Re: Downtown Community Benefit District - Assessment Engineer's Report

To Whom It May Concern:

This Report is prepared pursuant to Article XIIID of the California State Constitution (Proposition 218) and the State of California Property and Business Improvement District Law of 1994 and augmented by Article 15 of the San Francisco Business and Tax Regulations Code.

The Downtown Community Benefit District ("DCBD") will provide activities either currently not provided or are above and beyond what the City of San Francisco provides. These activities will specially benefit each individual assessable parcel in the DCBD. Every individual assessed parcel within the DCBD receives special benefit from the activities identified under Section B of this Report. Only those individual assessed parcels within the DCBD receive the special benefit of these proposed activities; parcels contiguous to and outside the DCBD and the public at large may receive a general benefit, as outlined in Section E. The cost to provide general benefits, if any, will be funded from sources other than special assessments.

The duration of the proposed DCBD is fifteen (15) years, commencing January 1, 2020. An estimated budget for the DCBD improvements and activities is set forth in <u>Section D</u>. Assessments will be subject to an annual increase of up to 5% per year as determined by the Owners' Association. Funding for the DCBD improvements and activities shall be derived from a property-based assessment of each specially benefitted parcel in the DCBD. A detailed description of the methodology for determining the proportional special benefit each individual assessable parcel receives from the service and the assessment for each parcel is set forth in <u>Section F</u>.

I hereby certify to the best of my professional knowledge and experience that each of the identified benefiting properties located within the proposed Downtown Community Benefit District will receive a special benefit over and above the benefits conferred on the public at large and that the amount of the proposed assessment is proportional to, and no greater than the benefits conferred on each respective property.

SECTION A: LEGISLATIVE AND JUDICIAL REVIEW

Property and Business Improvement District Law of 1994

State Law as augmented by Article 15 of the San Francisco Business and Tax Regulations Code is the legislation that authorizes the City and County of San Francisco to levy assessments upon the real property for the purposes of providing improvements and activities that specially benefit each individual assessed parcel in the DCBD. The purpose of the DCBD is to encourage commerce, investment, business activities and improve residential serving uses. In order to meet these goals, CBDs typically fund activities and improvements, such as, enhanced safety and cleaning, and enhancing the environment. Unlike other assessment districts which fund the construction of public capital improvements or maintenance thereof, CBDs provide activities and improvements "to promote the economic revitalization and physical maintenance of the business districts of its cities in order to create jobs, attract new businesses, and prevent the erosion of the business districts." (Streets and Highways Code Section 36601(b)). The improvements and activities funded through the DCBD are over and above those already provided by the City within the DCBD's boundaries. Each of the DCBD activities or improvements is intended to increase building occupancy and lease rates, to encourage new business development, attract residential serving businesses and services, and improve the quality of life for its residents.

Specifically, the State Law defines "Improvements" and "Activities" as follows:

"Improvement" means the acquisition, construction, installation, or maintenance of any tangible property with an estimated useful life of five years..." 1

"Activities" means, but is not limited to, all of the following:

- (a) Promotion of public events which benefit businesses or real property in the district.
- (b) Furnishing of music in any public place within the district.
- (c) Promotion of tourism within the district.
- (d) Marketing and economic development, including retail retention and recruitment.
- (e) Providing safety, sanitation, graffiti removal, street and sidewalk cleaning, and other municipal services supplemental to those normally provided by the municipality.
 - (f) Activities which benefit businesses and real property located in the district.²

Article XIIID of the State Constitution

In 1996, California voters approved Proposition 218, codified in part as Article XIIID of the State Constitution. Among other requirements, Article XIIID changes the way local agencies enact local taxes and levy assessments on real property. It states, in relevant part, that:

(a) An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be

¹ California Streets and Highways Code, Section 36610.

² California Streets and Highways Code, Section 36613.

imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and an agency shall separate the general benefits from the special benefits conferred on a parcel. Parcels within a district that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit.

(b) All assessments shall be supported by a detailed engineer's report prepared by a registered professional engineer certified by the State of California.³

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Judicial Guidance

Since the enactment of Article XIIID, the courts have rendered opinions regarding various aspects of Article XIIID. The notable portions of cases that apply to assessment districts in general and this Downtown CBD in particular are noted below.

"The engineer's report describes the services to be provided by the District (1) security, (2) streetscape maintenance (e.g., street sweeping, gutter cleaning, graffiti removal), and (3) marketing, promotion, and special events. They are all services over and above those already provided by the City within the boundaries of the District. And they are particular and distinct benefits to be provided only to the properties within the District, not to the public at large—they 'affect the assessed property in a way that is particular and distinct from [their] effect on other parcels and that real property in general and the public at large do not share." 5

"...separating the general from the special benefits of a public improvement project and estimating the quantity of each in relation to the other is essential if an assessment is to be limited to the special benefits."

"...the agency must determine or approximate the percentage of the total benefit conferred by the service or improvement that will be enjoyed by the general public and deduct that percentage of the total cost of the service or improvement from the special assessment levied against the specially benefitted property owners."⁷

"...even minimal general benefits must be separated from special benefits and quantified so that the percentage of the cost of services and improvements representing general benefits, however slight, can be deducted from the amount of the cost assessed against specially benefitting properties."

