Edwin M. Lee, Mayor
Philip A. Ginsburg, General Manager

July 8, 2015

Ms. Angela Calvillo
Clerk of the Board
City Hall, Room 244
1 Dr. Carlton B. Goodlett Place
San Francisco, California 94102-4689

Dear Ms. Calvillo:

Please find attached the Recreation and Park Department's report for the 4th quarter of FY14-15 in response to the requirements of Resolution 157-99 Lead Poisoning Prevention. To date, the Department has completed assessment and clean-up at **182** sites since program inception in 1999.

Current work involves developing a cleanup plan for Kezar Pavilion. The complexity of the project and continual and heavy use of the facility has necessitated the work on this project. We are in the pre-clean up planning phase which will include testing to determine cleaning and scope of work characteristics.

I hope that you and interested members of the public find that the Department's performance demonstrates our commitment to the health and well being of the children we serve.

Thank you for your support of this important program. Please do not hesitate to contact me with any questions, comments or suggestions you have.

Sincerely,

Philip A. Ginsburg
General Manager

1. FY14-15 Implementation Plan, 4th Quarter Status Report
 2. Status Report for All Sites

Copy: J. Walseth, DPH, Children's Environmental Health Promotion

Attachment 1. Implementation Plan Status Report

4th Quarter Status Report

Plan Item	Status
I. Hazard Identification and Control	
a) Program Revision	A revision of the project management procedures was completed in FY13-14.
b) Site Prioritization	Prioritization is based on verified hazard reports (periodic inspections), documented program use (departmental and day care), estimated participant age, and presence of playgrounds or schoolyards. Sites are selected on a rolling basis; as one site is completed, the next site on the list becomes active.
c) Survey	No surveys are currently planned (pending completion of cleanup at Kezar Pavilion).
d) Cleanup	We are developing a cleanup plan for Kezar Pavilion. The complexity of the project and continual and heavy use of the facility has necessitated the work on this project. We are in the pre-clean up planning phase which will include testing to determine cleaning and scope of work characteristics.
e) Site Posting and Notification	Each site has been or will be posted in advance of clean-up work so that staff and the public may be notified of the work to be performed.
f) Next site	Priority 138, Pine Lake
II. Facilities Operations and Maintenance	
a) Periodic Inspection	Annual periodic facility inspections are completed by staff. The completion rate for FY14-15 is not yet available as inspections are due by July 2015.
b) Housekeeping	Staff is reminded of this hazard and the steps to control it through our Lead Safe Work Practice.

c) Staff Training

Under the Department's Injury and Illness Prevention Program, basic lead awareness training is recommended every two years for appropriate staff (e.g. custodians, gardeners, recreation staff, structural maintenance staff, etc.).

Attachment 2. Status Report for RPD Sites

Status Report for RPD Sites

Sites are listed in order in which they were prioritized for survey. Prioritization is done using an algorithm which takes into account attributes of a site that would likely mean the presence of children from 0-12 years old (e.g. programming serving children, or the presence of a playground).

Sites are surveyed on a rolling basis. "Rolling" means that when one site finishes, the next site on the list will begin. Current sites are listed at the top. Sites not be completed in exact order of priority due to re-tests and other extenuating circumstances.

Re-tests of previous sites are completed every 10 surveys to ensure that past work has sustained an acceptable level of protection.

ALL SITES

Priority	Facility Name	Location	Completed	Notes	Retest	Entered in FLOW Program
147	Kezar Pavilion	Golden Gate Park	08-09	Survey completed. Longer term abatement to be conducted.		
138	Pine Lake Park	Crestlake/Vale/Wawona	07-08	Programmed retest; survey to be completed.	X	
172	Broadway Tunnel West-Mini Park	Leavenworth/Broadway				
173	Broadway Tunnel East-Mini Park	Broadway/Himmelman				
174	Lake Merced Park	Skyline/Lake Merced		Includes Harding Park, Flemming Golf, Boat House and other sites. Note that the Sandy Tatum clubhouse and maintenance facilities were built in 2004 and should be excluded from the survey.		
175	Ina Coolbrith Mini Park	Vallejo/Taylor				
176	Justin Herman/Embarcadero Plaza	Clay/Embarcadero

Subject: Issued: Office of the Controller: City Services Auditor Annual Work Plan Fiscal Year 2015-16

The Office of the Controller's City Services Auditor Division (CSA) today issued its work plan for fiscal year 2015-16. The Office of the Controller's City Services Auditor Division (CSA) developed this plan by considering audits and other responsibilities mandated by the City and County of San Francisco (City) Charter and municipal codes, the results of a high-level risk assessment, and input from city management, leadership, and stakeholders. The plan may change during the fiscal year as circumstances dictate. Quarterly reassessment of risk, requests from city leadership, changes in city organizations or operations, and available CSA staff resources can result in changes to the plan.

City and County of San Francisco

Office of the Controller – City Services Auditor

CITY SERVICES AUDITOR

ANNUAL WORK PLAN:
FISCAL YEAR 2015-16

July 2, 2015

Introduction

The Office of the Controller's City Services Auditor Division (CSA) developed this Annual Work Plan by considering audits and other responsibilities mandated by the City and County of San Francisco (City) Charter and municipal codes, the results of a high-level risk assessment, and input from city management, leadership, and stakeholders. The plan may change during the fiscal year as circumstances dictate. Quarterly reassessment of risk, requests from city leadership, changes in city organizations or operations, and available CSA staff resources can result in changes to the plan as well.

MISSION

The mission of the Office of the Controller (Controller) is to ensure the City's financial integrity and promote efficient, effective, and accountable government. The Controller's vision is to be a model for good government and to make the City a better place.

CSA was created through a 2003 Charter amendment that envisions a broad effort to measure, audit, and report on San Francisco's public services and government performance. The mandate is to analyze the City's public service delivery, compare and benchmark San Francisco to best practices nationwide, provide information to citizens in new ways, and help drive improvements in city government. CSA is among the most ambitious voter-approved efforts of its kind in local government.

AUTHORITY

CSA has broad authority to:

- Report on the level and effectiveness of San Francisco's public services and benchmark the City to other public agencies and jurisdictions.
- Conduct financial and performance audits of city departments, contractors, and functions to assess efficiency and effectiveness of processes and services.
- Operate a whistleblower hotline and Web site and investigate reports of waste, fraud, and abuse of city resources.
- Ensure the financial integrity and improve the overall performance and efficiency of city government.

