Contractor shall indemnify and save harmless City and its officers, agents and employees from, and, if requested, shall defend them against any and all loss, cost, damage, injury, liability, and claims thereof for injury to or death of a person, or loss of or damage to property, resulting directly or indirectly from contractor's performance of this contract, regardless of the negligence of, and regardless of whether liability without fault is imposed or sought to be imposed on City, except to the extent that such indemnify is void or otherwise unenforceable under applicable law and except where such loss, damage, injury, liability or claim is the result of willful misconduct of City and is not contributed to by any act of, or by any omission to perform some duty imposed by law or agreement on contractor, its subcontractors or either's agent or employee. The foregoing indemnity shall include, without limitation, reasonable fees of attorneys, consultants and experts and related costs and City's costs of investigating any claims against the City. In addition to Contractor's obligation to indemnify City, Contractor specifically acknowledges and agrees that it has an immediate and independent obligation to defend City from any claim which actually or potentially falls within this indemnification provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Contractor by City and continues at all times thereafter. Contractor shall indemnify and hold City harmless from all loss and liability, including attorney's fees, court costs and all other litigation expenses for any infringement of the patent rights, copyright, trade secret or any other proprietary right or trademark of any person or persons in consequence of the use by City, or any of its officers or agents, of articles or services to the supplied in the performance of this contract.
- 9. Provisions Controlling. Contractor agrees that in the event of conflicting language between this contract and Contractor's printed form, the provisions of this contract shall take precedence. This section shall supersede any language in the contractor's terms and conditions attempting to nullify City terms and conditions or to resolve language conflicts in favor of the contractor's terms and conditions.
- 10. Waiver. The waiver by either party of any breach by contractor of any term, covenant or conditions hereof shall not operate as a waiver of any subsequent breach of the same or any other term, covenant or condition hereof.
- 11. Termination and Termination for Convenience. In the event Contractor fails to perform any of its obligations under this contract, in addition to any other remedies available to City, this contract may be terminated and all of Contractor's rights hereunder ended. Termination will be effective after ten days' written notice to Contractor. No new work will be undertaken, and no new deliveries will be made, after the date of receipt of any notice of termination, or five days after the date of the notice, whichever is earlier. In the event of such termination, Contractor will be paid for those services performed, or deliveries made, under this contract to the satisfaction of the City, up to the date of termination. However, City may offset from any such amounts due Contractor any liquidated damages or other costs City has or will incur due to Contractor's nonperformance. Any such offset by City will not constitute a waiver of any other remedies City may have against Contractor for financial injury or otherwise. City may terminate this Contract for City's convenience and without cause at any time by giving Contractor thirly days' written notice of such termination. In the event of such termination, Contractor will be paid for those services performed, or deliveries made, pursuant to this contract, to the satisfaction of the City up to the date of termination. In no event will City be liable for costs inclured by Contractor after receipt of a notice of termination. Such nonrecoverable costs include, but are not limited to, anticipated profits on this contract, post-termination administrative expenses, or any other cost which is not reasonable or authorized under this section. This section shall not prevent

Contractor from recovering costs necessarily incurred in discontinuing further work, or canceling further deliveries, under the contract after receipt of the termination notice.

B. Terms Required by City Ordinances

- 12. Minimum Compensation Ordinance ("MCO") Service Contracts only. Chapter 12.P of the S.F. Admin. In addition to any other MCO provisions that may be applicable to Contractor, Contractor agrees to abide by the following terms:
- (a) For each hour worked by a Covered Employee during a Pay Period on work funded under the City contract during the term of this contract, Contractor shall provide to the Covered Employee no less than the Minimum Compensation.

- (c) If, within 30 days after receiving written notice of a breach of this contract for violating the MCO Contractor fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, Contractor fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion, the City, acting through its Department of Purchasing, shall have the right to pursue any rights or remedies available under the terms of this contract, Chapter 12.P or other applicable law.
- (d) Contractor shall not discharge, reduce in compensation, or otherwise discriminate against any employee for complaining to the City with regard to Contractor's compliance or anticipated compliance with the requirements of the MCO, for opposing any practice proscribed by the MCO, for participating in proceedings related to the MCO, or for seeking to assert or enforce any rights under the MCO by any lawful means.

- (f) Contractor shall keep itself informed of the current requirements of the MCO, including increases to the hourly gross compensation due Covered Employees under the MCO, and shall provide prompt written notice to all Covered Employees of any increases in compensation, as well as any written communications received by the Contractor from the City, which communications are marked to indicate that they are to be distributed to Covered Employees.
- (g) Contractor shall provide reports to the City in accordance with any reporting standards promulgated by the City under the MCO.
- (h) The Contractor shall provide the City with access to pertinent records after receiving a written request from the City to do so and being provided at least five business days to respond.

Nothing in this contract is intended to preclude the City from investigating any report of an alleged violation of the requirements of this contract relating to the MCO.
- (j) Any Contractor subject to the provisions of this Chapter shall promptly notify the City of any subcontractors performing services covered by this Chapter and shall certify to the City that it has notified the subcontractors of their obligations under this Chapter.
- (k) Each Covered Employee is a third-party beneficiary with respect to the requirements of subsections (a) and (b) of this Section, and may pursue all lawful remedies in the event of a breach by Contractor of subsections (a) and (b).
- (I) If Contractor is exempt from the MCO when this contract is executed because the cumulative amount of contracts with this department for the fiscal year is less than \$25,000 (\$50,000 for nonprofits), but Contractor later enters into a contract or contracts that cause contractor to exceed that amount in a fiscal year, Contractor shall thereafter be required to comply with the MCO under this contract. This obligation arises on the effective date of the contract that causes the cumulative amount of contracts between the Contractor and this department to exceed \$25,000 (\$50,000 for nonprofits) in the fiscal year.
- 13. Health Care Accountability Ordinance (HCAO) Service contracts lasting 1 year or more only. Chapter 12Q of the S.F. Admin. WHEREAS, the Department of Public Health. Population Health and Prevention, Community Health Services, ("Department") wishes to provide residential mental health & substance abuse treatment services for men and women; and,

WHEREAS, a Request for Proposal ("RFP") was issued on 09/25/2009, and City selected Contractor as the highest qualified scorer pursuant to the RFP; and

WHEREAS. Contractor represents and warrants that it is qualified to perform the services required by City as set forth under this Contract; and.

WHEREAS, approval for this Agreement was obtained when the Civil Service Commission approved Contract numbers 4154-09/10 on 09/25/2009;

Now, THEREFORE, the parties agree as follows:

1. Certification of Funds; Budget and Fiscal Provisions; Termination in the Event of Non-Appropriation. This Agreement is subject to the budget and fiscal provisions of the City's Charter. Charges will accrue only after prior written authorization certified by the Controller, and the amount of City's obligation hereunder shall not at any time exceed the amount certified for the purpose and period stated in such advance authorization. This Agreement will terminate without penalty, liability or expense of any kind to City at the end of any fiscal year if funds are not appropriated for the next succeeding fiscal year. If funds are appropriated for a portion of the fiscal year, this Agreement will terminate, without penalty, liability or expense of any kind at the end of the term for which funds are appropriated. City has no obligation to make appropriations for this Agreement in lieu of appropriations for new or other agreements. City budget decisions are subject to the discretion of the Mayor and the Board of Supervisors. Contractor's assumption of risk of possible non-appropriation is part of the consideration for this Agreement.

THIS SECTION CONTROLS AGAINST ANY AND ALL OTHER PROVISIONS OF THIS AGREEMENT.

- 2. Term of the Agreement. Subject to Section 1, the term of this Agreement shall be from July 1, 2010 to. December 31, 2015.
- 3. Effective Date of Agreement. This Agreement shall become effective when the Controller has certified to the availability of funds and Contractor has been notified in writing.

- 4. Services Contractor Agrees to Perform. The Contractor agrees to perform the services provided for in Appendix A, "Description of Services," attached hereto and incorporated by reference as though fully set forth herein.
- 5. Compensation. Compensation shall be made in monthly payments on or before the 1st day of each month for work, as set forth in Section 4 of this Agreement, that the Director of the Department of Public Health, in his or her sole discretion, concludes has been performed as of the 1st day of the immediately preceding month. In no event shall the amount of this Agreement exceed Twelve Million Four Hundred Sixty Four Thousand Seven Hundred Fourteen Dollars (\$12,464,714). The breakdown of costs associated with this Agreement appears in Appendix B, "Calculation of Charges," attached hereto and incorporated by reference as though fully set forth herein. No charges shall be incurred under this Agreement nor shall any payments become due to Contractor until reports, services, or both, required under this Agreement are received from Contractor and approved by Department of Public Health as being in accordance with this Agreement. City may withhold payment to Contractor in any instance in which Contractor has failed or refused to satisfy any material obligation provided for under this Agreement. In no event shall City be liable for interest or late charges for any late payments.
- 6. Guaranteed Maximum Costs. The City's obligation hereunder shall not at any time exceed the amount certified by the Controller for the purpose and period stated in such certification. Except as may be provided by laws governing emergency procedures, officers and employees of the City are not authorized to request, and the City is not required to reimburse the Contractor for, Commodities or Services beyond the agreed upon contract scope unless the changed scope is authorized by amendment and approved as required by law. Officers and employees of the City are not authorized to offer or promise, nor is the City required to honor, any offered or promised additional funding in excess of the maximum amount of funding for which the contract is certified without certification of the additional amount by the Controller. The Controller is not authorized to make payments on any contract for which funds have not been certified as available in the budget or by supplemental appropriation.
- 7. Payment; Invoice Format. Invoices furnished by Contractor under this Agreement must be in a form acceptable to the Controller, and must include a unique invoice number and must conform to Appendix F. All amounts paid by City to Contractor shall be subject to audit by City. Payment shall be made by City to Contractor at the address specified in the section entitled "Notices to the Parties."
- 8. Submitting False Claims; Monetary Penalties. Pursuant to San Francisco Administrative Code §21.35, any contractor, subcontractor or consultant who submits a false claim shall be liable to the City for the statutory penalties set forth in that section. The text of Section 21.35, along with the entire San Francisco Administrative Code is available on the web at http://www.municode.com/Library/clientCodePage.aspx?clientID=4201. A contractor, subcontractor or consultant will be deemed to have submitted a false claim to the City if the contractor, subcontractor or consultant: (a) knowingly presents or causes to be presented to an officer or employee of the City a false claim or request for payment or approval; (b) knowingly makes, uses, or causes to be made or used a false record or statement to get a false claim paid or approved by the City; (c) conspires to defraud the City by getting a false claim allowed or paid by the City; (d) knowingly makes, uses, or causes to be made or used a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the City; or (e) is a beneficiary of an inadvertent submission of a false claim to the City, subsequently discovers the falsity of the claim, and fails to disclose the false claim to the City within a reasonable time after discovery of the false claim.
- 9. **Disallowance.** If Contractor claims or receives payment from City for a service, reimbursement for which is later disallowed by the State of California or United States Government, Contractor shall promptly refund the disallowed amount to City upon City's request. At its option, City may offset the amount disallowed from any payment due or to become due to Contractor under this Agreement or any other Agreement. By executing this Agreement, Contractor certifies that Contractor is not suspended, debarred or otherwise excluded from participation in federal assistance programs. Contractor acknowledges that this certification of eligibility to receive federal funds is a material terms of the Agreement.
- 10. Taxes. Payment of any taxes, including possessory interest taxes and California sales and use taxes, levied upon or as a result of this Agreement, or the services delivered pursuant hereto, shall be the obligation of Contractor. Contractor recognizes and understands that this Agreement may create a "possessory interest" for property tax purposes. Generally, such a possessory interest is not created unless the Agreement entitles the Contractor to

possession, occupancy, or use of City property for private gain. If such a possessory interest is created, then the following shall apply:

- 1) Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that Contractor, and any permitted successors and assigns, may be subject to real property tax assessments on the possessory interest;
- 2) Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that the creation, extension, renewal, or assignment of this Agreement may result in a "change in ownership" for purposes of real property taxes, and therefore may result in a revaluation of any possessory interest created by this Agreement. Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report on behalf of the City to the County Assessor the information required by Revenue and Taxation Code section 480.5, as amended from time to time, and any successor provision.
- Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that other events also may cause a change of ownership of the possessory interest and result in the revaluation of the possessory interest, (see, e.g., Rev. & Tax. Code section 64, as amended from time to time). Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report any change in ownership to the County Assessor, the State Board of Equalization or other public agency as required by law.
- 4) Contractor further agrees to provide such other information as may be requested by the City to enable the City to comply with any reporting requirements for possessory interests that are imposed by applicable law.
- 11. Payment Does Not Imply Acceptance of Work. The granting of any payment by City, or the receipt thereof by Contractor, shall in no way lessen the liability of Contractor to replace unsatisfactory work, equipment, or materials, although the unsatisfactory character of such work, equipment or materials may not have been apparent or detected at the time such payment was made. Materials, equipment, components, or workmanship that do not conform to the requirements of this Agreement may be rejected by City and in such case must be replaced by Contractor without delay.
- 12. Qualified Personnel. Work under this Agreement shall be performed only by competent personnel under the supervision of and in the employment of Contractor. Contractor will comply with City's reasonable requests regarding assignment of personnel, but all personnel, including those assigned at City's request, must be supervised by Contractor. Contractor shall commit adequate resources to complete the project within the project schedule specified in this Agreement.
- 13. Responsibility for Equipment. City shall not be responsible for any damage to persons or property as a result of the use, misuse or failure of any equipment used by Contractor, or by any of its employees, even though such equipment be furnished, rented or loaned to Contractor by City.