The contents of this Engineer's Report are prepared in compliance with the above noted authorizing legislation, the State Constitution and the judicial opinions.

SECTION B: PROGRAMS, IMPROVEMENTS AND ACTIVITIES

Identification of Special Benefit Services

As the district grows and problems and issues change from year-to-year, certain special benefit services in categories of similar services might be prioritized one year and deemphasized the next year. We have created these categories of special benefit services to give property owners enough guidance on which services would be prioritized in general, but also give them the flexibility, on a day-to-day basis, to move those similar types of services around as the need arises. The proposed categories of special benefit services for the Downtown Community Benefit District are as follows:

1. CIVIL SIDEWALKS/MOBILITY MANAGEMENT:

Examples of this category of special benefit services may include, but are not limited to:

- Hiring employees or service providers to perform regular sidewalk and gutter sweeping, and regular sidewalk steam cleaning
- Removing trash overflow from current receptacles, performing enhanced trash disposal (over and above city services)
- Timely graffiti removal, within 24 hours as necessary
- Tree and vegetation maintenance (over and above city services)
- Public space maintenance and set up
- Maintenance of existing and new public spaces
- Hiring non-profit or private case workers to respond to homeless issues, aggressive panhandling, and mentally ill people. This may include hiring of 10B PD bike patrols and/or a camera system.
- Consider implementation of a new innovative "Live Well, Live Safe" program which deals with behavior among all elements of the district
- Removal or consolidation of news racks throughout the district.
- Advocacy for increased resources to improve traffic management at major intersections throughout the District and to facilitate cross traffic from the Financial District and Jackson Square to the freeways.
- Additional traffic and mobility efforts such as shared or improved parking, possible community valet program, and updated commercial and other special parking zones and curb cuts.

Summary of Civil Sidewalk Special Benefit Services

One of the top priorities for DCBD owners is "enhanced" maintenance efforts. In order to deal with cleaning issues, sidewalk attendants will be providing a multi-dimensional approach that may consist of CBD-identified, uniformed, radio-equipped personnel sweeping litter, debris, and refuse from sidewalks, gutters, and public spaces of the District. Additionally, they may clean all sidewalk hardscape such as trash receptacles, benches, and parking meters.

The sidewalk attendants can remove graffiti using solvent and pressure washing. The District will maintain a zero-tolerance graffiti policy. All tags will aim to be removed within 24 hours of notification.

The *Live Well, Live Safe* program is a new approach to dealing with disorder within the CBD boundaries which will provide services for individually-assessed parcels in the form of patrolling personnel, nighttime patrol, and safety attendants. The purpose of this service is to prevent, deter, and report illegal activities taking place on the streets, sidewalks, storefronts, public spaces, and parking lots. The presence of the attendants is intended to deter illegal activities such as public urination, indecent exposure, trespassing, drinking in public, prostitution, illegal panhandling, illegal vending, and illegal dumping. The employees will act as the "eyes and ears" of the District. They will supplement, not replace, other ongoing police, security, and patrol efforts within the District. The sidewalk attendants will also maintain communication with current private security firms within the boundaries of the CBD as well as with the San Francisco Police Department area patrols and report illegal activities to them.

Summary of CBD Mobility Management Special Benefit Services

The CBD Owners' Association will seek to hire SFMTA or city authorized traffic control officers at every heavily impacted intersection within the CBD boundaries on all workdays, year-round. These special benefit and supplemental services will ensure the safety of visitors and residents in District properties, and will improve freeway access, which will make the office tenants, residents, retail and restaurants/bars, far more attractive to all stakeholders in the Financial District, parcels south of Market Street and Jackson Square.

Individuals who attempt to leave their office building from the Financial District, Jackson Square and parcels within the boundaries south of Market Street, on weekdays are painfully aware how difficult it is to cross from north to south on Market Street. SFMTA (or its successor agency), traffic control officers, which manually direct traffic at the major intersections on Market Street during huge event days, allow for safe and easy passage on both sides of Market. However, these officers are not present at every intersection in the Financial District, nor are they present every day.

2. DISTRICT IDENTITY AND STREETSCAPE IMPROVEMENTS

Examples of this category of special benefit services may include, but are not limited to:

- Branding of the Financial District, Jackson Square and the Downtown CBD parcels on the south side of Market Street so a positive image is promoted to the public and to new tenants
- Funding website development and updating
- Funding an App development
- Management and coordination of special events
- Hiring a social media company
- Hiring a public relations firm

- Installation of holiday and seasonal decorations
- Creating unique banner programs to tie the district together
- Funding and planning public art displays
- · Funding logo development
- Funding public space design and improvements
- Creating programs that fund business attraction workshops and fairs to ensure that all Downtown CBD building owners have a good inventory of prospective tenants to choose from

<u>Summary of the Function of District Identity Special Benefit Services</u>

The Downtown CBD including the Financial District, Jackson Square and the parcels within the boundaries on the south side of Market Street, increasingly need an ongoing funded program to promote the CBD as the most attractive and dynamic location to office and dine in the entire Bay Area. This is the oldest and most established business district with the greatest concentration of significant architecture in California. The problems that currently exist in the Downtown CBD area are resolvable with the right funding and leadership.

