[Expenditure Plan - Public Education Enrichment Fund - San Francisco Unified School District - FY2013-2014]

Resolution approving the San Francisco Unified School District expenditure plan for the Public Education Enrichment Fund for FY2013-2014.

WHEREAS, Charter Section 16.123-2 establishes the Public Education Enrichment Fund (the "fund") and designates one-third of the fund for universal access to preschool, one-third for sports, library, arts and music programs and the remaining one-third of the fund, or in-kind services of equal value, for general education purposes; and

WHEREAS, The total fund requirement for FY2013-2014 is \$60 million adjusted by the annual discretionary General Fund revenues, which increases the FY 2013-14 amount to \$77.15 million to the San Francisco Unified School District and San Francisco Children and Families Commission collectively; and

WHEREAS, The San Francisco Unified School District's portion of the fund requirement is \$51.43 million plus interest in FY2013-2014; and

WHEREAS, The San Francisco Unified School District has proposed a plan to use the allocation of \$47.45 million for sports, libraries, arts, music and other general uses and \$3.99 million of in-kind services, representing 7.75 percent of the total allocation amount; as prescribed by the Charter; and

WHEREAS, The San Francisco Unified School District's estimated available budget in FY2013-2014 is \$52.97 million including a \$1.53 million carry-forward of unspent funds from the prior year allocation; and

WHEREAS, The Controller's Office has reviewed the San Francisco Unified School District's expenditure plan including performance measures, finds it to be consistent with the

requirements of the Charter, and has provided comments to the Mayor and Board of Supervisors; now, therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco approves the expenditure plan as proposed by the San Francisco Unified School District for FY 2013-14.

# PUBLIC EDUCATION ENRICHMENT FUND:

**Annual Report for FY 2013-14** 

June 11, 2013

### CONTROLLER'S OFFICE CITY SERVICES AUDITOR

The City Services Auditor was created within the Controller's Office through an amendment to the City Charter that was approved by voters in November 2003. Under Appendix F to the City Charter, the City Services Auditor has broad authority for:

- Reporting on the level and effectiveness of San Francisco's public services and benchmarking the city to other public agencies and jurisdictions.
- Conducting financial and performance audits of city departments, contractors, and functions to assess efficiency and effectiveness of processes and services.
- Operating a whistleblower hotline and website and investigating reports of waste, fraud, and abuse of city resources.
- Ensuring the financial integrity and improving the overall performance and efficiency of city government.

## City and County of San Francisco

Office of the Controller - City Services Auditor

Public Education Enrichment Fund: Annual Report for FY 2013-14 June 11, 2013

#### Executive Summary

#### Background

San Francisco voters approved the creation of the Public Education Enrichment Fund in March 2004. The mandate for the Public Education Enrichment Fund is outlined in San Francisco Charter Section 16.123-2 and designates one-third of the Public Education Enrichment Fund amount to Children and Families Commission (First 5 San Francisco) for universal access to preschool; one-third to the San Francisco Unified School District (Unified School District) for sports, library, arts and music programs; and the remaining one-third to the San Francisco Unified School District, or in-kind services of equal value, for general education purposes.

The Charter states that for FY 2010-11 through FY 2014-15, the City's annual contribution to the Public Education Enrichment Fund shall equal its total contribution for the prior year, beginning with FY 2009-10, adjusted for the estimated increase or decrease in discretionary General Fund revenues for the year. The Controller estimates the General Fund discretionary revenues in FY 2013-14 will be 129 percent of those in FY 2009-10. For FY 2013-14, the Public Education Enrichment Fund requirement is \$77.1 million from the General Fund.

If the joint budget report as prepared by the Controller, the Mayor's Budget Director and the Board of Supervisors' Budget Analyst projects a budgetary shortfall of \$100 million or more, the Mayor and the Board of Supervisors may reduce the City's contribution to the Public Education Enrichment Fund for the year up to 25 percent and defer payment of that amount to future years. Although the Controller, the Mayor's Budget Director and the Board of Supervisors' Budget Analyst projected a budgetary shortfall of \$100 million or more for FY2013-14, the Mayor opted to fully fund the Public Education Enrichment Fund for FY2013-14.

The Public Education Enrichment Fund expires on June 30, 2015. Prior to expiration, the Controller will conduct a complete analysis of the outcomes of the programs funded through the Public Education Enrichment Fund for presentation to the Mayor and the Board of Supervisors.

### City and County of San Francisco

Office of the Controller - City Services Auditor

Public Education Enrichment Fund: Annual Report for FY 2013-14 June 11, 2013

#### First 5 San Francisco

Expenditure Plan for FY 2013-14. First 5 San Francisco's proposal meets the requirements and intended uses of the Charter, including a budget in sufficient detail to verify the reasonableness of projected costs in FY 2013-14. First 5 San Francisco plans to use the total fund requirement of \$25.7 million for preschool development and enhancement activities.

<u>Carry Forward of Unspent Funds from FY 2012-13</u>. First 5 San Francisco projects to carry forward \$2.0 million of unspent funds into FY 2013-14. The department has agreed to resubmit its FY 2013-14 expenditure plan if actual FY 2012-13 unspent funds differ from its projection of \$2.0 million by more than 15 percent.

<u>Performance Measures</u>. First 5 San Francisco has submitted acceptable performance information as part of its FY 2013-14 expenditure plan.

#### **Unified School District**

Expenditure Plan for FY 2013-14. The Unified School District's expenditure plan meets the requirements and intended uses of the Charter, including a budget in sufficient detail to verify the reasonableness of projected costs in FY 2013-14. The Unified School District total fund requirement is \$51.4 million for FY 2013-14. The Unified School District's plan includes the use of \$47.5 million in direct financial support and \$4.0 million of existing in-kind services for sports, library, arts and music programs and other general uses. Though the plan includes the use of only \$4.0 million in in-kind services, the City will provide a total of \$24.3 million in in-kind services to the Unified School District in FY 2013-14.

Carry Forward of Unspent Funds from FY 2012-13. The Unified School District projects a \$1.5 million balance of unspent funds of its FY 2012-13 allocation to be carried forward into FY 2013-14. The Unified School District plans to use the \$1.5 million of carry forward funds in FY 2013-14 to support staff and professional development and provide instructional materials and supplies in the sports, libraries, arts and music programs. The Unified School District will resubmit its FY 2013-14 expenditure plan if actual FY 2012-13 unspent funds differ from its projection of \$1.5 million by more than 15 percent.

<u>Performance Measures</u>. The Unified School District has submitted acceptable performance information as part of its expenditure plan, including selected measures for each Public Education Enrichment Fund program, historical actual data, projected data for FY 2012-13, and targets for FY 2013-14.

### City and County of San Francisco

Office of the Controller - City Services Auditor

Public Education Enrichment Fund: Annual Report for FY 2013-14 June 11, 2013

#### Recommendations

The Board of Supervisors should approve First 5 San Francisco's expenditure plan for FY 2013-14.

The Board of Supervisors should approve the Unified School District's expenditure plan for FY 2013-14.

The Unified School District introduced 12 new performance measures for two new PEEF-funded programs - Science, Technology, Engineering, and Math and A-G Support: Additional Course Offerings for Off-Track Students. The new performance measures should be tracked over multiple periods to better understand the performance impacts of policy and programmatic decisions.

#### I. INTRODUCTION

San Francisco voters approved the creation of the Public Education Enrichment Fund in March 2004. The mandate for the Public Education Enrichment Fund is outlined in San Francisco Charter Section 16.123-2 and designates one-third of the Public Education Enrichment Fund amount to Children and Families Commission<sup>1</sup> (First 5 San Francisco) for universal access to preschool; one-third to the San Francisco Unified School District (Unified School District) for sports, library, arts and music programs; and the remaining one-third to the San Francisco Unified School District, or in-kind services of equal value, for general education purposes.

The Charter states that for FY 2010-11 through FY 2014-15, the City's annual contribution to the Public Education Enrichment Fund shall equal its total contribution for the prior year, beginning with FY 2009-10, adjusted for the estimated increase or decrease in discretionary General Fund revenues for the year. The Controller estimates the General Fund discretionary revenues in FY 2013-14 will be 129 percent of those in FY 2009-10. For FY 2013-14, the Public Education Enrichment Fund requirement is \$77.1 million from the General Fund.

If the joint budget report as prepared by the Controller, the Mayor's Budget Director and the Board of Supervisors' Budget Analyst projects a budgetary shortfall of \$100 million or more, the Mayor and the Board of Supervisors may reduce the City's contribution to the Public Education Enrichment Fund for the year up to 25 percent and defer payment of that amount to future years. Although the Controller, the Mayor's Budget Director and the Board of Supervisors' Budget Analyst projected a budgetary shortfall of \$100 million or more for FY2013-14, the Mayor opted to fully fund the Public Education Enrichment Fund for FY2013-14.

The Charter requires First 5 San Francisco and the Unified School District to submit annual Public Education Enrichment Fund expenditure plans. The Charter also requires the Controller to review these plans and make recommendations to the Mayor and Board of Supervisors. This report summarizes the Controller's review and evaluates First 5 San Francisco and the Unified School District's performance measures and spending to date. As noted, the Charter allows the City to meet its funding obligation of one-third for "general education" through in-kind services. In FY 2013-14, this amounts to \$24.3 million. In FY 2013-14, the Unified School District agrees to use \$4.0 million of existing in-kind services from the City to offset the General Fund allocation to the Public Education Enrichment Fund. This report provides an overview of proposed in-kind services that benefit Unified School District students in FY 2013-14.

<sup>&</sup>lt;sup>1</sup> The Children and Families Commission is one of the statewide First 5 California agencies established to support and improve early childhood development through family support, parent education, early care, education, and health care programs.

Table 1. Public Education Expenditure Fund Allocation FY 2013-14

|                      |    | Unified School District | First 5 San<br>Francisco | Total        |
|----------------------|----|-------------------------|--------------------------|--------------|
| FY 2013-14 Allocatio | n* | \$51,430,000            | \$25,720,000             | \$77,150,000 |

<sup>\*</sup>Final allocation is rounded to nearest ten thousandth.

First 5 San Francisco and the Unified School District FY 2013-14 expenditure plans meet the prescribed uses of funding as outlined in the Charter. First 5 San Francisco projects to carry forward \$2.0 million of FY 2012-13 unspent funds into FY 2013-14. The Unified School District projects to carry forward \$1.5 million of FY 2012-13 unspent funds into FY 2013-14. Both parties have agreed to resubmit their FY 2013-14 expenditure plan if their actual carry forward of unspent funds to next fiscal year is not within 15 percent of their estimate.

We recommend approval of First 5 San Francisco's and Unified School District's expenditure plans for FY 2013-14.

#### II. CURRENT YEAR EXPENDITURES AND FY 2013-14 PROPOSED FUNDING

#### First 5 San Francisco

#### FY 2012-13 (\$29.3 million)

• The First 5 San Francisco FY 2012-13 Preschool for All budget was \$29.3 million, which included the following allocations:

| SOURCES   | FY 2012-13   |
|---|--------------|
| General Fund Appropriation for Direct Financial Support         | \$17,710,000 |
| Carry Forward of Unspent Funds from Previous Fiscal Year        | \$4,360,000  |
| Interest Earnings   | \$107,000    |
| Use of PEEF Reserve Fund  | \$2,019,000  |
| First 5 California's Child Signature Program                    | \$4,744,000  |
| First 5 California's CARES Plus Matching Funds                  | \$50,000     |
| CDE Race to the Top   | \$347,000    |
| Preschool for All (PFA) Sources                                 | \$29,337,000 |
| First 5 California Proposition 10 Funds (non-PFA Program funds) | \$7,800,000  |
| First 5 San Francisco Total Sources                             | \$37,140,000 |

• In FY 2012-13, First 5 San Francisco served 300 additional children, bringing the total number of participating children to 3,400. First 5 San Francisco continued to use the Public Education Enrichment Fund for early literacy curriculum enhancement in 200 classrooms,

arts and science activities in 172 classrooms, professional development for over 1500 teachers, and mental health consultations in 189 classrooms.

