## LEGISLATIVE DIGEST

[General Plan Map - California Pacific Medical Center: St. Luke's Campus]

**Ordinance amending the General Plan of the City and County of San Francisco by: 1) amending Map 4 of the Urban Design Element to increase the height limit for the California Pacific Medical Center's St. Luke's Campus (Block No. 6575/Lot Nos. 001, 002; Block No. 6576/Lot No. 021, and the portion of San Jose Avenue between Cesar Chavez Street and 27<sup>th</sup> Street) to 105 feet; and 2) amending Map 5 of the Urban Design Element to reflect the proposed maximum plan dimensions and maximum diagonal plan dimensions of 227' and 270', respectively, for the St. Luke's Replacement Hospital site and 204' and 228', respectively, for the medical office building site at the St. Luke's Campus; and adopting findings, including environmental findings, Section 340 findings, and findings of consistency with the General Plan and the priority policies of Planning Code Section 101.1.**

### Existing Law

Currently, maps contained in the San Francisco General Plan's Urban Design Element proscribe the height and bulk of development in the area around the California Pacific Medical Center's St. Luke's Campus, which is located on Cesar Chavez Street, between Valencia and Guerrero Streets.

### Amendments to Current Law

This ordinance would amend two maps in the San Francisco General Plan's Urban Design Element:

- 1) Map 4, which governs heights of buildings, is amended to increase the maximum height on the St. Luke's Campus from a range of 41 to 88 feet, to 105 feet;
- 2) Map 5, which governs the bulk of buildings, is amended to increase the maximum plan dimension from 110 feet to 227 feet, and maximum diagonal plan dimension from 125 feet to 270 feet for the St. Luke's Replacement Hospital site, and to increase the maximum plan dimension from 110 feet to 204 feet, and increase the maximum diagonal plan dimension from 125 to 228 feet for the medical office building site.

### Background Information

California Pacific Medical Center ("CPMC") currently operates four acute care medical centers in San Francisco: the California Campus, the Pacific Campus, the St. Luke's Campus, and the Davies Campus. As part of its program to meet state seismic readiness deadlines, CPMC's Long Range Development Plan ("LRDP") proposes a five campus system with three

acute care hospitals – at Davies, St. Luke's, and a new hospital at the proposed Cathedral Hill Campus – providing approximately 903 licensed beds and three full-service emergency departments (one at each of the acute care hospitals). Once the proposed Cathedral Hill Hospital is built at the Cathedral Hill Campus, the acute care services at the California and Pacific campuses will be transferred to the Cathedral Hill Hospital. The Pacific Campus's existing acute care hospital would undergo renovation and reuse as an ambulatory care center. CPMC would sell the California Campus after the transfer of acute care and non-acute care services to the Cathedral Hill and/or the Pacific Campus. In the near term, under the LRDP, CPMC would also construct medical office building at Cathedral Hill, a medical office building at Davies, and replace the existing hospital and construct a new medical office building at St. Luke's. More details regarding CPMC's LRDP, including plans and renderings, can be found on the Planning Department's website at [cpmc.sfplanning.org](http://cpmc.sfplanning.org).

This ordinance concerns the proposed St. Luke's Campus. At St. Luke's CPMC will construct a new 146,410 gross square foot, five-story, approximately 99' tall, 80-bed acute care hospital, sited on an existing surface parking lot and over a portion of the to-be-vacated San Jose Avenue.