14. Independent Contractor; Payment of Taxes and Other Expenses

a. Independent Contractor. Contractor or any agent or employee of Contractor shall be deemed at all times to be an independent contractor and is wholly responsible for the manner in which it performs the services and work requested by City under this Agreement. Contractor or any agent or employee of Contractor shall not have employee status with City, nor be entitled to participate in any plans, arrangements, or distributions by City pertaining to or in connection with any retirement, health or other benefits that City may offer its employees. Contractor or any agent or employee of Contractor is liable for the acts and omissions of itself, its employees and its agents. Contractor shall be responsible for all obligations and payments, whether imposed by federal, state or local law, including, but not limited to, FICA, income tax withholdings, unemployment compensation, insurance, and other similar responsibilities related to Contractor's performing services and work, or any agent or employee of Contractor providing same. Nothing in this Agreement shall be construed as creating an employment or agency relationship between City and Contractor or any agent or employee of Contractor. Any terms in this Agreement referring to direction from City shall be construed as providing for direction as to policy and the result of

Contractor's work only, and not as to the means by which such a result is obtained. City does not retain the right to control the means or the method by which Contractor performs work under this Agreement.

Payment of Taxes and Other Expenses. Should City, in its discretion, or a relevant taxing authority such as the Internal Revenue Service or the State Employment Development Division, or both, determine that Contractor is an employee for purposes of collection of any employment taxes, the amounts payable under this Agreement shall be reduced by amounts equal to both the employee and employer portions of the tax due (and offsetting any credits for amounts already paid by Contractor which can be applied against this liability). City shall then forward those amounts to the relevant taxing authority. Should a relevant taxing authority determine a liability for past services performed by Contractor for City, upon notification of such fact by City, Contractor shall promptly remit such amount due or arrange with City to have the amount due withheld from future payments to Contractor under this Agreement (again, offsetting any amounts already paid by Contractor which can be applied as a credit against such liability). A determination of employment status pursuant to the preceding two paragraphs shall be solely for the purposes of the particular tax in question, and for all other purposes of this Agreement. Contractor shall not be considered an employee of City. Notwithstanding the foregoing, should any court, arbitrator, or administrative authority determine that Contractor is an employee for any other purpose, then Contractor agrees to a reduction in City's financial liability so that City's total expenses under this Agreement are not greater than they would have been had the court, arbitrator, or administrative authority determined that Contractor was not an employee.

15. Insurance

- a. Without in any way limiting Contractor's liability pursuant to the "Indemnification" section of this Agreement, Contractor must maintain in force, during the full term of the Agreement, insurance in the following amounts and coverages:
- 1) Workers' Compensation, in statutory amounts, with Employers' Liability Limits not less than \$1,000,000 each accident, injury, or illness; and
- 2) Commercial General Liability Insurance with limits not less than \$1,000,000 each occurrence Combined Single Limit for Bodily Injury and Property Damage, including Contractual Liability, Personal Injury, Products and Completed Operations; and
- 3) Commercial Automobile Liability Insurance with limits not less than \$1,000,000 each occurrence Combined Single Limit for Bodily Injury and Property Damage, including Owned, Non-Owned and Hired auto coverage, as applicable.
 - 4) Blanket Fidelity Bond (Commercial Blanket Bond): Limits in the amount of the Initial Payment provided for in the Agreement
- 5) Professional liability insurance, applicable to Contractor's profession, with limits not less than \$1,000,000 each claim with respect to negligent acts, errors or omissions in connection with professional services to be provided under this Agreement.
- b. Commercial General Liability and Commercial Automobile Liability Insurance policies must be endorsed to provide:
- 1) Name as Additional Insured the City and County of San Francisco, its Officers, Agents, and Employees.
- 2) That such policies are primary insurance to any other insurance available to the Additional Insureds, with respect to any claims arising out of this Agreement, and that insurance applies separately to each insured against whom claim is made or suit is brought.
- c. Regarding Workers' Compensation, Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss. Contractor agrees to obtain any

endorsement that may be necessary to effect this waiver of subrogation. The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of the City for all work performed by the Contractor, its employees, agents and subcontractors.

- d. All policies shall provide thirty days' advance written notice to the City of reduction or nonrenewal of coverages or cancellation of coverages for any reason. Notices shall be sent to the City address in the "Notices to the Parties" section:
- e. (2) a candidate for the office held by such individual, or (3) a committee controlled by such individual, at any time from the commencement of negotiations for the contract until the later of either the termination of negotiations for such contract or six months after the date the contract is approved. Contractor acknowledges that the foregoing restriction applies only if the contract or a combination or series of contracts approved by the same individual or board in a fiscal year have a total anticipated or actual value of \$50,000 or more. Contractor further acknowledges that the prohibition on contributions applies to each prospective party to the contract; each member of Contractor's board of directors; Contractor's chairperson, chief executive officer, chief financial officer and chief operating officer; any person with an ownership interest of more than 20 percent in Contractor; any subcontractor listed in the bid or contract; and any committee that is sponsored or controlled by Contractor. Additionally, Contractor acknowledges that Contractor must inform each of the persons described in the preceding sentence of the prohibitions contained in Section 1.126. Contractor further agrees to provide to City the names of each person, entity or committee described above.

43. Requiring Minimum Compensation for Covered Employees

a. Contractor agrees to comply fully with and be bound by all of the provisions of the Minimum Compensation Ordinance (MCO), as set forth in San Francisco Administrative Code Chapter 12P (Chapter 12P), including the remedies provided, and implementing guidelines and rules. The provisions of Sections 12P.5 and 12P.5.1 of Chapter 12P are incorporated herein by reference and made a part of this Agreement as though fully set forth. The text of the MCO is available on the web at www.sfgov.org/olse/mco. A partial listing of some of Contractor's obligations under the MCO is set forth in this Section. Contractor is required to comply with all the provisions of the MCO, irrespective of the listing of obligations in this Section.

- b. The MCO requires Contractor to pay Contractor's employees a minimum hourly gross compensation wage rate and to provide minimum compensated and uncompensated time off. The minimum wage rate may change from year to year and Contractor is obligated to keep informed of the then-current requirements. Any subcontract entered into by Contractor shall require the subcontractor to comply with the requirements of the MCO and shall contain contractual obligations substantially the same as those set forth in this Section. It is Contractor's obligation to ensure that any subcontractors of any tier under this Agreement comply with the requirements of the MCO. If any subcontractor under this Agreement fails to comply, City may pursue any of the remedies set forth in this Section against Contractor.
- c. Contractor shall not take adverse action or otherwise discriminate against an employee or other person for the exercise or attempted exercise of rights under the MCO. Such actions, if taken within 90 days of the exercise or attempted exercise of such rights, will be rebuttably presumed to be retaliation prohibited by the MCO.
- d. Contractor shall maintain employee and payroll records as required by the MCO. If Contractor fails to do so, it shall be presumed that the Contractor paid no more than the minimum wage required under State law.
- e. The City is authorized to inspect Contractor's job sites and conduct interviews with employees and conduct audits of Contractor
- f. Contractor's commitment to provide the Minimum Compensation is a material element of the City's consideration for this Agreement. The City in its sole discretion shall determine whether such a breach has occurred. The City and the public will suffer actual damage that will be impractical or extremely difficult to determine if the Contractor fails to comply with these requirements. Contractor agrees that the sums set forth in Section 12P.6.1 of the MCO as liquidated damages are not a penalty, but are reasonable estimates of the loss that the City and the public will incur for Contractor's noncompliance. The procedures governing the assessment of liquidated damages shall be those set forth in Section 12P.6.2 of Chapter 12P.
- g. Contractor understands and agrees that if it fails to comply with the requirements of the MCO, the City shall have the right to pursue any rights or remedies available under Chapter 12P (including liquidated damages), under the terms of the contract, and under applicable law. If, within 30 days after receiving written notice of a breach of this Agreement for violating the MCO, Contractor fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, Contractor fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion, the City shall have the right to pursue any rights or remedies available under applicable law, including those set forth in Section 12P.6(c) of Chapter 12P. Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to the City.
- h. Contractor represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the MCO.
- i. If Contractor is exempt from the MCO when this Agreement is executed because the cumulative amount of agreements with this department for the fiscal year is less than \$25,000, but Contractor later enters into an agreement or agreements that cause contractor to exceed that amount in a fiscal year, Contractor shall thereafter be required to comply with the MCO under this Agreement. This obligation arises on the effective date of the agreement that causes the cumulative amount of agreements between the Contractor and this department to exceed \$25,000 in the fiscal year.
- 44. Requiring Health Benefits for Covered Employees. Contractor agrees to comply fully with and be bound by all of the provisions of the Health Care Accountability Ordinance (HCAO), as set forth in San Francisco Administrative Code Chapter 12Q, including the remedies provided, and implementing regulations, as the same may be amended from time to time. The provisions of section 12Q.5.1 of Chapter 12Q are incorporated by reference and made a part of this Agreement as though fully set forth herein. The text of the HCAO is available on the web at www.sfgov.org/olse. Capitalized terms used in this Section and not defined in this Agreement shall have the meanings assigned to such terms in Chapter 12Q.

- a. For each Covered Employee, Contractor shall provide the appropriate health benefit set forth in Section 12Q.3 of the HCAO. If Contractor chooses to offer the health plan option, such health plan shall meet the minimum standards set forth by the San Francisco Health Commission.
- b. Notwithstanding the above, if the Contractor is a small business as defined in Section 12Q.3(e) of the HCAO, it shall have no obligation to comply with part (a) above.
- c. Contractor's failure to comply with the HCAO shall constitute a material breach of this agreement. City shall notify Contractor if such a breach has occurred. If, within 30 days after receiving City's written notice of a breach of this Agreement for violating the HCAO, Contractor fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, Contractor fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion, City shall have the right to pursue the remedies set forth in 12Q.5.1 and 12Q.5(f)(1-6). Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to City.
- d. Any Subcontract entered into by Contractor shall require the Subcontractor to comply with the requirements of the HCAO and shall contain contractual obligations substantially the same as those set forth in this Section. Contractor shall notify City's Office of Contract Administration when it enters into such a Subcontract and shall certify to the Office of Contract Administration that it has notified the Subcontractor of the obligations under the HCAO and has imposed the requirements of the HCAO on Subcontractor through the Subcontract. Each Contractor shall be responsible for its Subcontractors' compliance with this Chapter. If a Subcontractor fails to comply, the City may pursue the remedies set forth in this Section against Contractor based on the Subcontractor's failure to comply, provided that City has first provided Contractor with notice and an opportunity to obtain a cure of the violation.
- e. Contractor shall not discharge, reduce in compensation, or otherwise discriminate against any employee for notifying City with regard to Contractor's noncompliance or anticipated noncompliance with the requirements of the HCAO, for opposing any practice proscribed by the HCAO, for participating in proceedings related to the HCAO, or for seeking to assert or enforce any rights under the HCAO by any lawful means.
- f. Contractor represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the HCAO.
- g. Contractor shall maintain employee and payroll records in compliance with the California Labor Code and Industrial Welfare Commission orders, including the number of hours each employee has worked on the City Contract.
 - h. Contractor shall keep itself informed of the current requirements of the HCAO.
- i. Contractor shall provide reports to the City in accordance with any reporting standards promulgated by the City under the HCAO, including reports on Subcontractors and Subtenants, as applicable.
- j. Contractor shall provide City with access to records pertaining to compliance with HCAO after receiving a written request from City to do so and being provided at least ten business days to respond.
- k. Contractor shall allow City to inspect Contractor's job sites and have access to Contractor's employees in order to monitor and determine compliance with HCAO.
- l. City may conduct random audits of Contractor to ascertain its compliance with HCAO. Contractor agrees to cooperate with City when it conducts such audits.
- m. If Contractor is exempt from the HCAO when this Agreement is executed because its amount is less than \$25,000 (\$50,000 for nonprofits), but Contractor later enters into an agreement or agreements that cause Contractor's aggregate amount of all agreements with City to reach \$75,000, all the agreements shall be thereafter subject to the HCAO. This obligation arises on the effective date of the agreement that causes the cumulative amount of agreements between Contractor and the City to be equal to or greater than \$75,000 in the fiscal year.

