#### AMENDED IN COMMITTEE 07/11/16 ORDINANCE NO

FILE NO. 160252

- 1 [Planning, Administrative Codes Construction of Accessory Dwelling Units]
- 2

3	Ordinance amending the Planning Code to allow the construction of Accessory
4	Dwelling Units (ADUs, also known as Secondary or In-Law Units) on all lots in the City
5	in areas that allow residential use; amending the Administrative Code to revise the
6	definition of "rental unit" as it applies to ADUs; affirming the Planning Department's
7	determination under the California Environmental Quality Act; making findings of
8	consistency with the General Plan, and the eight priority policies of Planning Code,
9	Section 101.1; adopting findings under Planning Code, Section 302; and directing the
10	Clerk to send a copy of this Ordinance to the California Department of Housing and
11	Community Development after adoption.
12	NOTE: Unchanged Code text and uncodified text are in plain Arial font.
13	Additions to Codes are in <i>single-underline italics Times New Roman font</i> . Deletions to Codes are in <i>strikethrough italics Times New Roman font</i> .
14	Board amendment additions are in <u>double-underlined Arial font</u> . Board amendment deletions are in strikethrough Arial font.
15	Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.
16	
17	Be it ordained by the People of the City and County of San Francisco:
18	
19	Section 1.General and Environmental Findings.
20	(a) The Planning Department has determined that the actions contemplated in this
21	ordinance comply with the California Environmental Quality Act (California Public Resources
22	Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
23	Supervisors in File No. <u>160252</u> and is incorporated herein by reference. The Board affirms
24	this determination.
25	

1 (b) On <u>June 16, 2016</u>, the Planning Commission, in Resolution No.<u>19663</u>, adopted 2 findings that the actions contemplated in this ordinance are consistent, on balance, with the 3 City's General Plan and eight priority policies of Planning Code Section 101.1. The Board 4 adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the 5 Board of Supervisors in File No.<u>160252</u>, and is incorporated herein by reference.

6 (c) Pursuant to Planning Code Section 302, the Board of Supervisors finds that 7 these Planning Code amendments will serve the public necessity, convenience, and welfare 8 for the reasons set forth in Planning Commission Resolution No.<u>19663</u>.

9

10

Section 2. Legislative Findings.

San Francisco's total land area is approximately 49 square miles, and much of
 this land is not open to development because of prohibitive topography or public ownership.

According to the 2010 United States Census Report, San Francisco is the most
 densely populated city in California. The San Francisco Bay Area is the second most densely
 populated metropolitan area in the United States, following only New York City.

16 3) Housing costs in San Francisco are beyond the reach of the vast majority <u>of</u> low-17 and middle-income households. Approximately 90% of individuals earning less than \$35,000 18 and over 50% of individuals making from \$35,000 to \$75,000 <u>are</u> spending more than 30% of 19 their income on rent.

4) San Francisco has a shortage of affordable housing units, exacerbated not only
by a shortage of new affordable housing units, but also by the continuing loss of affordable
housing units across the City. While approximately 6,300 new affordable housing units were
built in the period from 2005 to 2015, over 4,500 rent controlled and otherwise protected
affordable units were withdrawn from the housing market.

5) Policy 1.5 of the City's 2014 Housing Element, which is a required element of the City's General Plan, states that adding new units in existing residential buildings represents a simple and cost-effective method of expanding the City's housing supply. These units could be developed to meet the needs of seniors, people with disabilities and others who, because of modest incomes or lifestyles, prefer or need small units at relatively low rents, while simultaneously enhancing their overall safety and habitability.

6) Section 65852.2 of the California Government Code provides that any local
agency may, by ordinance, provide for the creation of Accessory Dwelling Units (also known
as "second" or "in-law" units) in zones that allow for residential use. The State Legislature
finds and declares that these units are a valuable form of housing in California.

11 7) Expanding the construction of Accessory Dwelling Units to all lots in San 12 Francisco that allow for residential use will provide additional housing that may be subject to 13 rent control and other rent stabilization protections, without substantially changing their built 14 character and allowing more residents to live within walking distance of transit, shopping, and 15 services.

16 8) Allowing Accessory Dwelling Units within existing residential buildings, subject to 17 restrictions that incentivize their use as additional affordable rental housing, is a pragmatic 18 infill strategy to create more housing for San Francisco residents. This strategy is crucial for 19 San Francisco's housing market in multiple respects.

9) This infill strategy would create more apartments in the areas of the city that are
already built-out without changing the neighborhood character, increasing building heights or
altering the built form. Such small-scale residential infill could create additional homes for
existing and future San Franciscans spread throughout the city.

24

1	10) A need exists in San Francisco for additional affordable housing. By allowing
2	Accessory Dwelling Units citywide, San Francisco will continue to be a major provider of
3	affordable housing opportunities in the region.
4	
5	Section 3. The Planning Code is hereby amended by revising Sections 102, 207 and
6	307, and deleting Section 207.2, to read as follows:
7	SEC. 102. DEFINITIONS.
8	* * * *
9	Dwelling Unit, Accessory. Also known as a Secondary Unit or In-Law Unit, is a Dwelling Unit
10	added to an existing residential property and added to an existing residential property and
11	constructed <i>entirely within the existing built envelope of an existing building in areas that allow</i>
12	residential use or within the envelope of an existing and authorized auxiliary structure on the same lot
13	and constructed with a complete or partial waiver from the Zoning Administrator of the density
14	limits and/or the parking, rear yard, exposure, or open space standards of this Code pursuant
15	to the provisions of Sections 207(c)(4) and 307(l)(i).
16	* * * *
17	SEC. 207. DWELLING UNIT DENSITY LIMITS.
18	* * * *
19	(c) <b>Exceptions to Dwelling Unit Density Limits.</b> An exception to the calculations
20	under this Section shall be made in the following circumstances:
21	* * * *
22	(4) Accessory Dwelling Units.
23	(A) <b>Definition.</b> An "Accessory Dwelling Unit" (ADU) is defined in
24	Section 102.
25	

1	(B) <b>Applicability.</b> The exceptions permitted by this Subsection
2	207(c)(4) shall apply only to all lots located within the City and County of San Francisco in areas
3	that allow residential use; provided, however, that the Department shall not approve an application for
4	construction of an Accessory Dwelling Unit in any building where a tenant has been evicted pursuant
5	to Administrative Code Section 37.9(a)(9) through 37.9(a)(14) under a notice of eviction served within
6	10 years prior to filing the application for a building permit to construct the ADU or where a tenant
7	has been evicted pursuant to Administrative Code Section 37.9(a)(8) under a notice of eviction served
8	within five years prior to filing the application for a building permit to construct the ADU.
9	(i) lots within the boundaries of Board of Supervisors District 8
10	extant on July 1, 2015;
11	(ii) lots within the boundaries of Board of Supervisors District 3
12	extant on July 1, 2015; and
13	(iii) lots with a building undergoing mandatory seismic retrofitting in
14	compliance with Section 34B of the Building Code or voluntary seismic retrofitting in compliance with
15	the San Francisco Department of Building Inspection's Administrative Bulletin 094.
16	(C) <b>Controls</b> <u>on Construction</u> . An Accessory Dwelling Unit is permitted
17	to be constructed under the following conditions:
18	(i) For existing buildings that have four no more than 10 existing
19	<u>Dwelling Units or fewer, one ADU is permitted; for existing buildings that have more than four</u> 10
20	existing Dwelling Units, there is no limit on the number of two ADUs are permitted.
21	(ii) An Accessory Dwelling Unit shall be constructed entirely within
22	the built envelope of an existing building or within the built envelope of an existing and authorized
23	auxiliary structure on the same lot, as the built envelop existed three years prior to the time the
24	application was filed for a building permit to construct the ADU. For purposes of this provision, the
25	"built envelope" shall include space under open railings, parapets, and catwalks; the open

1	area under a cantilevered room or room built on columns; decks, except for decks that
2	encroach into the required rear yard, or decks that are supported by columns or walls other
3	than the building wall to which it is attached and are multi-level or more than 10 feet above
4	grade; and lightwell infills provided that the infill will be against a blank neighboring wall at the
5	property line and not visible from any off-site location.
6	In the event any construction takes place in space under open railings, parapets, and
7	catwalks, the open area under a cantilevered room or room built on columns, decks, except
8	for decks that encroach into the required rear yard, or decks that are supported by columns or
9	walls other than the building wall to which it is attached and are multi-level or more than 10
10	feet above grade, such construction shall require notice pursuant to Planning Code Section
11	<u>311 or 312.</u>
12	(i) (iii) An Accessory Dwelling Unit shall not be constructed using
13	space from an existing Dwelling Unit.
14	<i>(iv)</i> A building undergoing seismic retrofitting may be eligible for a
15	height increase pursuant to Subsection (c)(4)(F) below.
16	(v) Notwithstanding any other provision of this Code, an Accessory
17	Dwelling Unit authorized under this Section 207(c)(4) may not be merged with an original unit(s).
18	(vi) An Accessory Dwelling Unit shall not be permitted in any
19	building in a Neighborhood Commercial District or in the Chinatown Community Business or Visitor
20	Retail Districts if it would eliminate or reduce a ground-story retail or commercial space.
21	(vii) Accessory Dwelling Units shall have a minimum unit size of
22	350 square feet for studio units and 550 square feet for one-bedroom units.
23	(ii) The Accessory Dwelling Unit is subject to the provisions of the
24	San Francisco Rent Stabilization and Arbitration Ordinance (Chapter 37 of the Administrative Code) if
25	

#### the existing building or any existing Dwelling Unit within the building is subject to the Rent

- 2 Stabilization and Arbitration Ordinance.
- 3 (iii) (D) Prohibition of Short-Term Rentals. The Department shall require the applicant to disclose on any application for construction of an Accessory Dwelling Unit whether the 4 5 applicant intends to use, or authorize the use of, the An Accessory Dwelling Unit shall not be used for 6 Short-Term Residential Rentals under Chapter 41A of the Administrative Code, which restriction 7 shall be recorded as a Notice of Special Restriction on the subject lot. The Department shall not 8 approve an application for construction of an Accessory Dwelling Unit unless the applicant has 9 provided the information required by this subsection. 10 **Restrictions on Subdivision.** Notwithstanding the provisions of Article 9 of the (E)Subdivision Code, a lot with an Accessory Dwelling Unit authorized under this Section 207(c)(4) shall 11 12 not be subdivided in a manner that would allow for the ADU to be sold or separately financed pursuant 13 to any condominium plan, housing cooperative, or similar form of separate ownership; provided, however, that this prohibition on separate sale or finance of the ADU shall not apply to a 14 building that (i) within three years prior to July 11, 2016 was an existing condominium with no 15 16 Rental Unit as defined in Section 37.2(r) of the Administrative Code, and (ii) has had no evictions pursuant to Sections 37.9(a)(8) through 37.9(a)(14) of the Administrative Code 17 18 within 10 years prior to July 11, 2016, and provided further that any such ADU may only be sold to a household whose total household income does not exceed 120% of Area Median 19 Income. Such requirement for any sale shall be recorded as a Notice of Special Restrictions 20 21 on the property records or may be included as part of the Regulatory Agreement. 22 (iv) **Board of Supervisors District 8.** For Accessory Dwelling Units
- 23 *on lots covered by Subsection 207(c)(4)(B)(i):*
- 24

