Item 1
File 18-0770

Department:
General Services Agency - City Administrator's Office
(CAO)

EXECUTIVE SUMMARY

Legislative Objectives

The proposed resolution would approve the agreement between the City and County of San Francisco and the primary contractor, Western States Oil, and the secondary contractor, SC Fuels, for gasoline, for an initial term of three years from September 1, 2018, through August 21, 2021, with two one-year options to extend, for a total of five years and a not to exceed amount of \$40,000,000.

Key Points

- In April 2018, OCA solicited competitive bids for gasoline for all City departments.
- OCA intends to award the primary contract to the lowest bidder, Western States Oil, and the secondary contract to the second lowest bidder, SC Fuels.
- The bids are expressed as a markup or markdown from the daily price per gallon of gasoline. Therefore, the actual price that the City will pay for gasoline will fluctuate throughout the term of the contract, and is forecasted to increase over time.

Fiscal Impact

- Over the past three fiscal years, the City has spent a total of \$14,015,316 on gasoline.
- Although the proposed contract amount, which averages \$8 million per year, is substantially higher than the City's actual spending for gasoline over the last three years, the City is not obligated to purchase any specific quantities of gasoline.
- Funding for the proposed fuel contract was included in the FY 2018-19 budgets of the City departments that use gasoline, as previously appropriated by the Board of Supervisors. City departments that use gasoline will request funding in their FY 2019-20 through FY 2021-22 fuel budgets, subject to appropriation approval by the Board of Supervisors.
- Gasoline prices are projected to increase by an average of 5.35 percent per year between 2019 and 2023. Assuming that City consumption of gasoline remains flat at the FY 2017-18 level; the projected price change would result in total gasoline expenditures of \$31,969,436 over the five-year contract term.

Recommendations

- Amend the initial term of the contract to November 1, 2018, through October 31, 2021.
- Amend the not-to-exceed contract amount to \$32,000,000.
- Approve the proposed resolution, as amended.

MANDATE STATEMENT

City Charter Section 9.118(b) states that any contract entered into by a department, board or commission that (1) has a term of more than ten years, (2) requires expenditures of \$10 million or more, or (3) requires a modification of more than \$500,000 is subject to Board of Supervisors approval.

BACKGROUND

Gasoline for vehicles and equipment used by City departments is currently supplied through a contract between the City's Office of Contract Administration (OCA) and Golden Gate Petroleum. The existing contract to provide gasoline, biodiesel, and petroleum diesel, which was awarded based on a competitive process and was previously approved by the Board of Supervisors, is in an amount not to exceed \$94,000,000 for a three-year term from September 1, 2013, through August 31, 2016, with two one-year options to extend for a total of five years through August 31, 2018 (File No. 13-0688; Resolution No. 297-13). OCA exercised both of the one-year options with Golden Gate Petroleum. According to Ms. Florence Kyaun, Principal Administrative Analyst at OCA, OCA extended the contract by two months through October 31, 2018, so that service would not be discontinued prior to approval of the proposed contract.

In March 2016, the Board of Supervisors approved the award of an additional contract to Golden Gate Petroleum to replace the use of petroleum diesel and biodiesel with "renewable diesel," which has lower lifecycle carbon emissions than petroleum diesel or biodiesel (File No. 16-0046; Resolution No. 82-16). The existing contract for renewable diesel, which was awarded through a competitive process, is in an amount not to exceed \$60,000,000 for a three-year term from April 1, 2016, through March 31, 2019, with two one-year options to extend for a total of five years through March 31, 2021.

In April 2018, OCA solicited competitive bids for gasoline for all City departments and received responses from four suppliers. OCA intends to award the primary contract to the lowest bidder, Western States Oil, and the secondary contract to the second lowest bidder, SC Fuels. The bids are expressed as a markup or markdown from the daily price per gallon of gasoline, as published by the industry group known as the Oil Price Information Services (OPIS).¹ While the markup or markdown price remains fixed, the OPIS price per gallon fluctuates daily. Western State Oil's bid prices range from \$0.04 per gallon below the OPIS daily price to \$0.20 per gallon above the OPIS daily price.² Therefore, the actual price that the City will pay for gasoline will fluctuate throughout the term of the contract. According to Ms. Kyaun, gasoline prices are forecasted to increase over the term of the contract.

