									This public service aide will track Zika testing
									requests (suspect cases) with respect to
									demographics, pregnancy status, timing of travel,
									and symptoms. He or she will be responsible for
									date entry into CalREDIE; assurance of data
									completeness and accuracy; interface with medical
									providers to communicate VRDL test results and
									complete missing patient information. He or she
									will also provide support to the Zika Public Health
Public Service									Nurse for provider outreach activities and Zika
Aide - 9924	Other	17.00	0.98	\$3,378.00	\$55,990.35	45%	\$25,195.66	\$81,186.01	registry follow up.
							*		investigate confirmed and probable Zika cases,
									including providing education, counseling, and
									referrals; he or she will ensure enrollment of Zika-
									affected pregnant women and/or infants in the
									Zika registry with follow-up communications
									and/or office visits to pediatric providers to ensure
									form completion. The nurse will also work across
									the Communicable Disease Control Unit and
									Maternal, Child, and Adolescent Health Field
									Nursing programs to provide case management to
									pregnant women with Zika and their infants. Case
									management will focus on assuring establishment
									of a medical home and ongoing pediatric follow up
									so any Zika-associated abnormalities can be
									•
									identified. The nurse will be trained in the
									"academic detailing" model of structured outreach
									to medical providers with a focus on providers'
									behavior change. The nurse will do outreach to SF
									OB providers to increase adherence to Zika testing
									guidelines, and will do outreach to the pediatric
									providers caring for infants born to mothers with
									Zika to ensure completion and submission of Zika
Special Nurse -	Public Health								registry forms and adherence to guidance for