The programs and activities listed above will tell the story of the DCBD and create demand by branding this area, reveal its assets as the transportation hub of the Bay Area, and highlight the many opportunities that exist here.

The area currently lacks a website, social media presence, and ongoing public relations. The alleys and streets near some of the more significant architecture in the District can provide excellent venues for outdoor activities.

PROGRAM MANAGEMENT

Examples of this category of special benefit services may include, but are not limited to:

- Staff and administrative costs
- Advocacy for improved traffic management with the SFMTA
- Paying for Directors and Officers as well as General Liability Insurance
- Office related expenses
- Rent expenses
- Financial reporting and accounting expenses
- Legal work related costs
- Relations with other CBDs and the City

CONTINGENCY/CITY AND COUNTY FEES/RESERVE

Examples of these special benefit services and costs include, but are not limited to:

- Delinquencies
- · City and County fees
- Reserves

Summary of Program Management and the Reserve

The Downtown CBD District Owners' Association will be responsible for the day-to-day operations of the district, will advocate on behalf of the management corporation, oversee employees and service providers, employ professional staff and/or consultants, interact with the City and County and the other surrounding CBDs, and utilize best practices in its efforts to improve the overall CBD district as quickly as possible. The Contingency/Reserve will be set aside to ensure that any budget shortfalls are accommodated for year-to-year, and if the collections of assessments is lower than this Report allocates for the Contingency, those surplus funds can be allocated for special projects or in the same percentage of service categories of special benefit services as outlined in this Report.

SECTION C: DISTRICT BOUNDARIES

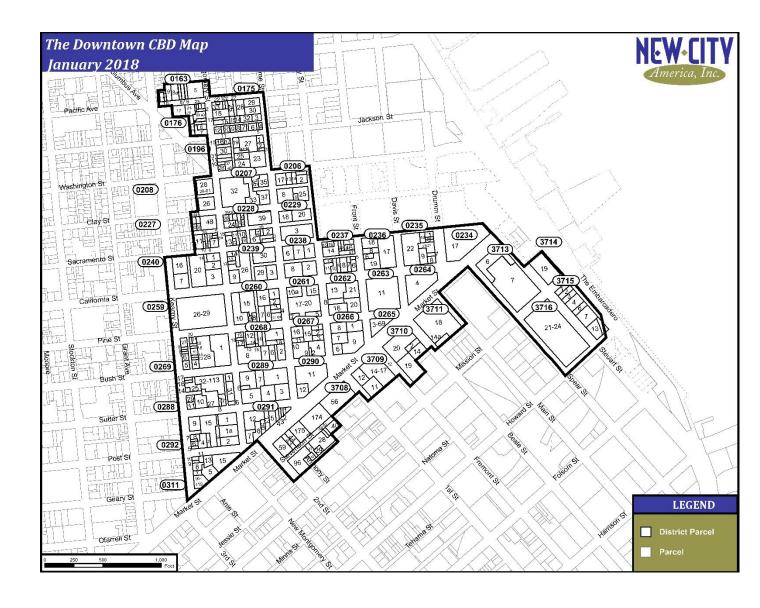

The DCBD shall include approximately 43 whole and partial blocks in the historic Financial District and Jackson Square north of Market Street as well as a few parcels on the south side of Market Street. The proposed district includes approximately 669 parcels owned by 471 property owners. It encompasses all the commercial parcels, residential condominiums/timeshares and Cityowned parcels within the boundaries of the management Report. Specifically, the district boundary is as follows:

- **Eastern Boundary**: From the southwestern parcel of the intersection of Howard Street and the Embarcadero running northward along the west side of the Embarcadero to the parcel at (APN) 3714-019.
- Southern Boundary: Parcels on the south side of Market Street, not included in the Transbay/East Cut CBD, have been included in the Downtown CBD boundaries. This is to prevent any parcels from being excluded from either CBD. The only parcel not included on the south side of Market is the Federal Reserve building because, based upon CBD billing experience in San Francisco, the General Services Agency refuses to pay into the assessment district, and therefore should not receive the special benefits funded from the CBD. The boundaries are therefore as follows: From the southwestern parcel of the intersection of Howard Street and the Embarcadero, running westward to the parcel at the northeastern corner of the intersection of Howard and Spear Street. Continuing northward along the eastern side of Spear Street to Market Street. Continuing westward on Market Street and running south to mid-block Market to Mission on the west side of Main Street. Continuing along a line which includes all the parcels that border the current East Cut Community Benefit District westward to 2nd Street. Continuing northward along the western side of 2nd Street to Market Street, continuing westward down the middle of Market Street to the parcel at the northeastern parcel at the intersection of Kearny Street and Market Street.