45. First Source Hiring Program

- a. Incorporation of Administrative Code Provisions by Reference. The provisions of Chapter 83 of the San Francisco Administrative Code are incorporated in this Section by reference and made a part of this Agreement as though fully set forth herein. Contractor shall comply fully with, and be bound by, all of the provisions that apply to this Agreement under such Chapter, including but not limited to the remedies provided therein. Capitalized terms used in this Section and not defined in this Agreement shall have the meanings assigned to such terms in Chapter 83.
- b. First Source Hiring Agreement. As an essential term of, and consideration for, any contract or property contract with the City, not exempted by the FSHA, the Contractor shall enter into a first source hiring agreement ("agreement") with the City, on or before the effective date of the contract or property contract. Contractors shall also enter into an agreement with the City for any other work that it performs in the City. Such agreement shall:
- 1) Set appropriate hiring and retention goals for entry level positions. The employer shall agree to achieve these hiring and retention goals, or, if unable to achieve these goals, to establish good faith efforts as to its attempts to do so, as set forth in the agreement. The agreement shall take into consideration the employer's participation in existing job training, referral and/or brokerage programs. Within the discretion of the FSHA, subject to appropriate modifications, participation in such programs maybe certified as meeting the requirements of this Chapter. Failure either to achieve the specified goal, or to establish good faith efforts will constitute noncompliance and will subject the employer to the provisions of Section 83.10 of this Chapter.
- 2) Set first source interviewing, recruitment and hiring requirements, which will provide the San Francisco Workforce Development System with the first opportunity to provide qualified economically disadvantaged individuals for consideration for employment for entry level positions. Employers shall consider all applications of qualified economically disadvantaged individuals referred by the System for employment; provided however, if the employer utilizes nondiscriminatory screening criteria, the employer shall have the sole discretion to interview and/or hire individuals referred or certified by the San Francisco Workforce Development System as being qualified economically disadvantaged individuals. The duration of the first source interviewing requirement shall be determined by the FSHA and shall be set forth in each agreement, but shall not exceed 10 days. During that period, the employer may publicize the entry level positions in accordance with the agreement. A need for urgent or temporary hires must be evaluated, and appropriate provisions for such a situation must be made in the agreement.
- 3) Set appropriate requirements for providing notification of available entry level positions to the San Francisco Workforce Development System so that the System may train and refer an adequate pool of qualified economically disadvantaged individuals to participating employers. Notification should include such information as employment needs by occupational title, skills, and/or experience required, the hours required, wage scale and duration of employment, identification of entry level and training positions, identification of English language proficiency requirements, or absence thereof, and the projected schedule and procedures for hiring for each occupation. Employers should provide both long-term job need projections and notice before initiating the interviewing and hiring process. These notification requirements will take into consideration any need to protect the employer's proprietary information.
- 4) Set appropriate record keeping and monitoring requirements. The First Source Hiring Administration shall develop easy-to-use forms and record keeping requirements for documenting compliance with the agreement. To the greatest extent possible, these requirements shall utilize the employer's existing record keeping systems, be nonduplicative, and facilitate a coordinated flow of information and referrals.
- 5) Establish guidelines for employer good faith efforts to comply with the first source hiring requirements of this Chapter. The FSHA will work with City departments to develop employer good faith effort requirements appropriate to the types of contracts and property contracts handled by each department. Employers shall appoint a liaison for dealing with the development and implementation of the employer's agreement. In the event that the FSHA finds that the employer under a City contract or property contract has taken actions primarily for the purpose of circumventing the requirements of this Chapter, that employer shall be subject to the sanctions set forth in Section 83.10 of this Chapter.

- 6) Set the term of the requirements.
- 7) Set appropriate enforcement and sanctioning standards consistent with this Chapter.
- 8) Set forth the City's obligations to develop training programs, job applicant referrals, technical assistance, and information systems that assist the employer in complying with this Chapter.
- 9) Require the developer to include notice of the requirements of this Chapter in leases, subleases, and other occupancy contracts.
- c. **Hiring Decisions.** Contractor shall make the final determination of whether an Economically Disadvantaged Individual referred by the System is "qualified" for the position.
- d. Exceptions. Upon application by Employer, the First Source Hiring Administration may grant an exception to any or all of the requirements of Chapter 83 in any situation where it concludes that compliance with this Chapter would cause economic hardship.
 - e. Liquidated Damages. Contractor agrees:
 - 1) To be liable to the City for liquidated damages as provided in this section;
- 2) To be subject to the procedures governing enforcement of breaches of contracts based on violations of contract provisions required by this Chapter as set forth in this section;
- 3) That the contractor's commitment to comply with this Chapter is a material element of the City's consideration for this contract; that the failure of the contractor to comply with the contract provisions required by this Chapter will cause harm to the City and the public which is significant and substantial but extremely difficult to quantity; that the harm to the City includes not only the financial cost of funding public assistance programs but also the insidious but impossible to quantify harm that this community and its families suffer as a result of unemployment; and that the assessment of liquidated damages of up to \$5,000 for every notice of a new hire for an entry level position improperly withheld by the contractor from the first source hiring process, as determined by the FSHA during its first investigation of a contractor, does not exceed a fair estimate of the financial and other damages that the City suffers as a result of the contractor's failure to comply with its first source referral contractual obligations.
- 4) That the continued failure by a contractor to comply with its first source referral contractual obligations will cause further significant and substantial harm to the City and the public, and that a second assessment of liquidated damages of up to \$10,000 for each entry level position improperly withheld from the FSHA, from the time of the conclusion of the first investigation forward, does not exceed the financial and other damages that the City suffers as a result of the contractor's continued failure to comply with its first source referral contractual obligations;
- 5) That in addition to the cost of investigating alleged violations under this Section, the computation of liquidated damages for purposes of this section is based on the following data:
- (a) The average length of stay on public assistance in San Francisco's County Adult Assistance Program is approximately 41 months at an average monthly grant of \$348 per month, totaling approximately \$14,379; and
- (b) In 2004, the retention rate of adults placed in employment programs funded under the Workforce Investment Act for at least the first six months of employment was 84.4%. Since qualified individuals under the First Source program face far fewer barriers to employment than their counterparts in programs funded by the Workforce Investment Act, it is reasonable to conclude that the average length of employment for an individual whom the First Source Program refers to an employer and who is hired in an entry level position is at least one year:

Therefore, liquidated damages that total \$5,000 for first violations and \$10,000 for subsequent violations as determined by FSHA constitute a fair, reasonable, and conservative attempt to quantify the harm caused to the City by the failure of a contractor to comply with its first source referral contractual obligations.

6) That the failure of contractors to comply with this Chapter, except property contractors, may be subject to the debarment and monetary penalties set forth in Sections 6.80 et seq. of the San Francisco Administrative Code, as well as any other remedies available under the contract or at law; and

Violation of the requirements of Chapter 83 is subject to an assessment of liquidated damages in the amount of \$5,000 for every new hire for an Entry Level Position improperly withheld from the first source hiring process. The assessment of liquidated damages and the evaluation of any defenses or mitigating factors shall be made by the FSHA.

- f. Subcontracts. Any subcontract entered into by Contractor shall require the subcontractor to comply with the requirements of Chapter 83 and shall contain contractual obligations substantially the same as those set forth in this Section.
- 46. Prohibition on Political Activity with City Funds. In accordance with San Francisco Administrative Code Chapter 12.G, Contractor may not participate in, support, or attempt to influence any political campaign for a candidate or for a ballot measure (collectively, "Political Activity") in the performance of the services provided under this Agreement. Contractor agrees to comply with San Francisco Administrative Code Chapter 12.G and any implementing rules and regulations promulgated by the City's Controller. The terms and provisions of Chapter 12.G are incorporated herein by this reference. In the event Contractor violates the provisions of this section, the City may, in addition to any other rights or remedies available hereunder, (i) terminate this Agreement, and (ii) prohibit Contractor from bidding on or receiving any new City contract for a period of two (2) years. The Controller will not consider Contractor's use of profit as a violation of this section.
- 47. Preservative-treated Wood Containing Arsenic. Contractor may not purchase preservative-treated wood products containing arsenic in the performance of this Agreement unless an exemption from the requirements of Chapter 13 of the San Francisco Environment Code is obtained from the Department of the Environment under Section 1304 of the Code. The term "preservative-treated wood containing arsenic" shall mean wood treated with a preservative that contains arsenic, elemental arsenic, or an arsenic copper combination, including, but not limited to, chromated copper arsenate preservative, ammoniacal copper zinc arsenate preservative, or ammoniacal copper arsenate preservative. Contractor may purchase preservative-treated wood products on the list of environmentally preferable alternatives prepared and adopted by the Department of the Environment. This provision does not preclude Contractor from purchasing preservative-treated wood containing arsenic for saltwater immersion. The term "saltwater immersion" shall mean a pressure-treated wood that is used for construction purposes or facilities that are partially or totally immersed in saltwater.
- **48. Modification of Agreement**. This Agreement may not be modified, nor may compliance with any of its terms be waived, except by written instrument executed and approved in the same manner as this Agreement. Contractor shall cooperate with Department to submit to the Director of HRC any amendment, modification, supplement or change order that would result in a cumulative increase of the original amount of this Agreement by more than 20% (HRC Contract Modification Form).
- 49. Administrative Remedy for Agreement Interpretation DELETED BY MUTUAL AGREEMENT OF THE PARTIES
- 50. Agreement Made in California; Venue. The formation, interpretation and performance of this Agreement shall be governed by the laws of the State of California. Venue for all litigation relative to the formation, interpretation and performance of this Agreement shall be in San Francisco.
- 51. Construction. All paragraph captions are for reference only and shall not be considered in construing this Agreement.
- 52. Entire Agreement. This contract sets forth the entire Agreement between the parties, and supersedes all other oral or written provisions. This contract may be modified only as provided in Section 48, "Modification of Agreement."

- 53. Compliance with Laws. Contractor shall keep itself fully informed of the City's Charter, codes, ordinances and regulations of the City and of all state, and federal laws in any manner affecting the performance of this Agreement, and must at all times comply with such local codes, ordinances, and regulations and all applicable laws as they may be amended from time to time.
- 54. Services Provided by Attorneys. Any services to be provided by a law firm or attorney must be reviewed and approved in writing in advance by the City Attorney. No invoices for services provided by law firms or attorneys, including, without limitation, as subcontractors of Contractor, will be paid unless the provider received advance written approval from the City Attorney.
- Supervision of Minors. Contractor, and any subcontractors, shall comply with California Penal Code section 11105.3 and request from the Department of Justice records of all convictions or any arrest pending adjudication involving the offenses specified in Welfare and Institution Code section 15660(a) of any person who applies for employment or volunteer position with Contractor, or any subcontractor, in which he or she would have supervisory or disciplinary power over a minor under his or her care. If Contractor, or any subcontractor, is providing services at a City park, playground, recreational center or beach (separately and collectively, "Recreational Site"), Contractor shall not hire, and shall prevent its subcontractors from hiring, any person for employment or volunteer position to provide those services if that person has been convicted of any offense that was listed in former Penal Code section 11105.3 (h)(1) or 11105.3(h)(3). If Contractor, or any of its subcontractors, hires an employee or volunteer to provide services to minors at any location other than a Recreational Site, and that employee or volunteer has been convicted of an offense specified in Penal Code section 11105.3(c), then Contractor shall comply, and cause its subcontractors to comply with that section and provide written notice to the parents or guardians of any minor who will be supervised or disciplined by the employee or volunteer not less than ten (10) days prior to the day the employee or volunteer begins his or her duties or tasks. Contractor shall provide, or cause its subcontractors to provide City with a copy of any such notice at the same time that it provides notice to any parent or guardian. Contractor shall expressly require any of its subcontractors with supervisory or disciplinary power over a minor to comply with this section of the Agreement as a condition of its contract with the subcontractor. Contractor acknowledges and agrees that failure by Contractor or any of its subcontractors to comply with any provision of this section of the Agreement shall constitute an Event of Default. Contractor further acknowledges and agrees that such Event of Default shall be grounds for the City to terminate the Agreement, partially or in its entirety, to recover from Contractor any amounts paid under this Agreement, and to withhold any future payments to Contractor. The remedies provided in this Section shall not limited any other remedy available to the City hereunder, or in equity or law for an Event of Default, and each remedy may be exercised individually or in combination with any other available remedy. The exercise of any remedy shall not preclude or in any way be deemed to waive any other remedy.
- 56. Severability. Should the application of any provision of this Agreement to any particular facts or circumstances be found by a court of competent jurisdiction to be invalid or unenforceable, then (a) the validity of other provisions of this Agreement shall not be affected or impaired thereby, and (b) such provision shall be enforced to the maximum extent possible so as to effect the intent of the parties and shall be reformed without further action by the parties to the extent necessary to make such provision valid and enforceable.
- 57. Protection of Private Information. Contractor has read and agrees to the terms set forth in San Francisco Administrative Code Sections 12M.2, "Nondisclosure of Private Information," and 12M.3, "Enforcement" of Administrative Code Chapter 12M, "Protection of Private Information," which are incorporated herein as if fully set forth. Contractor agrees that any failure of Contactor to comply with the requirements of Section 12M.2 of this Chapter shall be a material breach of the Contract. In such an event, in addition to any other remedies available to it under equity or law, the City may terminate the Contract bring a false claim action against the Contractor pursuant to Chapter 6 or Chapter 21 of the Administrative Code, or debar the Contractor.
- 58. Graffiti Removal. Graffiti is detrimental to the health, safety and welfare of the community in that it promotes a perception in the community that the laws protecting public and private property can be disregarded with impunity. This perception fosters a sense of disrespect of the law that results in an increase in crime; degrades the community and leads to urban blight; is detrimental to property values, business opportunities and the enjoyment of life; is inconsistent with the City's property maintenance goals and aesthetic standards; and results in additional graffiti and in other properties becoming the target of graffiti unless it is quickly removed from public and private

property. Graffiti results in visual pollution and is a public nuisance. Graffiti must be abated as quickly as possible to avoid detrimental impacts on the City and County and its residents, and to prevent the further spread of graffiti. Contractor shall remove all graffiti from any real property owned or leased by Contractor in the City and County of San Francisco within forty eight (48) hours of the earlier of Contractor's (a) discovery or notification of the graffiti or (b) receipt of notification of the graffiti from the Department of Public Works. This section is not intended to require a Contractor to breach any lease or other agreement that it may have concerning its use of the real property. The term "graffiti" means any inscription, word, figure, marking or design that is affixed, marked, etched, scratched, drawn or painted on any building, structure, fixture or other improvement, whether permanent or temporary, including by way of example only and without limitation, signs, banners, billboards and fencing surrounding construction sites, whether public or private, without the consent of the owner of the property or the owner's authorized agent, and which is visible from the public right-of-way. "Graffiti" shall not include: (1) any sign or banner that is authorized by, and in compliance with, the applicable requirements of the San Francisco Public Works Code, the San Francisco Planning Code or the San Francisco Building Code; or (2) any mural or other painting or marking on the property that is protected as a work of fine art under the California Art Preservation Act (California Civil Code Sections 987 et seq.) or as a work of visual art under the Federal Visual Artists Rights Act of 1990 (17 U.S.C. §§ 101 et seq.).