RESOURCES

CSA is funded through a commitment of two-tenths of one percent of the City's annual budget. In fiscal year 2015-16 approximately \$15 million is budgeted for CSA's functions under this Charter requirement, plus an additional \$4.8 million allocated from bond sales linked to multiyear capital programs. CSA has approximately 60 filled full-time equivalent staff, including auditors, performance analysts, project managers, and operations staff. CSA conducts its work in accordance with professional auditing and analysis standards, which require competence, integrity, objectivity, and independence.

CSA performs a variety of important services for city government. The Audits Unit has a wide range of expertise in performance auditing, including compliance and financial auditing, and a growing ability to audit large data sets and information technology systems. The City Performance Unit provides financial and operational analysis, process mapping, program evaluation, and other work to help city agencies improve public services. CSA can procure expert professional services where needed and manage technical and consultant contracts efficiently on behalf of other city departments. Where multiple city agencies or the City as a whole have similar needs or challenges, CSA works to deliver coordinated, streamlined solutions and reduce duplication of effort.

Fiscal Year 2014-15 Accomplishments

AUDITS UNIT

During fiscal year 2014-15 the CSA Audits Unit completed or made significant progress on many of its initiatives, including the following:

- Successfully expanded its continuous monitoring programs, adding new audit types and increasing the breadth of departments and functions that are included in these programs. The **citywide continuous audit programs** provide quality assurance to the City's key business processes that cut across various city departments. The continuous audit programs now include:
 - Cash Disbursements Audits
 - Cash Transactions Assessments
 - Concession and Compliance Audits
 - Contract Compliance Audits
 - Information Technology Audits
 - Inventory Audits
 - Payroll Audits
 - Treasury Financial Statement Reviews
 - Field Follow-ups on Prior Audit Recommendations
 - Nonprofit Program Audits (*New*)
 - Employee Departure Audits (*New*) (*separations and retirements*)
- Conducted three **large performance audits** to assess the effectiveness and efficiency of city functions and operations. These were audits of the employee absence management processes at the San Francisco Municipal Transportation Agency (SFMTA), the SFMTA's parking meter revenue, and the first divisional audit at the San Francisco Public Utilities Commission (SFPUC), which focused on the Wastewater Enterprise.
- Received the prestigious **2014 Knighton Distinguished Audit Award** for its report, *Citywide Construction: Adopting Leading Practices Could Improve the City's Construction Contractor Bid Pool*. CSA Audits was one of 12 local government audit shops from the U.S. and Canada selected for this award. The Knighton Award is sponsored by the Association of Local Government Auditors in recognition of the best performance audit reports based on their audits' potential significant impact, persuasiveness, and feasibility of recommendations to make government programs more effective and efficient, including clarity and overall innovation. The audit determined whether city departments with construction contract authority effectively assessed contractor performance. This is significant because public works operates within a low-bid contracting environment, where safeguards are critical to ensure that the City continues to do business with well-performing construction firms.
- Strengthened the **construction audit program** to ensure that departments and contractors comply with city requirements and procedures and to determine the effectiveness and efficiency of city practices related to capital and general obligation bond programs. Key accomplishments included a performance audit of the Airport's change management and internal controls over the Airport Traffic Control Tower project, a performance audit of safety management at city-funded construction projects, three construction contract close-out assessments, and a performance audit of the Airport's capital improvement program.
- Promoted the **Whistleblower Program** to city employees in 65 departments through communications and employee orientation programs. The Whistleblower Program received more than 300 complaints and closed the majority of investigations within 90 days. The Whistleblower Program continues to host webinars for local governments interested in or already operating fraud hotlines. These webinars reached an audience of 44 jurisdictions across the U.S. and Canada. CSA implemented a Whistleblower Program complainant feedback survey that was made available to the public.

- Developed SF Prepared Web site to assist local government agencies with financial and administrative tools for **emergency preparedness, response, and recovery**. The information provided helps local agencies become pre-audit Federal Emergency Management Agency (FEMA) compliant to recover all eligible disaster-related costs from FEMA's Public Assistance Grant Program. CSA assisted the Airport and SFPUC in the cost recovery efforts following each department's disaster-related events: the Asiana Airlines Flight 214 and Rim Fire disasters.
- Continued efforts to **follow up on audit recommendations** every six months after issuance to ensure implementation of corrective actions and continuous improvements in city operations and to mitigate the risk of fraud, abuse, and error.

CITY PERFORMANCE UNIT

During fiscal year 2014-15 the City Performance and Operations Unit's accomplishments included the following:

- Worked in partnership with the Department of Public Health (DPH) on implementing the **Affordable Care Act (ACA)** and preparing for the opening of the new San Francisco General Hospital. DPH is increasing access to primary care, reorganizing its hospital clinic services, and working to be an effective managed care provider in the ACA environment. CSA worked with DPH on several projects, including those to build new visual dashboards of performance data in many areas including appointment scheduling and wait times, clinical care, referrals and patient satisfaction.
- Built our program under the Charter mandate to act on and improve the **City's management and employment practices**. With a working group including the human resources director, mayor, and other stakeholders, we did a broad analysis of city hiring, leave/time off management, and some pay and benefit programs. Next, detailed analysis of hiring data revealed which job type recruitment efforts most need change—these include nurses, information technology (IT) professionals, and analysts. Future phases of the program will improve the IT systems, job testing processes, and rules which slow down hiring. The work will help make city hiring faster, better fit the current job market, and close the skills gaps that most affect public service delivery.
- Scaled up CSA's **performance data program** to meet new demands and opportunities. All departments participate in our citywide performance measures program and many of them are growing new programs to analyze, visualize, and make more decisions using data. Our staff helps build this capacity by teaching training classes in data visualization and business process analysis, by helping departments build dashboards and "stat" programs, and by growing the City's public data Web sites. In fiscal year 2014-15 our quarterly benchmarking reports comparing San Francisco's public services to peer jurisdictions were in the areas of water and wastewater costs and rates, museum services, population health, and police staffing.
- With the assistance of an expert public safety consultant, completed a revision of the **Police district station boundary lines** in conjunction with the move of the San Francisco Police Department (SFPD) to the new headquarters building on Third Street. Population growth and other changes in the City have altered the landscape of calls for service, crime patterns, and other drivers of police workload—all these factors were analyzed along with stakeholder and community input. New maps were drawn for approval consideration by the Police Commission and action by SFPD and the Department of Emergency Management. CSA also analyzed rehabilitation programs in the jails and updated its ongoing forecast of the jail population to inform planning for replacement of the Hall of Justice facilities.