Northern Boundary: From the northern side of the Hyatt hotel at the northeastern parcel at the intersection of Market Street and Drumm Street, running westward along the southern side of Sacramento Street up to the intersection of Sacramento and Battery Street. Then moving northward, up west side of Battery until reaching Washington Street, then heading one block west bound (south side only) to Sansome. Continuing northbound on Sansome (including only the west side of the Street), to the intersection of Sansome and Pacific Avenue. Then heading west bound

on Pacific including only the parcels along the south side of Pacific until the boundaries reach the intersection of Pacific and Montgomery. From that point, the CBD includes parcels on both sides of Pacific Avenue up to the parcels just east of the two parcels at Columbus and Pacific. Those two parcels (0176-016 and 0163-012) have not been included because they are included in a study of the expansion of the current Top of Broadway CBD, and because the 1994 Act prohibits the same parcel from being included in two separate property-based assessment districts.

Western Boundary: From the parcel at the northeastern corner of the intersection of Market Street and Kearny Street, continue northbound along the east side of Kearny Street to the parcel at the southeastern corner of the intersection of Sacramento Street and Kearny Street. Continue eastward to mid-block to the parcel APN 0227 – 011 and run on the west side of that parcel up to mid-block on Clay Street. Include the western side of the parcels APN 0208 -026 – 028, 29-61 to the middle of the intersection of Washington and Montgomery Streets. Continue along the middle of the street of Montgomery Street up to Jackson Street, head west to mid-block and include the parcels on both sides of Pacific Avenue, excluding all parcels fronting along Columbus Avenue as those parcels are anticipated to be included in an expansion of the Top of Broadway CBD.

SECTION D: PROPORTIONAL BENEFITS

Article XIIID Section 4(a) of the State Constitution states that "The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of the public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided."

Determining the proportionate special benefit among the parcels of real property within the proposed assessment district which benefit from the proposed improvements, services, and activities is the result of a four-step process:

- 1. Defining the proposed activities,
- 2. Determining which parcels specially benefit from the proposed activities,
- 3. Determining the amount of special benefit each parcel receives,
- 4. Quantifying the amount of general benefit the DCBD activities may provide,
- 5. Determining the proportional special benefit a parcel receives in relation to the amount of special benefit all other parcels in the DCBD receive.

Each identified parcel within the Downtown CBD will be assessed based upon each parcel's unique characteristics in relationship to all other specially benefitted parcels' characteristics. Due to the proportionate special benefits received by each parcel from the DCBD services, each parcel will be assessed a rate which is commensurate with the amount of special benefits received.

Special Benefit Factors

The method used to determine proportional special benefit is measured by each parcel's building square footage (or lot size, in the case of vacant lots). These factors are used to determine the proportional special benefit that each parcel receives. Building square footage is relevant to the use of a property and is utilized to measure short and mid-term impacts.

<u>Building Square Footage Defined</u>: Building square footage is defined as the gross building square footage as determined by the outside measurements of a building or in the case of a residential condo/time share, the actual building square footage of that specific residential parcel.

<u>Lot size Defined</u>: Lot size is defined as the gross land identified for a parcel on the City and County of San Francisco's parcel maps. Lot size is only assessed under this Report in when a parcel does not currently have any improvements.

SECTION E: SPECIAL AND GENERAL BENEFITS

State Law, Proposition 218, and judicial opinions require that assessments be levied according to the estimated special benefit each assessed parcel receives from the activities and improvements. Article XIIID Section 4(a) of the California Constitution in part states that "only special benefits are assessable," which requires that we separate the general benefits, if any, from the special benefits provided by the proposed activities and improvements.

As of January 1, 2015, the State Legislature amended the State Law to clarify and define both special benefit and general benefit as they relate to the improvements and activities these districts provide. Specifically, the amendment (Section 36615.5 of the Streets and Highways Code) defines special benefit as follows: "'Special benefit' means, for purposes of a property-based district, a particular and distinct benefit over and above general benefits conferred on real property located in a district or to the public at large. Special benefit includes incidental or collateral effects that arise from the improvements, maintenance, or activities of property-based districts even if those incidental or collateral effects benefit property or persons not assessed."

In addition, the amendment (Section 36609.5 of the Streets and Highways Code) defines general benefit as follows: "'General benefit' means, for purposes of a property-based district, any benefit that is not a 'special benefit' as defined in Section 36615.5."

Furthermore, the amendment (Section 36601(h)(2)) states: "Activities undertaken for the purpose of conferring special benefits upon property to be assessed inherently produce incidental or collateral effects that benefit property or persons not assessed. Therefore, for special benefits to exist as a separate and distinct category from general benefits, the incidental or collateral effects of those special benefits are inherently part of those special benefits. The mere fact that special benefits produce incidental or collateral effects that benefit property or persons not assessed does not convert any portion of those special benefits or their incidental or collateral effects into general benefits."

Analysis of Special Benefits in the Downtown CBD

All special benefits derived from the assessments outlined in this report are for property-related activities that are specifically intended for and directly benefiting each individually-assessed parcel in the Downtown CBD. The special benefit must affect the individual assessable parcel in a way that is particular and distinct from its effect, relative to other non-assessed parcels and that real property in general and the public at large do not share. No parcel's assessment shall be greater than the reasonable cost of the proportional special benefits it will receive.