#### FY 2013-14 (\$37.3 million)

• The First 5 San Francisco FY 2013-14 Preschool for All budget is \$37.3 million, including the following sources:

| SOURCES   | FY 2013-14   |
|---|--------------|
| General Fund Appropriation for Direct Financial Support         | \$25,720,000 |
| Carry Forward of Unspent Funds from Previous Fiscal Year        | \$1,957,527  |
| Interest Earnings   | \$126,691    |
| Use of PEEF Reserve Fund  | \$4,414,343  |
| First 5 California's Child Signature Program                    | \$4,744,313  |
| First 5 California's CARES Plus Matching Funds                  | \$50,000     |
| CDE Race to the Top   | \$328,150    |
| Preschool for All (PFA) Sources                                 | \$37,341,024 |
| First 5 California Proposition 10 Funds (non-PFA Program funds) | \$7,800,000  |
| First 5 San Francisco Total Sources                             | \$45,141,024 |

• In FY 2013-14, First 5 San Francisco will serve 100 additional children, bringing the total number of participating children to 3,500. First 5 San Francisco will use the Public Education Enrichment Fund allocation for targeted classroom quality improvements, health screenings, mental health consultations in approximately 230 classrooms, early literacy curriculum enhancements in 172 classrooms, teachers' professional development, and implementing the program outcome evaluation plan.<sup>2</sup>

First 5 San Francisco's proposal meets the requirements and intended uses of Charter Section 16.123-2, including a budget in sufficient detail to verify the reasonableness of projected costs in FY 2013-14. First 5 San Francisco projects a \$2.0 million balance of unspent funds of its FY 2012-13 allocation. First 5 San Francisco has agreed to resubmit its FY 2013-14 expenditure plan if actual unspent funds in FY 2012-13 of \$2.0 million differ by more than 15 percent. In anticipation of future reductions to PEEF revenue and an increasing number of preschool age children to be served in San Francisco, in FY 2013-14, First 5 San Francisco plans to place the \$2.0 million in the department's PEEF Sustainability Fund which will bring its total to \$11.7 million.

<sup>&</sup>lt;sup>2</sup> See Appendix A for the First 5 San Francisco's FY 2013-14 expenditure plan with a detailed description of First 5 San Francisco's Public Education Enrichment Fund proposed activities.

#### **Unified School District**

#### FY 2012-13 (\$39.0 million)

• The Unified School District FY 2012-13 Public Education Enrichment Fund budget was \$39.0 million and included the following sources:

| SOURCES   | FY 2012-13   |
|---|--------------|
| Appropriation for Direct Financial Support            | \$32,680,000 |
| CCSF In kind Services                                 | \$2,750,000  |
| Carry Forward of Unspent Funds from Prior Fiscal Year | \$3,549,825  |
| School District Total Sources                         | \$38,979,825 |

- In FY 2012-13, the Public Education Enrichment Fund paid for sports, libraries, arts, music, and other general education uses. This included, but was not limited to 19 full-time equivalent physical education teachers assigned to 46 elementary schools, 220 athletic coaches, physical education instructional supplies and equipment to 104 elementary and secondary school sites, 50 teacher librarians assigned to 103 elementary, middle and high school sites, library research and reference databases, art supplies and materials, art teachers and coordinators to 103 elementary, middle and high school sites, learning support services, restorative practices programming, translation and interpretation services and custodial services.
- In response to State budget cuts, the Unified School District's spending plan included \$6.8 million, held in reserve at the Unified School District, to cover cuts to the unrestricted base funding for school sites. The Unified School District used this reserve to cover State budget cuts to basic needs such as classroom teacher salaries, school administration and instructional materials.

#### FY (2013-14 \$53.0 million)

• The Unified School District FY 2013-14 Public Education Enrichment Fund budget is \$53.0 million including the following sources:

| SOURCES   | FY 2013-14   |
|---|--------------|
| Appropriation for Direct Financial Support            | \$47,450,000 |
| CCSF In kind Services                                 | \$3,986,000  |
| Carry Forward of Unspent Funds from Prior Fiscal Year | \$1,530,883  |
| School District Total Sources                         | \$52,966,883 |

• In FY 2013-14, the Public Education Enrichment Fund will pay for sports, libraries, arts, music, and other general education uses. These include, but are not limited to 34 full-time equivalent physical education teachers assigned to every elementary school, 230 athletic coaches, physical education instructional supplies and equipment to 104 elementary and secondary school sites, 65 teacher librarians assigned to every elementary, middle and high school site, library research and reference databases, art supplies and materials, learning

support services, restorative practices programming, translation and interpretation services and custodial services.<sup>3</sup>

• In response to the proposed State budget, the Unified School District's spending plan includes \$7.6 million, held in reserve at the Unified School District, to cover potential cuts to the unrestricted base funding for school sites. The Unified School District plans to use this reserve to cover basic needs such as classroom teacher salaries, school administration and instructional materials. If State budget projections improve and allocations to school districts are restored, the Board of Education and Superintendent will revisit this portion of its spending plan and consider redirecting some or all of the \$7.6 million to other permissible uses.

The Unified School District's expenditure plan meets the requirements and intended uses of Charter Section 16.123-2, including a budget in sufficient detail to verify the reasonableness of projected costs in FY 2013-14. The Unified School District projects a \$1.5 million balance of unspent funds from its FY 2012-13 allocation. The Unified School District will resubmit its FY 2013-14 expenditure plan if actual unspent funds in FY 2012-13 differ from its projection of \$1.5 million by more than 15 percent. The Unified School District plans to use the \$1.5 million of carry forward funds in FY 2013-14 to support staff and professional development and provide instructional materials and supplies in the sports, arts and music programs.

Public Education Enrichment Fund sources, spending through December 2012, projected spending for FY 2012-13, and proposed uses for the next fiscal year are summarized in the following tables.

<sup>&</sup>lt;sup>3</sup> See Appendix C for the Unified School District's FY 2013-14 expenditure plan with a detailed description of the Unified School District's Public Education Enrichment Fund proposed activities. See Appendix D for the Unified School District's FY 2013-14 expenditure plan budget revision.

| School District Grand Hotal Wses, Tr.                                      | \$5)549,825      | \$35,430,000         | 3;549;825 (*55;430;000) (**519;265;223) (**518;058;719) | \$18,098,719             |                          | \$37,363,942   \$1,530,883 | \$52,966,883          |

#### Baseline Appropriation Amount

Charter Section 16.123-2 requires that the City maintain funding for direct services provided when the Public Education Enrichment Fund was established. This baseline appropriation is established at the FY 2002-03 level, then adjusted annually based on the percentage change in discretionary General Fund revenues. Funding is to be consistent in the purpose and proportion to the baseline. Base year appropriations in FY 2002-03 totaled \$3.98 million. For FY 2012-13, the adjusted baseline appropriation amount was \$6.7 million. For FY 2013-14, we estimate it to be \$7.2 million.

#### In-kind Services and Total City Support

In FY 2012-13, the Unified School District agreed to use \$2.7 million of in-kind services from the City to offset the General Fund allocation to the Public Education Enrichment Fund. The in-kind services below are funded by the Departments of Children, Youth and Their Families, Environment and Public Utilities. At the close of FY 2012-13, these departments will report actual expenditures for these services to the Unified School District.

#### FY 2012-13 In-kind Services Contribution

| In-kind Service   | Value       |
|---|-------------|
| Center for Academic Recovery and Empowerment Program – Truancy Prevention | \$250,000   |
| Out of School Time (OST) – School Based                                   | \$987,156   |
| SF Promise  | \$320,000   |
| Sustainability/Environmental Initiative Director                          | \$530,750   |
| Youth Leadership, Empowerment & Development                               | \$610,094   |
| Total   | \$2,698,000 |

Charter Section 16.123-2 allows the City to provide up to \$23.6 million in the "general" education" category as in-kind support to the Unified School District in FY 2013-14.

The Unified School District's plan for FY 2013-14 includes the use of \$3.9 million of existing in-kind services. The City finances the cost of such in-kind services through the Departments of Children, Youth and Their Families, Environment and Public Utilities. If the City includes additional in-kind services for FY 2013-14, it could result in the further reduction of direct financial support to the Unified School District.

A summary of total City support to the Unified School District in FY 2013-14 is presented in Table 4. Table 4 includes a list of proposed in-kind services selected to meet the \$3.9 million contribution and a list of additional in-kind services to the Unified School District by City departments. Table 5 presents total City in-kind services categorized by type of support to the Unified School District.

Appendix E includes a more detailed list of existing in-kind services estimated by City departments in FY 2013-14.

#### III. PERFORMANCE MEASURES

#### First 5 San Francisco

First 5 San Francisco has submitted performance information, historical actual data, projected data for FY 2012-13, and targets for FY 2013-14 and FY 2014-15 for the purposes of this review.

At the beginning of 2012, First 5 San Francisco completed the "First 5 San Francisco Strategic Plan 2012-15". Part of the update to their strategic plan was for First 5 San Francisco to update their performance measures to be better aligned with the new strategic plan. Through the process, First 5 San Francisco has removed five performance measures that were no longer aligned with the program, but they are yet to add any new performance measures. First 5 San Francisco indicated that they remain in the process of determining the proper outcome measures to report.

Currently, First 5 San Francisco has five performance measures that it is reporting under its Proposition H program. The performance measures are all output measures which give counts such as the "Number of four-year olds enrolled in Preschool for All program" and "Number of classrooms participating in arts initiative. It is recommended that First 5 San Francisco continue to work on development of new measures, in particular outcome measures that show the impact of the programs.

As was indicated last year, the new strategic plan includes four focus areas: Child Development, Family Support, Systems of Care, and Child Health. Each of the new focus areas includes multiple desired outcomes. It is still recommended that when First 5 San Francisco creates new performance measures, they should include outcome performance measures related to the focus areas. Previous Public Education Enrichment Fund Annual Reports included the recommendation that First 5 San Francisco should begin the transition from output to outcome measures, which describe the ultimate outcomes of delivering the outputs of the PEEF program. The current need for new performance measures represents an opportunity to fulfill the recommendations from the previous reports.

Although First 5 San Francisco has not updated their formal performance measures, they have been taking part in several activities to track program outcomes. In the past year First 5 San Francisco contracted with Applied Survey Research to examine the effectiveness of Preschool for All at improving child outcomes. The survey assessed over 1,000 children in the fall of 2012; data results are still being analyzed. While the survey serves as good tool for measuring outcomes, the time and resources required for completing are not a good fit for using the metrics to track yearly, or more frequent, outcomes.

Since extensive research projects are not conducive to regular performance reporting, First 5 San Francisco has begun to work with the school district on annual studies of school readiness. The assessments of school readiness could begin as early as fall 2013.

First 5 San Francisco's performance measures can be found in Appendix F.

#### **Unified School District**

The Unified School District has submitted performance information, including select measures for each Public Education Enrichment Fund program, historical actual data, projected data for FY 2012-13, and targets for FY 2013-14, for purposes of this review.

The Unified School District's Public Education Enrichment Fund performance measures are aligned with objectives of the Unified School District's Balanced Scorecard<sup>4</sup> under the 16 Public Education Enrichment Fund programs. The 16 Public Education Enrichment Fund programs have 43 goals with associated measures for each goal.

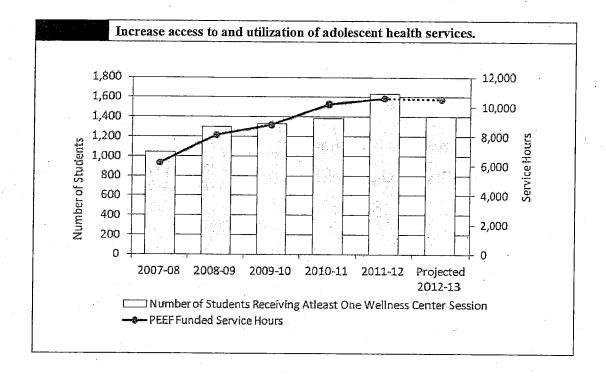

In the Unified School District's continued effort to improve its performance measures this year's submittal includes measures for two newly funded PEEF programs; Science, Technology, Engineering and Math (STEM) and Support for A-G, required courses for admittance to the University of California or the California State University systems. The STEM program submittal included 6 new performance measures under one goal; Goal 1: Increase STEM professional and instructional capacity/quality. The District also submitted 6 new measures under two goals for the A-G Support program.

The Unified School District continues to improve its mix of performance measures this fiscal year by continuing to incorporate new and revised measures into their measure sets for their existing program offerings. This year's submittal includes 43 new or revised measures not including the 45 new measures for the added programs. The Library Services Program had the most new or revised measures (10). Nine out of the ten new Library Services measures fall under the goal to "increase reading among students in the San Francisco Unified School District".

Additional programs adding several new or revised performance measures include Physical Education, Student Support Professionals, Wellness Initiative, and Career Technical Education. To maintain their success tracking performance of programs and initiatives the Unified School District should continue to evaluate their performance measures each year to ensure that the proper measurements are being tracked. However with so many changes to performance measures each year it is important for the Unified School District to maintain a core set of measures that track outcomes over time.

The Wellness Initiative program has shown progress utilizing PEEF funds to increase services to students through wellness centers. The first goal of the Wellness Initiative is to "increase access to and utilization of adolescent health services. The chart below shows the success of this program at meeting this goal by comparing the number of students receiving at least one individual session (medical services, behavioral health counseling, general counseling and health education) and/or case management from Wellness centers that receive their services from a PEEF-funded site to the number of student service hours at Wellness centers that are PEEF funded. The chart demonstrates how wellness center usage has increased with PEEF-funded service hours. The projected decline in usage for FY 2012-13 is due a decrease in the number of high school students enrolled at schools with PEEF-funded Wellness Centers.

