BUDGET AND FINANCE COMMITTEE MEETING

MANDATE STATEMENT

City Charter Section 9.118(b) states that any contract entered into by a department, board or commission that (1) has a term of more than ten years, (2) requires expenditures of \$10 million or more, or (3) requires a modification of more than \$500,000 is subject to Board of Supervisors approval.

BACKGROUND

The Department of Public Health (DPH) solicited for new behavioral health providers between March 2017 and August 2017 for the following services:

- 1. Mental Health Outpatient Programs for Adult/ Older Adult System of Care
- 2. Substance Use Disorder Treatment Services

Health Right 360, which proposed services under these two Requests for Proposals (RFPs), was one of 47 providers selected to provide services in response to these RFPs. In both cases Health Right 360 was an existing provider of the services under the previous solicitation in 2010.

DETAILS OF PROPOSED LEGISLATION

The proposed resolution would approve a new contract between the Department of Public Health and Health Right 360 for behavioral health services for Adults and Older Adults in an amount not to exceed \$84,064,915 for a contract term of four years from July 1, 2018 through June 30, 2022.

Options to Renew

Neither the proposed resolution nor the proposed contract provide for options to renew. However, the RFPs for these services (RFP 8-2017 and RFP 26-2016) provided an option to extend by five years through June 30, 2027, for a total term of nine years. According to DPH staff, the intent was for the extension option to be included in the contract. Therefore, the proposed resolution should be amended to state that the contract may be amended to provide for one (1) five-year option to extend the contract through June 30, 2027.

Drug MediCal Organized Delivery System

In addition to the mental health outpatient and substance use disorder treatment services, the proposed contract includes services to be provided by Health Right 360 on a sole source basis. These services are part of the Drug MediCal Organized Delivery System pilot and include: Outpatient, Intensive Outpatient, Withdrawal Management, Residential, Perinatal Residential and Residential Stepdown Services. These sole source services were included in the proposed contract because Health Right 360 already has experience with Drug MediCal Organized Delivery System in other counties.

BUDGET AND FINANCE COMMITTEE MEETING

Interim Contract

Health Right 360 had a prior contract with DPH for similar services that expired on December 31, 2017. Because DPH and Health Right 360 had not completed negotiations on the new contract when the prior contract expired, DPH entered into an interim contract with the Family Service Agency to continue providing services from January 1, 2018 through June 30, 2018 in the amount of \$8,598,827. According to the contract, the City's Office of Contract Administration approved the interim contract as a sole source contract per Administrative Code Section 21.42. The term of the interim contract has expired.

Programs under Proposed New Contract

According to the contract, Health Right 360 will provide a variety of services to DPH clients through 17 programs, services include:

- <u>Residential Detoxification:</u> short term residential stays of 5 to 90 days supported by withdrawal management (detoxification) therapy and related high intensity services.
- <u>Residential Step-down Services</u>: residential setting in which peers in recovery support each other's recovery while continuing treatment and related services, such as case management, to achieve treatment goals.
- <u>Residential Perinatal Services</u>: multi-services residential substance abuse treatment for pregnant and post-partum women.
- <u>Transitional Residential</u>: short term housing and substance abuse outpatient treatment services for transitioning nonviolent offenders who abuse substances.
- <u>Harm Reduction Interventions:</u> motivational enhancement therapy to build trust and engagement during the pre-contemplation and contemplation phases of treatment.
- <u>Outpatient Drug Free Services (and Intensive OP Services)</u>: mental health services for clients stepping down from more intensive levels of care and clients maintaining stability in managing their behavioral health disorders. Services include individual and group counseling, relapse prevention, vocational and educational classes, social services, family reunification and legal counseling and urine surveillance as a tool when appropriate.
- <u>TAY Prevention and Outreach</u>: behavioral health assessments, individual and group therapy, self-care training, job readiness training, and crisis intervention for 18 to 24 year olds.
- <u>Mental Health Services</u>: individual and group therapy and interventions to reduce mental disability and improve functioning, including assessing clients, developing a plan for services, and providing therapy and other services to assist clients.
- <u>Case Management</u>: assisting clients to access medical, educational, social, vocational, rehabilitative, and other needed services.
- <u>Housing Vouchers</u>: Housing stabilization through paying rent for parolees that demonstrate need.

- <u>HIV Screening and Testing</u>: improve patient access to services and early detection of infectious diseases, primarily HIV through screening and testing at primary care medical sites.
- <u>Preventative Primary Care</u>: increase access to preventive health care services for uninsured women in San Francisco.
- <u>ACA Outreach and Enrollment and Workforce Development</u>: increase access to women's health services while providing community based workforce development and training with a focus on Western Addition residents.

SAN FRANCISCO BOARD OF SUPERVISORS

¹ There are no funds budgeted for this program because the Federal government stopped funding these activities with this funding source. The Department elected to continue the prevention services targeting drug users with General Fund, but because the broader program is managed by a different DPH section (HIV Prevention Section/CHEP) and not BHS, these funds were moved to that section, which is providing funding under a separate solicitation.

Notwithstanding, if City believes that an action of Contractor, or any agent or employee of Contractor, warrants immediate remedial action by Contractor, City shall contact Contractor and provide Contractor in writing with the reason for requesting such immediate action.

4.4.2 Payment of Employment Taxes and Other Expenses. Should City, in its discretion, or a relevant taxing authority such as the Internal Revenue Service or the State Employment Development Division, or both, determine that Contractor is an employee for purposes of collection of any employment taxes, the amounts payable under this Agreement shall be reduced by amounts equal to Page 6 of 24

City shall then forward those amounts to the relevant taxing authority. Should a relevant taxing authority determine a liability for past services performed by Contractor for City, upon notification of such fact by City, Contractor shall promptly remit such amount due or arrange with City to have the amount due withheld from future payments to Contractor under this Agreement (again, offsetting any amounts already paid by Contractor which can be applied as a credit against such liability). A determination of employment status pursuant to the preceding two paragraphs shall be solely for the purposes of the particular tax in question, and for all other purposes of this Agreement, Contractor shall not be considered an employee of City. Notwithstanding the foregoing, Contractor agrees to indemnify and save harmless City and its officers, agents and employees from, and, if requested, shall defend them against any and all claims, losses, costs, damages, and expenses, including attorneys' fees, arising from this section.

