Controller's Discussion of the Mayor's FY 2012-13 and 2013-14 Proposed Budget

June 14, 2012

Charter Section 9.102 requires that the Controller provide the Board of Supervisors with an opinion regarding the accuracy of economic assumptions underlying the revenue estimates in the Mayor's Proposed Budget and the reasonableness of such estimates. On May 31, 2012, Mayor Edwin Lee submitted his FY 2012-13 and FY 2013-14 Proposed Budget to the Board of Supervisors. An overview of the revenues is provided in Table 1.

Overall, the proposed two-year budget appears to be reasonable given the information currently available. The proposed budget reduces the City's recent reliance on one-time revenues and includes a gradual rebuilding of reserves, reducing prospective budgetary shortfalls, provided that the current economic recovery is sustained and potential future reductions in State revenues remain manageable.

Overview

As shown in Table 1, the Proposed Budget for FY 2012-13 of $3.5 billion General Fund and $7.3 billion All Funds represents a 7% increase from the FY 2011-12 original budget. The Proposed Budget for FY 2013-14 represents a further 3% increase in both General Fund and All Funds. Highlights include:

- **Local tax revenue estimates are reasonable given current economic assumptions but will continue to be monitored.** The proposed budget reflects the prevailing economic consensus in assuming a steady economic recovery through FY 2012-13 and FY 2013-14, with regular revenues increasing by $220 million over the FY 2011-12 budget (representing $92 million above the revised FY 2011-12 revenue outlook in the Controller's Nine Month Budget Status Report), and FY 2013-14 revenues increasing by a further $109 million. However, San Francisco's economy is vulnerable to national and international economic developments that could cause changes to the currently favorable trends in job growth, property values and tourism. Any significant economic slowdown would require the Mayor's Office and Board to adjust the budget to reflect reduced revenues. The Controller's Office will monitor local tax receipts and the overall economic outlook carefully and provide revenue projection updates throughout the budget years.