<sup>&</sup>lt;sup>4</sup> The Unified School District 2008-2012 Strategic Plan, including the Balance Scorecard, is available at the following website: http://portal.sfusd.edu/template/default.cfm?page=home.strategic\_plan

The Unified School District's performance measures can be found in Appendix D.

#### **Evaluation Beyond Performance Measures**

The Controller's Office intends in future years to expand its discussion and analysis of the Unified School District's and First 5 San Francisco's Public Education Enrichment Fund performance and cost, likely through a performance audit, particularly regarding benchmarks, workload, efficiency and effectiveness. Charter sec. 16.123-8(g) states that by December 31, 2013 or eighteen months prior to the expiration of the measure, the Controller shall conduct a complete analysis of the outcomes of the programs funded through the Public Education Enrichment Fund, for presentation to the Mayor and the Board of Supervisors no later than nine months prior to expiration of the measure.

#### Average Daily Attendance

Section 16.123-6 of the Charter requires that the Unified School District's expenditure plan contain information on average daily attendance for the prior year and anticipated average daily attendance for the plan year. Current year and projected average daily attendance and enrollment information for the Unified School District and First 5 San Francisco are presented in the following table.

Table 6. Average Daily/Attendance/Enrollment

|                                      | FY 2010-11 | FY 2011-12 | FY 2012-13<br>Projected | FY 2013-14<br>Projected |
|--------------------------------------|------------|------------|-------------------------|-------------------------|
| Unified School District <sup>5</sup> | 53,970     | 54,214     | 55,012                  | 55,012                  |
| First 5 San Francisco <sup>6</sup>   | 3,000      | 3,100      | 3,400                   | 3,500                   |

#### IV. CONCLUSION

It is incumbent upon First 5 San Francisco and the Unified School District to track and report all fiscal and performance information to ensure that the Controller can complete Charter-mandated reviews. First 5 San Francisco and the Unified School District have submitted information required by the Charter, and the expenditure plans appear to meet the prescribed uses of funding. The Mayor's Office has assumed the \$77.1 million funding obligation in their budget planning process for FY 2013-14.

First 5 San Francisco and Unified School District expenditure plans and performance measure information are included as Appendix A and C, respectively.

<sup>&</sup>lt;sup>5</sup> Average daily attendance based on San Francisco Unified School District Annual Financial report - Audit Actuals for 2010, 2011, and 2012.

<sup>&</sup>lt;sup>6</sup> Preschool providers do not collect Average Daily Attendance data. The number of children enrolled in First 5 San Francisco's Preschool for All is reported in the table. First 5 San Francisco's policy requires providers to maintain 90% attendance throughout the program year.

#### V. RECOMMENDATIONS

- 1. The Board of Supervisors should approve First 5 San Francisco's expenditure plan for FY 2013-14.
- 2. The Board of Supervisors should approve the Unified School District's expenditure plan for FY 2013-14.
- 3. The Unified School District introduced 12 new performance measures for two new PEEF-funded programs Science, Technology, Engineering, and Math and A-G Support: Additional Course Offerings for Off-Track Students. The new performance measures should be tracked over multiple periods to better understand the performance impacts of policy and programmatic decisions.

### APPENDIX A: First 5 San Francisco Expenditure Plan FY 2013-14

RE:

Carry-forward plan for the 2012-13 funds

The San Francisco Children and Families Commission (CFC) estimates having \$1.96 million in 2012-2013 carry-forward funds. CFC's plan for the carry-forward funds is as follows:

The \$1.96 million in carry-forward funds will be placed in the Prop H Reserve Fund. In 2013-14, the City did not pull the 25% Prop H revenue reduction trigger, and CFC will receive its \$25 million allocation. Preschool for All (PFA) will use the allocation and its carry-forward funds to serve the increased number of children, restore state preschool reductions and maintain our commitment to providing high quality preschool. In 2012-13 the Children and Families Commission committed all of the 2011-12 unspent funds that were carried forward to backfill state outs for full day preschool spaces. We plan to continue to cover these state outs through 2013-14 as well.

As PFA enrollments continue to increase, reimbursements to providers will make up the majority of available funds in the Prop H budget. In order to continue providing family and developmental supports, curriculum enhancement and capacity building to ensure a high-quality preschool program, we will continue to use Prop H Sustainability Funds in fiscal year 2013-14 and 2014-15.

Please let us know if you have any questions.

RE: Public Education Enrichment Fund Expenditure Plan for FY 2013-2014

The attached expenditure plan for the Public Education Enrichment Fund (PEEF) was approved by the San Francisco Unified School District's School Board on January 29, 2013. The budget was developed in accordance with instructions from the Controller's Office, which included a directive for SFUSD to prepare a FY 2013-14 Expenditure Plan that anticipated a 25% allocation reduction per Charter Sec. 16.123-8. SFUSD has since learned that Mayor Lee will not exercise a 25% deferral for the next fiscal year and that PEEF will be fully funded at approximately \$50 million for 2013-14. SFUSD anticipates an updated estimate from the Controller's Office subsequent to the release of the City's Joint Budget Report in early March of 2013. In response, SFUSD will prepare a revised budget to be submitted in April.

The attached expenditure plan was developed with input from the Superintendent, the Board of Education, District departments, and the PEEF Community Advisory Committee. Program activities and budgets for Sports, Libraries, Arts and Music programs are based on the respective master plans for physical education, libraries, and the arts. Other General Uses programs (Learning Support Services, Academic Support, Family Support, Safe and Clean Schools, and General Infrastructure) reflect a continuance in the current level of funding, staffing and programming.

The attached budget amount is based on the last submitted budget for 2012-13. The final 2013-14 PEEF contribution will be published in the June Controller's annual PEEF report and will be based on the aggregate discretionary revenue estimate used to develop the 2013-14 City and County San Francisco budget.

Richard A. Carranza Superintendent of Schools

415-241-6121 · Fax 415-241-6012 · RichardCarranza@sfusd.edu · 555 Franklin Street · San Francisco, California 94102-5299

The total budgeted amount for 2013-2014 is \$34,816,000; including \$7,905,880 for Ongoing Programs in the areas of Learning Support Services, Academic Support, Family Support, Safe and Clean Schools, General Infrastructure and \$2,698,000 of In-Kind services (The In-Kind services total represents 7.75 % of the total PEEF allocation, which is consistent with previous years). The remaining funds in Other General Uses, a total of \$6,804,120, are to be directed to the Reserve Fund to help reduce the impact of State budget cuts to school sites.

Sincerely,

Richard A. Carranza Superintendent of Schools

### San Francisco Unified School District 2013-2014 Public Education Enrichment Fund Expenditure Plan

The attached expenditure plan for the Public Education Enrichment Fund (PEEF) was approved by the San Francisco Unified School District's School Board on January 29, 2013. The budget was developed in accordance with instructions from the Controller's Office, which included a directive for SFUSD to prepare a FY 2013-14 Expenditure Plan that anticipated a 25% allocation reduction per Charter Sec. 16.123-8. However, on January 28, 2013, Mayor Lee indicated that he will not exercise a 25% deferral for the coming year and that PEEF will be fully funded at approximately \$50 million. SFUSD anticipates an updated estimate from the Controller's Office subsequent to the release of the City's Joint Budget Report in early March of 2013. In response, SFUSD will prepare a revised budget to be submitted in April.

The attached expenditure plan was developed with input from the Superintendent, the Board of Education, District departments, and the PEEF Community Advisory Committee. Program activities and budgets for Sports, Libraries, Arts and Music programs are based on the respective master plans for physical education, libraries, and the arts. Other General Uses programs (Learning Support Services, Academic Support, Family Support, Safe and Clean Schools, and General Infrastructure) reflect a continuance in the current level of funding, staffing and programming.

The attached budget amount is based on the last submitted budget for 2012-13. The total budgeted amount for 2013-2014 is \$34,816,000; including \$7,905,880 for Ongoing Programs in the areas of Learning Support Services, Academic Support, Family Support, Safe and Clean Schools, General Infrastructure and \$2,698,000 of In-Kind services (The In-Kind services total represents 7.75 % of the total PEEF allocation, which is consistent with previous years). The remaining funds in Other General Uses, a total of \$6,804,120, are to be directed to the Reserve Fund to help reduce the impact of State budget cuts to school sites. The Weighted Student Formula provides for basic needs to school sites such as classroom teachers, school administration, and instructional materials.

### SPORTS, LIBRARIES, ARTS AND MUSIC

### **Sports**

The expenditure proposal includes \$5,802,666 in funding recommendations for the Athletics and Physical Education programs.

### Athletics

The goal of the Athletics program is to provide accessible, fully coached, safe, and well supported athletic opportunities to students at all SFUSD middle and high schools. PEEF funding supports the Athletic Department to offer an interscholastic athletic program that provides student athletes opportunities to increase physical activity, develop skills and abilities in team building, leadership development, overcoming adversity and pressure, setting and achieving goals, and winning and losing with honor.

Athletics is allocated \$2,831,333 of the \$5,802,666 Sports allocation. The Athletics Department's expenditure proposal includes recommendations for:

• Funding for approximately 230 coaches. PEEF funding will enable SFUSD to maintain the current number of coaches and athletic directors at 21 middle schools (includes K-8 sites) and 13

- high schools and will enable sites to continue supporting student athletes in both sports and academics.
- Medical supplies to sufficiently stock and maintain training rooms at 14 high schools and funds to purchase additional automatic external defibrillators for each high school's athletic facility.
- Consultants for medical personnel, security personnel, and contest officials (to support approximately 360 teams across 34 league sports): including Athletic Trainers for 14 high schools, four Emergency Medical Technicians for freshman/sophomore football games, approximately 11 doctors for varsity football games, private security guards, and San Francisco Police Officers (approximately 350 contests require 1-5 guards and/or officers at each of the events), and officials for football, volleyball, wrestling, baseball, and softball games and matches (approximately 1,500 contests require 1-4 officials per event depending on the sport).
- Bus transportation for athletes to and from high school and middle school athletic competitions within San Francisco and throughout the Bay Area providing approximately 1,200 athletic team trips.
- School athletic facility repair, maintenance, and construction: includes construction and repair of athletic field and track areas at SFUSD High School sites. In 2013-2014, funding is earmarked to repair the track at School of the Arts High School and the natural grass softball field located at Burton High School.
- Rent for non-SFUSD athletic facilities to provide fields and gymnasiums for use by schools that do not have athletic facilities, and for playoff and championship events.
- Athletic equipment purchases, replacements and repairs to address conditions that limit student
  participation in athletics: This may include athletic training equipment, scoreboards, batting
  cages, golf driving cages, volleyball standards, team champion awards, and basketball
  backboards.
- Professional development stipends (approximately 100) to provide leadership development
  opportunities for new and returning coaches to create better mentors and leaders for our students
  as mandated by the California Interscholastic Federation. Additionally, Cardio Pulmonary
  Resuscitation and First Aid certification trainings will be provided for all paid coaches and some
  veteran and volunteer coaches.
- Site allocations for 38 middle and high schools to purchase athletic equipment, uniforms, and stipends for athletic event personnel uniforms. Each allocation is based on each site's plan to establish teams and the approximate costs required per team.

### Physical Education

On May 18<sup>th</sup>, 2009 the San Francisco Unified School Board unanimously approved the Physical Education Master Plan. The goal of the physical education program and the Physical Education Master Plan is to provide quality K-12 physical education for every child through participation in a comprehensive, sequential physical education system that promotes physical, mental, emotional, and social well-being.

Physical Education is allocated \$2,971,333 of the \$5,802,666 Sports allocation for 2012-2013. The Physical Education's Department's expenditure proposal includes support for:

- 21.0 FTE Elementary School Physical Education Teachers to provide direct instruction to
  elementary students at 59 sites. The Elementary School Physical Education Specialists support K5 classroom teachers to implement the district adopted physical education curriculum for all
  students.
- 2.0 FTE Elementary Physical Education Implementation Specialists to provide support to Elementary Physical Education Specialists, classroom teachers, and all elementary school sites.