Any purported assignment made in violation of this provision shall be null and void.

4.6 Warranty. Contractor warrants to City that the Services will be performed with the degree of skill and care that is required by current, good and sound professional procedures and practices, and in conformance with generally accepted professional standards prevailing at the time the Services are performed so as to ensure that all Services performed are correct and appropriate for the purposes contemplated in this Agreement.

5.1.3 All policies shall be endorsed to provide thirty (30) days' advance written notice to the City of cancellation for any reason, intended non-renewal, or reduction in coverages. Notices shall be sent to the City address set forth in Section 11.1, entitled "Notices to the Parties."

5.1.4 Should any of the required insurance be provided under a claims-made form, Contractor shall maintain such coverage continuously throughout the term of this Agreement and, without lapse, for a period of three years beyond the expiration of this Agreement, to the effect that, should occurrences during the contract term give rise to claims made after expiration of the Agreement, such claims shall be covered by such claims-made policies.

5.1.5 Should any of the required insurance be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defense costs be included in such general annual aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limits specified above.

5.1.6 Should any required insurance lapse during the term of this Agreement, requests for payments originating after such lapse shall not be processed until the City receives satisfactory evidence of reinstated coverage as required by this Agreement, effective as of the lapse date. If insurance is not reinstated, the City may, at its sole option, terminate this Agreement effective on the date of such lapse of insurance.

5.1.7 Before commencing any Services, Contractor shall furnish to City certificates of insurance and additional insured policy endorsements with insurers with ratings comparable to A-, VIII or higher, that are authorized to do business in the State of California, and that are satisfactory to City, in form evidencing all coverages set forth above. The foregoing indemnity shall include, without limitation, reasonable fees of attorneys, consultants and experts and related costs and City's costs of investigating any claims against the City.

In addition to Contractor's obligation to indemnify City, Contractor specifically acknowledges and agrees that it has an immediate and independent obligation to defend City from any claim which actually or potentially falls within this indemnification provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Contractor by City and continues at all times thereafter.

Contractor shall indemnify and hold City harmless from all loss and liability, including attorneys' fees, court costs and all other litigation expenses for any infringement of the patent rights, copyright, trade secret or any other proprietary right or trademark, and all other intellectual property claims of any person or persons arising directly or indirectly from the receipt by City, or any of its officers or agents, of Contractor's Services.

Article 6 Liability of the Parties

6.2 Liability for Use of Equipment. City shall not be liable for any damage to persons or property as a result of the use, misuse or failure of any equipment used by Contractor, or any of its subcontractors, or by any of their employees, even though such equipment is furnished, rented or loaned by City.

Contractor shall remit to the State of California any sales or use taxes paid by City to Contractor under this Agreement. Contractor agrees to promptly provide information requested by the City to verify Contractor's compliance with any State requirements for reporting sales and use tax paid by City under this Agreement.

7.2 Contractor acknowledges that this Agreement may create a "possessory interest" for property tax purposes. Generally, such a possessory interest is not created unless the Agreement entitles the Contractor to possession, occupancy, or use of City property for private gain. If such a possessory interest is created, then the following shall apply:

7.2.1 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that Contractor, and any permitted successors and assigns, may be subject to real property tax assessments on the possessory interest.

7.2.2 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that the creation, extension, renewal, or assignment of this Agreement may result in a "change in ownership" for purposes of real property taxes, and therefore may result in a revaluation of any possessory interest created by this Agreement. Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report on behalf of the City to the County Assessor the information required by Revenue and Taxation Code section 480.5, as amended from time to time, and any successor provision.

7.2.3 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that other events also may cause a change of ownership of the possessory interest and result in the revaluation of the possessory interest. (see, e.g., Rev. & Tax. Code section 64, as amended from time to time). Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report any change in ownership to the County Assessor, the State Board of Equalization or other public agency as required by law.

8.1.1 City shall have the option, in its sole discretion, to terminate this Agreement, at any time during the term hereof, for convenience and without cause. City shall exercise this option by giving Contractor written notice of termination. The notice shall specify the date on which termination shall become effective.

8.1.2 Upon receipt of the notice of termination, Contractor shall commence and perform, with diligence, all actions necessary on the part of Contractor to effect the termination of this Agreement on the date specified by City and to minimize the liability of Contractor and City to third parties as a result of termination. 8.1.3 Within 30 days after the specified termination date, Contractor shall submit to City an invoice, which shall set forth each of the following as a separate line item:

(a) The reasonable cost to Contractor, without profit, for all Services prior to the specified termination date, for which Services City has not already tendered payment. Reasonable costs may include a reasonable allowance for actual overhead, not to exceed a total of 10% of Contractor's direct costs for Services. Any overhead allowance shall be separately itemized. (b) A reasonable allowance for profit on the cost of the Services described in the immediately preceding subsection (a), provided that Contractor can establish, to the satisfaction of City, that Contractor would have made a profit had all Services under this Agreement been completed, and provided further, that the profit allowed shall in no event exceed 5% of such cost.

(c) The reasonable cost to Contractor of handling material or equipment returned to the vendor, delivered to the City or otherwise disposed of as directed by the City.

(d) A deduction for the cost of materials to be retained by Contractor, amounts realized from the sale of materials and not otherwise recovered by or credited to City, and any other appropriate credits to City against the cost of the Services or other work.

8.1.4 In no event shall City be liable for costs incurred by Contractor or any of its subcontractors after the termination date specified by City, except for those costs specifically enumerated and described in Section 8.1.3. Such non-recoverable costs include, but are not limited to, anticipated profits on the Services under this Agreement, post-termination employee salaries, post-termination administrative expenses, post-termination overhead or unabsorbed overhead, attorneys' fees or other costs relating to the prosecution of a claim or lawsuit, prejudgment interest, or any other expense which is not reasonable or authorized under Section 8.1.3.

8.1.5 In arriving at the amount due to Contractor under this Section, City may deduct: (i) all payments previously made by City for Services covered by Contractor's final invoice; (ii) any claim which City may have against Contractor in connection with this Agreement; (iii) any invoiced costs or expenses excluded pursuant to the immediately preceding subsection 8.1.4; and (iv) in instances in which, in the opinion of the City, the cost of any Service performed under this Agreement is excessively high due to costs incurred to remedy or replace defective or rejected Services, the difference between the invoiced amount and City's estimate of the reasonable cost of performing the invoiced Services in compliance with the requirements of this Agreement.

