19 Section 1. Findings.

20 (a) The Planning Department, in its letter dated September 30, 2016, determined that
21 the actions contemplated in this ordinance (the “Project”) are consistent with the General Plan
22 and in conformance with the eight priority policies of Planning Code Section 101.1. A copy of
23 said letter is on file with the Clerk of the Board of Supervisors in File No. 161310 and is
24 incorporated herein by reference. The Board of Supervisors adopts as its own the findings in
25 said letter.

1 (b) In the above-mentioned letter, the Planning Department determined that the
2 Project is within the scope of the project evaluated pursuant to the Transit Effectiveness
3 Project Final Environmental Impact Report, certified on March 27, 2014, by Planning
4 Commission Motion No. 19105, Case No. 2011.0558E ("Transit Effectiveness Project FEIR")
5 pursuant to the California Environmental Quality Act ("CEQA," California Public Resources
6 Code sections 21000 et seq.). The Transit Effectiveness Project FEIR is incorporated herein
7 by reference. The Board of Supervisors further finds that no substantial changes are
8 proposed by the Project or the circumstances under which the Project is undertaken that
9 would cause new significant environmental effects or any increase in the severity of previously
10 identified significant effects. The Board further finds there is no new information of substantial
11 importance showing that the Project would have any significant effects not discussed in the
12 Transit Effectiveness Project FEIR, or that significant effects would be substantially more
13 severe, or that new or different mitigation measures or alternatives would substantially reduce
14 one or more significant effects of the Project. Consequently, the Board hereby adopts the
15 Planning Department's environmental findings in the Transit Effectiveness Project FEIR as its
16 own for purposes of this ordinance.

17 (c) The Public Works Director prepared Public Works Order No. 185510, dated
18 December 7, 2016, including sidewalk width change drawing Q-20-891, regarding the actions
19 contemplated in this ordinance. The proposed sidewalk width change is intended to improve
20 ADA accessibility, enhance pedestrian safety, and facilitate conversion of the existing bus
21 bulbs into bus zone areas. A copy of said Order is on file with the Clerk of the Board of
22 Supervisors in File No. 161310 and is incorporated herein by reference.

1 Section 2. In accordance with Public Works Order No. 185510, Board of Supervisors
2 Ordinance No. 1061, entitled "Regulating the Width of Sidewalks," a copy of which is in the
3 Clerk of the Board of Supervisors Book of General Ordinances, in effect May 11, 1910, is
4 hereby amended by adding thereto a new section to read as follows:
