[Petitions for City Parcels - Renew and Expand the Proposed Civic Center Community Benefit District]

## Resolution authorizing the Mayor to sign petitions in the affirmative for the proposed renewal and expansion of a property and business improvement district to be named the Civic Center Community Benefit District, with respect to certain parcels of real property owned by the City that would be subject to assessment in said district.

WHEREAS, The Property and Business Improvement Law of 1994 (California Streets and Highways Code, Sections 36600 et seq.) as augmented by Article 15 of the San Francisco Business and Tax Regulations Code, authorizes the City and County of San Francisco to form business and property improvement districts funded through the levy and collection of special assessments on identified parcels within the district; and

WHEREAS, In 2011, the City established a property-based business improvement district known as the Civic Center Community Benefit District, to fund certain activities and improvements within the district boundaries, for a period of ten years ending with FY2020-2021 (Res. No. 21-11); and

WHEREAS, Under Section 1511(a) of the Business and Tax Regulations Code, the Board of Supervisors may initiate proceedings to establish or renew a property and business improvement district upon receipt of a petition signed by property owners, business owners, or a combination of property owners and business owners in the proposed district who will pay at least $30 \%$ of the assessments proposed to be levied, except that the amount of assessments attributable to properties and businesses owned by the same owner that is in excess of $25 \%$ of all assessments proposed to be levied, shall not be included in this calculation; and

WHEREAS, The Civic Center Community Benefit District has now asked that the City sign petitions for 14 parcels it owns in the Civic Center area, to request that Board of

Supervisors adopt a Resolution declaring the intention of the Board of Supervisors to renew and expand a property-based business improvement district to be known as the "Civic Center Community Benefit District" and to order the levy and collection of a multi-year assessment on identified parcels in the district, with all appropriate notices, hearing and balloting to follow; and

WHEREAS, Article XIIID, Section 4 of the California Constitution provides that parcels within an assessment district that are owned or used by any government agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit; and

WHEREAS, The City owns 14 parcels of real property within the proposed assessment district, the details of which are set forth in a spreadsheet entitled "Proposed Assessments for City Owned Parcels in the Proposed Renewed and Expanded Civic Center Community Benefit District" on file with the Clerk of the Board of Supervisors in File No. 190361, which is hereby declared to be a part of this Resolution as if set forth fully herein; and

WHEREAS, The City owns additional real property within the proposed district that is subject to the exclusive jurisdiction and control of certain City departments, such as the San Francisco Public Utilities Commission; and

WHEREAS, The City-owned parcels (not including the Other Property) are listed as follows, showing the street address for each, Assessor's lot and block number, name/description of building, proposed assessment amount for each, and the percent of the total proposed assessments for the District that each parcel would be pay (which is the corresponding weight to be afforded the City's signature on the petition to establish the proposed district):

| ADDRESS | LOT / <br> BLOCK | NAME / DESCRIPTION <br> OF BUILDING | EST. <br> ASSESSMENT <br> AMOUNT | \% OF <br> TOTAL CBD <br> BUDGET |

| 240 Van Ness Ave. | 0811019 | Vacant Building | $\$ 6,590.18$ | $0.20 \%$ |
| 165 Grove Street | 0811021 | Art Commission - <br> Vacant Lot | $\$ 4,660.38$ | $0.14 \%$ |
| 150 Grove Street | 0812001 | Bill Graham Auditorium | $\$ 146,892.12$ | $4.53 \%$ |
| 100 Larkin Street | 0354001 | SF Main Public Library | $\$ 138,067.81$ | $4.26 \%$ |
| 1 So Van Ness Ave. | 3506001 | City Office Building | $\$ 59,727.06$ | $1.84 \%$ |
| 1 Dr. Carlton B | 0787001 | City Hall | $\$ 262,269.21$ | $8.09 \%$ |
| Goodlett Place |  | Rivic Center Plaza, | 0788001 | Recreation \& Park Dept. |
| Civic Center Garage | $\$ 250,191.02$ | $7.72 \%$ |  |  |
| 25 Van Ness Ave. | 0834004 | City Office Building | $\$ 18,031.02$ | $0.56 \%$ |
| Total |  | $\$ 975,652.64$ | $30.09 \%$ |  |

WHEREAS, Pursuant to Section 15.11(a), if the City submits these petitions in the affirmative, it may not count for more than $25 \%$ of the $30 \%$ required to initiate formation proceedings; and

WHEREAS, It is appropriate for the Board of Supervisors to authorize a representative to submit assessment petitions for the City-owned parcels within the proposed district to avoid confusion on the Board's dual role as both the legislative body that may form the district and levy assessments if there is no majority protest by the affected property owners, and as the decision-making body for the City in its capacity as the owner of property that would be subject to assessments; now, therefore, be it

RESOLVED, That the Mayor is hereby authorized to submit any and all assessment petitions in the affirmative for the above-listed parcels of real property (which list does not include the Other Property) owned by the City and County of San Francisco that would be subject to assessment in the proposed renewed and expanded property and business improvement district to named the Civic Center Community Benefit District; and, be it

FURTHER RESOLVED, That the Clerk of the Board of Supervisors shall cause copies of this Resolution to be delivered to the Civic Center Community Benefit District, to the City departments with jurisdiction over the Other Property, and to the Office of Economic and Workforce Development.

Item 1
File 19-0361

Department:
Office of Economic Workforce Development (OEWD)

EXECUTIVE SUMMARY

## Legislative Objectives

- The proposed resolution authorizes the Mayor to sign petitions in the affirmative for the proposed renewal and expansion of a property and business improvement district to be named the Civic Center Community Benefit District, with respect to 14 parcels of real property owned by the City that would be subject to assessment in the aforementioned district.

## Key Points

- Community Benefit Districts (CBDs), also referred to as Business Improvement Districts (BIDS), are defined geographical areas within which property owners and/or business owners choose to make a collective contribution to the development, maintenance and promotion of their neighborhood through a special assessment to their property or business.
- The Civic Center CBD was established in January 2011 as a 10 -year special assessment district beginning July 2,2011 . The Civic Center CBD currently consists of approximately 43 whole or partial blocks and approximately 773 parcels. The district is generally bounded by Golden Gate Avenue and Turk Street to the North, Market Street to the South, 7th Street to the East, and Gough Street to the West.
- In 2018, the Civic Center CBD Renewal Steering Committee initiated a series of meetings to discuss renewing the district so that the City could levy further assessments to fund enhanced improvements and activities. The renewal of the Civic Center CBD would terminate the current timeline of the district, which ends in 2021. The renewed 15 -year term would begin January 1, 2020 and end December 31, 2034. According to OEWD, the district decided to renew earlier because there is no legislative prohibition on when a district can renew, to annex the United Nations (UN) Plaza which is being removed from the Tenderloin CBD in their renewal, and to provide greater service and stewardship in relation to the recent initiatives at the public spaces connecting City Hall to the United Nations Plaza.

## Fiscal Impact

- In the first year of its term, the proposed Civic Center CBD will collect an estimated $\$ 975,653$ assessment amount from 14 City-owned parcels, which comprise of approximately 30.1 percent of the total assessment amount of $\$ 3,240,387$ for the district.
- Assessment rates may increase by up to 5 percent per year. The determination of annual adjustments in assessment rates will be subject to the approval of the Civic Center CBD Owners' Association. In addition, individual parcel assessments may be updated as those parcels change (e.g., increased square footage due to development).

## Recommendation

- Approve the proposed resolution.

## MANDATE STATEMENT

In accordance with California Government Code Section 53753, and the California Property and Business Improvement District Law of 1994 (Part 7 of Division 18 of the California Streets and Highway Code, commencing with Section 36600), augmented by Article 15 of the City's Business and Tax Regulations Code, the Board of Supervisors may initiate proceedings to establish a property and/or business improvement district and levy assessments on such properties and/or businesses for specified periods of time, when certain requirements are met.

## BACKGROUND

## Community Benefit Districts

Community Benefit Districts (CBDs), also referred to as Business Improvement Districts (BIDS), are defined geographical areas within which property owners and/or business owners choose to make a collective contribution to the development, maintenance and promotion of their neighborhood through a special assessment to their property or business. Property and business owners pay special assessment taxes to create a revenue source for the provision of additional services and improvements within district boundaries, such as sidewalk cleanliness, public safety, streetscape improvements, district advocacy and other economic development activities. The funds from these property or business improvement districts are administered by non-profit organizations that are established by (a) the steering committee members who lead the formation of the district, or (b) the property and/or business owners who are assessed within the district. In both scenarios, the CBD is subject to the Board of Supervisors' approval of a CBD management agreement between the City and the non-profit organization.

In 2004, the City augmented the California Property and Business Improvement District Law of 1994 with the passage of Article 15 of the San Francisco Business and Tax Regulations Code. Article 15 lengthened the initial term that a district could be in place from 5 to 15 years and lowered the weighted petition threshold required to initiate the legislative approval process and the special ballot election from 50 percent to 30 percent.

The City's Office of Economic and Workforce Development's (OEWD) Community Benefit Districts Program oversees the City's community benefit and business improvement districts ${ }^{1}$. According to Ms. Lisa Pagan, Director of Policy and Planning for OEWD, the existing $18^{2}$ San Francisco Community Benefit Districts (CBD), previously approved by the Board of Supervisors, include: (1) Castro/Upper Market, (2) Central Market, (3) Civic Center, (4) and (5) Fisherman's Wharf ${ }^{3}$, (6) Lower Polk, (7) Discover Polk, (8) Noe Valley, (9) Ocean Avenue, (10) North of Market/Tenderloin, (11) Union Square, (12) Yerba Buena, (13) The East Cut, (14) Japantown,

[^0]San Francisco Board of Supervisors
(15) Top of Broadway, (16) SoMa West, (17) Tourism Improvement District, and (18) Moscone Expansion District.

## Civic Center Community Benefit District

The Civic Center Community Benefit District (CBD) was established in January 2011 as a 10-year special assessment district beginning July 2, 2011. The Civic Center CBD currently consists of approximately 43 whole or partial blocks and approximately 773 parcels. The district is generally bounded by Golden Gate Avenue and Turk Street to the North, Market Street to the South, 7th Street to the East, and Gough Street to the West.

Renewal and Expansion of Civic Center Community Benefit District
In the summer and fall of 2018, the Civic Center CBD Renewal Steering Committee initiated a series of meetings to discuss renewing the district so that the City could levy further assessments to fund enhanced improvements and activities. The primary needs as determined by the parcel owners include cleaning, safety, beautification, marketing/communications and administration. All of the services to be provided, such as the cleaning work provided by the Clean Team, are services that are over and above the City's baseline of services and are not provided by the City. The renewal of the Civic Center CBD would terminate the current timeline of the district, which ends in 2021. The renewed 15-year term would begin January 1, 2020 and end December 31, 2034. According to OEWD, the district decided to renew earlier because there is no legislative prohibition on when a district can renew, to annex the United Nations (UN) Plaza which is being removed from the Tenderloin CBD in their renewal, and to provide greater service and stewardship in relation to the recent initiatives at the public spaces connecting City Hall to the UN Plaza.
According to the March 2019 Civic Center Management District Plan, the renewal of the Civic Center CBD will finance new and enhanced services and improvements that will be provided directly to the assessed parcels to improve the district's environment. Activities include the following:

- Sidewalk and gutter sweeping, sidewalk pressure washing, graffiti and handbill removal, trash cans and trash removal
- Stewards and night ambassadors, garage greeter program security camera program, and improved district amenities
- Market vending programs, art programs, performance programs, games, and food vending program
- Marketing/communication programs such as destination marketing, branding, events, media relations, social media, and district stakeholder outreach

District formation requires submission of favorable petitions signed by property owners representing at least 30 percent of total assessments to be paid. Petitions are submitted to the Board of Supervisors. If the 30 percent threshold is met, the City will conduct further hearings and mail ballots to all district property owners and 50 percent of ballots returned, as weighted by assessments to be paid, must be in favor of the district in order for the Board of Supervisors to consider approval.

## DETAILS OF PROPOSED LEGISLATION

The proposed resolution authorizes the Mayor to sign petitions in the affirmative for the proposed renewal and expansion of a property and business improvement district to be named the Civic Center Community Benefit District, with respect to 14 parcels of real property owned by the City that would be subject to assessment in the aforementioned district ${ }^{4}$.

The City owns 14 parcels of real property within the proposed Civic Center CBD boundaries. According to Ms. Pagan, these parcels were included because they are either already within the current Civic Center CBD boundaries or, in the case of the UN Plaza, were in a previous CBD and requested to be a part of the Civic Center CBD instead ${ }^{5}$.

Article XIIID, Section 4 of the California Constitution provides that parcels within an assessment district that are owned or used by any government agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit ${ }^{6}$.

In addition, Proposition 218 provides that no parcel can be assessed for more than its fair share of special benefits, including public property. All publicly-owned parcels, including parcels owned by the State of California and City and County of San Francisco, will pay their proportional share of costs based on the special benefits conferred to those individual parcels.

Pursuant to Section 1511(a) of the Business and Tax Regulations Code, if the City submits these petitions in the affirmative, their petition and ballots collectively may not count for more than 25 percent of the 30 percent required to initiate formation proceedings.

## FISCAL IMPACT

In the first year of its term, the proposed Civic Center CBD will collect an estimated $\$ 975,653$ assessment amount from 14 City-owned parcels, which comprise of approximately 30.1 percent of the total assessment amount of $\$ 3,240,387$ for the district. Table 1 below shows the 14 Cityowned parcels and estimated assessments amounts for each parcel.

