There is targeted outreach and services to the Filipino community. Included are services to LGBTQIQ youth and families.

Additionally, the RAMS CYF Outpatient Services serves Early and Periodic Screening Diagnosis and Treatment (EPSDT) eligible residents who are not currently served by the SF community mental health system. EPSDT is a required benefit for all "categorically needy" children (e.g. poverty-level income, receiving SSI, or receive federal foster care or adoption assistance). This group reflects the greater health needs of children of low-income and with special health needs qualifying them for assistance. All San Franciscans under the age 21 who are eligible to receive the full scope of Medi-Cal services and meet medical necessity, but who are not currently receiving the same model of mental health services and not receiving services through capitated intensive case management services, i.e. Intensive Case Management, are eligible for EPSDT services. Services are provided at the RAMS Outpatient Clinic and in the community (e.g. on-site at San Francisco Unified School District schools).

RAMS CYF Outpatient Services also include Educationally Related Mental Health Services (ERMHS) to clients referred from SFUSD. These are students that are assessed to have an emotional disability as their primary barrier to their educational success.

5. Modality(ies)/Interventions

See CBHS Appendix B, CRDC pages.

6. Methodology

A. Outreach, recruitment, promotion, and advertisement as necessary.

RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to outpatient services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families with each year serving well about 18,000 adults, children, youth & families at about 90 sites, citywide. The CYF Outpatient Program conducts these strategies on an ongoing basis, in the most natural environments as possible, and at sites where targeted children & youth spend a majority of time, through RAMS established school-based and community partnerships – San Francisco Unified School District (SFUSD) high, middle, and elementary schools, after-school programs, over 60 childcare sites, Asian Youth Advocacy Network, and Asian Pacific Islander Family Resource Network. Outreach activities are facilitated by staff, primarily the Behavioral Health Therapists/Counselors (including psychologists, social workers, marriage & family therapists, etc.), and Psychiatrists. Engagement and retention is achieved with an experienced, culturally and linguistically competent multidisciplinary team.

In addition, RAMS retains bilingual and bicultural Filipino staff that are stationed at Bessie Carmichael School (elementary and middle), Galing Bata Childcare, Filipino Community Center, every week to engage clients and outreach to the Filipino families and community. RAMS staff are also active with the Filipino Mental Health Initiative in connecting with community members and advocating for mental health services.

B. Admission, enrollment and/or intake criteria and process where applicable.

RAMS accommodates referrals from the CBHS Behavioral Health Access Center, as well as drop-ins. As RAMS provides services in over 30 languages and, in order to support timely access the agency deploys mechanisms to effectively & make accessible the many dialects fluent amongst staff in a timely manner. The Outpatient Clinic maintains a multi-lingual Intake/Referral & Resource Schedule, which is a weekly calendar with designated time slots of clinical staff (and language capacities) who can consult with the community (clients, family members, other providers) and conduct intake assessments (with linguistic match) of initial

request. The clinical intake/initial risk assessments are aimed to determine medical necessity for mental health services and assess the level of functioning & needs, strengths & existing resources, suitability of program services, co-occurring issues/dual diagnosis, medication support needs, vocational readiness/interest (and/or engagement in volunteer activities, school), primary care connection, and other services (e.g. residential, SSI assessment). There is a designated Intake Coordinator for scheduling assessments and processing & maintaining the documentation, thus supporting streamlined coordination; staff (including Program Director) works closely with the referring party. Following the intake, engagement and follow-up is made with the client. RAMS has been acknowledged as a model for its intake practices ("advanced access") and managing the demand for services, which is a consistent challenge for other clinics.

Referrals for Filipino children, youth and/or families may be done directly to the RAMS staff on-site (community sites mentioned above) or at RAMS, for mental health outreach, consultation, assessment, engagement and treatment.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

To further support accessibility of services, the Outpatient Clinic Program throughout the years has maintained hours of operation that extend past 5:00 pm, beyond "normal" business hours. The Program hours are: Monday (9:00 am - 7:00 pm); Tuesday to Thursday (9:00 am to 8:00 pm); Friday (9:00 am to 5:00 pm).

The RAMS CYF OPS program design includes behavioral health and mental health outpatient & prevention services that include, but are not limited to: individual & group counseling, family collateral counseling; targeted case management services; crisis intervention; substance abuse and risk assessment (e.g. CANS, CRAFFT, and AADIS), psychiatric evaluation & medication management; psychological testing & assessment; psycho-education; information, outreach & referral services; and collaboration/consultation with substance abuse, primary care, and school officials, and participation in SST, IEP and other school-related meetings. Psycho-educational activities have included topics such as holistic & complementary treatment practices, substance use/abuse, and trauma/community violence. Services are primarily provided on-site, at the program, and/or in least restrictive environment in the field including, but is not limited to: clients' home, school, another community center, and/or primary care clinic. The type and frequency of services are tailored to the client's acuity & risk, functional impairments, and clinical needs. It is also reviewed by the clinical authorization committee and in consultation with SFDPH CBHS.

RAMS Filipino services staff provides outreach, linkage, consultation, psychoeducation, to the community members and providers as well as assessment, individual/family counseling to identified children, youth and their families in the community programs or at RAMS Outpatient Clinic. Medication services are available at the Outpatient Clinic.

The Behavioral Health Counselors/Workers provide clients with on-going individual and group integrated behavioral health counseling, case management services and, as needed, conduct collateral meetings. Having individual counseling and case management services provided by the same care provider streamlines and enhances care coordination. RAMS incorporates various culturally relevant evidence-based treatments & best practices models: Developmental Assets; Behavioral Modification; Cognitive Behavioral Therapy, including modification for Chinese population; Multisystemic Therapy; Solution-Focused Brief Therapy; Problem Solving Therapy; advanced levels of Motivational Interviewing, Stages of Change, Seeking Safety, and Second Step Student Success Through Prevention, etc. RAMS providers are also trained in Addiction Studies, Sandtray Therapy, and Working with Trauma (trauma-informed care whereby staff are trained and supervised to be

mindful of children, youth and/or their families who may have experienced trauma); the program provides continuous assessment and treatment with potential trauma experience in mind, as to meet clients' needs. During treatment planning, the clinician and client discuss how strengths can be used to make changes to their current conditions and to promote & sustain healthy mental health. Informed by assessment tools (e.g. CANS), a plan of care with goals is formally developed (within the first two months) and updated at least annually. This is a collaborative process (between counselor & client) in setting treatment goals and identifying strategies that are attainable & measurable. RAMS also compares the initial assessment with reassessments (e.g. CANS) to help gauge the efficacy of interventions as well the clients' progress and developing needs. As needed, other support services are provided by other staff, in collaboration with the Counselor. RAMS conducts home visits and linkages for client support services (e.g. childcare, transportation) to other community agencies and government offices. Predoctoral interns, closely supervised, are also available to conduct comprehensive batteries of psychological testing and evaluation.

Medication management including culturally competent psychiatric evaluation & assessment and on-going monitoring of prescribed medications (e.g. individual meetings, medication management groups) is provided by licensed psychiatrists, nurse practitioners, and registered nurses. The Outpatient Program psychiatry staff capacity & coverage offers daily medication evaluation & assessments during all program hours of operation, in order to increase accessibility.

D. Describe your program's exit criteria and process, e.g. successful completion

The type and frequency of services are tailored to the client's acuity & risk, functional impairments, and clinical needs, with review by the clinical authorization committee and in consultation with SFDPH CBHS. Because of limited mental health resources, coupled with the need to promptly serve many newly referred acute clients, the program consistently applies utilization review and discharge/exit criteria to alleviate increasing caseload pressure, and to prioritize services to those most in need. Providers consider such factors as: risk of harm, functional status, psychiatric stability and risk of decompensating, medication compliance, progress and status of Care Plan objectives, and the client's overall environment such as culturally and linguistically appropriate services, to determine which clients can be discharged from Behavioral/Mental Health/Case Management Brokerage level of services into medication-only or be referred to Private Provider Network/Primary Care Physician or for other supports within the community (e.g. family resource centers, community organizations to provide ongoing case management and/or family involvement activities), and/or schools.

E. Program staffing

See CBHS Appendix B.

Furthermore, direct services are also provided by 16 pre-doctoral interns and practicum trainees. Consistent with the aim to develop and train the next generation of culturally competent clinicians, the Outpatient Clinic also houses a prestigious training center, accredited by the American Psychological Association, which offers an extensive training curriculum. These students are unpaid interns with three paid slots for pre-doctoral interns who are just one year from graduation. The interns are supervised by licensed clinical supervisors, and many graduates from RAMS' training program become community and academic leaders in the mental & behavioral health field, known both nationally and internationally, further disseminating culturally competent theories and practice.

For the Filipino outreach, engagement and counseling services, RAMS has hired a full-time bilingual and bicultural Mental Health Counselor who is experienced with working with children, youth and their families and especially with the Filipino community, as well as a part-time bilingual and bicultural Filipino Peer Counselor to provide further outreach and engagement of Filipino families and community providers.

F. For Indirect Services: Describe how your program will deliver the purchased services.

CYF provides services and/or support for those who are not yet clients through various modalities including psychoeducation and outreach presentations to enhance knowledge of mental health issues. Services are provided on-site as well as in the community. Furthermore, there is targeted outreach to the Filipino community.

RAMS Filipino services staff are stationed at community organizations and schools that serve predominant Filipino children, youth and families, to develop relationship with the organizations, families and communities, to provide outreach, engagement, psychoeducation (including anti-stigma), and consultation.

7. Objectives and Measurements

All objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS CYF Performance Objectives FY 14-15.

8. Continuous Quality Improvement

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about Plan of Care timelines. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director monitors treatment progress (level of engagement after intake, level of accomplishing treatment goals/objectives), treatment discharge reasons, and service utilization review. RAMS also conducts various random chart reviews to review adherence to objectives as well as treatment documentation requirements. Furthermore, RAMS maintains ongoing communication with the Filipino services staff and the Filipino community and organizations to solicit feedback to improve our services.

B. Quality of documentation, including a description of internal audits

The program utilizes various mechanisms to review documentation quality. To ensure documentation timeliness (especially given the more complex timeframes for CYF system of care documentation), RAMS has developed its own internal tracking form. Furthermore, on a regularly scheduled basis, clinical documentation is reviewed by the service utilization committee (e.g. PURQC) which is comprised of the Program Director (licensed marriage & family therapist), Training Director (licensed psychologist), ED Partnership Manager (licensed psychologist and direct service practitioner), and other senior staff. Based on their review, the committee determines service authorizations including frequency of treatment and modality/type of services, and the match

to client's progress & clinical needs; feedback is provided to direct clinical staff members. Clinical supervisors also monitor the treatment documentation of their supervisees; staff may meet from weekly to monthly intervals with their clinical supervisors to review caseload with regard to intervention strategies, treatment plans & progress, documentation, productivity, etc. Psychiatry staff also conducts a peer chart review in which a sampling of charts is reviewed with feedback.

In addition to the program's documentation review, the agency's Quality Assurance Council conducts an annual review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback will be provided directly to staff as well as general summaries at staff meetings.

C. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes weekly in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles), monthly grand rounds, and monthly case conferences. Trainings are from field experts on various clinical topics; case conference is a platform for the practitioner to gain additional feedback regarding intervention strategies, etc. Professional development is further supported by individual clinical supervision (mostly weekly; some are monthly); supervisors and their supervisees' caseload with regard to intervention strategies, treatment plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of treatment indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of treatment engagement (intake show rate; referral source; engagement after intake; number of admissions; treatment discharge reasons; and service utilization review)
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed
- Development of annual objectives based on cultural competency principles; progress on objectives are reported by Program Director to executive management in monthly report, as applicable. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program

Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. Human Resources also conduct exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.

- RAMS Quality Assurance Council meets quarterly and is designed to advise on program quality
 assurance and improvement activities; chaired by the RAMS Director of Operations, the membership
 includes an administrator, director, clinical supervisor, peer counselor, and direct services staff.
 Programs may also present to this council to gain additional feedback on quality assurance activities and
 improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters

D. Satisfaction with services

RAMS adheres to the CBHS satisfaction survey protocols which include dissemination annually or biannually. Results of the survey are shared at staff meetings, reviewed by the RAMS Quality Assurance Council, and reported to executive management. Furthermore, the program maintains a Youth Council, which meets monthly, and provides feedback on program services. All satisfaction survey methods and feedback results are compiled and reported to executive management along with assessment of suggestion implementation. Anonymous feedback is also solicited through suggestions boxes in the two client wait areas; the Office Manager monitors the boxes and reports any feedback to the Program Director who also includes it in the monthly report to executive management. On an annual to biennial basis, clients attend RAMS Board of Directors meetings to share their experiences and provide feedback.

E. Timely completion and use of outcome data, including CANS

As described in the previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive treatment outcomes. Furthermore, in regards to CANS data, upon receipt of CBHS-provided data and analysis reports, the Program Director along with RAMS executive management review and analyze the information. Specifically, management reviews for trends and any significant changes in overall rating scales. Analysis reports and findings are also shared in staff meetings and program management/supervisors meetings. The analysis may also assist in identifying trainings needs.

3. Goal Statement

The program provides on-site, school-based mental health services for students with an "Emotional Disturbance" (ED) and other special education students that have identified mental health needs (i.e., ERMHS status). Major goals of School-Based Mental Health Partnership (SBMHP) programs include the prevention or referrals of ED youth to more restrictive settings, involvement of parents and caregivers in their children's education and services, and support to teachers/classroom/school environments to increase student engagement in learning and school connection. Partnerships necessarily involve collaboration with school officials, caregivers and youth themselves to promote and increase developmental assets and school engagement.

4. Target Population

The program serves San Francisco Unified School District (SFUSD) Denman, Herbert Hoover, and Presidio Middle Schools as well as George Washington, Mission, Galileo, and Balboa High Schools. The SBMHP provides vital access to mental health services for emotionally disabled (ED) youth and their families and support to the school personnel who work with them. Many of these students have been identified as having mental health needs that are interfering with their ability to learn (i.e., ERMHS) and are seen on site by SBMHP clinicians. Many of these students and families would not be served in the outpatient clinic setting due to transportation and other access issues.

Services may also include students (with ERMHS status) involved in SOAR class or other Learning Disabled (LD) programs experiencing mental health difficulties that are impacting their ability to learn, who could potentially be diagnosed ED without intervention.

5. Modality(ies)/Interventions

See CBHS Appendix B, CRDC pages.

6. Methodology

A. Outreach, recruitment, promotion, and advertisement as necessary.

RAMS Director of CYF Outpatient Services Clinic and/or School-Based Mental Health Partnership (SBMHP) Manager and Behavioral Health Therapists/Counselors (including psychologists, social workers, marriage & family therapists, etc.) meet with school personnel (principal or designee, special education director, and special education teachers) in the beginning and end of each school year, as needed, and ongoing for outreach to and recruitment of children/youth who qualify for services. This may include but is not limited to active participation/presentation in at least one SPED department meeting.

SBMHP Manager and/or Behavioral Health Therapists/Counselors participate in meetings (e.g. IEPs, staff meetings, etc.) that students' parents/caregivers attend to discuss services, provide psycho-education, and develop relationships to support student participation in services.

RAMS outreach, engagement and retention strategies include, but are not limited to:

- Relationship Development: Developing rapport with school staff, students & families based on behavioral/mental health training & background including: using active listening skills, awareness of non-verbal communication, empathy; understanding of child development, multifaceted cultural identity, & recognizing clients' unique strengths and needs.
- <u>Classroom Observation</u>: Direct observation of behavior impeding client's ability to learn and teachers' response to these behaviors allows for assessment of the strengths and needs and for development of specific intervention plans with teachers, clients, and families.
- <u>Staff Development/Consultation with Teachers and Paraprofessionals</u>: Educate school staff regarding behavioral/mental health issues and how they impact client's behavior. Provide them with tools to engage students, recognizing their particular strengths and needs.
- <u>Client Consultation/Psycho education</u>: Providing education and/or consultation to clients, families & communities regarding ED/SDC/LD classification & behavioral/mental health issues/services to address negative associations, and engage and retain student participation.
- <u>Asset Building</u>: Linkage of students to significant adult and community supports including mentors, community organizations, and participation in meaningful extracurricular activity.

- <u>"Push In" Groups:</u> Working in SOAR classrooms with students, teachers and paraprofessionals to engage students in social skills training programs to develop pro-social skills, frustration tolerance, and empathy development.
 - B. Admission, enrollment and/or intake criteria and process where applicable.

Children/youth in SOAR classrooms, with Educationally Related Mental Health Services (ERMHS) status, or other special education classes are referred by school personnel to the on-site RAMS Therapists/Counselors.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

RAMS counselors provide on-site mental health services to the students referred for services. Each counselor dedicates 12 hours per week per partnership, for behavioral/mental health services (at least eight hr/wk on-site). RAMS counselors provide at least: 20 hours of on-site services at George Washington and Galileo High Schools, 16 hours of on-site services at Mission and Balboa High Schools, and 20 on-site hours at Denman, Presidio, and Hoover Middle Schools, when schools are in operation (including summer school). Depending on the IEP, students may receive behavioral/mental health services at RAMS Outpatient Clinic when school is not in operation in an effort to provide continuity of care.

Initial assessment, individual therapy, group therapy, family therapy, case management, collateral and crisis intervention are treatment options, as clinically indicated. Outreach, milieu services, and consultation to the school personnel are provided as indirect services. A child/youth may be referred for medication evaluation & support services at the RAMS Outpatient Clinic, when necessary. Length of stay varies, depending on the review of treatment plan of care and the Individualized Educational Plan. Child/youth may be seen twice a week for high intensity need, and may reduce to once a month for maintenance level need.

RAMS counselors work collaboratively with caregivers, school officials, other service providers, and community groups to help maximize students' internal and external resources and supports. RAMS counselors include those trained in Second Step and providing "push in" groups in the classrooms. A plan for implementation of these programs is agreed upon at the beginning of the school year with school administration and staff and submitted to CBHS. Milieu services from the onsite SOAR clinician is also a significant aspect of service delivery. Milieu clinicians are responsible for aiding in the day-to-day functioning of the classroom environment which includes: classroom observation, implementation of behavioral support plans for students, de-escalation of students, consultation with teachers and para-professionals, and taking a leadership role in modeling effective classroom management skills.

D. Describe your program's exit criteria and process, e.g. successful completion

The type and frequency of services are tailored to the client's acuity & risk, functional impairments, and clinical needs, in accordance with the IEP, and reviewed by the clinical authorization committee and in consultation with SFDPH CBHS. Because of limited mental health resources, coupled with the need to promptly serve many newly referred acute clients, the program consistently applies utilization review and discharge/exit criteria to alleviate increasing caseload pressure, and to prioritize services to those most in need.

RAMS Therapists/Counselors, along with school personnel, determine students' exit criteria and process & procedure at the students' Individualized Education Plan (IEP) meetings. Providers consider such factors as: risk of harm, functional status, psychiatric stability and risk of decompensating, progress and status of Care Plan objectives, medication compliance, and the client's overall environment such as culturally and linguistically appropriate services, to determine which clients can be discharged to a lower level of care and/or be referred. Furthermore, clients' transferring to other schools is also in consideration.

E. Program staffing

See CBHS Appendix B.

F. For Indirect Services: Describe how your program will deliver the purchased services.

RAMS provides services/support for those who are not yet clients and outreach presentations/enhancing knowledge of mental health issues and services. Services are provided on-site at the schools.

7. Objectives and Measurements

All objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS CYF Performance Objectives FY 14-15. Due to the nature of services and setting, the program is exempt from Objective D6. Timely Access.

8. Continuous Quality Improvement

A. Achievement of contract performance objectives

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about Plan of Care timelines. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). RAMS also conducts various random chart reviews to review adherence to objectives as well as treatment documentation requirements.

B. Quality of documentation, including a description of internal audits

The program utilizes various mechanisms to review documentation quality. To ensure documentation timeliness (especially given the more complex timeframes for CYF system of care documentation), RAMS has developed its own internal tracking form. Based on their review, the committee determines service authorizations including frequency of treatment and modality/type of services, and the match to client's progress

& clinical needs; feedback is provided to direct clinical staff members. Clinical supervisors also monitor the treatment documentation of their supervisees; most staff meet weekly with their clinical supervisors to review caseload with regard to intervention strategies, treatment plans & progress, documentation, productivity, etc. Psychiatry staff also conduct a peer chart review in which a sampling of charts are reviewed with feedback.

In addition to the program's documentation review, the agency's Quality Assurance Council conducts an annual review of randomly selected charts to monitor adherence to documentation standards and protocols.  Programs may also present to this council to gain additional feedback on quality assurance activities and
 improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters

D. Satisfaction with services

RAMS adheres to the CBHS satisfaction survey protocols which include dissemination annually or biannually. Results of the survey are shared at staff meetings, reviewed by the RAMS Quality Assurance Council, and reported to executive management. Furthermore, the program maintains a Youth Council, which meets monthly, and provides feedback on program services. E. Timely completion and use of outcome data, including CANS

As described in the previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive treatment outcomes. Furthermore, in regards to CANS data, upon receipt of CBHS-provided data and analysis reports, the Program Director along with RAMS executive management review and analyze the information. Specifically, management reviews for trends and any significant changes in overall rating scales. Analysis reports and findings are also shared in staff meetings and program management/supervisors meetings. The analysis may also assist in identifying trainings needs.

3. Goal Statement

To provide integrated behavioral health and case management services at 15 of the high school-based Wellness Centers and intensive case management services to court-ordered youth on probation at Civic Center High School. Student outcomes are: improved psychological well-being, positive engagement in school, family & community, awareness & utilization of resources, and school capacity to support student wellness.

For intensive case management services afterschool at 1 high school through the San Francisco Achievement Collaborative Team to juveniles on probation, student outcomes are: reduce recidivism, reduce substance abuse, and increase academic success.

4. Target Population

The target population includes 16 SFUSD high schools (e.g. students & families; administrators & teachers), focusing on students with behavioral health concerns. Many are referred for concerns relating to mood, behavior, and other adverse circumstances. Outreach is also to those who may benefit from case management, who are dealing with trauma/grief & loss, or families with limited resources. Services are provided on-site at schools (zip codes listed in section 1). Additionally, RAMS serves Early and Periodic Screening Diagnosis and Treatment (EPSDT) eligible residents who are not currently served by the SF community mental health system. EPSDT is a required benefit for all "categorically needy" children (e.g. poverty-level income, receiving SSI, or receive federal foster care or adoption assistance). This group reflects the greater health needs of children of low-income and with special health needs qualifying them for assistance. All San Franciscans under the age 21 who are eligible to receive the full scope of Medi-Cal services and meet medical necessity, but who are not currently receiving the same model of mental health services and not receiving services through capitated intensive case management services, i.e. Intensive Case Management, are eligible for EPSDT services. Services are provided at the RAMS Outpatient Clinic (94121) and in the community (e.g. on-site at San Francisco Unified School District schools).

The SF Achievement Collaborative Team at Civic Center Secondary School is an afterschool, intensive outpatient treatment program that serves qualified youth on probation. Eligibility is determined through a collaborative screening process that includes MH, school and legal teams.

6. Methodology

RAMS Wellness Centers program's model and treatment modalities are based on a client-centered, youth-focused, strength-based model with an inter-relational approach. As adolescent students present with a wide scope of issues (e.g. mental health, substance use/abuse, diverse ages, ethnicity, sexuality, socio-economic status), service provision must be comprehensive to assess and respond, while de-stigmatizing therapy and establishing trust. In doing so, RAMS incorporates various culturally relevant evidence-based practices (e.g. Motivational Interviewing, Stages of Change, Brief Intervention Sessions, Beyond Zero Tolerance, Seeking Safety, Trauma-Focused Cognitive Behavioral Therapy), for in working with adolescents.

The SF-ACT program is an intensive outpatient, afterschool, structured, multi-phased, incentivized group program working toward building social, emotional & relational skills as well as substance abuse intervention/prevention. The program uses the Aggression Replacement Training modules, Motivational Interviewing, Stages of Change and models such as Seeking Safety, a group curriculum addressing trauma & substance abuse as well as the 7 Challenges curriculum to address substance abuse. All curriculums have evidence to support their efficacy with working with the adolescent populations.