8.1.6 City's payment obligation under this Section shall survive termination of this

Agreement.

8.2

A. Required Objectives

"All objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS AOA Performance Objectives FY 18-19".

8. Continuous Quality Assurance and Improvement

1. Achievement of contract performance objectives and productivity;

HealthRIGHT 360 is committed to maintaining careful quality control procedures and, therefore maintains a robust Quality Control Plan in order to ensure that the agency is both achieving our targeted objectives while participants also achieve positive outcomes. To measure and monitor our own performance, HealthRIGHT 360 has implemented a number of procedures and systems that work together to collect, store, report, analyze, and monitor data so that participant outcomes can be evaluated relative to internal and external performance goals. These systems also identify areas in need of improvement and enable fast and effective responses. HealthRIGHT 360 executive staff preside over a network of committees that ensure agency-wide adherence to the Quality Control Plan.

2. Quality of documentation, including a description of the frequency and scope of internal chart audits;

<u>QRR Process</u>: HealthRIGHT 360 requires all program supervisors to audit at least 10% of their files each month for conformance to contract requirements and agency standards. Program supervisors receive a randomly generated list of client names to review using an audit tool tailored to the specific of their program. Program supervisors are encouraged to use the tool to audit additional files to ensure maximum conformance with program requirements. A corrective action plan must be completed for all deficiencies identified. Completed audit forms are submitted monthly to the Manager of Quality Assurance and Compliance who reviews the forms for accuracy and determines training needs based on patterns of deficiencies.

Additional <u>File Review</u>: In addition to reviewing 10% of the case files monthly as a component of the Quality Record Review Process, a Program Supervisor must review each file when a client discharges from the program, and conduct targeted reviews of files for any staff member whose performance standards are in question. In the event that a pattern of deficiencies is identified, the Program Supervisor will work with the Vice President of Corporate Compliance to determine and implement a corrective action plan which can include all-staff training workshops, individual staff supervision and one-on-one training, and/or performance management strategies (performance improvement plans or disciplinary actions) involving the Director of Human Resources.

3. Cultural competency of staff and services;

6. Methodology

A. Describe how your program conducts outreach, recruitment, promotion, and advertisement.

Page | 1

Appendix A- 10 Contract Term: 7/1/18-6/30/2019

Outreach for Project ADAPT is conducted by AARS' prevention/early intervention team, Comprehensive Outreach Project for Pacific Islander and Asian Substance Abusers (COPPASA). COPPASA actively participates in neighborhood health fairs, community forums, and cultural events to provide substance abuse information and referral services. COPPASA promotes AARS' treatment services and organizes educational presentations specifically focused on the unique needs of the client populations served. In addition, for the past several months, the ADAPT MH staff have connected with community based organizations and provided MH/SA program information and also highlighted ADAPT's history in providing treatment for co-occurring disorders and our increased capacity to provide these services. The community outreach will continue to build on these relationships. Other AARS programs such as AARS Residential Program and Lee Woodward Counseling Center will also refer clients who are in need of mental health services to Project ADAPT Mental Health program.

B. Describe your program's admission, enrollment and/or intake criteria and process where applicable.

At weekly clinical case conference, COPPASA presents potential clients who have been screened for substance misuses and mental health issues. Clients who meet eligibility criteria are assigned a primary case manager/clinician who initiates an intake process which includes an orientation to the treatment services, program admission, registration and assessment to establish a treatment focus. A treatment plan of care is formulated in collaboration with the client within 30 days for substance abuse clients. For mental health clients, assessment includes establishing medical necessity through an initial risk assessment and treatment plan of care and PURQC Authorization within 60 days of admission.

There are no exclusionary criteria such as presenting substance abuse or medical condition that impairs ability to participate. Risk of violence and suicide is assessed individually and clients will be referred to outside resources when deemed necessary.

C. Describe your program's service delivery model and how each service is delivered, e.g. phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, etc.

At ADAPT, clients receive a culturally sensitive and linguistically appropriate therapeutic program of structured activities that are individualized based on severity of addiction, mental health issues, history of relapse and co-occurring issues. Through staff and peer support clients develop an understanding of the addiction process, mental health symptoms, new coping skills, and healthy life choices. Project ADAPT offers a Substance Abuse outpatient treatment program which is designed for an intended length of stay of 6 months. However, due to the complex needs of the population that we serve (i.e. homelessness, language and education barriers, and chronic history of relapse), clients may require and/or request extended support.

Project ADAPT is a comprehensive multi-cultural, multi-lingual program focusing on five fundamental processes:

- A ACCEPTANCE of problem: Acceptance and ownership of one's own substance abuse problem and begin to explore alternatives to substance abusing lifestyle.
- D DETERMINATION to change: Making a commitment to change through the building of a structured and productive lifestyle for oneself.
- A ASSESSMENT of problems for changes: Self-analysis on underlying factors that contributed to substance abusing behavior.
- P PARTICIPATION in making changes: Developing and achieving short and long term goals toward a structural and functional drug free lifestyle.

TOWARD a drug free life: Leading a drug free life as a functional member of the family and community.

Progression: The four basic processes run throughout the program and are incorporated in the program's Stage Model curriculum.

Phase 1	Engagement	1 month
Phase 2	Self-Reflection	1-2 months
Phase 3	Application	1-2 months
Phase 4	Giving Back	1-2 months

Phase 1 – Engagement: Participants 1) build relationships with staff and other participants; 2) develop individualized program to healing/recovery; and 3) begin to understand program philosophy.

Phase 2 – Self Reflection: Participants 1) learn to take ownership and responsibility for their actions; 2) learn techniques and strategies to address their mental heath issues and or substance abuse issues; and 3) adknowledge and understand the advantage of healing through development of body, mind and spirit. Phase 3 – Application: Participants 1) incorporate tools and apply knowledge acquired into all aspects of their life; 2) take a leadership role in the ADAPT community; and 3) begin to explore transition back to the outside community.

