LEGISLATIVE DIGEST

[Administrative Code - Agricultural Inspection Fees]

Ordinance amending the Administrative Code, Section 1.10, to revise registration fees for inspecting agricultural products; and making environmental findings.

Existing Law

Agricultural inspection fees are based on cost recovery, and subject to certain State law requirements.

Amendments to Current Law

This amendment simplifies the charge for the inspection and issuance of certificates for agricultural products by the County Agricultural Commissioner, and imposes mandatory State of California fees that must be collected by the County to be remitted to the California Department of Food and Agriculture.

Item 2
File 13-0131

Department:
Department of Public Health (DPH)

EXECUTIVE SUMMARY

Legislative Objectives

- The proposed ordinance would amend Section 1.10 of the Administrative Code to (1) increase and streamline fees charged by the County Agricultural Commissioner under the Department of Public Health's (DPH) Agriculture Program for inspection and certification of agricultural products sent to other States and foreign countries, (2) codify new State Certificate fees and existing Federal Certificate fees that the Agricultural Commissioner is required to collect on behalf of the California Department of Food and Agriculture and the U.S. Department of Agriculture (USDA), and (3) authorize the Controller to adjust agricultural product inspection and certification fees annually, without further action by the Board of Supervisors, to ensure that the Program fully recovers the costs of operation for the upcoming fiscal year.

Key Points

- In order to meet the plant quarantine requirements of importing States and countries, exporters of plants and unprocessed plant products are required to obtain Federal and State Phytosanitary Certificates, certifying these products for export. Under a Memorandum of Understanding between the U.S. Department of Agriculture (USDA) and the California Department of Food and Agriculture, the Agricultural Commissioner of each county in California performs inspections, issues Phytosanitary Certificates, and charges exporters a fee to recover the costs of inspection and certification.
- The proposed ordinance would increase and streamline fees charged by the County Agricultural Commissioner for inspection and certification of agricultural products by replacing the existing 5-tier fee with a single fee of \$40.
- The proposed ordinance would authorize the Controller to adjust agricultural product inspection and certification fees annually, without further action by the Board of Supervisors, to ensure that the Program fully recovers the costs of operation for the upcoming fiscal year. Under the proposed ordinance, future changes to the agricultural product inspection and certification fees would be posted on the DPH website.

Fiscal Impact

- According to estimates provided by the County Agricultural Commissioner, the proposed ordinance would increase the annual revenues realized from agricultural product inspection and certification fees by \$1,313, from \$20,887 to \$22,200.
- If the proposed single fee of \$40 had been in effect for all of FY 2012-13, the proposed fee would have resulted in 93.4 percent recovery of the County Agricultural Commissioner's costs to inspect and certify agricultural products for export. However, Mr. Miguel Monroy, San Francisco's Agricultural Commissioner, advises that the proposed fee of \$40 is appropriate given (1) the uncertainty of how many inspections will be requested in the future and the hours required to perform those inspections, and (2) the Controller's authority to adjust the fee as needed to recover costs in future years, without further action by the Board of Supervisors, which would be authorized under the proposed ordinance.

Recommendation

- Approve the proposed ordinance.

MANDATE STATEMENT / BACKGROUND

Mandate Statement

In accordance with Section 2.105 of the City's Charter, amendments to the Administrative Code are subject to approval by ordinance of the Board of Supervisors.

Background

In order to meet the plant quarantine requirements of importing states and countries, exporters of plants and unprocessed plant products are required to obtain Federal and State Phytosanitary Certificates,¹ certifying these products for export. Under a Memorandum of Understanding between the U.S. Department of Agriculture (USDA) and the California Department of Food and Agriculture, the Agricultural Commissioner of each County in California (1) performs inspections to ensure that agricultural products meet plant quarantine requirements, such as having no visible traces of dirt on them, (2) issues Phytosanitary Certificates, and (3) charges exporters a fee to recover the costs of inspection.

According to Mr. Miguel Monroy, San Francisco's Agricultural Commissioner, the Department of Public Health (DPH) Agriculture Program performs between 500 and 600 inspections and certifications for approximately 25 to 30 exporters of agricultural products each year. Mr. Monroy advises that inspections are usually performed where the products are prepared for shipping and thus requires inspectors to travel to different shipping locations. Under the existing Administrative Code Section 1.10, exporters are charged a fee on a per shipment basis, which, as shown in Table 2 below, varies according to the number of packages in a shipment.

As shown in Table 1 below, annual revenues realized from agricultural product inspection and certification fees charged by the County Agricultural Commissioner recovered approximately 95.7 percent of the County Agricultural Commissioner's costs in FY 2010-11, and approximately 73.5 percent of the County Agricultural Commissioner's costs in FY 2011-12. Mr. Monroy advises that the Program's costs were higher in FY 2011-12 due to the hiring and training of a new inspector, and that the Program's costs for FY 2012-13 are expected to return to previous levels.

Year	Certificates Issued	Hours Expended	Estimated Cost	Actual Revenues	% of Cost Recovered
FY 10-11	597	415.5	\$19,333	\$18,494	95.7%
FY 11-12	555	551.5	\$28,416	\$20,887	73.5%

DETAILS OF PROPOSED LEGISLATION

The proposed ordinance would amend Section 1.10 of the Administrative Code to (1) increase and streamline fees charged by the County Agricultural Commissioner under DPH's Agriculture Program for inspection and certification of agricultural products sent to other States and foreign

¹ Phytosanitary Certificates are issued to indicate that consignments of plants, unprocessed plants products or other regulated articles meet specified phytosanitary import requirements.

countries, (2) codify new State Certificate fees and existing Federal Certificate fees that the Agricultural Commissioner is required to collect on behalf of the California Department of Food and Agriculture and the USDA, and (3) authorize the Controller to adjust agricultural product inspection and certification fees annually, without further action by the Board of Supervisors, to ensure that the Program fully recovers the costs of operation for the upcoming fiscal year.