A. Outreach, recruitment, promotion, and advertisement as necessary.

Facilitated by RAMS staff and interns, outreach & educational activities for students, families, and teachers are on various behavioral health issues (e.g. presentations at school meetings, participating in parent meetings, Back to School Nights, and PTSA meetings); and collaborating with Wellness staff in outreaching to students including general population as well as specific/targeted, hard to reach communities (e.g. LGBTQ, Chinese, gang-involved) by conducting various activities such as presentations (student orientation, classrooms, assemblies, and health fairs), contributing articles to the Wellness Newsletter, participating in student clubs & associations (culture/interest-based and student government), and other methods (e.g. connecting with Peer Resource, drop-in hours).

Behavioral health outreach, awareness, promotion, and educational services are provided to the entire student population, as requested by each school site. Outreach also includes trainings to staff & parents as requested and in doing so, counselors also develop an outline for the presentation which is formatted so that other sites can utilize it. RAMS also utilizes its social networking capability and advertises its services, events and program highlights via RAMS public blogging and Facebook page.

B. Admission, enrollment and/or intake criteria and process where applicable.

For the Wellness Centers program, students are referred to Wellness Center services by school staff, i.e teachers, academic counselors, deans, etc.; parents; or students themselves. Each student referred receives an assessment. The program primarily utilizes the an assessment tool based on the HEADSS model (Home, Education/Employment, Activities, Drugs, Sexuality, and Safety) which identifies protective and risk factors in each area. HEADSS is an adolescent-specific, developmentally appropriate

psychosocial interview method that structures questions so as to facilitate communication and to create an empathetic, confidential, and respectful environment. RAMS assesses students for appropriateness of services modality, frequency, and accessibility (location, schedule). RAMS provides services on-site at the Wellness Centers as well as off-site by other community program providers (including RAMS Outpatient Clinic). The type, frequency, and location (on- or off-site) of services are tailored to the client's acuity & risk, functional impairments, and clinical needs as well as accessibility to community resources (e.g. family support, insurance coverage, ability to pay if needed).

For the SF-ACT program, students can be referred by probation officers, attorneys, public defenders, judges, parents, schools, treatment providers etc. Each student receives a CANS assessment by SF-AIIM Higher, a DPH provider that is part of the collaboration. Youth must be ages 14-18, have ongoing issues with substance abuse, significant emotional and behavioral risks, be at-risk for out-of-home placement and be capable of participating in program and treatment activities. Youth must also be approved my legal team that includes judge, public defender and district attorney of the Collaborative Court.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

For the Wellness Centers Program, counselors are on-site from the beginning of the school day to 30 minutes after school. (8am – 4pm) During a crisis, the Counselor may stay longer to assist with care transition (e.g. Child Crisis), in consultation with the RAMS Director of Behavioral Health Services, Clinical Supervisor and Wellness Center team. During school breaks, RAMS offers direct services (counseling, case management, crisis intervention) at various locations (e.g., summer school, RAMS Outpatient Clinic, and in the community).

The RAMS model of Wellness services' treatment modalities & strategies include: multi-lingual and multi-cultural behavioral health (mental health & substance abuse) assessment and individual & group intervention (short, medium, & long-term counseling, collateral); crisis intervention; substance use/abuse services (primary and secondary prevention and outpatient services); clinical case management and service coordination & liaison (community providers, emergency support services); consultation; outreach & educational activities for students & parents and teachers; and collaborating with Wellness staff in outreaching to students including general population as well as specific/targeted, hard to reach communities. Furthermore, RAMS provides at least one ongoing behavioral health group at 12 of the 16 high school-based Wellness Centers, at minimum. Examples include, but are not limited to: Anger Management, Life Skills, Mindfulness, 9th grade Transition group, Senior Transition group, etc. The RAMS model focuses on short-term behavioral health counseling and case management services, with longer durations to be assessed in consultation with RAMS supervisors and Wellness team. RAMS Counselors work within the school-based Wellness team under the direction of the Wellness Coordinator and RAMS supervisors.

For clients receiving EPSDT services, the Child and Adolescent Needs and Strengths (CANS) assessment tool is used. The Counselor, in consultation with her/his Clinical Supervisor and/or Program Director, determines clinical and treatment needs and planning (goal development) throughout the service delivery process (informed by the assessment tool data) weighing risk factors that can prompt more immediate onsite services with short term counseling (one to five sessions), medium length (six to 11 sessions), or long term counseling (12 or more sessions, requires DSM diagnosis and potential decompensation). Case reviews by the Clinical Supervisors and/or Program Director are conducted, at minimum, at each service interval (sixth session, 11th session, 20th session, etc.).

Referrals to off-site services are indicated when:

- Students/family have private/public insurance that covers behavioral health services
- Students referred for services at the end of the school year and/or about to graduate high school
- Students requiring more than once a week counseling (e.g. high risk with suicidal/homicidal ideation; psychosis, etc.) to be linked with a higher levels of care in the community
- Students/families can connect with community services with little or no accessibility barriers

SF-ACT programming is comprised of three phases that are each nine weeks in duration (ACT I, ACT II, ACT III). Each ACT is comprised of group programming that occur afterschool at Civic Center Secondary School from 2pm – 6pm. Each day of the week there are two groups – a community group that serves to give students an opportunity to build connections with each other and a venue to discuss client centered issues. Following the community group is either a substance abuse focused group or ART focused group. There is also space for students to work on academics. Students move through each ACT by succeeding in active, engaged participation that is measured through progress, behavior charts that are incentivized for success. Each student, in addition to intensive group services, also receives individual therapy and family therapy (if needed), and case management services.

D. Describe your program's exit criteria and process, e.g. successful completion.

For the Wellness Centers Program, disposition of all cases are conducted in accordance to clinical standards of care, in collaboration with the client and family (and other parties involved), and through providing follow-up and/or referral information/linkage. For clients with ongoing care, termination or step-down process to less intensive treatment services begins when a child/youth has met all or majority of the target goals in the Plan of Care, when his/her target symptoms have decreased or alleviated, and he/she can function at his/her developmental expectation. Stressors are also considered whether the child/youth may decompensate if service is terminated or stepped-down. Students may be referred for other behavioral/mental health or case management services for short-term, early intervention, or assessment only. RAMS counselors take part in ensuring that continuity of care takes place when students transfer or graduate from high school.

For SF-ACT, students must successfully engage with all three ACTs or successfully complete the terms of their probation.

E. Program staffing.

See CBHS Appendix B.

RAMS Wellness Centers Program services are provided by: Behavioral Health Therapists/ Counselors, Clinical Case Managers, Trauma/Grief & Loss Group Counselor, six graduate student interns, and volunteers. All staff/interns have a Clinical Supervisor and overall program oversight is the responsibility of the Director of Behavioral Health Services/Program Director.

RAMS Wellness Centers Program maintains a school-based internship program; during FY 2014-15, there are six graduate student interns (counseling) and four volunteer counselors who hold masters degrees in a mental health discipline and are Marriage & Family Therapist Interns. All interns/volunteers are providing behavioral health services on-site; each intern/volunteer is supported in their learning process, receiving weekly clinical individual and group supervision, and didactic seminars. These internships are unpaid positions.

SF-ACT is staffed by a full time Program Manager, one full time Senior Case Manager, and one full time Clinical Case Managers. All participate in leading group, individual, and family work.

F. Mental Health Services Act Programs

1. Consumer participation/engagement: Programs must identify how participants and/or their families are engaged in the development, implementation and/or

RAMS is committed to consumer involvement and community input in all elements of program operations, including planning, implementation, and evaluation. This process ensures quality programming, increases effectiveness, and culturally competency. The best informant for the culturally relevant curriculum & program development is the target population, themselves. Effective activities at school-based programs that inform service delivery include: focus groups & meetings with students, families, and school administrators & teachers to identify & address the school's needs and best practices; anonymous surveys; coordinate a Student Advisory Committee; and engage & foster relationships with consumer community at convenient & easily-accessible venues/platforms (e.g. staff development trainings, PTSA meetings, "free periods," hosted lunch hour events). All meeting outcomes, evaluations, and reviews are reported to RAMS executive management along with any action plans (e.g. adjustment of service strategies in consideration of cultural relevancy and school-based setting). Furthermore, the RAMS Youth Council meets monthly during school year to provide continuous feedback of RAMS service delivery to children and youth.

2. MHSA Vision: Providers have the attitudes, knowledge and skills needed to understand, communicate with, and effectively serve people across cultures.

RAMS is recognized as a leader in providing culturally competent services (inclusive of providers having the attitudes, knowledge, and skills needed to understand, communicate with, and effective serve people across all cultures), and our programs' breadth, depth, and extensiveness have afforded the agency with a highly regarded reputation. It is an integral aspect for organizational and program development, planning, polices & procedures, service implementation, staff recruitment & employment practices, and outreach & referral. Furthermore, as demonstrated by its history and current diverse workforce, RAMS effectively recruits, hires, and retains staff that appropriately reflects cultural and linguistic diversity of the client population. The staff possesses the attitudes, knowledge, and skills to understand, communicate with, and effectively serve individuals across all cultures. When providing services to clients, providers consider all cultural components of the individual including her/his immigration generation, level of acculturation, accessibility of resources & support, and other factors (e.g. age, race/ethnicity, sexuality, socio-economic status, academic needs, neighborhood/defined community, etc.). As such, service delivery is strengths-based, adaptable & flexible, individual and group counseling is provided in the student(s)'s primary/preferred language(s), and involves family participation (as appropriate).

RAMS Wellness capacity includes Spanish, Cantonese, Mandarin, Hakka, Taiwanese, and Samoan as well as can easily access the agency's enhanced capacity of 30 languages (Asian languages, and Russian). As part of RAMS' efforts to support and further enhance the professional development of its staff (including effective engagement strategies), RAMS consistently coordinates for various trainings such as: school-based program-specific trainings, weekly didactic trainings on culturally specific issues, monthly children & youth case conferences, and weekly Wellness program case conferences (only during summer). The RAMS Wellness program also retains a particular expert to provide consultation and facilitate discussions on systemic, macro-level issues that impact the youth and their community. Training topics are determined in various manners including a needs assessment/survey, emerging issues

of clients (e.g. internet addiction), evidenced-based models of care, staff meetings, and feedback from direct service providers and clinical supervisors. Emerging client issues can also be identified through the Wellness database and tracking system that RAMS has developed in which there are "issue codes" that are associated to each session; thus, compiling data to identify prevalent matters. In addition, there is an ongoing selection of topics that are provided to ensure retention and enhancement of youth-focused strategies trainings (e.g. intermediate level Motivational Interviewing). RAMS Wellness administrators also meet with Wellness Initiative and School Health representatives monthly and discuss training topics and gaps in skills and services to plan training not only for RAMS Wellness staff, but for Wellness Initiative and school personnel.

7. Objectives and Measurements

- A. Standard Objectives: All objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS CYF Performance Objectives FY 14-15.
- B. Individualized Program Objectives
- 1. MHSA GOAL: Increased ability to manage symptoms and/or achieve desired quality-of-life goals as set by program participants
 - a. *Individualized Performance Objective*: Upon case closure, 75% of youth will indicate that they have met their goals, which are collaboratively developed between the provider and youth; this will be evidenced by case closing surveys.
- 2. MHSA GOAL: Increased inter-dependence and social connections (within families and communities)
 - a. Individualized Performance Objective: Upon case closure, 75% of youth will indicate improvements in their life, specifically with regard to family and/or community (e.g. school, friends); this will be evidenced by case closing surveys.
- 3. MHSA GOAL: Increased ability to cope with stress and express optimism and hope for the future
 - a. *Individualized Performance Objective*: Upon case closure, 75% of youth will indicate improvements to their coping abilities; this will be evidenced by case closing surveys.
- 4. MHSA GOAL: Program satisfaction
 - a. *Individualized Performance Objective*: Upon case closure, 85% of youth will express overall satisfaction with services; this will be evidenced by case closing surveys.

8. Continuous Quality Assurance and Improvement

A. Achievement of contract performances objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about recording client's primary care provider at case opening in Avatar. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is collected in real time, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing

Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director monitors treatment progress (level of engagement after intake, level of accomplishing treatment goals/objectives), treatment discharge reasons, and service utilization review. RAMS also conducts various random chart reviews to review adherence to objectives as well as treatment documentation requirements.

B. Quality of documentation, including a description of internal audits

The program utilizes various mechanisms to review documentation quality. Client charts are reviewed by clinical supervisors at 6 (brief), 12 (medium intensity) and 20 session (long term) for quality, thoroughness, accuracy and appropriateness of continuation of services. Long-term cases are reviewed by clinical supervisor and Director of Behavioral Health Services/Program Director, on at least, a quarterly basis. RAMS maintains a system/procedure to ensure that majority of clients receive short-term interventions and that clients receiving medium to long-term interventions are monitored. On-site services are generally provided to those exhibiting high level of need and whose school attendance is conducive to regular sessions. In addition, two internal audits of charting occur annually — one peer review and one conducted by the director — to monitor compliance to legal and ethical standards of care.

In addition, on a regularly scheduled basis, clinical documentation is reviewed by the service utilization committee (e.g. PURQC); based on their review, the committee determines service authorizations including frequency of treatment and modality/type of services, and the match to client's progress & clinical needs; feedback is provided to direct clinical staff members. Clinical supervisors also monitor the treatment documentation of their supervisees; most staff meet weekly with their clinical supervisors to review caseload with regard to intervention strategies, treatment plans & progress, documentation, productivity, etc. Psychiatry staff also conduct a peer chart review in which a sampling of charts are reviewed with feedback.

In addition to the program's documentation review, the agency's Quality Assurance Council conducts an annual review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback will be provided directly to staff as well as general summaries at staff meetings.

C. Cultural Competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles) and case conferences. Trainings are from field experts on various clinical topics; case conference is a platform for the practitioner to gain additional feedback regarding intervention strategies, etc. Professional development is further supported by individual clinical supervision; supervisors and their supervisees' caseload with regard to intervention strategies, treatment plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency

- training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of treatment indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of treatment engagement
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed
- Development of annual objectives based on cultural competency principles; progress on
 objectives are reported by Program Director to executive management in monthly report, as
 applicable. If the projected progress has not been achieved for the given month, the Program
 Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. Human Resources also conduct exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Assurance Council meets quarterly and is designed to advise on program quality
 assurance and improvement activities; chaired by the RAMS Director of Operations, the
 membership includes an administrator, director, clinical supervisor, peer counselor, and direct
 services staff. Programs may also present to this council to gain additional feedback on quality
 assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters

D. Satisfaction with services

RAMS adheres to the CBHS satisfaction survey protocols which include dissemination annually or biannually. In addition, the program administers its own satisfaction survey, at case closure (for youth seen for more than six sessions) which include questions around meeting treatment goals, life improvement, and perspectives about counseling. Furthermore, the program conducts focus groups to solicit feedback on services as well as administers satisfaction surveys to students and school staff, to determine areas of strength and challenges to programming. Results of the satisfaction methods are shared at staff meetings, reviewed by the RAMS Quality Assurance Council, and reported to executive management. Furthermore, the agency maintains a Youth Council, which meets monthly, and provides feedback on program services. All satisfaction survey methods and feedback results are compiled and reported to executive management along with assessment of suggestion implementation. On an annual to biennial basis, clients attend RAMS Board of Directors meetings to share their experiences and provide feedback.

E. Timely completion and use of outcome data, including CANS

As described in the previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive treatment outcomes. Furthermore, in regards to CANS data, upon receipt of CBHS-provided data and analysis reports, the Program Director along with RAMS executive management review and analyze the information. Specifically, management reviews for trends and any significant changes in overall rating scales. Analysis reports and findings are also shared in staff meetings and program management/supervisors meetings. The analysis may also assist in identifying trainings needs.

3. Goal Statement

RAMS Fu Yau Project's goal is to prevent emotional disturbance and provide early intervention for children, prenatal to five years old, in San Francisco. RAMS strives to improve the social and emotional well-being of children by providing them, their families, and their childcare providers, on a weekly or monthly basis, with mental health consultation and early intervention services as delivered by highly skilled and culturally competent professionals.

4. Target Population

The Fu Yau Project targets young children from prenatal to five years old, who are from low-income families. These families include TANF and CalWORKs recipients, the working poor, and recent or new immigrants and refugees residing in San Francisco. The geographic locations include all 11 districts in San Francisco. Families who are of low income and have limited or no English-speaking ability tend to have little or no access to culturally appropriate mental health services. Because the links between race, ethnicity, language, and socioeconomic status are inextricable, the target populations of the Fu Yau Project are the underserved, low-income families of color in San Francisco. This may include African-American families and immigrants from Asia and Latin America.

Richmond Area Multi Services, Inc. Appendix A-4 7/1/15

^{*} Fu Yau is not currently providing regular services to Happy Shalom School because they requested to only have direct services for individual children. Kai Ming, Inc. has opened a new site, named St. Luke's, and they have asked Fu Yau to provide consultation for the program. Hours will be reduced at Kai Ming Richmond to accommodate their request.

5. Modality(ies)/Interventions

Fu Yau Project establishes a Site Agreement with <u>each</u> respective site served (child care, family resource centers, etc at the beginning of each fiscal or academic year, whichever is most appropriate. Each Site Agreement includes the following information:

- Site information to which the Site Agreement applies
- The term of the Site Agreement
- Number of on-site consultation hours per week
- Agreed upon services that the consultant will provide
- Agreed upon client/site roles and responsibilities
- · Agreed upon day and time for regular group consultation meeting
- Schedule of planned review of Site Agreement document
- Signature lines for Consultant, Site Director/Manager, Contractor Program/Project Director

Once the Site Agreement is completed and signed by all parties, a copy of the document is sent to the CBHS ECMHCI Program Director no later than November 15.

Modalities:

- Consultation Individual: Discussions with a staff member on an individual basis about a child or a group of children, including possible strategies for intervention. It can also include discussions with a staff member on an individual basis about mental health and child development in general.
- Consultation Group: Talking/working with a group of three or more providers at the same time about their interactions with a particular child, group of children and/or families.
- Classroom/Child Observation: Observing a child or group of children within a defined setting to inform consultation services to teachers/staff/parents.
- Staff Training: Providing formal and informal trainings to a group of three or more staff at a site. Trainings may be site specific, or for an entire child care organization with multiple sites.
- Parent Training Support Group: Providing structured, formal training to a group of three or more parents on a specific topic. Can also include leading a parent support group or a parenting workshop series such as Triple P.
- Early Referral Linkage: Includes linkage of children and families to additional community resources such as SFUSD Special Education Dept. or Golden Gate Regional Center.
- Consultant Training/Supervision: Ongoing supervision of consultants both individually and in groups, as well as a variety of training offered to consultants as a whole or through individual contractors
- Evaluation: Activities conducted to assess the progress of any agency towards meeting the stated goals and objectives for the Early Childhood Consultation Initiative. Can also include time spent complying with the CBHS-initiated evaluation efforts.
- Systems work: Participating on other coordination efforts/teams to expand the capacity of providers who work with young children and their parents to prevent, recognize, and manage the mental health and behavioral issues in children 0 5, enhance the development of inclusive practices in early care and education sites, and continuous quality improvement. This includes being a participating member of the Transdisciplinary teams that are part of the Center for Inclusive Early Education, coaching and consultant collaborative meetings, SF Quality Partnership meetings, etc.
- Early Intervention Services Individual: Activities directed to a child, parent, or caregiver that are not Mental Health Services. Activities may include, but are not limited individual child interventions such as shadowing or 1:1 support, meetings with parents/caregivers to discuss their concerns about their child's development and/or to explore parenting practices that could be used at home, developmental screening and/or assessment, and referrals to other agencies. These services are intended for children who have social or emotional problems that place them at risk for expulsion.

- Early Intervention Services Group: Conducting therapeutic playgroups/play therapy/socialization groups involving at least three children. Groups are intended to teach children social skills such as sharing and communicating effectively, affect regulation, and improve their ability to cooperate with peers and adults. Groups will be led by a mental health consultant, and/or a staff member from the site, if necessary and possible. Interventions are informed by the Ages and Stages Questionnaire (ASQ) or the Ages and Stages Questionnaire-Social Emotional (ASQ-SE). Service will only be delivered after parents/guardians have given their written consent and after consultation with staff at the site.
- Mental Health Services-Individual/Family: Therapeutic services for individual children and/or their family. Services are intended to address the mental health needs of children who need more support than what is offered through Early Intervention Services. Treatment is based on the child's diagnosis and focuses on symptom reduction to improve functioning. Family therapy will include the identified child. An assessment and Plan of Care, which will describe the goals and interventions, will be completed to inform treatment. Parents/guardians will also be involved in the consultation process when this intensity of service is being considered. Parent/guardian consent will be needed prior to the start of services.
- Mental Health Services-Group: Group therapeutic service that focuses on reducing the symptoms of a diagnosable mental health problem, which is impairing their functioning. The group modality will be used for those children whose mental health concerns would be improved through the experience of interacting with peers who may have similar concerns. An assessment and Plan of Care, which will describe the goals and interventions, will be completed to inform treatment. Parents/guardians will also be involved in the consultation process when this intensity of service is being considered. Parent/guardian consent will be needed prior to the start of services.

6. Methodology

A. Outreach, recruitment, promotion, and advertisement as necessary.

Fu Yau Project currently has Site Agreements with several large, state and federally funded child-care organizations (e.g. Head Start and San Francisco Unified School District). Fu Yau (FY) also works with community-based, non-profits such as Glide Child Care Center and Gum Moon Asian Women Resource Center/Asian Family Support Center. FY's reputation is well known throughout the city so requests for consultation are often the result of word-of-mouth. Providers also respond to program/project brochures, which are distributed at various community outreach events attended by Fu Yau Consultants. The Project also participate in functions, such as conferences and trainings that allow the team the opportunity to discuss services and the mental health needs of children ages 0-5 with other professionals in the childcare & mental health fields, and the community at large.

B. Admission, enrollment and/or intake criteria and process where applicable.

The Fu Yau Project exclusively collaborates with assigned childcare centers, family childcare providers, and family resource centers. Fu Yau utilizes the internal referral process of the childcare providers when specific families or children need consultation services. Additionally, as a result of clinical observation by Fu Yau Consultants and in consultation with childcare providers, as indicated, families are approached to discuss the outcome of the observation/consultation and are offered services to address the identified needs. Before intensive consultation about individual cases begins, the program requires that the child's legal guardian complete a consent form, as well as the sites' in-house consent forms.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery,

wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

Consultation Services for Sites involve:

- Weekly or biweekly on-site observation and consultation to program
- Observation and consultation on specific, individual children as requested and needed
- In-services training to child care or family resource center staff
- Special events such as staff retreat and/or all day training for child care or family resource center staff as requested and needed
- Case consultation, crisis intervention, mental health intervention, referral and case management of specific children and families
- Consultants provide services during the operating hours of childcare or family resource center sites, usually 4 to 8 hours per week or biweekly between 8 a.m. to 6 p.m., Monday through Friday

Family Involvement – The families are invited to participate in the program through parenting classes. Details are as follows:

- Parenting classes in Chinese, Spanish, and/or English are offered at each site. Topics may include, but are not limited to: child development, discipline, promoting a child's self-esteem, stress management, resources for families, child abuse/domestic violence prevention, dealing with extended families, parent/child relationship, and raising bicultural children.
- Parenting classes usually take place in the early evenings so that the working parents may participate after work. Childcare and refreshments are usually provided.
- Parent support groups usually follow the series of parenting classes, as parents develop a trusting relationship with each other and with the consultant. The frequency of the groups may be from once a week to once a month, depending on the parents' needs.
- Parent Advisory Committee meetings guide us in effectively targeting the concerns and problems of the community. These meetings take place four times a year, on Saturday mornings at Chinatown Child Development Center (CCDC) in Chinatown or at Fu Yau's office, whichever is the most centralized and convenient place for parents to gather. These meetings include one representative from each center and family childcare provider.
- Fu Yau Family Activities are organized at least once a year to provide an opportunity for psychoeducation, discuss parenting issues, and support.
- Fu Yau Parenting Group may be offered, and can meet bimonthly, to discuss parenting issues that related to the socio-emotional well-being of the parents' children. The group is co-facilitated and serves as a forum for parents who benefit from peer support and education. The facilitators offer parenting information and psycho-education.

