[Supporting the Bay Area Addiction Research and Treatment Clinic in San Francisco.)

Resolution encouraging Senator Dianne Feinstein to support the Bay Area Addiction Research and Treatment Clinic in San Francisco.

WHEREAS, according to Bay Area Addiction Research and Treatment (BAART), more than half the individuals with substance abuse problems also have chronic mental health disorders; and,

WHEREAS, those individuals suffering from both problems will benefit most from consistent symptom management because substance-abuse treatment is more effective once a mental disorder has been diagnosed and treated; and,

WHEREAS, also according to BAART, most substance-abuse treatment centers are not qualified to diagnose mental health disorders, creating a barrier to treatment, due to the uninsured and indigent often not being able to travel and/or manage time so as to address multiple diseases in different facilities; and,

WHEREAS, managing appointments at multiple locations also creates significant burdens for the people that need help the most, forcing them to seek care in the most expensive treatment locations of all, emergency rooms; and,

WHEREAS, BAART seeks to join mental-health services with its existing healthcare and substance abuse programs to provide patients access to multiple services in one community-based facility through a pilot program that will serve as a model that can be applied at BAART's eleven other clinics throughout California; and,

WHEREAS, by supporting an investment in this initiative, California could get direct, significant public health returns, as well as a burden lifted from emergency rooms; and

WHEREAS, BAART's Market Street Clinic is seeking \$500,000 in the Labor Health and Human Services Appropriations Bill for FY05 to demonstrate the efficacy of continuum-of-care for mental health services for low-income and indigent populations; Now Therefore Be It,

RESOLVED, that the Board of Supervisors of the City and County of San Francisco do hereby support the Bay Area Addiction Research and Treatment Clinic; and be it,

FURTHER RESOLVED, that the Board of Supervisors of the City & County of San Francisco does hereby encourage Senator Dianne Feinstein to support a pilot project for Bay Area Addiction Research and Treatment (BAART) to demonstrate the efficacy of continuum-of-care for mental health services for low-income and indigent populations San Francisco.
