ORDINANCE NO.

1	[Solar Energy Incentive Program.]
2	
3	Ordinance amending the San Francisco Environment Code by amending Sections 18.3,
4	18.4, 18.6, 18.7-1, 18.7-2, 18.7-3, 18.7-4, and 18.7-6, and by repealing Section 18.7-7, to
5	increase the incentives available to low-income and non-profit applicants under the
6	Solar Energy Incentive Program and to make technical changes to program
7	requirements.
8	Note: Additions are <u>single-underline italics Times New Roman</u> ; deletions are strikethrough italics Times New Roman .
9	Board amendment additions are double underlined.
10	Board amendment deletions are strikethrough normal.
11	Be it ordained by the People of the City and County of San Francisco:
12	Section 1. The San Francisco Environment Code is hereby amended by amending
13	Sections 18.3, 18.4, and 18.6, to read as follows:
14	SEC. 18.3. TYPES OF SYSTEMS ELIGIBLE FOR ASSISTANCE.
15	(a) Photovoltaic panel systems. Photovoltaic panel systems that produce electricity
16	from sunlight, installed on <i>existing</i> single and multifamily residential, commercial, and industrial
17	buildings, with generating capacity of at least one (1) kilowatt are eligible for assistance under
18	this program.
19	(b) Other systems. The Program Administrator may extend program eligibility to
20	other types of customer-owned distributed renewable energy generation systems, so long as
21	such an extension is accompanied by publication of criteria for allocating incentive payments
22	for such purpose and the limits on such incentives. Such an extension must be accompanied
23	by analysis demonstrating that the projected positive market effects of the incentive on the in-
24	City market for the development of renewable energy and energy efficiency are comparable to
25	those attributes of the photovoltaic panel program.

1

(c) **No limit on generating capacity.** There shall be no maximum generating capacity limitation on systems that are eligible for the incentive.

3

2

4 SEC. 18.4. LIMITS ON AMOUNTS OF ASSISTANCE.

(a) Limits for all types of systems. No applicant may receive assistance in excess
of the cost to design, purchase and install the system, net of incentives, rebates, tax credits or
other payments received from other governmental entities. *Regardless of system generating capacity, no applicant may receive assistance in excess of ten thousand dollars (\$10,000).*

9

(b) Limits for photovoltaic panel systems for residential property.

10 (i) Except as further provided in this clause (b), no residential applicant may 11 receive assistance in excess of three thousand dollars (\$3,000) toward the cost to design, 12 purchase and install photovoltaic panels. If the property is a multifamily residential project, the 13 applicant may apply for and receive an incentive payment corresponding to each electricity 14 meter served by the system, so long as the system provides each such electricity meter with a generating capacity of at least one (1) kilowatt or financial credits that result from a generating 15 16 capacity of at least one (1) kilowatt from the energy generation system sufficient to satisfy the 17 requirements of Section 18.3(a). 18 (ii) The limit of assistance shall be \$4,000 for systems installed by an individual, firm or 19 organization whose principal office or offices are located within the City. If in implementing the 20 program the Program Administrator determines that the terms of this clause do not provide the 21 intended stimulus for the in-City installation industry, then the Program Administrator may establish

22 *new criteria that it deems more effective in achieving the in-City job creation and installation market*

23 *objectives of the program.*

24 (*iii*)(*ii*) The limit of assistance shall be \$5,000 for applicants residing in an
 25 Environmental Justice District, as such district or districts are determined by the Program

3	fixed income households, or for building owners that are recipients of the California Department of
4	Housing and Community Development's CalHome loan program, which provides low-interest, deferred
5	rehabilitation loans to low-income homeowners.
6	(iii) CARE and CalHome participants or participants in the CPUC Low Income
7	program under CSI, as well as households with incomes that are certified by the Mayor's Office of
8	Housing pursuant to Section 18.7-5, shall be eligible for an additional \$5000 if the application for the
9	low income incentive is received before February 1, 2009.
10	(iv) CARE and CalHome participants or participants in the CPUC Low Income
11	program under the CSI, as well as households with incomes that are certified by the Mayor's Office of
12	Housing pursuant to Section 18.7-5, shall be eligible for an additional \$7000 if the application for the
13	low income incentive is received by the Program Administrator on or after February 1, 2009.
14	(iv)(v) The limit of assistance shall be \$6,000 for systems installed by an
15	individual trained under the City workforce development program. <u>The Department of Economic</u>
16	<u>& Workforce Development, which directs the City's overall workforce development efforts, will be</u>
17	responsible for developing and ensuring compliance with workforce criteria for this incentive program.
18	These criteria may include, but are not limited to: a minimum requirement for hours worked on the
19	solar installation by an individual hired through the City workforce development system; a requirement
20	that individuals hired through the City workforce development system perform skilled work on the
21	installation; workforce training program or system prioritization of San Francisco residents who are
22	low income and/or have barriers to employment; and other standards for workforce system programs.
23	If in implementing the incentive program, the Program Administrator and the Department of Economic
24	and Workforce Development determine that the terms of this clause do not provide the intended
25	stimulus for the successful placement of workers trained under local workforce development programs,
	Supervisor Mirkarimi Page 3