[^1]Table 1. Estimated Assessment Amount of City-Owned Parcels in Proposed Civic Center
Community Benefit District

| Address | Name/Description of Building | Estimated <br> Assessment <br> Amount | Percentage <br> of Total <br> Assessment <br> Amount |
| :---: | :---: | :---: | :---: |
| 1122 Market Street | BART Entry at UN Plaza - Public Works | $\$ 5,683.21$ | $0.18 \%$ |
| UN Plaza | BART Entry at UN Plaza - Public Works | $1,397.71$ | $0.04 \%$ |
| 1130 Market Street | BART Entry at UN Plaza - Public Works | $20,881.98$ | $0.64 \%$ |
| UN Plaza | BART Entry at UN Plaza - Public Works | $11,111.15$ | $0.34 \%$ |
| 101 Grove Street | Department of Public Health | $44,938.58$ | $1.39 \%$ |
| 155 Grove Street | Art Commission Gallery | $5,211.21$ | $0.16 \%$ |
| 240 Van Ness Ave. | Vacant Building | $6,590.18$ | $0.20 \%$ |
| 165 Grove Street | Art Commission - Vacant Lot | $4,660.38$ | $0.14 \%$ |
| 150 Grove Street | Bill Graham Auditorium | $146,892.12$ | $4.53 \%$ |
| 100 Larkin Street | SF Main Public Library | $138,067.81$ | $4.26 \%$ |
| 1 So Van Ness Ave. | City Office Building | $59,727.06$ | $1.84 \%$ |
| 1 Dr. Carlton B | City Hall | $262,269.21$ | $8.09 \%$ |
| Goodlett Place | Recreation \& Park Department | $250,191.02$ | $7.72 \%$ |
| Civic Center Plaza, Civic <br> Center Garage | City Office Building | $18,031.02$ | $0.56 \%$ |
| 25 Van Ness Ave. | Rotal | $\$ 975,652.64$ | $\mathbf{3 0 . 0 9 \%}$ |
|  |  |  |  |

Over the 15 -year term of the proposed Civic Center CBD, the district will collect a total maximum projected assessment amount of $\$ 20,077,530$ from the 14 City-owned parcels if assessment rates increase five percent per year.

## Civic Center CBD Property Assessment Methodology and Annual Adjustments

According to the March 2019 Civic Center Management District Plan, annual assessments are allocated among the parcels based on the special benefit to each parcel. Three property assessment variables - lot square footage, building square footage, and linear front footage are used in the calculation. Additionally, the following three land use considerations are also factored in as assessment variables: commercial/office/cultural, residential, and educational/philanthropic/religious.

Assessment rates may increase by up to 5 percent per year. The determination of annual adjustments in assessment rates will be subject to the approval of the Civic Center CBD Owners' Association. In addition, individual parcel assessments may be updated as those parcels change (e.g., increased square footage due to development).

## Projected Total Assessment Funds for Civic Center CBD

According to the March 2019 Civic Center Management District Plan, based on the most recent parcel characteristics, total assessment rates for all parcels are expected to generate approximately $\$ 3,240,387$ in revenue during the first year of levy (FY 2019-20) ${ }^{7}$. This assessment revenue will be supplemented by non-assessment funds ${ }^{8}$ of $\$ 163,381$, to meet the total estimated FY 2019-20 budget of $\$ 3,403,768$.

Future changes to parcel characteristics (lot, building, frontage, and land use) may cause changes in the total assessment revenue. The assessment revenue for any given year will be the product of the district's parcel characteristics and the budget in effect for such fiscal year. Development within the district that increases the overall building square footage, for example, will lead to increased assessment revenue, even if assessment rates are not increased.

## RECOMMENDATION

Approve the proposed resolution.

## Section 1 Management District Plan Summary

The name of the property-based Community Benefit District is the Civic Center Community Benefit District ("Civic Center CBD"). The Civic Center CBD is being renewed and expanded pursuant to the California Constitution and the Property and Business Improvement District Law of 1994, as amended and augmented by Article 15 of the San Francisco Business and Tax Regulations Code.

Developed by the Civic Center Renewal Steering Committee, the Civic Center CBD Management District Plan describes how the renewed and expanded Civic Center CBD will improve and convey special benefits to assessed parcels located within the Civic Center CBD area. The Civic Center CBD will provide activities consisting of Clean/Safe/Activation/Beautification, Marketing/Communication, and Administration. Each of these programs is designed to meet the goals of the Civic Center CBD; to improve the safety of each individual assessed parcel within the Civic Center CBD, to increase building occupancy and lease rates, to encourage new business development, and attract ancillary businesses and services for assessed parcels within the Civic Center CBD.

| Location | The District will be located in the Civic Center area of the City. The Civic Center CBD consists of approximately 43 whole or partial blocks and approximately 773 parcels. The District will generally be bounded by Golden Gate Avenue and Turk Street to the North, Market Street to the South, $7^{\text {th }}$ Street to the East, and Gough Street to the West. A boundary map is provided in Section 2 of this report, which shows the specific boundaries and parcel frontages to be included in the District. |
| :---: | :---: |
| Boundary | See Section 2, page 7 and map, page 8. |
| Improvements, Activities, Services | The Civic Center CBD will finance activities and improvements that will be provided directly to the assessed parcels, to improve the District's environment in the following ways: <br> Clean, Safe, Activation <br> Clean Program to implement programs that may consist of, but are not limited to, the following: <br> - Sidewalk \& gutter sweeping <br> - Sidewalk pressure washing <br> - Graffiti \& handbill removal <br> - Trash Cans <br> - Trash removal <br> A Civic Center CBD Safe Program to implement programs that may consist of, but are not limited to, the following: <br> - Stewards \& Ambassadors <br> - Garage Greeter Program |

|  | Total Revenues |  | \$3,403,768.00 | 100.00\% |
| Method of Financing | Levy of assessments upon real property that specially benefit from improvements and activities. |  |  |  |
| Assessments | The costs are funded through annual assessments that are allocated among the parcels based on the special benefit to each parcel. Three property assessment variables, lot square footage, building square footage, and linear front footage, will be used in the calculation. Additionally, three land use considerations are also factored in as assessment variables, commercial/office/cultural, residential, and educational/religious. Estimated annual maximum assessment rates for the first year of the district follow: <br> Zone 1 |  |  |  |
|  | Land Use <br> Type (1) | Rate per Front ft | Rate per Bldg sq ft | $\begin{aligned} & \text { te per } \\ & \text { sa ft } \end{aligned}$ |
|  | Commercial, Office, <br> Cultural | \$15.24399 | \$0.05217 | 21773 |
|  | Residential | \$15.24399 | \$0.05217 | 21773 |
|  | Educational, Philanthropic, Religious, Charitable | \$10.16266 | \$0.03478 | 14515 |
|  | Zone 2 |  |  |  |
|  | $\begin{aligned} & \text { 5and } \\ & \text { These } \end{aligned}$ | Rtite per Eront it | Pats per Eldyegit | C Per Eeft |
|  | Commercial, Office, Cultural | \$36.12826 | \$0.12364 | 51601 |
|  | Residential | \$36.12826 | \$0.12364 | 51601 |
|  | Educational, Philanthropic, Religious, Charitable | \$24.08550 | \$0.08243 | 34401 |

| Benefit Zones | In addition to parcel characteristics and land use types, <br> location also plays a role in determining special benefit. <br> Two distinct areas within the proposed boundary of the <br> District have been identified that will experience the <br> Improvements to differing degrees and therefore will <br> receive different levels of special benefit. |
| :--- | :--- |
| Assessment Increases | Assessment rates may increase by up to 5\% per year. The <br> determination of annual adjustments in assessment rates <br> will be subject to the approval of the Civic Center CBD <br> Owners' Association. In addition, individual parcel <br> assessments may be updated as those parcels change <br> (e.g., increased square footage due to development). |
| City Services | The City and County of San Francisco has established and <br> documented the base level of pre-existing City services. <br> The Civic Center CBD will not replace any pre-existing <br> general City services. |
| Collection | District assessments appear as a separate line item on the <br> San Francisco City and County property tax bills. |
| District Governance | The City may contract with the existing Civic Center CBD <br> Owners' Association or another non-profit Owners' <br> Association to provide the day-to-day operations and carry <br> out the services as provided for in this Management District <br> Plan. |
| District Formation | District formation requires submission of favorable petitions <br> signed by property owners representing at least 30\% of <br> total assessments to be paid. Petitions are submitted to the <br> San Francisco Board of Supervisors. If the 30\% threshold is <br> met, the City will conduct further hearings and mail ballots <br> to all District property owners and 50\% of ballots returned, <br> as weighted by assessments to be paid, must be in favor of <br> the District in order for the Board of Supervisors to consider <br> approval. |
| Duration | The Civic Center CBD will have a 15-year life beginning <br> January 1, 2020 and ending December 31, 2034. |

## Section 2 <br> Civic Center CBD Boundaries

The District will be located in the Civic Center area of the City. The Civic Center CBD consists of approximately 43 whole or partial blocks and approximately 773 parcels. The District will generally be bounded by:

- Golden Gate Avenue and Turk Street to the North,
- Market Street to the South,
- $7^{\text {th }}$ Street to the East, and
- Gough Street to the West.

A boundary map is provided on page 8 of this report, which shows the specific boundaries and parcel frontages to be included in the District.

The Civic Center CBD boundaries are illustrated by the map on page 8

## Section 3 <br> Improvements

## Process to Establish the Improvement and Activity Plan

In the summer and fall of 2018, the Renewal Steering Committee initiated a series of meetings to discuss renewing the Community Benefit District so that the City could levy further assessments to fund enhanced improvements and activities. The primary needs as determined by the parcel owners were: cleaning, safety, activation/beautification, marketing/communication, and administration. All of the services to be provided, such as the cleaning work provided by the Clean Team, are services that are over and above the City's baseline of services and are not provided by the City.

Due to their unique nature of focusing on the particular needs of each assessed parcel within the Civic Center CBD, these special services provide particular and distinct benefits to each of the assessed parcels within the Civic Center CBD. Each of the services provided by the Civic Center CBD are designed to meet the needs of the retail, residential, education, parking, non-profit, publicly-owned, office, and mixed-use parcels that make up the Civic Center CBD and provide special benefit to each of the assessed parcels. The services are provided only to the assessed parcels and are not provided to parcels outside the Civic Center CBD.

The total improvement and activity plan budget for the Civic Center CBD in 2020 is projected at $\$ 3,403,768$. Of the total budget, $\$ 3,240,387.14$ is attributable to providing special benefits and is therefore funded by property assessments. General benefit from the Civic Center CBD budget is calculated to be $\$ 163,380.86$ and is not funded by assessment revenue from Civic Center CBD parcels. The costs of providing each of the budget components were developed from actual experience obtained in providing these services to Civic Center CBD properties for the past 7 years. Actual service hours and frequency may vary in order to match varying District needs over the fifteen-year life of the Civic Center CBD. A detailed operation deployment for 2020 is available from the property owner's association. The budget is made up of the following components:

## Clean, Safe, Activation

## Clean Program

In order to consistently deal with cleaning issues, a Clean Program will provide a multidimensional approach consisting of the following elements. These services are a form of special benefit because they will be provided directly to the assessed parcels. By receiving these special benefits, the parcels are expected to enjoy increased commercial activity, which directly relates to increases in lease rates and customer usage. The services may include, but are not limited to, the following:

- Sidewalk Cleaning: Uniformed, radio-equipped personnel sweep litter, debris and refuse from sidewalks and gutters of the Civic Center CBD. Paper signs and handbills that are taped or glued on property, utility boxes, poles and telephones are removed. Clean sidewalks support an increase in commerce and provides a special benefit to each individually assessed parcel in the Civic Center CBD.
- Sidewalk Pressure Washing: Civic Center CBD personnel may pressure wash the sidewalks. Clean sidewalks support an increase in commerce and provide a special benefit to each individually assessed parcel in the Civic Center CBD.
- Trash Collection: Collector truck personnel collect trash from sidewalks as needed. They are also dispatched to collect large bulky items illegally dumped in the Civic Center CBD. The District may also facilitate the installation of additional trash receptacles to enhance trash collection and cleanliness.
- Graffiti Removal: Painters remove graffiti by painting, using solvent and pressure washing. The Civic Center CBD maintains a zero-tolerance graffiti policy. An effort is made to remove all tags within 24 hours on weekdays.
- Landscape Maintenance: Weeding of District tree wells and sidewalk cracks. In addition, Civic Center CBD personnel may provide landscape maintenance to decorative planters.

The Clean Team will only operate within Civic Center CBD boundaries. By receiving these special benefits, the parcels are expected to enjoy increased commercial activity, which directly relates to increases in lease rates and customer usage. Dirty and unclean sidewalks deter pedestrians and commercial activity.

## Safe Program

The Safe Program will provide safety services for the individual parcels located within the Civic Center CBD in the form of the Safe Team program, a security camera program, and an increased sidewalk/open space activation program. The Safe Team Program will only provide its services within the Civic Center CBD boundaries. Providing these services directly to the parcels within the Civic Center CBD boundaries is expected to result in increased commercial activity which directly relates to increased building occupancy and customer usage. A District that is perceived as unsafe deters pedestrian and commercial activity.

- Safe Team: A Safe Team made up of safety ambassadors and safety stewards may both rove through the District as well as maintain fixed post safety locations in order to provide a multifaceted approach to safety.
- Security Camera Program: A security camera program may be explored.
- Sidewalk/Open Space Activation: A program to activate sidewalks and open spaces in the Civic Center CBD may be developed.

