RAMS, in collaboration with SFDPH BHS and consumers, is responsible for the design and implementation of a cohesive and collaborative system of peer services to recruit, employ, train, place, support and supervise peer-to-peer staff within DPH, BHS, and community settings. RAMS also operates and evaluates the service delivery system and peer-to-peer services that are received by behavioral health consumers. RAMS oversees the day-to-day operations and the direct supervision of all peer staff, peer coordinators, peer managers, volunteers, interns and support staff that provide peer-to-peer support to behavioral health consumers in the community.

The RAMS Division of Peer-Based Services consist of several components: Peer Counseling & Outreach Services, Peer Internship; Peer Wellness Center; and Peer Specialist Mental Health Certificate (funded by a separate SFDPH-BHS contract). In FY 2017-2018, the RAMS Division of Peer-Based Services expanded to serve individuals exiting the jail system and initial temporary housing by providing resources and community linkage assistance (Promoting Recovery & Services for the Prevention of Recidivism, PRSPR); also working alongside with SFDPH Transitions Division as part of the Shelter Health and Street Medicine teams, assessing needs of homeless individuals in the shelters and providing assistance to medical/non-medical appointments; all in part of the Whole Person Care model that is now being initiated into the SFDPH System of Care to assist the most vulnerable of individuals experiencing homelessness and lack of early medical care.

RAMS integrates MHSA principles and policies while working towards a common goal of 'system transformation'. The 'system transformation' envisioned by the MHSA is founded on the belief that all individuals - including those living with the challenges caused by mental illness – are capable of living satisfying, hopeful, and contributing lives. In addition, RAMS involves behavioral health consumers, former consumers, or family members of consumers in areas of policy design, program planning, implementation, monitoring, quality improvement, evaluation and budget allocations regarding these programs.

#### 6. Methodology

A. Outreach, recruitment, promotion, and advertisement as necessary.

RAMS' responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency's approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents; and community organizations with regards to vocational services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families, annually serving approximately 18,000 adults, children, youth & families at over 90 sites, citywide.

RAMS Division of Peer Based Services, specifically conducts promotion and outreach through regular inperson presentations at BHS clinics, service providers, residential programs and other peer community networks. The Division also distributes, through regular email correspondence, program information on upcoming recruitment for internship opportunities, employment opportunities for peer positions, membership information, and applications for the Peer Wellness Center including monthly activity calendar and flyers. Peer Counselors are also scheduled to distribute program material daily to various sites that provide services to our target population. The division also hosts monthly cultural and social events to promote engagement and services to the larger peer community.

The interns are assigned to different sites located across the city and meet weekly for group supervision and training. Each month, the peer interns attend the Leadership Academy series, which is also managed by the Division of Peer-Based Services. The Division Clinical Manager and Peer Internship Coordinator meet with each intern and their site supervisors at their sites at least monthly. After each rotation (at least two within a cohort cycle), the sites provide a formal evaluation feedback about the intern's performance.

In addition, the Division management monitors service delivery progress (engagement, level of accomplishing service goals/objectives), and termination reasons.

b. Documentation quality, including a description of any internal audits

RAMS utilizes various mechanisms to review documentation quality. Case/chart reviews are conducted by Division management; based on these reviews, determinations/recommendations are provided relating to frequency and modality/type of services, and the match to client's progress & needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of programming are integrated throughout staff meetings and other discussions.

c. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

 Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by weekly group supervision. Furthermore, RAMS annually holds an agency-wide cultural competency training.

Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.

- Ongoing review of services indicators is conducted by the Division Director (and reported to executive management) on monthly basis
- Client's culture, preferred language for services, and provider's expertise are strongly considered during the case assignment process. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- Development of objectives based on cultural competency principles; as applicable, progress on objectives is reported by Division Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Division Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. Human Resources also conduct exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters

d. Satisfaction with services

RAMS conducts an annual client satisfaction surveys to solicit program feedback. The Program Director compiles, analyzes, and presents the results of surveys to staff, each program site-supervisor, RAMS Executive Management, and the RAMS Quality Council. The Program Director also collaborates with RAMS Executive Management, Quality Council, and clinic site supervisors to develop and implement plans to address issues related to client satisfaction as appropriate.

e. Measurement, analysis, and use of ANSA data

ANSA data not applicable; however, as described in previous CQI sections, RAMS continuously utilizes available data to inform service delivery and programming to support positive outcomes.

# 3. Goal Statement

RAMS, in collaboration with SFDPH BHS and consumers, is responsible for the design and implementation of a cohesive and collaborative system of peer services to recruit, employ, train, place, support and supervise peer-to-peer staff within DPH, BHS, and community settings. RAMS also operates and evaluates the service delivery system and peer-to-peer services that are received by behavioral health consumers. RAMS oversees the day-to-day operations and the direct supervision of all peer staff, peer coordinators, peer managers, volunteers, interns and support staff that provide peer-to-peer support to behavioral health consumers in the community.

The RAMS Division of Peer-Based Services consist of several components: *Peer Counseling & Outreach Services, Peer Internship; Peer Wellness Center;* and Peer Specialist Mental Health Certificate (funded by a separate SFDPH-BHS contract). In FY 2017-2018, the RAMS Division of Peer-Based Services expanded to serve individuals exiting the jail system and initial temporary housing by providing resources and community linkage assistance (*Promoting Recovery & Services for the Prevention of Recidivism*, PRSPR); also working alongside with SFDPH Transitions Division as part of the Shelter Health and Street Medicine teams, assessing needs of homeless individuals in the shelters and providing assistance to medical/non-medical appointments; all in part of the Whole Person Care model that is now being initiated into the SFDPH System of Care to assist the most vulnerable of individuals experiencing homelessness and lack of early medical care.

# 4. Target Population

*Population for Peers*: Peers are defined as an individual with personal lived experience who are consumers of mental health and/or substance abuse services, former consumers, family members or significant others of consumers. Peers utilize their lived experience in peer counseling settings, when appropriate, to benefit the wellness and recovery of the client(s) being served.

In addition, RAMS involves behavioral health consumers, former consumers, or family members of consumers in areas of policy design, program planning, implementation, monitoring, quality improvement, evaluation and budget allocations regarding these programs.

The RAMS Division of Peer-Based Services includes four components:

1. Peer Counseling & Outreach Services

#### 6. Methodology

A. Outreach, recruitment, promotion, and advertisement as necessary

RAMS is uniquely positioned well and has the expertise to promote & outreach to and recruit program participants of culturally & linguistically diverse consumers, underrepresented constituents, and community organizations. As a service provider, RAMS comes into contact with significant numbers of consumers and families with each year serving approximately 18,000 adults, children, youth and families offering over 30 programs (integrated into 11 core programs) and reaching to over 90 sites (schools,

# Appendix A-2 Contract Term: 07/01/18 *through* 06/30/19 Funding Source (non-BHS only):

childcare centers, child development centers, and neighborhood and cultural centers) throughout San Francisco. In particular, RAMS is also operating the Peer-to-Peer Employment Program (integrated in the SFDPH BHS Consumer Employment section) for which targeted outreach and recruitment will be conducted. It is through these close partnerships with BHS and the other community-based organizations, that RAMS may leverage existing relationships to promote and effectively recruit a student body that reflects the target population. Furthermore, RAMS maintains Peer Counselor positions and Consumer Advisory Boards, all of which actively engage in the Certificate Program. RAMS actively participates in and are members of various culturally-focused community coalitions and/or committees and utilizes these networks as well as funder entities for outreach & promotion. Moreover, since the inception of the program in 2010, RAMS has developed additional relationships with members in the behavioral health community who have promoted and recruited participants from their client base. Some of these members include: SOMA Mental Health; Conard House, UCSF Citywide Case Management, Progress Foundation, HealthRight 360, Behavioral Health Court, SF First, Larkin Street Youth, etc.

RAMS maintains program promotional material (e.g. brochures, flyers for Open House, etc.) that are available for distribution throughout the year. These materials are also available for download at the program's webpage. The program engages in additional promotional efforts when recruiting applicants for a new cohort and community trainings. During these times, announcement emails are sent to all of the program affiliates and networks. Many organizations are specifically targeted, as their constituents are those of the underserved and underrepresented communities identified in the contract. Program enrollment and registration also becomes available on the RAMS blog and Facebook. Additionally, RAMS conducts presentations and table events about the program when relevant opportunities are available.

### Leadership Academy Component:

The Leadership Academy provides short-term training, generally a 2-3 hour course, in specific topics and offer courses frequently throughout the year (possibly monthly) at various days/times to reach a broad audience. There is not any requirement of peers/consumers to complete multiple courses or adhere to time restrictions, which will allow for program flexibility to work around the needs of many. This component teaches peers and consumers basic education in the areas of, but not limited to, peer counseling best practices, self-care and burnout prevention, boundaries & ethics, de-escalation techniques, wellness and recovery, trauma-informed training, budgeting, policy development, program development, program implementation, quality assurance, evaluation, RFP/RFQ review process, etc. This component provides unbiased information to peers and consumers to develop a basic understanding of certain programmatic areas while empowering peers/consumers to develop and advocate for their own beliefs. These training courses helps peers and consumers develop skills to feel better equipped when participating in activities that request consumer input.

D. Discharge planning and exit criteria and process

For the Entry and Advanced Level Certificate components, exit criteria include successful completion of all coursework related to the course as well as maintaining regular attendance. The Course Syllabus further details to students the grading structure; all students must achieve a grade of 75% in order to receive a Certificate of Completion. In addition, participants must have a 90% attendance rate or higher for Entry Level and 85% for the Advanced Level in order to graduate from the program.

For the Leadership Academy, participants may be eligible to receive a verification of training for having participated in the full session.

E. Program staffing

See CBHS Appendix B.

F.Mental Health Services Act Programs

1. Consumer participation/engagement: Programs must identify how participants and/or their families are engaged in the development, implementation and/or evaluation of programs. This can include peer-employees, advisory committees, etc.

<u>Program Evaluation</u>: The program engages participants in planning, implementation, and evaluation by conducting an evaluation session at the conclusion of each Entry and Advanced Level Certificate cohort. All participants are strongly encouraged to attend these sessions to provide feedback on their experience and generate ideas to improve program successes. At the evaluation session, a written survey is given to each of the participants to provide quantitative as well as qualitative feedback on the program. The written evaluation is generally followed by a focus group format discussion led by RAMS administrators. The Program Manager/Course Instructor is not involved in this evaluation process to ensure open and

Appendix A-2 Contract Term: 07/01/18 through 06/30/19 Funding Source (non-BHS only):

objective feedback from the participants. For the Leadership Academy, written evaluations would also be administered for training sessions.

Results of these evaluations are presented to the program Advisory Committee during its quarterly meetings. Advisory members then consider ways of programmatic improvements to meet the needs of participants. Various changes have been made to the program since its inception based on information obtained from these evaluations.

Advisory Committee: The program maintains two seats that are held by graduates of the program on the Advisory Committee, which is a standalone, multi-disciplinary committee that reflects the diversity of the community. Membership includes former program participants (graduates), guest lecturers, San Francisco State University as well as various systems involved in the workforce development (e.g. RAMS Hire-Ability Vocational Services, California State Department of Rehabilitation, etc.). All advisory members are encouraged to provide input during the meetings. The program continues to accept one participant from each cohort to sit on the Advisory Committee to ensure that each cohort has the opportunity to provide feedback as the program continues to develop. Peer advisory members are committee to sit on the committee meets on a quarterly basis.

<u>Teaching Assistant Position</u>: This position may be held by a program graduate. The intent of this position is to further engage past participants in the program and to facilitate student success. The teaching assistant provides academic support to students and administrative assistance to the Program Manager. The teaching assistant meets with participants regularly on a one-on-one basis as well as conducts review sessions outside of formal class time.

2. MHSA Vision: The concepts of recovery and resilience are widely understood and evident in the programs and service delivery

The fundamental objectives and principles of the program are based on concepts of Wellness and Recovery for consumers of behavioral health services. In providing consumers the skills and training to become providers of services that they have once received themselves, the program takes strengths-based approach that promotes a sense of empowerment, self-direction, and hope, which are all fundamental components of the wellness and recovery model. The program operates on the basis that consumers can recover from their struggles and not only have the ability to find a stable vocation, but the ability to commit to a very noble vocation of helping those who are experiencing similar circumstances as they had in the past. Moreover, the program intends for graduates to continue to grow professionally far beyond this training. Some graduates have experienced the Peer Specialist Mental Health Certificate program as a first step to a life-long commitment to helping others and have moved onto being enrolled in Masterslevel programs in the field of human services.

Additionally, the curriculum content is based on Wellness and Recovery principles. In fact, for the Entry Level Certificate component, the very first lecture of the program is an overview of the Wellness and Recovery Model. Throughout the rest of the course, Wellness and Recovery concepts are tightly integrated into the instructions on how to provide counseling and other services as peer counselors. Some of the specific topics that embody wellness and recovery concepts include: WRAP, Bio-psychosocial approach to case management, stages of change model, harm reduction treatment principles, holistic interventions options, self-care, and mental health, and employment. Furthermore, the required textbook used for the program, "Voices of Recovery" is also based on Wellness and Recovery principles. The program intends for the materials to not only further promote recovery among participants of the program, but also for participants to practice this approach while working with clients as providers in the community behavioral health system.

# 7. Objectives and Measurements

A. Standardized Objectives

All applicable objectives, and descriptions of how objectives will be measured, are contained in the BHS Performance Objectives FY18-19.

8. Continuous Quality Assurance and Improvement

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All staff (including direct service providers) are informed about objectives and the required documentation related to the activities and service delivery outcomes. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information. In addition, the Program Director monitors service delivery progress (engagement, level of accomplishing service goals/objectives), and termination reasons (graduation, etc.).

B. Documentation quality, including a description of any internal audits

RAMS utilizes various mechanisms to review documentation quality. Documentation reviews are conducted by Division Director throughout the program cohort duration; based on these reviews, determinations/recommendations are provided relating to any needed adjustments to match to the cohorts' progress & workforce development needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of programming are integrated throughout staff meetings and other discussions.

C. Measurement of cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

• Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by weekly group

supervision. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.

- Ongoing review of services indicators is conducted by the Program Director (and reported to executive management) on monthly basis
- Client's culture, preferred language for services, and provider's expertise are strongly considered during the case assignment process. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- Development of objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Division Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Division Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency annually administers a staff satisfactions survey and Human Resources also conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO meets with the RAMS Board of Directors on a regular basis (approximately monthly) and provides an update on agency and programs, activities and matters.
- D. Measurement of client satisfaction

The Peer Specialist Mental Health Certificate program conducts a written participant satisfaction survey and focus group. The surveys and focus groups are facilitated by RAMS administrators; collected data is tabulated and summarized. The Division Director compiles, analyzes, and presents the results of surveys to staff, RAMS Executive Management, and the RAMS Quality Council. The Program Director also collaborates with staff, RAMS Executive Management, and Quality Council to assess, develop, and implement plans to address issues related to client satisfaction as appropriate.

# E. Measurement, analysis, and use of ANSA data

ANSA data not applicable; however, as described in previous CQI sections, RAMS continuously utilizës available data to inform service delivery and programming to support positive outcomes.

RAMS' responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency's approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to vocational services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families, annually serving approximately 18,000 adults, children, youth & families at over 90 sites, citywide.

Specifically for Peer to Peer Linkage, the program promotes open positions ("Service Coordinators") within the system of care by outreach and recruitment activities through linkages to workforce development programs (e.g. RAMS Peer Specialist Mental Health Certificate; City College of SF Mental Health Certificate).

