AMENDED IN COMMITTEE 11/8/17 ORDINANCE NO.

FILE NO. 170599

[Public Works, Police Codes - Prohibiting Autonomous Delivery Devices on Sidewalks and Right-of-Ways Requiring a Permit for Testing of Autonomous Delivery Devices on Sidewalks] Ordinance amending the Public Works Code to prohibit the operation of autonomous delivery devices on sidewalks and right-of-ways within the jurisdiction of Public Works, require a permit for the testing of autonomous delivery devices on sidewalks and to set rules governing the operation of such devices; amending the Public Works Code and Police Code to provide for administrative, civil, or and criminal penalties for unlawful operation of autonomous delivery such devices; and affirming the Planning Department's determination under the California Environmental Quality Act. NOTE: Unchanged Code text and uncodified text are in plain Arial font. Additions to Codes are in single-underline italics Times New Roman font. Deletions to Codes are in strikethrough italies Times New Roman font. Board amendment additions are in double-underlined Arial font. Board amendment deletions are in strikethrough Arial font. Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables. Be it ordained by the People of the City and County of San Francisco: Section 1. The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the

Board of Supervisors in File No. 170599 and is incorporated herein by reference. The Board affirms this determination.

Section 2. The Public Works Code is hereby amended by adding Section 723.4 794, to read as follows:

SEC. 723.4. AUTONOMOUS DELIVERY DEVICES PROHIBITED ON PUBLIC RIGHT-OF-WAYS.

Supervisor Yee; Fewer, Ronen and Peskin BOARD OF SUPERVISORS

(a) "Autonomous Delivery Device" means a motorized device used to transport items, products, or any other materials, and guided or controlled without a human operator sitting or standing upon and actively and physically controlling the movements of the device.

(b) It shall be unlawful for any person, including but not limited to natural persons and businesses, to operate an Autonomous Delivery Device in or on any public sidewalk or rightof-way. Operation of an Autonomous Delivery Device in violation of this subsection (b) shall be, and is hereby declared, a public nuisance.

(c) **Criminal Penalty.** Any person who violates subsection (b) shall be guilty of a misdemeanor for each trip during which such violation occurs. Any person convicted of a misdemeanor hereunder shall be punishable by a fine of not more than \$1,000 or by imprisonment in the County Jail for a period of not more than six months, or by both.

(d) Civil Penalty.

(1) The Director may call upon the City Attorney to maintain an action for injunction to restrain or summary abatement to cause the correction or abatement of the violation of subsection (b) and for assessment and recovery of a civil penalty and reasonable attorney's fees for such violation.

(2) Any person who violates subsection (b) may be liable for a civil penalty, not to exceed \$500 for each day such violation is committed or permitted to continue, which penalty shall be assessed and recovered in a civil action brought in the name of the people of the City by the City Attorney in any court of competent jurisdiction. In assessing the amount of the civil penalty, the court may consider any one or more of the relevant circumstances presented by any of the parties to the case, including, but not limited to, the following: the nature and seriousness of the misconduct, the number of violations, the persistence of the misconduct, the length of time over which the misconduct occurred, the willfulness of the defendant's misconduct, and the defendant's assets, liabilities, and net worth. The City

Supervisor Yee; Fewer, Ronen and Peskin BOARD OF SUPERVISORS

Attorney may seek recovery of attorney's fees and costs incurred in bringing a civil action pursuant to this subsection (d).

(c) Administrative Penalty. In addition to the criminal or civil penalties authorized by subsections (c) and (d), Department of Public Works employees designated in Section 38 of the Police Code may issue administrative citations for such violations. The administrative penalty shall not exceed \$1,000 per day for each violation. Such penalty shall be assessed, enforced, and collected in accordance with Section 39-1 of the Police Code.

SEC. 794. AUTONOMOUS DELIVERY DEVICES ON SIDEWALKS – PERMIT REQUIRED.

(a) **Purpose.** "Autonomous Delivery Device" means a motorized device used to transport items, products, or any other materials on City sidewalks for commercial purposes. and guided or controlled without a human operator sitting or standing upon and actively and physically controlling the movements of the device. The purpose of this Section 794 is to establish a permit program to authorize and regulate the operation of Autonomous Delivery Devices on City sidewalks for the limited purposes of testing for research and development ("Testing") for anticipated commercial uses. Under this Section, the operation of Autonomous Delivery Devices for any other purpose is prohibited. This Section shall not govern the operation of Autonomous Delivery Devices on City streets and highways subject to the exclusive jurisdiction of the San Francisco Municipal Transportation Agency ("SEMTA").

(b) **Permit Required.** It shall be unlawful for any person, including but not limited to natural persons and businesses, to operate an Autonomous Delivery Device in, on, or above any public sidewalk (as defined in Article 2.4 of the Public Works Code) without a permit., except as may be otherwise authorized under the laws and regulations of the United States of America or the State of California. Operation of an Autonomous Delivery Device in violation of this subsection (b) shall be, and is hereby declared, a public nuisance.

1

2

(c) Public Works Director's Administration of Permit. The Public Works Director shall administer all Autonomous Delivery Device permits pursuant to the requirements, rules, and regulations set forth in this Section 794 or in orders, regulations, or procedures that the Public Works Director shall adopt as he or she deems necessary to preserve and maintain the public health, safety, welfare, and convenience ("Regulations"). Such Regulations may include, but are not limited to, permit application materials, placement of and information contained on signs, site conditions, accessibility of sidewalks and streets, the number of Autonomous Delivery Devices that may simultaneously undergo Testing in the same area, and the minimum distance between Autonomous Delivery Devices during Testing. When such Regulations may affect the operations and enforcement of the SFMTA, the Public Works Director shall consult with the General Manager of the SFMTA prior to adoption of such Regulations.

(d) Restrictions on Duration and Number of Autonomous Delivery Device Permits. Notwithstanding the authority granted to the Public Works Director under subsection (c), the following restrictions shall apply to Autonomous Delivery Device permits.

(1) No permit issued under this Section 794 shall remain valid for longer than 60 180 days: provided that the Public Works Director may grant up to two 90-day extensions, if the permittee requests such an extension prior the expiration of the initial 180-day period or prior 90-day extension. When a permittee requests an extension, the permittee must provide Public Works with a report that provides all data collected during prior Testing and describes any public safety-related incidents that have occurred.

(2) No permit shall authorize the Testing of more than three two (2) Autonomous Delivery Devices for each permittee.

(3) No more than a total of three (3) active permits <u>nine Autonomous Delivery</u> <u>Devices shall be permitted</u> are allowed <u>at any time.</u>

Supervisor Yee; Fewer, Ronen and Peskin BOARD OF SUPERVISORS

(4) No permittee may hold more than one permit at any time. (de) Application Process. The content of permit applications shall comply with the Public Works Director's Regulations. All applications shall be on forms prescribed therefor and shall contain or be accompanied by all information required to assure the presentation of pertinent facts for proper consideration of the application. The applicant shall provide the following information as part of the application submittal: (1) Name, office address, telephone number, and email address of applicant; (2) Description, physical dimensions, and technical specifications of the Autonomous Delivery Device; (3) Description and purpose of Testing: (4) Dates and times of Testing; (5) Description of and visual diagram depicting proposed path of travel of the Autonomous Delivery Device on or above sidewalks and public right-of-ways within the jurisdiction of the Department of Public Works ("Public Works"); (6) Operations manuals and instructions for operation of the Autonomous Delivery Device, including manner of causing it Autonomous Delivery Device to come to a full and complete stop; (7) Safety plan to ensure Autonomous Delivery Device remains within 15 feet of human operator at all times; (87) Privacy policy that addresses the manner in which applicant will use, store, and safequard photographic, video, and other data obtained through the Testing; and (98) A description of the means by which the applicant has considered any potential labor disputes involving the applicant's workforce. (ef) Public Notice and Opportunity to Comment. Upon submission of the Autonomous Delivery Device permit application, the applicant shall post Notices of Application

(1) Public Works Hearing. The Public Works Director shall hold-a public hearing regarding the Autonomous Delivery Device permit application. The applicant shall post at each Testing site, as directed by Public Works, a Notice of Public Hearing provided by Public Works for a period of 10 calendar days prior to the date of the scheduled hearing. The Notice of Public Hearing posting shall be removed by the applicant the day after the expiration of the 10-day period. Unless otherwise outlined in this Section 794, the Notice of Public Hearing posting shall comply with Article 5.6 of the Public Works Code. The Public Works Director shall also notify the Board of Supervisors of any public hearing held under this subsection (fg)(1).

(2) Appeal to Board of Supervisors. The Public Works Director's approval or disapproval of an Autonomous Delivery Device permit application, or the Public Works Director's withdrawal or revocation of an Autonomous Delivery Device permit application, may be appealed to the Board of Supervisors. During the appeal, the permittee may not operate any Autonomous Delivery Device. The Board of Supervisors shall hold a public hearing on an appeal of an Autonomous Delivery Device permit application the Public Works Director's

Supervisor Yee; Fewer, Ronen and Peskin BOARD OF SUPERVISORS

decision, and may approve, disapprove, or modify the Director of Public Works' decision prior determination. The Board of Supervisors' decision on such an appeal is final.