- At the request of the Human Services Agency (HSA), analyzed **supportive housing programs** under its management. Client demographics and analysis of their use of benefits, case management, counseling, employment programs and other services point to where HSA can improve outcomes and predict whether and when supportive housing clients can exit to other stable housing.
- Increased CSA's ability to **map and analyze city processes** and show possible efficiencies. During fiscal year 2014-15 this ability was used to assist many city agencies, including in a project for the Assessor's Office detailing the steps required for transacting and assessing property. It was also used for the Department of Technology and City's permitting functions, detailing the multiple processes and steps faced by applicants for restaurant permits. These projects are simplifying and improving the experience of citizens, taxpayers, and businesses, and improving the City's financial and regulatory functions.
- Continued supporting the City's major expansions of and improvements to its transit services under the Muni Forward program and to its pedestrian environment with **Vision Zero**, the City's commitment to eliminate traffic deaths in San Francisco by 2024. These efforts, supported by CSA analysis and implementation work for many years, are now delivering the Rapid Bus Network, transit-only lanes, traffic signal improvements, and a host of other engineering, safety, access, and street design improvements that will make real differences in speed, reliability, and safety for city transit riders and pedestrians.

Fiscal Year 2015-16 Priority Initiatives

1. Capital Programs and City Facilities

To promote fiscal sustainability, government efficiency, and interdepartmental collaboration, CSA provides audit, oversight, and technical assistance services related to the City's capital improvement programs and its bond expenditures. This includes:

- Collaborating with various city departments to institute the use of performance and cost results in selecting construction contractors, which has been recommended in audits of city capital programs. This follows on a successful effort in fiscal year 2014-15 to update Chapter 6 of the City's Administrative Code, which governs construction contracting.
- Implementing mandated changes to the Administrative Code by developing policies and procedures, reaching out to construction management from jurisdictions around the country, and adopting leading practices.
- Collaborating with the City's Capital Planning Program and various departments on a proposed new municipal building at South Van Ness Avenue and Mission Street, focusing on the City's goal of consolidating planning, building, and related permitting functions at one site.
- Auditing the 2012 Clean and Safe Neighborhood Parks Bond, 2014 Earthquake Safety and Emergency Response Bond, San Francisco General Hospital Rebuild Bond (*a close-out audit*), and citywide facilities and maintenance procedures.

2. Transportation and Streets Infrastructure

To improve government responsiveness and efficiency, CSA will provide various auditing and consulting services related to transportation in the City, including:

- Conducting a performance audit of the Municipal Transportation Agency's information technology functions. □
- Providing continued monitoring and evaluation services related to Muni Forward programs, including the bus and light rail travel time reductions, Rapid Bus Network implementation, and increasing transit service levels with new signalization, route changes, and a wide variety of other improvements. □
- Participating in the reporting processes that will inform the public about spending, project progress, and outcomes for Vision Zero. This will include helping design evaluation methods and tracking spending under the voter-approved 2014 Transportation Bond among other sources. □
- Auditing the projects funded by the 2014 Transportation Bond in the last quarter of the fiscal year. □
- Ensuring compliance with operating agreements between the Airport and transportation network companies such as Lyft, Sidecar, and Uber. □
- Providing analysis and support for MTA's efforts in other policy and customer service areas, including surveying in the areas of rider demand and language access and research on automated speed enforcement programs. □

3. Public Utilities Commission

To enhance government efficiency and responsiveness, CSA will continue to work with SFPUC to provide audit and technical services, including:

- Developing a risk-based audit program of the Sewer System Improvement Program, one of the largest infrastructure projects underway in the City over the next 20 years.
- Auditing SFPUC's Power Enterprise, which is the second of the division-level audits to be conducted annually at the agency.
- Providing support for SFPUC's annual scorecard of performance and reporting to ratepayers in the water, power, and wastewater enterprises.

4. Public Health and Human Services

To respond to the emerging need to modernize, grow, and maintain efficiencies due to new health reform requirements and the opening of the newly built San Francisco General Hospital (SFGH), CSA will continue to assist the Department of Public Health in high-priority areas by providing analytical services, contracting assistance, audits, and support for departmental process and system improvements in the following areas:

- Electronic health records systems
- Managed care contracts
- New reimbursement methods in behavioral health services
- Purchasing equipment and information technology systems for the new SFGH facility
- Patient acuity, patient flow and revenue mix in the managed care environment
- Environment Health Section
- Vehicle fleet management

Working with the Human Services Agency and many other departments, CSA is working on common solutions to sharing program and client information while maintaining rights and privacy protections. This work is at the forefront of health, human services, and education agencies' desire to both design better programs and better serve clients with coordinated case management and services.

5. Performance Program

To enhance government responsiveness, the Citywide Performance Measurement Program will replace the government barometer and other performance reporting products that are currently presented in text format and develop a new Web site that uses performance data to generate visual displays and interactive tools for executive-level and public users. To achieve this and other performance management goals, CSA will:

- Publish performance indicator data for the largest 8-12 city departments in a central, common, user-friendly format.
- Continue to grow and improve the citywide performance data process, including by publishing benchmarking reports, the Annual Performance Measurement Report, and facilitating inclusion of performance data in the Mayor's Budget Book.
- Improve city departments' performance capabilities by training staff in analysis, mapping, and software tools and by directly assisting departments in building dashboards and "stat" program tools.

6. Technology

To promote efficient operations of the City's information technology structure, CSA continues to assist departments in minimizing security breaches and risks to city systems and applications and helping to develop solutions to the City's information technology needs. CSA will:

- Continue to conduct thorough network vulnerability and penetration tests.
- Analyze the City's options for more efficient telephone service contracts and for implementing audit recommendations related to managing and reducing costs for telephone lines, units, and service plans.
- Collaborate with the Department of Technology to identify solutions for the technology needs of multiple departments and to implement records management and digitization solutions.
- Assess disaster preparedness, virtual resilience, and planned redundancy for critical technology systems and data.

7. Contract Oversight

To improve government efficiency and responsiveness and promote affordability, CSA will continue its work on the city's contracting efforts, including:

- Conducting contract compliance audits.
- Continuous monitoring of and capacity building for nonprofit contractors.
- Providing technical assistance to organizations serving disadvantaged areas of San Francisco.
- Training nonprofit organizations that have small staffs and limited organizational support to meet the City's standards for accounting, auditing, and reporting.

