

# HIV PreExposure Prophylaxis (PrEP): Implementation in San Francisco

Susan Philip MD, MPH

Deputy Health Officer

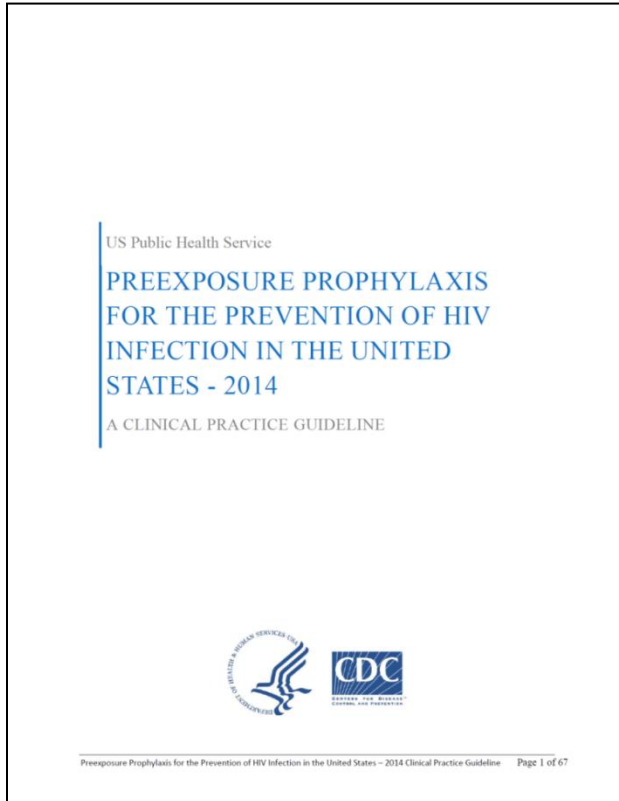

Director, Disease Prevention and Control

Population Health Division

San Francisco Department of Public Health

September 18, 2014

# SFDPH Fully Supports PrEP as an effective HIV Prevention Strategy in San Francisco

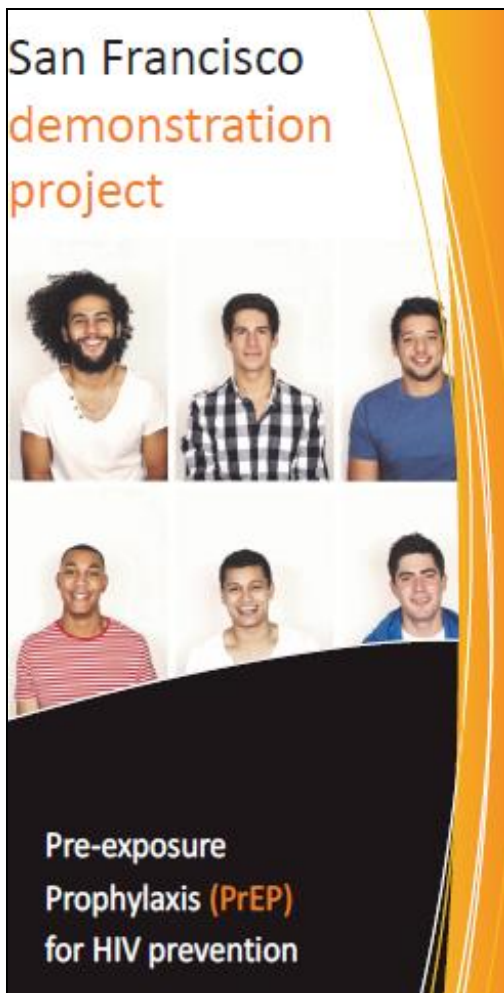

- SFDPH experts in HIV prevention, treatment, research and epidemiology are providing leadership in PrEP
- SFDPH provides PrEP to its patients, and is committed to removing access barriers to all San Franciscans at risk for HIV

# San Francisco and SFDPH PrEP Strengths

- iPrEX led by Dr. Bob Grant of UCSF was the first study to show PrEP was effective at reducing HIV infections in MSM and transfemales
- SFDPH was the first U.S. research site for iPrEX
- SFDPH enrolled more participants than any other U.S. site