(A) Any such appeal must be filed in writing with the Clerk of the Board of Supervisors within 10 days of the Public Works Director's decision, and must be accompanied by payment of a fee of \$300, payable to the Office of the Clerk of the Board. The Clerk of the Board may establish a policy to waive the appeal fee for neighborhood organizations or those whose income is not enough to pay for the fee without affecting his or her abilities to pay for the necessities of life.

(B) With respect to appeals under this subsection (g)(2), the Board shall schedule a hearing on the appeal to be held no less than 14 days and no more than 30 days after the last available filing date of the appeal; provided that if the Board of Supervisors does not conduct at least three regular Board meetings during such 30 day period, the Board of Supervisors shall hold its hearing within 45 days of the last available filing date of the appeal or at the next regularly scheduled Board meeting should such deadline fall within a Board of Supervisors recess; and provided further that the latest date to which said decision may be so postponed under this subsection shall be not more than 90 days from the last available filing date of the appeal.

(C) The Clerk of the Board of Supervisors shall publish a Notice of Public Hearing at least 10 days in advance of the appeal hearing in at least one newspaper of general circulation within the City and County of San Francisco: and provide mailed notice to (i) anyone requesting notification in writing to the Office of the Clerk of the Board of Supervisors, and (ii) the neighborhood organization(s) on the list maintained by the Planning Department located within the Testing area, at least ten days in advance of the appeal hearing.

1

1	(D) The appellant or its representative and other interested members of		
2	the public including the permittee shall submit any written briefs and documentation they want		
3	available to the members of the Board of Supervisors and included in the packet materials		
4	prior to the hearing to the Clerk of the Board of Supervisors no later than 12:00 pm, at least 11		
5	days prior to the hearing date for the appeal, and City departments shall submit their		
6	responses to any written briefs and documentation from the appellant no later than 12:00 pm,		
7	at least eight days prior to the hearing date for the appeal; any written briefs and		
8	documentation received after these deadlines may not be a part of the hearing packet		
9	materials and the submitting party shall be responsible for distribution.		
10	(E) If the Office of the Clerk of the Board of Supervisors receives multiple		
11	timely appeals of Public Work's Director's decision, the Clerk of the Board of Supervisors may		
12	consolidate such appeals so that they are heard simultaneously.		
13	(gh) Conditions of Approval and Data Sharing.		
14	(1) Conditions of Approval. The Public Works Director, in consultation with		
15	the SFMTA and any appropriate City Department, shall impose any conditions of approval		
16	that the Director deems necessary to protect the public health, safety, and welfare of		
17	pedestrians and other users of the sidewalks and public right-of-ways. The Public Works		
18	Director shall have the authority to add conditions of approval to, modify, or withdraw the		
19	Autonomous Delivery Device permit to address public health, safety, and welfare issues		
20	arising from the Testing. Before the Public Works Director imposes its final conditions of		
21	approval on a permit, the prospective permittee, if the permittee proposes to test an		
22	Autonomous Delivery Device along or across a high injury corridor, the permittee shall make a		
23	presentation to the Vision Zero committee of the San Francisco County Transportation		
24	Authority. Failure to comply with the Director's conditions of approval shall may result in		
25	immediate revocation of the permit., and If the failure to comply with the Director's conditions		

Supervisor Yee; Fewer, Ronen and Peskin BOARD OF SUPERVISORS

of approval also creates a significant risk to public safety, the Director shall immediately revoke the permit. If the Director revokes a permit under this subsection (h)(1), the permittee shall be ineligible for any future Autonomous Delivery Device permits. (2) Data Sharing. The Autonomous Delivery Device permittee shall disclose all data collected during the Testing, including any Global Positioning System ("GPS") or photographic data, with relevant City agencies, upon request by either the City Administrator's Office or Public Works. Upon request by either the City Administrator's Office or Public Works, the The permittee shall also disclose the following information regarding the San Francisco businesses that are incorporating the Testing of Autonomous Delivery Devices into their operations. to the City upon request by Public Works: (A) the San Francisco businesses that are incorporating the Testing of Autonomous Delivery Devices into their operations; and (B) information regarding the guality of City sidewalks and related mapping data. (gi) Operational Requirements. The Testing of Autonomous Delivery Devices must abide by the following requirements. (1) **Speed limit.** Autonomous Delivery Devices shall not travel more than three two (2) miles per hour. (2) Human Operator. A human operator shall remain within 15 30 feet of the Autonomous Delivery Device for the entire duration of the Testing-all times. (3) Rights of Way. Autonomous Delivery Devices shall yield the right of way to pedestrians and bicycles. (4) Permissible Testing Areas. Permittees shall only Test Autonomous Delivery Devices on sidewalks that (A) are located in zoning districts designated for Production. Design, and Repair ("PDR") uses, (B) comply with the sidewalk widths

the first Autonomous Delivery Device Testing permit, and at this hearing. Public Works shall provide a report summarizing the data it has collected from permittees and offer findings and recommendations regarding its administration of this program.

(hk) Penalties.

(1) Criminal Penalty. Any person who violates this Section 794 shall be guilty of a misdemeanor for each trip during which such violation occurs. Any person convicted of a misdemeanor hereunder shall be punishable by a fine of not more than \$1,000 or by imprisonment in the County Jail for a period of not more than six months, or by both.

Any permittee who shall violate any of the provisions of this Section 794 shall be guilty of an infraction. Every violation determined to be an infraction is punishable by (1) a fine not exceeding \$100 for the first violation within one year: (2) a fine not exceeding \$200 for a second violation within one year from the date of the first violation: (3) a fine not exceeding \$500 for the third and each additional violation within one year from the date of the first <u>violation</u>.

<u>No criminal penalty may be imposed on the employee or staff of any company.</u> <u>corporation or other business entity that is operating an Autonomous Delivery Device in</u> <u>violation of this Section 794.</u>

(2) Civil Penalty.

(A) The Director may call upon request the City Attorney to maintain an action for injunction to restrain or summary abatement to cause the correction or abatement of the violation of subsection (b) and for assessment and recovery of a civil penalty and reasonable attorney's fees for such violation.

(B) Any person who violates subsections (b) or (i) may be liable for a civil penalty, not to exceed \$500 for each day such violation is committed or permitted to continue, which penalty shall be assessed and recovered in a civil action brought in the name of the

people of the City by the City Attorney in any court of competent jurisdiction. In assessing the amount of the civil penalty, the court may consider any one or more of the relevant circumstances presented by any of the parties to the case, including, but not limited to, the following: the nature and seriousness of the misconduct, the number of violations, the persistence of the misconduct, the length of time over which the misconduct occurred, the willfulness of the defendant's misconduct, and the defendant's assets, liabilities, and net worth. The City Attorney may seek recovery of attorney's fees and costs incurred in bringing a civil action pursuant to this subsection (dk).

(3) Administrative Penalty. In addition to the criminal or civil penalties authorized by subsections (1) and (2), Public Works employees designated in Section 38 of the Police Code may issue administrative citations for such violations. The administrative penalty shall not exceed \$1,000 per day for each violation. Such penalty shall be assessed, enforced, and collected in accordance with Section 39-1 of the Police Code.

Section 3. The Police Code is hereby amended by revising Section 39-1, to read as follows:

SEC. 39-1. PROCEDURE FOR ASSESSMENT AND COLLECTION OF ADMINISTRATIVE PENALTIES FOR SPECIFIED LITTERING AND NUISANCE VIOLATIONS.

(a) This Section <u>39-1</u> shall govern the imposition, assessment and collection of administrative penalties imposed pursuant to Sections 37, 38 and 63 of the Police Code, Sections 41.13, 283.1, 287, 288.1 and 600 of the Health Code, and Sections 170, 173, 174, 174.2, <u>723.4, and 724.5, and 794</u> of the Public Works Code.

* * * *

Supervisor Yee; Fewer, Ronen and Peskin BOARD OF SUPERVISORS

Section 4. Effective Date. This ordinance shall become effective 30 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

Section 5. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors intends to amend only those words, phrases, paragraphs, subsections, sections, articles, numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal Code that are explicitly shown in this ordinance as additions, deletions, Board amendment additions, and Board amendment deletions in accordance with the "Note" that appears under the official title of the ordinance.

Section 6. Severability. If any section, subsection, sentence, clause, phrase, or word of this ordinance, or any application thereof to any person or circumstance, is held to be invalid or unconstitutional by a decision of a court of competent jurisdiction, such decision shall not affect the validity of the remaining portions or applications of the ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each and every section, subsection, sentence, clause, phrase, and word not declared invalid or unconstitutional without regard to whether any other portion of this ordinance or application thereof would be subsequently declared invalid or unconstitutional.

Section 7. Undertaking for the General Welfare. In enacting and implementing this ordinance, the City is assuming an undertaking only to promote the general welfare. It is not assuming, nor is it imposing on its officers and employees, an obligation for breach of which it

Supervisor Yee; Fewer, Ronen and Peskin BOARD OF SUPERVISORS

<u>REVISED LEGISLATIVE DIGEST</u> (Amended in Committee November 8, 2017)

[Public Works, Police Codes - Permit for Testing of Autonomous Delivery Devices on Sidewalks]

Ordinance amending the Public Works Code to require a permit for the testing of autonomous delivery devices on sidewalks and to set rules governing the operation of such devices; amending the Public Works Code and Police Code to provide for administrative, civil, and criminal penalties for unlawful operation of such devices; and affirming the Planning Department's determination under the California Environmental Quality Act.