- 3.0 FTE Secondary Physical Education Content Specialists to support all secondary school sites including Court, County, and Community schools and approximately 140 physical education teachers.
- 1.0 FTE Physical Education Supervisor, 1.0 FTE Program Administrator, and 1.0 FTE Clerk to implement programming, support teachers at all K-12 school sites, and to ensure alignment with standards and the District's Physical Education Master Plan.
- 72 stipends for elementary classroom teachers or paraprofessionals to serve as Physical Education Site Coordinators to support teachers and staff in implementation of Physical Education requirements at every elementary site.
- Instructional supplies and equipment for elementary and secondary school sites.
- Allocations for secondary sites of \$16.00 per pupil. Secondary sites use allocations to purchase instructional materials to support implementation of district-adopted curriculum. This includes support for County/Community/Court schools and ten charter sites.
- Professional development on content standards, physical education implementation, and physical fitness testing (approximately 80 workshops for K-5 classroom teachers and secondary physical education teachers).
- Travel and conferences for physical education teachers and Physical Education Department members.
- Consultant fees for evaluation services including analysis of student, teacher, parent and administrator physical education surveys.
- Supplies, materials and operating costs.

### Libraries

The goal of Library Services is to provide high quality and effective library services that enhance the education and instruction for all students. In 2013-14, students at all K-12 site will have access to libraries with teacher librarian support for 1-4 days and updated library collections that are current, relevant, engaging, and accessible to all students.

The expenditure proposal includes \$5,802,667 in funding recommendations for Library Services. The Library Services Department's expenditure proposal includes recommendations for:

- 45.0 FTE Teacher Librarians assigned to 82 elementary and middle school sites.
- 1.0 FTE Program Administrator, 0.5 FTE Library Clerk and 1.0 FTE, Teacher Librarian on Special Assignment for program coordination and to provide centralized support.
- 4.8 FTE Teacher Librarians for 12 large high schools (0.4 FTE each) and additional 1.0 Teacher Librarian providing support for five small high schools.
- Allocations to all Elementary, Middle Schools (including K-8) and High schools of \$5.00 per student for library books, materials and supplies.
- Allocations to County/Community/Court sites and ten Charter Schools of \$5.00 per student for library books, materials and supplies. Includes allocation for 2.0 FTE for K-8 and MS charters schools.
- Library research and reference databases for K-12 schools: Destiny, World Book Online, Science Online, Ferguson's Careers, Teachingbooks, Culturegrams, SIRS Researcher and support for catalog and circulation software.
- Technology upgrade for 20 sites including; LCD projectors, computers, cart and other technology equipment for libraries.
- Professional development for 65 librarians including stipends for conferences, and workshops on design and development of new research units.

Arts and Music

The goal of the Visual and Performing Arts program is to provide access and equity in arts education (both arts as a discrete discipline taught by certificated teachers and as arts-infused academics using San Francisco as the campus) for every SFUSD student, at every school, during the curricular day. Proposed spending for arts and music follows the Arts Education Master Plan and was approved by the Arts Education Master Plan Advisory Committee. All areas of funding support the Master Plan's six areas of focus: administrative leadership, professional development, resources and staffing, curriculum and instruction, partnerships and collaborations, and assessment.

The expenditure proposal includes \$5,802,667 in funding recommendations for Arts and Music. The Visual & Performing Arts Department's expenditure proposal includes recommendations for:

- 14.4 FTE credentialed Generalist Visual and Performing Arts Teachers serving 72 elementary schools at 0.2 FTE for each elementary site (includes elementary grades at K-8 sites).
- 18.6 FTE Middle School Arts Teachers for 21 sites (includes middle school grades at K-8 sites). Each site receives 0.2 FTE 1.6 FTE.
- 6.4 FTE High School Arts Teachers for 18 sites. Each site receives 0.2 0.6 FTE.
- 2.0 FTE Arts Teacher for County/Community/Court middle and high schools.
- Funds to support 3.0 FTE at charter schools based on student enrollment.
- Performing Arts Teachers of dance, drama, visual art, and music.
- 6.0 FTE District-Wide Support and Administration: 1.0 FTE VAPA Supervisor, VAPA 1.0 Program Administrator, 1.0 FTE Artistic Director, 1.0 FTE Arts Education Master Plan Implementation Manager, 1.0 FTE Teacher on Special Assignment and 1.0 FTE clerk
- 1.0 FTE district-wide piano technician.
- 100 elementary, middle and high school Arts Coordinators. Each K-12 site is provided with an Arts Coordinator.
- Site allocations (\$5.00 per pupil for elementary and \$10.00 per pupil for middle and high schools) for 72 elementary schools, 21 middle schools (includes K-8 sites), 18 high schools, County/Community/Court schools, and ten charter schools for arts supplies and materials, field trips, professional development, artists-in-residence and/or credentialed arts teacher.
- Supplies, materials, and equipment for 72 elementary sites to support Generalist Visual and District-wide musical instrument repair and supplies.
- SFUSD Arts Festival (K-12) production to support district-wide student and teacher achievement in the arts.

### OTHER GENERAL USES

This section includes three areas of funding recommendations for Other General Uses. The expenditure proposal includes \$17,408,000 in funding recommendations for Other General Uses.

- \$7,905,120 for Ongoing Programs in the areas of Learning Support Services, Academic Support, Family Support, Safe and Clean Schools, and General Infrastructure. The budgets for these ongoing programs have remained consistent with 2010-11 levels.
- \$6,804,120 for Reserve Funds: Allocations to the SFUSD General Operating fund (weighted student formula) to address the State budget shortfall.
- \$2,698,000 for In-Kind Services (this amount is 7.75% of the total SFUSD allocation which is consistent with previous years): services received from the Department of Children, Youth and their Families, Department of the Environment, and the Public Utilities Commission.

### Learning Support Services

Student Support Professionals

Student Support Professionals are either Learning Support Professionals or School District Nurses who provide site-based services to improve the social and emotional learning of students as a crucial part of improving academic performance. Working with teachers and other designated school site staff, the essential function of the Learning Support Professionals is to provide support for students' mental health and behavioral needs. School District Nurses focus on prevention, early detection, and management of health and behavioral concerns.

Support services provided by both Learning Support Professionals and School District Nurses include:

- Group counseling and classroom behavior support.
- · Crisis assistance and prevention planning.
- Facilitation of effective student support structures (e.g. Student Assistance Programs, Student Success Teams).
- Case management and coordination of services.
- Health education and personal social skill development.
- Referral to a broad range of community resources.
- Family outreach to support home involvement in schooling.

The Student Support Professionals program is allocated \$3,734,045. Recommendations include support for:

- 36.0 FTE Learning Support Professionals and School District Nurses serving 72 elementary, middle and K-8 sites and 0.5 FTE support for three charter schools.
- 0.5 FTE Mentor SSP to provide coaching, site support, and professional development to Student Support Professionals, and provide crisis mental health support to schools without a Student Support Professional.
- 2.0 FTE Program Administrator to oversee all aspects of PEEF Student Support Professional program.
- 1.0 FTE Senior Clerk Typist to provide clerical support to PEEF Student Support Professional program.
- Professional Development for Student Support Professionals, extended hours, and California
  Association of School Social Work annual conference and other area conferences to learn best
  practices in the field of Student Support.
- Instructional supplies, materials, and purchase of evidence-based health and mental health curricula.
- Consultant fees for comprehensive evaluation of services provided by Student Support Professionals.
- Supplies, materials and operating costs.

### Wellness Initiative

The San Francisco Wellness Initiative is a partnership of the Department of Children, Youth and Their Families, the Department of Public Health, and the San Francisco Unified School District. The Initiative, in collaboration with school site administrators, manages and funds Wellness Programs in 16 SFUSD high schools. The mission of the Wellness Programs is to improve the health, well-being and educational outcomes of high school students through the promotion of healthy lifestyles and the provision of coordinated prevention and early intervention health and wellness services at the school sites. Wellness Programs provide schools with an interdisciplinary team of staff including a Wellness Coordinator, School District Nurse, Behavioral Health Specialist (RAMS Counselor), Community Health Outreach Worker, Counseling Interns, and a Youth Outreach Coordinator.

PEEF funding for San Francisco Wellness Initiative began in the 2007-08 school year, which allowed the Initiative to establish four new Programs at June Jordan School for Equity, Newcomer, Wallenberg and Washington High Schools. Due to the closure of Newcomer, PEEF resources associated with Newcomer were reallocated to support SF International High School.

2012-13 PEEF funds will continue to support the Wellness Programs at June Jordan School for Equity, Wallenberg, Washington and SF International High Schools.

The Wellness Program is allocated \$725,552. Recommendations for funding supports:

- 4.0 FTE Wellness Coordinators assigned to the four PEEF Wellness sites. The Wellness
  Coordinator is a Master's level social worker or therapist who is responsible for overall program
  implementation and management of program staff.
- 3.2 FTE Community Health Outreach Workers assigned to the four PEEF Wellness sites. The
  Community Health Outreach Worker is a BA-level staff member responsible for recruiting and
  managing a network of community-based organizations to provide on-campus behavioral health
  and social support services to supplement the services provided by SFUSD and community-based
  organization staff; and coordinating Wellness Program outreach to students, staff and the
  community.
- 1.5 FTE School District Nurses assigned to the four PEEF Wellness sites. The Nurse is the point person for students' physical and reproductive health needs, and is responsible for providing onsite case management services for students with chronic health conditions.
- Youth Outreach Program at four PEEF Wellness sites. This youth leadership training program is part of each school's Health Promotions Committee. The Youth Outreach Coordinator is a school staff member who mentors a team of 6-12 student Wellness Youth Outreach Workers. The Youth Outreach Workers receive stipends to serve as ambassadors for the Wellness Program, and are responsible for increasing student awareness of the Wellness Program and collaborating with Wellness and school staff on school-wide activities and classroom presentations to promote student health and wellness. Funding includes stipends for 24-48 student Youth Outreach Workers and four adult Youth Outreach Coordinators, and supplies and administrative costs.

### Restorative Practices

Restorative Practices is a principle-based practice that emphasizes the importance of positive relationships as central to building healthy school community, and involves processes that strengthen individual and community relationships by repairing harm when conflict and misbehavior occurs. When broadly and consistently implemented, RP will promote and strengthen positive school culture and enhance pro-social relationships within the school community. An improved sense of community will significantly decrease the need for suspensions, expulsions and time that students are excluded from instruction due to behavior infractions. This shift in practice will result in a culture which is inclusive, builds fair process into decision-making practices, and facilitates students' learning to address the impact of their actions through a restorative approach. Ultimately, students will learn to make positive, productive, and effective choices in response to situations they may encounter in school and in their families and community.

Through restorative practices, students will:

- Recognize their role as a positive contributing member of the school community.
- Build upon their personal relationships in the school community.
- Recognize their role in maintaining a safe school environment.
- Learn to accept accountability and repair any harm their actions cause.

Through restorative practices, staff will:

- Understand the philosophy, and learn and apply the practices that promote and foster strong positive relationships within classrooms and whole-school communities.
- Understand and be able to apply, with competence and confidence, the continuum of practices that can more effectively address wrongdoing when it occurs, and can repair the harm done in order to restore the positive relationships within the community.

2013-14 PEEF funds will support the continued implementation of a multi-year plan. The focus will be on expanding professional development opportunities offered to all elementary, middle, and high school administrators, teachers, paraprofessionals, support staff, and student support service staff in SFUSD. Interested school sites will receive individualized site planning, coaching, and support, including the formation of professional learning communities. Three SFUSD Restorative Practices demonstration schools will continue to receive comprehensive support, training, and coaching in restorative practices for whole school change, impacting the entire school community.

The Restorative Practices program is allocated \$664,763. Recommendations include support for:

- 1.0 FTE Certificated Restorative Program Administrator to provide District-wide management of the Restorative Practices Implementation Plan.
- 3.5 FTE Restorative Practices Site Coaches to provide site-based support for the implementation of restorative practices.
- 1.0 FTE Clerk to provide the clerical assistance needed to support the implementation of this program.
- Professional development workshops for school staff, site leaders, site leadership teams, and Restorative Practices staff; includes conferences, substitute release days, extended hours, and stipends.
- Consultants to provide trainings to build District capacity and sustainability to implement Restorative Practices.
- Supplies and Materials.

### Peer Resources

Founded in 1979, San Francisco Peer Resources is a unique program cooperatively administered between the San Francisco Unified School District and the San Francisco Education Fund. The conceptual model of the Peer Resources program is built upon research evidence indicating that before youth can have positive health, academic and social outcomes, certain factors have to be present in students' lives and certain needs have to be met.

Peer Resources provides the supports and opportunities for positive youth development. The goals of Peer Resources are to:

- Create opportunities for youth to be leaders in their own lives, schools, and communities by supporting youth in developing their skills in order to meaningfully participate.
- Improve school climate and prevent violence through peer-helping and conflict management and mediation.
- Promote students' academic achievement through increased student engagement.

Peer Resources is committed to developing young leaders in San Francisco with the use of fun, creative, and interactive strategies that build safety, confidence, and skills. Core student-run delivery services includes conflict mediation, peer mentoring, peer tutoring, and peer education programs that focus on improving schools and schools communities, particularly for vulnerable student populations.

