Dear Supervisor,

It is my pleasure to recommend Mr. Chase Chambers for the Market/Octavia Community Advisory Committee.

Over the past five years, I have worked with Chase on a verity of neighborhood projects and committees. Including: Castro Cares, Castro Community Benefit District, and my organization Castro Merchants representing over 300 businesses in the Upper Market Castro neighborhood.

Chase has proven himself to be trustworthy, hard working, engaged, unpretentious, professional and personable.

As a local small business manager and resident of Upper Market/Castro neighborhood Chase is perfectly suited for this appointment.

Thank you for your consideration.

As a newer resident to Hayes Valley, particularly one who hails from the tech industry I feel we as a collective group should be more involved with the discussions and community in which we inhabit. What brought me to this city was its miraculous ability to interweave an immense diversity of people and ideas into a beautiful dense urban area and I feel that the best way to have that spirit continue is for the latest group of people to call San Francisco their home get involved. I am your basic SF Tech Person, I am young, straight, caucasian, and even more so a transplant but this is the new reality of hayes valley and much of SF. I feel like my love for SF the city and SF the community I know would make me adept at helping tie together the different voices and wants of the community together.

Business and/or professional experience:

I've run three companies over the last eight years, raising millions in venture capital, hiring and managing dozens of employees, and scaling products from zero to millions of users. Each of these endeavours involved starting with a seed of an idea and growing it into something tangible with the help of many talented people and representing the voices of our users, team, and investors to make it all happen. Working with boards and groups of people to get long term projects done is the definition of my line of work and though the environment of doing that with the city & county is different, from attending the meetings directly seems to transfer over quite well. I'd love to bring my tech perspective to a city that embraces change.

Civic Activities:

I have done my best as of late to contribute civically the best way I know how; building products. After the recent election, we built a tool Switchboard to allow you to easily contact your local representatives about current bills in the house or senate & allow you to organize your network to call in about those issues to amplify your voice. I've attended a meeting of the Market & Octavia Street CAC and absolutely loved it and have been speaking to its members about the issues facing the plan area and their visions for its future. Which as a resident who intends to stay for the long term, I am excited by and would love to help contribute with the knowledge of the tech industry and how we can leverage that to help.