Existing Law

Current law does not prohibit or regulate the operation of autonomous delivery devices on City sidewalks.

Amendments to Current Law

The proposed ordinance would amend the San Francisco Public Works and Police Codes to allow for the testing of autonomous delivery devices, for anticipated commercial uses, on City sidewalks. This legislation defines an "Autonomous Delivery Device" as a motorized device used to transport items, products, or any other materials on City sidewalks for commercial purposes, and guided or controlled without a human operator sitting or standing upon and actively and physically controlling the movements of the device.

Under this legislation, the Public Works Director would administer and adopt regulations governing the permitting of autonomous delivery devices. The legislation would impose the following restrictions regarding such permits:

- no permit would be valid for longer than 180 days, provided that the Public Works Director may grant up to two 90-day extensions;
- no permit would authorize the testing of more than three autonomous delivery devices per permittee;
- no more than a total of nine autonomous delivery devices may be permitted at any time; and
- no permittee may hold more than one permit at any time.

The testing of autonomous delivery devices would be subject to the following operational restrictions:

- <u>Speed limit:</u> autonomous delivery devices would not be allowed to travel more than three miles per hour.
- <u>Human operator presence required:</u> a human operator would be required to remain within 30 feet of the device during testing.
- <u>Rights of way:</u> autonomous delivery devices would be required to yield the right of way to pedestrians and bicycles.
- <u>Permissible testing areas:</u> permittees would only be allowed to test autonomous delivery devices on sidewalks that (A) are located in zoning districts designated for Production, Design, and Repair ("PDR") uses, (B) are not identified as a high-injury corridor by the City's Walk First initiative, and (C) can simultaneously accommodate the testing of autonomous delivery devices and paths of travel for persons with disabilities or have an effective sidewalk width of six feet.
- <u>Traffic signals</u>: autonomous delivery devices would be required to obey all signs and signals governing traffic and pedestrians.
- <u>Hazardous materials:</u> autonomous delivery devices would be prohibited from transporting waste or hazardous materials (such as flammables or ammunition).
- <u>Headlights:</u> autonomous delivery devices would be required to have headlights that operate at night, sunrise, and sunset.
- <u>Warning noise</u>: autonomous delivery devices would be required to emit a warning noise while in operation.
- <u>Unique identifiers:</u> each permittee would be required to place a unique identifier on each autonomous delivery device.
- <u>Insurance requirements:</u> each permittee would be required to obtain and have readily accessible proof of general liability, automotive liability, and workers' compensation insurance.
- <u>Indemnification of City:</u> each permittee would be required to agree to indemnify the City from any legal claims arising directly or indirectly out of permittee's testing of autonomous delivery devices on City sidewalks.

The proposal would require each permittee to, upon request by the City Administrator's Office or Public Works, share the following information with the City:

- data collected during testing, including any Global Positioning System ("GPS") or photographic data; and
- the San Francisco businesses that are incorporating the testing of autonomous delivery devices into their operations.

The legislation would require the Public Works Director to hold a hearing regarding each application for an autonomous delivery device permit. The legislation would also allow for appeals of the Public Works Director's decisions to the Board of Supervisors.

The proposed ordinance also establishes criminal, civil, and administrative penalties for unlawful operation of such devices.

File No. 170599

Lisa Gibson Interim Environmental Review Officer Planning Department 1650 Mission Street, 4th Floor San Francisco, CA 94103

Dear Ms. Gibson:

On May 16, 2017, Supervisor Yee introduced the following legislation:

File No. 170599

Ordinance amending the Public Works Code to prohibit the operation of autonomous delivery devices on sidewalks and right-of-ways within the jurisdiction of Public Works, amending the Police Code to provide for administrative, civil, or criminal penalties for unlawful operation of autonomous delivery devices; and affirming the Planning Department's determination under the California Environmental Quality Act.

This legislation is being transmitted to you for environmental review.

RE: BOS File No. 170599 [Public Works, Police Codes - Prohibiting Autonomous Delivery Devices on Sidewalks and Right-of-Ways]

Small Business Commission Recommendation to the Board of Supervisors: Do not approve

Dear Ms. Calvillo,

On August 14, 2017, the Small Business Commission voted (5-1, 1 absent) to recommend that the Board of Supervisors not approve BOS File No. 170599.

The Commission noted that the issue has not been adequately studied and not enough data has been presented to justify a permanent ban. Given the potentially significant impacts of automation (including automated delivery devices), the Commission recommended that the Board of Supervisors convene a working group charged with developing policies regarding automation in San Francisco, including the use of automated or autonomous delivery devices. The Department of Public Works' Pilot Program should be continued in the meantime, conditional upon enforcement.

It adopted the attached resolution, which fully articulates its recommendations.

The Small Business Commission respectfully requests that you vote against this legislation and instead take steps to facilitate the development of informed and thoughtful policies regarding the future of automation in San Francisco.

Thank you for considering the Small Business Commission's comments. Please feel free to contact me should you have any questions.

Sincerely,

ZNDick Endering

Regina Dick-Endrizzi Director, Office of Small Business

Small Business Commission Resolution

HEARING DATE AUGUST 14, 2017

AUTOMATION & AUTOMATED DELIVERY DEVICES WORKING GROUP

BOS FILE NO. 170599 RESOLUTION NO. 002-2017-SBC

Resolution urging the San Francisco Board of Supervisors to convene a working group charged with developing policies to govern the use of automated delivery devices in San Francisco, and to continue the Department of Public Works' Pilot Program (Public Works Order No. 185922) until such time as comprehensive regulations are adopted.

WHEREAS, automation comes in many forms, including but not limited to automated delivery devices (a.k.a. "delivery robots"); and

WHEREAS, automation has the potential to significantly affect the local economy; and

WHEREAS, automated delivery devices would operate on the public right of way, posing public safety and logistical challenges; and

WHEREAS, the consequences and opportunities for residents, workers, and businesses in San Francisco are not adequately understood; and

WHEREAS, San Francisco's experience suggests that carefully developed regulation should precede rather than succeed the spread of new technologies, to encourage cooperative behavior from businesses from the outset.

BE IT RESOLVED that the Department of Public Works' Pilot Program be continued, conditional upon enforcement.

BE IT FURTHER RESOLVED that the Small Business Commission hereby recommends the convening of a working group (as soon as is practical) charged with studying the impacts of automation (including automated delivery devices) and build San Francisco's automation policy based on a set of thoughtful principles and the insights gleaned from the working group.

BE IT FURTHER RESOLVED that the Small Business Commission recommends that the working group be composed of at least the following members:

- The Mayor's Office
- Office of Economic and Workforce Development
- Office of Small Business
- Mayor's Office on Disability

1 DR. CARLTON B. GOODLETT PLACE, ROOM 110, SAN FRANCISCO, CALIFORNIA 94102-4681 (415) 554-6134 / www.sfosh.org / shc@sfaov.org

CITY AND COUNTY OF SAN FRANCISCO EDWIN M. LEE, MAYOR

OFFICE OF SMALL BUSINESS REGINA DICK-ENDRIZZI, DIRECTOR

- OFFICE OF SMALL BUSINESS
 - Department of Public Works
 - Municipal Transportation Agency
 - Police Department
 - City Attorney

BE IT FURTHER RESOLVED that the Small Business Commission urges consultation with stakeholders in the community, including but not limited to:

- Pedestrian safety groups
- Merchant and business associations
- Business representatives in impacted industries
- Automation product developers
- Labor representatives (including, but not limited to, the Teamsters)

I hereby certify that the foregoing Resolution was ADOPTED by the Small Business Commission on August 14, 2017.

Subject: Push back on Robot delivery, our sidewalks are already too crowded.

I awoke to read the paper yesterday and read that the board had decided to give the robot delivery companies a break, "...amid mounting pressure by robot companies and businesses interests..." SF Examiner oct 17, 2017.

To say that I am disappointed is an understatement. I feel like what I am seeing here is that the board is more interested in representing business interests than they are in representing the people who elected them.

These robots do not belong on our already crowded streets. The founders of the companies who make them are out of touch-Matt Delaney, co-founder of Marble calls our sidewalks, "...an infrastructure that is barely used". Meanwhile Starship spokesperson imagines a vision where there are thousands of robots on sidewalks around the world.

(Both quotes <u>can be found here</u> in this Gaurdian UK article, please read.)

"Barley used," can you imagine what our sidewalks in the Financial district would look like at lunchtime if we ad hundreds of delivery 'bots to the mix? How about the narrow sidewalks in Chinatown, The Castro, Glen Park, and so many other neighborhoods? IT seems to me that Delaney thinks all our sidewalks are like those over by where he builds his robots. They are not.

In a Goal Zero city we need to prioritize pedestrians and pedestrian safety, not profits for a very small number of people.

Thank you for your time.

I vote, I pay attention and I am very upset that the board seems hell bent on giving our City to these robots.

Dear Supervisors:

I urge you to support Sup. Yee's legislation to ban Autonomous Delivery Devices - in other words, robots - from our city's sidewalks. It should go without saying that sidewalks are for pedestrians, not for robots. So are delivery jobs.

Walk SF speaks for me when it says

Sidewalks are the one of the only spaces in the city that [are] dedicated to pedestrians, and these spaces are already narrow and crowded throughout much of the city. If anything, we need more space dedicated to people walking, rather than having to share the limited space we do have.

and

when an industry's business model uses public space, it is crucial that our elected officials prioritize the needs of the community and consider the impact to their quality of life.