a. An Accessory Dwelling Unit shall not be permitted in any

25 *RH-1(D) zoning district.* 

1	b. An Accessory Dwelling Unit shall be constructed entirely
2	within the existing building envelope or auxiliary structure, as it existed three (3) years prior to the
3	time of the application for a building permit.
4	c. For buildings that have no more than 10 existing Dwelling
5	Units, one Accessory Dwelling Unit is permitted; for buildings that have more than 10 existing
6	Dwelling Units, two Accessory Dwelling Units are permitted.
7	(v) Board of Supervisors District 3. For Accessory Dwelling Units
8	on lots covered by Subsection 207(c)(4)(B)(ii):
9	a. An Accessory Dwelling Unit shall not be permitted in any
10	RH-1(D) zoning district.
11	b. An Accessory Dwelling Unit shall be constructed entirely
12	within the existing building envelope or auxiliary structure, as it existed three (3) years prior to the
13	time of the application for a building permit.
14	c. For buildings that have four existing Dwelling Units or
15	fewer, one Accessory Dwelling Unit is permitted; for buildings that have more than four existing
16	Dwelling Units, there is no limit on the number of Accessory Dwelling Units permitted by this Section
17	<del>207(c)(4).</del>
18	(F) (vi) Buildings Undergoing Seismic Retrofitting. For Accessory
19	Dwelling Units on lots <i>covered by Subsection 207(c)(4)(B)(iii):</i> with a building undergoing
20	mandatory seismic retrofitting in compliance with Section 34 <sup>B</sup> of the Building Code or voluntary
21	seismic retrofitting in compliance with the Department of Building Inspection's Administrative
22	Bulletin 094, the following additional provision applies:
23	a. An Accessory Dwelling Unit shall not be permitted in any
24	RH-1 or RH-1(D) zoning district.
25	

1	b. An Accessory Dwelling Unit shall be constructed entirely
2	within the existing building envelope or auxiliary structure, as it existed three (3) years prior to the
3	time of the application for a building permit.
4	e. If <i>permitted <u>allowed</u></i> by the Building Code, a building in
5	which an Accessory Dwelling Unit is constructed may be raised up to three feet to create
6	ground floor ceiling heights suitable for residential use on lower floors. Such a raise in height
7	shall be:
8	1) exempt from the notification requirements of
9	Sections 311 and 312 of this Code; and
10	2) <i>permitted to <u>may</u></i> expand a noncomplying
11	structure, as defined in Section 180(a)(2) of this Code and further regulated in Sections 172,
12	180 and 188, without obtaining a variance for increasing the discrepancy between existing
13	conditions on the lot and the required standards of this Code.
14	(G) (vii) Waiver of Code Requirements; Applicability of Rent Ordinance.
15	Pursuant to the provisions of Section 307(I) of this Code, the Zoning Administrator may grant
16	an Accessory Dwelling Unit a complete or partial waiver of the density limits and parking, rear
17	yard, exposure, or open space standards of this Code. However, If the Zoning Administrator
18	grants a complete or partial waiver of the requirements of this Code and the subject lot contains any
19	Rental Units at the time an application for a building permit is filed for construction of the Accessory
20	Dwelling Unit(s), the property owner(s) shall enter into a Regulatory Agreement with the City under
21	Subsection (c)(4)(H) subjecting the ADU(s) to the San Francisco Residential Rent Stabilization and
22	Arbitration Ordinance (Chapter 37 of the Administrative Code) as a condition of approval of the
23	ADU(s). For purposes of this requirement, Rental Units shall be as defined in Section 37.2(r) of the
24	<u>Administrative Code. existing building or any existing Dwelling Unit within the building is subject to</u>
25	

1	the provisions of the San Francisco Residential Rent Stabilization and Arbitration Ordinance (Chapter
2	37 of the Administrative Code), the property owner shall submit the following to the Department:
3	(H) <b>Regulatory Agreements.</b> A Regulatory Agreement required by Subsection
4	(c)(4)(G) as a condition of approval of an Accessory Dwelling Unit shall contain the following:
5	a. (i) a. proposed agreement demonstrating statement that the Accessory Dwelling
6	Unit(s) ADU(s) are not subject to the Costa Hawkins Rental Housing Act (California Civil Code
7	Section 1954.50) because, under Section 1954.52( <u>b</u> <del>k</del> ), the owner has entered into this
8	agreement with the City in consideration for a complete or partial waiver of the density limits,
9	and/or parking, rear yard, exposure or open space standards of this Code or other direct financial
10	contribution or any other form of assistance specified in California Government Code Sections
11	65915 et seq. ("Agreement") <u>;</u> and
12	(ii) b. if the Planning Director determines necessary, an Affidavit
13	containing information about the a description of the complete or partial waiver of Code requirements
14	granted by the Zoning Administrator or other direct financial contribution or other form of
15	assistance provided to the property owner: and-
16	(iii) a description of the remedies for breach of the Agreement and other
17	provisions to ensure implementation and compliance with the Agreement.
18	(iv) The property owner and the Planning Director (or his designee), on behalf of the
19	City, will execute the Agreement, which shall be reviewed and approved by the City Attorney's
20	Office. The Agreement shall be approved executed prior to the City's issuance of the First
21	Construction Document for the project, as defined in Section 107A.13.1 of the San Francisco
22	Building Code. (v) <u>Following execution of the Regulatory Agreement by all parties and approval by</u>
23	the City Attorney, the Regulatory Agreement or a memorandum thereof shall be recorded against the
24	property and shall be binding on all future owners and successors in interest.
25	

1	Any Regulatory Agreement entered into under this Section 207(c) shall not preclude a
2	landlord from establishing the initial rental rate pursuant to Section 1954.53 of the Costa
3	Hawkins Rental Housing Act.
4	(D) (I) Monitoring Program.
5	(i) Monitoring <u>and Enforcement</u> of <u>Unit</u> Affordability. The
6	Department shall establish a system to monitor the affordability of the Accessory Dwelling
7	Units authorized to be constructed by this Subsection 207(c)(4) and shall use such data to
8	enforce the requirements of the Regulatory Agreements entered into pursuant to Subsection (c)(4)(H).
9	Property owners shall provide the Department with rent information as requested by the
10	Department. The Board of Supervisors recognizes that property owners and tenants generally
11	consider rental information sensitive and do not want it publicly disclosed. The intent of the
12	Board is for the Department to obtain the information <i>for purposes of monitoring and enforcement</i>
13	so <u>but</u> that <u>its public disclosure is not</u> <del>it can be used by the Department in aggregate form, not in a</del>
14	manner that would be linked to specific individuals or units. The Department shall-only request
15	rental information from property owners if the notice includes the statement that the Department is
16	acquiring it in confidence and will publicly disclose it only in aggregate form. The Department shall
17	<i>not ask property owners to provide rental information if it determines, after</i> consult <i>ing</i> with the City
18	Attorney's Office, with respect to the legal requirements to determine how best to achieve the intent of
19	the Board that the information would be publicly disclosable under federal, state, or local law in
20	nonaggregated form.
21	(ii) Monitoring <i>and Enforcement</i> of <u>Prohibition on</u> <i>#U</i> se as Short
22	Term Rentals. The Department shall collect data on the use of Accessory Dwelling Units
23	authorized to be constructed by this Subsection (c)(4) as Short-Term Residential Rentals, as
24	that term is defined in Administrative Code Section 41A.4, and shall use such data to evaluate
25	

#### and enforce Notices of Special Restriction pursuant to Subsection 207(c)(4)(D) and the

2 requirements of Administrative Code Chapter 41A.

3 (iii) Department Report. The Department shall publish a report annually until by April 1, 2019 2016, that describes and evaluates the types of units being 4 5 developed and their affordability rates as well as their use as Short-Term Residential Rentals. 6 The report shall contain such additional information as the Director or the Board of Supervisors 7 determines would inform decision makers and the public on the effectiveness and 8 implementation of this Subsection (c)(4) and *make include* recommendations for any 9 amendments to the requirements of this Section 207(c)(4) or expansion of areas where Accessory *Dwelling Units should be constructed*. The Department shall transmit this report to the Board of 10 Supervisors for its review and public input. In subsequent years, this information on Accessory 11 12 Dwelling Units shall be *included* reported annually in the Housing Inventory. 13 SEC. 207.2 SECOND UNITS. 14 (a) Second units, as defined and referred to in Government Code Section 65852.2, are 15 precluded in RH-1(D) and RH-1 zoned areas, except for units designed for and occupied by senior 16 citizens ("Senior Housing" as defined by Section 102) and except as may hereafter be permitted by later 17 amendments to this Code governing second units. 18 (b) Government Code Section 65852.2 requires a City to adopt either an ordinance 19 permitting or precluding second units within single-family and multifamily zoned areas or, in the 20 alternative, to be subject to certain restrictions set forth in Government Code Section 65852.2(b). The 21 provisions of this ordinance, in light of other provisions of the Planning Code governing second units, do not result in the total preclusion of second units within single-family and multifamily zoned areas 22 23 and therefore San Francisco has a legislative scheme which complies with Government Code Section 24 65852.2(a). In the event that it is determined, however, that San Francisco's legislative scheme does not 25

2

*comply with Government Code Section* 65852.2(*a*), *the following findings are made with the intent of complying with Government Code Section* 65852.2(*c*).

- 3 (1) San Francisco's total land area is approximately 49 square miles and much of
   4 this land is not open to development because of topography or public ownership. San Francisco does
   5 not have the option open to many other cities of annexing undeveloped land currently outside its
   6 borders.
- 7 (2) San Francisco already has higher density development than other cities in 8 California, both in terms of units per square feet of lot area and in terms of units per linear feet of 9 street frontage. The density for housing development in San Francisco ranges from 4,000 square feet of 10 lot area per unit in RH-1(D) (House, One-Family Detached Dwellings) Districts to 200 square feet per unit in RM-4 (Mixed Residential, High Density) Districts. Except for districts which require a lot width 11 12 of 33 feet and an area of 4,000 square feet, the minimum lot size for housing development is 2,500 13 square feet in area, following the standard lot size in San Francisco (25 X 100 square feet), or 1,750 square feet for lots within 125 feet of a corner. This density and lot size requirement allows greater 14 15 density than other jurisdictions in California where the typical density and lot size is about 5,000 16 square feet per unit for single-family dwellings and 1,500 square feet per unit for multifamily 17 development. 18 (3)San Francisco is the most densely populated city in California. It is the fourth most densely populated city in the nation following only New York City and two cities in New Jersey 19 20 (Jersey City and Patterson). 21 (4) The limited land area and the limited developable land area of San Francisco 22 make it difficult to provide sites to replace single-family houses lost through conversion to a higher 23 density. Once single-family homes are converted into multiple dwelling structures by the addition of a 24 second unit, single-family housing stock is eliminated from the existing supply of single-family homes. 25

2

The irrevocable loss of the limited supply of single-family housing stock throughout the City will adversely affect the health, safety and welfare of San Francisco residents.