The Peer Resources program is allocated \$467,471. Recommendations include support for:

- Approximately 4.7 FTE Peer Resource teachers to serve 11 middle and high school. Sites
  provide matching funds to increase FTEs.
- 1.0 Teacher on Special Assignment for administration of program.
- Extended hours for planning and professional development.

### Academic Support

### Career Technical Education

The Career Technical Education Teacher on Special Assignment Pathways Coordinator provides support for the industry-themed Academies at SFUSD high schools. The Pathway Coordinator supports Career Technical Education teachers by providing support for creation of industry vetted curriculum, completion of yearly assessments, and in the setting of yearly goals. This position is instrumental in coordinating teacher professional development and in facilitating and supporting advisory boards in the development of work based learning opportunities. The Pathway Coordinator develops relationships with industry sectors and ensures industry has input to inform and enhance the learning in all of the 83 Career and Technical Education courses currently in SFUSD High schools.

The Career Technical Education program is allocated \$87,409. Recommendations include support for a 1.0 FTE Career Technical Education Teacher on Special Assignment Pathways Coordinator who provides support for all high school level Career Technical Education courses in SFUSD.

### Teacher Academy

The Teacher Academy to Paraprofessional Program seeks to recruit and nurture the diverse local talent from the SFUSD High School student population setting them on a college and career pathway as SFUSD educators. Teacher Academies provide students with A-G course requirements, college partnerships that earn them transferable college credits, and provide students field experience working as teacher's aides and tutors in our Elementary and Middle Schools. The Teacher Academy to Paraprofessional Program assists students in completing the necessary requirements qualifying them for SFUSD paraprofessional positions and afterschool childcare positions, and connects them with the California Commission on Teacher Credentialing funded Para to Teacher Training Program, providing funds for partial tuition, and test and book fees.

PEEF Funding provides Teacher Academy students with paid summer internships as they work as teachers' aides in Special Education and Mathematics Intervention summer school classes. Students earn early field experience as educators and college credits in Child Development from City College of San Francisco. PEEF Funding ensures support for college registration, job preparation, and supervision of the Teacher Academy students once placed in their field placement. Supervisors spend hours assisting each student in organizing documentation for college registration and employment.

Teacher Academy is allocated \$65,000. Recommendations include support for:

- Student Internship Stipends for Summer Teachers' Aides
- Supervising Teacher Academy Stipend
- Two-Three supervising teachers stipends for Future Educators of America Club
- · Classroom and College Career Day Supplies
- Professional Development and Academy Conference Costs
- Substitute Days for Academy Teachers

### Formative Assessment System

During the 2013-2014 school year, the formative assessment system will provide easily accessible, quality assessments to encourage instruction that promotes deeper understanding: to provide equal access

for all types of learners; to demonstrate understanding; to guide instruction; and, to identify curricular areas in need of improvement. This formative assessment system is to be implemented in conjunction with standards-based curriculum guides and focused professional development in an effort to improve student achievement and close the achievement gap.

The Formative Assessments System goals are to:

- Provide opportunities for teachers to collaborate and to adjust instruction based on meaningful data.
- Expand the formative assessment system to include a broader range of measures and subject areas, including independent district-wide performance assessment tools.
- Provide direction and feedback for existing programs and initiatives by using critical information related to student achievement and classroom practices.
- Provide professional development for teachers and administrators to assist them in understanding and interpreting assessment results.
- Partner with classroom teachers, Instructional Reform Facilitators, and Content Specialists in grades Kindergarten through 12 for Mathematics and Language Arts to identify formative assessment tools and best practices.

Data Director provides the infrastructure to house Interim/Formative Assessments including test items, student response documents and results. Data Director is easily utilized by teachers across the District. The Achievement Assessments Office has developed tools within Data Director that include the revised Common Learning Assessments, other publisher-based Benchmark, Formative and Performance Assessments, Standards-based Report Cards as well as custom reporting tools based on school site assessment practices and needs. The system covers grades K-12.

The Formative Assessments System is allocated \$284,750. Recommendations include support for:

- 0.2 FTE Supervisor to direct the program and support district and school site personnel in the use of data to inform instruction.
- 1.0 FTE Researcher for teacher support and analysis.
- Data Director Application Agreements to manage and report the results of the formative assessments.
- Reproduction and supplies.

### **Family Support**

Translation and Interpretations Services

The Translation and Interpretation Unit's primary goal is to provide translation and interpretation services to Limited English Proficiency parents with equal access to information and services by maintaining and expanding translation and interpretation services at school sites and the central office.

The Translation and Interpretation program offers translation services for school and district events. Families become more engaged in the school community when they have access to translation and interpretation services. Increased parent participation contributes to increased student academic achievement. The Translation and Interpretation Unit provides critical access for Limited English Proficiency families to participate in their children's education.

Translation and Interpretations Services is allocated \$604,000. Recommendations include support for:

- 2.4 FTE Chinese language translators/interpreters.
- 2.0 FTE Spanish language translators/interpreters.
- 0.5 FTE Assistant Manager.
- Additional interpretation support: for overtime for District full-time interpreters.

- Consultants for translation and interpretation for minority language groups.
- Interpreters as needed: for on-call interpreters for evening meetings only (other than district full-time interpretation staff).
- Professional development and interpretation equipment upgrades and replacements.

### Safe and Clean Schools

### Custodial Services

An important factor in increasing family participation at school is having school sites open and accessible beyond the instructional day. Having schools open longer and ensuring that they are clean and safe, provides space for additional activities on campus, such as after-school programs and school related meetings and events. Custodial Services receives PEEF funding that provide additional cleaning services for all Early Education Department school sites and night-time custodial staffing at 11 elementary and K-8 schools.

PEEF supports a year-round crew for the Early Education Department school sites to perform deep cleanings and additional FTE custodians assigned to approximately 11 understaffed elementary schools.

Custodial Services is allocated \$695,773. Recommendations include support for:

- 5.5 FTE custodians assigned to 11 elementary and K-8 schools.
- 4.0 FTEs custodians for cleaning crew that serves 37 Early Education Department school sites (includes 1.0 FTE custodian assistant supervisor).

### Public Education Enrichment Fund Infrastructure

### Human Capital Support

High performing, properly credentialed teachers are directly linked to student achievement. Recruiting and retaining diverse, quality teachers to the San Francisco Unified School District is critical to student success, particularly in lower performing, hard-to-staff schools. In order to improve the quality of education for the youth of San Francisco, effective teacher recruitment and support is critical. Formally known as Teacher Recruitment, the Human Capital Support team increases the District's ability to engage students and increase student achievement by recruiting and selecting high quality, diverse teachers. The Human Capital Support team also provides credential advisement for incoming and current teachers.

More specifically, PEEF funding allows Human Resource's Human Capital Team (comprised of Human Capital Specialists and Credential Analysts) to be adequately staffed to:

- Decrease the number classroom vacancies on the first day of school.
- Increase the percentage of newly hired teachers who are highly qualified according to the No Child Left Behind standards.
- Increase the percentage of newly hired teachers who are Hispanic and African American.
- Increase the level of satisfaction with the customer service of recruitment team one-on-one support for certificated staffing.
- Increase the level of satisfaction on the part of administrators with human capital workshops.

Teacher Recruitment is allocated \$109,238. Recommendations include support for:

- Approximately 0.86 FTE Human Capital Specialist
- Approximately 0.20 FTE Education Credentials Technician

General Infrastructure

The PEEF Supervisor is responsible for management and coordination of both the SLAM and Other General Uses portions of this measure. This includes overseeing finances, evaluation, and the PEEF CAC, as well as compiling and submitting mandatory reports to the Superintendent, Board of Education, City Controller's Office, Board of Supervisors, and the Mayor's Office. The PEEF Supervisor provides the critical support to enable all PEEF programs to operate effectively and to ensure continued funding from the City.

The PEEF Supervisor manages PEEF evaluation staff and consultants to ensure reporting requirements are fulfilled and to effectively communicate PEEF activities and results. The PEEF evaluation staff provides direct support to program managers in data collection, reporting, maintenance of performance measures and data analysis. SFUSD will contract with an evaluation consultant to provide technical support for continued development of performance measures, data collection and reporting.

Grant Writer funding will continue to support efforts to bring additional resources to the District. These resources support a wide array of programs that directly or indirectly affect our students. The Grant Writer is directly responsible for investigating funding opportunities, working with managers to develop applications and drafting and submitting applications. In addition, the Grant Writer is building the internal district capacity to successfully procure grant awards and ensure good stewardship of grant funding. The Grant Writer is working with internal SFUSD leadership to develop strategic plans for key projects within the Strategic Performance Initiative articulated in *Beyond the Talk*. Projects developed in the strategic plans provide the backbone and map with which the grant writer can compose requests for funding and building relationships with community partners in an effort to garner funds that will be strategically used to support students, teachers, and educational opportunities.

General Infrastructure is allocated \$467,879. Recommendations include funding for:

- 1.0 FTE Supervisor
- 1.0 PEEF Program Analyst
- 0.25 PEEF Statistician
- Program Evaluation Consultant
- 1.0 FTE Grant Writer
- Community Advisory Committee support
- Materials and supplies

### In-Kind Services from the City and County of San Francisco

The recommendations include \$\$2,698,000 for In-Kind services from City and County of San Francisco Departments of Children, Youth and Their Families, Environment, and the Public Utilities Commission. The In-Kind services total represents 7.75% of the total PEEF allocation, which is consistent with previous years. The 2012-13 In-Kind services will continue, including support for Sustainability Director, SF Promise, Center for Academic Recovery and Empowerment – Truancy Prevention, Out of School Time – School Based, and Youth Leadership, Empowerment and Development. All line item amounts are preliminary as all 2013-14 City department and agency budgets are currently in development.

### Reserve Funds

It is recommended that \$6,804,120 be held in reserve to be allocated to the SFUSD General Operating Fund (Weighted Student Formula) to address the State budget shortfall. The Weighted Student Formula provides for basic needs to school sites such as classroom teachers, school administration, and instructional materials

### **Additional Information**

### FY 2011-12 Carry Forward of Unspent Funds

As part of the FY 2011-12 Expenditure Plan, the San Francisco Unified School District projected to carry forward \$2,072,020 of unspent carry forward funds from FY 2011-12 into FY 2012-13. At the close of fiscal year 2010-11, the San Francisco Unified School District's actual aggregate carry forward for Sports, Libraries, Arts and Music and Other General Uses programs totaled \$3,549,826 of unspent funds from FY 2011-12.

Embedded within the total carry forward amount, are \$702,000 in deferred allocations for 2010-11 and 2011-12, and a 2010-11 true-up allocation of \$543,000 which was identified and budgeted mid-year. Programs also reserved 2011-12 funds budgeted for 2012-13 programming; including funds for high school librarians, physical education equipment and athletics construction projects. A portion of the reserved carry forward funds were later incorporated into the 2012-13 revised budget (submitted 4-18-12), and thus remained unspent. All 2011-12 budgeted program activities were fulfilled.

The following is a list of budgeted carry forward program activities for each of the Sports, Libraries, Arts and Music and Other General Uses program areas and includes\*:

### Athletics

Athletics carry forward of \$716,654 is budgeted as follows (amount includes \$62,750 of the SLAM deferred allocation):

- \$653,904 for school athletic facility construction projects at high school athletic facilities.
- \$62,750 for Athletic equipment.

### Physical Education

Physical Education carry forward of \$771,091 is budgeted as follows (amount includes \$62,750 of the SLAM deferred allocation):

- \$100,000 for 1.0 FTE Physical Education teachers to support fitness development and assessment needs for county community and high schools.
- \$170,000 Professional development for all elementary classroom teachers and physical education teachers.
- \$436,605 Equipment and Supplies for elementary sites currently receiving support and the 11 projected sites for 13 14 year. Includes middle and high school equipment to support Standards-based curriculum.
- \$44,486 travel and state physical education conferences.
- \$5,000 equipment repair for high school fitness labs to maintain and repair equipment.
- \$10,000 consultant fees for elementary physical educations study.
- \$5,000 for 2013 surveys and presentation materials.

### <u>Libraries</u>

Libraries carry forward of \$1,248,074 is budgeted as follows (amount includes \$125,500 of the SLAM deferred allocation):

- \$572,650 for additional per pupil allocations for all K-12, county/community, and charter sites for library materials, technology, or other library related resources.
- \$50,000 for technology upgrades for schools including computers, LCD projectors and printers.
- \$268,424 for library materials and books for sites including ebooks and e-book technology to rotate though classrooms
- \$81,500 for library research and reference data base for 2012-13.

- \$150,000 to support district Science, Technology, Engineering and Math initiatives.
- \$125,500 to upgrade school libraries.