Again, I ask you to support a total ban on robot delivery vehicles.

Yours truly, Gail Wechsler 94110

Subject: Drones are banned from national parks; delivery robots should be banned from sidewalks

Dear Supervisors:

Please vote to support Supervisor Norman Yee's legislation to ban delivery robots from our sidewalks. The law currently prohibits people from parking motorcycles and cars on sidewalks, from operating Segways on sidewalks, and from riding bicycles on sidewalks (unless a child).

Please do not give up this valuable public space to another motorized vehicle -- the delivery robot.

We need to preserve the sidewalk for walking -- especially for the elderly and the disabled, and people with small children -- and for people who use wheelchairs. Our sidewalks are important places where people should be able to walk safely and in peace. As a reminder, to maintain national parks as places of peace and rejuvenation, federal law prohibits drones in national parks.

Sincerely, Sue Vaughan District 1

June 20, 2017 Revised Guiding Principles for

Management of Emerging Mobility Services and Technologies

- Safety Emerging Mobility Services and Technologies must be consistent with the City and County of San Francisco's goal for achieving Vision Zero, reducing conflicts, and ensuring public safety and security.
- Transit Emerging Mobility Services and Technologies must complement rather than compete with public space and transit services, must support and account for the access to and operational needs of and for transit and encourage use of high-occupancy modes.
- Equitable Access Emerging Mobility Services and Technologies must promote equitable access to services. All people, regardless of age, race, color, gender, sexual orientation and identity, national origin, religion, or any other protected category, should benefit from Emerging Mobility Services and Technologies, and groups who have historically lacked access to mobility and other benefits must be prioritized and should benefit most.
- **Disabled** Access Emerging Mobility Services and Technologies must be inclusive of persons with disabilities. Those who require accessible vehicles, physical access points, services, and technologies are entitled to receive the same or comparable level of access as persons without disabilities.
- Sustainability Emerging Mobility Services and Technologies must support sustainability, including helping to meet the city's greenhouse gas (GHG) emissions reduction goals, promote use of all non-auto modes, and support efforts to increase the resiliency of the transportation system and public space.
- Congestion Emerging Mobility Services and Technologies must consider the effects on sidewalk, public right of way, and traffic congestion, including the resulting impacts on road safety, modal choices, emergency vehicle response time, transit performance and reliability.
 - Emerging Mobility Services and Technologies providers must share relevant data so that the City and the public can effectively evaluate the services' benefits to and impacts on the transportation and other systems system including but not limited to labor, health, and determine whether the services reflect the goals of San environment Francisco.

Emerging Mobility Services and Technologies must ensure fairness in pay and labor policies and practices. Emerging Mobility Services and Technologies should support San Francisco's local hire principles, promote equitable job training opportunities, and maximize procurement of goods and services from disadvantaged business enterprises.

Emerging Mobility Services and Technologies must promote a positive financial impact on the City's infrastructure investments and delivery of publicly-provided transportation services.

Emerging Mobility Services and Technology providers and the City must engage and collaborate with each other and the community to improve the city and its transportation system.

Accountability

Labor

Financial Impact

Collaboration

Use of Guiding Principles: The SFCTA and SFMTA will use these Guiding Principles to shape our approach to Emerging Mobility Services and Technologies. For the SFMTA, these Guiding Principles willserve as a framework for the consistent application of policies and programs. The SFCTA will use these Guiding Principles to evaluate these services and technologies; identify ways to meet city goals, and shape future areas of studies, policies and programs. Every Guiding Principle may not be relevant to every consideration associated with Emerging Mobility Services and Technologies, and in some cases a service may not meet all of the principles consistently. SFMTA and SFCTA Directors and staff will consider whether a service or technology is consistent with the Guiding Principles, on balance. If a service provider or technology does not support these Guiding Principles, SFMTA and SFCTA will work with the service provider to meet the principles, or may choose to limit their access to City resources.

October 2, 2017

Board of Supervisors San Francisco City Hall 1 Dr Carlton B Goodlett PI San Francisco, CA 94102

RE: File 170599: Autonomous Delivery Device Ban (Yee) -- SUPPORT

Dear Board of Supervisors,

On behalf of Walk San Francisco and our members, I am writing to urge you to support Supervisor Norman Yee's proposal to prohibit Autonomous Delivery Devices from Sidewalks and Right-Of-Ways (File 170599).

Walk San Francisco strives to make San Francisco a more livable, walkable city. This legislation is important to us because in order for the city to be walkable, sidewalk space must be ample, accessible, and ideally beautiful. We are very concerned about the impacts of Autonomous Delivery Vehicles on the safe and unfettered use of the sidewalk by pedestrians. Autonomous Delivery Devices are an example of a technological innovation that could have positive uses; however, this technology is in its infancy and the City must act quickly to ensure it does not negatively impact the community.

San Francisco has always prioritized our sidewalks for the use of pedestrians — from banning bicycles and Segways from our sidewalks, to prioritizing the "pedestrian environment" under the Better Streets Plan. Sidewalks are the one of the only spaces in the city that is dedicated to pedestrians, and these spaces are already narrow and crowded throughout much of San Francisco. If anything, we need more space dedicated to people walking, rather than having to share the limited space we do have.

Sidewalks are also the heart of our community. They are where people gather to talk, where they shop, where they walk their dogs, and how they get from one place to another in our great city. We must proactively preserve this limited pedestrian-prioritized space for people to use safely, without fear of moving vehicles. This is especially important for seniors, people with disabilities, and for families. These Autonomous Delivery Devices will be an obstacle in their path, taking up limited sidewalk space and potentially blocking curb ramps that are vital for people in wheelchairs or people pushing strollers.

San Francisco is a hub for innovation and small business. However, when an industry's business model uses public space, it is crucial that our elected officials prioritize the needs of the community and consider the impact to their quality of life. One or two Delivery Devices might not seem like a problem, but as these vehicles become truly autonomous and their numbers increase, we can expect many of them to be operating on a single block

David Dubinsky Chief Executive Officer Pomeroy Recreation and Rehabilitation Center Sent: Thursday, June 08, 2017 3:24 PM

Erica,

Thank you for sharing this information. We will be very happy to share this with our participants and their families! As one of San Francisco's largest programs supporting individuals with significant disabilities and our seniors, we of course are very concerned that are streets and sidewalks are as safe and accessible as possible. Let me know how else we can support Supervisor Yee!

Best personal regards,

David

Subject: Re: Delivery Robots - Speak/Attend in Support of Ban

Good grief.....I did sign the petition. Not sure I can make it next Wednesday as I have some outpatient surgery scheduled for Tuesday....but if all goes well and I can work, I am glad to come and provide some support. I know how to sign up for my two minutes and will be glad to speak on behalf of the more than 500 adults and children we serve at the Pomeroy Center. Although I could support this technology being used in corporate settings and in a limited way in some other settings such as back rooms, warehouses, etc., these robots really do not belong on our city sidewalks. This clearly goes under the heading of "just because you can, doesn't mean you should"!

David

The South Beach | Rincon | Mission Bay Neighborhood Association Board

From: SBRMBNA [mailto:sbrmbna@gmail.com]

28 September 2017 Board of Supervisors San Francisco City Hall 1 Dr Carlton B Goodlett Pl San Francisco, CA 94102

Re: File 170599–Prohibit Autonomous Delivery Devices from Sidewalks and Right-Of-Ways

Dear Board of Supervisors,

We, the Officers and Directors of the South Beach | Rincon | Mission Bay Neighborhood Association Board, are writing to urge you to support Supervisor Norman Yee's proposal to prohibit Autonomous Delivery Devices from Sidewalks and Right-Of-Ways (File 170599). Our Association is a member of the Vision Zero Coalition and is actively engaged in promoting sidewalks and streets that are designed for safe use by pedestrians including those with limited or compromised mobility, cyclists and lawfully operated vehicles.

This legislation is important to us because we are concerned about the impacts of Autonomous Delivery Vehicles on the safety of people using sidewalks, as well as the commercialization of our public realm. This technology is in its infancy and the City must act quickly to ensure that its implementation is managed in a safe, equitable and sustainable way so that it does not endanger already vulnerable pedestrians.

Sidewalks are the lifeblood of our neighborhoods. They are where people gather to talk, shop, walk their pets, and move about doing their daily business. We must proactively preserve this already-limited, pedestrian-prioritized space for people to use safely, without fear of motorized vehicles, especially those with erratic paths and sudden stops. This is critically important for seniors, people with disabilities, and families walking with children.

Autonomous Delivery Vehicles may seem a novelty now, but as their numbers increase, so will the ill-effects of their added congestion and irregular travel patterns. And when an industry's business model uses public space, our elected officials must proactively ensure that our sidewalks don't become robot-dominated runways, but instead remain safe, healthy and enjoyable places for the people who live, work and visit here.

San Francisco has a proven record of valuing vehicle-free sidewalks. Please continue this by supporting Supervisor Yee's legislation to prohibit the use of Autonomous Delivery Devices on our sidewalks and public right-of-way. The emerging ranks of small motorized transportation devices, autonomous and not, will require a new—and separate—management plan.