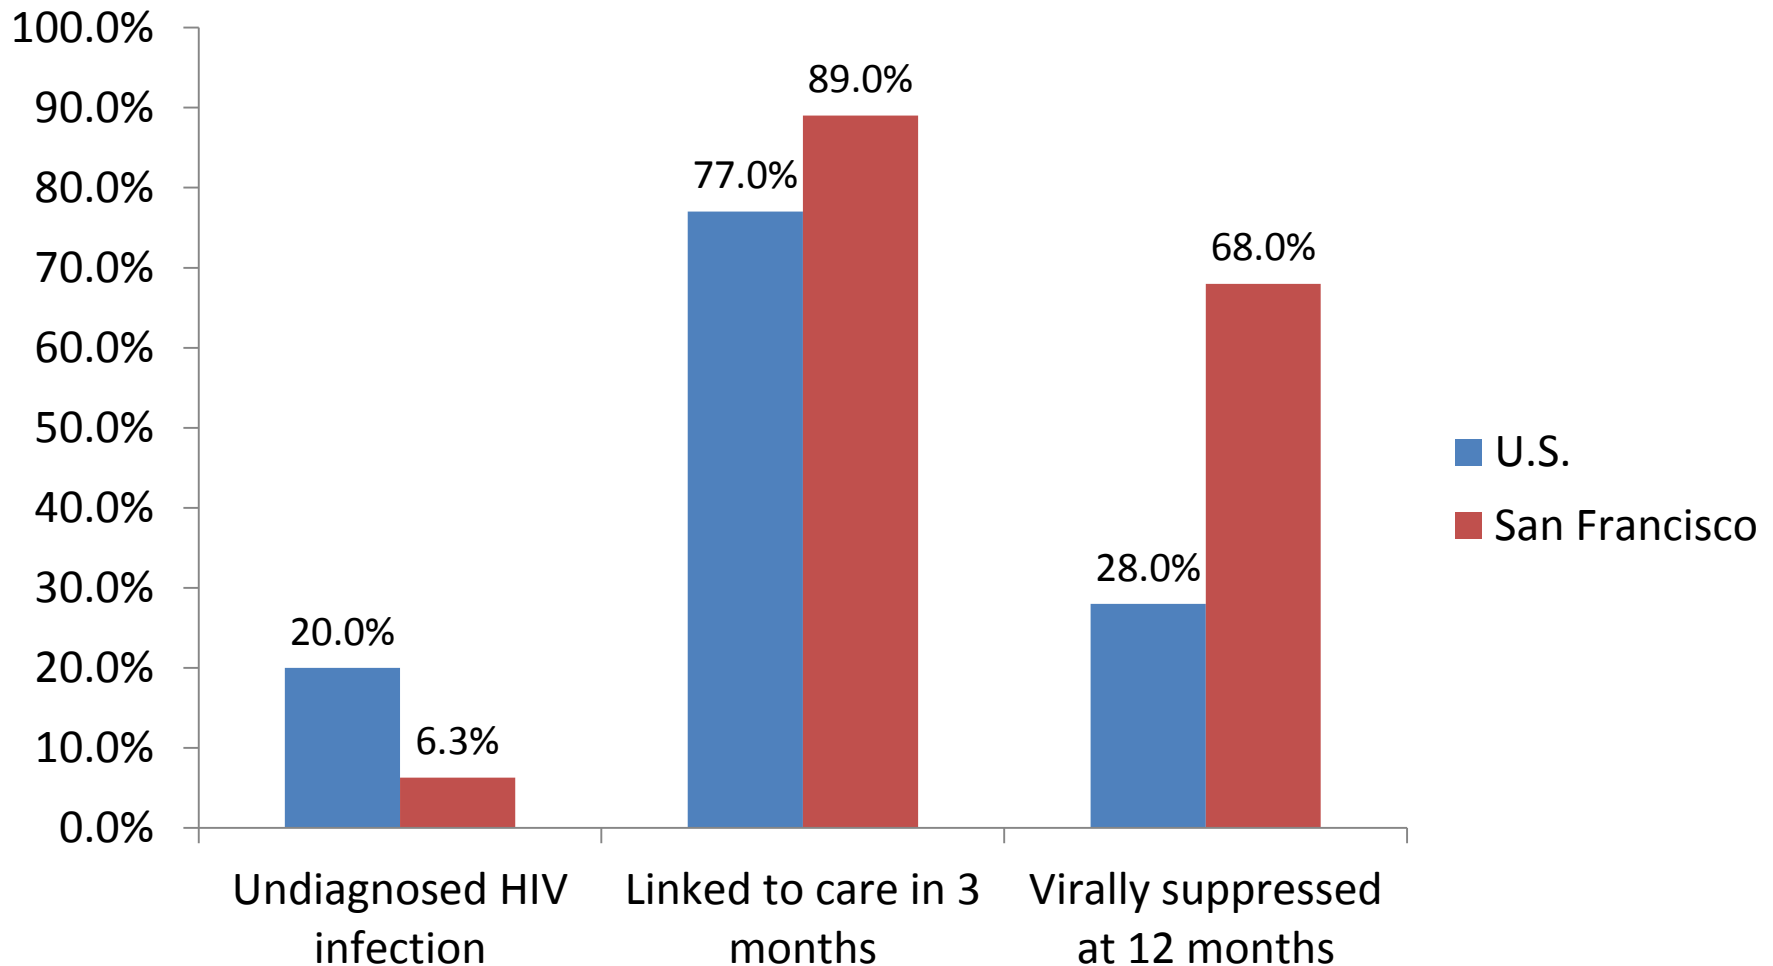

# SFDPH Continued Leadership in PrEP: Demo Project

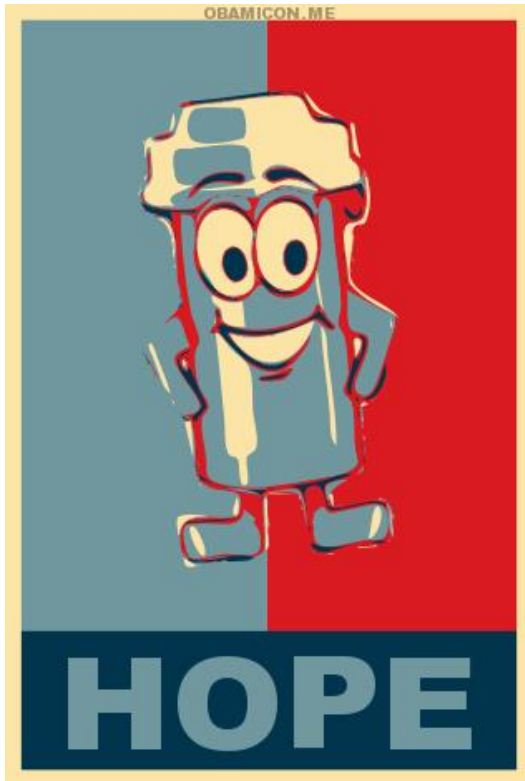

**San Francisco City Clinic  
Enrolled 300 of  
500 participants nationwide**

Also: Miami Dade County STD Clinic  
Whitman Walker Clinic (Wash DC)