Any failure of Contractor to comply with this section of this Agreement shall constitute an Event of Default of this Agreement.

- 59. Food Service Waste Reduction Requirements. Effective June 1, 2007 Contractor agrees to comply fully with and be bound by all of the provisions of the Food Service Waste Reduction Ordinance, as set forth in San Francisco Environment Code Chapter 16, including the remedies provided, and implementing guidelines and rules. The provisions of Chapter 16 are incorporated herein by reference and made a part of this Agreement as though fully set forth. This provision is a material term of this Agreement. By entering into this Agreement, Contractor agrees that if it breaches this provision, City will suffer actual damages that will be impractical or extremely difficult to determine; further, Contractor agrees that the sum of one hundred dollars (\$100) liquidated damages for the first breach, two hundred dollars (\$200) liquidated damages for the second breach in the same year, and five hundred dollars (\$500) liquidated damages for subsequent breaches in the same year is reasonable estimate of the damage that City will incur based on the violation, established in light of the circumstances existing at the time this Agreement was made. Such amount shall not be considered a penalty, but rather agreed monetary damages sustained by City because of Contractor's failure to comply with this provision.
- 60. Left blank by agreement of the parties. (Slavery era disclosure)
- 61. Cooperative Drafting. This Agreement has been drafted through a cooperative effort of both parties, and both parties have had an opportunity to have the Agreement reviewed and revised by legal counsel. No party shall be considered the drafter of this Agreement, and no presumption or rule that an ambiguity shall be construed against the party drafting the clause shall apply to the interpretation or enforcement of this Agreement.
- **62. Dispute Resolution Procedure.** A Dispute Resolution Procedure is attached under the Appendix G to address issues that have not been resolved administratively by other departmental remedies.
- 63. Additional Terms. Additional Terms are attached hereto as Appendix D and are incorporated into this Agreement by reference as though fully set forth herein.

3. Goal Statement

The San Francisco Medical Respite & Sobering Center program with approximately 60 respite beds (co-located with a 12 bed sobering center), will provide temporary housing with medically-orientated supportive services for medically frail homeless persons leaving the hospital or the Emergency Department.

Community Awareness and Treatment Services will provide quality supportive service for the Medical Respite clients and staff, including, but not limited to, one-to-one support for clients, transportation, client social and educational activities, janitorial and laundry services. On- site kitchen provides meals.

4. Target Population

Homeless persons who are hospitalized on medical-surgical units will be the targeted population. While clients with psychiatric co-morbidities will be accepted, the Respite will not accept clients whose primary reason for hospitalization is psychiatric. No one requiring acute hospitalization or skilled nursing will be accepted.

5. Modalities/Interventions

The Service modality is client and staff supportive services at the DPH Medical Respite Services. CATS provides only support services to the medical program which is totally provided by DPH medical staff. Specifically, CATS provides food services, assisting patients in daily living i.e. dressing, toileting, showering, janitorial services, and transportation. CATS does not chart in the patient's record (as this is the total responsibility of the DPH medical staff) nor does CATS provide any social services (as this is the domain of the DPH social work staff). CATS has no control over the number of clients or the number. of contacts since the DPH owns this responsibility. Therefore UDC or UOS are not appropriate. This is a cost reimbursement contract.

3. Goal Statement

The goals of the San Francisco Homeless Outreach Team are to engage, place, and stabilize chronically homeless people living on the streets of San Francisco by moving them into permanent housing and improving their health outcomes.

SF HOT is collaboration between the Department of Public Health (DPH), the Human Services Agency (HSA) and CATS, and consists of staff from all three agencies.

4. Target Population

SF HOT serves persons of all ethnicities/races, languages, sexual orientations and genders who are age 16 and above living on the streets of San Francisco. Participant's economic status is low or no income, generally on public assistance and/or unemployed.

The primary focus of SF HOT is to serve the chronically homeless, as defined by the City and County of San Francisco as an individual or family who has been continuously homeless for at least one year, or has been homeless on at least four separate occasions in the last three years.

Priorities identified within this population include individuals with one or more of the following conditions:

- 1. Substance-related disorders:
- 2. Mental Health disorders:
- 3. Medical conditions (especially those with mobility- and pain-related illnesses)
- 4. Co-occurring disorders: and/or
- 5. History of (a) Childhood trauma or homelessness; (b) Exposure to war/armed conflict, including veterans, refugees and victims of torture; (c) History of institutionalization, including long term hospitalization and incarceration; and (d) Transitional age youth 16-24 years of age, especially those with involvement with the mental health system of care and/or those aging out of the foster care system.

Additional priorities for SF HOT are homeless individuals who are public inebriates, aggressive panhandlers, and individuals with shopping carts and/or large amounts of belongings, since these factors have demonstrated a higher risk of the individual being or becoming chronically homeless. Another priority for SF HOT is the Ambulance "high users," individuals identified by the San Francisco Fire Department and DPH as frequent users of the City's emergency ambulance and emergency room systems.

The targeted areas of SF HOT are the Central City area (Tenderloin, Market Street and South of Market areas), the Mission and Castro districts, Golden Gate Park, San Francisco's Westside, and the North Beach / Financial District / Embarcadero area. The Team also serves locations in San Francisco outside these

areas on an "as needed" basis, and will function on a City-wide basis for quick response and triage related to 311 calls about homelessness.

5. Modalities/Interventions

CATS provides Fiscal Intermediary and Human Resource services to support the program Outreach and Intervention activities of SF HOT.

The SFHOT program provides services under DPH service modality Strategy 19: Outreach and Intervention.

This is a collaboration between CATS, HSA and DPH. CATS is the fiscal agent and is responsible for HR functions (hiring, firing, personnel matters), budget development and management only of CATS staff. The clinical program part is determined by DPH through their mental health staff.

Methodology

- A. Outreach: SF HOT members, including "Outreach Specialist" staff members that focus solely on outreach, are consistently assigned to walk and drive neighborhood "beats" to ensure that they are knowledgeable of and known by the individuals who regularly sleep on the streets of the targeted neighborhoods. Outreach workers are clearly identified by the team name and City emblem worn on a badge and/or jacket. As trained professionals, outreach workers meet homeless individuals "where they are" (literally and figuratively), with the goal to develop ongoing relationships with these individuals and to, jointly, develop and implement a "Street to Home" plan. Continuous outreach is made to those who do not engage, do not agree to develop a Street-to-Home plan, or do not complete this plan.
- B. Recruitment, Promotion and Advertisement: SF HOT members promote and advertise through being identifiable on the streets, by the marked vans they drive, the disbursing of business cards, and through collaborations with other outreach teams. SF HOT is also an integral part of Mayor Gavin Newsom's Project Homeless Connect, a high profile City-sponsored volunteer effort to engage homeless individuals with services. SF HOT members regularly collaborate with and accept referrals from the other departments, and public and private hospitals/outpatient programs.
- C. Admission/Intake: Individuals who identify themselves as residents of the City and County of San Francisco and currently homeless, and who are open to accepting assistance, may be registered as clients. SF HOT uses a standardized intake form and, depending on the services requested, various other assessment tools. SF HOT members also utilize stabilization hotel rooms for certain clients; there are agreements and assessment forms for these as well.

D: Service Delivery Model: SF HOT members are based out of the Central City and Mission district offices. Outreach operates Monday through Friday, 4:30 am to 9:00 pm, M-F (16.5 hours per day) and 4:30 a.m. to 8:30 p.m., Sa-Su (16 hours per day); however, outreach is extended to other hours as needed. The goal of the engagement process is to build a therapeutic relationship and eventually move the individual living on the street into stabilization or permanent housing, with hopes of the client participating in the social, psychiatric and medical services available to insure a return to health, well-being and permanent housing. The length of stay for clients in stabilization rooms vary from one night to over 30 days and sometimes longer depending on need.

SF HOT members approach clients with a general wellness and recovery framework that includes maintaining a harm reduction position. Assessment and engagement is conducted with an "advocate" and case management approach, supported by Stages of Change and Motivational Interviewing principles.

Direct services provided by SF HOT members include:

- outreach on the street and in various facilities.
- transportation and drop-off,
- accompaniment to appointments,
- regular checking of clients and their stabilization rooms,
- advocacy for financial and medical benefits,
- engagement into health services,
- direct clinical care (including counseling and medication management),
- substance abuse screening,
- assessment and placement into housing as well as treatment programs.
- help with moving belongings,
- obtaining necessary medical equipment,
- facilitating transitions to other case management services,
- contacting family and/or friends,
- providing liaison services with other agencies,
- crisis intervention, providing health education,
- other wraparound services as necessary

SF HOT also provides indirect services including, but not limited to, street outreach to the larger general homeless population, planning, outreach, triage and crisis avoidance services at Project Homeless Connect, training members of various agencies that work with the homeless, collaborating with the San Francisco Fire and Police Departments in the provision of care for the homeless (while maintaining client confidentiality), participating in community relations activities such as Town Hall and merchant association meetings, presenting at conferences about homelessness, lobbying members of the United States Congress, advocating for systems change within and outside of San Francisco, providing personnel and resources for special projects for the Office of the Mayor, the Board of Supervisors and the Human Services Agency, helping with disaster-related City efforts, providing consultation to other agencies, participating in community events, serving on various planning committees and developing new partnerships to increase access to care for the homeless population.

- E. **Discharge Criteria**: Outreach clients are discharged from the program according to the following criteria:
 - they are placed in permanent housing with the establishment of another source of ongoing support as appropriate;
 - they are transferred to an ICM (intensive case management);
 - they are placed into a hospital / institution for a long period and have support at the institution;
 - they are incarcerated for a 1 month or longer;
 - they request to no longer engage with the team; or
 - the outreach team is unable to locate them on the street for more than 1 month;
 - they are deceased.
- C. SF HOT is collaboration between the Department of Public Health, the Human Services Agency and CATS, and consists of staff from all three agencies. This grant is for the CATS staff only, including:

SFHOT staff; case managers, social workers and other clinical staff chart on clients in a WEB based system, CCMS. They populate a "Street to Home" plan with information about benefits, medical and behavior health, and plans for permanent housing. Case managers meet clients at least once a week. Case managers chart at least once a week, more if needed. Social worker/supervisors review charts weekly. The program Director reviews charts bi-monthly. CCMS can generate reports of this data to be reviewed at least quarterly by SFHGOT, CBHS and CATS administrative staff.;

Improved Client Living Situation

- During Fiscal Year 2010-11, at least 50% of clients who have a Street-to-Home Plan will be placed off the streets into beds.
- Data Source: Coordinated Case Management Database

 At least quarterly; "Street to Home" plans are reviewed as to the progress being made toward goals. These are reviewed by SFHOT administrative staff. This helps to see if SFHOT is on track to meeting contractual goals. These are reported to CBHS and CATS administrative staff. See above format.

Improved Client Health Status

- During Fiscal Year 2010-11, at least 70% of clients with closed cases will have successfully completed treatment or will have left early with satisfactory progress, i.e., will have completed all treatment goals or at least one treatment goal.

Due to cutbacks in funding MAP does not have the time to patrol and do outreach as it once did. Also SFHOT (First Response) was once a part of MAP and was devoted to outreach. Now those workers are a part of SFHOT.

6. Methodology

A. <u>Outreach and Recruitment</u>: MAP Outreach Counselor Drivers (OCD's) contact homeless and substance abuse clients by patrolling the city streets, and responding to dispatched calls from the general public, Emergency Services, public and private agencies, and clients requesting service. Individuals contacted and assessed as needing services are encouraged by OCD's (and Dispatcher Counselors in the case of telephone contacts) to accept transportation to stabilization or shelter referral.

<u>Promotion and Advertisement</u>: MAP vans have high recognition to the target population and the general public due to our distinctive logo and thirty five years of service on the street. MAP service is promoted through listings in guides to homeless and mental health services published by the Homeless Advocacy Project, the Free Print Shop, S.F. Public Library Community Services, as well as other public and private guides both print and online. MAP staff frequently attend and address community/neighborhood meetings.