Phase 4 – Transition: Participants 1) develop a transitional plan that include educational/vocational goals and participation in outside support groups (i.e. self-help and 12-step groups); 2) identify strengths and success in maintaining reduction of mental health symptoms and maintain sober and healthy living; and 3) decrease treatment frequency and graduate from program.

<u>Project ADAPT Mental Health (MH)</u>: ADAPT Mental Health Services staff will ensure that clients receive a full continuum of mental health services to address all their needs. Mental health services must meet medical necessity which means that the individual's level of functioning, due to a mental illness, disrupts or interferes with community living to the extent that without service the individual would be unable to maintain residence, engage in productive activities and daily responsibilities, maintain a social support system, and stay healthy.

Program Utilization Review Quality Committee: Our PURQC, composed of the Clinical Supervisor, Counselor/Case Manager, and other program staff as appropriate, will review all Initial Authorization and Reauthorization. Attention will be paid to Medi-Cal clients to ensure medical necessity of the services being delivered and compliance with the programmatic and billing standards. PURQC meetings will be held bi-monthly to address authorization which includes Assessments, Plan of Care, Progress Notes, continuity of care, treatment and other related topics. Meeting minutes will be kept in accordance with Medi-Cal regulations.

In Project ADAPT the mind, body, and spirit components are incorporated throughout all phases of treatment. These include group counseling, individual counseling, psycho-education, meditation, acupuncture, yoga, culturally focused community meals, family support activities, and recreational activities. In addition, other supportive services such as education/vocational workshops and social support network are provided to assist clients with a smooth transition into the community.

Hours of Operation: 9:00 a.m. to 5:30 p.m., Monday thru Friday with extended hours, 6:00 p.m. to 8:00 p.m. on first Thursday and first and third Fridays of the month.

Project ADAPT also utilizes a number of community services related to career planning, job training, and language specific services. These organizations include John Adams Community College, City College of San Francisco, College of San Mateo, and Northern California Service League.

D. Describe your program's exit criteria and process, e.g. successful completion, step-down process to less intensive treatment programs, aftercare, discharge planning.

At ADAPT, we measure success by a client's ability to maintain stable mental health and a substance-free life style. Clients develop a sense of community and individual responsibility and empowerment. The criteria that we use to measure success are: consistent participation in program modalities; an understanding of and decrease in mental health symptoms; absfinence or reduction of substance use; an understanding of recovery process and relapse prevention techniques; consistency in sustaining a clean and sober lifestyle; stability in housing and health; successful completion of legal mandates; and attainment of treatment goals.

Client's progress in treatment is evaluated on a regular basis to ensure appropriate level of care. Treatment is either intensified or stepped-down depending on client's ability to maintain reduction in symptoms and sobriety. Consistency in developing healthy life skills is an indication of the need for transitional planning, which can include education/vocational training and participation in outside support groups.

Prior to discharge, the client will meet with Case Manager/Counselor to discuss care plan, which will address issues of support, relapse, and aftercare. Upon successful completion, clients can participate in aftercare activities, such as weekly peer support groups with clients who are transitioning into the community. A monthly support group is held to provide ongoing support for clients who have successfully completed the program.

6. Methodology

HR360 is a comprehensive behavioral health program providing a wide range of high quality services to adult San Francisco residents. HR360 emphasizes self-help and peer support in a humanistic therapeutic community and offers special programs for individuals with specific needs. The HR360 environment is multicultural, and actively promotes understanding and kinship between people of different backgrounds by encouraging a family atmosphere, the sharing of personal histories, and respect for each individual's

Page 1

Contract ID # 1000010457, BOS

Appendix A-11 Contract Term: 7/1/18-6/30/19

challenges and successes. The philosophy of HR360 reflects an emphasis on self-reliance, shared community values, and the development of supportive peer relationships. Each individual learns to take responsibility for his/her own actions, and to share in the daily operations of each treatment site. Group and individual counseling helps individuals focus on issues related to their substance abuse and mental disorders. Coordinated efforts with ACCESS are designed to maintain appropriate service options for participants. The agency has had extensive experience with multiply-diagnosed adult clients.

All HR360 community-based programs are staffed with licensed, waived or registered mental health professionals who provide assessments, plan development, individual and group therapy, collateral, case management and crisis intervention services. Additionally, these staffs have been trained in the use of **Dialectical Behavior Therapy** as a treatment modality. DBT skills training and cognitive behavioral therapy are currently being used as an agency standard and are available in all outpatient facilities. **Seeking Safety treatment** has also been adopted as a best practice for clients with PTSD diagnoses and issues with traumatic experiences, which are common with those who have histories of substance abuse. **Motivational Interviewing** is also in the process of being introduced as a best practice this year, bringing a client-centered, directive method for enhancing intrinsic motivation to change by exploring and resolving ambivalence.

As an agency, HR360 endeavors to broaden access to treatment in a welcoming way and to identify and eliminate barriers to seeking and remaining in treatment. Potential clients who take prescription medications for medical or psychological disorders and/or utilize methadone or other agonist therapies are welcome to receive services at HR360.

Harm reduction principles are applied in all of our programs, including our abstinence-based residential programs. HR360 feaches formal relapse prevention techniques to all of its clients, using the Bio-Psycho-Spiritual-Social model and ways of effectively self-analyzing and stopping pre-relapse behaviors. Classes are held regularly to help all of our residential and day treatment clients recognize and deal with the behavior that leads to relapse.

A. Outreach and Recruitment: HR360 is well established in the human service provider community, the criminal justice system, homeless shelters, medical providers, and other substance abuse treatment programs. We make presentations, maintain working relationships with these programs and agencies, participate in community meetings and service provider groups as well as public health meetings -- to recruit, promote, outreach and increase referrals to our program. In addition, we distribute brochures and publications about our programs to community base organizations, individuals, and other interested parties through HR360's website at www.healthright360.org. Word of mouth and self-referrals also serves as sources for referrals.

B. Admissions and Intake: The Mental Health Medi-CAL component of HR360's Co-Occurring Disorders program provides mental health services to residents of San Francisco County who meet the County's criteria for medical and service necessity.

Assessments/ Diagnosis & Written Evaluation: The Multi-Service Center, located at 1563 Mission Street in San Francisco, is the central intake site for adult mental health services. After referral from ACCESS, the HR360 intake department, self-referral or any other appropriate referral source, individuals go through the intake assessment process. Intakes to Mental Health Medi-CAL services are scheduled five days a week.