Administrator, or for applicants that are recipients of the California Public Utilities Commission's

CARE (California Alternative Rates for Energy) rates that provide rate discounts for qualified low or

1

2

1	then the Program Administrato	r in coordination	with the Dep	partment of	Economic and	<i>Workforce</i>
	· · ·			•		•

- 2 <u>Development may establish new criteria that it deems more effective in achieving such objectives of the</u>
- 3 *program.* If in implementing the incentive program the Program Administrator determines that the
- 4 *terms of this clause do not provide the intended stimulus for the successful placement of workers*
- 5 *trained under the City's workforce development program, then the Program Administrator may*
- 6 *establish new criteria that it deems more effective in achieving such objectives of the program.*
- 7 (vi) An incentive applicant whose system is installed by an individual, firm or
- 8 organization whose principal office or offices are located within the City shall be eligible for an
- 9 *additional incentive up to \$1000, subject to the limitations of Section 18.3. If in implementing the*

10 program the Program Administrator determines that the incentive identified in this paragraph does not

11 provide the intended stimulus for the in-City installation industry, then the Program Administrator may

12 *amend the terms of this incentive to make it more effective in achieving the in-City job creation and*

- 13 *installation market objectives of the program.*
- 14 (c) Limits for photovoltaic panel systems for commercial, industrial or
- 15 **manufacturing property.** No applicant may receive assistance in excess of \$1,500 per

16 kilowatt of electric power a photovoltaic panel system is designed to generate. <u>*Regardless of*</u>

17 <u>system generating capacity, no applicant may receive assistance in excess of ten thousand dollars</u>

- 18 <u>(\$10,000).</u>
- 19

(d) Adjustments in limits.

- (i) The Program Administrator may adjust limits on the incentives paid for
 systems installed on commercial, industrial or manufacturing property upon a finding that such
 an adjustment advances the objectives of the program. Such adjustments may include an
 increase in the limit on the incentive paid in respect of (A) systems installed within an
 Environmental Justice District or (B) systems installed by an individual, firm or organization
- 25

with an office or offices within the City (or bearing some other linkage to the in-City installation
market as deemed appropriate by the Program Administrator).

3 (ii) Upon a demonstration of a reduction in average costs of solar
4 improvements, including but not limited to an increase in incentives, rebates, tax credits or
5 other payments provided by other government entities that serve to reduce the system costs
6 borne by the consumer, the SFPUC shall have the discretion to decrease the limits set forth
7 above by an amount reflective of the reduced need for the incentive payments.

8 (iii) With the concurrence of the Board of Supervisors, the Program
9 Administrator may increase any of the limits set forth in this Section in connection with efforts
10 to stimulate the development of a competitive in-City solar market, such as the establishment
11 of an in-City photovoltaic panel production facility.

- 12
- 13

SEC. 18.6. PROGRAM ADMINISTRATION.

(a) The program will be administered by the Program Administrator, which shall be the
 SFPUC, acting by and through its Power Enterprise. SFPUC shall coordinate administration of
 the Solar Energy Incentive Program with the implementation and administration of CCA to
 maximize its efficiency in achieving the renewable energy expansion goals contemplated
 under CCA.

19 (b) The Program Administrator shall develop rules and application procedures.

(c) The Program Administrator shall establish reasonable eligibility criteria for the
incentive payments so that the program is available to all applicants within the City regardless
of their customer relationship with any particular electric service provider. For ease of
administration these criteria shall be deemed satisfied when an applicant provides appropriate
evidence that the applicant is entitled to payments under the California Solar Initiative as
authorized by the California Public Utilities Commission and the State of California under SB1

1 (Chapter 132, Statutes of 2006) (as such program may be amended from time to time, the 2 "California Solar Initiative"); provided, however, that demonstrating eligibility for the California 3 Solar Initiative shall not be the sole means of establishing eligibility. The Program 4 Administrator shall also establish reasonable and clear eligibility criteria for approving 5 incentive payments to applicants who are not beneficiaries of the California Solar Initiative, 6 which criteria shall include (but are not limited to) confirmation that the applicant has installed 7 the system in compliance with all applicable laws, including Department of Building Inspection 8 inspection and approvals.