### Arts and Music

Arts and Music carry forward of \$488,506 is budgeted as follows and includes funds budgeted for activities in 2013-14 (amount includes \$125,500 of the SLAM deferred allocation):

- \$21,213 for elementary FTE line item to cover increases in salary and benefits costs.
- \$45,500 Supplies/Materials/Equipment for Generalist Arts Program to support 72 elementary sites.
- \$180,000 for district-wide music instrument repair & supplies (includes new instruments for sites).
- \$40,517 for professional development for all principals, arts coordinators, and arts and classroom teachers.
- \$40,000 for parent outreach and assessment.
- \$61,905 for additional Arts Coordinator stipends for data collection.
- \$99,371 for SFUSD Arts Festival (K-12) festival production.

Other General Uses carry forward of \$325,500 (represents total deferred allocation for Other General Uses portion) is budgeted to the Reserve Fund. Reserve Funds are to support the SFUSD General Operating Fund (Weighted Student Formula) to address the State budget shortfall. The Weighted Student Formula provides basic needs to school sites such as classroom teachers, school administration, and instructional materials.

### FY 2012-13 Carry Forward: Projection and Budget

San Francisco Unified School District projects to carry forward \$1,630,883 of unspent funds from FY 2012-13 into FY 2013-14. The projected \$1,630,883 carry forward is primarily due to delays in athletics constructions projects and budgeted program activities designated for the 2013-14 year.

The following list of projected 2012-13 carry forward amounts for each of the Sports, Libraries, and Arts and Music program areas per line item and budgeted program activities for 2013-14\*:

### Athletics

Athletics projected carry forward amount of \$1,118,000 is due to unexpended funds for the following:

- \$8,000 for medical personnel and security officials (including athletic trainers for high schools, emergency medical technicians and doctors for football games, game officials, security guards, and SFPD police officers). The projected carry over is due to lower than anticipated number of contests.
- \$30,0000 for Medical Personnel, Security Personnel, and Contest Officials Including Athletic
  Trainers for high schools, Emergency Medical Technicians and doctors for football games, game
  officials, security guards, and SFPD Police Officers.
- \$200,000 for bus transportation for athletes to local athletic contests, regional, and state playoffs. The projected carry over is due to lower than anticipated number of contests (this amount includes funds carried forward form 2011-12).
- \$850,000 for school athletic facility construction projects in progress (this amount includes funds carried forward from 2011-12).
- \$10,000 for athletic equipment (e.g. scoreboards, track equipment, football equipment, and other equipment).
- \$5,000 for professional development for coaches.
- \$15,000 for unexpended site allocations (based on previous expenditure patterns).

Athletics projected carry forward amount of \$1,118,000 is budgeted for program activities as follows:

- \$8,000 for medical personnel and security officials (including athletic trainers for high schools, emergency medical technicians and doctors for football games, game officials, security guards, and SFPD police officers). The projected carry over is due to lower than anticipated number of contests.
- \$30,0000 for Medical Personnel, Security Personnel, and Contest Officials Including Athletic
  Trainers for high schools, Emergency Medical Technicians and doctors for football games, game
  officials, security guards, and SFPD Police Officers.
- \$200,000 for bus transportation for athletes to local athletic contests, regional, and state playoffs. The projected carry over is due to lower than anticipated number of contests (this amount includes funds carried forward form 2011-12).
- \$850,000 for school athletic facility construction projects in progress (this amount includes funds carried forward from 2011-12).
- \$10,000 for athletic equipment (e.g. scoreboards, track equipment, football equipment, and other equipment).
- \$5,000 for professional development for coaches.
- \$15,000 for unexpended site allocations.

### Physical Education

Physical Education projected carry forward amount of \$150,000 is due to unexpended funds for the following:

- \$90,000 for anticipated savings in salary and benefits due to short term vacancies.
- \$30,000 for unexpended site allocations (based on previous expenditure patterns).
- \$30,000 for professional development.

Physical Education projected carry forward amount of \$150,000 is budgeted for program activities as follows:

• \$150,000 for approximately 2.0 FTE K-12 physical education teachers.

### Libraries

Libraries projected carry forward amount of \$185,000 is due to unexpended funds:

- \$100,000 for extended days for librarians.
- \$70,000 for unexpended FTE allocations for charter schools.
- \$15,000 for professional development.

Libraries projected carry forward amount of \$185,000 is budgeted for program activities as follows:

- \$70,000 for site allocations for K-12 for library materials, technology, or other library related resources.
- \$75,000 for library research and reference data base.
- \$40,000 for technology upgrades (additional LCD projector, computer, cart and other technology equipment for school libraries).

### Arts and Music

Arts and Music projected carry forward amount of \$177,883 is due to the budgeting of funds for 2013-14 activities

- \$61,905 for additional Arts Coordinator stipends for data collection in 2013-14.
- \$45,000 for district-wide music instrument repair & supplies (includes new instruments for sites).

- \$15,978 for professional development for all principals, arts coordinators, and arts and classroom teachers.
- \$15,000 parent outreach and assessment.
- \$40,000 for SFUSD Arts Festival (K-12) festival production.

Arts and Music projected carry forward amount of \$177,883 is budgeted for 2013-14 program activities as follows:

- \$61,905 for additional Arts Coordinator stipends for data collection in 2013-14.
- \$45,000 for district-wide music instrument repair & supplies (includes new instruments for sites).
- \$15,978 for professional development for all principals, arts coordinators, and arts and classroom teachers.
- \$15,000 parent outreach and assessment.
- \$40,000 for SFUSD Arts Festival (K-12) festival production.

### 2012-13 PEEF In-Kind Services

The 2012-13 In-Kind figure was adjusted to \$2,750,000 per the Controller's Office Public Education Enrichment Fund Annual Report issued on June 13, 2012. The In-Kind Services total represents 7.75% of the total PEEF allocation, which is consistent with previous years.

The following In-Kind services from City and County of San Francisco Department of Children, Youth and Their Families, Environment, and the Public Utilities Commission have been updated to reflect the total amount and include:

- Sustainability/Environmental Initiative Director, City and County San Francisco (\$150,000).
- Center for Academic Recovery and Empowerment, Bayview YMCA Department of Children, Youth & Their Families (\$250,000).
- SF Promise, SF State Department of Children, Youth & Their Families (\$250,000).
- Out of School Time (OST) -School Based Department of Children, Youth & Their Families (\$1,489,906).
- Youth Leadership, Empowerment & Development, Department of Children, Youth & Their Families (\$610,094).

<sup>\*</sup>Budgeted dollar amounts are estimates.

### 201/13 PEEF Expenditure Plan 2/01/13

## San Francisco Unified Average Daily Attendance

Section 16.123-6 of the Charter requires that the San Francisco Unified School District's expenditure plan contain information on average daily attendance for the prior year and anticipated average daily attendance for the plan year. Updated average daily attendance information for each year of the Public Education Enrichment Fund to date is included below. As per the Controller's Office request, these figures include separate totals for district, charter and county community schools, as well as the combined total. Charter school total and county community schools receive Public Education Enrichment Fund support.

| 2013-2014  |        | Projected | 51.528         | 3.318         | 166                    | 55,012          |

### Sources:

Average Daily Attendance Source: San Francisco Unified School District Annual Financial Report - Audit Actuals 2006, 2007, 2008, 2009, 2010, 2011 & 2012 San Francisco Unified School District Annual Financial Reports are issued at the completion of the school year.

\*Reported 2010-11 and 2011-12 Average Daily Attendance (ADA) includes the ADA for Cal SAFE and Regional Occupational Programs (ROP) in order to provide consistency in the reporting of annual district ADA, however, beginning in FY 2008-09 the reporting and tracking of ADA is no longer required by the California Department of Education as a condition of funding these programs. While the district continues to track the ADA internally for these programs, beginning in 2010-11, San Francisco Unified School District Annual Financial Reports do not include the Average Daily Attendance for Cal SAFE and Regional Occupational Programs.

### Performance Measures

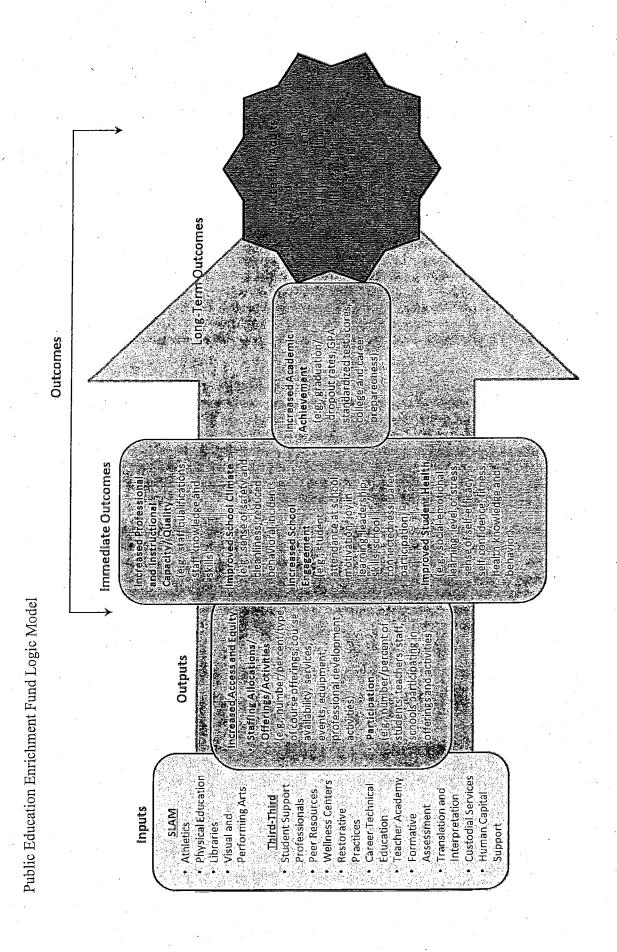

The current year's submission reflects a continuation and expansion of the revision work initiated for the 2012-13 Plan.

In the fall of 2011, SFUSD contracted with SRI International (SRI) to provide technical assistance in reviewing current Public Education Enrichment Fund data collection activities. SRI provided direct assistance in refining and streamlining current data collection activities in order to effectively communicate PEEF program activities and results. Following SRI's recommendations, the PEEF office employed a district-wide logic model approach that considered the PEEF initiative as a district-wide portfolio rather than 14 distinct and separate programs (see below). Moving left to right, the logic model provides a framework for understanding how PEEF funding can contribute to increases in student outcomes. The PEEF district-wide logic mode I provides the comprehensive coordination to link (1) the funding; (2) the program activities designed to promote access and equity; (3) immediate outcomes, such as creating a positive school climate and increasing student engagement; and (4) the long-term outcomes such as student achievement and post-graduation success. This model provides a conceptual roadmap for understanding how PEEF activities relate to outcomes, and a way to analyze data to assess PEEF's impact on students.

The performance measures presented reflect the continued relationship with SRI and use of the logic model to better assess the impact of program activities and services on student outcomes defined in the PEEF logic model. Included in this report are FY 2011-12 Actuals, FY 2012-13 Projections, and FY 2013-14 Targets as stipulated by the Controller's office. All available historical actual data for all the measures are provided. For each program, goals reflect programmatic priorities aligned with the District's goals of access and equity, student achievement, and accountability. Program goals are followed by their corresponding performance measures. Comments detailing explanations for significant changes in the data are provided as instructed by the Controller's office.

This report includes fifty-three new or revised performance measures that better reflect program offerings and their impact on immediate and long term outcomes (marked with asterisks). Ten measures were revised based on improvements made to our data tracking and collection systems or aligned along a better suited programmatic goal. Thirty measures are not included in this year's report because they were replaced by measures that better captured program offerings and activities or because data was not available. The naming conventions of the measures have also changed based on the new PEEF data collection and organization system.

2042-14 SFUSD PEEF Expenditure Plan 2/01/13

Athletics Department
Goal 1: Provide accessible athletic opportunities to middle and high school students

Data Source: Data Director, Athletics Department records

<sup>\*</sup>Propensity score matching study of student athletes; Middle and High school student athletes were matched based on their 5<sup>th</sup> grade characteristics including ethnicity, poverty (free or reduced lunch), gender, special education, test scores, attendance, GPA, and number of suspensions. Matching made it possible to compare athletes to non-athletes while holding other variables constant and thus allowing for a more accurate estimate of the effects of involvement in athletics.

Physical Education
Goal 1: Increase access and equity in Physical Education.

## Peer Resources

Goal 1: Create opportunities for youth to be leaders in their own lives, schools, and community by encouraging students to develop leadership and organizational skills.

<sup>\*</sup>New or revised measure.

## **Restorative Practices**

Goal 2: Minimize office referrals, suspensions, and expulsions, and increase in-class instructional time for middle schools students in general, and for Latino and African American students in particular.