HealthRIGHT 360 mental health clinicians providing services to clients funded through our MediCal/Short Doyle contract obtain and maintain ANSA certification. The ANSA is administered at the time of the

2 | P a g e Contract ID # 1000010457, BOS

Appendix A-11 Contract Term: 7/1/18-6/30/19

opening of the mental health episode and renewed annually or at the time of discharge if the client is available. Because the baseline ANSA is administered at the time of initial assessment at the beginning of mental health services, it is primarily used by our clinicians to help identify life domains that might be prioritized for clinical focus. The information provided by the baseline ANSA informs treatment planning. We have learned that the latest reports (while based on a small number of clients with at least two ANSAs to permit comparison) do indicate that our clients' strengths increase as a result of treatment. Depression, impulsivity, adjustment to trauma, and substance use is decreased.

C. Program Service Delivery Model: HR360 integrates a continuum of treatment activities that are based on CCISC program models that have been implemented in other jurisdictions and incorporate numerous evidence-based interventions.

The program includes:

- <u>Harm Reduction Interventions</u> that support engagement and build trust during the precontemplation and contemplation phases of treatment and at the same time promote individual and public safety. This is primarily accomplished via Motivational Enhancement Therapy interventions.
- Three Levels of Active Treatment
 - Level 1 -- Outpatient Treatment for clients who have maintained substantial stability in managing their behavioral health disorders.
 - Level II Intensive Outpatient Treatment is intended both to serve clients stepping down from more intensive levels or care and/or to provide more intensive supports to clients in a lower level of care.
 - Level III Day Treatment Day is provided for the highest need clients and again as a step down program and to prevent clients from needing higher levels of service.

This program leverages the limited funding available through this RFP with the treatment services and wraparound supports of HR360 to deliver multifaceted programming that incorporates numerous evidence-based practices so as to respond comprehensively to multiple needs of high-risk individuals.

Program Service Location: The MH OP program is located at 1563, 3rd floor Mission Street, San Francisco, CA.

D. Exit Criteria and Process: Mental Health Discharge Guidelines:

HR360 is committed to providing quality mental health services and substance abuse treatment to our clients with co-occurring disorders. However, if after a period of treatment, assessment, and clinical review by mental health and substance abuse treatment staff, a client is found to be inappropriate for the Adult Rehabilitation Program at HR360, Mental Health Discharge Guidelines will be implemented. Discharge from the program may occur under the following circumstances:

Completion of treatment: Completion of treatment is jointly determined by clinical staff, the client, and applicable, outside coordinating care managers. Decisions about the completion of treatment are informed by the status of goals on the treatment plan as well as behavioral and lifestyle markers. Ideally, a discharge plan should be developed at least two weeks before the completion of the program. The discharge plan will be coordinated with other mental health providers in the client's network of care and should address issues regarding continued mental health treatment, medication support, and linkage to other appropriate service providers for medical, vocational, educational, and housing needs.

Client elects to withdraw before the completion of treatment: In the event that the client chooses to withdraw from the program before the completion of significant treatment goals, a discharge plan should be developed. During a face-to-face session with the client, clinical staff will review the client's progress or lack thereof and offer appropriate referrals dealing with the above-mentioned areas. If the client was receiving medication services through the program, special care will be taken to ensure that the client does not experience a gap in services. In the event that the client suddenly withdraws from treatment and is not available to develop a treatment plan, every effort will be made to contact the client and offer them a face-to-face discharge planning session and follow up with the HR360 psychiatrist.

Client discharged by HR360 before completion of treatment: Clients who engage in threatening or assaultive behavior, repeatedly violate rules, destroy or steal property, or refuse to cooperate with treatment will be discharged from the. Clients and outside case managers will be notified of the discharge and a plan will be created in order to ensure continued services. The specific nature of these plans will be determined by the situation and the nature of the client's existing care network.

Transfer of Care Policy and Procedure: In the interest of ensuring continuity of care and in accordance with San Francisco Community Behavioral Health guidelines, HR360 Adult Mental Health Services maintains that any San Francisco County Medi-Cal eligible client who meets service necessity guidelines will have ongoing access to mental health services upon exiting treatment. At the time of a client's transfer from HR360 treatment services, the client will continue to be followed by their HR360 care manager who, in most cases, is his or her psychotherapist. This HR360 care manager will coordinate with any primary care manager the client may have. The care manager will facilitate transfer of services to another appropriate provider. In the event that a client is involuntarily discharged or elects to leave treatment prematurely (AWOL) and does not wish to refurn to treatment with HR360, that client will be referred to community resources, if possible. All clients who were prescribed psychotropic medications and are continuing to take those medications at the time of transfer will leave with three days' supply of medication. If clients have continued access to their medications. A short - term transition plan and case management will establish medication services outside of HR360 SOC.

6. Methodology

A. Describe how your program conducts outreach, recruitment, promotion, and advertisement.

Additional sources of referral will be community-based organizations such as the Japanese Community Youth Council (JCYC) and other members of the Asian Youth Prevention Services Consortium, including the Chinatown Youth Center, the Vietnamese Youth Development Center, and West Bay Filipino Multi-Service Center.

Appendix A- 14 Contract Term: 7/1/18-6/30/19

<u>Project Reconnect-MH</u>: Outreach for Project Reconnect-MH will be conducted by the youth treatment staff. Our primary sources of referral will be the San Francisco School District and the County. We will place a counselor in Hoover and Martin Luther King Jr. (MLK) Middle Schools, based on their identified need of mental health counseling services and the percentage of students from low income families. Using the program brochure and referral criteria form, the staff will outreach to school administrators, counselors, and teachers. The staff will attend staff meetings at schools to make her/himself visible and create opportunities to increase the understanding of mental health issues among adolescents and normalize help-seeking behaviors.

We will continue to strengthen our relationship with the San Francisco Unified School District Wellness Centers, the juvenile justice system in San Francisco, and the Log Cabin Ranch. These places will serve as an auxiliary source of referrals, especially during summer when schools are closed.

B. Describe your program's admission, enrollment and/or intake criteria and process where applicable.

We commit ourselves to provide a timely access to treatment to all potential clients referred to our program. If Project Reconnect is not able to enroll clients immediately, linkage services will be provided to ensure that the clients are connected to the appropriate programs.

