is in the greater Mission neighborhood, surrounded by the Inner Mission, Outer Mission, Glen Park, Bernal Heights, Precita Valley, Diamond Heights and Noe Valley neighborhoods. The neighborhood contains a mix of residential uses, including single-family dwellings, duplexes and small apartment buildings. Retail uses are scattered through the area, mainly on Cesar Chavez, Mission, and Valencia Streets. On Mission Street, retail stores and other commercial uses form a continuous corridor of commercial activity. Mission Street draws shoppers, customers and business clients from beyond the immediate neighborhood of the St. Luke's Campus.
There have been recent efforts to improve the streetscape and calm traffic on San Jose Avenue, Guerrero Street and Cesar Chavez Street. The proposed Cesar Chavez Street Design Plan is a detailed design effort to re-envision Cesar Chavez Street from Hampshire Street to Guerrero Street in the Mission District, and identifies ways to make Cesar Chavez Street a safe, pleasant, and attractive corridor for people, bikes, and transit. The proposed Mission District Streetscape Plan is a community-based planning process to identify streetscape improvements to streets, sidewalks, and public spaces in the Mission District.

4. **Project Description.** This approval relates to the items in the General Plan Referral application, but the broader Near-Term Projects are described here for context. The Near-Term Projects outlined in CPMC’s LRDP will result in a five campus system with three acute care hospitals – Davies, St. Luke’s, and Cathedral Hill – providing approximately 903 licensed beds and three full-service emergency departments (one at each of the acute care hospitals). The Davies Hospital North Tower was retrofitted in 2008 to remain operational to 2030. The St. Luke’s Hospital will be replaced by a new hospital built on campus, adjacent to the existing hospital (Replacement Hospital), followed by construction of a Medical Office Building (St. Luke’s MOB) after the demolition of the existing Hospital Tower. The California and Pacific Campuses will remain operational as acute care hospitals until the proposed Cathedral Hill Hospital is constructed and operational. Once the proposed Cathedral Hill Hospital is built, as part of the Near-Term Project implementation activities, the acute care services at California and Pacific Campuses will be transferred to the Cathedral Hill Hospital, and the Pacific Campus’s existing 2333 Buchanan Street Hospital would undergo renovation and reuse as an ambulatory care center. In the long-term, the Pacific Campus will become an outpatient center, and CPMC proposes an additional medical office building on the Davies Campus.

This St. Luke’s Replacement Hospital and MOB Project is part of CPMC’s LRDP to improve its delivery of citywide health care, and comply with seismic requirements of California law.

The new Replacement Hospital and St. Luke’s MOB are major components of CPMC’s plans to continue to provide health care services in San Francisco. The new Replacement Hospital is being sited so that it can be built without disrupting services at the existing Hospital Tower. It is being designed, in compliance with SB 1953, to remain operational after a strong earthquake. The Replacement Hospital will be an 80-bed acute care hospital, and the St. Luke’s MOB will provide

---

2 Buchanan Street is an Existing Use under the proposed Development Agreement and is distinguished from the new construction proposed for the Long-Term Project at the Pacific Campus. The renovation and reuse may include, but is not limited to, the following uses: outpatient care, diagnostic and treatment services, Alzheimer’s residential care, medical support services such as pre- and post-ambulatory surgery, outpatient laboratory services, physical and occupational therapy, and cafeteria uses.

3 Long-Term Projects at the Davies and Pacific Campuses are being evaluated at a program-level as part of CPMC’s LRDP EIR. There are no pending Near-Term Projects under review for the Pacific Campus, and CPMC has not proposed any Near-Term or Long-Term Projects at the California Campus, which CPMC plans to sell after the majority of the services at that campus have been relocated to the Cathedral Hill and Pacific Campuses.

4 With the shift to single-patient rooms under modern hospital guidelines, newer facilities are projected to have a higher occupancy rate (about 90 percent, with variation by bed type) than with the multi-bed mode. The efficient use of beds in a multi-patient room
space for physicians who will be affiliated with the CPMC and the campus, as well as diagnostic and treatment space and space for other outpatient care. The St. Luke's Replacement Hospital and MOB Project will preserve and enhance San Francisco's health care infrastructure, particularly in the South of Market area.

