3. Goal Statement

Administrative (HealthRIGHT 360): To provide fiscal intermediary services to Jail Psychiatric Services.

<u>Program (Jail Psychiatric Services)</u>: It is the mission of Jail Psychiatric Services to provide quality, compassionate, culturally competent behavioral health services, using professional and community standards of care, to individuals incarcerated in the San Francisco City and County jail system, and to assist these mentally ill individuals and those with co-occurring disorders in establishing linkages with community-based mental health programs to help them avoid re-offending and future incarceration.

4. Target Population

Administrative (HealthRIGHT 360): No direct services are provided to clients. Fiscal intermediary services support staff that manages Jail Psychiatric Services.

<u>Program (Jail Psychiatric Services)</u>: All adult detainees and sentenced inmates, male and female, of the San Francisco City and County jail system are eligible for services. Inmates of the San Francisco jail system are the responsibility of the San Francisco County Sheriff's Department and are considered residents of San Francisco for the duration of their incarceration; thus San Francisco residency is presumed.

The target population for the Jail Aftercare Services component of the program will be referrals from the above-identified population. All inmates who have been identified as having psychiatric impairment and requiring aftercare services may be referred by their primary therapists or a representative from the criminal justice system (e.g., lawyer, probation officer, the court).

Approximately 25% of the total units of service will be in the form of crisis intervention. Approximately 45% of the total units of service will be in the form of short term/group therapy. Approximately 30% of the total units of service will be in the form of discharge planning/aftercare. Approximately 15-20% of all clients seen will receive psychotropic medications.

6. Methodology

- A. When clients come into custody, they are handed a booklet that tells them how to access medical care and includes mental health and substance abuse services.
- B. Clients are referred each day by Jail Health Services, the Sheriff's Department, Superior Courts, family, friends, community mental health agencies, and private practitioners. Referrals from outside the jail may be made by calling the Jail Psychiatric Services' Administrative Office (415/995-1704), or through the medical services located in the jail. Self-referrals are accepted and may be made by directly contacting JPS staff in the jail or through Jail Health Services Inmate Care Requests or the Sheriff's Department. Evaluations are done to assess the client's mental, emotional, or behavioral status, and to make recommendations for treatment.

In addition to the referral sources mentioned above, the judges of the Superior Courts daily issue orders (4011.6 PC) requesting that JPS conduct an examination for treatment of defendants appearing before them. A formal report with treatment recommendations is filed with the court prior to the next scheduled court date.

C. Jail Psychiatric Services staff are in the jails from 8 a.m. until 6 p.m. Monday through Wednesday and 8 a.m. until 10 p.m. Thursday through Sunday. Pager coverage is 24 hours per day seven days a week.

During initial sessions, an assessment is made as to the severity of the problem and the patient's amenability to treatment while in jail. Should the mutual decision be made that

City Fiscal Year: 2010-2015

Appendix A-1 07/01/10 through 12/31/15

Funding Source: General Fund

continuing sessions would be appropriate; clients are then seen in individual and/or group therapy.

Ongoing Treatment. A treatment plan is formulated for each client in treatment outlining the treatment modality. A client's treatment and housing plan is based on amenability, level of distress, and behavioral dysfunction. All psychiatric treatment provided in the jail is voluntary. Clients who have a serious psychiatric disorder, but do not wish treatment and do not meet 5150 WIC criteria for involuntary treatment, will be monitored for any changes in their mental status.

Medication Evaluation. Clients who require an evaluation for psychiatric medication are referred to one of the psychiatrists. The psychiatrist interviews the client to ascertain the need for medication. All clients who receive medications give informed consent, which is documented in the client's chart. The prescribing of medication is part of the formal treatment plan. All treatment plans that include medication are reviewed and approved by a psychiatrist (MD). All clients who receive medication are concurrently seen in ongoing individual therapy.

Referral for Acute Care. For the most seriously disturbed clients, an evaluation is made according to the legal standards of the Welfare and Institutions Code (Section 5150), and Section 4011.6 of the Penal Code to determine the advisability of hospitalization. In emergency and acute treatment cases in which hospitalization is necessary, clients are transferred to San Francisco General Hospital's Ward 7L (Security Ward) within twenty-four hours of determination of need. Once a client's condition is stabilized and the hospital staff deems it appropriate, clients are returned to the jail to continue with their legal proceedings. At this time, clients return to the care of Jail Psychiatric Services for ongoing treatment while in jail.

Systems, policies, and procedures are in place for notifying the hospital of an admission, transportation from the jail to the hospital, notification to the courts and the Sheriff's Department, and discharge (back to jail) planning.