The CBD will provide special benefits in the form of:

- Funding cleaner sidewalks, streets and common areas
- Responding to real and perceived public safety improvements
- Greater pedestrian traffic
- Enhanced rental incomes
- Increased voice for District in efforts to improve traffic and parking conditions
- Creating greater demand on property and buildings in the district
- Designing and funding new and improved public spaces within the boundaries of the CBD
- Funding branding and marketing for the buildings in the area
- Facilitating well-managed CBD programs and services

Specifically, the Downtown CBD provides special benefits from each of the activities as defined below.

Civil Sidewalks/Mobility Management:

The enhanced safety activities make the area more attractive for businesses, customers, residents, and ultimately private investment. Once economic investment occurs within the district, pedestrian traffic and commercial activity will increase. The special benefit to assessed parcels from these services includes improved safety, increased lease rates and tenant occupancy due to an increase in commercial activity, and an increase in customers that follow from having a safer environment.

The maintenance and beautification activities specially benefit assessed parcels within the DCBD by providing a clean and aesthetically appealing public right-of-ways. This is achieved through sidewalk sweeping and power washing, litter and graffiti removal, and trash removal. In addition, the beautification activities specially benefit each assessed parcel by providing wayfinding signage, sidewalk seating, holiday décor, planters, etc. These activities create the environment needed to achieve the CBD's goals.

Enhancing pedestrian and vehicular traffic in the DCBD is one of the key special benefits reflected in the CBD survey of property owners. The CBD steering committee anticipates enhancing mobility within the district, whether it be vehicular, on bicycles, scooters or walking. The District will also work with the City to increase SFMTA traffic control officers to expedite traffic north and south of Market Street and within the boundaries of the CBD. This will improve safety and help make the District more competitive with adjacent business districts. This would be a clear special benefit to commercial office building owners, tenants, and their employees, as well as to the residents and visitors walking and driving through the area.

District Identity

Downtown property owners need a new mechanism to market and promote the District. San Francisco is the world center of social media and a major hub of the technology industry; yet the City's oldest business district, has no districtwide social media presence. The CBD will fund these efforts giving special benefit to all of the buildings whether office, hotel, residential, institutional, or non-profit uses.

The CBD Downtown area has some of the most attractive buildings, public right-of-ways, and alleys in the entire City. These are opportunities for social gathering places at lunch, breaks, and after work. Other cities, including New York City, Chicago, Houston, Philadelphia, San Diego, Austin, and Denver, have demonstrated that activated public spaces lead to increased rents and higher occupancy rates. Data shows that wherever there are new public spaces developed or activated (Bryant Park and the High Line in NYC Rittenhouse Square in Philadelphia, Millennium Park in Chicago, the Piazza Della Famiglia in San Diego), those public spaces will become gathering places and will be marketed and promoted through social media, public relations and branded with the district logo to create the sense of place. In addition, a website that promotes vacancies in the district will help all property owners and landlords attract new tenants and help tenants attract new employees.

Special Benefit Conclusion

The special benefit to parcels from the proposed DCBD activities and improvements described in this report is proportionate to the total amount of the proposed assessment to each parcel owner.

Analysis of General Benefit in the Downtown CBD

As required by the State Constitution Article XIIID Section 4(a), the general benefits of an assessment district must be quantified and separated out so that the cost of the activities that merely provide general benefits are deducted from the cost assessed on each specially benefitted parcel. General benefits are benefits funded by the DCBD activities and improvements that are not special in nature and are not "particular and distinct", nor over and above the benefits that other parcels receive. This analysis will evaluate and determine the level of general benefits for (1) parcels inside of the Downtown CBD, (2) parcels outside of the Downtown CBD, and (3) the public at large may receive.

General Benefit to Parcels Inside the Downtown CBD

The DCBD provides funds for activities and improvements that are designed and created to provide special benefits to each parcel within the District. All of the parcels will specially benefit from the cleaner and safer public right-of-ways, increased mobility management, improved district identity, and program management. Thus 100% of the benefits conferred on these parcels are distinct and special in nature and 0% of the DCBD activities provide a general benefit to the parcels in the District boundary.

General Benefit to Parcels Outside of The Downtown CBD

All of the CBD activities and improvements are provided solely to each of the individual assessed parcels in the CBD boundary. Each of the CBD activities is performed in the public right-of-ways (sidewalks) adjacent to all specially benefitted parcels or tenants in the CBD. None of the surrounding parcels outside the District will directly receive any of the CBD activities. Any benefits these surrounding parcels may receive are incidental to providing special benefits to the assessed parcels, and thus any cost associated with the incidental benefits are not reduced from the cost of providing special benefit for those parcels in the district.

General Benefit to the Public-At-Large

In addition to general benefit analysis to the parcels outside of the DCBD boundary, there may be general benefits to the public-at-large, i.e., those people that are either in the CBD boundary and not specially benefitted from the activities, or people outside of the CBD boundary that may benefit from the CBD activities. In the case of the DCBD, the public-at-large are those people that are within the CBD boundary that do not pay an assessment and do not specially benefit from the CBD activities.