Sincerely,

The South Beach | Rincon | Mission Bay Neighborhood Association Board Katy Liddell, President Alice Rogers, Vice President Gary Pegueros, Secretary Jamie Whitaker, Treasurer Bruce Agid, Director Mike Anthony, Director Peggy Fahnestock, Director

Alice Chiu SF resident- uses a white cane Human Rights Advocate

Subject: Please support Supervisor Norman Yee's ban on delivery robots on our sidewalks.

Hi,

I'm writing to express my strong support for Supervisor Norman Yee's ban on delivery robots on our sidewalks.

I ask you to consider this because as a person with a disability using a white cane, I already face difficulty in navigating sidewalks everyday and now, fearing robots will be added amount the already crowded sidewalks to be the additional obstacles and possibly making these sidewalks more dangerous, are you kidding me? As a human rights advocate, I ask you, how many seniors, people who use walkers, crutches, canes and people with vision impairments were consulted when robots were first brought onto "our" sidewalks in San Francisco? I wonder how often do you, the law makers of this city sit down and see things form the view of seniors and people with disabilities on safety and basic human rights? And let me ask you this, if you had ever sprained your ankle, you would know the simple act of navigating down the sidewalk would be a huge effort. This is a small window for you to peek at the daily perspective of how it feels— the unsteady feet on cracked sidewalks, parked cars, A T & T boxes, skateboarders, cell phone watching walking people, garbage, etc, etc, etc, and add robots too… How would that looks like for our seniors and people with disabilities?

Let's remind ourselves, for safety reasons, Segways are not allowed to be on the sidewalks and the same should be true for robots. Let me give you a clear image— if we allow robots on our sidewalks, it would be as if we allow skateboards without people on them. It would be dangerous to pedestrians, especially seniors and people with disabilities. Allowing robots on our sidewalks is also a form of privatizing public space, giving private companies ways to make money at the same time making it harder for everyone else. Not to mention taking away union jobs such as UPS delivery workers.

I ask you to protect the safety of our people. I ask you to take action to prioritize basic human rights over profits. Please support Supervisor Norman Yee's ban on delivery robots on our sidewalks. Thank you Supervisor Yee for your leadership on this and thank you all for your vision for ALL San Franciscans in living safely.

Sincerely,

Alice Chiu

Transportation Research and Improvement Project

Board of Supervisors: Supervisor London Breed Supervisor Malia Cohen Supervisor Mark Farrell Supervisor Sandra Lee Fewer Supervisor Jane Kim Supervisor Aaron Peskin Supervisor Aaron Peskin Supervisor Ahsha Safai Supervisor Jeff Sheehy Supervisor Katy Tang Supervisor Norman Yee San Francisco City Hall 1 Dr Carlton B Goodlett Pl San Francisco, CA 94102

Dear Board of Supervisors,

On behalf of the Chinatown Transportation Research and Improvement Project (TRIP), I am writing to urge you to support Supervisor Norman Yee's proposal to prohibit Autonomous Delivery Devices from Sidewalks and Right-Of-Ways (File 170599).

Chinatown TRIP is a community volunteer organization with the mission to improve transportation and pedestrian safety in Chinatown through research and planning, bringing improvements to transit service, traffic circulation, quality of life, and pedestrian safety. This legislation is important to us because we are concerned about the impacts of Autonomous Delivery Vehicles on the safety of people walking and the possible loss of jobs due to these devices. Autonomous Delivery Devices are an example of a technological innovation that could have positive uses; however, this technology is in its infancy and the City must act quickly to ensure it does not negatively impact the community.

San Francisco has always prioritized our sidewalks for the use of pedestrians — from banning bicycles and Segways from our sidewalks, to prioritizing the "pedestrian environment" under the Better Streets Plan. Sidewalks are the one of the only spaces in the city that is dedicated to pedestrians, and these spaces are already narrow and crowded throughout much of the city. If anything, we need more space dedicated to people walking, rather than having to share the limited space we do have.

Sidewalks are also the heart of our community. They are where people gather to talk, where they shop, where they walk their dogs, and how they get from one place to another in our great city. Chinatown sidewalks are characterized by high pedestrian volumes, especially along Stockton Street and Grant Avenue, where one will find themselves "elbow-to-elbow" with visitors and residents. We must proactively preserve this limited pedestrian-prioritized space for people to use safely, without fear of moving vehicles. This is especially important for seniors, people with disabilities, and for families. These Autonomous Delivery Devices will be an obstacle in their path, taking up limited sidewalk space, potentially blocking curb ramps that are vital for people in wheelchairs or people pushing strollers, and overall decreasing the quality of life on our sidewalks.

One or two Delivery Devices might not seem like a problem, but as these vehicles become truly autonomous and their numbers increase, we can expect many of them to be operating on a single block at the same time. The City must be proactive to ensure that our sidewalks don't become robot superhighways, but instead remain safe and enjoyable places for people.

San Francisco is a hub for innovation and small businesses. However, when an industry's business model uses public space, it is crucial that our elected officials prioritize the needs of the community and consider the impact to their quality of life. Additionally, the economic climate of the city makes it hard for many people to live here. Replacing entry-level delivery jobs with robot deliveries will negatively impact people's opportunities for working in San Francisco.

San Francisco has a proven record of valuing vehicle-free sidewalks. I urge you to continue the codification of this value by supporting Supervisor Yee's legislation to prohibit the use of Autonomous Delivery Devices on our sidewalks and public right-of-way.

Sincerely,

Phil Chin, *Co-Chairman* Chinatown TRIP

CC: San Francisco Mayor Edwin Lee San Francisco Municipal Transportation Agency Board of Directors San Francisco Municipal Transportation Agency Director Ed Reiskin San Francisco Public Works Director Mohammed Nuru San Francisco Planning Department Director John Rahaim San Francisco Country Transportation Agency Director Tilly Chang Fran Taylor 2982 26th Street, San Francisco (D9) "Almost" 70 years old and bike rider

With its compact size and beautiful views, San Francisco is often touted for its walkability. But residents on foot know that the reality can be less rosy. Drivers park with impunity across sidewalks and crosswalks in our neighborhoods. In forty years in San Francisco, I've pushed an elderly mother in a wheelchair, been on crutches for weeks on two occasions, and weekly wheeled a granny cart to the laundromat or grocery store. I've lost count of the times I've been forced into the street because drivers know that no one will punish them for obstructing pedestrian space.

As a bicyclist, I try to shame other cyclists riding bikes on sidewalks: "I'm almost 70 and not too chickenshit to ride in the street. Why are you such a wuss?" Most curse me, but a few have looked abashed and may have changed their ways.

Now we face a new threat: delivery robots invading the space supposedly carved out for us, the people using our two feet or assistive devices to go about our daily business. How can the City even consider allowing machines to whiz by children, seniors, or people with disabilities?

The sidewalk is our space! It's encroached upon enough already. Many of us already feel like pigeons, expected to flutter out of the way of turning cars at intersections. Now we have to worry about a refrigerator flying our way as we contemplate the cantaloupes at a local market?

Seniors and people with disabilities are already being displaced from our homes in San Francisco. Do you really believe startups are spending money to serve this population? Bland assurances by the manufacturers that these robots are designed to serve homebound seniors waiting for medications are disingenuous. They will just be the latest hot thing in the culture of entitlement, bringing bourbon ice cream to able-bodied young people making six figures who can't be bothered to step outside and get it themselves.

San Francisco did the right thing and banned Segways on our sidewalks. Please support the ban on delivery robots. Once again, it's the right thing to do.

Sincerely, Fran Taylor 2982 26th Street, San Francisco duck.taylor@yahoo.com

Iris Biblowitz Registered Nurse

Subject: Support Supervisor Yee's Autonomous Delivery Device legislation

Hello - I'm writing to express my strong support for Supervisor Norman Yee's ban on delivery robots on our sidewalks. As a nurse, I'm alarmed at the harm that these robots on the sidewalks could potentially cause, especially to seniors, people with disabilities, and children. The assertion that these robots will be helpful in delivering food and medications to seniors is absurd. Seniors and people with disabilities who need services delivered to their homes (often with many steps) are often isolated. They need people not only to deliver food and medications but also to evaluate them, or just eye ball them, to make sure they haven't fallen, aren't more confused or weak, or if they need medical attention. They also need connections with other people. Means On Wheels, and various stores and pharmacies, provide these humane services which robot are incapable of.

Our sidewalks are crowded enough, People with canes (including white canes for people with visual impairments), wheelchairs, crutches, walkers, children in strollers, have a hard enough time navigating the sidewalks and risk their lives crossing the streets. Now, they'll be more at risk on the sidewalk, with robots (small and large), unpredictably obstructing their paths. For safety reasons, Segways have to be in the streets and the same should be true for robots.

Jane Jacobs was the guiding light of urban planning, speaking of "eyes on the street," people walking around, taking public transit, having walkable and interesting cities that are diverse and welcoming, and, of course, safe. This is the opposite of what will happen with robots on the sidewalks and the increased hazards for many people who aren't able bodied and young.

What is the point? Is it to give rich people yet another luxury of having every little thing at their fingertips, and a robot to do their bidding? It will enhance what is already happening in the streets of San Francisco: growing apartheid of haves and have nots.

I'm also concerned about the loss of jobs with robots delivering food. We need people doing useful work, not robots causing anxiety and increased risk for people who are unsteady on their feet, people who are vulnerable and need the safest sidewalks that our city can provide.