# San Francisco leads along the Continuum of HIV Care and Prevention

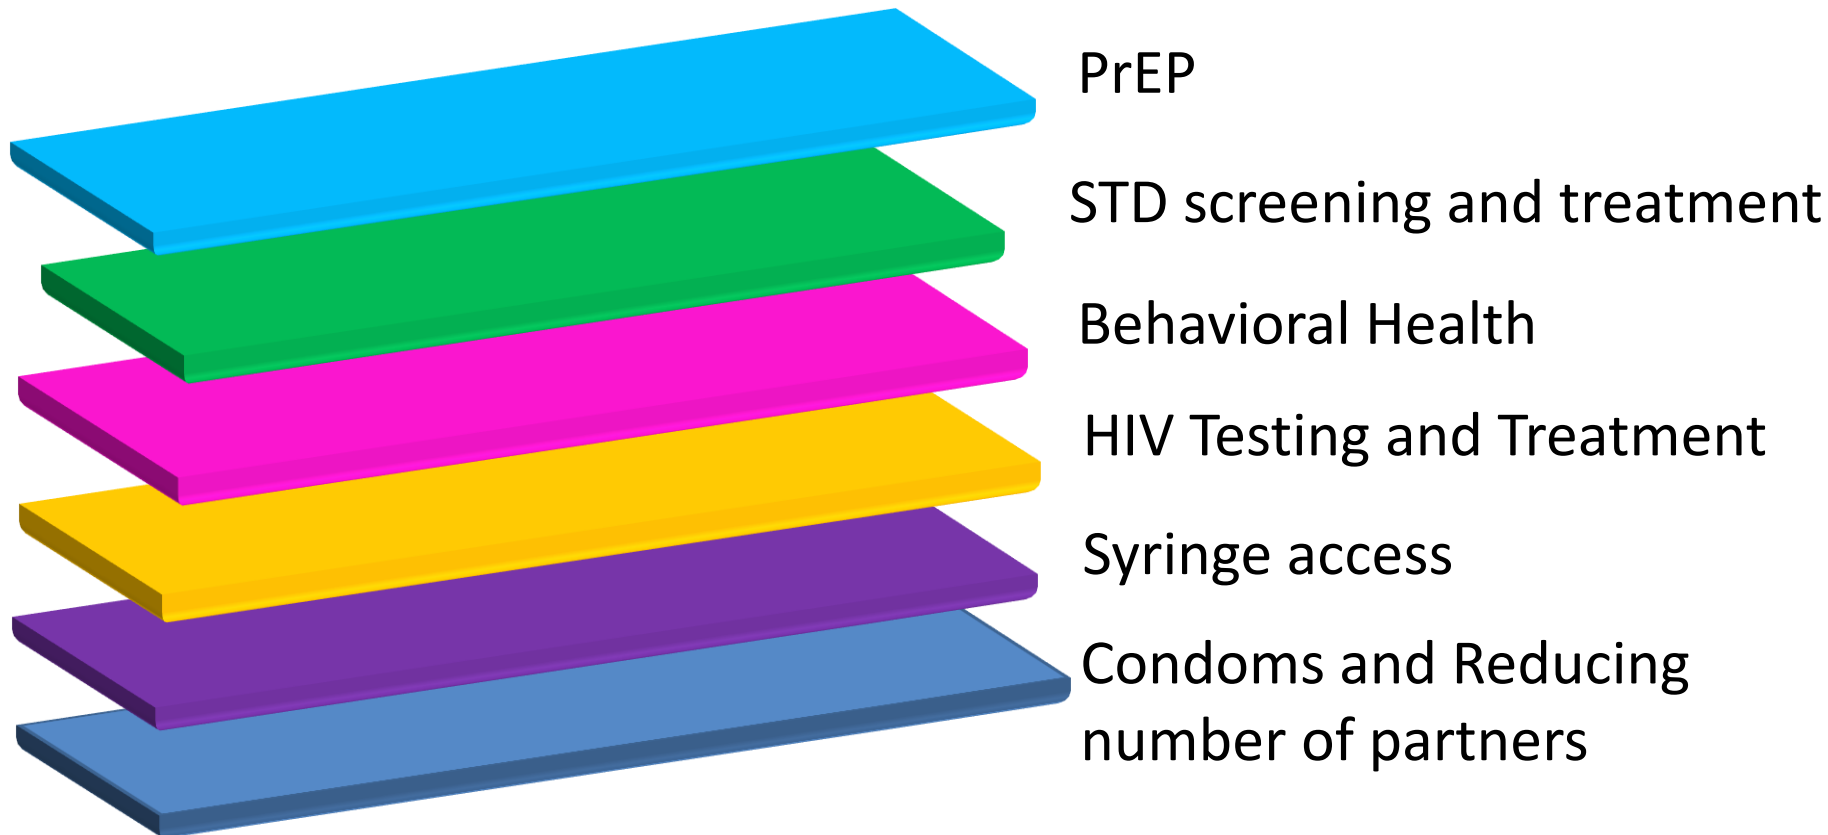

# 2010: San Francisco Recommends Treatment be offered to anyone diagnosed with HIV

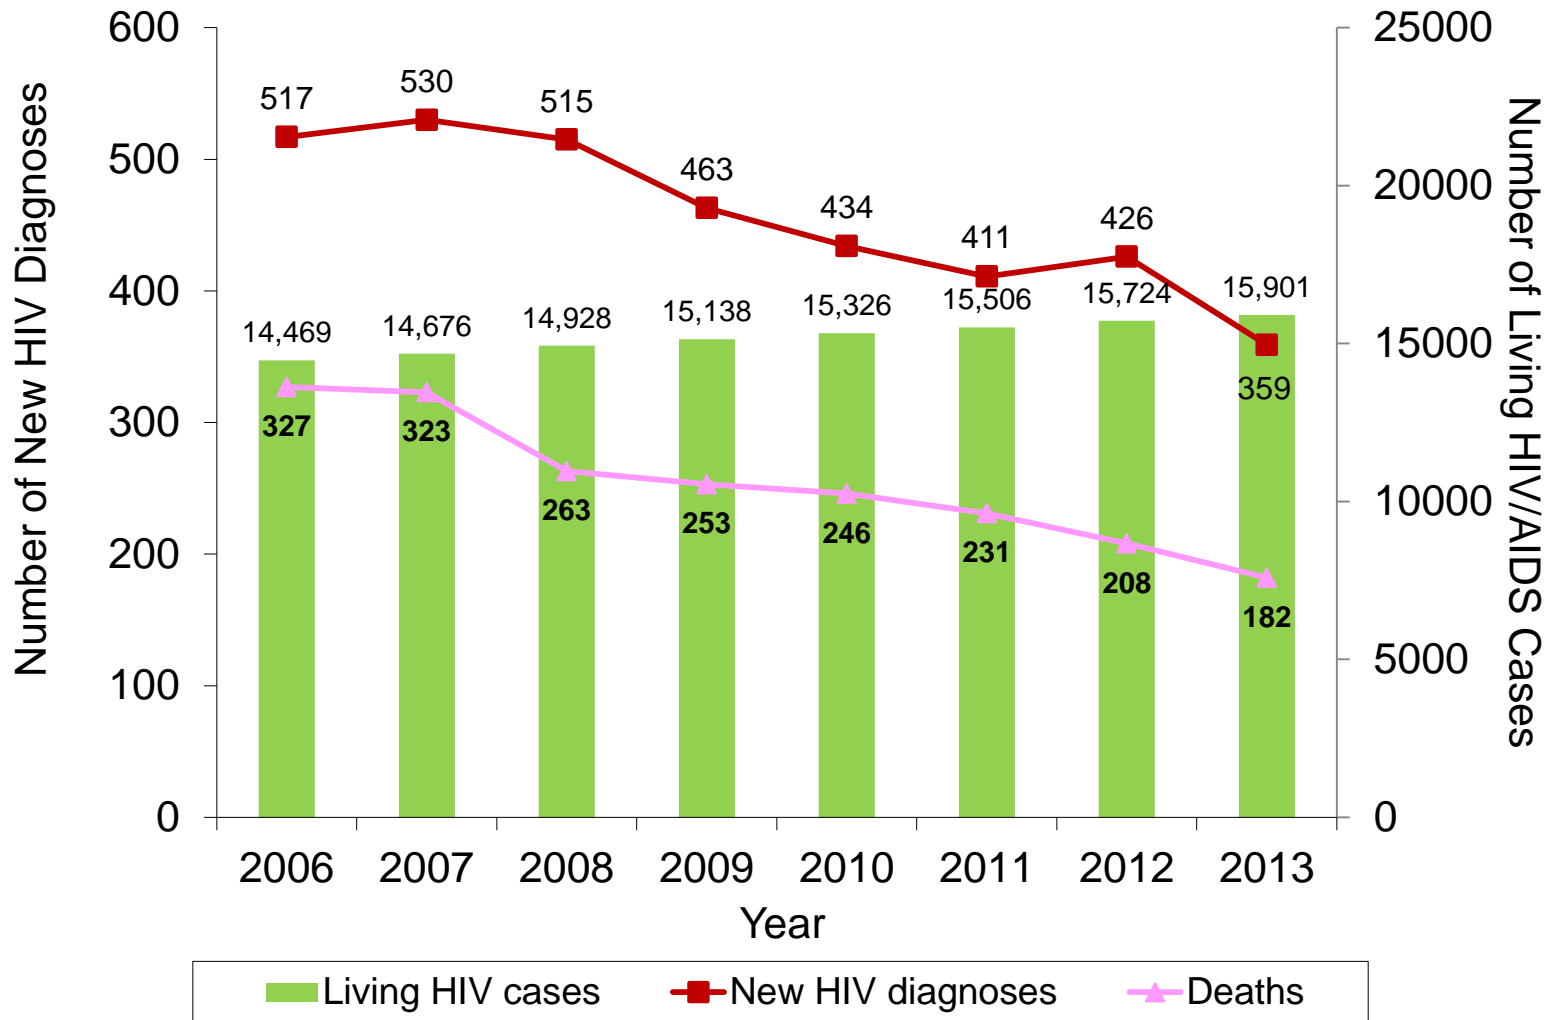

- First in the United States
- Joint recommendation of SFGH Ward 86 (UCSF Positive Health Program) and SFDPH
- Offer regardless of CD4 count
- Decision to start treatment made by the individual in conjunction with the provider
- SF was two years ahead of national guidelines

# Layers of HIV Prevention for all infected or at risk in San Francisco

# San Francisco is Seeing Signs of Success in Our Fight Against HIV

# Getting to Zero in San Francisco

- Zero HIV Infections
- Zero HIV-associated Deaths
- Zero HIV stigma

Collective impact approach:

Leadership from UCSF, SFDPH, Community-based HIV Service Providers, activists and key thought leaders, Private Medical Providers