RE: 2013-14 PEEF Revised Budget

Please find attached an updated version of the 2013-14 Revised PEEF Budget submitted on April 15, 2013. The attached updated version includes the following:

 Updated information for the Athletics budget line item to specify \$576,635 for school athletic facility repair/maintenance/construction for the renovation of athletics facilities to repair the track at School of the Arts High School and the natural grass softball field at Burton High School.

Performance measures for two new PEEF funded programs:

o Science, Technology, Engineering and Math

o A-G Support: Additional Course Offerings for Off-Track Students

Please contact me if I can provide you with any additional information.

# 2013-14 SFUSD Public Education Enrichment Fund

# Revised Budget - April 15, 2013

### Overview

On January 28, 2013, Mayor Lee announced that the City will authorize the release of approximately \$50 million to SFUSD for 2013-2014 through the Public Education Enrichment Fund (PEEF). Therefore, the PEEF allocation for 2013-2014 is no longer anticipated to reflect a 25% reduction per City Charter Sec. 16.123-8 (a). In addition, Section 16.123-8 (d) of the City Charter states that for FY 2010-11 through FY 2014-15, the City's annual contribution to the Public Education Enrichment Fund shall equal its total contribution for the prior year, beginning with FY 2009-10, adjusted for the estimated increase or decrease in discretionary General Fund revenues for the year. Together, this elimination of the reduction combined with this adjustment has resulted in an increase of \$16,115,000 to the District's portion of PEEF.

The total budgeted amount for 2013-2014 is \$50,931,000; this includes \$25,465,500 for Sports, Libraries, Arts and Music (SLAM), \$13,926,850 for ongoing programs in the areas of Learning Support Services, Academic Support, Family Support, Safe and Clean Schools, and General Infrastructure, and \$3,947,000 of In-Kind services (The In-Kind services total represents 7.75 % of the total PEEF allocation, which is consistent with previous years). The remaining \$7,591,650 in Other General Uses is to be directed to the Reserve Fund to help reduce the impact of State budget cuts to school sites.

The following narrative includes program information and a summary of budgeted program activities. Table 1 provides an overview of the total PEEF Budget. A detailed comparison spreadsheet is provided in Attachment A includes detailed information for revised budget adjustments for SLAM and the Other General Uses programs, including revised line item budget amounts and descriptions. Attachment B includes performance measure updates including 2013-14 Targets.

# Sports, Libraries Arts and Music

Beginning in 2013-14, the distribution of the SLAM allocation is revised to allow for greater access to disciplines of both Arts and Music across all school sites. Table 2 shows the SLAM allocation redistribution percentages, total amounts and budgeted amounts recognized in the 2013-14 PEEF Revised Budget.

Table 2

# Sports

### **Athletics**

The Athletics portion of the Sports allocations will be budgeted to provide:

- Additional hours for coaches
- Transportation for athletes to and from high school and middle school athletic competitions within San Francisco and throughout the Bay Area
- Increased allocations to 34 middle and high schools to purchase athletic equipment, uniforms, and stipends for athletic event personnel uniforms.
- Additional support for athletic programs

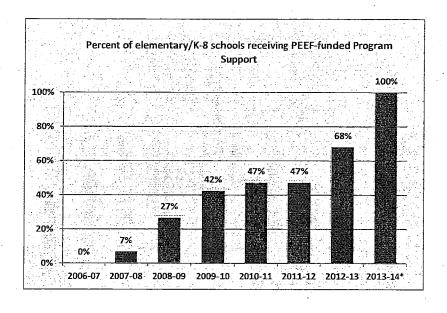

### **Physical Education**

The Sports Allocation distribution has been adjusted to fund an additional 13 Physical Education Specialists for elementary schools. With the Physical Education Specialists, every elementary school will have received Physical Education Program Support which provides a Physical Education Specialist to provide instruction, and support K-5 classroom teachers to implement the district adopted physical education curriculum for all students. In addition to the Physical Education Specialist, sites also receive equipment, curriculum and support for implementing and sustaining a quality physical education program. Figure 1 shows the increase in PEEF the percentage of schools that receive Physical Education Program Support. Sites with Pre-K and Transitional Kindergarten teachers may receive support from a Physical Education Specialist and teachers may participate in co-teaching and attend professional development. Physical education equipment will be provided to Pre-K and Transitional Kindergarten sites that have completed professional development.

Page **3** of **29** 

Figure 1

# Libraries

The revised Libraries budget includes additional librarian allocations for all Zone and Intensive Schools. All high schools and middle schools in the Zone and Intensive schools will have a full time librarian to support the school's improvement efforts in literacy. Figure 2 shows the increase in the number of PEEF funded Librarians and Figure 3 shows the increase in FTEs for Zone and Intensive Schools.

The revised budget includes increases in instructional supplies, technology and materials to support all Zone and Intensive Schools, and per pupil allocations for all sites (includes a \$20 per pupil allocation for Transitional Kindergarten classes to purchase libraries books and other library materials). The additional 11.6 teacher librarians will be literacy partners in each school, supporting the SFUSD English Language Arts Pre-Kindergarten - Grade 12 Core Curriculum, motivating students to read and write, facilitating the rotating of classroom libraries, and teaching information literacy skills through technology.

Figure 2

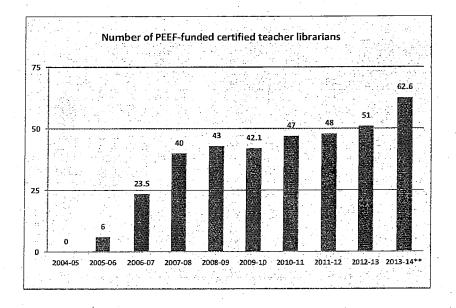

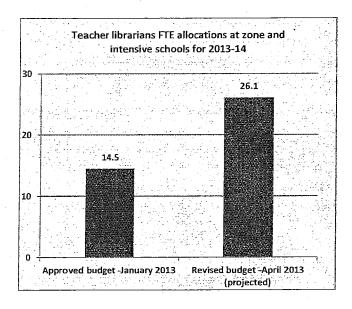

Figure 3

# Teacher librarians will serve all students by:

- Teaching literacy activities in collaboration with classroom curriculum.
- Maintaining a collection with expanded nonfiction selections at various levels and that is culturally responsive to and reflective of the school population.
- Rotating library books for monthly classroom collections.
- Integrating technology by connecting the community with web resources both free and subscription-based.

Page 5 of **29** 

 Coordinating program school literacy events (e.g. book giveaways, literacy nights, read-a-thons, and bookmaking workshops).

Teacher librarians will continue to support reading in the libraries and classrooms by forming book groups, collaborating with classroom teachers on varied teaching strategies, connecting students with reading material at their reading level, building collections specific to site demographics, and connecting students and teachers to exciting new technologies such as animated ebooks.

### Arts and Music

The Arts and Music revised budget includes an additional 39.2 FTE including:

- 2.4 Instrumentalist Music Teachers
- 15.0 Generalist Visual and Performing Arts Elementary Teachers
- 2.0 Visual and Performing Arts Teachers on Special Assignment (focus on Transitional Kindergarten, Zone, Intensive, and Strategic Elementary Schools)
- 6.8 middle school (of which 4.2 to support Zone, Intensive, and Strategic)
- 1.0 Visual and Performing Arts Teacher on Special Assignment (Middle and High School levels at primarily Zone, Intensive, and Strategic Middle Schools)
- 9.4 High School FTEs (of which 3.0 to support Zone, Intensive, and Strategic High Schools)
- 1.0 for Transitional Kindergarten FTE Arts Teacher
- 1.0 Program Administrator
- 0.6 Data Analyst

The revised budget includes additional FTE support allocated to Zone, Intensive and Strategic sites. Figure 4 shows the increase in the number of additional FTEs recognized in the revised budget.

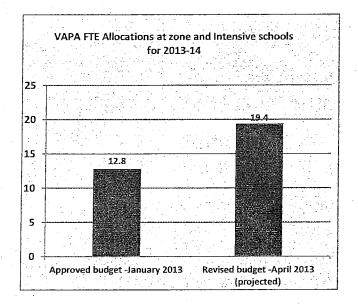

Additional supports provided to all school sites and include arts leadership training (Visual and Performing Arts' professional development workshop series for principals, *Principals for the Arts*), ongoing Arts Coordinator training and support, additional 3.0 Teachers on Special Assignment, Per pupil funds (allocation from \$10 to \$20 per pupil) for arts supplies/materials, certificated teachers, artists-in-residence, field trips and arts professional development will provide additional resources to schools to supplement arts offerings and better support arts teachers and their professional growth. One of the goals of the Arts Education Master Plan is to serve the early childhood population. The revised budget includes a 1.0 FTE Arts Teacher assigned exclusively to Transitional Kindergarten.

Focus on Middle School Arts and Music

Recent analysis shows that while all middle schools receive a baseline of PEEF support (teachers, resources and central office support), disparities remain among schools in the numbers and of types of course offerings.

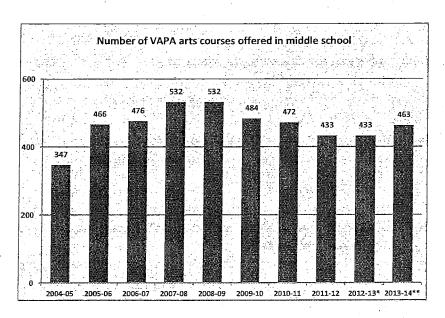

Figure 4

The revised budget includes additional allocations and resources targeted at middle schools to not only increase access to arts courses but to also provide a variety of arts disciplines. The revised budget provides an additional 6.8 FTEs to middle schools to align arts offerings across the middle school division. Figure 5 shows the projected increase in arts course for middle school and Figure 6 shows the projected increase in enrollment.

### Other General Uses (Third-Third)

The Other General Uses portion of the PEEF Allocation totals \$25,465,500 which includes an increase of \$8,057,500 beyond the plan submitted to the Board of Education in January 2013. Table 3 shows the programs and line items that have received additional funding within the 2013-14 Revised PEEF Budget. The revised budget includes funding increases to the Student Support Professional, Peer Resources, Restorative Practices, Career Technical Education, General Infrastructure and Translation and Interpretation programs. Two new programs are included: Science Technology, Engineering and Math (STEM), A-G support: Additional Course Offerings for Off-Track Students, as well as line items increases to the Reserve Fund and In-Kind Services.

<sup>\*</sup>Partial list of Other General Uses Programs. For complete list please see attached budget spreadsheet.

### Student Support Professionals

An additional 8.5 FTEs are budgeted to support elementary, K-8 and middle schools. Student Support Professionals include School Social Workers/Learning Support Professionals and School District Nurses. Student Support Professionals work to close the achievement gap by addressing barriers to learning and promoting healthy development of all students.

Page 9 of **29** 

### Translation and Interpretation Services

There are a number of federal and state requirements that mandate each school district in California provide services and access that ensure/support/encourage meaningful parent involvement. At the federal level, these include the No Child Left Behind Act of 2001 (NCLB Act) and Title VI of the Civil Rights Act of 1964 (Title VI). Under California Education Code Section 48985, school sites are required to provide translation of parent communications when 15% or more students speak a common primary language other than English. In 2011-12, 82 schools in San Francisco (79% of K-12 sites) had an English Learner population that met this threshold in at least one language. In addition to federal and state requirements, SFUSD also has specific language access requirements to support English Learner parent engagement under the Lau Consent Decree which includes the provision of translation and interpretation services.

During the 2011-12 school year, there were 33,458 students enrolled in SFUSD (64% of all students) who had a primary or home language other than English. While the largest language groups were Cantonese (13,762) and Spanish (11,262), there were 71 languages represented in the District's total population.

The many legal requirements, high percentage of students with home languages other than English and large number of languages spoken by students contribute to the large volume of requests for both translation and interpretation. Figure 7 shows the growing demand for services during August and November over a three year period. Many translation requests are submitted as urgent with short time frames for completion. Since 2011-12, there have been increases in translation requests for Arabic, Chinese, Spanish, Tagalog, and Vietnamese. In addition to site based language requests, the TIU expects increased demand/requests for the following types of translations:

- SFUSD website content pages
- Balanced Scorecards
- Uniform Complaint reports
- Board of Education rules, administrative regulations and rules
- Suspension letters
- Other emerging needs to support Limited English Proficiency families

In addition to increases in translation requests, there is a growing demand for interpretation services and, due to limited resources and personnel, a portion of requests are unfilled. Figure 8 shows that interpretation requests also increased from 237 last year to 328 this year between August and November (38% increase).