No robots on the sidewalks of San Francisco. That's a nurse's order.

Thank you - Iris Biblowitz, RN

I'm interested in this topic. Can you add me to the list of those who want to keep informed of Supervisor Yee's legislation?

I live and work in Potrero Hill where Marble operates their robots. My son is 5 and loves scootering around Jackson park on the sidewalks which is legal for kids under 13. *It's crazy that these huge, metal, heavy and sharp edged robots are roaming right around the park.*

Trucking companies pay billions a year in fees to the public agencies like HTSB to compensate for their commercial activity on public roads. If your legislation doesn't pass I think it's only fair that these companies are similarly taxed for taking advantage of public resources to pay for public education, safety and expansion of sidewalk improvements. In the highway analogy there are those who advocate to eliminate triple trailer trucks from the road for public safety due to their size. At least in those cases it's licensed adults contending with them on the streets and highways. *In this case we're pitting kids vs. machinery that weighs 6+ times their weight.*

Thanks,

Tom Connard Home: 324 Pennsylvania Ave #4 94107 Business: 340 Rhode Island Suite 240 415-786-7456

Thank you Erica. Yes, also my son goes to New School which is at the Enola Maxwell campus just south of Jackson park. I walk him to school, I walk to work, I walk home and almost every day I see these bots rolling out of Marble HQ. There are a lot of kids in the area, just not ok for them to have to share the sidewalks with commercial bots the size of cows.

I saw them at 1pm today crossing the street onto the sidewalk that surrounds Jackson Park. I asked them if they were allowed to operate and the man said, "yes, just right around this area" Here are the photos I took today: https://photos.app.goo.gl/OTSx24NTiUT01bvQ2

I'll try to make the 10/11 meeting.

Dear Board of Supervisors

I am writing to urge you to support Supervisor Norman Yee's proposal to prohibit Autonomous Delivery Devices from Sidewalks and Right-Of-Ways (File 170599).

San Francisco has always prioritized our sidewalks for the use of pedestrians — from banning bicycles and Segways from our walkways, to prioritizing the "pedestrian environment" under the Better Streets Plan. Sidewalks are the heart of our community. They are where people gather to talk, where they shop, where they walk their dogs, and how they get from one place to another in our great city.

In many places today, our sidewalks aren't wide enough to fit everyone. We must proactively preserve this limited pedestrian-prioritized space for people to use safely, without fear of moving vehicles. This is especially important for seniors, people with disabilities, and for families. These Autonomous Delivery Devices will be an obstacle in their path, clogging up already limited sidewalk space, blocking important curb ramps for use by people in wheelchairs or people pushing strollers, and decreasing the overall quality of life on our sidewalks.

San Francisco is a hub for innovation and small businesses. However, when an industry's business model uses the public space, it is crucial that our elected officials prioritize the needs of the community and consider the impact to their quality of life. One or two autonomous delivery devices might not seem like a problem, but as these vehicles expanded to fleets, we can expect many of them to be operating on a single block at the same time. The City must be proactive to ensure that our sidewalks don't become robot superhighways, but instead remain safe places for people.

San Francisco has a proven record of valuing vehicle-free sidewalks. I urge you to continue this policy approach by supporting Supervisor Yee's legislation to prohibit the use of Autonomous Delivery Devices on our sidewalks and public right-of-way.

re: Please support Norman Yee's legislation <u>170599</u> to prohibit autonomous Delivery Devices on San Francisco sidewalks and streets.

A few months ago I ran across a robotic device with four handlers being tested on 17th Street in the Mission and I was immediately turned off. Considering the large number of pedestrians, animals, wheel-chairs, strollers, personal carts, bikes and other moving devices on the walkways and streets now, and the difficulty one can have maneuvering between the various dumpsters, trash containers, power boxes, street trees and the occasional outside table and chairs, it seems like a bad idea to add any more devices to the mix. They take up a bit more space than a single human walking.

In addition to the practical nature of keeping these devices off the sidewalk and streets, the idea of promoting robots that replace human jobs for low-wage workers is particularly hard to take. Any business that can't support a delivery service or person is not going to succeed anyway in today's market. We need to protect the entry level jobs for people who are entering the workforce, transitioning, or need the extra part-time job we hear so much about.

Not just entry-level jobs are threatened by these devices. There is a robotic guard that roams the garage across from the Warriors site. You can't miss it at a night. It has bright blue and red lights that flash out from its sleek white cylindrical frame. No need to hire a garage guard when you can purchase on of these.

We already know that Amazon and Google are planning to replace drivers with autonomous vehicles that will presumably be delivering mail and groceries soon for those that can afford that service. We don't need to eliminate any more jobs by encouraging deliveries by robotic machines on sidewalks.

Please support the Yee legislation to prohibit these things on sidewalks.

Sincerely,

Mari Eliza

Subject: Proposed Regulatory Framework for Small Business Rovers

Sincere apologies to bombard your inbox, Supervisor Ronen -- but on behalf of a coalition of a few small SF-based startups, we ask for your consideration of crafting smart regulations and permitting frameworks around the development of sidewalk delivery robotics, in lieu of a whole-sale ban that's been proposed.

As your leadership suggests -- investing in in the economic growth, minimizing inequity among neighborhoods, and driving the inventive potential of the City could not be more vital at this moment in history.

Consistent with Vision Zero objectives, delivery rovers have the potential to: alleviate car congestion; minimize emissions by operating carbon neutrally; and solve for mobility concerns among underserved communities, by delivering products to residents with disabilities or in food deserts.

While we understand the Public Safety Committee is considering a ban, the undersigned companies are **attaching a proposed regulatory framework** for your & the Board's consideration, to establish safety & enforcement standards. We recognize this is only a starting point of the discussion--and we welcome a spirited debate around what would work best.

1

We admire and appreciate the leadership of the Board for encouraging us to establish norms for this cutting edge industry. And we earnestly hope to find ways to work with you to institute a framework that balances safety, with the ability for local businesses to use such tools to connect their products with the communities around them.

Best, Postmates + Marble + Starship

The Hon. Edwin M. Lee Mayor of San Francisco 1 Dr. Carlton B. Goodlett Place San Francisco, CA 94102 The Hon. Board of Supervisors 1 Dr. Carlton B. Goodlett Place Room 244 San Francisco, CA 94102

Re: File 170599 – Prohibit Autonomous Delivery Devices from Sidewalks and Right-Of-Ways

Dear Mayor Lee and Members of the Board of Supervisors,

On behalf of Starship Technologies, Marble, and Postmates – leaders in the robotic and on-demand delivery sectors, we respectfully ask for a different regulatory approach than the proposed ban on autonomous delivery devices on sidewalks and right-of-ways. To help local businesses, minimize congestion and aid residents with mobility challenges, we ask for your leadership and support in developing a permitting framework to enable the testing of this technology in San Francisco.

We very much appreciate Supervisor Yee's leadership in kick-starting an important dialogue around this issue. And over the course of numerous discussions with a diverse collection of stakeholders, community advocates, and residents, we believe that our mission to improve the "last mile" of local delivery is directly aligned with many of the City's goals. While it is early in the technology's development and application, the initial results have validated its potential to meaningfully impact several of the City's Vision Zero and "Plan Bay Area 2040" priorities, including:

- easing traffic congestion (fewer cars on the roads; reduced double parking associated with deliveries);
- reducing CO₂ emissions (autonomous delivery devices are electric powered);
- expanding opportunities for small businesses (enhanced merchant sales due to an increased supply of delivery options);
- creating additional jobs (San Francisco-based research & development in this promising sector); and
- solving for mobility issues posed by congestion (by delivering food, health and grocery essentials for residents with disabilities or residents living in underserved communities)

On-demand delivery tools are already accounting for a three-fold increase in revenue for San Francisco businesses using platforms, like Postmates, to connect their products to residents all over the city. This not only creates jobs while expanding the city's taxable revenue base — but it also allows local merchants to build bridges between disparate neighborhoods with the goods crafted by San Francisco residents.

Adding new tools to the toolkit of community deliveries does not just help merchants -our companies also envision considerable opportunities for civic and social applications of this technology. To further explore this concept, we are actively working on ways to connect this technology to underserved communities, seniors, and people living with disabilities. In Washington D.C., for example, Starship recently partnered with the one of Johns Hopkins' hospitals, Sibley Memorial Hospital, on a "proof of concept" trial, exploring how the technology could be used to support newly released patients in their homes by transporting needed medical supplies and durable medical equipment. And, in San Francisco, both Postmates and Marble are in active discussions with senior citizen in-home care groups, as well as food-advocacy organizations, to create bridges among aging populations, communities identified as food deserts, and local businesses.

Unlike some others in the technology sector, autonomous delivery companies are unique in that we are proactively engaging municipal governments in pursuit of regulations. We have sought and obtained legal authorization to operate in Washington, D.C. and five California cities, as well as cities across the globe. In addition, we have successfully pursued statewide laws in Virginia, Idaho, Wisconsin, Florida, and Ohio.