To calculate the general benefit to the public-at-large, we determine the degree to which each CBD activity budget may benefit the general public. We conclude that program management and contingency do not provide any general benefits, because those services are tailored towards

administering the District for the special benefits of the assessed parcels. Any benefit to the general public from these activities is, at most, incidental to the provision of special benefits.

By contrast, Civil Sidewalks/Mobility Management services do provide some limited general benefits. The civil sidewalks activities provide some general benefits because the general public may appreciate the enhanced level of maintenance and security, as well as well managed public spaces and public art, as they pass through the Downtown CBD. Similarly, efforts with respect to mobility management may result in traffic improvements that will ultimately benefit the assessed parcels as well as the general public, since many people pass through the District without ever contributing to the business activities within the District. These activities may vary from year to year but are expected to provide some level of general benefit. For similar reasons, we also conclude that the District Identity activities may provide some general benefits.

To quantify these general benefits, we first determine a relative benefit factor for the Civil Sidewalks/Mobility Management and District Identity activities. The relative benefit factor is a unit of measure that compares the special benefit that the assessed parcels receive compared to the general benefit that the general public receives. To determine the relative benefit factor for the DCBD, we used previous studies that conducted intercept surveys in San Francisco (Union Square and West Portal), Los Angeles (Historic Downtown, Leimert Park, Arts District, Downtown Industrial, Fashion District and Venice Beach), and San Diego (Little Italy, Downtown San Diego, Barrio Logan).

These surveys indicate the percentage of people within a district who did not live in the area or engage in consumer or business activity. The surveys generally found that on average 2 - 5% of the respondents within the district boundary were not engaging in such activity, and therefore, were not receiving any special benefits. We assigned a relative benefit factor of 0.04 (4%) to reflect the differences between these study areas and the Downtown CBD.

Based on 30 years of assessment engineering practice, it is the opinion of this Assessment Engineer that it is reasonable to conclude that this relative benefit factor properly accounts for the general public in the District that is not specially benefitted. The relative benefit factor is then multiplied by the Downtown CBD activity's budget to determine the overall general benefit for the Sidewalk Operations, District Identity and Traffic Management activities.

The following table illustrates this calculation based upon the percentage these two special benefit categories represent relative to the overall budget for The Downtown CBD:

| Special Benefit Activity | Budgeted Amount - % of the total budget | Relative Benefit Factor | General Benefit Factor (Column 1 x Column 2) |
|---|--|----------------------------|---|
| Civil Sidewalks/Mobility Management | \$3,000,000 77.45% | 4% | \$ 120,000 |
| District Identity | \$ 200,000 5.16% | 4% | \$ 8,000 |
| Total dollar amount of all three services | \$3,200,000 | 4% | \$ 128,000 |
| Total percentage of the overall budget | 82.61% | | 3.304% |

This analysis indicates that \$ 128,000 of the Civil Sidewalks/Mobility Management and District Identity special benefit activities may be attributed to general benefit to the public at-large and must be raised from sources other than special assessments.

Total General Benefits

Using the sum of the three measures of general benefit described above, we find in year one that \$ 128,000 of that year's budget (4.0% of the two special benefit categories listed above is equal to 3.304% of the total Downtown CBD special assessment budget of \$3,873,491) may be providing general benefits and therefore will need to be funded from sources other than special assessments.

Benefit Zones:

The Downtown CBD intends to ensure each parcel's special assessment is equitable relative to the special benefits received. In order to accomplish this, two different benefit zones will be formed within the District. DCBD acknowledges two types of land uses: 1) commercial/non-profit, city owned, residential/time share parcel building square footage in the District and 2) empty, undeveloped parcels in the district. The methodology that the Downtown CBD Steering Committee adopted is based upon the following:

<u>Zone 1:</u> All commercial/non-profit/institutional/apartment buildings/city owned buildings and residential/time share parcels in the district will pay at the rate of \$0.10 per square foot for the gross building area to fund all the special benefit services that are delivered to the parcels in the district. The CBD Steering Committee would like to have the same type and frequency of

services delivered throughout the district uniformly, so there are no variations in building square footage costs. Linear frontage will not be assessed since the DCBD is nearly completely built out, with little or no opportunity for redevelopment due to the maximum heights of buildings already in place, or the historical features of the buildings prevent them from being redeveloped. Therefore, the common property variable which will fund the special benefit services will only be building square footage.

Zone 2: There are very few, empty, undeveloped parcels in the proposed Downtown CBD. These undeveloped, empty parcels shall pay \$0.08 in assessments in the CBD. The parcels are assessed on lot size rather than building square footage, and at a rate of \$0.08 rather than \$0.10, to account for the fact that they are undeveloped and therefore deriving approximately 20% less special benefit on a per-foot basis as the occupied parcels.

Exemptions:

No specially benefitting parcels, regardless of taxable or tax-exempt property tax status, will be exempt from the assessments funding the special benefit services of the Downtown CBD. Special benefit services will not be provided to any parcels outside of the boundaries of the district.