SC Fuels' bid prices range from \$0.01 per gallon above the OPIS daily price to \$0.24 per gallon above the OPIS daily price. The secondary contractor would provide deliveries in case of an emergency where the primary contractor cannot deliver. According to Ms. Kyaun, over the

term of the last two contracts, or the last 10 years, OCA has not had to purchase supplies from the secondary contractor.

DETAILS OF PROPOSED LEGISLATION

The proposed resolution would approve the agreement between the City and County of San Francisco and the primary contractor, Western States Oil, and the secondary contractor, SC Fuels, for gasoline, for an initial term of three years from September 1, 2018, through August 21, 2021, with two one-year options to extend, for a total of five years and a not to exceed amount of \$40,000,000.

SC Fuels is designated as the secondary contractor to be used by City departments only if the primary contractor fails to provide gasoline, per the contract.

Under the proposed contract, Western States Oil will deliver gasoline to Central Shops fueling stations, the San Francisco Municipal Transportation Agency (SFMTA), San Francisco Fire Department (SFFD), the San Francisco Public Utilities Commission (PUC), San Francisco International Airport (SFO), and the Recreation and Park Department (RPD), and will be used by departments throughout the City.

FISCAL IMPACT

Funding for the proposed fuel contract was included in the FY 2018-19 budgets of the City departments that use gasoline, as previously appropriated by the Board of Supervisors. City departments that use gasoline will request funding in their FY 2019-20 through FY 2021-22 fuel budgets, subject to appropriation approval by the Board of Supervisors.

According to Ms. Kyaun, the \$40,000,000 not-to-exceed contract amount for up to five years is based on the OPIS price for gasoline, plus taxes and fees that would be charged to the City for an estimated price per gallon that includes a 35 percent contingency for future OPIS price fluctuations.³ The estimated price per gallon is multiplied by the average annual usage from previous years. Over the past three fiscal years, the City has spent a total of \$14,015,316 on gasoline, as shown in Table 1 below.

Table 1: Actual Gasoline Expenditures

Fiscal Year	Amount
FY 2015-16	\$4,362,118
FY 2016-17	4,295,161
FY 2017-18	5,358,037
Total	\$14,015,316

Although the proposed contract amount, which averages \$8 million per year, is substantially higher than the City's actual spending for gasoline over the last three years, Ms. Kyaun advises that the City is not obligated to purchase any specific quantities of gasoline. Departments will

issue purchase orders for approved purchases based on individual City department budgets that are approved by the Board of Supervisors.

POLICY CONSIDERATION

According to Ms. Kyaun, there are approximately 2,553 vehicles and 2,326 pieces of equipment in the City's fleet that use gasoline. Under the Healthy Air and Clean Transportation Program implemented in 2010, it is City policy to (1) achieve high energy efficiency and use alternative fuels with a low carbon impact; and (2) minimize the use of single occupancy vehicles and reduce the total number of passenger vehicles and light-duty trucks in the municipal fleet.

For the City to achieve its greenhouse gas reduction goals, consumption of gasoline for the municipal fleet should decrease over time. Decreases in consumption may not necessarily result in a decrease in expenditures for gasoline if market prices increase at a faster rate.

According to the U.S. Energy Information Administration,⁴ gasoline prices are projected to increase by an average of 5.35 percent per year between 2019 and 2023. Assuming that City consumption of gasoline remains flat at the FY 2017-18 level, the projected price change would result in total gasoline expenditures of \$31,969,436 over the five-year period from November in FY 2018-19 to October in FY 2023-24, as shown in Table 2 below.

Table 2: Projected Gasoline Expenditures November 2018 to October 2023

Fiscal Year	Amount
FY 2018-19 (November to June)	\$3,763,128
FY 2019-20	5,946,683
FY 2020-21	6,264,831
FY 2021-22	6,599,999
FY 2022-23	6,953,099
FY 2023-24 (July to October)	2,441,697
Total	\$31,969,436

The estimated gasoline purchases of approximately \$32.0 million, shown in Table 2 above, assume that City departments would continue to use the same amount of gasoline over the next five years, although the City's policy is to reduce gasoline consumption in favor of low carbon fuel. The Budget and Legislative Analyst recommends reducing the not-to-exceed contract amount to \$32,000,000. Expenditures above the revised contract amount would be subject to future Board of Supervisors approval.

