The Honorable Teri L. Jackson Presiding Judge, Superior Court of California, County of San Francisco 400 McAllister Street, Room 008 San Francisco, CA 94102

Dear Judge Jackson:

Pursuant to Penal Code sections 933 and 933.05, the following is in reply to the 2016-17 Civil Grand Jury report, Planning to Make Our Parks Even Better. We would like to thank the members of the Civil Grand Jury for their interest in the City's parks and their efforts to improve their planning, maintenance, and operations.

Well-maintained parks, enriching recreational activities, and the protection and enhancement of San Francisco's natural resources are vital for maintaining and improving the quality of life in our neighborhoods. On June 7, 2016, San Francisco voters approved Proposition B, a Charter amendment that created a General Fund baseline for the Recreation and Park Department (RPD) and updated and expanded the Department's planning and equity requirements. Expanded equity metrics were reviewed and approved by the Recreation and Park Commission in October, 2016. The Recreation and Park Commission subsequently approved the Department's five-year strategic plan update in November 2016. The plan outlines the Department's mission, vision, and values and identifies five strategies, each with three or four objectives and multiple initiatives designed to implement the Department's strategic vision. The Commission also approved RPD's capital and operational plans in December 2016 and January 2017, respectively. The Department, in close collaboration with the Mayor's Office, continues to work diligently on delivering the ambitious strategies, objectives, and initiatives outlined in these documents.

The Civil Grand Jury's report noted that significant progress has been achieved in the City's parks system over the past five years. The report primarily focused on assessing the progress RPD has made in strengthening its Strategic, Operational, and Capital planning processes. The report also investigated the extent to which delayed preventative maintenance is a factor in the condition of the City's parks. The signatory to this letter will incorporate these findings into the collaborative working relationship.

A detailed response from the San Francisco Recreation and Park Commission to the Civil Grand Jury's findings and recommendations are attached.

Each signatory prepared its own responses and is able to respond to questions related to its respective part of the report.

Thank you again for the opportunity to comment on this Civil Grand Jury report.

Sincerely,

Mark Buell, President Recreation and Park Commission