- 3 (5) Single-family residences have in recent years been demolished at a faster rate than any other residential structures in the City primarily because new multiple-unit residential 4 5 development in the City often occurs as the result of the demolition of single-family homes in multiple-6 unit districts. Single-family homes were 37 percent of the residential units demolished in 1984, and 61 7 percent of the residential units demolished in 1983. Single-family homes represented an even larger 8 percentage of the residential structures demolished. Single-family homes were 86 percent of the residential structures demolished in 1984, and 74.4 percent of the residential structures demolished in 9 <del>1983.</del> 10 (6) Single-family structures represent only 1/3 of all residential structures in San 11 12 Francisco compared to 60 percent of the residential structures in the State of California. Single-family 13 homes accounted for 18 percent of the new housing units in San Francisco in 1984, and 7 percent of the new units in 1983. Other jurisdictions in California had single-family structures representing 14 15 approximately 50 percent of their new residential building permits for the same period. (7) The number of families in San Francisco declined in the years from 1970 to 16 1980, as evidenced by the school enrollment for the population group under 15 years old. The decline 17 18 in enrollment was from 106,900 to 83,790. The zoning policy of the City and County of San Francisco should encourage families to live in the City rather than encouraging them to leave the City. A further 19 20 decline in the number of families living in the City is detrimental to the public health, safety and 21 welfare. (8) The addition of second units to single-family dwellings usually results in an 22 23 increase in the cost of those dwellings, and, in addition, to the cost of the remaining smaller supply of 24 single-family homes without second units. An increase in the cost of these types of dwellings will
- 25

*discourage families from living in the City because the cost of dwellings most suitable for families will be bevond the means of many who would otherwise live in the City.*

- 3 (9) San Francisco will probably face a need for more large units in the future than it
  4 did in the past, as the population ages and the new baby boom continues. Many women born between
  5 1945 and 1952 who delayed child-bearing during the 1970's are now having babies at the same rate as
  6 women born after 1952.
- 7 (10) The addition of second units in single-family houses throughout the City will 8 irrevocably deplete its limited supply of single-family homes and discourage families from living in the 9 *City by removing the type and size of dwelling units most suitable for families. Many of the residential* 10 parcels in the City are less than 2,500 square feet in size or 1,750 square feet for corner lots and do not meet minimum lot size standards. Many of these parcels were developed without required garages or 11 12 with minimal garage space, and do not comply with existing off-street parking requirements. The addition of second residential units in these areas could only worsen existing congestion. 13 14 (11) Parking problems are severe in a number of areas of the City because of its 15 dense population. The addition of second units in such areas will exacerbate the parking problem. 16 Imposing off street parking requirements on secondary units would only partially alleviate that 17 problem in that additional units cause increased traffic other than that engaged in by the occupants of 18 the units (such as persons visiting the occupants for social or business purposes) as well as by the 19 occupants of the units. 20 (12) Increased parking problems in areas of the City already burdened with traffic 21 congestion adversely affects the health, safety and welfare of the residents of such areas by interfering with access to off-street parking spaces, requiring additional police services to control traffic problems 22 23 and unlawful parking, requiring occupants and visitors to park further from their homes (thereby also
- 24 *exposing themselves to greater inconvenience and, in some instances, threat to safety), and interfering*
- 25 *with access by emergency vehicles during an emergency (a problem which is further complicated in*

2

areas with narrow streets, winding roads, and other topographical features which make access by vehicles difficult).

3	(13) A need exists in San Francisco for additional affordable housing. Allowing
4	second units in RH-1(D) and RH-1 Districts is one means of providing such housing. However, to allow
5	second units without restriction in all areas currently zoned RH-1(D) and RH-1 would adversely affect
6	the health, safety and welfare of the public by permitting the conversion of an undue number of single-
7	family houses to multi-family units; by eliminating low-density residential areas in the City and thereby
8	depriving those who desire to live in the City without the stress of living in higher-density areas of their
9	opportunity to do so; and by permitting second units to be added in areas where undue traffic
10	congestion and the attendant difficulties described above, will occur.
11	(14) A further period of time is needed in order to determine those areas of the City
12	where the traffic congestion problems described above would be least likely to occur and where second
13	units may therefore be permitted without adverse impact to the public.
14	(15) There are no large districts suitable for the provision of second units, but instead
15	there are small subareas which must be reviewed on a case-by-case basis with community participation
16	in the review process. A case-by-case review is needed in order to determine those areas of the City
17	where the traffic congestion problems described above would be least likely to occur and where second
18	units may therefore be permitted without adverse impact to the public. Furthermore:
19	(A) The Planning Code presently permits a secondary unit in all single-
20	family homes in RH-1(S) (House, One-Family with Minor Second Unit), RH-2 (House, Two-Family)
21	and RH-3 (House, Three-Family) Districts no matter what the lot size. Second units in single-family
22	homes are permitted in all other multifamily residential districts (all RM and RC Districts), depending
23	on the size of the lot.
24	(B) The Planning Code permits the mapping of the RH-1(S) (House, One-
25	Family with Minor Second Unit) District. These RH-1(S) Zoning Districts provide for a two-family

1	dwelling with the second dwelling limited to 600 square feet of net floor area. The second unit remains
2	subordinate to the owner's unit and the structures retain the appearance of single-family dwellings. The
3	RH-1(S) Zoning District has been mapped in four areas of the City. Additional mapping of the RH-1(S)
4	Zoning District may be used to legalize existing secondary units in single-family homes and to increase
5	the number of secondary units.
6	(C) Dwellings specifically designed for and occupied by senior citizens
7	("Senior Housing") are presently permitted at a density ratio or number of Dwelling Units not
8	exceeding twice the number of Dwelling Units otherwise permitted as a principal use in the district by
9	the Planning Code.
10	(16) Restricting second units in single-family homes in San Francisco's RH-1(D) and
11	RH-1 Zoning Districts may limit the housing opportunities of the region. However, over time,
12	applications for RH-1(S) zoning designation may be reviewed on a case-by-case basis by the Planning
13	Commission and its staff, the Board of Supervisors and the Mayor and where second units would be
14	appropriate and would not adversely affect the public health, safety and welfare of residents of the City
15	and County of San Francisco, such rezoning applications would be approved. Neither the provisions of
16	this Section nor those of Government Code Section 65852.2 preclude the City from hereafter amending
17	this Code in order to permit second units in additional situations designed to address specific housing
18	needs and circumstances unique to San Francisco.
19	(17) San Francisco has been and will continue to be a major provider of affordable
20	housing opportunities in the region.
21	(A) Currently (1986) San Francisco administers 6,766 units of public
22	housing and 2,574 Section 8 certificates.
23	(B) Article 34, Section 1 of the California Constitution requires the approval
24	of the electorate as a condition to the development or acquisition of a low-rent housing project by the
25	local jurisdiction. San Francisco has met the requirement with the City's voters approving the

1	development of a maximum of 3,000 low-income housing units by a vote on Proposition Q on
2	November 2, 1976. Together with the units previously approved, approximately 4,000 low-income
3	housing units may be developed, constructed or acquired.
4	(C) Between 1981 and 1985, San Francisco's housing production efforts
5	included, but were not limited to the following:
6	1. San Francisco undertook a major rezoning of underutilized land
7	which will allow the development of 14,000 housing units. Another 1,700 units are underway on vacant
8	publicly owned sites in the City.
9	2. San Francisco set aside \$10,000,000 in general-fund monies for
10	an Affordable Housing Fund. \$6,100,000 of this amount is committed to create 443 housing units
11	including the renovation of 82 vacant public housing units into privately managed two- and three-
12	bedroom apartments.
13	3. San Francisco combined \$1,000,000 in federal Community
14	Development Funds with the proceeds of an \$8,000,000 bond issue to finance home improvement loans
15	for low- and moderate-income homeowners.
16	4. The Office Housing Production Program (OHPP), under which
17	high-rise office developers are required to build or contribute to housing on a formula based on the
18	size of their projects was instituted in 1981. The program has resulted in \$25,000,000 and over 3,700
19	housing units to date.
20	5. The City of San Francisco has sold \$84,000,000 in two bond
21	issues since 1982 to provide 30-year, 10¾ percent mortgages to some 900 low-to middle-income first-
22	time homebuyers. In addition a \$42,000,000 bond issue was sold to finance up to 400 homes with 9.8
23	percent mortgages. In June, 1985 the City sold \$44,000,000 in mortgage revenue bonds to finance the
24	construction of 563 units of rental housing on five sites.
25	

2 which receive Community Development Block Grant funding built 1,166 new housing units for low- and 3 moderate-income households. At the time of the 1985 report on their activities they had 200 units under construction, and 426 units planned. During this same time the organizations rehabilitated 1,780 units 4 for lower-income households, had 426 units undergoing rehabilitation, and had plans to rehabilitate 5 6 1.285 units. 7 SEC. 307. OTHER POWERS AND DUTIES OF THE ZONING ADMINISTRATOR. 8 In addition to those specified in Sections 302 through 306, and Sections 316 through 9 316.6 of this Code, the Zoning Administrator shall have the following powers and duties in administration and enforcement of this Code. The duties described in this Section shall be 10 performed under the general supervision of the Director of Planning, who shall be kept informed of the 11 12 actions of the Zoning Administrator. \* \* \* \* 13 **(I)** Exceptions from Certain Specific Code Standards Through 14 15 Administrative Review for Accessory Dwelling Units Constructed Pursuant to Section 207(c)(4) 207.4(c) of this Code. The Zoning Administrator may allow complete or partial relief 16 17 from the density limits and from the parking, rear yard, exposure, and/or open space 18 requirements of this Code when modification of the requirement would facilitate the construction of an Accessory Dwelling Unit, as defined in Section 102 and meeting the 19 20 requirements of Section 207(c)(4) of this Code. The exposure requirements of Section 140 21 apply, except that subsection (a)(2) may be satisfied through windows facing an open area that is at least 15 feet in every horizontal direction that is not required to expand on 22 23 subsequent floors. In considering any request for complete or partial relief from these Code requirements, the Zoning Administrator shall facilitate the construction of such Accessory 24

#### 1 SEC. 710. NC-1 – NEIGHBORHOOD COMMERCIAL CLUSTER DISTRICT.

- NC-1 Districts are intended to serve as local neighborhood shopping districts, providing
  convenience retail goods and services for the immediately surrounding neighborhoods
  primarily during daytime hours.
- 5 These NC-1 Districts are characterized by their location in residential neighborhoods, 6 often in outlying areas of the City. The commercial intensity of these districts varies. Many of 7 these districts have the lowest intensity of commercial development in the City, generally 8 consisting of small clusters with three or more commercial establishments, commonly grouped 9 around a corner; and in some cases short linear commercial strips with low-scale,
- 10 interspersed mixed-use (residential-commercial) development.
- Building controls for the NC-1 District promote low-intensity development which is compatible with the existing scale and character of these neighborhood areas. Commercial development is limited to one story. Rear yard requirements at all levels preserve existing backyard space.
- NC-1 commercial use provisions encourage the full range of neighborhood-serving convenience retail sales and services at the first story provided that the use size generally is limited to 3,000 square feet. However, commercial uses and features which could impact residential livability are prohibited, such as auto uses, financial services, general advertising signs, drive-up facilities, hotels, and late-night activity; eating and drinking establishments are restricted, depending upon the intensity of such uses in nearby commercial districts.
- Housing development in new buildings is encouraged above the ground story in most
  districts. Existing residential units are protected by prohibitions of conversions above the
  ground story and limitations on demolitions. Accessory Dwelling Units are permitted <u>within the</u>
  <u>district</u> on lots within the boundaries of Board of Supervisors District 8 pursuant to Subsection
  207(c)(4) of this Code.