8. Public Safety

To ensure government efficiency and effective collaboration with public safety agencies, CSA will:

- Continue to monitor the issues affecting our forecast of the City's jail population.
- Provide analysis and planning support for replacement of the jail capacity and other public safety functions in the Hall of Justice that are affected by the need to vacate this seismically unsafe building.
- Work on the possibility of new operational analyses and dashboards as more public safety agencies complete their tie-ins to the City's crime data warehouse.
- Work with the Police Department, MTA, and the Department of Public Health to gather and develop improved maps and data about vehicle/pedestrian/bicycle collisions, to better inform deployment and evaluation efforts mandated under the Vision Zero initiative.

9. Human Resources Management

To improve fiscal sustainability and government efficiency, CSA will provide technical assistance and support related to the City's human resources function, including:

- Addressing recruitment delays and deficiencies affecting critical job classes such as nurses, technology workers, analysts, and managers.
- Helping to consolidate the City's human resource system, which will allow for a common environment for the City's recruitment, hiring, workforce development, performance tracking, training, payroll, time management, and related financial functions.

10. Whistleblower Program

To promote government efficiency, responsiveness, and interdepartmental collaboration, CSA will continue to provide:

- A best-in-class Whistleblower Program that effectively resolves complaints to support government efficiencies.
- Hotline webinars that promote innovative operational leading practices.
- Fraud prevention resources that educate complainants on identifying issues that impact the fiscal health of their department and the City.
- Outreach that provides complete and consistent information to potential complainants.

11. Emergency Preparedness, Response and Recovery

To ensure that the City can continue financial operations when a disaster occurs, CSA will:

- Develop and implement pre/post-disaster FEMA-compliant reporting and audit work.
- Conduct Earthquake Safety and Emergency Response Bond project audits.
- Audit virtual resilience and technology.

12. Follow-up Audit Efforts

To ensure continuous improvements in city operations and mitigate the risk of fraud, abuse, and error, CSA will follow up on audit recommendations every six months after issuance to monitor the status of corrective actions.

Conclusion

The table on the following page lists a variety of the audits and projects that are planned for fiscal year 2015-16. CSA's complete work plan includes many additional smaller initiatives and continuous programs. Additional detail is available on request.

Throughout the fiscal year, CSA publishes its audit reports, performance reports, and technical assistance project summaries on the Controller's Web site at <http://www.sfcontroller.org/>. The public is invited to subscribe to CSA's reports, search CSA's database of reports, and use publicly available financial and performance data on the CSA Web site.

CSA strives to provide excellent audit, analytical, and technical assistance services to city departments, leadership, and citizens. We invite your comments and feedback on our work at any time.

Major Planned Audits and Projects in Fiscal Year 2015-16

Department	Project Name
Airport Commission	Transportation Network Companies Operating Permit Audit
Assessor/Recorder	Assessor Business Personal Property As-Is Mapping and Follow-up
Citywide/Multiple Departments	Affordable Housing Delivery Models
Citywide/Multiple Departments	Annual General Obligation Bond Performance Report
Citywide/Multiple Departments	Arrest and Charging Rates Review
Citywide/Multiple Departments	Cash Disbursements Audit Program
Citywide/Multiple Departments	Cash Transactions Citywide Program (6 Audits)
Citywide/Multiple Departments	City Consultant Costs Audit
Citywide/Multiple Departments	Citywide Benchmarking Annual Report
Citywide/Multiple Departments	Citywide Contract Compliance Audit of Term Contracts
Citywide/Multiple Departments	Citywide Contract Compliance Audit Program
Citywide/Multiple Departments	Citywide Departure Audit Program
Citywide/Multiple Departments	Citywide Emergency Cost Recovery Planning
Citywide/Multiple Departments	Citywide Facilities Maintenance Procedures Audit
Citywide/Multiple Departments	Citywide Fleet Management Performance Audit
Citywide/Multiple Departments	Citywide Management and Employment Practices Program
Citywide/Multiple Departments	Citywide Nonprofit Monitoring and Capacity Building Program
Citywide/Multiple Departments	Citywide Nonprofit Program
Citywide/Multiple Departments	Citywide Payroll Audit Program
Citywide/Multiple Departments	Citywide Procurement, Inventory and Materials Management Program (2 Audits)
Citywide/Multiple Departments	Consolidating Permitting Functions at a One Stop Permitting Center
Citywide/Multiple Departments	Data Use and Decision Making Materials and Training
Citywide/Multiple Departments	Development Agreements Monitoring & Enforcement Project: Phase III
Citywide/Multiple Departments	Financial System Replacement Assistance
Citywide/Multiple Departments	Improving Data Sharing Between Social Services Departments: Phase II

RE: Annual Report on Civil Immigration Detainers – 2015 pursuant Chapter 12I Civil
Immigration Detainers

Dear Ms. Calvillo:

Please accept this report to the Honorable San Francisco Board of Supervisors from the San Francisco Juvenile Probation Department (SFJPD) pursuant Chapter 12I (Section 12I.5 Annual Report) Civil Immigration Detainers. The Department is pleased to report its full compliance with the Civil Immigration Detainers ordinance.

Since the last report submitted by the SFJPD on June 30, 2014, there have been no detentions in our Juvenile Hall that were solely based on civil immigration detainers.

During the period between July 1, 2014 and June 9, 2015, twenty-one (21) undocumented persons were booked into juvenile hall with criminal charges. Two (2) additional persons received citations and were referred out of custody to the Department by local law enforcement. Of the 23 undocumented persons received by the Department during this period, eighteen (18) or 78% had cases that resulted in a sustained petition (Equivalent of a guilty finding in criminal court) by the Superior Court. One (1) youth had his petition dismissed outright, and two others had juvenile petitions dismissed in favor of charges being filed in adult court. These two individuals were adults who attempted to deceive the Juvenile Court as to their true age. Two (2) undocumented minors were placed on informal probation. Finally, of the twenty-one (21) undocumented persons booked into juvenile hall during this reporting period, eleven (11) just over half of the youths had prior arrests and referrals to juvenile court. The Department looks forward to continued compliance with the Civil Immigration Detainers ordinance.

