

1 [Authorizing Inclusion of City Properties in Golden State Finance Authority Property-Assessed
2 Clean Energy Program]

3 **Resolution authorizing inclusion of properties within the City and County of San**
4 **Francisco in the Golden State Finance Authority Property-Assessed Clean Energy**
5 **Program to finance renewable energy generation, energy and water efficiency**
6 **improvements, electric vehicle charging infrastructure, and other authorized**
7 **improvements.**

8
9 WHEREAS, The Golden State Finance Authority ("Authority") (formerly known as the
10 California Home Finance Authority to Golden State Finance Authority) is a joint exercise of
11 powers authority established pursuant to Chapter 5 of Division 7, Title 1 of the Government
12 Code of the State of California (Section 6500 and following) (the "Act") and the Joint Power
13 Agreement entered into on July 1, 1993, as amended from time to time (the "Authority JPA");
14 and

15 WHEREAS, The Authority has established a property-assessed clean energy ("PACE")
16 Program (the "Authority PACE Program") to provide for the financing of renewable energy
17 generation, energy and water efficiency improvements, electric vehicle charging infrastructure,
18 and such other improvements as may be authorized by law from time to time (the
19 "Improvements") pursuant to Chapter 29 of the Improvement Bond Act of 1911, being Division
20 7 of the California Streets and Highways Code ("Chapter 29") within counties and cities
21 throughout the State of California that elect to participate in such program; and

22 WHEREAS, The City and County of San Francisco (the "City") is committed to
23 development of renewable energy generation and energy and water efficiency improvements,
24 reduction of greenhouse gases, and protection of the environment; and
25

1 WHEREAS, In Chapter 29, the Legislature has authorized cities and counties to assist
2 property owners in financing the cost of installing Improvements through a voluntary
3 contractual assessment program; and

4 WHEREAS, Installation of such Improvements by property owners within the
5 jurisdictional boundaries of the counties and cities that are participating in the Authority PACE
6 Program would promote the purposes cited above; and

7 WHEREAS, The City wishes to provide innovative solutions to its property owners to
8 achieve energy and water efficiency, and in doing so cooperate with Authority in order to
9 efficiently and economically assist property owners within the territory of the City in financing
10 such Improvements; and

11 WHEREAS, The Authority has established the Authority PACE Program, which is such
12 a voluntary contractual assessment program, as permitted by the Act and the Authority JPA
13 originally made and entered into July 1, 1993, as amended to date; the City is an Associate
14 Member of the JPA and desires to participate in the Authority PACE Program and to assist
15 property owners within the territory of the City in financing the cost of installing Improvements;
16 and

17 WHEREAS, The City will not be responsible for the conduct of any assessment
18 proceedings; the levy and collection of assessments or any required remedial action in the
19 case of delinquencies in the payment of any assessments or the issuance, sale or
20 administration of any bonds issued in connection with the Authority PACE Program; now
21 therefore, be it

22 RESOLVED, That this Board finds the foregoing recitals are true and correct; and, be it

23 FURTHER RESOLVED, That this Board finds and declares that properties in the City's
24 territory will be benefited by the availability of the Authority PACE Program to finance the
25 installation of the Improvements; and, be it

1 FURTHER RESOLVED, That this Board hereby consents to inclusion in the Authority
2 PACE Program of all of the properties in the territory within the City and to the Improvements,
3 upon the request by and voluntary agreement of owners of such properties, in compliance
4 with the laws, rules and regulations applicable to such program; and to the assumption of
5 jurisdiction thereof by Authority for the purposes thereof; and, be it

6 FURTHER RESOLVED, That the consent of this Board constitutes assent to the
7 assumption of jurisdiction by Authority for all purposes of the Authority PACE Program and
8 authorizes Authority, upon satisfaction of the conditions imposed in this resolution, to take
9 each and every step required for or suitable for financing the Improvements; provided,
10 however, that the City shall assist in the levying, collecting and enforcement of the contractual
11 assessments and the issuance and enforcement of bonds to finance the Improvements; and,
12 be it

