----------------------------------	----------------------------------

Describe the nature of the contract that was approved:
In-Home Supportive Services is a Federal, State and County funded program, administered by the County to provide assistance to eligible aged, blind, and disabled persons living in their own homes. Without this assistance, these individuals, who are unable to fully care for themselves or handle routine household tasks, would not be able to remain safely in their homes. The IHSS program is designed pursuant to the California Department of Social Services (CDSS) MPP Section 30-700, as an alternative to out-of-home care and/or institutional placement.

IHSS pays for a wide variety of services including household chores and personal care, which enable individuals to live safely in their own home, while encouraging independence. IHSS is provided through either an independent provider (IP) or an agency provider (Contract Mode). Clients who utilize IPs contract directly with the IPs. Some clients, however, are unable to find and/or supervise their own IPs. DAAS contracts with Homebridge to provide Contract Mode services to these clients. In the Homebridge Contract Mode model, the client receives home care from specially trained and supervised providers employed by Homebridge.