Specifically, the proposal for the Replacement Hospital includes the construction of a new 146,410 gsf, five-story and approximately 99'-0" tall, 80-bed full-service, acute care hospital, sited on the Campus' existing surface parking lot and over a portion of the to-be-vacated San Jose Avenue that has been closed for use as a street since 1968 (and is currently used for parking for the St. Luke's Campus under an encroachment permit). Based on the recommendations of the Blue Ribbon Panel, which the Board of Supervisors commended through Resolution No. 478-08, the Replacement Hospital will be sited such that the existing hospital can remain in continuous operation during the new hospital's construction. The Replacement Hospital will include Centers of Excellence in Senior and Community Health and an expanded Emergency Department, and will include, but is not limited to, inpatient medical care, diagnostic and treatment space, surgical care, critical care, labor and delivery, and post-partum care. It will also include a cafeteria and an enclosed loading area.

The Emergency Department at the Replacement Hospital will be approximately 11,500 gsf, which is an increase of approximately 4,440 gsf over the existing Emergency Department in the 1957 Building. The new Emergency Department will be a significant improvement over the existing facility, and waiting times for patients should be reduced through the provision of all private treatment spaces. The new Emergency Department will be in the Replacement Hospital, adjacent to Imaging Services; this adjacency will increase efficiency compared to the existing hospital where these functions exist on separate floors. There will be more support space and improved technology. Waiting time for patients should further be reduced by flexible triage space. Additionally, many of the non-emergency patient visits would be accommodated by expanding the hours and services of the existing Health Care Center in the Monteagle Office Building to create an urgent care center able to receive patients who do not need Emergency care. By creating additional capacity via an urgent care center on the St. Luke's Campus, the effective combined Emergency Department and urgent care capacity would increase from about 26,000 visits per year today to approximately 31,600 visits under the LRDP.

After the Replacement Hospital opens and once services are moved into it from the existing Hospital Tower and the 1957 Building, the existing Hospital Tower will be demolished as part of the Near-Term Projects at the St. Luke's Campus. After demolition of the Hospital Tower, the new St. Luke's MOB would be constructed at that site, also as part of the Near-Term Projects at St. Luke's. Construction of the St. Luke's MOB is expected to occur after 2015.

The existing uses in the St. Luke's 1957 Building, such as the Emergency Department, surgery, diagnostics and treatment, would be transferred to the Replacement Hospital, and the building environment is limited by a number of factors, such as the gender and diagnosis of the patients, as well as infection control and privacy concerns.
would be converted from acute care to support use. The MRI Trailer, and the enclosed passageway connecting it to the 1912 Building, would be removed after construction of the St. Luke's MOB. The uses in the MRI Trailer would be transferred to the Replacement Hospital or St. Luke's MOB upon completion. Following demolition of the existing Tower, CPMC would then construct a new 104,008 gsf, five-story and approximately 100'-tall St. Luke's MOB approximately in the existing hospital's place. The St. Luke's MOB would include medical office space for doctors admitting patients to the hospital, and would include retail, educational, and conference space, along with a four level underground garage with approximately 219 parking spaces. Vehicular access to the underground parking garage will be from Cesar Chavez and Valencia Streets.

The exterior designs of the Replacement Hospital and St. Luke's MOB were developed with input from the Planning Department staff and the community. The exteriors of the bases of the Replacement Hospital and of the St. Luke's MOB will be durable (tile, stone, and brick matching the 1912 Building exterior) and will ground the buildings on the site, engaging users at the pedestrian level. The upper floors will be Glass Fiber Reinforced Concrete (GFRC), glass, and metal panel. Metal panels are used for the canopy which runs along the entire east side of the Replacement Hospital, unifying the upper and lower public plazas (described below) and creating a connection from the interior of the Replacement Hospital to the exterior terraced plazas. The soffit of the canopy is continuous between the interior and exterior, further connecting the Replacement Hospital to the organizing element of the Campus, the reestablished and pedestrian oriented San Jose Avenue.

The St. Luke's MOB will be entitled at the same time as the Replacement Hospital, but the design will continue to be refined with planning staff while the new hospital is being built since the St. Luke's MOB cannot be built until the existing hospital is demolished. Once built, the new St. Luke's MOB will connect internally to the Replacement Hospital and 1957 Building.