While the PEEF budget for Translation and Interpretation Department has remained consistent since 2009-10, other funding sources have decreased, resulting in fewer personnel and resources to meet both legal requirements and increasing demand for services at school and District events. The 2013-14 PEEF Revised Budget includes \$212,964 and will support:

- Two full-time translators/interpreters: one Chinese, one Spanish
- Hourly as-needed interpreters in Tagalog, Vietnamese and Arabic
- Six sets of interpretation equipment
- Mileage reimbursement or travel costs for interpreters

Page **10** of **29** 

Figure 7

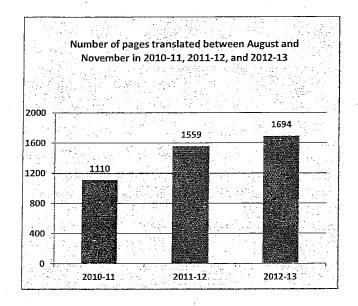

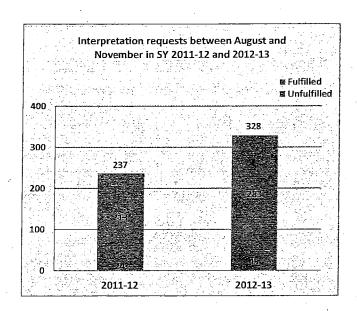

Figure 8

The additional personnel and resources will allow the Translation and Interpretation Department to fulfill approximately 40 more interpretation requests/month and fulfill additional translation requests in a shorter time frame. The Translation and Interpretation Department will also be able to provide interpreters to attend restorative circles in classrooms and Student Support Team meetings.

Page 11 of 29

### Peer Resources

Peer Resources provides the supports and opportunities for positive youth development. This budget reflects a 43% increase in funding to Peer Resources, bringing its total support by SFUSD to \$667,218. The additional funds will provide 3.0 additional Peer Resources Teachers for an one additional middle and 2 additional high schools, bringing the total of number of schools with PEEF support to four middle schools and ten high schools.

### Restorative Practices

This proposed revised budget increases the allocation to Restorative Practices by 31%, giving the program total funding in this revision of \$911,854. This augmentation will provide an additional 2.5 FTE Restorative Practices Coaches as well as extensive professional development to offer training to a greater number of schools and staff.

### Science, Technology, Engineering and Math

The SFUSD vision is that every student who enrolls in San Francisco public schools will graduate from high school ready for college and a career equipped with the skills, capacities and dispositions necessary for 21st century success. To achieve that vision, the 55,000 preK-12 public school students in SFUSD must have access to both a rigorous and comprehensive Science, Technology, Engineering and Math (STEM) as well as the technology that supports that curriculum. In addition, to reach the District goals of equity and access, students from target populations—African-American, Latino/a, Samoan, ELL and Special Education—must be represented and successful within this curriculum.

In order to achieve these dual goals of a well-supported, rigorous curriculum that is accessible to every student, we have launched the SF-STEM Initiative. The overall goal of this effort is to make STEM more engaging and relevant to SFUSD students by introducing students at every stage of study to STEM concepts, skills, and language through an inquiry-based, hands on approach. This includes real-world experiences so that all students will graduate with the essential knowledge and skills that will prepare them for college and career in the 21st century. SF-STEM leverages students' early interests and experiences, builds on their assets, and provides them with authentic learning experiences.

SFUSD is committed to providing a national level quality STEM program by ensuring that every SFUSD student:

- Receives an in depth, quality STEM education that includes technology and engineering as well
  as science and math.
- Is a critical consumer of information, technology and media.
- Has the skills to produce technology and media.
- Thinks critically and analyze data and can support arguments with evidence.
- Solves problems creatively.
- Is an innovator who believes that they can apply their knowledge and skills to make a difference.

To ensure all students' success in the 21<sup>st</sup> century, additional staffing is crucial for SFUSD to innovate and adapt to changes, to leverage the work that SFUSD is already doing and to make better use of the

Page **12** of **29** 

abundance of partners, supports and resources that San Francisco has to offer. Staffing is necessary to build capacity and provide the support for the district staff, the administrators, and the teachers to better meet the needs of our students.

Successful implementation of SF-STEM requires comprehensive district support, including the development of strong leadership, professional capacity, strong ties to parents and the community, a student-centered learning climate, and instructional guidance for teachers. The design will leverage existing STEM related work from SFUSD schools and classrooms.

The STEM staff, along with classroom teachers, will be focused primarily on reviewing and updating STEM curriculum and instruction to align with 21st Century Skills, Common Core Standards, Next Generation Science Standards, Technology Standards, and CTE standards to ensure that all students in SFUSD receive a high quality education that prepares them for college and career. The program will leverage best practices in STEM curriculum and pedagogy within and outside the district with an eye towards piloting and scaling programs that improve student engagement and achievement.

In completing this task, the SF-STEM staff will also:

- Provide a focused commitment, vision, and accountability for implementation of the STEM initiative.
- Roll out the infrastructure to support teachers in transforming their practice by forming professional learning communities (PLCs) and providing professional development and materials to teachers focused on STEM.
- Support principals to transform their practice by forming PLCs and providing professional development to teachers focused on STEM.
- Visit classrooms and coach teachers to encourage and cultivate the use FOSS, science notebooks, active-learning, complex instruction, and educational technology to support greater student engagement and achievement.
- Develop a cadre of STEM Lead Teachers to support the implementation of the STEM Initiative at each school site.
- Coordinate partnerships with local universities, informal science centers, organizations and businesses to support the mission of SFSTEM.
- Collect and analyze data to determine best practices from pilot programs, and then scale these practices across the district over several years.

STEM represents a key pillar of our children's education and one that will be integrated with the arts and other disciplines to create and implement more authentic teaching and learning experiences across PreK – 12 classrooms. SFUSD will ultimately leverage this understanding of STEM and educational technology and direct it to the teaching of real computing skills. This includes intensive fields of study such as programming, robotics, engineering, CAD, biochemistry, social media, networking, app development, and data analytics.

With the implementation of SF-STEM, anticipated program outcomes include:

- Increased number of students who are college and career ready.
- Increased number of girls and students of color engaged in STEM courses and experiences.
- Increased number of students participating in science, technology, engineering and math courses, as well as participating in career pathway options.

Page **13** of **29** 

- Greater engagement in the use of advanced and integrated technologies.
- Increased number of targeted students pursuing careers and higher education in STEM fields.
- Decreased number of students identified for intervention and special education services.
- More comprehensive pipeline to support the recruitment, induction, and ongoing professional development of teachers in STEM.

A-G support: Additional Course Offerings for Off-Track Students
On May 11, 2010, the San Francisco Board of Education adopted new graduation requirements,
beginning with the class of 2014. The goal is to provide every high school student an opportunity to
earn the credit needed to graduate high school in SFUSD. These new requirements align with the A-G
course sequence required by the University of California and California State University minimum
admission requirements. The new requirements include an additional year of courses in both
mathematics and a language other than English. English, math, social studies and science must meet the
A-G course sequence; support classes in English, math and science do not qualify as A-G. Students who
are enrolled in support classes will need additional opportunities to earn the credits that count towards
A-G. In addition, there are a number of students who did not earn a D or above in required course and
will need to earn those credits through one of the credit earning options.

In spring 2013, with support from our city partners, SFUSD launched a large-scale effort to provide multiple credit-earning options for our students including afterschool programs, evening school, and online services. This allocation recognizes the need to provide a dedicated funding source for these efforts to assist not only the class of 2014, but every student thereafter. It further reflects SFUSD's commitment to equity and access for all. The budget of \$2,436,489 will support a wide variety of credit earning options available to all SFUSD students including but not limited to afterschool programs, evening school, classes during the instruction day (includes some 7<sup>th</sup> period offerings) and on-line services.

Funds will be managed centrally by SFUSD's Curriculum and Instruction Division and include a 1.0 FTE Director of Extended Learning, 1.0 Assistant Principal to coordinate all on-line credit earning options for the entire district, 2.0 FTE classroom teachers to provide support credit earning options during the school day, 1.0 FTE Data Analyst for data collection, tracking and reporting, extended hours for teachers, supplies, materials and support personnel (1.5 FTE Clerk to process applications for credit earning options, requisitions and extended hour requests).

With sustainable funding and expanded centralized support, it is expected to see gains in the following:

- Number and percent of students enrolled in credit recovery courses
- Number and percent of students successfully completing credit recovery
- Number and percent of English Language Learner students successfully completing credit recovery
- Number and percent of students per grade level who are on track for graduation

Page 14 of 29

### Career Technical Education

The increase in funds are to support an additional 1.0 FTE position to increase program capacity and contribute to the following efforts: (1) strengthen and grow student internship programs within the established career pathways; (2) bring pathways in alignment with national standards; and (3) help build private and public partnerships that support this work.

### General Infrastructure

Overall PEEF funding is effectively growing by 45% with an equivalent increase in the size of programming, including the proposed introduction of two major initiatives: A-G Support and STEM. This considerable expansion needs to be supported, monitored and evaluated by the general infrastructure team. The revised budget includes an increase of \$45,000 for the evaluation portion of the infrastructure to meet this increased demand.

### Additional Line Items

### In-Kind Services

The recommendations include \$3,947,409 for In-Kind services from City and County of San Francisco Departments of Children, Youth and Their Families, Environment, and the Public Utilities Commission. The In-Kind services total represents 7.75% of the total PEEF allocation, which is consistent with previous years. In 2013-14, In-Kind services will continue, including support for:

- Sustainability Director
- SF Promise
- Center for Academic Recovery and Empowerment Truancy Prevention
- Out of School Time School Based
- Youth Leadership, Empowerment and Development

### Reserve Fund

\$7,591,650 is to be held in reserve to be allocated to the SFUSD General Operating Fund. Reserve Funds are to support the SFUSD General Operating Fund (Weighted Student Formula) to address the State budget shortfall. The Weighted Student Formula provides basic needs to school sites such as classroom teachers, school administration, and instructional materials.

## APPENDIX E: In-kind Support to Unified School District, FY 2013-14

### APPENDIX F: In-Kind Support to Unified School District, FY 2013-14

The following lists in-kind services provided by City Departments directly to School District students, as budgeted in the current fiscal year. It includes services exclusively provided to SFUSD students or on SFUSD sites, as reported by Departments. It excludes state or federally funded or mandated services, as well as any required local matches for such services.

Type of Support.
A. Department Direct Support: cash or grant provided directly to SFUSD to fund the listed project or service.
B. Department-provided In-kind Support: in-kind (non-cash) support provided directly by Department to SFUSD for the listed project or service.
C. Department-funded in-kind Support: project or service funded by Department but provided/delivered to SFUSD by a third party.

### APPENDIX H: Amended Board of Supervisors Resolution Approving the Unified School District Expenditure Plan FY 2013-14

FILE NO.

RESOLUTION NO.

| 1          | [Public Education Enrichment Fund]   |
|------------|--|
| 2          |  |
| 3          | Resolution approving the San Francisco Unified School District expenditure plan for                |
| 4          | the Public Education Enrichment Fund for Fiscal Year 2013-14.                                      |
| 5          |  |
| 6          | WHEREAS, Charter Section 16,123-2 establishes the Public Education Enrichment                      |
| 7          | Fund (the "fund") and designates one-third of the fund for universal access to preschool, one-     |
| 8          | third for sports, library, arts and music programs and the remaining one-third of the fund, or in- |
| .9         | kind services of equal value, for general education purposes; and                                  |
| 10         | WHEREAS, the total fund requirement for FY 2013-14 is \$60 million adjusted by the                 |
| 11         | annual discretionary General Fund revenues, which increases the FY 2013-14 amount to               |
| 12         | \$77.15 million to the San Francisco Unified School District and San Francisco Children and        |
| 13         | Families Commission collectively; and  |
| 14         | WHEREAS, the San Francisco Unified School District's portion of the fund requirement               |
| 15         | is \$51.43 million plus interest in FY 2013-14; and,   |
| 16         | WHEREAS, the San Francisco Unified School District has proposed a plan to use the                  |
| 17         | allocation of \$47.45 million for sports, libraries, arts, music and other general uses and \$3.99 |
| 18         | million of in-kind services, representing 7.75 percent of the total allocation amount; as          |
| 19         | prescribed by the Charter, and   |
| 20         | WHEREAS, the San Francisco Unified School District's estimated available budget in                 |
| 21         | FY 2013-14 is \$52.97 million including a \$1.53 million carry-forward of unspent funds from the   |
| <b>Ž</b> Ž | prior year allocation; and   |
| 23         | WHEREAS, the Controller's Office has reviewed the San Francisco Unified School                     |

### Office of the Mayor San Francisco

EDWIN M. LEE Mayor

TO:

Angela Calvillo, Clerk of the Board of Supervisors

FROM:

Mayor Edwin M. Lee 42

RE:

Public Education Enrichment Fund

DATE:

May 31, 2013

Attached for introduction to the Board of Supervisors is the resolution approving the San Francisco Unified School District expenditure plan for the Public Education Enrichment Fund for Fiscal Year 2013-14.

I request that this item be calendared in Budget and Finance Committee.

Should you have any questions, please contact Jason Elliott (415) 554-5105.