Table 710. NEIGHBORHOOD COMMERCIAL CLUSTER DISTRICT NC-1 1 ZONING CONTROL TABLE 2 \* \* \* \* 3 SPECIFIC PROVISIONS FOR NC-1 DISTRICTS 4 Article 7 Other Code Zoning Controls Code Section Section 5 \* \* \* \* \* \* \* \* \* \* \* \* 6 ACCESSORY DWELLING UNITS **Boundaries:**-*Within the boundaries of the NC-1 Districts* 7 Board of Supervisors District 8 extant on July 1, 2015. **Controls:** An "Accessory Dwelling Unit," as defined in 8 Section 102 and meeting the requirements of Section § 710.91 § 207(c)(4) 9 207(c)(4), is permitted to be constructed within an existing building *in areas that allow zoned for* residential use or 10 within an existing and authorized auxiliary structure on the same lot, provided that it does not eliminate or reduce a 11 ground story retail or commercial space. 12 SEC. 711. NC-2 – SMALL-SCALE NEIGHBORHOOD COMMERCIAL DISTRICT. 13

The NC-2 District is intended to serve as the City's Small-Scale Neighborhood Commercial District. These districts are linear shopping streets which provide convenience goods and services to the surrounding neighborhoods as well as limited comparison shopping goods for a wider market. The range of comparison goods and services offered is varied and often includes specialty retail stores, restaurants, and neighborhood-serving offices. NC-2 Districts are commonly located along both collector and arterial streets which have transit routes.

These districts range in size from two or three blocks to many blocks, although the commercial development in longer districts may be interspersed with housing or other land uses. Buildings typically range in height from two to four stories with occasional one-story commercial buildings.

1 The small-scale district controls provide for mixed-use buildings which approximate or 2 slightly exceed the standard development pattern. Rear yard requirements above the ground 3 story and at residential levels preserve open space corridors of interior blocks.

- 4 Most new commercial development is permitted at the ground and second stories.
- 5 Neighborhood-serving businesses are strongly encouraged. Eating and drinking and
- 6 entertainment uses, however, are confined to the ground story. The second story may be
- 7 used by some retail stores, personal services, and medical, business and professional offices.
- 8 Parking and hotels are monitored at all stories. Limits on late-night activity, drive-up facilities,
- 9 and other automobile uses protect the livability within and around the district, and promote
- 10 continuous retail frontage.
- Housing development in new buildings is encouraged above the ground story. Existing
   residential units are protected by limitations on demolition and upper-story conversions.
- 13 Accessory Dwelling Units are permitted within the district pursuant to Subsection 207(c)(4) of this
- 14 <u>Code.</u>

#### SPECIFIC PROVISIONS FOR NC-2 DISTRICTS

* * * * * * * * * * * * * * *			
ACCESSORY DWELLING UNITS			
Boundaries: Within the boundaries of the NC-2 Districts.			
Controls: An "Accessory Dwelling Unit," as defined in Sec	<u>tion 102</u>		
$\frac{5711.91}{5207(c)(4)}$ and meeting the requirements of Section 207(c)(4), is permit	tted to		
<u>be constructed within an existing building in areas that allo</u>	<u>"W</u>		
residential use or within an existing and authorized auxilian	ГУ		
structure on the same lot, provided that it does not eliminat	<u>e or</u>		
reduce a ground-story retail or commercial space.			
SEC. 712. NC-3 – MODERATE-SCALE NEIGHBORHOOD COMMERCIAL DISTRI	CT.		
NC-3 Districts are intended in most cases to offer a wide variety of comparison and			
specialty goods and services to a population greater than the immediate neighborhood,			
additionally providing convenience goods and services to the surrounding neighborhoods.			
NC-3 Districts are linear districts located along heavily trafficked thoroughfares which also			
serve as major transit routes.			
NC-3 Districts include some of the longest linear commercial streets in the City	y, some		
of which have continuous retail development for many blocks. Large-scale lots and buildings			
and wide streets distinguish the districts from smaller-scaled commercial streets, although the			
districts may include small as well as moderately scaled lots. Buildings typically range in			
height from two to four stories with occasional taller structures.			
NC-3 building standards permit moderately large commercial uses and buildings. Rea			
yards are protected at residential levels.			

- 1 A diversified commercial environment is encouraged for the NC-3 District, and a wide 2 variety of uses are permitted with special emphasis on neighborhood-serving businesses.
- 3 Eating and drinking, entertainment, financial service and certain auto uses generally are
- 4 permitted with certain limitations at the first and second stories. Other retail businesses,
- 5 personal services and offices are permitted at all stories of new buildings. Limited storage and
- 6 administrative service activities are permitted with some restrictions.
- 7 Housing development in new buildings is encouraged above the second story. Existing
- 8 residential units are protected by limitations on demolitions and upper-story conversions.
- 9 <u>Accessory</u> Dwelling Units are permitted <u>within the district</u> on lots within the boundaries of Board of
- 10 *Supervisors District 8* pursuant to Subsection 207(c)(4) of this Code.
- 11
- 12

§ 712.91	§ 207(c)(4)	Controls: An "Accessory Dwelling Unit," as defined in
3 / 12/01	3 201 (0)(1)	Section 102 and meeting the requirements of Section
		207(c)(4), is permitted to be constructed within an existin
		building <u>in areas that allow</u> zoned for residential use or
		within an existing and authorized auxiliary structure on th

1	same lot, provided that it does not eliminate or reduce a				
2	ground story retail or commercial space.				
3	SEC. 713. NC-S – NEIGHBORHOOD COMMERCIAL SHOPPING CENTER DISTRICT.				
4	NC-S Districts are intended to serve as small shopping centers or supermarket sites				
5	which provide retail goods and services for primarily car-oriented shoppers. They commonly				
6	contain at least one anchor store or supermarket, and some districts also have small medical				
7	office buildings. The range of services offered at their retail outlets usually is intended to serve				
8	the immediate and nearby neighborhoods. These districts encompass some of the most				
9	recent (post-1945) retail development in San Francisco's neighborhoods and serve as an				
10	alternative to the linear shopping street.				
11	Shopping centers and supermarket sites contain mostly one-story buildings which are				
12	removed from the street edge and set in a parking lot. Outdoor pedestrian activity consists				
13	primarily of trips between the parking lot and the stores on-site. Ground and second stories				
14	are devoted to retail sales and some personal services and offices.				
15	The NC-S standards and use provisions allow for medium-size commercial uses in low-				
16	scale buildings. Rear yards are not required for new development. Most neighborhood-serving				
17	retail businesses are permitted at the first and second stories, but limitations apply to fast-food				
18	restaurants and take-out food uses. Some auto uses are permitted at the first story. Limited				
19	storage and administrative service activities are permitted with some restrictions.				
20	Housing development in new buildings is permitted. Existing residential units are				
21	protected by limitations on demolitions and prohibitions of upper-story conversions. Accessory				
22	Dwelling Units are permitted within the district on lots within the boundaries of Board of Supervisors				
23	<i>District</i> 8 pursuant to Subsection 207(c)(4) of this Code.

SEC. 716	. INNER C	LEMENT STREET NEIGHBORHOOD COMMERCIAL DISTRICT.		
The	e Inner Cler	nent Street Commercial District is located on Clement Street between		
Arguello Boulevard and Funston Avenue in the eastern portion of the Richmond District of				
northwest	San Franci	isco. The district provides a wide selection of convenience goods and		
services for the residents of the Inner Richmond neighborhood. Inner Clement Street has o				
of the greatest concentrations of restaurants of any commercial street in San Francisco,				

drawing customers from throughout the City and region. There are also a significant number
of professional, realty, and business offices as well as financial institutions. The pleasant
pedestrian character of the district is derived directly from the intensely active retail frontage
on Clement Street.

5 The Inner Clement Street District controls are designed to promote development that is 6 consistent with its existing land use patterns and to maintain a harmony of uses that supports 7 the district's vitality. The building standards allow small-scale buildings and uses, protecting 8 rear yards above the ground story and at residential levels. In new development, most 9 commercial uses are permitted at the first two stories, although certain limitations apply to uses at the second story. Special controls are necessary to preserve the equilibrium of 10 11 neighborhood-serving convenience and comparison shopping businesses and protect 12 adjacent residential livability. These controls prohibit additional financial service and limit 13 additional eating and drinking establishments, late-night commercial uses and ground-story 14 entertainment uses. In order to maintain the street's active retail frontage, controls also 15 prohibit most new automobile and drive-up uses.

Housing development is encouraged in new buildings above the ground story. Existing
 residential units are protected by prohibitions on upper-story conversions and limitations on
 demolitions. <u>Accessory Dwelling Units are permitted within the district pursuant to Subsection</u>

19 207(c)(4) of this Code.

* * *	* * * *	* * * *
<u>\$\$ 716, 716.91</u>	<u>§ 207(c)(4)</u>	ACCESSORY DWELLING UNITS Boundaries: Within the boundaries of the Inner Clement Street NCD. Controls: An "Accessory Dwelling Unit," as defined in Section 10 and meeting the requirements of Section 207(c)(4), is permitted to be constructed within an existing building in areas that allow residential use or within an existing and authorized auxiliary structure on the same lot, provided that it does not eliminate or
		reduce a ground-story retail or commercial space.

21 Street between 19th Avenue and 27th Avenue in the western portion of the Richmond District.

22 The shopping area contains small-scale convenience businesses, as well as many

23 restaurants and a movie theater. The district's restaurants serve a neighborhood and Citywide

24 clientele during the evening hours, while convenience shopping uses cater for the most part to

1 daytime neighborhood shoppers. Outer Clement Street contains many mixed-use buildings 2 with some fully commercial and fully residential buildings interspersed between them.

3 The Outer Clement Street District controls are designed to promote development that is in keeping with the district's existing small-scale, mixed-use character. The building standards 4 5 monitor large-scale development and protect rear yards at all levels. Future commercial 6 growth is directed to the ground story in order to promote more continuous and active retail frontage. Additional eating and drinking establishments are regulated to prevent over-7 8 concentration, while ground-story entertainment and financial service uses are monitored in 9 order to limit the problems of traffic, congestion, noise and late-night activity associated with such uses and to protect existing neighborhood-serving businesses. Other controls restricting 10 late-night activity, hotels, automobile uses, and drive-up facilities are designed to preserve the 11 12 low-intensity character of the district.

13 Housing development in new buildings is encouraged above the ground story. Existing 14 residential units are protected by prohibitions of upper-story conversions and limitations on 15 demolitions. Accessory Dwelling Units are permitted within the district pursuant to Subsection 16 207(c)(4) of this Code.