The new Replacement Hospital and St. Luke's MOB will be organized around landscaped open space that mimics the existing San Jose Avenue alignment between Cesar Chavez Street and 27th Street. This landscaped public plaza would span two levels and would be designed to unify the Campus, mediate the site's significant grade change and provide a public pedestrian pathway along a similar path of travel as the vacated San Jose Avenue right-of-way between Cesar Chavez and 27th Streets. The lower (north) plaza at Cesar Chavez will front the Replacement Hospital's cafeteria and primary entrance at the northeast corner of the building and the ground floor retail at the base of the St. Luke's MOB. The upper (south) plaza, will provide access to the second level of the Replacement Hospital. Stairs against the east face of the Replacement Hospital connect the Campus's south upper plaza at 27th Street and the north lower plaza at Cesar Chavez. A canopy will cover the drop-off area on Cesar Chavez Street and adjacent Replacement Hospital entrance, and continue along the east face of the Replacement Hospital along the public plaza, to provide protection in inclement weather, as is required by the California Building Code. The plazas and adjacent streetscape along Cesar Chavez are enlivened by activity at the Replacement Hospital's lobby and café, a community room facing the lower plaza, and by retail space within the St. Luke's MOB along most of the Cesar Chavez frontage. All landscaping and street improvements
as part of the St. Luke's Near-Term Projects are consistent with and complement the Cesar Chavez Street Design Plan.

Although the proposed Replacement Hospital is not subject to the San Francisco Building Code and the Green Building Ordinance, CPMC has committed to “building green”, and is seeking LEED Certified status for the St. Luke’s Replacement Hospital. The St. Luke’s MOB is subject to San Francisco’s Green Building Ordinance, and will achieve a minimum of LEED Silver certification.

5. Public Comment. The Department has received substantial comments expressing support for and opposition to CPMC’s LRDP, over the past 7 years since the initial EEA was submitted. Support for and opposition to CPMC’s LRDP can be found in the project files at the Planning Department.

6. CEQA Findings. On April 26, 2012, by Motion No. 18588, the Commission certified as adequate, accurate and complete the FEIR for the LRDP Project, which includes the St. Luke’s Replacement Hospital and MOB Project. A copy of Commission Motion No. 18588 is in the file for Case No. 2005.0555E. Also on April 26, 2012, by Motion No. 18589, the Commission adopted findings, including a statement of overriding considerations and an MMRP, pursuant to CEQA. In accordance with the actions contemplated herein, the Commission has reviewed the FEIR and adopts and incorporates by reference as though fully set forth herein the findings, including the statement of overriding considerations, pursuant to CEQA, adopted by the Commission on April 26, 2012, in Motion No. 18589.

7. General Plan Referral. San Francisco Charter Section 4.105 and Sections 2A.52 and 2A.53 of the San Francisco Administrative Code require that, for projects that include certain actions, the Department or the Commission must review these actions and determine whether the project is in conformity with the objectives and policies of the General Plan, as well as the Priority Policies of Section 101.1. The following aspects of the project trigger the requirement for a General Plan referral:

a. Sale, Vacation, and Change of Use of a Portion of the San Jose Avenue Street Right-of-Way, between 27th Street and Cesar Chavez Street. This right-of-way measures approximately 15,492 gsf. The City has agreed to a transactional framework (the proposed Transfer Agreement) to convey the underlying land to Sutter West Bay Hospitals, doing business as California Pacific Medical Center, in exchange for fair market value of the Street Property, which is $1,010,000. This portion of the San Jose Avenue right-of-way would be vacated and incorporated into the overall development site for the Replacement Hospital.

b. Sidewalk Changes. The Near-Term Projects at St. Luke’s include changes to the sidewalk widths surrounding the St. Luke’s Campus. Specifically, they include changes to the official sidewalk width of: a) the southerly side of Cesar Chavez Street starting at the southeast intersection with Guerrero Street continuing east to the southwest intersection
with Valencia Street; b) the westerly side of Valencia Street, starting at the southwest intersection with Cesar Chavez Street continuing south to the northwest intersection with Duncan Street; and c) the northern portion of 27th Street starting at the intersection of 27th Street and San Jose Avenue and continuing west for 44.24 feet.

