Be it ordained by the People of the City and County of San Francisco:

Section 1. Findings.

(a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. 120193 and is incorporated herein by reference.

(b) As one of the densest cities in the nation, San Francisco experiences significant pedestrian congestion on its sidewalks, limited on-street parking and loading, and impeded traffic flow from different travel modes and vehicles, particularly in its commercial zones and areas with a concentration of restaurants and food service uses. Restaurants also can create a crowded pedestrian area given waiting patrons that cannot be accommodated inside and smoking prohibitions, which require patrons to stand outside, as well as the usage of outdoor seating. These factors can contribute to the shortage of space on adjacent sidewalks.

Pedestrian congestion and path of travel difficulties are compounded by limited sidewalk width, door swing from parked vehicles, accommodation for path of travel and disability access along the sidewalk and between the sidewalk and vehicles parked in disabled parking.
zones, the number of private and public utility infrastructure elements, abundance of street
furniture, and other encroachments, such as cafe tables and chairs, display merchandise,
kiosks, and newsracks.

(c) This legislation attempts to provide and expand the range of convenient and
interesting food consumption opportunities for mobile food facilities in underserved and less
congested areas of the City at different times of the day and evening. Also, by limiting a
single facility's days to use a particular location during the course of a week, this Ordinance
will encourage and provide for greater opportunities for diversity of mobile food facilities in the
locations where different vendors will appear on a rotating basis. In addition, it attempts to
preserve safe pedestrian movement, protect on-street parking and loading in such a way that
allows regular turnover and use of this limited resource, and provide for less constrained
vehicular flow and bicycle access.

(d) The City must exercise care and consider public safety in addressing appropriate
locations for mobile food facilities in order to: (1) minimize conflicts between pedestrian
movement and customers frequenting mobile food facilities at high pedestrian use times in
congested areas of the City, particularly near existing restaurants with standard hours of
operation; (2) maintain availability of limited on-street parking in light of such facilities use of
one or more parking spaces for multiple hours in a single location at times of high on-street
parking usage; (3) discourage infringement on loading and drop-off zones by such facilities' so
that these limited spaces are available for regular service and delivery demands of existing
businesses and uses; and (4) avoid double parking and associated vehicular congestion that
occurs with reduced on-street parking that is more scarce when occupied by such facilities.
Consequently, the locational restrictions included in this legislation are intended to address
these public concerns.
Section 2. The San Francisco Public Works Code is hereby amended by amending Sections 184.80, 184.83, 184.84, 184.85, 184.88, 184.89, 184.93, 184.96, 184.97, and 184.98, and adding Section 184.86.1, to read as follows:
