REVISED LEGISLATIVE DIGEST

[Contract Amendment - Motorola, Inc. - Emergency Communications Equipment - Not to Exceed \$81,000,000]

Ordinance approving an amendment to the System Purchase and Installation Agreement between the City and County of San Francisco, acting through the Department of Emergency Management, and Motorola Inc., to increase the amount of the Agreement by \$33,000,000 for a total amount not to exceed \$81,000,000; and extending the term by seven and a half years to commence June 31, 2021, for a total term of October 28, 2016, through December 31, 2029.

Background Information

On October 28, 2016, the City and County of San Francisco, acting by and through its Department of Emergency Management (DEM), entered into an agreement with Motorola, Inc., for the procurement and installation of a new radio system and related services to provide emergency communications equipment for public safety and public service personnel throughout the City. The Agreement terminates on June 30, 2021 and limits the total cost for the purchase and installation of the radio system to \$48,000,000.

As the system installation nears completion, Motorola has agreed to provide replacement radios and equipment to the City at a discount for the remaining life of the radio system. It is likely that during the life of the system, the City will have to replace broken and inoperable radios and consoles that are no longer under system warranty. The amendment will lock in a price for replacement equipment directly from the manufacturer, and the City will be able to maximize cost savings and plan scheduled replacement of equipment for high use public safety departments. The estimated cost of the replacement equipment through 2029 is \$33,000,000.

Key Points
• In	October 2016, the Board of Supervisors approved a new Purchase and Installation
Ar te m	greement with Motorola following a competitive solicitation. The agreement was for a erm from October 28, 2016 through June 30, 2021 and a not to exceed amount of \$48 illion. The contract allowed the City to continue replacing its emergency communication idios and communication infrastructure.
a	ccording to the Department of Emergency Management, \$3.98 million of spending uthority remains on the original agreement and the City has replaced all of its radios nce 2016.
	Fiscal Impact

MANDATE STATEMENT

City Charter Section 9.118(b) states that any contract entered into by a department, board or commission that (1) has a term of more than ten years, (2) requires expenditures of \$10 million or more, or (3) requires a modification of more than \$500,000 is subject to Board of Supervisors approval.

BACKGROUND

Radio Replacement Project

The Committee on Information Technology's FY 2013-14 Five Year Information Communications Technology Plan (ICT Plan), which was approved by the Board of Supervisors, recommended that the City replace its radio communication system. In April 2019 the Board of Supervisors approved the ICT Plan for FY 2019-20 to FY 2023-24, which recommended \$7.5 million in General Fund funding for FY 2019-20 for the Radio Replacement Project, the ongoing effort to upgrade and consolidate all of the City's public safety and public service radio systems into one comprehensive communication network. According to the Budget and Legislative Analyst report to the October 16, 2016 Budget and Finance Committee the total estimated project cost for the Radio Replacement Project was \$105,946,396.¹

Current Radio Contracts with Motorola

The Board of Supervisors originally approved a 10-year agreement with Motorola Solutions, Inc. (Motorola) to purchase radios and related equipment from 1997 to 2007. Although the Department of Technology conducted a competitive solicitation process, Motorola was the only respondent. The original agreement was extended by 10 years to 2017.

In October 2016, the Board of Supervisors approved a new Purchase and Installation Agreement with Motorola following a competitive solicitation. The agreement was for a term from October 28, 2016 through June 30, 2021 and a not to exceed amount of \$48 million, of which approximately \$35 million was expected to be financed.² The \$48 million was expected to be used for: (a) replacing and/or upgrading 9,910 radios; (b) replacing and/or upgrading equipment at nine dispatch locations; and (c) replacing equipment at eight radio sites and adding two new sites at San Bruno Jail and Bayview/Hunters Point. The Board of Supervisors approved a separate Maintenance and Support Agreement with Motorola with a term through November 1, 2035 and a not to exceed amount of \$28 million to maintain the equipment purchased from Motorola.

² Financing occurred through a lease-purchase agreement through the State of California's Department of General Services Golden State Financial Marketplace Program. Payments are expected to occur through FY 2026-27.

BUDGET AND LEGISLATIVE ANALYST

¹ The total project costs include \$11.2 million in appropriations through FY 2016-17, the total not to exceed amounts of the Purchase and Installation Agreement (\$48 million) and the Maintenance and Support Agreement (\$28 million), and other costs of implementation, including funding for positions to manage the project (\$17.6 million).

Purchases on the Current Motorola Contract

Table 1 below shows the current actual spending on the City's Purchase and Installation Agreement with Motorola.

Remaining Contract Authority Through June

Source: Department of Emergency Management

According to Ms. Michelle Geddes, the City's Radio Replacement Project Manager at the Department of Emergency Management ("Emergency Management"), the remaining \$3.98 million of contract spending authority will be used to complete planned equipment purchases for non-City agencies, for additional infrastructure improvements, and enhancements to the security of the City's radio network.³ The total spending for these remaining initiatives amounts to \$4.56 million or approximately \$580,323 more than the remaining contract spending authority. Accord to Ms. Geddes, the Department of Emergency Management has not finalized the priority of these remaining projects.

