

## LEGISLATIVE DIGEST

[Administrative Code - Citywide Project Labor Agreement for Public Work or Improvement Projects]

**Ordinance amending the Administrative Code to require a citywide project labor agreement applicable to certain public work or improvement projects with projected costs over \$1,000,000 or where delay in completing the project may interrupt or delay services or use of facilities that are important to the City's essential operations or infrastructure.**

### Existing Law

There is no existing legal requirement for the City to use a Project Labor Agreement ("PLA") on its public work and improvement projects. Currently, City departments negotiate PLAs for certain large public work projects on a case-by-case basis, when the department determines that a PLA will protect the City's proprietary and fiscal interests.

### Amendments to Current Law

The proposed Ordinance would amend the Administrative Code to add Section 6.27 to require the City to negotiate a master PLA to apply to all City public work and improvement projects with estimated project costs over \$1,000,000. The proposed Ordinance would exempt projects under the jurisdiction of the San Francisco Airport, the San Francisco Public Utilities Commission and the Port of San Francisco from the PLA. And the PLA would not apply to a particular project if its application would violate the conditions of a local, state, or federal funding source for that project.

The proposed Ordinance would require that no later than September 1, 2017, the City Administrator negotiate with the relevant trade councils, craft and labor unions, and sign on behalf of the City, a PLA that shall: (1) apply to all contractors and subcontractors on a project and be a bidding prerequisite; (2) incorporate San Francisco Administrative Code Chapters 6, 14B and 83; (3) require the use of hiring halls, joint apprenticeship programs, and the Helmets to Hardhats program; (4) prohibit work stoppages; and (5) establish a method to resolve jurisdictional disputes between trade unions that are parties to the PLA. The proposed Ordinance also specifies that, consistent with Charter section 8A.101(d), the San Francisco Municipal Transit Agency, may separately negotiate and enter into a PLA that applies to covered projects within its jurisdiction. Finally, City Department heads could apply the PLA to projects under \$1,000,000 in their discretion.

### Background Information

FILE NO. 170205

The purpose of the citywide PLA under the proposed Ordinance is to avoid costly delays and additional expenses associated with public works and improvement projects that involve numerous contractors and employees in different trades, have critical timelines for completion, and require a skilled and properly-trained workforce to successfully complete the work in a timely manner. Similar PLAs have been used in both the public and private sector to achieve the economic benefit that results from long-term projects proceeding without labor disruptions.