Each Service Coordinator is assigned to a specific SFDPH BHS clinic; they work closely with BHS staff and attend staff meetings at their clinics to maintain visibility of the program.

B. Admission, enrollment and/or intake criteria and process where applicable

This program provides for Service Coordinators who work at designated BHS clinics/program providing support to clinicians and their clients on identifying community resources, and providing assistance on successfully accessing, utilizing and maximizing these resources. Clients are referred by direct service providers at various BHS clinics, who indicate the service or assistance needed. The Service Coordinator then meets with the referred client to introduce Peer to Peer Linkage, discuss the details of the providers' referral, assess any additional service needs; and provide assistance to address needs; treatment plan of care may be adjusted, as appropriate.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

The Service Coordinator works with the client to support them in the access and utilization of available resources, including advocating for clients' needs in the provision of services and resources. Assistance and services may include but are not limited to:

- Transportation and Mobility
- Affordable Housing
- Assistive Technology
- Language Interpretation
- Government Services and Programs
- Cultural Adjustment
- Immigration Services
- Food Assistance
- Women's Services

- Medical Assistance
- Mental Health Services
- Training and Education Programs
- Independent Living Skills
- Vocational Service
- Substance Use services

The Service Coordinators focus on providing the clients with assistance in: acknowledging the available services; understanding the implications of the services; making an informed decision on selecting

services; successfully navigating eligibility and accessing systems; maximizing utilization of resources; following up on service progress, remaining on track with recovery goals, and achieving individual and vocational goals.

Service Coordinators may work with the same client several times regarding different needs and issues; the frequency of service may also vary depending on the service needed and the resources available.

D. Discharge Planning and exit criteria and process, i.e., a step-down to less intensive treatment programs, the criteria of a successful program completion, aftercare, transition to another provider, etc.

Clients may be discharged from this program when their initial referral and/or other identified needs for service coordination have been met or if clients make the decision that their needs have changed and services are no longer desired or necessary.

E. Program staffing (which staff will be involved in what aspects of the service development and delivery). Indicate if any staff position is not funded by DPH.

See BHS Appendix B.

7. Objectives and Measurements

A. Standardized Objectives

All applicable objectives, and descriptions of how objectives will be measured, are contained in the BHS Performance Objectives FY18-19.

8. Continuous Quality Improvement

a. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and service outcomes. The Division's Director/Manager monitors service progress by collecting information during regular group supervision meetings, data submission by Service Coordinators, chart reviews, and agency site visits. Furthermore, each Service Coordinator receives regular individual supervision from an on-site supervisor at their assigned clinic. On-site supervisors meet with staff weekly or on an as-needed basis to review caseload with regard to service strategies, service plans & progress, productivity, etc. On a regular basis, the Division's Director/Manager conducts a joint supervision with on-site supervisor to discuss each Service Coordinator's overall performance and their progress in meeting contract objections. Should there be concerns regarding Service Coordinator(s) ability to fulfill contract requirement based on information gathered from the various sources mentioned above, the Division's Director/Manager will work directly with Service Coordinator(s) and on-site supervisor to develop a plan of action to address concerns.

With regards to management monitoring, the Division Director meets with executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer) each month to report progress/status towards each contract objective.

b. Quality of documentation, including frequency and scope of internal chart audits.

RAMS utilizes various mechanisms to review documentation quality. Chart reviews are conducted by Division Director/Manager on a quarterly basis; based on these reviews, determinations/ recommendations are provided relating to frequency and modality/type of services, and the match to client's progress & clinical needs. Feedback is provided to direct staff members.

In addition to the program's documentation review, the RAMS Quality Council formally conducts an annual review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback is provided directly to staff as well as general summaries at staff meetings.

c. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by regular group supervision. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of services indicators is conducted by the Division Director (and reported to executive management) on monthly basis
- Client's culture, preferred language for services, and provider's expertise are strongly considered during the case assignment process. RAMS also maintains policies on Client Länguage Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- Development of annual objectives based on cultural competency principles; as applicable, progress on objectives is reported by Division Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Division Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Division Director and, at least annually, the CEO meets with each program to

solicit feedback for this purpose. Human Resources also conduct exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.

- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters

d. Satisfaction with services

The Peer to Peer Linkage program conducts an annual client satisfaction survey at each clinic-site to solicit program feedback. The Division management compiles, analyzes, and presents the results of surveys to staff, each program site-supervisor, RAMS Executive Management, and the RAMS Quality Council. The Division Director also collaborates with RAMS Executive Management, Quality Council, and clinics to develop and implement plans to address issues related to client satisfaction as appropriate.

e. Timely completion and use of outcome data, including CANS and/or ANSA data

ANSA data is not applicable for this specific contract; however, as described in previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive outcomes. As staff are providing services to BHS clients, they work in collaboration with the primary counselors to support positive outcomes and achievable of treatment goals.

#### 3. Goal Statement:

To be an entry-level program designed to prepare TAY with the basic skills and knowledge for entrylevel employment in the behavioral health field and to provide foundational knowledge on the continuum of behavioral health issues, services, resources, skill sets in outreach and engagement, systems navigation, and peer counseling.

#### 4. Target Population:

TAY (16-24 years old) who wish to be trained to support others in a similar age group and the community who are recruited from community programs, behavioral health clinics, Wellness Centers at SFUSD, RAMS Hire-Ability Vocational Services, and other youth workforce development programs, who are underserved and underrepresented San Francisco mental health consumers who have experience in the community behavioral health system, are interested in a mental health career path, and/or may benefit from additional educational training.

The target population includes and is not limited to African Americans, Asian and Pacific Islanders, Latino/as, Native Americans, and Lesbian, Gay, Bisexual, Transgender, Queer and Questioning (LGBTQ) individuals.

### 5. Modality(s)/Intervention(s)

July 1, 2018 - August 31, 2018 is the continuation of the program and curriculum development period, which began in April 2018. The first cohort is scheduled to start classes on September 4, 2018 and meet three hours a day, twice a week, for 16 weeks. The first cohort is scheduled to graduate on December 21, 2018. After a wrap-up (for cohort 1) and planning/recruitment (for cohort 2) period in January, the second cohort is scheduled to start on February 12, 2019 and go through May 31, 2019. After the second cohort graduates, June will be spent wrapping up and planning/recruiting for the next cohort in the fall.

During July and August, the program will be refining and finalizing the program curriculum through curriculum feedback sessions with community organizations (e.g., MHA-SF, CCSF MHC program), as well as coordinating with providers in the TAY System of Care (TAY SOC) to plan site visits and on-site CID#: 1000003052 Page 1 of 5 4/1/19

trainings as part of the curriculum. Based on input from TAY, TAY providers, and MHA-SF and the CCSF MHC program, the topics/concepts covered during the 16-week course may include: cultural humility, wellness and recovery model, adolescent/human development, stigma-elimination and advocacy, outreach and engagement, peer counseling skills, group facilitation, substance use, trauma-informed care, self-care, systems navigation, crisis intervention, motivational interviewing, harm reduction, mindfulness/emotional regulation skills, gender affirming care, clinical documentation, system of care overview, professionalism, and effective communication. The TAY SOC providers felt that a participant in the certificate program who learns all of the aforementioned topics and completes the program will be sufficiently knowledgeable and ready to be placed in an internship at their sites. In order for participants to demonstrate the knowledge and skills they acquire through participation in the certificate program, they will be asked to present on a mental health topic of their choosing, as well as do an informational interview with a staff member at a TAY provider organization and present their learning to their cohort in the form of an agency presentation as their final project.

#### 6. Methodology:

#### A. Outreach, recruitment, promotion, and advertisement

During the start-up phase of the program, RAMS conducted various focus groups to identify effective outreach, recruitment, promotion, and advertisement strategies and activities to engage the target population. In FY18-19, RAMS will use the input provided by various community stakeholders during the focus group sessions to begin outreach and recruitment for the first cohort that will start in September. Since one of the target populations is systems-involved TAY, RAMS will contact providers in Child, Youth, and Family (CYF) and Adult/Older Adult (A/OA) Systems of Care via Behavioral Health Services (BHS) in order to disseminate program materials. RAMS will also reach out to the providers in the TAY SOC to continue to develop partnerships with each of them and to ensure that outreach extends to TAY who are currently not involved in either the CYF or A/OA SOC. RAMS will also do outreach to the certificate programs at CCSF as many students participate in multiple certificate programs in preparation for entering the workforce. TAY who participated in focus groups encouraged use of social media to advertise the launch of the new program for this demographic, so RAMS will utilize the Summer Bridge alumni network and spread the word through the RAMS Summer Bridge Facebook page.

B. Admission, enrollment and/or intake criteria and process where applicable

This program will be developed with a high community engagement and input process. During the startup curriculum development and program design stages, community engagement and feedback will be obtained regarding recommended application procedures and entry requirements, curriculum courses, and program graduation requirements. One requirement for this program, as it is specifically for the transitional age youth population, is that participants must be between 16 and 24 years of age. Another requirement is that the applicant must be able to provide documentation that they are eligible to legally work in the United States, as this an educational and training program that prepares participants for employment. The other requirements are that applicants be interested in helping others in a behavioral health setting and that they be able to commit to a 16-week program that meets twice a week.

RAMS has a youth advisory board that reflects the target age group and diversity of the community. The application for this certificate program was created based on input from this youth advisory board, who indicated that a series of questions would be more appropriate for this age group rather than a broad personal statement. Additionally, they recommended having applicants include two references who will be contacted by phone rather than requiring the references to write letters of recommendation on behalf of the applicant, as this would make the application process more accessible to a wider range of applicants. Lastly, feedback from the focus group led to the scheduling of an application help workshop held prior to

CID#: 1000003052

the application deadline where potential applicants can stop by, in order to get support in completing their application and to submit it at the workshop. This was done for multiple reasons: as an additional outreach opportunity to meet potential participants prior to the application review and selection process, in order to generate enthusiasm for the program and develop rapport, and as a trial run for potential participants to familiarize themselves with the transportational route to the program, as the workshop is held at the same location as the classes.

Admission criteria will be established collaboratively within the program team so that there is a standardized process of determining whether an applicant is offered a position in the program or not. The program strives to also invite one reviewer employed within RAMS who has experience working with peer counselors to lend their experience and expertise.

C. Service delivery model

During this start-up and development phase, RAMS will conduct various focus groups to inform the development of the program's service delivery model while identifying effective strategies for implementation.

In general, the TAY Peer Certificate Program is proposing to engage in various retention strategies to ensure that participants are supported and adjusting socially and practically to the academic environment, throughout the program as well as post-graduation as they hopefully transition to enrolling in the RAMS TAY Peer Employment Program. Support services in subsequent years (after start-up/curriculum development period) will include:

- (Individual Support and Advising) Program Manager will serve as advisor to students, focusing on overall well-being (psychological and academic). She will regularly meet with each student and, as needed, coordinate for community support (e.g., mentorship, case management).
- (Cohort/Peer Support) Coordinator will plan social networking activities and other structured activities designed to facilitate cohort cohesiveness amongst students and faculty.
- (<u>Program Completion Incentive</u>) RAMS will be offering financial incentives to all participants who complete the program which further supports students with financial assistance and can serve as motivation.

D. Discharge Planning and exit criteria and process

This program will be developed with high community engagement and input process. During the start-up curriculum development and program design stages, community engagement and feedback will be obtained regarding recommended application procedures and entry requirements, curriculum courses, and program graduation requirements. Exit criteria includes successful completion of all coursework related to the TAY Peer Certificate Program. The plan is to coordinate and collaborate closely with the TAY Peer Employment Program in order to facilitate a smooth transition from the Peer Certificate Program to the Peer Employment Program, which will support the graduates in getting internship and/or job placements.

# 8. Continuous Quality Improvement:

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All staff (including direct service providers) are informed about objectives and the required documentation related to the activities and service delivery outcomes. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information. In addition, the Program Director monitors service delivery progress (engagement, level of accomplishing service goals/objectives), and termination reasons (graduation, etc.).

B. Documentation quality, including a description of any internal audits

RAMS utilizes various mechanisms to review documentation quality. Documentation reviews are conducted by Program Director throughout the program cohort duration; based on these reviews, determinations/recommendations are provided relating to any needed adjustments to match to the cohorts' progress & workforce development needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of programming are integrated throughout staff meetings and other discussions.

C. Measurement of cultural competency of staff and services

The Program Director also collaborates with staff, RAMS Executive Management, and Quality Council to assess, develop, and implement plans to address issues related to client satisfaction as appropriate.

## 7. Objectives and Measurements:

All applicable objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled <u>BHS Performance Objectives FY 18-19.</u>

#### 8. Continuous Quality Improvement:

1. Achievement of contract performance objectives and productivity

RAMS monitors contract performance objectives through several methods such as data analysis and monthly review of consumer individual vocational goals/objectives, regular weekly meetings between the Program Manager and/or Group Training Facilitator and the TAY served, regular individual supervision between supervisors and supervisee's to discuss consumer caseload with regard to intervention strategies, vocational plans & progress, documentation, productivity and overall contract objectives. Other significant activities to ensure achievement of contract performance objectives include regular weekly program staff meetings and program management meetings where issues related to overcoming any barriers to achieving performance objectives are discussed.

Monthly reports from each program coordinator to the program director and in turn to the Deputy Chief of RAMS address the ongoing progress and/or barriers towards contract objectives. Corrective action activities are documented which includes the identification of the issue, plan of action and steps and timelines for completion of the plan. RAMS Quality Council which represents a small group of RAMS supervisors, supervisees, consumers and executive leadership staff meet quarterly, is designed to advise on program quality assurance and improvement activities.

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All staff are informed about objectives and the required documentation related to the activities and program outcomes; majority of program objectives are measured by participant scores, program evaluations, and/or post-program surveys. With regards to management monitoring, the Program Director reports progress/ status towards each contract objective to executive management (Deputy Chief/Director of Clinical Services and Chief Executive Officer) in a written monthly report. If the projected progress has not been achieved for the month, the Program Director identifies barriers and develops a plan of action. In addition, the Program Director monitors programming/service progress (level of engagement by participants, level of accomplishing program goals/objectives), program exit reasons, and service/resource utilization. also conducts various random file/chart reviews to review adherence to objectives as well as service documentation requirements.

2. Quality of documentation, including a description of the frequency and scope of internal chart audits

The program utilizes various mechanisms to review documentation quality. Chart review by supervisors, every 30 days and within a week of case closure. Based on their review,

determinations/recommendations are provided relating to service authorizations including frequency and modality/type of services, and the match to client's progress & vocational/clinical needs; feedback is provided to direct staff members. On a quarterly basis, the Program Director or Manager/Coordinator conducts a review of randomly selected charts (up to 10 charts, program-wide) to monitor quality & timeliness and provide feedback directly to staff as well as general summaries at staff meetings. The selection is such that each individual provider is reviewed at least annually.

In addition to the program's documentation review, the agency's Quality Council conducts an annual review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback will be provided directly to staff as well as general summaries at staff meetings.

## 3. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by individual supervision (mostly weekly); supervisors and their supervisees' caseload with regard to service strategies, vocational plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of vocational services indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of service engagement (referral source; engagement after intake; number of admissions; service discharge reasons; and service utilization review)
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture; and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed
- Development of annual objectives based on cultural competency principles; progress on objectives are reported by Program Director to executive management in monthly report. If the

projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.

- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. Human Resources also conduct exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO meets with the RAMS Board of Directors on a regular basis (approximately monthly) and provides an update on agency and programs' activities and matters.
- 4. Satisfaction of services

RAMS adheres to the CBHS satisfaction survey protocols which include dissemination annually or biannually. In addition, Hire-Ability administers its program-developed client satisfaction surveys at case closure or upon request of the client. Furthermore, client feedback in obtained during post- program evaluations, quarterly client advisory council meetings, daily community meetings at the vocational services program, individual meetings between direct service staff and clients, and through a confidential telephone hotline. Results of the survey methods are shared at staff meetings, reviewed by the RAMS Quality Council, and reported to executive management. Furthermore, the program facilitates focus groups with clients. All satisfaction survey methods and feedback results are also compiled and reported to executive management along with assessment of suggestion implementation. On an annual to biennial basis, clients attend RAMS Board of Directors meetings to share their experiences and provide feedback.

3. Goal Statement

To develop a peer linkage team providing both wraparound services and a warm hand off, in an effort to increase client engagement in behavioral health outpatient services among those stepping down from ICM/FSP services, improve the overall client experience for those in transition, and support and further develop a peer-driven model of care.

4. Target Population

Population Served by Peers: Peer counselors will conduct culturally and linguistically congruent outreach and peer counseling support to clients enrolled in intensive case management behavioral health programs who are experiencing increasing recovery such that they may soon manage well at a lower intensity of service delivery.

Population for Peers: Peers are defined as an individual with personal lived experience who are consumers of mental health and/or substance abuse services, former consumers, family members or significant others of consumers.

5. Modality(ies)/Interventions

RAMS offers peer counseling, outreach, and education & training throughout San Francisco. RAMS integrates MHSA principles and policies while working towards a common goal of 'system transformation'. The 'system transformation' envisioned by the MHSA is founded on the belief that all individuals – including those living with the challenges caused by mental illness – are capable of living satisfying, hopeful, and contributing lives. In addition, RAMS involves behavioral health consumers, former consumers, or family members of consumers in areas of policy design, program planning, implementation, monitoring, quality improvement, evaluation and budget allocations regarding these programs.

#### Appendix A-7

Contract Term: 01/01/19 through 06/30/19 Funding Source (non-BHS only):

FY 2018-19 represents a start-up period for this program, which will be under the RAMS Division of Peer-Based Services includes four components:

1. Peer Counseling & Outreach Services

2. Peer Internship

3. Peer Wellness Center

4. Peer Specialist Mental Health Certificate

See also BHS Appendix B, CRDC pages:

## 6. Methodology

A. Outreach, recruitment, promotion, and advertisement as necessary.

RAMS' responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency's approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to vocational services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families, annually serving approximately 18,000 adults, children, youth & families at over 90 sites, citywide.

The overall RAMS Division of Peer Based Services provides on-site services at 30+ sites and conducts promotion and outreach through regular in-person presentations at and email correspondence with BHS clinics, service providers, residential programs and other peer community networks. Peer Counselors also distribute program material daily to various sites that provide services to our target population. The division also hosts monthly cultural and social events to promote engagement and services to the larger peer community.

For the Peer ICM Transition Support team, additional outreach and promotion activities may be further developed, while focusing on ICM/FSP programs.

B. Admission, enrollment and/or intake criteria and process where applicable

Because the target population is clients enrolled in intensive case management behavioral health programs who are experiencing increasing recovery such that they may soon manage well at a lower intensity of service delivery, the admission process will be collaboratively developed during this start-up period. Eligibility will include enrollment in an ICM and a degree of increasing recovery as identified by the client's ICM case manager based on BHS criteria.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, etc.

FY 2018-19 represents a start-up period for this program.

## CID#: 1000003052

#### Page 2 of 5

Appendix A-7 Contract Term: 01/01/19 through 06/30/19 Funding Source (non-BHS only):

The ICM/FSP-OP Transition Support project involves an autonomous peer linkage team providing both wraparound services and a warm hand off. The team will consist of culturally and linguistically diverse peers and a clinician. Peers will serve as step-down specialists and help connect clients with resources and information, help set expectations, provide follow up, and communicate with providers as well as serve as a guide for the client through all the various steps from preparation to successful placement and/or discharge.

Activities may include, but are not limited to the following:

- Peers will be situated in a cohort with each peer able to respond to any client referred to the peer team
- As part of training and orientation, the peers will do a "rotation" at each ICM/FSP program to gain familiarity with the programs and their staff as well as clinical training (e.g., Motivational Interviewing, Cognitive Behavioral Therapy, Trauma-Informed Systems, as needed)
- As an ICM/FSP client nears readiness for a referral to OP, the peer will be invited to the ICM/FSP by the ICM/FSP case manager to meet the client
- Peers will participate in client case conferences and present at program staff meetings
- The peers will do outreach with clients, conduct Wellness Recovery Action Plan (WRAP) groups, and provide support using engagement strategies such as motivational interviewing, active listening, harm reduction, etc.
- Peer transition team member will work with the client to facilitate connections, introduce client to community supports, conduct an orientation to the OP site, and together with the ICM/FSP case manager, connect the client to the new provider
- Clinical supervision will be provided by a licensed therapist or social worker at an agency supporting the peer cohort
- Regular peer cohort meetings/trainings with all peer transition team members
- Accommodation for the peer member if/when they feel challenged emotionally, re-traumatized, and/or destabilized at work

This project will be a change to an existing practice. While linkage, peer services, navigation, and similar services exist within the system, having a cohesive peer transition team that works interdependently with clinics is a new approach. In this new vision, transitions between the ICM/FSP and OP will be tailored to the needs of the client. Instead of a brief handoff period, this project will implement a bridge to the new service. In that frame, rather than having the transition be a loss for the client, the client is instead gaining a team of peer professionals who have flexibility in addressing the needs of the client.

D. Discharge planning and exit criteria and process

During this start-up period, RAMS will collaboratively work with BHS to develop exit criteria and processes. In general, clients may exit from the program when identified needs have been met or if clients make the decision that their needs have changed and services are no longer desired or necessary.

E. Program staffing

See BHS Appendix B.

RAMS oversees the day-to-day operations and the direct supervision of all peer staff, peer coordinators, peer managers, volunteers, interns and support staff that provide peer support to behavioral health

consumers in the community. RAMS has a leadership team comprised of peer leaders and/or peer coordinators with personal lived experience with the behavioral health system as a consumer, former consumer or family member of a consumer. RAMS provides supportive services for peer employees that may include, but not limited to; training, supervision, consultation, job coaching and retention services, and peer-based support groups.

7. Objectives and Measurements

A. Standardized Objectives

All applicable objectives, and descriptions of how objectives will be measured, are contained in the BHS Performance Objectives FY18-19.

## 8. Continuous Quality Improvement

#### a. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All staff (including direct service providers) are informed about objectives and the required documentation related to the activities and service delivery outcomes. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. In addition, the Division management monitors service delivery progress (engagement, level of accomplishing service goals/objectives), and termination reasons.

b. Documentation quality, including a description of any internal audits

RAMS utilizes various mechanisms to review documentation quality. Case/chart reviews are conducted by Division management; based on these reviews, determinations/recommendations are provided relating to frequency and modality/type of services, and the match to client's progress & needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of programming are integrated throughout staff meetings and other discussions.

c. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

• Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by weekly group

- Client's culture, preferred language for services, and provider's expertise are strongly considered during the case assignment process. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- Development of objectives based on cultural competency principles; as applicable, progress on objectives is reported by Division Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Division Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. Human Resources also conduct exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters
- d. Satisfaction with services

RAMS conducts an annual client satisfaction surveys to solicit program feedback. The Program Director compiles, analyzes, and presents the results of surveys to staff, each program site-supervisor, RAMS Executive Management, and the RAMS Quality Council. The Program Director also collaborates with RAMS Executive Management, Quality Council, and clinic site supervisors to develop and implement plans to address issues related to client satisfaction as appropriate.

2) Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that the creation, extension, renewal, or assignment of this Agreement may result in a "change in ownership" for purposes of real property taxes, and therefore may result in a revaluation of any possessory interest created by this Agreement. Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report on behalf of the City to the County Assessor the information required by Revenue and Taxation Code section 480.5, as amended from time to time, and any successor provision.

3) Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that other events also may cause a change of ownership of the possessory interest and result in the revaluation of the possessory interest. (see, e.g., Rev. & Tax. Code section 64, as amended from time to time). Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report any change in ownership to the County Assessor, the State Board of Equalization or other public agency as required by law.

4) Contractor further agrees to provide such other information as may be requested by the City to enable the City to comply with any reporting requirements for possessory interests that are imposed by applicable law.

11. Payment Does Not Imply Acceptance of Work. The granting of any payment by City, or the receipt thereof by Contractor, shall in no way lessen the liability of Contractor to replace unsatisfactory work, equipment, or materials, although the unsatisfactory character of such work, equipment or materials may not have been apparent or detected at the time such payment was made. Materials, equipment, components, or workmanship that do not conform to the requirements of this Agreement may be rejected by City and in such case must be replaced by Contractor without delay.

12. Qualified Personnel. Work under this Agreement shall be performed only by competent personnel under the supervision of and in the employment of Contractor. Contractor will comply with City's reasonable requests regarding assignment of personnel, but all personnel, including those assigned at City's request, must be supervised by Contractor. Contractor shall commit adequate resources to complete the project within the project schedule specified in this Agreement.

13. **Responsibility for Equipment.** City shall not be responsible for any damage to persons or property as a result of the use, misuse or failure of any equipment used by Contractor, or by any of its employees, even though such equipment be furnished, rented or loaned to Contractor by City.

14. Independent Contractor; Payment of Taxes and Other Expenses.

Independent Contractor. Contractor or any agent or employee of Contractor shall be deemed at all times to be an independent contractor and is wholly responsible for the manner in which it performs the services and work requested by City under this Agreement. Contractor, its agents, and employees will not represent or hold themselves out to be employees of the City at any time. Contractor or any agent or employee of Contractor shall not have employee status with City, nor be entitled to participate in any plans, arrangements, or distributions by City pertaining to or in connection with any retirement, health or other benefits that City may offer its employees. Contractor or any agent or employee of Contractor is liable for the acts and omissions of itself, its employees and its agents. Contractor shall be responsible for all obligations and payments, whether imposed by federal, state or local law, including, but not limited to, FICA, income tax withholdings, unemployment compensation, insurance, and other similar responsibilities related to Contractor's performing services and work, or any agent or employee of Contractor providing same. Nothing in this Agreement shall be construed as creating an employment or agency relationship between City and Contractor or any agent or employee of Contractor. Any terms in this Agreement referring to direction from City shall be construed as providing for\_direction as to policy and the result of Contractor's work only, and not as to the means by which such a result is obtained. City does not retain the right to control the means or the method by which Contractor performs work under this Agreement. Contractor agrees to maintain and make available to City, upon request and during regular business hours, accurate books and accounting records demonstrating Contractor's compliance with this section. Should City determine that Contractor, or any agent or employee of Contractor, is not performing in accordance with the requirements of this Agreement, City shall provide Contractor with written notice of such failure. Within five (5) business days of Contractor's receipt of such notice, and in accordance with Contractor policy and procedure, Contractor shall remedy the deficiency. Notwithstanding, if City believes that an action of Contractor, or any agent or employee of Contractor, warrants immediate remedial action by Contractor, City shall contact Contractor and provide Contractor in writing with the reason for requesting such immediate action.

Payment of Taxes and Other Expenses. Should City, in its discretion, or a relevant taxing Ъ. authority such as the Internal Revenue Service or the State Employment Development Division, or both, determine that Contractor is an employee for purposes of collection of any employment taxes, the amounts payable under this Agreement shall be reduced by amounts equal to both the employee and employer portions of the tax due (and offsetting any credits for amounts already paid by Contractor which can be applied against this liability). City shall then forward those amounts to the relevant taxing authority. Should a relevant taxing authority determine a liability for past services performed by Contractor for City, upon notification of such fact by City, Contractor shall promptly remit such amount due or arrange with City to have the amount due withheld from future payments to Contractor under this Agreement (again, offsetting any amounts already paid by Contractor which can be applied as a credit against such liability). A determination of employment status pursuant to the preceding two paragraphs shall be solely for the purposes of the particular tax in question, and for all other purposes of this Agreement, Contractor shall not be considered an employee of City. Notwithstanding the foregoing, Contractor agrees to indemnify and save harmless City and its officers, agents and employees from, and, if requested, shall defend them against any and all claims, losses, costs, damages, and expenses, including attorney's fees, arising from this section.

15. Insurance.

RAMS (Peer to Peer) CMS# 7524 P-500 (4-15; DPH 5-15) a. Without in any way limiting Contractor's liability pursuant to the "Indemnification" section of this Agreement, Contractor must maintain in force, during the full term of the Agreement, insurance in the following amounts and coverages:

1) Workers' Compensation, in statutory amounts, with Employers' Liability Limits not less than \$1,000,000 each accident, injury, or illness; and

2) Commercial General Liability Insurance with limits not less than \$1,000,000 each occurrence and \$2,000,000 general aggregate for Bodily Injury and Property Damage, including Contractual Liability, Personal Injury, Products and Completed Operations; and

3) Commercial Automobile Liability Insurance with limits not less than \$1,000,000 each occurrence, "Combined Single Limit" for Bodily Injury and Property Damage, including Owned, Non-Owned and Hired auto coverage, as applicable.

4) Blanket Fidelity Bond (Commercial Blanket Bond): Limits in the amount of the Initial Payment provided for in the Agreement

5) Professional liability insurance, applicable to Contractor's profession, with limits not less than \$1,000,000 each claim with respect to negligent acts, errors or omissions in connection with the Services.

b. Commercial General Liability and Commercial Automobile Liability Insurance policies must be endorsed to provide:

1) Name as Additional Insured the City and County of San Francisco, its Officers, Agents, and Employees.

2) That such policies are primary insurance to any other insurance available to the Additional Insureds, with respect to any claims arising out of this Agreement, and that insurance applies separately to each insured against whom claim is made or suit is brought.

c. All policies shall be endorsed to provide thirty (30) days' advance written notice to the City of cancellation for any reason, intended non-renewal, or reduction in coverages. Notices shall be sent to the City address set forth in the Section entitled "Notices to the Parties."

d. Should any of the required insurance be provided under a claims-made form, Contractor shall maintain such coverage continuously throughout the term of this Agreement and, without lapse, for a period of three years beyond the expiration of this Agreement, to the effect that, should occurrences during the contract term give rise to claims made after expiration of the Agreement, such claims shall be covered by such claims-made policies.

e. Should any required insurance lapse during the term of this Agreement, requests for payments originating after such lapse shall not be processed until the City receives satisfactory evidence of reinstated coverage as required by this Agreement, effective as of the lapse date. If insurance is not reinstated, the City may, at its sole option, terminate this Agreement effective on the date of such lapse of insurance.

f. Before commencing any Services, Contractor shall furnish to City certificates of insurance and additional insured policy endorsements with insurers with ratings comparable to A-, VIII or higher, that are authorized to do business in the State of California, and that are satisfactory to City, in form evidencing all coverages set forth above. Approval of the insurance by City shall not relieve or decrease Contractor's liability hereunder.

RAMS (Peer to Peer) CMS# 7524 P-500 (4-15; DPH 5-15)

g. The Workers' Compensation policy(ies) shall be endorsed with a waiver of subrogation in favor of the City for all work performed by the Contractor, its employees, agents and subcontractors.

h. If Contractor will use any subcontractor(s) to provide Services, Contractor shall require the subcontractor(s) to provide all necessary insurance and to name the City and County of San Francisco, its officers, agents and employees and the Contractor as additional insureds.

i. Notwithstanding the foregoing, the following insurance requirements are waived or modified in accordance with the terms and conditions stated in Appendix C. Insurance.