13 FURTHER RESOLVED, That the Controller, the Director of the Department of the
14 Environment, the Treasurer Tax-Collector and the Director of the Office of Public Finance, or
15 their respective designees, are hereby authorized and directed to coordinate with Authority
16 staff to facilitate operation of the Authority PACE Program within the City, and report back
17 periodically to this Board of Supervisors on the success of such program; and, be it

18
19 // // //

20 // // //

21 // // //

1 FURTHER RESOLVED, THAT This Resolution shall take effect immediately upon its
2 adoption.

3
4 APPROVED AS TO FORM.

Dear members of Budget & Finance Committee (Supervisors Cohen, Yee, Tang, Kim and Sheehy):

I am writing in advance of this Thursday's Budget and Finance Committee hearing (where several PACE resolutions will be presented), to share some information related to recent press regarding residential PACE programs and provide you with additional background.

BACKGROUND

Since the Board voted in 2014 to reauthorize residential PACE programs in San Francisco, approximately \$8 million of private capital has been invested by the programs to help qualified homeowners install a range of energy efficiency, solar, and water conservation improvements on their properties, which will reduce energy consumption by nearly 25,000 MWh and save homeowners approximately \$6 million on their energy bills over the lifetime of the improvements.

PACE overcomes the main barrier to property owners making these types of investments into their buildings, which is the high upfront cost. Through its novel property-based structure, PACE expands property owner access to clean energy. PACE combines local government participation, private capital, and business innovation to deliver positive, mutually beneficial outcomes.

By supporting adoption of the new resolutions to allow three new PACE providers to be able to work in San Francisco, we will be stimulating private competition, expanding access to homeowners, and introducing a small commercial option (currently a gap for the nonresidential sector), while ensuring the highest levels of consumer protections and transparency.

CONSUMER PROTECTION AND TRANSPARENCY

Here are examples of how PACE stakeholders and policy makers are working together to strengthen and enhance consumer protections and increase transparency:

1. ABAG Regional Collaborative Services Agreement (included in your package)

- This agreement between ABAG and residential PACE Providers mandates clear guidance on enhanced consumer protections, data sharing for program performance monitoring, and promoting coordination with existing ratepayer-supported energy program incentives for programs active in the 9 county region.

2. AB 2693 – Bill went into effect on January 1, 2017 and mandates minimum disclosures for all PACE programs similar to the Mortgage Industry’s “Know Before You Owe” Form including:

- 3-DAY RIGHT to CANCEL
- Clear Financing Statement w/ APR and total financing obligation
- 64+ year old additional call backs to confirm terms
- The bill was originally sponsored by the California Association of Realtors and supported by the PACE industry.
- The CSCDA Open PACE program already provided for the requirements in AB 2693 under its consumer protection policies adopted in December, 2015. The additional legislation simply codifies in statute what had

3. SB 242 – This bill currently in the State legislature, incorporates additional consumer protections and other best practices recommended by PACE Nation (national non-profit) and the U.S. Department of Energy, including provisions that require:

- PACE contractors are properly licensed
- Consumers are evaluated for the ability to pay back the assessment
- Payment relief and protection is provided if the borrower faces temporary financial hardship
- Requires the California Energy Commission (CEC) to establish and maintain list of eligible energy measures

CSCDA “Open PACE” and WRCOG’s consumer protections standards (adopted by the two major sponsor JPA’s in 2016)

- The baseline consumer protection policies of the two major sponsoring JPA’s overseeing the largest PACE program operators in California (CaliforniaFIRST and HERO) cover the following areas: (1) Eligibility and Risk, (2) Disclosures and Documentation, (3) Financing Terms, (4) Operations, (5) Post Funding Property Owner Support, (6) Data Security, (7) Privacy, (8) Marketing and Communications, (9) Protected Classes, (10) Participating Contractor Requirements, (11) Eligible Measures, (12) Maximum Cost per Measure, (13) Reporting, (14) Closing & Funding and (15) Oversight.