Direct Services are also provided, which include, but are not limited to:

- Crisis intervention, mental health intervention, referral & linkage to long-term services at community agencies (SFUSD Special Education, Regional Center, Support Center for Families of Children with Disabilities, health and mental health agencies, etc.) for children and families. Most services are delivered at the childcare sites. However, some linkage services may be delivered in the community, and mental health services may be delivered either on-site, at RAMS, depending on the private space available at childcare sites.
- Integrated play therapy groups, with a mixed group of three to 10 children, who have identified mental health issues (e.g., selective mutism, anxiety, under-socialized, etc.), and other "typically" developing children. These groups usually take place in the classroom during small group time or free play time, and last about six to 12 weeks. The size of the group and length of time for the session depends on the issues of the children as well as the program needs.

- Parent/Child play therapy groups, with identified children and their parents, are facilitated by the on-site Fu Yau Consultant and a childcare staff member. This group is a combination of parenting class and children's play therapy group. Parents and children are encouraged to play together with planned activities. Socialization skills and parenting skills are modeled on the spot by the mental health consultant. The size of the group is not more than six to eight pairs in order to maximize the effectiveness of the consultation. This group usually takes place in the late afternoon at the childcare site, to accommodate parents' work schedules.
- Child play treatment groups, with children with identified mental health issues. This group may last for most of the school year duration or be ongoing, involving two to six children who may have behavioral/social emotional concerns/difficulties. This group takes place on-site in the morning or early afternoon, during children's regular playtime.
- Psychiatry services and/or consultation, as needed

Services for Family Childcare Providers include, but are not limited to:

- Monthly psycho-education/support group meeting for providers with several neighborhoods
- Weekly, monthly, or as needed visits and consultation with family child care providers
- Monthly support/education meetings for parents/families of children who attend Wu Yee home-based and Head Start program
- D. Describe your program's exit criteria and process, e.g. successful completion.

Site providers (staff/administrators), Fu Yau Consultants, and the Director of Fu Yau Project meet at least once a year to assess/evaluate the mental health consultation needs of each site. In each of these meetings, the site administrators may choose to refocus the services and/or request to change the intensity of consultation activities. For example, at a particular site, an administrator may choose to move from almost exclusively receiving direct individual/group services to more staff/programmatic consultation or to more work with parents in the form of workshops or trainings. Termination of consultation services will be done after extensive discussion with the site's director, Fu Yau Director, and the ECMHCI Coordinator.

E. Program staffing.

See CBHS Appendix B.

F. For Indirect Services: Describe how your program will deliver the purchased services.

No indirect services are provided.

7. Objectives and Measurements

All objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS CYF Performance Objectives FY 14-15.

8. Continuous Quality Improvement

A. Achievement of contract performance objectives

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about recording client's primary care provider at case opening. With regards to

management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information. In addition, the Program Director monitors service/treatment progress (level of engagement after intake, level of accomplishing treatment goals/objectives), service discharge reasons, and service utilization review. RAMS also conducts various random chart reviews to review adherence to objectives as well as documentation requirements.

B. Quality of documentation, including a description of internal audits

The program utilizes various mechanisms to review documentation quality. On a regularly scheduled basis, clinical documentation is reviewed by the service utilization committee. Based on their review, the committee determines service authorizations including frequency of treatment and modality/type of services, and the match to client's progress & clinical needs; feedback is provided to direct clinical staff members. Clinical supervisors also monitor the treatment documentation of their supervisees; most staff meet weekly with their clinical supervisors to review caseload with regard to intervention strategies, treatment plans & progress, documentation, productivity, etc.

In addition to the program's documentation review, the agency's Quality Assurance Council conducts an annual review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback will be provided directly to staff as well as general summaries at staff meetings.

C. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes weekly in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles) and case conferences. Trainings are from field experts on various clinical topics; case conference is a platform for the practitioner to gain additional feedback regarding intervention strategies, etc. Professional development is further supported by individual clinical supervision; supervisors and their supervisees' caseload with regard to intervention strategies, treatment plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of service indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of treatment engagement
- Site/Client's preferred language for services is noted at initial meeting; during the site/case assignment process, the Program Director matches site/client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed

- Development of annual objectives based on cultural competency principles; progress on objectives are reported by Program Director to executive management in monthly report, as applicable. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. Human Resources also conduct exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this informs the agency's strategic plan.
- RAMS Quality Assurance Council meets quarterly and is designed to advise on program quality
 assurance and improvement activities; chaired by the RAMS Director of Operations, the membership
 includes an administrator, director, clinical supervisor, peer counselor, and direct services staff.
 Programs may also present to this council to gain additional feedback on quality assurance activities and
 improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters

D. Satisfaction with services

RAMS adheres to the ECMHCI satisfaction survey protocols which include dissemination annually or biannually. Results of the survey are shared at staff meetings, reviewed by the RAMS Quality Assurance Council, and reported to executive management. The program maintains a Parent Advisory Meeting (meets at least quarterly) to solicit feedback and support from parents/guardians. Parents are also directly involved in the development of program activities that target the entire parent population of sites covered by Fu Yau Project, share information about the needs of the sites they represent, and then they take what is learned from the meeting back to their sites to assist with the improvement of child care/FRC services. All satisfaction survey methods and feedback results are compiled and reported to executive management along with assessment of suggestion implementation. On an annual to biennial basis, clients attend RAMS Board of Directors meetings to share their experiences and provide feedback.

E. Timely completion and use of outcome data

As described in the previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive service/treatment outcomes. Specifically, the data and other available analysis reports, are reviewed and analyzed by the Program Director along with RAMS executive management. Management reviews for trends and any significant changes in overall rating scales. Analysis reports and findings are also shared in staff meetings and program management/supervisors meetings. The analysis may also assist in identifying trainings needs.

3. Goal Statement

The RAMS Summer Bridge Program intends to: (a) promote awareness, and reduce the stigma, of mental health and psychological well-being in youth and (b) foster interest in the Psychology and community mental health field as a career option for youth from underrepresented backgrounds. This program also supports the Youth Council, which is the Youth Advisory Committee to RAMS, giving youth a voice in the design and implementation of RAMS programming, and further fostering leadership development in youth.

4. Target Population

The target population includes San Francisco's youth, ages 16 to 20, representing diverse backgrounds. RAMS targets 16 to 20 year olds, as these ages are either preparing to apply to colleges, or currently enrolled in college, and exploring their options for further education in Psychology.

At least 90% of each cohort will be of underrepresented communities within the Psychology field (e.g. behavioral health consumers, African-Americans, Latinos, Native Americans, Asian & Pacific Islander Americans, and members of the LGBTQIQ community). Recruitment continue to target high schools in central and southeast side of San Francisco (Burton, June Jordan, Thurgood Marshall, Mission, , etc.) as well as youth organizations like Vietnamese Youth Development Center (VYDC), Samoan Community Development Center (SCDC), College Track, Tenderloin Neighborhood Development Center (TNDC), Mission Graduates, and First Graduate.

5. Modality(ies)/Interventions

Summer Bridge is an eight-week summer mentoring program for youth ages 16 to 20, currently enrolled in or recently graduated from SFUSD high schools; the structure day program is the modality/intervention. The main location of the program is California Institute of Integral Studies, a

psychology graduate school centrally located in San Francisco, and was determined in consideration of accessibility.

RAMS operates this program, with support and partnership of various community organizations (e.g. SCDC, etc.) and higher education institutions (SFSU, CCSF, CIIS). This partnership & collaboration truly provides for a "bridge" of knowledge and expertise. RAMS has expertise in culturally competent mental health services, serving disenfranchised communities, and training the next generation of practitioners. The CBO's and CBHS provide advice to RAMS on programming and assist with outreach to under-represented youth. The higher education institutions allow Summer Bridge participants to experience being in the environment of the university/college/professional school, and meeting the faculty and students which encouraged them to excel academically and become ready for higher education.

The operation of the Summer Bridge crosses over two fiscal years since SFUSD summer break starts in June. The first three weeks of the program is in June, and the next five weeks are in July and August. During the contract year, RAMS will provide/conduct the following modalities:

Wellness Promotion (MHSA activity category)

- At least 20 youth will receive Wellness promotion and education on topics such as Mindfulness, mental health/illness and the recovery model, identity/self-image, addiction), and self-care. We provide a didactic and experiential introduction to these topics over the course of the 8-week program.
- Provide at least 24 hours of activities directly related to wellness promotion and education during Summer Bridge program (3 hours/week for 8 weeks). These activity hours do not include program planning and coordination staff hours.

Workforce Development (MHSA activity category)

- At least 20 youth will receive workforce development skills through participating in the Summer Bridge program. The program includes experiential practice in developing basic counseling skills, including reflective listening.
- Provide at least 100 program activity hours directly to youth intended to develop a diverse and competent workforce; provide information about the mental health field and professions; outreach to under-represented communities; provide career exploration opportunities or to develop work readiness skills; and increase the number of youth consumers and youth who are family members of consumers in the behavioral health workforce. These hours are the Summer Bridge operations (4 hours/day; 3 days/week; 8 weeks total) as well as post-program engagement activities (i.e. reunion). These activity hours do not include program planning and coordination staff hours.

6. Methodology

A. Outreach, recruitment, promotion, and advertisement as necessary.

To participate in Summer Bridge, there is an application and committee review process. Before applications are distributed, MHSA will review and approve the application. As RAMS currently provides services in about 90 sites throughout San Francisco, the agency is uniquely positioned well and has the expertise to outreach & promote the program to culturally & linguistically diverse consumers, underrepresented constituents, and community organizations. RAMS is able to leverage existing resources towards this effort; the agency is the contract provider of behavioral health services for the high school-based Wellness Center (16 public high school sites) and provides behavioral/mental health & outreach services at Balboa Teen Health Center and serves the School-Based Mental Health Partnership

(SBMHP) programs at high & middle schools. RAMS builds upon these existing partnerships with Wellness Centers, schools' administration & student bodies as well as collaborates with SFUSD and partner agencies for program recruitment. Targeted outreach is conducted at schools with the highest prevalence of underrepresented communities (e.g. June Jordan, Downtown, Thurgood Marshall, International, and John O'Connell High Schools.). Furthermore, Summer Bridge graduates and RAMS Youth Council members are peer recruiters at their respective high schools and communities. There is specific outreach and recruitment within partnership organizations (e.g. SCDC) and their respective constituencies and community groups. RAMS also outreaches to other community based organizations that target at risk youth, like College Track, Mission Graduates, and First Graduate. This supports the efforts of the Summer Bridge program with having a participant group that reflects underrepresented communities in the healthcare workforce.

RAMS actively participates in and are members of various culturally-focused community coalitions and/or committees and shall utilize these networks as well as funder entities for outreach & promotion. Such groups include, but are not limited to: SF Department of Public Health, San Francisco Unified School District, SF Human Services Agency, California State Department of Rehabilitation, Association of SF Mental Health Contractors, Mental Health Association of SF, and SF Human Services Network as well as SF Asian & Pacific Islander Health Parity Coalition, Asian Youth Advocacy Network, Asians Against Violence, NICOS Chinese Health Coalition, and Asian Mental Health Task Force. RAMS also consistently engages in various outreach activities, at which the agency promotes the Summer Bridge Program. Such activities include but are not limited to:

- Community workshops at health fairs, schools, and/or community centers
- Community workshops for the professional healthcare community
- Multi-cultural health and neighborhood fairs
- Public policy venues and platforms
- Distributing multi-lingual brochures and materials
 - B. Admission, enrollment and/or intake criteria and process where applicable.

Applications are distributed via outreach listed in section A, targeting under-represented students; the submission deadline is usually in May. To remain a viable option for low income students would have to work in the summer to help support their families, Summer Bridge provides a stipend for each participate who completes the program, and would be an incentive (and realistic support) to our target population.

An application review team includes the Summer Bridge Coordinator, Summer Bridge alumni and Youth Council members. Applicants are selected on the strength of their expressed interest in the field of Psychology, as well as the diversity they would bring to the program (and to the field). Academic achievement is not a significant factor and the selected applicants reflect the range of the target populations. The program seeks diversity in cultural background, gender, languages spoken, sexual orientation, and education/experience. Selected applicants are notified and a waitlist is maintained until orientation.

A participant and family orientation takes place before the start of the summer program, where participants and families can meet with Summer Bridge staff and receive information about the program. Consent forms are signed by parent/guardian if minor and by participants if 18 or over.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service,

strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

Summer Bridge program runs over two fiscal years (mid-June to beginning of August), eight weeks during summer break following SFUSD calendar. It operates Tuesday, Wednesday, and Thursday (11 a.m. to 3 p.m.) at a central location in San Francisco. For summer 2014 (June to August 2014) it was located at California Institute of Integral Studies (CIIS), 1453 Mission Street. The plan is to return to CIIS in the summer 2015. CIIS, also a MHSA funded site, has collaborated with RAMS since the inception of Summer Bridge in 2009, as one of the site visits. Students were inspired by attending a professional school for psychology, and were able to interact & engage with faculty and students during the visit. During summer 2014, participants were able to further experience being in an institution for higher learning two days per week (Tuesday and Thursday). Presentations related to weekly topics by culturally diverse speakers from the community, such as City College of San Francisco, take place on Tuesday. The program introduced the youth to a broad range of community mental health workers, allowing them to have first-hand exposure to the various possibilities in the field. The program selects speakers and presenters who reflect the diverse backgrounds of our youth participant and also highlights speakers who are consumers of mental health services and willing to share their lived experience, with the goal of stigma reduction. Participants and Summer Bridge staff come together on Thursdays and discuss the presentations and fieldtrip for the week, and integrate their learning.

A fieldtrip or site visit takes place each Wednesday, i.e. higher education institutions, community organizations and museums. In summer 2014, the program visited RAMS CYF Outpatient clinic, Psychiatric Emergency Services at SFGH, Broderick Street Adult Residential Facility, the Fu Yau Project for early childhood mental health consultation at a preschool, the Exploratorium's Mental Health exhibit, San Francisco State University's Counseling Psychology Program, and the GLBT Historical Society. Each field trip site strengthens the participants' understanding of that week's Psychology-related topic. The theme is introduced by staff at the beginning of the week, and further elaborated on by guest speakers, then discussed in small and large groups at the end of the week. Participants are to create a "final project" and present to the whole group the last week of the program. The purpose of the project is to help participants further integrate their learning with their personal experience and growth throughout the 8 week program.

D. Describe your program's exit criteria and process, e.g. successful completion.

In general, participants must attend and participate in the activities, community site visits, and complete the assigned projects of the eight-week summer program. The Summer Bridge coordinator and counselors, along with peer mentors, meet to evaluate the participants and determine whether each has met the stated criteria. Upon completion, program graduates receive a stipend and Certificate of Completion. Graduates are then invited to join Youth Council, which is the Youth Advisory Council for RAMS, and meets throughout the following school year.

E. Program staffing

See CBHS Appendix B.

Summer Bridge Coordinator provides supervision of the program operations; she is also a clinical staff who is experienced in working with youth from diverse backgrounds with strong organization and communication skills. During the summer, she manages and provides direct delivery of program services. During non-summer periods, she engages alumni in Youth Council, and planning/recruiting new

participants, outreaches to agencies, and spearheads the process to review applications. Also, there are two Summer Bridge Counselors who deliver programming services during Summer Bridge operation. During non-program time, they are also providers of the RAMS Child Youth and Family Services staff who are experienced with youth from diverse backgrounds. There are also three Summer Bridge Youth Mentors who provide additional support during program operations in the summer. Peer mentorship is an option for any alumnus from Summer Bridge who have good communication and leadership skills, as well as interest in further experience (e.g. co-facilitating weekly small groups) in mental health field.

All presenters and most site visits are not funded by the grant. There is also an opportunity available for a "pre-practicum volunteer" from CIIS as a co-counselor, to deepen the collaboration with CIIS. Summer Bridge intends to continue this partnership with CIIS, opening up a position for a pre-practicum student from the Graduate School of Psychology who demonstrates interest in working with youth, and developing a better understanding of the tenets of MHSA.

F. Mental Health Services Act Programs

1. Consumer participation/engagement: Programs must identify how participants and/or their families are engaged in the development, implementation and/or evaluation of programs. This can include peer-employees, advisory committees, etc.

Summer Bridge alumni/Youth Council are involved in outreach/engagement and recruitment process—they review the applications before they are sent out; they support Summer Bridge staff in outreach at SFUSD high schools sites and other youth organizations; they participate in the application review panel. In 2014, feedback from Youth Council members about the use of the word "psychology" helped us make useful changes to the recruitment efforts at June Jordan and Downtown High Schools, schools where students are less likely to be familiar with the terminology, even though they may have lived experience with mental health challenges, and have considered becoming therapists.

Summer Bridge participants engage in focus groups, pre and post-test, and evaluations – during summer program, participants are involved with mid-term and end of program focus groups, pre- and post-test and evaluations. In addition, Summer Bridge alumni/Youth Council provide feedback in program design – every year, at least two of the monthly meetings are dedicated to reviewing curriculum and community site visits as well as (as needed) program evaluations.

Summer Bridge Youth Mentors are part of Summer Bridge staff team — meeting weekly during program weeks, in addition to program planning weeks before, and informal evaluation with RAMS administrator after program.

2. MHSA Vision: Collaboration with different systems to increase opportunities for jobs, education, housing, etc.

RAMS collaborates and partners with various community based organizations, CBHS and higher education institutions as well as professionals from under-represented communities – Summer Bridge takes place at CIIS where participants experience being in a professional school and meet with faculty and students; community site visits include SFSU, RAMS programs, and other community organizations which expose participants higher education and community programs. Alumni have participated in RAMS Youth Council, volunteered and been hired at childcare and afterschool programs, and enrolled in higher education institutions, including SFSU. RAMS Summer Bridge Coordinator and Counselors have supported participants and alumni in their college applications and have written recommendation letters.

7. Objectives and Measurements

- 1. MHSA GOAL: Increased knowledge about available community resources related to enhancing one's health and well-being (traditional health services, cultural, faith-based)
 - a. Individualized Performance Objective: By program completion, 75% of program participants will agree that they know how to refer friends or family for mental health services; this will indicate an increase in knowledge about available community resources related to enhancing one's health and well-being; this will be evidenced by post-program evaluations.
- 2. MHSA GOAL: Increased inter-dependence and social connections (within families and communities)
 - a. *Individualized Performance Objective*: By program completion, 75% will agree that "I have found role models in the health and human services field." This will indicate increase interdependence and social connections; this will be evidenced by post-program evaluations.
- 3. MHSA GOAL: Increased readiness for entry-level employment in the behavioral health system for targeted populations.
 - a. *Individualized Performance Objective*: By program end, 80% of program participants will complete the program thus increasing readiness for entry-level internship/employment in the community services sector; this will be evidenced by program participant completion records.
- 4. MHSA GOAL: Program satisfaction.
 - a. Individualized Performance Objective: At program completion, 80% of program participants will express overall satisfaction with the program; this will be evidenced by the post-program evaluations.

8. Continuous Quality Improvement

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All staff are informed about objectives and the required documentation related to the activities and service delivery outcomes. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information. In addition, the Program Director monitors service delivery progress (engagement, level of accomplishing service goals/objectives), and termination reasons (graduation, etc.).

B. Documentation quality, including a description of any internal audits

RAMS utilizes various mechanisms to review documentation quality. Documentation reviews are conducted by Program Director throughout the program cohort duration; based on these reviews, determinations/recommendations are provided relating to any needed adjustments to match to the cohorts' progress & workforce development needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of programming are integrated throughout staff meetings and other discussions.

C. Measurement of cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by weekly group supervision. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of services indicators is conducted by the Program Director (and reported to executive management) on monthly basis
- Client's culture, preferred language for services, and provider's expertise are strongly considered during the case assignment process. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- Development of annual objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency annually administers a staff satisfactions survey and Human Resources also conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Assurance Council meets quarterly and is designed to advise on program quality
 assurance and improvement activities; chaired by the RAMS Director of Operations, the
 membership includes an administrator, director, clinical supervisor, peer counselor, and direct
 services staff. Programs may also present to this council to gain additional feedback on quality
 assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters

D. Satisfaction with services

The Summer Bridge program, for each cohort, conducts written participant evaluation/satisfaction surveys (twice/cohort at mid- and end-cohort), written questionnaires (twice/cohort at pre- and post/end-cohort) and focus groups (twice/cohort at mid- and end-cohort). The surveys, questionnaires, and focus

groups are administered and facilitated by RAMS administrators; collected data is tabulated and summarized. The Program Director compiles, analyzes, and presents the results of surveys to staff, RAMS Executive Management, and the RAMS Quality Assurance Council. The Program Director also collaborates with staff, RAMS Executive Management, and Quality Assurance Council to assess, develop, and implement plans to address issues related to client satisfaction as appropriate.

E. Timely completion and use of outcome data, including CANS

CANS data is not applicable for this contract; however, as described in previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive outcomes.

(1) Fee For Service (Monthly Reimbursement by Certified Units at Budgeted Unit Rates)

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month, based upon the number of units of service that were delivered in the preceding month. All deliverables associated with the SERVICES defined in Appendix A times the unit rate as shown in the appendices cited in this paragraph shall be reported on the invoice(s) each month. All charges incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

CONTRACTOR agrees that within that fiscal year, this initial payment shall be recovered by the CITY through a reduction to monthly payments to CONTRACTOR during the period of October 1 through March 31 of the applicable fiscal year, unless and until CONTRACTOR chooses to return to the CITY all or part of the initial payment for that fiscal year. The amount of the initial payment recovered each month shall be calculated by dividing the total initial payment for the fiscal year by the total number of months for recovery. Any termination of this Agreement, whether for cause or for convenience, will result in the total outstanding amount of the initial payment for that fiscal year being due and payable to the CITY within thirty (30) calendar days following written notice of termination from the CITY.

Further, BA shall not use PHI in any manner that would constitute a violation of the Privacy Rule or the HITECH Act if so used by CE. satisfactory assurances, in accordance with 45 C.F.R. Section 164.504(e)(1), that the subcontractor will appropriately safeguard the information [45 C.F.R. Section 164.502(e)(1)(ii)].

c. Prohibited Uses and Disclosures. BA shall not use or disclose PHI other than as permitted or required by the Contract and Agreement, or as required by law. d. Appropriate Safeguards. e. Business Associate's Subcontractors and Agents. BA shall ensure that any agents and subcontractors that create, receive, maintain or transmit Protected Information on behalf of BA, agree in writing to the same restrictions and conditions that apply to BA with respect to such PHI and implement the safeguards required by paragraph 2.d. above with respect to Electronic PHI [45 C.F.R. Section 164.504(e)(2) through (e)(5); 45 C.F.R. Section 164.308(b)]. BA shall mitigate the effects of any such violation.

Section 164.528, and the HITECH Act, including but not limited to 42 U.S.C. Section 17935 (c), as determined by CE. BA agrees to implement a process that allows for an accounting to be collected and maintained by BA and its agents and subcontractors for at least six (6) years prior to the request. However, accounting of disclosures from an Electronic Health Record for treatment, payment or health care operations purposes are required to be collected and maintained for only three (3) years prior to the request, and only to the extent that BA maintains an Electronic Health Record. At a minimum, the information collected and maintained shall include: (i) the date of disclosure; (ii) the name of the entity or person who received Protected Information and, if known, the address of the entity or person; (iii) a brief description of Protected Information disclosed; and

Appendix E San Francisco Department of Public Health

Business Associate Agreement

(iv) a brief statement of purpose of the disclosure that reasonably informs the individual of the basis for the disclosure, or a copy of the individual's authorization, or a copy of the written request for disclosure [45 C.F.R. 164.528(b)(2)]. If an individual or an individual's representative submits a request for an accounting directly to BA or its agents or subcontractors, BA shall forward the request to CE in writing within five (5) calendar days.