While pilot programs are currently underway in certain Bay Area jurisdictions, we appreciate the fact that San Francisco is unique and requires its own set of specific regulations. As an initial matter, and as a starting point for discussion, we propose a regulatory structure that would require autonomous delivery companies adhere to:

- Appropriate business licensure and taxation requirements;
- A time-certain limitation on the number of autonomous delivery devices, which each company may operate;
- Insurance requirements, including: (i) General Liability, (ii) Automotive Liability, and (iii) Workers' Compensation;
- A uniform maximum speed for all autonomous delivery devices;
- A limited window on hours of operation for the initial period of the program;
- Reporting requirements, including notifying the City of a disruptive incident involving injury or property damage. Accordingly, each autonomous delivery device must be equipped with a clearly visible plate, containing the contact information of the operator and unique identification number;
- Data reporting requirements including: (i) the degree to which small businesses are incorporating autonomous delivery devices into their operations; (ii) how outreach to underserved communities is being facilitated by autonomous delivery companies; and (iii) processing requests from public bodies for infrastructure information, e.g. quality of sidewalks, mapping information to enable upgrades by DPW or MTA, etc. without revealing personally identifiable customer information

- Indemnification and hold harmless provisions with respect to the City and County of San Francisco; and
- Punitive measures for a company's failure to obey the City's regulations.

Of course, these are suggestions and we welcome your continued leadership and a thoughtful discussion around how best to craft smart regulations. In addition to adhering to a framework you deem fitting for the operation of these next generation business & community tools – we also commit to ensuring that no autonomous delivery device may be operated in a manner that creates a nuisance or in any way compromises the public's health, safety, or welfare.

Investing in the economic growth, access to opportunity, and inventive potential of the City could not be more vital at this moment in history. We stand ready to work with you to build a framework of rules which reflect both the progressive and innovative spirit of the City of San Francisco. Thank you in advance for considering of our suggestions, as we respectfully request you not support the outright, proposed ban of such devices.

Regards,

Ahti Heinla, CEO

STARSHIP

Bastian Lehmann, CEO

Subject: Please support Supervisor Norman Yee's legislation to ban Autonomous Delivery Devices on San Francisco sidewalks

Dear Supervisors,

I support the efforts of Walk SF to ban the operation of Autonomous Delivery Devices -- vehicles, really -- on our sidewalks.

Our sidewalks should be safe places for people to walk, away from the dangers of bicycles and motorized vehicles. They should also part of our local plan to combat climate change -- providing safe places for people to walk means people can be less dependent on cars. I support the language of the Walk SF letter below:

San Francisco has always prioritized our sidewalks for the use of pedestrians — from banning bicycles and Segways from our sidewalks, to prioritizing the "pedestrian environment" under the Better Streets Plan. Sidewalks are the one of the only spaces in the city that is dedicated to pedestrians, and these spaces are already narrow and crowded throughout much of the city. If anything, we need more space dedicated to people walking, rather than having to share the limited space we do have.

Sidewalks are also the heart of our community. They are where people gather to talk, where they shop, where they walk their dogs, and how they get from one place to another in our great city. We must proactively preserve this limited pedestrian-prioritized space for people to use safely, without fear of moving vehicles. This is especially important for seniors, people withvdisabilities, and for families. These Autonomous Delivery Devices will be an obstacle in their path, taking up limited sidewalk space, potentially blocking curb ramps that are vital for people in wheelchairs or people pushing strollers, and overall decreasing the quality of life on our sidewalks.

One or two Delivery Devices might not seem like a problem, but as these vehicles become truly autonomous and their numbers increase, we can expect many of them to be operating on a single block at the same time.

The City must be proactive to ensure that our sidewalks don't become robot superhighways, but instead remain safe and enjoyable places for people. San Francisco is a hub for innovation and small businesses. However, when an industry's business model uses public space, it is crucial that our elected officials prioritize the needs of the community and consider the impact to their quality of life. Additionally, the economic climate of the city makes it hard for many people to live here. Replacing entry-level delivery jobs with robot deliveries will negatively impact people's opportunities for working in San Francisco.

San Francisco has a proven record of valuing vehicle-free sidewalks. I urge you to continue the codification of this value by supporting Supervisor Yee's legislation to prohibit the use of Autonomous Delivery Devices on our sidewalks and public right-of- way.

Sincerely,

Sue Vaughan 94121

Re: Proposed Ban on Autonomous Delivery Devices on Sidewalks and Right-of-Ways

Dear Board of Supervisors,

On behalf of the San Francisco Council of District Merchants (SFCDMA), we urge you to oppose the proposed ban on sidewalk delivery devices. As an alternative to an outright ban, we ask you to consider forward-thinking regulations around this nascent industry.

For the past 64 years, our mission has been to protect, preserve, and promote small businesses in San Francisco. We represent a diverse range of neighborhood commercial districts that are the heart and soul of our City. It is our view that this technology has the potential to support local business owners through a variety of ways in today's changing consumer landscape. A complete ban on this technology, which is successfully operating in other cities throughout the world, is not the answer.

This is San Francisco, the home of innovation. If other cities are developing pilot programs to test this new technology, then we can certainly develop our own regulations that make sense for our City.

Let's see if this technology can help our small businesses compete with larger players by offering a convenient way for business owners to reach their customers. The popularity of on-demand delivery platforms continues to grow and these devices could provide a valuable tool for businesses to meet the demand as well as expand their customer base.

Other potential benefits include taking freight trucks off our already congested streets, reducing CO2 emissions from the last mile of delivery, and providing a convenient delivery method to homebound residents. If we simply ban these devices, how will we ever know its possibilities?

Here in the City, we understand what happens when new technology takes hold without proper government oversight. However, that is not the case with these delivery robots – the industry is asking the City to regulate them.

Again, we urge you to not support this ordinance.

Sincerely,

Kamiloz

Henry Karnilowicz President

Subject: Delivery Robot Ban

To All San Francisco Supervisors

Dear Supervisor,

I'm writing in support of Supervisor Norman Yee's proposal to ban delivery robots on San Francisco public sidewalks.

Delivery robots would endanger the safety of myself and other seniors, people with disabilities, and anyone else walking on public sidewalks.

Public sidewalks are designed and codified for use by people. They belong to the people for their use and enjoyment in safety and security -- not in competition with driverless commercial mechanical moving vehicles. Skateboards, Segways and bicycles are not allowed for safety reasons. It should be obvious that robots belong on this banned list.

Thank you,

Lorraine Petty & Disability Action Voter

Member, Senior District 5

Subject: Richmond Senior Center supports the ban of robots on our sidewalks

RICHMOND SENIOR CENTER Golden Gate Senior Services

October 10, 2017

Board of Supervisors San Francisco City Hall 1 Dr Carlton B Goodlett Pl San Francisco, CA 94102

Dear Board of Supervisors,

On behalf of Richmond Senior Center, I am writing to urge you to support Supervisor Norman Yee's proposal to prohibit Autonomous Delivery Devices from Sidewalks and Right-Of-Ways (File 170599).

Richmond Senior Center, which represents more than 500 Seniors and Adults with Disabilities in the Richmond district, provides programs and activities that support healthy aging and community connections. This legislation is important to us because we are concerned about the impacts of Autonomous Delivery Vehicles on the safety of people who rely on walking as a primary means of transportation and healthy activity. Autonomous Delivery Devices are an example of a technological innovation that could have positive uses; however, this technology is in its infancy and the City must act quickly to ensure it does not negatively impact the community.

San Francisco has always prioritized our sidewalks for the use of pedestrians — from banning bicycles and Segways from our sidewalks, to prioritizing the "pedestrian environment" under the Better Streets Plan. Sidewalks are the one of the only spaces in the city that is dedicated to pedestrians, and these spaces are already narrow and crowded throughout much of the city. If anything, we need more space dedicated to people walking, rather than having to share the limited space we do have.

Sidewalks are also the heart of our community. They are where people gather to talk, where they shop, where they walk their dogs, and how they get from one place to another in our great city. We must proactively preserve this limited pedestrian-prioritized space for people to use safely, without fear of moving vehicles. This is especially important for seniors, people with disabilities, and for families. These Autonomous Delivery Devices will be an obstacle in their path, taking up limited sidewalk space, potentially blocking curb ramps that are vital for people in wheelchairs or people pushing strollers, and overall decreasing the quality of life on our sidewalks.

One or two Delivery Devices might not seem like a problem, but as these vehicles become truly autonomous and their numbers increase, we can expect many of them to be operating on a single block at the same time. The City must be

proactive to ensure that our sidewalks don't become robot superhighways, but instead remain safe and enjoyable places for people.

San Francisco is a hub for innovation and small businesses. However, when an industry's business model uses public space, it is crucial that our elected officials prioritize the needs of the community and consider the impact to their quality of life. Additionally, the economic climate of the city makes it hard for many people to live here. Replacing entry-level delivery jobs with robot deliveries will negatively impact people's opportunities for working in San Francisco.

San Francisco has a proven record of valuing vehicle-free sidewalks. I urge you to continue the codification of this value by supporting Supervisor Yee's legislation to prohibit the use of Autonomous Delivery Devices on our sidewalks and public right-of-way.

It is our view that this technology has the potential to support local business owners through a variety of ways in today's changing consumer landscape. A complete ban on this technology, which is successfully operating in other cities throughout the world, is not the answer.

This is San Francisco, the home of innovation. If other cities are developing pilot programs to test this new technology, then we can certainly develop our own regulations that make sense for our City.

Let's see if this technology can help our small businesses compete with larger players by offering a convenient way for business owners to reach their customers. The popularity of on-demand delivery platforms continues to grow and these devices could provide a valuable tool for businesses to meet the demand as well as expand their customer base.