8. **General Plan Compliance.** The General Plan Consistency Findings set forth in Motion No. 18592 apply to this Motion, and are incorporated as though fully set forth herein.

9. **Planning Code Section 101.1(b).** The General Plan Priority Policy Findings of Planning Code Section 101.1 as set forth in Motion No. 18592 apply to this Motion, and are incorporated as though fully set forth herein.

10. The street vacation and sidewalk width changes included as part of the St. Luke's Replacement Hospital and MOB Project are consistent with and would promote the general and specific purposes of the Code provided under Section 101.1(b) as outlined in Motion No. 18592 and also in that, as designed, the St. Luke's Replacement Hospital and MOB Project would contribute to the healthcare delivery and emergency services in San Francisco, include substantial economic benefits to the City during both the construction and operational phases, provide substantial other public benefits as outlined in the proposed Development Agreement, and be compatible with the character and stability of the neighborhood, thereby constituting a beneficial development.

11. The Commission hereby finds that, for the reasons described above, approval of the General Plan Referral would promote the health, safety and welfare of the City.
DECISION

That based upon the Record, the submissions by the Applicant, the staff of the Department and other interested parties, the oral testimony presented to this Commission at the public hearings, and all other written materials submitted by all parties, the Commission hereby ADOPTS FINDINGS that 1) sale, vacation and change of use of a portion of the San Jose Avenue right-of-way between Cesar Chavez and 27th streets, and 2) sidewalk width changes adjacent to the St. Luke's Campus are consistent with the objectives and policies of the General Plan, and the Priority Policies of Section 101.1.

I hereby certify that the Planning Commission ADOPTED the foregoing Motion on April 26, 2012.

Linda D. Avery
Commission Secretary

AYES: Fong, Antonini, Borden, Miguel, Moore, and Sugaya

NAYS:

ABSENT: Wu

ADOPTED: April 26, 2012
DPW Order No: 180254

Determination to recommend vacating the portion of San Jose Avenue lying between Cesar Chavez Street and 27th Street pursuant to California Streets and Highways Code Sections 8300 et seq. and Section 787 of the San Francisco Public Works Code.

WHEREAS, Public streets and sidewalks are owned by the City and County of San Francisco as a public right-of-way; and

WHEREAS, the portion of San Jose Avenue, between Cesar Chavez and 27th Streets to be vacated ("the Vacation Area"), is specifically shown on SUR Map 2012-001, dated March 21, 2012; and

WHEREAS, Pursuant to the California Streets and Highway Code, the Department of Public Works, Bureau of Street Use and Mapping (the "Department") has initiated the process to vacate the Vacation Area; and

WHEREAS, The Department sent notice of the proposed street vacation, draft SUR drawing, a copy of the petition letter, and a DPW referral letter to the Department of Technology, San Francisco Municipal Transportation Agency, AT&T, Sprint, San Francisco Fire Department, San Francisco Water Department, Pacific Gas and Electric ("PG&E"), Bureau of Light, Heat and Power, Bureau of Engineering, Department of Parking and Traffic, Utility Engineering Bureau, and the Public Utility Commission ("PUC"). No utility company or agency objected to the proposed vacation, and the Vacation Area is unnecessary for the City’s present or prospective public street purposes; and

WHEREAS, The California Pacific Medical Center ("CPMC") is owner of all real property adjacent to the Vacation Area; and

WHEREAS, The public interest, convenience, and necessity require that, except as specifically provided herein, no other easements or other rights should be reserved by City for any public or private utilities or facilities that are in place in the Vacation Area and that any rights based upon any such public or private utilities or facilities are unnecessary and should be extinguished; and

WHEREAS, Pursuant to the Streets and Highways Code Section 892, the Department determines that the Vacation Area is unnecessary for non-motorized transportation as there are multiple streets surrounding that Vacation Area that remain available for such transportation and those
members of the public availing themselves of non-motorized transportation will not be
inconvenienced by the proposed street vacation; and

WHEREAS, The Director of Public Works for the City and County of San Francisco has
determined the following:

1. The vacation is being carried out pursuant to the California Streets and Highways Code
sections 8300 et seq.

2. The vacation is being carried out pursuant to section 787 of the San Francisco Public Works
Code.

3. The vacation is being carried out pursuant to Section 8334 of the California Streets and
Highway Code, which provides that a legislative body of a local agency may summarily vacate
an excess right-of-way of a street, highway or public easement under certain circumstances.

