### **RESOLUTION NO.**

[Urging Congress to Cosponsor House Concurrent Resolution 63 - Supporting Infrastructure and Community Development Efforts]

Resolution urging members of Congress to cosponsor House Concurrent Resolution 63, a national effort to create new jobs through public investment infrastructure improvements that benefit our communities.

WHEREAS, An infrastructure proposal may likely be next on the Trump administration's agenda in 2018; and

WHEREAS, Republican tax cut proposals favoring corporations and individual wealth indicate that the Trump administration and Republican members of Congress will sell off public infrastructure to private corporations, eliminate low interest rates for municipal bond financing, roll back safeguards for workers and environmental protection, and fail to ensure transparency and equity in investments, contracting, or hiring; and

WHEREAS, Trump's infrastructure plan is likely to disadvantage hard-working San Franciscans and will enrich Wall Street and foreign investors; and

WHEREAS, House Concurrent Resolution 63 is currently pending and includes a framework and set of values for a major infrastructure investment in this country; and

WHEREAS, This 10-point plan calls on the Federal Government to prioritize public investment over corporate giveaways and ensure that direct public investment provides the overwhelming majority of funding for infrastructure improvement; and

WHEREAS, This plan calls for the creation of millions of new jobs and investment in expanding clean energy and sustainable infrastructure that can withstand environmental disasters, physical- and cyber-attacks; and

WHEREAS, This plan calls for Congress to prioritize racial and gender equity, civil rights, and environmental justice in these efforts; and

Supervisors Ronen, Kim, Sheehy BOARD OF SUPERVISORS

WHEREAS, This plan calls for Congress to include Buy America provisions and safeguards for workers and contractors; and

WHEREAS, This plan calls for Congress to ensure that private corporations who reap economic benefit from public goods pay what they owe for key investments and that these investments are not paid for at the expense of social service programs; and

WHEREAS, Localities like San Francisco need the resources and support of the Federal Government to provide crucial services, and especially for low-income families and communities of color; now, therefore, be it

RESOLVED, That the San Francisco Board of Supervisors urges Congress to prioritize public investment over corporate giveaways and selling off public goods; and, be it

FURTHER RESOLVED, That the San Francisco Board of Supervisors calls upon members of Congress to cosponsor House Concurrent Resolution 63 and all of its provisions for quality jobs and bold infrastructure investments.

# 115TH CONGRESS 1ST SESSION H. CON. RES. 63

Supporting efforts to enact a bold jobs and infrastructure package that benefits all Americans, not just billionaires.

## IN THE HOUSE OF REPRESENTATIVES

#### MAY 25, 2017

Mr. TED LIEU of California (for himself, Mr. POCAN, Mr. GRIJALVA, Mr. ELLISON, MS. JAYAPAL, MS. LEE, Mr. POLIS, Mr. CLAY, Mr. NOLAN, MS. SHEA-PORTER, Mr. KHANNA, MS. FRANKEL of Florida, Mr. HUFFMAN, MS. NORTON, Mr. RASKIN, MS. CLARKE of New York, MS. HANABUSA, Mr. TAKANO, Mr. CARTWRIGHT, Mr. CONYERS, MS. KUSTER of New Hampshire, Mr. SCOTT of Virginia, Mr. MCGOVERN, Mr. JOHNSON of Georgia, Mr. WELCH, Mr. SERRANO, MS. SCHAKOWSKY, MS. VELÁZQUEZ, Mr. NADLER, MS. PINGREE, and MS. CLARK of Massachusetts) submitted the following concurrent resolution; which was referred to the Committee on Transportation and Infrastructure

# **CONCURRENT RESOLUTION**

Supporting efforts to enact a bold jobs and infrastructure package that benefits all Americans, not just billionaires.

- Whereas the Nation's crumbling roads, bridges, and schools, unsafe drinking water facilities, and outdated energy systems are in need of major transformation, and a plan is needed to rebuild the Nation and create millions of good jobs;
- Whereas the Nation's taxpayers should not subsidize billionaires and Wall Street banks that will profit from

privatizing roads, bridges, drinking water and sanitation systems, and utilities;

Whereas any investment in the Nation's roads and bridges must support the repair and rehabilitation of existing assets, improve resilience to more extreme weather, and support targeted expansions to reduce congestion, improve air quality, and enable job growth;