<u>Project Reconnect-MH</u>: Admission criteria for Project Reconnect-MH are: Persons with mental health disorders; persons with alcohol and substance dependence/abuse problem (cannot be a primary diagnosis alone); San Francisco youths between the ages of 10 and 18 years old; and persons with Medi-Cal or Medi-Cal eligibility. During the intake process, all clients will be screened for mental health issues, a history of trauma and the level of substance use. All clients will be assessed using the Child Adolescent Needs and Strengths (CANS) and our own assessment which was developed based on GAIN-Quick. The CANS is a structured interview developed by The Praed Foundation that covers a range of areas, including: education, substance abuse, use of free time, leisure activities, peer relationships, family, psychiatric status, and legal history.

C. Describe your program's service delivery model and how each service is delivered, e.g. phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc.

Project Reconnect will offer a full continuum of services that ranges from intake through continuing care. Since individuals with mental heath issues often present with a more obvious and pressing substance abuse problem, all counselors will be cross-trained to help them increase their awareness of underlying mental health issues. Project Reconnect will provide case management services to youths and their parents/caretakers whenever necessary to maximize the benefits of counseling. Our program staff will closely work with South of Market Mental Health Clinic and Chinatown/North Beach Mental Health Clinic to serve clients needing psychiatric services including medication. We will also utilize a number of community services related to recreational activities, mentoring, and language specific services as needed.

Hours of Operation: We are open Monday through Friday, 9:00 a.m. - 5:30 p.m.

2 | P a g e Contract ID # 1000010457, BOS

Staffs have been trained in Motivational Interviewing, the Stages of Change, Motivational Enhancement Therapy, and Motivational Enhancement Therapy/Cognitive Behavioral Therapy (MET/CBT 5) and will continue to use the principles of those approaches in working with individual clients. In addition to these counseling approaches, our staffs will conduct weekly group sessions implementing the Seeking Safety treatment model.

Seeking Safety is a present-focused therapy to help people attain safety from trauma/PTSD and substance abuse. Seeking Safety is an integrated treatment model addressing some of the topics that are important and relevant to our youths such as Safety, PTSD: Taking Back Your Power, When Substances Control You, Honesty, Asking for Help, Setting Boundaries in Relationships, Getting Others to Support Your Recovery, Healthy Relationships, Community Resources, Compassion, Creating Meaning, Discovery, Integrating the Split Self, Recovery Thinking, Taking Good Care of Yourself, and Life Choices.

<u>Project Reconnect-MH</u>: As a school-based counseling program, all the services will be provided by AARS' experienced, bilingual, and culturally competent staff, all of whom will be either licensed or licensed-eligible mental health clinicians. This program will provide services using Trauma-Focused Cognitive Behavioral Therapy (TF-CBT). TF-CBT is an evidence-based treatment approach shown to help children, adolescents, and their caretakers overcome trauma-related difficulties. It is designed to reduce negative emotional and behavioral responses following child sexual abuse and other traumatic events. The treatment addresses distorted beliefs and attributions related to the abuse and provides a supportive environment in which children are encouraged to talk about their traumatic experience. TF-CBT also helps parents/caretakers who were not abusive to cope effectively with their own emotional distress and develop skills that support their children.

School-based individual and group counseling will be typically once a week, 30-45 minutes per individual session and minimum of 45 minutes per group session, with assigned counselor discussing emotional and behavioral difficulties, educational challenges, self-care skills, peer and family relationships, and treatment planning. When providing counseling in schools, many unexpected events (e.g., fights, taking tests, crises) can occur that will prevent the counselor to see clients regularly. Also, engagement of youths and their caretakers and obtaining all the necessary documentations for treatment could take a long time. Taking these into consideration, the service duration will be up to 9 months covering the full academic year.

Family contact is a very critical element of the outpatient program. The primary focus of family contact throughout the course of treatment and aftercare will be to educate them on mental health and substance abuse issues and the significant role that family members play in the counseling process. We will attempt to engage the parents in a supportive role by asking for their involvement in counseling when deemed appropriate and asking for their support of their children to fully participate in counseling. As a part of TF-CBT component, minimum of 3 sessions of collateral services will be provided.

D. Describe your program's exit criteria and process, e.g. successful completion, step-down process to less intensive treatment programs, aftercare, discharge planning.

At Project Reconnect, we measure success of a client who after enrollment, changes their behavior and achieve their treatment goals, ultimately leading up to a successful completion of the program. Prior to discharge, the client will meet with Case Manager/Counselor to discuss aftercare plan which will address issues of support system, relapse prevention and educational or vocational goals. At weekly clinical

consultation meetings, staff will review the progress of each client with the Program Manager and Clinical Supervisor and discuss discharge and aftercare planning whenever necessary to ensure our program maintains an appropriate level of service utilization for each client. All clients discharged may, when appropriate, return to Project Reconnect for aftercare and participate in special events and community activities.

When it is deemed that a client needs lower level of care, s/he will be referred to an appropriate service in the community such as mentorship program, tutorial, and secondary prevention program. Project Reconnect maintains close ties with South of Market Mental Health Clinic and Chinatown/North Beach Mental Health Clinic to serve clients needing psychiatric services including medication. Project Reconnect also utilizes a number of community services related to career planning, job training, and language specific services. These organizations include the City College of San Francisco, College of San Mateo, Personal Assisted Employment Services, and AACE counseling services.

6. Methodology

Women in San Francisco are informed about the services of the Women's Community Clinic through referral processes of other organizations, our web site, flyers, end listings in the phone book and service directories and by word of mouth. All services are affordable and accessible on a sliding fee scale.

The clinic is located at 1735 Mission Street in Son Francisco. It is on the ground floor and is ADA accessible. The Clinic is open 5 days per week, and has many evening hours:

Monday	Tuesday	Wednesday	Thursday	Friday
1:00 – 9:00 PM	9:00 – 5:00 PM	9:00-5:00 PM	1:00 – 9:00 PM	9:00-5:00 PM

Clients can call or stop by the clinic to schedule an appointment. Clients can now also request appointments through our patient portal, MyChart. Each client receives a reminder call one day prior to their scheduled appointment. A client is registered at the front desk by a front desk volunteer or staff member. She is given intake paperwork and asked to provide contact information and a complete health history. As port of the registration process, the client is screened for eligibility in the Family Planning Access Care and Treatment (Family P.A.C.T) program, a California program that funds family planning services for low income women and for eligibility for other insurance programs. An enrollment specialist is available on site to assist with MediCal and Covered CA enrollment.