5. U.S. Department of Energy Best Practices Guidelines – incorporated wide range of stakeholder input to develop and issue “best practices for residential PACE,” including consumer protections issues.

We strongly believe that these efforts will only help residential PACE continue to be the most effective clean energy financing program in history. The department will continue to monitor and work with PACE providers and consumer advocates to ensure the program continues to deliver quality services in an open and fair way for all interested.

Attached are my staff report which should be included in your packet for Thursday’s meeting, as well as a general PACE FAQ from CSCDA (the JPA sponsor of the ‘Open PACE’ program, which includes CaliforniaFIRST).

Please contact me with any questions you may have. Thank you.

To: Honorable Board of Supervisors, Budget and Finance committee
From: Richard Chien, Department of the Environment, 415-355-3761
Subject: Department Staff Report Pertaining to Property Assessed Clean Energy (PACE) Programs
File numbers 170481, 170485, 170484, 170482, 170483, 170486
CC: Supervisor Mark Farrell, Mark Blake, Nadia Sesay, Mawuli Tugbenyoh

RECOMMENDATION

1. Regional Collaborative Services Agreement (RCSA) File No. 170481

Authorize the Director of the Department of the Environment to approve and sign the Association of Bay Area Governments (ABAG) member acknowledgement addendums of the Regional Collaborative Services Agreement (RCSA), designed to improve PACE program implementation and consumer protections, as executed between ABAG and the following Residential PACE Providers (RPP's):

1. AllianceNRG Program
2. California HERO Program
3. E3 PACE Program
4. Figtree PACE Program
5. PACE Funding Program
6. YgreneWorks PACE Program

2. Membership in additional PACE Programs

Board of Supervisors to adopt resolutions authorizing execution of agreements consenting to opt-in to the three additional PACE programs listed below:

1. E3 PACE Program *File No. 170485*
2. Figtree PACE Program *File No. 170484*
3. YgreneWorks PACE Program (requires 3 Resolutions, see below) *File No. 170482, 170483, 170486*

3. Clarification regarding CSCDA 'Open PACE' Program, and adding Program Administrators File No. 170480

Adopt one Resolution clarifying that as CSCDA Open PACE adds new PACE program administrators in the future, they are automatically authorized for San Francisco.

SUMMARY

This staff report recommends three distinct but related actions. The first recommendation is for the City to sign-on to the ABAG Regional Collaborative Services Agreement (RCSA), which establishes consumer protection standards and other best practices for residential PACE program administrators.

The second staff recommendation is to authorize three new PACE programs that have already signed on to the RCSA to operate in the City and County of San Francisco.

The third is to clarify that the CSCDA 'Open PACE' program (which was authorized by the Board through prior resolutions for our (3) existing PACE providers), has added and may add additional PACE program providers in the future, and that these would automatically be authorized for San Francisco without additional Board of Supervisors approval or action.

FISCAL IMPACTS OF RECOMMENDATIONS

The department has determined the adoption of the resolutions and actions contained herein would not result in any additional costs to the City. All costs of marketing, financing, and program administration are borne by the program administrators; normal administrative costs to the City for recording assessments on property records and for collecting PACE assessment payments are recoverable through the financing origination and repayment process (detailed in the various resolutions).

1. Regional Collaborative Services Agreement (RCSA)

ABAG developed the RCSA in 2016 to make it easier for cities to vet and approve residential PACE providers (RPP's), especially in light of the rapid expansion of residential PACE in the region. It requires consistent application of consumer protections and data sharing policies for each RPP. Of the three PACE programs currently operating in San Francisco (Alliance NRG, CaliforniaFIRST, and HERO), two have signed the RCSA while ABAG is currently working with the third to complete the Agreement. As new RPP's enter into the Agreement with ABAG, local governments can have confidence that the RPP is following best practices; however the RCSA does not replace the need for the City to pass required resolutions to authorize RPP's in the future, should it choose to do so. The RCSA covers residential PACE programs only; commercial PACE programs were not included in the RCSA because they tend to be highly customized, have built-in protections (e.g. lender consent), and the transactions do not lend themselves to standardization.