#### 16. Indemnification.

Contractor shall indemnify and save harmless City and its officers, agents and employees from, and, if requested, shall defend them against any and all loss, cost, damage, injury, liability, and claims thereof for injury to or death of a person, including employees of Contractor or loss of or damage to property, arising directly or indirectly from Contractor's performance of this Agreement, including, but not limited to, Contractor's use of facilities or equipment provided by City or others, regardless of the negligence of, and regardless of whether liability without fault is imposed or sought to be imposed on City, except to the extent that such indemnity is void or otherwise unenforceable under applicable law in effect on or validly retroactive to the date of this Agreement, and except where such loss, damage, injury, liability or claim is the result of the active negligence or willful misconduct of City and is not contributed to by any act of, or by any omission to perform some duty imposed by law or agreement on Contractor, its subcontractors or either's agent or employee. The foregoing indemnity shall include, without limitation, reasonable fees of attorneys, consultants and experts and related costs and City's costs of investigating any claims against the City. In addition to Contractor's obligation to indemnify City, Contractor specifically acknowledges and agrees that it has an immediate and independent obligation to defend City from any claim which actually or potentially falls within this indemnification provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Contractor by City and continues at all times thereafter. Contractor shall indemnify and hold City harmless from all loss and liability, including attorneys' fees, court costs and all other litigation expenses for any infringement of the patent rights, copyright, trade secret or any other proprietary right or trademark, and all other intellectual property claims of any person or persons in consequence of the use by City, or any of its officers or agents, of articles or services to be supplied in the performance of this Agreement. Contractor shall also indemnify, defend and hold City harmless from all suits or claims or administrative proceedings for breaches of federal and/or state law regarding the privacy of health information, electronic records or related topics, arising directly or indirectly from Contractor's performance of this Agreement, except where such breach is the result of the active negligence or willful misconduct of City.

17. Incidental and Consequential Damages. Contractor shall be responsible for incidental and consequential damages resulting in whole or in part from Contractor's acts or omissions. Nothing in this Agreement shall constitute a waiver or limitation of any rights that City may have under applicable law.

18. Liability of City. CITY'S PAYMENT OBLIGATIONS UNDER THIS AGREEMENT SHALL BE LIMITED TO THE PAYMENT OF THE COMPENSATION PROVIDED FOR IN SECTION 5 (COMPENSATION) OF THIS AGREEMENT. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, IN NO EVENT SHALL CITY BE LIABLE, REGARDLESS OF WHETHER ANY CLAIM IS BASED ON CONTRACT OR TORT, FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOST PROFITS, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT OR THE SERVICES PERFORMED IN CONNECTION WITH THIS AGREEMENT.

## 24. Proprietary or Confidential Information of City.

a. Contractor understands and agrees that, in the performance of the work or services under this Agreement or in contemplation thereof, Contractor may have access to private or confidential information which may be owned or controlled by City and that such information may contain proprietary or confidential details, the disclosure of which to third parties may be damaging to City. Contractor agrees that all information disclosed by City to Contractor shall be held in confidence and used only in performance of the Agreement. Contractor shall exercise the same standard of care to protect such information as a reasonably prudent contractor would use to protect its own proprietary data.

b. Contractor shall maintain the usual and customary records for persons receiving Services under this Agreement. Contractor agrees that all private or confidential information concerning persons receiving Services under this Agreement, whether disclosed by the City or by the individuals themselves, shall be held in the strictest confidence, shall be used only in performance of this Agreement, and shall be disclosed to third parties only as authorized by law. Contractor understands and agrees that this duty of care shall extend to confidential information contained or conveyed in any form, including but not limited to documents, files, patient or client records, facsimiles, recordings, telephone calls, telephone answering machines, voice mail or other telephone voice recording systems, computer files, e-mail or other computer network communications, and computer backup files, including disks and hard copies. The City reserves the right to terminate this Agreement for default if Contractor violates the terms of this section.

c. Contractor shall maintain its books and records in accordance with the generally accepted standards for such books and records for five years after the end of the fiscal year in which Services are furnished under this Agreement. Such access shall include making the books, documents and records available for inspection, examination or copying by the City, the California Department of Health Services or the U.S. Department of Health and Human Services and the Attorney General of the United States at all reasonable times at the Contractor's place of business or at such other mutually agreeable location in California. The City acknowledges its duties and responsibilities regarding such records under such statutes and regulations.

26. Ownership of Results. Any interest of Contractor or its Subcontractors, in drawings, plans, specifications, blueprints, studies, reports, memoranda, computation sheets, computer files and media or other documents prepared by Contractor or its subcontractors in connection with services to be performed under this Agreement, shall become the property of and will be transmitted to City. However, Contractor may retain and use copies for reference and as documentation of its experience and capabilities.

27. Works for Hire. If, in connection with services performed under this Agreement, Contractor or its subcontractors create artwork, copy, posters, billboards, photographs, videotapes, audiotapes, systems designs, software, reports, diagrams, surveys, blueprints, source codes or any other original works of authorship, such works of authorship shall be works for hire as defined under Title 17 of the United States Code, and all copyrights in such works are the property of the City. If it is ever determined that any works created by Contractor or its subcontractors under this Agreement are not works for hire under U.S. law, Contractor hereby assigns all copyrights to such works to the City, and agrees to provide any material and execute any documents necessary to effectuate such assignment. With the approval of the City, Contractor may retain and use copies of such works for reference and as documentation of its experience and capabilities.

#### 28. Audit and Inspection of Records.

a. Contractor agrees to maintain and make available to the City, during regular business hours, accurate books and accounting records relating to its work under this Agreement. Contractor will permit City to audit, examine and make excerpts and transcripts from such books and records, and to make audits of all invoices, materials, payrolls, records or personnel and other data related to all other matters covered by this Agreement, whether funded in whole or in part under this Agreement. Contractor shall maintain such data and records in an accessible location and condition for a period of not less than five years after final payment under this Agreement or until after final audit has been resolved, whichever is later. The State of California or any federal agency having an interest in the subject matter of this Agreement shall have the same rights conferred upon City by this Section.

b. Contractor shall annually have its books of accounts audited by a Certified Public Accountant and a copy of said audit report and the associated management letter(s) shall be transmitted to the Director of Public Health or his /her designee within one hundred eighty (180) calendar days following Contractor's fiscal year end date. If Contractor expends \$500,000 or more in Federal funding per year, from any and all Federal awards, said audit shall be conducted in accordance with OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Said requirements can be found at the following website address: http://www.whitehouse.gov/omb/circulars/a133/a133.html. If Contractor expends less than \$500,000 a year in Federal awards, Contractor is exempt from the single audit requirements for that year, but records must be available for review or audit by appropriate officials of the

RAMS (Peer to Peer) CMS# 7524 P-500 (4-15; DPH 5-15)

Federal Agency, pass-through entity and General Accounting Office. Contractor agrees to reimburse the City any cost adjustments necessitated by this audit report. Any audit report which addresses all or part of the period covered by this Agreement shall treat the service components identified in the detailed descriptions attached to Appendix A and referred to in the Program Budgets of Appendix B as discrete program entities of the Contractor.

c. The Director of Public Health or his / her designee may approve of a waiver of the aforementioned audit requirement if the contractual Services are of a consulting or personal services nature, these Services are paid for through fee for service terms which limit the City's risk with such contracts, and it is determined that the work associated with the audit would produce undue burdens or costs and would provide minimal benefits. A written request for a waiver must be submitted to the DIRECTOR ninety (90) calendar days before the end of the Agreement term or Contractor's fiscal year, whichever comes first.

d. Any financial adjustments necessitated by this audit report shall be made by Contractor to the City. If Contractor is under contract to the City, the adjustment may be made in the next subsequent billing by Contractor to the City, or may be made by another written schedule determined solely by the City. In the event Contractor is not under contract to the City, written arrangements shall be made for audit adjustments.

29. Subcontracting. Contractor is prohibited from subcontracting this Agreement or any part of it unless such subcontracting is first approved by City in writing. Neither party shall, on the basis of this Agreement, contract on behalf of or in the name of the other party. An agreement made in violation of this provision shall confer no rights on any party and shall be null and void.

**30.** Assignment. The services to be performed by Contractor are personal in character and neither this Agreement nor any duties or obligations hereunder may be assigned or delegated by the Contractor unless first approved by City by written instrument executed and approved in the same manner as this Agreement.

31. Non-Waiver of Rights. The omission by either party at any time to enforce any default or right reserved to it, or to require performance of any of the terms, covenants, or provisions hereof by the other party at the time designated, shall not be a waiver of any such default or right to which the party is entitled, nor shall it in any way affect the right of the party to enforce such provisions thereafter.

### 32. Consideration of Criminal History in Hiring and Employment Decisions.

a. Contractor agrees to comply fully with and be bound by all of the provisions of Chapter 12T "City Contractor/Subcontractor Consideration of Criminal History in Hiring and Employment Decisions," of the San Francisco Administrative Code (Chapter 12T), including the remedies provided, and implementing regulations, as may be amended from time to time. The provisions of Chapter 12T are incorporated by reference and made a part of this Agreement as though fully set forth herein. The text of the Chapter 12T is available on the web at <u>www.sfgov.org/olse/fco</u>. A partial listing of some of Contractor's obligations under Chapter 12T is set forth in this Section. Contractor is required to comply with all of the applicable provisions of 12T, irrespective of the listing of obligations in this Section. Capitalized terms used in this Section and not defined in this Agreement shall have the meanings assigned to such terms in Chapter 12T.

b. The requirements of Chapter 12T shall only apply to a Contractor's or Subcontractor's operations to the extent those operations are in furtherance of the performance of this Agreement, shall apply only to applicants and employees who would be or are performing work in furtherance of this Agreement, shall apply only when the physical location of the employment or prospective employment of an individual is wholly or substantially within the City of San Francisco, and shall not apply when the application in a particular context would conflict with federal or state law or with a requirement of a government agency implementing federal or state law.

RAMS (Peer to Peer) CMS# 7524 P-500 (4-15; DPH 5-15)

c. Contractor shall incorporate by reference in all subcontracts the provisions of Chapter 12T, and shall require all subcontractors to comply with such provisions. Contractor's failure to comply with the obligations in this subsection shall constitute a material breach of this Agreement.

d. e. Contractor or Subcontractor shall not inquire about or require applicants, potential applicants for employment, or employees to disclose on any employment application the facts or details of any conviction history, unresolved arrest, or any matter identified in subsection 32(d), above. Contractor or Subcontractor shall not require such disclosure or make such inquiry until either after the first live interview with the person, or after a conditional offer of employment.

f. Contractor or Subcontractor shall state in all solicitations or advertisements for employees that are reasonably likely to reach persons who are reasonably likely to seek employment to be performed under this Agreement, that the Contractor or Subcontractor will consider for employment qualified applicants with criminal histories in a manner consistent with the requirements of Chapter 12T.

The notice shall be posted in English, Spanish, Chinese, and any language spoken by at least 5% of the employees at the workplace, job site, or other location at which it is posted.

h. Such provisions of the LBE Ordinance are incorporated by reference and made a part of this Agreement as though fully set forth in this section. Contractor's willful failure to comply with any applicable provisions of the LBE Ordinance is a material breach of Contractor's obligations under this Agreement and shall entitle City, subject to any applicable notice and cure provisions set forth in this Agreement, to exercise any of the remedies provided for under this Agreement, under the LBE Ordinance or otherwise available at law or in equity, which remedies shall be cumulative unless this Agreement expressly provides that any remedy is exclusive. RAMS (Peer to Peer) CMS# 7524 P-500 (4-15; DPH 5-15)

If Contractor willfully fails to comply with any of the provisions of the LBE Ordinance, the rules and regulations implementing the LBE Ordinance, or the provisions of this Agreement pertaining to LBE participation, Contractor shall be liable for liquidated damages in an amount equal to Contractor's net profit on this Agreement, or 10% of the total amount of this Agreement, or \$1,000, whichever is greatest. The Director of the City's Contracts Monitoring Division or any other public official authorized to enforce the LBE Ordinance (separately and collectively, the "Director of CMD") may also impose other sanctions against Contractor authorized in the LBE Ordinance, including declaring the Contractor to be irresponsible and ineligible to contract with the City for a period of up to five years or revocation of the Contractor's LBE certification. The Director of CMD will determine the sanctions to be imposed, including the amount of liquidated damages, after investigation pursuant to Administrative Code §14B.17. By entering into this Agreement, Contractor acknowledges and agrees that any liquidated damages assessed by the Director of the CMD shall be payable to City upon demand. Contractor further acknowledges and agrees that any liquidated damages assessed may be withheld from any monies due to Contractor on any contract with City. d. Condition to Contract. As a condition to this Agreement, Contractor shall execute the "Chapter 12B Declaration: Nondiscrimination in Contracts and Benefits" form (Form CMD-12B-101) with supporting documentation and secure the approval of the form by the San Francisco Contracts Monitoring Division (formerly 'Human Rights Commission').

Information provided which is covered by this paragraph will be made available to the public upon request.

Public Access to Meetings and Records. If the Contractor receives a cumulative total per year of 41. at least \$250,000 in City funds or City-administered funds and is a non-profit organization as defined in RAMS (Peer to Peer) CMS#7524 P-500 (4-15; DPH 5-15)

Contractor further agrees to make-good faith efforts to promote community membership on its Board of Directors in the manner set forth in §12L.6 of the Administrative Code. The Contractor acknowledges that its material failure to comply with any of the provisions of this paragraph shall constitute a material breach of this Agreement. The Contractor further acknowledges that such material breach of the Agreement shall be grounds for the City to terminate and/or not renew the Agreement, partially or in its entirety.

42. Limitations on Contributions. Through execution of this Agreement, Contractor acknowledges that it is familiar with section 1.126 of the City's Campaign and Governmental Conduct Code, which prohibits any person who contracts with the City for the rendition of personal services, for the furnishing of any material, supplies or equipment, for the sale or lease of any land or building, or for a grant, loan or loan guarantee, from making any campaign contribution to (1) an individual holding a City elective office if the contract must be approved by the individual, a board on which that individual serves, or the board of a state agency on which an appointee of that individual serves, (2) a candidate for the office held by such individual, or (3) a committee controlled by such individual, at any time from the commencement of negotiations for the contract until the later of either the termination of negotiations for such contract or six months after the date the contract is approved. Contractor further acknowledges that the prohibition on contributions applies to each prospective party to the contract; each member of Contractor's board of directors; Contractor's chairperson, chief executive officer, chief financial officer and chief operating officer; any person with an ownership interest of more than 20 percent in Contractor; any subcontractor listed in the bid or contract; and any committee that is sponsored or controlled by Contractor. a. Contractor agrees to comply fully with and be bound by all of the provisions of the Minimum Compensation Ordinance (MCO), as set forth in San Francisco Administrative Code Chapter 12P (Chapter 12P), including the remedies provided, and implementing guidelines and rules. The provisions of Sections 12P.5 and 12P.5.1 of Chapter 12P are incorporated herein by reference and made a part of this Agreement as though fully set forth. The text of the MCO is available on the web at www.sfgov.org/olse/mco. A partial listing of some of Contractor's obligations under the MCO is set forth in this Section. Contractor is required to comply with all the provisions of the MCO, irrespective of the listing of obligations in this Section.

b. The MCO requires Contractor to pay Contractor's employees a minimum hourly gross compensation wage rate and to provide minimum compensated and uncompensated time off. The minimum wage rate may change from year to year and Contractor is obligated to keep informed of the then-current requirements. Any subcontract entered into by Contractor shall require the subcontractor to comply with the requirements of the MCO and shall contain contractual obligations substantially the same as those set forth in this Section. It is Contractor's obligation to ensure that any subcontractor under this Agreement fails to comply, City may pursue any of the remedies set forth in this Section against Contractor.