D. Jail Aftercare Services (JAS) provides post-release planning, medications, and community placement services, and has established alternative sentencing options for psychiatrically impaired clients. Prior to release, JAS will assist the clients in arranging for appropriate financial aid, housing, and psychiatric treatment in the community. JAS staff work to enhance their clients' successful transition back into the community.

The client's primary therapist, attorney, or probation officer usually makes a referral for this service. Once a referral is made, the client is evaluated for appropriateness for placement in terms of amenability to treatment, mental status, and legal situation. After consultation with the client, the client's attorney, the district attorney, the court, the probation/parole department, and Community Behavioral Health Services, a decision is made about the appropriateness and type of placement. All involved criminal justice agencies and the community agencies must

City Fiscal Year: 2010-2015 Funding Source: General Fund

agree before a client can be placed. When necessary, a personal interview between the client and the prospective placement facility is arranged, via a court order, prior to final approval.

Jail Aftercare Services' therapist will interview a client, formulate a written plan, contact attorneys and probation officers, and appear in court as necessary. If the client is eligible for services, the therapist will make appointments, arrange services (e.g., housing, entitlements, medication, mental health and/or substance abuse treatment), contact other agencies, and accompany the client through the transition process as indicated. Clients will be followed in the community until linkage is made with the community agency, until the legal situation is resolved, or as decided by court or treating facility arrangement. JPS works with CBHS to assist them in working with clients involved with the criminal justice system. If the client is a misdemeanor and incompetent to stand trial, JAS will work with the client until the client is restored to competency or until the maximum time allowed for the sentenced is served.

In November of 2002, Jail Aftercare Services, in conjunction with the courts and other criminal justice programs, began Behavioral Health Court. This is a system in which the client, the bench, and Community Behavioral Health work together to coordinate patient care, decriminalize the mentally ill and improve their quality of life.

Discharge Planning. The discharge office reviews the release list to filter out those inmates with special needs such as substance abuse, homelessness, chronic illness, or mental illness. The case manager coordinates with treatment providers in the community and makes appointments as necessary to ensure continued care post-release.

8. Continuous Quality Improvement

Documentation of Services. Jail Psychiatric Services collects and maintains data consistent with our funding source. Additional information is collected for reports to the Court, California Corrections Standards Authority, and our administrative agent. Our computer system, in conjunction with the Jail Health Services' electronic charting system, meets all data collection and reporting requirements of the City and State. Examples of data collected on each client are treatment modality, date of each contact, therapist, legal charges, jail facility, date of birth, ethnicity, primary language, hospitalizations, diagnosis, and GAF. Data is organized every month and submitted for billing. Quarterly and annual reports and audit information are compiled for the City for purposes of planning and evaluation. JPS has instituted policies and procedures and trained staff to comply with the HIPAA regulations as they apply to the program.

Quality Improvement. Internal evaluation and quality assurance are maintained by a clinical supervision structure, chart review, and peer review systems. Regularly scheduled staff meetings also provide a forum for formal and informal case conferences and clinical feedback. The JPS peer review committee operates according to Jail Health Services' Policy and Procedure guidelines and JPS participates actively in JHS' Continuous Quality Improvement program.

Multi-disciplinary case conferences assist in the dissemination of patient information between JPS and San Francisco General Hospital, Ward 7L.

The Medical Director, Don Seaver, MD, is responsible for monitoring the prescribing of medications, treatment plans, informed consent, and charting. He also implements and monitors medication policies and procedures.

Evaluation of Cultural Competency Plan. In order to assure compliance with its cultural competency plan, JPS will maintain a list of trainings and in services sponsored by the program, along with rosters and training evaluations. JPS, along with Jail Health Services, will continue to conduct Patient Satisfaction Surveys each year. The results of these surveys will be reviewed and maintained in a database so that JPS will be able to evaluate the effectiveness of its efforts over time.

Based on the outcome of these measures, JPS will review its cultural competency plan and alter or amend it as needed to improve the services provided. Any barriers to effective client contact will be:

- Brought to the CQI workgroup for further exploration;
- Brought to the staff for extensive discussion at the annual staff retreat, or sooner if the problem is deemed sufficiently grievous;
- Discussed with management at Jail Health Services.

City Fiscal Year: 2010-2015

Appendix A-1 07/01/10 through 12/31/15

Funding Source: General Fund

After agreement has been reached about the best way to approach the problem, the cultural competency plan will be revised to include the new plan of action.

Jail Psychiatric Services will comply with Health Commission, Local, State, Federal and/or Funding Source policies and requirements such as Harm Reduction, Health Insurance Portability and Accountability Act (HIPAA), Cultural Competency, and Client Satisfaction.

Jail Psychiatric Services has designated staff member Mary Lefevre to serve as its Transition-Age Youth (TAY) point person.