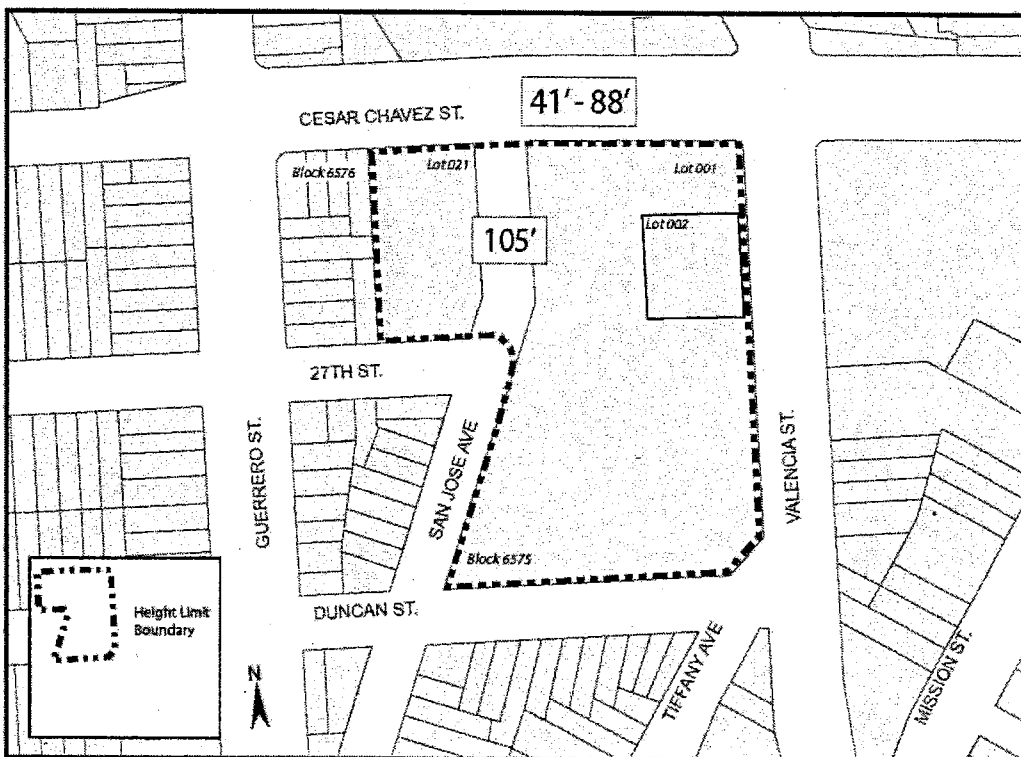

After the hospital is constructed, the existing hospital will be demolished and CPMC will construct a new 104,008 gross square foot, five-story, approximately 100 feet tall medical office building. The medical office building will include medical office space and retail, educational, and conference space, along with a four level underground garage with approximately 220 parking spaces.

Among other approvals, construction of the St. Luke's hospital and medical office building will also require ordinances to amend the San Francisco Planning Code and Zoning Map. CPMC also seeks approval of a development agreement with the City primarily related to construction of the new hospital and medical office building at the Cathedral Hill Campus, the new medical office building at the Davies Campus, and the hospital and medical office building at the St. Luke's Campus.

Dear Ms. Calvillo,

Attached please find one original hardcopy plus this electronic transmittal of the proposed General Plan Amendment Ordinances, Planning Code Text Amendment Ordinances, Zoning Map Amendment Ordinances, and a Development Agreement Ordinance (collectively, the "Ordinances") for Board of Supervisors' approval. These Ordinances are associated with the California Pacific Medical Center Long Range Development Plan Project (hereinafter "CPMC LRDP Project"), which is a multi-phased development strategy to meet state seismic safety requirements for hospitals and to create a 20-year framework for CPMC's four existing medical campuses and for construction of a proposed new medical campus (the "Cathedral Hill Campus") in San Francisco. The proposed LRDPs would facilitate the development of certain Near-Term Projects under the CPMC LRDP at CPMC's St. Luke's, Cathedral Hill, and Davies Campuses.

On April 5, 2012, the San Francisco Planning Commission (hereinafter "Commission") conducted a duly noticed public hearing at a regularly scheduled meeting to consider the initiation of the proposed General Plan Amendment Ordinances associated with the CPMC LRDP Project.

On April 10, 2012, the Mayor introduced at the regularly scheduled Board of Supervisors hearing various legislation associated with the CPMC LRDP Project, including the Planning Code Text Amendment Ordinances, Zoning Map Amendment Ordinances, and a Development Agreement Ordinance.

On April 26, 2012, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinances as part of the CPMC LRDP Project.

### PREAMBLE

On June 10, 2005, Ralph F. Marchese of The Marchese Company, Inc., on behalf of California Pacific Medical Center (hereinafter referred to variously as "CPMC" and "Project Sponsor"), submitted an Environmental Evaluation Application (EEA) with the Planning Department (hereinafter "Department"), Case No. 2005.0555E<sup>1</sup>. The Department issued a Notice of Preparation of Environmental Review on July 1, 2006, to owners of properties within 300 feet, adjacent tenants, and other potentially interested parties.

<sup>1</sup> At the time of this application, the Cathedral Hill Hospital site was within the boundaries, and was governed by the land use controls, of the Western Addition A-2 Plan. Those controls expired on January 1, 2009.

