Dear President Breed and Board of Supervisors,

It was our intent to submit a brief with the information provided by the City on Monday, September 21, 2015 - however - there are 56 documents, as well as a multitude of errors that must be reconciled prior to this submission. Additionally, DPW submitted a memo with erroneous information as well, supporting no continuance.

In efforts to submit a comprehensive package, we will need to work through the weekend and submit to the Board of the Clerk by [Monday at noon](#). We realize that the more time you have to review, the better it is for the City.

We appreciate your patience with this matter.

Sincerely,
PmAC