Other potential benefits include taking freight trucks off our already congested streets, reducing CO2 emissions from the last mile of delivery, and providing a convenient delivery method to homebound residents. If we simply ban these devices, how will we ever know its possibilities?

Here in the City, we understand what happens when new technology takes hold without proper government oversight. However, that is not the case with these delivery robots - the industry is asking the City to regulate them.

Again, we urge you to not support this ordinance.

Sincerely.

lamiloz

Subject: SF Chamber letter re: File 170599, Ordinance Prohibiting Autonomous Delivery Devices

Dear President Breed,

Please see the attached letter from the San Francisco Chamber of Commerce regarding file 170599, prohibiting autonomous delivery devices on City sidewalks and public right-of-ways.

Thank you,

Alex Mitra Manager, Public Policy San Francisco Chamber of Commerce 235 Montgomery St., Ste. 760, San Francisco, CA 94104 (O) 415-352-8808 • (E) <u>amitra@sfchamber.com</u>

October 6, 2017

The Honorable London Breed President, San Francisco Board of Supervisors 1 Dr. Carlton B. Goodlett Place, Room #244 San Francisco, CA 94102

RE: File #170599 Ordinance Prohibiting Autonomous Delivery Devices

Dear President Breed:

The San Francisco Chamber of Commerce, representing over 2,500 businesses of all types and sizes, urges the Board of Supervisors to reject the proposed ordinance prohibiting personal delivery devices on the sidewalks of San Francisco and instead to follow the lead of various Bay Area communities and enact sensible regulations.

The development of cutting age technology is a large part of the city's knowledge based economy. To ban the development of personal delivery devices in San Francisco, of all places, could shut down this industry in its infancy.

This is legislation in search of a problem, where no problem currently exists. A serious look at the development of these devices shows that sharing a sidewalk with a robot vehicle will pose virtually no risk to pedestrians, will expand the methods small businesses connect with customers and will provide new access to services for seniors and the disabled. With only a handful of these devises being tested on our sidewalks, the city has more than enough time to enact a proper regulatory scheme before widespread commercial application occurs, without a ban.

The San Francisco Chamber has convened a working group to develop and support regulations that will allow this industry to continue to grow in the city, employing your constituents and partnering with our small business community. We urge the Board of Supervisors to reject this legislation and to direct the Department of Public Works to draft reasonable, workable regulations for this important industry.

Sincerely,

Jim Lazarus Senior Vice President of Public Policy

Statement for File No 170599 on Behalf of Independent Living Resource Center San Francisco

On behalf of the Independent Living Resource Center San Francisco (ILRCSF), I submit the following statement in regards to <u>File No 170599- Hearing on Autonomous Delivery Vehicle</u> <u>Legislation.</u>

ILRCSF is neutral on the proposed legislation to ban autonomous delivery vehicles in San Francisco.

While we remain neutral on the piece of legislation under consideration today, we have had a positive and collaborative relationship with Marble on issues related to how we can improve the accessibility and usability of these vehicles. Marble first reached out to ILRCSF to introduce us to their product and here about any concerns or suggestions that we may have. We are always pleased when companies developing new technologies such as these vehicles show an interest in accessibility from an early stage in product development. At that first meeting, we expressed some concerns that we have regarding these vehicles such as an Increase in congestion on sidewalks and impeding path of travel for those using mobility devices. At the same time, we see some of the potential benefits of the technology for the community. For example, the mapping technology used in these vehicles could be used to better map curb ramps and accessible paths of travel. Marble was very open to hearing our concerns, feedback and ideas.

Out of that first meeting came a mutual desire to hold an accessibility stakeholder meeting at Marble's offices so that multiple disability community groups could engage in constructive dialogue with the Marble team. The feedback session included representatives from ILRCSF, Mayor's Office on Disability, The Arc San Francisco, Toolworks, Marin Center for Independent Living, Center for Independence of People with Disabilities, and many members of the marble team. In that session, Marble again showed their commitment to accessibility by asking relevant questions about how wheelchair users navigate the streets and being open to feedback regarding possible audible cues to alert pedestrians to the presence of these vehicles. ILRCSF acknowledges that there are concerns around these vehicles, particularly around sidewalk congestion and path of travel. However, we also see the potential in some of the technology used in these vehicles, such as the potential to more accurately map the city's curb ramps. We would like to commend marble for their desire to reach out to and work with the

disability community to ensure that our feedback and concerns are addressed and considered. We appreciate that Marble is taking proactive steps to consider the impact of their work on people with disabilities.

If you have any questions regarding this statement, please feel free to contact Fiona Hinze, Systems Change Coordinator/Community Organizer at <u>fiona@ilrcsf.org</u> or 415-543-6222 ext.1106

September 25, 2017

To: Supervisors Ronen, Fewer, Sheehy From: CC Puede / contact: Fran Taylor, duck.taylor@yahoo.com RE: Ban Delivery Robots on Sidewalks

CC Puede is the community organization that initiated the award-winning redesign of Cesar Chavez Street. For almost ten years, we worked with city agencies to create flood mitigation greening, landscaping on connecting streets, and pedestrian and bicycling infrastructure improvements that have changed this major artery from a traffic sewer to a neighborhood-friendly showcase.

Concern for pedestrian safety was a major motivation when we began in 2005. Sidewalks along Cesar Chavez Street are only about nine feet wide in most places, with about three feet of that space taken up with street trees, lampposts, and signage poles. Two strollers can squeak past one another, but adding a toddler or two trailing along makes passage difficult.

Cesar Chavez Street is home to two elementary schools, a daycare center, a health clinic, a day labor center, a board and care facility, and St. Lukes Hospital. Vulnerable pedestrians use the street every day to travel to school, work, transit, and other services.

Before the streetscape changes, speeding automobiles would crash into residences with alarming frequency. Bicyclists, spooked by this speeding traffic, would ride on the sidewalks, invading the already inadequate pedestrian space. The new traffic calming measures and striped bike lanes have reduced these dangers.

But we now face a new danger: delivery robots. These machines would compete for space with children, seniors, hospital patients, Muni riders, and residents of all ages. On a busy street, the sidewalks are a refuge for San Franciscans traveling on foot or simply standing and talking with their neighbors. We do not need machines bearing down on us in the skimpy space we have for these human activities.

CC Puede supports Supervisor Yee's proposed ban on delivery robots. San Francisco was a national leader in banning Segways from our sidewalks, and we hope the City will continue to offer leadership in protecting pedestrians from these unnecessary and intrusive robots.

RE: BOS File No. 170599 [Public Works, Police Codes - Prohibiting Autonomous Delivery Devices on Sidewalks and Right-of-Ways]

Dear Supervisor Yee,

sf.citi, representing nearly 1,000 member and supporting companies, requests the Board of Supervisors to vote against BOS File No. 170599.

We at sf.citi work to promote collaboration towards building thoughtful, forward-thinking policies between our local tech sector and the City of San Francisco. This legislation is neither thoughtful nor forward-thinking, has not been adequately studied, and has very little data presented to justify a permanent ban. The impact of such a ban on automated delivery services could create a massive barrier to future innovation in the industry, particularly in regards to the future of automation.

sf.citi strongly urges the Board of Supervisors to vote against this legislation, and rather, take steps towards collaborating on informed, thoughtful policies regarding the future of automation in San Francisco. We welcome the opportunity to engage our members in working towards building these policies.

NOTICE OF PUBLIC HEARING

BOARD OF SUPERVISORS OF THE CITY AND COUNTY OF SAN FRANCISCO

PUBLIC SAFETY AND NEIGHBORHOOD SERVICES COMMITTEE

NOTICE IS HEREBY GIVEN THAT the Public Safety and Neighborhood Services Committee will hold a public hearing to consider the following proposal and said public hearing will be held as follows, at which time all interested parties may attend and be heard:

- Date: Wednesday, November 29, 2017
- Time: 1:00 p.m.
- Location: Legislative Chamber, Room 250, located at City Hall 1 Dr. Carlton B. Goodlett Place, San Francisco, CA
- **Subject:** File No. 170599. Ordinance amending the Public Works Code to require a permit for the testing of autonomous delivery devices on sidewalks and to set rules governing the operations of such devices; amending the Public Works Code and Police Code to provide for administrative, civil, and criminal penalties for unlawful operation of such devices; and affirming the Planning Department's determination under the California Environmental Quality Act.

If the legislation passes, a new appeal fee of \$300 would be established for individuals filing an appeal with the Board of Supervisors on the Public Works Director's approval or disapproval of an Autonomous Delivery Device permit application, or the Public Works Director's withdrawal or revocation of an Autonomous Delivery Device permit application. This appeal fee would be collected by the Office of the Clerk of the Board of Supervisors at the time of the appeal filing.

In accordance with Administrative Code, Section 67.7-1, persons who are unable to attend the hearing on this matter may submit written comments to the City prior to the time the hearing begins. These comments will be made as part of the official public record in this matter, and shall be brought to the attention of the members of the Committee. Written comments should be addressed to Angela Calvillo, Clerk of the Board, City Hall, 1 Dr. Carlton B. Goodlett Place, Room 244, San Francisco, CA 94102. Information relating to this matter is available in the Office of the Clerk of the Board. Agenda information relating to this matter will be available for public review on Wednesday, November 22, 2017.