Inspection and Certification Fees

The proposed ordinance would increase and streamline fees charged by the County Agricultural Commissioner for inspection and certification of agricultural products by replacing the 5-tier fee schedule, shown in Table 2 below, with a single fee of \$40. According to Mr. Monroy, the current fee schedule is unnecessarily difficult for inspectors and exporters to calculate, and does not accurately reflect the actual costs of performing inspections. Mr. Monroy advises that due to the process of inspecting a small number of randomly selected packages out of an entire shipment, variation in the total number of packages in a shipment has a negligible effect on the time required to perform inspections. In addition, as shown in Table 2 below, under the current fee schedule, exporters shipping between 501 and 1,000 packages pay a smaller inspection and certification fee than exporters shipping between 201 and 500 packages.

Table 2: Current and Proposed Agricultural Product Inspection and Certification Fees

Number of Packages in Shipment	Current Fees	Proposed Fee
1 to 100	\$29	\$40
101 to 200	\$35	\$40
201 to 500	\$40	\$40
501 to 1,000	\$35 plus 1 cent per package over 500 packages	\$40
Over 1,000	\$40 plus one-half cent per package over 1,000 packages	\$40

The proposed ordinance would also increase the fee for each Certificate of Fumigation from \$30 to \$40. Mr. Monroy advises that the Agriculture Program has not needed to issue a Certificate of Fumigation during his four years as County Agricultural Commissioner. Therefore, increasing the fee for Certificates of Fumigation would have negligible fiscal impact.

State and Federal Certificate Fees

The proposed ordinance would codify in Section 1.10 of the City's Administrative Code new State Phytosanitary Certificate fees and existing Federal Phytosanitary Certificate fees that the County Agricultural Commissioner is required to collect on behalf of the California Department of Food and Agriculture and the USDA. The California Code of Regulations sets these fees at \$5.30 per Certificate.

Exporters who have an account with the USDA Phytosanitary Certificate Tracking System make direct electronic payments to pay State and Federal Certificate fees. For exporters who do not have an account with the USDA Phytosanitary Certificate Tracking System, the County Agricultural Commissioner is required to collect the State and Federal Certificate fees and remit them to the California Department of Food and Agriculture and the USDA. However, Mr. Monroy advises that all exporters currently doing business in San Francisco have accounts with the USDA Phytosanitary Certificate Tracking System; therefore the County Agricultural

Commissioner generally does not have to administer the collection and remittance of the State and Federal Certificate fees.

According to the City Attorney's Office, these State and Federal Certificate fees are required regardless of whether they are included in San Francisco's Administrative Code. Ms. Dario Elizondo of the City Attorney's Office advises that codifying these State and Federal Certificate fees in the City's Administrative Code would further clarify to exporters the role of the County Agricultural Commissioner in collecting such fees.

As discussed above, the proposed ordinance would authorize the Controller to adjust agricultural product inspection and certification fees annually, without further action by the Board of Supervisors, to ensure that the Program fully recovers the costs of operation for the upcoming fiscal year. Under the proposed ordinance, future changes to the agricultural product inspection and certification fees would be posted on the DPH website.

FISCAL IMPACT

The proposed ordinance would increase and streamline fees charged by the County Agricultural Commissioner for inspection and certification of agricultural products by replacing the 5-tier fee schedule, shown in Table 2 above, with a single fee of \$40.

According to estimates provided by the County Agricultural Commissioner, the proposed ordinance would increase the annual revenues realized from agricultural product inspection and certification fees by \$1,313, from \$20,887 to \$22,200, as shown in Table 3 below.

Table 3: Estimated Revenues under Current Fees versus Proposed Single Fee of \$40

	Estimated Certificates Issued	Estimated Hours Expended	Estimated Cost (FY 12-13)	Estimated Revenues	% of Cost Recovered
Current Fees	555	425	\$23,761	\$20,887	87.9%
Proposed Fee	555	425	\$23,761	\$22,200	93.4%

Source: Department of Public Health Agriculture Program

If the proposed single fee of \$40 had been in effect for all of FY 2012-13, the proposed fee would have resulted in 93.4 percent recovery of the County Agricultural Commissioner's costs to inspect and certify agricultural products for export. However, Mr. Monroy advises that the proposed fee of \$40 is appropriate given (1) the uncertainty of how many inspections will be requested in the future and the hours required to perform those inspections, and (2) the Controller's authority to adjust the fee as needed to recover costs in future years, without further action by the Board of Supervisors, which would be authorized under the proposed ordinance.

RECOMMENDATION

Approve the proposed ordinance.

Date: Wednesday, April 17, 2013

Time: 10:00 a.m.

Subject: File No. 130131. Ordinance amending the Administrative Code, Section 1.10, to revise registration fees for inspecting agricultural products; and making environmental findings.

The fees for each certificate of fumigation shall be \$30.

State of California Fees: In addition to fees set forth in Administrative Code, Section 1.10, the following administrative fees shall be collected on behalf of the California Department of Food and Agriculture for recovery of the Department's administrative costs:

(1) Federal Phytosanitary Certificates, per certificate:

- A. U.S. Department of Agriculture Phytosanitary Certificate Tracking System (PCIT) \$5.30;
- B. If PCIT is not used \$5.30;