- B. MAP provides assessment services to any person in our target population. Individuals transported by MAP must:
 - a. Be willing to go;
 - b. Be able to walk with assistance or sit in their wheelchair;
 - c. Meet destination acceptability requirements.
- C. <u>Services</u>: Using a fleet of vans and mobile outreach counselor/drivers, MAP locates, assesses, encourages, counsels and refers individuals at-risk on the street; then provides transportation to appropriate detox stabilization facilities, shelters, and programs for those willing to accept help. Additionally MAP provides safe transportation for clients in detoxification programs and shelters to and from essential services. MAP operates 24 hours per day, 365 days per year. The number of counselor drivers in service varies from 3 during peak weekday/daytime hours to one during the overnight shift. One dispatcher counselor is on duty 21 hours per day. The three main areas of MAP service are Substance Abuse, Adult Shelter/MSC Service (Multi-Service Center Shelters), and Family Shelter Service (MAPFAM):
 - 1. Substance Abuse Transportation is provided to:
 - a. Appropriate individuals who are willing to accept transportation to <u>San Francisco Sobering Center</u> and other appropriate detox facilities.
 - b. Clients accepted for intake to appropriate detox or substance abuse treatment programs.
 - c. Clients residing at appropriate detox or substance abuse treatment programs who need transport to and from essential services.
 - 2. <u>Adult Shelter/MSC</u> Transportation is provided to clients of <u>Next Door</u> and <u>MSC South</u>, referred by facility staff, to outside support services and return. MAP extends service to other shelters, resource centers and homeless programs and based on van availability and client need.
 - 3. <u>MAPFAM</u> Provides regular daily scheduled service from designated family shelters to and from homeless family agencies. Also provides on-call transport services to families referred by designated family service providers: <u>Connecting Point</u>, <u>Hamilton Family Services</u>, <u>Homeless Prenatal Program</u>, <u>Compass Family Center</u>, <u>St. Joseph's Village</u>, and <u>Oshun Center</u>.

Introduction to San Francisco's many resources for seniors is also provided, as well as aftercare services and post-treatment housing referrals.

A. Outreach, Recruitment, Promotion and Advertisement

The Treatment Access Program (TAP) is a major referral source for the program. TAP contacts GGS when referrals are available. GGS arranges a screening appointment and assesses the client further for appropriateness of placement. If a treatment slot is available, the client is immediately placed into treatment, if not the client is placed on a waiting list. BHAC will have access to GGS's daily census census through the AVATAR system. Contact by the program with the various Senior Service Agencies and weekly AA/NA meetings held at the program attended by outside members of the target population enables prospective seniors to engage the programs' services. Other referral sources included local hospitals (St. Francis, St. Mary's, SFGH), Walden House (Hayes St. facility), VA Admin. - Fort Miley, Detoxes including Ozanam and Baker Places's Joe Healey Program.

B. Admission, Enrollment/Intake Criteria

Golden Gate for Seniors is currently both certified as an Alcohol and Drug Treatment Program and licensed as a Residential Treatment Facility by the State of California Department of Alcohol and Drug Programs (DADP). The primary program goal is to provide treatment services that promote satisfying, fulfilling lives free of substance abuse and addiction for our target population of San Francisco residents, both men and women age 55 and older, who have identified themselves as having substance abuse problems and are homeless and/or suffering from mental illness or have legal court mandates. The program provides drug education service addressing the concerns of the elder substance abuser leading toward abstinence. It follows with creating a support network enabling the client to continue a drug-free life upon graduation. Developing life skills is an important part of treatment as is initiating a health maintenance plan and providing a link to independent, affordable housing and goals set forth by the client and his/her counselor as documented in the client's treatment plan. Clients are assessed a fee using a sliding scale which generally is 85% of income. Adjustments are made to allow for payment of existing housing, Alimony, storage or other necessities so as ensure stability when clients leaves the treatment program. Typically clients are on SSI, SSDI or GA while in program.

C. Service Delivery Model

Golden Gate for Seniors at 637 South Van Ness provides a variable treatment stay from 3 to 12 months with a focus on meeting the specific clients needs. The program operates on a 24-hour basis, seven days a week. Understanding that each client progresses through treatment at his or her own pace, treatment completion status is reached upon achievement of an individualized treatment plan with stated goals and objectives. The average daily census will be maintained at fourteen (14) clients. A longer treatment stay focuses upon providing relapse prone clients a comprehensive relapse prevention program. Treatment complete status is reached by achievement of individualized treatment plan goals and objectives. Treatment techniques and strategies that will be utilized to obtain the outcome and process objectives include the following:

- Continued abstinence from alcohol and drugs.
- Attendance at 12-step and/or recovery groups weekly
- Process group X 3 weekly
- Transitional group (re-entry, employment, financial.) X 2 weekly
- Life skills group
- Acupuncture
- Health maintenance planning
- Obtaining fixed income (employment or retirement.)
- Initiation and/or maintenance of contact with family or significant others
- Aftercare support group X 1 weekly
- Individual counseling sessions
- Exit and Aftercare planning

If clients do not come with a primary care provider they are linked to Tom Waddell Health Center, South of Market Center or SFGH while in the program. Clients linked with mental health services already have an assigned case manager that will continue with them when they graduate from GGS. This is the most typical situation.

D. Exit Criteria and Process

The client and the counseling staff work together to assist in the provision of ancillary recovery services targeted to meet the particular client needs. Each client is assigned a counselor who facilitates a clients home group and assists the client in developing an aftercare plan. Progress is charted by the treatment staff and, together with the client, plans are made for the client to graduate. The treatment staff establishes ongoing aftercare treatment linkages for the client in the transition phase of the program. The program works closely with the many other senior facilities, affordable housing programs, half-way houses, and clean and sober living environments located in the Bay Area to provide transition for clients completing Golden Gate for Seniors. The existing relapse policy is: "Realizing that relapse if a part of recovery, GGS makes every effort to work with those clients who return to using drugs/alcohol. Clients who relapse while in Aftercare do not lose their group status and are encouraged to continue treatment. Referrals are also made for clients needing detox services and placement back into residential treatment." In addition, if clients relapse during their treatment they are discharged to a detox or shelter. They may reapply for services after 30 days. They are then placed on a waiting list, during which time they call 1X/week to maintain their status. They are readmitted to treatment as soon as a slot opens.

E. Staffing Pattern

The Program employs an Intake Counselor who provides intake services and a Counseling Staff which provides counseling, including group and individual sessions and tailors a treatment plan to fit each client's needs. Discharge Planning and Aftercare are overseen by the Program Coordinator along with the Counseling Staff. Please refer to Exhibit B in the 05/06 Renewal Packet.

connection and visibility in the targeted population. 20% of the Case Manager's time is spent conducting outreach to areas known to be frequented by the target population. Outreach is conducted in the streets, parks, under freeways. The Case Manager also makes presentations to other service providers. Providers are notified of vacancies on a regularly scheduled based. This is also the Case Manager's opportunity to inquire about potential clients. A unique feature of AWP is the emergency drop-in where the client is afforded the opportunity to assess their issues of substance abuse in an environment that is safe, stable, and secure until they are ready to avail themselves of AWP's services. A Woman's Place accepts referrals from the Behavioral Health Access Center (BHAC) through the Treatment Access Program (TAP) and the Access Team which screens for mental health and substance abuse concerns, BHAC will have access to AWP's daily census through the AVATAR system.

Include process for working with BHAC and also how provide daily census to improve service utilization.

B. Admission

AWP does not utilize a rigid admission policy, but does require that the client has not used within a 24-72 hour period. If they have "used" we require that the prospective client either go to a detoxification unit or stabilize in our emergency drop-in shelter. Though this is not a criteria for admission clients are expected to pay 30% of their income as program fees.

C. Program Description:

All Substance Abuse Services originate from 1049 Howard St., San Francisco, CA. A Woman's Place, Overnight with Full Day Services, is a program ranging in length from 30 days to 120 days. The average length of stay is 90 days. For those seeking help for the first time we encourage the client to stay 120 days. Although the program bases itself on the tenets of steps 1-3 of the Twelve Step Programs, it does take a holistic approach to treatment which includes: peer interaction groups, process groups, art therapy, acupuncture, relaxation/meditation groups, anger management groups, educational/life skills groups, individual psycho/social assessments.

AWP Case Manager will obtain signed releases of information and/or consent for care forms to track referral outcomes, coordinate services and communicate with the clients' mental health, substance abuse and medical providers, within the first week of treatment or 48 hours of entry into specific service. Releases will be signed, dated, and reside in the client's chart. The Program Coordinator will review charts on a weekly basis to ensure compliance. If documentation is missing, information will be recouped in three business days.

Clients will be linked to other service providers, including, but not limited to BHAC (referral/intensive case management), START (intensive case management), Lyon Martin (primary care), Tom Waddell Homeless Health Care Clinic (primary care), Iris Center. (outpatient substance abuse treatment/ HIV education/ high risk behaviors), South of Market Center (mental health group and individual counseling), and Westside Crisis (crisis psychiatric medication assessments and counseling).

To ensure that integrated services are comprehensively delivered and clients have access to Substance Abuse/Use treatment, the AWP Case Manager, Program Director, and Clinical Consultant will meet monthly with other on-site and off-site service providers including Lyon Martin Health Services and Tom Waddell Health Care for the Homeless (primary care), HAFC (mental health support/lifeskills) for case conferencing.

Each client's case plan is designed and tailored to address her specific needs. The overall structure of the "program" is divided into Three phases. The design of each phase is interchangeable making it possible for a client to successfully complete the program at any phase if that were the extent of their case plan. In the First Phase, the client is introduced to the disease model of addiction and the first step of the Twelve Step Program. In the Second Phase, clients are taught how to manage feelings that dominate early recovery i.e., grief, loss, anger, fear, and helplessness. They begin to address the symptoms of addiction and "triggers" of relapse, therefore, understanding the relationship and role of feelings in regard to addictions. Phase Three focuses on life skill issues, i.e., budgeting, building support in a sober community by attending outside Twelve Step meetings and, when appropriate, job skills. Phase Three also assists the client to transition out of A Woman's Place hopefully into a "secondary" or longer treatment program, while developing a continuing "aftercare" case plan. At this point, the client and the Case Manager continue to work together to effect the provision of ancillary services targeted to meet the client's needs. Clients are permitted to progress at their own pace depending on the level of functioning. If a client relapses this should not be equated with a "failure or treatment". A Woman's Place does not deny services to individuals for exhibiting behaviors for which they seek help. Interventions are modified such that it benefits the client. In general, AWP acknowledges and addresses the client's unsafe practice as well as how it relates to the her treatment goals and goals for that session in particular. In the event that a client is too impaired and/or uncooperative to engage in AWP services, that client is referred to a safe venue or asked that she return when less impaired. A Woman's Place expands service options within the existing program or collaborates with other service agencies to be able to respond to clients and their special needs. At A Woman's Place we make every reasonable attempt, within the context of our program, to follow-up with clients who demonstrate an inability or unwillingness to participate in the program; and, prior to discharge, make a reasonable attempt to find additional or alternative treatment.

E. Program Staffing

A Woman's Place line staff consists of Shift Supervisors and Peer Counselors who engage clients in finding out what services are needed. A Substance Abuse Counselor is responsible for the coordinating of client direct services.

The Program Director and Program Coordinator are responsible for the daily oversight of the facility.

Client charts will provide documented proof of the clients' participation in therapy. On a quarterly basis the Program Coordinator will review information documented in clients' records to ensure the capture of pertinent information necessary to support the achievement of program objectives. AWP Counselor will track client appointments, help to remind clients of appointments and verify client attendance through telephone calls to provider offices.

9 (G.1.a) For all contractors information on self-help alcohol and drug addiction Recovery groups (such as Alcoholics Anonymous, Alateen, Alanon, Rational Recovery, and other 12-step or self help programs) will be kept on prominent display and distributed to clients and families at all program sites.

The Program Coordinator will review on a quarterly basis all available material provided by the Cultural Competency Unit to ensure that it is accurate and up to date. The Counselor will ensure that this material is prominently displayed at all times and distributed to all clients and families at program site.

Cultural Competency Unit will compile the informing material on self- help Recovery groups and make it available to all contractors by September 2010.

2. Goal Statement:

The Hospital Post Release program at A Women's Place is a project of DPH and CATS/AWP with the goal of creating reasonably stable living environments for homeless patients being discharged from SFGH psychiatric wards including the Psychiatry Emergency Services (PES). The need for such services arose because patients who no longer meet the "medical necessity" criteria for hospitalization may not yet have access to long-term care or permanent housing as recommended in their treatment plans.