Respectfully Submitted,

Allen A. Nance,
Chief Juvenile Probation Officer

City and County of San Francisco

San Francisco Department of Public Health

Barbara A. Garcia, MPA

June 24, 2015

RECEIVED
BOARD OF SUPERVISORS
SANTA BARBARA COUNTY
JUN 29 PM 2:47

TO ALL INTERESTED AND AFFECTED PARTIES:

This is to provide you with a copy of the notice of proposed regulatory action relative to Section 149 and Appendix A, Title 14, California Code of Regulations, relating to market squid logbooks, which will be published in the California Regulatory Notice Register on June 26, 2015.

Please note the date of the public hearing related to this matter and associated deadlines for receipt of written comments.

Ms. Laura Ryley, Environmental Scientist, Marine Region, Department of Fish and Wildlife, (831) 649-7142 or Laura.Ryley@wildlife.ca.gov, has been designated to respond to questions on the substance of the proposed regulations.

Sincerely,

Sherrie Fonbuena
Associate Governmental Program Analyst

Attachment

TITLE 14. Fish and Game Commission Notice of Proposed Changes in Regulations

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by Sections 7078, 7701, 7708, 8026, 8425 and 8429.5 of the Fish and Game Code and to implement, interpret or make specific Sections 7701, 7708, 8026, 8425, 8429.5, 8429.7, 12159 and 12160 of said Code, proposes to amend Section 149 and Appendix A, Title 14, California Code of Regulations, relating to market squid logbooks.

Informative Digest/Policy Statement Overview

The Market Squid Fishery Management Plan (MSFMP) was developed under the provisions set forth by the Marine Life Management Act (MLMA) and sets goals and objectives to govern the conservation, sustainable use, and restoration of the market squid resource. Section 149, Title 14, California Code of Regulations (CCR), governs commercial market squid fishing activities off California, pursuant to the MSFMP.

Current regulations prescribe the use of logbooks for the collection of fishing data. Market Squid Vessel Logbook (DFG 149a) and Market Squid Light/Brail Boat Logbook (DFG 149b) are proposed to be updated to bring these forms into compliance with the standards set by the Department of Fish and Wildlife's (Department) Forms Management Coordinator, improve instructions that explain how the logs are to be filled out, and improve the quality of data that are received by the Department. Updated instructions will accompany the forms. The forms and instructions will be inserted as part of CCR, Title 14, Appendix A, and the old forms (DFG 149a (9/01) and DFG 149b (10/05)) will be deleted.

The follow changes are proposed:

- Subsection 149(e) is proposed to be amended to refer to the revised forms entitled with an updated version number "Market Squid Vessel Logbook – DFW 149a (Rev. 05/01/15)", and "Market Squid Light/Brail Boat Logbook – DFW 149b (Rev. 05/01/15)."
- Additional changes are also proposed to improve the organization, clarity and consistency of the regulations.

Benefits of the Regulations

The proposed regulatory action will benefit fishermen, processors, the State's economy, and the environment by maintaining a healthy and sustainable market squid fishery.

Consistency with State Regulations

The proposed regulations are neither inconsistent nor incompatible with existing State regulations. Commission staff has searched the California Code of Regulations and statutes and has found no other State regulations related to the take of market squid and no other State agency with authority to promulgate commercial squid fishing regulations.

NOTICE IS ALSO GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held in the Embassy Suites – LAX North, 9801 Airport Blvd., Los Angeles, California, on Wednesday, October 7, 2015 at 8:00 a.m., or as soon thereafter as the matter may be heard. It is requested, but not required, that written comments be submitted on or before September 24, 2015 at the address given below, or by email to FGC@fgc.ca.gov. **Written comments mailed or emailed to the Commission office, must be received before 12:00 noon on October 2, 2015.** All comments must be received no later than October 7, 2015, at the hearing in Los Angeles, California. If you would like copies of any modifications to this proposal, please include your name and mailing address.

The regulations as proposed in ~~strikeout~~-underline format, as well as an initial statement of reasons, including environmental considerations and all information upon which the proposal is based (rulemaking file), are on file and available for public review from the agency representative, Sonke Mastrup, Executive Director, Fish and Game Commission, 1416 Ninth Street, Box 944209, Sacramento, California 94244-2090, phone (916) 653-4899. Please direct requests for the above mentioned documents and inquiries concerning the regulatory process to Sonke Mastrup or Sherrie Fonbuena at the preceding address or phone number. **Laura Ryley, Environmental Scientist, Marine Region, Department of Fish and Wildlife, (831) 649-7142 or Laura.Ryley@wildlife.ca.gov, has been designated to respond to questions on the substance of the proposed regulations.** Copies of the Initial Statement of Reasons, including the regulatory language, may be obtained from the address above. Notice of the proposed action shall be posted on the Fish and Game Commission website at <http://www.fgc.ca.gov>.

Availability of Modified Text

If the regulations adopted by the Commission differ from but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency representative named herein.

If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

Impact of Regulatory Action/Results of the Economic Impact Analysis

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Business, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed regulations continue to allow all actively permitted market squid vessels (vessel, light, and brail) to participate in a directed fishery for market squid during the commercial market squid season until the season closes. The proposed regulations update the logbooks currently in use by commercial squid fishermen. These changes are not expected to increase the time spent to complete the log.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission does not anticipate any impacts on the creation or elimination of jobs, the creation of new businesses or the elimination of existing businesses, or the expansion of businesses in California.

The Commission does not anticipate any benefits to the health and welfare of California residents or worker safety.

The Commission anticipates benefits to the environment in the sustainable management of a healthy squid resource.

- (c) Cost Impacts on a Representative Private Person or Business:

The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.

- (e) Nondiscretionary Costs/Savings to Local Agencies: None.

- (f) Programs Mandated on Local Agencies or School Districts: None.
- (g) Costs Imposed on any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None.
- (h) Effect on Housing Costs: None.

Effect on Small Business

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code Sections 11342.580 and 11346.2(a)(1).

Consideration of Alternatives

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

FISH AND GAME COMMISSION

Subject: Re: Airbnb

Hi All:

Since one or more of our units turn into Airbnb, our building has a big mess. Our lobby becomes a temporary front desk and sleep over area. Strangers come and go all the time. Worst, when they don't have enough keys, they keep the secured door open with something. When we confront them, they usually said they are waiting for the key to get into the apartment so they have no idea which unit they are going.

We don't have a door man to patrol the building all day. We don't know what to do.