RAMS (Peer to Peer) CMS# 7524 P-500 (4-15; DPH 5-15)

c. Contractor shall not take adverse action or otherwise discriminate against an employee or other person for the exercise or attempted exercise of rights under the MCO. Such actions, if taken within 90 days of the exercise or attempted exercise of such rights, will be rebuttably presumed to be retaliation prohibited by the MCO.

d. Contractor shall maintain employee and payroll records as required by the MCO. If Contractor fails to do so, it shall be presumed that the Contractor paid no more than the minimum wage required under State law.

e. The City is authorized to inspect Contractor's job sites and conduct interviews with employees and conduct audits of Contractor

f. Contractor's commitment to provide the Minimum Compensation is a material element of the City's consideration for this Agreement. The City in its sole discretion shall determine whether such a breach has occurred. The City and the public will suffer actual damage that will be impractical or extremely difficult to determine if the Contractor fails to comply with these requirements. Contractor agrees that the sums set forth in Section 12P.6.1 of the MCO as liquidated damages are not a penalty, but are reasonable estimates of the loss that the City and the public will incur for Contractor's noncompliance. The procedures governing the assessment of liquidated damages shall be those set forth in Section 12P.6.2 of Chapter 12P.

g. Contractor understands and agrees that if it fails to comply with the requirements of the MCO, the City shall have the right to pursue any rights or remedies available under Chapter 12P (including liquidated damages), under the terms of the contract, and under applicable law. If, within 30 days after receiving written notice of a breach of this Agreement for violating the MCO, Contractor fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, Contractor fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion, the City shall have the right to pursue any rights or remedies available under applicable law, including those set forth in Section 12P.6(c) of Chapter 12P. Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to the City.

h. Contractor represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the MCO.

i. If Contractor is exempt from the MCO when this Agreement is executed because the cumulative amount of agreements with this department for the fiscal year is less than \$25,000, but Contractor later enters into an agreement or agreements that cause contractor to exceed that amount in a fiscal year, Contractor shall thereafter be required to comply with the MCO under this Agreement. This obligation arises on the effective date of the agreement that causes the cumulative amount of agreements between the Contractor and this department to exceed \$25,000 in the fiscal year.

44. Requiring Health Benefits for Covered Employees. Contractor agrees to comply fully with and be bound by all of the provisions of the Health Care Accountability Ordinance (HCAO), as set forth in San Francisco Administrative Code Chapter 12Q, including the remedies provided, and implementing regulations, as the same may be amended from time to time. The provisions of section 12Q.5.1 of Chapter 12Q are incorporated by reference and made a part of this Agreement as though fully set forth herein. The text of the HCAO is available on the web at www.sfgov.org/olse. Capitalized terms used in this Section and not defined in this Agreement shall have the meanings assigned to such terms in Chapter 12Q.

RAMS (Peer to Peer) CMS# 7524 P-500 (4-15; DPH 5-15) a. For each Covered Employee, Contractor shall provide the appropriate health benefit set forth in Section 12Q.3 of the HCAO. If Contractor chooses to offer the health plan option, such health plan shall meet the minimum standards set forth by the San Francisco Health Commission..

b. Notwithstanding the above, if the Contractor is a small business as defined in Section 12Q.3(e) of the HCAO, it shall have no obligation to comply with part (a) above.

c. Contractor's failure to comply with the HCAO shall constitute a material breach of this agreement. City shall notify Contractor if such a breach has occurred. If, within 30 days after receiving City's written notice of a breach of this Agreement for violating the HCAO, Contractor fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, Contractor fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion, City shall have the right to pursue the remedies set forth in 12Q.5.1 and 12Q.5(f)(1-6). Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to City.

d. Any Subcontract entered into by Contractor shall require the Subcontractor to comply with the requirements of the HCAO and shall contain contractual obligations substantially the same as those set forth in this Section. Contractor shall notify City's Office of Contract Administration when it enters into such a Subcontract and shall certify to the Office of Contract Administration that it has notified the Subcontractor of the obligations under the HCAO and has imposed the requirements of the HCAO on Subcontractor through the Subcontract. Each Contractor shall be responsible for its Subcontractors' compliance with this Chapter. If a Subcontractor fails to comply, the City may pursue the remedies set forth in this Section against Contractor based on the Subcontractor's failure to comply, provided that City has first provided Contractor with notice and an opportunity to obtain a cure of the violation.

e. Contractor shall not discharge, reduce in compensation, or otherwise discriminate against any employee for notifying City with regard to Contractor's noncompliance or anticipated noncompliance with the requirements of the HCAO, for opposing any practice proscribed by the HCAO, for participating in proceedings related to the HCAO, or for seeking to assert or enforce any rights under the HCAO by any lawful means.

f. Contractor represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the HCAO.

g. Contractor shall maintain employee and payroll records in compliance with the California Labor Code and Industrial Welfare Commission orders, including the number of hours each employee has worked on the City Contract.

h. Contractor shall keep itself informed of the current requirements of the HCAO.

i. Contractor shall provide reports to the City in accordance with any reporting standards promulgated by the City under the HCAO, including reports on Subcontractors and Subtenants, as applicable.

j. Contractor shall provide City with access to records pertaining to compliance with HCAO after receiving a written request from City to do so and being provided at least ten business days to respond.

k. Contractor shall allow City to inspect Contractor's job sites and have access to Contractor's employees in order to monitor and determine compliance with HCAO.

1. City may conduct random audits of Contractor to ascertain its compliance with HCAO. Contractor agrees to cooperate with City when it conducts such audits.

m. If Contractor is exempt from the HCAO when this Agreement is executed because its amount is less than \$25,000 (\$50,000 for nonprofits), but Contractor later enters into an agreement or agreements that cause Contractor's aggregate amount of all agreements with City to reach \$75,000, all the agreements shall be thereafter subject to the HCAO. This obligation arises on the effective date of the agreement that causes the cumulative amount of agreements between Contractor and the City to be equal to or greater than \$75,000 in the fiscal year.

45. First Source Hiring Program.

a. Incorporation of Administrative Code Provisions by Reference. The provisions of Chapter 83 of the San Francisco Administrative Code are incorporated in this Section by reference and made a part of this Agreement as though fully set forth herein. Contractor shall comply fully with, and be bound by, all of the provisions that apply to this Agreement under such Chapter, including but not limited to the remedies provided therein: Capitalized terms used in this Section and not defined in this Agreement shall have the meanings assigned to such terms in Chapter 83.

b. First Source Hiring Agreement. As an essential term of, and consideration for, any contract or property contract with the City, not exempted by the FSHA, the Contractor shall enter into a first source hiring agreement ("agreement") with the City, on or before the effective date of the contract or property contract. Contractors shall also enter into an agreement with the City for any other work that it performs in the City. Such agreement shall:

1) Set appropriate hiring and retention goals for entry level positions. The employer shall agree to achieve these hiring and retention goals, or, if unable to achieve these goals, to establish good faith efforts as to its attempts to do so, as set forth in the agreement. The agreement shall take into consideration the employer's participation in existing job training, referral and/or brokerage programs. Within the discretion of the FSHA, subject to appropriate modifications, participation in such programs maybe certified as meeting the requirements of this Chapter. Failure either to achieve the specified goal, or to establish good faith efforts will constitute noncompliance and will subject the employer to the provisions of Section 83.10 of this Chapter.

2) Set first source interviewing, recruitment and hiring requirements, which will provide the San Francisco Workforce Development System with the first opportunity to provide qualified economically disadvantaged individuals for consideration for employment for entry level positions. Employers shall consider all applications of qualified economically disadvantaged individuals referred by the System for employment; provided however, if the employer utilizes nondiscriminatory screening criteria, the employer shall have the sole discretion to interview and/or hire individuals referred or certified by the San Francisco Workforce Development System as being qualified economically disadvantaged individuals. The duration of the first source interviewing requirement shall be determined by the FSHA and shall be set forth in each agreement, but shall not exceed 10 days. During that period, the employer may publicize the entry level positions in accordance with the agreement. A need for urgent or temporary hires must be evaluated, and appropriate provisions for such a situation must be made in the agreement.

3) Set appropriate requirements for providing notification of available entry level positions to the San Francisco Workforce Development System so that the System may train and refer an adequate pool of qualified economically disadvantaged individuals to participating employers. Notification should include such information as employment needs by occupational title, skills, and/or experience required, the hours required, wage scale and duration of employment, identification of entry

RAMS (Peer to Peer) CMS# 7524 P-500 (4-15; DPH 5-15)

level and training positions, identification of English language proficiency requirements, or absence thereof, and the projected schedule and procedures for hiring for each occupation. Employers should provide both long-term job need projections and notice before initiating the interviewing and hiring process. These notification requirements will take into consideration any need to protect the employer's proprietary information.

4) Set appropriate record keeping and monitoring requirements. The First Source Hiring Administration shall develop easy-to-use forms and record keeping requirements for documenting compliance with the agreement. To the greatest extent possible, these requirements shall utilize the employer's existing record keeping systems, be nonduplicative, and facilitate a coordinated flow of information and referrals.

5) Establish guidelines for employer good faith efforts to comply with the first source hiring requirements of this Chapter. The FSHA will work with City departments to develop employer good faith effort requirements appropriate to the types of contracts and property contracts handled by each department. Employers shall appoint a liaison for dealing with the development and implementation of the employer's agreement. In the event that the FSHA finds that the employer under a City contract or property contract has taken actions primarily for the purpose of circumventing the requirements of this Chapter, that employer shall be subject to the sanctions set forth in Section 83.10 of this Chapter.

6) Set the term of the requirements.

7) Set appropriate enforcement and sanctioning standards consistent with this Chapter.

8) Set forth the City's obligations to develop training programs, job applicant referrals, technical assistance, and information systems that assist the employer in complying with this Chapter.

9) Require the developer to include notice of the requirements of this Chapter in leases, subleases, and other occupancy contracts.

c. Hiring Decisions. Contractor shall make the final determination of whether an Economically Disadvantaged Individual referred by the System is "qualified" for the position.

d. **Exceptions.** Upon application by Employer, the First Source Hiring Administration may grant an exception to any or all of the requirements of Chapter 83 in any situation where it concludes that compliance with this Chapter would cause economic hardship.

e. Liquidated Damages. Contractor agrees:

1) To be liable to the City for liquidated damages as provided in this section;

2) To be subject to the procedures governing enforcement of breaches of contracts based on violations of contract provisions required by this Chapter as set forth in this section;

3) That the contractor's commitment to comply with this Chapter is a material element of the City's consideration for this contract; that the failure of the contractor to comply with the contract provisions required by this Chapter will cause harm to the City and the public which is significant and substantial but extremely difficult to quantify; that the harm to the City includes not only the financial cost of funding public assistance programs but also the insidious but impossible to quantify harm that this community and its families suffer as a result of unemployment; and that the assessment of liquidated damages of up to \$5,000 for every notice of a new hire for an entry level position improperly withheld by the contractor from the first source hiring process, as determined by the FSHA during its first

investigation of a contractor, does not exceed a fair estimate of the financial and other damages that the City suffers as a result of the contractor's failure to comply with its first source referral contractual obligations.

4) That the continued failure by a contractor to comply with its first source referral contractual obligations will cause further significant and substantial harm to the City and the public, and that a second assessment of liquidated damages of up to \$10,000 for each entry level position improperly withheld from the FSHA, from the time of the conclusion of the first investigation forward, does not exceed the financial and other damages that the City suffers as a result of the contractor's continued failure to comply with its first source referral contractual obligations;

5) That in addition to the cost of investigating alleged violations under this Section, the computation of liquidated damages for purposes of this section is based on the following data:

(a) The average length of stay on public assistance in San Francisco's County Adult Assistance Program is approximately 41 months at an average monthly grant of \$348 per month, totaling approximately \$14,379; and

(b) In 2004, the retention rate of adults placed in employment programs funded under the Workforce Investment Act for at least the first six months of employment was 84.4%. Since qualified individuals under the First Source program face far fewer barriers to employment than their counterparts in programs funded by the Workforce Investment Act, it is reasonable to conclude that the average length of employment for an individual whom the First Source Program refers to an employer and who is hired in an entry level position is at least one year;

Therefore, liquidated damages that total \$5,000 for first violations and \$10,000 for subsequent violations as determined by FSHA constitute a fair, reasonable, and conservative attempt to quantify the harm caused to the City by the failure of a contractor to comply with its first source referral contractual obligations.

6) That the failure of contractors to comply with this Chapter, except property contractors, may be subject to the debarment and monetary penalties set forth in Sections 6.80 et seq. of the San Francisco Administrative Code, as well as any other remedies available under the contract or at law; and

Violation of the requirements of Chapter 83 is subject to an assessment of liquidated damages in the amount of \$5,000 for every new hire for an Entry Level Position improperly withheld from the first source hiring process. The assessment of liquidated damages and the evaluation of any defenses or mitigating factors shall be made by the FSHA.

f. Subcontracts. Any subcontract entered into by Contractor shall require the subcontractor to comply with the requirements of Chapter 83 and shall contain contractual obligations substantially the same as those set forth in this Section.

46. Prohibition on Political Activity with City Funds. In accordance with San Francisco Administrative Code Chapter 12.G, Contractor may not participate in, support, or attempt to influence any political campaign for a candidate or for a ballot measure (collectively, "Political Activity") in the performance of the services provided under this Agreement. Contractor agrees to comply with San Francisco Administrative Code Chapter 12.G and any implementing rules and regulations promulgated by the City's Controller. The terms and provisions of Chapter 12.G are incorporated herein by this reference. In the event Contractor violates the provisions of this section, the City may, in addition to any other rights or remedies available hereunder, (i) terminate this Agreement, and (ii) prohibit Contractor from bidding on or receiving any new City contract for a period of two (2) years. The Controller will not consider Contractor's use of profit as a violation of this section.

RAMS (Peer to Peer) CMS# 7524 P-500 (4-15; DPH 5-15) 47. Preservative-treated Wood Containing Arsenic. Contractor may not purchase preservativetreated wood products containing arsenic in the performance of this Agreement unless an exemption from the requirements of Chapter 13 of the San Francisco Environment Code is obtained from the Department of the Environment under Section 1304 of the Code. The term "preservative-treated wood containing arsenic" shall mean wood treated with a preservative that contains arsenic, elemental arsenic, or an arsenic copper combination, including, but not limited to, chromated copper arsenate preservative, ammoniacal copper zinc arsenate preservative, or ammoniacal copper arsenate preservative. Contractor may purchase preservative-treated wood products on the list of environmentally preferable alternatives prepared and adopted by the Department of the Environment. This provision does not preclude Contractor from purchasing preservative-treated wood containing arsenic for saltwater immersion. The term "saltwater immersion" shall mean a pressure-treated wood that is used for construction purposes or facilities that are partially or totally immersed in saltwater.

48. Modification of Agreement. This Agreement may not be modified, nor may compliance with any of its terms be waived, except by written instrument executed and approved in the same manner as this Agreement. Contractor shall cooperate with Department to submit to the Director of CMD any amendment, modification, supplement or change order that would result in a cumulative increase of the original amount of this Agreement by more than 20% (CMD Contract Modification Form).