Access to Protected Information. BA shall make Protected Information maintained by BA or its agents or subcontractors in Designated Record Sets available to CE for inspection and copying within (5) days of request by CE to enable CE to fulfill its obligations under state law [Health and Safety Code Section 123110] and the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.524 [45 C.F.R. Section 164.504(e)(2)(ii)(E)]. If BA maintains Protected Information in electronic format, BA shall provide such information in electronic format as necessary to enable CE to fulfill its obligations under the HITECH Act and HIPAA Regulations, including, but not limited to, 42 U.S.C.

Section 17935(e) and 45 C.F.R. 164.524.

h. Amendment of Protected Information. Within ten (10) days of a request by CE for an amendment of Protected Information or a record about an individual contained in a Designated Record Set, BA and its agents and subcontractors shall make such Protected Information available to CE for amendment and incorporate any such amendment or other documentation to enable CE to fulfill its obligations under the Privacy Rule, including, but not limited to, 45 C.F.R Section 164.526. If an individual requests an amendment of Protected Information directly from BA or its agents or subcontractors, BA must notify CE in writing within five (5) days of the request and of any approval or denial of amendment of Protected Information maintained by BA or its agents or subcontractors [45 C.F.R. Section 164.504(e)(2)(ii)(F)].

Governmental Access to Records. BA shall make its internal practices, books and records relating to the use and disclosure of Protected Information available to CE and to the Secretary of the U.S. Department of Health and Human Services (the "Secretary") for purposes of determining BA's compliance with HIPAA [45] C.F.R. Section 164.504(e)(2)(ii)(I)]. BA shall provide CE a copy of any Protected Information and other documents and records that BA provides to the Secretary concurrently with providing such Protected Information to the

Secretary.

Minimum Necessary. BA, its agents and subcontractors shall request, use and disclose only the minimum amount of Protected Information necessary to accomplish the intended purpose of such use, disclosure, or request. [42 U.S.C. Section 17935(b); 45 C.F.R. Section 164.514(d)]. BA understands and agrees that the definition of "minimum necessary" is in flux and shall keep itself informed of guidance issued by the Secretary with respect to what constitutes "minimum necessary" to accomplish the intended purpose in accordance with HIPAA and HIPAA Regulations.

k. Data Ownership. BA acknowledges that BA has no ownership rights with

respect to the Protected Information.

Notification of Breach. BA shall notify CE within 5 calendar days of any breach of Protected Information; any use or disclosure of Protected Information not permitted by the Agreement; any Security Incident (except as otherwise provided below) related to Protected Information, and any use or disclosure of data in violation of any applicable federal or state laws by BA or its agents or The notification shall include, to the extent possible, the identification of each individual whose unsecured Protected Information has been,

Appendix E San Francisco Department of Public Health

Business Associate Agreement

or is reasonably believed by the BA to have been, accessed, acquired, used, or disclosed, as well as any other available information that CE is required to include in notification to the individual, the media, the Secretary, and any other entity under the Breach Notification Rule and any other applicable state or federal laws, including, but not limited, to 45 C.F.R. Section 164.404 through 45 C.F.R. Section 164.408, at the time of the notification required by this paragraph or promptly thereafter as information becomes available. BA shall take (i) prompt corrective action to cure any deficiencies and (ii) any action pertaining to unauthorized uses or disclosures required by applicable federal and state laws. [42 U.S.C. Section 17921; 42 U.S.C. Section 17932; 45 C.F.R. 164.410; 45 C.F.R. Section 164.504(e)(2)(ii)(C); 45 C.F.R. Section 164.308(b)]

m. Breach Pattern or Practice by Business Associate's Subcontractors and Agents. Pursuant to 42 U.S.C. Section 17934(b) and 45 C.F.R. Section 164.504(e)(1)(iii), if the BA knows of a pattern of activity or practice of a subcontractor or agent that constitutes a material breach or violation of the subcontractor or agent's obligations under the Contract or this Agreement, the BA must take reasonable steps to cure the breach or end the violation. If the steps are unsuccessful, the BA must terminate the contractual arrangement with its subcontractor or agent, if feasible. BA shall provide written notice to CE of any pattern of activity or practice of a subcontractor or agent that BA believes constitutes a material breach or violation of the subcontractor or agent's obligations under the Contract or this Agreement within five (5) calendar days of discovery and shall meet with CE to discuss and attempt to resolve the problem as one of the reasonable steps to cure the breach or end the violation.

3. Termination.

a. Material Breach. A breach by BA of any provision of this Agreement, as determined by CE, shall constitute a material breach of the CONTRACT and this Agreement and shall provide grounds for immediate termination of the CONTRACT and this Agreement, any provision in the CONTRACT to the contrary notwithstanding. [45 C.F.R. Section 164.504(e)(2)(iii)].

b. Judicial or Administrative Proceedings. CE may terminate the CONTRACT and this Agreement, effective immediately, if (i) BA is named as defendant in a criminal proceeding for a violation of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws or (ii) a finding or stipulation that the BA has violated any standard or requirement of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws is made in any

administrative or civil proceeding in which the party has been joined.

c. Effect of Termination. Upon termination of the CONTRACT and this Agreement for any reason, BA shall, at the option of CE, return or destroy all Protected Information that BA and its agents and subcontractors still maintain in any form, and shall retain no copies of such Protected Information. If return or destruction is not feasible, as determined by CE, BA shall continue to extend the protections and satisfy the obligations of Section 2 of this Agreement to such information, and limit further use and disclosure of such PHI to those purposes that make the return or destruction of the information infeasible [45 C.F.R. Section 164.504(e)(2)(ii)(J)]. If CE elects destruction of the PHI, BA shall certify in writing to CE that such PHI has been destroyed in accordance with the Secretary's guidance regarding proper destruction of PHI.

San Francisco Department of Public Health Business Associate Agreement

- d. Civil and Criminal Penalties. BA understands and agrees that it is subject to civil or criminal penalties applicable to BA for unauthorized use, access or disclosure or Protected Information in accordance with the HIPAA Regulations and the HITECH Act including, but not limited to, 42 U.S.C. 17934 (c).
- e. Disclaimer. CE makes no warranty or representation that compliance by BA with this Agreement, HIPAA, the HITECH Act, or the HIPAA Regulations or corresponding California law provisions will be adequate or satisfactory for BA's own purposes. BA is solely responsible for all decisions made by BA regarding the safeguarding of PHI.

4. Amendment to Comply with Law.

The parties acknowledge that state and federal laws relating to data security and privacy are rapidly evolving and that amendment of the CONTRACT or this Agreement may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, the HIPAA regulations and other applicable state or federal laws relating to the security or confidentiality of PHI. The parties understand and agree that CE must receive satisfactory written assurance from BA that BA will adequately safeguard all Protected Information. Upon the request of either party, the other party agrees to promptly enter into negotiations concerning the terms of an amendment to this Agreement embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, the HIPAA regulations or other applicable state or federal laws. CE may terminate the Contract upon thirty (30) days written notice in the event (i) BA does not promptly enter into negotiations to amend the CONTRACT or this Agreement when requested by CE pursuant to this section or (ii) BA does not enter into an amendment to the Contract or this Agreement providing assurances regarding the safeguarding of PHI that CE, in its sole discretion, deems sufficient to satisfy the standards and requirements of applicable laws.

5. Reimbursement for Fines or Penalties.

In the event that CE pays a fine to a state or federal regulatory agency, and/or is assessed civil penalties or damages through private rights of action, based on an impermissible use or disclosure of PHI by BA or its subcontractors or agents, then BA shall reimburse CE in the amount of such fine or penalties or damages within thirty (30) calendar days.

(1) Fee For Service (Monthly Reimbursement by Certified Units at Budgeted Unit Rates)

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month, based upon the number of units of service that were delivered in the preceding month. All deliverables associated with the SERVICES defined in Appendix A times the unit rate as shown in the appendices cited in this paragraph shall be reported on the invoice(s) each month. All charges incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

(2) Cost Reimbursement (Monthly Reimbursement for Actual Expenditures within Budget):

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month for reimbursement of the actual costs for SERVICES of the preceding month. All costs associated with the SERVICES shall be reported on the invoice each month. All costs incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

B. Final Closing Invoice

(1) Fee For Service Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those SERVICES rendered during the referenced period of performance. If SERVICES are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY. CITY'S final reimbursement to the CONTRACTOR at the close of the Agreement period shall be adjusted to conform to actual units certified multiplied by the unit rates identified in Appendix B attached hereto, and shall not exceed the total amount authorized and certified for this Agreement.

(2) Cost Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those costs incurred during the referenced period of performance. - C. Payment shall be made by the CITY to CONTRACTOR at the address specified in the section entitled "Notices to Parties."
- D. Upon the effective date of this Agreement, contingent upon prior approval by the CITY'S Department of Public Health of an invoice or claim submitted by Contractor, and of each year's revised Appendix A (Description of Services) and each year's revised Appendix B (Program Budget and Cost Reporting Data Collection Form), and within each fiscal year, the CITY agrees to make an initial payment to CONTRACTOR

not to exceed twenty-five per cent (25%) of the General Fund and Prop 63 portion of the CONTRACTOR'S allocation for the applicable fiscal year.

CONTRACTOR agrees that within that fiscal year, this initial payment shall be recovered by the CITY through a reduction to monthly payments to CONTRACTOR during the period of October 1 through March 31 of the applicable fiscal year, unless and until CONTRACTOR chooses to return to the CITY all or part of the initial payment for that fiscal year. The amount of the initial payment recovered each month shall be calculated by dividing the total initial payment for the fiscal year by the total number of months for recovery. Any termination of this Agreement, whether for cause or for convenience, will result in the total outstanding amount of the initial payment for that fiscal year being due and payable to the CITY within thirty (30) calendar days following written notice of termination from the CITY.

CONTRACTOR further understands that no payment of any portion of this contingency amount will be made unless and until such modification or budget revision has been fully approved and executed in accordance with applicable CITY and Department of Public Health laws, regulations and policies/procedures and certification as to the availability of funds by the Controller. CONTRACTOR agrees to fully comply with these laws, regulations, and policies/procedures.

- (1) For each fiscal year of the term of this Agreement, CONTRACTOR shall submit for approval of the CITY's Department of Public Health a revised Appendix A, Description of Services, and a revised Appendix B, Program Budget and Cost Reporting Data Collection form, based on the CITY's allocation of funding for SERVICES for the appropriate fiscal year. CONTRACTOR shall create these Appendices in compliance with the instructions of the Department of Public Health. These Appendices shall apply only to the fiscal year for which they were created. These Appendices shall become part of this Agreement only upon approval by the CITY.

In no event will CONTRACTOR be entitled to compensation in excess of these amounts for these periods without there first being a modification of the Agreement or a revision to Appendix B, Budget, as provided for in this section of this Agreement.

Section 164.504(e)(2)(ii)(I)]. BA shall provide CE a copy of any

Protected Information and other documents and records that BA provides to the Secretary concurrently with providing such Protected Information to the Secretary.

- h. Minimum Necessary. BA, its agents and subcontractors shall request, use and disclose only the minimum amount of Protected Information necessary to accomplish the purpose of the request, use or disclosure. [42 U.S.C. Section 17935(b); 45 C.F.R. Section 164.514(d)] BA understands and agrees that the definition of "minimum necessary" is in flux and shall keep itself informed of guidance issued by the Secretary with respect to what constitutes "minimum necessary."
- i. **Data Ownership.** BA acknowledges that BA has no ownership rights with respect to the Protected Information.
- Notification of Possible Breach. BA shall notify CE within twenty-four (24) hours of any suspected or actual breach of Protected Information; any use or disclosure of Protected Information not permitted by the Contract or Addendum; any security incident (i.e., any attempted or successful unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations in an information system) related to Protected Information, and any actual or suspected use or disclosure of data in violation of any applicable federal or state laws by BA or its agents or subcontractors. The notification shall include, to the extent possible, the identification of each individual who unsecured Protected Information has been, or is reasonably believed by the business associate to have been, accessed, acquired, used, or disclosed, as well as any other available information that CE is required to include in notification to the individual, the media, the Secretary, and any other entity under the Breach Notification Rule and any other applicable state or federal laws, including, but not limited, to 45 C.F.R. Section 164.404 through 45 C.F.R. Section 164.408, at the time of the notification required by this paragraph or promptly thereafter as information becomes available. BA shall take (i) prompt corrective action to cure any deficiencies and (ii) any action pertaining to unauthorized uses or disclosures required by applicable federal and state laws. (This provision should be negotiated.) [42 U.S.C. Section 17921; 45 C.F.R. Section 164.504(e)(2)(ii)(C); 45 C.F.R. Section 164.308(b)1
- k. Breach Pattern or Practice by Business Associate's Subcontractors and Agents. Pursuant to 42 U.S.C. Section 17934(b) and 45 C.F.R. Section 164.504(e)(1)(ii), if the BA knows of a pattern of activity or practice of a subcontractor or agent that constitutes a material breach or violation of the subcontractor or agent's obligations under the Contract or Addendum or other arrangement, the BA must take reasonable steps to cure the breach or end the violation. If the steps are unsuccessful, the BA must terminate the Contract or other arrangement if feasible. BA shall provide written notice to CE of any pattern of activity or practice of a subcontractor or agent that BA believes constitutes a material breach or violation of the subcontractor or agent's obligations under the Contract or Addendum or other arrangement within five (5) days of discovery and shall meet with CE to discuss and attempt to resolve the problem as one of the reasonable steps to cure the breach or end the violation.

3. Termination

- a. Material Breach. A breach by BA of any provision of this Addendum, as determined by CE, shall constitute a material breach of the Contract and shall provide grounds for immediate termination of the Contract, any provision in the Contract to the contrary notwithstanding. [45 C.F.R. Section 164.504(e)(2)(iii)].
- b. Judicial or Administrative Proceedings. CE may terminate the Contract, effective immediately, if (i) BA is named as defendant in a criminal proceeding for a violation of HIPAA, the HITECH Act, the HIPAA Regulations or other

security or privacy laws or (ii) a finding or stipulation that the BA has violated any standard or requirement of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws is made in any administrative or civil proceeding in which the party has been joined.

c. Effect of Termination. Upon termination of the Contract for any reason, BA shall, at the option of CE, return or destroy all Protected Information that BA and its agents and subcontractors still maintain in any form, and shall retain no copies of such Protected Information. If return or destruction is not feasible, as determined by CE, BA shall continue to extend the protections and satisfy the obligations of Section 2 of this Addendum to such information, and limit further use and disclosure of such PHI to those purposes that make the return or destruction of the information infeasible [45 C.F.R. Section 164.504(e)(ii)(2)(J)]. If CE elects destruction of the PHI, BA shall certify in writing to CE that such PHI has been destroyed in accordance with the Secretary's guidance regarding proper destruction of PHI.

d. Disclaimer

CE makes no warranty or representation that compliance by BA with this Addendum, HIPAA, the HITECH Act, or the HIPAA Regulations or corresponding California law provisions will be adequate or satisfactory for BA's own purposes. BA is solely responsible for all decisions made by BA regarding the safeguarding of PHI.

4. Amendment to Comply with Law.

The parties acknowledge that state and federal laws relating to data security and privacy are rapidly evolving and that amendment of the Contract or Addendum may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, the HIPAA regulations and other applicable state or federal laws relating to the security or confidentiality of PHI. The parties understand and agree that CE must receive satisfactory written assurance from BA that BA will adequately safeguard all Protected Information. Upon the request of either party, the other party agrees to promptly enter into negotiations concerning the terms of an amendment to this Addendum embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, the HIPAA regulations or other applicable laws. CE may terminate the Contract upon thirty (30) days written notice in the event (i) BA does not promptly enter into negotiations to amend the Contract or Addendum when requested by CE pursuant to this section or (ii) BA does not enter into an amendment to the Contract or Addendum providing assurances regarding the safeguarding of PHI that CE, in its sole discretion, deems sufficient to satisfy the standards and requirements of applicable laws.

5. Reimbursement for Fines or Penalties

In the event that CE pays a fine to a state or federal regulatory agency, and/or is assessed civil penalties or damages through private rights of action, based on an impermissible use or disclosure of PHI by BA or its subcontractors or agents, then BA shall reimburse CE in the amount of such fine or penalties or damages within thirty (30) calendar days.

This memo is to inform your office of the cancellation of our automobile insurance in regards to the RAMS-Bridge To Wellness contract. At this time and until further notice, we have eliminated our van transportation service and will not be utilizing a van. Therefore, we do not plan to obtain an automobile insurance. No other vehicles and/or assistance from any RAMS' employee will be utilized to transport clients/patients of this agency.

Agreement between the City and County of San Francisco and

Richmond Area Multi Services, Inc.

This Agreement is made this 1st day of October, 2010, in the City and County of San Francisco, State of California, by and between: Richmond Area Multi-services, Inc., 3626 Balboa Street, San Francisco, CA 94121, hereinafter referred to as "Contractor," and the City and County of San Francisco, a municipal corporation, hereinafter referred to as "City," acting by and through its Director of the Office of Contract Administration or the Director's designated agent, hereinafter referred to as "Purchasing."

Recitals

WHEREAS, the Department of Public Health, Community Behavioral Health Services, ("Department") wishes to provide services for Mental Health and Substance Abuse.

WHEREAS, Request for Proposal was issued on July 31, 2009 and City selected Contractor as the highest qualified scorer pursuant to the RFP; and

WHEREAS, Contractor represents and warrants that it is qualified to perform the services required by City as set forth under this Contract; and,

WHEREAS, approval for this Agreement was obtained when the Civil Service Commission approved Contract number 4150-09/10 on June 21, 2010;

Now, THEREFORE, the parties agree as follows:

1. Certification of Funds; Budget and Fiscal Provisions; Termination in the Event of Non-Appropriation. This Agreement is subject to the budget and fiscal provisions of the City's Charter. Charges will accrue only after prior written authorization certified by the Controller, and the amount of City's obligation hereunder shall not at any time exceed the amount certified for the purpose and period stated in such advance authorization. This Agreement will terminate without penalty, liability or expense of any kind to City at the end of any fiscal year if funds are not appropriated for the next succeeding fiscal year. If funds are appropriated for a portion of the fiscal year, this Agreement will terminate, without penalty, liability or expense of any kind at the end of the term for which funds are appropriated. City has no obligation to make appropriations for this Agreement in lieu of appropriations for new or other agreements. City budget decisions are subject to the discretion of the Mayor and the Board of Supervisors. Contractor's assumption of risk of possible non-appropriation is part of the consideration for this Agreement.

THIS SECTION CONTROLS AGAINST ANY AND ALL OTHER PROVISIONS OF THIS AGREEMENT.

- 2. Term of the Agreement. Subject to Section 1, the term of this Agreement shall be from July 1, 2010 through December 31, 2015.
- 3. Effective Date of Agreement. This Agreement shall become effective when the Controller has certified to the availability of funds and Contractor has been notified in writing.
- 4. Services Contractor Agrees to Perform. The Contractor agrees to perform the services provided for in Appendix A, "Description of Services," attached hereto and incorporated by reference as though fully set forth herein.
- 5. Compensation. Compensation shall be made in monthly payments on or before the 15th day of each month for work, as set forth in Section 4 of this Agreement, that the Director of the Department of Public Health, in his or her sole discretion, concludes has been performed as of the 30th day of the immediately preceding month. In no event shall the amount of this Agreement exceed Sixteen Million Sixty Three Thousand Six Hundred Eighty Four Dollars (\$16,063,684). The breakdown of costs associated with this Agreement appears in Appendix B, "Calculation of Charges," attached hereto and incorporated by reference as though fully set forth herein. No charges shall be incurred under this Agreement nor shall any payments become due to Contractor until reports, services, or both, required under this Agreement are received from Contractor and approved by Department of Public Health as being in accordance with this Agreement. City may withhold payment to Contractor in any instance in which Contractor has failed or refused to satisfy any material obligation provided for under this Agreement. In no event shall City be liable for interest or late charges for any late payments.
- 6. Guaranteed Maximum Costs. The City's obligation hereunder shall not at any time exceed the amount certified by the Controller for the purpose and period stated in such certification. Except as may be provided by laws governing emergency procedures, officers and employees of the City are not authorized to request, and the City is not required to reimburse the Contractor for, Commodities or Services beyond the agreed upon contract scope unless the changed scope is authorized by amendment and approved as required by law. Officers and employees of the City are not authorized to offer or promise, nor is the City required to honor, any offered or promised additional funding in excess of the maximum amount of funding for which the contract is certified without certification of the additional amount by the Controller. The Controller is not authorized to make payments on any contract for which funds have not been certified as available in the budget or by supplemental appropriation.

- 7. Payment; Invoice Format. Invoices furnished by Contractor under this Agreement must be in a form acceptable to the Controller, and must include a unique invoice number and must conform to Appendix F. All amounts paid by City to Contractor shall be subject to audit by City. Payment shall be made by City to Contractor at the address specified in the section entitled "Notices to the Parties."
- 8. Submitting False Claims; Monetary Penalties. Pursuant to San Francisco Administrative Code §21.35, any contractor, subcontractor or consultant who submits a false claim shall be liable to the City for the statutory penalties set forth in that section. The text of Section 21.35, along with the entire San Francisco Administrative Code is available on the web at http://www.municode.com/Library/clientCodePage.aspx?clientID=4201. A contractor, subcontractor or consultant will be deemed to have submitted a false claim to the City if the contractor, subcontractor or consultant: (a) knowingly presents or causes to be presented to an officer or employee of the City a false claim or request for payment or approval; (b) knowingly makes, uses, or causes to be made or used a false record or statement to get a false claim paid or approved by the City; (c) conspires to defraud the City by getting a false claim allowed or paid by the City; (d) knowingly makes, uses, or causes to be made or used a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the City; or (e) is a beneficiary of an inadvertent submission of a false claim to the City, subsequently discovers the falsity of the claim, and fails to disclose the false claim to the City within a reasonable time after discovery of the false claim.
- 9. Disallowance. If Contractor claims or receives payment from City for a service, reimbursement for which is later disallowed by the State of California or United States Government, Contractor shall promptly refund the disallowed amount to City upon City's request. At its option, City may offset the amount disallowed from any payment due or to become due to Contractor under this Agreement or any other Agreement. By executing this Agreement, Contractor certifies that Contractor is not suspended, debarred or otherwise excluded from participation in federal assistance programs. Contractor acknowledges that this certification of eligibility to receive federal funds is a material terms of the Agreement.
- 10. Taxes. Payment of any taxes, including possessory interest taxes and California sales and use taxes, levied upon or as a result of this Agreement, or the services delivered pursuant hereto, shall be the obligation of Contractor. Contractor recognizes and understands that this Agreement may create a "possessory interest" for property tax purposes. Generally, such a possessory interest is not created unless the Agreement entitles the Contractor to possession, occupancy, or use of City property for private gain. If such a possessory interest is created, then the following shall apply:
- 1) Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that Contractor, and any permitted successors and assigns, may be subject to real property tax assessments on the possessory interest;
- 2) Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that the creation, extension, renewal, or assignment of this Agreement may result in a "change in ownership" for purposes of real property taxes, and therefore may result in a revaluation of any possessory interest created by this Agreement. Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report on behalf of the City to the County Assessor the information required by Revenue and Taxation Code section 480.5, as amended from time to time, and any successor provision.
- 3) Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that other events also may cause a change of ownership of the possessory interest and result in the revaluation of the possessory interest. (see, e.g., Rev. & Tax. Code section 64, as amended from time to time). Contractor accordingly agrees on behalf of itself and its permitted successors and

assigns to report any change in ownership to the County Assessor, the State Board of Equalization or other public agency as required by law.

