RESOLUTION NO.

1	[Urging Muni to Prioritize Eligible Funds for Maintenance]
2	
3	Resolution urging Muni to prioritize funding for vehicle and equipment maintenance,
4	rehabilitation, and purchase in light of deteriorating Muni service.
5	
6	WHEREAS, The San Francisco Municipal Railway (Muni) provides critical
7	transportation services in San Francisco, carrying hundreds of thousands of people every day,
8	in accordance with the City's Transit First policy; and
9	WHEREAS, Many San Franciscans rely on Muni service for critical daily needs,
10	including getting to work, going to school, attending doctor visits, shopping, running errands,
11	and generally living their lives; and
12	WHEREAS, Particularly for low-income and working-class San Franciscans, Muni may
13	provide their only means of transportation, such that an unreliable system has dramatic
14	negative impacts on them; and
15	WHEREAS, For decades, Muni has under-invested in maintenance, resulting in
16	vehicles that break down regularly, and switches, signals, and other infrastructure that fail
17	more than they should; and
18	WHEREAS, These equipment and vehicle breakdowns, resulting from inadequate
19	maintenance, have dramatic negative consequences for service levels and reliability; and
20	WHEREAS, Muni has a number of vehicles that are so broken down that they are
21	completely unavailable for service, some for years; and
22	WHEREAS, Muni cannot afford to repair, maintain, or rehabilitate all of its vehicles and
23	only has resources to address the most urgent maintenance/repair needs; and
24	WHEREAS, Muni has approximately \$420 million in vehicle rehabilitation and repair
25	needs; and

Supervisor Wiener **BOARD OF SUPERVISORS**

 rehabilitate its vehicles, and lack of sufficient vehicles have undermined service levels and reliability, including a 57.2% on-time performance for August 2012 and 602 runs (approximately 43 per day) missed in the second half of October 2012; and WHEREAS, There are numerous examples of overall system failure due to broken down vehicles, and in a particularly egregious example, on October 24, 2012, the day of the first game of the World Series, between 4:30 and 6:00 p.m., three separate LRVs broke down in the subway, resulting in a subway meltdown; and WHEREAS, Service failures frustrate the public, undermine confidence, and reduce support for public transportation; and WHEREAS, It is Muni's top responsibility to provide "reliable, safe, timely, frequent, and convenient transit service to all neighborhoods," as mandated by the voters in the City Charter; and WHEREAS, Muni must invest in system maintenance and reliability now – not later – to stop the system's hemorrhaging; and WHEREAS, Muni is about to receive \$6.7 million in Transit Performance Initiative (TPI regional funding, which is to be used to increase ridership and improve the system's productivity; and 	1	WHEREAS, Muni does not have enough vehicles, particularly light rail vehicles (LRVs),
 should be two-car trains; and WHEREAS, Muni's long-term under-investment in maintenance, inability to repair and rehabilitate its vehicles, and lack of sufficient vehicles have undermined service levels and reliability, including a 57.2% on-time performance for August 2012 and 602 runs (approximately 43 per day) missed in the second half of October 2012; and WHEREAS, There are numerous examples of overall system failure due to broken down vehicles, and in a particularly egregious example, on October 24, 2012, the day of the first game of the World Series, between 4:30 and 6:00 p.m., three separate LRVs broke down in the subway, resulting in a subway meltdown; and WHEREAS, Service failures frustrate the public, undermine confidence, and reduce support for public transportation; and WHEREAS, It is Muni's top responsibility to provide "reliable, safe, timely, frequent, and convenient transit service to all neighborhoods," as mandated by the voters in the City Charter; and WHEREAS, Muni must invest in system maintenance and reliability now – not later – 1 stop the system's hemorrhaging; and WHEREAS, Muni is about to receive \$6.7 million in Transit Performance Initiative (TPI regional funding, which is to be used to increase ridership and improve the system's productivity; and 	2	to provide reliable service, and has no LRVs in reserve, such that if an LRV breaks down, it
5 WHEREAS, Muni's long-term under-investment in maintenance, inability to repair and 6 rehabilitate its vehicles, and lack of sufficient vehicles have undermined service levels and 7 reliability, including a 57.2% on-time performance for August 2012 and 602 runs 8 (approximately 43 per day) missed in the second half of October 2012; and 9 WHEREAS, There are numerous examples of overall system failure due to broken 10 down vehicles, and in a particularly egregious example, on October 24, 2012, the day of the 11 first game of the World Series, between 4:30 and 6:00 p.m., three separate LRVs broke down 12 in the subway, resulting in a subway meltdown; and 13 WHEREAS, Service failures frustrate the public, undermine confidence, and reduce 14 support for public transportation; and 15 WHEREAS, It is Muni's top responsibility to provide "reliable, safe, timely, frequent, and 16 convenient transit service to all neighborhoods," as mandated by the voters in the City 17 Charter; and 18 WHEREAS, Muni must invest in system maintenance and reliability now – not later – 1 19 stop the system's hemorrhaging; and 20 WHEREAS, Muni is about to receive \$6.7 million in Transit Performance Initiative (TPI 21 regional funding, which is to be used to increase ridership and improve the system's 22 productivity; and	3	typically cannot be replaced, resulting in gaps in service and one-car trains where there
 rehabilitate its vehicles, and lack of sufficient vehicles have undermined service levels and reliability, including a 57.2% on-time performance for August 2012 and 602 runs (approximately 43 per day) missed in the second half of October 2012; and WHEREAS, There are numerous examples of overall system failure due to broken down vehicles, and in a particularly egregious example, on October 24, 2012, the day of the first game of the World Series, between 4:30 and 6:00 p.m., three separate LRVs broke down in the subway, resulting in a subway meltdown; and WHEREAS, Service failures frustrate the public, undermine confidence, and reduce support for public transportation; and WHEREAS, It is Muni's top responsibility to provide "reliable, safe, timely, frequent, and convenient transit service to all neighborhoods," as mandated by the voters in the City Charter; and WHEREAS, Muni must invest in system maintenance and reliability now – not later – to stop the system's hemorrhaging; and WHEREAS, Muni is about to receive \$6.7 million in Transit Performance Initiative (TPI regional funding, which is to be used to increase ridership and improve the system's productivity; and 	4	should be two-car trains; and