3. Target Population:

This target population includes residents of San Francisco who are exiting from San Francisco General Hospital In-Patient or Crisis Services. The population served is low or no income, chronically homeless, multiply diagnosed women, individuals identifying as transgender women, women of color, and women with diverse sexual orientations all over the age of 18. All lack housing and need transitional shelter services until longer-term housing can be established. Clients may or may not have a substance abuse problem. The primary, secondary, and tertiary target populations are:

- Mental health and/or physical health disorders often co-occurring with substance abuse
- Homelessness
- Women and Transgender (MTF)

4. Modality:

The Units of Service and Unduplicated Clients for the proposed contract are as follows:

Units of Service Description (UOS	UOS	Number of Clients	Undupli cated Clients
A Unit of Service (UOS) is defined as a 24 hour shelter bed day. 5 beds approx x. 365 days x 90% occupancy factor =1,643	1,643	130	95
Total UOS Delivered	1,643	130	95

The CMHS modality is short-term (from approx. 7 to 14 day) emergency shelter (community crisis beds). Services are co-located in a facility with CBHS, CARE, and HUD federal funding supporting other shelter, transitional housing, crisis beds and short-term treatment beds for women.

5. Methodology:

First priority access to the AWP Crisis Beds is managed via referral from a single CMHS staff person stationed in SFGH. Secondary priority access to program beds is given to referrals from the SF HOT team.

B. Admission

Admission to the AWP Crisis Beds is coordinated via referral from a single CMHS staff person stationed in SFGH or through the SF HOT team coordinator. A client's typical stay is expected to be about one week. Some patients may require a longer stay at AWP or may have more than a single episode of care during the fiscal year

C. Program Description:

This exhibit provides funding for 5 dedicated crisis beds located in A Women's Place, 1049 Howard Street. The services include overnight shelter in a cot with sheets, blankets and pillow; three meals daily; shower and laundry facilities; 24-hr supervision; security; and medication monitoring. Unlike drop-in clients whose beds are reserved by the CHANGES system, those occupying crisis beds have a guaranteed bed which remains open in its bed position. Clients may rest or lie down as needed at any time during the day or night. Women are required to remain on-site and sign-in and sign-out if they leave and return for psychiatric or medical appointments. Other very brief outings are permitted, for example, to smoke a cigarette outside. If a crisis client disappears or fails to return to the site at the scheduled time, their crisis bed will be rescinded. They may still use the facility, but their status and privileges changes to that of a regular drop-in client. All other counseling, case management, medical and treatment services will be provided by the ongoing hospital case-workers. Other services provided on-site to all clients are also available to these women, for example, television and activities. Length of stay for each women may extend for 14 days but averages one week. Case management services are provided by the referral agency.

D. Progression/Exit criteria:

Clients entering the Hospital Post Release program typically remain for an average of 7 days. AWP's Peer Counselor monitors the clients during their stay in the shelter and encourage to them to maintain contact with their outside case manager. All case management is provided through the referral source. The SFGH or SF HOT Case Managers work with these individuals to ensure that they stay connected to their mental health provider and that a care plan is formulated while they are in the program. This is a collaborative effort. If at the end of their stay a plan is not in place the client is referred to a CHANGES resource center for a reservation into the shelter system.

AWP also assesses the client for intake into one of the programs located at 1049 Howard St.

E. Program Staffing

A Woman's Place line staff consists of Shift Supervisors and Peer Counselors who engage clients in finding out what services are needed. A SFGH or SFHOT Caser Manager is responsible for the coordinating of client direct services. The Program Director and Program Coordinator are responsible for the daily oversight of the facility.

6. Objectives and Measurements

A. Performance/Outcome Objectives

 (G.1.a) For all contractors information on self-help alcohol and drug addiction Recovery groups (such as Alcoholics Anonymous, Alateen, Alanon, Rational Recovery, and other 12-step or self help programs) will be kept on prominent display and distributed to clients and families at all program sites.

Based on the SOC, Program review and Quality Improvement's feedback via the new client's survey. The Program Director in coordination with the CBHS Program Manager will establish a performance improvement objective during the following year.

A. Other Measurable Objectives

- 1. During FY 10/11, CATS will keep client census records by sign-in sheets nightly with printed names and signatures of clients placed in the beds via hospital or SF HOT referrals The Program Coordinator/Director reviews census tracking sheets on a weekly? basis to ensure achievement of this objective
- 2. During FY10/11, CATS staff will receive a minimum of 6 hours of relevant training to improve staff's ability to employ strategies that improve client care and interactions.

 The Program Director will ensure that all staff funded under this contract will receive a minimum of 6 hrs training. Program Review Measurement: Staff must complete a sign-in indicating the date on which they completed the training. Verification of training will be provided by sign-in sheets collected and or certificates of completion.

8. Continuous Quality Improvement

The following quality assurance activities have been implemented by CATS/AWP to ensure that the care provided at A Woman's Place meets the stated needs of the women who stay with us:

The Executive Director reviews and approves the Policies & Procedures contained in the AWP Operations Manual. Also, the Executive Director reviews and approves the Quality Assurance Plan on a yearly basis. Following CATS' infection and TB control plan, all staff and clients are required to show proof of a clear PPD or chest x-ray within 2 weeks of entry into the program, and are tested every six months thereafter. A medical protocol is included in the Operations Manual.

Program management in concert conducts regular program evaluation with the Executive Director to ensure that program goals are being met. Program evaluation procedures include: Submission of monthly and quarterly activity reports to the Executive Director and Board of Directors. Additionally, Program Management conducts quarterly reviews of the Cultural Competency plan to insure that there are no barriers to service provision.

To meet staff development requirements of CATS, all AWP staff are required to attend three outside training sessions per year, these include, but are not limited to; UCSF AIDS Health Project (for Cultural Competency training), San Francisco Suicide Prevention Agency (for dealing with suicidal clients), TOPS (Tuberculosis Outreach Prevention Services), Department of Human Services, CPR

First Aid training, CSAS Bridging the Gap Harm Reduction training. For those funded by CARE Title I the Case Manager is required to be certified in section A & B of the C-STEP program. AWP gives priority to insuring that staff members are culturally competent, and familiar with the tenets of Harm Reduction principles in a continuing effort to provide quality service to the target population.

A Review Committee made up of Program Management and Executive staff, review and assess all information related to the usage of the facilities resources bi-monthly. Staff meetings are held monthly to discuss issues of program operation and suggestions for improvement. The Program Coordinator and Case Management Supervisor conduct a review of client records bi-monthly. In addition a case management meeting is held every Wednesday to go over client records and discuss treatment plans. Client supervision is provided to staff on a weekly basis by a licensed LMFT.

The Program Director meets monthly with the women without any other staff person present to seek input and to insure proper use of protocols and practices.

Client Satisfaction Surveys are provided to clients at the end of a client's stay. The Case Manager provides the surveys to the clients as part of the exit interview, and collects them before the clients leave the facility. The Case Manager passes the surveys to the Program Coordinator with suggestions concerning improvements indicated by the information contained in the surveys. The Program Coordinator then passes the results of the surveys along with any additional suggestions concerning possible improvements to the Program Director. Next the Program Director presents the concerns and possible solutions to the clients at the next Community Meeting for additional input before implementation. Services are altered, whenever possible, in response to client suggestions.

As the above indicates, there are several layers of review that the Client Surveys are passed through before implementation. This is to ensure that adequate input is considered and that clients have a voice in the changes affecting their program. There are other methods of determining efficacy of the program. Clients are provided a Guest Input form that allows them to make suggestions concerning the operation of the program without having to wait to the end of their stay to complete a Client Satisfaction Survey. With the Guest Input form, clients can submit their concerns with anonymity. The client simply places the form in a box, and the Program Coordinator collects the contents of the box several times a week. If the client places a name on the Guest Input form, a written response is required. The form is submitted to the Program Director before it is returned to the client,

Another mechanism for incorporating input into the functioning of the facility is the monthly Community Meeting. In this meeting, the Program Director meets with clients and listens and responds to any concerns they may have. Also, the Program Director and the Program Coordinator at AWP maintain an open door policy, where clients can present concerns about the functioning of the facility in an informal atmosphere. Concerns are addressed and suggestions are incorporated into program delivery.

If a client has a grievance, she follows AWP's internal grievance process. If the client is dissatisfied with the program's decision regarding the grievance, then she contacts the CBHS for a telephone or inperson appointment for resolve the problem.

The program's clinical staff is participating in the Mental Health and Substance Abuse Integration Process. The program is also in compliance with all applicable policies of the Health Commission, local, state, federal and funding source policies, and requirements of Harm Reduction, Health Insurance Portability and Accountability Act (HIPAA), Cultural Competency and Client Satisfaction. These policies are reviewed on a regular basis and include monthly, quarterly and biannual reports on progress and continuous services in their respective areas.

3. GOAL STATEMENT

The goal of the Residential Mental Health Services to HIV + African American Women and HIV+ Transgender Women at A Woman's Place is to provide residential mental health services to multiply diagnosed primarily African American and transgender Women living with HIV in San Francisco through supportive housing, stabilization, counseling, case management, and psychological support services improving accessibility, timeliness and continuity of care.

4. TARGET POPULATION

Our target population is homeless, multiply-diagnosed (substance use disorder and/or mental health issues) women and transgender women, primarily African-American, who are HIV+, living in San Francisco, and who have consented to inform the program in confidence that they are infected with HIV (confirmed by us by appropriate documentation, including medical diagnosis, TB status, etc.) AWP also serves women who have demonstrated an inability to utilize existing services effectively and as a result, have experienced numerous failures at stabilization. These women are some of the City's most fragile residents and some of the least likely to be served by the City's existing resources. They are frequently victimized on the streets and do not feel safe sharing shelter space with men. Many have had unpleasant experiences with shelters and feel intimidated by rigid program requirements and the intrusiveness of the social service system. Service providers have found that San Francisco's overburdened mental health system is unable to provide adequate care for the most severely mentally ill homeless people in the City. Studies have shown that homelessness can cause Post Traumatic Stress Disorder, similar to the condition suffered by war veterans. Women who have been raped and battered on the streets and through domestic violence have additional mental health needs. Their mental illness precludes them from accessing many services. Likewise, many long-term residential treatment programs cannot take clients right off the streets. These women need access to appropriate psychiatric care that incorporates an understanding of the lives of homeless women, and addresses their social as well as their clinical needs. Enrollment priority is given to women who have little or no income, and are medically uninsured or underinsured. Ryan White Part A/CARE funds will be used for services that are not reimbursed by any other source of revenue.

CATS is one of the first organizations to apply the tenets of the harm reduction model to every aspect of our services to meet clients at every point on the continuum of care. The AWP program dedicates 11 beds for women living with HIV+ or AIDS diagnoses, throughout the 54 bed capacity, multi-use facility. As such our AWP program provides stabilization, supportive housing and support services for homeless women and transgender women in San Francisco who are multiply-diagnosed with a substance use disorder (SUD), mental illness, physical illnesses (i.e. HIV/AIDS, TB), as well as, victims of abuse, sex workers, and seniors. To meet clients at their individual developmental level, AWP does not exclude clients because they use alcohol and drugs. The women may still access services, with the condition that they do not participate in any illicit activities involving substance use on the premises.

To further reduce the possible harm of a substance use disorder (if it is identified in the initial intake assessment as being potentially problematic), AWP HIV Services case managers will assess each client using the Stages of Change scale and employ relevant interventions. Common interventions will include motivational interviewing and harm reduction education concerning the adverse consequences of substance abuse (including information on substance use with concomitant increases of at risk behavior such as unprotected sex, needle sharing, and transmission of the HIV virus). AWP counselors refer clients who wish to address their substance use disorder to our Substance Abuse Prevention program, conveniently housed at AWP, or to another appropriate program. Clients who refuse substance abuse services at that point and do meet the requirements of AWP Residential HIV Services can access services through AWP drop-in program. AWP case managers refer clients, as part of their individual plans, not yet connected to a primary care provider, to a physician as part of their stabilization process.

All AWP Residential HIV Services originate from 1049 Howard Street, San Francisco, CA. Staff involved in the delivery of service includes: program director, program coordinator, clinical supervisor, case managers, shift supervisors, and peer counselors.

Numerous point-of-entry sites already exist which refer to AWP. These include: Salvation Army, Walden CARE, Ozanam Detox Center, Smith House, and San Francisco General Hospital. Additional point-of-entry sites and outplacement referral sites will continue to be established through site visits and Memoranda of Understanding (MOUs). If initiated by the HIV Health Services section of the AIDS Office, at minimum, one staff member from the

program will participate in meetings to discuss ways to improve integration and coordination of Primary Care, Home Care and residential substance use services.

CATS- A Women's Place agrees to maintain appropriate referral relationships with key points of access outside of the HIV care system to ensure referral into care of newly diagnosed and PLWH not in care. Key points of access include emergency rooms, substance use treatment programs (both HIV+ and non-HIV), detox centers (both HIV+ and non-HIV), adult probation, juvenile probation, HIV counseling and testing, mental health programs (both HIV+ and non-HIV), and homeless shelters.

In accordance with HHS Standards of Care, AWP has the following procedures in place for each woman entering our program, including those eligible for our Residential HIV Services.

Outreach: The Case Managers conduct outreach to the target population with the intention of program recruitment. Outreach will be conducted in the streets, parks, under freeways and other areas the target population are known to frequent.

Immediate Needs: Each woman entering AWP receives a preliminary assessment to determine her level of crisis (i.e. 'Was she referred by PES, Police, Rape Crisis, or battered women's shelter?'), and need (i.e. 'Which service is appropriate: drop-in, crisis bed, housing bed, or another agency's service?').