SECTION F: PROGRAM, IMPROVEMENT AND ACTIVITY COSTS

The following chart outlines the maximum assessments for the DCBD for calendar year 2020.

| EXPENDITURES | BUDGET | % of Budget |
|--|-----------------|-------------|
| Civil Sidewalks/Mobility Management | \$ 3,000,000.14 | 77.45% |
| District Identity, Marketing and public space development and management | \$200,000.00 | 5.16% |
| Program Management | \$ 550,000.00 | 14.20% |
| Contingency | \$ 123,491.00 | 3.19% |
| | | |
| TOTAL ASSESSMENT REVENUES | \$3,873,491.14 | 100% |
| Assessment Revenues | \$3,873,491.14 | 96.80 |
| Other Revenues/General Benefit Contribution | \$128,000.00 | 3.20% |
| Total District Revenues | \$ 4,001,491.14 | 100% |

Annual Budget Adjustments:

Many historic buildings in the CBD area are under ordinances that prevent their demolition. There are a handful of vacant lots or parking lots that currently exist in the area. The ratio of building square footage to lot size, an excellent indicator of the build out and maturity of a district, reaches a ratio of over 9 to 1 (building to lot size). This density is nearly unprecedented in the state of California and anywhere else in the United States.

The assessments that fund the special benefits in the proposed CBD are predominantly based upon building square footage. Since the district is nearly fully built out, and there are many historic structures within the Downtown CBD, new growth will be limited, but the area may continue to grow denser within the current building stock, so there must be a mechanism put in place to allow for annual budget increases.

Though it is anticipated that the District Owners' Association will act in an entrepreneurial manner by seeking grants, donations, and revenues from activities and programs, these additional non-assessment district funds may not be enough to offset the new demand of the Downtown CBD. Therefore, the Management Plan allows for the District Owners' Association to increase the annual budget by a total amount not to exceed 5% per year. The determination of annual adjustments in assessment rates will be subject to the review and approval of the District Owners' Association.

Each year, the DCBD will pay for its activities with a combination of assessment and non-assessment funds. The assessments will be proportioned among the parcels based on special benefit via a benefit point system. Such benefit points are based on objective "parcel criteria" which are undeveloped lot size and building square footage. The benefit points assigned to parcels in the district may change over time to reflect changes to the parcel criteria. Each parcel's assessment will be calculated by multiplying that parcel's total benefit points by a defined dollar amount.

Assessments for years 2-15 may increase annually by the amount not to exceed 5% per year with approval of the DCBD Owners' Association Board of Directors. The Board of Directors will be representative of the property owners themselves in order to ensure that the DCBD is managed properly and is responsive to the property owners' needs. The provision allowing for the increase is a maximum increase, assuming no change in development status, and will be reviewed and considered annually.

The budgeted amounts for Civil Sidewalks/Mobility Management and District Identity special benefit services may be reallocated between categories from year-to-year based upon the district's changing needs and budgets developed by the Owners' Association. The reallocation between these three service categories shall not exceed 10% per year based upon the first year's budget estimate.

15-Year Projected Assessment Budget

The following table shows the DCBD's projected annual budget for the 15-year life term, adjusting it by the maximum 5% inflation factor:

| Year | FISCAL YEAR | MAXIMUM ANNUAL ASSESSMENT |
|------|--------------|---------------------------|
| 1 | FY 2019-2020 | \$3,873,491.14 |
| 2 | FY 2020-2021 | \$4,067,165.70 |
| 3 | FY 2021-2022 | \$4,270,523.98 |
| 4 | FY 2022-2023 | \$4,484,050.18 |
| 5 | FY 2023-2024 | \$4,708,252.69 |
| 6 | FY 2024-2025 | \$4,943,665.32 |
| 7 | FY 2025-2026 | \$5,190,848.59 |
| 8 | FY 2026-2027 | \$5,450,391.02 |
| 9 | FY 2027-2028 | \$5,722,910.57 |
| 10 | FY 2028-2029 | \$6,009,056.10 |
| 11 | FY 2029-2030 | \$6,309,508.90 |
| 12 | FY 2030-2031 | \$6,624,984.35 |
| 13 | FY 2031-2032 | \$6,956,233.57 |
| 14 | FY 2032-2033 | \$7,304,04.25 |
| 15 | FY 2033-2034 | \$7,669,247.51 |
| | | |

Future Development

The above tables are based on the district's current development status and do not account for possible increases to assessments due to changes to the parcel characteristics that are used to allocate special benefits (e.g., building square footage). The amount of each parcel's assessment will depend on the existing assessment rates as well as the specific characteristics of the parcel. Thus, changes to a parcel may result in corresponding revisions to the assessments.