While the RCSA is an agreement between ABAG and RPP's, it also states that it applies to RPP's operating in local jurisdictions that execute the "acknowledgement addendum."

Features of the RCSA include:

- Designates ABAG as the liaison to the RPP's locally regarding implementation of the Agreement
- Requires all RPP's to have clearly visible disclosures regarding the Federal Housing Finance Authority's (FHFA) policies on residential PACE programs¹
- Requires all RPP's to participate in the state's PACE Loss Reserve program, which mitigates potential risk to first mortgage lenders by making them whole for losses incurred due to the existence of a first-priority PACE lien on a property during foreclosure or forced sale.
- Limits claims that RPP's (or their designated contractors) can make to property owners regarding tax treatment of PACE assessments
- Requires data sharing between the RPP's and local governments to monitor program performance locally and improve reporting
- Clarifies that RPP's are responsible for negligence in administering PACE programs

¹ In July 2010, the Federal Housing Finance Agency (FHFA) which oversees home mortgage securities entities Fannie Mae and Freddie Mac, objected to the priority lien status of residential PACE financing and announced they would not purchase mortgages for homes with PACE obligations, due to concerns that PACE loans will be paid first in the case of foreclosure. This announcement slowed the residential PACE market for several years. In response, in 2013 Governor Brown signed SB 96, which created a \$10 million PACE Loan Loss Reserve to make mortgage lenders whole during a foreclosure or a forced sale of a property with a PACE assessment. While the FHFA has not officially changed its position to date, the California PACE market has rapidly grown with the assurance of the state reserve.

2. Membership in additional PACE Programs

The City and County of San Francisco has, through resolutions passed by the Board in 2014, already authorized three PACE programs:

- California HERO Program <https://www.heroprogram.com/ca/sanfrancisco>
- AllianceNRG <https://www.allianceng.com/retail/>
- CaliforniaFIRST <https://californiafirst.org/>

Adding new PACE providers that have signed the RCSA will increase financing options and contractor resources for homeowners, and support private sector innovation and investment all while backed by robust consumer protections. Note: authorizing these providers now will not limit the Board's ability to rescind membership, or consider additional providers, at any later date. The Board's approval of the any PACE program is limited to making the PACE financing option available to individual property owners who voluntarily decide to use it.

Staff recommend that the Board authorize local participation by the following three programs, whose administrators have signed the RCSA but which have not yet been approved by the Board to provide PACE services within the City and County of San Francisco:

- California Enterprise Development Authority (CEDA) / Figtree PACE Program (proposed)

The Figtree PACE Program requires membership in the California Enterprise Development Authority (CEDA), of which San Francisco is already a member. The Figtree PACE Program has primarily served commercial, industrial, and multifamily properties, and is planning to launch a single-family residential offering later this year. Since its launch in 2011, 180 cities and counties in California have adopted the program. More than \$16 million in financing has been approved for commercial projects. The program has 75 contractors providing services in the Bay Area.

- Golden State Finance Authority (GSFA) / YgreneWorks PACE Program (proposed)

The Ygrene PACE Program requires Board of Supervisors approval of membership in the Golden State Finance Authority (GSFA) JPA, which sponsors this program that serves residential and commercial projects. In California, over 180 cities and counties have adopted the program since its launch in 2013. To date, the program has approved financing of more than \$1.1 billion and has certified 2,532 contractors in California. Because of the unique nature of the GSFA/YgreneWorks program, two Resolutions are required for authorization. The first Resolution would make all properties in San Francisco eligible to participate in GSFA's Community Facilities District (CFD) for PACE financing as authorized under SB 555 (2011). The second Resolution would make all properties in San Francisco eligible to participate in GSFA's Contractual Assessment program for PACE authorized under AB 811 (2009), which is similar to the other PACE programs presented for council consideration in this item.

