Acquisition of easements for the  
SFPUC Westside Recycled Water Project

Honorable Board of Supervisors  
City & County of San Francisco  
City Hall, Room 244  
1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94102-4689

Dear Board Members:

Enclosed for your consideration is a Resolution authorizing an agreement for conveyance and acceptance of interests in real property from the State of California Department of General Services acting on behalf of the State of California Military Department consisting of easements for subsurface tiebacks, access, and maintenance over real property as part of the SFPUC Water System Improvement Program.

The Westside Recycled Water Project will provide up to 4 million gallons per day of groundwater from the Westside Groundwater Basin to augment San Francisco's municipal water supply. The project will diversify the SFPUC's water supply by developing recycled water, developing a new water supply in San Francisco that is both reliable and drought resistant, and reduce the use of potable water and groundwater for irrigation and other non-potable uses by supplying those demands with recycled water.

Through this proposed legislation, we are asking that the Board of Supervisors to approve and authorize the Agreement for Conveyance and Acceptance of Real Property between the State of California and the City and County of San Francisco.

If you have any questions or need additional information, Please call Brian Morelli of the SFPUC at 415-554-1545.