SECTION G: ASSESSMENT METHODOLOGY

As previously discussed in this report, assessments are based on two parcel characteristics: building square footage for developed lots, and lot square footage of undeveloped lots. Based on these characteristics, the database of the Downtown CBD as a whole is as follows:

| Property Variable | Total in District | Revenue Generated by Zone |
|---|--------------------|------------------------------|
| Building Sq. Ft. (Zone 1) | 38,679,073 sq. ft. | \$ 3,867,907.30 |
| Lot size (Zone 2) (undeveloped empty parcels only) | 69,798 sq. ft. | \$ 5,584.84 |

Calculation of Assessments

Based on the activities provided, approximately 99.86% or \$3,867,907.30 of the total special assessments are allocated from Zone 1 or the developed building square footage in the district, Zone 2 generates \$5,584.84, or around .14%...

Assessments Rates, Quantities and Assessment Revenue By Benefit Zone

| Property Variable | Annual Cost per property variable and Zone | Total in District | Revenue Generated by Zone |
|---------------------------|--|--------------------|------------------------------|
| Building Sq. Ft. (Zone 1) | \$0.10 per sq. ft. | 38,679,073 sq. ft. | \$3,867,907.30 |
| Lot Sq. Ft. (Zone 2) | \$0.08 per sq. ft. | 69,798 sq. ft. | \$5,583.84 |

Budget Adjustment

Assessments for years 2-15 may increase annually by the amount not to exceed 5% per year with approval of the DCBD Owners' Association Board of Directors. Individual assessments may also increase over time if changes to the parcels result in the parcels being assigned additional benefit points.

Sample Parcel Assessment:

Zone 1 parcel: \$0.10 x the actual gross building square footage = Annual CBD assessment

 $(\$0.10 \times 230,000 \text{ sq. feet} = \$23,000.00 \text{ per year});$ actual residential condominiums/time share building square footage = Annual CBD assessment $(\$0.10 \times 1,000 \text{ of building square feet} = \$100.00 \text{ per year});$

Zone 2 parcel \$0.08 x the actual lot size of the empty, undeveloped parcel

Note: Upon a building receiving a certificate of completion, a parcel will no longer be considered empty or undeveloped and will henceforth be assessed as part of Benefit Zone 1.

Current City Services

The Board of Supervisors, by adopting the Management District Plan, will confirm its intention to ensure a baseline level of general benefit services in the district. Assessment funds will pay for special benefit services that are above and beyond those services provided by the City.

Assessment of City and Public Parcels within the City CBD

Proposition 218 states that *no parcel is exempt from assessments if that parcel receives special benefit from the improvements and activities*. This includes government and public use parcels owned by the City. The public parcels that exist in the District will all specially benefit from the Downtown CBD activities to make the District cleaner, safer, more attractive, and economically vibrant. Specifically, these parcels specially benefit from: graffiti removal, regular sidewalk and gutter sweeping, enhanced trash removal, patrolling of their sidewalks by sidewalk attendants, connecting the homeless to available resources, power washing the sidewalks and public spaces, beautifying the public rights-of-way, and increased business attraction and development.

Public parcels subject to assessment will have their building square footage assessed to fund the special benefit services, similar to other Benefit Zone 1 parcels. Please see Section 6: "Assessment Methodology of the Downtown Community Benefit District" for further discussion.

The publicly-owned parcels within the Downtown CBD boundary and their respective assessments are indicated in the table below.

| APN | Legal Owner | Site Street | Assessment | Percent of Total |
|----------|--------------------------------|----------------|-------------|------------------|
| 0206 017 | CITY & COUNTY OF SAN FRANCISCO | 532 SANSOME ST | \$ 1,500.00 | 0.0387% |
| 3708 031 | CITY & COUNTY OF SAN FRANCISCO | | \$ 4,464.00 | 0.1199% |
| Total | | | \$ 5,964.00 | 0.1586% |

Budget Adjustment

Assessments for years 2- 15 may increase annually by the amount not to exceed 5% per year with approval of the DCBD Owners' Association Board of Directors. Individual assessments may also increase over time if changes to the parcels result in the parcels being assigned additional benefit points.

Time and Manner for Collecting Assessments

As provided by state law, the DCBD assessment will appear as a separate line item on the property owners' annual property tax bills, or by a special manual bill prepared by the District and either paid in one lump sum or in two equal installments. Laws for enforcement and collection of property taxes also apply to the DCBD assessment.

Disestablishment

State law provides for an annual 30-day window for the property owners to petition to disestablish a district, starting each year on the anniversary of when District was first established. If the property owners who pay more than 50 percent of the assessments submit a written petition for disestablishment within the annual 30-day window, the Board of Supervisors shall adopt a resolution of intention to disestablish the district, notify the property owners, and hold a public hearing before voting on whether or not to disestablish the district. In addition, the Board of Supervisors may disestablish a district at any time by supermajority vote of no fewer than eight members.

Duration

The DCBD shall have a 15-year term commencing January 1st, 2020. The district shall sunset on December 31st, 2034. Any major modifications, or new or increased assessments, during the term of the district that are not consistent with the provisions of original Management District Plan will require a new mail ballot process.

Bond Issuance

No bonds will be issued to finance improvements.

SECTION H: ASSESSMENT ROLL

| APN | Property | SITUS | SITE | SITE | | Year 1 | Percentage |