On January 13, 2009, CPMC revised its EEA to include updates regarding the LRDP Project, including the proposal for a new St. Luke's Replacement Hospital and St. Luke's Medical Office Building.

On July 21, 2010, the Draft Environmental Impact Report ("DEIR") for CPMC's LRDP Project, including the St. Luke's Replacement Hospital and MOB Project, was prepared and published for public review, and was available for public comment until October 19, 2010.

On September 23, 2010, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting to solicit comments regarding the DEIR. On March 29, 2012, the Department published a Comments and Responses document, responding to comments made regarding the DEIR prepared for the LRDP. Together, the Comments and Responses document, the DEIR, and any Errata Sheets, (the Appendices to the DEIR and C&R document), Department staff testimony and responses to questions and comments at the Commission's April 26, 2012, public hearing regarding certification of the Final EIR, and all of the supporting information that has been reviewed and considered by the Department, comprise the Final EIR for the LRDP ("FEIR").

## **FINDINGS**

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

1. The Commission finds the St. Luke's Replacement Hospital and MOB Project to be a beneficial development to the City that could not be accommodated without the actions requested.
2. CPMC has provided quality health care to the San Francisco community for over 150 years. It is the largest medical center in the City, and is presently responsible for about one-third of all hospitalizations, about one-half of all births in the City, about 40 percent of all patients receiving health services in the City and almost 40 percent of emergency visits. Each year CPMC cares for more than 75,000 persons in its emergency departments. The LRDP would ensure CPMC's continued existence and viability in San Francisco, thereby ensuring St. Luke's continued existence and viability.
3. The existing St. Luke's Hospital Tower does not meet State seismic standards. Regardless of the State legal mandate, it is in the public interest that CPMC meet these seismic standards as soon as possible. These Ordinances, along with the Development Agreement and related approvals, achieve the objective of allowing CPMC's facilities to be rebuilt to meet the desired and legally

mandated seismic standards, without any interruption in delivery of acute care services at the existing Hospital Tower due to construction

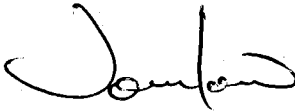

4. CPMC's facilities, particularly if they are rebuilt to remain operational after an earthquake, are an essential part of the City's preparation for, and ability to respond to a disaster. If CPMC were not to build the new hospitals, the City would lose approximately one-third of all acute care beds, and three full-service emergency departments, one of which provides specialty pediatric emergency care.
5. Construction of the LRDP will double the number of earthquake safe beds in San Francisco, inject about \$1.9 billion into the local economy during the next five years, and create 1,500 high paying union construction jobs.
6. The Near-Term Projects in the LRDP would allow the City to retain CPMC as a substantial employer, employing approximately 6,200 persons, of which about half are San Francisco residents. The LRDP would also permit the City to retain and enhance its domestic and international reputation as an education, training, and research center for medical services that benefit the residents of San Francisco. This benefits the City and its residents because it will attract patients, doctors and researchers to San Francisco.
7. Under the terms of the Development Agreement, CPMC would increase entry-level local construction employment and internship opportunities. CPMC would make good faith efforts to achieve 30% local hire measured by construction trade hours for the Near-Term Projects under the LRDP overall for each contractor, by each trade. CPMC would achieve 50% local hire for new entry-level administrative and engineering positions and internships, would fill half of all new apprentice positions with graduates from the CityBuild Academy, and would create and administer a structured program to advance apprentices from CityBuild Academy to journey-level status in their trade by the end of the Project. CPMC plans to hire at least 40 San Francisco-resident permanent entry-level hires annually for five years, representing just under half of all entry level hires, targeting residents of the Western Addition, Tenderloin, Mission/SOMA, Outer Mission/Excelsior, Chinatown and Southeastern neighborhoods. CPMC would also provide \$2 million for community workforce services, which would provide grants to community-based organizations through the City's Office of Economic and Workforce Development for recruitment, training, and job retention services.
8. The Near-Term Projects will assure the availability of modern and high quality, general and specialized inpatient and out-patient, emergency and urgent health care to the residents of San Francisco, including seniors, Medicare, Medi-Cal, insured and un-insured.
9. The Near-Term Projects at the St. Luke's Campus will assure the availability of medical offices for physicians located near hospital facilities to serve the residents of San Francisco.
10. The Replacement Hospital would be a full-service community hospital integrated into the CPMC city-wide system of care. It would provide critical services including Obstetrics/Gynecology, Medical/Surgical, Intensive Care and Urgent Care, as well as Centers of Excellence in Senior and Community Health.
11. By creating additional capacity via an urgent care center on the St. Luke's Campus, the effective urgent and emergency capacity would increase substantially. The expanded department will be critical in serving the southeastern portion of San Francisco, and in preventing overburdening of the San Francisco General Hospital Emergency Department.