I hope the board of supervisors will come up with a solution to both protect our safety and solve our tight affordable housing problem.

Thanks,
Alice Wong

Subject: White City

Dear San Francisco Board of Supervisors; I wish that you would promote a "White City" not a red one, please. White represents peaceful, and holy properties, while red presents rage & angry attributes. This is not just a racial issue; it is a matter of philosophical fact. The Hindus believe in three different moods, or gunas, each represented by a different color. The lowest, and most negative is black; it is called "tamas." It is a state of ignorance, closed mindedness, and apathy. The middle guna is called "rajas." It represents rage, anger and violence. Its color is red. The highest guna is called "satwa." It is is the color white. It represents holiness, purity of mind and God consciousness. Let us pray to make San Francisco a holy city. A "White City." One of Sacramento's AKAs is White City, and is provides a beautiful, noble aspect to the residents there. I'm tired of a violent San Francisco, and I have seen advertising promoting it as a Red City. This needs to be changed. The violence has been here in San Francisco since The Barbary Coast; it is time to sincerely present "White City." With love, God, and Jesus, Bethesda D Hoganson. ☺☺☺☺☺☺☺♥☐

Re: KB Home Building Defects – Failure to Repair Properly nationwide including California

July 6, 2015

To: San Francisco Supervisors, Commissioners, Attorneys, Managers, and Building Officials

Dear Sirs and Madams:

I am providing knowledge of improper and potentially dangerous building practices by the builder KB Home.

I am writing to all cities and counties in California where the national homebuilder KB Home is currently building. In light of the tragic balcony collapse in Berkeley this month, I believe the state of California would never want such a thing to happen again.

KB Home, the national homebuilder headquartered in Los Angeles, and currently building in approximately 71 subdivisions in California, also had balconies collapse (in Florida). There were no deaths - but the balconies of three story condominiums in Florida collapsed without the weight of people, and according to a whistle blower lawsuit (Ruben O'Neil vs KB Home), KB Home was aware that the balconies were defective when originally sold and did not disclose the danger to buyers before closing.

In the federal lawsuit O'Neil claims, "Engineers said the rear walls could collapse in a storm resulting in loss of life or property." He goes on to say that KB Home management and top legal advisors on a conference call decided not to disclose, but instead to close on the condos. The federal lawsuit was filed in 2007 and KB Home kept building the condos until 2009 or later. Though they claimed to have advised owners (after the fact), they kept building. Subsequently, by 2011 the condos had water intrusion and the balconies failed. One owner hired a contractor when KB Home refused to address her complaints. He opened her walls exposing not just the balcony problems, but

connectors missing throughout the entire condo unit. Some walls were completely devoid of any hurricane straps. The commercial contractor went on the news and said, "In his opinion the condos needed to be torn down." KB Home did not make the required repairs - instead the owner was forced into arbitration and spent tens of thousands of dollars. Eventually, after water intrusion was severe enough in the entire complex, the Homeowner's Association took legal steps to repair the complex. They incurred large legal and engineering fees. KB Home did not honor warranties, did not repair dangerous structures that were built in violation of building codes (numerous violations - any one of which could have caused catastrophic failure in a storm) without a fight. KB Home put up a legal battle even knowing condos were defective and sold without disclosure (according to O'Neil).

Those condos have been under repair for three years (massive re-construction) and issues still remain- issues of connecting party walls, which the builder is still fighting over, and issues of mold in repaired units.

The condo above had a twin complex in Tampa (Palm River) that was built from the same plans. It also leaked. It was repaired in 2009. Those repairs were inadequate and it was under repair again in 2012.

Repairs did not happen easily in Florida where we have anti-consumer - builder right to cure laws- and unresponsive government. Owners had to band together statewide. Some had lawyers, others contacted the FTC. There was massive local news coverage, and local and federal legislators were contacted. In other words, KB Home did not fix these houses willingly - even when they were collapsing. And KB Home tried hard to silence protesters. They filed federal lawsuits with charges as absurd as a "letter writing campaign". And they did succeed in shutting down some of the most vocal homeowner advocates. Average people can't fight a giant corporation forever at some point government must step up and stop public endangerment.

For years, owners filed complaints. One had 21 repairs, another 26, that didn't stop the leaks. KB Home spent years making cheap sham repairs (caulk), running down the clock on warranties. The result was often foreclosures. My neighborhood has a 70% default rate and is still climbing since even after repairs, houses leak.

Here, in Vero Beach, Florida, we also had water intrusion. The problem was improper stucco application; missing flashing, weeps, and joints to drain the upper story. We are single family houses and leaks started right after the houses were built. KB Home refused to make repairs or made inadequate patches that often hid the real problems making the damage worse. Houses leaked for seven years before there was massive failure of walls after a storm.

Houses statewide had the same problems (last count 31 subdivisions in Florida). The Attorney General of Florida started an investigation which is still active. But even with hundreds of news stories and political involvement - KB HOME FIXED EVERY HOUSE IN MY SUBDIVISION WRONG. They left out flashing again and some houses re-leaked right away and are cracking. KB Home has refused to repair the houses correctly. I have three engineer's reports to prove my assertions and can get a hundred more. I have letters from KB Home and evidence they refused to even reply in instances. I have many private documents that I don't put on my website that I will provide on request that show the dangerous business practices KB Home uses repeatedly. They deny every allegation made against them, even when lawsuits and documentation exists to the contrary. The FTC and HUD, have sanctioned them. The DOJ recently had a settlement. The charges were a national scheme of appraisal fraud.

In my subdivision, there are missing connectors in violation of plans and building code (similar to the condos). This could be catastrophic in a hurricane. The connectors are also required in earthquake prone areas. KB Home is aware and is not making the required repairs. Again, I have engineer's documentation.

Here, KB Home was found working without building permits on extensive repairs. They used unlicensed contractors. They abandoned construction for 6-9 months while under repair - state legislators and media had to be called. I can supply documentation for all these allegations, most not posted on my website. They left owners with cancer, multiple sclerosis, in gutted houses without kitchens for almost a year. Florida has deplorable consumer protection, but our example shows what KB Home will do if not watched judiciously. WTSP Tampa News reported this week that KB Home used one supervisor to oversee 50-60 homes sites. WTSP is asking - where is the attorney general.