- Whereas the Nation must ensure that every child who attends a public school has safe facilities that contribute to a high-quality education, and therefore the Nation must invest to construct, renovate, repair, and modernize its schools;
- Whereas direct public investment in the United States public transportation network can meet the Nation's infrastructure needs without selling off roads and bridges to private investors and foreign entities;
- Whereas any clean water initiative must prioritize investment in communities most in need, ensure safe drinking water for millions of Americans, and protect the Nation's rivers, lakes, and oceans;
- Whereas any infrastructure package should include building high-speed internet facilities to ensure that this increasingly essential resource is available to all Americans through direct funding, tax credits for low-income workers, and investments in broadband to promote economic development, public safety, and a vibrant quality of life;
- Whereas any investments made to update Federal Aviation Administration facilities and United States ports, waterways, dams, and levees should ensure that these entities remain public, improve security, and facilitate commerce;

•HCON 63 IH

- Whereas any public investment plan should include repairs and upgrades to the more than 1,800 Veterans Affairs facilities to ensure that every veteran has access to quality institutions and state-of-the-art treatment;
- Whereas any investment plan should prioritize creating millions of living-wage jobs for struggling communities and especially for people of color, women, and individuals in high-poverty areas;
- Whereas any public investment in Federal funding to public lands should be directed through Federal land management agencies that would strengthen the Nation's outdoor industry and ensure that public lands are widely enjoyed by Americans for generations to come and are not sold off to private entities or foreign governments;
- Whereas true public investment also includes investment in Tribal transportation, Indian Health Service facilities, and Bureau of Indian Education schools to promote job creation in Indian country where community members have had to make do with substandard services for generations;
- Whereas public investment should aim to build resilient communities and infrastructure protection to ensure that the Nation's infrastructure can withstand cyber attacks, physical attacks, and the extreme weather events caused by climate change;
- Whereas a genuine infrastructure agenda should not sell or lease roads, water systems, or other essential infrastructure facilities, resulting in new tolls and user fees on working families;

•HCON 63 IH

Whereas we cannot leave essential rural infrastructure in disrepair simply because it would not generate profits for private investors;

- Whereas any public investment plan should include repairs and upgrades to the Nation's public housing and assisted housing stock to address the Nation's dire affordable rental housing crisis;
- Whereas government spending on infrastructure as a share of the economy has fallen to a 2-decade low, and yet for every \$1 in government investment the Nation's economy would gain \$1.70 back through greater employment and efficiency; and
- Whereas in its 2017 Infrastructure Report Card, the American Society of Civil Engineers estimates approximately \$4.6 trillion in infrastructure needs over 10 years, of which \$2.06 trillion does not have funding: Now, therefore, be it

Resolved by the House of Representatives (the Senate
 concurring), That it is the sense of Congress that any in frastructure plan passed by Congress must—

4 (1) invest in creating millions of new jobs
5 through investments in roads, bridges, and 21st cen6 tury projects;

7 (2) prioritize public investment over corporate8 giveaways and selling off public goods;

9 (3) ensure that direct public investment, with10 out reliance on private investors, provides the over11 whelming majority of the funding for infrastructure

improvement, so that public investments advance the
 public good;

(4) prioritize racial and gender equity and environmental justice;

5 (5) embrace 21st-century clean-energy jobs, in-6 cluding expanding solar and wind power, promoting 7 energy efficiency, and modernizing the energy grid, 8 while avoiding support for projects that promote fos-9 sil fuel use and hasten the disastrous effects of cli-10 mate change;

11 (6) include expanded Buy America provisions, 12 protect and encourage the use of project labor agree-13 ments, require the use of Davis-Bacon prevailing 14 wage standards, include strong local-hiring and vet-15 eran-hiring requirements, ensure racial and gender 16 equity in hiring, and guarantee that disadvantaged 17 communities most in need, including both urban and 18 rural communities, receive priority;

(7) ensure the wealthiest Americans and profitable corporations who reap the greatest economic
benefit from public goods pay what they owe and
pay their fair share for key investments moving forward;

#### •HCON 63 IH

3

4

(8) ensure that investments are not paid for at the expense of Social Security, Medicare, Medicaid, or any other vital program;

(9) not weaken or repeal existing laws or rules protecting the air, water, or environment, transportation safety, civil rights, worker safety, prevailing wage standards, or minority contractor provisions; and

9 (10) prioritize resilient infrastructure that can
10 withstand natural disasters, as well as physical- and
11 cyber-attacks.