- 4) Contractor further agrees to provide such other information as may be requested by the City to enable the City to comply with any reporting requirements for possessory interests that are imposed by applicable law.
- 11. Payment Does Not Imply Acceptance of Work. The granting of any payment by City, or the receipt thereof by Contractor, shall in no way lessen the liability of Contractor to replace unsatisfactory work, equipment, or materials, although the unsatisfactory character of such work, equipment or materials may not have been apparent or detected at the time such payment was made. Materials, equipment, components, or workmanship that do not conform to the requirements of this Agreement may be rejected by City and in such case must be replaced by Contractor without delay.
- 12. Qualified Personnel. Work under this Agreement shall be performed only by competent personnel under the supervision of and in the employment of Contractor. Contractor will comply with City's reasonable requests regarding assignment of personnel, but all personnel, including those assigned at City's request, must be supervised by Contractor. Contractor shall commit adequate resources to complete the project within the project schedule specified in this Agreement.
- 13. Responsibility for Equipment. City shall not be responsible for any damage to persons or property as a result of the use, misuse or failure of any equipment used by Contractor, or by any of its employees, even though such equipment be furnished, rented or loaned to Contractor by City.

14. Independent Contractor; Payment of Taxes and Other Expenses

- Independent Contractor. Contractor or any agent or employee of Contractor shall be deemed at all times to be an independent contractor and is wholly responsible for the manner in which it performs the services and work requested by City under this Agreement. Contractor or any agent or employee of Contractor shall not have employee status with City, nor be entitled to participate in any plans, arrangements, or distributions by City pertaining to or in connection with any retirement, health or other benefits that City may offer its employees. Contractor or any agent or employee of Contractor is liable for the acts and omissions of itself, its employees and its agents. Contractor shall be responsible for all obligations and payments, whether imposed by federal, state or local law, including, but not limited to. FICA, income tax withholdings, unemployment compensation, insurance, and other similar responsibilities related to Contractor's performing services and work, or any agent or employee of Contractor providing same. Nothing in this Agreement shall be construed as creating an employment or agency relationship between City and Contractor or any agent or employee of Contractor. Any terms in this Agreement referring to direction from City shall be construed as providing for direction as to policy and the result of Contractor's work only, and not as to the means by which such a result is obtained. City does not retain the right to control the means or the method by which Contractor performs work under this Agreement.
- b. Payment of Taxes and Other Expenses. Should City, in its discretion, or a relevant taxing authority such as the Internal Revenue Service or the State Employment Development Division, or both, determine that Contractor is an employee for purposes of collection of any employment taxes, the amounts payable under this Agreement shall be reduced by amounts equal to both the employee and employer portions of the tax due (and offsetting any credits for amounts already paid by Contractor which can be applied against this liability). City shall then forward those amounts to the relevant taxing authority. Should a relevant taxing authority determine a liability for past services performed by Contractor for City, upon notification of such fact by City, Contractor shall promptly remit such amount due or arrange with City to have the amount due withheld from future payments to Contractor under this Agreement (again, offsetting any amounts already paid by Contractor which can be applied as a credit

against such liability). A determination of employment status pursuant to the preceding two paragraphs shall be solely for the purposes of the particular tax in question, and for all other purposes of this Agreement, Contractor shall not be considered an employee of City. Notwithstanding the foregoing, should any court, arbitrator, or administrative authority determine that Contractor is an employee for any other purpose, then Contractor agrees to a reduction in City's financial liability so that City's total expenses under this Agreement are not greater than they would have been had the court, arbitrator, or administrative authority determined that Contractor was not an employee.

15. Insurance

In accordance with San Francisco Administrative Code §67.24(e), contracts, contractors' bids, responses to solicitations and all other records of communications between City and persons or firms seeking contracts, shall be open to inspection immediately after a contract has been awarded. Nothing in this provision requires the disclosure of a private person or organization's net worth or other proprietary financial data submitted for qualification for a contract or other benefit until and unless that person or organization is awarded the contract or benefit. Information provided which is covered by this paragraph will be made available to the public upon request.
- 41. Public Access to Meetings and Records. If the Contractor receives a cumulative total per year of at least \$250,000 in City funds or City-administered funds and is a non-profit organization as defined in Chapter 12L of the San Francisco Administrative Code, Contractor shall comply with and be bound by all the applicable provisions of that Chapter. By executing this Agreement, the Contractor agrees to open its meetings and records to the public in the manner set forth in §§12L.4 and 12L.5 of the Administrative Code. Contractor further agrees to make-good faith efforts to promote community membership on its Board of Directors in the manner set forth in §12L.6 of the Administrative Code. The Contractor acknowledges that its material failure to comply with any of the provisions of this paragraph shall constitute a material breach of this Agreement. The Contractor further acknowledges that such material breach of the Agreement shall be grounds for the City to terminate and/or not renew the Agreement, partially or in its entirety.
- 42. Limitations on Contributions. Through execution of this Agreement, Contractor acknowledges that it is familiar with section 1.126 of the City's Campaign and Governmental Conduct Code, which prohibits any person who contracts with the City for the rendition of personal services, for the furnishing of any material, supplies or equipment, for the sale or lease of any land or building, or for a grant, loan or loan guarantee, from making any campaign contribution to (1) an individual holding a City elective office if the contract must be approved by the individual, a board on which that individual serves, or the board of a state agency on which an appointee of that individual serves, (2) a candidate for the office held by such individual, or (3) a committee controlled by such individual, at any time from the commencement of negotiations for the contract until the later of either the termination of negotiations for such contract or six

months after the date the contract is approved. Contractor acknowledges that the foregoing restriction applies only if the contract or a combination or series of contracts approved by the same individual or board in a fiscal year have a total anticipated or actual value of \$50,000 or more. Contractor further acknowledges that the prohibition on contributions applies to each prospective party to the contract; each member of Contractor's board of directors; Contractor's chairperson, chief executive officer, chief financial officer and chief operating officer; any person with an ownership interest of more than 20 percent in Contractor; any subcontractor listed in the bid or contract; and any committee that is sponsored or controlled by Contractor. Additionally, Contractor acknowledges that Contractor must inform each of the persons described in the preceding sentence of the prohibitions contained in Section 1.126. Contractor further agrees to provide to City the names of each person, entity or committee described above.

43. Requiring Minimum Compensation for Covered Employees

- a. Contractor agrees to comply fully with and be bound by all of the provisions of the Minimum Compensation Ordinance (MCO), as set forth in San Francisco Administrative Code Chapter 12P (Chapter 12P), including the remedies provided, and implementing guidelines and rules. The provisions of Sections 12P.5 and 12P.5.1 of Chapter 12P are incorporated herein by reference and made a part of this Agreement as though fully set forth. The text of the MCO is available on the web at www.sfgov.org/olse/mco. A partial listing of some of Contractor's obligations under the MCO is set forth in this Section. Contractor is required to comply with all the provisions of the MCO, irrespective of the listing of obligations in this Section.
- b. The MCO requires Contractor to pay Contractor's employees a minimum hourly gross compensation wage rate and to provide minimum compensated and uncompensated time off. The minimum wage rate may change from year to year and Contractor is obligated to keep informed of the then-current requirements. Any subcontract entered into by Contractor shall require the subcontractor to comply with the requirements of the MCO and shall contain contractual obligations substantially the same as those set forth in this Section. It is Contractor's obligation to ensure that any subcontractors of any tier under this Agreement comply with the requirements of the MCO. If any subcontractor under this Agreement fails to comply, City may pursue any of the remedies set forth in this Section against Contractor.
- c. Contractor shall not take adverse action or otherwise discriminate against an employee or other person for the exercise or attempted exercise of rights under the MCO. Such actions, if taken within 90 days of the exercise or attempted exercise of such rights, will be rebuttably presumed to be retaliation prohibited by the MCO.
- d. Contractor shall maintain employee and payroll records as required by the MCO. If Contractor fails to do so, it shall be presumed that the Contractor paid no more than the minimum wage required under State law.
- e. The City is authorized to inspect Contractor's job sites and conduct interviews with employees and conduct audits of Contractor
- f. Contractor's commitment to provide the Minimum Compensation is a material element of the City's consideration for this Agreement. The City in its sole discretion shall determine whether such a breach has occurred. The City and the public will suffer actual damage that will be impractical or extremely difficult to determine if the Contractor fails to comply with these requirements. Contractor agrees that the sums set forth in Section 12P.6.1 of the MCO as liquidated damages are not a penalty, but are reasonable estimates of the loss that the City and the public will incur for Contractor's noncompliance. The procedures governing the assessment of liquidated damages shall be those set forth in Section 12P.6.2 of Chapter 12P.

- g. Contractor understands and agrees that if it fails to comply with the requirements of the MCO, the City shall have the right to pursue any rights or remedies available under Chapter 12P (including liquidated damages), under the terms of the contract, and under applicable law. If, within 30 days after receiving written notice of a breach of this Agreement for violating the MCO, Contractor fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, Contractor fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion, the City shall have the right to pursue any rights or remedies available under applicable law, including those set forth in Section 12P.6(c) of Chapter 12P. Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to the City.
- h. Contractor represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the MCO.
- i. If Contractor is exempt from the MCO when this Agreement is executed because the cumulative amount of agreements with this department for the fiscal year is less than \$25,000, but Contractor later enters into an agreement or agreements that cause contractor to exceed that amount in a fiscal year, Contractor shall thereafter be required to comply with the MCO under this Agreement. This obligation arises on the effective date of the agreement that causes the cumulative amount of agreements between the Contractor and this department to exceed \$25,000 in the fiscal year.
- 44. Requiring Health Benefits for Covered Employees. Contractor agrees to comply fully with and be bound by all of the provisions of the Health Care Accountability Ordinance (HCAO), as set forth in San Francisco Administrative Code Chapter 12Q, including the remedies provided, and implementing regulations, as the same may be amended from time to time. The provisions of section 12Q.5.1 of Chapter 12Q are incorporated by reference and made a part of this Agreement as though fully set forth herein. The text of the HCAO is available on the web at www.sfgov.org/olse. Capitalized terms used in this Section and not defined in this Agreement shall have the meanings assigned to such terms in Chapter 12Q.
- a. For each Covered Employee, Contractor shall provide the appropriate health benefit set forth in Section 12Q.3 of the HCAO. If Contractor chooses to offer the health plan option, such health plan shall meet the minimum standards set forth by the San Francisco Health Commission..
- b. Notwithstanding the above, if the Contractor is a small business as defined in Section 12Q.3(e) of the HCAO, it shall have no obligation to comply with part (a) above.
- c. Contractor's failure to comply with the HCAO shall constitute a material breach of this agreement. City shall notify Contractor if such a breach has occurred. If, within 30 days after receiving City's written notice of a breach of this Agreement for violating the HCAO, Contractor fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, Contractor fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion, City shall have the right to pursue the remedies set forth in 12Q.5.1 and 12Q.5(f)(1-6). Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to City.
- d. Any Subcontract entered into by Contractor shall require the Subcontractor to comply with the requirements of the HCAO and shall contain contractual obligations substantially the same as those set forth in this Section. Contractor shall notify City's Office of Contract Administration when it enters into such a Subcontract and shall certify to the Office of Contract Administration that it has notified the Subcontractor of the obligations under the HCAO and has imposed the requirements of the HCAO on Subcontractor through the Subcontract. Each Contractor shall be responsible for its Subcontractors' compliance with this Chapter. If a Subcontractor fails to comply, the City may pursue the remedies set

forth in this Section against Contractor based on the Subcontractor's failure to comply, provided that City has first provided Contractor with notice and an opportunity to obtain a cure of the violation.

- e. Contractor shall not discharge, reduce in compensation, or otherwise discriminate against any employee for notifying City with regard to Contractor's noncompliance or anticipated noncompliance with the requirements of the HCAO, for opposing any practice proscribed by the HCAO, for participating in proceedings related to the HCAO, or for seeking to assert or enforce any rights under the HCAO by any lawful means.
- f. Contractor represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the HCAO.
- g. Contractor shall maintain employee and payroll records in compliance with the California Labor Code and Industrial Welfare Commission orders, including the number of hours each employee has worked on the City Contract.
 - h. Contractor shall keep itself informed of the current requirements of the HCAO.
- i. Contractor shall provide reports to the City in accordance with any reporting standards promulgated by the City under the HCAO, including reports on Subcontractors and Subtenants, as applicable.
- j. Contractor shall provide City with access to records pertaining to compliance with HCAO after receiving a written request from City to do so and being provided at least ten business days to respond.
- k. Contractor shall allow City to inspect Contractor's job sites and have access to Contractor's employees in order to monitor and determine compliance with HCAO.
- l. City may conduct random audits of Contractor to ascertain its compliance with HCAO. Contractor agrees to cooperate with City when it conducts such audits.
- m. If Contractor is exempt from the HCAO when this Agreement is executed because its amount is less than \$25,000 (\$50,000 for nonprofits), but Contractor later enters into an agreement or agreements that cause Contractor's aggregate amount of all agreements with City to reach \$75,000, all the agreements shall be thereafter subject to the HCAO. This obligation arises on the effective date of the agreement that causes the cumulative amount of agreements between Contractor and the City to be equal to or greater than \$75,000 in the fiscal year.

45. First Source Hiring Program

- a. Incorporation of Administrative Code Provisions by Reference. The provisions of Chapter 83 of the San Francisco Administrative Code are incorporated in this Section by reference and made a part of this Agreement as though fully set forth herein. Contractor shall comply fully with, and be bound by, all of the provisions that apply to this Agreement under such Chapter, including but not limited to the remedies provided therein. Capitalized terms used in this Section and not defined in this Agreement shall have the meanings assigned to such terms in Chapter 83.
- b. First Source Hiring Agreement. As an essential term of, and consideration for, any contract or property contract with the City, not exempted by the FSHA, the Contractor shall enter into a first source hiring agreement ("agreement") with the City, on or before the effective date of the contract or property contract. Contractors shall also enter into an agreement with the City for any other work that it performs in the City. Such agreement shall:

- 1) Set appropriate hiring and retention goals for entry level positions. The employer shall agree to achieve these hiring and retention goals, or, if unable to achieve these goals, to establish good faith efforts as to its attempts to do so, as set forth in the agreement. The agreement shall take into consideration the employer's participation in existing job training, referral and/or brokerage programs. Within the discretion of the FSHA, subject to appropriate modifications, participation in such programs maybe certified as meeting the requirements of this Chapter. Failure either to achieve the specified goal, or to establish good faith efforts will constitute noncompliance and will subject the employer to the provisions of Section 83.10 of this Chapter.
- 2) Set first source interviewing, recruitment and hiring requirements, which will provide the San Francisco Workforce Development System with the first opportunity to provide qualified economically disadvantaged individuals for consideration for employment for entry level positions. Employers shall consider all applications of qualified economically disadvantaged individuals referred by the System for employment; provided however, if the employer utilizes nondiscriminatory screening criteria, the employer shall have the sole discretion to interview and/or hire individuals referred or certified by the San Francisco Workforce Development System as being qualified economically disadvantaged individuals. The duration of the first source interviewing requirement shall be determined by the FSHA and shall be set forth in each agreement, but shall not exceed 10 days. During that period, the employer may publicize the entry level positions in accordance with the agreement. A need for urgent or temporary hires must be evaluated, and appropriate provisions for such a situation must be made in the agreement.
- 3) Set appropriate requirements for providing notification of available entry level positions to the San Francisco Workforce Development System so that the System may train and refer an adequate pool of qualified economically disadvantaged individuals to participating employers. Notification should include such information as employment needs by occupational title, skills, and/or experience required, the hours required, wage scale and duration of employment, identification of entry level and training positions, identification of English language proficiency requirements, or absence thereof, and the projected schedule and procedures for hiring for each occupation. Employers should provide both long-term job need projections and notice before initiating the interviewing and hiring process. These notification requirements will take into consideration any need to protect the employer's proprietary information.
- 4) Set appropriate record keeping and monitoring requirements. The First Source Hiring Administration shall develop easy-to-use forms and record keeping requirements for documenting compliance with the agreement. To the greatest extent possible, these requirements shall utilize the employer's existing record keeping systems, be nonduplicative, and facilitate a coordinated flow of information and referrals.
- 5) Establish guidelines for employer good faith efforts to comply with the first source hiring requirements of this Chapter. The FSHA will work with City departments to develop employer good faith effort requirements appropriate to the types of contracts and property contracts handled by each department. Employers shall appoint a liaison for dealing with the development and implementation of the employer's agreement. In the event that the FSHA finds that the employer under a City contract or property contract has taken actions primarily for the purpose of circumventing the requirements of this Chapter, that employer shall be subject to the sanctions set forth in Section 83.10 of this Chapter.
 - 6) Set the term of the requirements.
 - 7) Set appropriate enforcement and sanctioning standards consistent with this Chapter.

- 8) Set forth the City's obligations to develop training programs, job applicant referrals, technical assistance, and information systems that assist the employer in complying with this Chapter.
- 9) Require the developer to include notice of the requirements of this Chapter in leases, subleases, and other occupancy contracts.
- c. **Hiring Decisions.** Contractor shall make the final determination of whether an Economically Disadvantaged Individual referred by the System is "qualified" for the position.
- d. Exceptions. Upon application by Employer, the First Source Hiring Administration may grant an exception to any or all of the requirements of Chapter 83 in any situation where it concludes that compliance with this Chapter would cause economic hardship.

e. Liquidated Damages. Contractor agrees:

- 1) To be liable to the City for liquidated damages as provided in this section;
- 2) To be subject to the procedures governing enforcement of breaches of contracts based on violations of contract provisions required by this Chapter as set forth in this section;
- That the contractor's commitment to comply with this Chapter is a material element of the City's consideration for this contract; that the failure of the contractor to comply with the contract provisions required by this Chapter will cause harm to the City and the public which is significant and substantial but extremely difficult to quantity; that the harm to the City includes not only the financial cost of funding public assistance programs but also the insidious but impossible to quantify harm that this community and its families suffer as a result of unemployment; and that the assessment of liquidated damages of up to \$5,000 for every notice of a new hire for an entry level position improperly withheld by the contractor from the first source hiring process, as determined by the FSHA during its first investigation of a contractor, does not exceed a fair estimate of the financial and other damages that the City suffers as a result of the contractor's failure to comply with its first source referral contractual obligations.
- 4) That the continued failure by a contractor to comply with its first source referral contractual obligations will cause further significant and substantial harm to the City and the public, and that a second assessment of liquidated damages of up to \$10,000 for each entry level position improperly withheld from the FSHA, from the time of the conclusion of the first investigation forward, does not exceed the financial and other damages that the City suffers as a result of the contractor's continued failure to comply with its first source referral contractual obligations;
- 5) That in addition to the cost of investigating alleged violations under this Section, the computation of liquidated damages for purposes of this section is based on the following data:
- (a) The average length of stay on public assistance in San Francisco's County Adult Assistance Program is approximately 41 months at an average monthly grant of \$348 per month, totaling approximately \$14,379; and
- (b) In 2004, the retention rate of adults placed in employment programs funded under the Workforce Investment Act for at least the first six months of employment was 84.4%. Since qualified individuals under the First Source program face far fewer barriers to employment than their counterparts in programs funded by the Workforce Investment Act, it is reasonable to conclude that the average length of employment for an individual whom the First Source Program refers to an employer and who is hired in an entry level position is at least one year;

Therefore, liquidated damages that total \$5,000 for first violations and \$10,000 for subsequent violations as determined by FSHA constitute a fair, reasonable, and conservative attempt to quantify the harm caused to the City by the failure of a contractor to comply with its first source referral contractual obligations.

6) That the failure of contractors to comply with this Chapter, except property contractors, may be subject to the debarment and monetary penalties set forth in Sections 6.80 et seq. of the San Francisco Administrative Code, as well as any other remedies available under the contract or at law; and

Violation of the requirements of Chapter 83 is subject to an assessment of liquidated damages in the amount of \$5,000 for every new hire for an Entry Level Position improperly withheld from the first source hiring process. The assessment of liquidated damages and the evaluation of any defenses or mitigating factors shall be made by the FSHA.

- f. Subcontracts. Any subcontract entered into by Contractor shall require the subcontractor to comply with the requirements of Chapter 83 and shall contain contractual obligations substantially the same as those set forth in this Section.
- 46. Prohibition on Political Activity with City Funds. In accordance with San Francisco Administrative Code Chapter 12.G, Contractor may not participate in, support, or attempt to influence any political campaign for a candidate or for a ballot measure (collectively, "Political Activity") in the performance of the services provided under this Agreement. Contractor agrees to comply with San Francisco Administrative Code Chapter 12.G and any implementing rules and regulations promulgated by the City's Controller. The terms and provisions of Chapter 12.G are incorporated herein by this reference. In the event Contractor violates the provisions of this section, the City may, in addition to any other rights or remedies available hereunder, (i) terminate this Agreement, and (ii) prohibit Contractor from bidding on or receiving any new City contract for a period of two (2) years. The Controller will not consider Contractor's use of profit as a violation of this section.
- 47. Preservative-treated Wood Containing Arsenic. Contractor may not purchase preservative-treated wood products containing arsenic in the performance of this Agreement unless an exemption from the requirements of Chapter 13 of the San Francisco Environment Code is obtained from the Department of the Environment under Section 1304 of the Code. The term "preservative-treated wood containing arsenic" shall mean wood treated with a preservative that contains arsenic, elemental arsenic, or an arsenic copper combination, including, but not limited to, chromated copper arsenate preservative, ammoniacal copper zinc arsenate preservative, or ammoniacal copper arsenate preservative. Contractor may purchase preservative-treated wood products on the list of environmentally preferable alternatives prepared and adopted by the Department of the Environment. This provision does not preclude Contractor from purchasing preservative-treated wood containing arsenic for saltwater immersion. The term "saltwater immersion" shall mean a pressure-treated wood that is used for construction purposes or facilities that are partially or totally immersed in saltwater.
- 48. Modification of Agreement. This Agreement may not be modified, nor may compliance with any of its terms be waived, except by written instrument executed and approved in the same manner as this Agreement.
- 49. Administrative Remedy for Agreement Interpretation DELETED BY MUTUAL AGREEMENT. OF THE PARTIES

- 50. Agreement Made in California; Venue. The formation, interpretation and performance of this Agreement shall be governed by the laws of the State of California. Venue for all litigation relative to the formation, interpretation and performance of this Agreement shall be in San Francisco.
- 51. Construction. All paragraph captions are for reference only and shall not be considered in construing this Agreement.
- 52. Entire Agreement. This contract sets forth the entire Agreement between the parties, and supersedes all other oral or written provisions. This contract may be modified only as provided in Section 48, "Modification of Agreement."
- 53. Compliance with Laws. Contractor shall keep itself fully informed of the City's Charter, codes, ordinances and regulations of the City and of all state, and federal laws in any manner affecting the performance of this Agreement, and must at all times comply with such local codes, ordinances, and regulations and all applicable laws as they may be amended from time to time.
- 54. Services Provided by Attorneys. Any services to be provided by a law firm or attorney must be reviewed and approved in writing in advance by the City Attorney. No invoices for services provided by law firms or attorneys, including, without limitation, as subcontractors of Contractor, will be paid unless the provider received advance written approval from the City Attorney.
- 55. Supervision of Minors Contractor, and any subcontractors, shall comply with California Penal Code section 11105.3 and request from the Department of Justice records of all convictions or any arrest pending adjudication involving the offenses specified in Welfare and Institution Code section 15660(a) of any person who applies for employment or volunteer position with Contractor, or any subcontractor, in which he or she would have supervisory or disciplinary power over a minor under his or her care. If Contractor, or any subcontractor, is providing services at a City park, playground, recreational center or beach (separately and collectively, "Recreational Site"), Contractor shall not hire, and shall prevent its subcontractors from hiring, any person for employment or volunteer position to provide those services if that person has been convicted of any offense that was listed in former Penal Code section 11105,3 (h)(1) or 11105.3(h)(3). If Contractor, or any of its subcontractors, hires an employee or volunteer to provide services to minors at any location other than a Recreational Site, and that employee or volunteer has been convicted of an offense specified in Penal Code section 11105.3(c), then Contractor shall comply, and cause its subcontractors to comply with that section and provide written notice to the parents or guardians of any minor who will be supervised or disciplined by the employee or volunteer not less than ten (10) days prior to the day the employee or volunteer begins his or her duties or tasks. Contractor shall provide. or cause its subcontractors to provide City with a copy of any such notice at the same time that it provides notice to any parent or guardian. Contractor shall expressly require any of its subcontractors with supervisory or disciplinary power over a minor to comply with this section of the Agreement as a condition of its contract with the subcontractor. Contractor acknowledges and agrees that failure by Contractor or any of its subcontractors to comply with any provision of this section of the Agreement shall constitute an Event of Default. Contractor further acknowledges and agrees that such Event of Default shall be grounds for the City to terminate the Agreement, partially or in its entirety, to recover from Contractor any amounts paid under this Agreement, and to withhold any future payments to Contractor. The remedies provided in this Section shall not limited any other remedy available to the City hereunder, or in equity or law for an Event of Default, and each remedy may be exercised individually or in combination with any other available remedy. The exercise of any remedy shall not preclude or in any way be deemed to waive any other remedy.
- 56. Severability. Should the application of any provision of this Agreement to any particular facts or circumstances be found by a court of competent jurisdiction to be invalid or unenforceable, then (a) the validity of other provisions of this Agreement shall not be affected or impaired thereby, and (b) such provision shall be enforced to the maximum extent possible so as to effect the intent of the parties and

shall be reformed without further action by the parties to the extent necessary to make such provision, valid and enforceable.