9 (d) If there are applications for assistance in excess of appropriated funds, the 10 Program Administrator shall grant applications in the order they were filed. The Program 11 Administrator shall develop a reservation system which will allow applicants to request that 12 the Program Administrator reserve funds for a proposed project. Such reservation system 13 may be patterned after that utilized by the California Solar Initiative.

(e) The Program Administrator shall maintain annual program funding as identified
within the SFPUC Power Enterprise budget as the Solar Energy Incentive Fund. At the end of
each fiscal year, any program funds that were not expended shall be carried forward to the
next fiscal year. Upon a finding as to the continuing effectiveness of the Solar Energy
Incentive program in achieving its objectives such funds shall be appropriated then or
thereafter for the purposes specified in this Chapter.

(f) The Program Administrator shall determine and implement payment procedures for
incentives under the program. Such payment procedures may include the option to make
payments on applicants' behalf directly to installers or other *<u>contractors entities</u>*. *in connection with their work on the system*. Such payments shall not be considered contracts or grants of the
City for any City procedural contracting ordinances, and no requirements shall be imposed as
a condition of receipt of such incentive payments aside from those specifically referenced in

this ordinance and as necessary to protect the City from legal liabilities and promote the goalsof this ordinance.

3 (g) The Program Administrator shall monitor the effective costs of renewable energy
4 system installation and other related market information for purposes of making the
5 adjustments described in Section 18.4(d)(ii).

- (h) The Program Administrator shall establish boundaries for any Environmental
 Justice District identified for purposes of Section 18.4(b)(iii). Any such district shall satisfy the
 goals, objectives and definitions of environmental justice and Environmental Justice Districts,
 as such concepts are set forth at any given time under state and local law.
- 10 (i) <u>The Program Administrator shall submit to the Board of Supervisors a status report on the</u>

11 *first six-months of the program, within 45 days of the end of the first six months of the program. The*

12 <u>Program Administrator may submit an interim status report upon the exhaustion of either of the</u>

13 *funding pools described in Section 18.7-5 and shall otherwise provide written monthly status reports.*

14 The Program Administrator shall submit to the Board of Supervisors a report evaluating the

15 first year of program operation, within 90 days after the end of the first year. The report shall

16 provide an analysis of the impacts of the program, including, without limitation, the number

17 and location by district of the projects funded, the amount of energy generated by the projects,

18 and the amount of time and money spent on program administration. The report shall

19 evaluate the economic and other benefits of the program and provide a cost-benefit analysis.

20 The data and analysis presented in this report shall inform future program funding, operation,

- and amendments.
- 22

23

(j) In the context of funding appropriations for this program in future years, the Board of Supervisors will

24

25

(i) Consider the Program Administrator's first-year report, identified in subsection 18.6 (i) above;

1		(ii) Review and approve the Environmental Justice District boundaries
2	established	by the Program Administrator pursuant to subsection 18.6 (h);
3		(iii) Review and approve any new or modified criteria or incentives established
4	by the Prog	ram Administrator.
5		
6	Secti	on 2. The San Francisco Environment Code is hereby amended by naming
7	Chapter 18.	7 the "Solar Energy Incentive Pilot Program," and by amending Sections 18.7-1,
8	18.7-2, 18.7	7-3, 18.7-4, and 18.7-6, to read as follows:
9		
10	Section 18	.7-1. FINDINGS
11	Α.	California has set a goal to create 3,000 megawatts (MW) of new, solar-
12	produced el	ectricity by 2017, moving the state toward a cleaner energy future and helping
13	lower the co	ost of solar systems for consumers.
14	В.	The California Public Utilities Commission, through its California Solar Initiative
15	(CSI), provi	des \$2.2 Billion in incentives over the next decade for existing residential homes
16	and existing	and new commercial, industrial, and agricultural properties of which 10% will be
17	set aside to	assist installation of solar for low-income residents and affordable housing
18	developmer	nts.
19	C.	On November 17, 2007, the CPUC adopted the CSI Single-Family Low-Income
20	Incentive Pr	ogram. The Single-Family Low-Income Incentive Program will provide incentives
21	for solar PV	systems from \$4.75 to \$7.00 per watt to qualifying low-income homeowners. The
22	Program wi	Il also provide full-subsidy systems to very low-income households who financed
23	their home	through local, state and federal housing assistance programs and whose
24	household i	ncome is at or below the 50 percent of the area median income.
25		