## Activation

Activation may include, but is not limited to, oversight of the Civic Center Plaza café kiosk, the daily setup of tables, chairs, and games in Civic Center Commons. Additional Activation may include programs and events such as markets, public art installations, musical performances, block parties, recreational activities, and the annual Holiday Tree Lighting. All activation programs are designed to increase use of the District in order to
increase both the perception and reality of safety due to that increased use.

## Marketing/Communication

In order to communicate the changes that are taking place in the Civic Center CBD and to enhance the positive perception of the assessed parcels, a professionally developed marketing and communication program will be created. The program will help parcel owners in their efforts to attract tenants and support local commerce and investment and work to improve the positive perception of the Civic Center CBD. Decisions on where to shop, eat, work, and live are largely based on a perception of the place. These special benefits will result in increased commercial activity which directly relates to increases in lease rates and enhanced commerce.

The programs being considered include, but are not limited to, the following:

- Destination Marketing
- Branding
- Events
- Media Relations
- Website
- District Stakeholder Outreach
- Social Media

## Administration/Contingency/City Fees

The improvements and activities are managed by a professional staff that requires centralized administrative support. Administration staff oversees the Civic Center CBD's services, which are delivered seven days a week. Administration staff actively works on behalf of the Civic Center CBD parcels to ensure that City and County services and policies support the Civic Center CBD. Included in this item are office expenses, professional services, organizational expenses such as insurance, and the cost to conduct a yearly financial review. Civic Center CBD funds from Administration may be used for renewing the Civic Center CBD.

A well-managed Civic Center CBD provides necessary Civic Center CBD program oversight and guidance that produces higher quality and more efficient programs. Administration staff implement the programs and services of the Civic Center CBD. The special benefit to assessed parcels from these services is increased commercial activity, which directly relates to increased building occupancy and enhanced commerce.

An operating reserve is budgeted as a contingency for any payment of delinquencies, uncollectible assessments, Civic Center CBD renewal efforts, and/or unforeseen budget adjustments. District funds from Contingency/Reserve/City Fees may be used for renewing the District.

# Section 4 Civic Center CBD Assessment Budget 

## Fifteen-Year Operating Budget

A projected fifteen-year operating budget for the Civic Center CBD is provided below. The projections are based upon the following assumptions:

Annual assessments may increase each year in an amount from zero (0) to $5 \%$. In any case assessment annual increases may not exceed 5\%. Annual adjustments in assessment rates will be subject to the approval of the Civic Center CBD Owners' Association. In addition, individual parcel assessments may also increase based on development in the Civic Center CBD. The projections below illustrate a $5 \%$ annual increase as an example for all budget items for the purpose of this Management District Plan, assuming the district's current development status.

The cost of providing programs and services also may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. The Owners' Association shall have the right to reallocate up to $10 \%$ by line item of the budget allocation within the budgeted categories. Any change beyond $10 \%$ will be subject to approval by the Owners' Association board of directors and submitted to the City and County of San Francisco within the CBD's annual planning report, pursuant to Section 36650 of the California Streets and Highways Code. The overall budget shall remain consistent with this Management District Plan. Each assessed parcel's assessment shall be no greater than its proportionate share of the special benefits received.

| Market/Communications | $\$ 407,223.66$ | $\$ 427,584.84$ | $\$ 448,964.08$ | $\$ 471,412.29$ | $\$ 494,982.90$ |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Admin/Contingency | $\$ 928,469.94$ | $\$ 974,893.43$ | $\$ 1,023,638.11$ | $\$ 1,074,820.01$ | $\$ 1,128,561.01$ |
| Total Budget | $\$ 5,544,379.41$ | $\$ 5,821,598.38$ | $\$ 6,112,678.30$ | $\$ 6,418,312.21$ | $\$ 6,739,227.82$ |
| Less General Benefit** | $\$ 266,130.20$ | $\$ 279,436.72$ | $\$ 293,408.55$ | $\$ 308,078.98$ | $\$ 323,482.93$ |
| Assessable Budget | $\$ 5,278,249.20$ | $\$ 5,542,161.66$ | $\$ 5,819,269.74$ | $\$ 6,110,233.23$ | $\$ 6,415,744.89$ |

* Other non-assessment funding to cover the cost associated with general benefit.

## Budget Adjustments

Any annual budget surplus will be rolled into the following year's Civic Center CBD budget. The budget will be set accordingly, within the constraints of the Management Civic Center CBD Plan to adjust for surpluses that are carried forward. Civic Center CBD funds may also be used for renewal of the Civic Center CBD. Funds from an expired Civic Center CBD shall be rolled over into the new Civic Center CBD if one is established, or returned to the property owners if one is not established, in accordance with Streets and Highways Code section 36671.

If an error is discovered on a parcel's assessed square footages or building square footages, the Civic Center CBD may investigate and correct the assessed footages after confirming the correction with the San Francisco City and County Assessor Data. The correction will be made in accordance with the assessment methodology and may result in an increase or decrease to the parcel's assessment. (See section 5, Appeals, for detail on correction process)

## Future Development

The above table is based on the Civic Center CBD's current development status and does not account for possible increases to assessments due to changes in parcel characteristics that are used to allocate special benefits (e.g., building square footage). The amount of each parcel's assessment will depend on the existing assessment rates as well as the specific characteristics of the parcel, as explained in further detail in Section 4 of the Engineer's Report. Each parcel will be assessed on a prorated basis from the date it receives a temporary and/or permanent certificate of occupancy. Thus, changes to a parcel may result in corresponding revisions to the assessments. Over time the total assessments levied in the Civic Center CBD likely will increase as parcels are developed. Parcels may also see assessments change as a result of changes to land use type. Parcels that experience a change in building square footage need to notify the Civic Center CBD of changes.

## Assessment Roll Corrections

## See Section 5 Appeals

## Time and Manner for Collecting Assessments

The assessments will be collected annually on the County Treasurer \& Tax Collector's ("Treasurer") secured property tax roll. The assessments will be subject to the Treasurer's assigned due dates and late penalties. However, the City may choose to collect the assessments in an alternate manner (including directly billing the property owner) as may be deemed appropriate or necessary by the City.

## Disestablishment

Each year that the Civic Center CBD is in existence, there will be a 30-day period during which property owners will have the opportunity to request disestablishment of the CBD. This 30-day period begins each year on the anniversary of the date the CBD was established. Within that 30-day period, if a written petition is submitted by the owners of real property who pay $50 \%$ or more of the assessments levied, the Board of Supervisors shall convene a hearing on whether to disestablish the Civic Center CBD by:

A majority of the Board of Supervisors (six members) may initiate disestablishment at any time based on misappropriation of funds, malfeasance, or violation of law in connection with management of the Civic Center CBD.

A supermajority (eight members) of the Board of Supervisors may initiate disestablishment proceedings for any reason. All outstanding bonds, financing leases, or similar obligations of the City payable from or secured by the CBD assessment must be paid prior to disestablishment of the CBD.

## Bond Issuance

The Civic Center CBD will not issue Bonds.

## Public Property Assessments

Proposition 218 provides that no parcel can be assessed for more than its fair share of special benefits, including public property. All publicly-owned parcels, including parcels owned by the State of California and City and County of San Francisco, will pay their proportional share of costs based on the special benefits conferred to those individual parcels. These parcels specially benefit from Civic Center CBD programs that provide an enhanced sense of safety and cleanliness, which makes employees and visitors, feel safe and increased use which translates into fulfilling their public service mission. Publicly-owned parcels also benefit from Civic Center CBD programs which increase exposure and awareness of Civic Center CBD amenities which in turn work to provide greater pedestrian traffic and increased use. The publicly-owned parcels and their assessments within the Civic Center CBD boundary are listed below.

| APN | Assessment | Assessment <br> Percentage | owner <br> type |  |
| :--- | ---: | ---: | :--- | :--- |
| $0351-035$ | $137,707.13$ | $4.25 \%$ | Federal | UNITED STATES OF AMERICA |

| :--- | ---: | :--- | :--- |
| Total | $2,021,177.45$ | $62.37 \%$ | CITY \& COUNTY OF SAN FRANCISCO |

## Section 5 Assessment Methodology

This Management District Plan provides for the levy of assessments to fund services and activities that specially benefit real property in the Civic Center CBD. These assessments are not taxes for the general benefit of the City, but are assessments on the parcels in the Civic Center CBD that are receiving special benefits. The following section is a summary of the detailed assessment methodology and benefit analysis that is included in the Engineer's Report which is an exhibit of this Management Plan. See the Engineer's Report for a more complete and detailed analysis.

## Initial Maximum Assessment Rates

The rates below represent the maximum assessment rates for Fiscal Year 2019/20:

|  | zone 1 |  |  |
| :---: | :---: | :---: | :---: |
| Land Use Type (1) | Rate per <br> Bront it | Rate per <br> Blotgsg fit | Rate per <br> Lot sg f |
| Commercial, Office, Cultural | \$15.24399 | \$0.05217 | \$0.21773 |
| Residential | 15.24399 | 0.05217 | 0.21773 |
| Educational, Philanthropic/Religious/Charitable | 10.16266 | 0.03478 | 0.14515 |

(1) Land use types are defined in Section 5.2 of engineer's report

Based on the most recent parcel characteristics, these rates are expected to generate approximately $\$ 3,240,387$ in revenue during the first year of levy (2019/20). This assessment revenue will be supplemented by non-assessment funds of $\$ 163,381$, to meet the total estimated $2019 / 20$ budget of $\$ 3,403,768$. Non-assessment funds represent $4.8 \%$ of the total budget, which corresponds to the general benefit percentage identified in the Separation and Quantification of General Benefits section of this report.
Future changes to parcel characteristics (lot, building, frontage, and land use) may cause changes in the total assessment revenue. The assessment revenue for any given year will be the product of the District's parcel characteristics and the budget in effect for such fiscal year. Development within the District that increases the overall building square footage, for example, will lead to increased assessment revenue, even if assessment rates are not
increased.

## Maximum Annual Assessment Adjustments

Annual adjustments in assessment rates will be subject to the approval of the Civic Center CBD Owners' Association and may range from zero (0) to a maximum of $5 \%$ in any given year. Any change will be approved by the Owners' Association Board of Directors and submitted to the City within its annual planning report, pursuant to Section 36650 of the California Streets and Highways Code.

As an example, the projections below illustrate the maximum 5\% annual increase for all assessment rates.

Assessment Table Based On 5\% Increase

| Zone 1 | 2020 | 2021 | 2022 | 2023 | 2024 |
| :---: | :---: | :---: | :---: | :---: | :---: |

## Rate Development

The rates are the product of a detailed analysis presented in Sections 5 through 8 of this report.

## Data for Annual Assessment Calculations

Each year, as part of the assessment calculation procedures, the CBD shall determine the land use type for each parcel based on the County Assessor's use code or other appropriate supplementary information. The parcel characteristics of lot square footage and building square footage shall similarly be based on the County Assessor's secured rolled data for the applicable year and may be supplemented with other reliable data sources. The frontage of each parcel shall be determined by reference to County Assessor's parcel maps or, if necessary, to GIS data.

Assessment amounts may change over time in accordance with changes to parcel characteristics including land use type and building square footage.

## Mixed Use

Parcels in the District may have multiple land uses and could be categorized as having more than one of the identified land use types. If the CBD is made aware of a parcel with more than one land use type, the following shall apply:

If there are multiple land use types on one parcel, but those land use types all have the same assessment rate, the CBD shall select the most appropriate land use type designation and levy the applicable assessment rates.

If there are multiple land use types on one parcel, and those land use types have different assessment rates, the CBD shall attempt to separate out the land use types by actual building square footage. The CBD shall then pro-rate the total underlying lot square footage and frontage feet proportion to the building square footage assigned to each land use type. After each land use type is assigned lot square feet, building square feet, and frontage feet, the CBD shall calculate the applicable assessment rates for the respective land use types.

For example, if a parcel has both Educational and Office uses, the Educational land use represents $40 \%$ of the total building square footage, and the Office land use represents $60 \%$ of the total building square footage, the underlying lot's frontage and lot square footage shall be assigned $40 \%$ to the Educational land use and $60 \%$ to the Office land use. Those characteristics assigned to the Educational land use shall be used to calculate an assessment at the Educational rates, and those characteristics assigned to the Office land use shall be used to calculate the remaining portion of the assessment at the Office rates. If there are multiple land use types on one parcel and those land use types have different assessment rates, but data sufficient to delineate the building square footages is not available, the CBD shall choose the most appropriate land use type and the assessment shall be calculated according to those rates.

## Appeals

If a property owner believes the data used to calculate their assessment is inaccurate or that the identified land use type is incorrect, the property owner may submit, in writing, a request for review to the CBD. The property owner shall provide documentation needed to support the request for review. The CBD shall review the request and provide a response to the property owner. The property owner must be current in the payment of all assessments when filing the request for review and must remain current during the review process. The property owner should continue to pay all amounts owed according to the County's due dates.

If the review results in changes to any parcel characteristics used to compute the assessment, the CBD shall recalculate the assessment. When recalculating the assessments, the assessment rates actually applied in such fiscal year shall be used. Only the assessment for the parcel or parcels subject to review shall be recalculated.

If the recalculated assessment is less than the amount submitted to the County on the secured property tax roll, the difference shall be credited back to the property owner. This credit shall be limited to the current fiscal year and the prior fiscal year, if applicable. The "fiscal year" shall follow the County's fiscal year for property taxes, from July 1 to June 30. The applicable fiscal year shall be determined by the date the request for review is submitted to the CBD.

For example, if a request for review is submitted to the CBD during Fiscal Year 2020/21, the Fiscal Year 2020/21 and 2019/20 assessments will be reviewed. The property owner credit shall be limited to any difference calculated for Fiscal Year 2020/21 (the current fiscal year) and Fiscal Year 2019/20 (the prior fiscal year).