- 57. Protection of Private Information. Contractor has read and agrees to the terms set forth in San Francisco Administrative Code Sections 12M.2, "Nondisclosure of Private Information," and 12M.3, "Enforcement" of Administrative Code Chapter 12M, "Protection of Private Information," which are incorporated herein as if fully set forth. Contractor agrees that any failure of Contactor to comply with the requirements of Section 12M.2 of this Chapter shall be a material breach of the Contract. In such an event, in addition to any other remedies available to it under equity or law, the City may terminate the Contract, bring a false claim action against the Contractor pursuant to Chapter 6 or Chapter 21 of the Administrative Code, or debar the Contractor.
- Graffiti Removal. Graffiti is detrimental to the health, safety and welfare of the community in that it promotes a perception in the community that the laws protecting public and private property can be disregarded with impunity. This perception fosters a sense of disrespect of the law that results in an increase in crime: degrades the community and leads to urban blight; is detrimental to property values. business opportunities and the enjoyment of life; is inconsistent with the City's property maintenance goals and aesthetic standards; and results in additional graffiti and in other properties becoming the target of graffiti unless it is quickly removed from public and private property. Graffiti results in visual pollution and is a public nuisance. Graffiti must be abated as quickly as possible to avoid detrimental impacts on the City and County and its residents, and to prevent the further spread of graffiti. Contractor shall remove all graffiti from any real property owned or leased by Contractor in the City and County of San Francisco within forty eight (48) hours of the earlier of Contractor's (a) discovery or notification of the graffiti or (b) receipt of notification of the graffiti from the Department of Public Works. This section is not intended to require a Contractor to breach any lease or other agreement that it may have concerning its use of the real property. The term "graffiti" means any inscription, word, figure, marking or design that is affixed, marked, etched, scratched, drawn or painted on any building, structure, fixture or other improvement, whether permanent or temporary, including by way of example only and without limitation, signs, banners, billboards and fencing surrounding construction sites, whether public or private, without the consent of the owner of the property or the owner's authorized agent, and which is visible from the public right-of-way, "Graffiti" shall not include: (1) any sign or banner that is authorized by, and in compliance with, the applicable requirements of the San Francisco Public Works Code, the San Francisco Planning Code or the San Francisco Building Code; or (2) any mural or other painting or marking on the property that is protected as a work of fine art under the California Art Preservation Act (California Civil Code Sections 987 et seq.) or as a work of visual art under the Federal Visual Artists Rights Act of 1990 (17 U.S.C. §§ 101 et seq.).

Any failure of Contractor to comply with this section of this Agreement shall constitute an Event of Default of this Agreement.

59. Food Service Waste Reduction Requirements. Effective June 1, 2007 Contractor agrees to comply fully with and be bound by all of the provisions of the Food Service Waste Reduction Ordinance, as set forth in San Francisco Environment Code Chapter 16, including the remedies provided, and implementing guidelines and rules. The provisions of Chapter 16 are incorporated herein by reference and made a part of this Agreement as though fully set forth. This provision is a material term of this Agreement. By entering into this Agreement, Contractor agrees that if it breaches this provision, City will suffer actual damages that will be impractical or extremely difficult to determine; further, Contractor agrees that the sum of one hundred dollars (\$100) liquidated damages for the first breach, two hundred dollars (\$200) liquidated damages for subsequent breaches in the same year, and five hundred dollars (\$500) liquidated damages for subsequent breaches in the same year is reasonable estimate of the damage that City will incur based on the violation, established in light of the circumstances existing at the time this Agreement was made. Such amount shall not be considered a penalty, but rather agreed monetary damages sustained by City because of Contractor's failure to comply with this provision.

- 60. Slavery Era Disclosure DELETED BY MUTUAL AGREEMENT OF THE PARTIES
- 61. Cooperative Drafting. This Agreement has been drafted through a cooperative effort of both parties, and both parties have had an opportunity to have the Agreement reviewed and revised by legal counsel. No party shall be considered the drafter of this Agreement, and no presumption or rule that an ambiguity shall be construed against the party drafting the clause shall apply to the interpretation or enforcement of this Agreement.
- 62. Dispute Resolution Procedure. A Dispute Resolution Procedure is attached under the Appendix G to address issues that have not been resolved administratively by other departmental remedies.
- 63. Additional Terms. Additional Terms are attached hereto as Appendix D and are incorporated into this Agreement by reference as though fully set forth herein.

3. Goal Statement

The program goal is to implement a culturally competent, efficient and effective coordinated care model of service, where clients are actively involved and where they learn to build on strengths, alleviate/manage symptoms and develop/make choices that assist them to the maximum extent possible to lead satisfying and productive lives in the least restrictive environments.

Short Term Outcomes include: engagement of at risk and underserved children, youth and families into behavioral health services; identification of strengths and difficulties; engagement of consumers in a comprehensive treatment plan of care; symptom reduction, asset development; education on impact of behavioral; health and substance abuse issue on child and family; coordination of care and linkage to services. Long Term Outcomes include: marked reduction of psychiatric and substance abuse symptoms preventing the need for a higher more intensive level of care; improvement of functioning as evidenced by increased school success, increased family/home stability and support; and maximized Asset Building as evidenced by successful transfer to community and natural supports.

4. Target Population

RAMS Children, Youth & Family (CYF) Outpatient Services Program serves San Francisco children and youth, under the age of 18 who are beneficiaries of public health insurance, such as Medi-Cal and Healthy Families, and their siblings and parents who are in need of psychiatric prevention and/or intervention services. There is a special focus on serving the Asian & Pacific Islander American (APIA) and Russian-speaking communities, both immigrants and US-born – a group that is traditionally underserved. Included are services to LGBTQQ youth and families.

Additionally, the RAMS CYF Outpatient Services serves Early and Periodic Screening Diagnosis and Treatment (EPSDT) eligible residents who are not currently served by the SF community mental health system. EPSDT is a required benefit for all "categorically needy" children (e.g. poverty-level income, receiving SSI, or receive federal foster care or adoption assistance). This group reflects the greater health needs of children of low-income and with special health needs qualifying them for assistance. All San Franciscans under the age 21 who are eligible to receive the full scope of Medi-Cal services and meet medical necessity, but who are not currently receiving the same model of mental health services and not receiving services through capitated intensive case management services, i.e. Family Mosaic/TBS, are eligible for EPSDT services. Services are provided at the RAMS Outpatient Clinic and in the community (e.g. on-site at San Francisco Unified School District schools).

6. Methodology

A. Describe how your program conducts outreach, recruitment, promotion, and advertisement.

RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to outpatient services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families with each year serving well over 15,000 adults, children, youth & families at over 75 sites, citywide. The CYF Outpatient Program conducts these strategies on an ongoing basis, in the most natural environments as possible, and at sites where targeted children & youth spend a majority of time, through RAMS established school-based and community partnerships — San Francisco Unified School District (SFUSD) high, middle, and elementary schools, after-school programs, over 60 childcare sites, Asian Youth Advocacy Network, and Asian Pacific Islander Family Resource Network. Outreach activities are facilitated by staff, primarily the Behavioral Health Counselors/Workers (including Psychologists, Social Workers, Behavioral/Mental Health Clinicians/Counselors/Workers), Peer Counselors, and Psychiatrists.

Also, the Peer Counselors provide additional support and may facilitate/co-facilitate workshops, engage & coordinate the Youth Advisory Council, and conduct various outreach activities to provide information about the program and general information on behavioral health matters and community resources. As peers, these individuals are able to address the stigma of mental illness utilizing a variant approach. Various outreach activities include, but are not limited to: organizing cultural events, conducting psycho-educational & informational workshops or activity groups, and providing support in natural environments. The type of activity, topic foci, and location also engage those who may not necessarily self-initiate counseling services. The workshops may use alternative references to behavioral health topics instead of using "loaded" words and language. There may also be targeted outreach activities to ethnic groups including Chinese, Koreans, Japanese, Cambodians, and Vietnamese. Engagement and retention is achieved with an experienced, culturally and linguistically competent multidisciplinary team.

B. Describe your program's admission, enrollment and/or intake criteria and process.

RAMS accommodates referrals from the CBHS Behavioral Health Access Center and will cooperate with the Interagency Council initiatives. As RAMS provides services in over 30 languages and, in order to support "advanced access," the agency deploys mechanisms to effectively & make accessible the many dialects fluent amongst staff in a timely manner. The Outpatient Clinic maintains a multi-lingual Intake/Referral & Resource Schedule, which is a weekly calendar with designated time slots of clinical staff (and language capacities) who can consult with the community (clients, family members, other providers) and conduct intake assessments (with linguistic match) of initial request. The clinical intake/initial risk assessments are aimed to determine medical necessity for mental health services and assess the level of functioning & needs, strengths & existing resources, suitability of program services, co-occurring issues/dual diagnosis, medication support needs, vocational readiness/interest (and/or engagement in volunteer activities, school), primary care connection, and other services (e.g. residential, SSI assessment). There is a designated Intake Coordinator for scheduling assessments and processing & maintaining the documentation, thus supporting streamlined coordination; staff (including Program Director) works closely with the referring party. Following the intake, engagement and follow-up is made with the client. RAMS has been acknowledged as a model for its intake practices ("advanced access") and managing the demand for services, which is a consistent challenge for other clinics.

C. Describe your program's service delivery model and how each service is delivered, e.g. phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, etc.

To further support accessibility of services, the Outpatient Clinic Program throughout the years has maintained hours of operation that extend past 5:00 pm, beyond "normal" business hours. The Program hours are: Monday (9:00 am - 7:00 pm); Tuesday to Thursday (9:00 am to 9:00 pm); Friday (9:00 am to 5:00 pm).

The RAMS CYF OPS program design includes behavioral health and mental health outpatient & prevention services that include, but are not limited to: individual & group counseling, family collateral counseling; targeted case management services; crisis intervention; substance abuse and risk assessment (e.g. CANS, CRAFFT, and AADIS), psychiatric evaluation & medication management; psychological testing & assessment; psycho-education; information, outreach & referral services; and collaboration/consultation with substance abuse, primary care, and school officials, and participation in SST, IEP and other school-related meetings. Psycho-educational activities have included topics such as holistic & complementary treatment practices, substance use/abuse, and trauma/community violence. Services are primarily provided on-site, at the program, and/or in least restrictive environment in the field including, but is not limited to: clients' home, school, another community center, and/or primary care clinic. The type and frequency of services are tailored to the client's acuity & risk, functional impairments, and clinical needs, with review by the clinical authorization committee and in consultation with SFDPH CBHS.

The Behavioral Health Counselors/Workers provide clients with on-going individual and group integrated behavioral health counseling, case management services, and as needed, conduct and collateral meetings. Having individual counseling and case management services provided by the same care provider streamlines and enhances care coordination. During the treatment planning, the clinician and client discuss how strengths can be used to make changes to their current conditions and to promote & sustain healthy mental health. A plan of care with goals is formally developed (within the first two months) and updated at least annually. This is a collaborative process (between counselor & client) in setting treatment goals and identifying strategies that are attainable & measurable. As needed, other support services are provided by other staff, in collaboration with the Counselor. RAMS conducts home visits and linkages for client support services (e.g. childcare, transportation) to other community agencies and government offices. Predoctoral interns, closely supervised, are also available to conduct comprehensive batteries of psychological testing and evaluation.

Medication management including culturally competent psychiatric evaluation & assessment and on-going monitoring of prescribed medications (e.g. individual meetings, medication management groups) is provided by licensed psychiatrists, nurse practitioners, and registered nurses. The Outpatient Program psychiatry staff capacity & coverage offers daily medication evaluation & assessments during all program hours of operation, in order to increase accessibility.

D. Describe your program's exit criteria and process, e.g. successful completion, step-down process to less intensive treatment programs, aftercare, discharge planning.

The type and frequency of services are tailored to the client's acuity & risk, functional impairments, and clinical needs, with review by the clinical authorization committee and in consultation with SFDPH CBHS. Because of limited mental health resources, coupled with the need to promptly serve many newly referred acute clients, the program consistently applies utilization review and discharge/exit criteria to alleviate increasing caseload pressure, and to prioritize services to those most in need. Providers consider such factors as: risk of harm, functional status, psychiatric stability and risk of decompensation, medication compliance, progress and status of Care Plan objectives, and the client's overall environment such as culturally and linguistically appropriate services, to determine which clients can be discharged from Behavioral/Mental Health/Case Management Brokerage level of services into medication-only, or be referred to Private Provider Network/Primary Care Physician.

E. Describe your program's staffing; which staff will be involved in what aspects of the service development and delivery. Indicate if any staff position is not funded by the grant.

See CBHS Appendix B.

Furthermore, direct services are also provided by 16 pre-doctoral interns and practicum trainees. Consistent with the aim to develop and train the next generation of culturally competent clinicians, the Outpatient Clinic also houses a prestigious training center, accredited by the American Psychological Association, which offers an extensive training curriculum. These students are unpaid interns with three paid slots for pre-doctoral interns who are just one year from graduation. The interns are supervised by licensed clinical supervisors, and many graduates from RAMS' training program become

Objective A.1: Reduce Psychiatric Symptoms

A.1.a. The total number of acute inpatient hospital episodes used by clients in Fiscal Year 2010 [2011 will be reduced by at least 15% compared to the number of acute inpatient hospital episodes used by these same clients in Fiscal Year 2009 □2010. This is applicable only to clients opened to the program no later than July 1, 2010. Data collected for July 2010 - June 2011 will be compared with the data collected in July 2009 - June 2010. Programs will be exempt from meeting this objective if more than 50% of the total number of inpatient episodes was used by 5% or less of the clients hospitalized.

A.1.f. Providers will ensure that all clinicians who provide mental health services are certified in the use of the Child & Adolescent Needs and Strengths (CANS). New employees will have completed the CANS training within 30 days of hire.

A.1.g. Clients with an open episode, for whom two or more contacts had been billed within the first 30 days, should have both the initial CANS assessment and treatment plans completed in the online record within 30 days of episode opening. For the purpose of this program performance objective, an 85% completion rate will be considered a passing score.

A.1.h. CYF agency representatives attend regularly scheduled SuperUser calls. For the purpose of this performance objective, an 80% attendance of all calls will be considered a passing score.

Outpatient clients opened will have a Re-assessment/Outpatient Treatment Report in the online record within 30 days of the 6 month anniversary of their Episode Opening date and every 6 months thereafter. For the purpose of this program performance objective, a 100% completion rate will be considered a passing score.

A.1.i. Outpatient clients opened will have an updated Treatment Plan in the online record within 30 days of the 6 month anniversary of their Episode Opening. For the purpose of this program performance objective, a 100% completion rate will be considered a passing score.

Objective A.3: Increase Stable Living Environment

A.3.a. 35% of clients who were homeless when they entered treatment will be in a more stable living situation after 1 year in treatment.

Objective B.2: Treatment Access and Retention

B.2.a. During Fiscal Year 2010-2011, 70% of treatment episodes will show three or more service days of treatment within 30 days of admission for substance abuse treatment and CYF mental health treatment providers, and 60 days of admission for adult mental health treatment providers as measured by BIS indicating clients engaged in the treatment process.

Outpatient providers will document screening information in the Avatar Health Monitoring section.

<u>F.1.b.</u> Primary Care provider and health care information. All clients and families at intake and annually will have a review of medical history, verify who the primary care provider is, and when the last primary care appointment occurred.

<u>F.1.c.</u> Active engagement with primary care provider, 75% of clients who are in treatment for over 90 days will have, upon discharge, an identified primary care provider.

Objective G.1: Alcohol Use/Dependency

<u>G.1.a.</u> For all contractors and civil service clinics, information on self-help alcohol and drug addiction Recovery groups (such as Alcoholics Anonymous, Alateen, Alanon, Rational Recovery, and other 12-step or self-help programs) will be kept on prominent display and distributed to clients and families at all program sites.

SFDPH Cultural Competency Unit will compile the informing material on self-help Recovery groups and made it available to all contractors and civil service clinics by September 2010.

<u>G.1.b.</u> All contractors and civil service clinics are encouraged to develop clinically appropriate interventions (either Evidence Based Practice or Practice Based Evidence) to meet the needs of the specific population served, and to inform the SOC Program Managers about the interventions.

Objective H.1: Planning for Performance Objective FY 2011-12

H.1.a. Contractors and Civil Service Clinics will remove any barriers to accessing services by African American individuals and families.

SFDPH System of Care, Program Review, and Quality Improvement unit will provide feedback to contractor/clinic via new client surveys with suggested interventions. The contractor/clinic will establish performance improvement objective for the following year, based on feedback from the survey.

<u>H.1.b.</u> Contractors and Civil Service Clinics will promote engagement and remove barriers to retention by African American individuals and families.

SFDPH Program evaluation unit will evaluate retention of African American clients and provide feedback to contractor/clinic. The contractor/clinic will establish performance improvement objective for the following year, based on their program's client retention data. Use of best practices, culturally appropriate clinical interventions, and on-going review of clinical literature is encouraged.

B. Other Measurable Objectives:

To further support services outcomes, RAMS conducts various strategies (culturally competent services, fostering trusting & safe counselor-client relationships) and maintains the following objectives for FY 2010-11: (1) 100% of clients/families will have a review of medical history, verify who the primary care provider is, and when the last primary care appointment occurred; and (2) 100% of all client plans of care will have a goal focusing maintaining/strengthening stability in the community, including positive community engagement, e.g. social network, vocational training/employment/volunteer activities, cultural centers; and (3) 100% of clients who have completed the program, and provide consent, will have a follow-up assessment (within six months of discharge) regarding services outcomes – if appropriate, program reengagement can take place. These will be evidenced by program and Avatar reports and records (e.g. Assessments, Treatment Plans of Care) documenting such data.

8. Continuous Quality Improvement

CYF Outpatient Services Program's goal is to implement a culturally competent, efficient and effective coordinated care model of service, where clients are actively involved and where they learn to build on strengths, alleviate/manage symptoms and develop/make choices that assist them to the maximum extent possible to lead satisfying and productive lives in the least restrictive environments. Short Term Outcomes include: engagement of at risk and underserved children, youth and families into behavioral health services; identification of strengths and difficulties; engagement of consumers in a comprehensive treatment plan of care; symptom reduction, asset development; education on impact of behavioral; health and substance abuse issue on child and family; coordination of care and linkage to services. Quality assurance involves a high level of consumer involvement, as the best informant for the program services is the target population, themselves. RAMS coordinates various opportunities to obtain feedback on program delivery of culturally competent services, identifying strengths of strategies, and recommendations for program design, including group topics, group sessions scheduling, and the physical environment. Such methods include, but are not limited to:

- Meaningful engagement in treatment (counselor & client, with collateral meetings/input), with the client providing suggestions
- · Hiring & retaining a Peer/Youth Counselor, an integral member of the outreach & services team
- Anonymous consumer & family member satisfaction surveys (internal & external surveys)
- Anonymous feedback through suggestions boxes in the two client wait areas
- Focus groups with consumers, at least twice yearly
- Client Councils (Youth and Caregiver/Family), with quarterly meetings
- Clients are invited to monthly RAMS Board of Directors meeting to share their experiences and provide feedback (location is rotated to support accessibility)

For all quality assurance activities, the Program Director includes its outcome (narrative, qualitative/quantitative data, including all suggestions) in a written report to executive management; recommendations are explored as is its feasibility with developed plans of action (if any), at least monthly to executive management, Quality Assurance Council, the consumer(s), and/or community-at-large. Also, RAMS has demonstrated history of being fully cooperative with CBHS with all quality improvement activities, as evidenced by the excellent track record of meeting all of the contract objectives.

The CQI activities are aimed to enhance, improve and monitor the quality of services delivered. RAMS will assure that the CQI activities are in compliance with the Health Commission, Local, State, Federal and/or Funding Source policies and requirements including PURQC guidelines, Harm reduction, Health Insurance Portability and Accountability Act (HIPAA), Cultural Competency, and Client Satisfaction. Additionally, the billing practices and protocols are monitored and evaluated in order to ensure compliance with standards.

3. Goal Statement

The program provides on-site, school-based mental health services for students with an "Emotional Disturbance" (ED) and other special day classrooms. Major goals of School-Based Mental Health Partnership (SBMHP) programs include the prevention or referrals of ED youth to less or more restrictive settings, involvement of parents and caregivers in their children's education and services, and support to teachers/classroom/school environments to increase student engagement in learning and school connection. Partnerships necessarily involve collaboration with school officials, caregivers and youth themselves to promote and increase developmental assets and school engagement.

4. Target Population

The program serves San Francisco Unified School District (SFUSD) Marina and Presidio Middle Schools as well as George Washington, School of the Arts (SOTA), Mission, Lowell and Galileo High Schools (total of 8.5 classrooms). The SBMHP provides vital access to mental health services for emotionally disabled (ED) youth and their families and support to the school personnel who work with them. Services may also include students involved in Special Day Class (SDC) or

See CBHS Appendix B, CRDC pages.

6. Methodology

A. Describe how your program conducts outreach, recruitment, promotion, and advertisement.

RAMS Director of CYF Outpatient Services Clinic and Behavioral Health Counselors/Workers (including Psychologists, Social Workers, Behavioral/Mental Health Clinicians/Counselors/Workers) meet with school personnel (principal or designee, special education director, and special education teachers) in the beginning and end of each school year, as needed, and ongoing for outreach to and recruitment of children/youth who qualify for services. This may include but is not limited to active participation/presentation in at least one SPED department meeting.

RAMS Director of CYF Outpatient Services Clinic and/or Behavioral Health Counselors/Workers participate in forums (e.g. Back to School Nights) that students' parents/caregivers attend to discuss services, provide psycho-education, and develop relationships to support student participation in services.

RAMS outreach, engagement and retention strategies include, but are not limited to:

- Relationship Development: Developing rapport with school staff, students & families based on behavioral/mental
 health training & background including: using active listening skills, awareness of non-verbal communication,
 empathy; understanding of child development, multifaceted cultural identity, & recognizing clients' unique strengths
 and needs.
- <u>Classroom Observation</u>: Direct observation of behavior impeding client's ability to learn and teachers' response to these behaviors allows for assessment of the strengths and needs and for development of specific intervention plans with teachers, clients, and families.
- <u>Staff Development/Consultation with Teachers and Paraprofessionals</u>: Educate school staff regarding behavioral/mental health issues and how they impact client's behavior. Provide them with tools to engage students, recognizing their particular strengths and needs.
- <u>Client Consultation/Psycho education</u>: Providing education and/or consultation to clients, families & communities regarding ED/SDC/LD classification & behaviora/mental health issues/services to address negative associations, and engage and retain student participation.
- <u>Asset Building</u>: Linkage of students to significant adult and community supports including mentors, community organizations, and participation in meaningful extracurricular activity
 - B. Describe your program's admission, enrollment and/or intake criteria and process.

