17 Section 1. Findings.

18 (a) The Planning Department has determined that the actions contemplated in this
19 ordinance comply with the California Environmental Quality Act (California Public Resources
20 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
21 Supervisors in File No. 180584 and is incorporated herein by reference. The Board affirms
22 this determination.

23 (b) On July 19, 2018, the Planning Commission, in Resolution No. 20237, adopted
24 findings that the actions contemplated in this ordinance are consistent, on balance, with the
25 City’s General Plan and eight priority policies of Planning Code Section 101.1. The Board

1 adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the
2 Board of Supervisors in File No. 180584, and is incorporated herein by reference.

3 (c) Pursuant to Planning Code Section 302, this Board finds that this ordinance will
4 serve the public necessity, convenience, and welfare for the reasons set forth in Planning
5 Commission Resolution No. 20237 and the Board incorporates such reasons herein by
6 reference. A copy of said Resolution is on file with the Clerk of the Board of Supervisors in
7 File No. 180584.

8 (d) In 2016, the Board adopted Ordinance No. 149-16 to establish initial fees and to
9 authorize the Controller to adjust the fees each year to reflect changes in the two-year
10 average Consumer Price Index (CPI) change for the San Francisco/San Jose Primary
11 Metropolitan Area (PMSA). The Planning Department publishes the Fee Schedule showing
12 the current fee amounts inclusive of annual adjustments in an Appendix to the Planning Code,
13 and posts it on the Planning Department's website. The Fee Schedule must be made
14 available upon request at the main office of the Department.

15 (e) The Planning Department has recommended a change to the fee charged for
16 Transportation Review Associated with Project Applications, and a clarification to the fees to
17 be charged for review of projects with a low construction cost.

18
19 Section 2. The Planning Code is hereby amended by revising Section 350, to read as
20 follows:

21 **SEC. 350. FEES.**

22 * * * *

23 (e) **Estimated Construction Costs.** Estimated construction costs are as defined by
24 the San Francisco Building Code. Certain of the fees specified in Section 4 of Ordinance No.
25 149-16 in Board of Supervisors File No. 160632 place a limit on the fee based on its not

1 exceeding a specified percentage of construction cost. This limit shall apply to certain fees, as
2 set forth in Ordinance No. 149-16 and Ordinance No. _____, amending Ordinance No. 149-16, in
3 Board of Supervisors File No. 180584.

4 * * * *

5 Section 3. This section is uncodified. It amends the Transportation Review Fees
6 established in Ordinance No. 149-16 in Board of Supervisors File No. 160632 as follows.

7

11 ~~initial fee based on the specifics of the project, which will be outlined in an Agreement between the~~
12 ~~Department and the project sponsor. Projects that require a transportation study typically require~~
13 ~~analysis of several transportation topics within a geographic area that extends beyond the project~~
14 ~~block. These projects may also be complex because they are multi-phased, require a large~~
15 ~~infrastructure investment, or are of statewide, regional, or area-wide significance as defined in CEQA,~~
16 ~~or the analysis may include both programmatic and project-level review.~~

17 (b) ~~Municipal Transportation Agency review of transportation impact study: \$4,612 per~~

LEGISLATIVE DIGEST

[Planning Code - Fees for Certain Permits and Transportation Analysis]

Ordinance amending the Planning Code and the fees set forth in Ordinance No. 149-16 to clarify the fees applicable to projects with no or very low construction cost and to change the fees for transportation analysis; and affirming the Planning Department's determination under the California Environmental Quality Act, making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1, and adopting findings of public necessity, convenience, and welfare under Planning Code, Section 302.

Existing Law

The Board of Supervisors enacted Ordinance No. 149-16 establishing certain administrative fees to pay for the cost of processing Planning permit applications. Ordinance No. 149-16 also authorized the Controller to adjust the fees each year to reflect changes in the two-year average Consumer Price Index (CPI) change for the San Francisco/San Jose Primary Metropolitan Area (PMSA). The Planning Department publishes the Fee Schedule showing the current fee amounts inclusive of annual adjustments in an Appendix to the Planning Code, and posts it on the Planning Department's website. Among other things, Ordinance No. 149-16 provides a baseline fee for a Transportation Study, plus time and materials. A fee is also charged for SFMTA review of the Study.

The Ordinance also includes a number of fees for conditional use permits, variances, Downtown District and Coastal Zone permit review, Preservation application fees and Building permit application fees, where the text of Ordinance No. 149-16 provides that the amount of the fee shall not exceed 50% of the cost of construction, but the fee amount itself that is shown may exceed the stated cost of construction.