According to Ms. Geddes, the City has replaced all of its radios since 2016. As shown in Table 2 below, the City and non-City agencies purchased 7,438 radios from the existing Purchase and Installation Agreement with Motorola since October 2016 in addition to 2,878 radios purchased from the City's previous agreement with Motorola.

According to Emergency Management, the total number of radios increased from 10,153 in October 2016 to 10,316 in October 2019 due to higher than projected purchases by the Airport.

BUDGET AND LEGISLATIVE ANALYST

³ Under the original agreement, the non-City agencies (San Francisco State University, State Department of Corrections and Rehabilitation, San Francisco Unified School District, University of California at San Francisco, U.S. Marshalls, Veteran's Administration, and Water Emergency Transportation Agency) were to pay \$2.9 million for radios and equipment.

NOVEMBER 6, 2019

DETAILS OF PROPOSED LEGISLATION

The proposed resolution would approve the First Amendment to the Department of Emergency Management's Purchase and Installation Agreement with Motorola to (a) increase the spending authority by \$33 million, from \$48 million to a total not-to-exceed amount of \$81 million, and (b) extend the end date by 7.5 years from June 30, 2021 through December 31, 2029.

FISCAL IMPACT

The proposed First Amendment sets prices and quantities for radios and related equipment, totaling \$32,221,531, as shown in Table 3 below. According to documentation provided by the Department of Emergency Management, these prices are based on discounts of 15 percent to 60 percent from Motorola's retail prices.

Radios	10,885	\$26,546,958	\$2,654,696	\$29,201,654

Table 3: Uses of Additional Spending Authority in Proposed First Amendment

· Source: Department of Emergency Management

The proposed First Amendment would provide for purchase of 10,885 radios to replace the 10,316 radios previously purchased by City departments and non-City agencies (see Table 2 above), plus an additional 5.5 percent to allow for an increase in the number of radios that may be needed during the term of the agreement. According to Ms. Geddes, radios have a lifespan of 5-8 years and therefore the City's current radios will need to be replaced over the proposed extended term.

Actual estimated spending under the proposed first amendment between FY 2021-22 and FY 2028-29 is \$20,809,850, as shown in Table 4 below, or \$12,190,150 less than the increase in the agreement amount of \$33,000,000.

Source: Department of Emergency Management

^a The Motorola Purchase and Installation Agreement allows the Department of Emergency Management to purchase on behalf of other City Departments as well as other parties, including private ambulance companies operating within San Francisco, the United School District, and the California Academy of Sciences.

According to Ms. Geddes, the Department of Emergency Management is requesting an increase in the agreement not-to-exceed amount of \$33 million, rather than the expected purchase amount of \$20.8 million, in order to preserve the price discounts over the term of the agreement in the event that the City needs to increase purchases.

According to Ms. Geddes, the Department of Emergency Management is preparing Memoranda of Understanding with City departments to document each department's expected purchases under the proposed first amendment to the agreement with Motorola. Actual City

5

SAN FRANCISCO BOARD OF SUPERVISORS

BUDGET AND LEGISLATIVE ANALYST

departments' spending under the Motorola agreement is subject to Board of Supervisors' appropriation approval.

POLICY CONSIDERATION

The existing Purchase and Installation Agreement between Emergency Management and Motorola, which extends through June 30, 2021, does not specify options to extend the agreement term. According to Ms. Geddes, Emergency Management is requesting to extend the agreement to December 2029 and increase the agreement amount by \$33 million in order to access price discounts negotiated in the existing agreement. Although the estimated purchases under the proposed First Amendment of \$20.8 million are \$12.2 million less than the increase in the agreement amount of \$33 million, Ms. Geddes states that the City must commit to radio purchases under the agreement through December 2029 in order to access additional discounts.

Because the existing agreement does not specifically provide for extensions in the agreement term, and because the increase in the agreement amount exceeds the estimated sending by City departments, the Budget and Legislative Analyst recommends that the Board of Supervisors request the Controller to include the Purchase and Installation Agreement between Emergency Management and Motorola in the City Services Auditor's Audit Division's contract audit program.

RECOMMENDATIONS

- 1. Amend the proposed resolution to request the Controller to include the Purchase and Installation Agreement between Emergency Management and Motorola in the City Services Auditor's Audit Division's contract audit program.
- 2. Approve the proposed resolution as amended.

Appendix K – Radio Upgrade Program and Product Pricing List Appendix L – Radio Upgrade Program

EXHIBIT L Radio Upgrade Program

The Radio Upgrade Program allows for the streamlined purchase and/or replacement of the City's 800MHz portable radios. The program is a guaranteed commitment of portable radios over a 10-year shipping period, at a significantly discounted rate. The following terms are applicable the radios and equipment procured under the Motorola Radio Upgrade Program and do not apply to the radios and equipment procured for the System Purchase and Installation Agreement.