Children/youth in ED special day classrooms, with AB3632 status, or other special education classes are referred by school personnel to the on-site RAMS Behavioral Health Counselors/Workers. The process for referral and priority of students for enrollment is agreed upon during the MOU process at the beginning of the school year and is amended as necessary to meet the needs of the students and school sites.

C. Describe your program's service delivery model and how each service is delivered, e.g. phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, etc.

RAMS counselors provide on-site mental health services to the students referred for services. Each counselor dedicates 12 hours per week per partnership, for behavioral/mental health services (at least 8 hr/wk on-site). Each counselor provides at least 8 hours of on-site services at George Washington, Galileo, Lowell and Mission High Schools and Marina Middle

School; 12 hours on-site at Presidio Middle School, and 18 hours on-site at SOTA for a total of 8.5 classrooms, when schools are in operation (including summer school). Students have the option of receiving behavioral/mental health services at RAMS Outpatient Clinic when school is not in operation in an effort to provide continuity of care.

Initial assessment, individual therapy, group therapy, family therapy, case management, collateral and crisis intervention are treatment options, as clinically indicated. Outreach and consultation to the school personnel are provided as indirect services. A child/youth may be referred for medication evaluation & support services at the RAMS Outpatient Clinic, when necessary. Length of stay varies, depending on the review of treatment plan of care and the individualized Educational Plan. Child/youth may be seen twice a week for high intensity need, and may reduce to once a month for maintenance level need.

Using a Developmental Assets model, RAMS counselors work collaboratively with caregivers, school officials, other service providers, and community groups to help maximize students' internal and external resources and supports. RAMS counselors have also been trained in Second Step for middle school sites. A plan for implementation of these programs is agreed upon at the beginning of the school year with school administration and staff and submitted to CBHS. Second Step curriculum is presented in a group setting for one semester and is amended to meet the needs of the students in the group with regard to grade and developmental level.

D. Describe your program's exit criteria and process, e.g. successful completion, step-down process to less intensive treatment programs, aftercare, discharge planning.

RAMS Behavioral Health Counselors/Workers, along with school personnel, determine students' exit criteria and process & procedure at the students' Individualized Education Plan (IEP) meetings.

E. Describe your program's staffing: which staff will be involved in what aspects of the service development and delivery. Indicate if any staff position is not funded by the grant. Note: For CBHS, Appendix B is sufficient.

See CBHS Appendix B.

Each staff receives individual supervision from a senior clinician regularly and participates in monthly clinical case conferences & trainings (internal and external) and weekly clinical group supervision.

8. Continuous Quality Improvement

The RAMS CYF Outpatient Services (SBMHP) CQI activities include:

- Review Partnership Goals and Progress Site liaisons maintain quarterly contact to review the needs of the school staff and students and discuss the efficacy of strategies to engage and support this target population
- Review Treatment Goals and Progress Counselors regularly review the treatment goals and progress with students, caregivers and teachers on her/his own, with clinical supervisor, peers (group supervision), and students, caregivers and teachers themselves.
- Teacher's Report on Outcomes Currently, per request by CBHS, teachers provide student information twice a year (October & May) to Counselors. The report evaluates the student's strengths and difficulties (SDQ) and measures change over time. RAMS, with Partnership providers, will work with CBHS to further develop this comprehensive measurement tools for student's outcomes.
- Parent/Caregiver Version of the SDQ which allows Parents/Caregiver to also rate student's strengths and difficulties.
 Parents also have an opportunity to participate in the semi-annual State of California "Consumer's Satisfaction Survey".
- Student' Self-Report Version of the SDQ This report is developed in collaboration with CBHS and is in addition to the semi-annual State of California "Consumer's Satisfaction Survey". The self-reporting may include an assessment on mood, coping strategies, levels of acting out/undesired behaviors, stressors at home/school/community, social relationships, academic performance, and intervention outcomes.
- Ongoing Assessment of Students, with Teachers and Families Counselors meet with students weekly, teachers weekly or monthly, and families at least monthly or quarterly to continue the assessment of presenting issues, strengths, needs, impact on functioning in personal self-care, home, school, and community, precipitating events and other significant life events such as divorce, immigration, trauma, etc. This assessment is inclusive of risk factors such as previous history of aggression, self-harm tendencies, substance use/abuse, and psychiatric history. Counselors also review intervention methods and monitor effectiveness of the intervention, and adjust strategies when needed.
- IEP and other Special Education Related Meetings Provide Counselor information regarding student's academic needs and how the system plans to implement the intervention.

Measurement tools and methods include:

- Review Partnership Goals and Program Feedback from the Site Liaison meeting will be incorporated into strategies to engage and support teachers, students and caregivers
- Weekly Clinical Supervision Supervisors & colleagues provide feedback & suggestions to Counselors in their work resulting in adjusted intervention strategies, as needed.
- Review Treatment Goals and Progress Adjustment of strategies, methods, and models of intervention in order to meet the needs of the students.

3. Goal Statement

To provide integrated behavioral health services to at all the high school-based Wellness Centers. Student outcomes are improved psychological well-being, positive engagement in school & community, awareness & utilization of resources, and school capacity to support student wellness.

4. Target Population

The target population includes all SFUSD high schools (e.g. students & families; administrators & teachers), focusing on students with behavioral health concerns. Many are referred for concerns relating to mood, behavior, and other adverse circumstances. Outreach is also to those who may benefit from intensive case management, who are dealing with trauma/grief & loss, or families with limited resources.

Additionally, RAMS serves Early and Periodic Screening Diagnosis and Treatment (EPSDT) eligible residents who are not currently served by the SF community mental health system. EPSDT is a required benefit for all "categorically needy" children (e.g. poverty-level income, receiving SSI, or receive federal foster care or adoption assistance). This group reflects the greater health needs of children of low-income and with special health needs qualifying them for assistance. All San Franciscans under the age 21 who are eligible to receive the full scope of Medi-Cal services and meet medical necessity, but who are not currently receiving the same model of mental health services and not receiving services through capitated intensive case management services, i.e. Family Mosaic/TBS, are eligible for EPSDT services. Services are provided at the RAMS Outpatient Clinic and in the community (e.g. on-site at San Francisco Unified School District schools).

See CBHS Appendix B, CRDC pages.

6. Methodology

A. Describe how your program conducts outreach, recruitment, promotion, and advertisement.

Facilitated by RAMS staff and interns, outreach & educational activities for students & families and teachers are on various behavioral health issues (e.g. presentations at school meetings, participating in parent meetings, Back to School Nights, and PTSA meetings); and collaborating with Wellness staff in outreaching to students including general population as well as specific/targeted, hard to reach communities (e.g. LGBTQ, Chinese, gang-involved) by conducting various activities such as presentations (student orientation, classrooms, assemblies, and health fairs), contributing articles to the Wellness Newsletter, participating in student clubs & associations (culture/interest-based and student government), and other methods (e.g. connecting with Peer Resource, drop-in hours).

RAMS Wellness Centers Program services are provided by: Behavioral Health Counselors (including Psychologists, Social Workers, Behavioral/ Mental Health Clinicians/Counselors/Workers), Clinical Case Manager, Trauma/Grief & Loss Group Counselor, and seven interns/volunteers. All staff/interns have a Clinical Supervisor and overall program oversight is the responsibility of the Director of Behavioral Health Services/Program Director.

Behavioral health outreach, awareness, promotion, and educational services are provided to the entire student population, as requested by each school site. There is a specific need for increased outreach to the Chinese student population, as Chinese students have historically underutilized behavioral health services when compared to their peers. Furthermore, RAMS conducts at least one presentation on behavioral health issues to school staff or parents for each school site. In doing so, counselors also develop an outline for the presentation which is formatted so that other sites can utilize it.

Engagement & retention is an ongoing dialogue that RAMS has with students & families by communicating respect, fostering curiosity, empathy, and a non-judgmental attitude. This has proven successful, as supported by the increase of RAMS service utilization at each high school site.

B. Describe your program's admission, enrollment and/or intake criteria and process.

Students are referred by teachers, administrators, other Wellness staff members, or are self-referred for services. All students who are referred to a RAMS counselor receive an on-site, face-to-face confidential assessment/evaluation the next available day of the referral. The RAMS school-based assessment assess the student's strengths and interactions between psychological, biological, socio-cultural, and environmental factors that are impacting the youths functioning in school, at home, and in the community. Any student who the RAMS counselor has assessed to be experiencing behavioral health related symptoms after the initial evaluation, are considered appropriate for services. These 'identified students' may receive individual and/or group services on-site, or may be referred to RAMS Outpatient Clinic, another community-based organization, or their medical provider for behavioral health services, as deemed appropriate. RAMS also works closely with the school and family in efforts to provide comprehensive care.

C. Describe your program's service delivery model and how each service is delivered, e.g. phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, etc.

RAMS program models and treatment modalities are based on a client-centered, youth-focused, strength-based model with an inter-relational approach. As students present with a wide scope of issues (e.g. mental health, substance use/abuse, diverse ages, ethnicity, sexuality, socio-economic status), service provision must be comprehensive to assess and respond, while de-stigmatizing therapy and establishing trust. In doing so, RAMS incorporates various culturally relevant evidence-based practices, for in working with adolescents.

To maximize the direct services provided on-site, RAMS coordinates with each school and Wellness Center to determine staff scheduling to align with school structures, to the extent possible. Counselors are on-site from the beginning of the school day to 30 minutes after school. During a crisis, the Counselor may stay longer to assist with care transition (e.g. Child Crisis), in consultation with the RAMS Director of Behavioral Health Services/Program Director and Wellness Center team. As possible, RAMS staff meetings (supervision, etc.), trainings, and time-off (vacations) do not conflict with school schedules. During such unavoidable instances, RAMS assures appropriate staffing coverage. During school breaks, RAMS offers direct services (counseling, case management, crisis intervention) at various locations (e.g., summer school, RAMS Outpatient Clinic, and in the community).

The RAMS model of Wellness services' treatment modalities & strategies include: multi-lingual and multi-cultural behavioral health (mental health & substance abuse) assessment and individual & group intervention (short, medium, & long-term counseling, collateral); crisis intervention; substance use/abuse services (primary and secondary prevention and outpatient services); clinical case management and service coordination & liaison (community providers, emergency support services); consultation; outreach & educational activities for students & parents and teachers; and collaborating with Wellness staff in outreaching to students including general population as well as specific/targeted, hard to reach communities. Furthermore, RAMS provides at least one ongoing behavioral health intervention group at 12 of the 15 high school-based Wellness Centers, at minimum. The RAMS model focuses on short-term behavioral health counseling and case management services, with longer durations to be assessed in consultation with RAMS supervisors and Wellness. RAMS Counselors work within the school-based Wellness team under the direction of the Wellness Coordinator and RAMS supervisors.

During each stage of engagement, RAMS assesses students for appropriateness of services modality, frequency, and accessibility (location, schedule). RAMS provides services on-site at the Wellness Centers as well as off-site by other community program providers (including RAMS Outpatient Clinic). The type, frequency, and location (on- or off-site) of services are tailored to the client's acuity & risk, functional impairments, and clinical needs as well as accessibility to community resources (e.g. family support, insurance coverage, ability to pay if needed. The Counselor determines such need during the assessment, weighing risk factors that can prompt more immediate on-site services with short term counseling (one to five sessions), medium length (six to 11 sessions), or long term counseling (12 or more sessions, requires DSM IV diagnosis and potential decompensation). Assessments are reviewed for quality assurance, by clinical supervisors and the RAMS Director of Behavioral Health Services/Program Director with treatment planning (e.g. length of treatment) being discussed with the Wellness team (as appropriate). On-site services are generally provided to those exhibiting high level of need and whose school attendance is conducive to regular sessions. Treatment frequency is reported & reviewed monthly for medium length cases by clinical supervisors and long-term cases are reviewed by clinical supervisor and Director of Behavioral Health Services/Program Director, at least a quarterly basis. RAMS maintains a system/procedure to ensure that majority of clients receives short-term interventions and that clients receiving medium to long-term interventions are monitored; there is a formal approval process to approve services provided for more than a year.

Referrals to off-site services are indicated when:

- Students/family have private/public insurance that covers behavioral health services
- Students referred for services at the end of the school year and/or about to graduate high school
- Students requiring more than once a week counseling (e.g. high risk with suicidal/homicidal ideation; psychosis, etc) to be linked with a higher levels of care in the community
- Students/families can connect with community services with little or no accessibility barriers
 - D. Describe your program's exit criteria and process, e.g. successful completion, step-down process to less intensive treatment programs, aftercare, discharge planning.

Disposition of all cases are conducted in accordance to clinical standards of care, in collaboration with the client (and other parties involved), and through providing follow-up and/or referral information/linkage. For clients with ongoing care, termination or step-down process to less intensive treatment services begins when a child/youth has met all or majority of the target goals in the Plan of Care, when his/her target symptoms have decreased or alleviated, and he/she can function at

his/her developmental expectation. Stressors are also considered whether the child/ youth may decompensate if service is terminated or stepped-down.

Students may be referred for other behavioral/mental health or case management services for short-term, early intervention, or assessment only. RAMS counselors take part in ensuring that continuity of care takes place when students transfer or graduate from high school.

E. Describe your program's staffing: which staff will be involved in what aspects of the service development and delivery. Indicate if any staff position is not funded by the grant.

See CBHS Appendix B.

RAMS Wellness Centers Program maintains a school-based internship program; during FY 2010-11, there are five graduate student interns (counseling, social work), one pre-doctoral psychology intern, and one volunteer Counselor who holds a master's degree in a mental health discipline and is a Marriage & Family Therapist Intern. All interns/volunteers are providing behavioral health services on-site; each intern/volunteer is supported in their learning process, receiving weekly clinical individual and group supervision, and didactic seminars. These internships are unpaid positions.

A: CBHS Performance/Outcome Objectives FY 2010-11. These will be evidenced by Avatar and Program reports and records.

Only for MHSA PEI-funded Services:

Objective E.1: Prevention

<u>E.1.c.</u> Ensure that all adolescents served by your program have obtained an Adolescent Wellness Check-up within the past twelve months or refer the adolescent for a Wellness Check-up. Promote alcohol, tobacco, and other drug screening for youth in all public health clinics and have available referral sources if needed for Primary Care Physicians.

E.1.f. Prevention and Early Intervention (PEI) and Workforce Development, Education and Training (WDET) providers will work with MHSA and Contract Development and Technical Assistance staff to develop three outcomes objectives for their programs. The total number of acute inpatient hospital episodes used by clients in Fiscal Year 2010-2011 will be reduced by at least 15% compared to the number of acute inpatient hospital episodes used by these same clients in Fiscal Year 2009-2010. This is applicable only to clients opened to the program no later than July 1, 2010. Data collected for July 2010 — June 2011 will be compared with the data collected in July 2009 — June 2010. Programs will be exempt from meeting this objective if more than 50% of the total number of inpatient episodes was used by 5% or less of the clients hospitalized.

A.1.e. 75% of clients who have been served for two months or more will have met or partially met 50% of their treatment objectives at discharge.

3. Goal Statement

RAMS Fu Yau Project's goal is to prevent emotional disturbance and provide early intervention for children, prenatal to five years old, in San Francisco. RAMS strives to improve the social and emotional well-being of children by providing them, their families, and their childcare providers, on a weekly or monthly basis, with mental health consultation and early intervention services as delivered by highly skilled and culturally competent professionals.

4. Target Population

The Fu Yau Project targets young children from prenatal to five years old, who are from low-income families. These families include TANF and CalWORKs recipients, the working poor, and recent or new immigrants and refugees residing in San Francisco. The geographic locations include all 11 districts in San Francisco. Families who are of low income and have limited or no English-speaking ability tend to have little or no access to culturally appropriate mental health services. Almost 50% of the subsidized childcare population in San Francisco is of Chinese and other Asian descents; more than 10% are of Hispanic descent. Because the links between race, ethnicity, language, and socio-economic status are inextricable, the target populations of the Fu Yau Project are the underserved, low-income families of color in the City. This may include African-American families and immigrants from Asia and Latin America.

6. Methodology

A. Describe how your program conducts outreach, recruitment, promotion, and advertisement,

Fu Yau Project currently has MOU's with several large, state and federally funded child-care organizations (e.g. Head Start and San Francisco Unified School District). Fu Yau (FY) also works with community-based, non-profits such as Glide Child Care Center. FY's reputation is well known throughout the city so requests for consultation are often the result of word-of-mouth. Providers also respond to program/project brochures, which are distributed at various community outreach events attended by Fu Yau Consultants. The Project also participate in functions, such as conferences and trainings that allow the team the opportunity to discuss services and the mental health needs of children ages 0-5 with other professionals in the childcare & mental health fields, and the community at large.

B. Describe your program's admission, enrollment and/or intake criteria and process.

The Fu Yau Project exclusively collaborates with assigned childcare centers, family childcare providers, and family resource centers. Fu Yau utilizes the internal referral process of the childcare providers when specific families or children need consultation services. Additionally, as a result of clinical observation by Fu Yau Consultants and in consultation with childcare providers, as indicated, families are approached to discuss the outcome of the observation/consultation and are offered services to address the identified needs. Before intensive consultation about individual cases begins, the program requires that the child's legal guardian complete a Fu Yau Consent Form, as well as the in-house consent forms used by the sites.

For Fu Yau Project EPSDT services, children must be eligible for full scope Medi-Cal and not be receiving outpatient mental health services elsewhere in the CBHS CYF System of Care. Children may be referred by the childcare personnel, families, or as a result of observation/consultation by the Fu Yau Consultant, as clinically indicated. Children may be seen individually or in groups, as clinically appropriate.

C. Describe your program's service delivery model and how each service is delivered, e.g. phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, etc.

Consultation Services for Sites involve:

- Weekly or biweekly on-site observation and consultation to program
- Observation and consultation on specific, individual children as requested and needed
- In-services training to Center staff
- Special events such as staff retreat and/or all day training for Center staff as requested and needed by Centers
- Case consultation, crisis intervention, mental health intervention, referral and case management of specific children and families
- Consultants provide services during the operating hours of childcare sites, usually 4 to 8 hours per week or biweekly between 8 a.m. to 6 p.m., Monday through Friday

Family Involvement – the families are invited to participate in the program through parenting classes. Details are as follows:

- A series of four to six sessions of parenting classes in Chinese, Spanish, and/or English at each site. Topics may include, but are not limited to: child development, discipline, promoting child's self-esteem, stress management, resources for families, child abuse/domestic violence prevention, dealing with extended families, parent/child relationship, and raising bicultural children.
- Parenting classes usually take place in the early evenings so that the working parents may participate after work.
 Childcare and refreshments are usually provided.
- Parent support groups usually follow the series of parenting classes, as parents develop a trusting relationship with
 each other and with the consultant. The frequency of the groups may be from once a week to once a month,
 depending on the parents' needs.

Parent Advisory Committee meetings to guide us in effectively targeting the concerns and problems of the
community. These meetings take place five times a year, on Saturday mornings at Chinatown Child Development
Center (CCDC) in Chinatown, which is the most centralized and convenient place for parents to gather. These
meetings include one representative from each center and family childcare provider.

• Fu Yau Parenting Group meets bimonthly to discuss parenting issues that relate to the socio-emotional well-being of the parents' children. The group is co-facilitated and serves as a forum for parents who benefit from peer support and education. The facilitators offer parenting information and psycho-education.

Direct Services are also provided, which include, but are not limited to:

- Crisis intervention, mental health intervention, referral & linkage to long-term services at community agencies
 (SFUSD Special Education, Regional Center, Support Center for Families of Children with Disabilities, health and
 mental health agencies, etc.) for children and families. Most services are delivered at the childcare sites.
 However, some linkage services may be delivered in the community, and mental health services may be delivered
 either on-site, at RAMS or CCDC, depending on the private space available at childcare sites.
- Integrated play therapy groups, with a mixed group of three to 10 children, who have identified mental health issues (e.g., selective mutism, anxiety, under-socialized, etc.), and other "typically" developing children. These groups usually take place in the classroom during small group time or free play time, and last about six to 12 weeks. The size of the group and length of time for the session depends on the issues of the children as well as the program needs.
- Parent/Child play therapy groups, with identified children and their parents, are facilitated by the on-site Fu Yau Consultant and a childcare staff member. This group is a combination of parenting class and children's play therapy group. Parents and children are encouraged to play together with planned activities. Socialization skills and parenting skills are modeled on the spot by the mental health consultant. The size of the group is not more than six to eight pairs in order to maximize the effectiveness of the consultation. This group usually takes place in the late afternoon at the childcare site, to accommodate parents' work schedules.
- Child play treatment groups, with children with identified mental health issues. This group may last for most of
 the school year duration or be ongoing, involving two to six children who may have behavioral/social emotional
 concerns/difficulties. This group takes place on-site in the morning or early afternoon, during children's regular
 playtime.
- Psychiatry services and/or consultation, as needed

Services for Family Childcare Providers include, but are not limited to:

- · Weekly, monthly, or as needed visits and consultation with family child care providers
- Monthly support/education meetings for parents/families of children who attend Wu Yee home-based program
- D. Describe your program's exit criteria and process

Site providers (staff/administrators), Fu Yau Consultants, and the Director of Fu Yau Project meet at least twice a year to assess/evaluate the mental health consultation needs of each site. In each of these meetings, the site administrators may choose to refocus the services and/or request to change the intensity of consultation activities. For example, at a particular site, an administrator may choose to move from almost exclusively receiving direct individual/group services to more staff/programmatic consultation or to more work with parents in the form of workshops or trainings.

For EPSDT clients receiving direct mental health services, their Plan of Care is evaluated and/or updated bi-annually. Any increase or decrease to intensity of treatment is determined by the clinician, client, and/or client's caregiver(s) using the standard protocol per CBHS administration.

3. Goal Statement

The Summer Bridge Program goals & outcomes are to: (a) promote awareness of psychological well-being and (b) foster interest in health & human services as career options.

July 2010 to June 2011 is the second fiscal year of Summer Bridge: Summer 2010 is the first program year; school year 2010-11 is to continue engaging graduates, recruiting new members, and planning for the second summer program in 2011; Summer 2011 is the second program year.

4. Target Population

The target population includes all San Francisco's high school youth of diverse backgrounds. RAMS targets junior & senior grades, as these groups are more cognizant of post-high school/graduation activities.

At least 90% of each cohort will be of underrepresented communities within the healthcare workforce (e.g. behavioral health consumers, African-Americans, Latinos, Native Americans, Asian & Pacific Islander Americans), with a balance between males and females.

5. Modality(ies)/Interventions

Summer Bridge is an eight-week summer mentoring program for youth ages 16 to 20, currently enrolled in or recently graduated from SFUSD high schools; the structure day program is the modality/intervention.

RAMS operates this program, in collaboration with Horizons Unlimited, Samoan Community Development Center (SCDC), and Bayview Hunters Point Foundation for Community Improvement (BVHP). This partnership & collaboration truly provides for a "bridge" of knowledge and expertise. RAMS has expertise in culturally competent mental health services, serving disenfranchised communities, and training the next generation of practitioners. SCDC has extensive youth programs (target Samoan and Pacific-Islander communities) that support cultural identity, educational workshops, community outreach, crisis response; counseling, and intensive home-based supervision for probation youth. Horizons Unlimited serves youth (targeting Latino community) through the arts, employment, substance abuse prevention &

Program: Summer Bridge Program

treatment, and gender-focused empowerment & counseling services; for over a decade, Horizons has operated a peer leadership & education program and its

current focus is on mentoring young Latinas for peer counseling & human services. BVHP provides community mental health services to children, youth & families (prevalence of African American constituents) at the outpatient clinic and schools, engages at-risk youth in pro-social activities, and substance abuse prevention & treatment services. In this partnership, RAMS is the lead agency to operate and evaluate the program. The other agencies support the program through youth recruitment within underrepresented communities in the healthcare workforce; furthermore, SCDC and Horizons Unlimited also serve as facility sites for the program's operation.