49. Administrative Remedy for Agreement Interpretation.

a. Negotiation; Alternative Dispute Resolution. The parties will attempt in good faith to resolve any dispute or controversy arising out of or relating to the performance of services under this Agreement by negotiation. The status of any dispute or controversy notwithstanding, Contractor shall proceed diligently with the performance of its obligations under this Agreement in accordance with the Agreement and the written directions of the City. If agreed by both parties in writing, disputes may be resolved by a mutually agreed-upon alternative dispute resolution process. Neither party will be entitled to legal fees or costs for matters resolved under this section.

b. Government Code Claims. No suit for money or damages may be brought against the City until a written claim therefor has been presented to and rejected by the City in conformity with the provisions of San Francisco Administrative Code Chapter 10 and California Government Code Section 900, et seq. Nothing set forth in this Agreement shall operate to toll, waive or excuse Contractor's compliance with the Government Code Claim requirements set forth in Administrative Code Chapter 10 and Government Code Section 900, et seq.

50. Agreement Made in California; Venue. The formation, interpretation and performance of this Agreement shall be governed by the laws of the State of California. Venue for all litigation relative to the formation, interpretation and performance of this Agreement shall be in San Francisco.

51. Construction. All paragraph captions are for reference only and shall not be considered in construing this Agreement.

# 3. Goal Statement

RAMS, in collaboration with CBHS and consumers, will be responsible for the design and implementation of a cohesive and collaborative system of peer services to recruit, employ, train, place, support and supervise peer-to-peer staff within DPH, CBHS and community settings. The provider will implement and evaluate the service delivery system and peer-to-peer services that are received by behavioral health consumers. RAMS will oversee the day-to-day operations and the direct supervision of all peer staff, peer coordinators, peer managers, volunteers, interns and support staff that provide peer-to-peer support to behavioral health consumers in the community.

The FY 2015-16 is the start-up/development and implementation time period for the reorganization of the current CBHS peer-to-peer system. RAMS will build upon the strong foundation of the CBHS peer-to-peer system and further develop an integrative peer-to-peer service delivery system that promotes best practices, shared resources, advancement opportunities for peers and quality-driven peer-to-peer services for behavioral health consumers.

The current CBHS Peer-to-Peer Programs that are included in the Peer-to-Peer Employment Program and the peer system reorganization are the following:

## 1. Pathways to Discovery Peer Program

Pathways to Discovery is a peer-led program that started in 2006, based off of the wellness and recovery principles of "The Village", a peer-based program in Long Beach. Pathways has been committed to work together with the community to build a successful program and provide much needed support services to those experiencing issues related to mental health, substance use and other

Peer to Peer Employment

related needs. Pathways' peer modalities may include a creative arts program, a residential care program, a peer group counseling program and transportation training/assistance in the community.

## 2. Peer Support Internship Program

The Peer Support Internship Program is an entry-level peer program working directly with behavioral health consumers. Peers often begin employment in this program as system navigators or administrative support working in the front-line of customer service with users of the CBHS system. Peers perform a variety of duties such as provide system education, system navigation, outreach, and clerical related work. The program currently provides two years of employment and training opportunities to help peers further develop their employment and consumer support skills while providing on-site job coaching. Peer Interns are currently placed in DPH programs and also conduct Dual-Recovery Anonymous (DRA) peer groups in the community.

## 3. MHSA Consumer Employment Program

The MHSA Consumer Employment Program is an intermediate-level peer program that provides a platform for career development for those individuals who have accessed the system of care as a consumer or family member of a consumer, teaching them skills to work as a peer professional. The program improves the care for consumers accessing services by utilizing peer professionals within multi-disciplinary treatment teams. The Consumer Employment Program began with the initial hire of six part time, as-needed employees in July 2007. The program has expanded extensively and currently employs full-time, part-time and temporary positions as a peer counselor or consumer/administrative support within the San Francisco community. The peer employees are provided extensive support and encouraged to further their education, complete internships, and identify advancement opportunities outside the program in the broader workforce.

## 4. Office of Self Help

This peer-to-peer program provides a drop-in center which is: 1) an early engagement center for adults seeking peer-based counseling services and peer-led activity groups; 2) a community resource for clients to receive linkages to a variety of behavioral health and primary health resources and services; and 3) a safe place for clients to learn self-help skills within an environment that uses empathy and empowerment to help support and inspire recovery.

This center targets consumers of behavioral health services that may face mental health and/or substance abuse issues. The Office of Self-Help modalities may include; Individual Peer Counseling, Peer-to-Peer Support Groups, Resource/Service Linkage, a Warm-Line/Phone Support, a Computer Lab, Healing Arts that include acupuncture and meditation, and Transportation Assistance that provides assistance for family members and significant others of CBHS clients in long-term mental health treatment facilities outside of San Francisco.

## 5. Peer Youth-to-Youth Program

The overall goal of the Peer Youth-to-Youth Program is to employ and support peer mentors who have achieved stability and have the ability to assist other young mental health consumers achieve resiliency and recovery. This is currently a pilot program and the peer employees work directly with youth within the behavioral health system who are interested in receiving mentoring support in various community

settings. The program currently emphasizes healthy activities, academic success, employment readiness, self-help skill development, and pro-social skill development.

4. Target Population

*Population for Peers*: Peers are defined as an individual with personal lived experience who are consumers of mental health and/or substance abuse services, former consumers, or family members or significant others of consumers. Peers utilize their lived experience in peer counseling settings, when appropriate, to benefit the wellness and recovery of the client(s) being served.

Population Served by Peers: Peer counselors will conduct culturally and linguistically congruent outreach and peer counseling support to participants and users of residential, community, mental health care, primary care, substance abuse, jail and hospital settings within the Department of Public Health services.

## 5. Modality(ies)/Interventions

As a majority of this program is funded by MHSA, RAMS will be responsible for integrating all MHSA principles and policies while working towards a common goal of 'system transformation'. The 'system transformation' envisioned by the MHSA is founded on the belief that all individuals - including those living with the challenges caused by mental illness – are capable of living satisfying, hopeful, and contributing lives. As part of the MHSA requirements, RAMS will be responsible for involving behavioral health consumers, former consumers, or family members of consumers in areas of policy design, program planning, implementation, monitoring, quality improvement, evaluation and budget allocations regarding these programs.

During this first start-up year, RAMS will work in collaboration with CBHS and the peer/consumer population to further develop an integrative peer-to-peer service delivery system that promotes best practices, shared resources, advancement opportunities for peers, and quality-driven peer-to-peer services for behavioral health consumers. The model will form one integrative peer-to-peer program and the current programs involved in this restructuring will be the following:

- 1. Pathways to Discovery Peer Program
- 2. Peer Support Internship Program
- 3. MHSA Consumer Employment Program
- 4. Office of Self-Help
- 5. Peer Youth-to-Youth Program

RAMS will provide employment and supportive services for the peer providers in the CBHS system and will be responsible for all areas of hiring, training, supervision, case management, consultation, support and progressive discipline, if needed. Many of these peers are located in several sites throughout DPH in the fields of peer counseling and administration, supporting consumers of behavioral health. RAMS, in partnership with CBHS and the peer community, will be responsible for

Peer to Peer Employment

Date: 7/1/15 Page 3 of 8

redesigning the Office of Self Help and developing an integrated peer wellness center, driven by input from the peer community.

RAMS will oversee the day-to-day operations and the direct supervision of all peer staff, peer coordinators, peer managers, volunteers, interns and support staff that provide peer-to-peer support to behavioral health consumers in the community. RAMS will be responsible for securing a facility and have work space made available to staff in the peer wellness center and peer staff that do not work directly in a DPH facility. RAMS will be responsible for developing a leadership team comprised of peer leaders and/or peer coordinators with personal lived experience with the behavioral health system as a consumer, former consumer or family member of a consumer. The program administrative support will also be a peer position. RAMS will conduct regular site visits to provide education regarding peer program code of ethics, peer program guidelines, peer counseling best practices and provide collaborative supervision with site supervisors. RAMS will be responsible for developing and working towards a commensurate pay structure to ensure equality among all peers in the system. This may include developing a model of entry-level, intermediate-level and advanced-level programs with 4-5 tiers, with the highest being a peer leadership or supervisory role.

RAMS will provide supportive services for the peer employees that may include, but not limited to; training, supervision, consultation, job coaching and retention services, and peer-based support groups. RAMS will work in collaboration with other CBHS and community programs to strengthen the menu of support options. These programs may include, but not limited to, the Mental Health Peer Specialist Certificate Program, San Francisco City College, California State Department of Rehabilitation, Suicide Prevention, the CBHS Client Council, and the MHSA Advisory Committee. RAMS will be responsible for staying abreast of current peer provider trends, state recommendations regarding peer certification, evidenced-based practices for peer services, current trends regarding peer code of ethics, etc.

RAMS will work in collaboration with CBHS and the peer community to develop a pilot program to train and support interested peers to bill Medi-Cal related services in Avatar for billable work performed, and evaluate.

See also CBHS Appendix B, CRDC pages.

## 6. Methodology

A. Outreach, recruitment, promotion, and advertisement as necessary.

RAMS' responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency's approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to vocational services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of

Peer to Peer Employment

Date: 7/1/15 Page 4 of 8

consumers & families, annually serving well over 18,000 adults, children, youth & families at over 90 sites, citywide.

B. Admission, enrollment and/or intake criteria and process where applicable

The program then introduces services to the referred client, and may discuss the details of the providers' referral, assess any additional service needs, and provide assistance to address needs; service plan, as appropriate.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, etc.

The final service delivery model will be developed over the beginning of this contract cycle since this is a start-up year. See also CBHS Appendix B, CRDC pages.

D. Discharge planning and exit criteria and process

Each program will have varying exit criteria. In general, clients may exit from the program when identified needs have been met or if clients make the decision that their needs have changed and services are no longer desired or necessary.

E. Program staffing

See CBHS Appendix B.

7. Objectives and Measurements

RAMS, in collaboration with CBHS and consumers, will be responsible for the design and implementation of a cohesive and collaborative system of peer services to recruit, employ, train, place, support and supervise peer-to-peer staff within DPH, CBHS and community settings. RAMS will also implement and evaluate the service delivery system and peer-to-peer services that are received by behavioral health consumers. This is a start-up year and final objectives will be developed over the beginning of this contract cycle, however, the Peer to Peer Employment model may include the following primary over-arching aims:

• Increase Service Delivery: This objective will work to increase support to the current peer-topeer infrastructure and focus on the expansion and the integration of peer professionals into the service delivery of all programs

Peer to Peer Employment

## a. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All staff (including direct service providers) are informed about objectives and the required documentation related to the activities and service delivery outcomes. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information. In addition, the Program Director monitors service delivery progress (engagement, level of accomplishing service goals/objectives), and termination reasons.

Peer to Peer Employment

Date: 7/1/15 Page 6 of 8

b. Documentation quality, including a description of any internal audits

RAMS utilizes various mechanisms to review documentation quality. Case/chart reviews are conducted by Program Director; based on these reviews, determinations/recommendations are provided relating to frequency and modality/type of services, and the match to client's progress & needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of programming are integrated throughout staff meetings and other discussions.

c. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

• Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by weekly group supervision. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.

• Ongoing review of services indicators is conducted by the Program Director (and reported to executive management) on monthly basis

- Client's culture, preferred language for services, and provider's expertise are strongly considered during the case assignment process. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- Development of annual objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. Human Resources also conduct exit interviews with departing

Peer to Peer Employment

staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.

- RAMS Quality Assurance Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters

d. Satisfaction with services

RAMS conducts an annual client satisfaction surveys to solicit program feedback. The Program Director compiles, analyzes, and presents the results of surveys to staff, each program site-supervisor, RAMS Executive Management, and the RAMS Quality Council. The Program Director also collaborates with RAMS Executive Management, Quality Council, and clinic site supervisors to develop and implement plans to address issues related to client satisfaction as appropriate.

e. Measurement, analysis, and use of ANSA data

ANSA data not applicable; however, as described in previous CQI sections, RAMS continuously utilizes available data to inform service delivery and programming to support positive outcomes.

6. Methodology

# A. Outreach, recruitment, promotion, and advertisement as necessary

RAMS is uniquely positioned well and has the expertise to promote & outreach to and recruit program participants of culturally & linguistically diverse consumers, underrepresented constituents, and community organizations. As a service provider, RAMS comes into contact with significant numbers of consumers and families with each year serving approximately 18,000 adults, children, youth and families offering over 30 programs (integrated into 10 core programs) and reaching to over 90 sites (schools, childcare centers, child development centers, and neighborhood and cultural centers) throughout San Francisco. In particular, RAMS is also operating the Peer-to-Peer Employment Program (integrated in the CBHS Consumer Employment section) for which targeted outreach and recruitment will be conducted. It is through these close partnerships with CBHS and the other community-based organizations, that RAMS may leverage existing relationships to promote and effectively recruit a student body that reflects the target population. Furthermore, RAMS maintains Peer Counselor positions and Consumer Advisory Boards, all of which actively engage in the Certificate Program. RAMS also outreaches within the Summer Bridge Project (aimed to foster the interest of health care field within high school-aged youth) while utilizing its connections with consumer advocacy groups (e.g. Mental Health Association of SF, National Alliance on Mental Illness). RAMS actively participates in and are members of various culturally-focused community coalitions and/or committees and utilizes these networks as well as funder entities for outreach & promotion. Moreover, since the inception of the program in 2010, RAMS has developed additional relationships with members in the behavioral health community who have promoted and recruited participants from their client-base. Some of these members include: SOMA Mental Health, Conard House, UCSF Citywide Case Management, Progress Foundation, HealthRight 360, Behavioral Health Court, SF First, Larkin Street Youth, etc.

RAMS maintains program promotional material (e.g. brochures, flyers for Open House, etc.) that are available for distribution throughout the year. These materials are also available for download at the program's webpage. The program engages in additional promotional efforts when recruiting applicants for a new cohort and community trainings. During these times, announcement emails are sent to all of the program affiliates and networks. Many organizations are specifically targeted, as their constituents are those of the underserved and underrepresented

## Advanced Level Certificate Component:

This component would teach peers and consumers advanced skills as a peer specialist and provide at least 8 weeks of classroom training. Peers may be further trained in facilitating multiple evidenced-based peer groups commonly used when working as a peer specialist. Peers may be trained in best practices when working with consumers with acute needs that may be hard to engage. Peers may be trained in a leadership and supervisory capacity in areas such as; peer project oversight; supervision of peer staff; facilitation of peer manager meetings; peer recruitment, selection and onboarding; peer consultation/support; peer job coaching, etc. This component's proposed structure includes mentorship such that peers are mentored by other peer leaders from the Peer-to-Peer Employment Program as well as education about the about the Civil Service application and testing process, congruent with DPH policies.

## Leadership Academy Component:

The Leadership Academy would provide short-term training, possibly a 2-3 hour course in specific topics and offer courses frequently throughout the year (possibly monthly) at various days/times to reach a broad audience. There would not be any requirement of peers/consumers to complete multiple courses or adhere to time restrictions, which will allow for program flexibility to work around the needs of many. This component would teach peers and consumers basic education in the areas of, but not limited to, budgeting, policy development, program development, program implementation, quality assurance, evaluation, RFP/RFQ review process, etc. This component will provide unbiased information to peers and consumers to develop a basic understanding of certain programmatic areas while empowering peers/consumers to develop a basic develop skills to feel better equipped when participating in activities that request consumer input. Activities may include the MHSA Advisory Committee, the Client Council, CBHS RFQ/RFP Review Panel Process and the MHSA Community Planning Process (CPP).