RECOMMENDATIONS

1. Amend the initial term of the contract to November 1, 2018, through October 31, 2021.
2. Amend the not-to-exceed contract amount to \$32,000,000.
3. Approve the proposed resolution, as amended.

In addition to Contractor's obligation to indemnify City, Contractor specifically acknowledges and agrees that it has an immediate and independent obligation to defend City from any claim which actually or potentially falls within this indemnification provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Contractor by City and continues at all times thereafter. This Contract will terminate without penalty, liability or expense of any kind to City at the end of any fiscal year if funds are not appropriated for the next succeeding fiscal year. If funds are appropriated for a portion of the fiscal year, this Contract will terminate, without penalty, liability or expense of any kind at the end of the term for which funds are appropriated. City has no obligation to make appropriations for this Contract in lieu of appropriations for new or other agreements. City budget decisions are subject to the discretion of the Mayor and the Board of Supervisors. Contractor's assumption of risk of possible non-appropriation is part of the consideration for this Contract.

20. Termination for Convenience. City shall have the option, in its sole discretion, to terminate this Agreement, at any time during the term hereof, for convenience and without cause. City shall exercise this option by giving Contractor written notice of termination. The notice shall specify the date on which termination shall become effective. In no event shall City be liable for costs incurred by Contractor or any of its subcontractors after the termination date specified by City.

21. Guaranteed Maximum Costs. The City's obligation hereunder shall not at any time exceed the amount certified by the Controller for the purpose and period stated in such certification. Except as may be provided by City ordinances governing emergency conditions, the City and its employees and officers are not authorized to request Contractor to perform services or to provide materials, equipment and supplies that would result in Contractor performing services or providing materials, equipment and supplies that are beyond the scope of the services, materials, equipment and supplies agreed upon in the contract unless the agreement is amended in writing and approved as required by law to authorize the additional services, materials, equipment or supplies. The City is not required to reimburse Contractor for services, materials, equipment or supplies that are provided by Contractor which are beyond the scope of the services, materials, equipment and supplies agreed upon in the contract and which were not approved by a written amendment to the agreement having been lawfully executed by the City. The City and its employees and officers are not authorized to offer or promise to Contractor additional funding for the contract which would exceed the maximum amount of funding provided for in the contract for Contractor's performance under the contract. Additional funding for the contract in excess of the maximum provided in the contract shall require lawful approval and certification by the Controller of the City. The City is not required to honor any offered or promised additional funding for a contract which exceeds the maximum provided in the contract which requires lawful approval and certification of the Controller when the lawful approval and certification by the Controller has not been obtained. Controller is not authorized to make payments on any contract for which funds have not been certified as available in the budget or by supplemental appropriation.

22. Taxes. Payment of any taxes, including possessory interest taxes and California sales and use taxes, levied upon or as a result of this Contract, or the services delivered pursuant hereto, shall be the obligation of Contractor. Contractor recognizes and understands that this Contract may create a "possessory interest" for property tax purposes. Generally, such a possessory interest is not created unless the Contract entitles the Contractor to possession, occupancy, or use of City property for private gain. If such a possessory interest is created, then the following shall apply:

A. Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that Contractor, and any permitted successors and assigns, may be subject to real property tax assessments on the possessory interest.

B. Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that the creation, extensions, renewal, or assignment of this Contract may result in a "change in ownership" for purposes of real property taxes, and therefore may result in a revaluation of any possessory interest by this Contract. Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report on behalf of the City to the County Assessor the information required by Revenue and Taxation Code section 480.5, as amended from time to time, and any successor provision.

For the Term September 01, 2018 through August 31, 2021

GENERAL CONDITIONS

59. First Source Hiring Program

A. Incorporation of Administrative Code Provisions by Reference. The provisions of Chapter 83 of the San Francisco Administrative Code are incorporated in this Section by reference and made a part of this Agreement as though fully set forth herein. Contractor shall comply fully with, and be bound by, all of the provisions that apply to this Agreement under such Chapter, including but not limited to the remedies provided therein. Capitalized terms used in this Section and not defined in this Agreement shall have the meanings assigned to such terms in Chapter 83.