4. The Vacation Area to be vacated is shown on the SUR Map No. 2012-001.

5. The Vacation Area is located within a portion of CPMC's St. Luke's Campus. The Vacation
Area is gated at its northern end where it meets Cesar Chavez Street and has not been open to
through traffic since at least 1968. CPMC currently uses the Vacation Area under a street
encroachment permit recorded May 15, 1968, as instrument No. Q 63257, in Book B 241, Page
991 (the "Encroachment Permit"). The Vacation Area is not necessary for street purposes as
(1) all properties that abut the Vacation Area are owned by CPMC as part of the St. Luke's
Campus, (2) Cesar Chavez Street does not run through the St. Luke's Campus or end touching
the property of another, and (3) the St. Luke's Campus is fully served by other roadways. As part
of the plan for redevelopment of the St. Luke's Campus, CPMC has filed a lot line adjustment
application to merge the three other parcels on the St. Luke's Campus, together with the Vacation
Area, to create one parcel.

6. The Vacation Area is necessary for the CPMC St. Luke's Replacement Hospital Project,
provided the Vacation Area is transferred to CPMC and thereafter developed as contemplated by
and as described in the environmental impact report ("EIR") for CPMC's Long Range
Development Plan ("LRDP").

7. The Vacation Area is unnecessary for the City's present or prospective public street,
sidewalk, or public service easement purposes as described herein.

8. Pursuant to the Streets and Highways Code Section 892, the Vacation Area is not necessary
for non-motorized transportation for the reasons set forth herein, and therefore has no use as a
non-motorized transportation facility.

9. There will be no physical public or private utilities affected by the vacation of the Vacation
Area, based on the absence of any objections from any utility company, the consents obtained
and agreements in place for relocation of existing facilities to the satisfaction of the Director and
of all utility operators before the effective date of the street vacation, and the Director's
recommendation that this street vacation and order rescinding the Encroachment Permit for the
Vacation Area not become effective until the removal of existing utility facilities in the Vacation

San Francisco Department of Public Works
Making San Francisco a beautiful, livable, vibrant, and sustainable city.
Area or the installation of all necessary replacement facilities outside of the Vacation Area to the satisfaction of the Director, to allow for the abandonment of existing utilities in the Vacation Area. Therefore, the continued and uninterrupted functioning and capacity of such existing utility facilities will not be affected. Any one of these reasons would be sufficient to find that there are no public utility facilities currently in use that would be affected by the vacation.

10. The vacation of the Vacation Area will allow for the transfer of the Vacation Area to CPMC and the opportunity to redevelop the St. Luke's Campus, including a new St. Luke's Replacement Hospital and associated entry plaza and pedestrian pathway, portions of which would be located on the Vacation Area. The conveyance of the Vacation Area is a policy matter for the Board of Supervisors.

11. The public interest, convenience and necessity require that, except as provided in this Order, no other easements or other rights be reserved for any public or private utilities or facilities that are in place in such vacation area and that any rights based upon any such public or private utilities or facilities may be extinguished.

12. The Vacation Area is unnecessary for the City’s present or prospective public street purposes.

13. At its hearing on April 26, 2012, the Planning Commission certified by Motion No. 18588 a Final Environmental Impact Report ("FEIR") for the LRDP, which includes the St. Luke's Campus and the proposed street vacation, as adequate, accurate and complete, pursuant to the California Environmental Quality Act (California Public Resources Code Section 21000 et seq.) ("CEQA"), the CEQA Guidelines (14. Cal. Code Reg. Section 15000 et seq.) and Chapter 31 of the Administrative Code. A copy of the Motion is in the file for Case No. ______. Also on April 26, by Motion No. 18589, the Planning Commission adopted findings, including a statement of overriding considerations, and an MMRP, pursuant to CEQA. In accordance with the actions contemplated herein, the Director has reviewed the FEIR, and adopts and incorporates by reference as though fully set forth herein the findings, including the statement of overriding considerations and mitigation monitoring and reporting program, adopted by the Planning Commission.