Intake: Once immediate needs are assessed, the shift supervisor conducts an informal evaluation to determine if the woman has a medical or psychiatric emergency. Appropriate action is taken if an emergency exists. If not, the staff gives to the client and reviews with her a copy of the AWP's handbook detailing our services and criteria for entry. Should the woman request a specific service she is referred to the appropriate case manager and then her eligibility is determined.

Intake into Supportive Housing: Clients requesting our HIV supportive housing services must provide verification of their HIV status and obtain a current TB test within two weeks of the request. The client is referred to a mental health provider and/or AWP's clinical supervisor for a formal mental health intake evaluation/ assessment. Eligible clients receive a residency agreement detailing their responsibilities (including fee structure, housing rules and regulations, description of services offered, termination policy, and appeal process). Clients who sign the residency agreement receive the first available housing slot and are entered into ARIES within the month. If the facility is full or clients are ineligible, we inform them. They can then decide on being placed on our waiting list, accepting our drop-in services, or accessing the services at another facility.

Re-entry Planning and Exit: Once clients enter the Residential HIV Services, they, with the guidance of the clinical and case management staff, formulate an individual re-entry plan. The individual plan includes the woman's stated needs, such as permanent housing, substance abuse treatment, skills building, etc, as well as specific action plans to attain her goals, which culminate in her re-entry into an improved quality of life. The action plans include services the women will receive at AWP, as well as other agencies with which we have MOU's and LOC's. Re-entry plans are not static; they are often revamped or discarded. The plans may change due to disruptive events, relapse to active drug use, and other issues. As part of AWP harm reduction policies, the women may enter the Residential HIV Services despite their alcohol or drugs use. Clients involved with sex trade, including transgender women, are also accepted in the program. These women have multiple problems including severe mental illnesses. These issues present many challenges for AWP, including client retention in the program. However, our clinical, case and program management staff review the treatment plans weekly to ensure maximum support is given to each client so she may achieve her goals. Using Prevention with Positives approach, Iris Center and SAGE facilitate HIV Prevention Groups and the Case Manager meets with clients individually. Using a harm reduction philosophy, safe sex, prevention, life style choices and responsibility to partners is emphasized.

Housing and Counseling Support Services: Clients may stay a maximum of 18 continuous months in AWP Residential HIV Services. During this time, clients receive a comprehensive range of support services in keeping with their individual plans. The services are designed to enable the women to re-enter society with enhanced skills, awareness, and relapse prevention techniques. They include connecting the women to primary care physicians, HIV

education, and referrals to appropriate service providers, linkages to services, and review of the women's progress or challenges. We make every effort to move the women through their transition as quickly as they are able to stabilize, receive treatment, and make positive life choice decisions. Time frames can vary from three (3) months to 18 months, depending on the individual being served. AWP addresses the clients in need of but resistant to receiving mental health, case management, and/or medical services through one to one counseling sessions with the case manager and assessments by the mental health consultant when necessary.

Follow-up and Aftercare: Once the women graduate from the Residential HIV Services, case managers contact them once a month for a period of six months to confirm their status, give them guidance, and suggest support services. Staff interactions with clients during the Follow-up period become part of clients' permanent file. Clinical staff and interns also conduct aftercare for graduates at AWP. Aftercare includes individual sessions, alumni groups, volunteer groups, or rap groups. Again, consistent with the tenets of harm reduction, all graduates are welcomed to aftercare activities, whether or not they may have relapsed with their substance abuse issues. However, the women are encouraged not to participate in-groups while they are under the influence of alcohol and/or other illicit substances.

DPH HIV Client and Services Database

All agencies receiving funding through HHS are required to collect and submit unduplicated client and services data through the **DPH HIV Client and Services Database**. This is applicable for all "Ryan White eligible clients" receiving services paid with any HHS source of funding. Each HHS funded agency participates in the planning and implementation of its respective agency into the Database. The agency complies with HHS policies and procedures for collecting and maintaining timely, complete and accurate UDC and UOS service information in the Database. New client registration data is entered within 48 hours or two working days after data is collected. Service data for the preceding month, including UOS is entered by the 15th working day of each month. The deliverables are consistent with the information that is submitted to the appropriate DPH Budget and Finance section on the "Monthly Statements of Deliverables and Invoice" form. If these HHS standards for quality and timeliness of data entry are not followed payments may be delayed until the data has been entered and updated.

6. OBJECTIVES & MEASUREMENTS

A. Impact Objectives & Evaluation

A medical protocol is included in the Operations Manual.

Program management conducts regular program evaluation in concert with the Executive Director to ensure that program goals are being met. Program evaluation procedures include: Submission of monthly and quarterly activity reports to the Executive Director and Board of Directors. Clinical supervision is provided to case management staff on a weekly basis by a licensed LMFT.

To ensure that all information is entered into ARIES and that information is accurate the Program Coordinator will run a report monthly. If is found to be deficient depending on the nature and severity of the problem. The following procedure is in place to ensure that ARIES data entry problems are resolved within 45 working days. If the person(s) who encounters the problem is not the Program Director, s/he must immediately notify the Program Director of the problem verbally; and then follow-up with a detailed written summary of the issue. The Program Director will then notify the following four entities: first, the ARIES helpdesk, then the CATS computer dept., the HHS Program Manager and, lastly, the CATS Executive Director. If the problem is not acknowledged and/or addressed within 5 working days the Program Director will again attempt re-notification; first the CATS Computer dept., then the HHS ARIES Program Manager, and lastly the CATS Executive Director. Staff Development & Cultural Competency

To meet staff development requirements of CATS and in keeping with Prevention for Positive services as stated in AWP methodology, all AWP staff are required to attend three outside training sessions per year, these include, but are not limited to; UCSF AIDS Health Project (for Cultural Competency training), San Francisco Suicide Prevention Agency (for dealing with suicidal clients), TOPS (Tuberculosis Outreach Prevention Services), Department of Human Services, CPR First Aid training. For those funded by CARE Title I, the Case Manager is required to be certified in section A & B of the C-STEP program. AWP gives priority in its training & education activities to insure that staff members are aware of the population's cultural issues and perform their duties in a culturally competent manner. AWP's staff is familiar with the tenets of Harm Reduction principles in a continuing effort to provide quality service to the target population. AWP staff will bring documentation (i.e. attendance certificates) from the training events to be stored in personnel or training files. The Program Coordinator will be responsible for maintaining certificates of completion of the City-funded HIV Treatment Education and Certification Program.

Consumer Input re: Program Services

The Program Director meets monthly with the women without any other staff person present to seek input and to insure proper use of protocols and practices.

Client Satisfaction Surveys are provided to clients at the end of a client's stay. The Case Manager provides the surveys to the clients as part of the exit interview, and collects them before the clients leave the facility. The Case Manager passes the surveys to the Program Coordinator with suggestions concerning improvements indicated by the information contained in the surveys. The Program Coordinator then passes the results of the surveys along with any additional suggestions concerning possible improvements to the Program Director. Next the Program Director presents the concerns and possible solutions to the clients at the next Community Meeting for additional input before implementation. Services are altered, whenever possible, in response to client suggestions.

As the above indicates, there are several layers of review that the Client Surveys are passed through before implementation. This is to ensure that adequate input is considered and that clients have a voice in the changes affecting their program. Additionally, there are other methods of determining efficacy of the program and soliciting consumer feedback on the program services. Clients are provided a Guest Input form that allows them to make suggestions concerning the operation of the program without having to wait to the end of their stay to complete a Client Satisfaction Survey. With the Guest Input form, clients can submit their concerns with anonymity. The client simply places the form in a box, and the Program Coordinator collects the contents of the box several times a week.

Appendix A-7a & A-7b Terms: 07/1/10 - 02/2911

03/01/11-02/29/12

If the client places a name on the Guest Input form, a written response is required. The form is submitted to the Program Director before it is returned to the client.

Another mechanism for incorporating input into the functioning of the facility is the monthly Community Meeting. In this meeting, the Program Director meets with clients and listens and responds to any concerns they may have. Also, the Program Director and the Program Coordinator at AWP maintain an open door policy, where clients can present concerns about the functioning of the facility in an informal atmosphere. Concerns are addressed and suggestions are incorporated into program delivery.

If a client has a grievance, she follows AWP's internal grievance process. If the client is dissatisfied with the program's decision regarding the grievance, then she contacts the HIV Consumer Rights Advocacy project for a telephone or in-person appointment for resolve the problem.

Sections 164.530(f) and 164.530(e)(1)).
- g. Access to Protected Information. BA shall make Protected Information maintained by BA or its agents or subcontractors available to CE for inspection and copying within ten (10) days of a request by CE to enable CE to fulfill its obligations under the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.524 [45 C.F.R. Section 164.504(e)(2)(ii)(E)]. If BA maintains an Electronic Health Record, BA shall provide such information in electronic format to enable CE to fulfill its obligations under the HITECH Act, including, but not limited to, 42 U.S.C. Section 17935(e).
- h. Amendment of PHI. Within ten (10) days of receipt of a request from CE for an amendment of Protected Information or a record about an individual contained in a Designated Record Set, BA or its agents or subcontractors shall make such Protected Information available to CE for amendment and incorporate any such amendment to enable CE to fulfill its obligation under the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.526. If any individual requests an amendment of Protected Information directly from BA or its agents or subcontractors, BA must notify CE in writing within five (5) days of the request. Any approval or denial of amendment of Protected Information maintained by BA or its agents or subcontractors shall be the responsibility of CE [45 C.F.R. Section 164.504(e)(2)(ii)(F)].
- Accounting Rights. Within ten (10) calendar days of notice by CE of a request for an accounting for disclosures of Protected Information or upon any disclosure of Protected Information for which CE is required to account to an individual, BA and its agents or subcontractors shall make available to CE the information required to provide an accounting of disclosures to enable CE to fulfill its obligations under the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.528, and the HITECH Act, including but not limited to 42 U.S.C. Section 17935(c), as determined by CE. BA agrees to implement a process that allows for an accounting to be collected and maintained by BA and its agents or subcontractors for at least six (6) years prior to the request. However, accounting of disclosures from an Electronic Health Record for treatment, payment or health care operations purposes are required to be collected and maintained for only three (3) years prior to the request, and only to the extent that BA maintains an electronic health record and is subject to this requirement. At a minimum, the information collected and maintained shall include: (i) the date of disclosure; (ii) the name of the entity or person who received Protected Information and, if known, the address of the entity or person; (iii) a brief description of Protected Information disclosed; and (iv) a brief statement of purpose of the disclosure that reasonably informs the individual of the basis for the disclosure, or a copy of the

individual's authorization, or a copy of the written request for disclosure. In the event that the request for an accounting is delivered directly to BA or its agents or subcontractors, BA shall within five (5) calendar days of a request forward it to CE in writing. It shall be CE's responsibility to prepare and deliver any such accounting requested. BA shall not disclose any Protected Information except as set forth in Sections 2.b. of this Addendum [45 C.F.R. Sections 164.504(e)(2)(ii)(G) and 165.528]. The provisions of this subparagraph h shall survive the termination of this Agreement.

- j. Governmental Access to Records. BA shall make its internal practices, books and records relating to the use and disclosure of Protected Information available to CE and to the Secretary of the U.S. Department of Health and Human Services(the "Secretary") for purposes of determining BA's compliance with the Privacy Rule [45 C.F.R. Section 164.504(e)(2)(ii)(H)]. BA shall provide to CE a copy of any Protected Information that BA provides to the Secretary concurrently with providing such Protected Information to the Secretary.
- k. Minimum Necessary. BA (and its agents or subcontractors) shall request, use and disclose only the minimum amount of Protected Information necessary to accomplish the purpose of the request, use or disclosure. [42 U.S.C. Section 17935(b); 45 C.F.R. Section 164.514(d)(3)] BA understands and agrees that the definition of "minimum necessary" is in flux and shall keep itself informed of guidance issued by the Secretary with respect to what constitutes "minimum necessary."
- Data Ownership. BA acknowledges that BA has no ownership rights with respect to the Protected Information.
- m. Business Associate's Insurance. BA shall maintain a sufficient amount of insurance to adequately address risks associated with BA's use and disclosure of Protected Information under this Addendum.
- n. Notification of Breach. During the term of the Contract, BA shall notify CE within twenty-four (24) hours of any suspected or actual breach of security, intrusion or unauthorized use or disclosure of PHI of which BA becomes aware and/or any actual or suspected use or disclosure of data in violation of any applicable federal or state laws or regulations. BA shall take (i) prompt corrective action to cure any such deficiencies and (ii) any action pertaining to such unauthorized disclosure required by applicable federal and state laws and regulations.
- o. Breach Pattern or Practice by Covered Entity. Pursuant to 42 U.S.C. Section 17934(b), if the BA knows of a pattern of activity or practice of the CE that constitutes a material breach or violation of the CE's obligations under the Contract or Addendum or other arrangement, the BA must take reasonable steps to cure the breach or end the violation. If the steps are unsuccessful, the BA must terminate the Contract or other arrangement if feasible, or if termination is not feasible, report the problem to the Secretary of DHHS. BA shall provide written notice to CE of any pattern of activity or practice of the CE that BA believes constitutes a material breach or violation of the CE's obligations under the Contract or Addendum or other arrangement within five (5) calendar days of discovery and shall meet with CE to discuss and attempt to resolve the problem as one of the reasonable steps to cure the breach or end the violation.
- p. Audits, Inspection and Enforcement. Within ten (10) calendar days of a written request by CE, BA and its agents or subcontractors shall allow CE to conduct a reasonable inspection of the facilities, systems, books, records, agreements, policies and procedures relating to the use or disclosure of Protected Information pursuant to this Addendum for the purpose of determining whether BA has complied with this Addendum; provided, however, that (i) BA and CE shall mutually agree in advance upon the scope, timing and location of such an inspection, (ii) CE shall protect the confidentiality of all confidential and proprietary information of BA to which CE has access during the course of such inspection; and (iii) CE shall execute a nondisclosure agreement, upon terms mutually agreed upon by the parties, if requested by BA. The fact that CE inspects, or fails to inspect; or has the right to inspect, BA's facilities, systems, books, records, agreements, policies and procedures does not relieve BA of its responsibility to comply with this Addendum,

nor does CE's (i) failure to detect or (ii) detection, but failure to notify BA or require BA's remediation of any unsatisfactory practices, constitute acceptance of such practice or a waiver of CE's enforcement rights under the Contract or Addendum, BA shall notify CE within ten (10) calendar days of learning that BA has become the subject of an audit, compliance review, or complaint investigation by the Office for Civil Rights.