- California Municipal Finance Authority (CMFA) "Open PACE" Program (proposed)

The California Municipal Finance Authority (CMFA) JPA, of which San Francisco is a member, sponsors Energy Efficient Equity (E3) which serves residential property owners; CMFA also sponsors three other commercial PACE providers (Blue Flame, Structured PACE, and ON PACE). CMFA's "Open PACE" Program launched in August 2015 and operates under AB 811. CMFA is utilizing the Open PACE structure (similar to CSCDA's) with the goal of creating a platform to vet and pre-qualify multiple PACE providers so that local governments only need to pass a single resolution to authorize multiple programs. Any additional PACE programs that are qualified under CMFA's Open PACE after the adoption of the CMFA Open PACE resolution by the City will automatically be authorized to operate within San Francisco.

3. Clarification regarding CSCDA 'Open PACE' Program, and inclusion of new PACE Administrators

CSCDA's 'Open PACE' program, which the Board of Supervisors approved joining in 2014 (for CaliforniaFIRST and Alliance NRG), adds additional PACE Providers to their program from time to time. Since 2014, CSCDA updated their approach such that in jurisdictions that had previously opted-into Open PACE, any new PACE providers would automatically become authorized for that local jurisdiction without further Board or Council action. This specific approach was not included in our 2014 resolutions, and we recommend adding this language to clarify this process.

ENVIRONMENTAL SUSTAINABILITY

Supporting an expanded PACE marketplace helps the City reach its Climate Action Strategy goals, which calls for a 2.5% decrease in energy consumption across all buildings annually until 2030, and to achieve a 100% renewable energy economy in San Francisco by 2030.

RATIONALE FOR RECOMMENDATION

1. Regional Collaborative Services Agreement (RCSA)

The RCSA was developed by ABAG to improve transparency and reporting standards. While the Agreement is between ABAG and RPP's, the language of the agreement states that it also applies to actions of the RPP in participating cities, such as San Francisco, that chose to authorize PACE programs with RPP's. This information will not only safeguard consumer interests, it will also allow for better tracking of energy efficiency and solar projects for tracking climate action outcomes.

2. Membership in additional PACE Programs

A competitive marketplace provides a variety of options for homeowners to finance improvement projects based on finance terms, conditions of approval, and eligible measures offered by the different programs. Additionally, authorizing multiple providers ensures that financing will remain available if one or more providers cease to operate in San Francisco. Finally, it is anticipated that there will be increased economic activity as a result of each new provider operating locally.

3. Clarification regarding CSCDA 'Open PACE' Program

To become consistent and current with our existing PACE financing partner, CSCDA, and its' PACE program providers.

- Agreement between CCSF and GFSA regarding the collection of PACE assessments and/or special taxes
- Resolution authorizing an agreement regarding the collection of PACE assessments and/or special taxes

CSCDA
OPENPACE
PROPERTY ASSESSED CLEAN ENERGY

The Facts about CSCDA's Open PACE Program

CSCDA has received questions from cities, counties and property owners about its Open PACE program. The following answers those questions that have been raised.

1. *The five administrators under the CSCDA Open PACE program provide disclosures to property owners as required under AB 2693 and beyond.*
 - AB 2693 (2016), which went into effect on January 1, 2017 mandates minimum disclosures for all PACE programs similar to the Mortgage Industry's "Know Before You Owe" Form including:
 - 3-DAY RIGHT to CANCEL
 - Clear Financing Statement w/ APR and total financing obligation
 - 64+ year old additional call backs to confirm terms
 - The bill was originally sponsored by the California Association of Realtors and supported by the PACE industry.
 - The CSCDA Open PACE program already provided for the requirements in AB 2693 under its consumer protection policies adopted in December, 2015. The additional legislation simply codifies in statute what had largely been standard business practice for the Open PACE program.
2. *Homeowners are not required to pay off their PACE lien when they sell or refinance.*
 - PACE liens may stay with the property in almost every scenario during a sale or refinance.
 - Transferability of the PACE lien is typically a point of negotiation between seller, buyer, and lender.