The first Summer Bridge crossed over two fiscal years since SFUSD summer break started in June. The first two weeks of the program is in June, and the next six weeks are in July and August. With the expansion for Fiscal Year 2010-11, RAMS is able to expand the program into the school year by facilitating activities that engage interested Summer Bridge graduates in a deeper, more meaningful and more specific interest in the behavioral health field.

6. Methodology

A. Describe how your program conducts outreach, recruitment, promotion, and advertisement.

As RAMS currently provides services in over 75 sites throughout San Francisco, the agency is uniquely positioned well and has the expertise to outreach & promote the program to culturally & linguistically diverse consumers, underrepresented constituents, and community organizations. RAMS is able to leverage existing resources towards this effort; the agency is the contract provider of behavioral health services for the high school-based Wellness Center (all 15 public high schools) and provides behavioral/mental health & outreach services at Balboa Teen Health Center and serves the ED Partnership at high & middle schools. RAMS builds upon these existing partnerships with Wellness Centers, schools' administration & student bodies as well as collaborate with SFUSD and partner agencies for program recruitment. Targeted outreach is conducted at schools with the highest prevalence of underrepresented communities (e.g. Balboa, Burton, Galileo, International Studies Academy, Lincoln, Marshall, Mission, O'Connell and Washington High Schools). Furthermore, Summer Bridge 2010 graduates and RAMS Youth Council members are peer recruiters at their respective high schools and communities. As RAMS staff (i.e. Summer Bridge Program Coordinator and Counselors, Behavioral/Mental Health Clinicians/Counselors/Workers) continue to be at the school site throughout the school year, Summer Bridge participants can sustain mentorship & support upon program completion. Furthermore, within this partnership, Horizons Unlimited, SCDC, and BVHP are specifically assisting with outreach and recruitment within their respective constituencies and community groups. This supports the efforts of the Summer Bridge program with having a participant group that reflects underrepresented communities in the healthcare workforce.

Contract Term: 07/01/2010 through 06/30/2011

Additionally, RAMS actively participates in and are members of various culturally-focused community coalitions and/or committees and shall utilize these networks as well as funder entities for outreach & promotion. Such groups include, but are not limited to: SF Department of Public Health, San Francisco Unified School District, SF Human Services Agency, California State Department of Rehabilitation, Association of SF Mental Health Contractors, Mental Health Association of SF, and SF Human Services Network as well as SF Asian & Pacific Islander Health Parity Coalition, Asian Youth Advocacy Network, Asian Alliance Against Domestic Violence, SF Vietnamese Providers Committee, NICOS Chinese Health Coalition, Chinese Hospital of San Francisco, and Asian Mental Health Task Force. RAMS also consistently engages in various outreach activities, at which the agency promotes the Summer Bridge Program. Such activities include but are not limited to:

- Community workshops at health fairs, schools, and/or community centers
- Community workshops for the professional healthcare community
- Multi-cultural health and neighborhood fairs
- Public policy venues and platforms
- Distributing multi-lingual brochures and materials

RAMS is known to ethnic media & mainstream press and will use these means for marketing and organizing activities to reach the general public. The agency has been featured and included in various media and/or public campaigns with entities, such as KQED, SF Chronicle, Los Angeles Times, Sacramento Bee, Mental Health Weekly, KTSF-26, KMTP-32 (World Channel), Sing Tao (Radio and Newspaper), Ming Pao, World Journal, Philippine News, AsianWeek, and The Richmond ReView.

B. Describe your program's admission, enrollment and/or intake criteria and process.

This program is operated with a high community engagement and input process. During the curriculum and program review/development, Summer Bridge 2010 graduates and RAMS Youth Council and community engagement & feedback is obtained regarding application procedures, curriculum, and program completion/graduation requirements. In general, participants must be enrolled in a San Francisco high school. The target population are the junior & senior grades, as these groups are more cognizant of post-high school/graduation activities. At least 90% of each cohort will be of underrepresented communities within the healthcare workforce (e.g. behavioral health consumers, African-Americans, Latinos, Native Americans, Asians & Pacific Islanders Americans), with a balance between males and females. General application process includes the youth submitting an application to the program, for which RAMS reviews and makes a determination about program acceptance (in consideration of a match between program and student needs).

During the curriculum and program review/development, all organizations involved (RAMS, SCDC, BVHP, and Horizons Unlimited) holds meetings that include those that reflect the diversity of the community to obtain recommended program operations elements. RAMS builds upon the collective expertise & experience of all the partners involved in working with the target

Program: Summer Bridge Program

population. RAMS and the Project Coordinator conduct research on community best practices/approaches/models. The best informant for the culturally relevant curriculum & program development is the target population, themselves. Methods for engagement include: focus groups, surveys, community meetings, and facilitated discussions.

RAMS builds upon the experience and lessons learned from Summer 2010 as well as engages Summer Bridge 2010 graduates, RAMS Youth Council members, and stakeholders including: youth and families of diverse backgrounds, the school's student associations & clubs, Wellness Centers' staff (e.g. Coordinator, Peer Advisor), school personnel & faculty and youth & community centers.

C. Describe your program's service delivery model and how each service is delivered, e.g. phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wraparound services, etc.

Facilitated by the Summer Bridge Coordinator and Counselor, the eight-week summer program is from June to August. Participants meet three times a week which include meeting at the base site with presentations from community members, community site visits so that students may "see" the various human services work settings, and convening at the end of the week to process and integrate learning for the week. Each meeting day is about four hours, with a weekly total of face-to-face contact for up to 12 hours; other independent, self-study hours may be needed, to work on final project. Additionally, students may have apprenticeships and job shadowing experiences in various settings such as vocational counseling (e.g. RAMS Hire-Ability Vocational Services), residential facility setting (e.g. RAMS Broderick Street Adult Residential), welfare-to-work system of care (e.g. RAMS PAES Counseling & Pre-Vocational Services), and other youth organizations in collaboration with partner agencies and collaborators. To further enhance accessibility of Summer Bridge to underrepresented communities, the program's day-today operation/base is at Horizons Unlimited (SF Mission District: 440 Potrero Avenue) and/or SCDC (SF Visitacion Valley District: 2055 Sunnydale Avenue). As many of the target population reside in SF's East and Southeast sectors, they are well familiar with all these "youthfriendly" community centers. All sites are easily accessible by public transportation.

Summer Bridge Program structure:

- Based on weekly theme that reflects areas related in mental health (e.g. psychotherapy, higher education, family issues, addiction and dependence, alternative healing methods)
- Team building activities and team/individual projects
- Motivational speakers representing diverse communities (ethnic, racial, gender, sexual orientation, leadership/behavioral health, college students, college professors)
- Trial and/or actual college application exercises
- Skills building regarding searching for community resources (e.g. mental health/human services, primary care, vocational services)
- Weekly journaling to reflect on learning

Contract Term: 07/01/2010 through 06/30/2011

Program: Summer Bridge Program

- · Weekly process group to help participants integrate learning on a weekly basis
- A final project(s) to be presented at the end of the program to the cohort and their families;
 this project represents a culmination of the youth's experience, learning, and possible career goal/planning.
- Community site visits are the highlight of the program, as this brings the "real world" into the facilitated curriculum; such agencies for site visits may include:
 - Community mental health agencies (adults, children & youth, vocational, holistic)
 - Training programs of mental health fields and discussions with current students
 - Community events and health fairs
 - University and college campuses & tours, including seeing a "live" college course, visiting the academic counseling office
- To support youth & families in addressing barriers of program participation & completion, Summer Bridge connects youth with community services (e.g. case management) such as:
 - Behavioral health services (Wellness Centers, other community agencies)
 - Primary care services (teen health clinics)
 - Academic support and/or mentorship programs
 - Childcare services (Wu Yee Children's Services, Children's Council)
 - Connect youth to local family resource centers and/or youth centers
- Each student that completes the program receives a monetary stipend/incentive

As the curriculum is being delivered (during summer session), there are mid-course focus group/survey and program completion satisfaction surveys that will inform program structure; RAMS shall make adjustments, as appropriate and feasible.

During the School Year, Summer Bridge maintains ongoing engagement with youth in the following activities:

- Ongoing engaging youth via multi-media (e.g. Summer Bridge Facebook)
- Coordinate semi-annual Summer Bridge reunions of graduates (Winter Break 2010 and Spring Break 2011)
- During school breaks, Summer Bridge engages graduates in mini-workshops, sharing of "apprenticeship" and youth council experience, keeping young graduates interested in the behavioral/mental health field
- Coordinate a Spring Focus Group Engage Summer Bridge 2010 graduates in reviewing curriculum and advise on the development of curriculum for Summer Bridge 2011; participate as "mentors" and "trainers" for Summer Bridge 2011, etc.

RAMS, during the school year, also coordinates the Youth Council. Specifically, the Summer Bridge graduates are invited to join the RAMS Youth Council Description, which aims to engage youth in a deeper understanding of community mental health services, soliciting their input in service delivery, continue to educate youth the importance of mental wellness and destigmatization of seeking mental health service behaviors. Completion of Youth Council responsibilities result in a \$250 stipend.

- d. Appropriate Safeguards. BA shall implement appropriate safeguards as are necessary to prevent the use or disclosure of Protected Information otherwise than as permitted by the Contract or Addendum, including, but not limited to, administrative, physical and technical safeguards that reasonably and appropriately protect the confidentiality, integrity and availability of the Protected Information, in accordance with 45 C.F.R Section 164.308(b)]. - g. Access to Protected Information. BA shall make Protected Information maintained by BA or its agents or subcontractors available to CE for inspection and copying within ten (10) days of a request by CE to enable CE to fulfill its obligations under the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.524 [45 C.F.R. Section 164.504(e)(2)(ii)(E)]. Section 17935(e).
- h. Amendment of PHI. Within ten (10) days of receipt of a request from CE for an amendment of Protected Information or a record about an individual contained in a Designated Record Set, BA or its agents or subcontractors shall make such Protected Information available to CE for amendment and incorporate any such amendment to enable CE to fulfill its obligation under the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.526. If any individual requests an amendment of Protected

Information directly from BA or its agents or subcontractors, BA must notify CE in writing within five (5) days of the request. Any approval or denial of amendment of Protected Information maintained by BA or its agents or subcontractors shall be the responsibility of CE [45 C.F.R. Section 164.504(e)(2)(ii)(F)].

- Accounting Rights. Within ten (10)calendar days of notice by CE of a request for an accounting for disclosures of Protected Information or upon any disclosure of Protected Information for which CE is required to account to an individual, BA and its agents or subcontractors shall make available to CE the information required to provide an accounting of disclosures to enable CE to fulfill its obligations under the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.528, and the HITECH Act, including but not limited to 42 U.S.C. Section 17935(c), as determined by CE. BA agrees to implement a process that allows for an accounting to be collected and maintained by BA and its agents or subcontractors for at least six (6) years prior to the request. However, accounting of disclosures from an Electronic Health Record for treatment, payment or health care operations purposes are required to be collected and maintained for only three (3) years prior to the request, and only to the extent that BA maintains an electronic health record and is subject to this requirement. At a minimum, the information collected and maintained shall include: (i) the date of disclosure; (ii) the name of the entity or person who received Protected Information and, if known, the address of the entity or person; (iii) a brief description of Protected Information disclosed; and (iv) a brief statement of purpose of the disclosure that reasonably informs the individual of the basis for the disclosure, or a copy of the individual's authorization, or a copy of the written request for disclosure. In the event that the request for an accounting is delivered directly to BA or its agents or subcontractors, BA shall within five (5) calendar days of a request forward it to CE in writing. It shall be CE's responsibility to prepare and deliver any such accounting requested. BA shall not disclose any Protected Information except as set forth in Sections 2.b. of this Addendum [45 C.F.R. Sections 164.504(e)(2)(ii)(G) and 165.528]. The provisions of this subparagraph h shall survive the termination of this Agreement.
- j. Governmental Access to Records. BA shall make its internal practices, books and records relating to the use and disclosure of Protected Information available to CE and to the Secretary of the U.S. Department of Health and Human Services(the "Secretary") for purposes of determining BA's compliance with the Privacy Rule [45 C.F.R. Section 164.504(e)(2)(ii)(H)]. BA shall provide to CE a copy of any Protected Information that BA provides to the Secretary concurrently with providing such Protected Information to the Secretary.
- k. Minimum Necessary. BA (and its agents or subcontractors) shall request, use and disclose only the minimum amount of Protected Information necessary to accomplish the purpose of the request, use or disclosure. [42 U.S.C. Section 17935(b); 45 C.F.R. Section 164.514(d)(3)] BA understands and agrees that the definition of "minimum necessary" is in flux and shall keep itself informed of guidance issued by the Secretary with respect to what constitutes "minimum necessary."
- Data Ownership. BA acknowledges that BA has no ownership rights with respect to the Protected Information.
- m. Business Associate's Insurance. BA shall maintain a sufficient amount of insurance to adequately address risks associated with BA's use and disclosure of Protected Information under this Addendum.

- n. Notification of Breach. During the term of the Contract, BA shall notify CE within twenty-four (24) hours of any suspected or actual breach of security, intrusion or unauthorized use or disclosure of PHI of which BA becomes aware and/or any actual or suspected use or disclosure of data in violation of any applicable federal or state laws or regulations. BA shall take (i) prompt corrective action to cure any such deficiencies and (ii) any action pertaining to such unauthorized disclosure required by applicable federal and state laws and regulations.
- o. Breach Pattern or Practice by Covered Entity. Pursuant to 42 U.S.C. Section 17934(b), if the BA knows of a pattern of activity or practice of the CE that constitutes a material breach or violation of the CE's obligations under the Contract or Addendum or other arrangement, the BA must take reasonable steps to cure the breach or end the violation. If the steps are unsuccessful, the BA must terminate the Contract or other arrangement if feasible, or if termination is not feasible, report the problem to the Secretary of DHHS. BA shall provide written notice to CE of any pattern of activity or practice of the CE that BA believes constitutes a material breach or violation of the CE's obligations under the Contract or Addendum or other arrangement within five (5) calendar days of discovery and shall meet with CE to discuss and attempt to resolve the problem as one of the reasonable steps to cure the breach or end the violation.
- p. Audits, Inspection and Enforcement. Within ten (10)calendar days of a written request by CE, BA and its agents or subcontractors shall allow CE to conduct a reasonable inspection of the facilities, systems, books, records, agreements, policies and procedures relating to the use or disclosure of Protected Information pursuant to this Addendum for the purpose of determining whether BA has complied with this Addendum; provided, however, that (i) BA and CE shall mutually agree in advance upon the scope, timing and location of such an inspection, (ii) CE shall protect the confidentiality of all confidential and proprietary information of BA to which CE has access during the course of such inspection; and (iii) CE shall execute a nondisclosure agreement, upon terms mutually agreed upon by the parties, if requested by BA. The fact that CE inspects, or fails to inspect, or has the right to inspect, BA's facilities, systems, books, records, agreements, policies and procedures does not relieve BA of its responsibility to comply with this Addendum, nor does CE's (i) failure to detect or (ii) detection, but failure to notify BA or require BA's remediation of any unsatisfactory practices, constitute acceptance of such practice or a waiver of CE's enforcement rights under the Contract or Addendum, BA shall notify CE within ten (10) calendar days of learning that BA has become the subject of an audit, compliance review, or complaint investigation by the Office for Civil Rights.

#### 3. Termination

- a. Material Breach. A breach by BA of any provision of this Addendum, as determined by CE, shall constitute a material breach of the Contract and shall provide grounds for immediate termination of the Contract, any provision in the Contract to the contrary notwithstanding. [45 C.F.R. Section 164.504(e)(2)(iii)].
  - b. Judicial or Administrative Proceedings. CE may terminate the Contract, effective immediately, if (i) BA is named as a defendant in a criminal proceeding for a violation of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws or (ii) a finding or stipulation that the BA has violated any standard or requirement of HIPAA, the HITECH Act, the HIPAA Regulations or other

security or privacy laws is made in any administrative or civil proceeding in which the party has been joined.

c. Effect of Termination. Upon termination of the Contract for any reason, BA shall, at the option of CE, return or destroy all Protected Information that BA or its agents or subcontractors still maintain in any form, and shall retain no copies of such Protected Information. If return or destruction is not feasible, as determined by CE, BA shall continue to extend the protections of Section 2 of this Addendum to such information, and limit further use of such PHI to those purposes that make the return or destruction of such PHI infeasible[45 C.F.R. Section 164.504(e)(ii)(2)(I)]. If CE elects destruction of the PHI, BA shall certify in writing to CE that such PHI has been destroyed.

#### 4. Limitation of Liability

Any limitations of liability as set forth in the contract shall not apply to damages related to a breach of the BA's privacy or security obligations under the Contract or Addendum.

#### 5. Disclaimer

CE makes no warranty or representation that compliance by BA with this Addendum, HIPAA, the HITECH Act, or the HIPAA Regulations will be adequate or satisfactory for BA's own purposes. BA is solely responsible for all decisions made by BA regarding the safeguarding of PHI.

## 6. Certification

To the extent that CE determines that such examination is necessary to comply with CE's legal obligations pursuant to HIPAA relating to certification of its security practices, CE or its authorized agents or contractors, may, at CE's expense, examine BA's facilities, systems, procedures and records as may be necessary for such agents or contractors to certify to CE the extent to which BA's security safeguards comply with HIPAA, the HITECH Act, the HIPAA Regulations or this Addendum.

#### 7. Amendment

a. Amendment to Comply with Law. The parties acknowledge that state and federal laws relating to data security and privacy are rapidly evolving and that amendment of the Contract or Addendum may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, the Privacy Rule, the Security Rule and other applicable laws relating to the security or confidentiality of PHI. The parties understand and agree that CE must receive satisfactory written assurance from BA that BA will adequately safeguard all Protected Information. Upon the request of either party, the other party agrees to promptly enter into negotiations concerning the terms of an amendment to this Addendum embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, the Privacy Rule, the Security Rule or other applicable laws. CE may terminate the Contract upon thirty (30) calendar days written notice in the event (i) BA does not promptly enter into negotiations to amend the Contract or Addendum when requested by CE pursuant to this Section or (ii) BA does not enter into an amendment to the Contract or Addendum providing assurances regarding the safeguarding of PHI that

CE, in its sole discretion, deems sufficient to satisfy the standards and requirements of applicable laws.

## 8. Assistance in Litigation or Administrative Proceedings

BA shall make itself, and any subcontractors, employees or agents assisting BA in the performance of its obligations under the Contract or Addendum, available to CE, at no cost to CE, to testify as witnesses, or otherwise, in the event of litigation or administrative proceedings being commenced against CE, its directors, officers or employees based upon a claimed violation of HIPAA, the HITECH Act, the Privacy Rule, the Security Rule, or other laws relating to security and privacy, except where BA or its subcontractor, employee or agent is a named adverse party.

## 9. No Third-Party Beneficiaries

Nothing express or implied in the Contract or Addendum is intended to confer, nor shall anything herein confer, upon any person other than CE, BA and their respective successors or assigns, any rights, remedies, obligations or liabilities whatsoever.

#### 10. Effect on Contract

Except as specifically required to implement the purposes of this Addendum, or to the extent inconsistent with this Addendum, all other terms of the Contract shall remain in force and effect.

## 11. Interpretation

The provisions of this Addendum shall prevail over any provisions in the Contract that may conflict or appear inconsistent with any provision in this Addendum. This Addendum and the Contract shall be interpreted as broadly as necessary to implement and comply with HIPAA, the HITECH Act, the Privacy Rule and the Security Rule. The parties agree that any ambiguity in this Addendum shall be resolved in favor of a meaning that complies and is consistent with HIPAA, the HITECH Act, the Privacy Rule and the Security Rule.

# Dispute Resolution Procedure For Health and Human Services Nonprofit Contractors 9-06

#### Introduction

The City Nonprofit Contracting Task Force submitted its final report to the Board of Supervisors in June 2003. The report contains thirteen recommendations to streamline the City's contracting and monitoring process with health and human services nonprofits. These recommendations include: (1) consolidate contracts, (2) streamline contract approvals, (3) make timely payment, (4) create review/appellate process, (5) eliminate unnecessary requirements, (6) develop electronic processing, (7) create standardized and simplified forms, (8) establish accounting standards, (9) coordinate joint program monitoring, (10) develop standard monitoring protocols, (11) provide training for personnel, (12) conduct tiered assessments, and (13) fund cost of living increases. The report is available on the Task Force's website at <a href="http://www.sfgov.org/site/npcontractingtf">http://www.sfgov.org/site/npcontractingtf</a> index.asp?id=1270. The Board adopted the recommendations in February 2004. The Office of Contract Administration created a Review/Appellate Panel ("Panel") to oversee implementation of the report recommendations in January 2005.

The Board of Supervisors strongly recommends that departments establish a Dispute Resolution Procedure to address issues that have not been resolved administratively by other departmental remedies. The Panel has adopted the following procedure for City departments that have professional service grants and contracts with nonprofit health and human service providers. The Panel recommends that departments adopt this procedure as written (modified if necessary to reflect each department's structure and titles) and include it or make a reference to it in the contract. The Panel also recommends that departments distribute the finalized procedure to their nonprofit contractors. Any questions for concerns about this Dispute Resolution Procedure should be addressed to purchasing@sfgov.org.

#### Dispute Resolution Procedure

The following Dispute Resolution Procedure provides a process to resolve any disputes or concerns relating to the administration of an awarded professional services grant or contract between the City and County of San Francisco and nonprofit health and human services contractors.

Contractors and City staff should first attempt to come to resolution informally through discussion and negotiation with the designated contact person in the department.

If informal discussion has failed to resolve the problem, contractors and departments should employ the following steps:

- Step 1 The contractor will submit a written statement of the concern or dispute addressed to the Contract/Program Manager who oversees the agreement in question. The writing should describe the nature of the concern or dispute, i.e., program, reporting, monitoring, budget, compliance or other concern. The Contract/Program Manager will investigate the concern with the appropriate department staff that are involved with the nonprofit agency's program, and will either convene a meeting with the contractor or provide a written response to the contractor within 10 working days.
- Step 2 Should the dispute or concern remain unresolved after the completion of Step 1, the contractor may request review by the Division or Department Head who supervises the Contract/Program Manager. This request shall be in writing and should describe why the concern is still unresolved and propose a solution that is satisfactory to the contractor.

The Division or Department Head will consult with other Department and City staff as appropriate, and will provide a written determination of the resolution to the dispute or concern within 10 working days.

• Step 3 Should Steps 1 and 2 above not result in a determination of mutual agreement, the contractor may forward the dispute to the Executive Director of the Department or their designee. This dispute shall be in writing and describe both the nature of the dispute or concern and why the steps taken to date are not satisfactory to the contractor. The Department will respond in writing within 10 working days.

In addition to the above process, contractors have an additional forum available only for <u>disputes that concern implementation of the thirteen policies and procedures recommended by the Nonprofit Contracting Task Force and adopted by the Board of Supervisors.</u> These recommendations are designed to improve and streamline contracting, invoicing and monitoring procedures. For more information about the Task Force's recommendations, see the June 2003 report at <a href="http://www.sfgov.org/site/npcontractingtf">http://www.sfgov.org/site/npcontractingtf</a> index_asp?id=1270.

The Review/Appellate Panel oversees the implementation of the Task Force report. The Panel is composed of both City and nonprofit representatives. The Panel invites contractors to submit concerns about a department's implementation of the policies and procedures. Contractors can notify the Panel after Step 2. However, the Panel will not review the request until all three steps are exhausted. This review is limited to a concern regarding a department's implementation of the policies and procedures in a manner which does not improve and streamline the contracting process. This review is not intended to resolve substantive disputes under the contract such as change orders, scope, term, etc. The contractor must submit the request in writing to purchasing@sfgov.org. This request shall describe both the nature of the concern and why the process to date is not satisfactory to the contractor. Once all steps are exhausted and upon receipt of the written request, the Panel will review and make recommendations regarding any necessary changes to the policies and procedures or to a department's administration of policies and procedures.