B. First Source Hiring Agreement. As an essential term of, and consideration for, any contract or property contract with the City, not exempted by the FSHA, the Contractor shall enter into a first source hiring agreement ("agreement") with the City, on or before the effective date of the contract or property contract. Contractors shall also enter into an agreement with the City for any other work that it performs in the City. Such agreement shall:

(1) Set appropriate hiring and retention goals for entry level positions. The employer shall agree to achieve these hiring and retention goals, or, if unable to achieve these goals, to establish good faith efforts as to its attempts to do so, as set forth in the agreement. The agreement shall take into consideration the employer's participation in existing job training, referral and/or brokerage programs. Within the discretion of the FSHA, subject to appropriate modifications, participation in such programs may be certified as meeting the requirements of this Chapter. Failure either to achieve the specified goal, or to establish good faith efforts will constitute noncompliance and will subject the employer to the provisions of Section 83.10 of this Chapter.

(2) Set first source interviewing, recruitment and hiring requirements, which will provide the San Francisco Workforce Development System with the first opportunity to provide qualified economically disadvantaged individuals for consideration for employment for entry level positions. Employers shall consider all applications of qualified economically disadvantaged individuals referred by the System for employment; provided however, if the employer utilizes nondiscriminatory screening criteria, the employer shall have the sole discretion to interview and/or hire individuals referred or certified by the San Francisco Workforce Development System as being qualified economically disadvantaged individuals. The duration of the first source interviewing requirement shall be determined by the FSHA and shall be set forth in each agreement, but shall not exceed 10 days. During that period, the employer may publicize the entry level positions in accordance with the agreement. A need for urgent or temporary hires must be evaluated, and appropriate provisions for such a situation must be made in the agreement.

(3) Set appropriate requirements for providing notification of available entry level positions to the San Francisco Workforce Development System so that the System may train and refer an adequate pool of qualified economically disadvantaged individuals to participating employers. Notification should include such information as employment needs by occupational title, skills, and/or experience required, the hours required, wage scale and duration of employment, identification of entry level and training positions, identification of English language proficiency requirements, or absence thereof, and the projected schedule and procedures for hiring for each occupation. Employers should provide both long-term job need projections and notice before initiating the interviewing and hiring

process. These notification requirements will take into consideration any need to protect the employer's proprietary information.

(4) Set appropriate record keeping and monitoring requirements. The First Source Hiring Administration shall develop easy-to-use forms and record keeping requirements for documenting compliance with the agreement. To the greatest extent possible, these requirements shall utilize the employer's existing record keeping systems, be non-duplicative, and facilitate a coordinated flow of information and referrals.

(5) Establish guidelines for employer good faith efforts to comply with the first source hiring requirements of this Chapter. The FSHA will work with City departments to develop employer good faith effort requirements appropriate to the types of contracts and property contracts handled by each department. Employers shall appoint a liaison for dealing with the development and implementation of the employer's agreement. In the event that the FSHA finds that the employer under a City contract or property contract has taken actions primarily for the purpose of circumventing the requirements of this Chapter, that employer shall be subject to the sanctions set forth in Section 83.10 of this Chapter.

(6) Set the term of the requirements.

(7) Set appropriate enforcement and sanctioning standards consistent with this Chapter.

(8) Set forth the City's obligations to develop training programs, job applicant referrals, technical assistance, and information systems that assist the employer in complying with this Chapter.

(9) Require the developer to include notice of the requirements of this Chapter in leases, subleases, and other occupancy contracts.

C. Hiring Decisions. Contractor shall make the final determination of whether an Economically Disadvantaged Individual referred by the System is "qualified" for the position.

D. Exceptions. Upon application by Employer, the First Source Hiring Administration may grant an exception to any or all of the requirements of Chapter 83 in any situation where it concludes that compliance with this Chapter would cause economic hardship.