- The Federal Housing Administration and Veterans Administration (FHA and VA Loans) will finance with PACE liens on title and allow the PACE lien to remain.
- FHFA (Fannie Mae & Freddie Mac/Conventional loans) require contractual subordination of the PACE lien.
- Open PACE program administrators have and will subordinate to the satisfaction of the lender.

3. *Special assessments have been permitted and financed in California for over 100 years.*

- PACE is a voluntary special assessment that was authorized by the California Legislature. It is a variation of existing assessment district and community facility district laws that has been in place in California for over 100 years.
- Over 2,700 special assessment districts exist in the California – which are an essential infrastructure and economic development tool for local governments – and all of the assessments are senior to the first mortgage just as PACE is.

4. *The Open PACE program has multiple layers of governmental oversight.*

- Underwriting for PACE loans was established and is monitored by the California State Treasurer's Office.
- Disclosures for PACE loans are set by the California Legislature.
- CSCDA adopted stringent consumer protection policies in December 2015.
- Cities and counties have the ability both to opt in and, importantly, to opt out *without cause if they have concerns with a PACE program* providing unfettered local control.

5. ***The Open PACE program provides significant consumer protections between a property owner and contractor***

Open PACE programs provide more consumer protections than almost all other traditional financing options. Open PACE programs:

- Require contractor licensing,
- Approve only high-efficiency measures, verify work, require permits and provides a dispute resolution process.
- Provides final payment to the contractor only after the homeowners agrees that the work has been done to the homeowner's satisfaction
- Monitor contractors and penalize them for poor performance, including kicking them out of the Open PACE program.

6. ***PACE programs will not cause another housing crisis.***

There are several reasons why PACE will not cause another housing crisis:

1. PACE only finances measures that reduce energy and water bills. This increases a homeowner's ability to repay the mortgage.
2. In the first economic study of homes with PACE upgrades, three different methodologies and three home price indices were examined and all turned up the same results; PACE is good for the resale value of homes, even after taking into account the financing costs.
http://www.iinews.com/site/pdfs/JSF_Winter_2016_PACENation.pdf
3. California State Treasurer's Office regulations prevent a homeowner from encumbering the property with a PACE lien that, combined with the mortgage balance, would exceed 100% of the fair market value of the property.
4. PACE does not accelerate in the event of a default. Only the amount in arrears is due.
5. Property owners with a PACE assessment have higher property tax repayment rates than the state average.

7. ***CSCDA encourages property owners to review all of its options for financing to determine what their best option may be.***

- PACE is a voluntary program. As with any financing decision, property owners should compare terms and features across financing options.

- PACE interest rates are consistent with long-term, fixed interest rate financing, such as Home Equity Loans (HELs)
- Unsecured loans often have much shorter repayment terms, and comparable or higher interest rates, which lead to higher monthly/annual payments for the homeowners, which may be undesirable at best, and unsustainable at worst.
- The lowest cost financing on the market is a variable rate home equity line of credit (HELOC), which can start below 3%. Fewer than 15% of California homeowners have a HELOC in place, and many cannot wait the 30-45 days it takes to secure a HELOC (or HEL) when their A/C needs replacement in the summer.

8. *The Open PACE consumer protection policies do not permit contractors to use aggressive marketing practices that target the poor and elderly.*

- Complaints about aggressive contractors occurred well before PACE was in the market, regardless of the financing programs the contractor was offering.
- Open PACE is one of the only financing options with strong protections against aggressive marketing practices.
- All Open PACE contractors must agree to a code of conduct and are penalized if they use aggressive tactics or misrepresent the program.
- PACE call centers have multi-lingual staff to support non-English speakers.
- 100% of property owners over 64 years old receive a follow up call to ensure they understand the terms of the PACE contract.
- By state law (AB 2693), PACE also includes a three day right of rescission for anyone who changes their mind.