NOW THEREFORE BE IT ORDERED THAT,

The Director approves all of the following documents either attached hereto or referenced herein:

1. SUR Map No. 2012-001

The Director further recommends, consistent with the Planning Commission's finding that the vacation contemplated herein is consistent with the General Plan and in conformance with the Eight Priority Policies of Planning Code Section 101.1 as set forth in Motion 18592 adopted April 26, 2012, that the Board of Supervisors move forward with the legislation to vacate said Vacation Area consistent with the foregoing, including the recommendation that the street vacation and order rescinding the Encroachment Permit for the Vacation Area not be effective until the removal of existing utility facilities in the Vacation Area or installation of all necessary replacement facilities outside the Vacation Area to the satisfaction of the Director, to allow for the abandonment of existing utilities in the Vacation Area.
The Director recommends the Board of Supervisors approve all actions set forth herein and heretofore taken by the Officers of the City with respect to this vacation. The Director further recommends the Board of Supervisors authorize the Mayor, Clerk of the Board, Director of Property, County Surveyor, and Director of Public Works to take any and all actions which they or the City Attorney may deem necessary or advisable in order to effectuate the purpose and intent of this Ordinance.

NOTICE OF PUBLIC HEARING
BOARD OF SUPERVISORS OF THE CITY AND COUNTY OF SAN FRANCISCO
LAND USE & ECONOMIC DEVELOPMENT COMMITTEE

NOTICE IS HEREBY GIVEN THAT the Land Use and Economic Development Committee will hold a public hearing to consider the following proposal and said public hearing will be held as follows, at which time all interested parties may attend and be heard:

Date: Friday, June 15, 2012
Time: 10:00 a.m.
Location: Legislative Chamber, Room 250 located at City Hall
1 Dr. Carlton B. Goodlett Place, San Francisco, CA
Subject: California Pacific Medical Center Long Range Development Plan

120357 Planning Code - Increase Maximum Floor Area Ratios and Create the Van Ness Medical Use Subdistrict Within the Van Ness Special Use District - California Pacific Medical Center: Cathedral Hill Campus

Ordinance amending the San Francisco Planning Code by: 1) amending Section 124 to allow a floor area ratio of 9:1 for a hospital and 7.5:1 for a medical office building within the Van Ness Special Use District, Medical Use Subdistrict; 2) amending Section 243 to include the establishment of the Van Ness Medical Use Subdistrict and associated controls; and 3) adopting findings, including environmental findings, Planning Code Section 302 findings, and findings of consistency with the General Plan and the priority policies of Planning Code Section 101.1.

120358 Planning Code - Increase Maximum Permitted Floor Area Ratio and Establish the Cesar Chavez/Valencia Streets Medical Use Special Use District - California Pacific Medical Center: St. Luke’s Campus

Ordinance amending the San Francisco Planning Code by: 1) adding Section 124(k) to allow a floor area ratio of 2.5 to 1 in the Cesar Chavez/Valencia Streets Medical Use Special Use District; 2) adding Section 249.68 to establish the Cesar Chavez/Valencia Streets Medical Use Special Use District; and 3) adopting findings, including environmental findings, Planning Code Section 302 findings, and findings of consistency with the General Plan and the priority policies of Planning Code Section 101.1.
120359  Zoning Map - California Pacific Medical Center: Cathedral Hill Campus

Ordinance amending the San Francisco Planning Code Sectional Maps SU02 and HT02 of the Zoning Map of the City and County of San Francisco to: 1) reflect the creation of the Van Ness Medical Use Subdistrict at Assessor's Block Nos. 0695 (Lot Nos. 005, 006) and 0694 (Lot Nos. 005, 006, 007, 008, 009, 009A, 010); 2) allow an increase in height at Assessor's Block No. 0695 (Lot Nos. 005, 006) in order to allow for a new seismically safe hospital; and 3) adopt findings, including environmental findings, Section 302 findings, and findings of consistency with the General Plan and the priority policies of Planning Code Section 101.1.