The credit may be provided in the form of a check to the property owner, an adjustment to the current year's property tax roll (if possible), or a credit to the succeeding year's assessment thereby reducing the amount placed on the secured property tax roll for such year.

If the recalculated assessment is greater than the amount submitted to the County on the secured property tax roll, the CBD shall apply the recalculated assessment to the succeeding year's property tax roll and no adjustments shall be made to the prior or current fiscal years' assessments.

If a property owner is dissatisfied with the CBD's decision on their appeal, the property owner may appeal the matter further to the City (OEWD), who shall make a conclusive determination and whose decision shall be final.

## Method of Collection

The assessments will be collected annually on the County Treasurer \& Tax Collector's ("Treasurer") secured property tax roll. The assessments will be subject to the Treasurer's assigned due dates and late penalties. However, the City may choose to collect the assessments in an alternate manner (including directly billing the property owner) as may be deemed appropriate or necessary by the City.

## SPECIAL BENEFITS

The Improvements will confer special benefits upon certain parcels within the proposed District. This section provides a description of those special benefits.

## Improved Aesthetics

Several of the proposed services will confer aesthetic benefits. The cleaning and maintenance services are designed to improve the visual appearance immediately surrounding properties within the District. It is believed a cleaner environment is more aesthetically pleasing. Research shows that when areas where consumers conduct business are more aesthetically pleasing, they are also more desirable (Vilnai-Yavetz 2010). Therefore, the Improvements will confer aesthetic benefits.

## Increased Safety

Research has shown vandalism, such as graffiti, is a key factor in determining attitudes about safety (Austin 2007). The perception of neighborhood problems has a stronger effect on the fear of crime than demographic factors (Dowler 2003). If this research holds true, the proposed District's graffiti removal services should have a positive effect on reducing fear of crime.

Research has shown that business improvement districts that provide services such as the stewards and ambassadors proposed within the District have been successful in reducing crime rates (Brooks 2005). The increased safety should be experienced by both residential and non-residential properties. Research shows there are safety benefits related to living in or near a commercial area managed by a business improvement district (Hoyt 2005). Therefore, the Improvements will confer safety benefits.

## Increased Promotional Activity

The Improvements will confer promotional benefits upon certain parcels within the proposed District. Certain land use types are interested in attracting customers, tenants, patrons, or visitors, or a combination thereof. The Improvements will promote the area, thereby helping to attract these groups. These groups, whether customers, tenants, patrons, or visitors, are interested in utilizing each property for its intended design. Although these groups vary according to their intended use of the property, the commonality can be found in each land use type's advantage gained by attracting their specific group. Therefore, the Improvements will confer promotional benefits.

## Improved Livability

Livability can have a wide range of meanings but as used in this analysis it represents the desirability to reside in an area based on the characteristics of urban environments that make them more attractive places to live (Throsby 2005). The proposed Improvements will positively impact the urban environment by creating a sense of place and local identity and improving feelings of security, all of which can influence livability. Therefore, the Improvements will confer livability benefits.

## SPECIAL BENEFIT DISTRIBUTION

As described in the Introduction, once special benefits are identified, those special benefits must then be assigned based on the estimated proportionate special benefit derived by each parcel. This section describes the assignment of special benefit to each parcel.

## Parcel Characteristics

The following parcel characteristics are used to determine each parcel's proportionate special benefit:

- Lot square footage
- Building square footage
- Linear frontage

Parcels of the same land use type will experience different degrees of special benefit in relation to differences in their lot size, building size, and linear frontage. For example, a parcel with a large building will experience greater special benefit than a parcel with a small building. Accordingly, as lot size, building size, and linear frontage increase, parcels are considered to receive proportionately greater special benefit. Therefore, these parcel characteristics are deemed appropriate factors for determining proportional special benefit.

In order to relate differing parcel characteristics to one another, a relative factor is determined for each.

## Lot Factor

The average lot size in the proposed District is approximately 4,620 square feet. Each parcel's actual lot size was divided by the District's average lot size to determine a Lot Factor.

| Parcel's |
| :--- |
| Lot Sq Ft | | District's |
| :---: |
| Average |
| Lot Sq Ft |$=\quad$| Parcel's |
| :---: |
| Lot Factor |

## Building Factor

The average building size in the proposed District is approximately 19,280 square feet. Each parcel's actual building size was divided by the District's average building size to determine a Building Factor.

| Parcel's | District's |
| :---: | :---: |
| Building Sq | Average |
| Ft | Building Sq Ft |$=$| Parcel's |
| :---: |
| Building |
| Factor |

## Frontage Factor

The average linear frontage in the proposed District is approximately 66 feet. Each parcel's actual linear frontage was divided by the District's average linear frontage to determine a Frontage Factor.

| Parcel's |
| :---: | :---: | :---: |
| Frontage Ft | $\mathrm{Cistrict's}$| Average |
| :---: |
| Frontage Ft |$=$| Parcel's |
| :---: |
| Frontage |
| Factor |

## Land Use Types

In addition to lot size, building size, and linear frontage, a parcel's land use type will also affect the special benefits received. Following the calculation of each parcel characteristic factor, Land Use Benefit Points were assigned. These benefit points correspond to the special benefits described in Section 4 in the Engineer's Report.

Each parcel within the proposed District is assigned a land use type for purposes of determining the special benefits received. Below is a description of the land use type categories to be assessed within the proposed District.

Commercial land use types include parcels used for a commercial purpose including, but not limited to, retail, restaurants, parking lots, parking garages, hotels/motels, and hospitals.

Office land use types include parcels used as administrative workplaces whether privately or publicly owned including courthouses, administration offices of educational institutions, and governmental administration (including, but not limited to, the Public Utilities Commission, SFMTA, and City Hall).

Cultural land use types include parcels used for cultural or entertainment purposes such as museums, theaters, and libraries as well as artistic performance venues (including Civic Center Plaza) and auditoriums, whether publicly or privately owned.

Residential land use types include parcels used as residential dwellings including condominiums and for-rent multi-unit parcels such as duplexes, triplexes, and apartments of four or more units.

Educational land use types include parcels used for instructive purposes whether privately or publicly owned including SFUSD school sites, the Chris Hellman Center for Dance (SF Ballet school), SF Conservatory of Music, City College of SF, and the Boys \& Girls Club.

Philanthropic/Religious/Charitable land use types include parcels used for humanitarian assistance, faith-based meetings, or benevolent social organization meetings, and are operated by non-profit entities not otherwise included in the definition of Cultural.

As described below, some special benefits are conferred upon all land use types, and others are conferred only upon certain land use types.

## Apportioning Aesthetic Benefit

The aesthetic benefits conferred by the Improvements will be enjoyed by all assessable land use types. The benefit of visual appeal is not restricted to any particular land use. A more attractive public environment can be enjoyed by all parcels irrespective of land use type. Accordingly, each assessable land use type will be assigned one Aesthetic Benefit

Point.

## Apportioning Safety Benefit

The aesthetic benefits conferred by the Improvements will be enjoyed by all assessable land use types. The benefit of visual appeal is not restricted to any particular land use. A more attractive public environment can be enjoyed by all parcels irrespective of land use type. Accordingly, each assessable land use type will be assigned one Aesthetic Benefit Point.

## Apportioning Promotional Benefit

The Improvements are designed to engage customers, patrons, and visitors by attracting them to the area, encouraging them to stay longer, and creating an enjoyable experience such that they wish to return and convey a positive message about the area through referral.

Those land use types interested in attracting customers benefit from increased revenues. The proposed services will create a more aesthetically pleasing environment, which has been shown to "increase consumer's intentions to spend money" (Vilnai-Yavetz 2010). In addition, the City's Office of Economic and Workforce Development ("OEWD"), in its 2012 report "Impact Analysis of San Francisco’s Property \& Business Improvement Districts (CBDs/BIDs)" ("CBD Analysis") found that during the recession of 2007 to 2009, CBDs "saw less significant reductions in sales tax revenues" than other areas of the City.

Those land use types interested in attracting tenants benefit from improved economics and lower vacancy rates. The OEWD, in its CBD Analysis, found that CBDs "maintained lower commercial vacancy rates than what was experienced across San Francisco" during the recession of 2007 to 2009.

Those land use types interested in attracting patrons and visitors benefit from the District being marketed and promoted as a cultural and entertainment destination. This marketing and promotion is designed to increase awareness of the area and highlight events and performances with the ultimate goal of bringing more potential patrons and visitors to the area.

Therefore, all land use types engaged in activities that are concerned with the experience of customers, tenants, patrons, and visitors will receive this Promotional Benefit. Parcels designated as Commercial, Office, or Cultural will be assigned one Promotional Benefit Point. All other land use types receive no Promotional Benefit Points.

## Apportioning Livability Benefit

The Improvements are designed to positively impact the urban environment. These impacts influence local identity and feelings of security, which affect Livability. Livability represents the desirability to reside in an area and as such is unique to parcels used as residences. Therefore, parcels designated as Residential will receive one Livability Benefit Point and all non-residential land uses will receive no Livability Benefit Points.

## Land Use Benefit Point Summary

The table below summarizes the Land Use Benefit Points:

| Land Use Tries | Aesthetic Benefit Points | Satety <br> Benefit <br> Points | Promotional Benefit Points | livability Benctit Points | Toual <br> Land <br> Use <br> Benefit <br> Points |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Commercial, Office, Cultural | 1.00 | 1.00 | 1.00 | 0.00 | 3.00 |
| Residential | 1.00 | 1.00 | 0.00 | 1.00 | 3.00 |
| Educational, Philanthropic/Religious/Charitable | 1.00 | 1.00 | 0.00 | 0.00 | 2.00 |

## Zones of Benefit

In addition to parcel characteristics and land use types, location also plays a role in determining special benefit. The District will provide two different levels of service across two distinct areas within the proposed boundary of the District. Therefore, it is important to distinguish the differing improvement levels between the two zones to assign an appropriate Zone Benefit Factor to the parcels within each Zone.

| - Service/Activiy | Zone 1 <br> Factor | Zone 2 <br> Factor |
| :---: | :---: | :---: |
| Cleaning and Maintenance | 2.00 | 6.81 |
| Safety and Activation | 2.00 | 6.30 |
| Marketing and Communications | 1.00 | 1.47 |
| Administration | 2.00 | 2.00 |
| Factor Totals | 7.00 | 16.59 |
|  |  |  |
| Zone Factors | 1.00 | 2.37 |

Based on this analysis, a Zone Benefit Factor of 1.00 is assigned to parcels in Zone 1, and a Zone Benefit Factor of 2.37 is assigned to parcels in Zone 2. A detailed breakdown of the Zone Benefit Factor calculations is provided in Appendix A in the Engineer's Report.

## Total Special Benefit Points

The calculation of Special Benefit Points for each parcel takes into account each component analyzed and described above, Parcel Characteristics, Land Use, and Zone. The formula for determining each parcel's Special Benefit Points is as follows:

$$
(\underset{\text { Factor }}{\text { Lot }}+\underset{\text { Factor }}{\text { Building }}+\underset{\text { Factor }}{\text { Frontage }}) \times \underset{\substack{\text { Use } \\ \text { Benefit } \\ \text { Points }}}{\substack{\text { Land } \\ \text { Factor }}}=\underset{\substack{\text { Benefit } \\ \text { Points }}}{\text { Zone }}
$$

The Special Benefit Points were computed for each parcel in the proposed District and summed. Based on the most current data available at the time of writing this report, the sum of Special Benefit Points for the entire District is $9,664.84$. This total was used to determine the 2019/20 Assessment per Special Benefit Point shown in Section 7 in the Engineer's Report.

## SEPARATION AND QUANTIFICATION OF GENERAL BENEFITS

Only special benefits are assessable and in order to assess only special benefits, the general benefits resulting from the Improvements must be separated and quantified. This section describes the process used to separate and quantify the general benefits. We rely on a "multi-perspective average approach" (MPAA), which entails analyzing the general benefits in totality by taking an average across multiple perspectives, to account for the overlap across services and to ensure that any single approach does not dominate the District's general benefit percentage.

## Summary

As detailed below, it is estimated the Improvements will confer 4.8\% general benefit.

## Detailed Analysis

The subsections below provide the detailed analysis of two approaches to quantifying general benefits.

## Peripheral Parcel Approach

One approach is to define general benefit as the benefit that accrues to properties on the periphery of the District. Parcels with frontage adjacent to or across from District parcels are referred to as peripheral parcels. The Improvements will be provided solely within the District, but for purposes of this analysis, we assume a certain level of benefit will be conferred on peripheral parcels.
Peripheral parcels may receive some ancillary benefit from the presence of the stewards and ambassadors and the adjacent, cleaner streets. It is possible the stewards and ambassadors will report suspicious or criminal activity they witness outside the District, as long as it is close enough to see from their position within the District boundary. Likewise, the marketing activities could draw consumers to the District who might also explore the broader area and patronize businesses on the periphery of the District.
To calculate the benefit accruing to peripheral parcels as a result of the Improvements, the total Benefit Points were recalculated by including peripheral parcels. The following figures represent the adjusted parcel characteristic averages resulting from the inclusion of the peripheral parcels:

- Average lot square footage: $2,882.02$
- Average building square footage: $12,106.73$
- Average linear frontage: 40.55

The methodology described in Section 6 was applied to all parcels, including the peripheral parcels. Adjustments were made to the characteristics of certain peripheral parcels by determining the proportion of frontage adjacent to the District boundary as compared to frontage not adjacent to the District boundary. If this proportion was less than one (i.e. the peripheral parcel has a portion of its frontage not adjacent to the District boundary), the parcel's building and lot square footages were modified by the frontage proportion.