In Lathrop, California, KB Home built houses that have huge cracks in the floor slabs and I'm told the walls are separating in some homes. People who know concrete have said the houses need massive repairs or to be torn down. News videos can be seen on my website. Where are the building departments in Florida and California that allow this type of construction to occur? And why don't the states take responsibility before more lives are lost? Why are owners forced into bankruptcy over a house they bought in good faith? And why do states keep licensing builders with track records like KB Home? It is miraculous no one died or was hurt in Florida when the balconies collapsed (pictures on my website).

North Carolina has a class lawsuit for water intrusion (approximately 600 homes). Texas is demolishing houses built by KB Home. They were called sub-standard construction. The city of San Antonio litigated for a decade. That is the way KB Home does business. The Los Angeles BBB pulled their accreditation, and originally gave an "F" rating. I made screen shots of the BBB's 80+- complaints which I can't post. Complaints are now removed by the Los Angeles BBB. Consumer Affairs lists approximately 178 negative complaints against KB Home.

KB Home is headquartered in California and is building like gangbusters there. I am contacting you because they are currently in your county/city building homes. I don't know which building plans KB Home is using now in California, but some of the models look similar to those in Florida. My own Florida building plans are stamped California. KB Home re-purposes their plans in different locations. The same plans were used in Palm River (failed walls) as were used in Willowbrook (collapsing balconies). Those complexes alone represent almost 700 homes. KB Home is building today (71 subdivisions) in California – and built in the past (where and when unknown to me). In the last boom, the mayor of Scotts Valley, Santa Cruz County had this to say about KB Home. "Their reputation precedes them and we are not real happy with their reputation. They built homes in Scotts Valley before, and we had a ton of problems with them. "(Silicon Valley Business Journal, 2006) (On my website).

KB Home is building multi-story condos in earthquake zones in California. They are building condos and houses with balconies statewide, and if Florida is any indicator of future construction (or past in California), I think that the building departments, local government, and state regulators would want to monitor their construction closely. Even while under investigation in Florida, KB Home fixed houses without flashing, applied only one coat of stucco, and refused to repair strapping.

KB Home has a track record of quality problems and failure to honor warranties going back thirty years, and failing to honor warranties. The FTC had a standing order against them for decades. The issues I speak of are serious. Some are even more serious than the dry rot that damaged the balcony in Berkeley and could be catastrophic in a hurricane or earthquake. In addition, the stucco application could cause more houses to literally collapse in time. If you would like any private documents to back up my claims please contact me. You can view my website listed above for pictures and lawsuits and news coverage – some of it in your own state. So far, Florida has taken little action and media is starting to question our attorney general's political motivations. I think California has strong motivation to not let a tragic accident happen again.

Sincerely,

Abby Dozier

Subject: June 18, Case No. 2013.0677CUA

Dear Planning Commissioners, Zoning Administrator Sanchez, Planner Sucre, Mayor Lee, and Supervisors:

I urge you to read this amazing immigrant story and think of it when you're considering immigration reform:

My name is David and this is my story.

I am an immigrant from Mexico who first came to the US to get an education and learn English at an early age. From the age of 3, preschool through the 3rd grade of elementary school, my parents drove my bothers and I back and forth the Tijuana/San Diego border. That's every day (mon-fri) for 5 years. Then I went to school in Tijuana, Mexico from 4th -10th grade in order to be well rounded and get some schooling in Mexico as well. I learned to properly read and write in Spanish, Mexican History, Government and all the same classes one would take in the US, but focused on Mexico. I came back to school in the US to finish my high school studies my junior year; and in 2000 I moved from Tijuana to San Diego to start my college career at the University of San Diego. Since graduating with a BA in Accounting in 2004 have worked at a local accounting firm in San Diego, Sony Electronics in San Diego, Sony Music in New York and PlayStation in Foster City, CA. Along the way I managed to obtain my CPA license and I now work as a Compliance Analyst at Apple, Inc. in Cupertino.

Although I've been living in the US for 15 years, first as a student and now in the labor force, I have always been on a temporary visa, which does not grant me permanent residence. I urge you to focus on immigration reform to fix the broken system and provide for long time employees like myself, an easier path to permanent residence which does not hinder on employer sponsorship because at this point, that is the only thing between me and a green card. I would either have to get sponsorship from my employer, or get married to a US citizen or permanent resident. Neither of which are eminent.

With the current immigration laws, if I leave my employer or get fired, my work visa would be terminated and I would be required to leave the country in a very short amount of time even though my siblings and one remaining parent all live in the US, I've lived in the US for 15 years and all of my friends and family reside in the US.

The current immigration laws do not provide for a solution for me to apply for a green card on my own merits, such as having received a high school and college education in the US, and working 10+ years in the US. and my employers so far have been reluctant to sponsor my green card.

Best,
David Alvarez

So excited to see the new lower Dolores Park. Beautiful. But just after two weeks it is already turning yellow and dying. Over heard the Head maintenance guy tell someone he thought the homeless were breaking the sprinkles and they don't have a map of the pipes to be able to fix it. Meanwhile a slow death. Unbelievable 3X we have redone this section and already it is working!!! Help before it dies....Lori

Board Members:

We are sure by now you realize the backlash of the city supporting illegal aliens and the anchor babies thrust upon us. Of course the worst decision had been to not notify ICE of dangerous illegal alien criminals released from jail. This has led to the death of the 32 year old women a tragic event, magnified by the cities love of illegals over the protection of us the real citizens.

We hope that the family sues the city for its illegal alien loving policies. We now vote against all local and state bonds as schools, hospitals, public housing, lunch programs any and all that they utilize.

Its decisions by the city that causes actions like these, its not just one person or two many at our HOA meeting said they will do the same. Sanctuary of rapists, murders, drug dealers, smugglers for the cheap labor offered.

We will make sure they never assimilate into this country... We will try to dissuade any potential tourism to the city through blogs..

To members of the SF Board of Supervisors:

For those of you who support San Francisco's sanctuary city status please stand up and own the tragic shooting of Ms. Steinle (32 years old). It's 100% on every single one of you.

You're childish belief in a land of rainbows and unicorns has real world consequences and this weekend's tragic shooting death of a young woman is just one sad example.

It's yours, own it.

Sincerely,
Drew O'Neill

Dear City of San Francisco:

You are a beautiful city. I grew up in Marin County and lived for 34 years in the East Bay. San Francisco was always the largest diamond in the beautiful East Bay Tiara. And, though for many, many years since I've lived in Southern California, San Francisco was still "Home" and one of the best places in the world to visit.

No longer.