12. Emergency services, including psychiatric emergency care, would be provided at the St. Luke's, Davies and Cathedral Hill Campuses. These emergency departments serve patients regardless of ability to pay.
13. Under the terms of the proposed Development Agreement, CPMC would commit to providing services to the poor and underserved, including traditional charity care, hospital care for additional Medi-Cal managed care beneficiaries enrolled in the San Francisco Health Plan, unpaid costs and other benefits for the poor and underserved. Specifically, CPMC would commit to:
  - a. Two new, seismically-safe hospitals, at the St. Luke's and Cathedral Hill Campuses;
  - b. A secure future for St. Luke's hospital;
  - c. Significantly increased provision of healthcare for low-income and underserved San Franciscans, including hospital care for 10,000 additional Medi-Cal beneficiaries, which represents one-third of the City's new Medi-Cal beneficiaries expected under federal healthcare reform;
  - d. \$20 million endowment by CPMC of a new Community Care Innovation Fund, to support the services of community clinics and other social service organizations; and
  - e. Funding to develop capacity of one or more Tenderloin clinics to participate in Medi-Cal managed care.
14. Under the terms of the proposed Development Agreement, CPMC would provide additional funding to the City, including:
  - a. \$62 million for affordable housing, to replace the 20 residential hotel units and five dwelling units displaced, fund new affordable rental units, and to help moderate income CPMC employees purchase a home in San Francisco, resulting in approximately 320 affordable units [145 from initial \$29M payments; 175 from DALP recapture] to the market over 13 years, and assisting at least 145 moderate income CPMC employees buy a home in San Francisco.
  - b. \$20 million from CPMC for MTA transit facilities and service.
  - c. \$13 million from CPMC for pedestrian safety and streetscape improvements.
15. The LRDP will be constructed at no cost to the City, and will provide substantial direct and indirect economic benefits to the City;
16. The General Plan was not created with the new construction of hospitals as a focused land use typology, and thus does not recognize the complexity, site and Building Code constraints, and health care delivery intricacies involved therein.
17. A number of conforming amendments to elements of the San Francisco General Plan, including General Plan maps, are required in order to resolve the aforementioned issues and facilitate the implementation of the CPMC LRDP.
18. The CPMC LRDP and its proposed amendments to the General Plan support the underlying goals of the General Plan, such as maintaining a sound and diverse economic base, providing expanded employment opportunities, promoting high quality urban design, enhancing San

- Francisco's position as a national and regional center for health services, and promoting adequate health services in all geographic districts.
19. The LRDP is necessary and desirable, is compatible with the surrounding neighborhoods, and would not be detrimental to persons or adjacent properties in the vicinity;
  20. The General Plan Amendments are necessary in order to approve the CPMC LRDP Project;
  21. **General Plan Compliance.** The St. Luke's Replacement Hospital and MOB Project is, on balance, consistent with the Objectives and Policies of the General Plan, as outlined in **Motion No. 18592.**
  22. **Planning Code Section 101.1(b)** establishes eight priority-planning policies and requires review of permits for consistency with said policies. On balance, the St. Luke's Replacement Hospital and MOB Project complies with said policies, as outlined in **Motion No. 18592.**
  23. The St. Luke's Replacement Hospital and MOB Project is consistent with and would promote the general and specific purposes of the Code provided under Section 101.1(b) as outlined in **Motion No. 18592** and also in that, as designed, the St. Luke's Replacement Hospital and MOB Project would contribute to the healthcare delivery and emergency services in San Francisco, include substantial economic benefits to the City during both the construction and operational phases, provide substantial other public benefits as outlined in the proposed Development Agreement, and be compatible with the character and stability of the neighborhood, thereby constituting a beneficial development.
  24. Based on the foregoing, the public necessity, convenience and general welfare require the proposed General Plan amendments.

I hereby certify that the Planning Commission ADOPTED the foregoing Resolution on April 26, 2012.