#### SEC. 719. HAIGHT STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

16 Northwest of the City's geographical center, the Haight Street Neighborhood 17 Commercial District is located in the Haight-Ashbury neighborhood, extending along Haight 18 Street between Stanyan and Central Avenue, including a portion of Stanyan Street between 19 Haight and Beulah. The shopping area provides convenience goods and services to local 20 Haight-Ashbury residents, as well as comparison shopping goods and services to a larger 21 market area. The commercial district is also frequented by users of Golden Gate Park on 22 weekends and by City residents for its eating, drinking, and entertainment places. Numerous 23 housing units establish the district's mixed residential-commercial character. 24 The Haight Street District controls are designed to protect the existing building scale

<sup>25</sup> and promote new mixed-use development which is in character with adjacent buildings. The

1 building standards regulate large-lot and use development and protect rear yards above the 2 ground story and at residential levels. To promote the prevailing mixed-use character, most 3 commercial uses are directed primarily to the ground story with some upper-story restrictions in new buildings. In order to maintain the balanced mix and variety of neighborhood-serving 4 5 commercial uses and regulate the more intensive commercial uses which can generate 6 congestion and nuisance problems, special controls prohibit additional drinking uses, limit 7 additional eating establishments, restrict expansion and intensification of existing eating and 8 drinking establishments, and limit entertainment and tourist hotels. Prohibitions of most 9 automobile and drive-up uses protect the district's continuous retail frontage.

Housing development in new buildings is encouraged above the ground story. Existing residential units are protected by prohibition of upper-story conversions and limitations on demolitions. According Units are permitted within the district pursuant to Subsection

12 demolitions. <u>Accessory Dwelling Units are permitted within the district pursuant to Subsection</u>

13 207(c)(4) of this Code.

#### SEC. 720. HAYES-GOUGH NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

15 The Hayes-Gough Neighborhood Commercial Transit District is located within walking 16 distance of the Civic Center, lying west of Franklin Street and east of Laguna Street, with its 17 southern edge generally at Lily Street, with an extension sough along both sides of Octavia 18 Boulevard to Market Street. This mixed-use commercial district contains a limited range of 19 retail commercial activity, which primarily caters to the immediate need of the neighborhood. 20 The few comparison goods that it does provide attract clientele from a wider area outside its 21 neighborhood, mostly the Performing Arts and Civic Center workers and visitors. There are a 22 number of restaurants and art galleries, but other types of retail activity are limited. 23 The Hayes-Gough District controls are designed to allow for growth and expansion that

is compatible with the existing building and use scales. Building standards protect the
 moderate building and use size and require rear yards at residential levels. To maintain the

1 mixed-use character of the district, most commercial uses are permitted at the first and 2 second stories and housing is strongly encouraged at the third story and above. In order to 3 encourage lively pedestrian-oriented commercial activity, but restrict certain sensitive and problematic uses, eating and drinking, and entertainment uses are directed to the ground 4 5 story. Retail sales activity, especially neighborhood-serving businesses, is further promoted 6 by restricting new ground-story medical, business and professional offices. To protect 7 continuous frontage, drive-up and most automobile uses are prohibited, above-ground parking 8 is required to be setback or below ground, and active, pedestrian-oriented ground floor uses 9 are required on Hayes Street and portions of Octavia Boulevard.

Housing development in new buildings is encouraged above the second story, and is 10 controlled not by lot area but by physical envelope controls. Existing residential units are 11 12 protected by limitations on demolitions, mergers, subdivisions, and upper-story conversions. 13 Given the area's central location and accessibility to the downtown and to the City's transit 14 network, accessory parking for residential uses is not required. The code controls for this 15 district are supported and augmented by design guidelines and policies in the Market and Octavia Area Plan of the General Plan. Accessory Dwelling Units are permitted within the district 16 17 pursuant to Subsection 207(c)(4) of this Code.

#### 22 SEC. 721. UPPER MARKET STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

The Upper Market Street Neighborhood Commercial District, on Market Street at
 Castro, is situated at the border of the Eureka Valley, Buena Vista, and Duboce Triangle
 neighborhoods. Upper Market Street is a multi-purpose commercial district that provides

limited convenience goods to adjacent neighborhoods, but also serves as a shopping street
for a broader trade area. A large number of offices are located on Market Street within easy
transit access to downtown. The width of Market Street and its use as a major arterial diminish
the perception of the Upper Market Street District as a single commercial district. The street
appears as a collection of dispersed centers of commercial activity, concentrated at the
intersections of Market Street with secondary streets.

7 This district is well served by transit and is anchored by the Castro Street Station of the 8 Market Street subway and the F-Market historic streetcar line. The F, K, L, and M streetcar 9 lines traverse the district, and the Castro Station serves as a transfer point between light rail and crosstown and neighborhood bus lines. Additionally, Market Street is a primary bicycle 10 11 corridor. Residential parking is not required and generally limited. Commercial establishments 12 are discouraged or prohibited from building accessory off-street parking in order to preserve 13 the pedestrian-oriented character of the district and prevent attracting auto traffic. There are 14 prohibitions on access (i.e. driveways, garage entries) to off-street parking and loading on Market Street to preserve and enhance the pedestrian-oriented character and transit function. 15

16 The Upper Market Street district controls are designed to promote moderate-scale 17 development which contributes to the definition of Market Street's design and character. They 18 are also intended to preserve the existing mix of commercial uses and maintain the livability of 19 the district and its surrounding residential areas. Large-lot and use development is reviewed 20 for consistency with existing development patterns. Rear yards are protected at residential 21 levels. To promote mixed-use buildings, most commercial uses are permitted with some 22 limitations above the second story. In order to maintain continuous retail frontage and 23 preserve a balanced mix of commercial uses, ground-story neighborhood-serving uses are encouraged, and eating and drinking, entertainment, and financial service uses are limited. 24 25 Continuous frontage is promoted by prohibitions of most automobile and drive-up uses.

#### SEC. 724. SACRAMENTO STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

2 Located in the Presidio Heights neighborhood in north-central San Francisco, the 3 Sacramento Street Neighborhood Commercial District functions as a small-scale linear 4 shopping area. It extends along Sacramento Street between Lyon and Spruce. Interspersed 5 among residential buildings and garages, the district's daytime-oriented retail stores provide a 6 limited array of convenience goods to the immediate neighborhood. Sacramento Street also 7 has many elegant clothing, accessory, and antique stores and services, such as hair salons, 8 which attract customers from a wider trade area. Its numerous medical and business offices 9 draw clients from throughout the City. Evening activity in the district is limited to one movie 10 theater, a few restaurants, and some stores near Presidio Avenue.

11 The Sacramento Street District controls are designed to promote adequate growth 12 opportunities for development that is compatible with the surrounding low-density residential 13 neighborhood. The building standards monitor large-scale development and protect rear yards 14 at the grade level and above. Most new commercial development is permitted at the first 15 story; general retail uses are permitted at the second story only if such use would not involve 16 conversion of any existing housing units. Special controls are designed to protect existing 17 neighborhood-serving ground-story retail uses. New medical service uses are prohibited at all 18 stories except a change of use is permitted on the first story or below from a business or 19 professional service use to medical service use under certain circumstances. Personal and 20 business services are restricted at the ground story and prohibited on upper stories. Limits on 21 new ground-story eating and drinking uses, as well as new entertainment and financial service 22 uses, are intended to minimize the environmental impacts generated by the growth of such 23 uses. The daytime orientation of the district is encouraged by prohibiting bars and restricting 24 late-night commercial activity. New hotels and parking facilities are limited in scale and

1 operation to minimize disruption to the neighborhood. Most new automobile and drive-up uses

2 are prohibited to promote continuous retail frontage.

3 Housing development in new buildings is encouraged above the second story. Existing

4 residential units are protected by limitations on demolitions and prohibitions of upper-story

5 conversions. <u>Accessory Dwelling Units are permitted within the district pursuant to Subsection</u>

 $6 \qquad \underline{207(c)(4) \text{ of this Code.}}$

#### SEC. 725. UNION STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

6 The Union Street Commercial District is located in northern San Francisco between the 7 Marina and Pacific Heights neighborhoods. The district lies along Union Street between Van 8 Ness Avenue and Steiner, including an arm extending north on Fillmore Street to Lombard. The 9 shopping area provides limited convenience goods for the residents of sections of the Cow 10 Hollow, Golden Gate Valley, and Pacific Heights neighborhoods immediately surrounding the 11 street. Important aspects of Union Street's business activity are eating and drinking 12 establishments and specialty shops whose clientele comes from a wide trade area. There are 13 also a significant number of professional, realty, and business offices. Many restaurants and 14 bars as well as the district's two movie theaters are open into the evening hours, and on 15 weekends the street's clothing, antique stores and galleries do a vigorous business.

16 The Union Street District controls are designed to provide sufficient growth opportunities 17 for commercial development that is in keeping with the existing scale and character, promote 18 continuous retail frontage, and protect adjacent residential livability. Small-scale buildings and 19 neighborhood-serving uses are promoted, and rear yards above the ground story and at all 20 residential levels are protected. Most commercial development is permitted at the first two 21 stories of new buildings, while retail service uses are monitored at the third story and above. 22 Controls are necessary to preserve the remaining convenience businesses and to reduce the 23 cumulative impacts which the growth of certain uses have on neighborhood residents. Such 24 controls prohibit additional drinking establishments and limit additional eating establishments,

1 entertainment, and financial service uses. Most automobile and drive-up uses are prohibited in

2 order to maintain continuous retail frontage and minimize further traffic congestion.

3 Housing development in new buildings is encouraged above the second story. Existing

residential units are protected by limitations on demolitions and upper-story conversions. 4

5 Accessory Dwelling Units are permitted within the district pursuant to Subsection 207(c)(4) of this

6 Code.

19			story retail or commercial space		
20	SEC 727	24TH ST	REET – MISSION NEIGHBORHOOD COMMERCIAL TRANSIT		
21	DISTRICT				
22			et – Mission Neighborhood Commercial Transit District is situated in the		
23			t on 24th Street between Bartlett Street and San Bruno Avenue. This		
24			ovides convenience goods to its immediate neighborhood as well as		
25			g goods and services to a wider trade area. The street has a great		

number of Latin American restaurants, grocery stores, and bakeries as well as other gift and
secondhand stores. Most commercial businesses are open during the day while the district's
bars and restaurants are also active in the evening. Dwelling units are frequently located
above the ground-story commercial uses.

5 The 24th Street – Mission Neighborhood Commercial Transit District controls are designed to 6 provide potential for new development consistent with the existing scale and character. Small-7 scale buildings and neighborhood-serving uses are encouraged, and rear yard corridors 8 above the ground story and at residential levels are protected. Most commercial uses are 9 encouraged at the ground story, while service uses are permitted with some limitations at the second story. Special controls are necessary to preserve the unique mix of convenience and 10 11 specialty commercial uses. In order to maintain convenience stores and protect adjacent 12 livability, new bars and fast-food restaurants are prohibited, and limitations apply to the 13 development and operation of ground-story full-service restaurants, take-out food and 14 entertainment uses. Continuous retail frontage is maintained and encouraged by prohibiting 15 most automobile and drive-up uses, banning curb cuts, and requiring active, pedestrian-16 oriented ground floor uses. Parking is not required, and any new parking required to be set 17 back or below ground.

Housing development in new buildings is encouraged above the ground story. Housing density is not controlled by the size of the lot but by requirements to supply a high percentage of larger units and by physical envelope controls. Existing housing units are protected by prohibitions on upper-story conversions and limitations on demolitions, mergers, and subdivisions. Given the area's central location and accessibility to the City's transit network, accessory parking for residential uses is not required. <u>Accessory Dwelling Units are permitted on</u> <u>within the district pursuant to Subsection 207(c)(4) of this Code.</u>

		commercial space.

