The auditor is not required to report the disconnect (i.e., the award is classified as R&D for Federal Audit Requirement purposes but non-research for indirect cost rate purposes), unless the auditee is charging indirect costs at a rate other than the rate(s) specified in the award document(s).

An unobligated balance may be carried over into the next budget period without Grants Management Officer prior approval.

This grant is subject to Streamlined Noncompeting Award Procedures (SNAP).

This award is subject to the requirements of 2 CFR Part 25 for institutions to receive a Dun & Bradstreet Universal Numbering System (DUNS) number and maintain an active registration in the System for Award Management (SAM). Should a consortium/subaward be issued under this award, a DUNS requirement must be included. See <http://grants.nih.gov/grants/policy/awardconditions.htm> for the full NIH award term implementing this requirement and other additional information.

This award has been assigned the Federal Award Identification Number (FAIN) K24DA042720. Recipients must document the assigned FAIN on each consortium/subaward issued under this award.

Based on the project period start date of this project, this award is likely subject to the Transparency Act subaward and executive compensation reporting requirement of 2 CFR Part 170. There are conditions that may exclude this award; see <http://grants.nih.gov/grants/policy/awardconditions.htm> for additional award applicability information.

In accordance with P.L. 110-161, compliance with the NIH Public Access Policy is now mandatory. For more information, see NOT-OD-08-033 and the Public Access website: <http://publicaccess.nih.gov/>.

In accordance with the regulatory requirements provided at 45 CFR 75.113 and Appendix XII to 45 CFR Part 75, recipients that have currently active Federal grants, cooperative agreements, and procurement contracts with cumulative total value greater than \$10,000,000 must report and maintain information in the System for Award Management (SAM) about civil, criminal, and administrative proceedings in connection with the award or performance of a Federal award that reached final disposition within the most recent five-year period. The recipient must also make semiannual disclosures regarding such proceedings. Proceedings information will be made publicly available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)). Full reporting requirements and procedures are found in Appendix XII to 45 CFR Part 75. This term does not apply to NIH fellowships.

**Midcareer Investigator Award in Patient-Oriented Research (Parent K24)**

<http://grants.nih.gov/grants/guide/pa-files/PA-14-047.html> This Career award requires between 3.00 and 6.00 person months' effort (25% and 50%) be devoted to the patient-oriented research program and mentoring that are part of this award.

Future year funding for this Mid-Career Investigator Award in Patient-Oriented Research is contingent upon acquiring additional Federal and/or private support for this project.

**Consortium** This award includes funds awarded for consortium activities. Consortia are to be established and administered as described in the NIH Grants Policy Statement (NIHGPS). The referenced section of the NIH Grants Policy Statement is available at Part II.15. Consortium Agreements - <http://grants.nih.gov/grants/policy/nihgps/nihgps.pdf>

**NIDA Award Terms** All grantees must acknowledge funding received from the National Institute on Drug Abuse at the National Institutes of Health when issuing statements, press releases, and requests for proposals, bid solicitations, and other documents describing projects or programs funded in whole or in part with NIDA money. (NIH Grants Policy Statement, October/November 2015, <http://grants.nih.gov/grants/policy/nihgps/nihgps.pdf>.)

In conjunction with this requirement, in order to most effectively disseminate research results, advance notice should be given to NIDA that research finds are about to be published so that we may coordinate accurate and timely release to the media. This information will be embargoed until the publication date. Any press notification should be coordinated with the NIDA Press Officer who can be reached at (301) 443-6245.

NIDA has an interest in supporting HIV/AIDS and infectious disease research. The purpose of this support is to develop effective prevention, treatment, and service strategies for drug abusing youth and adults. To that end, awardees are encouraged to make every effort to incorporate scientific questions related to HIV/AIDS and other infectious diseases into research protocols. Principal Investigators will be required to provide information related to the development of research in this area in annual progress reports to allow NIDA to assess progress regarding HIV/AIDS research.

The National Institute on Drug Abuse (NIDA) encourages data harmonization to increase comparability, collaboration, and scientific yield of research on drug abuse. Towards that end, NIDA strongly encourages human-subject studies to incorporate a series of measures from the Substance Abuse and Addiction Core and Specialty collections, which are available in the PhenX Toolkit ([www.phenxtoolkit.org](http://www.phenxtoolkit.org)). For more information about NIDA's data harmonization efforts, please see NOT-DA-12-008 at <http://grants.nih.gov/grants/guide/notice-files/NOT-DA-12-008.html>.