Amendments to Current Law

This legislation would provide 2 different fees for 2 kinds of Transportation Studies. First, a Transportation Study fee is established for a study that would address more complicated transportation analyses, including several transportation topics within a geographic area that extends beyond the project block. Second, a site circulation review fee is established for less complex studies that would address more limited, localized analysis of a few transportation topics. There would be no separate fee for SFMTA review of a transportation study.

The proposed legislation also clarifies that in most cases fees would not exceed 50% of the cost of construction, except that the fee could exceed 50% of construction costs for certain enumerated permits that may have lower construction costs. This change does not alter the amount of the fee, but addresses an apparent inconsistency between the text and the table setting forth the actual fees.

1. The intent of the Planning Commission was to move this legislation forward with the Department's Fiscal years 2018-19 and 2019-20 budget as heard and recommended in Resolution 20103.
2. The proposed Ordinance will clarify the Planning Code so that it is clear that low and no cost construction projects may be charged Planning fees in accordance with existing fee tables.
3. The proposed Ordinance will change the fees for transportation analysis by adding one lower-cost fee for site circulation analysis and removing a San Francisco Metropolitan Transportation Agency (SFMTA) fee, which has been added to the Transportation Code.
4. **General Plan Compliance.** While there are no Goals or Policies that directly address the proposed Ordinance in the General Plan, the proposed Ordinance is not inconsistent with the General Plan. The proposed Ordinance does not change any policies with an effect on the General Plan and does not change planning, zoning, or other physical aspects of the City. The proposed Ordinance does not have a direct physical impact on the City.
5. **Planning Code Section 101 Findings.** The proposed amendments to the Planning Code are consistent with the eight Priority Policies set forth in Section 101.1(b) of the Planning Code in:

The proposed Ordinance would not have a negative effect on neighborhood serving retail uses and will not have a negative effect on opportunities for resident employment in and ownership of neighborhood-serving retail.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

The proposed Ordinance would not cause displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposed Ordinance would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

6. **Planning Code Section 302 Findings.** The Planning Commission finds from the facts presented that the public necessity, convenience and general welfare require the proposed amendments to the Planning Code as set forth in Section 302. The amendments would clarify how Planning fees are charged, and would ensure that transportation study fees are assessed fairly and equitably.

NOTICE OF PUBLIC HEARING BUDGET AND FINANCE COMMITTEE SAN FRANCISCO BOARD OF SUPERVISORS, JUNE 21, 2018 - 10:00 AM LEGISLATIVE CHAMBER, ROOM 250, CITY HALL, 1 DR. CARLTON B. GOODLETT PLACE, SAN FRANCISCO, CA

NOTICE IS HEREBY GIVEN THAT the Budget and Finance Committee will hold a public hearing to consider the following proposal and said public hearing will be held as follows, at which time all interested parties may attend and be heard: File No. 180584. Ordinance amending the Planning Code and the fees set forth in Ordinance No. 149-16 to clarify the fees applicable to projects with no or very low construction cost and to change the fees for transportation analysis; affirming the Planning Department's determination under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1; and adopting findings of public necessity, convenience, and welfare under Planning Code, Section 302. If the legislation passes, the following fees shall be increased or established for Permits and Transportation Analysis: - Transportation Study fee shall be increased from \$23,977 to \$25,504 plus time and materials as set forth in Planning Code, Section 350(e). Projects that require a transportation study typically require analysis of several transportation topics within a geographic area that extends beyond the project block. - Site Circulation Review fee shall be established at \$9,560 plus time and materials as set forth in Planning Code, Section 350(e). Projects that require site circulation review typically require analysis of a limited, localized analysis of a few transportation topics. The proposed legislation also clarifies that, in most cases, fees would not exceed 50% of the cost of construction, except that the fee could exceed 50% of construction costs for certain enumerated permits that may have lower construction costs. This change does not alter the amount of the fee, but addresses an apparent inconsistency between the text and the table setting

forth the actual fees. In accordance with Administrative Code, Section 67.7-1, persons who are unable to attend the hearing on this matter may submit written comments to the City prior to the time the hearing begins. These comments will be made part of the official public record in this matter, and shall be brought to the attention of the members of the Committee. Written comments should be addressed to Angela Calvillo, Clerk of the Board, City Hall, 1 Dr. Carlton B. Goodlett Place, Room 244, San Francisco, CA 94102. Information relating to this matter is available in the Office of the Clerk of the Board. Agenda information relating to this matter will be available for public review on Friday, June 15, 2018.