- 1. Equipment that is part of this Program is described in the Radio Upgrade Equipment List found in Appendix K, and it primarily contains the APX series of radios and applicable accessories. The cost for the equipment is included in radio packages, with the relevant discounts detailed. The cost for accessories is not itemized in Appendix K, but the discount levels received on the equipment are shown by APC code.
 - a. The APX radios are provided in packages in Appendix K. The City can order APX model radio or package as needed by Department, with the necessary features that are available. The City would need to pay the difference for any enhanced features, and that feature will be discounted at the discount percentage level that the City is getting for the APX product line.
 - b. If the City (or a Department) orders a less expensive radio, the excess funds can be used to purchase other equipment or accessories.
 - c. If Motorola discontinues the APX product line, City will be able to get the replacement radio at the Nov 2016 price with the system discount level.
 - Next Generation Radio During the term of this agreement, Motorola may introduce a next generation radio product line. To buy the Next Generation Radio (and to determine the price the City will pay for that radio) the parties will use the Next Generation Radio Price Calculator set forth in Appendix K.
- 2. The City will make a fixed payment to Motorola yearly, as described in Appendix K. In exchange, the City will guarantee the purchase and shipment of portable radios, yearly, as described in Appendix K (Shipment Schedule). The minimum shipment value begins in year 3 (calendar year 2022) of the program, and it is shown in Appendix K. Additional equipment, radios and/or accessories can be added via a change order process and the value of the change order will count towards the minimum shipment value.
- 3. The City can adjust the Shipment Schedule but must meet the minimum value of shipped equipment each year, starting in year 3. The City can order the equipment at any time, in any quantity. The City can reduce the quantity of radios that are shipment and replace it with needed accessories. The City can add additional Portable radios, as well as Mobiles and Control Station Radios, via a change order process. There will be no limit to the quantity that can be purchased via a change order, as long as the Maximum Contract Price is not exceeded.
- 4. Each year, the City will approve what will be shipped, including the quantities, makes/models/features and needed accessories. Motorola will provide final equipment

lists, including options, accessories, and shipping destination details prior to each shipment, which the City must approve in writing. Shipments may be modified to ship partial and early, but the City must meet the minimum shipment value within a calendar year.

- 5. By June 30th each year, or as requested by the City, during the term of this agreement and ninety (90) days prior to the expiration date of this Agreement, Motorola shall provide a written report to the City identifying radios and equipment and accessories ordered in the previous 12 months. This report should include the equipment and accessories purchased and shipped by Department, and quantity and cost of each item, and the total amount charged by Department. The report should also contain the balance of funds held by Motorola (Bank Account) and the balance for each Department.
- 6. If the City takes a larger shipment in the earlier years of the contract, then it will receive a credit in future years, to balance out the minimum shipment commitment per year. A Change Order will allow that an annual shipment minimum (dollars) can be reduced by the City (if desired) by the amount that the prior year shipment exceeded the original shipment schedule for the same year.
- 7. Incompatible devices and accessories. Motorola must review its publically available product plan and support plan on APX series radios with the City and provide advanced notice on radio feature changes or additions as well as support/discontinuation of product line. If during this review, the City wants to purchase equipment that then is incompatible with the existing fleet of radios/accessories the City can adjust the shipment schedule. Minimum annual shipments can also by reduced by the amount of non-compatible radios which were planned to be otherwise shipped.
- 8. In the event of new and applicable standards (i.e. NFPA), the City may request a Change Order to modify the shipment schedule. Minimum annual shipments can be reduced by the amount of non-compliant radios which were planned to be otherwise shipped.
- 9. Licensee's use of the radios/equipment ordered under the Radio Upgrade Program is in accordance with Section 9.2 in the Agreement.
- 10. Warranty for all radios/equipment ordered under the Radio Upgrade program start on the date of deployment which is defined as the earlier of (a) the date of delivery plus 60 days or (b) the date the radio is put into service. Warranty terms are in accordance with Section 4.6 in the Agreement.
- 11. City will be responsible for local warehousing of the Equipment upon arrival at City's destination point.
- 12. City will be responsible for the removal and disposition of any equipment to be replaced pursuant the Radio Upgrade Program in accordance with Section 4.1.15(d) in the Agreement.

Exhibit L

September 19, 2019

13. Motorola shall assign an Account Executive to administer the City's Radio Upgrade Program. Within thirty days of the execution of this Amendment, the name and contact information for the Account Executive shall be provided in writing to Michelle Geddes at the address and email listed below.

Michelle Geddes 1011 Turk St. San Francisco, CA 94102 Michelle.geddes@sfgov.org

Should the Account Executive assigned to the City change during the term of this Agreement, Motorola shall provide notice of the name and contact information for the new Account Executive within 30 days of the change.

- 14. Any purchase orders for replacement radios and equipment issued by City shall be subject to the terms and conditions of this Amendment. No additional, conflicting or different terms contained in a purchase order or ordering document shall be binding.
- 15. Acceptance for any products provided in this Program will be separate from, and have no impact on, Final System Acceptance for any goods or services described in the Agreement.
- 16. Notwithstanding Article 3 and Article 8 of the Agreement, in the case of nonappropriation or termination for convenience, the City shall have the option, in its sole discretion, to terminate this Agreement, and receive either (a) the remaining balance of any funds paid to Motorola minus 30%; or (b) the total balance of funds in an equipment shipment.