E. Liquidated Damages. Contractor agrees:

(1) To be liable to the City for liquidated damages as provided in this section;

(2) To be subject to the procedures governing enforcement of breaches of contracts based on violations of contract provisions required by this Chapter as set forth in this section;

(3) That the contractor's commitment to comply with this Chapter is a material element of the City's consideration for this contract; that the failure of the contractor to comply with the contract provisions required by this Chapter will cause harm to the City and the public which is significant and substantial but extremely difficult to quantify; that the harm to the City includes not only the financial

GENERAL CONDITIONS

cost of funding public assistance programs but also the insidious but impossible to quantify harm that this community and its families suffer as a result of unemployment; and that the assessment of liquidated damages of up to \$5,000 for every notice of a new hire for an entry level position improperly withheld by the contractor from the first source hiring process, as determined by the FSHA during its first investigation of a contractor, does not exceed a fair estimate of the financial and other damages that the City suffers as a result of the contractor's failure to comply with its first source referral contractual obligations.

(4) That the continued failure by a contractor to comply with its first source referral contractual obligations will cause further significant and substantial harm to the City and the public, and that a second assessment of liquidated damages of up to \$10,000 for each entry level position improperly withheld from the FSHA, from the time of the conclusion of the first investigation forward, does not exceed the financial and other damages that the City suffers as a result of the contractor's continued failure to comply with its first source referral contractual obligations;

(5) That in addition to the cost of investigating alleged violations under this Section, the computation of liquidated damages for purposes of this section is based on the following data:

a. The average length of stay on public assistance in San Francisco's County Adult Assistance Program is approximately 41 months at an average monthly grant of \$348 per month, totaling approximately \$14,379; and

b. In 2004, the retention rate of adults placed in employment programs funded under the Workforce Investment Act for at least the first six months of employment was 84.4%. Since qualified individuals under the First Source program face far fewer barriers to employment than their counterparts in programs funded by the Workforce Investment Act, it is reasonable to conclude that the average length of employment for an individual whom the First Source Program refers to an employer and who is hired in an entry level position is at least one year; therefore, liquidated damages that total \$5,000 for first violations and \$10,000 for subsequent violations as determined by FSHA constitute a fair, reasonable, and conservative attempt to quantify the harm caused to the City by the failure of a contractor to comply with its first source referral contractual obligations.

(6) That the failure of contractors to comply with this Chapter, except property contractors, may be subject to the debarment and monetary penalties set forth in Sections 6.80 et seq. of the San Francisco Administrative Code, as well as any other remedies available under the contract or at law; and violation of the requirements of Chapter 83 is subject to an assessment of liquidated damages in the amount of \$5,000 for every new hire for an Entry Level Position improperly withheld from the first source hiring process. The assessment of liquidated damages and the evaluation of any defenses or mitigating factors shall be made by the FSHA.

F. Subcontracts. Any subcontract entered into by Contractor shall require the subcontractor to comply with the requirements of Chapter 83 and shall contain contractual obligations substantially the same as those set forth in this Section.

Because many Contractors have already completed the necessary registration forms, and because some informational forms are rarely revised, the City has not included them in the bid package. Subject: Resolution approving contract over \$10 million with Western States Oil for gasoline

The Office of Contract Administration is submitting the enclosed resolution that would authorize a contract of \$40 million with Western States Oil for gasoline. The \$40 million amount represents five years of estimated spending.

The contract was solicited and awarded on the condition that there would be a primary and a secondary contractor. If there are no performance problems, the primary contractor will receive 100% of the City's business under the contract. The primary contract will be with Western States Oil and the secondary contract with SC Fuels.

The contract with Western States has an initial term of three (3) years, with the possibility of two one-year extensions, for a total of five years. Likewise, the contract with SC Fuels will be for the same duration.

If you have any questions or require additional information, please contact Florence Kyaun on my team, at 415-554-6263.

- The contract with Golden Gate Petroleum provides gasoline, biodiesel, and petroleum diesel
- Gasoline consumption has trended up with our increased number of vehicles and equipment

of Vehicles and Equipment Requiring Gasoline

New Fuel Contract

- In April 2018, OCA conducted a competitive low bid to provide gasoline only.
- Bids were received from four (4) suppliers.
- OCA intends to award the new fuel contract to Western States Oil (the lowest bidder) as the primary contract that will provide gasoline to City departments.
 - Not-to-Exceed \$40M
 - Initial three-year term, plus two one-year options
- In the event that Western States Oil cannot provide gasoline, per the contract, departments can utilize the secondary contract SC Fuels. The secondary contract will only be used in the event of that the primary contractor cannot provide gasoline.