D. The CSI Single-Family Low-Income Program will not begin accepting
applications until after a statewide Program Manager has been selected. A Request For
Proposals for the CSI Single-Family Low-Income Program Manager was released on April
16th, 2008 and the final date for Proposal submission is May 28th, 2008. Once the Program
Manager is selected, the Single-Family Low-Income Program will be implemented throughout
the state of California and will assist applicants in determining their individual eligibility.

E. Establishing a *one-year* pilot program will enable the City to immediately
implement this program and evaluate the effectiveness of the program and determine the best
policy for allocation of public funds before deciding how or whether to continue the program.

10

11 SEC. 18.7-2. INCENTIVE PAYMENTS.

12 (a) A pilot program is established for a period of one-year from the date of this

13 ordinance *or until funds allocated under Section 18.7-5 are expended*. The incentives paid under

14 this program shall not exceed the amounts set forth in Section 18.7-5 below.

15 (b) Applicants must be the owner of a system installed on or after December 11,

16 2007, to be eligible to receive the incentive.

17

18 SEC. 18.7-3. TYPES OF SYSTEMS ELIGIBLE FOR ASSISTANCE.

(a) Photovoltaic panel systems. Photovoltaic panel systems that produce electricity
 from sunlight, installed on *existing* residential buildings, with generating capacity of at least one
 (1) kilowatt are eligible for assistance under this program.

(b) Other systems. The Program Administrator may extend program eligibility to
 customer-owned distributed renewable energy generation systems other than photovoltaic
 panel systems, so long as such an extension is accompanied by publication of criteria for
 allocating incentive payments for such purpose and the limits on such incentive. Such an

extension must be accompanied by analysis demonstrating that the projected positive market
effects of the incentive on the in-City market for the development of renewable energy and
energy efficiency are comparable to those attributes of the photovoltaic panel program.

4

(c) **No limit on generating capacity.** There shall be no maximum generating capacity limitation on systems that are eligible for the incentive.

6

5

7 SEC. 18.7-4. LIMITS ON AMOUNTS OF ASSISTANCE.

8 (a) **Limits for all types of systems.** No applicant may receive assistance in excess 9 of the cost to design, purchase and install the system, net of incentives, rebates, tax credits or 10 other payments received from other governmental entities.

11

(b) Limits for photovoltaic panel systems.

12 (i) Except as further provided in this clause (b), no residential applicant may 13 receive assistance in excess of three thousand dollars (\$3,000) toward the cost to design. 14 purchase and install photovoltaic panels. If the property is a multifamily residential project, the 15 applicant may apply for and receive an incentive payment corresponding to each electricity 16 meter served by the system, so long as the system provides each such electricity meter with a 17 generating capacity of at least one (1) kilowatt or financial credits that result from a generating 18 capacity of at least one (1) kilowatt from the energy generation system sufficient to satisfy the 19 requirements of Section 18.7-3(a). 20 (ii) The limit of assistance shall be \$4,000 for systems installed by an individual, firm or 21 organization whose principal office or offices are located within the City. If in implementing the 22 program the Program Administrator determines that the terms of this clause do not provide the 23 intended stimulus for the in-City installation industry, then the Program Administrator may establish 24 new criteria that it deems more effective in achieving the in-City job creation and installation market

