10 Be it ordained by the People of the City and County of San Francisco:

11 Section 1. The Planning Department has determined that the actions contemplated in  
12 this ordinance comply with the California Environmental Quality Act (California Public  
13 Resources Code Section 21000 et seq.). Said determination is on file with the Clerk of the  
14 Board of Supervisors in File No. \_\_\_\_\_ and is incorporated herein by reference.

15 Section 2. Findings. The Board of Supervisors of the City and County of San  
16 Francisco hereby finds as follows:

17 1. By Resolution No. 585-10 (File No. 101259), this Board of Supervisors approved the  
18 terms of a host agreement for the 34th America’s Cup and related regattas (the “Event”) with  
19 the America’s Cup Event Authority (“Event Authority”), which was executed by the parties on  
20 December 31, 2010 as the America’s Cup Host and Venue Agreement (the “Host  
21 Agreement”) upon the selection of the City and County of San Francisco (“City”) as host city  
22 for the Event.

23 2. In Resolution No. 585-10, this Board found that hosting the Event would generate  
24 significant public benefits for the City including: (i) the generation of significant new jobs and  
25 economic development in a very short period of time; (ii) substantially increased public access

1 to the waterfront; (iii) new opportunities for people to view and enjoy the San Francisco Bay;  
2 and (iv) an extraordinary opportunity to showcase San Francisco and the Bay to the nation  
3 and the world.

4 3. Allowing aerial signs and advertising such as towing banners in the airspace above  
5 the Event during race activities would create visual blight and clutter that would (i) undermine  
6 the viewing experience for the thousands of spectators who are expected to attend the Event,  
7 (ii) pollute the visual landscape of the San Francisco waterfront that is being showcased by  
8 the Event, and (iii) create potentially dangerous visual distractions for the race participants.  
9 To provide a pleasant viewing experience for spectators by allowing for uninterrupted viewing  
10 of the Event activities, to protect public safety, and to safeguard the overall success of the  
11 Event, the Board wishes to protect the airspace above the Event from any and all commercial  
12 or promotional interruption during the racing events.

13 4. In addition, Section 10.3 of the Host Agreement requires the City to work with  
14 the Event Authority to develop and implement a program to protect the Event from “ambush  
15 marketing.” Specifically, Section 10.3(b) requires the City to take a number of actions on  
16 behalf of the Event Authority and the Event in general, including seeking “the prohibition of  
17 use of Event Airspace during the [e]vent, and in respect of appropriately large perimeters  
18 around the airspace of the [v]enue to prevent any unauthorized aircraft or any other floating or  
19 flying device (in particular hot air/helium/other gas balloons or blimps) from being used to  
20 advertise or carry out ambush marketing activities.” Ambush marketing refers to unauthorized  
21 parties taking actions to associate themselves with, and therefore capitalize on, the visibility  
22 and intellectual property of a particular event without entering appropriate contractual  
23 relationships to do so.

24 5. By adoption of this ordinance, this Board of Supervisors intends to establish  
25 restrictions on all aerial signs and advertising in the airspace over the Event in furtherance of

1 the City’s goals of ensuring a successful Event, promoting a pleasant spectator experience,  
2 and protecting public safety, as well as the City’s responsibilities under the terms of the Host  
3 Agreement.

4