# Getting to Zero in San Francisco

PrEP is a Key Strategy:

- Comprehensive PrEP Training and Support for Clinical Providers
- Resources and assistance for potential users of PrEP
- Developing key metrics for PrEP

# Health Reform Furthers PrEP Access in San Francisco

SF Health Insurance Enrollment under the Affordable Care Act	
Covered California (Oct 2013-Mar 2014)	40,825
Medi-Cal (Oct 2013-Jun 2014)	46,924
<b>TOTAL</b>	<b>87,749</b>

- ~90,000 San Franciscans have enrolled in health insurance under the Affordable Care Act
- Many insurers cover PrEP, including:
  - Medi-Cal
  - Kaiser Permanente
  - Anthem Blue Cross
  - United Health Care
  - Aetna

# SFDPH Recommends PrEP for those at Highest Risk for HIV in San Francisco

- Gay and bisexual men
- Other men who have sex with men
- Transfemales who have sex with men
  
- Others at potential risk may be offered PrEP in discussion with their clinical provider

# SFDPH Supports PrEP

- Access for our Patients
  - Provides access to PrEP for patients
  - Providers will have access to training and consultation resources, including from SFGH Ward 86 (UCSF Positive Health Program) and SFDPH Population Health
- Access for the Uninsured
  - Covers PrEP for uninsured San Franciscans enrolled in SFDPH supported medical homes
  - Participants in non-SFDPH supported medical homes work with primary care providers to access PrEP via plan coverage or manufacturer's medication assistance program

# SFDPH Supports PrEP

- Access for All San Franciscans at Risk
  - Will develop training resources for all SF providers including San Francisco Health Network
  - Continuing to provide access at City Clinic via links to insurance and primary care
  - Supporting community education and resources
  - Continuing PrEP assessment and implementation research
  - Assessing SF metrics for PrEP
  - Fact Sheet at [www. SFDPH.org](http://www.SFDPH.org)