25 *objectives of the program.*

1 (*iii*)(*ii*) The limit of assistance shall be \$5,000 for applicants residing in an 2 Environmental Justice District, as such district or districts are determined by the Program 3 Administrator, or for applicants that are recipients of the California Public Utilities 4 Commission's CARE (California Alternative Rates for Energy) rates that provide rate 5 discounts for gualified low or fixed income households, or for building owners that are 6 recipients of the California Department of Housing and Community Development's CalHome 7 loan program, which provides low-interest, deferred rehabilitation loans to low-income 8 homeowners. 9 (iii) CARE and CalHome participants or participants in the CPUC Low 10 Income program under CSI, as well as households with incomes that are certified by the 11 Mayor's Office of Housing pursuant to Section 18.7-5, shall be eligible for an additional \$5000 12 if the application for the low income incentive is received before February 1, 2009, subject to the 13 limitations of Section 18.7-4(a) above. 14 (v) (iv) CARE and CalHome participants or participants in the CPUC Low Income 15 program under the CSI, as well as households with incomes that are certified by the Mayor's Office of 16 Housing pursuant to Section 18.7-5, shall be eligible for an additional \$7000 if the application for the 17 low income incentive is received by the Program Administrator on or after February 1, 2009, subject to 18 *the limitations of Section 18.7-4(a) above.* 19 (v) The limit of assistance shall be \$6,000 for systems installed by individuals 20 trained through the City's workforce development system. The Department of Economic & 21 Workforce Development, which directs the City's overall workforce development efforts, will 22 be responsible for developing and ensuring compliance with workforce criteria for this 23 incentive program. These criteria may include, but are not limited to: a minimum requirement 24 for hours worked on the solar installation by an individual hired through the City workforce 25 development system; a requirement that individuals hired through the City workforce

1 development system perform skilled work on the installation; workforce training program or 2 system prioritization of San Francisco residents who are low income and/or have barriers to 3 employment; and other standards for workforce system programs. If in implementing the 4 incentive program, the Program Administrator and the Department of Economic and 5 Workforce Development determine that the terms of this clause do not provide the intended 6 stimulus for the successful placement of workers trained under local workforce development 7 programs, then the Program Administrator in coordination with the Department of Economic 8 and Workforce Development may establish new criteria that it deems more effective in 9 achieving such objectives of the program.

- 10 (v) (vi) An incentive applicant whose system is installed by an individual, firm or
- 11 *organization whose principal office or offices are located within the City shall be eligible for an*
- 12 *additional incentive up to \$1000, subject to the limitations of Section 18.3. If in implementing the*
- 13 program the Program Administrator determines that the incentive identified in this paragraph does not
- 14 *provide the intended stimulus for the in-City installation industry, then the Program Administrator may*
- 15 *amend the terms of this incentive to make it more effective in achieving the in-City job creation and*
- 16 *installation market objectives of the program.*
- (c) Limits for photovoltaic panel systems for non-residential buildings owned by nonprofits *and non-residential buildings occupied by non-profits and owned by governmental entities.* No
 applicant may receive assistance in excess of \$1,500 per kilowatt of electric power a
 photovoltaic panel system is designed to generate.
- (d) Limits for photovoltaic panel systems for multi-unit residential buildings that are
 owned and operated by non-profit organizations. No applicant may receive assistance in
 excess of \$4,500 per kilowatt of electric power a photovoltaic panel system is designed to
 generate. Regardless of system generating capacity, no applicant may receive assistance in
 excess of *thirty two-hundred fifty thousand dollars* (\$30,000250,000). Buildings owned by for-profit

1 *entities may be eligible for the incentive designated in this paragraph if at least 75% of the residential*

2 <u>units, excluding a manager's unit, are designated as affordable housing units under a Federal, State, or</u>

3 local government restriction recorded against the property on which the building is located in a

4 *manner that maintains affordability for a term no less than 50 years.*

5

(e) Adjustments in limits.

6 (i) If the program is continued after the one-year pilot, the Program 7 Administrator may adjust limits on the incentives paid for systems installed on commercial. 8 industrial or manufacturing property upon a finding that such an adjustment advances the 9 objectives of the program. Such adjustments may include an increase in the limit on the 10 incentive paid in respect of (A) systems installed within an Environmental Justice District or 11 (B) systems installed by an individual, firm or organization with an office or offices within the 12 City (or bearing some other linkage to the in-City installation market as deemed appropriate 13 by the Program Administrator).

(ii) Upon a demonstration of a reduction in average costs of solar
improvements, including but not limited to an increase in incentives, rebates, tax credits or
other payments provided by other government entities that serve to reduce the system costs
borne by the consumer, the SFPUC shall have the discretion to decrease the limits set forth
above by an amount reflective of the reduced need for the incentive payments.

(iii) With the concurrence of the Board of Supervisors, the Program
Administrator may increase any of the limits set forth in this Section in connection with efforts
to stimulate the development of a competitive in-City solar market, such as the establishment
of an in-City photovoltaic panel production facility.

23

24 SEC. 18.7-6. PROGRAM ADMINISTRATION.

25

(a) The program will be administered by the Program Administrator, which shall be the
SFPUC, acting by and through its Power Enterprise. SFPUC shall coordinate administration of
the Solar Energy Incentive Pilot Program with the implementation and administration of CCA
to maximize its efficiency in achieving the renewable energy expansion goals contemplated
under CCA.