D. Discharge planning and exit criteria and process

For the Entry and Advanced Level Certificate components, exit criteria include successful completion of all coursework related to the course as well as maintaining regular attendance. The Course Syllabus further details to students the grading structure; all students must achieve a grade of 75% in order to receive a Certificate of Completion. In addition, participants must have a 90% attendance rate or higher (e.g. for Entry Level, missing no more than 2 days during the 12-week course) in order to graduate from the program.

For the Leadership Academy, participants may be eligible to receive a verification of training for having participated in the full session.

E. Program staffing

See CBHS Appendix B.

F. Mental Health Services Act Programs

1. Consumer participation/engagement: Programs must identify how participants and/or their families are engaged in the development, implementation and/or evaluation of programs. This can include peer-employees, advisory committees, etc.

<u>Program Evaluation</u>: The program engages participants in planning, implementation, and evaluation by conducting an evaluation session at the conclusion of each Entry and Advanced Level Certificate cohort. All participants are strongly encouraged to attend these sessions to provide feedback on their experience and generate ideas to improve program successes. At the evaluation session, a written survey is given to each of the participants to provide quantitative as well as qualitative feedback on the program. The written evaluation is then followed by a focus group format discussion led by RAMS administrators. The Program Coordinator/Course Instructor is not involved in this evaluation process to ensure open and objective feedback from

the participants. For the Leadership Academy, written evaluations would also be administered for training sessions.

Results of these evaluations are presented to the program Advisory Committee during its quarterly meetings. Advisory members then consider ways of programmatic improvements to meet the needs of participants. Various changes have been made to the program since its inception based on information obtained from these evaluations.

Advisory Committee: The program maintains two seats that are held by graduates of the program on the Advisory Committee, which is a standalone, multi-disciplinary committee that reflects the diversity of the community. Membership includes former program participants (graduates), guest lecturers, San Francisco State University as well as various systems involved in the workforce development (e.g. RAMS Hire-Ability Vocational Services, California State Department of Rehabilitation, etc.). All advisory members are encouraged to provide input during the meetings. The program continues to accept one participant from each cohort to sit on the Advisory Committee to ensure that each cohort has the opportunity to provide feedback as the program continues to develop. Peer advisory members are committed to sit on the committee for one year.

<u>Teaching Assistant Position</u>: This position may be held by a program graduate. The intent of this position is to further engage past participants in the program and to facilitate student success. The teaching assistant provides academic support to students and administrative assistance to the Program Coordinator. The teaching assistant meets with participants regularly on a one-on-one basis as well as conducts review sessions outside of formal class time.

2. MHSA Vision: The concepts of recovery and resilience are widely understood and evident in the programs and service delivery

The fundamental objectives and principles of the program are based on concepts of Wellness and Recovery for consumers of behavioral health services. In providing consumers the skills and training to become providers of services that they have once received themselves, the program takes strengths-based approach that promotes a sense of empowerment, self-direction, and hope, which are all fundamental components of the wellness and recovery model. The program operates on the basis that consumers can recover from their struggles and not only have the ability to find a stable vocation, but the ability to commit to a very noble vocation of helping those who are experiencing similar circumstances as they had in the past. Moreover, the program intends for graduates to continue to grow professionally far beyond this training. Some graduates have experienced the Peer Specialist Mental Health Certificate program as a first step to a life-long commitment to helping others and have moved onto being enrolled in Masters-level programs in the field of human services.

Additionally, the curriculum content is based on Wellness and Recovery principles. In fact, for the Entry Level Certificate component, the very first lecture of the program is an overview of the Wellness and Recovery Model. Throughout the rest of the course, Wellness and Recovery concepts are tightly integrated into the instructions on how to provide counseling and other services as peer counselors. Some of the specific topics that embody wellness and recovery concepts include: WRAP, Bio-psycho-social approach to case management, stages of

change model, harm reduction treatment principles, holistic interventions options, self-care, and mental health, and employment. Furthermore, the required textbook used for the program, "Voices of Recovery" is also based on Wellness and Recovery principles. The program intends for the materials to not only further promote recovery among participants of the program, but also for participants to practice this approach while working with clients as providers in the community behavioral health system.

Results will be analyzed by Program Director and presented to the Program Advisory Committee.
- 2. During the contract year, 23 program participants will complete the Entry Level Certificate component (i.e. graduate) thus increasing readiness for entry-level employment/internship/volunteerism in the behavioral health system. # 8. Continuous Quality Assurance and Improvement

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information. In addition, the Program Director monitors service delivery progress (engagement, level of accomplishing service goals/objectives), and termination reasons (graduation, etc.).

B. Documentation quality, including a description of any internal audits

RAMS utilizes various mechanisms to review documentation quality. Documentation reviews are conducted by Program Director throughout the program cohort duration; based on these reviews, determinations/recommendations are provided relating to any needed adjustments to match to the cohorts' progress & workforce development needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of programming are integrated throughout staff meetings and other discussions.

C. Measurement of cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by weekly group supervision. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of services indicators is conducted by the Program Director (and reported to executive management) on monthly basis
- Client's culture, preferred language for services, and provider's expertise are strongly considered during the case assignment process. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- Development of annual objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);

Date: 7/1/155 Page 10 of 11

Appendix A-2 Contract Term: 07/01/15 *through* 06/30/16 Funding Source (non-CBHS only):

- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a
  diverse staff and leadership (including Board of Directors) that reflect the multi-cultural,
  multi-lingual diversity of the community. Other retention strategies include soliciting
  staff feedback on agency/programmatic improvements (service delivery, staffing
  resources); this is continuously solicited by the Program Director and, at least annually,
  the CEO meets with each program to solicit feedback for this purpose. The agency
  annually administers a staff satisfactions survey and Human Resources also conducts exit
  interviews with departing staff. All information is gathered and management explores
  implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Assurance Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters
- D. Measurement of client satisfaction

The Peer Specialist Mental Health Certificate program, for each cohort, conducts a written participant satisfaction survey and focus group. The surveys and focus groups are facilitated by RAMS administrators; collected data is tabulated and summarized. The Program Director compiles, analyzes, and presents the results of surveys to staff, RAMS Executive Management, and the RAMS Quality Council. The Program Director also collaborates with staff, RAMS Executive Management, and Quality Assurance Council to assess, develop, and implement plans to address issues related to client satisfaction as appropriate.

E. Measurement, analysis, and use of ANSA data

ANSA data not applicable; however, as described in previous CQI sections, RAMS continuously utilizes available data to inform service delivery and programming to support positive outcomes

The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, the HIPAA regulations and other applicable state or federal laws relating to the security or confidentiality of PHI. The parties understand and agree that CE must receive satisfactory written assurance from BA that BA will adequately safeguard all Protected Information. #### Dispute Resolution Procedure For Health and Human Services Nonprofit Contractors 9-06

#### Introduction

The City Nonprofit Contracting Task Force submitted its final report to the Board of Supervisors in June 2003. The report contains thirteen recommendations to streamline the City's contracting and monitoring process with health and human services nonprofits. These recommendations include: (1) consolidate contracts, (2) streamline contract approvals, (3) make timely payment, (4) create review/appellate process, (5) eliminate unnecessary requirements, (6) develop electronic processing, (7) create standardized and simplified forms, (8) establish accounting standards, (9) coordinate joint program monitoring, (10) develop standard monitoring protocols, (11) provide training for personnel, (12) conduct tiered assessments, and (13) fund cost of living increases. The report is available on the Task Force's website at

<u>http://www.sfgov.org/site/npcontractingtf\_index.asp?id=1270</u>. The Board adopted the recommendations in February 2004. The Office of Contract Administration created a Review/Appellate Panel ("Panel") to oversee implementation of the report recommendations in January 2005.

The Board of Supervisors strongly recommends that departments establish a Dispute Resolution Procedure to address issues that have not been resolved administratively by other departmental remedies. The Panel has adopted the following procedure for City departments that have professional service grants and contracts with nonprofit health and human service providers. The Panel recommends that departments adopt this procedure as written (modified if necessary to reflect each department's structure and titles) and include it or make a reference to it in the contract. The Panel also recommends that departments distribute the finalized procedure to their nonprofit contractors. Any questions for concerns about this Dispute Resolution Procedure should be addressed to purchasing@sfgov.org.

#### **Dispute Resolution Procedure**

The following Dispute Resolution Procedure provides a process to resolve any disputes or concerns relating to the administration of an awarded professional services grant or contract between the City and County of San Francisco and nonprofit health and human services contractors.

Contractors and City staff should first attempt to come to resolution informally through discussion and negotiation with the designated contact person in the department.

If informal discussion has failed to resolve the problem, contractors and departments should employ the following steps:

Step 1 The contractor will submit a written statement of the concern or dispute addressed to the Contract/Program Manager who oversees the agreement in question. The writing should describe the nature of the concern or dispute, i.e., program, reporting, monitoring, budget, compliance or other concern. The Contract/Program Manager will investigate the concern with the appropriate department staff that are involved with the nonprofit agency's program, and will either convene a meeting with the contractor or provide a written response to the contractor within 10 working days.

Step 2Should the dispute or concern remain unresolved after the completion of Step 1, the contractor<br/>may request review by the Division or Department Head who supervises the Contract/Program<br/>Manager. This request shall be in writing and should describe why the concern is still<br/>unresolved and propose a solution that is satisfactory to the contractor. The Division or

RAMS(Peer to Peer)

1

7/1/15

Department Head will consult with other Department and City staff as appropriate, and will provide a written determination of the resolution to the dispute or concern within 10 working days.

Step 3

Should Steps 1 and 2 above not result in a determination of mutual agreement, the contractor may forward the dispute to the Executive Director of the Department or their designee. This dispute shall be in writing and describe both the nature of the dispute or concern and why the steps taken to date are not satisfactory to the contractor. The Department will respond in writing within 10 working days.

In addition to the above process, contractors have an additional forum available only for <u>disputes that concern</u> <u>implementation of the thirteen policies and procedures recommended by the Nonprofit Contracting Task Force</u> and adopted by the Board of Supervisors. These recommendations are designed to improve and streamline contracting, invoicing and monitoring procedures. For more information about the Task Force's recommendations, see the June 2003 report at <u>http://www.sfgov.org/site/npcontractingff index.asp?id=1270</u>.

The Review/Appellate Panel oversees the implementation of the Task Force report. The Panel is composed of both City and nonprofit representatives. The Panel invites contractors to submit concerns about a department's implementation of the policies and procedures. Contractors can notify the Panel after Step 2. However, the Panel will not review the request until all three steps are exhausted. This review is limited to a concern regarding a department's implementation of the policies and procedures in a manner which does not improve and streamline the contracting process. This review is not intended to resolve substantive disputes under the contract such as change orders, scope, term, etc. The contractor must submit the request in writing to purchasing@sfgov.org. This request shall describe both the nature of the concern and why the process to date is not satisfactory to the contractor. Once all steps are exhausted and upon receipt of the written request, the Panel will review and make recommendations regarding any necessary changes to the policies and procedures or to a department's administration of policies and procedures.

#### Appendix H

#### San Francisco Department of Public Health Privacy Policy Compliance Standards

As part of this Agreement, Contractor acknowledges and agrees to comply with the following:

In City's Fiscal Year 2003/04, a DPH Privacy Policy was developed and contractors advised that they would need to comply with this policy as of July 1, 2005.

As of July 1, 2004, contractors were subject to audits to determine their compliance with the DPH Privacy Policy using the six compliance standards listed below. Audit findings and corrective actions identified in City's Fiscal year 2004/05 were to be considered informational, to establish a baseline for the following year.

Beginning in City's Fiscal Year 2005/06, findings of compliance or non-compliance and corrective actions were to be integrated into the contractor's monitoring report.

Item #1: DPH Privacy Policy is integrated in the program's governing policies and procedures regarding patient privacy and confidentiality.

As Measured by: Existence of adopted/approved policy and procedure that abides by the rules outlined in the DPH Privacy Policy

Item #2: All staff who handle patient health information are oriented (new hires) and trained in the program's privacy/confidentiality policies and procedures.

As Measured by: Documentation showing individual was trained exists

Item #3: A Privacy Notice that meets the requirements of the Federal Privacy Rule (HIPAA) is written and provided to all patients/clients served in their threshold and other languages. If document is not available in the patient's/client's relevant language, verbal translation is provided.

As Measured by: Evidence in patient's/client's chart or electronic file that patient was "noticed." (Examples in English, Cantonese, Vietnamese, Tagalog, Spanish, Russian will be provided.)

Item #4: A Summary of the above Privacy Notice is posted and visible in registration and common areas of treatment facility.

As Measured by: Presence and visibility of posting in said areas. (Examples in English, Cantonese, Vietnamese, Tagalog, Spanish, Russian will be provided.)

Item #5: Each disclosure of a patient's/client's health information for purposes other than treatment, payment, or operations is documented.

As Measured by: Documentation exists.

Item #6: Authorization for disclosure of a patient's/client's health information is obtained prior to release (1) to non-treatment providers or (2) from a substance abuse program.

As Measured by: An authorization form that meets the requirements of the Federal Privacy Rule (HIPAA) is available to program staff and, when randomly asked, staff are aware of circumstances when authorization form is needed.

## Emergency Response (Applicable to sites and/or programs located in San Francisco only)

CONTRACTOR will develop and maintain an Agency Disaster and Emergency Response Plan containing Site Specific Emergency Response Plan(s) for each of its service sites operating in San Francisco. The agencywide plan should address disaster coordination between and among service sites. CONTRACTOR will update the Agency/site(s) plan as needed and CONTRACTOR will train all employees regarding the provisions of the plan for their Agency/site(s). CONTRACTOR will attest on its annual Community Programs' Contractor Declaration of Compliance whether it has developed and maintained an Agency Disaster and Emergency Response Plan, including a site specific emergency response plan for each of its service sites. CONTRACTOR is advised that Community Programs Contract Compliance Section staff will review these plans during a compliance site review. Information should be kept in an Agency/Program Administrative Binder, along with other contractual documentation requirements for easy accessibility and inspection.

In a declared emergency, CONTRACTOR'S employees shall become emergency workers and participate in the emergency response of Community Programs, Department of Public Health. Contractors are required to identify and keep Community Programs staff informed as to which two staff members will serve as CONTRACTOR'S prime contacts with Community Programs in the event of a declared emergency.

# THE DECLARATION OF COMPLIANCE

Each Fiscal Year, CONTRACTOR attests with a Declaration of Compliance that each program site has an Administrative Binder that contains all of the forms, policies, statements, and documentation required by Community Behavioral Health Services (CBHS). The Declaration of Compliance also lists requirements for site postings of public and client information, and client chart compliance if client charts are maintained. CONTRACTOR understands that the Community Programs Business Office of Contract Compliance may visit a program site at any time to ensure compliance with all items of the Declaration of Compliance.

Furthermore, RAMS maintains Peer Counselor positions and Consumer Advisory Boards, all of which actively engage in the Certificate Program. RAMS also outreaches within the Summer Bridge Project (aimed to foster the interest of health care field within high school-aged youth) while utilizing its connections with consumer advocacy groups (e.g. Mental Health Association of SF, National Alliance on Mental Illness). RAMS actively participates in and are members of various culturally-focused community coalitions and/or committees and utilizes these networks as well as funder entities for outreach & promotion. Moreover, since the inception of the program in 2010, RAMS has developed additional relationships with members in the behavioral health community who have promoted and recruited participants from their client-base. Some of these members include: SOMA Mental Health, Conard House, UCSF Citywide Case Management, Progress Foundation, HealthRight 360, Behavioral Health Court, SF First, Larkin Street Youth, etc.