This resulted in a total of 3,098 benefit points for those parcels outside the District and a total of 18,633 benefit points for all parcels. This equates to approximately $16.6 \%$ of the total benefit points assigned to peripheral parcels. This preliminary figure would be an appropriate measure of the benefit conferred to peripheral parcels if they received the full benefit of the Improvements. However, the peripheral parcels do not directly receive any cleaning or maintenance services, ambassadors and stewards do not specifically patrol the areas beyond the District boundary, and the promotional efforts are not focused on these parcels. Therefore, it is necessary to reduce the initial figure in order to reflect the reduced benefit.

Because the general benefits are conferred by multiple benefit types, it was necessary to calculate a blended reduction factor in order to estimate the reduced benefit conferred upon peripheral parcels. The table below shows the reduction factors for each benefit type:

| Eenefit Type | Reduction <br> Factor |
| :--- | :---: |
| Improved Aesthetics ${ }^{(1)}$ | 0.82 |
| Increased Safety | ${ }^{(2)}$ |
| Increased Promotional Activity ${ }^{(3)}$ | 0.86 |
| Improved Livability ${ }^{(3)}$ | 0.50 |
| Average Reduction | 0.50 |

(1) The Improvements are physically separated from peripheral parcels. The Improvements will be located within close physical proximity to parcels within the District. The cleaning services are largely provided along parcel frontages which, given the City's typical sidewalk width of 12 feet, should be approximately 12 feet from any parcel within the District. Distances greater than 12 feet will see diminishing benefit as distance increases. Distances between parcels in the District and peripheral parcels were computed using GIS data. This showed an average distance of 67.9 feet from the Improvements. This is a reduction of approximately $82 \%$ from the typical distance to Improvements for a parcel within the District.
(2) The ambassador and steward services are provided only along frontages of District property. The total street length within the District is approximately 6.8 miles. The net street length fronting peripheral parcels is approximately 0.95 miles. This is a reduction of approximately $86 \%$ for the estimated time peripheral parcels may expect to receive ancillary safety benefits.
(3) Reduction estimated to be half.

Accordingly, the initial percentage derived through the application of benefit points was reduced by a factor of 0.7 . This results in a general benefit of $5 \%$ using the peripheral parcel approach.

## Pedestrian Traffic Approach

Given the observed volume of pedestrian traffic within the District, it was appropriate to also estimate the overall general benefit by analyzing benefits to the general public through a pedestrian traffic analysis.

Benefits to pedestrians who live within the District, work within the District, and to tourists, consumers, and patrons visiting the District are all related to the special benefits conferred by the Improvements and are all related to properties receiving special benefits. This
general benefits analysis therefore only focuses on pedestrians passing through the District.

Because the pedestrian traffic generated by and for specially benefiting parcels represents the special benefit itself, the general benefits enjoyed by pass-through pedestrian traffic must be averaged along with the peripheral property approach, which also analyzed overall general benefits.

Both approaches attempt to analyze the overall general benefit, and as such taking two separate approaches to quantifying the same overall general benefit should prevent either approach from skewing the estimate too far one way.
The first step was to estimate pedestrian traffic generated by parcels within the District. To do this, Average Daily Trips (ADT) were computed for each parcel based on the trip generation rates from the Institute for Transportation Engineers (ITE) Trip Generation Manual (9 ${ }^{\text {th }}$ Edition). The ADT used in this analysis are shown below:

| Land Use Type | ADT ${ }^{(1)}$ | ADT per |
| :--- | ---: | :---: |
| Commercial | 54.3 | $1,000 \mathrm{sq} \mathrm{ft}$ of <br> building |
| Office | 16.7 | $1,000 \mathrm{sq} \mathrm{ft}$ of <br> building |
| Cultural | 56 | $1,000 \mathrm{sq} \mathrm{ft}$ of <br> building |
| BART | $19,402.0$ | BART station |
| Residential | 5.2 | dwelling unit |
| Educational | 17.4 | $1,000 \mathrm{sq} \mathrm{ft}$ of <br> building |
| Charitable/Religious | 9.9 | $1,000 \mathrm{sq} \mathrm{ft}$ <br> building |

(1) ADT values are detailed in Appendix B

The ADT was computed for each parcel. However, this figure represents vehicles trips, and the goal in this analysis was to estimate pedestrian traffic. In order to estimate the equivalent pedestrian traffic, an average of 1.54 persons per vehicle (Davis 2019) was multiplied by the total ADT and resulted in a figure of approximately 682,796 for the entire district. For purposes of this analysis, this figure represents the total estimated pedestrian traffic generated by specially benefiting parcels.
The next step was to estimate the total pedestrian traffic in the district, including traffic generated by parcels as well as pedestrian traffic simply passing through the district. To do this, the average of observed pedestrian traffic at specific intersections was determined using SFCTA data for eight District-related intersections (Van Ness BRT 2013). This data showed an average of 18,834 daily pedestrian crossings per intersection. Data was not available for all intersections within the District and therefore the averages were applied throughout the District.

There are approximately 65 intersections within the District, but 18 were considered to be minor streets and therefore wholly excluded from the count. Further, there are approximately 18 additional intersections that are split, one side of the street having frontage within the District, and one side not having District frontage. These intersections were reduced by half to account for this split. Therefore, the result was a net total of 38 intersections used to estimate the total pedestrian traffic within the District. Multiplying the average daily pedestrian crossings per intersection $(18,834)$ by the net intersections $(38)$ yields an initial estimate of 715,703 total pedestrians.

Therefore, of the total estimated pedestrian trips $(715,703)$, approximately $95.4 \%(682,796)$ were estimated to be related to District parcels. This leaves an estimated 32,906 passthrough pedestrian trips, which equates to approximately $4.6 \%$. This figure represents the overall general benefits as measured by the pedestrian traffic approach.

## Overall General Benefit

As noted earlier, the analyses above represent two approaches to quantifying the overall general benefit within the District. The pedestrians generated by properties within the District are directly linked to the property-related benefits described in this report. Therefore, because these two approaches seek to quantify the same District general benefit, but from two different perspectives, the figures were averaged to determine a single, overall general benefit percentage. The table below presents the overall general benefit calculation:

| Ceneral Benefit <br> Quantification Approach | Ceneral <br> Benefit |
| :--- | ---: |
| Percentage |  |$|$| Peripheral Parcels |
| :--- |

Therefore, $4.8 \%$ of the estimated total budget must be funded from sources other than assessments.

## Section 6 <br> Governance

The City and County of San Francisco may contract with a non-profit organization to provide the day-to-day operations of the Civic Center CBD. The non-profit organization will act as the Owners' Association and governing board for the Civic Center CBD. The role of the Owners' Association is consistent with similar Community Benefit Districts and management organizations throughout California. The Owners' Association determines budgets, assessment adjustments, and monitors service delivery.

The Civic Center CBD Owners' Association Board of Directors will represent a cross section of property owners found throughout the Civic Center CBD. The goal and spirit of the board's composition is to have a majority of property owners that pay Community Benefit District assessments, but also include representatives from businesses and residents. At least $50 \%$ of the Board members will be property owners that pay an assessment and, per City requirements, at least $20 \%$ of the members be non-property-owning business owners within the Civic Center CBD boundary. A nominating committee develops an annual slate of board nominations, and nominations are voted on at an annual meeting of Civic Center CBD property owners.

## Section 7 <br> Implementation Timetable

The Civic Center CBD is expected to be established and begin implementation of the Management District Plan on January 1, 2020. The Civic Center CBD will have a fifteen-year life through December 31, 2034.

In order for the Civic Center CBD to meet the service begin date of January 1, 2020, the formation need to adhere to the following schedule:
Formation Schedule Dates

Petitions distributed to property owners
Petition Drive concludes
Board of Supervisors accepts petition results/sets public hearing date
Ballots mailed to property owners
Board of Supervisors holds public hearing and tabulates ballots

March 2019
April 2019
April 2019
April 2019
June 2019

## 1. ENGINEER'S STATEMENT

The assessments described in this Report have been prepared pursuant to Article XIII D of the California Constitution and the Property and Business Improvement District Law of 1994 as augmented and modified by Article 15 of the San Francisco Business and Tax Regulations Code (collectively, the "Assessment Law"). In preparing these assessments:

1. I have identified all parcels that will have a special benefit conferred upon them by the Improvements described in Section 2 of this Report (the "Specially Benefited Parcels").
a. For particulars as to the identification of these parcels, reference is made to the Assessment Diagram, a copy of which is included in Section 10 of this Report.
2. I have assessed the estimated costs and expenses of the Improvements upon the Specially Benefited Parcels. In making such assessment:
a. The proportionate special benefit derived from the Improvements by each Specially Benefited Parcel was determined in relationship to the total special benefits derived by all Specially Benefited Parcels;
b. No assessment has been imposed on any Specially Benefited Parcel which exceeds the reasonable cost of the proportional special benefit conferred on such parcel by the Improvements; and
c. The general benefits have been separated from the special benefits and only special benefits have been assessed.

I, the undersigned, respectfully submit this Engineer's Report and, to the best of my knowledge, information and belief, this Report, the assessments, and the Assessment Diagram herein have been prepared and computed in accordance with the Assessment Law.

## 2. INTRODUCTION

### 2.1 District History

The Board of Directors for the Civic Center Community Benefit District (CBD) desires that the City levy an assessment to fund certain services and activities (the "Improvements") as described in Section 2 of this Report. The proposed assessment is subject to the substantive and procedural requirements described in Section 4, Article XIII D of the California Constitution ("Article XIII D").

The City is authorized to levy an assessment pursuant to the Property and Business Improvement District Law of 1994 as augmented and modified by Article 15 of the San Francisco Business and Tax Regulations Code (collectively, the "PBID Law").

The proposed assessment district will be known as the "Civic Center Property and Business Improvement District" ("District"). The City formed an assessment district in the Civic Center area in 2010 with a ten-year term. The City desires to renew the assessment district and expand the boundary through the proposed formation of the District. The City's Board of Supervisors will act as the legislative body for the District. The $C B D$ is the non-profit owners' association that will represent the interests of the property owners. The CBD will make recommendations to the City regarding the budget, services to be provided, and assessment rates.

### 2.2 Proposed Duration

Assessments for the proposed District will be levied upon renewal of the District, to fund District Improvements over the next 15 years. The first levy of assessments for improvements will be Fiscal Year 2019/20 and the final levy will be Fiscal Year 2033/34.

### 2.3 Location

The District will be located in the Civic Center area of the City. The District will generally be bounded by Golden Gate Avenue and Turk Street to the North, Market Street to the South, $7^{\text {th }}$ Street to the East, and Gough Street to the West. A boundary map is provided in Section 10 of this report, which shows the specific boundaries and parcel frontages to be included in the District.

### 2.4 Legislative Context

This Engineer's Report is intended to comply with the requirements of Article XIII D and the PBID Law. The following is a description of the legislative context within which this report is written.

In 1996, California Voters adopted Proposition 218, the "Right to Vote on Taxes Act" which added Articles XIII C and XIII D to the California Constitution. Article XIII D imposes certain substantive and procedural requirements on any agency that wishes to levy special assessments.

The substantive requirements are twofold: (1) assessments can only be imposed for a "special benefit" conferred on an assessed parcel, and (2) assessments must be no greater than the reasonable cost of the proportionate special benefit conferred on an assessed parcel.

The special benefit and proportionality requirements are described in Section 4, Subdivision (a) of Article XIII D: "An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and an agency shall separate the general benefits from the special benefits conferred on a parcel. ..."

In addition to its substantive requirements, Article XIII D imposes certain procedural requirements, which include preparing an engineer's report, providing written notice to property owners, providing assessment protest ballots to property owners, holding a public hearing, and tabulating the assessment protest ballots.

### 2.5 Court Rulings

Since the initial passage of Proposition 218 , several court rulings have helped provide context and direction on the practical implementation procedures and requirements for levying assessments. Several of the key concepts from these rulings are summarized below.

### 2.5.1 GENERAL BENEFIT

Article XIII D requires an agency to separate the general benefits from the special benefits conferred because only special benefits are assessable.

The Court of Appeal in Golden Hills Neighborhood Assn., Inc. v. City of San Diego (2011) (Golden Hills) clarified this concept by stating, "Separation and quantification of general and special benefits must be accomplished by apportioning the cost of a service or improvement between the two and assessing property owners only for the portion of the cost representing special benefits."

The Court of Appeal in Beutz v. County of Riverside (2010) (Beutz) quoted from the Legislative Analyst's Office pamphlet titled "Understanding Proposition 218" which states an agency must, "estimate the amount of special benefit landowners would receive from the project or service, as well as the amount of 'general benefit.' This step is needed because Proposition 218 allows local government to recoup from assessments only the proportionate share of cost to provide the special benefit."

The Court in Beutz further stated, "Separating the general from the special benefits of a public improvement project and estimating the quantity of each in relation to the other is essential if an assessment is to be limited to the special benefits."

### 2.5.2 BENEFIT-BASED NOT COST-BASED

In Bonander v. Town of Tiburon (2009) (Tiburon), the Court of Appeal clarified the idea that assessments must be apportioned based upon benefit rather than cost. The Court stated, "Proportionate special benefit is the basis upon which a project's total assessable costs are apportioned among parcels within an assessment district."

The assessment on a particular property cannot be based on the relative cost of the improvements, but rather the special benefit conferred on such property. The Court in Tiburon also stated, "an assessment
represents the entirety of the cost of the improvement or property-related service, less any amount attributable to general benefits (which may not be assessed), allocated to individual properties in proportion to the relative special benefit conferred on the property."