120360  Zoning Map - California Pacific Medical Center: St. Luke's Campus

Ordinance amending the San Francisco Planning Code Sectional Maps SU07 and HT07 of the Zoning Map of the City and County of San Francisco to: 1) reflect the creation of the Cesar Chavez/Valencia Streets Medical Use Special Use District at the California Pacific Medical Center's St. Luke's Campus (Block No. 6575, Lot Nos. 001 and 002; Block No. 6576, Lot No. 021; and a portion of San Jose Avenue between Cesar Chavez and 27th Streets); 2) allow an increase in height throughout the western portion of the California Pacific Medical Center's St. Luke's Campus (Block No. 6576, Lot No. 021; and a portion of San Jose Avenue between Cesar Chavez and 27th Streets) in order to allow for a new seismically safe replacement hospital; and 3) adopt findings, including environmental findings, Section 302 findings, and findings of consistency with the General Plan and the priority policies of Planning Code Section 101.1.

120361  Summary Street Vacation - Portion of San Jose Avenue - California Pacific Medical Center: St. Luke's Campus

Ordinance ordering the summary street vacation of a portion of San Jose Avenue, between 27th Street and Cesar Chavez Street; rescinding an existing encroachment permit; adopting environmental findings pursuant to the California Environmental Quality Act and findings that the action contemplated herein are consistent with the San Francisco General Plan and eight priority policies of San Francisco Planning Code Section 101.1; and authorizing official acts in connection with this ordinance.

120362  Street Encroachments - Van Ness Avenue, Cedar Street, and Geary Boulevard - California Pacific Medical Center: Cathedral Hill Campus

Resolution: 1) granting revocable permission to the California Pacific Medical Center to a) occupy a portion of the public right-of-way on Van Ness Avenue in order to construct and maintain a pedestrian tunnel under Van Ness Avenue (State Highway 101) to connect the new medical office building and the new hospital located at 1100 and 1101 Van Ness Avenue respectively; b) construct and maintain off-site improvements on the north side of Cedar Street between Van Ness Avenue and Polk Street, across the street from the medical office building and on the south side of Cedar Street contiguous to the property at 1001 Polk Street (Block No. 0694, Lot No. 004), including reconstructing and widening the existing sidewalk, installing new landscaping and reconstructing the existing roadway with pavers; and c) install and maintain two 30,000 gallon diesel fuel tanks within the public right of way under Geary Boulevard between Franklin Street and Van Ness Avenue, in order to serve the hospital at 1101 Van Ness Avenue; and 2) making environmental findings and findings of consistency with the General Plan and the priority policies of Planning Code Section 101.1.
Resolution authorizing the Director of Property to execute a Land Transfer Agreement with Sutter West Bay Hospitals, doing business as California Pacific Medical Center, for the future conveyance by the City and County of San Francisco to California Pacific Medical Center of real property consisting of a portion of San Jose Avenue between 27th Street and Cesar Chavez Street; and making findings, including findings under the California Environmental Quality Act and findings of consistency with the General Plan and Planning Code Section 101.1.

Ordinance: 1) amending Ordinance No. 1061 entitled “Regulating the Width of Sidewalks” by adding thereto Section 1591 to change the official sidewalk width of: a) the southerly side of Post Street starting at the southeast intersection with Franklin Street continuing east to the southwest intersection with Van Ness Avenue; b) the northerly side of Geary Boulevard starting at the northeast intersection with Franklin Street continuing east to the northwest intersection with Van Ness Avenue; c) the northerly side of Geary Street starting at the northeast intersection of Van Ness Avenue continuing east 325 feet; d) both sides of Cedar Street starting at the intersection with Van Ness Avenue continuing east to the intersection with Polk Street; e) the westerly side of Van Ness Avenue starting at the intersection with Geary Boulevard continuing north to the intersection with Post Street; and f) the easterly side of Van Ness Avenue starting at the intersection with Geary Street continuing north to the intersection with Cedar Street; 2) making environmental findings and findings pursuant to the General Plan and Planning Code Section 101.1; and 3) requiring relocation, modification, or both of facilities affected by the sidewalk width change.