RAMS maintains program promotional material (e.g. brochures, flyers for Open House, etc.) that are available for distribution throughout the year. These materials are also available for download at the program's webpage. The program engages in additional promotional efforts when recruiting applicants for a new cohort and community trainings. During these times, announcement emails are sent to all of the program affiliates and networks. Many organizations are specifically targeted, as their constituents are those of the underserved and underrepresented communities identified in the contract. Program enrollment and registration also becomes available on the RAMS blog and Facebook. Additionally, RAMS conducts presentations and table events about the program when relevant opportunities are available.

1. Consumer participation/engagement: Programs must identify how participants and/or their families are engaged in the development, implementation and/or evaluation of programs. This can include peer-employees, advisory committees, etc.

<u>Program Evaluation</u>: The program engages participants in planning, implementation, and evaluation by conducting an evaluation session at the conclusion of each Entry and Advanced Level Certificate cohort. All participants are strongly encouraged to attend these sessions to provide feedback on their experience and generate ideas to improve program successes. At the evaluation session, a written survey is given to each of the participants to provide quantitative as well as qualitative feedback on the program. The written evaluation is then followed by a focus group format discussion led by RAMS administrators. The Program Manager/Course Instructor is not involved in this evaluation process to ensure open and objective feedback from the participants. For the Leadership Academy, written evaluations would also be administered for training sessions.

Results of these evaluations are presented to the program Advisory Committee during its quarterly meetings. Advisory members then consider ways of programmatic improvements to meet the needs of participants. Various changes have been made to the program since its inception based on information obtained from these evaluations.

Advisory Committee: The program maintains two seats that are held by graduates of the program on the Advisory Committee, which is a standalone, multi-disciplinary committee that reflects the diversity of the community. Membership includes former program participants (graduates), guest lecturers, San Francisco State University as well as various systems involved in the workforce development (e.g. RAMS Hire-Ability Vocational Services, California State Department of Rehabilitation, etc.). All advisory members are encouraged to provide input during the meetings. The program continues to accept one participant from each cohort to sit on the Advisory Committee to ensure that each cohort has the opportunity to provide feedback as the program continues to develop. Peer advisory members are committed to sit on the committee for one year and the committee meets on a quarterly basis.

<u>Teaching Assistant Position</u>: This position may be held by a program graduate. The intent of this position is to further engage past participants in the program and to facilitate student success. The teaching assistant provides academic support to students and administrative assistance to the Program Manager. The teaching assistant meets with participants regularly on a one-on-one basis as well as conducts review sessions outside of formal class time.

2. MHSA Vision: The concepts of recovery and resilience are widely understood and evident in the programs and service delivery

The fundamental objectives and principles of the program are based on concepts of Wellness and Recovery for consumers of behavioral health services. In providing consumers the skills and training to become providers of services that they have once received themselves, the program takes strengths-based approach that promotes a sense of empowerment, self-direction, and hope, which are all fundamental components of the wellness and recovery model. The program operates on the basis that consumers can recover from their struggles and not only have the ability to find a stable vocation, but the ability to commit to a very noble vocation of helping those who are experiencing similar circumstances as they had in the past. Moreover, the program intends for graduates to continue to grow professionally far beyond this training. Some graduates have experienced the Peer Specialist Mental Health Certificate program as a first step to a life-long commitment to helping others and have moved onto being enrolled in Masterslevel programs in the field of human services.

Additionally, the curriculum content is based on Wellness and Recovery principles. In fact, for the Entry Level Certificate component, the very first lecture of the program is an overview of the Wellness and Recovery Model. Throughout the rest of the course, Wellness and Recovery concepts are tightly integrated into the instructions on how to provide counseling and other services as peer counselors. Some of the specific topics that embody wellness and recovery concepts include: WRAP, Bio-psychosocial approach to case management, stages of change model, harm reduction treatment principles, holistic interventions options, self-care, and mental health, and employment. Furthermore, the required textbook used for the program, "Voices of Recovery" is also based on Wellness and Recovery principles. The program intends for the materials to not only further promote recovery among participants of the program, but also for participants to practice this approach while working with clients as providers in the community behavioral health system.

8. Continuous Quality Assurance and Improvement

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All staff (including direct service providers) are informed about objectives and the required documentation related to the activities and service delivery outcomes. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information. In addition, the Program Director monitors service delivery progress (engagement, level of accomplishing service goals/objectives), and termination reasons (graduation, etc.).

B. Documentation quality, including a description of any internal audits

RAMS utilizes various mechanisms to review documentation quality. Documentation reviews are conducted by Division Director throughout the program cohort duration; based on these reviews, determinations/recommendations are provided relating to any needed adjustments to match to the cohorts' progress & workforce development needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of programming are integrated throughout staff meetings and other discussions.

C. Measurement of cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are
  facilitated through a regular training schedule, which includes in-service trainings on various
  aspects of cultural competency/humility and service delivery (including holistic &
  complementary health practices, wellness and recovery principles). Trainings are from field
  experts on various topics. Professional development is further supported by weekly group
  supervision. Furthermore, RAMS annually holds an agency-wide cultural competency training.
  Training topics are identified through various methods, primarily from direct service staff
  suggestions and pertinent community issues.
- Ongoing review of services indicators is conducted by the Program Director (and reported to executive management) on monthly basis
- Client's culture, preferred language for services, and provider's expertise are strongly considered during the case assignment process. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- Development of objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Division Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction);
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Division Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency annually administers a staff satisfactions survey and Human Resources also conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Assurance Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO submits a monthly written report to RAMS Board of Directors on agency and programs' activities and matters
- D. Measurement of client satisfaction

The Peer Specialist Mental Health Certificate program, for each cohort, conducts a written participant satisfaction survey and focus group. The surveys and focus groups are facilitated by RAMS administrators; collected data is tabulated and summarized. The Division Director compiles, analyzes, and presents the results of surveys to staff, RAMS Executive Management, and the RAMS Quality Council. The Program Director also collaborates with staff, RAMS Executive Management, and Quality

BA is solely responsible for all decisions made by BA regarding the safeguarding of PHI.

4. 'Amendment to Comply with Law.

The parties acknowledge that state and federal laws relating to data security and privacy are rapidly evolving and that amendment of the Agreement or this BAA may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, the HIPAA regulations and other applicable state or federal laws relating to the security or confidentiality of PHI. The parties understand and agree that CE must receive satisfactory written assurance from BA that BA will adequately safeguard all Protected Information. Upon the request of either party, the other party agrees to promptly enter into negotiations concerning the terms of an amendment to this BAA embodying written assurances consistent with the updated standards and requirements of HIPAA, the HITECH Act, the HIPAA regulations or other applicable state or federal laws. # 5. Reimbursement for Fines or Penalties.

In the event that CE pays a fine to a state or federal regulatory agency, and/or is assessed civil penalties or damages through private rights of action, based on an impermissible access, use or disclosure of PHI by BA or its subcontractors or agents, then BA shall reimburse CE in the amount of such fine or penalties or damages within thirty (30) calendar days from City's written notice to BA of such fines, penalties or damages.

EΧ	ECUTIVE SUMMARY
	Legislative Objectives
<b>9</b>	The proposed resolution would approve the second amendment to the agreement between the Department of Public Health (DPH) and Richmond Area Multi-Services, Inc. (RAMS) for behavioral health services through peer-to-peer programs, extending the contract by one year beginning July 1, 2020 for a total agreement term of July 1, 2015 to June 30, 2021 and increasing the contract amount by \$9,340,596 from \$19,047,465 to a total amount not to exceed \$28,388,060.
	Key Points
<b>.</b>	Following a competitive bidding process, DPH entered into an agreement with RAMS for behavioral health services through peer-to-peer programs on June 23, 2015, for an original contract term of July 1, 2015 to December 31, 2017 and a total not-to-exceed amount of \$9,218,339.
8	On January 9, 2018, the Board of Supervisors approved Amendment No. 1 to the contract to extend the contract term through June 30, 2020 and increase the total not-to-exceed amount to \$19,047,465. Subsequently, the Department modified the contract within the total not-to-exceed amount to add expanded programming. Funding was redirected from other contracts with RAMS to cover all peer to peer services under one contract.
8.	The proposed resolution would allow ongoing funding for the baseline and expanded services tha RAMS is providing under its current contract and additional peer to peer services being provided by RAMS under separate contracts, including Peer Linkage, vocation-related services for Transitional Aged Youth, and a program to assist clients transitioning from Intensive Case Management.
	Fiscal Impact
	Actual expenditures under the original contract were \$7,332,497 or approximately \$1.9 million less than the approved maximum of \$9,218,339. However, under the existing contract as amended in January 2018, actual and projected expenditures through June 30, 2020 will exceed the maximum amount approved and the carryover balance from the original contract by approximately \$2 million due to the expansion of services authorized by the Department after the first amendment to the contract had been approved by the Board of Supervisors. This resolution would authorize \$9,340,596 in increased funding and allow RAMS to continue spending at the projected rate for the current term through June 30, 2020 and for one additional year through June 30, 2021. The majority of contract expenditures are paid for by California's Mental Health Services Act (MHSA) revenues. All services/programs that are and would be added to the contract through the proposed amendment are fully funded.
	Recommendation
8	Approve the proposed resolution.

# MANDATE STATEMENT

City Charter Section 9.118(b) states that any contract entered into by a department, board or commission that (1) has a term of more than ten years, (2) requires expenditures of \$10 million or more, or (3) requires a modification of more than \$500,000 is subject to Board of Supervisors approval.

# BACKGROUND

The Department of Public Health (DPH) provides health and behavioral services through approximately 151 Community-Based Organizations as well as civil service clinics. Included in these services are 10 peer-to-peer support programs, which DPH administers in partnership with six contracted independent agencies. DPH defines peers as individuals with personallylived experience of mental illness who are either consumers of mental health and/or substance abuse treatment services, former consumers of mental health and/or substance abuse treatment services, or family members or significant others of consumers.

In 2014, DPH selected Richmond Area Multi-Services (RAMS) through a competitive bidding process to provide behavioral health services to adults and older adults in the Department's Behavioral Health programs and clinics through peer-to-peer programs, including, peer-to-peer outreach, peer counseling, peer internships, and peer specialist certificate programs. RAMS was evaluated and selected as the most qualified provider by a panel comprised of DPH staff and other City agency representatives with expertise in behavioral health. Following negotiations, DPH and RAMS entered into a contract for the term of July 1, 2015 to December 31, 2017 with a total not to exceed amount of \$9,218,339.

On January 9, 2018, the San Francisco Board of Supervisors retroactively approved the first amendment to the contract, which extended the original agreement by two years and six months, for a revised term of July 1, 2015 to June 30, 2020, and increased the total not to exceed amount by \$9,829,126, or from \$9,218,339 to \$19,047,465.

Subsequent to the Board of Supervisors approval of the first amendment to the contract, RAMS was awarded funding through competitive bidding processes for two additional solicitations for peer-to-peer services (RFQs 15-2017and 22-2018). Instead of separate agreements, these new services were added to the current contract, expanding the scope of services provided to Transitional Aged Youth by RAMS beyond what was included in the amended contract approved by the Board of Supervisors in 2018. Approximately \$3.2 million in funding authorized for these new services under new Requests for Qualifications --- will contribute be used to pay RAMS for these new services. In addition, In addition, \$342,443- in funding from a separate DPH contract with RAMS was transferred to the subject contract to further consolidate peer-to-peer programming provided by RAMS in one contract. The resulting contract increase was not subject to approval by the Board of Supervisors because the contract remained within the approved not-to-exceed contract value of \$19,047,465. The existing contract with RAMS covering Vocational services being transferred to the subject contract has not been terminated.

SAN FRANCISCO BOARD OF SUPERVISORS

BUDGET AND LEGISLATIVE ANALYST

# DETAILS OF PROPOSED LEGISLATION

The proposed resolution would approve the second amendment to the contract between DPH and RAMS for behavioral health services through peer-to-peer programs. This amendment would (1) increase the contract amount by \$9,340,596 from \$19,047,465 to a total amount not to exceed \$28,388,060 for a two year period, and (2) extend the term by one year beginning July 1, 2020, for a total agreement term of July 1, 2015 through June 30, 2021. Table 1 summarizes the history of the contract and its past and proposed amendments.

(proposed)		6/30/21			, .

Table 1: Summary	/ of Past and Pro	posed Amendments	, 2015 - Present

The proposed amendment would support the continuation of the baseline and expanded scope of peer-to-peer programming by authorizing additional expenditure authority for FY 2019-2010 and a proposed one year contract extension in FY 2020-2021. Without the additional funding, the Department reports it would not be able to maintain its current service level through FY 2020-2021.

The specific services that are new and being provided by RAMS since the Board of Supervisors previously approved Amendment #1 to this contract include:

- A Transitional Aged Youth (TAY) Leaders Certificate Program, which prepares participants with the basic skills and knowledge necessary to obtain entry-level employment in the behavioral health field through training, supervision support, job coaching, retention services and peer-based support. Funding for this program began in FY 2018-19, as a result of a funding award under RFQ 15-2017.
- A TAY Leaders Employment Program, which provides a job pipeline for individuals who complete the TAY Leaders Certificate by helping them identify behavioral health service employment opportunities across TAY System of Care partner sites. Funding for this program began in FY 2018-19 as the result of a funding award under RFQ 15-2017
- An Intensive Case Management/Full-Service Partnership to Outpatient Transition program, which will support behavioral health clients transitioning from intensive case management programs to an appointment-based outpatient clinic with the support of a peer-based transition team. Funding for this program began in FY 2018-19 as a result of a funding award under RFQ22-2018

SAN FRANCISCO BOARD OF SUPERVISORS

BUDGET AND LEGISLATIVE ANALYST

• A Peer-to-Peer Linkage program, awarded under RFQ 18-2014, was transferred to the subject contract from a separate RAMS Vocational Services contract, approved by the Board of Supervisors in FY 2017-18

Prior to the proposed expiration of the contract on June 30, 2021, DPH will issue a new competitive RFQ for all expiring services covered under the existing contract and the proposed resolution. If RAMS is not selected to continue providing services under the new RFQ, then a separate, smaller contract with RAMS covering only the TAY Leaders Certificate Program, the TAY Leaders Employment Program, and the Intensive Case Management/Full Service Partnership to Outpatient Transition program will be issued, based on the existing solicitation authority governing each of these programs.

# **FISCAL IMPACT**

Less than 1% of contract expenditures in the existing contract and the proposed resolution are paid for by the General Fund. The majority of contract expenditures are paid for by California's Mental Health Services Act (MHSA).

As shown in Table 2 below, actual expenditures as of June 30, 2018 are \$9,164,623.00 and projected expenditures under the existing contract and proposed extension (including 12% contingency) are \$19,223,436.88, for a combined total of \$28,388,060.00. As can be seen in Table 1, average spending per year increased in FY 2018-2019 and will continue at a higher level through the end of the term in June 2021. This reflects increased services provided starting in FY 2018-2019 under the existing contract.

As shown in Table 3 below, through the original contract term ending December 31, 2017, actual expenditures were less than anticipated and allowed for in the original contract. However, under the first amended contract, between January 2018 and projected through June 30, 2020, the period when services were enhanced, actual and anticipated expenditures will exceed the amount approved and the unspent balance from the first contract term.