6

(b) The Program Administrator shall develop rules and application procedures.

7 (c) The Program Administrator shall establish reasonable eligibility criteria for the 8 incentive payments so that the program is available to all applicants within the City regardless 9 of their customer relationship with any particular electric service provider. For ease of 10 administration these criteria shall be deemed satisfied when an applicant provides appropriate 11 evidence that the applicant is entitled to payments under the California Solar Initiative as 12 authorized by the California Public Utilities Commission and the State of California under SB1 13 (Chapter 132, Statutes of 2006) (as such program may be amended from time to time, the 14 "California Solar Initiative"); provided, however, that demonstrating eligibility for the California 15 Solar Initiative shall not be the sole means of establishing eligibility. The Program 16 Administrator shall also establish reasonable and clear eligibility criteria for approving 17 incentive payments to applicants who are not beneficiaries of the California Solar Initiative, 18 which criteria shall include (but are not limited to) confirmation that the applicant has installed the system in compliance with all applicable laws, including Department of Building Inspection 19 20 inspection and approvals.

(d) If there are applications for assistance in excess of appropriated funds, the
Program Administrator shall grant applications in the order they were filed. The Program
Administrator shall develop a reservation system which will allow applicants to request that
the Program Administrator reserve funds for a proposed project. Such reservation system
may be patterned after that utilized by the California Solar Initiative.

1 (e) The Program Administrator shall determine and implement payment procedures for 2 incentives under the program. Such payment procedures may include the option to make 3 payments on applicants' behalf directly to installers or other *contractors entities*. *in connection* 4 with their work on the system. Such payments shall not be considered contracts or grants of the 5 City for any City procedural contracting ordinances, and no requirements shall be imposed as 6 a condition of receipt of such incentive payments aside from those specifically referenced in 7 this ordinance and as necessary to protect the City from legal liabilities and promote the goals of this ordinance. 8

9 (f) The Program Administrator shall monitor the effective costs of renewable energy
10 system installation and other related market information for purposes of making the
11 adjustments described in Section 18.7-4(e)(i).

(g) The Program Administrator shall establish boundaries for any Environmental
Justice District identified for purposes of Section 18.7-4(b)(iii). Any such district shall satisfy
the goals, objectives and definitions of environmental justice and Environmental Justice
Districts, as such concepts are set forth at any given time under state and local law.

(h) The Program Administrator shall submit to the Board of Supervisors a status report
on the first six-months of the pilot program, within 45 days of the end of the first six months of
the program. The Program Administrator may submit an interim status report upon the
exhaustion of either of the funding pools described in Section 18.7-5 and shall otherwise
provide written monthly status reports.

(i) The Program Administrator shall submit to the Board of Supervisors a report
evaluating the one-year pilot program, within 90 days after the end of the first year. The
report shall provide an analysis of the impacts of the program, including, without limitation, the
number and location by district of the projects funded, the amount of energy generated by the
projects, and the amount of time and money spent on program administration. The report

1	shall evaluate the economic and other benefits of the program and provide a cost-benefit
2	analysis. The data and analysis presented in this report shall inform future program funding,
3	operation, and amendments.
4	(j) In the context of considering appropriations for a solar incentive program in future
5	years, the Board of Supervisors will
6	(i) Consider the Program Administrator's first-year report, identified in
7	subsection 18.7-6(i) above;
8	(ii) Review and approve the Environmental Justice District boundaries
9	established by the Program Administrator pursuant to subsection 18.7-6(h);
10	(iii) Review and approve any new or modified criteria or incentives established
11	by the Program Administrator.
12	
13	Section 3. The San Francisco Environment Code is hereby amended by repealing
14	Section 18.7-7 in its entirety.
15	SEC. 18.7-7. MODIFICATIONS TO THE LONG-TERM SOLAR ENERGY INCENTIVE
16	PROGRAM.
17	(a) This one-year pilot program shall be in addition to the long-term solar energy incentive
18	program established by Ordinance No. 102-08, in File No. 071679.
19	(b) The monthly and six-month reports established in Section 18.7-6(h) of this Ordinance shall
20	be applicable to the long-term solar energy incentive program established by Ordinance No. 102-08, in
21	File No. 071679.
22	(c) The incentive payment limits established in Sections 18.7-4(b)(iii), (iv), and (v) of this
23	Ordinance shall be applicable to the long-term solar energy incentive program established by
24	Ordinance No. 102-08, in File No. 071679.