I will never again set foot in your city, not even to transfer planes or begin a cruise. That a beautiful, innocent young woman was deprived of life this week because your city didn't protect her from a criminal - which easily could have been accomplished in this case by turning over to Federal authorities an illegal douche bag - someone the great City thought worth protecting.

The City of San Francisco will remain physically beautiful - as God given, but the City's heart is manipulated by fools and miscreants. I leave The City to you.

Dear Supervisors

Thank you for your service to the City.

I am a resident of the Gateway apartments just across the street from where Miss Kathryn Steinle was tragically murdered while walking with her father along our wonderful waterfront. The main suspect has been reportedly arrested many times and was in the country illegally. He should have been turned over to ICE upon his release but for some inexplicable reason San Francisco refuses to follow that directive. Sanctuary City? What about sanctuary the Steinle family? Please change this law now.

Subject: San Francisco's Confederate Flag: these Sanctuary Laws

A letter of civic outrage directed against myopic city officials currently in office and to inform local media of voter indignation concerning the death of a young woman traced back to sanctuary laws.

To Mayor Lee and all members of the Board of Supervisors who have conveniently used the Fourth of July weekend holiday to avoid commentary to the press and public - you can't stay mute or say "no comment" forever.

Congratulations on placing the MARK OF CAIN for San Francisco tourism when my city became front and center on the national news due Ms. Steinle's death on a criminal who could have been deported by the federal government.

Time to get rid of these idiotic sanctuary laws that have killed innocent people in SF. My city is becoming a magnet for criminal elements who know of sanctuary laws (and if they didn't know before, these criminals do now due to NATIONAL media coverage).

And don't be defending City policy by stating all the feds had to do was issue a bench warrant/subpoena - these legal semantic splitting-of-hairs are costing lives.

Though recent news have uncovered "rogue" cops, police departments all over the United States do take their jobs seriously to "protect and serve". But it appears the San Francisco Mayor's office and the Board of Supervisors wish to "protect and serve" criminal illegal immigrants. This recent incident only re-reinforces the outrageous claims of presidential candidate Donald Trump that "all Mexicans are rapists and murderers" and now it looks like the officials of San Francisco government WANT to protect such people within city borders.

Recently, a tragedy in the Deep South has led to the removal of the Confederate flag in various civic/state agencies to ban a symbol of division and racial hatred to the museum. Just as the Confederate flag has been appropriated by disturbed minds as a rationale to commit crimes, so too do these sanctuary laws are a convenient "crutch" for illegal activity.

The South is waking up to the injustice of what the Confederate flag represents - San Franciscan officials need to look at what harm the sanctuary laws represent. The South used to defend the Confederate flag as a symbol of political defiance to the Union (federal) government - but now that argument, 150 years after the Civil War, is increasingly hollow. So, too, is San Francisco's rationale of political defiance of PROTECTING CRIMINAL elements of illegal immigrants via these sanctuary laws.

Though the memory of the typical American voter is notoriously short, both the media and any political opponents will be more than willing to remind the public at election time about any current office holders' defense on sanctuary laws and how they serve illegal criminals well while putting law-abiding SF taxpayers in harm's way. Personally, I wish that the

SF Examiner had a hard-hitting, tenacious Sam Donaldson-type of political commentator in their press room to go with hard-hitting, tenacious sports commentator Jay Mariotti - would make for a great lightning-rod of reading/discussion for voters.

I have held my tongue in this letter, but do not mistake verbal civility for polite compliance for the status quo. For every letter that a citizen took the time to write to you, there are anywhere from 5 to 10 times that number of like-minded citizens who have the same opinion but did not have the time/inclination to write. While you elected officials, entrusted to safeguard the City, were enjoying the weekend's Independence Day festivities, the Steinle family has to plan for a funeral – all because The City, like the Deep South's reverence for the Confederate flag over Old Glory, has a petulant attitude toward federal laws.

Cliff Culpeper - registered SF voter since 1978.

Subject: Sanctuary Policy

Dear San Francisco Board of Supervisors,

I am very concerned that San Francisco is a sanctuary city. Our liberal attitude toward the homeless problem is bad enough. Now, our city as a safehouse area to illegal immigrants who are felons, drug dealers and pedophiles is no longer acceptable, especially after the recent senseless shooting at Pier 14.

I support legal immigration, similar to the orderly path that my family took. I do not support our stance in being a sanctuary city. I am a SF taxpayer for such policy under duress.

The national news coverage telling everyone watching that SF is a sanctuary city will only attract more of such individuals to come into our city, stressing the public and nonprofit budgets to support these unproductive individuals and jeopardizing the public safety of citizens and tourists. This negative news and more of similar in the future is not good for the city's tourist economy. NYC's tourist economy did not recover until they took care of their crime problem.

We cannot afford to be so liberal. We can be compassionate, where we treat these illegal immigrants in a respectful manner (shelter, food, medical) when captured by SFPD or Sherrif office, but we need to turn them over to Federal agencies.

There have been so much progress made by the Board that positively supports the well-being of San Francisco but this is not one of them.

Regards,

Susan Au

Subject: FW: You killed the woman on the Embarcadero

From: Paul [mailto:pnisbett@hotmail.com]
Sent: Sunday, July 05, 2015 2:58 PM
To: Board of Supervisors, (BOS); Lee, Mayor (MYR)
Subject: You killed the woman on the Embarcadero

Supervisors / Mayor,

It is time for you to look long and hard at your culpability in crimes being committed in SF.

I was sickened by the story last week of woman who got murdered on the Embarcadero.

The murderer was already being deported. The guy was already in Immigration custody. They turned him over to sfpd on a marijuana warrant. Gascone's office then orders him free and he shoots this random woman. At that point, he shouldn't have even been in the country yet alone the city.

Why SFPD would request a guy who is already in custody and being deported on a marijuana warrant to be handed over to them is beyond me.

From her family's standpoint, it must be beyond senseless. If the system worked ,their daughter would be alive.

This happened a couple years ago with those gang members from El Salvador shooting at a family on the freeway . A father was murdered by people who were shielded by SF city government. SF city government has a history of shielding foreign criminals. As far as I am concerned the board of supervisors are responsible for that woman's death.

For me the question is at what point should border controls for any country get enforced. If I'm a broke American,should I be allowed to move to Sweden because they have better social care than here or perhaps Switzerland because it is really nice ?

Shame on all of you .

-Paul Nisbett