Ordinance: 1) amending Ordinance No. 1061 entitled “Regulating the Width of Sidewalks” by adding thereto Section 1591 to change the official sidewalk width of: a) the southerly side of Cesar Chavez Street starting at the southeast intersection with Guerrero Street continuing east to the southwest intersection with Valencia Street; b) the westerly side of Valencia Street, starting at the southwest intersection with Cesar Chavez Street continuing south to the northwest intersection with Duncan Street; and c) the northern portion of 27th Street starting at the intersection of 27th Street and San Jose Avenue and continuing west for 44.24 feet; 2) making environmental findings and findings pursuant to the General Plan and Planning Code Section 101.1; and 3) requiring relocation, modification, or both of facilities affected by the sidewalk width change.

Ordinance: 1) approving a Development Agreement between the City and County of San Francisco and Sutter West Bay Hospitals, for certain real property associated with the California Pacific Medical Center Long Range Development Plan located at various locations in the City and County of San Francisco and generally referred to as the St. Luke’s Campus, Cathedral Hill (Van Ness and Geary) Campus, Davies Campus, Pacific Campus, and California Campus; 2) making findings under the California Environmental Quality Act, findings of conformity with the City’s General Plan and with the eight priority policies of Planning Code Section 101.1(b); and 3) waiving certain provisions of Administrative Code Chapter 56, and ratifying certain actions taken in connection therewith.
General Plan - Van Ness Area Plan Amendments - California Pacific Medical Center: Cathedral Hill Campus

Ordinance amending the San Francisco General Plan Van Ness Area Plan in order to facilitate the development of a high density medical center at the transit nexus of Van Ness Avenue and Geary Boulevard and reflect various elements of this use; and adopting findings, including environmental findings, Planning Code Section 340 findings, and findings of consistency with the General Plan and the priority policies of Planning Code Section 101.1.

General Plan Map - California Pacific Medical Center: St. Luke's Campus

Ordinance amending the General Plan of the City and County of San Francisco by: 1) amending Map 4 of the Urban Design Element to increase the height limit for the California Pacific Medical Center's St. Luke's Campus (Block No. 6575/Lot Nos. 001, 002; Block No. 6576/Lot No. 021, and the portion of San Jose Avenue between Cesar Chavez Street and 27th Street) to 105 feet; and 2) amending Map 5 of the Urban Design Element to reflect the proposed maximum plan dimensions and maximum diagonal plan dimensions of 227' and 270', respectively, for the St. Luke's Replacement Hospital site and 204' and 228', respectively, for the medical office building site at the St. Luke's Campus; and adopting findings, including environmental findings, Section 340 findings, and findings of consistency with the General Plan and the priority policies of Planning Code Section 101.1.

General Plan Map - California Pacific Medical Center: Cathedral Hill Campus

Ordinance amending the General Plan of the City and County of San Francisco by: 1) amending Map 4 of the Urban Design Element to allow for development up to a height of 265 feet on the block bounded by Van Ness Avenue, Geary Boulevard, Franklin and Post Streets; 2) amending Map 5 of the Urban Design Element to reflect the proposed maximum plan dimensions and maximum diagonal plan dimensions of 385' and 466', respectively, for the Cathedral Hill Hospital site and 265' and 290', respectively, for the Cathedral Hill MOB site; 3) amending Map 1 of the Van Ness Area Plan, to designate the sites of the proposed Cathedral Hill Hospital and Medical Office Building as the Van Ness Medical Use Subdistrict; and 4) amending Map 2 of the Van Ness Area Plan to create a 265-V height/bulk district coterminal with the Hospital site; and adopting findings, including environmental findings, Planning Code Section 340 findings, and findings of consistency with the General Plan and the priority policies of Planning Code Section 101.1.

In accordance with Section 67.7-1 of the San Francisco Administrative Code, persons who are unable to attend the hearing on these matters may submit written comments to the City prior to the time the hearing begins. These comments will be made a part of the official public records in these matters, and shall be brought to the attention of the Members of the Committee. Written comments should be addressed to Angela Calvillo, Clerk of the Board, Room 244, City Hall, 1 Dr. Carlton Goodlett Place, San Francisco, 94102. Information relating to this matter is available in the Office of the Clerk of the Board and agenda information relating to this matter will be available for public review on Friday, June 8, 2012.