### 2.5.3 PUBLIC PROPERTY

Section 4, Subdivision (a) of Article XIII D states, in part, "Parcels within a district that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit." Historically, there were differing opinions about the application of this requirement. The language in Article XIII D seemed clear that publicly owned property could not be exempted, but it was unclear whether the language required publicly owned property to be assessed.

The Court of Appeal in Manteca Unified School District v. Reclamation District No. 17 et al (2017) (Manteca) clarified this issue by stating, "section 4, subdivision (a) of article XIII D of the California Constitution unambiguously conditions any continuing benefit assessment exemption on a showing by clear and convincing evidence of no special benefit."

### 2.5.4 IMPRECISION

The Court in Tiburon acknowledged the difficulty of trying to precisely assign and measure special benefit, stating, "Any attempt to classify special benefits conferred on particular properties and to assign relative weights to those benefits will necessarily involve some degree of imprecision."

The Court in Tiburon went on to say that a formula assigning equal weight to different special benefits "may be a legally justifiable approach to measuring and apportioning special benefits, [but] it is not necessarily the only valid approach. Whichever approach is taken to measuring and apportioning special benefits, however, it must be both defensible and consistently applied."

## 3. IMPROVEMENTS

The proposed District will fund the following services and activities (the "Improvements"):

- Cleaning and Maintenance
- Safety and Activation
- Marketing and Communications

The Improvements to be funded are those currently desired by District stakeholders and believed to be of benefit to District properties. Every effort will be made to provide the services and activities according to the estimates provided. Below is a description of the anticipated Improvements for the first year of the District.

### 3.1 Cleaning and Maintenance

Cleaning and maintenance services including sidewalk sweeping, graffiti removal, and landscape maintenance will be provided along the frontages of property within the District from 6 a.m. to 6 p.m. seven days per week.

Zones 1 and 2 will each receive 40 hours of pressure washing per week. Workforce Development Cleaners, or similar, will also provide an enhanced level of cleaning and maintenance services in Zone 2, Monday through Friday.

### 3.2 Safety and Activation

Ambassadors will provide information, referrals, and support for pedestrians in Zone 1 from 7 a.m. to 7 p.m. seven days per week, and from 6 p.m. to 11 p.m. Tuesday through Saturday.

Stewards providing information, referrals, and support for pedestrians will serve Zone 2 from 7 a.m. to 7 p.m. seven days per week.

A Garage Greeter will be stationed at the Civic Center Garage in Zone 2 street-level elevators and pay stations for pedestrian/customer service from 6 p.m. to 11 p.m., five nights per week (Tuesday through Saturday).

Activation may include, but is not limited to, oversight of the Civic Center Plaza café kiosk (which the CBD owns), and the daily setup of tables, chairs and games in Civic Center Commons. Additional Activation may include programs and events such as markets, public art installations, musical performances, block parties, recreational activities, and the annual Holiday Tree Lighting.

### 3.3 Marketing and Communications

The District will provide the following marketing and communications services to improve the District's image and visibility, communicate with District stakeholders, and to communicate activities taking place within the District. Work may include, but is not limited to, the following:

- District Stakeholder Outreach
- Website \& Social Media
- Service Presentations
s. General Benefit Fundraising
- Branding
- Events
- Media Relations
- Destination Marketing

### 3.4 Administration and Contingency

Administration includes daily oversight and operation of the District, adherence to the Management District Plan, and compliance with audit/reporting requirements. The Improvements will be managed by a professional staff that will oversee the District's services, which will be delivered seven days per week. Administration includes efforts to actively work on behalf of the District to ensure City and County services and policies support the District. Also included in this category are administrative expenses necessary to manage the District services. District funds for Administration may be used to establish and/or renew the District. A well-managed District provides necessary oversight and guidance that produces higher quality and more efficient programs.

The assessments will also fund a contingency reserve that may be used to cover possible unforeseen future expenses and help to smooth out cash flows, which are affected by the timing of property owner payments.

## 4. ASSESSMENTS

### 4.1 Initial Maximum Assessment Rates

The rates below represent the maximum assessment rates for Fiscal Year 2019/20:

|  | zone 1 |  |  |
| :---: | :---: | :---: | :---: |
| (2) 2 SandUse Type (1) | Rate per Front ft | Rate per <br> Blog sq ft | Rate per Lot sg it |
| Commercial, Office, Cultural | \$15.24399 | \$0.05217 | \$0.21773 |
| Residential | 15.24399 | 0.05217 | 0.21773 |
| Educational, Philanthropic/Religious/Charitable | 10.16266 | 0.03478 | 0.14515 |

|  | zones |  |  |
| :---: | :---: | :---: | :---: |
|  | Patce pet Front | Remeper Bly | Ratemer 100tsitit |
| Commercial, Office, Cultural | \$36.12826 | \$0.12364 | \$0.51601 |
| Residential | 36.12826 | 0.12364 | 0.51601 |
| Educational, Philanthropic/Religious/Charitable | 24.08550 | 0.08243 | 0.34401 |

$$
\text { (1) Land use types are defined in Section } 5.2
$$

Based on the most recent parcel characteristics, these rates are expected to generate approximately $\$ 3,240,387$ in revenue during the first year of levy (2019/20). This assessment revenue will be supplemented by non-assessment funds of $\$ 163,381$, to meet the total estimated 2019/20 budget of $\$ 3,403,768$. Non-assessment funds represent $4.8 \%$ of the total budget, which corresponds to the general benefit percentage identified in the Separation and Quantification of General Benefits section of this report.

Future changes to parcel characteristics (lot, building, frontage, and land use) may cause changes in the total assessment revenue. The assessment revenue for any given year will be the product of the District's parcel characteristics and the budget in effect for such fiscal year. Development within the District that increases the overall building square footage, for example, will lead to increased assessment revenue, even if assessment rates are not increased.

### 4.2 Annual Assessment Rate Increases

Each year the maximum assessment rates may be increased by up to 5\% per year. Each year, prior to the annual levy of assessments, the CBD shall estimate the cost to fund the Improvements for the upcoming year. The assessment rates shall be levied at amounts necessary to generate sufficient revenue to meet the estimated costs to fund the Improvements. However, except for increases due to development as set forth in Section 4.1, annual assessment rate increases cannot exceed $5 \%$.

### 4.3 Rate Development

The rates in Section 4.1 are the product of a detailed analysis presented in Sections 6 through 9 of this report.

### 4.4 Data for Annual Assessment Calculations

Each year, as part of the assessment calculation procedures, the CBD shall determine the land use type for each parcel based on the County Assessor's use code or other appropriate supplementary information. The parcel characteristics of lot square footage and building square footage shall similarly be based on the County Assessor's secured rolled data for the applicable year and may be supplemented with other reliable data sources. The frontage of each parcel shall be determined by reference to County Assessor's parcel maps or, if necessary, to GIS data.

Assessment amounts may change over time in accordance with changes to parcel characteristics including land use type and building square footage.

### 4.4.1 MIXED USE

Parcels in the District may have multiple land uses and could be categorized as having more than one of the identified land use types. If the CBD is made aware of a parcel with more than one land use type, the following shall apply:

If there are multiple land use types on one parcel, but those land use types all have the same assessment rate, the CBD shall select the most appropriate land use type designation and levy the applicable assessment rates.

If there are multiple land use types on one parcel, and those land use types have different assessment rates, the CBD shall attempt to separate out the land use types by actual building square footage. The CBD shall then pro-rate the total underlying lot square footage and frontage feet proportion to the building square footage assigned to each land use type. After each land use type is assigned lot square feet, building square feet, and frontage feet, the CBD shall calculate the applicable assessment rates for the respective land use types.

For example, if a parcel has both Educational and Office uses, the Educational land use represents $40 \%$ of the total building square footage, and the Office land use represents $60 \%$ of the total building square footage, the underlying lot's frontage and lot square footage shall be assigned $40 \%$ to the Educational land use and $60 \%$ to the Office land use. Those characteristics assigned to the Educational land use shall be used to calculate an assessment at the Educational rates, and those characteristics assigned to the Office land use shall be used to calculate the remaining portion of the assessment at the Office rates.

If there are multiple land use types on one parcel and those land use types have different assessment rates, but data sufficient to delineate the building square footages is not available, the CBD shall choose the most appropriate land use type and the assessment shall be calculated according to those rates.

### 4.5 Appeals

If a property owner believes the data used to calculate their assessment is inaccurate or that the identified land use type is incorrect, the property owner may submit, in writing, a request for review to the CBD. The property owner shall provide documentation needed to support the request for review. The CBD shall review the request and provide a response to the property owner. The property owner must be current in the payment of all assessments when filing the request for review and must remain current during the review process. The property owner should continue to pay all amounts owed according to the County's due dates.

If the review results in changes to any parcel characteristics used to compute the assessment, the CBD shall recalculate the assessment. When recalculating the assessments, the assessment rates actually applied in such fiscal year shall be used. Only the assessment for the parcel or parcels subject to review shall be recalculated.

If the recalculated assessment is less than the amount submitted to the County on the secured property tax roll, the difference shall be credited back to the property owner. This credit shall be limited to the current fiscal year and the prior fiscal year, if applicable. The "fiscal year" shall follow the County's fiscal year for property taxes, from July 1 to June 30 . The applicable fiscal year shall be determined by the date the request for review is submitted to the CBD.

For example, if a request for review is submitted to the CBD during Fiscal Year 2020/21, the Fiscal Year 2020/21 and 2019/20 assessments will be reviewed. The property owner credit shall be limited to any difference calculated for Fiscal Year 2020/21 (the current fiscal year) and Fiscal Year 2019/20 (the prior fiscal year).

The credit may be provided in the form of a check to the property owner, an adjustment to the current year's property tax roll (if possible), or a credit to the succeeding year's assessment thereby reducing the amount placed on the secured property tax roll for such year.

If the recalculated assessment is greater than the amount submitted to the County on the secured property tax roll, the CBD shall apply the recalculated assessment to the succeeding year's property tax roll and no adjustments shall be made to the prior or current fiscal years' assessments.

If a property owner is dissatisfied with the CBD's decision on their appeal, the property owner may appeal the matter further to the City (OEWD), who shall make a conclusive determination and whose decision shall be final.

### 4.6 Method of Collection

The assessments will be collected annually on the County Treasurer \& Tax Collector's ("Treasurer") secured property tax roll. The assessments will be subject to the Treasurer's assigned due dates and late penalties. However, the City may choose to collect the assessments in an alternate manner (including directly billing the property owner) as may be deemed appropriate or necessary by the City.

## 5. SPECIAL BENEFITS

The Improvements will confer special benefits upon certain parcels within the proposed District. This section provides a description of those special benefits.

### 5.1 Improved Aesthetics

Several of the proposed services will confer aesthetic benefits. The cleaning and maintenance services are designed to improve the visual appearance immediately surrounding properties within the District. It is believed a cleaner environment is more aesthetically pleasing. Research shows that when areas where consumers conduct business are more aesthetically pleasing, they are also more desirable (Vilnai-Yavetz 2010). Therefore, the Improvements will confer aesthetic benefits.

### 5.2 Increased Safety

Research has shown vandalism, such as graffiti, is a key factor in determining attitudes about safety (Austin 2007). The perception of neighborhood problems has a stronger effect on the fear of crime than demographic factors (Dowler 2003). If this research holds true, the proposed District's graffiti removal services should have a positive effect on reducing fear of crime.

Research has shown that business improvement districts that provide services such as the stewards and ambassadors proposed within the District have been successful in reducing crime rates (Brooks 2005). The increased safety should be experienced by both residential and non-residential properties. Research shows there are safety benefits related to living in or near a commercial area managed by a business improvement district (Hoyt 2005). Therefore, the Improvements will confer safety benefits.

### 5.3 Increased Promotional Activity

The Improvements will confer promotional benefits upon certain parcels within the proposed District. Certain land use types are interested in attracting customers, tenants, patrons, or visitors, or a combination thereof. The Improvements will promote the area, thereby helping to attract these groups. These groups, whether customers, tenants, patrons, or visitors, are interested in utilizing each property for its intended design. Although these groups vary according to their intended use of the property, the commonality can be found in each land use type's advantage gained by attracting their specific group. Therefore, the Improvements will confer promotional benefits.

### 5.4 Improved Livability

Livability can have a wide range of meanings but as used in this analysis it represents the desirability to reside in an area based on the characteristics of urban environments that make them more attractive places to live (Throsby 2005). The proposed Improvements will positively impact the urban environment by creating a sense of place and local identity and improving feelings of security, all of which can influence livability. Therefore, the Improvements will confer livability benefits.

## 6. SPECIAL BENEFIT DISTRIBUTION

As described in the Introduction, once special benefits are identified, those special benefits must then be assigned based on the estimated proportionate special benefit derived by each parcel. This section describes the assignment of special benefit to each parcel.

### 6.1 Parcel Characteristics

The following parcel characteristics are used to determine each parcel's proportionate special benefit:

- Lot square footage
- Building square footage
* Linear frontage

Parcels of the same land use type will experience different degrees of special benefit in relation to differences in their lot size, building size, and linear frontage. For example, a parcel with a large building will experience greater special benefit than a parcel with a small building. Accordingly, as lot size, building size, and linear frontage increase, parcels are considered to receive proportionately greater special benefit. Therefore, these parcel characteristics are deemed appropriate factors for determining proportional special benefit.

In order to relate differing parcel characteristics to one another, a relative factor is determined for each.