Next, the client is seen by a volunteer health worker who determines the nature of the client's concern and provides health education relevant to the concern. The health educator takes vital signs, does routine domestic violence and sexual assault screening, and provides health-related education, including information about safer sex practices, STI's, and birth control options. The client is then seen by a licensed clinician who reviews the client's health history, performs a clinical exam as indicated, orders appropriate lab tests, and provides any indicated health education, prescriptions and/or referrals.

Upon checkout at the front desk, the client receives any necessary referral paperwork or handouts and may schedule a follow-up appointment. Clients are also asked to fill out a client satisfaction survey after check-out.

All clients are encouraged to call for lab results. Clients with abnormal labs receive a phone call within 72 hours of receipt of results from a clinician. The clinician discusses all of the client's options for treatment and provides referrals as necessary.

Appointments at Women's Community Clinic typically last 20-60 minutes, excluding wait time. Client confidentiality is emphasized to create a safe and supportive environment and HIPAA policies and protocols are in place.

8. Continuous Quality Improvement:

The Quality Improvement (QI) Program at Women's Community Clinic has undergone rapid and significant growth over the last three years. Since 2009, we have created QI infrastructure through the implementation of Acuere (our EMR data reporting mechanism), the establishment of a multi-level, multi-disciplinary QI team, and the enhancement of staff and volunteer involvement in QI work. This infrastructure has been instrumental to our ability to accurately measure and improve clinical outcomes and reduce operational inefficiencies. Over the next two years Women's Community Clinic will advance our QI program and improve health outcomes by 1) improving the integration of primary core related metrics into our QI programming, 2) Continuing to implement recommendations about Coleman Rapid Dramatic Practice Improvement, 3) Enhancing our use of dashboards and improved data visualization tools to facilitate Board, Staff and Management Team interaction with data and 4) Working towards shored QI goals and outcomes with other Consortium Clinics and DPH through a system wide San Francisco Foundation grant.

Leveraging Data as a QI Tool

1977 - Anna Anna Anna Anna Anna

Women's Community Clinic recognizes that supporting a robust QI program requires ongoing promotion of a strong QI culture and infrastructure. Over the next two years the Clinic will deepen the institutionalization of QI by leveraging data to 1) create a robust QI accountability

structure and 2) augment staff, volunteer, Board and client involvement in Ql. Our capacity to measure and monitor clinical outcomes and other QI indicators has blossomed over the past years with the implementation of data systems like Acuere, Women's Community Clinic intends to utilize data for greater impact by developing standardized monitoring and evaluation processes, fostering "data literacy," and using data as a tool to engage staff and motivate change. For example, by coupling dote management with panel management (discussed below) we can examine outcomes at the provider level and further involve the provider in the QI process.

QI Accountability Structure: In addition to implementing Acuere and our patient portal, MyChart, the Clinic is increasing its capacity around data validation. We have also expanded our use of our electronic patient experience survey. These IT tools will support the development of standardized QI metrics and the ongoing improvement of a clinic dashboard for interpreting our quality progress and providing organization-wide transparency.

Data Literacy: Women's Community Clinic also wants to utilize data to foster staff and volunteer involvement in QI because improving outcomes is not possible without broad stakeholder engagement. Our unique volunteer model necessitates ongoing training because volunteer cohorts are rotated through the Clinic every six months. This project will complement our existing QI training curriculum by increasing "data literacy" and further integrating QI into the fabric of day-to-day life at the Clinic. To accomplish this, we aim to expand QI communication through 1) regular updates of the QI data display in a high-traffic hallway, 2) continuation of a QI column in our weekly internal newsletter, and 3) more regular QI updates at clinical staff, Board and client advisory council (CAC) meetings, with an emphasis on data as a QI tool. We hope these efforts will engage staff, foster buy-in for QI initiatives and ultimately improve clinical and process outcomes.

Panel Management Implementation & Enhanced Access

While Women's Community Clinic increases our capacity to leverage our data resources, we are poised to simultaneously move forward on the QI continuum through enhanced panel management and improved team based care infrastructure. This population based approach to core allows clinicians to direct proactive core for an assigned panel (or group) of clients and leverages data and other members of the core team to conduct timely outreach around screening and other preventive services. Enhancing our panel management tools and improving patient access requires striking a delicate balance between supply and demand to ensure that each provider and their team has the capacity to offer quality health care to their entire panel. Through our work with Coleman Rapid DPI, we hope to improve our capacity to enhance access while effectively managing our patient panels.

Because we are a largely volunteer-based model, panel management end the enhancement of access are exciting challenges. In fact, other agencies, such as the California Family Health Council (CFHC) have expressed interest in what empanelment might look like in o women's health setting and in alternative service delivery models such as ours. We hope that our efforts to implement panel management will serve as o resource to inform other clinics as we all strive to become health homes for our patients. We have conducted research to determine which best practices apply to our unique model, and in the next two years, Women's Community Clinic will 1) conduct planning related to supply and demand, panel size, care team design, scheduling policies, and health information technology (HIT) enhancement, 2) develop policies and procedures and required data definitions and reports, and 3) enhance access through the development of an enhanced health care delivery team. In

late 2014, with the implementation of the EHR, the Clinic started this process by assigning patients to a panel, according to an agreed upon protocol, as we entered them into our electronic system.

An institutionalized QI program that is supported by IT, successfully leverages data, and empanels patients to a core team and enhances access to care will allow Women's Community Clinic to shift further from reactive health care delivery toward proactive population health management. This shift will result in effective delivery of preventive health services and improved management of care, ultimately leading to improved health outcomes, including higher cervical cancer screening and STI screening rates. The Clinic acknowledges that improving screening outcomes will require a strong focus on increasing client access to services.

