6 Section 1. Findings.

7 (a) The Planning Department has determined that the actions contemplated in this
8 ordinance comply with the California Environmental Quality Act (California Public Resources
9 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
10 Supervisors in File No. 190248 and is incorporated herein by reference. The Board affirms
11 this determination.

12 (b) On May 9, 2019, the Planning Commission, in Resolution No. 20450, adopted
13 findings that the actions contemplated in this ordinance are consistent, on balance, with the
14 City's General Plan and eight priority policies of Planning Code Section 101.1. The Board
15 adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the
16 Board of Supervisors in File No. 190248, and is incorporated herein by reference.

17 (c) Pursuant to Planning Code Section 302, the Board of Supervisors finds that

12 (a) **Retail Sales and Service Uses.** The Retail Sales and Service Uses listed

17 location; and

18 (B) the availability of General Grocery or Specialty Grocery stores in the area
19 selling alcoholic beverages as well as a range of foods.

20
21 **SEC. 752. NCT-3 – MODERATE-SCALE NEIGHBORHOOD COMMERCIAL TRANSIT**
22 **DISTRICT.**

23 (a) NCT-3 Districts are walkable and transit-oriented moderate- to high-density
24 mixed-use neighborhoods of varying scale concentrated near transit services. The NCT-3
25 Districts are mixed use districts that support neighborhood-serving eCommercial #Uses on

1 lower floors and housing above. These districts are well-served by public transit and aim to
2 maximize residential and commercial opportunities on or near major transit services. The
3 district's form can be either linear along transit-priority corridors, concentric around transit
4 stations, or broader areas where transit services criss-cross the neighborhood. Housing
5 density is limited not by lot area, but by the regulations on the built envelope of buildings,
6 including height, bulk, setbacks, and lot coverage, and standards for Residential Uses,
7 including open space and exposure, and urban design guidelines. Residential parking is not
8 required and generally limited. Commercial establishments are discouraged or prohibited from
9 building accessory off-street parking in order to preserve the pedestrian-oriented character of
10 the district and prevent attracting auto traffic. There are prohibitions on access (i.e. driveways,
11 garage entries) to off-street parking and loading on critical stretches of NC and transit streets
12 to preserve and enhance the pedestrian-oriented character and transit function.

13 (b) NCT-3 Districts are intended in most cases to offer a wide variety of comparison
14 and specialty goods and services to a population greater than the immediate neighborhood,
15 additionally providing convenience goods and services to the surrounding neighborhoods.
16 NCT-3 Districts include some of the longest linear commercial streets in the City, some of
17 which have continuous retail development for many blocks. Large-scale lots and buildings and
18 wide streets distinguish the districts from smaller-scaled commercial streets, although the
19 districts may include small as well as moderately scaled lots. Buildings may range in height,
20 with height limits varying from four to eight stories.

21 (c) NCT-3 building standards permit moderately large Commercial Uses and
22 buildings. Rear yards are protected at residential levels.

23 (d) A diversified commercial environment is encouraged for the NCT-3 District, and
24 a wide variety of uses are permitted with special emphasis on neighborhood-serving
25 businesses. Eating and Drinking, Entertainment, and financial service uses generally are

permitted with certain limitations at the first and second stories. Auto-oriented uses are somewhat restricted. Other retail businesses, personal services and offices are permitted at all stories of new buildings. Limited storage and administrative service activities are permitted with some restrictions.

(e) Housing development in new buildings is encouraged above the second story. Existing Residential Units are protected by limitations on demolitions and upper-story conversions. Accessory Dwelling Units are permitted within the district pursuant to subsections 207(c)(4) and 207(c)(6) of this Code.

1 **SEC. 764. UPPER MARKET STREET NEIGHBORHOOD COMMERCIAL TRANSIT**
2 **DISTRICT.**

3 The Upper Market Street Neighborhood Commercial Transit District is located on
4 Market Street from Church to Noe Streets, and on side streets off Market. Upper Market
5 Street is a multi-purpose commercial district that provides *limited convenience goods and services*
6 to adjacent neighborhoods, but also serves as a shopping street for a broader trade area. *A*
7 *large number of offices are located on Market Street within easy transit access to downtown.* The
8 width of Market Street and its use as a major arterial diminish the perception of the Upper
9 Market Street Transit District as a single commercial district. The street appears as a
10 collection of dispersed centers of commercial activity, concentrated at the intersections of
11 Market Street with secondary streets.

12 * * * *

13 The Upper Market Street *Transit* *District* controls are designed to promote moderate-
14 scale development which contributes to the definition of Market Street's design and character.
15 They are also intended to preserve the existing mix of *eCommercial* *uUses* and maintain the
16 livability of the district and its surrounding residential areas. Large-lot and use development is
17 reviewed for consistency with existing development patterns. Rear yards are protected at all
18 levels. To promote mixed-use buildings, most *eCommercial* *uUses* are permitted with some
19 limitations above the second story. In order to maintain continuous retail frontage and
20 preserve a balanced mix of *eCommercial* *uUses*, ground-story neighborhood-serving uses are
21 encouraged, and *eEating* and *dDrinking*, *eEntertainment*, and financial service uses are
22 limited. Ground floor-commercial space is required along Market and Church Streets. Most
23 *automobile Automotive Service* and *dDrive-uUp Facility* uses are prohibited or conditional.

24 Housing development in new buildings is encouraged above the *sSecond* *sStory*.
25 Existing upper-story *rResidential* *uUnits* are protected by limitations on demolitions and upper-

1 story conversions. Accessory Dwelling Units are permitted within the district pursuant to
 2 subsections 207(c)(4) and 207(c)(6) of this Code.
