- Section 2. Findings About Inclusionary Affordable Housing Requirements.
- (a) The purpose of this ordinance is to adopt inclusionary or affordable housing obligations following voter approval of Proposition C at the June 7, 2016 election to revise the City Charter's inclusionary affordable housing requirements, which won overwhelming support with 67.9% of the vote, and to update the provisions of the Planning Code that became effective after the Charter Amendment passed, consistent with the process set forth in Section 415.10 of the Planning Code, and elaborated upon further outlined in Ordinance No. 76-16, which required that the City study how to set inclusionary housing obligations in San Francisco at the maximum economically feasible amount in market rate housing development to create affordable housing. The inclusionary affordable housing obligations set forth in this ordinance will supersede and replace any previous requirements.
- (b) The San Francisco residential real estate market is one of the most expensive in the United States. In February 2016, the California Association of Realtors reported that the

- median priced home in San Francisco was \$1,437,500. This price is 222% higher than the
 State of California median (\$446,460), and 312% higher than the national average
 (\$348,900). While the national homeownership rate is approximately 63.8%, only
 approximately 37% of San Franciscans own their own home. The majority of market-rate
 homes for sale in San Francisco are priced out of the reach of low= and moderate=income
 households. In 2015, the average rent was \$3,524, which is affordable to households earning
 over \$126,864.
 - (c) The Board of Supervisors adopted San Francisco's General Plan Housing Element in March 2015, and the California Housing and Community Development Department certified it on May 29, 2015. The Housing Element states that San Francisco's share of the regional housing need for years 2015 through 2022 includes 10,873 housing units for very-low₌ and low-income households and 5,460 units for moderate/middle-income households, and a total production of 28,870 net new units, with almost 60% to be affordable for very-low, low- and moderate/middle-income San Franciscans.
 - (d) In November 2016, the City provided the updated Residential Affordable Housing Nexus Analysis that confirms and quantifies the impact of new market rate housing development on the demand for affordable housing for households earning up to 120% of area median income. The study demonstrates a need of 31.8% affordable housing for rental housing, and 37.6% affordable housing for ownership housing, and a need of 24.1% onsite affordable housing for rental housing, and 27.3% onsite affordable housing for ownership housing for households with incomes up to 120% of Area Median Income. When quantifying affordable housing impacts on households making up to 150% of area median income, the study demonstrates a need of 34.9% affordable housing for rental housing, and a need of 41.3% affordable housing for ownership housing.

1	(e) In February 2017, the Office of the Controller presented a study of the economic
2	feasibility of increased inclusionary housing requirements, entitled "Inclusionary Housing
3	Working Group: Final Report." The Controller's Office, supported by a contracted consulting
4	team of three firms and advised by a Technical Advisory Committee (TAC) with
5	representatives appointed by the Mayor and Board of Supervisors Controller, developed
6	several policy recommendations, including: (1) that the City should impose different
7	inclusionary housing requirements on rental and for-sale (condominium) properties; (2) that
8	the City couldcan set the initial onsite requirements at a maximum feasible amount of 18% for
9	rental projects and 20% for ownership projects; (3) that the City may adoptshould commit to a
10	15-year schedule of increases to the inclusionary housing rate, at a rate of 0.5% increase
11	each year; and (4) that the City should revise the schedule of Inclusionary housing fees to
12	provide a more equivalent cost for developers as the on-site requirements. The Controller's
13	Office recommended updating the fee percentage to 23% and 28% to create an equivalency
14	to the recommended 18% and 20% on-site requirements, with the City conducting the specific
15	calculation of the fee itself.

- (f) The Controller's Report further acknowledged that if either the state density bonus or a local bonus program were widely implemented in San Francisco, the likely result would be higher residual land values in many locations, which would support a higher inclusionary requirement. application of the state-provided density bonus could make a difference in the financial feasibility of housing development projects.
- (g) The City's Inclusionary Affordable Housing Program is intended to help address the demonstrated need for affordable housing in the City through the application of the City's land use controls

1	(h) As rents and sales prices outpace what is affordable to the typical San Francisco
2	family, the City faces a continuing shortage of affordable housing for not only very low- and
3	low-income residents, but also for moderate, middle and upper-middle income families.
4	(i) In order to maximize the benefit of state and federal funds supporting affordable
5	housing construction, which are typically restricted to very low- and low-income households.
6	and to maximize the amount of affordable units constructed, the majority of the City's new
7	affordable housing production is likely to continue to focus on households at or below 60% of
8	area median income.
9	(j) The Board of Supervisors recognizes that this Inclusionary Housing Program is only
10	one small part of the City's overall strategy for providing affordable housing to very low-, low-,
11	moderate-, and middle-income households. The City will continue to acquire, rehabilitate and
12	produce units through the Mayor's Office of Housing and Community Development, provide
13	rental subsidies, and provide homeownership assistance to continue to expand its reach to
14	households in need of affordable housing.
15	(k) The City will also continue to pursue innovative solutions to provide and stabilize
16	affordable housing in San Francisco, including programs such as HOME-SF that incentivize
17	projects that set aside 30% of on-site units as permanently affordable, and 40% of units as
18	family-friendly multiple bedroom units.
19	(I) In an effort to support a mix of both ownership project and rental projects, the City is
20	providing a direct financial contribution to project sponsors who agree to rent units for a period
21	of 30 years. The direct financial contribution is in the form of a reduction in the applicable
22	affordable housing requirement.