### 6.1.1 LOT FACTOR

The average lot size in the proposed District is approximately 4,620 square feet. Each parcel's actual lot size was divided by the District's average lot size to determine a Lot Factor.

| Parcel's |
| :---: | :---: | :---: |
| Lot Sq Ft |$\quad$| District's |
| :---: |
| Average |
| Lot Sq Ft |$\quad=\quad$| Parcel's |
| :---: |
| Lot Factor |

### 6.1.2 BUILDING FACTOR

The average building size in the proposed District is approximately 19,280 square feet. Each parcel's actual building size was divided by the District's average building size to determine a Building Factor.

| Parcel's | District's |
| :---: | :---: | :---: |
| Building Sq Ft | Average |
| Building Sq Ft |  |$\quad=\quad$| Parcel's |
| :---: |
| Building Factor |

### 6.1.3 FRONTAGE FACTOR

The average linear frontage in the proposed District is approximately 66 feet. Each parcel's actual linear frontage was divided by the District's average linear frontage to determine a Frontage Factor.

| Parcel's |
| :---: |
| Frontage Ft |$/$| District's |
| :---: |
| Average |
| Frontage Ft |$=$| Parcel's |
| :---: |
| Frontage Factor |

### 6.2 Land Use Types

In addition to lot size, building size, and linear frontage, a parcel's land use type will also affect the special benefits received. Following the calculation of each parcel characteristic factor, Land Use Benefit Points were assigned. These benefit points correspond to the special benefits described in Section 4.

Each parcel within the proposed District is assigned a land use type for purposes of determining the special benefits received. Below is a description of the land use type categories to be assessed within the proposed District.

Commercial land use types include parcels used for a commercial purpose including, but not limited to, retail, restaurants, parking lots, parking garages, hotels/motels, and hospitals.

Office land use types include parcels used as administrative workplaces whether privately or publicly owned including courthouses, administration offices of educational institutions, and governmental administration (including, but not limited to, the Public Utilities Commission, SFMTA, and City Hall).

Cultural land use types include parcels used for cultural or entertainment purposes such as museums, theaters, and libraries as well as artistic performance venues (including Civic Center Plaza) and auditoriums, whether publicly or privately owned.

Residential land use types include parcels used as residential dwellings including condominiums and for-rent multi-unit parcels such as duplexes, triplexes, and apartments of four or more units.

Educational land use types include parcels used for instructive purposes whether privately or publicly owned including SFUSD school sites, the Chris Hellman Center for Dance (SF Ballet school), SF Conservatory of Music, City College of SF, and the Boys \& Girls Club.

Philanthropic/Religious/Charitable land use types include parcels used for humanitarian assistance, faith-based meetings, or benevolent social organization meetings, and are operated by non-profit entities not otherwise included in the definition of Cultural.

As described below, some special benefits are conferred upon all land use types, and others are conferred only upon certain land use types.

### 6.2.1 APPORTIONING AESTHETIC BENEFITS

The aesthetic benefits conferred by the Improvements will be enjoyed by all assessable land use types. The benefit of visual appeal is not restricted to any particular land use. A more attractive public environment can be enjoyed by all parcels irrespective of land use type. Accordingly, each assessable land use type will be assigned one Aesthetic Benefit Point.

### 6.2.2 APPORTIONING SAFETY BENEFITS

Similarly, the safety benefits conferred by the Improvements will be enjoyed by all assessable land use types. Safety can be thought of as a universal need. Its importance can be seen in the fact that everyone desires to live and work in safe, crime-free areas (Lau Leby 2010). Therefore, because levels of safety affect all land uses, it follows that an increase in safety will benefit all land use types. Accordingly, each assessable land use type will be assigned one Safety Benefit Point.

### 6.2.3 APPORTIONING PROMOTIONAL BENEFITS

The Improvements are designed to engage customers, patrons, and visitors by attracting them to the area, encouraging them to stay longer, and creating an enjoyable experience such that they wish to return and convey a positive message about the area through referral.

Those land use types interested in attracting customers benefit from increased revenues. The proposed services will create a more aesthetically pleasing environment, which has been shown to "increase consumer's intentions to spend money" (Vilnai-Yavetz 2010). In addition, the City's Office of Economic and Workforce Development ("OEWD"), in its 2012 report "Impact Analysis of San Francisco's Property \& Business Improvement Districts (CBDs/BIDs)" ("CBD Analysis") found that during the recession of 2007 to 2009, CBDs "saw less significant reductions in sales tax revenues" than other areas of the City.

Those land use types interested in attracting tenants benefit from improved economics and lower vacancy rates. The OEWD, in its CBD Analysis, found that CBDs "maintained lower commercial vacancy rates than what was experienced across San Francisco" during the recession of 2007 to 2009.

Those land use types interested in attracting patrons and visitors benefit from the District being marketed and promoted as a cultural and entertainment destination. This marketing and promotion is designed to increase awareness of the area and highlight events and performances with the ultimate goal of bringing more potential patrons and visitors to the area.

Therefore, all land use types engaged in activities that are concerned with the experience of customers, tenants, patrons, and visitors will receive this Promotional Benefit. Parcels designated as Commercial, Office, or Cultural will be assigned one Promotional Benefit Point. All other land use types receive no Promotional Benefit Points.

### 6.2.4 APPORTIONING LIVABILITY BENEFITS

The Improvements are designed to positively impact the urban environment. These impacts influence local identity and feelings of security, which affect Livability. Livability represents the desirability to reside in an area and as such is unique to parcels used as residences. Therefore, parcels designated as Residential will receive one Livability Benefit Point and all non-residential land uses will receive no Livability Benefit Points.

### 6.2.5 LAND USE BENEFIT POINT SUMMARY

The table below summarizes the Land Use Benefit Points:

| Land Use Type | Aesthetic <br> Benefit <br> Points | Satety <br> Benefit <br> paints | Promo: tional Beneftit points | livability <br> Benefit <br> Points | Total Land Use Benefit Paints |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Commercial, Office, Cultural | 1.00 | 1.00 | 1.00 | 0.00 | 3.00 |
| Residential | 1.00 | 1.00 | 0.00 | 1.00 | 3.00 |
| Educational, Philanthropic/Religious/Charitable | 1.00 | 1.00 | 0.00 | 0.00 | 2.00 |

### 6.3 Zones of Benefit

In addition to parcel characteristics and land use types, location also plays a role in determining special benefit. The District will provide two different levels of service across two distinct areas within the proposed boundary of the District. Therefore, it is important to distinguish the differing improvement levels between the two zones to assign an appropriate Zone Benefit Factor to the parcels within each Zone.

| Service/Activity | Zone1 <br> Factor | Zone 2 <br> Factor |
| :--- | ---: | ---: |
| Cleaning and Maintenance | 2.00 | 6.81 |
| Safety and Activation | 2.00 | 6.30 |
| Marketing and Communications | 1.00 | 1.47 |
| Administration | 2.00 | 2.00 |
| Factor Totals | 7.00 | $\mathbf{1 6 . 5 9}$ |

| Zone Factors | 1.00 |  | 2.37 |
| :--- | :--- | :--- | :--- | :--- |

Based on this analysis, a Zone Benefit Factor of 1.00 is assigned to parcels in Zone 1, and a Zone Benefit Factor of 2.37 is assigned to parcels in Zone 2. A detailed breakdown of the Zone Benefit Factor calculations is provided in Appendix A.

### 6.4 Total Special Benefit Points

The calculation of Special Benefit Points for each parcel takes into account each component analyzed and described above, Parcel Characteristics, Land Use, and Zone. The formula for determining each parcel's Special Benefit Points is as follows:

$$
\left(\begin{array}{c}
\text { Lot } \\
\text { Factor }
\end{array}+\begin{array}{c}
\text { Building } \\
\text { Factor }
\end{array}+\begin{array}{c}
\text { Frontage } \\
\text { Factor }
\end{array}\right) \times \underset{\text { Benefit }}{\substack{\text { Land Use } \\
\text { Points }}} \times \underset{\text { Factor }}{\text { Zone }}=\begin{gathered}
\text { Benefit } \\
\text { Points }
\end{gathered}
$$

The Special Benefit Points were computed for each parcel in the proposed District and summed. Based on the most current data available at the time of writing this report, the sum of Special Benefit Points for the entire District is 9,664.84. This total was used to determine the 2019/20 Assessment per Special Benefit Point shown in Section 7.

## 7. SEPARATION AND QUANTIFICATION OF GENERAL BENEFITS

As described in the introduction, only special benefits are assessable and in order to assess only special benefits, the general benefits resulting from the Improvements must be separated and quantified. This section describes the process used to separate and quantify the general benefits. We rely on a "multiperspective average approach" (MPAA), which entails analyzing the general benefits in totality by taking an average across multiple perspectives, to account for the overlap across services and to ensure that any single approach does not dominate the District's general benefit percentage.

### 7.1 Summary

As detailed below, it is estimated the Improvements will confer $4.8 \%$ general benefit.

### 7.2 Detailed Analysis

The subsections below provide the detailed analysis of two approaches to quantifying general benefits.

### 7.2.1 PERIPHERAL PARCEL APPROACH

One approach is to define general benefit as the benefit that accrues to properties on the periphery of the District. Parcels with frontage adjacent to or across from District parcels are referred to as peripheral parcels. The Improvements will be provided solely within the District, but for purposes of this analysis, we assume a certain level of benefit will be conferred on peripheral parcels.

Peripheral parcels may receive some ancillary benefit from the presence of the stewards and ambassadors and the adjacent, cleaner streets. It is possible the stewards and ambassadors will report suspicious or criminal activity they witness outside the District, as long as it is close enough to see from their position within the District boundary. Likewise, the marketing activities could draw consumers to the District who might also explore the broader area and patronize businesses on the periphery of the District.

To calculate the benefit accruing to peripheral parcels as a result of the Improvements, the total Benefit Points were recalculated by including peripheral parcels. The following figures represent the adjusted parcel characteristic averages resulting from the inclusion of the peripheral parcels:

- Average lot square footage: $2,882.02$
- Average building square footage: 12,106.73
- Average linear frontage: 40.55

The methodology described in Section 6 was applied to all parcels, including the peripheral parcels. Adjustments were made to the characteristics of certain peripheral parcels by determining the proportion of frontage adjacent to the District boundary as compared to frontage not adjacent to the District boundary. If this proportion was less than one (i.e. the peripheral parcel has a portion of its frontage not adjacent to the District boundary), the parcel's building and lot square footages were modified by the frontage proportion.

This resulted in a total of 3,098 benefit points for those parcels outside the District and a total of 18,633 benefit points for all parcels. This equates to approximately $16.6 \%$ of the total benefit points assigned to peripheral parcels. This preliminary figure would be an appropriate measure of the benefit conferred to peripheral parcels if they received the full benefit of the Improvements. However, the peripheral parcels do not directly receive any cleaning or maintenance services, ambassadors and stewards do not specifically patrol the areas beyond the District boundary, and the promotional efforts are not focused on these parcels. Therefore, it is necessary to reduce the initial figure in order to reflect the reduced benefit.

Because the general benefits are conferred by multiple benefit types, it was necessary to calculate a blended reduction factor in order to estimate the reduced benefit conferred upon peripheral parcels. The table below shows the reduction factors for each benefit type:

| Benefit Type | Reduction |
| :---: | :---: |
| Factor |  |$|$

(1) The Improvements are physically separated from peripheral parcels. The Improvements will be located within close physical proximity to parcels within the District. The cleaning services are largely provided along parcel frontages which, given the City's typical sidewalk width of 12 feet, should be approximately 12 feet from any parcel within the District. Distances greater than 12 feet will see diminishing benefit as distance increases. Distances between parcels in the District and peripheral parcels were computed using GIS data. This showed an average distance of 67.9 feet from the improvements. This is a reduction of approximately $82 \%$ from the typical distance to improvements for a parcel within the District.
(2) The ambassador and steward services are provided only along frontages of District property. The total street length within the District is approximately 6.8 miles. The net street length fronting peripheral parcels is approximately 0.95 miles. This is a reduction of approximately $86 \%$ for the estimated time peripheral parcels may expect to receive ancillary safety benefits.
(3) Reduction estimated to be half.

Accordingly, the initial percentage derived through the application of benefit points was reduced by a factor of 0.7. This results in a general benefit of $5 \%$ using the peripheral parcel approach.

### 7.2.2 PEDESTRIAN TRAFFIC APPROACH

Given the observed volume of pedestrian traffic within the District, it was appropriate to also estimate the overall general benefit by analyzing benefits to the general public through a pedestrian traffic analysis.

Benefits to pedestrians who live within the District, work within the District, and to tourists, consumers, and patrons visiting the District are all related to the special benefits conferred by the Improvements and are all related to properties receiving special benefits. This general benefits analysis therefore only focuses on pedestrians passing through the District.

Because the pedestrian traffic generated by and for specially benefiting parcels represents the special benefit itself, the general benefits enjoyed by pass-through pedestrian traffic must be averaged along with the peripheral property approach, which also analyzed overall general benefits.

Both approaches attempt to analyze the overall general benefit, and as such taking two separate approaches to quantifying the same overall general benefit should prevent either approach from skewing the estimate too far one way.

