Section 1. Findings.

17 In February 2018, the Office of Economic and Workforce Development (a) published a report entitled "State of the Retail Sector: Challenges and Opportunities for San 18 19 Francisco's Neighborhood Commercial Districts" ("Report"). Prepared by Strategic Economics, the Report analyzed the national restructuring of the retail, restaurant, and 20 21 personal services industries; identified factors required to support successful San Francisco retail districts; catalogued opportunities, costs, and challenges for retail, restaurant, and 22 personal services businesses in San Francisco; and documented adaptations that businesses 23 24 are making in response to changing conditions.

(b) The Report's key findings include:

- Between the first and third quarters of 2017, chain retailers nationwide
 announced 3,044 store openings, and 6,752 store closings. While overall retail
 sales were in decline, retail sales growth was concentrated in several
 categories, including: food and beverage stores; e-commerce; building materials
 and home furnishings; and health and personal care stores. Food services
 sales also experienced growth.
- Consistent with national trends, after many years of growth, San Francisco's
 retail sector appears to be slowing. Growth in retail employment and sales tax
 revenues slowed between 2015 and 2016, and vacancy rates in some
 neighborhood commercial districts are increasing. Retail business owners also
 reported seeing increased competition with online sales for a rapidly expanding
 range of products.
- While retail demand is slowing, there is a national trend towards increased consumer spending on dining, services, and other ways to engage retail customers. There is a corresponding increased demand in storefront space for restaurant, entertainment, and personal services in San Francisco neighborhoods. Restaurants and personal services are a key component of the experience provided by neighborhood shopping districts, drawing foot traffic to other businesses and providing spaces to linger and gather as a community. Continued growth in these activities could mitigate some of the effects on vacancy rates caused by local contraction in the retail industry.
- Based on increased consumer demand for experiences and increased competition from online sales, many retailers are developing new strategies to attract customers, including: expanding opportunities for customers to interact with products before making a purchase; integrating eating, drinking, and

1
 2
 3

wellness into traditional retail stores; and offering community-building activities such as classes, workshops, readings, lectures, or concerts. Incorporating multiple uses or creatively co-locating other uses may help retail businesses diversify their revenue streams.

- Land use and permitting requirements can present challenges to new
 businesses in San Francisco. New businesses must often invest significant time
 and money into completing the permitting and construction processes. These
 costs frequently place business owners in substantial debt, jeopardizing the
 viability of their enterprises before they are even able to open their doors and
 can dissuade aspiring entrepreneurs from opening their own businesses.
- Existing land use and permitting requirements may make it challenging for businesses to incorporate food, drink, events, and other elements that create attractive experiences for customers. Existing land use and permitting requirements also limit a business' ability to incorporate multiple uses, or colocate multiple businesses, within a single storefront.
- (c) More flexibility within land use controls would support small businesses by enabling them to creatively experiment with integrating food, beverage, retail and professional services uses within the same space. The creation of flexible, multi-use space could enable small-scale entrepreneurs to launch brick-and-mortar operations, on a temporary or permanent basis, within larger storefronts.
- (d) The purpose of this ordinance is to reduce storefront vacancies, support a diverse mix of businesses, enable retail businesses to engage in creative strategies to attract customers and diversify revenues, and otherwise support healthy and vibrant commercial corridors in San Francisco.

- (a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. 180806 and is incorporated herein by reference. The Board affirms this determination.
- (b) On October 18, 2018, the Planning Commission, in Resolution No. 20318, adopted findings that the actions contemplated in this ordinance are consistent, on balance, with the City's General Plan and eight priority policies of Planning Code Section 101.1. The Board adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the Board of Supervisors in File No. 180806, and is incorporated herein by reference.
- (c) Pursuant to Planning Code Section 302, the Board finds that this Planning Code amendment will serve the public necessity, convenience, and welfare for the reasons set forth in Planning Commission Resolution No. 20318, and the Board incorporates such reasons herein by reference.

Section 3. The Planning Code is hereby amended by revising Section 102 to read as follows, with the definition of "Flexible Retail" placed after the definition of "Family" and before the definition of "Floor Area, Gross":
