Re: FUSE Corp Executive Fellow – STEM Talent Pathway Program

Dear Mr. Weinberg:

The City and County of San Francisco, Department of Human Resources is pleased to submit this grant application for a Fellow to help develop the STEM Talent Paythway program cycle that will begin in the Fall of 2015.

This grant would allow for a Fellow to help make San Francisco a national example for preparing students for STEM careers. The Fellow will work to integrate a variety of related efforts across schools, partners and various age groups of students into a more connected "pathway" approach that articulates and pursues strategic goals for students throughout the City. This will include leveraging existing private-sector partnerships to invest in building the math and computer science skills necessary to compete for STEM careers.

We are excited about the opportunity to develop a plan for how best to advocate at the state level for policies and resources that can address crucial barriers to the integration of digital learning into all common core subjects and the implementation of the K-12 computer science curriculum that is being developed by the STEM team.

If you have any questions regarding our application, please contact myself at 415-557-4944 or Donna Kotake at 415-557-4912. Thank you for your consideration of our application. We look forward to hearing from you.

Sincerely,