3. Termination

- a. Material Breach. A breach by BA of any provision of this Addendum, as determined by CE, shall constitute a material breach of the Contract and shall provide grounds for immediate termination of the Contract, any provision in the Contract to the contrary notwithstanding. [45 C.F.R. Section 164.504(e)(2)(iii)].
- b. Judicial or Administrative Proceedings. CE may terminate the Contract, effective immediately, if (i) BA is named as a defendant in a criminal proceeding for a violation of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws or (ii) a finding or stipulation that the BA has violated any standard or requirement of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws is made in any administrative or civil proceeding in which the party has been joined.
- c. Effect of Termination. Upon termination of the Contract for any reason, BA shall, at the option of CE, return or destroy all Protected Information that BA or its agents or subcontractors still maintain in any form, and shall retain no copies of such Protected Information. If return or destruction is not feasible, as determined by CE, BA shall continue to extend the protections of Section 2 of this Addendum to such information, and limit further use of such PHI to those purposes that make the return or destruction of such PHI infeasible[45 C.F.R. Section 164.504(e)(ii)(2)(I)]. If CE elects destruction of the PHI, BA shall certify in writing to CE that such PHI has been destroyed.

4. Limitation of Liability

Any limitations of liability as set forth in the contract shall not apply to damages related to a breach of the BA's privacy or security obligations under the Contract or Addendum.

5. Disclaimer

CE makes no warranty or representation that compliance by BA with this Addendum, HIPAA, the HITECH Act, or the HIPAA Regulations will be adequate or satisfactory for BA's own purposes. BA is solely responsible for all decisions made by BA regarding the safeguarding of PHI.

6. Certification

To the extent that CE determines that such examination is necessary to comply with CE's legal obligations pursuant to HIPAA relating to certification of its security practices, CE or its authorized agents or contractors, may, at CE's expense, examine BA's facilities, systems, procedures and records as may be necessary for such agents or contractors to certify to CE the extent to which BA's security safeguards comply with HIPAA, the HITECH Act, the HIPAA Regulations or this Addendum.

Amendment

a. Amendment to Comply with Law. The parties acknowledge that state and federal laws relating to data security and privacy are rapidly evolving and that amendment of the Contract or Addendum may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, the Privacy Rule, the Security Rule and other applicable laws relating to the security or confidentiality of PHI. The parties understand and agree that CE must receive satisfactory written assurance from BA that BA will adequately safeguard all Protected Information. Upon the request of either party, the other party agrees to promptly enter into negotiations concerning the terms of an amendment to this Addendum

embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, the Privacy Rule, the Security Rule or other applicable laws. CE may terminate the Contract upon thirty (30) calendar days written notice in the event (i) BA does not promptly enter into negotiations to amend the Contract or Addendum when requested by CE pursuant to this Section or (ii) BA does not enter into an amendment to the Contract or Addendum providing assurances regarding the safeguarding of PHI that CE, in its sole discretion, deems sufficient to satisfy the standards and requirements of applicable laws.

8. Assistance in Litigation or Administrative Proceedings

BA shall make itself, and any subcontractors, employees or agents assisting BA in the performance of its obligations under the Contract or Addendum, available to CE, at no cost to CE, to testify as witnesses, or otherwise, in the event of litigation or administrative proceedings being commenced against CE, its directors, officers or employees based upon a claimed violation of HIPAA, the HITECH Act, the Privacy Rule, the Security Rule, or other laws relating to security and privacy, except where BA or its subcontractor, employee or agent is a named adverse party.

9. No Third-Party Beneficiaries

Nothing express or implied in the Contract or Addendum is intended to confer, nor shall anything herein confer, upon any person other than CE, BA and their respective successors or assigns, any rights, remedies, obligations or liabilities whatsoever.

10. Effect on Contract

Except as specifically required to implement the purposes of this Addendum, or to the extent inconsistent with this Addendum, all other terms of the Contract shall remain in force and effect.

11. Interpretation

The provisions of this Addendum shall prevail over any provisions in the Contract that may conflict or appear inconsistent with any provision in this Addendum. This Addendum and the Contract shall be interpreted as broadly as necessary to implement and comply with HIPAA, the HITECH Act, the Privacy Rule and the Security Rule. The parties agree that any ambiguity in this Addendum shall be resolved in favor of a meaning that complies and is consistent with HIPAA, the HITECH Act, the Privacy Rule and the Security Rule.

12. Replaces and Supersedes Previous Business Associate Addendums or Agreements

This Business Associate Addendum replaces and supersedes any previous business associate addendums or agreements between the parties hereto.

Dispute Resolution Procedure For Health and Human Services Nonprofit Contractors 9-06

Introduction

The City Nonprofit Contracting Task Force submitted its final report to the Board of Supervisors in June 2003. The report contains thirteen recommendations to streamline the City's contracting and monitoring process with health and human services nonprofits. These recommendations include: (1) consolidate contracts, (2) streamline contract approvals, (3) make timely payment, (4) create review/appellate process, (5) eliminate unnecessary requirements, (6) develop electronic processing, (7) create standardized and simplified forms, (8) establish accounting standards, (9) coordinate joint program monitoring, (10) develop standard monitoring protocols, (11) provide training for personnel, (12) conduct tiered assessments, and (13) fund cost of living increases. The report is available on the Task Force's website at http://www.sfgov.org/site/npcontractingtf index.asp?id=1270. The Board adopted the recommendations in February 2004. The Office of Contract Administration created a Review/Appellate Panel ("Panel") to oversee implementation of the report recommendations in January 2005.

The Board of Supervisors strongly recommends that departments establish a Dispute Resolution Procedure to address issues that have not been resolved administratively by other departmental remedies. The Panel has adopted the following procedure for City departments that have professional service grants and contracts with nonprofit health and human service providers. The Panel recommends that departments adopt this procedure as written (modified if necessary to reflect each department's structure and titles) and include it or make a reference to it in the contract. The Panel also recommends that departments distribute the finalized procedure to their nonprofit contractors. Any questions for concerns about this Dispute Resolution Procedure should be addressed to purchasing@sfgov.org.

Dispute Resolution Procedure

The following Dispute Resolution Procedure provides a process to resolve any disputes or concerns relating to the administration of an awarded professional services grant or contract between the City and County of San Francisco and nonprofit health and human services contractors.

Contractors and City staff should first attempt to come to resolution informally through discussion and negotiation with the designated contact person in the department.

If informal discussion has failed to resolve the problem, contractors and departments should employ the following steps:

- Step 1 The contractor will submit a written statement of the concern or dispute addressed to the Contract/Program Manager who oversees the agreement in question. The writing should describe the nature of the concern or dispute, i.e., program, reporting, monitoring, budget, compliance or other concern. The Contract/Program Manager will investigate the concern with the appropriate department staff that are involved with the nonprofit agency's program, and will either convene a meeting with the contractor or provide a written response to the contractor within 10 working days.
- Step 2 Should the dispute or concern remain unresolved after the completion of Step 1, the contractor may request review by the Division or Department Head who supervises the Contract/Program Manager. This request shall be in writing and should describe why the concern is still unresolved and propose a solution that is satisfactory to the contractor. The Division or Department Head will consult with other Department and City staff as appropriate, and will provide a written determination of the resolution to the dispute or concern within 10 working days.
- Step 3 Should Steps 1 and 2 above not result in a determination of mutual agreement, the contractor may forward the dispute to the Executive Director of the Department or their designee. This dispute

shall be in writ. and describe both the nature of the dispute or calcern and why the steps taken to date are not satisfactory to the contractor. The Department will respond in writing within 10 working days.

In addition to the above process, contractors have an additional forum available only for disputes that concern implementation of the thirteen policies and procedures recommended by the Nonprofit Contracting Task Force and adopted by the Board of Supervisors. These recommendations are designed to improve and streamline contracting, invoicing and monitoring procedures. For more information about the Task Force's recommendations, see the June 2003 report at http://www.sfgov.org/site/npcontractingtf index.asp?id=1270.

The Review/Appellate Panel oversees the implementation of the Task Force report. The Panel is composed of both City and nonprofit representatives. The Panel invites contractors to submit concerns about a department's implementation of the policies and procedures. Contractors can notify the Panel after Step 2. However, the Panel will not review the request until all three steps are exhausted. This review is limited to a concern regarding a department's implementation of the policies and procedures in a manner which does not improve and streamline the contracting process. This review is not intended to resolve substantive disputes under the contract such as change orders, scope, term, etc. The contractor must submit the request in writing to purchasing@sfgov.org. This request shall describe both the nature of the concern and why the process to date is not satisfactory to the contractor. Once all steps are exhausted and upon receipt of the written request, the Panel will review and make recommendations regarding any necessary changes to the policies and procedures or to a department's administration of policies and procedures.

Appendix H

Emergency Response

CONTRACTOR will develop and maintain an Agency Disaster and Emergency Response Plan containing Site Specific Emergency Response Plan(s) for each of its service sites. The agency-wide plan should address disaster coordination between and among service sites. CONTRACTOR will update the Agency/site(s) plan as needed and CONTRACTOR will train all employees regarding the provisions of the plan for their Agency/site(s). CONTRACTOR will attest on its annual Community Programs' Contractor Declaration of Compliance whether it has developed and maintained an Agency Disaster and Emergency Response Plan, including a site specific emergency response plan for each of its service sites. CONTRACTOR is advised that Community Programs Contract Compliance Section staff will review these plans during a compliance site review. Information should be kept in an Agency/Program Administrative Binder, along with other contractual documentation requirements for easy accessibility and inspection.

In a declared emergency, CONTRACTOR'S employees shall become emergency workers and participate in the emergency response of Community Programs, Department of Public Health. Contractors are required to identify and keep Community Programs staff informed as to which two staff members will serve as CONTRACTOR'S prime contacts with Community Programs in the event of a declared emergency.

Appendix I

San Francisco Department of Public Health Privacy Policy Compliance Standards

As part of this Agreement, Contractor acknowledges and agrees to comply with the following:

In City's Fiscal Year 2003/04, a DPH Privacy Policy was developed and contractors advised that they would need to comply with this policy as of July 1, 2005.

As of July 1, 2004, contractors were subject to audits to determine their compliance with the DPH Privacy Policy using the six compliance standards listed below. Audit findings and corrective actions identified in City's Fiscal year 2004/05 were to be considered informational, to establish a baseline for the following year.

Beginning in City's Fiscal Year 2005/06, findings of compliance or non-compliance and corrective actions were to be integrated into the contractor's monitoring report.

Item #1: DPH Privacy Policy is integrated in the program's governing policies and procedures regarding patient privacy and confidentiality.

As Measured by: Existence of adopted/approved policy and procedure that abides by the rules outlined in the DPH Privacy Policy

Item #2: All staff who handle patient health information are oriented (new hires) and trained in the program's privacy/confidentiality policies and procedures.

As Measured by: Documentation showing individual was trained exists

Item #3: A Privacy Notice that meets the requirements of the Federal Privacy Rule (HIPAA) is written and provided to all patients/clients served in their threshold and other languages. If document is not available in the patient's/client's relevant language, verbal translation is provided.

As Measured by: Evidence in patient's/client's chart or electronic file that patient was "noticed." (Examples in English, Cantonese, Vietnamese, Tagalog, Spanish, Russian will be provided.)

Item #4: A Summary of the above Privacy Notice is posted and visible in registration and common areas of treatment facility.

As Measured by: Presence and visibility of posting in said areas. (Examples in English, Cantonese, Vietnamese, Tagalog, Spanish, Russian will be provided.)

Item #5: Each disclosure of a patient's/client's health information for purposes other than treatment, payment, or operations is documented.

As Measured by: Documentation exists.

Item #6: Authorization for disclosure of a patient's/client's health information is obtained prior to release (1) to providers outside the DPH Safety Net or (2) from a substance abuse program.

As Measured by: An authorization form that meets the requirements of the Federal Privacy Rule (HIPAA) is signed and in patient's/client's chart/file