EHR and Primary Care

In 2014, the Clinic expanded services to offer full scope primary care, a complement to our sexual and reproductive health services specialty and implemented the OCHIN-Epic Electronic Health Record system which enables us to interact with clients through a patient portal, enhance our date collection and perform many of our referrals, lobs and pharmacy interactions electronically. We continue in 201 6-2017 to develop our primary core infrastructure and health care delivery systems-creating increased integration of sexual and reproductive health care services with primary care services.

Client Satisfaction

Women's Community Clinic conducts on ongoing Client Experience Survey based on CAHPS Clinician and Group Survey. The survey is available electronically (via Survey Monkey) on a workstation in the Clinic's waiting room. Clients are invited to complete the survey upon checkout. The survey typically has 6-8 multiple choice questions, as well as a section where the client can leave free-text comments. Questions ore rotated frequently to obtain input from consumers about the various components of service delivery without making any one version of the survey too long. The survey format is also use~ to gain a deeper understanding of the healthcare needs of our clients. Clinical staff and the QI committee review results regularly and discuss potential PDSAs for improvements.

Staff Supervision, Training and Volunteer Based Model

The Clinic Director provides oversight of clinical services, and is responsible for the medical component of the program and clinical operations. The Clinic Manager is charged with administrative supervision of the Medical Assistants, Health Educators, and Client Services Coordinators. All follow up care and any abnormal test results ore tracked by our clinic staff. The Clinic has a paid staff of over 30 people including three paid Nurse Practitioners, three paid Certified Nurse Midwives, one RN, one Medical Assistant, a Clinic Director, Clinic Manager, and two Medical Directors (OBGYN and Internist) along with other Program and Administrative Staff including an Outreach Coordinator and Volunteer Director. The Clinic also has on active Board which oversees the operations of the Clinic and act as community spokespeople and fund raisers.

The Health Educators and Client Services Coordinators who work closely with clients in a variety of capacities, such as client intake and education, ore predominantly volunteers. The Clinic is host to over 150 volunteers who provide services to clients in a variety of capacities. This amounts to approximately \$350,000 in cost savings per year. Additionally, over 80% of our volunteer alumni

enter into the health professions after their experience volunteering at the Clinic. The Clinic considers itself a training ground for future health core leaders who will enter into their careers with a strong grounding in community health and harm reduction based services.

The staff training plan includes scheduled training in alternating months conducted during clinical staff meetings, and additional educational leave for staff to attend conferences and workshops. Volunteers receive both initial and ongoing training which is a requirement of their volunteer experience at the Women's Community Clinic. The level of training varies according to the volunteer role. In accordance with rules and regulations which govern Women's Community Clinic, certain training such as HIPAA, Cal OSHA requirements and yearly training on Infection Control are mandatory for all clinic staff. Additionally, in 2015-16, the Clinic has implemented a staff training program focused around cultural inclusion and racism - with a focus on our organization as well as our client and community facing programming.

Harm Reduction Model

Women's Community Clinic's approach integrates o Harm Reduction model within its services. In essence, this model calls for the basic Social Work premise of starting "where the client is at." Harm reduction principals are endorsed and practiced by all Women's Community Clinic staff and all staff and volunteers are trained in the harm reduction model of care. The Clinic serves many clients who ore active substance users and who may or may not be ready to stop their substance use or may not want to stop their substance use. These clients are also at various places along the continuum of the "stages of change." As a care provider, the main concern is helping clients to maintain and maximize the benefits of medical care. Clients ore routinely assessed for substance use and those who express interest in obtaining treatment are assisted by the health care provider or outreach worker in accessing available services. For clients who indicate that they are not ready or do not wish to stop their substance use, they are provided with non-judgmental assistance use. This includes education on using clean syringes for injection drug use, information about needle exchange sites. and hours of operation, education about nutrition, and how to avoid dehydration for those who consume stimulants such as crystal methamphetamine and crack cocaine.

Data Management

The Women's Community Clinic tracks UOS and UDC through OCHIN-Epic, our EHR system. Client data is all collected in this patient management system and reporting is done through our EHR reporting mechanism, Acuere, Currently the system is capable of reporting on financial measures relating to patient visits and billing, patient demographics, health outcomes and quality measures and units of service among other things. The reports in Acuere ore being enhanced to include more management and financial reports that will facilitate effective Clinic operations that are aligned with the Triple Aim.

Appendix G Dispute Resolution Dispute Resolution Procedure For Health and Human Services Nonprofit Contractors 9-06

Introduction

The City Nonprofit Contracting Task Force submitted its final report to the Board of Supervisors in June 2003. The report contains thirteen recommendations to streamline the City's contracting and monitoring process with health and human services nonprofits. These recommendations include: (1) consolidate contracts, (2) streamline contract approvals, (3) make timely payment, (4) create review/appellate process, (5) eliminate unnecessary requirements, (6) develop electronic processing, (7) create standardized and simplified forms, (8) establish accounting standards, (9) coordinate joint program monitoring, (10) develop standard monitoring protocols, (11) provide training for personnel, (12) conduct tiered assessments, and (13) fund cost of living increases. The report is available on the Task Force's website at http://www.sfgov.org/site/npcontractingtf_index.asp?id=1270. The Board adopted the recommendations in February 2004. The Office of Contract Administration created a Review/Appellate Panel ("Panel") to oversee implementation of the report recommendations in January 2005.

The Board of Supervisors strongly recommends that departments establish a Dispute Resolution Procedure to address issues that have not been resolved administratively by other departmental remedies. The Panel has adopted the following procedure for City departments that have professional service grants and contracts with nonprofit health and human service providers. The Panel recommends that departments adopt this procedure as written (modified if necessary to reflect each department's structure and titles) and include it or make a reference to it in the contract. The Panel also recommends that departments distribute the finalized procedure to their nonprofit contractors. Any questions for concerns about this Dispute Resolution Procedure should be addressed to purchasing@sfgov.org.

Dispute Resolution Procedure

The following Dispute Resolution Procedure provides a process to resolve any disputes or concerns relating to the administration of an awarded professional services grant or contract between the City and County of San Francisco and nonprofit health and human services contractors.

Contractors and City staff should first attempt to come to resolution informally through discussion and negotiation with the designated contact person in the department. However,

Contract ID # 1000010457, BOS Appendix G

notwithstanding the foregoing, nothing shall diminish the parties' rights to seek any and all other legal or equitable remedies.