#### <sup>17</sup> SEC. 729. WEST PORTAL AVENUE NEIGHBORHOOD COMMERCIAL DISTRICT.

18 Located in the southwestern part of the City, the West Portal Avenue Neighborhood 19 Commercial District stretches for three long blocks along West Portal Avenue from Ulloa 20 Street to 15th Avenue and extends one block east along Ulloa Street from the Twin Peaks 21 Tunnel entrance to Claremont Boulevard. West Portal Avenue provides a selection of goods 22 and services for customers coming mainly from the surrounding west of Twin Peaks and 23 Sunset single-family residential neighborhoods. The lively, small-scale retail frontage is 24 interrupted at several locations by large-scale financial institutions which take up a large 25 amount of commercial ground-story frontage. More than half of the number of medical,

professional and business offices are located at the ground level. Except for one three-movie
 theater complex, West Portal offers no entertainment uses and its restaurants are mainly
 family-oriented.

The West Portal Avenue District controls are designed to preserve the existing family-4 5 oriented, village character of West Portal Avenue. The building standards limit building heights 6 to 26 feet and two stories and maintain the existing pattern of rear yards at the ground level 7 and above. The height, bulk and design of new development, especially on large lots, should 8 respect the small-scale character of the district and its surrounding residential neighborhoods. 9 Lot mergers creating large lots are discouraged. Individual nonresidential uses require conditional use permits above 2,500 square feet and are restricted to 4,000 square feet as an 10 11 absolute limit to conform with the existing small use sizes in the district.

12 Special controls on commercial uses are designed to protect the existing mix of 13 ground-story retail uses and prevent further intensification and congestion in the district. No 14 new financial services are permitted. Because the district and surrounding neighborhoods are 15 well served by the existing number of eating and drinking establishments, new bars, 16 restaurants and take-out food generally are discouraged: any proposed new establishment 17 should be carefully reviewed to ensure that it is neighborhood-serving and family-oriented, 18 and will not involve high-volume take-out food or generate traffic, parking, or litter problems. 19 Medical, business or professional services are permitted at the first two stories, but additional 20 ground-story locations are to be closely monitored to ensure that the current balance between 21 retail and office uses is maintained. Existing service stations are encouraged to continue 22 operating, but changes in their size, operation, or location are subject to review. Other 23 automotive uses are prohibited. The neighborhood-oriented, retail character of the district is further protected by prohibiting hotels and nonretail uses. The daytime orientation of the 24

1 district is maintained by prohibitions of entertainment uses and late-night commercial

2 operating hours.

3 Housing development is limited. Existing residential units are protected by 4 limitations on demolition and prohibition of upper-story conversions; new construction is to be 5 carefully reviewed to ensure appropriate scale, design and compatibility with adjacent 6 development. Accessory Dwelling Units are permitted within the district pursuant to Subsection 7 207(c)(4) of this Code.

#### SEC. 730. INNER SUNSET NEIGHBORHOOD COMMERCIAL DISTRICT.

10 The Inner Sunset Neighborhood Commercial District is located in the Inner Sunset 11 neighborhood, consisting of the NC-2 district bounded by Lincoln Way on the north, Fifth 12 Avenue on the east, Kirkham Street on the south, and Nineteenth Avenue on the west. The 13 shopping area provides convenience goods and services to local Inner Sunset residents, as 14 well as comparison shopping goods and services to a larger market area. The commercial 15 district is also frequented by users of Golden Gate Park on weekends and by City residents for 16 its eating, drinking, and entertainment places. Numerous housing units establish the district's 17 mixed residential-commercial character.

18 The Inner Sunset District controls are designed to protect the existing building scale and 19 promote new mixed-use development which is in character with adjacent buildings. The building 20 standards regulate large-lot and use development and protect rear yards above the ground 21 story and at residential levels. To promote the prevailing mixed use character, most commercial 22 uses are directed primarily to the ground story with some upper-story restrictions in new 23 buildings. In order to maintain the balanced mix and variety of neighborhood-serving 24 commercial uses and regulate the more intensive commercial uses which can generate 25 congestion and nuisance problems, special controls prohibit additional eating and drinking

SEC. 733A. NCT-1 – NEIGHBORHOOD COMMERCIAL TRANSIT CLUSTER DISTRICT.

10 NC-1 Districts are intended to serve as local neighborhood shopping districts, providing 11 convenience retail goods and services for the immediately surrounding neighborhoods 12 primarily during daytime hours. NCT-1 Districts are located near major transit services. They 13 are small mixed-use clusters, generally surrounded by residential districts, with small-scale 14 neighborhood-serving commercial uses on lower floors and housing above. Housing density is 15 limited not by lot area, but by the regulations on the built envelope of buildings, including 16 height, bulk, setbacks, and lot coverage, and standards for residential uses, including open 17 space and exposure, and urban design guidelines. There are prohibitions on access (i.e. 18 driveways, garage entries) to off-street parking and loading on critical stretches of commercial 19 and transit street frontages to preserve and enhance the pedestrian-oriented character and 20 transit function. Residential parking is not required and generally limited. Commercial 21 establishments are discouraged from building excessive accessory off-street parking in order 22 to preserve the pedestrian-oriented character of the district and prevent attracting auto traffic. 23 NCT-1 Districts are generally characterized by their location in residential 24 neighborhoods. The commercial intensity of these districts varies. Many of these districts have 25 the lowest intensity of commercial development in the City, generally consisting of small

clusters with three or more commercial establishments, commonly grouped around a corner;
and in some cases short linear commercial strips with low-scale, interspersed mixed-use
(residential-commercial) development. Building controls for the NCT-1 District promote lowintensity development which is compatible with the existing scale and character of these
neighborhood areas. Commercial development is limited to one story. Rear yard requirements
at all levels preserve existing backyard space.

7 NCT-1 commercial use provisions encourage the full range of neighborhood-serving 8 convenience retail sales and services at the first story provided that the use size generally is 9 limited to 3,000 square feet. However, commercial uses and features which could impact residential livability are prohibited, such as auto uses, financial services, general advertising 10 11 signs, drive-up facilities, hotels, and late-night activity; eating and drinking establishments are 12 restricted, depending upon the intensity of such uses in nearby commercial districts. 13 Existing residential units are protected by prohibitions of conversions above the ground story and limitations on demolitions. Accessory Dwelling Units are permitted within the 14

15 *district pursuant to Subsection 207(c)(4) of this Code.*

1ct

1 transit-priority corridors, though may be concentric around transit stations or in broader areas 2 where multiple transit services criss-cross the neighborhood. Housing density is limited not by 3 lot area, but by the regulations on the built envelope of buildings, including height, bulk, setbacks, and lot coverage, and standards for residential uses, including open space and 4 5 exposure, and urban design guidelines. There are prohibitions on access (e.g., driveways, 6 garage entries) to off-street parking and loading on critical stretches of commercial and transit 7 street frontages to preserve and enhance the pedestrian-oriented character and transit 8 function. Residential parking is not required and generally limited. Commercial establishments 9 are discouraged from building excessive accessory off-street parking in order to preserve the pedestrian-oriented character of the district and prevent attracting auto traffic. 10

NCT-2 Districts are intended to provide convenience goods and services to the surrounding neighborhoods as well as limited comparison shopping goods for a wider market. The range of comparison goods and services offered is varied and often includes specialty retail stores, restaurants, and neighborhood-serving offices. The small-scale district controls provide for mixed-use buildings, which approximate or slightly exceed the standard development pattern. Rear yard requirements above the ground story and at residential levels preserve open space corridors of interior blocks.

Most new commercial development is permitted at the ground and second stories. Neighborhood-serving businesses are strongly encouraged. Eating and drinking and entertainment uses, however, are confined to the ground story. The second story may be used by some retail stores, personal services, and medical, business and professional offices. Parking and hotels are monitored at all stories. Limits on late-night activity, drive-up facilities, and other automobile uses protect the livability within and around the district, and promote continuous retail frontage.

ł	Housing	g development ir	n ne	w buildings is end	couraged abov	e the ground s	tory. Existin

6	reduce a ground-story retail or commercial space.

#### SEC. 735. SOMA NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

8 The SoMa Neighborhood Commercial Transit District (SoMa NCT) is located along the 9 6th Street and Folsom Street corridors in the South of Market. The commercial area provides 10 a limited selection of convenience goods for the residents of the South of Market. Eating and 11 drinking establishments contribute to the street's mixed-use character and activity in the 12 evening hours. A number of upper-story professional and business offices are located in the 13 district, some in converted residential units.

14 The SoMa NCT has a pattern of ground floor commercial and upper story residential 15 units. Controls are designed to permit moderate-scale buildings and uses, protecting rear 16 yards above the ground story and at residential levels. Active, neighborhood-serving 17 commercial development is required at the ground story, curb cuts are prohibited and ground 18 floor transparency and fenestration adds to the activation of the ground story. While offices 19 and general retail sales uses may locate on the second story or above of new buildings, most 20 commercial uses are prohibited above the second story. In order to protect the balance and 21 variety of retail use, bars and liquor stores are allowed with a conditional use. Continuous 22 retail frontage is promoted by prohibiting drive-up facilities, some automobile uses, and new 23 non-retail commercial uses. Above-ground parking is required to be setback or below ground. 24 Active, pedestrian-oriented ground floor uses are required.

1	Housing d	evelopment	in new	buildings	is encourag	ged above	e the ground	d story. I	Housing

2 density is not controlled by the size of the lot or by density controls, but by bedroom counts.

3 Given the area's central location and accessibility to the City's transit network, parking for

4 residential and commercial uses is not required. <u>Accessory Dwelling Units are permitted within</u>

5 *the district pursuant to Subsection 207(c)(4) of this Code.*

1			structure on the same lot, provided that it does not eliminate or
2			reduce a ground-story retail or commercial space.
3	SEC. 736. MI	SSION STREET	NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.
4	The Mis	ssion Street Con	nmercial Transit District is located near the center of San
5	Francisco in th	ne Mission Distri	ct. It lies along Mission Street between 15th and Cesar Chavez
6	(Army) Street,	and includes ad	ljacent portions of 17th Street, 21st Street, 22nd Street, and
7	Cesar Chavez	Street. The con	nmercial area of this District provides a selection of goods
8	serving the day	y-to-day needs o	of the residents of the Mission District. Additionally, this District
9	serves a wider	r trade area with	its specialized retail outlets. Eating and drinking establishments
10	contribute to th	ne street's mixed	d-use character and activity in the evening hours.
11	The Dis	strict is extremely	y well-served by transit, including regional-serving BART
12	stations at 16th	h Street and 24t	h Street, major buses running along Mission Street, and both
13	cross-town and	d local-serving b	ouses intersecting Mission along the length of this district. Given
14	the area's cent	tral location and	accessibility to the City's transit network, accessory parking for
15	residential use	es is not required	d. Any new parking is required to be set back or be below
16	ground.		
17	This Dis	strict has a mixe	d pattern of larger and smaller lots and businesses, as well as a
18	sizable numbe	er of upper-story	residential units. Controls are designed to permit moderate-
19	scale buildings	s and uses, prote	ecting rear yards above the ground story and at residential
20	levels. New ne	eighborhood-serv	ving commercial development is encouraged mainly at the
21	ground story. V	While offices and	d general retail sales uses may locate at the second story of
22	new buildings	under certain cir	rcumstances, most commercial uses are prohibited above the
23	second story.	Continuous retai	il frontage is promoted by requiring ground floor commercial
24	uses in new de	evelopments and	d prohibiting curb cuts. Housing development in new buildings is

25 encouraged above the ground story. Housing density is not controlled by the size of the lot but 1 by requirements to supply a high percentage of larger units and by physical envelope controls.