The first step was to estimate pedestrian traffic generated by parcels within the District. To do this, Average Daily Trips (ADT) were computed for each parcel based on the trip generation rates from the Institute for Transportation Engineers (ITE) Trip Generation Manual ( $9^{\text {th }}$ Edition). The ADT used in this analysis are shown below:

| Lland yse lype | ADT | ADT per |
| :--- | ---: | :---: |
| Commercial | 54.3 | $1,000 \mathrm{sq} \mathrm{ft}$ of building |
| Office | 16.7 | $1,000 \mathrm{sq} \mathrm{ft}$ of building |
| Cultural | 56.0 | $1,000 \mathrm{sq} \mathrm{ft}$ of building |
| BART | $19,402.0$ | BART station |
| Residential | 5.2 | dwelling unit |
| Educational | 17.4 | $1,000 \mathrm{sq} \mathrm{ft} \mathrm{of} \mathrm{building}$ |
| Charitable/Religious | 9.9 | $1,000 \mathrm{sq} \mathrm{ft}$ of building |

(1) ADT values are detailed in Appendix B

The ADT was computed for each parcel. However, this figure represents vehicles trips, and the goal in this analysis was to estimate pedestrian traffic. In order to estimate the equivalent pedestrian traffic, an average of 1.54 persons per vehicle (Davis 2019) was multiplied by the total ADT and resulted in a figure of approximately 683,006 for the entire district. For purposes of this analysis, this figure represents the total estimated pedestrian traffic generated by specially benefiting parcels.

The next step was to estimate the total pedestrian traffic in the district, including traffic generated by parcels as well as pedestrian traffic simply passing through the district. To do this, the average of observed pedestrian traffic at specific intersections was determined using SFCTA data for eight District-related intersections (Van Ness BRT 2013). This data showed an average of 18,834 daily pedestrian crossings per intersection. Data was not available for all intersections within the District and therefore the averages were applied throughout the District.

There are approximately 65 intersections within the District, but 18 were considered to be minor streets and therefore wholly excluded from the count. Further, there are approximately 18 additional intersections that are split, one side of the street having frontage within the District, and one side not having District frontage. These intersections were reduced by half to account for this split. Therefore, the result was a net total of 38 intersections used to estimate the total pedestrian traffic within the District. Multiplying the average daily pedestrian crossings per intersection $(18,834)$ by the net intersections $(38)$ yields an initial estimate of 715,703 total pedestrians.

Therefore, of the total estimated pedestrian trips $(715,703)$, approximately $95.4 \%(683,006)$ were estimated to be related to District parcels. This leaves an estimated 32,697 pass-through pedestrian trips, which

Civic Center Property and Business Improvement District Renewal Engineer's Report (March 15, 2019)
equates to approximately $4.6 \%$. This figure represents the overall general benefits as measured by the pedestrian traffic approach.

### 7.2.3 OVERALL GENERAL BENEFIT

As noted earlier, the analyses above represent two approaches to quantifying the overall general benefit within the District. The pedestrians generated by properties within the District are directly linked to the property-related benefits described in this report. Therefore, because these two approaches seek to quantify the same District general benefit, but from two different perspectives, the figures were averaged to determine a single, overall general benefit percentage. The table below presents the overall general benefit calculation:

| General Beneft <br> Quantitiation Approach | General <br> Benefit Percentage |
| :--- | ---: |
| Peripheral Parcels | $5.0 \%$ |
| Pedestrian Traffic | $4.6 \%$ |
| Average, Overall General Benefit | $4.8 \%$ |

Therefore, $4.8 \%$ of the estimated total budget must be funded from sources other than assessments.

## 8. BUDGET

The following table is a summary of the estimated annual costs to fund the Improvements for Fiscal Year 2019/20:

| Budget Irems | FY 2019/20 <br> Estimated Budget |
| :--- | ---: |
| Cleaning, Maintenance, Safety, \& Activation | $\$ 2,583,768.00$ |
| Marketing and Communications | $250,000.00$ |
| Administration and Contingency | $570,000.00$ |
| Total Estimated Costs (2019/20) | $\$ 3,403,768.00$ |

### 8.1 Balance to Be Assessed

The total amount to be assessed upon the specially benefitting parcels is the total cost of the Improvements, as detailed above, less the portion attributable to General Benefit as detailed in the Separation and Quantification of General Benefits section.

The calculation of the balance to be assessed is shown below:

| Desciption | Amount |
| :--- | ---: |
| Total Estimated Costs (2019/20) | $\$ 3,403,768.00$ |
| Less General Benefit Portion (4.8\%) | $163,380.86$ |
| Balance to Be Assessed | $\$ 3,240,387.14$ |

Each year the estimated budget may change, which will cause a corresponding change in the dollar amount of general benefit. However, the general benefit percentage will remain at $4.8 \%$ in future years.

## 9. ASSESSMENT RATE DEVELOPMENT

### 9.1 Assessment per Special Benefit Point

The Assessment per Special Benefit Point was determined by dividing the Balance to Be Assessed (from Section 7.1) by the 2019/20 Total District Special Benefit Points (from Section 5.4).

The calculation of the 2019/20 Assessment per Special Benefit Point is shown below:

| Desciption | Amount |
| :--- | ---: |
| Balance to Be Assessed | $\$ 3,240,387.14$ |
| Total District Special Benefit Points | $9,664.84$ |
| Assessment per Special Benefit Point (2019/20) | $\$ 335.28$ |

The Assessment per Special Benefit Point computed above was used to determine the 2019/20 assessment rates per parcel characteristic shown in Section 3.1 as well as in Section 8.3. Future changes to a parcel's characteristics (lot, building, frontage, and land use) will cause changes in the assessment amount. The assessment amounts for any given year will be the product of each parcel's characteristics and the District budget in effect for such fiscal year.

Development within the District that increases the overall building square footage, for example, will lead to a greater total levy, even if assessment rates are not increased.

### 9.2 Component Values

The 2019/20 levy for each component of the assessment (lot, building, and frontage) can be broken down as follows:

The determination of the 2019/20 value for each component of the assessment is the component's levy divided by the component value.

For example, the total estimated Lot Levy for Commercial parcels in Zone 1 is $\$ 188,809.04$, and the total Lot Square Footage for those same Commercial parcels in Zone 1 is $867,189.67$ square feet. Therefore, the equivalent 2019/20 rate per lot square foot for Commercial parcels in Zone 1 is $\$ 0.21773$.

| Lot Levy of | Lot Sq Ft of | Assessment Rate |
| :---: | :---: | :---: |
| Commercial |  |  |
| Commercial |  |  |
| Parcels in Lot Sq Ft of |  |  |
| Zone 1 | Parcels in | Commercial |
| Zone 1 | Parcels in |  |
| Zone 1 |  |  |

This same process was used for each component of the assessment and each unique combination of land use and zone. The final, summarized results of these calculations are shown below as well as in Section 3.1. The rates below represent the maximum assessment rates for Fiscal Year 2019/20. These rates are subject to annual increase as described in Section 3.2.

## 13. APPENDICES

The following pages contain the appendices referenced in this report.

## APPENDIX A

The following is a detailed breakdown of the Zone Factor calculations.

| 2 Service/Activity | Zone 1 <br> Factor | Zone 2 <br> Factor |
| :---: | :---: | :---: |
| Sidewalk Sweeping (1) | 1.00 | 1.28 |
| Pressure Washing (2) | 1.00 | 2.56 |
| Workforce Development Cleaners (3) | 0.00 | 2.98 |
| Ambassadors/Stewards/Garage Greeter (4) | 1.00 | 2.09 |
| Project Director (5) | 1.00 | 1.00 |
| Communications \& Marketing (6) | 1.00 | 1.47 |
| Programming Manager (7) | 0.00 | 1.00 |
| Operations Manager (7) | 0.00 | 1.00 |
| Activation (8) | 1.00 | 2.21 |
| Executive Director (9) | 1.00 | 1.00 |
| Factor Totals | 7.00 | 16.59 |
|  |  |  |
| Zone Factors | 1.00 | 2.37 |

(1) Sidewalk sweeping is planned for 224 hours in Zone 1 and 112 hours in Zone 2 weekly. The total frontage of Zones 1 and 2 is 36,658 and 14,345 respectively. This equates to 1.28 times greater frequency in Zone 2.
(2) Sidewalk pressure washing is planned for 40 hours per week in Zone 1 and 40 hours per week in Zone 2. However, but because the frontage of Zone 2 is much less than Zone 1 , this equates to approximately 2.56 times greater frequency in Zone 2.
(3) Workforce Development Cleaners (or similar) will service Zone 2 only. The total combined hours of cleaning per frontage foot for street sweeping and pressure washing, including Workforce Development Cleaners, is 264 hours in Zone 1 and 472 hours in Zone 2 weekly. This equates to approximately 3.4 times greater cleaning frequency in Zone 2. The frequencies of street sweeping and pressure washing are separately analyzed. Therefore, it is necessary to assign the appropriate value to Zone 2 Workforce Development Cleaners to bring the aggregate cleaning ratio to 3.4:1 in favor of Zone 2. This necessitates a factor of 2.98 for Workforce Development Cleaners in Zone 2.
(4) Day and evening Ambassadors and Stewards are planned for 324 hours in Zone 1 and 265 hours in Zone 2 weekly (including the garage greeter for Zone 2 hours). The total frontage of Zones 1 and 2 is 36,658 and 14,345 respectively. This equates to 2.09 times greater intensity in Zone 2.
(5) Zone 1 and Zone 2 will each have a dedicated Project Director.
(6) Marketing and Communications efforts will be split between Zones 1 and 2. However, assuming substantially equal effort between the zones, a factor of 1.47 is assigned to Zone 2
to reflect the differences in total square footage. In other words, equal effort between the zones will result in a greater intensity for Zone 2 because of the smaller, aggregate lot and building square footage. The total lot and building square footage is $7,986,678$ for Zone 1 and 5,420,039 for Zone 2.
(7) The Programming and Operations Managers are dedicated to Zone 2.
(8) Activation will be provided periodically throughout the year and during the holidays in Zone 1. Activation will be provided daily (along with additional holiday events) in Zone 2. The additional Activation provided in Zone 2, combined with the differences in total square footage (as noted above), will result in a greater intensity for Zone 2 estimated to be 2.21 times greater than Zone 1.
(9) The Executive Director oversees the organization.

## APPENDIX B

The following shows the details of the ADT figures used in Section 7.2.2.

| Description /he code | ADT per 1,000 sq ft of Builiting |
| :---: | :---: |
| Racquet Club 491 | 14.03 |
| Health Club 492 | 32.93 |
| Bowling Alley 437 | 33.33 |

## BART Station

The daily pedestrian traffic assigned to the Civic Center BART Station was estimated using the 2018 Monthly Ridership Reports accessed via www.bart.gov. The entrances and exits from the Civic Center Station were summed for each month, the monthly totals were divided by 30 , and the results were averaged.

| ADDRESS | LOT I BLOCK | NAME / DESCRIPTION OF BUILDING | EST. <br> ASSESSMENT <br> AMOUNT | \% OF TOTAL CBD BUDGET |
| :---: | :---: | :---: | :---: | :---: |
| 1122 Market Street | 0351039 | BART Entry at UN Plaza Public Works | \$5,683.21 | 0.18\% |
| UN Plaza | 0351041 | BART Entry at UN Plaza Public Works | \$1,397.71 | 0.04\% |
| 1130 Market Street | 0351046 | BART Entry at UN Plaza Public Works | \$20,881.98 | 0.64\% |
| UN Plaza | 0351049 | BART Entry at UN Plaza Public Works | \$11,111.15 | 0.34\% |
| 101 Grove Street | 0811001 | Dept. of Public Health | \$44,938.58 | 1.39\% |
| 155 Grove Street | 0811016 | Art Commission Gallery | \$5,211.21 | 0.16\% |
| 240 Van Ness Ave. | 0811019 | Vacant Building | \$6,590.18 | 0.20\% |
| 165 Grove Street | 0811021 | Art Commission Vacant Lot | \$4,660.38 | 0.14\% |

London N. Breed

TO: Angela Calvillo, Clerk of the Board of Supervisors

FROM: Sophia Kittler
RE: $\quad$ Petitions for City parcels, to renew and expand the proposed Civic Center Community Benefit District.
DATE: April 2, 2019

Resolution authorizing the Mayor to sign petitions in the affirmative for the proposed renewal and expansion of a property and business improvement district to be named the Civic Center Community Benefit District, with respect to certain parcels of real property owned by the City that would be subject to assessment in said district.

Please note that Supervisors Haney and Brown are co-sponsors of this legislation.
Should you have any questions, please contact Sophia Kittler at 415-554-6153.

[^0]:    ${ }^{1}$ All CBD-related activities, such as the special ballot elections, are paid for through OEWD's annual CBD program budget.
    ${ }^{2} 16$ are neighborhood-based and 2 are tourism industry sector-based districts (Tourism Improvement District and Moscone Expansion District).
    ${ }^{3}$ Fisherman's Wharf operates two separate legal CBD districts together: one on Port property (business tenant based) and one on City parcels (property based).

[^1]:    ${ }^{4}$ The Board of Supervisors authorizes a representative to submit assessment petitions for the City-owned parcels within the proposed district to avoid confusion on the Board's dual role as both the legislative body that may form the district and levy assessments if there is no majority protest by the affected property owners, and as the decision-making body for the City in its capacity as the owner of property that would be subject to assessments.
    ${ }^{5}$ According to OEWD, the UN Plaza has been removed from the renewed term of the Tenderloin CBD. The Civic Center CBD is interested in managing its activation, and the Tenderloin CBD agreed that it is in the best interest of the UN Plaza to be provided with coordinated supplemental services under the Civic Center CBD.
    ${ }^{6}$ According to OEWD, no City-owned parcels that receive CBD supplemental services are currently exempted.

[^2]:    ${ }^{7}$ Based on the FY18-19 assessment roll, the current assessment revenue amount for the district is $\$ 871,688.92$.
    ${ }^{8}$ This includes sources such as grants, donations, contracts for services, in-kind services, etc.