2 Existing residential units are protected by prohibitions on upper-story conversions and

3 limitations on demolitions, mergers, and subdivisions. <u>Accessory Dwelling Units are permitted</u>

#### SEC. 737. OCEAN AVENUE NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

8 The Ocean Avenue Neighborhood Commercial Transit District is located on Ocean 9 Avenue from Howth Street to Manor Drive. Ocean Avenue is a multi-purpose transit-oriented 10 small-scale commercial district that is modeled on the NCT-2 District. Ocean Avenue was 11 developed as a streetcar-oriented commercial district in the 1920s and continues to serve this 12 function, with the K-line streetcar on Ocean Avenue. Numerous other bus lines serve the 13 area, especially the eastern end, where the Phelan Loop serves as a major bus terminus. The 14 eastern end of the district is anchored by the main City College campus and direct linkages to 15 the Balboa Park BART/MUNI rail station a couple blocks to the east, which serves as the 16 southernmost San Francisco station for BART and the terminus of the J, K, and M streetcar 17 lines. Because of the immediate proximity of the BART/MUNI station the district has quick and 18 easy transit access to downtown.

The Ocean Avenue NCT District is mixed use, transitioning from a predominantly oneand two-story retail district to include neighborhood-serving commercial uses on lower floors and housing above. Housing density is limited not by lot area, but by the regulations on the built envelope of buildings, including height, bulk, setbacks, and lot coverage, and standards for residential uses, including open space and exposure, and urban design guidelines. Access (i.e. driveways, garage entries) to off-street parking and loading is generally prohibited on

1 Ocean Avenue to preserve and enhance the pedestrian-oriented character and transit 2 function of the street. Residential and commercial parking are not required.

3 The Ocean Avenue NCT District is intended to provide convenience goods and services to the surrounding neighborhoods as well as limited comparison shopping goods for 4 5 a wider market. The range of comparison goods and services offered is varied and often 6 includes specialty retail stores, restaurants, and neighborhood-serving offices. Buildings may 7 range in height, with height limits generally allowing up to four or five stories. Lots are 8 generally small to medium in size and lot consolidation is prohibited to preserve the fine grain 9 character of the district, unless the consolidation creates a corner parcel that enables off-

street parking to be accessed from a side street. 10

- 11 Rear yard requirements above the ground story and at residential levels preserve open 12 space corridors of interior blocks.
- 13 Commercial uses are required at the ground level and permitted at the second story.

Housing development in new buildings is encouraged above the ground story. Existing 14

15 residential units are protected by limitations on demolition and upper-story conversions.

16 Accessory Dwelling Units are permitted within the district pursuant to Subsection 207(c)(4) of this

- 17 Code.
- 18

4	residential use or within an existing and authorized auxiliary structure on
5	the same lot, <i>provided that it does not eliminate or reduce a ground-story retail</i> or commercial space.
6	
7	SEC. 739. NORIEGA STREET NEIGHBORHOOD COMMERCIAL DISTRICT.
8	The Noriega Street Neighborhood Commercial District is located in the Outer Sunset
9	neighborhood and includes the non-residential currently-zoned NC-2 properties fronting both
10	sides of Noriega Street between 19th and 27th and 30th through 33rd Avenues.
11	The District provides a selection of convenience goods and services for the residents of
12	the Outer Sunset District. There are a high concentration of restaurants, drawing customers
13	from throughout the City and the region. There are also a significant number of professional,
14	realty, and business offices as well as financial institutions.
15	The Noriega Street Neighborhood Commercial District controls are designed to
16	promote development that is consistent with its existing land use patterns and to maintain a
17	harmony of uses that support the District's vitality. The building standards allow small-scale
18	buildings and uses, protecting rear yards above the ground story and at residential levels. In
19	new development, most commercial uses are permitted at the first two stories, although
20	certain limitations apply to uses at the second story. Special controls are necessary to
21	preserve the equilibrium of neighborhood-serving convenience and comparison shopping
22	businesses and to protect adjacent residential livability. To protect continuous frontage, drive-
23	up uses are prohibited and active, pedestrian-oriented ground floor uses generally must be
24	provided, unless such uses are authorized by Conditional Use. These controls are designed
25	to encourage the street's active retail frontage, and local fabrication and production of goods.

Accessory Dwelling Units are permitted within the district pursuant to Subsection 207(c)(4) of

2 *this Code.*

24			

#### 1 SEC. 743. FOLSOM STREET NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

The Folsom Street Neighborhood Commercial Transit District (Folsom Street NCT) is
located along Folsom Street in the Western SoMa area, generally between 7th Street and
10th Streets.

5 The Folsom Street NCT has a pattern of ground floor commercial and upper story 6 residential units. Controls are designed to permit moderate-scale buildings and uses, 7 protecting rear yards above the ground story and at residential levels. Active, neighborhood-8 serving commercial development is required at the ground story where transparency and 9 fenestration requirements add to the activation at the street level. While offices and general 10 retail sales uses may locate on the second story, most commercial uses are prohibited above 11 the second story. In order to protect the balance and variety of retail use, bars and restaurants 12 are permitted on the ground floor, and liquor stores are allowed with a conditional use. 13 Continuous non-residential frontage is promoted by prohibiting drive-up facilities, some 14 automobile uses, and permitting a mix of commercial and production, distribution, and repair 15 uses. Parking is required to be setback if above grade or locate below ground. Active, 16 pedestrian-oriented ground floor uses are required. 17 Housing development in new buildings is encouraged above the ground story, and 18 student housing is only permitted in newly constructed buildings. Housing density is not

controlled by the size of the lot or by density controls, but by bedroom counts. Given the

20 area's central location and accessibility to the City's transit network, parking for residential and

- 21 commercial uses is not required. <u>Accessory Dwelling Units are permitted within the district</u>
- 22 *pursuant to Subsection 207(c)(4) of this Code.*

## 22

#### SEC. 744. REGIONAL COMMERCIAL DISTRICT.

The Regional Commercial District (RCD) is located along the 9th Street and 10th Street
 corridors, generally running from Mission Street to Harrison Street, and provides for a wide
 variety of commercial uses and services to a population greater than the immediate

1 neighborhood. While providing convenience goods and services to the surrounding

2 neighborhood, the RCD corridors are also heavily trafficked thoroughfares into and out of the

3 City that serve shoppers from other neighborhoods and cities.

Large-scale lots and buildings and wide streets distinguish the RCD from smallerscaled neighborhood commercial streets, although the district also includes small as well as
moderately scaled lots. Buildings typically range in height from two to four stories with
occasional taller structures.

8 A diverse commercial environment is encouraged for the RCD. Eating and drinking 9 establishments, general retail, office, certain auto uses, and production, distribution, and 10 repair uses generally are permitted with certain limitations at the first and second stories. Arts 11 activities are encouraged on all floors, but nighttime entertainment uses are prohibited.

Housing development is encouraged at the second story and above, and permitted on the ground floor on smaller lots. Student housing is not permitted, and existing residential units are protected by limitations on demolitions and conversions. <u>Accessory Dwelling Units are</u>

15 *permitted within the district pursuant to Subsection 207(c)(4) of this Code.*

SEC. 746. DIVISADERO STREET NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.
The Divisadero Street Neighborhood Commercial Transit District ("Divisadero Street
NCT") extends along Divisadero Street between Haight and O'Farrell Streets. Divisadero
Street's dense mixed-use character consists of buildings with residential units above ground-
story commercial use. Buildings typically range in height from two to four stories with
occasional one-story commercial buildings. The district has an active and continuous
commercial frontage along Divisadero Street for most of its length. Divisadero Street is an
important public transit corridor and throughway street. The commercial district provides
convenience goods and services to the surrounding neighborhoods as well as limited
comparison shopping goods for a wider market.
The Divisadero Street NCT controls are designed to encourage and promote
development that enhances the walkable, mixed-use character of the corridor and
surrounding neighborhoods. Rear yard requirements above the ground story and at residential
levels preserve open space corridors of interior blocks. Housing development in new buildings
is encouraged above the ground story. Existing residential units are protected by limitations
on demolition and upper-story conversions. Accessory Dwelling Units are permitted within the
district pursuant to Subsection 207(c)(4) of this Code.
Consistent with Divisadero Street's existing mixed-use character, new commercial
development is permitted at the ground and second stories. Most neighborhood-serving
businesses are strongly encouraged. Controls on new Formula Retail uses are consistent with
Citywide policy for Neighborhood Commercial Districts; Eating and Drinking and
Entertainment uses are confined to the ground story. The second story may be used by some
retail stores, personal services, and medical, business and professional offices. Additional

Supervisor Peskin BOARD OF SUPERVISORS 1 flexibility is offered for second-floor Eating and Drinking, Entertainment, and Trade Shop uses

in existing non-residential buildings to encourage the preservation and reuse of such 2

3 buildings. Hotels are monitored at all stories. Limits on late-night activity, drive-up facilities,

and other automobile uses protect the livability within and around the district, and promote 4

5 continuous retail frontage.

7	reduce a ground-story retail or commercial space.		
8	SEC. 747. FILLMORE STREET NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.		
9	The Fillmore Street Neighborhood Commercial Transit District ("Fillmore Street NCT")		
10	extends along Fillmore Street between Bush and McAllister Streets. Fillmore Street's dense		
11	mixed-use character consists of buildings with residential units above ground-story		
12	commercial use. Buildings range in height from one-story commercial buildings to high-rise		
13	towers. Fillmore Street and Geary Boulevard are important public transit corridors. The		
14	commercial district provides convenience goods and services to the surrounding		
15	neighborhoods as well as shopping, cultural, and entertainment uses that attract visitors from		
16	near and far.		
17	The Fillmore Street NCT controls are designed to encourage and promote		
18	development that enhances the walkable, mixed-use character of the corridor and		
19	surrounding neighborhoods. Rear yard requirements at residential levels preserve open space		
20	corridors of interior blocks. Housing development in new buildings is encouraged above the		
21	ground story. Existing residential units are protected by limitations on demolition and upper-		
22	story conversions. Accessory Dwelling Units are permitted within the district pursuant to Subsection		
23	207(c)(4) of this Code.		
24	Consistent with Fillmore Street's existing mixed-use character, new commercial		
25	development is permitted at the ground and second stories. Most neighborhood- and visitor-		

1 serving businesses are strongly encouraged. Controls on new Formula Retail uses are

2 consistent with Citywide policy for Neighborhood Commercial Districts; Eating and Drinking

3 and entertainment uses are confined to the ground story. The second story may be used by

4 some retail stores, personal services, and medical, business, and professional offices.

5 Parking and hotels are monitored at all stories. Limits on drive-up facilities and other

6 automobile uses protect the livability within and around the district and promote continuous

- 7 retail frontage.

#### <sup>10</sup> SEC. 748. JAPANTOWN NEIGHBORHOOD COMMERCIAL DISTRICT.

11 The Japantown Neighborhood Commercial District extends between Geary Boulevard 12 and Post Street from Fillmore Street to Laguna Street, the north side of Post Street from 13 Webster Street to Laguna Street, and Buchanan Street from Post Street to midway between 14 Sutter Street and Bush Street. The character of these streets is largely commercial, including 15 large malls, although there are some residential units above the ground story. Buildings are 16 typically two- to four-stories, although there are two taller hotels. Geary Boulevard, Fillmore 17 Street, and Sutter Street are important public transit corridors. The commercial district 18 provides convenience goods and services to the surrounding neighborhoods as well as 19 shopping, cultural, and entertainment uses that attract visitors from near and far.

The Japantown Neighborhood Commercial District controls are designed to encourage and promote development that enhances the walkable, commercial character of this area and to support its local and regional role. New commercial development is required on the ground floor and permitted above. Most neighborhood- and visitor-serving businesses are strongly encouraged, including eating, drinking, and retail uses, as long as they do not create a nuisance. Less active commercial uses are encouraged above the ground floor,

#### 1 along with housing and institutional uses. Accessory Dwelling Units are permitted within the

#### district pursuant to Subsection 207(c)(4) of this Code. 2

SEC. 827. RINCON HILL DOWNTOWN RESIDENTIAL MIXED USE DISTRICT (RH-DTR).

The Rincon Hill Downtown Residential Mixed Use District (RH-DTR), the boundaries of which are shown in Section Map No. 1 of the Zoning Map, is established for the purposes set forth below.

The RH-DTR District is adjacent to the southern edge of the downtown, generally bounded by Folsom Street, the Bay Bridge, the Embarcadero, and Essex Street. High-density residential uses and supporting commercial and institutional uses are allowed and encouraged within the limits set by height, bulk, and tower spacing controls. Folsom Street is intended to develop as the neighborhood commercial heart of the Rincon Hill and Transbay
 neighborhoods, and pedestrian-oriented uses are required on the ground floor. Individual
 townhouse dwelling units with ground floor entries directly to the street are required on streets
 that will become primarily residential, including First, Fremont, Beale, Main, and Spear
 Streets.

6 While lot coverage is limited for all levels with residential uses that do not face onto 7 streets or alleys, traditional rear yard open spaces are not required except in the limited 8 instances where there is an existing pattern of them, such as smaller lots on the Guy Place 9 block. Specific height, bulk, and setback controls establish appropriate heights for both towers and mid-rise podium development and ensure adequate spacing between towers in order to 10 establish a neighborhood scale and ensure light and air to streets and open spaces. Setbacks 11 12 are required where necessary to provide transition space for ground floor residential uses and 13 to ensure sunlight access to streets and open spaces. Off-street parking must be located 14 below grade.

15 Given the need for services and open space resulting from new development, projects 16 will provide or contribute funding for the creation of public open space and community facilities 17 as described in the Rincon Hill Area Plan of the General Plan. The Rincon Hill Streetscape 18 Plan, part of the Area Plan, proposes to enhance and redesign most streets in the district to 19 create substantial new open space amenities, improve pedestrian conditions, and improve the 20 flow of local traffic and transit. Detailed standards for the provision of open spaces, mid-block 21 pathways, and residential entries are provided to ensure that new buildings contribute to 22 creating a public realm of the highest quality in Rincon Hill. Accessory Dwelling Units are 23 permitted within the district pursuant to Subsection 207(c)(4) of this Code. 24

SEC.				I RESIDENTIAL DISTRICT (TB-DTR). ential District, which is wholly within the Transbay		

1 infrastructure or underutilized land related to the Transbay Terminal and former Embarcadero 2 Freeway. This district generally extends along the north side of Folsom Street from Spear to 3 Essex Streets, and between Main and Beale Streets to the north side of Howard Street. Laid out in the Transbay Redevelopment Plan and its companion documents, including the Design 4 5 for the Development and the Development Controls and Design Guidelines for the Transbay 6 Redevelopment Project, is the comprehensive vision for this underutilized area as a high-7 density, predominantly residential, district within walking distance of the downtown core, 8 transit facilities, and the waterfront. The plan for the district includes: a mix of widely-spaced 9 high-rises, mixed with a street-defining base of low- and mid-rise buildings with ground floor townhouses; a public open space on part of the block bounded by Folsom, Beale, Howard, 10 and Main Streets; ground-floor retail along Folsom Street; and several new alleyways to break 11 12 up the size of the blocks.

(a) Basic Controls. Development controls for this district are established in the
Transbay Redevelopment Plan as approved by the Planning Commission on December 9,
2004, and January 13, 2005, specifically the Development Controls and Design Guidelines for
the Transbay Redevelopment Project. On matters to which these Redevelopment documents
are silent, controls in this Code pertaining to the C-3-O District shall apply. *The C-3-O District permits construction of Accessory Dwelling Units pursuant to Section 207(c)(4) of thisCode.*SEC. 829. SOUTH BEACH DOWNTOWN RESIDENTIAL MIXED USE DISTRICT (SB-DTR).

The South Beach Downtown Residential Mixed Use District (SB-DTR), the boundaries of which are shown in Section Map No. 1 of the Zoning Map, is established for the purposes set forth below.

The SB-DTR District is adjacent to the southern edge of the downtown, generally bounded by the Bay Bridge, Bryant Street, the Embarcadero, and 2nd Street, and is primarily comprised of the former South Beach Redevelopment Area. High-density residential uses and 1 supporting commercial and institutional uses are allowed and encouraged within the limits set

2 by height, bulk, and tower spacing controls. Individual townhouse dwelling units with ground

3 floor entries directly to the street are generally required on streets.

4 While lot coverage is limited for all levels with residential uses that do not face onto

5 streets or alleys, traditional rear yard open spaces are not required. Specific height, bulk, and

6 setback controls establish appropriate heights for both towers and mid-rise podium

7 development and ensure adequate spacing between towers in order to establish a

8 neighborhood scale and ensure light and air to streets and open spaces. Setbacks are

9 required where necessary to provide transition space for ground floor residential uses and to

10 ensure sunlight access to streets and open spaces. Off-street parking must be located below

11 grade. <u>Accessory Dwelling Units are permitted within the district pursuant to Subsection 207(c)(4) of</u>

### <sup>9</sup> SEC. 840. MUG – MIXED USE-GENERAL DISTRICT.

10 The Mixed Use-General (MUG) District is largely comprised of the low-scale, 11 production, distribution, and repair uses mixed with housing and small-scale retail. The MUG 12 is designed to maintain and facilitate the growth and expansion of small-scale light industrial, 13 wholesale distribution, arts production and performance/exhibition activities, general 14 commercial and neighborhood-serving retail and personal service activities while protecting 15 existing housing and encouraging the development of housing at a scale and density 16 compatible with the existing neighborhood. 17 Housing is encouraged over ground floor commercial and production, distribution, and 18 repair uses. New residential or mixed use developments are encouraged to provide as much

<sup>19</sup> mixed-income family housing as possible. Existing group housing and dwelling units would be

<sup>20</sup> protected from demolition or conversion to nonresidential use by requiring conditional use

21 review. <u>Accessory Dwelling Units are permitted within the district pursuant to Subsection 207(c)(4) of</u>

22 <u>this Code.</u>

Hotels, nighttime entertainment, movie theaters, adult entertainment and heavy
 industrial uses are not permitted. Office is restricted to the upper floors of multiple story
 buildings.

#### 14 SEC. 847. RED-MX – RESIDENTIAL ENCLAVE-MIXED DISTRICT.

Residential Enclave-Mixed Districts (RED-MX) encompass some of the clusters of lowscale, medium density, predominantly residential neighborhoods located along the narrow side streets of the Western SoMa area. Many parcels in these residential enclaves are underdeveloped and represent opportunities for new residential and low-intensity commercial uses.

While residential uses are encouraged throughout these districts, group housing is limited, and student housing and single-room-occupancy units are prohibited. Small-scale retail, restaurants, arts activities, and other commercial uses are principally permitted to create the potential for more active, mixed use alleys. Some automobile-related and production, distribution, and repair uses are also permitted with limitations. Existing commercial activities in nonresidential structures may continue as nonconforming uses

#### 1 subject to the termination requirements of Article 1.7. <u>Accessory Dwelling Units are permitted</u>

#### 2 within the district pursuant to Subsection 207(c)(4) of this Code.

S	ectior	n 5. The A	dminist	trative Code is here	by amended by revising Section 37.2, to		
read as	follow	'S:					
SEC. 37	.2. D	EFINITIO	NS.				
(r) Rental Units. All residential dwelling units in the City and County of San							
		othor with	the len				
Francisc	o log		the lan	d and appurtenant t	ouildings thereto, and all housing services		

privileges, furnishings and facilities supplied in connection with the use or occupancy thereof,
 including garage and parking facilities.

3 \* \* \* \*

4

The term "rental units" shall not include:

5 6 (4)Except as provided in Subsections (A), (B) and (C), dwelling units whose 7 rents are controlled or regulated by any government unit, agency or authority, excepting those 8 unsubsidized and/or unassisted units which are insured by the United States Department of 9 Housing and Urban Development; provided, however, that units in unreinforced masonry buildings which have undergone seismic strengthening in accordance with Building Code 10 Chapters 16B and 16C shall remain subject to the Rent Ordinances to the extent that the 11 12 ordinance is not in conflict with the seismic strengthening bond program or with the program's 13 loan agreements or with any regulations promulgated thereunder.

14 \* \*

\* \*

(D) The term "rental units" shall include Accessory Dwelling Units
constructed pursuant to Section 207(c)(4) of the Planning Code and that have received a
complete or partial waiver of the density limits and the parking, rear yard, exposure, or open
space standards from the Zoning Administrator pursuant to Planning Code Section 307(l), *provided that the building containing the Accessory Dwelling Unit(s) or any unit within the building is already subject to this Chapter*.

21

22

Section 6. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors
 intends to amend only those words, phrases, paragraphs, subsections, sections, articles,
 numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal

\* \* \*

Code that are explicitly shown in this ordinance as additions, deletions, Board amendment
 additions, and Board amendment deletions in accordance with the "Note" that appears under
 the official title of the ordinance.

4

5 Section 7. Severability. If any section, subsection, sentence, clause, phrase, or word 6 of this ordinance is for any reason held to be invalid or unconstitutional by a decision of any 7 court of competent jurisdiction, such decision shall not affect the validity of the remaining 8 portions of the ordinance. The Board of Supervisors hereby declares that it would have 9 passed this ordinance and each and every section, subsection, sentence, clause, phrase, and 10 word not declared invalid or unconstitutional without regard to whether any other portion of 11 this ordinance would subsequently be declared invalid or unconstitutional.

12

Section 8. Directions to Clerk. The Clerk of the Board of Supervisors is hereby directed
to submit a copy of this ordinance to the California Department of Housing and Community
Development within 60 days following adoption pursuant to Section 65852.2(h) of the
California Government Code.

17
